VOL. 69, No. 38 | SNYDER, TEXAS, FRIDAY, SEPTEMBER, 11, 1953 | EIGHT PAGES

Allowable May Be Cut Again Next Month

AUSTIN (AP)—Railroad Commission Chairman Ernest Thompson gave a clear signal today that Texas oil production faces another probable cutback next month.

His warning was made indirectly, but unmistakably, by calling oil producers attention to figures showing national stocks of crude and products far in excess of industry estimates of desirable levels.

Thompson said the Bureau of Mines estimate of demand for Texas crude for October is 2,880,000 barrels daily, an increase of 30,000 barrels daily from its forecast for September.

The bureau's higher forecast appears to contradict the need for a reduced Texas oil allowable, but Thompson has noted many times in the past there is a time lag between the federal agency's estimate and the actual crude stocks situation.

The bureau's forecast still is below the Texas allowable, which stood at 2,981,472 barrels a day Saturday.

Thompson said national crude stocks totaled 282,711,000 barrels at latest report, Aug. 29. This was up 2,000,000 barrels from the previous week and 13,567,000 from a year ago.

He noted stocks were some 14½ million barrels higher than "the average opinion of the industry as to what was needed, and higher than any testimony given" at a hearing on this matter early this year.

Fisher County Well Complete

Woodson Oil Co. of Fort Worth has completed its No. 1 S. E. Knox as a noodle Creek lime discovery in Central Fisher County.

The well was finaled for a potential of 162.80 barrels of 38 gravity oil. The production was on the pump through perforations from 3,622-632 and 3,650-670 feet. The hole was treated with 1,000 gallons of acid.

The No. 1 Knox is 330 feet from north and east lines of the west half of block 4, league 318, Gillespie County school land survey. It is two miles northwest of Longworth and one and three-quarter miles southeast of the Roby field.

DRILLING REPORTS

Ryan & Burke No. 1 C. C. Cannon, extreme West Borden wildcat is drilling in lime below 5,458 feet. Gulf No. 1 Cannon is at plugged-back total depth of 10,275 feet and conditioning hole.

Texaco No. 1-B Clayton, Southwest Borden wildcat, is moving in the rig to begin operations.

Superior Oil No. 4-30 Tiner, Nolan wildcat, is drilling in lime below 5,908 feet.

Hunt No. 1 Beulah Branch, Stonewall wildcat, is drilling in shale below 4,456 feet.

Cobb & Daniel No. 1 Veal Trust Estate, Howard test is drilling below 5,155 feet in shale.

FIELD LOCATION

Skelly Oil Co. has staked the No. 11 W. H. Parish for immediate drilling in the North Snyder-Strawn field.

The location is 467 feet from north and 1,667 feet from east lines of the south half of section 385-97-H&TC, about six miles north of Snyder. It is on a 330-acre lease. Contract depth is 7,700 feet.

Soldier Shot, Said Resisting Arrest

AUSTIN (AP)—A Negro identifed as Corp. Hercel Lovings of Fort Hood was shot three times late last night by Inspector C. M. Platt of the Public Safety Department in a dispute on Highway 81 north of here.

Lovings was in a critical condition today.

A Department of Public Safety spokesman said a young Austin couple who saw the shooting told officers Loving resisted arrest, used obscene language, and said he was going to kill Platt unless Platt killed him first.

Platt said he found Lovings slumped over the wheel of a car parked on the highway with lights on and engine running.

He said he roused Lovings and told him he was taking him to jail. They struggled some 30 minutes before the shooting.

VINSON FAMILY AT FUNERAL

Mrs. Fred M. Vinson is escorted by her two sons as she arrives at Washington Cathedral for the funeral service for her husband, the chief justice of the United States, who died Tuesday. Left to right, Mrs. and Mr. James R. Vinson, Mrs. Fred Vinson and Fred Vinson, Jr.

Shivers Will Spank National Democrats In Speech Today

MINERAL WELLS (AP)—A fighting speech offering no compromise in Southern Democrats' battle with the Northern party leaders was expected here today from Gov. Shivers.

A source close to the governor predicted he would talk mostly about relationships between the Texas Democratic party and the national party in his address to the State Democratic Executive Session in the afternoon.

Shivers and other conservative Southerners who rebelled against the national party and Adlai Stevenson in November, openly to support Dwight Eisenhower, are boycotting the national committee's Chicago rally next week. Shivers feels the national leadership has led the party into principles that are alien to Southern concepts of what the party should stand for.

Shivers said for the record he could not go to Chicago because of prior engagements. He is expected to give his real reasons here today.

Friends of the governor here for the committee session at which he is tightening his grip on the party organization said the governor was convinced his conservative wing of the party is gaining recruits. They said he will probably note in his speech that many who criticized him harshly for going over to Eisenhower last year are now wholeheartedly supporting Shivers' program. Shivers and his lieutenants are building factional strength in preparation for precinct, county and state conventions later this year.

Shivers is not expected to say whether or not he will be a candidate for a third term, but the speech could give some hint of his plans. Shivers is convinced it is vital to party welfare in Texas that a strong conservative leadership be maintained.

Wright Morrow of Houston confirmed last night his claim to the post of Democratic national committeeman.

Morrow wrote a letter of resignation to the state Democratic Executive Committee last year when he joined Gov. Allan Shivers and other rebellious Texas Democrats in supporting Republican Dwight Eisenhower for president.

But the state committee turned down his resignation. National Chairman Stephen Mitchell, to whom Morrow had mailed a copy of his resignation letter, wrote Morrow "accepting" the resignation. Since then, both Morrow and Shivers have declared the national committee has no authority to act in the matter.

Morrow, in a statement last night preceding today's meeting of the state Executive Committee, denied reports he planned to offer his resignation again so that the committee could formally reinstate him. He said he is still national committeeman.

High Praise For North Koreans Coming For Instruction In Moscow

LONDON (AP)—The Communist party newspaper Pravda today greeted the arrival of a North Korean delegation to Moscow with praise for the satellite leaders as heroic victors over "American imperialism."

North Korean Communist Chief Kim Il Sung arrived in the Soviet capital by train yesterday. With him was a five-man delegation including Foreign Minister Gen Nam Il.

Western observers have speculated that the North Korean delegation was going to Moscow to get the Kremlin's instructions for the projected Korean political conference.

The Pravda editorial, quoted by Moscow radio, charged the United States started the Korean War in an effort to establish a base for an attack on the Soviet Union and Communist China.

.22 Shooters Turn On Prime Dairy Cattle

DETROIT (AP)—Two teen-agers, tired of firing .22 rifles at pop bottles and cans, turned their sights on a herd of 13 prime dairy cattle.

State police said the young ones said they took pot shots at the top-grade Holsteins "just to sting them and watch them run."

The results of the afternoon's rifle practice were one dead cow, two others that may have to be destroyed and the remainden suffering from bullet wounds in the legs and flanks.

One boy, 16, was held. The other was turned over to his parents.

Cattlemen Mad Over Being Off Disaster List

AMARILLO (AP)—Panhandle cattlemen were reported angry and disappointed today over removal of "drouth disaster area" designations from 104 counties which permitted ranchers to buy feed at low prices.

PMA committeemen in Potter, Gray, Childress and Motley counties were joined by Farm Bureau leaders and county officials in the protests.

The new United Livestock Producers Assn. disagreed earlier with the order removing the counties.

John Detten chairman of the PMA committee in Potter County, said members of his group were consulted about 10 days ago about removing the county from the disaster area.

Detten said he was opposed to the removal plan and added, "I don't think we're out of the drouth."

In Gray County, the drouth committee reported conditions were worse than before recent rains. Clyde Carruth, committee chairman, and Ralph Thomas, county agent, said there is "absolutely no surface moisture and no sub-surface moisture."

"Without the assistance of this program farmers and cattlemen of this county just can't make it," the Childress County Farm Bureau president, Robert Kiker, said. He mailed letters of protest to the PMA State Committee and its chairman Claude McCan of Victoria.

Judge Vance Gilbreth of Motley County said the removal order disappointed him. "In spite of heavy rains, the county judge said, "many parts of the county are still dry. The drouth is not over xxx."

Entire Street In Cleveland Is Blown Up

CLEVELAND (AP)—A street blew up here yesterday—blew up along a ¾ mile stretch, hurling big concrete chunks and manhole covers up among hundreds of stunned rush-hour motorists and pedestrians, killing one and injuring 58. At least two of the injured were in critical condition.

The cause of the mighty underground explosion along West 117th St., a main crosstown artery, still was sought today. Firemen first said it was a broken gas main. But the gas company said their mains probably broke after exploding sewer gas let go.

Mrs. Katherine Szabo, 40, who was driving her brother home from work, died at a hospital. The brother, Robert Gbur, 27, who was injured only slightly said:

"I was talking to her, and we had just cleared the underpass (near Berea Rd.) when it happened. It caved the whole roof in from the top of the door to the next door sill."

Assistant Fire Chief Ferdinand Boehmer estimated total damage to paving and utility lines at "no less than five million dollars."

Fallen utility poles, broken glass, twisted pipes littered the street, which connects Cleveland and its largest suburb, Lakewood. Flying manhole covers slashed through roofs of several homes.

Water from broken mains flooded the mess. A strong odor of escaping gas sent many of the thousands of sightseers retreating.

When the street exploded, some motorists clung to steering wheels as their cars overturned.

"My car went about six feet in the air and concrete roadway was breaking up all around me. I was terrified," one man said.

An automobile salesman, Andy Anderson, said he "thought someone dropped a 500-pound bomb. A hole 30 by 18 feet was ripped out right front of our store. Autos were flipped over on their sides and tops."

Communists Protest 'Kidnaping' Of Pole

TOKYO, Saturday (AP)—The Communists have protested to Gen. Mark Clark about what they called the "kidnaping" of a Polish member of a truce supervision team and demanded his return, the North Korean Radio said today.

Jan Hajdukiewicz, interperter for a neutral nation teams, sought and received sanctuary with the U. S. Army Wednesday just as a plane was preparing to take him to Red North Korea. He said he was an anti-Communist and was afraid to return to "subjugated" Communist Poland.

The Pyongyang Radio said the Polish member of the neutral nations repatriation team had sent a note to Clark, the United Nations commander, demanding Hajdukiewic's return.

Grand Jury In Session

The county grand jury began its first day of session this morning in the investigation of numerous felony complaints.

Several witnesses among more than 30 subpoenaed to appear before the group had been called into the jury room by noon.

The session is the first of the September term of district court.

The jury is to investigate charges of burglary, theft and one case of driving while intoxicated, one of child desertion, one of removing mortgaged property, and possibly others.

NEW BOOST $95

POW Fund Reaches $910; Peterson To Land Sunday

The Carl Peterson Appreciation Fund stood today at $910 after receipt of donations which totaled $95 since noon yesterday.

An Associated Press dispatch to the Daily News this morning stated the latest official information was that the Marine Phoenix, on which Peterson is returning from Korea, is due to arrive in San Francisco sometime Sunday. An earlier official statement from a government department scheduled the ship's arrival as yesterday.

The fund was started late last month with hope of purchasing a new automobile for Cpl. Peterson, 22-year-old Hermleigh man and the county's only known serviceman to have been a prisoner of the Korean War.

Cpl. Peterson was captured by the Reds Dec. 1, 1950, and spent 32½ months a prisoner of the Communists. Most of his monthly pay during this time was sent in allotments to his parents, Mr. and Mrs. George Peterson of Hermleigh, who are unable to work.

