

Massive Oil Slick Might Miss Seafowl

OFF THE LOUISIANA COAST (AP) — Brisk winds blowing seaward brought hope today that a massive oil slick might spare coastal oyster beds and a wildlife refuge which is a winter home for hundreds of thousands of seafowl.

The slick escaped encircling booms and barges Wednesday when high seas broke up the protective chain which had been containing most of it.

The oil was spewing from wells on a Chevron Oil Co. platform, 30 miles out in the Gulf of Mexico, where a month-long fire was blasted by dynamite Tuesday.

A company spokesman said the fire would be reignited "if oil keeps moving to the oyster beds." The company also was ready if necessary to frighten the threatened birds away with explosive charges.

Chevron crews were kept at work through the night in an effort to repair breaks in the chain of booms linking barges carrying oil-skimming equipment.

Would you be more careful if it was you that got pregnant?

HEALTH EDUCATION — This poster showing a pregnant woman will be distributed by Britain's Health Education Council to persuade men to seek advice on contraception. Director General of the Council, Dr. William Jones said, "We want to make any ignorant or unthinking man stop and consider the suffering and problems he can cause through an unplanned pregnancy." There were 20,000 abortions performed in Britain last year.

White Woman Might Be Key To Bombings

CAMBRIDGE, Md. (AP) — A mystery woman was sought today by police investigating possible links between two bombings and the arson-riot trial of black militant H. Rap Brown.

Witnesses said the woman was in the Dorchester County Courthouse a few hours before a powerful explosive device blew a big hole in the building.

The blast early Wednesday followed by about 24 hours an explosion in a car on the outskirts of Bel Air—scene of Brown's trial—which killed two Negro men.

One has been identified as Ralph Featherstone, 31, and the second, tentatively, as William Herman Payne, 25. Both Featherstone and Payne had been associates of Brown in civil rights campaigns.

Brown did not show up for a trial session Tuesday and his whereabouts continued to be a mystery. He is accused of arson and inciting others to commit arson and to riot during 1967 racial disorders here in which 16 buildings were destroyed.

The trial was shifted from Cambridge to Bel Air, 68 miles north across Chesapeake Bay, because of fear that it might touch off further disturbances in this city of 12,000.

Brown's attorney, William M. Kunstler, has obtained postponement of further court proceedings until Monday.

"A pattern has developed in this case, and there may be more and more incidents if the trial resumes," Kunstler declared Wednesday.

LT. Col. Thomas S. Smith of the Maryland State Police told newsmen the woman sought in the courthouse bombing "is only a suspect."

"She is only suspect because she was seen in and around the courthouse Tuesday before closing," Smith said. "She is from out of state. We have a very good description and a possible name."

18-Year-Old Voting Plan Survives Test

WASHINGTON (AP) — After guiding his controversial proposal through a key floor test, Senate Democratic Leader Mike Mansfield says he is pushing for a quick decision on his bid to lower the voting age to 18.

"I'm going to stick with it until I get a vote," Mansfield told newsmen Wednesday after the Senate's 62-21 rejection of a move to table and thus kill the amendment to a bill extending the 1965 Voting Rights Act.

The tabling motion was offered by Sen. Russell B. Long, D-La., who said afterward he recognized the vote as an expression of the will of the Senate in lowering the voting age.

The Democratic leader had wanted a final vote Wednesday but was set back momentarily when Sen. James B. Allen, D-Ala., proposed his series of amendments to the proposal.

Mansfield said he detected no signs of a filibuster in the making. He said he hoped for quick passage of the amendment and the voting rights measure so the Senate can take up the nomination of Judge G. Harrold Carswell to the Supreme Court.

Adoption of the amendment, upheld by the courts, would extend the franchise to an estimated 10 to 11 million young people. Only Georgia, Kentucky, Alaska and Hawaii now permit persons under 21 to vote.

Name Drawing Slated Monday

The Howard County Democratic Party Executive Committee will meet at 7 p.m. Monday to draw names of candidates for placing on the May 2 first primary ballot. The meeting is open to all interested residents, according to Cecil Riordan, party chairman, and he asked that the candidates be on hand.

Riordan said the names would be drawn by Sheriff A. N. Standard, as required by law, and he urged party precinct chairman to make a point to attend the session, which will be held in the Howard County Courtroom.

Bomb Skyscraper Offices In Gotham

'Survey Saturday' Aims At Completing Canvass

"Survey Saturday" is being stressed by the Industrial Team of the Chamber of Commerce in a final effort to compile complete information on the potential labor market among women of the area.

Survey forms have been published and distributed in various ways for the past couple of weeks, but Charles Beil, personnel representative on the Industrial Team, said members felt not all the potential has been covered, and a more complete listing will be sought this weekend.

Volunteers will be stationed at some 20 store locations Saturday, where traffic generally is heaviest, and will assist those who wish help in completing the labor availability form.

In addition, special canvassing of

households in some areas will be done by Herald carriers and others.

Beil said that other canvassers could be used, and if any person wishes to volunteer for Saturday afternoon work, he or she should report to the Chamber of Commerce at 1 p.m. A fee of 10 cents per completed form will be paid to such canvassers.

The Industrial Team seeks an up-to-date and complete report on labor availability. This is of prime importance when prospects are approached for locating plants in Big Spring, particularly those doing garment manufacture. The survey is directed largely at the female labor availability.

Corporation Giants Raked, No Injuries

NEW YORK (AP) — Bombs exploded and caused extensive damage early today to the mid-Manhattan headquarters of three giant American corporations. No injuries were reported in the blasts, the second such attack on New York-based corporations in three months.

The explosions took place in the offices of the Mobil Oil Corp., the International Business Machines Corp. and the General Telephone and Electronics Corp. Each was evacuated after an anonymous caller warned of the impending blasts.

Bomb threats also were telephoned to the U.S. District Court buildings in Brooklyn and Manhattan. Litton Industries Corp. and the mammoth New York Coliseum. All were being investigated by police.

Meanwhile, a group calling itself "Revolutionary Movement 9" claimed responsibility for the explosions in a special delivery letter to the United Press International news service.

The letter said the explosions were "to attack and destroy the forces of death and exploitation and build up a just society."

It said the bombed corporations were "enemies of all life" that profited from defense contracts.

The blasts were the latest in a series of bombings that have hit Manhattan skyscrapers and federal buildings. Five persons were charged in connection with a four-month sequence of bombings last November.

More recently there was the explosion of a Greenwich Village townhouse where police said members of a militant left-wing group were fashioning bombs and apparently bungled the job.

Police were reported checking any possible link between the townhouse group and the earlier case. Anonymous letters to news media said the earlier bombings were blows against American big business, the government and the military.

Tarr Next Draft Boss?

WASHINGTON (AP) — President Nixon plans to nominate Curtis W. Tarr, an assistant secretary of the Air Force, as the new director of Selective Service.

Tarr, assistant secretary for manpower and reserve affairs, is a former president of Lawrence University in Appleton, Wis.

He would succeed Gen. Lewis B. Hershey who retired as draft director on Feb. 16.

Tarr's selection ended a long search by the administration for a successor to Hershey, who has become a manpower consultant to Nixon.

Tarr was president of Lawrence University from 1963 until his Air Force appointment in February, 1969. He was also chairman of the Committee on Local Governmental Finances and Reorganization which was established by the Wisconsin legislature to study ways of improving state and municipal governments.

More Than 1,100 Bound Home

Skyjacks Confusion

DA NANG, Vietnam (AP) — More than 1,100 troops of the 26th Marine Regiment sailed today for the United States and disbanding of the outfit that stormed the beaches of North Jima and held off the North Vietnamese at Khe Sanh.

The Marines sailed aboard the helicopter carrier New Orleans for a 17-day voyage to Camp Pendleton, Calif. The rest of the 7,000-man regiment and its supporting units will leave by ship and plane during the next week.

"The 26th has always been used in combat situations, and when the combat drops off, it's put back on the shelf," said its commander since December, Lt. Col. James E. Harrell, 43, of Waco, Tex.

"They've done well," Harrell added as he watched his men march aboard. "I'm real proud of them. They're a little tougher than Marines in previous wars."

The regiment was ordered out of the war zone as part of President Nixon's third-phase withdrawal of 50,000 men.

"It's about time for all the troops to leave—everybody wants to go home," said Lance Cpl. Carl D. Blum of Columbus, Ohio. Although only 20, he has done two tours in Vietnam and fought in the hills around Khe Sanh just after the siege ended two years ago.

"I guess there's good reason for both staying and going," said Blum. "As a grunt (infantryman), I don't know anything about the political reasons for being here. All I know is that it's hot in Hell, it sure is hot in Hell."

Nixon May Ax Budget Bureau

WASHINGTON (AP) — President Nixon called today for establishment of a new domestic council to formulate policy and creation of an office of management and budget to replace the Budget Bureau.

In a special message to Congress, Nixon summarized his plan for revamping of the Executive Office of the President.

"The Domestic Council will be primarily concerned with what we do; the Office of Management and Budget will be primarily concerned with how we do it, and how well we do it."

Nixon said he was acting because the machinery available to him to manage the federal bureaucracy "has not kept pace" with governmental growth.

