Thanksgiving

CONGRESSIONAL RACE SAN ANTONIO CALLS FOR INVESTIGATION

On recommendation of District Attorney Lamar Seelgson, Judge W. W. McCrory Monday ordered the Ninety-Fourth District Court grand jury to conduct an investigation into alleged irregularities in the handling of the congressional race in the recent general election. Complete official returns had indicated the election of Augustus J. McCloskey, Democrat, to succeed Congressman Harry M. Wurzbach, Republican, of the Fourteenth District.

This action brought to a sudden halt the court of inquiry investigation which began in Ninety-Fourth Court last Friday. The evidence, adduced at this hearing, together with that of several independent witnesses now under subpoena, will go to the inquisitorial body next Tuesday morning.

The sudden change in plans came Monday morning after Congressman Wurzbach had rejected a proposal made by his Democratic opponent, Judge McCloskey, that a Bexar County District Court be authorized to recount the ballots cast in this county in the congressional race.

Mr. Wurzbach characterized the proposal as "impracticable and legally impossible."

"It is my recommendation that a charge be given immediately to the grand jury to continue this investigation," District Attorney Seelgson told the court when he appeared Monday morning to recessed Saturday noon. "I make this recommendation in as much as the grand jury is a body which can act."

Judge McCrory then instructed the District Attorney to prepare his record of the court of inquiry, together with a list of additional witnesses which have not yet appeared.

"The grand jury will start its investigation Tuesday," Judge McCrory said.

Judge McCrory said he would send down instructions at once to the grand jury to take up the investigation and the list of witnesses and the court of inquiry record would be transmitted to it Tuesday of next week.

**REV. M. F. HILL ATTENDS
SAN ANGELO MEETING**

Rev. Milton F. Hill, pastor of the Junction Methodist Church, attended the district meeting of the ministers and laymen of the San Angelo district in that city last Thursday and Friday. Brother Hill reports about eighty ministers and laymen from the district present to plan the work for the new year just beginning.

The district had an unusual report at the recent meeting of the conference at San Antonio, and it is the desire and prayer of the preachers of the district to go to the conference next fall with a report equally as good.

Sunday Mr. and Mrs. Bill Bissett of San Angelo were the guests of their grandmother, Mrs. E. A. Bissett.

WEATHER REPORT

Various kinds of weather have visited this section since our last issue. There has been no ice, but part of the time it has been rather cold. It began raining slowly Monday morning and continued for thirty-six hours. Less than one inch fell in Junction. The sun shone out awhile Tuesday afternoon, and again this afternoon (Wednesday). Everyone is hoping for a fair day tomorrow for Thanksgiving.

Mrs. F. L. Young Opens New Vogue Saturday

Mrs. F. L. Young of San Angelo has purchased the Vogue Shoppe from Mesdames Turner and McDonald and will move it to the new Blackburn building on the west side of square. The opening will be held Saturday, December 1. A representative of the Marion Hat and Dress Company of San Antonio will be here all day Saturday with an exclusive line of ladies' ready-to-wear. Mrs. Young says that a beautiful line of spring coats, dresses and hats will be on display at the opening Saturday.

In addition to the ladies' ready-to-wear, an exclusive line of novelties and gifts suitable for all occasions will be carried by Mrs. Young. A beautiful line of lingerie will form a part of her new shop.

Mrs. Young is well known in this section and she invites her friends from London, Menard and other communities to visit her in her new Vogue on the west side of the square.

JUNCTION GIRLS PLAY 6 GAMES AND WIN 6

Saturday, November 23, the Junction basketball team played Sonora on her home court.

This was, without doubt, the fastest game of the season. Sonora was fighting to win, but our girls' unusual ability in passing and teamwork won the victory.

Both teams gave evidence of persistent training and good sportsmanship. The honor of the victory goes to our team. Our guards were sure and our forwards never missed. The score ended 51-15 in favor of Junction.

Boost for the coming game with Kerrville.

Junction line-up: Forwards—Nevada Blackburn, Tempie Boone.

Center—Ruth Sandherr, Elsie Bessent.

Guard—Marjorie Montgomery, Lorena Couey.

Mr. and Mrs. Frank Patterson, accompanied by Mrs. Geo. Cavaness and Mildred, Mrs. Mattie Patterson and Patricia, went to San Antonio last week-end. All except Mr. Patterson returned Sunday afternoon. He remained for the Scottish Rite degrees conferred the first of the week.

Our National Holiday

There are holidays and holidays. Christmas and New Years are cosmopolitan—are the property of no particular people, but yet are joyously observed by many. Thanksgiving is purely an American holiday, original in conception and growing from a small beginning until it has reached the dignity of a national event. Its first celebration was by the Plymouth colony in 1621—those sturdy pioneers whose piety was as pronounced as their pluck, who honored themselves by honoring their God. The custom soon became more general, spreading over all the New England states. After the revolution it gradually extended to the middle states and later to the west, growing more slowly in the south. In 1863 President Lincoln forever established it in the list of holidays by proclaiming it a day of thanksgiving, his action being promptly followed by the individual proclamation of the governors of the states, who named the day. Since then, by common consent, the first announcement of the day is found in the president's proclamation, and the day so named is also named by the states, which for many years has been the last Thursday in November.

Schreiner High Wins From Rocksprings

The Schreiner High football team finished its season Saturday by defeating Rocksprings with a score of 7 to 6 on the opponent's field.

The game was hard fought from the first whistle to the last. Rocksprings scored their touchdown in the second quarter but with Hubbell's hard hitting through the line, Richardson's long end runs, and Johnson's good interference with the fast charging line, the Eagles went for their touchdown. Richardson carried the ball over the line for the six points, and Hubbell plowed the line for the extra point.

This game probably ended all football that seven of the players will ever play in high school as this is their last year in high school.

Social Meeting For Men's Bible Class

The Men's Bible Class of the Methodist Sunday School will have a business and social meeting Thursday, December 6, in the Sunday School room of the church. The meeting begins at 7:30 p. m.

The members and friends of the class are invited to this meeting, and a very fine social evening is anticipated. Three members of the class, noted as judges of good eatables, have been appointed as a committee on refreshments. The class has had a fine attendance and splendid interest, and a monthly social meeting will be a regular feature during the coming year.

Mr. Millard Bennett was in from the ranch last Saturday.

Home Building Era Opens In Junction

Mr. and Mrs. Luther McDonald will move into their new home this week if the weather favors up so the decorator can put the finishing touches on the interior. They are just completing a beautiful concrete home on College Street just southeast of the court house. The house has five rooms, breakfast nook and bath. The bedroom is stippled in green, cream and pink which gives it a pleasing effect, while three other rooms have a tiffany finish in three shades of brown.

This young couple has spared neither money nor effort to build them a real modern home. The era of modern home building began in Junction a short time ago, and it is believed that many new homes will be built within the next two years. From time to time good houses have been built, but the time has come when many are planning to rebuild larger and better homes. Judge Weaver H. Baker is beginning a \$10,000 home on the street leading to Kimble Court. Still other houses are under construction, and Junction is fast taking her place among the towns of beautiful homes.

Some of the golf enthusiasts were rather restless the first of the week when the course was too muddy to use. Junction has a good course and many good golf players. We have had no reports this week of anyone making an ace. There are two preachers in town that hope to make one sometime. They are both practicing when the weather permits.

