COULDN'T RESIST THE TEMPTATION

BANK CLERK WHO CONFESSED
TO THEFT OF \$55,000 BEGS
IMMEDIATE SENTENCE

CONFESSION A SURPRISE

Young Man Had No Bad Habits and
Was Not Regarded As a
Suspect

By Associated Press.
Pensacola, Fla., Sept. 25.—"I just
could not resist the temptation; now
all I want is for the prosecuting at-
torney to accept my plea of guilty,
let the court sentence me to the peni-
tentiary and the sooner it is done, the
better I will be pleased."

This was the explanation made to-
day by William H. Bell, the 19-year-
old bank clerk who confessed yester-
day to taking a package containing
\$55,000 from the First National Bank
preparing to forward to Plomaton,
Alabama, by express, and substituting
therefor a similar package containing
waste paper while a half dozen bank
clerks were with him getting the ship-
ment ready.

Detectives were put to work Mon-
day and the negro janitor of the bank
found the package containing the mon-
ey against the grating of the rear
door of the bank.

Until the robbery Bell had been re-
garded as a model young man, with
no bad habits and with a comfortable
bank account for a youth of his age.
He had never been known to stay
away from his home at night. Bell
was not regarded as a suspect.
When he approached President Brent
of the bank in his office last night and
said, "Mr. Brent, I am the man that
got the \$50,000," President Brent, al-
most dumfounded asked Bell to be
seated. Brent called in the police and
Bell was put in prison, where he dic-
tated a statement after rallying from
a breakdown.

"I admit taking the money," said
Bell, "I made up the money package
at my home Sunday night, Septem-
ber 15, and Monday placed it
in my locker at the bank. My first
thought of taking the money came on
the previous Saturday when I read a
letter from the Louisville & Nashville
regarding the shipment. I began
thinking about it. I don't know why
I took it."

"Tuesday, when the two packages
were made up and labeled by the
boys, I walked over and picked up
the larger one containing the \$50,000
and carrying it in full view of a
dozen of the boys, walked to my
locker and substituted the money
package for it. I put the money
package with the other packages con-
taining the smaller amounts and we
put them into a suit case and I left
for the Southern Express Company
office."

"There the clerk received the
money package and receipted for it.
Tuesday night I took the package
containing the money from my locker,
put it into a suit case and boarded a
car for home. The package remained
at home until Saturday night when I
got to thinking and decided I did not
want it. Saturday night I again put
it into my suit case, carried it to the
rear of the bank and placed the package
at the back door."

"Stepping into a Greek's store, I
called up Mr. Roberts, assistant cash-
ier and told him the money could be
found at the rear door of the bank.
I was uneasy about the money and
went Sunday morning and afternoon
to see if it was still there. I don't
know why I took the money. I sup-
pose it was in a moment of weak-
ness."

TEMPERATURE DOWN TO 48 THIS MORNING

With the mercury down to the
forty-eight degree mark and a brisk
north wind blowing this morning was
the chilliest of the season and over-
coats and heavy wraps made their
appearance.

During the morning the skies be-
came overcast with clouds that came
up from the southeast, and stormy
weather was threatened.

The agents for the Wichita Falls
& Northwestern at Woodward and
Leedy, Oklahoma, reported a wet at
those places this morning with flur-
ries of snow, but the temperature
did not reach the freezing point at
any place on the Wichita Falls route
so far as had been reported up to
noon today.

At noon today the Western Union
reported generally cloudy weather all
over Texas with cool north winds.
Denison reported a temperature of
45 degrees, Abilene 45 and San An-
tonio 52.

HYNER PATTON ON THE STAND TUESDAY

Principal Witness for State Declares
Mills Sought Aid in Doing Away
With the "Old Man"

Graham, Texas, Sept. 25.—After
strenuous opposition on the part of
counsel for the defense Special Judge
Nicholson in the district court here
ruled that Hyner Patton was sane
and a competent witness in the trial
of Arthur Mills, charged with having
murdered his father in May, 1908.
Patton had been an employee at the
ranch for three years when the elder
Mills was struck while asleep on the
night of May 8, and who died eight
days later. A statement made by
Patton after arrest caused the arrest
of young Mills, but in the meantime
Patton was adjudged insane and sent
to Terrell. The defense claimed that
Patton was still insane, District At-
torney Scurry maintaining that the
witness had recovered his mind.

Quite a number of witnesses were
examined as to Patton's mental con-
dition Monday and this was resumed
Tuesday. Jailer Wallace testified
that while Patton was in jail he acted
"mighty peculiar, tore his clothes
off and hung himself several times,
but would use judgment so as to not
hurt himself; that is, he would hang
by the back of his neck and not his
throat."

Asked if he believed him sane,
witness replied: "I didn't know, the
doctors couldn't tell and if they
couldn't I couldn't; I'm no expert."

Local physicians testified that Pat-
ton was weak-minded, but believed
he was reliable. Marion Wallace,
sheriff at the time, testified that he
believed Patton sane, and P. A. Mar-
tin, who was district attorney and
took his statement, testified that if
he had not believed him sane he
would not have taken the statement.

Patton, placed on the stand, de-
tailed with minuteness how defend-
ant had told him that he wanted to
get charge of all the property and that
to do this he must get rid of the
"old man." Patton said that Arthur
Mills had promised him anything he
wanted if he would help him. Patton
testified further that defendant had
explained that he was going to get
rid of his father, and asked if an ax
would be a good weapon, but Patton
said young Mills promised that he
would not carry out his plan after he
(Patton) had threatened to tell the
elder Mills about it.