The planned reorganization would go into effect automatically unless either the Senate or House votes it within 60 days.

"We in government often are quick to call for reform in other institutions," he said, "but slow to reform ourselves. Yet nowhere today is modern management more needed than in government itself."

And, he concluded that the place to begin moves toward improved management was in his own backwash, the Executive Office of the President.

Derailment Of Bombs

AURORA, Neb. (AP) — How does a quiet little town react when word spreads that 1.7 million pounds of bombs ticketed for Vietnam are strewn at its doorstep by a train derailment?

It happened Wednesday to the central Nebraska town of Aurora, population 2,500. And the people reacted quietly, taking almost a ho-hum attitude.

Mrs. Robert Willis, who lives near the scene of the derailment at the edge of town, said:

"I suppose it's normal to worry when you hear the word 'bomb', but there was no panic. People just figured it just happened and there wasn't much danger."

The Willises were among several families who decided to leave their homes after a Burlington-Northern freight train derailed.

WE SURE DO!

By The Associated Press

"Well, they know him now," President Nixon, commenting on critics' charges that Vice President Spiro T. Agnew was virtually unknown when selected for the GOP vice presidential nomination in 1968.

We're Not Snowing You--Texas Is Cold

By The Associated Press

Winter's renewed siege showed signs of lifting today after another night of snow, sleet or rain from parts of the Texas Panhandle Eastward

across the northern third of the state.

State police reported frozen slush, patches of glaze and occasional accumulations of snow left roadways hazardous in ear-

ly morning around Amarillo, Lubbock, Childress and Wichita Falls but all routes were open. Conditions were expected to be normal again by afternoon.

The snow fell lightly during the night and early today from Amarillo southward past Lubbock and as far as San Angelo, also ranging toward the east through the Childress, Wichita Falls, Mineral Wells and Dallas - Fort Worth areas. There was even a little snow briefly at Tyler in East Texas.

By early morning, however, Weather Bureau radar indicated the snowfall had stopped except along the Red River east of Wichita Falls, where it was mixed with rain.

Snow depths ran no higher than around two inches at Amarillo and about 1½ inches at Plainview and Wichita Falls.

Light rain also fell early today over parts of Northeast Texas and it was cloudy nearly everywhere in the state except the southwest section, where skies were clear.

Before the nasty weather started moderating, slick streets and highways were blamed for at least four traffic deaths and countless smashups.

There had been concern the snow or rain might grow worse. Forecasters cancelled a prediction for up to four inches of snow in the mountains east of El Paso however. And in other sections where rain had been predicted today, the prospects were for clear to partly cloudy with no moisture through the weekend.

At the same time further chilling was promised throughout the state. Temperatures overnight were expected to dive as low as 16 degrees in the Panhandle, into the lower 20s over West and North Texas and to around freezing in the south.

Sunshine reappeared as early as Wednesday afternoon in coastal areas and along the Rio Grande. Top temperatures reached 70 at Brownsville and 72 at Beaumont but the mercury crawled no higher than 27 at Amarillo and 29 at Dalhart.

SHIVER WEATHER — These lovely daffodils, blooming forth during the balmy weather of early week, received a snow blanket Wednesday and shivered through today, as did most Big Springers.

Pentagon Will End F-111 Production

WASHINGTON (AP) — It is now official: the Pentagon will end production of the troubled F-111 aircraft at a maximum of 556 planes—less than a quarter of the number originally proposed six years ago.

Gen. James Fergusson, head of the Air Force Systems Command, told the Senate Armed Services Committee Wednesday the Pentagon will spend no money on F-111 production beyond the budget year ending in mid-1972.

This, he said, will round out payments for four F-111 fighter wings, although there is some doubt whether Secretary of Defense Melvin R. Laird will ap-

prove purchase of the final 40 planes of the fourth unit.

All but six test models among the 225 operational F-111s have been grounded for intensive X-ray and sonic inspection as a result of the crash of the 13th F-111 at Las Vegas, Nev., last December.

Officials found the Nevada accident was caused by a steel flaw which caused a wing to break off.

Laird has said he will await the outcome of the Air Force inspection before committing himself to the final 40 of the fourth fighter wing.

Please Give Us A Call

Do you manufacture something? The Herald would like to know about it.

The Herald is preparing a survey of industry, large and small, in Howard County, and we need the help of everyone operating in their field. The larger ones we know about, but there are many small industries which could be overlooked. In some instances, these may well be a one-man operation, a husband and wife team, or a small enterprise employing only a few. But we want to know about it in order to have a complete list.

So if you engage in a business which manufactures (changes the form of something), please give us a call.

Medicare Checks Total \$669,635 In Howard County

Medicare paid benefits of \$669,635 to Howard County residents in 1968, according to Erven Fisher, district manager for the Social Security Administration. The report shows 2,793 enrolled for hospital coverage, and 2,711 enrolled in medical insurance. The optional coverage requires a monthly premium that is matched by the federal government. The premium is presently \$4 per month, but will increase to \$5.30, July 1.

Fisher's report for the last complete reporting year showed that 2,809 persons in the county were enrolled in the two-part insurance. The average benefit paid an enrollee was \$170, for the collected for that purpose, and regular hospital coverage, and

Families Tend To Desert Heart Transplant Patients

HOUSTON (AP) — Heart transplant patients often awake to find themselves virtually deserted by their families, a New York hospital social worker said here Wednesday.

Mrs. Margaret Abele, a social worker at the Cornell Medical Center in New York, said she has noted a tendency in the 10 cardiac transplant cases at her hospital for the families to "avoid calling or coming in."

"The patients have been sick for so long, the families may not feel very good about his chances for survival," she said. "They know the statistics on heart transplants aren't very good right now."

"To them," she said, "the patient may already be dead."

She said this reaction is different from the families of most chronically ill people and is one aspect of organ transplants which is not thoroughly understood.

Family desertion does not happen in all cases Mrs. Abele said, and other transplant centers may not have had the same experience.

Heart transplants, he said, put husbands and wives into "real conflict," and often the

partner who is well will avoid contact with the patient as a result.

She noted that often when the patient is the husband, the wife must make a choice between devoting her time to the husband or to the children.

Usually, she said, the wife will choose the children and "make her commitment to the living."

Some spouses, she said, even refuse to contribute to the decision-making process which leads to a heart transplant.

"Participating in such a decision is a terribly heavy responsibility," said Mrs. Abele, "and often the spouses prefer to avoid that responsibility. They'll let the patient make the decision alone."

The patients are often able to notice the absence of the family and they develop a depression because they feel abandoned.

The hospital "family" of medical workers, she said, then steps in and helps the patient overcome the depression.

Because the heart transplant patient has usually been ill for some time, his family is often in serious financial troubles.

Rodeo Pays Record High

DENVER, Colo. — The Houston rodeo, which ended Sunday in the Astrodome, paid \$96,245 in prize money — a record high in modern rodeo history.

There were 574 entries at Houston, also a record. Top winner was Stan Harter, Phoenix, Ariz., who had an elapsed time of 26.6 seconds in roping his two calves. His take was \$4,986. This put him in the season's lead with \$7,613.

A prolonged cold spell was ended at Houston for Larry Mahan, 26, Brooks, Ore., the world all-around cowboy champion the past four years. This year, Mahan got off to his slowest start since 1966, but came to life in the Astrodome, picking up \$4,693 in saddle and bareback bronc riding and bull riding.

Mahan now leads national all-around cowboy rankings with \$9,083 in total winnings.

At Houston, event winners were: saddle bronc riding, Mel Hyland, Surrey, B.C., \$3,415; bareback bronc riding, Royce Smith, Iona, Idaho, \$3,062; bull riding, Dickie Cox, Walnut Springs, Tex., \$3,068; calf roping, Harter, \$4,986; and steer wrestling, Jones, \$4,434.

Teenage Dances Are Postponed

The local American Legion Post has announced a major change in the weekend dance schedules, effective immediately, according to post commander Dr. J. Gale Kilgore.

The teenage dances, normally held on Saturday night, have been postponed until further notice. When they resume, they will be held at an earlier hour and on Friday nights.

The adult dances, normally held on Friday nights, have been changed to 10 p.m. Saturday nights, and instead of country music, these dances will feature popular variety musical styles. This week the adult dance will feature Louie-Louie and the Sounds.

Kilgore said that teenage dances will resume as soon as appropriate arrangements can be made.

GRAMMY WINNERS — Comedian Bill Cosby, singer Peggy Lee and songwriter Burt Bacharach, left to right, show off their "Grammy" awards presented by the National Academy of Recording Arts and Sciences at the Century Plaza Hotel in Los Angeles Wednesday night. Cosby received award for best comedy album; Miss Lee was honored as having the best contemporary vocal performance for a female; and Bacharach received one "Grammy" for best score written for a movie or TV special and shared a second with Hal David for best score from an original cast show album.

'Games People Play' Named Song Of Year

NEW YORK (AP) — A nine-man rock group, a pop song and a machine that looks like a small computer did better than any individuals when 44 Grammys were awarded for the best recordings of 1969.