THANKSGIVING DINNER

Many turkeys are making their last run today. The crop of both wild and tame turkeys are short this season, and some of our people say that they will have to have venison for their Thanksgiving dinner. And then there are some of us who will have to content ourselves with a good fat hen, chevon, mutton or beef roast. All of these grow in Kimble County and there will not be any hungry people in the Hill Country.

Another Forward Step By Junction School

The school board of the Junction High School has had the old lumber building on the school ground remodeled and made into a suitable V. A. farm shop, a shower bath for the athletes, and a janitor's room. The vocational agriculture class has taken up the job of painting it and the appearance of things in general will be very much improved. This is an improvement that was badly needed and we wish to thank the trustees for their good deed. The boys are learning how to mix paint and use it. Most of them had never done any painting before but they are learning fast and we feel sure that under the instructions of our V. A. teacher they will do a good job. They are also learning how to clean the paint brushes and how to care for them when not in use.

The boys have also stained the equipment storage cabinet in the V. A. class room, thereby improving the general appearance of the room.

Boy Scout Leaders Plan Meeting Dec. 7

Determined efforts are being put forth by M. Awbrey and others to organize a live troop of boy scouts in Junction. Plans have been perfected for an all day training course in "Boy Leadership" on Mr. Keen's ranch just west of Junction, December 7.

Elsewhere in this issue is an extended notice of the work that the local committee hopes to accomplish in the meeting on December 7. Every man who has a boy, or is interested in his neighbor's boy is invited, requested and urged to be present at the Keen Ranch on the above date.

The following is the personnel of the men interested in putting over this movement in Junction: M. Awbrey, chairman; E. R. Borden, finance officer; A. P. Boyett, scout master; A. W. Loeffler, advancement officer; Clay Secrest, activity officer.

Mr. J. U. Goodwin, formerly a member of the Eagle, but now with the Rocksprings Record, passed through Junction last Friday on his way to Mason County for a hunting trip.

Many Junction citizens left last night and this morning for Austin to see the Texas-A. & M. game.

SAN ANTONIO IS HOST TO TEXAS TEACHERS IN ANNUAL SESSION

"A Democratic School System for Texas" is announced as the outstanding theme of the golden anniversary convention of the Texas State Teachers' Association held in San Antonio Thursday, Friday and Saturday of this week. A major matter of business to receive attention is the proposed removal of the association's headquarters from Fort Worth to Austin or some other city where a permanent headquarters office building would be erected.

A lively campaign is being waged in behalf of candidates for president to succeed W. L. Hughes of the Texas A. & M. College. The election of officers and choice of next meeting place will take place Saturday. Two candidates for the presidency are Rush Caldwell of the Dallas Technical High School and J. C. Cochran, superintendent of schools at Del Rio.

The first general session of the convention will be held Thursday evening, when President Hughes' annual address will be delivered. Other speakers will include P. L. Marquis, president, North Texas Teachers' College, Denton; T. H. Harris, Louisiana State Superintendent of Schools, Baton Rouge; S. M. N. Marrs, Texas State Superintendent; E. S. Richardson, Minden, La. Greetings will be extended by Mayor C. M. Chambers, San Antonio; Homer D. Wade, manager, West Texas Chamber of Commerce, and Mrs. W. R. Potter of Bowie, former president of the Texas Federation of Women's Clubs.

Among other outstanding educators who will be heard on the program are Dean Thomas H. Shelby of the University of Texas, Dr. P. W. Horn, president of the Texas Technological College, Lubbock; Dr. R. G. Reynolds, teachers' college, Columbia University; Dr. T. O. Walton, president of Texas A. & M. College; Mrs. Catherine M. Cook of the Bureau of Education, Washington; L. H. Dennis of Pittsburgh, Pa., assistant superintendent of schools, Dr. W. B. Bizzell, president of Oklahoma University, Norman; Mrs. Noyes Darling Smith of Austin, president of the Texas Congress of Mothers and the Parent-Teacher Association; Miss Anna E. Richardson, field worker in child development and parental education of the American Home Economics Association, and William Allen White, Emporia, Kan., editor and author.

REV. G. W. CRABB MEETS COMMITTEE IN BRADY

Rev. G. W. Crabb spent last Friday in Brady with the officers and program committee of the Menard Baptist encampment. Brother Crabb was made a member of the program committee and the executive board. He was also elected vice president of the encampment.

A tentative program was arranged and the time set for the encampment to be held in July. The Menard grounds are as beautiful as can be found in Texas and the committee is planning an entertaining program.

Heart o' the Hills Fish Hatchery

The following article about the Heart o' the Hills fish hatchery appeared in the November 24 issue of Farm and Ranch. Our beautiful Llanos receive fish from this hatchery.

"High up the Guadalupe river is the Heart o' the Hills fish hatchery, where the State fish and game commission raises little fish for restocking Texas waters. There are 30 acres in ponds, and 600,000 baby fish were shipped from them in 1927. With greatly increased numbers of breeders, the hatchery may soon be sending out 1,000,000 fish a year.

"Black bass, cat, bream, and crappie are the species hatched here. Rainbow trout have been tried, but live only in the cold waters fresh from the spring. They may be seen racing up the ditches, but will not live in the ponds. The hatchery sent out 48,000 young black bass in June of this year.

"The black bass spawns in March and April," says R. D. Inscore, who watches the ponds as carefully as the chicken raiser watches his incubator. "A 3-pound bass will lay 5,000 to 6,000 eggs, of which 80% will hatch, and about 40% will survive," he continued. "The female spreads the eggs on the gravel in a circular patch. The male then fertilizes them and stands guard over them until they hatch, which is from seven to eleven days. All this time he floats just above the eggs, 'fanning' them by turning round and round, and after they are hatched he still watches over the young for about two weeks, or as long as they remain in schools.

"The young bass when hatched is about the size of a pinhead, and is supplied with food to last about twenty days. He grows rapidly, and then be-

gins feeding on microscopic animalcules in the water. Soon he outgrows this and wants something larger, so if food is scarce, the larger ones begin eating the smaller. Even the daddy who has so carefully watched over his young will turn cannibal and destroy them if he gets hungry.

"We raise daphne in troughs to feed the little bass, and minnows to feed the larger ones. Beef heart is fed twice or three times a week in liberal quantities to the larger fish also. A bass will grow an inch a month for the first year, and the young are ready to ship at six weeks to two months of age."

"There are 600 black bass for breeding in one of the ponds; they weigh from 1½ to 7 pounds, according to Mr. Inscore. They begin spawning at one year of age. Catfish spawn in June and July, about the time young bass are ready to send out to other waters.

"The Heart o' the Hills hatchery is supplied by a spring up in the hills and the water is guided through a series of flumes and ditches to the ponds, flowing by gravity all the way. It is one of the most beautiful in the State, and Superintendent E. C. Brady is to be congratulated on keeping it in attractive condition. Visitors are numerous and always welcome, for, after all, it belongs to Texas people.

"The fish and game commission maintains a number of other hatcheries in different parts of the State, from which fish may be secured to stock local waters. 'An acre of water planted to fish will produce more food than an acre of land planted to any other crop,' was a favorite saying of Colonel Frank Holland."

Miss Tyler E. Wilkinson, Mrs. Horace Ross and daughter, Miss Frances Ross, of Del Rio are guests of Mr. and Mrs. M. Wilkinson.