Patton said that when the elder
Mills was wounded young Mills ran,
screaming, around the room occupied
by Patton and his wife, just as he
had said he would do. Later he said
he found a bloody ax under the win-
dow near which Mills slept, and young
Mills said he was going to throw it
into the tank. Patton said he told him
to "take the ax to the woodpile, where
it belonged."

Later, according to Patton, young
Mills brought the ax back to the
house, but that the blood had been
washed off.

Direct examination ended at noon,
and all through the afternoon A. H.
Carrigan, formerly district judge, one
of counsel for the defense, subjected
the witness to a vigorous grueling,
but failed to break any serious point
established by the state.

Hundreds of questions were put to
him in rapid succession, counsel
shifting from one point to another,
the answers either being given
promptly or witness saying he didn't
remember, explaining that his mem-
ory was not very good. He explained
that he was raised in the cotton patch
and didn't have a good education.

During cross examination Patton
answered counsel by asking questions
that raised the attorney's ire, caused
laughter to ripple over the crowded
court room and Judge Nicholson to
give several reprimands.

Patton was excused at 5:30 and R.
J. Johnson, a neighbor, called testif-
ying that he was at the ranch every
day from the time Mills was attacked
until he died and that Arthur did
nothing toward finding the guilty
party. He said that young Mills had
three scratches or cuts on his face
which he claimed to have received in
an encounter with a man who attacked
his father.

Attorneys for defendant are R. F.
Arnold of Graham, ex-Judge Carrigan
and J. T. Montgomery, Wichita Falls,
and Reynolds and Thorpe of Throck-
morton. He is accompanied by these
and his wife nearly all the time.

He is 32 years old and has taught
school since he was 21 with the ex-
ception of two years in the state
university and a year or two spent on
the ranch. Since the testimony of
Patton was admitted it is predicted
that the trial will continue at least a
week.

Plans for the trip to Dallas will
be made tomorrow evening at a meet-
ing of the Young Men's Progressive
League directors. Rates have been
secured from both the Katy and Den-

COURT HOLDS LETTERS AND TEL-
EGRAMS ADMISSIBLE IN
SNEED TRIAL

RELIANCE OF DEFENSE

Sneed Himself May be Forced to Go
Upon Witness Stand—Letters
Would Show Motive for Killing

By Associated Press.
Amarillo, Texas, Sept. 25.—Len
One picked up near the scene of the
on the stand by the defense at the
opening of today's session to identify
a letter as in the hand-writing of his
dead brother. When asked if it was
Al's hand-writing, he replied: "Yes,
sir; I think so."

The letter was identified and made
an exhibit. Len said Al returned to
Amarillo six weeks or two months
ago. He said Al was out of town a
day or two at a time in August. He
thought Al was in Fort Worth two
or three weeks before coming back
to Amarillo, but he did not have any
idea how long Al was in Fort Worth.
He said he wrote to Al in Fort
Worth under an assumed name, but
did not remember the name. He thought
it was not Al. B. Moss; he thought
the name or one of the names was
Oidby and another Johnson. He said
he did not learn from Al that Mrs.
Sneed was in Johnson's sanitarium.
He said he saw Al in W. A. Hanger's
office in Fort Worth for fifteen min-
utes about July 20, probably a little
later.

He then told of his trip to South
Plains, the week of the killing, with
Al and their return to Amarillo Fri-
day night. He said Al was not arm-
ed on the trip to South Plains.

On cross examination, he said he
would not have known Sneed if he
had seen him dressed as described.
Al was downtown in Amarillo Tues-
day morning before going to South
Plains and was unarmed, he said.

John Pace of Clayton, New Mexico,
brother-in-law of Sneed, identified the
Ella Rogers and Mrs. Sneed letters,
which he said, were delivered to Capt.
Snyder by the postmaster after they
returned to Clayton from the Fort
Worth trial. These letters were given
to Sneed about six months ago. He
said Sneed told him during the Fort
Worth trial that he would kill him,
the first time they met.

He said this as many as half a
dozen times. The letter identified by
Len Boyce was then offered in evi-
dence and recess taken to permit
state attorneys to read them.

In objecting to the admittance of
these letters, Mr. Odell said the state
claimed the defense would not be able
to show the killing of Boyce to have
been at the first meeting. Mr. Mc-
Lean said that the burden of proof
to show it was not the first meeting
rests on the state. This seemingly
trivial point is interesting, as indicat-
ing that the defense is relying strong-
ly upon it.

The court announced that it believ-
ed the defense must later show the
first meeting. This seemingly makes
it necessary for Sneed to testify.
Judge Browning decided to admit the
letters; but they were filed and not
read.

W. H. Steele of Dallas, testified
that Mrs. Sneed left his house during
the Fort Worth trial and went to
Louisiana and returned after Sneed's
release on bond. Miss Nellie Steele
went to California with Mrs. Sneed,
remaining five weeks. Sneed paid
the expenses of both. They returned
from California in April. Then
Mrs. Sneed went to Johnson's sanita-
rium; she was not detained there,
so far as Steele knew. He saw her
there on June 21 and Mrs. Sneed re-
turned to Dallas with him.

Sneed was at Paducah and came to
Dallas the next day. Steele said he
talked to Miss Bridges, a nurse at
Johnson sanitarium. He was not per-
mitted to tell of his conversation
with Miss Bridges and the defense
excepted.

This conversation, Steele said, made
Sneed considerably agitated when
Steele told Sneed about it. Steele
said he saw Sneed last on August
23; then he showed some letters to
Sneed which caused Sneed consider-
able more disturbance than previous-
ly shown and made him quite excit-
ed. These letters contained informa-
tion that Al Boyce had been in Dal-
las and had gone to the Reiger ave-
nue house with Lucien Hughes.