When the fund was started the young soldier's mother was asked if there was any one thing he had said he wanted when he returned. She said he had told her he wanted to try to buy a car.

His parents and other relatives are awaiting his return in San Francisco.

The most recent donations are $10 from Leonard Spence, $25 from Mrs. A. J. Towle, $25 from Harvey Shuler, $10 from Mr. and Mrs. David Strayhorn, $5 by W. A. Mayo, $5 from J. M. Mayo, $5 by Mrs. Euna Behringer, and $10 from Mrs. Z. Taylor.

Donations may be made in person or by mail to the Snyder National Bank, the Snyder Daily News, or to the West Texas State Bank. Checks should be made payable to the Carl Peterson Appreciation Fund.

McCarthy Is Told Of Law Broken Releasing Restricted Information

ABDULLAH ON THE TRAIL

Sheppard (Abdullah) King, the Houston oil heir who says his highly publicized romance and marriage to Egyptian belly-dancer Samia Gamal is "all off," sits at a table in the Latin Quarter night club in New York with his latest romance, Turkish dancer Nejla Ates. King told a newsman he intends to get a divorce from Samia and he is going to marry Nejla. King met Miss Ates three days previously and already has given her a diamond ring as a token of his esteem.

WASHINGTON (AP)—The Army asserted today an intelligence report on Siberia, portions of which were released by Sen. McCarthy (R-Wis), was restricted information. It declared too that any conclusion it is Communist propaganda "is refuted" by a reading of the entire document.

Unauthorized release of restricted information is a violation of law punishable by up to $10,000 fine and 10 years in prison.

McCarthy showed reporters copies of the first 70 pages of the 75-page document Wednesday, contending it smacked of "clear cut Communist propaganda."

He was acting as chairman of the Senate investigations subcommittee, looking into Army security. This could pose questions of congressional rights in relation to the law. In any event, it is improbable that a charge of violating the law as to restricted documents would be pressed against any member of Congress in such circumstances.

The Army issued a statement which made no direct mention of McCarthy but was obviously framed as a reply to his Wednesday actions.

The Army asserted the document was intended for limited distribution to intelligence officers "to develop understanding of the Soviet people which will be militarily useful in case of war."

"It is obvious," the statement continued, "that the necessary instruction of officers and men in this field cannot proceed without attempting to enter the mind and thought processes of the Soviet citizen."

An Army spokesman showed an original copy of the document containing on the inside cover this notiation:

"This document contains information affecting the national defense of the United States within the meaning of Espionage Laws, Title 18, Section 5793 and 794. The transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law."

The Army utterance contended McCarthy had withheld from his release sections which would have made clear the document was not Communist propaganda.

In Honolulu, retired Col. R. S. Bratton, who signed a preamble to the intelligence training report, said he was willing to return to Washington to testify about it "if necessary and if so ordered by the proper authority, in this case the U. S. Army." He declined to comment further.

McCarthy said that, as a step to a broad scale investigation of the matter, he wants the Army to tell him who wrote the report and ordered its distribution, principally in the Far East.

Meanwhile, the Army announced yesterday that Maj. Gen. Miles Reber is being transferred to Germany. Reber refused last Tuesday to tell McCarthy who gave security clearances to Army employes the senator contended were Communists. The Army said it was a routine assignment for the 51-year-old West Pointer.

REDS ADMIT TO HOLDING POWS

PANMUNJOM (AP)—A Red source admitted today for the first time that the Communists are holding back some Allied war prisoners who want to go home.

A Communist correspondent, Wilfred Burchett, said a crack U. S. jet pilot and an undisclosed number of other Allied airmen are being held as special prisoners because the Communists say they were shot down over Manchuria—forbidden territory to Allied pilots in the Korean War.

A repatriated American Air Force major, David F. MacGhee of Tampa, Fla., said earlier this week he had learned from an "extremely reliable" Chinese Red that the Communists planned to intern 22 U. S. fliers in Manchuria "until the United States recognizes (Red) China."

Allied officers have said unofficially there may be other airmen still held by the Communists and one source said the number totaled about 35.

Burchett of the Paris L'Humanite who often reflects official Red thinking, said one of the prisoners is double jet ace, Capt. Harold E. Fischer Jr. of Swea City, Iowa.

Burchett said release of the airmen would have to be negotiated through "diplomatic channels" but he did not elaborate.

The Allied Command demanded Wednesday that the Reds account for about 3,500 allied troops—944 of them Americans—who were known once to be prisoners, but who were not released in the recent POW exchange.

The Communists have indicated they would reject the demand, but have not said when they would reply officially.

Fischer, who disappeared last April 7, became one of the hottest pilots in Korea by scorning his radar gunsight and shooting down Red MIG jets like ducks.

The Red Peiping radio said April 8 the 27-year-old flier was captured after being shot down in a dogfight over Manchuria. His wingman last saw him battling a Red fighter near the Yalu River boundary of Manchuria.

The Reds obviously were on a spot in the Fischer case—they previously had said they sent back all Allied prisoners who wanted to go home, yet their official Peiping radio had admitted he was captured alive.

Meanwhile, the first of 14-700 Chinese war prisoners who have renounced communism arrived in the Korean neutral zone shaking their fists and shouting, "Death to the Communists," at Red observers.

New Sultan In Narrow Scrape

RABAT, Morocco (AP)—An unidentified Arab tried to run down the Sultan of Morocco with an ancient auto today as the ruler rode his white horse to the mosque for Friday prayers. The would-be assassin was quickly killed by guns of the imperial guard.

Sultan Mouley Mohammed ben Arafa escaped injury and continued to the mosque.

The Sultan was surrounded by his mounted palace guard when the car careened down the road toward the party at high speed.

The car bumped the Sultan's horse. An off-duty member of the guard jumped on the running board of the car and saw a butcher knife in the driver's hand. Guns quickly cut the Arab down.

The French put in the new Sultan. He displaced Sidi Mohammed ben Youssef, dethroned and exiled to Corsica. The switch was not accompanied by any violence, as had been feared.

The new Sultan has been recognized by the United States.

92-Degree High Here

Temperatures reached a high of 92 yesterday and a low of 59 last night, according to Mrs. D. P. Strayhorn, weather observer. The mercury stood at 65 at 7:30 o'clock this morning.

WEATHER

NORTH CENTRAL, EAST, AND WEST TEXAS: Generally fair through Saturday. Not much change in temperatures. Gentle to moderate easterly winds on the coast.

SOUTH CENTRAL TEXAS: Clear to partly cloudy through Saturday. Widely scattered showers likely extreme south. Not much change in temperatures. Gentle to moderate mostly east to northeast winds on the coast.

Democrats Are Gleeful Over Secretary Durkin Quitting

WASHINGTON (AP) — Martin P. Durkin's sudden bow-out as secretary of labor rang down the curtain in less than eight months on a bold political stroke attempted by President Eisenhower and his advisers.

Democrats, openly gleeful over the break in Cabinet ranks, quickly predicted the administration would not find another man with a strong union background to take the post.

One Democratic senator, Maybank of South Carolina, commented: "I would seriously suggest that others (in the Cabinet) should resign."

Sen. Hill (D-Ala), a long-time member of the Senate Labor Committee, said in an interview: "They'll never get another Marty Durkin for the job. They'll have to take someone now who is willing to march in the ranks of the Taft-Hartleyites."

This reference to the controversial Taft-Hartley labor relations law struck at the heart of Durkin's falling out with the administration. In handing in his resignation, Durkin accused the White House—but not Eisenhower personally — of breaking an agreement with him to seek 19 specific proposed changes in the law.

Maybank said he was not surprised at the resignation, because he said "This administration has not done anything for labor, for agriculture or for the taxpayer."

Asked if his suggesaion about other resignations was aimed at Secretary of Agriculture Ezra T. Benson and Secretary of the Treasury George M. Humphrey, Maybank said Benson has "done nothing except create confusion in the farm belt" and Humphrey raised interest rates "for veterans and homeowners."

Republicans in Congress seemed loath to comment, for the most part, like Sen. Dirksen (R-Ill) who said that, although Durkin hails from his state, "Any comment I would make on his resignation would be a shot in the dark."

However, Rep. Kearns (R-Pa), a member of the House Labor Committee, said he thought Durkin's ideas for changing the Taft-Hartley law were "too self-styled."

"Amendments to the Taft-Hartley law will be written here in Congress," Kearns said.

At Chicago, Democratic National Chairman Stephen A. Mitchell commented:

"It is now obvious that the appointment was one of political expediency rather than a sincere effort by the administration to solve the problems of working people.

"Mr. Durkin has a reputation for sincerity and patience. His patience was apparently tried too long, and his sincerity still is beyond question."

Eisenhower's surprise selection of Durkin for the labor post was hailed at the time as a political triple play. It was reasoned then:

1. That it would appease organized labor, which staunchly opposed the GOP ticket in the 1952 elections, because Durkin had risen through the ranks to become top man in a prominent labor union—the plumbers.

2. That it would woo independent Democrats since Durkin was a member of that party and had supported its 1952 presidential ticket.

3. That it would please Catholics because Durkin was of that faith—the only Catholic in the Cabinet.

The Senate and House Labor Committees conducted long hearings on revision of the Taft-Hartley law—one of the points in the Eisenhower legislative program for 1953—but Durkin never testified.

Durkin told reporters yesterday he was invited to testify by both committees but had not done so, because the administration never had made up its mind on its stand on the controversial law. He said he saw no point in testifying "only as to Mr. Durkin's views."

No Successor To Vinson Will Be Named Till After Sept. 19

DENVER (AP)—The summer White House indicated today President Eisenhower won't name a chief justice to succeed Fred Vinson until after he returns to Washington, Sept. 18 or 19.

Murray Snyder, assistant presidential press secretary, said he had no information on when Eisenhower may name a successor to Martin Durkin, who resigned yesterday as secretary of labor and charged that the administration ran out on pledges to change the Taft-Hartley Act.

The President and Vice President Nixon played a round of golf at Cherry Hills Country Club. They were joined there by the President's son, Maj. John Eisenhower, who arrived here last night after 14 months of active duty in Korea.

Nixon and Eisenhower, together with a group of presidential aides, reportedly discussed both the court and labor posts in Washington, and it appeared likely they would continue the discussion today.

There were indications, too, that Len W. Hall, chairman of the Republican National Committee had joined in the talk of a successor to Durkin. Hall also flew to Denver with the President, and was going on today to a GOP rally at Yellowstone National Park.

Scarcely had [illegible] left Washington when the news broke that Durkin had quit the Cabinet. He contended that the administration ran out on pledges to amend the controversial Taft-Hartley labor law.

The White House made public Eisenhower's letter accepting Durkin's resignation. The President's office here later released Durkin's Aug. 31 letter saying he was quitting.

Neither letter mentioned Durkin's reasons for resigning. Durkin set those forth at a Washington news conference.

Reporters had no chance to question the President about the resignation as he stepped from his plane here. He appeared to be in good spirits, remarking to the commanding officer at Lowry Air Force Base:

"I'm getting used to these whirlwind round trips."