Big dance Friday night, November 30, at Rock Springs, Dismuke's hall. Music by Micky Rathbone's Virgians. Come and enjoy yourself. 32-2p

ARGUE STATE'S RIGHT TO FIX GASOLINE PRICE

Washington, Nov. 23.—The right of States to fix the price at which gasoline shall be sold within their borders, presented in two cases appealed by Tennessee, was argued Friday in the Supreme Court. In view of the importance of the issue, the court granted counsel on both sides additional time for the presentation of their arguments.

Charles T. Cates, for Tennessee, opened the argument in cases which the Standard Oil Company of Louisiana and the Texas Company had won when they challenged the constitutionality of the law in the lower courts. He insisted that the law was constitutional under the police powers of the State to protect consumers against monopoly and unreasonable prices.

'POSSUM PRICES UNJUST

'Possums, we are told, are now quoted at 20 cents a pound. This is carrying the poundage question entirely too far, and it may so spread the reign of terror that a revolution will follow. 'Possums are not articles of merchandise; like the air above us and the water that runs in the branches, they belong to the public. Catching 'Possums is not work; it is diversion, pure and simple, and a fellow might as well ask pay for chasing and capturing a marsupial. And 'possum is not a food product. Only those who wish to show that their mouths and stomachs won't take a dare ever eat a naked-tail woods rat, but even if it isn't a food product the government should not permit the people to be held up by such 'possum prices. If you must sell a 'possum, sell it at so much a 'possum, not so much a pound. One 'possum is worth as little as another.—Honey Grove Signal.

TRESPASS NOTICE
Hunting and trapping is positively forbidden on my place, and all violations will be prosecuted.

PEANUT ROLLER SENDS GOOBER TO GOV. SMITH

Brownsville, Nov. 23.—Gov. Alfred E. Smith is going to get a present from one who styles himself "another good loser."

That gift will be nothing less than the peanut with which Bill Williams finished his eleven-mile nose-goobar-rolling trip. Williams nosed it across a white line in Harlingen Thursday, completing his jaunt from Rio Hondo in slightly more than nine days—a trip necessary because he lost an election bet on the New York Governor.

The goobar is to be enclosed in a silver embossed box, on which will be engraved: "From One Good Loser to Another."

Accompanying the present is to be a request from Williams for Smith's autographed photograph.

"If I get it I will feel repaid," Williams said.

We have a few choice suits left. Let us show you them.

County News

SEGOVIA SIFTINGS

Segovia school is progressing nicely and the pupils are working hard to pass their examinations for the third month of school.

We are sorry that our box supper had to be postponed due to account of the illness of Mrs. Williams and Miss Cartwright's being called away because of illness in her family it was impossible to proceed. We hope to be able to carry out our plans at a future date and will expect a large crowd.

Mr. and Mrs. Frank Patterson were guests of Mr. and Mrs. R. R. King Friday night.

The party at Mr. and Mrs. Allen Phelps Saturday night was enjoyed by a large crowd of young folks.

Mr. and Mrs. Joe Taylor and son, Lloyd, of Kerrville spent the week-end with Mrs. Taylor's parents, Mr. and Mrs. Wm. Fairchild.

Mayor and Mrs. Holkamp of Junction were Sunday guests of Mr. and Mrs. R. R. King.

Mr. and Mrs. Justice Rouse celebrated their eighth wedding anniversary Saturday night. A number of friends enjoyed several hours of delightful music over the radio after which delicious refreshments were served.

Mr. Doug. Jobs and daughters, Maxine and Eloise, attended the show at Junction Saturday night.

Mrs. E. B. Murray returned home Sunday from a week's visit with friends at Menard.

Miss Louise King and Edward and John Keithley were guests of Miss Naomi Knowles Sunday.

Mrs. Bill Bishop is substituting this week as primary teacher. We are sorry to report that Mrs. Weldon Williams is still ill at her home in Junction and can't resume her school work for some time.

Mr. and Mrs. Ben F. Neal and children left Monday for Mason to attend the funeral of Mrs. Neal's mother. Their many friends extend sympathy in their sorrow.

Mrs. Lizzie Phillips is sick this week. We hope she will soon be able to be about again.

Mrs. H. D. Jobs and daughter, Opal, visited Mr. Don Jobs and family in Recksprings. They are rejoicing over the arrival of a ten-pound boy in the Don Jobs home. The young man made his arrival Wednesday night, November 21.

Everyone at school is rejoicing over our two days vacation from studies—Thursday and Friday.

Mr. J. M. Keithley and sons, John and Bryan, and daughter, Louise, left Wednesday morning for Dripping Springs to visit relatives.

TEACUP TIPS

There will be no meeting of the P. T. A. this Friday.

Teacup's girls basketball team played Saline girls at Ivy school last Friday. The score was 36 to 6 in favor of Teacup.

Roosevelt invited us up there Monday to play their team. We have accepted the challenge.

Bessie Reese was absent from school this week.

Miss Lucile Cartwright has returned from Santa Anna where she was called to see her brother who had been injured in an accident. We are glad to know he was much improved.

The curtain for our stage was installed Friday. It is very attractive and adds much to the appearance of our school. We take this opportunity to thank the business men who helped us so liberally and invite them out to see it.

We now have on our campus four see-saws and three swings.

IVY ECHOES

On last Friday night the Ivy school enjoyed one of the most pleasant evenings that it ever spent. The affair was a bazaar for the benefit of our school. A large crowd was present, many from London, Junction and other places. All who came bought some of our things and we realized the neat sum of \$55.33. For this we are thankful to all of those who sent things or bought things from us. We expect to invest this in such articles as will give

immediate benefit to our student body at Ivy school.

On account of the rainy weather Monday several pupils were absent from school.

Two interesting games of basketball were played at the Ivy school Friday. One between the Ivy boys and Saline boys the score being 14 to 4 in Saline's favor. The other being played between the Teacup girls and Saline girls, the score being 36 to 6 in Teacup's favor. We hope to have several more games like these soon.

Mr. Henry Land is driving a new Dodge sedan.

BAT LAW VIOLATORS OWE STATE MILLIONS

Victoria, Texas, Nov. 25.—The Capital City itself and other Texas municipalities and individuals owe the State a stupendous sum in fines for violation of the law providing a penalty of from \$5 to \$15 for killing or injuring a common bat.

That such a law has been in existence since 1907, and is still in effect, was discovered a few days ago by County Clerk V. A. Sitterle when it was proposed to rid the courthouse of the millions of bats that infest it.

The act was passed by the 30th Legislature and is designated as Article 923b, reading as follows:

"Whoever wilfully kills or in any manner injures any winged mammal known as the common bat shall be fined not less than \$5 nor more than \$15."

The fact that bats are known to subsist on mosquitoes, particularly those of the fewer varieties, is believed to have led to the passage of the law.

DEER ATTACKS MAN

Sunday morning Felix Feuge shot a big buck, breaking the big bone in its neck. Mr. Feuge caught the deer by the hind leg, attempting to cut its throat, but the deer gave its head an upward motion and knocked Mr. Feuge's knife from his hand and knocked him over backwards for several feet and causing him to be unable to get up for a few minutes. His clothing was torn and his leg badly skinned by the big buck's horns. Mr. Feuge got up and caught the deer by the horns in an attempt to finish breaking its neck while he was holding it. Albert Lange came to his assistance and together they cut the deer's throat.—Fredericksburg Standard.