Along with the letters introduced
this morning was this telegram, dat-
ed at Amarillo, August 14:
"To Mrs. A. J. Perkins, Lake
Charles, La.: Can you meet me in
Dallas tomorrow. Am informed
Sneed has again locked Lena up.
(Signed) A. G. Boyce."

WILSON'S MAN HAS BIG PLURALITY

FORMER SENATOR SMITH DE-
FEATED BY A PLURALITY OF
MORE THAN 20,000

EVERY COUNTY BUT ONE

Even in Essex County, Stronghold of
Smith Forces, Wilson Forces
Cut Down Lead

By Associated Press.
Newark, N. J., Sept. 25.—That Gov-
ernor Wilson won a sweeping victory
in the New Jersey primaries yesterday
here early today; in his fight to pre-
vent the nomination for United States
Senator of Former Senator James
Smith Jr., Governor Wilson carried
the State by a plurality of nearly 20-
000, winning every county except that
of Essex, the stronghold of the Smith
forces.

Returns from 511 of the 1799 dis-
tricts in the State gave Representa-
tive William Hughes, the Wilson
senatorial candidate 17,020 votes to
11,751 for Smith. Even Essex county,
which includes the city of Newark did
not pile up for Smith the overwhelm-
ing vote which he had expected to re-
ceive from his neighbors and towns-
people.

With a few districts missing the
vote in Essex county showed Smith
only about 4000 ahead of his oppo-
nent. On the other side was Hudson
county with an indicated Hughes
plurality of 8000 and Mercer county
with a Hughes plurality of 1600.

The Morning Star, owned by Mr.
Smith, conceded Hughes' election.
The Wilson candidate issued the fol-
lowing statement from his home in
Paterson:

"The vote is an absolute expres-
sion of the people of New Jersey in
favor of the policies of Governor Wil-
son. On this basis I submitted my
candidate to the people and they sup-
ported me admirably. The victory of
Woodrow Wilson seems now assured
at the November election."

It is believed that practically all
the Wilson candidates throughout the
State outside of Essex county, were
nominated.

On the Republican side of the pri-
maries were uneventful. The Pro-
gressives did not figure in the voting
except in Hudson county, where they
defeated the regular organization. In
other sections of the State, they will
nominate by petition. Senator Frank
O. Briggs received the uncontested
Republican endorsement.

DALLAS LEADS IN SADDLERY AND HARNESS MANUFACTURING

St. Louis, Mo., Sept. 25.—The large
increase in volume of the saddlery,
harness and collar business in Tex-
as is viewed with alarm by local
manufacturers, as the trade in the
Southwest has for many years been
monopolized by this market. Late
reports from Dallas, Texas, show that
approximately \$2,400,000 in products
are manufactured annually and the
output of the factories in that city is
steadily increasing. The value of
leather products used for harness,
alone, in the United States is \$24,802-
734 annually, of which Dallas is now
supplying over 10 per cent.

MEXICO CITY, SEPT. 25.—A NEW MOVEMENT TO SECURE PEACE IN NORTH- WEST MEXICO WAS MADE TODAY WHEN PRESIDENT MADERO AND HIS CABINET INSTRUCTED THE MINISTER OF WAR TO OFFER AMNESTY TO THE FOLLOWERS OF GEN. PASCUAL OROZCO.

NEWS RECEIVED AT WASHINGTON Special to The Times.

Washington, D. C., Sept. 25.—News
of the action of President Madero
and the Mexican cabinet in instruct-
ing the minister of war to offer
amnesty to the followers of Pascual
Orozco reached here this morning. It
is believed many of the revolutionists
will be glad to accept the proposal
but is doubtful whether Orozco and
many of his personal followers will
do so. They have declared that nothing
short of the resignation of Mader-

The offer it is believed will have
the effect of either reducing the rev-
olution to an unimportant affair or
will fire the rebels with the belief
that the government is weakening.

LETTER TO MEMBERS CHAMBER OF COMMERCE

Special Notices Mailed Out Calling
Attention to Anniversary Lun-
cheon At St. James Hotel

Arrangements have been completed
for tomorrow night's meeting of the
Chamber of Commerce at the St.
James Hotel and letters were receiv-
ed today by members, setting forth
the purposes and aims of the meet-
ing. The directors of the Chamber
of Commerce feel that with due co-
operation and assistance, great things
can be accomplished during the com-
ing year and this meeting is to be
held to lay plans. The call for the
meeting follows:

"To Members: We want you to
attend a general membership meet-
ing Thursday evening the 26th at
8:15 p. m. at the St. James Hotel."

"We have just passed through a
period of discouraging conditions dur-
ing which time our city has gone
steadily forward in every line of de-
velopment, and with a prosperous year
ahead, we earnestly solicit the moral
support of every citizen in our effort
toward further expansion."

"There is a great deal of impor-
tant work to be done which we hope
will result in much good to our city,
and we feel the need of the moral
support and active co-operation of ev-
ery member."

"This is your organization, we are
but your servants, we have devoted
some of our time each week to at-
tending meetings, and a great deal of
time to special work of one kind or
another, and now ask that you con-
tribute a couple of hours of your time
to the common good."

"If our work has met with your ap-
proval it would be an inspiration to
us to have you publicly say so, and
if, in your opinion, we have made
errors in judgment, let's talk it over
frankly, in a friendly spirit, in order
that we may get the true consensus
of opinion and be in position to act
accordingly."

"A modest lunch will be served for
which there will be no charge, neither
will there be any solicitation of
funds, just a heart to heart 'pull-
together' meeting. Be sure and be
present."

"Board of Directors.
J. C. FORESTER, Secretary."