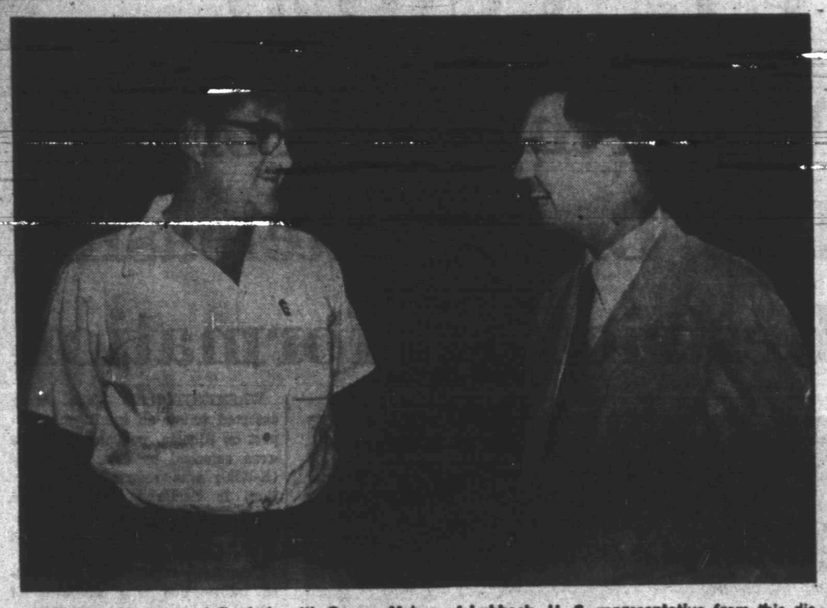

Eisenhower left Denver Wednesday night on an overnight flight to Washington.

Except for Mrs. Oveta Culp Hobby, secretary of labor, education and welfare, Durkin was the only Democrat in the Eisenhower Cabinet. He supported Adlai E. Stevenson, the Democratic nominee for the presidency, while Mrs. Hobby backed Eisenhower.

In his letter of resignation, Durkin said he was returning to his job as president of the AFL plumbing and pipe fitting union.

Aides said the President faces what one termed "a tough job" in finding a successor to Durkin who will be satisfactory to labor. They also noted that Durkin was the only Catholic in the Cabinet, and added that if Eisenhower wants to maintain that representation, his task will be even more exacting.

As for filling the place of Vinson on the high court the President was reported to have made some progress in narrowing the field of possible selections. Any announcement of his choice, however, was sure to be put off until after Vinson is interred today at his home town of Louisa, Ky.

Malven Stevenson, left, chats with George Mahon of Lubbock, U. S. representative from this district, after Mahon spoke to the Rotary Club yesterday. Mahon, member of the House committee on appropriations, defended the defense budget and cautioned against military cuts in government spending. Stevenson is a grocer and member of the city council. (Dale Walton photograph)

George Mahon Gives Rotary Club Speech

"Even if the truce in Korea works out there will still be a communist threat against the free peoples of the world," George Mahon, U. S. Representative from this district, told the Rotary Club in its weekly luncheon yesterday.

Mahon made that statement in support of keeping the military budget of the U.S. high. "Even though we might waste some money, we should not show any evidence of weakening just when we are ready to sit down with Russia, who only understands the doctrines of strength and power," he said.

The representative said the U. S. could no longer feel safe from any enemy attacks because it has anti-aircraft equipment, because it is apparent that Russia "has not only the atom bomb but the H-bomb."

Mahon said he opposed reducing the Air Force objective from 143 wings to 120 wings, because he believes the country needs a stronger Air Force. "We need those billions to gain security," he said.

Telling how he voted on other issues during the past session, Mahon said he did not support President Eisenhower's request to permit 200,000 refugees from behind the Iron Curtain into the U.S., because some would have Red leanings; he was against statehood for Hawaii; against cutting federal payments to farmers; against public housing because it is socialistic; and against the full amount Ike asked for foreign aid, although he believes a certain amount should be given to foreign countries.

"It isn't easy for us to play the role of the leading nation, but we cannot walk away from the job that destiny gave us," Mahon said. He gave the administration's prediction that the U.S. will spend 72.1 billion dollars by the end of the fiscal year, compared with 74.6 billion last year or a reduction of three to four per cent. Of the total budget, Mahon said, 70 per cent is spent for defense, 20 per cent for fixed charges, and 10 per cent to operate the government. "It will have to be revised since the shooting is over in Korea," he said, saying the budget will probably be cut again.

Touching on the reason the U. S. continued as it did in Korea for three years, Mahon said that an "inconclusive war is better than the other alternative," adding that with about 600,000 more casualties the Allies could have pushed the Chinese out of Korea, but they would still be just across the river.

Visiting Rotarians were Frank Dillon, Worth Peller, and Jimmy Dean of Big Spring, R. H. King of Midland, Walter Ivie of Odessa, and C. G. Williams of Abilene.

August's City Water Report

Water comsumption here in July was 46,150,900 gallons, the monthly report for August of Ralph Eades, utility office manager for the city, shows.

Collections of the water and sewer departments during August totaled $27,916.73. Most collections of the department during any month are for the previous month's services. Roy Dunlap, city engineer, said that 415 feet of six-inch water line was laid in Towle Place to tie together dead end lines and increase water pressure in that area. An additional 385 feet of two-inch water line was laid in the same area and for the same purpose, he said.

During August 900 feet of six-inch sewer line was laid in Highland Terrace to serve 12 houses in the area now, and to serve 12 more which are planned.

The report showed that there were 132 water meter disconnections and 131 connections during August.

A higher than average number of meters were cut off because of delinquent bills, the report showed. There were 45 such cut offs, and 39 were turned back on after the bills were paid.

Twenty-two new water and sewer taps were completed during the month.

Fines In City Up In August

Fines collected in corporation court here last month more than doubled fines collected in the court the previous month.

Much of the increase, $879 of the total of $2,212, was collected from traffic citations issued by traffic patolmen the monthly report of Walter Suttle, police chief, shows.

Fines collected in July totaled $984.

Intoxication continues to lead the lists of arrests by city police. There were 32 charges of intoxication, 14 intoxicated in automobile, and seven driving while intoxicated charges during the month, the report states. The persons charged with driving while intoxicated were transferred to the county for disposition.

Other arrests included: investigation one, simple assault one, vagrancy one, theft under $50 one, disturbance two, affray one, and one charge of assault on which the person arrested was released to the county.

A total of 134 traffic citations were issued during the month.

There were 17 traffic accidents investigated by city officers.

Odessa Man To Be Buried Here

Funeral services will be held at 10 o'clock tomorrow morning for B. N. Marcum, 61, of Odessa former Snyder resident who died Wednesday with a heart ailment.

Services will be held at the First Baptist Church in Odessa, then the body will be brought to Snyder, and it will lie in state from 2 o'clock to 3 o'clock tomorrow afternoon in the Bell Funeral Home Chapel. Burial will be held in the Snyder Cemetery at 3 o'clock tomorrow afternoon under direction of Bell Funeral Home. Arrangements for the service are not complete.

Survivors include the widow, one son, B. N. Marcum, Jr., of Tulsa, Okla.; a daughter, Mrs. Harold Thompson of Lehigh, Ia.; four stepsons, O. B. Draper and Otho Darper both of Odessa, Tom Draper of Amarillo, and Calvin Draper of Los Angeles, Cal.; two brothers, Watt Marcum of Odessa and Tom Marcum of Amarillo; and three sisters, Mrs. J. L. Aerheart and Mrs. J. L. Halten of Los Angeles and Mrs. Mary Scarbor ugh of Quanah.

Shriners Asked To Meeting Monday Night

Members of the Shrine have been asked to attend a called meeting Monday night at 7:30 in the directors room of the Snyder National Bank.

Hilton Lambert, who called the meeting, said that many last minute details concerning the Shrine Circus coming here Sept. 19 must be taken care of.

School Broken Into Sometime In Night

Members of the sheriff's department were investigating a break in last night of the North Elementary Schools, no details were available at noon today, Bill Love, deputy, said.

Marvin Brister, police desk sergeant, said the break in was reported to the police department at 7:13 this morning, but was not investigated by police because the school is located outside the city limits.

White In Split With Agency

WESLACO (AP)—Agriculture Commissioner John White apparently has split with a federal government agency and may be at odds with Lower Rio Grande Valley citrus and vegetable growers.

Involved are fruit and vegetable inspections.

At an angry meeting here last night White said he has "come to a parting of the ways" with the PMA's fruit and vegetable division insofar as joint state-federal inspection of fruit and vegetable shipments is concerned.

Austin Anson of Harlingen, general manager of the Texas Citrus and Vegetable Growers and Shippers Assn., said a private inspection service financed by a U. S. Department of Agriculture loan had been formed. It is manned by many people from the now defunct State-Federal inspection Service.

White warned the citrus and vegetable growers state law requires him to inspect shipments. He said his men will stop any truck carrying such products without a state inspection certificate.

The federal certificates also are mandatory. It appeared growers would be saddled with both state and federal fees.

The quarrel is not strictly a Valley affair. The inspection regulations, state and federal, apply throughout the state.

Adjustments In Cotton Is Being Sought

COLLEGE STATION (AP)—Claude McCan, state committee chairman for the Production & Marketing Administration, said yesterday adjustment will be made in 1954's Texas cotton acreage allotments.

Speaking to four Jones County farmers who appeared at yesterday's state PMA meeting, McCan said the committee was sending a request to the Agriculture Department, asking special consideration for Texas in 1954, because of this year's drouth.

The West Texas farmers, who asked that acreage not planted in cotton this year be counted in figuring next year's allotments, were told the state PMA had been instructed by Washington that this plan could not be followed.

George Smith of Stamford asserted earlier "This is going to ruin West Texas unless we can get some acres that haven't been planted in the past two years."

McCan informed the four farmers some adjustments would be made next year.

These presumably would be based on certain counties' cotton trends. That is, acreage allotments would be adjusted according to the increase or decrease in cotton planted.

The four farmers, Smith, Bland Harrison, and W. B. Harrison, all of Stamford, and Joe Culbertson of Hamlin, Wednesday heard Rep. W. R. Poage of Waco assert the PMA committee had not been fighting the farmers' battle.

Poage said in Temple every county in Texas would lose its pro rata share of acreage if the PMA only considers the actual acreage planted this year.

The House Agriculture Committee member said Congress intended to count acreage which would have been planted had not weather interfered.

McCan said the PMA had received a telegram from Washington telling the organization not to measure acreage yet. "Bob is taking the attitude that we ought to go right ahead and measure the acreage," he said. "We can't do that."

Agriculture Secretary Benson first must impose marketing controls and call a referendum of farmers on acreage allotments.

Mother Of Nine Wins State Beauty Contest

ASBURY PARK, N. J. (AP)—Mrs. Anna Spada, 29-year-old mother of nine children, will represent New Jersey in the Mrs. America contest here Sunday.

Shivering in a nylon crepe bathing suit, she won the title of Mrs. New Jersey over six wedded beauties at Palisades Amusement Park last night.

She'll compete against 31 contestants from all over the country for the Mrs. America title and more than $10,000 in prize money.

Mrs. Spada, whose children range in age from eight months to eight years, is the wife of 31-year-old Marius Spada, a Whippany soap works foreman.

Spada wasn't on hand for his wife's victory last night.

"I told him to stay home and take care of the children," Mrs. Spada revealed.

Research Grants High

NEW YORK (AP) — Rockefeller Foundation grants for research and study in 1952 totaled $16,640,355 the organization said in its annual report yesterday.

The sum, the report added, brings to $458,337,605 the total expended by the foundation since its inception 40 years ago.

Foundation funds goes toward work in public health and medical and social sciences.

WHY "GET UP" NIGHTS?