We have a complete line of mufflers for Christmas. Come in and see them.

Well, Lindy has postponed getting lost again.

CLOTHES OF YOUNG PRISONER TAKEN TO BLOCK ANY ESCAPE

Waycross, Ga., Nov. 26.—"He's a bad egg—take his clothes away from him and you can keep him," was the advice wired to Waycross authorities by the chief of police of Miami when advised that Herbert Craven, Florida's 15-year-old "bad egg," had been arrested here.

Hardly had the warning been received Wednesday when Craven was detected by the jailer in the act of picking the lock of his cell with the spring of a watch.

Now Craven is hoping the jail furnace will hold out, for he has lost his clothing. The youth escaped from Florida recently by using a master key to open the door of his cage.

STATE BANKS SHOW INCREASE OF DEPOSITS

Austin, Nov. 26.—A robust condition of State banks was reflected Thursday in the State Banking Department's report on its October 3 call, showing an increase of nearly \$7,000,000 in individual deposits and nearly \$5,000,000 in available cash, despite a decrease of the number of banks from 765 to 729 since last year's October 10 call for statement of condition.

Individual deposits had mounted to \$186,629,188, an increase of \$4,579,406 was shown in deposits of public funds, totaling more than \$28,500,000. Bonds and stocks have increased more than \$7,000,000 to a new total of \$35,000,000.

Combined resources of all State banks total \$237,663,101, an increase of nearly \$6,000,000. Savings deposits, however, have decreased about \$1,700,000.

Dr. W. S. Sutton, founder of the department of education at the University of Texas and former acting president, died suddenly at his home in Austin Monday. He was talking with members of his family shortly after noon when stricken. His health had been failing for some time.

11,320,302-BALE COTTON GINNINGS

Washington, D. C., Nov. 26.—Cotton of this last year's crop ginned prior to Nov. 14 totaled 11,320,302 bales, including 440,960 round bales counted as half-bales, the Census Bureau announced today.

Ginnings to Nov. 14 last year totaled 10,894,912 bales, including 401,020 round bales, and in 1926, 12,956,444 bales, including 427,323 round bales.

The year's crop was estimated by the Department of Agriculture at 14,133,000 equivalent 500-pound bales in its report on the Nov. 1 condition.

We have a beautiful line of house shoes. They make excellent gifts.

HOOVER TO BAN INAUGURAL BALL

U. S. S. Maryland, Nov. 23.—President-elect Hoover today reiterated that he desired the most simple inauguration possible, an inaugural ball and elaborate parade being banned.

"I wish no more elaborate ceremony than the most simple of recent years," he said, referring to the Wilson, Harding and Coolidge inaugurations.

Everything seems to get delayed in the mails, except bills.

BOY RESCUED FROM DROWNING IN CESSPOOL

Yorktown, Texas, Nov. 26.—Bill Ulrich, Yorktown restaurant proprietor, rescued a 12-year-old boy from drowning in an abandoned cesspool in the rear of the First State Bank building. The boy's playmate called Ulrich and he threw the boy a board to keep afloat until a ladder was secured. The boy had removed the covering from the old cesspool and had accidentally fallen in.—Fredericksburg Standard.

GIVING THANKS

The story of the landing of the Pilgrim fathers and the hardships they endured in establishing a colony in the new world is too old to need repeating. But now that we are to observe today a holiday established by them we can well afford to think about the true significance of the day, for a moment at least.

We should pause between the time we purchase the Thanksgiving turkey and the hour when we set down to indulge our appetites to the limit, to recall the sacrifices upon which our society is built. The great task of winning a great wilderness and transforming it into the very center of civilization cost thousands of lives and brought untold misery and hardships. Today as a result we are able to enjoy luxuries that kings of the time of our Puritan fathers could not hope to have. We are indeed the most fortunate race of humans that the sun has ever shone upon, and we have reason to give thanks to those who went before and to the kindly providence that has seen fit to endow us with the greatest comfort and happiness that any race has been able to enjoy.

THANKSGIVING

Thanksgiving is a song
Supremely fair;
Thanksgiving breathes to
Heaven
A grateful prayer.
Thanksgiving tells of grain
And wealth's increase—
Is Autumn's festival,
November's feast.

Thanksgiving voices praise
For blessings ours,
For largess of the days,
Their fruit and flowers,
And lest the world forget
A pean lifts
Unto the Giver of
All perfect gifts.

—Thornton.

MRS. MINA LOEFFLER

The homegoing of Mrs. Mina Loeffler last Monday, November 26, takes from this section another pioneer citizen. She was born in Fredericksburg, December 21, 1853, and spent her entire life in Gillespie and Mason counties. Early in life she united with the Methodist Church and was a consistent member until her death. She was married to Paul Loeffler in 1870 and to this union were born twelve children, nine of whom survive their mother. Her husband died in 1917, and since that time she has lived with her children.

She was stricken with paralysis nine weeks ago and since that time has been in a critical condition. As the death drew gathered on her brow, around her bedside gathered her "boys" and "girls"—always boys and girls to her—though now grown to mature years, several of them having boys and girls of their own. Her life so long interwoven with theirs, with tearful eyes they watched as it slowly but surely passed over. The love of a mother for her children passeth human understanding.

Her surviving children are: Mrs. H. Standke, Mason; Mrs. Dan Kothmann, Mason; Mrs. Louis Wiesseman, Mason; Albert Loeffler, Mason, Miss Selma Loeffler, Brownwood; Mrs. B. F. Neal, Emil A. Loeffler, R. H. Loeffler and A. W. Loeffler, Junction.

STATE SCHOOL HEAD
ADVOCATES NEW LAWS
FOR PUBLIC SCHOOLS

Austin, Nov. 26.—An educational legislative program for Texas adopted by Prof. S. M. N. Marrs, Superintendent of Public Instruction, calls for fifteen different items of which five are financial and ten administrative. These do not include the task of vitalizing the recently adopted constitutional amendments, one providing for a board of education and the other for terms up to six years for local school trustees.

Under financial plans, Mr. Marrs will ask the next Legislature to provide funds for a per capita apportionment of \$16 for each of the two years of the biennium starting Sept. 1, 1929. The apportionment now is \$15 for each child, the highest in the history of the State.

Mr. Marrs will recommend adequate appropriation for rural aid and payment of rural high school tuition. Both funds have been insufficient to meet the demands on them.

Appropriate funds will be requested to match the Federal allowances from the Smith-Hughes law and accept the civilian rehabilitation act.

Another request will be to retire the penitentiary railroad bonds and refund the State bonds now owned by the permanent school fund into bonds bearing a higher rate of interest and provide for their payment.

Finally under financial affairs, Mr. Marrs wants the Legislature to submit a constitutional amendment providing for a county-wide tax for the support of junior colleges and a county equalization fund for elementary and secondary education.

The ten legislative recommendations to be made under the head of "administrative" are as follows:

Providing for the appointment of county superintendents by the county boards of trustees. It has been suggested that possibly the enabling act under the

board of education amendment would empower the board to name the State Superintendent of Schools.

Amend the scholastic census law so as to include children 6 years old. The present minimum is 7 years.

Enact legislation requiring the United States Constitution to be taught in the public schools and all teachers in elementary and secondary schools to be American citizens. The latter would affect schools in some of the border counties.

Amend the compulsory attendance law to require school attendance for six months and increase the age to 15 years to harmonize with the child labor law.