ROOSEVELT FEELS LIKE A CRUSADER

Declares That At Bottom Progressive
Movement Is a Religious One—
Coming into the South

Little Rock, Ark., Sept. 25.—"I feel
as if I had been in a crusade," said
Col. Roosevelt today, coming into the
old South, with his trip through the
west at an end. He said he had been
well repaid for his western campaign
and that he believed after what he
had seen, that the Progressive party
is well on its feet.

He said he had heard good reports
of the movement in the South. At
the bottom, Col. Roosevelt said, the
Progressive movement was a religious
one. He said that one thing which
had impressed him most was the sing-
ing of "Onward, Christian Soldiers"
at the meetings he had addressed.

"It is pretty hard to improve on the
Bible," he said, "all we are trying to
do is this twentieth century is to
apply the old injunction to do unto
others as you would have them do
unto you."

Col. Roosevelt reached Little Rock
after a night's run from McAlester,
Oklahoma. He was the chief attraction
at the Deep Waterways Conven-
tion today.

MORGAN BOUND OVER TO GRAND JURY

No Testimony of a Direct Nature to
Show Man Arrested was in Auto
That Hit Mr. Soule's Buggy

Ed W. Morgan, arrested Saturday
on an affidavit charging assault to
murder in connection with the auto-
mobile accident of September 2 in
which G. A. Soule was injured, was
bound over to the grand jury in the
sum of \$600, after a preliminary hear-
ing in Justice Brothers' court.

While there was no testimony of
direct nature to show that Mr. Mor-
gan's machine struck the Soule bug-
gy and while both Mr. Morgan and his
companion, C. T. Paul, entered posi-
tive denials, Justice Brothers felt that
the evidence showed a possibility
that Mr. Morgan might have been the
man, and had him held over to await
the grand jury's action. Bond will
probably be arranged today.

A number of old men attended the
hearing and while they were there a
farmer came to the office door and
peered in. "Come in," he was invit-

OCCUPANCY AND USE OF LAND

THESE SHOULD CONSTITUTE
THE TITLES DECLARED SO-
CIALIST SPEAKER

LAND ISSUE PARAMOUNT

Speaker Gives Data and Statistics
On Land Question and Farm
Tenantry in Texas

Reddin Andrews of Tyler, Socialist
nominee for governor and T. A.
Hickey of Hallettsville, Socialist
nominee for lieutenant-governor, ad-
dressed audiences at the court house
yesterday, Mr. Andrews in the after-
noon and Mr. Hickey at night. There
was a fair crowd yesterday afternoon
and the court room was filled last
night.

Mr. Hickey, last night's speaker,
said that the great issue in Texas
was the land issue in which declara-
tion, he said, he was joined by the
Dallas News and the Fort Worth Re-
cord. He followed with considerable
data and statistics on the land ques-
tion, with particular reference to
farm tenantry.

"In 1860, he said, there was not a
land renter in Texas and there had
been none before that, as the vast
amount of unoccupied cheap land
made it unnecessary; the railroads got
36,500,000 acres, 3,000,000 went to
build the state capitol, cattle com-
panies fenced in enormous tracts and
the land was taken in other ways,
frequently through fraud. The re-
sult, he said, is that at present 71
per cent of the cultivated land in
Texas is occupied by farm tenants."

The speaker gave figures to show a
total of 125,000,000 acres of land avail-
able for farming in Texas, of which
only 25,000,000 he said was now being
titled, or one acre out of five. The
remainder, he declared, was fenced in
and held for speculative purposes.
Tenantry was a direct and inevitable
result of such a condition, he pro-
ceeded, there now being 219,000 farm
tenants in Texas according to the
1910 census.

"If the 100,000,000 acres of available
land were to be divided among these
tenants, Mr. Hickey said, it would
give each one a farm of about 456
acres. Quoting Blackstone, the
speaker declared that there was no
such thing as a genuine title to land,
except that given by Holy Writ, Gen-
esis 1:26-28.

Herbert Spencer was next quoted
in ridicule of any such thing as a
private title to land, in "Social
Statics." Some of the great land
holdings in Texas were then enumer-
ated, including the following: Swenson
interests, 1100 sections; Mrs. King
of Corpus Christi, 1,400,000 acres;
Waggoner, 800,000; Slaughter of Dal-
las, 600,000 acres.

WILL MEXICAN OIL

HURT THE U. S.?

An enormous expansion of the marketing facilities for the oil of the Tampico region in Mexico is taking place. The lack of transportation has been the chief obstacle up to this time to the different fields of this territory. Besides the additional pipeline that are under construction and being planned, all having for their purpose the delivery of oil to the ports of Tampico, Tuxtepec and Vera Cruz (with one or two possible lines running to Texas, much attention is being given to providing fleets of oil-carrying vessels, by which means the product will be delivered to foreign markets. Even with the somewhat limited marketing and storage facilities that now exist it is practically assumed that the oil production for the Tampico region for the current year will be in excess of 20,000,000 barrels. If the additional pipeline and oil-carrying steamers are made available within the next few weeks the output of the fields may reach a total of 30,000,000 barrels, it is claimed.

Besides the large fleet of oil steamers that is being constructed in England for S. Pearson & Son, Limited, and their subsidiary, the Mexican Eagle Petroleum Company, other large oil operating concerns are having vessels constructed for their own use. The Mexican Petroleum Company has ordered two tank steamers, each of 60,000 barrel capacity, in addition to four tank steamers, two of which are of 65,000 barrels capacity and two of 40,000 barrels capacity that it now has under construction at a shipyard in England. This company is also having two large barges, each of 25,000 barrels capacity and an ocean going tug constructed. This company has been erecting steel oil tanks, each of 55,000 barrels capacity at the rate of six every month for the last several months. It has now in storage about 7,000,000 barrels of crude oil.