Three Grammys apiece went to the rock group Blood, Sweat and Tears, the pop song "Games People Play," and the album "Switched-on Bach" which is performed on the Moog Synthesizer, a computer-like machine that can sound like any instrument in an orchestra.

Winners of the Grammys, statuettes shaped like gramophones, were announced Wednesday night.

"Blood, Sweat and Tears," the group's second LP, combining rock, jazz and classical music, won as the best album of the 1969 contest year. Group member Fred Lipsius won the arranging award for the group's hit "Spinning Wheel." "Variations on a Theme by Eric Satie" won for BS&T in the best contemporary instrumental performance category.

"Games People Play" was named song of the year and best contemporary song, with two Grammys going to writer Joe South. Saxophonist King Curtis' playing of the song won for him in the rhythm 'n' blues instrumental performance category.

"Switched-on Bach" was named the classical album of 1969, the best solo instrumental classical performance and the best engineered classical recording.

Crosby, Stills and Nash were acclaimed best new pop artists of 1969.

Peggy Lee won the best female vocal performance Grammy for "Is That All There Is?" and Nilsson won as best male vocalist with "Everybody's Talkin'." Written by Fred Neil, instrumental theme for "Midnight Cowboy" won as best theme tune.

"A Boy Named Sue" won "best country song" for its writer, Shel Silverstein, and "best country male vocal performance" for Johnny Cash. Cash won a second Grammy, for best album notes, those he wrote for Bob Dylan's "Nashville Skyline."

Finalists Announced In Co-Op Oratory Contest

Names of the nine finalists in the Oratorical Contest, sponsored by Lone Wolf Electric Cooperative, Inc., were announced this week by Kenneth Rogers, manager.

Winners, whose oratory on the subject "The New Generation" qualified them for final consideration by the committee of judges, are: Buster Muncy, son of Mr. and Mrs. Billy Muncy; Maryneal; Lana Scott, daughter of Mr. and Mrs. James Scott; Maryneal; Alice Blocker, daughter of Mrs. Marguerite Blocker; Roscoe; Debbie Brown, daughter of Mr. and Mrs. Harold Hamer, Colorado City; Leslie Anderson, son of Mr. and Mrs. Warren Anderson, Colorado City; Obie Crawford, son of Mr. and Mrs. Myron Crawford; Ira; Annette Erwin, daughter of Mr. and Mrs. Robert Erwin; Ira; Sandy Anderson, daughter of Mr. and Mrs. David Anderson, Westbrook; Rhonda Oliver, daughter of Mr. and Mrs. Wayne Oliver, Lorraine.

The nine young people will be interviewed Friday by a judging panel consisting of Danny Doan, Merkel, Chuck Elmore, Stanton, and Joe Musgrove, Big Spring. From the group of finalists, two will be selected as winners of all-expense paid trips to Washington, D.C., June 12-23, Rogers said.

Final judging of contestants is to be based on: knowledge of subject, speaking ability, poise, personality, appearance.

The group of youths will travel to and from Washington, D.C., by chartered bus, with other winners from Texas. Participants will be chaperoned by six adult couples. While in the nation's capital city, the young people will visit various governmental agencies and sites of historical significance. They will also visit the headquarters of the National Rural Electric Cooperative Association, national service organization for about 1,000 electric cooperatives across the nation, Mr. Rogers stated.

Each of the Youth Tour participants will be given a set of colored slides showing highlights of the Washington trip. It is expected that the young people will use the slides in reporting the events of their Youth Tour experiences to local groups, such as youth groups, service clubs, church groups, farm groups, or any organization desiring an interesting program for its meeting.

Total enrollment in the two schools is about 1,000 pupils.

Two more men were arrested Wednesday, raising to 31 the number of white men arrested on riot charges. All have been freed under bond of \$2,000 each for hearings.

There has been no violence since the schools reopened.

Fund Drive Lags As Time Grows Short For Surgery

SAN ANTONIO (AP) — The deadline for vital heart surgery needed by a Korean boy is fast approaching and there's still not enough money to pay for his hospitalization, the head of the youngster's fund drive says.

"He just won't live if he doesn't have the heart surgery soon," Jerry Abbott said. "The doctors said March is the latest we can wait."

Sung Woo Kim, 12, of Korea, was born with a heart defect and must have corrective surgery, Abbott said. He said Dr. Denton Cooley, prominent Houston heart surgeon, has agreed to provide the surgery free, but hospital expenses are expected to cost \$2,500.

Abbott, a Civil Service employee at Randolph Air Force Base here, said \$1,000 already has been raised by civic and church groups. He said he will ask hospital permission to go ahead with the operation whether enough money is raised or not.

Abbott is head of the Knights of Columbus Council in nearby New Braunfels, which launched the "have-a-heart" campaign to raise the money.

He learned of the youngster's plight after meeting his uncle, Korean Air Force Maj. Yi Pyong Hui, who trained at Randolph last year.

Arrangements have been made to fly the boy and his mother from Korea via the Air Force medical evacuation system, Abbott said, explaining that the mother can't pay for the heart operation.

Along with donations to the fund has come an offer from a Houston man, Merle Denney, to care for the boy and his mother before, during and after surgery, Abbott said.

"Mr. Denney said his son had the same operation and that now he wants the same for this boy," Abbott said.

The New Braunfels Post Office has arranged for all contributions to be sent to "Have-a-Heart," in care of the postmaster there.

Maj. Hui is assigned to the comptroller's office, Korean Air Force 11th Fighter Wing, at Kimpoo, near Seoul.

Recapture Two Sooner Escapees

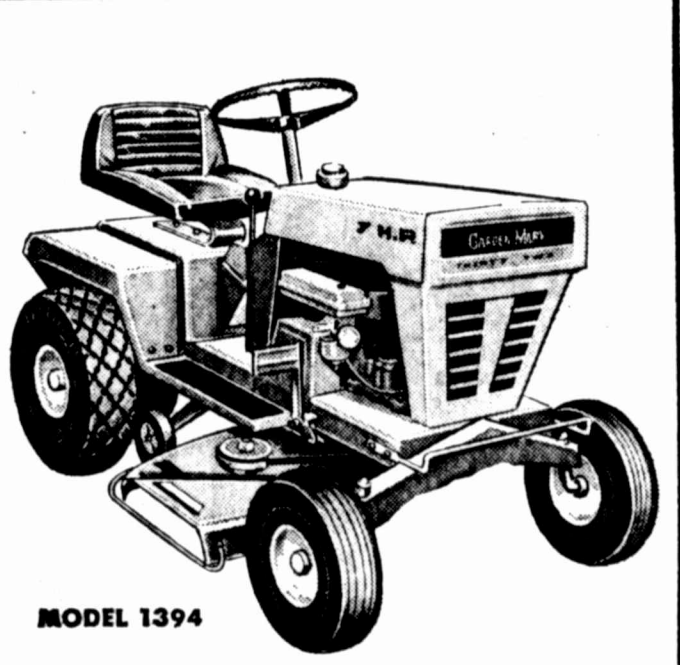

TERRELL, Tex. (AP) — Two men who escaped from an Oklahoma jail were recaptured Wednesday by sheriff's deputies from Dallas and Kaufman counties.

Raymond Birch, 26, and Billy Lail, 29, who escaped Monday from the jail at Chickasha, Okla., were apprehended near Texas 34 after they fled from their car.

About 18 officers, some using helicopters, assisted in the search.

NEARLY FOUR POUNDS OF MARIJUANA has been confiscated by local and federal authorities at the local post office in the past two weeks. The pile on the right was seized Wednesday after a local man reportedly mailed himself the "pot" from his station in Vietnam. Total value of the marijuana on the local market was placed at about \$2,000 by Detective Stanley Bogard.

Another Marijuana Packet Seized By Local Police

Capt. Stanley Bogard said this morning local authorities seized another one pound, 12 ounces of marijuana Wednesday, shipped here through the mails from Vietnam.

Big Spring Detective Avery Falkner and agents of the U.S. Customs Office arrested Army Spec. 4 Albert P. Wilborn Jr.,

707 Wyoming, outside the post office here March 5, after Wilborn allegedly signed for delivery of another package containing marijuana, which officers said he had mailed himself from Vietnam.

Bogard said this morning Wilborn had informed him that the latest package was en route to Big Spring in a box containing stereo equipment. Postal authorities in San Francisco reportedly discovered the first package in a box containing two stereo speakers.

The package was stopped by local postal officials Wednesday.

Juvenile Meet

Juvenile Officer Keith Jones was in Lamesa this afternoon to attend a meeting of the Permian Basin Juvenile Officers Council. This covers an area bounded by Pecos, Snyder, Lamesa, Andrews and San Angelo.

Bogard said, after he had alerted them that it was on the way here, and they turned it over to him when it arrived.

Wilborn is currently out on bond of \$5,000 on state charges of possession of marijuana, and \$1,000 bond on a prohibited weapons charge, both set by Peace Justice Jess Slaughter. March 5, Bogard said today that federal authorities are also preparing charges alleging illegal use of the mails.

The total value of both shipments, if sold on the local market, would be about \$2,000, Bogard said. The Southeast Asian brand of marijuana is stronger and "more raw" than the domestic variety, he said, and probably would bring more money in markets farther north. Wilborn is now on leave from the Army, but is under orders to return for a second tour in Vietnam April 18, Bogard said.