Repeal the Fairchild certificate law and also the limitation placed on salaries in Art. 2883, which fixes the maximum to be paid teachers of different classes.

Provide for division of literacy in the department of education to deal with adult education.

Enact a junior college law that will standardize such institutions and also protect elementary and secondary schools.

Enact a physical education law and provide for a State director of physical education.

Clarify the present statutes relating to rural high school districts and consolidation of rural schools.

Repeal the act authorizing county boards of trustees to create independent districts; repeal all provisions in special laws pertaining to independent district of fewer than 500 scholars in conflict with the general law except those relating to taxation; provide local option plan of divorce of independent school districts from municipalities.

Volume Production Has
Meant Greatly Reduced
Prices

There's a Chrysler for EVERY Income

In 1924 32,000 Cars
In 1925 137,526 Cars
In 1926 170,414 Cars
In 1927 193,750 Cars
In 1928 a new record being made

The result of volume means that today you can buy a Chrysler "Plymouth" Coupe, delivered completely equipped, for \$850.00; a Roadster is \$840.00; a Fordor Sedan is \$900.

You can buy a "65" for \$1250.00 in a Coupe, \$1275.00 in a Coach, or \$1355.00 in a Fordor Sedan. The "65" not only is greatly reduced in price over its predecessors, the "60" and the "62," but it is now a car that compares in general size to the original Chrysler "70."

Likewise, the "75" has been vastly improved—and yet its price has been graduated to a lower plane. A Coupe or a Fordor Sedan is now \$1775.00. It compares today to the original Chrysler "80."

There is a Chrysler for EVERY Income

Before your buy any car, come in and investigate the Chrysler.

And one other thing! After some fifteen years' experience in building automobiles, at the head of many of the largest companies, some did not know Chrysler well enough to believe in him when he built his own car.

But now he has been building his own car for an additional five years! We believe that in this time it has made the most phenomenal success of any Automobile ever built. The reason for this success has simply been VALUE! See for yourself just how far ahead Chrysler Automobiles are—and find out for yourself the VALUE that is built into them!

The new Models—the still lower prices—the greatest demand for them in all Chrysler history—is still making it hard for us to get cars. We urge you to let us demonstrate, and then give us your order for this model that you prefer.

A CHEVROLET SIX

The Outstanding Chevrolet of Chevrolet History—a Six in the Price Range of the Four—is the slogan heard in all Chevrolet circles since the recent announcement that the Chevrolet would soon appear as a six with very little difference in price over the old four. Mr. C. G. McDonald, manager of the McDonald Chevrolet Company of Junction mailed invitations to everybody in his trade territory last week to call and get information about the new Chevrolets. If you did not get an invitation, it was because he overlooked your name and he is hereby issuing you an invitation through the Eagle to call at the McDonald Chevrolet Company and secure advance information about the New Six Chevrolet.

Mr. McDonald has a full page advertisement in this issue of the Eagle telling about the Outstanding Chevrolet. He asks you to read that and if there is any more information needed he is prepared to give it.

AT 3:30 P.M. THANKSGIVING DAY

Baptist Denomination Loses Great Preacher

The country has lost a great preacher, a great scholar and a great Christian gentleman in the passing of Dr. E. Y. Mullins, 68, president of the Southern Baptist Theological Seminary in Louisville, Kentucky, who died at his home last Friday, November 23, after an illness of several months.

Dr. Mullins suffered a stroke of paralysis November 10 and had been in an unconscious condition most of the time since. From his first illness physicians had said there was little hope. For more than a quarter of a century president of the Seminary, Dr. Mullins had been active also in international Baptist affairs, having served as president of the Baptist World Alliance, and was known as an author and lecturer on religious subjects. He served his church also as president of the Southern Baptist convention.

A private service was conducted for members of the family at the Mullins home Sunday morning by the Rev. H. D. Johnson, pastor of the Broadway Baptist Church, of which Dr. Mullins was a member, and in the afternoon the body was removed to the Broadway church where, presided over by "student guard of honor," it lay in state for an hour and a half. Public services were conducted by Dr. John R. Sampey, senior member of the seminary faculty.

Church leaders from this country and Canada took part in the public service.

The body was buried in the seminary plot at Cave Hill Cemetery in Louisville, where the body lies beside those of other distinguished Southern Baptist leaders.

The cause of human progress is our cause, the enfranchisement of human thought our supreme wish, the freedom of human conscience our mission, and the guarantee of equal rights to all peoples everywhere the end of our contention.—Scottish Rite News.

PHOTOGRAPHY

Please bear in mind that we are better prepared to take care of your wants in everything pertaining to photography than we were one year ago. This extra quality and service will not cost you any more. The object is to make Junction second to none.

Hazing Causes Death of Another Student

Birmingham, Ala., Nov. 26.—Another name has been added to the roll of football victims, but this time, Montres Freeman, a student at Birmingham-Southern College, died from a pistol wound inflicted by O. W. Westbrook, student of a rival institution, Howard College, which came as a climax of intense rivalry between the two student bodies over the annual football game scheduled for Saturday.

Westbrook, broken-hearted, was in custody of police today, while college heads and city officials debated the advisability of cancelling the game which had been an annual feature of the football season here for many years.

Westbrook, who surrendered to police soon after firing the shot which killed Freeman, declared he shot when Freeman, accompanied by other fellow students, went to a suburban drug store where he worked, last night and attempted to force him outside to be hazed. The youthful student said he did not get the pistol from the drawer until Freeman approached him aggressively.

Freeman died of a bullet wound in the right breast, en route to a hospital.

Both Freeman and Westbrook resided in Gadsden, Ala., and were working their way thru school.

Rivalry between Birmingham-Southern, a Methodist college, and Howard College, Baptist, both Birmingham institutions, has been keen for many years, and just before the annual football games in the past, hazing and vandalism have been reported staged by students of the two schools.

No man expects a great deal from marriage. He is quite satisfied if his wife is a good cook, a good valet, an attentive audience, and a patient nurse.

GOT WHAT HE NEEDED

A doctor left a thermometer with the wife of a patient, and told her to take her husband's temperature every hour and to call him if he got any worse. When he returned to the house in the morning the patient was missing and the doctor asked what had happened.

"I broke the thermometer," said the woman, "so I used the barometer. It registered 'very dry,' so I gave him about a pint of corn liquor and I swear he got up and went out and went to plowing in the back field."

DIAMOND-STUDED SWEET POTATO IS FOUND BY FARMER

Palestine, Nov. 26.—A truck grower here declared that he had unearthed recently a sweet potato encircled by a diamond ring lost by his wife last spring.

When the potatoes were plowed one of them bulged at both ends. Upon examination the potato was found to have grown through the ring, the grower said. As the potato matured it had been squeezed in at the center by the ring which caused the bulging at the ends, he explained.

The ring was described as being as good as ever.