It's not necessary. Raise the ph. of the fluid in your bladder with CIT-ROS. Reduces the urge of irregular elimination. Get rid of backache, burning, bearing-down pains. CIT-ROS will do the job safely, relieves back pains quickly, soreness in the back vanishes. $1.50 at your druggist. For sale by STINSON DRUG

Bomber Loose In Kansas City

KANSAS CITY (AP)—A mysterious bomb thrower renewed his work last night, tossing a bomb that damaged two business buildings on the east side.

The bombing was the sixth in the last three weeks here. A glassware shop, two clothing stores, an automobile agency and a grocery store were damaged by the previous blasts.

Police say they have found no reason for them.

Damage in the latest incident was minor. The officers said the bomb apparently was thrown from a moving car and landed about 15 feet from the front door of the Keystone Trailer and Equipment Co. factory.

The glass was broken in the factory doors and 10 windows were broken in a Continental Can Co. plant across the street.

Spike Jones Fete Set

LONG BEACH, Calif. (AP)—Spike Jones, the local boy who made good (and loud) in music, will be honored tonight by fellow alumni of Long Beach Polytechnic High School.

The madcap maestro and his zany troupe play an engagement at the municipal auditorium. His old high school friends will present him a huge cowbell with plaque attached.

Gen. Devereux Is To Return To Wake Island

BALTIMORE (AP)—Brig. GEN. P. S. Devereux, now Republican congressman from Maryland's Second District, will return to Wake Island where he and a small garrison of Marines fought against the Japanese in World War II.

Devereux was the major in charge of some 500 men when the island fell to the Japanese Dec. 23, 1941. Before surrendering the island defenders accounted for 29 enemy planes; a cruiser, two destroyers and an escort vessel.

Now a member of a House armed services subcommittee, Devereux will visit Wake on a round the world inspection junket beginning Sept. 16 and ending Nov. 10.

View Being Restored

POMPTON LAKES, N. J. (AP)—The Standard Oil Co. of New Jersey is going to demolish a gasoline station so Frank Winters can have a view from his back porch.

Winters opposed the building of a lubritorium wing to the gas station because it blocked his view of the street.

An attorney for the big oil company told the local zoning board last night that they would tear down their old station and rebuild a new one with a lubritorium eight feet back from Winters' property so he can see the town's main street.

Da Vinci Year Late

ANNAPOLIS, Md. (AP) — With mumbled apologies Maryland is getting around to officially observing the 500th anniversary of Italian artist Leonardo da Vinci . . . one year late.

Gov. Theodore McKeldin yesterday proclaimed Oct. 11-17 as Leonardo da Vinci Appreciation Week in Maryland.

He explained that "war and related distractions" caused the overlooking of the observance in 1952.

Maryland Cops Busy

PIKESVILLE, Md. (AP) — Maryland's state troopers were a busy lot during the three-day Labor Day weekend.

A report released by the State Police Department yesterday showed they: traveled 111,557 miles, made 1,625 traffic arrests, investigated 36 smashups in which persons were injured or killed and 122 less serious crashes, and issued warnings to 2,472 motorists who were driving improperly.

Farmers Have A Day

TOPSFIELD, Mass. (AP) — Nine farmers with a total of 443 years in farming were honored by the Essex Agricultural Society yesterday at the Topsfield fair.

Among the nine was Mrs. Ellen Russell, 90, of Danvers, who has been farming for 57 years.

Holdup Discussion Not So Funny After Jail

SAN ANTONIO, Tex. (AP)—While watching armored car guards carry money bags into the federal reserve bank about noon yesterday, four men parked in a car nearby jokingy discussed the ease with which a holdup could be staged.

Their conversation wasn't quite so funny when questioned later at city jail where they were booked for vagrancy and investigation.

Mrs. G. W. Lee was brought to her home at 1508 Twenty-first Street from Hendrick Memorial Hospital in Abilene by a Bolger ambulance yesterday afternoon.

Stop Taking Harsh Drugs for Constipation

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

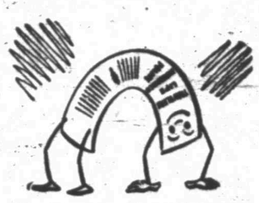

For constipation, *never* take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make repeated doses seem needed.

Get *sure* but *gentle* relief when you are temporarily constipated. Take Dr. Caldwell's Senna Laxative contained in Syrup Pepsin. No salts, no harsh drugs. Dr. Caldwell's contains an extract of Senna, *one of the finest natural vegetable laxatives* known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief for every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's 30¢ size today. Money back if not satisfied. Mail bottle to Box 280, New York 18, N. Y.

Mrs H. G. Stinnett, center, president of the Texas Congress of Parents and Teachers, converses with Dr Cecil Yarbrough, left, and Hardy Scarbrough, right. Mrs. Stinnett spoke at a Parent-Teacher city council luncheon and for an evening assembly last night. (Lee Watson photograph)

State President Emphasizes Work Of Local PTA Groups

A summary of the activities of the Texas Congress of Parents and Teachers was presented by Mrs. H. G. Stinnett, state president, to two Snyder audiences yesterday.

Speaking at a luncheon sponsored by the city Parent - Teacher council yesterday Mrs. Stinnett pointed up the new trend of activities being undertaken by Parent-Teacher organizations.

The Parent - Teacher association as a whole, in the past, has at times fallen short of its educational goals, Mrs. Stinnett said. The activities which should have been directed toward the assistance of all children were allowed to become so limited that only limited groups benefited. These programs included the purchase of band uniforms or equipment for other comparatively small segments of the school enrollment.

A broader scope of planning parent-teacher activities can make the organization of benefit to the entire community, Mrs. Stinnett pointed out, and this enlarged programming is making itself felt in many ways. The associations are not intended to be political forces or critical advisors, she added, but to work with the community, parents and teachers in whatever ways are possible to bring about better understanding and cooperation.

Local Parent - Teacher groups can survey their own situations to determine the most profitable course of action, Mrs. Stinnett continued. Each member should take active part in his organization to help in planning its work and to make his wishes known to higher levels to keep the program active and beneficial, she added.

Mrs. Stinnett urged that Parent-Teacher organizations seek the membership of residents of the community who have no children. These people as members, can often add their experience to that of younger members in improving the work of the entire group, she said.

Speaking at a meeting in the high school auditorium last night, Mrs. Stinnett reviewed projects of the state organization. She noted particularly that the study projects conducted on district and state levels have contributed much information which is available to local groups for their educational programs. Adult education is definitely a part of the parent-teacher function, she stated, and local groups which fail to utilize the material available are overlooking many opportunities. It is the responsibility of both parents to see after the welfare and education of the child, and through adult education both parents will benefit while fulfilling this duty to the child.

Mrs. Stinnett was introduced to the audience by Dr. Cecil Yarbrough, superintendent of schools. Dr. Yarbrough is also a member of the Texas Congress of Parents and Teachers advisory body.

TOP TOPPER!

2405
SIZES
12 - 44

Deep cuffs, patch pockets, notched collar — combined in a tailored and cropped coat designed for sewing simplicity. Sleeves can be long or three-quarter lengths.

No. 2405 is cut in sizes 12, 14, 16, 18, 20, 36, 38, 40, 42, 44. Size 18: Topper with long sleeves takes 2¾ yds. of 54-in. material.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5c per pattern.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-8488.

My mother made a tomato marmalade. I have not kept her recipe. Have you one?

This recipe is one furnished by the Texas Extension Service:

4 pounds prepared green tomatoes
2 pounds sugar
½ teaspoon salt
5 lemons
water

Wash the tomatoes, trim, and cut into small pieces or slices. Peel the lemons, cut the peel into thin slices and boil five minutes in one cup water. Discard the water and repeat the parboiling if the bitter flavor in the lemon peeling is not desired. Drain.

Slice the lemon pulp and remove the seeds. Combine tomatoes, sugar, salt, sliced lemon and drained peel. Heat slowly and stir until the sugar is dissolved. Continue stirring and boil for one hour, or until the mixture is somewhat thick and the fruit is clear. Pour into hot sterilized jars, leaving one-quarter of an inch of the top if paraffin is to be used, or to the top if lids are to be used.

WOMEN'S CALENDAR

FRIDAY

Scottish Rite barbecue, 6:30 p. m., Memorial Park.

SATURDAY

Women's Auxiliary, St. John's Episcopal Church, bake sale, 9-12 a.m., Everybody's and Piggly Wiggly.

Saturday Night Bridge Club, 7:30 p.m., Country Club; Mrs. Mabel Brock, hostess.

PERSONALS

Mrs. W. L. Hayley and her grandson, Hubert Strom, have returned from a 10-day trip to East Texas. Strom is to leave soon for Austin here he will re-enter the University of Texas.

Guests in the homes of Mrs. Annie E. Rodgers, Mrs. H. F. Brown and Charlie Stimson recently have been Miss Jesyle Stimson of El Paso, Miss Vernelle Stimson of Dallas, Mrs. W. F. Boyd and her daughter, Mrs. Oreda McCartney of LaBon, Tex., Mrs. Claybe Stinebaugh and Mrs. Leslie Sherrill of Royce City.

Mrs. Robert F. Wasson 300 Thirty-seventh Street, was to return today from Austin where she attended an executive meeting of the State Medical Association auxiliary.

Mrs. C. E. Walker, 1002 Twenty-eighth Street visited in Rotan from Sunday until Thursday with Mr. and Mrs. I. N. Palmer, former Snyder residents, and with Mrs. W. C. Gordon of Snyder, who is a medical patient in the Callan Hospital.

Mr. and Mrs. Wraymond D. Sims, Route No. 2, have returned to their home in the Lloyd Mountain community after spending the summer at Bucklin, Mo.

Mrs. H. L. Whitlow, 2400 Avenue Q, is a patient in Physicians' and Surgeons' Hospital in Shreveport, La.

DeMolay Mother Is Recognized

A certificate of recognition was presented the DeMolay Mothers' Club at its meeting last night. Notchy Starr made the award to Mrs. Warren Richardson, club president.

Plans for presenting John Jerrell the jacket award earned by DeMolays qualifying as representative. DeMolays were discussed. A nominating committee was also named.

Mrs. C. V. McClatchy was hostess for the meeting. Fourteen members attended.

SOCIETY SCRIBBLINGS

PTA Honors Leaders And Secretaries Of Schools

A guest list from yesterday's Parent - Teacher Association luncheon would read almost like a record of Who's Who in Snyder PTA work.

Past PTA presidents were invited to the luncheon, along with present city council members, PTA presidents, school principals and secretaries of the schools. Mrs. H. G. STINNETT, state president was the principal speaker and gave the audience a view of what could be accomplished by active PTA groups who plan their work with an eye to community leadership.

Among the past presidents attending was Mrs. H. J. BRICE, one of the oldest Snyder PTA presidents still attending. She and many others recall when Snyder had only one PTA unit, and presidency of that groupp was the highest office any member could hold. Mrs. WADE WINSTON and her daughter, Mrs. SCOTT CASEY made an unusual mother-daughter team of past presidents.

Secretaries from each of the schools stood out by virtue of the corsages they wore. Each was presented by the PTA of the school for which the secretary works.

The audience, of about 60 persons wasn't female by a wide margin, however. Dr. CECIL YARBROUGH, superintendent of schools, introduced Mrs. Stinnett. ROBERT CLINTON, high school choral director, led group singing which was accompanied by Mrs. Clinton. JOEL GRIFFIN, East Elementary principal, almost got a permanent assignment carrying trays back to the serving line. HARDY SCARBROUGH, president of the junior high PTA, and WAYNE BOREN, school board member, were also present.