Optimists To Stage Annual Oratory Meet

The annual boys' oratorical contest, sponsored by the city's two Optimist clubs, will be held March 20, in the Reddy Room of Texas Electric Service Co. at 7 p.m.

Deadline for entries is Wednesday, and youths interested in signing up should contact either John Norton, 267-5297, of the Morning Optimist Club, or Larry Harp, 267-5903, of the Noon Optimist Club. Several boys have already indicated an interest in the contest, which will have a topic of "Youth, Full Partners in a Better Tomorrow." The winners of the local contest will represent the two clubs at the Zone Oratorical Contest, to be held here in April.

Stanton Lions Hear From Coach

STANTON (SC) — The Stanton Lions Club Tuesday heard Stanton High School coach Bill Jennings speak on the current athletic program. He gave an outline of the week's activities in the life of one outstanding track star, Steve Stallings. Gene Clements of the Texas Employment Commission, was a guest and spoke briefly regarding his duties in the city. He advised the Lions of his office location and explained he would be making a labor survey of Martin County. Students of the month were introduced by principal J. R. Dillard, and President Chuck Elmore presented certificates to Mary Mashburn and Bill Coggins. A short board meeting followed the regular meeting.

DEAR BOSS Reach For Your Rabbit's Foot

Dear Boss,

I hope you didn't throw your lucky rabbit's foot away last month, because — guess what? We've got another Friday the 13th coming up tomorrow.

I couldn't get anybody to go out on a limb and say what the odds are for the 13th to fall on a Friday two months in a row, but I'm betting it doesn't happen too often. Those in the know seem to think two Friday the 13ths in a row is a dire omen, but of what, they're not sure.

For some reason Fridays have long been considered unlucky, especially for criminals. Friday traditionally was the day for executing the hapless felons. As for 13 being an unlucky number, that goes back to Christ's last supper, when 13 were present. Superstition has it that anytime 13 persons eat together, one will die before the year is out.

The funny thing about superstitions is that nobody believes them — at least that's what they say out loud. But did you ever watch people carefully walking around ladders, or throwing a pinch of spilled salt over the shoulder, or knocking on wood?

There are people who won't start a trip on Friday, and hostesses who will faint dead away at the sight of 13 place settings at the dinner table.

Now you and I are both intelligent people, boss, and we know there's nothing to this Friday the 13th nonsense. But I'm going to be extra careful tomorrow, how about you?

Your unsuperstitious (maybe) reporter,

JEAN FANNIN

Demonstrators Sacked Embassies In Cambodia

PHNOM PENH, Cambodia (AP) — The premier's office issued a statement today calling for calm after demonstrators sacked the Viet Cong and North Vietnamese embassies Wednesday.

Smaller demonstrations were also held Wednesday in two southern provinces of the country while crowds were storming the embassies in this capital. They were protesting the presence of Viet Cong troops in Cambodia.

The announcement said that a committee had been set up to work with the cabinet to determine measures which could be taken to assure that the Viet Cong keeps its promise to respect Cambodian territorial integrity.

The National Assembly met Wednesday to debate a resolution condemning the presence of Viet Cong troops on Cambodian soil. Thousands of anti-Viet Cong youths demonstrated before the assembly building while the meeting was in progress.

POLICY HASSLE Dozen Tossed Out Of Peace Corps

WASHINGTON (AP) — Twelve volunteers have been thrown out of the Peace Corps during the past four months because of their public opposition to U.S. foreign policy, especially the Vietnam War.

Joseph H. Blatchford, Peace Corps director, says the volunteer agency will continue its policy of permitting dissent but not if it is done publicly in a host nation.

"The volunteer can express his dissent," he told newsmen Wednesday evening. "But he can't exploit his position."

Blatchford said volunteers whose tours of duty were terminated since Oct. 30 include: three in Turkey, two in Ethiopia, two in Thailand and five in Ecuador. He also said a staff member in Turkey was fired for the same reasons.

None was identified.

Most of the volunteers kicked out of the Peace Corps demonstrated during the Nov. 15 moratorium against the Vietnam War but those in Thailand were dropped because they threatened to picket Vice President Spiro T. Agnew on his recent visit to that country.

"Most of the terminated were more interested in demon-

ing than they were in doing their jobs," Blatchford said.

He said more than 200 of the 9,500 volunteers overseas participated in the Nov. 15 moratorium but "they did it the way they should. They kept their dissent in-house. They went to their ambassadors and protested, some of them leaving petitions at the embassy."

Blatchford wrote a letter to all country directors Oct. 30 in which he said volunteers must be responsible for their actions.

"We simply cannot have it both ways; we cannot both claim to be apolitical and insert American foreign policy issues into the host country scene," he wrote.

English Meeting

Four members of the HCJC English Department will attend the Conference of College Teachers of English of Texas in Dallas Friday and Saturday.

They are Mrs. Susan King, Mrs. Star Warford, Mrs. Anita Booth and Jason Boston. Mrs. King is chairman of the section on creative writing and also program chairman for the district.

DEAR ABBY: My problem is a husband who will NOT wear a wedding ring. We've been married for 10 months, and this is the only thing we ever had angry words about.

He wore his wedding ring on our honeymoon, but as soon as we got home, he took it off. First he said it was too tight, so I had it made larger. Then he said it fit all right, but it made him "uncomfortable." Why should a little ring make him uncomfortable? I would be uncomfortable WITHOUT mine.

He says he won't wear it to work, but he'll wear it to parties. Abby, that's the whole point. I'm WITH him at parties. It's when I'm NOT with him that I want him to wear it. We really love each other, and I do trust him, but this bugs me. What should I do?

LONG BEACH WIFE
DEAR WIFE: Get off his back. It's probably not the ring he objects to as much as your insistence that he wear it. You say you trust him. So TRUST him. He KNOWS he's married, and if you continue to nag him about it your problem will be much bigger than a "little ring."

DEAR ABBY: I think I am too flat for my age. My measurements are 27-22-27. I am eleven years old and am 4 feet 9. I have friends who are not much taller than I am, and they are wearing a 30 AA cup bra.

I wish my mother would get me a bigger bra so I would look more like my girl friends. I asked her once, and she said she would get me a bigger bra when I went, it, and not until.

FLAT AS A PANCAKE
DEAR FLAT: Be patient. And when you get a little older, if you are still conspicuously "flat," ask your mother to take you to a good lingerie shop, and let the authorities there be the judges and make recommendations. In other words, at the proper time, what nature has forgotten — stuff with cotton.

DEAR ABBY: Several years ago I married the most wonderful man this world will ever see. We had four wonderful children, and life for us could not have been better. Then cancer took him away, but before he made sure that his family was provided for in every way.

When he first learned that he was not long for this world, he started looking around for his replacement. Yes, Abby, you heard me right. His replacement.

You see, he knew that no decent woman who had been married as long as I should be

without male companionship, and he loved me enough not to leave me to the streets and bars and other places where lonely women go in search of men.

My sainted husband brought a very fine gentleman to our home, introduced us, and this man became like one of the family. He loved the children and they loved him. We all lived together for five months, then my dear husband died happy, knowing that his replacement and I were compatible in every way. Of course, the town gossips had a lot to say about this arrangement, but it didn't bother us. Our oldest (a girl, 16.) realized that a woman needs more than food and a roof over her head to make her happy.

FULFILLED IN ARKANSAS
What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif. 90069. For a personal reply enclose stamped, addressed envelope.

Den Members Get Badges

Eleven members of Webelos Den, Pack 46 at Webb AFB, received activity badges during a recent special meeting. Den leader, Capt. Neil Schultz, assisted by Capt. Wesley Mink and 2nd Lt. John McAfee made the presentations.

The following Webelos were recognized: Harvey Adams, engineer, sportsman; Mike Baker, athlete, sportsman; Mark Edwards, aquanaut, athlete; David Gieseking, aquanaut, athlete, engineer; Scott Hixson, aquanaut, athlete, sportsman; Dale Mason, aquanaut, athlete, naturalist, outdoorsman, sportsman.

Also, Ed McCumber, athlete, engineer, naturalist, scholar; Jimmie Malone, athlete; Richard Ray, athlete, citizen, outdoorsman; Tom Schultz, aquanaut, athlete, outdoorsman, traveler; Brian Vanderworn, sportsman.

Packs His Tools After 60 Years

WICHITA FALLS, Tex. (AP) — Charles Odell of Wichita Falls has packed his tools after 60 years of barbing—39 of them in his own shop here.

A native of Comanche County, Tex., he grew up around the small community of Hasse, and barbed there and in Dublin before moving here in 1929.

Sounds Bit Like Publicity Stunt

ROME (AP) — Film actress Sophia Loren says she thinks priests should be permitted to marry.

Miss Loren, who calls herself "an occasional Roman Catholic," told an interviewer Tuesday:

"I am favorable personally to their marriage because I am convinced that they would be better integrated in life, more open to understanding, more capable of surrounding the problems which surround them."

In Miss Loren's next film she plays a country girl who falls in love with a handsome priest played by Marcello Mastroianni.