You want your land abstracted; then you had better see E. Holekamp; he has complete index of all County lands. (adv)

McCarroll Lumber Company

Announcing -

The Outstanding Chevrolet of Chevrolet History - a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed, and faster acceleration—it offers a type of performance that is literally astounding... even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation

averages better than 20 miles to the gallon of gasoline!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head... a new heavier crankshaft, statically and dynamically balanced... automatic lubrication of the entire rocker arm mechanism... semi-automatic spark control... hot-spot manifold... gasoline pump and filter... new and larger carburetor, with automatic acceleration pump and improved venturi choke... fabric camshaft gear... heavier driving gears... heavier differential gears... improved crankcase breathing system... improved lubrication... new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with an adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers. With their modish new colors, their smart dual moldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

BEXAR COUNTY WILL INVESTIGATE ELECTION

San Antonio, Nov. 23.—Bexar County Friday will instigate its own investigation of the Nov. 6 election. Subpenas to disclose crime have been issued by District Attorney Lamar Seeligson for a number of persons, including certain election officers who are said to have reported irregularities. These subpenas are returnable in the Ninety-Fourth District Court. Explaining the court of inquiry, Mr. Seeligson said those subpenas would be afforded opportunity to make their statements under oath. Congressman Harry M. Wurzbach, whose apparent victory was turned into defeat at the hands of Judge August McCloskey after the Bexar vote canvass has asked a congressional investigation.

SCHOOL BUILDING AT ROOSEVELT COMPLETED

Mrs. Thelma Thiers and Miss Ethel Roberts will be two of the most pleased teachers in Kimble County next Monday when they move into the new school house at Roosevelt. The building will be dedicated Monday, December 3. Lunch will be served at noon, a basket-ball game in the afternoon and an old fashioned box supper at night. Everybody in Kimble County is invited to this occasion.

Proceeds from the box supper will be used to beautify the grounds and buy equipment for the school. The trustees and patrons are proud of their new building and invite their friends to be present Monday, December 3, when the building is dedicated.

Our cleaning and pressing plant is the best equipped in this part of the country.

LEAVES FOR JUNCTION ON SHORT DEER HUNT

J. D. Motley and family, Felton Wright, H. C. Lyon, Tom Caudle and Sim O'Neal, secretary of the chamber of commerce at Coleman, left Friday for Junction where they will spend the week-end hunting deer and turkey. The party will be on the ranch of Mr. Wright's father and left Ballinger fully prepared to camp in any kind of weather and with firearms sufficient to withstand any attack.—Ballinger Ledger.

Mrs. Walter Tinsley left Saturday for San Antonio where she is the guest of Mr. A. Tinsley and Miss Coralie Tinsley.

Santa Claus Coming to Junction This Year

Santa Claus has his advance agent in Junction making arrangements for the Christmas holidays. The merchants have made ample provision for the Christmas trade. The advertisements this week have a touch of the holiday spirit and next week our readers may expect to see Santa Claus' face in many of the advertisements. There is plenty of work in Junction for every one who wants to work. Every one may not be able to pick his job, but work of some kind is here for all who are willing to work. Christmas will be here so soon we will hardly realize the time is passing. You can be

sure that it is the desire of business firms to serve their patrons with courtesy, accuracy, speed and equality of merchandise. Without these aims in view no business can long prosper.

There is an obligation on the part of buyers who demand these qualifications in business to place their orders as early as possible before the grand rush of the final days before Christmas and while stocks are complete enough to suit varying tastes.

Christmas Ties will be on display soon at
33c Junction Tailor Shop.

Raillery is a discourse in favor of one's wit, against one's good nature.

Hunting Season Now On

MR. RANCHMAN: If you have land to lease for hunting purposes, you will do well to list it with us.

We will have a board placed in our driveway with names of all lands listed with us. Phone or see us, giving price, amount of land and hunting conditions.

This is a free service, as we want to help the ranchman lease his land and help the hunter get a place to hunt.

School Notes

The pupils received their report cards Tuesday afternoon. Wednesday morning Mr. Cowles commented on the grades by the High School students. A large number of D's were made during the past six weeks. There are always some students who look for an easy teacher, that is, one who will give them good grades whether they deserve them or not. According to Mr. Cowles the large number of D's shows that these students have been unable to find that easy teacher in High School.

The grades were not all bad, however. Ella Simon, a ninth grade student, and Harry Ethel Hubbell, an eighth grade student, each made five A's. The pupils in the High School who made no grade less than B are: eleventh grade, Pairalee Lynn, Elsie St. Clair, and Nevada Blackburn; ninth grade, Ella Simon, Carleton Wright and Lorena Couey; eighth grade, Vivienne Livingston, Marie Davis, Harrie Ethel Hubbell, Verne Tinsley, Viola Wahl and Eva Scrogum.

BUY CHRISTMAS SEALS

Over 530 miles of Tuberculosis Christmas Seals have been distributed by the Texas Public Health Association for the annual sale which starts December 1. The seals this year show an ancient galeon with a red double barred cross on the main sail and the words, Christmas Greetings, 1928.

The proceeds from the sale of these seals finance the work of the Texas Public Health Association and their twenty-three local affiliated associations.

Over 100 volunteer chairmen have been secured to sell seals in their localities and in counties where no organization occurs. The public is offered an opportunity to secure seals by mail.

Last year the State Association reached over 100,000 persons in their State-wide Educational Campaign. A great deal of attention is being paid to health work in schools, consisting of health educational work and the examining of pupils by registered, Public Health Nurses. Tuberculosis clinics have been held in several counties. Special effort has been made to reach all races.

In 1929 it is expected that a continuation of our present program will be carried on, increasing the clinic work wherever possible. Dr. Z. T. Scott, Executive Secretary, stated that the deaths from tuberculosis had been reduced over 50 per cent since the first campaign against tuberculosis and that we are now on the last half of the fight and the efforts must be continued. He also stated that tuberculosis was still the major cause of death in the age group—15 to 25—and that special work must be done with this group.

APPROACHING

Advertisements are appearing with decorations of holly and mistletoe and smiling faces of Santa Claus. To the observant these ad frescoes tell their own story, give their own warning, hint at the important business from which none is barred and in which sooner or later everybody will be engaged.

In other words, Christmas shopping. The holiday is little less than a month ahead, fewer shopping days than thirty by a good deal. In no time these days will pass. The natural procrastinator will wait until Christmas Eve when store aisles will be jammed by other procrastinators, stocks picked out, clerks weary, customers in a flutter, clocks ticking time-a rapid pace, all because the reminders of today have been neglected.

Every year more sensible persons do their Christmas shopping early. They reap all the advantages in variety of selection and leisure of choice and when Christmas Eve comes they can proceed about their last-minute holiday tasks orderly, while the others fume and sputter.

Americans are a great people never to do today what can be done tomorrow. The postmaster has urged early posting of Christmas mail, but the last days will probably be bigger than ever.

10-YEAR OLD BOY GETS DEER WITH 22 RIFLE

Among the first hunters to bring a buck to Boerne was young Harvey Davis, the 10-year old son of Orran Davis of the Upper Cibola neighborhood. The boy was out on Friday morning, looking after some traps when he saw a 4-point buck near him in some brush. He took a shot at him with a 22-calibre rifle, sending the bullet through the deer's heart.

Police were called to the Arizona State Capitol when Governor G. W. P. Hunt was engaged in a brief fist fight with State Senator Fred Colter. The Governor was struck one of two blows by Colter as the climax of an argument in the Capitol lobby. Interference by J. S. Strode, secretary to the Governor, ended the affair.