Seated at the speakers' table with Mrs. Stinnett and Dr. Yarbrough were Mrs. E. N. BAKER, city council president and Mrs. J. J. BLACK of Midland, past district president familiar to many Snyder club women. Also at the table were Mrs. W. N. Norred of Big Spring, Mrs. Maude Pitman and Mrs. Robert Cross, both of Anson, and Mrs. Stanley Erskine of Midland. All hold district or state offices.

HERE FOR MONTH

Mrs. WILLIAM HOLZAPFEL, the former Mrs. EDITH McKANNA, of the Rock Ledge Farm near Fluvanna left today for Santa Fe where she will be for about a week on business. Mrs. Holzapfel plans to stay in the county until the middle of October before joining her husband, Col. Holzapfel, in Hololulu and Tokyo.

Mrs William Holzapfel

Also at the Rock Ledge Farm are Mrs. Holzapfel's daughter and son-in-law, Mr. and Mrs. JAY BREEN. They plan to be here several months while he does magazine writing.

XMAS PROGRAM

The American Legion Auxiliary held the first of a series of special meetings Wednesday night. They're beginning work on Christmas gifts for the families of patients in the Big Spring Veterans' Hospital.

Members have already prepared almost 100 garments for the project, Mrs. ELMA CROWDER said. The garments will be displayed in a "store" set up in the hospital, and the patients can choose without charge the ones they will have sent to their families. The auxiliary will meet at 7:30 each Tuesday until November to work on the gifts.

NEWS FROM UNION

By MRS. J. B. ADAMS

Mr. and Mrs. Travis Rinehart and daughter of Hale Center visited relatives here over the week end

Mrs. Odis Carruth and daughters attended homecoming services at the First Baptist Church in Andrews Sunday.

Mrs. Semual Birdsong and family have as a guest this week her mother, Mrs. Walker from Kilgore.

Mr. and Mrs. Buck Woolever and children have returned home after working in the wheat harvest through the summer.

Mrs. L. M. McWilliams was honored with a surprise birthday supper Thursday night in the home of Mr. and Mrs. Owen Miller.

Mr. and Mrs. J. T. Holloway of Pritchett and Wayne Taylor of Dallas visited Mrs. J. B. Adams last week.

A steam laundry service is being added to the complete laundry and cleaning facilities of the City Washateria, 2703 Avenue Q, the interior of which is shown above. Mr. and Mrs. E. H. Henderson, owners, have operated the business here for the past three years. (Lee Watson photograph)

BRING YOUR DRY CLEANING

New Services Are Added To Those Offered At Washateria

New facilities are being added at the City Washateria, 2703 Avenue Q, which will enable the firm to offer a complete washateria, laundry, and cleaning service, Mrs. E. H. Henderson, manager, said.

"We can now handle all the family's clothes cleaning problems," Mrs. Henderson said.

She explained that although the City Washateria & Steam Laundry does not do dry cleaning, it is a collection agency of the Highland Park Cleaners, and dry cleaning orders can be brought to the City Washateria along with the family laundry—making one trip and one stop do the entire job.

"We offer free pick up and delivery so that it is no longer necessary to even come to town to have all clothes problems taken care of," she said.

Mrs. Henderson said that water from Lake Thomas was the best thing that has hit the laundry business here in a long time.

Only about half as much soap is necessary to do a good clothes washing job now, she said.

Although the city water is now much softer than the well water previously used, the City Washateria still employes two different water softeners to make the water completely soft.

One of the softeners is a chemical softener that removes the impurities in water that tend to make it hard. The other is a newly introduced "gadget" that fits into the water line. Composition of the materials which make up the "gadget" water softener are kept strictly secret by the manufacturer, but Mrs. Henderson said it has been hinted that the "gadget" was a by product of manufacture of atomic bombs.

The City Washateria has 14 Maytag washing machines for customer use. Each machine is accompanied by three large rinsing tubs, and hot and cold water, and steam are piped to all the machines.

"All the machines can be operated all day long, and we will not run out of steam," she said. The steam can be used to re-heat water in the washing machine if it becomes too cool, she said.

Mr. and Mrs. Henderson have owned and operated the City Washateria for the past three years. For one year prior to that Mrs. Henderson worked in a management capacity at the City Washateria.

R. E. Patterson, left, owner of Snyder Drug, is shown demonstrating a new Timex watch to Miss Carolyn Dudley, daughter of Mr. and Mrs. E. E. Dudley, 3785 Dalton Drive. The watch is one of hundreds of new Timex watches which have just arrived at Snyder Drug. A new display case for the watches is shown in the background. (Lee Watson photograph)

Shipment Of Watches At Snyder Drug

A complete new stock of Timex watches has just arrived and been put on display in Snyder Drug on the west side of the square, R. E. Patterson, owner, said.

Patterson said that hundreds of different watches in many different styles for both men and women are included in the new shipment.

The price range of the watches, which are guaranteed for one year, is from $6.95 to $14.95 plus tax, he said.

Patterson said that some of the features of the watches in addition to their attractive price are that the watches themselves are difficult to tell from much more expensive watches and have "V-conic" movement that employes armalloy bearings.

"The armalloy bearings make the Timex watches strongest at points where most watches are weakest—at the pivots of the balace staff which supports the balance wheel and hair spring, Patterson said.

An interesting feature of the new display in Snyder Drug is a mechanism that alternately bangs one shock-proof Timex watch on a heavy board, and dunks another water - proof, shock-proof Timex watch in a dish of water, while both watches continue to run without missing a tick.

Gruenther Is Not Going To Make Retreat

WASHINGTON (AP) — Gen. Alfred M. Gruenther says the mission of his Western European army is to defend the area and that, if the Russians attack, "we are not planning to retire—we intend to stay."

Gruenther said, in a copyrighted interview with the magazine U. S. News and World Report made public last night, that if the nations of the North Atlantic Treaty Organization stick together, "we are going to reach a position of strength which will make agression so unprofitable that it will never take place."

The general, who recently succeeded Gen. Matthew B. Ridgway as Nato commander, was asked whether his forces, which he said had doubled in strength since 1951, could hold a beachhead in Europe in the face of Russian attack.

"Oh, we could hold a beachhead if that were our objective," Gruenther said, and he added: "The question of whether or not we could hold a beachhead involves a retreat concept. This command is not organized to plan a withdrawal. We intend to stay."

He conceded, however, that if the Communists were willing to pay the price they could win the first phase of any new war in Europe.

"We would not be a pushover for them," he said. "We are reaching the point now where the aggressor would have to handle his forces with consummate skill. He could not afford to make many mistakes against us, even if he should attack in force.

"Yet, if they were willing to devote the air power and the ground forces to the effort they could set us back today."

British Claim Speed Record With Hawker

LITTLEHAMPTON, England (AP) —Britain claimed today that her new swept-wing Hawker Hunter jet is the world's fastest fighter plane. Squadron Leader Neville Duke's record-setting average speed of 727.6 m.p.h. in the aircraft yesterday.

Duke's record, still subject to official confirmation, topped by 11.91 m.p.h. the mark of 715.69 set in July by U.S. Air Force Lt. Col. W. F. Barns in an American Sabre

Short Lives Seen For Speed Records

DAYTON, Ohio (AP)—Record setters of the three-day National Aircraft Show which ended here yesterday expect their glory to be shortlived.

Most of them feel it will be no more than a year before planes now in the experimental stage shatter the new marks, just as old ones fell in quantity here over the holiday weekend, before crowds totaling 200,000.

Four new world records came out of the closing day's program. But they resulted from preshow runs which were not announced until yesterday. Cool, cloudy weather ruled out any chance of bettering the preshow marks before a final day crowd of about 50,000.

Helicopter speed and altitude records disclosed yesterday were set earlier by Air Force Capt. Rullell M. Dobyns of Norfolk, Va. Because of unfavorable weather he did not even try yesterday to beat his altitude record of 22,289 feet set last Wednesday, or the helicopter speed mark of 146.735 m.p.h. he made Friday for a 1½ - mile straightaway. Both world record performances were in a Piasecki YH21 "Workhorse."

The Thompson Trophy Race, once the multi-entry thriller of the flight by Brig. Gen. J. Stanley Holtoner, 42-year-old commander of Edwards Air Force Base, Calif. The 681.57 m.p.h. he flew yesterday in a North American F86D Sabre jet stands as a jet record for the race.

But last Wednesday Gen. Holtoner in a Sabre jet and in better weather zipped around the 100-kilometer (62-mile) closed course in 690.118 m.p.h. That shattered a world mark Jacqueline Cochran set for the 100-kilometer closed course last June 3 in a Canadian-built F86E.

"I expect this record won't stand too long," Holtoner said. "We've got experimental planes which could break it tomorrow. I was flying a standard production model."

Capt. Harold E. Collins of Eglin Air Force Base, Fla., also flying an F86D, mdae low altitude upwind and downwind straightaway passes of abut 15 kilometers (about 8 miles) before yesterday's crowd, but the rough weather kept him well under a world's record he made here a week ago: 707.889 m.p.h. The old record is 675.47 m.p.h. was set by Miss Cochran last June 3.

Collins said he believes his time yesterday was a little over 700 m.p.h. He, too, flew a standard ship but said the outside of it had been waxed. He does not believe his record will last beyond next summer before "some new type of plane" excels it.

Tarzan And Lana On Secret Honeymoon

TURIN, Italy (AP)—Lex (Tarzan) Barker and his newest mate, Lana Turner, set off for a secret honeymoon spot today—reportedly the Isle of Capri.

Before departing they sent her daughter and his two sons, all three by previous marriages, to visit friends in Paris. The children had been with Barker and Miss Turner in the villa here of a wealthy Italian textile manufacturer.

For part of the summer the couple had been guests there, and it was there they spent their wedding night.

The beauteous couple were married yesterday in a civil ceremony at Turin's City Hall after a summer-long romantic vacation together in southern Europe's favorite vacation spots.

Barker and Miss Turner exchanged shield-shaped gold wedding rings but put them on their little fingers instead of the traditional third digit. Barker has been married twice before, she four times—twice to the same man.

The couple tried to keep the nuptials secret but photographers awaited them at City Hall. The bride at first threatened to call off the proceedings but finally posed and the 10-minute ceremony was said by Municipal Assessor Emilio Bachi.

The vital statistics:

The bride's costume—Pearl gray dress, ribbon of the same color in her curly, short hair, long orange topcoat, black lacquered sandals, double strand pearl necklace, large topaz ring.

The groom's—Summer weight blue suit and black necktie.

Witnesses — Attorneys Luciano Salza and Guido Abrasino.

Honeymoon house—The villa of a wealthy Italian textile manufacturer where they and their children have been guests.

Bride's previous husbands—Band leader Artie Shaw, Hollywood broker Stephen Crane (twice) and millionaire Bob Topping.

Groom's previous wives—New York socialite Constance Thurber, actress Arlene Dahl.

Her daughter—Cheryl, 10, by Crane.

His sons—Alexander, 6, and Lynn, 4, by Miss Thurber.

Lex, born in Rye, N.Y., is 34. Lana, a product of Wallace, Idaho, is 33.

The muscular Barker entered pictures after World War II Army service and established himself as filmdom's postwar Tarzan. She got into films in 1937, was the original sweater girl and has been a top star for years.

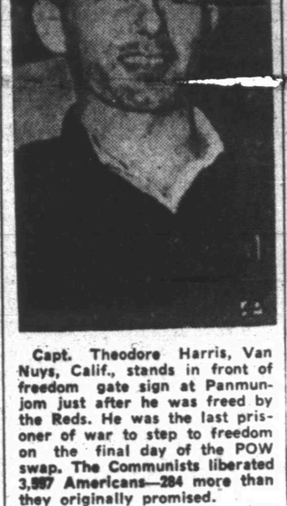

Husband Finds Wife Being Raped, Gets Stabbed In Fight

DALLAS (AP)—A Dallas husband said he found his wife being raped by a Negro when he returned from work early today.