The Pearson interests have increased their oil storage to approximately 6,000,000 barrels, it is stated. The United States Oil & Refining Company of Baltimore, has chartered four Norwegian oil-carrying vessels

and will soon place them in service between Tampico and United States point.

The Inter-ocean Transportation Company, which has a capital stock of \$4,000,000 gold, has formed a fleet of eleven tank carrying steamers and has placed orders for the construction of six other vessels, each of large capacity. All of these steamships will be used to transport oil from Tampico and Tuxtepec to foreign markets.

The Tampico Navigation Co. is having several barges and steamships constructed for use in its oil carrying service.

The Texas Company of Houston, in which John G. Gates is largely interested, is erecting a number of large steel storage tanks near Tampico and has ordered the construction of several new vessels, which it will add to its oil carrying fleet that is now in service between Tampico and Port Arthur, Texas. Several of the producing oil companies are laying pipelines and every preparation is being made to transport the oil to the loading racks of the steamships. Independence (Kan.) Reporter.

Another good well has been brought in on the Hickley tract by the Producers company. It was developed in the 500-foot sand and is said to look good for better than 150 barrels though it has not yet been put on the pump.

S. J. Slade of Amarillo, head of the Amarillo Oil and Gas company which recently drilled in its first gas well at Petrolia, was in the city today. Discussing published reports as to the company's pipe line plans, he said these were not settled, depending upon the amount of gas found on the company's leases at Petrolia. A rival pipe line to Dallas and a pipe line to the towns north on the Fort Worth and Denver are said to be among the company's plans.

OLD VANDERBILT RURAL HOME

Little Place, Called "The Stream," is Leased by Millionaire's Wife in England.

London.—Mrs. Alfred Vanderbilt, formerly Mrs. McKim, has been making extensive alterations to the house called "The Stream," at Betchworth, near Reigate, in Surrey, of which she took a seven years' lease last fall, a few months before her marriage to Alfred Vanderbilt. She is much attached to the place, although neither the house, which is a small one, nor the grounds, are particularly attractive. In fact, many of the people at Betchworth on learning that she had plenty of money said in amazement, "Whatever does she want to come to a hole like this for?" When she returned from her honeymoon almost her first remark was, "Oh! How glad I am to be back here again. Now I can rest and keep quiet." Since her return this sentiment has grown

Mrs. Vanderbilt's English Home.

stronger and she has bought the house and grounds.

Since winter many improvements have been made, that were badly needed, for the dwelling had been empty for five years before she took it. An additional plot of land, has been bought from the trustee of the previous tenant, an outside broker whose business fell upon evil days. A garage has been built capable of holding several cars.

Miss Ethel McCormick, who was Mrs. Vanderbilt's companion at the time of the marriage, still remains a close friend and is constantly at Betchworth. Some months ago, while she was being driven in a dog cart by Mrs. Vanderbilt from Reigate the horse bolted and upset both women and the groom, who was with them, out of the cart. The horse was a young one from Vanderbilt's stables at Hendon, and Manager Wilson has since had instructions to see that quieter horses are sent to Betchworth.

COLLIES TO HERD REINDEER

Uncle Sam Hires Blue-Blooded Collies to Teach the Pelebian Canines of Alaska.

Seattle, Wash.—Lass and Major, blue-blooded collies, who date their ancestry back to the coming of some Collie William the Conqueror to Bonnie Scotland, have been hired by Uncle Sam to educate the dogs of Alaska. Their particular field of activity will be instructing collies, shepherds and huskies of the wild north in the herding of government reindeer.

When the steamship St. Helena sails from this port Lass and Major as well as four other collies of Tessa aristocratic strain will be passengers. They will be in charge of A. N. Evans, superintendent of the northwest district for the department of education. Among the places they will visit will be St. Michael, Teller and St. Lawrence Island.

At the last local bench show Lass and Major took blue ribbons and special prizes against the field. They were purchased from Mrs. A. Stinson of this city recently, and Major made the transfer memorable by falling into the hands of the pound master. He was rescued from prison by W. T. Lopp, chief of the Alaskan division, department of education, very much soiled and worn out with his adventures about the city. At herding collies excel every breed of dog known to man, and Lass and Major, being almost intelligent enough to speak English, are expected to accomplish wonders with the native dogs of the north. Some doubt is expressed whether or not they will readily learn the Eskimo and Indian dialects of northern dogdom, but Mr. Lopp and Mr. Evans think that a short acquaintance in Alaska will make them proficient in tongues.

Movement to Reform Calendar Is Making Excellent Progress

Boston, Sept. 25.—The international movement to reform the calendar is making excellent progress, said Louis Cannon-LeGrand today in his address at the opening of the Fifth International Congress of Chambers of Commerce. M. Cannon-LeGrand, who is president of the Congress, is also the head of its permanent committee, president of the Chamber of Commerce of Mons, Belgium, and president of the Federation of Commercial and Industrial Associations of that country.

The principal purpose of the new calendar movement, he asserted, was to make the months of more nearly uniform length and to establish a fixed date for Easter. He pointed out the benefit of such a reform from a banking and commercial standpoint.

To take formal action in the matter, he reported, the Permanent Committee has induced the Swiss Government to invite the various governments of Europe to an international diplomatic conference. The American government, he added, has not yet been sounded, because it was considered advisable first to make sure of the official co-operation of the governments of Europe. Since Switzerland has no official representative at the Vatican, the committee took upon itself to sound the attitude of the Holy See.

"It is of the opinion," he said, "with the majority of those interested in this question, that the reform of the calendar is not practically realizable except with the assent of the Holy See, since the question was largely that of fixing the dates of religious holidays. We know, from a reliable source, that the Holy See has submitted the question of the reform of the calendar for the consideration of the Congregation of Rites. It is stated further that this examination would probably be quite lengthy since it would give rise to an investigation throughout all Christian countries."