THE TURKEY GOBBLER

The great American bird is not the hen nor the eagle, but the turkey gobbler. The gobbler is lord of the barnyard and field marshal among the fowls. See him strut in the fullness of his pride, tail feathers spreading, head up, wings trailing, but not ingloriously. His crimson comb and purplish wattles give him the appearance of a red-faced and important gentleman who is querulously concerned in everything going on about him. Such pomposity, dignity and swagger is rare. His irritable "gobble, gobble, gobble" strikes terror into the hearts of little children, but is music in the ears of the more sophisticated who envision him trussed up in a roaster and stewing in his own juice.

The turkey has been closely associated with American history from the beginning. It will be remembered that at the famous Thanksgiving feast of the Pilgrim Fathers in November 1621, in which the friendly Indians participated, wild turkey was the chief delicacy. Once this elusive bird was plentiful but now the wild species is all but extinct. In only a few sections of the country the wild turkey may be found. It begins to look as though the domestic turkey is destined to go the way of its progenitor. Young turkeys are hard to raise and the Thanksgiving and Christmas demand exceeds the supply. No one wants to see the day when the turkey has disappeared from the land and the proud gobbler struts and fumes no more.

There is no substitute for the turkey gobbler in sight. As compared with him the rooster is plebeian and the gander "a lesser breed without the law." The gobbler is a symbol of prosperity and a token of hospitality as well.

BIDS WANTED

The Commissioners' Court of Kimble County, Texas, on the 15th day of December, 1928, will receive sealed bids for the \$50,000.00 Kimble County Road District No. 4 Bonds. Said Commissioners' Court reserving the right to reject any and all bids.

SEVENTEEN YEARS AGO

Miss Ethel Amberson returned Saturday to London after visiting the W. K. McGonagill's on the Quisenberry ranch.

The London school is progressing nicely under Professor Charles Kindrick as principal. Born to Mr. and Mrs. J. W. Boone Sunday night, November 26, a bouncing baby girl.

T. Hunger and son, Robert, are building a house on the D. Patton place and Ed and Julius are moving a house for Mr. Daw at Telegraph.

The Woodmen Circle at London held its annual election Saturday evening. The following were elected to office: Mrs. Paul Kountz, Guardian; Mrs. Ruth Jones, Advisor; Mrs. Nora V. Clerk; Mrs. Fannie Pullen, Attendant; Mrs. Nora Weaver, Chaplain; G. T. May Banker; C. D. Henslee, Manager; Mrs. Gussie McCollum, Inner Sentinel; A. J. Brewster, Outer Sentinel; Dr. J. W. Fussell, Physician; Mrs. Callie Fussell, Installation Officer; Miss Lessie Amberson, Assistant Attendant.

J. L. Ragland has sold his residence property in Junction to V. O. Copple, consideration \$1,500.

Miss Vida Batchelor, who has been here visiting her brother, Rev. S. L. Batchelor, returned Monday to her home at Lohn. C. Nemkey and Edwin Wahl moved this week to the Hoy Smith farm on South Llano, three miles from Junction.

E. C. Hankins of Kerrville, father of two of our prominent merchants, J. M. and W. K. Hankins, came up from Kerrville this week to remain thru the holidays.

Another Smith arrived in Junction this week and is stopping at the home of Mr. and Mrs. Isaac Smith.

There will be a Christmas tree at the M. E. Church in Junction Saturday night, December 23. The public is invited to put presents on it.

John S. Durst offers for sale for a short time 24 very desirable lots near the schoolhouse in Junction for \$25 dollars each, if the purchaser will take them all.

The singing at London given by E. I. Cummins and G. T. May Friday evening at the Christian Church was well attended and the singing fine.

A play entitled "The Country Minister," will be given by the school at the Majestic in Junction Thursday night, December 21.

Mountain Camp No. 434 W. O. W. met in regular session Saturday night and were gladly surprised, for on entering the hall the members were closely followed by the Circle ladies with a treat of cake, tea and chocolate. Delicious is too mild a term with which to describe the refreshments; all enjoyed the treat—even the newspaper reporter, as little as he cares for good things to eat. The W. O. W. expect to express their appreciation on installation night which is the first Saturday in January, with an oyster supper for the W. O. W., their families and the Circle. Last Saturday night being regular election time, the following officers were elected: J. N. Hodges, C. C.; John Braley, A. L.; W. P. Riley, Clerk; J. L. Ragland, Banker; Julius Holckamp, Escort; Robert Bissett, Watchman; G. R. Ragland, Secretary; J. R. Martin, Manager.

My contract with the Junction Cemetery Association says that I am to keep down Johnson grass and weeds; remove all surplus dirt, keep the graves in order, and fill up the low places in the cemetery, with the understanding that I am to receive pay for all graves dug to be dug. Wages now \$12.50 a month. Signed, J. M. Tomberlin.

O. C. Reid moved this week to his ranch three miles south of town on Cedar. Nat and Ed. Cowser were here from the Divide Saturday. Alfred Miller was in from Gentry Friday for some window panes. He says this time of the year he wants all the panes in on the north side of the house.

TWO COUPLES WED IN AIR DESPITE STORM

Baltimore, Nov. 25.—Despite snow and wintry blasts, two Baltimore couples were married high in the air over the city in a double wedding ceremony performed in a cabin plane today.

Two sisters, Mary and Mathilda Gabris, became the brides of Charles Weber and John Hapke. The Rev. C. M. Cope officiating.

"It was fine," said Cope, when the plane landed, while the brides, through teeth still chattering, said it was "just a pip."

The ceremony was delayed nearly an hour because the plane could not take off through a snowstorm which made for poor visibility. Capt. Charles A. Masson was the pilot. Six other planes accompanied the cabin ship in the marriage parade.

DEER CAUSES COLLISION

While returning from San Antonio last Sunday night, Frank M. Montague ran over a large deer which leaped in front of his car, probably blinded by the headlights of the car. Following closely behind Mr. Montague came August Kalka in a truck, and when the deer was struck Mr. Montague put on his brakes, coming to such a sudden stop that Kalka's truck rammed the rear end of the Montague roadster. Both truck and roadster were somewhat smashed up, and it is fortunate that neither driver was injured. Both automobiles ran over the deer, but the animal managed to get away in the darkness. —Bandera New Era.

How about a good cleaning job. We do it the Gloverized way.
33c Junction Tailor Shop.

SAN MARCOS MILL READY FOR SPINDLES

The San Marcos cotton mill of 10,000 spindles has been completed and the immense building is ready for the machinery. It is estimated that \$50,000 will be required to equip the plant and provide the necessary working capital. All available funds were exhausted in completing the building. At a meeting held by the directors of the mill, directors of the Chamber of Commerce, the First National Bank and many representative citizens of San Marcos, the mill management outlined an intensive stock selling campaign.

Our notion is that some of the world statesmen are hoping for peace at any surprise.

You'll find the style and size you want in our store.

PHILIP JOSEPH

Junction Trade Notes

The Texocola Pecan Shellers, Inc., subsidiary of a large Chicago concern, has opened business in San Antonio and will undertake a large production, having a working force of 400 people, it is stated. This is a reminder that the future of the pecan industry in Texas is secure— and Kimble County is the natural center of pecan production. Mr. Meyer, a representative of the U. S. Chamber of Commerce, visited Junction last week and remarked that "Junction and the Llanos were due to become famous for their pecans."

This week Gann Grocery Company forwarded choice Llano pecans to Floyd Ziegler of St. Louis, to Joe Leopold of Dallas, and to F. L. Hurley of the U. S. Chamber of Commerce Chicago.