Funny Power

WICHITA FALLS, Tex. (AP) — The Wichita Falls High School Coyotes and the Rider High School Raiders are cross-town rivals here, and Raider fans saw an opportunity for a little propaganda recently.

A rancher had killed several coyotes and put the bodies on fence posts alongside State

Highway 369 on the outskirts of town. A few days later, a large sign was nailed to some fence posts next to the dead Coyotes. It read, "Raider Power."

And Leave The Driving To Them

LAREDO (AP) — Two teenagers have been arrested here

in connection with the use of a gasoline credit card, police said today. A Laredo man, Eleuterio Luna, told police he had received a \$600 bill for gasoline purchased on a credit card he had not solicited nor had received. Police launched an investigation and arrested a 16-year old boy and a 17-year old girl. Officers said the youths had used the card to charge \$600 in gasoline since Jan. 1.

Housing Contract

WASHINGTON (AP) — Piedra Corp. of Wichita Falls, Tex., won a Naval Facilities Engineering division contract of \$1.68 million, the office of Sen. John G. Tower, R-Tex., said today. The work is to build 100 units of family housing at the Naval Air Station, Chase Field, in Beville, Tex.

Pair Lined To Slay

DALLAS (AP) — Two men arrested a woman, 29, Wednesday and said they were police investigators. Worth slaying of McKee.

Pass Pass

Opening lead: Three of ♠ North's three club response is an attempt to probe for a major suit contract over partner's opening two no trump bid. If the opener rebids three diamonds which would deny the holding of a four card major, North can return to three no trump. When South showed a four card heart suit, North carried on to game in that suit.

West opened the three of spades and East put up the king to force out declarer's ace. Declarer observed that he had a ready discard available for dummy's losing spade on his club suit. He proceeded to draw two rounds of trumps first, so that if anyone ruffed in the clubs were being run, it would be with a master heart. When East showed out on the second trump lead, however, South found himself confronted with a serious complication.

His next step was to run the club suit discarding a

spade and a diamond from dummy. Had West been obliging enough to ruff in on the third or fourth club, declarer would have regained control of the hand for, the West can draw a third round of trumps, the dummy and South each retain one heart and the latter has time to develop the diamond suit. West was content, however, to discard on the long clubs, and, when a diamond was led subsequently, he was in with the ace and now drew all of the remaining trumps. The defenders spade suit took the balance and a two trick setback was registered. The declarer irrevocably surrendered control over the proceedings as soon as he cashed the second high heart. Inasmuch as there is every reasonable expectation that he can get rid of the spade loser on the third round of clubs, that is—before an opponent is able to ruff in, South should be willing to give up two hearts and a diamond if necessary. In other words, the odds for a four-one division of the adverse trumps are distinctly greater than a six-one break in clubs, and South should take out insurance against the former possibility.

It is suggested that he cash only one high heart, before proceeding to run the clubs. Now, if West refuses to ruff in on the third club and waits instead until he gets in with the ace of diamonds, South retains a top heart which prevents his opponent from being able to draw all the trumps. Declarer can get in again in time to run the diamonds, and the defenders are limited to two hearts and one diamond trick.

Pair Linked To Slaying

DALLAS (AP) — City detectives arrested a man, 31, and a woman, 29, Wednesday night and said they were wanted by police investigating the Fort Worth slaying of Dr. France McKee.

Narcotics officers seized the pair during a raid on an East Dallas tavern.

They said the woman was carrying a .38 caliber pistol in her purse and the man had a knife.

Detectives J. T. Williams, J. R. Elliott and R. D. Rogers made the arrests. Williams said the pair would be turned over to Fort Worth police.

McKee, 44, was shot and killed shortly after returning to his

Fort Worth home about 1 a.m. last Friday. Investigators theorized that he surprised intruders ransacking the house.

Bean At Parley

Luther L. Bean, pharmacist at the local VA Hospital, is attending an Intra-VA Conference of Chiefs, Pharmacy Service this week at the University of Iowa, Iowa City, Iowa.

Guitar Classes

The YMCA will offer a class in beginning guitar beginning Thursday, March 19, for eight weeks. Classes will meet at 6:30 to 8 p.m. Minimum age is fifth grade in elementary school. Instructor is Don Tolle. More information may be had at the YMCA, 267-8234.

Deputies Hunting Lone Bank Bandit

SAINT JO, Tex. (AP) — Montague County sheriff's deputies hunted today for the lone bandit who held up the First National Bank in this North Texas town.

The robber, described as

about six feet tall and wearing green coveralls, pulled a pistol and ordered teller Marion Brawner to empty her cash drawers Wednesday.

Bank officials and Sheriff Howard Middle estimated the gunman got away with \$6,000 in currency.

Authorities said the man walked two blocks to a white car and fled.

(AP WIREPHOTO)

SENTENCE REDUCED — Gloria Roote, 21, of Chicago, who was Playboy Magazine's December Playmate, will spend four more months in a prison at Komotini, Greece, on drug charges, an appeal court ruled Wednesday. The Greek court reduced her sentence from 18 months to 10 months. Miss Roote had been found guilty of possession of hashish. She has served six months of her sentence.

Three Texans Confirmed As Prisoners Of War

By The Associated Press
The names of three Texans were among 31 servicemen the North Vietnamese confirmed Wednesday as prisoners of war.

The list was mailed by a North Vietnamese committee which said letters from the prisoners were on the way. The list contained 87 names, but 56 of them had been confirmed earlier.

The Texans listed were: Thomas Gordon Storey, letter sent to Mrs. Thomas G. Storey, 5107 Woodgren Cove, Austin.

Warren Robert Lilly, letter sent to Mrs. Jane Ballie Lilly, 3508 Binkley, Dallas.

Thomas Jerry Curtis, letter sent to Mrs. Thomas J. Curtis.

13105 Berwick St., Houston

Mrs. Lilly declined to comment on the letter she received from her son. She did confirm that she had heard that a letter from her son was on the way.

"It's an entirely private letter and I have nothing further to say," Mrs. Lilly replied in answer to questions.

Psychiatrists Don't Agree

DALLAS (AP) — Psychiatrists called by both sides disagreed Wednesday over the mental condition of Carlos Don Stultz, 27, who is being tried in the stabbing death of a Mexia high school girl.

Stultz, a ranch worker, is charged in the rape slaying of Kathy Jones, 16, last June 3.

The jury of 10 men and two women was expected to hear final argument in the case today.

Experts appearing for the state testified that Stultz had a "character defect" but was not legally insane. Defense witnesses said Stultz could not distinguish between right and wrong when the girl was killed.

In a statement read to jurors earlier, Stultz told of following the girl into her Mexia home. It quoted him as saying he stabbed her repeatedly after she screamed.

60-Year Prison Term Dished Out

WHARTON, Tex. (AP) — A 60-year prison term was handed Tuesday to Pete Longoria, 24, El Campo, found guilty of murder with malice.

Longoria was accused of the fatal shooting of a former Wharton High School athlete, Steve Garcia, last July 1.

Garcia, shot four times with a pistol, died 12 days later.

Horoscope Forecast

FOR TOMORROW

—CARROLL RIGETER

GENERAL TENDENCIES: A day when you would be wise to sidestep social and romantic interests. Let those about see that you are in the mood to get your affairs on a more even keel. Give consideration to practical matters. Be on the alert for some interesting and important new inventions that shorten usual tasks.

ARIES (March 21 to April 19) Make your business to please higher-ups. Instead of annoying them and you get over well with an expert. By evening all improves immensely.

TAURUS (April 20 to May 20) Before you launch that new idea, give it a little more study for possible flaws. Talk it over with an expert. By evening all improves immensely.

GEMINI (May 21 to June 21) It is important you carry through with vital responsibilities instead of going out for pleasure as you are tempted to do. The evening is then a romantic one with mate. Meet expectations of others who count. Then all is fine.

MOON CHILDREN (June 22 to July 21) Tensions arise between a higher-up and those around you, but keep mum or you get into trouble yourself. By evening all is fine. Then reason things out with another instead of being so angry.

LEO (July 22 to Aug. 21) Stop all that dreaming and get busy with work of hand or which you have been thinking about. Come to a real understanding with associates. Some problem of public nature requires time to solve.

VIRGO (Aug. 22 to Sept. 22) Pleasure is on your mind now, but take care you do not spend more than your budget allows. Buying new wardrobe is fine, but avoid unflattering selections.

LIBRA (Sept. 23 to Oct. 22) Some situation at home is not working out as you anticipated the morning out by using patience, you find all is well by the afternoon. Find the right circle for the home that adds to its comfort.

SCORPIO (Oct. 23 to Nov. 21) Drive carefully today. Be on the alert for other drivers, pedestrians, etc. Check reports for errors. The evening can be a particularly happy one for you.

SAGITTARIUS (Nov. 22 to Dec. 21) Monetary matters need more study if they are to work out correctly for you in the future. Exercise more care in spending, also. Listen to suggestions of an expert in business. Be calm, poised.

CAPRICORN (Dec. 22 to Jan. 20) Be sure that you know what it is you want in the day ahead and then act with decision, get right results. Show understanding for those less fortunate than you. Be generous, also.