"To work out a calendar," M. Cannon-LeGrand continued, "it is essential to bear in mind that an astronomical year consists of 365.2422166 days. It being impossible to base a calendar on so elaborate a number, the year has been lengthened to 365 days and a quarter. Then, under Pope Gregory, this lengthening has been compensated by the dropping of three days in the space of four centuries. If, now, we again round off the figure and bring it to exactly 365 days, this annual shortening of the year is compensated by the addition of one day, the 29th day of February, each fourth year. But 365 is not divisible by 7, so that the year is not made up of a whole number of weeks. It would be sufficient, however, to

bring the number of days to 364 to adjust everything.

"The basis of the reform is the ingenious idea of withdrawing from the regular course of the weeks the first day of January. The first of January would be New Year's Day. This day is already, according to our customs throughout the civilized countries, devoted to quite different occupations from those of other days of the year; it therefore possesses a peculiar character and deserves to be distinguished from all other days.

"In order not to change too much our present customs, we divide the quarter into three months, consisting of 30, 30 and 31 days. Only the last month of each quarter would have 31 days, and these 31st days would be Sundays if we begin the quarters on Monday. It will be seen, therefore, that we should preserve our habit of speaking in half-years, quarters, months and weeks. It seems to us, therefore, that there would be a good chance of persuading the public to accept a modification of the present calendar."

"THE ROSARY."

Every woman thinks she knows how to keep alive the love of her husband. Wonder if the girls in this city know that act? Sometimes it is said they don't. At any rate, they will know after they witness a performance of "The Rosary," which is coming to the Wichita Theatre Friday night.

In "The Rosary" there are three distinct love stories. The principal love affair is that of Bruce and Vera Wilton. This husband-and-wife love each other with their whole hearts. She is a devout woman, but he is a born atheist. Being a man of much business interests, Mr. Wilton neglects his home, and Vera resorts to the green-eyed monster to bring her husband back to her. She begins a flirtation with a man named Konward Wright. Circumstances bring Wright into the Wilton home, where he falls in love with Vera's sister, Alice. One night, when he and Alice had arranged for a secret elopement, Vera, entering the room, as the couple are leaving through an open window, is discovered by her husband. The result is two broken hearts; therefore jealousy is an evil, and not an advisable way of keeping a man interested.

The second love story is between Kathleen O'Connor and Charley Harrow. Kathleen is a little Irish girl, who believes that the man she will marry must know the Irish history thoroughly. Charley knows nothing of Irish history, so Kathleen attempts to teach him. To keep Charley interested, Kathleen uses the simplest of language, dress and actions. Charley is attracted to her by her simplicity, so it is shown that the simplest truth attracts the man of the world and keeps him interested.

In the love story between Lesura and Skeeters, the audience finds that opposition to a man's vanity makes him only the more interested in the pursuit of the one thing upon which he prides himself—greater than all else. During the scenes Skeeters is very proud of his ability to tell stories, but it isn't until after an original system is employed that Skeeters succeeds in getting Lesura to laugh.

All of this love is in "The Rosary" and with a competent cast presenting it, the play is worth attending.

THE VICTORY OF WILSON FORCES

IN NEW JERSEY.

The sweeping victory of the Wilson

candidate for nomination for United

States Senator on the Democratic

ticket in New Jersey, in the primaries

yesterday over Former Senator Smith

who once held supreme power in

New Jersey in the Democratic ranks,

is an encouraging sign.

Senator Smith was a "protection-

AS TO CITY PARKS

Editor Times:
I note with much interest the editorial in yesterday's paper with reference to parks, and I heartily endorse so much of it as speaks of the necessity of other cities.

I don't believe there is anything that is needed more than places of amusement for the bulk of the people but I disagree with you as to that part where you say "As the Times understands the matter, the Seven Sisters is now the property of gentlemen who bought it with the idea of selling it to the City for a park and there need be no haste in taking it over."

The Seven Sisters are owned by a number of our leading citizens, whom I persuaded to buy the property for the express purpose of holding it to sell to the City for a park without any profit, simply cost and interest, but owing to the failure of the city some time ago to get a special charter these gentlemen have had to carry the property longer than they contemplated, and some of them have been rather restive under the burden, and unless the city makes some arrangements in the early part of 1913 to purchase it, it will most probably be divided among its owners, and thus the only chance for getting a solid block for a park will be lost, and when the city does desire to get a down-town park, it would have to deal with a dozen or fifteen individuals, who have improved their property and the block would cost \$50,000.00, or at least three times what it could be bought for now.

I merely mention this lest some would think that the owners would keep it indefinitely if the city does not buy it. For most assuredly that would not be the case.

As to the wisdom of selling Bellevue Park, I express no opinion, as my understanding is, that while the subject has been discussed, there is no likelihood of any action being taken at present, on account of legal difficulties to be considered.

I firmly believe that the citizens of Wichita Falls should take steps to have a special charter, and that during the next year we should do more public improving than we have ever done and one of the most pressing necessities in my judgment, is the need of public parks and public play grounds for our children, and I don't think that anything will appeal more to the great mass of the people than this subject.

In common with all other citizens, I have a pride in Lake Wichita and commend the enterprise of its promoters, but it is too expensive for a

great many of our people who have families to visit Lake Wichita often, and in our hot summer days, if parks were available within two or three blocks, many would go who could not take the time to go out to the Lake often.

Yours respectfully,
ROBERT E. HUFF.