The husband told police he grabbed the intruder, threw him against a dresser and began to pummel him. The Negro drew a knife, stabbed the husband in the arm twice and fled.

Police had not been able to locate the Negro.

The woman said the Negro, believed to be in his early twenties, entered the house about 12:30 a.m. and threatened to kill her if she screamed. The husband arrived about 15 minutes later.

Capt. Theodore Harris, Van Nuys, Calif., stands in front of freedom gate sign at Panmunjom just after he was freed by the Reds. He was the last prisoner of war to step to freedom on the final day of the POW swap. The Communists liberated 3,997 Americans—284 more than they originally promised.

Legion Gives Deaf Children TV Set

AUSTIN, Tex. (AP)—Youngsters at the Texas School for the Deaf had a big surprise waiting for them when school opened today.

It was seven new television sets, the school's first. They were a gift of several American Legion posts.

Burglar Found Living Across From Station

LONG BEACH, Calif. (AP)—Police for [illegible] have been seeking a man suspected of committing a series of burglaries.

Yesterday they arrested a man crouched in the attic of a cafe and said he had chopped a hole in the roof to gain entry. Detectives identified him as Robert Elmer Nicholson, 22, and said he admitted the burglaries.

The whole four months, they learned, he had been living across the street from police headquarters.

Three Teams In District Are To Play Grid Games Tonight

Football season gets underway in District 1-3A tonight when three of the loop's six teams go into their first games of the year.

Breckenridge, state champ in Class 3A last year and new member of this district, will open on its home field against Class 2A Graham.

The Buckaroos, who lost a large number off their team last year, still have Quarterback Kenneth Ford and several other veterans and are reported to be in good shape despite losses.

Coach Joe Kerbel swears that the Bucks will have to play the best game possible to down the Graham squad. He started closed-gate workout sessions this week.

Seats for that game were reported selling out by mid week.

Also playing tonight will be Vernon, which will be out trying for its eleventh win since 1921 from Wichita Falls. The Lions fell to the Class 4A team 21-6 last year, but won 6-0 the previous year after Wichita Falls had had a 10-year winning streak over Vernon.

The Lions have more speed and experience this year, with 18 lettermen back on the field.

Sweetwater, which is plagued with losses from last year's squad, will go to Levelland to meet the powerful Class 2A team that will move into 3A next year.

The Mustangs' backfield is headed by Halfback Angel Olvera, a standout from last year.

The district will not get fully into the season until next week, when Snyder will host Fort Worth Tech, Big Spring will go to San Angelo, Breckenridge will play at Wichita Falls, Altus, Okla., will be at Vernon, Lamesa will go to Midland, and Plainview will meet Lubbock.

Four of the district teams will meet El Paso teams this season. Snyder will play both Bowie and Thomas Jefferson, while Big Spring will meet Austin and Ysleta and El Paso High. Both Vernon and Breckenridge will play Wichita Falls, while Snyder and Levelland are both matched with Lamesa, Breckenridge and Sweetwater both have Abilene on their schedules, and Big Spring and Sweetwater have San Angelo.

Lomeli Leads Eastern Open

BALTIMORE (AP) — "This golf course favors the long hitter and good putter," said Ralph Lomeli after playing Mount Pleasant in the first round of the Eastern Open yesterday.

It was a general appraisal, but the combination sent him around the 6-895-yard course with tremendous greens in 66 strokes, one more than the record and less than par.

It gave him an edge of two strokes on his nearest pursuers, Julius Boros, Mid Pines, N. C., and John O'Donnell, Norfolk, Va. Jammed a stroke behind them were Skee Riegel, Tulsa, Okla., Andy Gibson Baltimore, Dick Mayer, St. Petersburg, Fla., and Avery Beck, Kinston, N. C.

Lomeli never strayed over par and scored six birdies, three on each nine.

Boros, who has been trying unsuccessfully all year to win a tournament, also had six birdies but twice bogeyed. He was five strokes under par at the 211-yard 17th which he bogeyed.

Marasco Sets Two Records

FORT WORTH (AP)—Vic Marasco, Fort Worth's hustling left fielder, set two Texas League records for fielding although he's most noted as a hitter.

A checkup of league statistics for the season shows that Marasco went through 93 consecutive games and accepted 174 chances without error. These are records for left fielders. Ted Del Guercio played 87 games last year with Fort Worth without error while Clarence Maddern of Tulsa accepted 169 total chances without error in 1946.

Marasco it was who hit safely in 15 straight games in late August and early September, batting for an average of .561 in that period.

Vic started the season with Fort Worth and played in 141 games, hitting .306. This despite a flock of injuries.

Season Ticket Sales Will End Tomorrow

Sale of season football tickets will end tomorrow, and sale of reserved seat tickets for the first game will begin next week.

The season tickets, which cover six home games, are $7.20. They are on sale at the school administration building.

The first game will be here next Friday night, when Fort Worth Tech will meet the Tigers.

East Texas Is Favorite Of Lone Star

By The Associated Press

East Texas State is a solid choice to repeat as football champion of the Lone Star Conference in the opinion of the coaches.

The Lions, who went through last season undefeated and have won 19 straight games, were selected by four of the six coaches in the conference to again take away the trophy.

The coaches picked East Texas State with Southwest Texas State to finish second last year, and that's what happened.

This year Southwest Texas is again picked to wind up second. The Bobcats got two first places and four seconds in the poll.

Sam Houston State was rated third, Lamar Tech fourth, Stephen F. Austin fifth and Sul Ross last.

Two of the schools open the season Saturday night. Southwest Texas plays Abilene Christian of the Texas Conference at Abilene while Sul Ross engages McMurry, also of the Texas Conference, at Midland.

The other four schools open the season Sept. 19.

McAlester, Ada Are 2nd Game Winners

By The Associated Press

McAlester and Ada evened the score with Ardmore and Shawnee Friday night in the second game of the Sooner State League playoffs.

The Rockets grabbed a 7-4 victory.

Meanwhile, Ada broke a 3-3 tie in the seventh inning against Shawnee with a two-run rally that gave the Herefords a 5-3 victory.

Friday night McAlester moves back to Ardmore while Ada and Shawnee take a night off. They resume the best-of-five battle tomorrow night at Ada.

Yanks Picked Over Canadians In Meet

MONTREAL (AP)—Henri Rochon swings a racquet with his left hand and Lorne Main swings one with both, but if each had three hands it wouldn't help them much today at the Mount Royal Tennis Club.

They're the Canadians being led to inevitable slaughter by the United States' wrecking crew of Tony Trabert and Vic Seixas in opening singles matches of the American zone Davis Cup final.

Trabert, the new champion of the United States, meets the veteran Rochon at 12:30 p.m. (EST). Immediately afterwards, Seixas, holder of the Wimbledon title, takes on little Lorne Main, Canada's No. 1 player.

Barring a last minute reprieve by the governor general, it should be quick and painless for the gentlemen of the dominion. The Americans are favored to win in straight sets.

Tomorrow Trabert and Seixas hope to clinch the American zone title in doubles match with Main and young Paul Willey, leaving Sunday's final two singles assignments to the team's second stringers—southpaw Bernard Bartzen of San Angelo, Tex., and Straight Clark of Pasadena, Calif.

The Canadians would have to give their approval for a change in the American lineup, but this is normally done as a gesture of good sportsmanship.

Rochon, a spindly-legged French-Canadian who is 29 and who has been playing in these matches since 1946, took Trabert to four sets in the U.S. championships at Forest Hills two years ago but says now he would be lucky to duplicate that feat.

"Tony is much better now," Henri said. "He has more confidence. He serves and hits much stronger."

Rochon himself goes in for a variety of stuff, using slices and chop shots as a mixture with flat drives. But while tricky and a left-hander, he probably will be blown off the court by the Cincinnati youngster's "big game."

Main is a scrappy, 23-year-old retriever who wields a racquet like the switch-hitting Mickey Mantle, using both hands for both backhand and forehand shots. He gets extra power but must take an extra step for most strokes.

Seixas, despite his straight-set loss to Trabert in the Forest Hills fnial, is on top of his game. He should win easily.

The American forces, captained by Lawrence Baker, regard this meeting as a warmup for the challenge round matches against Australia in December.

Full Card In Majors Today

By The Associated Press

A full schedule was on tap Friday for all 16 clubs of the major leagues after only half of the baseballers saw action.

The other half was not scheduled.

Brooklyn in the National League, lost an 11-inning tussle to Cincinnati, 6-5, and idle Milwaukee pulled up a half-game to narrow the Dodgers' lead to 13 big games. The St. Louis Cardinals edged the New York Giants 7-6 in the other game.

In the American League, it was the same old song and dance.

The New York Yankees eked out a 1-0 victory over Texan Paul Richards' Chicago White Sox. By virtue of a 14-4 victory by Boston over Cleveland, the White Sox fell 14 games off the pace. Richards conceded his team had no chance for the pennant. And Thursday night he told sports writers that the Yankees were a great club.

SECOND INNING ACTION IN NEW YORK

This is the scene in front of the Giants' dugout at the Polo Grounds in New York after Dodgers' right fielder Carl Furillo, bareheaded right, (being restrained by No. 49) and Giants' pilot Leo Durocher (left, baldheaded) engaged in a bit of fisticuffs in the second inning. The fight started when Furillo left first base and charged toward the Giants dugout where Durocher came out to meet him. Identifiable players are Jim Hearn (21); Sal Maglie (35); Bill Rigney (18); Davey Williams (10) of the Giants; Joe Black (49) and Russ Meyer (34) of Dodgers. This picture was made by Associated Press Staff Photographer Harry Harris.

TWO-NIGHT STAND

Milwaukee Fans May Get To See Brooklyn Cinch Pennant

By BEN PHLEGAR
AP Sports Writer

The Brooklyn Dodgers, the culprits who kept the Braves from winning it, are going to give the Milwaukee fans a chance to see the National League pennant clinched.

It could be tonight. It might not be until tomorrow. And of course if the Braves are really inspired the brewing capital population may not get to see it at all, since the Dodgers are in town for only two games.

But since an eventual Brooklyn victory ranks close behind death and taxes as a sure thing, the Dodgers almost owe it to the Milwaukee faithful to win right in front of their eyes. More people have seen games in Milwaukee this season than in any other National League city.

It has been in Milwaukee that the Dodgers have done the most damage to the Braves. They have won seven of nine starts at the Braves' home field. The Braves topped them 6-5 at Ebbets Field.

The "magic number" for the Dodgers is two. Any combination of two Brooklyn victories and Milwaukee losses will seal the deal for Charlie Dressen's club. Since a Brooklyn victory either tonight or tomorrow automatically would mean a Milwaukee loss things look bright for the Dodgers.

Brooklyn could have had at least a half share in the pennant nailed down before moving into Milwaukee but it slipped up in Cincinnati yesterday and got beat 6-5 in 11 innings. The Redlegs battered three Dodger pitchers for 18 hits and finally won on a gift run in the 11th. With the bases loaded and none out Clem Labine walked home the winning [illegible].

The Dodgers [illegible] home run records although they hit only [illegible]. Wayne Belardi's blast in the eighth was the 1,101st homer in the National League this season, breaking an all-time loop record. And it was the 195th Brooklyn home run this year, a new high for the club.