AQUARIUS (Jan. 21 to Feb. 19) Get information that will make your fondest dreams come true. Accept encouragement from others that will make you more sure of yourself. Do research work that gives you the knowledge you need.

PISCES (Feb. 20 to March 20) You have a friend who will forget own duties to help you in some situation that is pressing right now. State your aims, problems. You have a fine sense of humor that others will appreciate now.

A Devotion For Today . . .

There are also many other things which Jesus did. (John 21:25, RSV)

PRAYER: Father, help me through Thy guidance to have patience and persistence that I may accomplish work for Thee. In the spirit of Jesus. Amen.

Warmth From The Cooling Waters

One of the newer terms in the environmentalists' lexicon is "thermal pollution." It describes what many biologists believe to be the danger to the marine environment of high temperature water from cooling operations, notably from electric generation plants.

Central Power and Light Co. had to alter its plans for a generating plant near Port Lavaca. In doing so it has agreed to return to the bay salt water used for cooling operations at a temperature no higher than 15 degrees above the water at the site of discharge. Currently the Florida Power & Light Co. is in the midst of an argument with environmentalists, the U.S. Department of the Interior and the Federal Water Pollution Control Administration over cooling plant water to be discharged in Biscayne Bay. The temperature at the point of discharge is estimated at 95 degrees, but a marine biologist

argued that damage to the marine environment occurs at the level of 90 degrees.

Meanwhile, in another part of the world, in Britain to be exact, the government's White Fish Authority has been experimenting with the use of heated water to promote the growth of plaice (the European flounder). The Economist of London reports that "In experimental tanks using the warm water effluent of the Hunterston nuclear power station, plaice have been grown to marketable size within 18 months, half the time it would take in the open sea."

We might refer the scientific gentlemen to Lake Colorado City. Some marine biologists of the Texas Game and Fish Commission think that perhaps one reason that it has been such a good fishing place is its higher thermal level, causing growth of microrganisms on which fish feed and flourish.

Maybe We Could Be Influencing

For centuries dust has been one of the worst enemies of mankind. It has buried his creations and clogged his wristwatches. It's insidious — it creeps into corners of the cupboard that even the omnipresent roaches are unable to reach.

And now — insult on injury — Dr. Joseph M. Prospero of the University of Miami has found that dust in the deserts of Africa may have been carried by prevailing winds across the Atlantic all these years to aid in the birth of hurricanes which hit the Americas.

Dr. Prospero says the exact relationship of Africa's dust to our hurricanes has not been determined. But the period of major dust in the atmosphere coincides with the hurri-

cane season. And evidence indicates that dust found on islands in the Caribbean may have originated in Africa.

Dr. Prospero also says it's known that minerals in dust have an effect on the precipitation of ice and water in the atmosphere — important factors in the formation of hurricanes.

Much work lies ahead before a causal relationship between dust and hurricanes can be established. But it is heartening to know that science is leaving no stone unturned in hurricane research.

And when they turn that one, West Texas in March and April is a fertile field for research. Who knows? We may be making Siberia's weather.

David Lawrence

Administrative Position On Laos

WASHINGTON — There are two ways for members of Congress to conduct themselves during a war. One is to seek answers to their criticisms privately from the executive branch of the government, and the other is to denounce policies openly and, in effect, give "aid and comfort" to the enemy. Unfortunately, too many examples of the latter method — presumably a means of seeking popularity with uninformed citizens — have occurred recently in connection with America's alleged entry into "another war" in Laos.

President Nixon found it necessary to issue a 3,000-word statement giving the facts. But most newspapers printed only a summary, and the critics already had created disturbing impressions with fragmentary charges.

PRESIDENT NIXON in his statement on Laos made these significant points:

Billy Graham

I have often heard it said, "Believe on the Lord Jesus Christ and thou shalt be saved." While this is in the New Testament, why do you and other people emphasize that verse, and ignore others such as the one where Jesus told the rich young ruler, "Keep the commandments." The first mentioned were the words of Paul, and the latter, the words of Jesus. Which do you consider the most important, and why do you choose the one above the other?

J.M. I plead guilty to using Paul's words to the Philippian jailer: "Believe on the Lord Jesus Christ and thou shalt be saved." But, we do not ignore the other statements regarding salvation. I have preached on the commandments more than upon any other Biblical theme except the cross.

You imply that the Scriptures contradict each other. I do not believe they do. For example, in the two you quote, there is no contradiction. When we believe in the Lord Jesus Christ, we are then able to keep the commandments. The Bible says, "He that keepeth his commandments dwelleth in him, and he in him." Our failure to keep God's commandments show us our need of Christ. As the Bible says, "The law was our schoolmaster to bring us unto Christ, that we might be justified by faith." Believing on Christ is not just a notion of mine, nor of other Bible students. It is clearly taught in the New Testament, and is the pivotal point of the Christian life. But, of course, that doesn't mean that we are to ignore or overlook other important Scriptures such as you mention. In fact we now have a new power with us to keep the commandments.

1. North Vietnam in the last few months has raised the number of its troops in Laos to more than 67,000.

2. The North Vietnamese have been involved in Laos since 1961, when President Kennedy said:

"Laos is far away from America, but the world is small . . . The security of all Southeast Asia will be endangered if Laos loses its neutral independence."

3. IN 1962, fourteen nations — including North Vietnam — signed the Geneva accords providing for the neutralization of Laos, but Hanoi has steadily violated the agreement.

4. Since 1964, over a half-million North Vietnamese troops have moved down the Ho Chi Minh trail in Laos to invade South Vietnam. This infiltration route "provides the great bulk of men and supplies for the war in South Vietnam."

5. The Nixon administration, on coming into office after six years of seasonal Communist attacks in Laos, continued the assistance program which dated back to 1963 and the air operations which began in 1964.

THE PRESIDENT reiterated that the United States "has no ground combat forces in Laos," and that "we have used air power for the purpose of interdicting the flow of North Vietnamese troops and supplies on that part of the Ho Chi Minh trail which runs through Laos."

The president made it clear that he has "no plans for introducing ground combat forces into Laos." He declared the total number of Americans directly employed by the U.S. government in Laos is 616. On the subject of air operations, the President asserted:

"AS COMMANDER-IN-CHIEF of our armed forces, I consider it my responsibility to use our air power to interdict this flow of supplies and men (through Laos) into South Vietnam and thereby avoid a heavy toll of American and allied lives . . ."

Mr. Nixon stated that he is continuing "the purposes and operations of two previous administrations," and that this has been necessary to "to protect American lives in Vietnam and to preserve a precarious but important balance in Laos."

CERTAINLY Every member of Congress, irrespective of party, has a responsibility to use his influence to prevent what he thinks is an unnecessary American participation in a war. But there is a right way and a wrong way to do it. Under present practices, a small number of members of the House and Senate attack defense policies and give the enemy the impression that American public opinion is not supporting the executive. This encourages the Communists to prolong their warfare against American troops in Southeast Asia.

John Cuniff

No Instrument Of Status Quo

NEW YORK (AP) — "There is no group in the country more restless for constructive change," said Arch Booth, executive vice president of the Chamber of Commerce of the United States.

The statement will be challenged, for there is a popular and probably false stereotype of the chamber as standing for self-interest, for the business interest narrowly construed, for the status quo and conservatism.

Not so, says Booth, an inextinguishable spark of the business position, a spokesman for 2,700 local affiliated chambers and 1,100 trade and professional associations with memberships totaling five million.

"We are an instrument of change, not of the status quo," Booth argued as he sat with a table of chamber executives in one of the massive rooms of the headquarters, a colonnaded gray structure a pleasant stroll from the White House.

"We might have been instruments of the status quo at one time, and I think we were," said Booth. "But in the past five years there has been a forward development in getting involved with socio-economic problems."

Booth can recite a long list of forward-looking programs involving jobs, education, pollution control, crime prevention, urban affairs, minority enterprises . . .

There is good reason for strong, active interest, for these are all problems of the environment in which business must conduct its affairs, and that environment has deteriorated badly.

Booth concedes, in fact, that some of the nation's problems may have resulted from the inactivity of businessmen. But now it is good business to be involved. The motives, it therefore could be argued, are self-interest.

Regardless, the vast number of studies now under way at the chamber is encouraging, and Booth intends for them to be translated into action.

"The local chamber," he said in a speech, "is by all odds the natural organization to be the

instrument of change and action. It doesn't resist change. It promotes change. It instigates change. It leads change. And fosters change."

It is, says Booth, a man of obvious rhetorical skills, the free enterprise mechanism for dealing with the troubles of society — not just the problems of making money, but of making jobs, satisfying customers, uniting the nation.

In this spirit, Booth actively seeks to cooperate with social and business agencies, even the Urban Coalition, where Booth feels organized labor has too much power on the local level.

Its stand on the new fashioned consumerism is notable. It sponsored and disseminated a thorough study of the consumer movement and came out, perhaps surprisingly, as an advocate of consumer rights.

Hal Boyle

Prestige Slipping?

NEW YORK (AP) — How can you tell whether your prestige is slipping?

"Recently you listed a number of ways a fellow could tell if his status image was okay," writes a reader. "But what if he has begun to slip, doesn't realize it, and even his best friend doesn't want to tell him?"