CHURCHES AND THE NEWS-PAPERS

In these days when almost everybody is saying slighting things about the newspapers and the motives that prompt their every utterance it is pleasing to note a statement by a New York minister, Rev. Christian F. Reiser, pastor of the Grace Methodist Episcopal church.

In a recent sermon he plead for co-operation between the churches and the newspaper men.

He said no single person has so big a chance to influence the community as the reporters, who ought to tremble before their responsibilities.

"No one can adequately picture the power of the press," Dr. Reiser continued. "Every one reads papers. If they cannot decipher words then they draw conclusions from pictures. The newspaper man speaks to the largest audience known. It is no wonder a noted Chicago preacher gives his life and best thought to writing one article a day for a syndicate of papers. He speaks to over a million."

"Printed words usually sink deeper than spoken ones. All hail the bustling news gatherers and outgivers who serve the people, and often without worthy appreciation. Newspaper men cannot hold their jobs unless they have exceptional ability. They must be alert for every possible clue every moment. Everlasting resourcefulness is required."

"It is no wonder that Mr. Moody advised young theologues to become newspaper reporters for a season to sharpen their wits. My own experience as a newspaper reporter has been invaluable to me as a minister. The daily papers will welcome co-operation from the churches."

"I have now been preaching over fifteen years. I have known scores of newspaper men. I have never known one who was not friendly to and ready to help the church. The daily paper was never so clean as now. Much is given to the newspaper men in the way of influence and power. Much will be expected of him. And with encouragement he will give it."

SOME FACTS ABOUT THE BUCKNER'S ORPHANS HOME

Pictures showing the growth of the Buckner's Orphans Home at Dallas, from a log cabin to the splendid present day group of handsome buildings will be shown on the screen at the First Baptist Church tonight by Evangelist S. C. Bailey, state representative of the home.

The display of pictures and the accompanying talk will start promptly at 7:30 o'clock and will last just an hour. The pictures will include scores of photographs showing the life of the 700 children at the home and will also be equal to a visit itself to this splendid institution.

In speaking of the home today, Rev. Bailey said the cost of maintenance was more than \$125 per day. Two hundred pounds of flour go into the breakfast biscuits of the institution daily. A washtub full of eggs is required at a meal to feed the children.

If beans are on the menu a big sackful must go into the pot. Forty-five turkeys or 125 chickens would be just enough to give the children a meal

VERY WORD TARIFF OF UNSAVORY ORIGIN

Word Comes From Town Tariffs Where Ancient Moors Held Up Ships

(By Dr. G. A. Norton, a noted political economist and publicist.)

The very word tariff is of unsavory origin. It came from the name of the town Tarifa, on the Straits of Gibraltar, a strategic point where in ancient times the predatory Moors held up incoming and outgoing ships and levied tribute. In our day, the "tariff wall" has been used by the predatory interests to hold up and levy tribute on the American people. The tariff has been built up and perpetuated by the Republican party under the specious guise of protection to American industries. The robbery of the ultimate consumer for years has been carried on under the cloak of protection.

For fifty years the American people have been enslaved and robbed by the interests under the false and misleading belief that "the foreigner pays the tariff tax; that without the protective tariff business manufacturing would not prosper nor wages be sustained." All three of these arguments are false in their very essence, and vicious in their application.

These political jugglers will show you how prosperous the country has been and then assert that it is due to the protective tariff. They never remind you of the great panics that have convulsed this country; they never tell you of the hard times that have cursed the workingman time and again. They say that the working men of this country are the highest paid in the world because of the tariff; that the farmer is prosperous and thriving because of the tariff; that the business men have grown big because of the protective tariff. These lies have been so often and so loudly repeated that many people have come to believe that there is some truth in them.

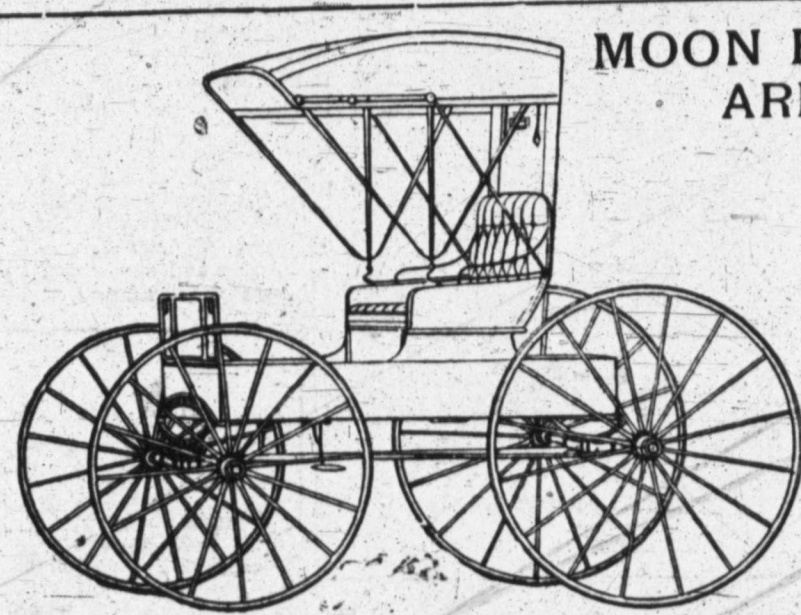

William Jennings Bryan was once interrupted in the course of a public speech and asked: "Does not the protective tariff enable manufacturers to pay higher wages?" Mr. Bryan replied: "Yes, it enables them to pay higher wages, but it does not force them to do so, and so they never have done so."

The combination of free trade in the labor market and the high protective tariff on manufactured goods, is the ideal situation for the trusts and corporations. It puts the dollar above the man and enables the manufacturer to defraud both the laborer and the consumer. The American workmen are the most efficient in the world. Figuring their output against the output of men in other countries the American wage scale is lower than that of England for instance.