In the only other National League game yesterday St. Louis edged New York 7-6. The New York Yankees moved closer to the American League title with a 1-0 triumph over Chicago and Cleveland bowed to Boston 14-4 in the only junior circuit action.

Eddie Lopat outduelled Sandy Consuegra for the Yankee victory with the winning run coming on Gene Woodling's second inning home run into the lower left field stands at Yankee Stadium.

At Boston, Cleveland's stretch drive was halted for only the fourth time in 24 games and the Indians fell 10 games behind the Yankees. Any combination of seven New York victories and Cleveland losses will give the Yankees their fifth straight pennant.

First Services In New Church Building Here

The first services to be held in the sanctuary of the recently completed First Christian Church on Thirty-seventh Street will be Sunday at 11 o'clock, the Rev. Glenn Ricketts announced.

Construction on the new building was started last spring when the estimated cost was set at $65,000. It is a red masonry structure of Colonial style combining the sanctuary and educational building.

The congregation has been meeting in the West Elementery School cafeteria for the past six months.

Prior to that the congregation met in the First Christian Church building at the corner of Avenue S and Twenty-seventh Street. The lot, which the building was on, was sold early in the year and the [illegible].

Membership of the church is approximately 200.

SERMON TOPICS

"See That Ye Abound in This Grace Also" is the title chosen for the sermon to be given by Ted Norton at the Twenty-fifth Street Church of Chirst at 10:45 Sunday morning. He will speak on "The Christian's Inheritance" at the 7:30 service Sunday night. Bible study classes meet at 9:45 Sunday morning and training classes at 6:30 Sunday night.

* * *

The Rev. E. K. Shepherd, pastor of the First Baptist Church, will speak on "God's Conquering Host" at the Sunday morning services of the church.

* * *

The Rev. Glenn Ricketts will speak on the "True Worshipper" at the Sunday morning service in the sanctuary of the new First Christian Church on Thirty-seventh Street. At the 7:30 evening services Mr. Rickett's topic will be "So Near and Yet So Far."

* * *

"What Do You Believe?" will be the sermon topic discussed by the Rev. Woodrow Adcock at the two morning services of the First Methodist Church Sunday morning at 8:45 and 10:55 o'clock. The choir will sing, "Let Not Your Heart Be Troubled" under the direction of Robert Clinton with Wayne Pitner at the organ at the 10:55 service. Mrs. Kirby Tatum will sing the solo part of the anthem. The service will be broadcast from 11 to 12 o'clock over radio station KSNY. Annual Roll Call will be observed at all services of the church Sunday. "Preaching The Word" will be the sermon topic for the Sunday night church service at 7:30.

* * *

"Church Organization" will be the topic of Warder K. Novak's sermon at the 10:45 services at the Thirty-seventh Street Church of Christ Sunday morning. At the 7:30 evening services his subject is to be "Inspiration of the Bible." Mr. Novak also has a radio program each Wednesday afternoon at 12:15 over KSNY.

State Mission Week

A special observance of state mission week will be held by the women of the First Baptist Church WMU Monday through Friday next week. The meetings will be at 9:30 each morning with the exception of Wednesday when the meeting will at that night at 7:45.

REAL ESTATE M

FARMS—RANCHES M-6

FOR SALE

A real nice 160 acres of land located about four miles Southeast of Colorado City. Modern five-room house, carport, well and mill, public road, school bus line and all city conveniences. Price $150.00 per acre. It is real good land.

We also are agents for that good old San Luis Colorado irrigation lands. The cheapest we found in many a day. Potatoes makes from 250 to 350 sacks per acre, sell for $2.00 per sack. Wheat making around 75 bushels, Oats 100 bushels, barley fine, and good alfalfa land. Just think, you can buy raw land from $10.00 to $35.00 per acre. Good terms if wanted.

We have a few G. I. places for sale at reasonable prices. We sell and swap when others fail.

Auxiliary Of Church Formed

One of Snyder's newest church organizations, the Women's Auxiliary of St. John's Episcopal Church, has set itself a major project for its first months of activity.

The group is planning now to help furnish and decorate the church building which is now under construction on Fortieth Street. The auxiliary is sponsoring its first fund-raising project, a bake sale at Piggly Wiggly from 9 to 12 Saturday morning, and eagerly awaiting its outcome.

The auxiliary was organized in the spring with the help of Mrs. Robert Purrington of Sweetwater. Her husband, who is pastor of the Sweetwater congregation, also serves the congregation here. Mrs. B. A. McAlister was elected president. Mrs. Jack Neale, is vice president; and Mrs. Charles McCaleb, secretary-treasurer. Other members are Mrs. Harland S. Birdwell, Mrs. Robert Patterson, Mrs. Robert G. Wilson, Mrs. C. B. Keever, Mrs. Thomas Hartley, Mrs. Charles Lamb, Mrs. Lucille Bridges and Mrs. Henry Thornton.

The auxiliary now meets in the homes of its members and many of the members became acquainted through these meetings. Several of the members had no previous experience with auxiliary work, Mrs. McAlsiter said, but attendance has been very good for a beginning group.

Miss Periman Hostsss For Class Monday

Miss Vera Periman was hostess for a meeting of the Business Women's circle of the First Baptist Church Monday night.

Mrs. C. W. Youngblood presented the program, discussing the advance in missionary work. Pictures of the Glorieta encampment, made by Mrs. S. L. Terry and Miss Periman, were also shown.

Sixteen members and two guests were present.

WMU To Colorado To Monday Meeting

The annual Scurry-Mitchell Baptist Associational meeting will be held Monday and Tuesday in the First Baptist Church of Colorado City.

The WMU portion of that meeting will be Monday afternoon at 3 o'clock. Theme will be "The Harvest."

Mrs. S. B. Swearinger, district president will install new WMU officers. They will be Mrs. Ralph Wesson, president, Mrs. Stanley Hill, vice president and Mrs. D. V. Merritt, corresponding secretary.

A dinner will be held at 6 o'clock that night.

Study Program Set Out For Youth Of Church

The Christian Youth Fellowship will meet at 6 o'clock Sunday night at the new First Christian Church. The discussion subject for the next two Sundays will be "The History of the Disciples of Christ." The minister, the Rev. Glenn Ricketts, will serve as resource leader for this study.

Wiener Roast Held

A wiener roast was held last night for the young people of the Thirty-seventh Street Church of Christ at the Seabourne Eicke home.

'Dust' Would Eradicate An Entire Nation

TUCSON, Ariz. (AP)—A terrible, but still undeveloped new atomic weapon—a "dust bomb"—today may be used to render the food supply of whole nations useless.

This is the disclosure of a University of Arizona biochemist after 2½ years of secret research here.

Dr. Wallace H. Fuller, working on special assignment for the Atomic Energy Commission, said force could be produced from radioactive strontium.

"It could cripple the food supply of large areas of land," Fuller said.

"Conceivably, it might rival even the deadly cobalt bomb as a weapon of war."

The Arizona professor said radioactive strontium could cause sickness or death if built up in sufficient amount. "Potentially it is the most biologically hazardous of the fission products," he explained.

Planes, he said, could drop it in the form of dust and it would contaminate crops, lands and water supplies.

Continued Dr. Fuller:

"Radioactive strontium could be introduced into the human or animal body by many means, by contamnated water, directly contaminated food crops or by food crops grown in contaminated soil.

"If animals should eat forage, such as grasses or alfalfa, that contain radio-strontium, the radioactivity would concentrate in their bones.

"If large enough concentrations were available blood-forming cells would be eliminated or injured. Radiation sickness or death would result.

"In cows or goats, the radio-strontium would concentrate in the milk that is used for human consumption. In this way the lethal radiation might be transferred to man.

"Man also could get it by consuming leafy vegetables as well as other edible parts of plants . . ."

Internship For Young Lawyers In St. Louis

ST. LOUIS (AP)—Young lawyers in St. Louis will be able to serve "internships" to get courtroom experience.

Everett Hullverson, president of the Lawyers' Association of St. Louis, said yesterday he believes it is the first such plan in the nation.

Veteran trial lawyers will take the newcomers to the profession under their wings for about five jury trials, he said.

Junior Patrol Saves A Life

CHICAGO (AP)—James Carr, a 13-year-old school patrol boy, snatched a frightened 12-year-old girl from under the wheels of a moving Rock Island Railroad passenger train yesterday.

James, who patrols a crossing on the far southwest side, said four girls were on the tracks when he noticed a suburban train approaching. He chased three of them off the track but the fourth, Kathleen Serafin, told him, "I can't make it, I'm sick."

Kathleen fell as James attempted her legs still were lying across the track as the train neared.

Engineer Harold Willet told of the rescue:

"I was making an emergency stop when I saw the boy dart back and pull the girl's leg away in just the split second before the wheels of my engine reached the spot. That was a brave boy."

"I didn't do anything much," James told police in relating the incident. "That's what they gave me this white belt for."

Christian Men To Meet

The regular monthly meeting of the Christian Men's Fellowship will be held in the fellowship hall of the First Christian Church next Thursday night at 7:30. K. A. Barrier is to serve as host for the meeting. Plans will be made for a district fellowship meeting Oct. 15.

Singing Convention Is Set For Sunday

A four-county singing convention has been scheduled in the Hermleigh gymnasium Sunday morning at 11 o'clock, Eddie Williams, convention chairman of the Hobbs community, has announced.

Mitchell, Nolan, Fisher and Scurry Counties will be participating. Several singing groups will attend. Each person is asked to bring his own lunch.

Bible Study For Group

The Bible study of the Christian Women's Fellowship will be held at the church Monday. Mrs. Glenn W. Ricketts will lead the study of "Evangelism in The New Testament."

STARS DIDN'T SHOW

Underwater TV Program Was Almost Complete Flop

By FRANK CAREY
AP Science Reporter

ABOARD THE U. S. NAVAL LAUNCH IMPULSE ON LAKE ENDOTA, Wis., (AP)—It looked for awhile as though the first American test of a unique Canadian underwater television system would be a complete flop—with nary a fish on the program.

It even looked for a time as though Canadian-American relations might cool on a small scale, because the Canadian technicians operating the equipment started remarking about the "turbidity" of Lake Mendota's waters — and saying how top-hole jolly the underwater TV conditions are in Canada's Lake Minnewanka.

Matters weren't helped when observers vainly watching for a fish on the TV screen linked with $10,000 worth of equipment dunked in the lake, saw a woman aboard a small boat nearby haul in a couple of beautiful perch with a drop line.

But the fish finally showed up—and if there had been an audience reaction recorder on board, they would have wound up with the highest Hooper rating of the week.

Only Dr. Arthur Hasler, University of Wisconsin expert on fish, remained relatively calm as perch after perch paraded into view.

"I wasn't worried a bit all along," he vowed. "The perch just hadn't come home from work, you might say. Their appearance in large numbers right around sundown in this particular area gives TV confirmation of something we previously learned with echo-sounding equipment and through the direct observation of divers."

Hasler contends most of the perch spend the whole day mooching around in deep waters some distance from where we were—and then bed down for the night in contact with an "underwater shelf" just beneath our boat.

It was Dr. Hasler who arranged for the demonstration yesterday by the Canadians on the final day of the annual meeting of the American Institute of Biological Sciences.

The Canadians, representing the dominion's National Research Council, said there are only a few specially designed underwater TV systems in the world and that their's is the only known one that has built-in propulsion.