Well, if he's alert to his own welfare, that shouldn't be too difficult for him to figure out. There are certain unmistakable signs.

For example, you can be sure you're on the toboggan slide if — The office boy starts using your hanger on the coatrack.

The boss still calls you Charley when, after 15 years, he should know darned well that your name is Jim.

When you plump down in the company cafeteria during a coffee break and start telling a story, everybody else at the table gets up and leaves before you reach the punchline.

You work under 10 guys who used to work under you.

The PTA throws you out for nonpayment of dues — \$5 a year. When you go to a cocktail party, one of your neighbors' wives is willing to go out into the kitchen with you to hold hands or kiss.

The guys in your block organize a tennis league and you're not asked to join. Tennis anyone? Why, heck, you can't even find anyone to pitch horseshoes with.

If you phone your dear old Mom on Mother's Day to con-

gratulate her, she declines to accept the call until she is sure she won't be stuck with the charges.

You sit down on a park bench and the pigeons and squirrels, instead of approaching you for a handout, immediately flutter or scurry to the next bench.

The barber never asks whether you want a tonic or a massage; he knows he'll be lucky if he gets a dime tip for cutting your hair.

You hate to lug your briefcase to and from the office because it has so many patches on it.

No longer does your wife go through your pockets after you fall asleep. She knows it isn't worth the trouble because there's nothing in them.

At the zoo when you toss a peanut to the elephant, he turns the shell over and over with his trunk, suspicious that you ate the nut in it yourself.

Your family car is so old and fender-broken that your teenage children never ask permission to drive it. When you take your wife on a trip in it, she slides down in the seat in hopes that no one she knows will recognize her.

Even the postman doesn't bother to ring twice at your door. He jabs the bell once and goes on.

If all these things are true of you, you don't have to worry about where you stand in the big rat race. You are already a rodent dropout. About the only chance you have left to gain status is to try to get into a mouse race.

Around The Rim

The Grand Tour

The chatterbox at our house, I now learn, lives a double life. I found this out last week when visiting her First Grade Class and having lunch.

AT HOME, we are sorely pressed to get her to eat more than a smidgeon, or to finish the meal at the same time as the rest of us. At school, I learned, she is working against a deadline, and she was well into her fried chicken by the time I had landed in my chair. True, she was still a bit picky, and would have none of the green beans and just a taste of the mashed potatoes. But she made short work of the chicken, and conned me out of a piece from my own plate. In addition, she devoured the entire container of milk, without question. At home, this is a battle we face daily, coaxing each and every swallow.

THE MEAL period is a bit brief for my own tastes, and there is no time for dawdling, but it results in her eating more than she does at home.

She also gave me the grand tour of the building, which is to say, she pointed out the "boys' room" and then took me to the library, which was a pleasant surprise. In my day, the entire Dallas school system probably could not boast so large a collection. My elementary building had only

one shelf of the teacher's personal books from which we could select.

HER ROOM was a fascinating place, and the work of a hard-working teacher. There is a giant map of the neighborhood, and she showed me the house, representing ours and properly located; there was her rendition of a self-portrait; then a string attached to a high-flying kite. Each of the youngsters had contributed.

OTHER DELIGHTS she pointed out included the list of books each of the students has read; a model replica of a moon launch vehicle; a record player and records in one corner; her desk representing the same disarray I've learned to expect in her room; another wall collection of Halloween figures; the sink including a water fountain; the reading corner, and I witnessed a normal class recitation; stacks of books, most of which she boasted of having read; a flannel board with a variety of items for attachment; and a crowd of energetic, enthusiastic classmates.

I TAKE the hat off to the teachers; not all of us could measure up to this job. Interesting and educational as it is, it is a nice place to visit, but I couldn't work there.

—V. GLENN COOTES

Art Buchwald

Eliminating The Midiskirt

WASHINGTON — We are told by those people who make the fashion rules that hemlines are going down this year whether anybody likes it or not; the so-called midiskirt will replace the miniskirt, and there isn't a darn thing men can do about it.

But there is a small group fighting back. Known simply as LMA, which stands for Leg Men of America, this group has vowed to destroy the midi and all it represents.

The President of the Leg Men of America is Gordon Manning, who received me in his basement office with a large view of the sidewalk above.

MANNING SAID, "It's outrageous. The midi is an affront to every Leg Man in the country."

"How many Leg Men would you say there are in the nation at this moment?" I asked.

"There are at the present time 61,953,263 men who could qualify as Leg Men, not counting our armed forces abroad."

"These men represent every economic, religious and cultural group in the nation, and they have no intention of standing by and seeing hemlines go down below the knees."

"But what can they do?"

"WE ARE SERVING notice through the press media that if women go along with this ridiculous fad, they will lose the interest and admiration of the majority of the male population in the United States."

"That's a tough threat."

"We intend to stand by it. The days when the French, Italian and American dress designers can declare where they will put the hemline on the leg are over. We will decide."

"But how?" I protested.

"We're not going to look."

"You're not going to look?"

"YOU HEARD ME. We are sending

out orders to Leg Men all over the country that they are not to look at a girl wearing a midi."

"Will the Leg Men obey the order?"

"Why not?" said Manning. "There is nothing to see anyway."

"When women wore the miniskirts, millions and millions of man-hours were spent, pleasurable hours I might add, looking at the legs that went with them."

THE WOMEN responded by walking straighter, smarter and sexier. When seated, a woman wearing a mini could hold the attention of any man in the room. And we all know the thrill the mini brought to fellow drivers, particularly when the girl in the miniskirt was driving a minicar.

But with the midi there will be absolutely nothing for a man to look at, and those wasted man-hours will be used to increase the gross national product, which will probably contribute to inflation."

"Then it's not just fashion but economic ruin you're predicting for the country?"

"Correct," said Manning. "The dress manufacturers who have covered the knee will have a lot of explaining to do."

"MR. MANNING, if your no-look campaign succeeds, and all the Leg Men in America refuse to eye any female wearing a midi, how long do you think it will take to get women back to the mini?"

"Not very long. Once a woman realizes that no one is looking at her, she will immediately lose interest in the mid-length hemline. To speed up the process the Leg Men of America will finance instant shearing booths in all the major cities where a woman can stop and have her midi cut off to mini length painlessly and free of charge."

(Copyright, 1970 The Washington Post Co.)

Andrew Tully

Your Dollar's Worth In Education

WASHINGTON — A brouhaha in New York City (where else?) has given support for President Nixon's sensible message to Congress declaring that until "we get more education for the dollar," he will refuse to spend more Federal money in that field.

Reference is to the threat by New York State Controller Arthur Levitt that the state may cut off special education aid to the city's poverty areas because the city has been unable to explain where most of the money went. Specifically, Levitt said he still didn't know what happened to \$18.2 million out of \$22.2 million advanced during the 1968-69 school year.

THE CITY, said Levitt, had "certified in a general way" that the dough had been spent for special education needs, but it had not provided supporting data requested by state auditors, including (ah, there!) "payroll documentation." As a certified boulder, I can't help wondering how much of that \$18.2 million wound up in somebody's private pocket.

Moreover, the New York City situation seems to qualify as an example of the President's deposition that there is little logic in some funding for education. Financing for the city's special education program has dropped off because the Board of Education has been unable to spend all the money it is eligible to receive.

ALL THIS GETS to the guts of the Nixon message, which told Congress: "We must stop congratulating ourselves for spending nearly as much money on education as does the rest of the world — \$65 billion a year at all levels — when we are not getting as much as we should out of the dollars we spend."

It is also a rebuff to critics of the Nixon message, who claim all that is needed is more dough and things will be all right. The official figures show the fallacy of this thinking.

FOR EXAMPLE, the Title I program under which more than \$1 billion a year goes to school districts

serving the poor, has been a virtual failure. Although the program stresses the teaching of reading, before-and-after tests show that only 19 per cent of the tots improve their reading significantly; 13 per cent appear to fall behind more than expected; and more than two-thirds of the children remain unaffected.

A similar lack of lasting gains, according to Nixon, has been revealed in the popular Head Start program.

ALL THE WAILING of the educators to the contrary notwithstanding, this record would seem reason enough to take a long look at what school administrators and teachers are doing with our money. Perusing the record, Nixon cannot be blamed for telling Congress "we have far too long avoided thinking of productivity of schools." Since it is the taxpayers' dough that is being thrown around, educators should be made a great deal more accountable for what their students learn.

AFTER ALL, aid to education was never intended exclusively to serve what Nixon wryly called "the general public interest in providing teachers an honorable and well-paid professional career." At least, we squares always thought an occasional buck would be used to teach Johnny to spell C-A-T.

Men And Toys

CHICAGO (AP) — Marvin Glass, who studied to be a psychologist but wound up designing toys, says men should play with toys regularly to remain nimble and vital in body, mind and heart.

"What's more, they should play with a variety of toys as they did when they were boys, and not confine themselves to just one 'hobby' type of toy, such as model railroads or model gasoline airplanes," he said.

"Men should remember how alert, quick and perceptive they were as children," he added.