The manufacturers have waxed fat under the tariff which in its original conception was designed to "protect industries," but they have not divided fairly with the workmen who helped them grow.

On some special occasion and a hoghead of molasses would last just a week.

MOON BUGGIES ARE THE BEST

We offer a selection from a new car load, just received of the Celebrated Moon Bros. Buggies and Carriages. The line includes every desired style, from steel-tired runabouts to two-seated rubber-tired fall top carriages, and each style is warranted by the makers, and by us, to be the best it is possible to make. The Moon Bros. Carriages have a reputation the world over for durability, style and strength. Combined with these features, we offer them at very low prices. They are the ideal vehicle for farm or city use.

We have also just received a car load of Superior Drills.

Now is the Time to Pick Up Bargains in Floral Heights!

Lots for a Quick Turn-in Profits--Look at These:

Single lots within block of car line and sewerage: a ch. \$350.00
Four south front lots Tenth Street, on sewer, for quick sale \$1750.00
Three lots on car line, this side of bond, sidewalks and sewerage; near best of improvements; will sell single; each \$600.00

There are more building improvements in Floral Heights than in any other part of Wichita Falls. The completion of the gas factories will mean the employment of 400 men and a subsequent increase in population and demand for property. Figure it any way you want but Floral Heights will and must get the benefit of any expansion of the residence population off Wichita Falls.

Robinson's Mineral Water is highly recommended by physicians and patrons who have tested its merits for indigestion, catarrh of the stomach, kidney and bladder trouble. The water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases. This water can be purchased at the wells or delivered in jars or cases. This well is located one mile south of Alamo school building in Floral Heights. 104 tfe

is nature's way of making you take the proper care of yourself. If a corn did not hurt you so that you would cure it or at least protect it, it would sooner or later result in a serious and dangerous ulcer.

It is your own fault that you have them in the first place, but maybe you did not realize it at the time. At any rate you deserve no sympathy for the painful trouble, when for a little care and a few cents spent for a package of our corn cure, you can have relief in a short time and permanent cure, if you will follow directions.

FIRST MEETING

(Continued from page 1)

H. W. Cantrill, manager for the Western Union, testified that he lived directly opposite the Methodist church. He identified a receipt for \$15 for a month's house rent which he had seen picked up from the floor asked whether or not Al Boyce came concerning the introduction of private telegrams as testimony arose between the attorneys while this witness was on the stand.

J. F. Boony, a grocery clerk, gave further testimony concerning the identification of the receipt for house rent.

C. L. Mays, clerk at McDonald's book store, testified that he had seen a man resembling Sneed on Polk street near the Methodist church on two different occasions and that each time he was carrying a box. The state then rested its case.

Mrs. L. A. Rogers of Dallas was the first witness called by the defense. She stated that her husband is a window decorator in Dallas. She said that she had lived in the same house with the Sneed in Dallas. She said that she and her husband and child had rooms over where the Sneed family lived. The Sneed occupied the entire first floor. They moved into the house on July 8 and remained there until August 13. Mrs. Snyder, mother of Mrs. Sneed, joined the family soon after July 8. Sneed was away frequently on business and while he was away Mrs. Sneed left the house and went up town.

The attorneys clashed when McLean, who conducted the defense, Boyce, brother of Al Boyce, was put to the house while Sneed was away. The question was withdrawn. Mrs. Rogers was then asked to repeat a conversation between herself and Beal Sneed, the mortgagor the Sneed left their Dallas home. This brought another objection from the state.

Mrs. Rogers was excused from the court room while the attorneys engaged in the first long discussion that has yet come up since the beginning of the hearing.

OF LOCAL INTEREST.

Some People We Know, and We Will Profit By Hearing About Them

This is a purely local event. It took place in Wichita Falls. Not in Buffalo or New York. You are asked to investigate it. Asked to believe a citizen's word. To confirm a citizen's statement. Any article that is endorsed at home is more worthy of confidence.

Than one you know nothing about. Endorsed by unknown people. John Glenn, shoemaker, 712 Seventh street, Wichita Falls, Texas, says: "For many years I have been troubled with various difficulties caused by my kidneys and bladder and the only reliable remedy I have ever found to cure me is Doan's Kidney Pills. I had pains in my back and side and was troubled by irregular passages of the kidney secretions. Seeing Doan's Kidney Pills so highly recommended, I tried them and found them even better than represented. They cured me entirely and now, I seldom have need to use a kidney remedy. When I do, it is Doan's Kidney Pills and they always benefit me."

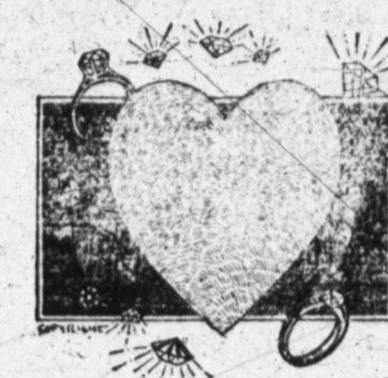

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Relieves Catarrh in One Hour.

The quickest and easiest way to open up your mucus clogged head and free the throat from catarrhal secretions is to breathe Booth's HYOMEL. Don't waste time with impossible methods; HYOMEL has ended the misery of catarrh for thousands of despairing sufferers; it will do the same for you if you will give it a fair trial.

Just breathe it; it kills catarrh germs and banishes catarrh. A HYOMEL outfit, which includes inhaler, costs \$1.00. Separate bottles, if afterwards needed, 50 cents at pharmacies everywhere. Money back from Fooshee & Lynch if dissatisfied.