The camera is housed in a waterproof steel cylinder which is equipped with motors and propellers allowing the device to move around under water like a tiny submarine—to the limit of a 500 foot cable. It can reverse and move in circles and can be pitched at a 45-degree angle up or down. All the actions are controllable from a switchboard alongside the TV screen [illegible] boat.

A very wise Teacher of the long ago once said, "Man cannot live by bread alone." There are hungers of the mind and soul that things material can never satisfy.

Sometimes they come in the form of trials and sorrows. Sometimes they are aspirations that bid us soar to heights we have never dared attempt. Howsoever they appear, they often go unmet because we fail to understand their nature.

The lovely little refugee in the picture is passing through an agony of heart. But she seems to have learned a great secret: that the only source of power adequate for her needs is GOD! And she is looking to Him.

Yes, God and God alone is the answer to the deepest needs that man can know. As we give our best to Him, He gives His best to us! And the God-directed life finds a satisfaction and a joy that can come from no other source.

That God and the individual may be brought together in vital relationship is the purpose of the Church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

ALL RIGHT -- LET US JUDGE ALL RELIGION BY THE BIBLE

Ted Norton

The above suggestion is a good one. It is true that not every one in the religious world accepts the Bible as the sole authority, but nearly all religious people would contend that the Bible does not conflict with their tradition and doctrine. Let us make a list of what is practiced in our religion and then find the verse in the Bible that supports that practice. If there is no such scripture, then our religion has fallen—the Bible being the judge.

The Bible does not need to mention a religious act by name, but the act must be found recorded on the pages of the New Testament. All men will accept the names of such acts as "the mass," "baptism", "sacrament", "confirmation", "penance", "holy orders", "Lord's supper", "Lord's day"—or any other names, if the practice can be found in the Bible.

Try the above list. Does the Bible teach that all men should be baptized? (Mark 16: 15,16; Acts 2: 38). Is the mass, "a sequence of prayers and ceremonies" in which the literal body and blood of Christ appear on the altar to be sacrificed again—is the mass taught in the Bible? (Where is the text?) Does the Bible teach that the bread and wine of the Lord's table will become literal flesh and blood to those who eat at the table? (Where is the text?). Does the Bible teach that matrimony is a rite to be celebrated by the clergyman of only one denomination and that all other marriages are merely adulterous unions? (Where is the text?). Does the Bible teach that certain clergymen alone have the right to give "holy orders"? (Where is the text?). Does the Bible teach that Christ or the apostles committed the power of forgiveness of sins to any man living today? (Where is the text?). Does the Bible teach that Christ appointed any man as His personal representative on earth? (Where is the text?).

The teaching of Christ is to be found in the New Testament. ". . . the word that I have spoken, the same shall judge him in the last day." (John 12:48b). "But these are written that ye might believe that Jesus is the Christ, the Son of God; . . . (John 20:31). "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction,, for instruction in righteousness: That the man of God may be perfect, thoroughly furnished unto all good works." (2 Tim. 3:16,17).

All men will be judged by "what is written." ". . . the dead were judged out of those things which were written in the books, according to their works." (Rev. 20:12b). The New Testament is the "rule" by which Christians are to guide their lives (1 Cor. 14:37). Futhermore, the New Testament is the only rule by which men should guide their lives (1 Cor. 4:6).

QUITS IKE'S CABINET

Martin P Durkin poses in Washington after resigning as secretary of labor. Durkin, the only Democrat in the cabinet of President Eisenhower, is the first member of the cabinet to resign. Durkin told a news conference he resigned because the Eisenhower administration ran-out on pledges to change the Taft-Hartley labor law.

Japanese Prince Is Lavish Party Giver

WASHINGTON (AP) — Crown Prince Akihito of Japan turned host to top Washington officials last night—and as a result more of them know the delights of Japanese cooking.

The youthful heir entertained about 30 high ranking guests at a stag dinner at the Sheraton-Carlton Hotel. Afterwards most of them adjourned to a reception at the Japanese Embassy given by Ambassador Eikichi Araki.

There was some American food at the embassy, but most of the estimated 450-500 guests passed it over in favor of such items as:

Yakitori—Chicken and green onions broiled over charcoal.

Sukiyaki — Beef and vegetables cooked in soy sauce.

Sushi — Japanese rice balls wrapped in seaweed.

The native dishes, which most Americans found a lot easier to eat than pronounce, were served up in the embassy garden by a Japanese chef. The garden was decorated with lanterns sent from Japan especially for the occasion.

Guest of honor was Secretary of State Dulles, who had been host the night before to the young prince at a similar affair.

As they did Wednesday night, Dulles and the prince exchanged toasts to President Eisenhower and the Japanese Emperor and voiced expressions of good will between their two countries.

Dulles was accompanied last night by such ranking American officials as Secretary of the Treasury Humphrey and Secretary of the Interior McKay; Adm. Arthur W. Radford, chairman of the Joint Chiefs of Staff; Gen. Matthew Ridgway, Army chief of staff; Gen. Nathan Twining, Air Force chief of staff; and Gen. Lemuel Shepherd, Marine Corps commandant.

The banquet turned into a stag affair when Secretary of Health-Education-Welfare Oveta Culp Hobby, the only woman member of the Eisenhower Cabinet, was unable to attend. Many of the banquet guests were joined by their wives when they proceeded to the reception which followed.

The festivities capped a day highlighted earlier by a 20-minute chat between the prince and President Eisenhower, who had flown in for the day from his Colorado vacation.

The nattily dressed monarch-to-be presented Eisenhower, on behalf of the Emperor of Japan, a hand-embroidered silk screen of many colors.

Afterwards, Akihito told a battery of newsmen, motion picture and TV cameras that he had a very pleasant talk with Eisenhower.

The 19-year-old prince faces more journalists today: a reception at the National Press Club.

Tonight he plans to dine with a half dozen young friends he knew Tokyo.

The personal dinner this evening is expected to wind up Akihito's two day visit to the American capital. Tomorrow he travels to historic Williamsburg, Va., the next stop on his month-long tour of the country.

The prince is on his way back to Japan after having attended the coronation of Queen Elizabeth in London.

Skin Blemishes Get Vitamin A Ointment

By LTON L. BLAKESLEE
Associated Press Staff Writer

CHICAGO (AP)—Ointments feeding vitamin A through the skin to clear up skin troubles are promised by findings reported today to the American Chemical Society.

Some of the lotions put on the skin even cured generalized vitamin A deficiencies in mice, said Drs. Albert Edward Sobel and Abraham Rosenberg of Jewish Hospital of Brooklyn, N.Y.

Many skin ailments, including some forms of pimples, warts, rashes and inflammations, all show a common sign of vitamin A deficiency, the chemists said.

Big daily tablets of vitamin A help correct these troubles, but too much vitamin can cause other upsets. The skin troubles don't appear to be due to general lack of vitamin A, they find, but to some failure within the body to supply the skin with enough vitamin.

The chemists reasoned it would be better treatment if the skin could get vitamin A directly, from lotions.

They fed mice diets lacking in vitamin A. The mice stopped growing, developed an eye trouble and other signs of too little vitamin. When lotions containing the vitamin were placed on shaved spots on their heads, they recovered, showing that they absorbed the vitamin through the skin.

Most effective were the two preparations, often used on babies' skin, containing vitamin A. This method of treating skin troubles has not yet been tested on humans.

Vanishing needles which give off radioactive rays to kill cancers were reported by Cmdr. H. C. Dudley, U.S. Naval Hospital at St.Albans, N.Y.

The needles are made from a molten mixture of germanium dioxide and radioactive titanium phosphate. Threads drawn from the mixture solidify into glass-like needles which can be put into a tumor in the body.

For about two weeks, the radioactive phosphorus stays put, delivering rays to hit the cancer. It can't wander off elsewhere in the body, where it could cause other damage until its rays are gone. Then the germanium part of the needle dissolves slowly and is eliminated from the body without harmful effect, Dudley said.

Used so far only on animals, the needles permit radiating cancers at any desired spot with a minimum of damage to nearby healthy tissue, he said. They would be useful in treating tumors not reached by other forms of radiation.

The Greatest Gasoline Development in 31 Years

New Conoco Super Gasoline with TCP*

Boosts power as much as 15%! Increases spark-plug life up to 150%! Gives you extra gas mileage, too!

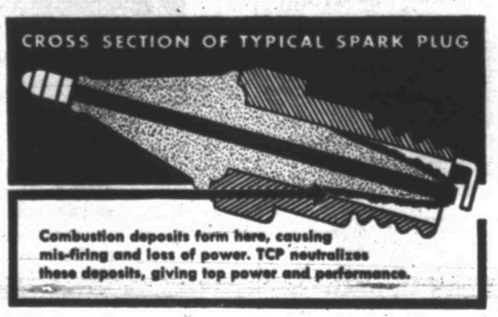

Here's the most revolutionary advance in motor fuels since the introduction of tetraethyl lead in 1922—new Conoco Super Gasoline with TCP, brought to you by special arrangement with Shell Oil Company. TCP is Shell's trademark for the remarkable additive originally developed for aviation fuels.

Now you can actually enjoy the benefits of an engine tune-up—just by changing to new Conoco Super Gasoline. Chances are, by the time you've finished your second tankful, you'll *feel* the increase in power. And you'll *keep* that extra power just as long as you use Conoco Super.

For Conoco Super with TCP is a *new kind* of gasoline. It overcomes the greatest single cause of power loss affecting most of the cars on the road today. Now, you can enjoy *all* the power that was built into your car.

Why you need Conoco Super Gasoline with TCP

In the average automobile, the by-products of fuel combustion constantly build up deposits on spark plugs and in combustion chambers. These deposits can "cheat" you of power in two ways. *First*, they actually short-circuit your spark plugs. This causes mis-firing. *Second*, deposits in the combustion chamber get red hot and cause the fuel to ignite before it should. This is called pre-ignition or "wild ping." The effect of fouled spark plugs and pre-ignition is a loss in power and a waste of gasoline.

Combustion deposits form here, causing mis-firing and loss of power. TCP neutralizes these deposits, giving top power and performance.

How TCP works

TCP is a special chemical additive which is added to Conoco Super Gasoline. It was specifically developed to overcome the loss of power and fuel caused by combustion deposits. TCP neutralizes harmful deposits on spark plugs—your plugs spark as they should. It prevents deposits in the combustion chambers from causing pre-ignition—"wild ping" is controlled. Thus, every time you fill up with new Conoco Super, it's like getting your spark plugs cleaned and your engine tuned-up.

TCP helps your car, whether new or old

If you are driving a new car, with a high-compression engine, you need Conoco Super Gasoline to keep your car delivering all the power that was built into it. It will actually increase spark-plug life up to 150%. If you drive an older car, with tens of thousands of miles on the speedometer, Conoco Super can *restore* much of the "new-car" performance and power you've been missing.

Yes, a great new era in motoring is here for you. Drive into your Conoco station today and fill your tank with new Conoco Super Gasoline with TCP: You'll *feel* the difference by the second tankful!

Questions and answers about New Conoco Super Gasoline with TCP

Q. What is TCP?

Answer. It is a cresyl compound, originally developed for aviation gasoline and used with great success in both military and commercial aircraft.

Q. Has TCP been tested?

Answer. Yes, for millions of miles, in all kinds of cars, under all kinds of driving conditions.

Q. What does TCP do?

Answer. It overcomes the power loss caused by deposits on spark plugs and in combustion chambers.

Q. What does TCP do for new cars?

Answer. It helps them keep their original power.

Q. What does it do for older cars?

Answer. It's like cleaning your spark plugs and getting a motor tune-up. You'll get back much of the power you're now missing.