T. E. Christopher of Fort Worth, hunting deer on headwaters of north Guadalupe last week, killed a Mexican lion that weighed 190 pounds and measured 6½ feet.

As a conservative measure it is stated the State Game Department is sponsoring a movement to limit the number of bucks a person may kill in a season, to one. Even so, such measure would have little bearing on the hundreds of amateurs who annually fail to get the coveted one.

There is a scarcity of yard eggs in Junction, and Christmas coming on. Feeding the hens Egg Mash may overcome the shortage. Gann Grocery Company.

Housewives who do not intend to prepare their own fruit cakes for the Christmas season will find Fair Maid fruit cakes convenient and delicious; put up in 1 lb., 3 lb. and 5 lb. fancy tins. Samples may be had at the store. Gann Grocery Company.

Friends are glad to welcome Mr. and Mrs. Sam Bowers, who are again at home in Junction after an absence of several months.

Arthur Lawler, former Junction merchant and member of the Board of Aldermen, is on a business trip to Big Springs where may locate.

Late arrivals: New crop navy beans, lima beans, baby limas, cranberry sauce in tins, citron in bulk. Gann Grocery Company.

Walton & Arneson, San Antonio engineers, have turned in to State High Department a location survey for the projected new highway from Fredericksburg west 30 miles to connect with O. S. T. about midway between Segovia and Mountain Home. The same firm reported to the department a survey from Mason to Menard, which location would shorten distance two miles and eliminate two crossings on the San Saba. Gov. Moody's committee of 31 selected from the senatorial districts of the State to consider and recommend highway legislation, held its first meeting in Austin Wednesday. Judge W. H. Baker of Junction is a member of the committee.

Gann Grocery Company
"Everybody's Store"

Taking stock of fatalities occurring during the past 36 hours in widely separated sections of the State, Texas found that death had claimed five persons in automobile crashes and two in accidental shootings, and that the injured toll caused by both types of mishaps stood at five.

Society

MRS. JOHN PHILLIPS ENTERTAINS CLUB

Friday afternoon Mrs. John Phillips entertained the members of the Ladies' Afternoon Card Club and a number of friends with a bridge at her pretty home on the old Spanish Trail. The honoree on this occasion was Mrs. W. B. Birdwell of San Antonio.

After an interesting series of games the club prize, a beautiful console mirror, went to Mrs. H. D. Taylor. Mrs. Roy King won the guest prize, a pretty refreshment set of colored glass in an attractive holder. The cut prize, a hand painted ice box set, went to Mrs. Pierce Hoggett. Miss Tyler Wilkinson won the booty, a pretty salad set. Mrs. Birdwell received a silver pastry server. Fruit salad on lettuce, sandwiches, coffee and plum pudding with hard sauce brought the afternoon to a pleasant close.

FRIENDS COMPLIMENT BRIDE ELECT MONDAY

Monday evening, Mesdames B. B. Ragland, Jas. A. Prentice, Ed Allen and Miss Audrey Blackburn complimented Miss Tyler Wilkinson, a bride of the week, with a shower at the home of Mrs. B. B. Ragland.

The charming house was most attractive with autumn leaves banked on the mantel and yellow chrysanthemums placed about the rooms in bowls and baskets.

Thirty-six guests registered in the bride's book. A feature of the evening's entertainment was a half-hour radio program of wedding songs interspersed with advice and nonsense, broadcast by WBAP in Fort Worth especially for this occasion. The crowd was then divided into groups with Misses Blix Hankins and Mary Ellis Blackburn as captains, a series of interesting and amusing games followed. An amusing

reading, "confessions," by A. Conan Doyle was then given by Miss Mary Ellis Blackburn. Miss Christine Schraub gave a Thanksgiving reading which was well received.

Miss Jewel Riley then knocked at the door and upon entering presented the bride-to-be with a basket of vegetables. In the carrots, lettuce, celery, pumpkins and golden harvest vegetables many useful and attractive gifts were concealed.

Cake, tea and coffee were served at the close of the evening.

FINISHES ROLLING PEANUT WITH NOSE FOR ELEVEN MILES

Harlingen, Texas, Nov. 26.—To the strains of "Hail, the Conquering Hero Comes" from a brass band, Bill Williams ended his eleven-mile peanut pushing trek when he rolled a goober with his nose across a white line marking the Harlingen city limits.

Williams, when he crossed that white mark, had paid an election bet on Gov. Alfred E. Smith, and in the process had tossed countless pairs of frayed cotton gloves and innumerable worn-out peanuts into the discard. His nose resembled a strawberry but he nevertheless had fulfilled his bet by rolling the goober the eleven miles from Rio Hondo to Harlingen in less than eleven days, his expired time having been nine and a half days.

He was within sight of Harlingen when he decided it was quitting time for the day Wednesday.

"How do you tell when it's time to knock off?" a spectator inquired.

"My nose knows," was the obvious retort.

Political leaders gathering for the opening of the short session of Congress on next Monday are becoming firmly convinced there will be a real change at Washington March 4, not just a change of faces in the White House.

Miss Tyler Wilkinson, who formerly taught in the Junction school visited us last week.

ESTRAY NOTICE

Taken up—One list pig, last July, to protect crops. Owner can have same by proving ownership, paying for feed and this ad. Trail's End Ranch, 32-2c Segovia, Texas.

A gentleman slipped on the top stair of the subway and started sliding to the bottom. Half way down, he collided with a lady, knocked her off her feet and the two continued the journey together. After they had reached the bottom, the lady, still dazed, continued to sit on the gentleman's chest. Looking up at her politely, he finally exclaimed, "Madam, I'm sorry, but this is as far as I go."

TRUCK WANTED

I need a good used truck. 31c W. E. Cloud. Abstracts for your lands can be secured on short notice from E. Holskamp. 25 years in business; we know how. (adv)

POSTED

The Gully Cowsett ranch, 15 miles west of Junction, now leased by me for hunting and fishing, is posted according to law. All hunting, fishing, camping or trespassing in any manner is positively forbidden. All violations will be prosecuted.

F. H. Wickett, New York, N. Y. 30-6c

The new Ford has a very simple and effective lubrication system

THE lubrication system for the engine of the new Ford is as simple in principle as water running down-hill.

A gear pump in the bottom of the oil pan raises the oil to the valve chamber reservoir. From here it flows on to the main crankshaft bearings and the front camshaft bearing. Overflow oil drops into the oil pan tray and runs into troughs through which the connecting rods pass.

As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts.

From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber.

This system is so effective that the five-quart contents of the oil pan pass through the pump twice in every mile when you are traveling at only 30 miles an hour. Yet there is only one movable part—the oil pump.

As a matter of fact, the lubrication system for the new Ford is so simple in design and so carefully made that it requires practically no service attention.

There is just one thing for you to do, but it is a very important thing... check the oil! Change the oil every 500 miles and be sure the indicator rod never registers below low (L).

If the oil level is allowed to fall below low, the supply becomes insufficient to oil all parts as they should be oiled.

To insure best performance it is also advisable to have the chassis of your car lubricated every 500 miles. This has been made easy in the new Ford through the use of the high pressure grease gun system.

Proper oiling and greasing mean so much to the life of your car that they should not be neglected or carelessly done.

See your Ford dealer regularly. He is especially well fitted to lubricate the new Ford and he will do a good, thorough job at a fair price.

FORD MOTOR COMPANY