Art Buchwald

Eliminating The Midiskirt

WASHINGTON — We are told by those people who make the fashion rules that hemlines are going down this year whether anybody likes it or not; the so-called midiskirt will replace the miniskirt, and there isn't a darn thing men can do about it.

But there is a small group fighting back. Known simply as LMA, which stands for Leg Men of America, this group has vowed to destroy the midi and all it represents.

The President of the Leg Men of America is Gordon Manning, who received me in his basement office with a large view of the sidewalk above.

MANNING SAID, "It's outrageous. The midi is an affront to every Leg Man in the country."

"How many Leg Men would you say there are in the nation at this moment?" I asked.

"There are at the present time 61,953,263 men who could qualify as Leg Men, not counting our armed forces abroad."

"These men represent every economic, religious and cultural group in the nation, and they have no intention of standing by and seeing hemlines go down below the knees."

"But what can they do?"

"WE ARE SERVING notice through the press media that if women go along with this ridiculous fad, they will lose the interest and admiration of the majority of the male population in the United States."

"That's a tough threat."

"We intend to stand by it. The days when the French, Italian and American dress designers can declare where they will put the hemline on the leg are over. We will decide."

"But how?" I protested.

"We're not going to look."

"You're not going to look?"

"YOU HEARD ME. We are sending

out orders to Leg Men all over the country that they are not to look at a girl wearing a midi."

"Will the Leg Men obey the order?"

"Why not?" said Manning. "There is nothing to see anyway."

"When women wore the miniskirts, millions and millions of man-hours were spent, pleasurable hours I might add, looking at the legs that went with them."

THE WOMEN responded by walking straighter, smarter and sexier. When seated, a woman wearing a mini could hold the attention of any man in the room. And we all know the thrill the mini brought to fellow drivers, particularly when the girl in the miniskirt was driving a minicar.

But with the midi there will be absolutely nothing for a man to look at, and those wasted man-hours will be used to increase the gross national product, which will probably contribute to inflation."

"Then it's not just fashion but economic ruin you're predicting for the country?"

"Correct," said Manning. "The dress manufacturers who have covered the knee will have a lot of explaining to do."

"MR. MANNING, if your no-look campaign succeeds, and all the Leg Men in America refuse to eye any female wearing a midi, how long do you think it will take to get women back to the mini?"

"Not very long. Once a woman realizes that no one is looking at her, she will immediately lose interest in the mid-length hemline. To speed up the process the Leg Men of America will finance instant shearing booths in all the major cities where a woman can stop and have her midi cut off to mini length painlessly and free of charge."

(Copyright, 1970 The Washington Post Co.)

WASHINGTON — A brouhaha in New York City (where else?) has given support for President Nixon's sensible message to Congress declaring that until "we get more education for the dollar," he will refuse to spend more Federal money in that field.

Reference is to the threat by New York State Controller Arthur Levitt that the state may cut off special education aid to the city's poverty areas because the city has been unable to explain where most of the money went. Specifically, Levitt said he still didn't know what happened to \$18.2 million out of \$22.2 million advanced during the 1968-69 school year.

THE CITY, said Levitt, had "certified in a general way" that the dough had been spent for special education needs, but it had not provided supporting data requested by state auditors, including (ah, there!) "payroll documentation." As a certified boulder, I can't help wondering how much of that \$18.2 million wound up in somebody's private pocket.

Moreover, the New York City situation seems to qualify as an example of the President's deposition that there is little logic in some funding for education. Financing for the city's special education program has dropped off because the Board of Education has been unable to spend all the money it is eligible to receive.

ALL THIS GETS to the guts of the Nixon message, which told Congress: "We must stop congratulating ourselves for spending nearly as much money on education as does the rest of the world — \$65 billion a year at all levels — when we are not getting as much as we should out of the dollars we spend."

It is also a rebuff to critics of the Nixon message, who claim all that is needed is more dough and things will be all right. The official figures show the fallacy of this thinking.

Editorials And Opinions

The Big Spring Herald

8-A Big Spring (Texas) Herald, Thurs., March 12, 1970

HALFWAY HOME — Mrs. Lila Mae Wells of Amarillo lies in her bed at Woodlawn Hospital in Dallas, almost inundated by General Mills coupons being sent to help her buy an artificial kidney system to take to her Amarillo home. Some 300,000 have been received; about half of what she needs.

'Get The Facts,' Chairman Urges Study Committees

"Dig in and get the facts," Dr. Floyd Mays, chairman of the Chamber of Commerce Governmental Economy Task Force, urged Wednesday after the members accepted jobs on three sub-committees that will begin work in specific areas.

"Our value is to get the true facts, then suggest and persuade the members of the boards and commissions to consider them," he said. Another meeting of the full committee will be called within 30 days, he said, to hear reports from the subcommittees and decide on further action.

A suggested letter, requesting that the Texas Research League make a study here, was approved for sending to the directors of the chamber. If approved, it will then go to the governing bodies of the City of Big Spring, Howard County Commissioners Court, Big Spring Independent School District Board of Trustees, Howard County Junior College Board of Trustees, and president of the Howard County School Board. The league must have a request from the city and county, before it can consider making the study. Costs, estimated at between \$4,000-\$5,000 for maintenance expenses, must be paid by local businessmen.

Three subcommittees were named and the members selected. These are for studies of city and county fire protection, consolidated tax collection and bookkeeping; and a unitized county road system under a qualified engineer.

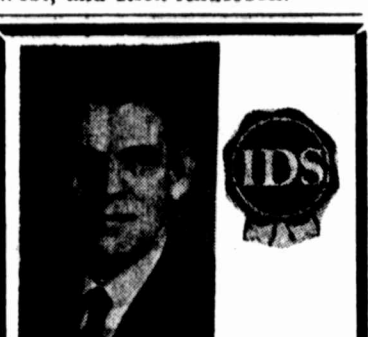

Two of them set organizational meetings this week — fire protection committee which was to meet today at 5 p.m. in Ted Groebel's office; and the county road system committee, which will meet at 5:30 p.m. Friday in R. L. Heith's office, Malone and Hogan Clinic.

The committees and their members include:

FIRE PROTECTION — Groebel, Ed Holland, Charles Tompkins, Joe Langford, Max Moore, Glenn Cootes, and Roger Brown.

COUNTY ROADS — Bill Dearing, Heith, Jack Watkins, Bob Hickson, Cootes, and Ted Hatfield.

TAX, COMPUTERS — George Thorburn, Lanny Hamby, Jack Alexander, Novis Womack, John Currie, Cootes, Eddie Acree, Bob West, and Rich Anderson.

College Trustees To Meet Saturday

Trustees of Howard County Junior College will have their regular monthly board meeting at 12 noon Saturday in the parlor of the Dora Roberts Student Union Building. In addition to routine business, including financial statements, there will be a drawing for places on the ballot. The two candidates for two places are Dr. P. W. Malone and John A. Coffey.

'Perry Mason' Creator Dies

TEMECULA, Calif. (AP) — Erle Stanley Gardner, the lawyer-turned-writer who created Perry Mason, is dead at age 80.

His office, announcing his death Wednesday, said only that he did not recover from an illness for which he was hospitalized earlier this month. Other sources said he had cancer.

His wife, the former Jean Bebell, his long-time secretary before their marriage, was with him at the end at his 3,000-acre Rancho del Paisano in a hilly area southeast of Los Angeles. He had lived there more than 30 years.

Spectacular, stentorian of voice, usually deadpanned in expression, the maestro of mysteries rose at 4 a.m. to dictate a daily average of 20,000 words into recording machines.

With the help of eight secretaries, he often produced six books a year.

Gardner also masterminded the Perry Mason television series during its nine-year run.

A 1968 book, "70 Years of Best Sellers," termed Gardner history's biggest selling author. As of 1969, Gardner's publisher, William Morrow & Co., said 167 million of his books had been sold in the United States alone, with uncounted millions more sold in foreign lands. They were translated into 23 languages.

Of Gardner's 142 books, 80 were Mason mysteries. His second string was a series about Bertha Cool, a woman detective, and her right-hand man, Donald Lam, written under the pen name A. A. Fair. Other Gardner pseudonyms included Carleton Kendrake and Charles J. Kenney.

Seventy-five Gardner books sold more than a million copies each. Thirteen were nonfiction, chiefly travel stories.

Gardner gave much time and effort to the Court of Last Resort, a nonprofit project dedicated to freeing wrongly convicted persons.

At 21, without university training, Gardner read law books and passed the California Bar examination. Entering practice in rural Oxnard, he recalled afterward, he defended "vagrants, peeping Toms and

Vets Urged To Check Policy

The Veterans Administration today urged nearly 667,000 veterans to take a close look at their term life insurance policies when they become due for renewal this year.

Donald E. Johnson, VA administrator, said veterans with five-year level premium term policies should check their insurance needs to determine whether to convert to a permanent plan policy.

Johnson said five-year term insurance serves well the purpose for which it was intended—to provide adequate, low-cost life insurance for a specific period of time. He pointed out, however, that since term insurance premiums are based on age, they go up every five years and become very costly in later years.

"For example," the VA administrator explained, "the premium for a \$10,000 term life insurance policy for a 20-year-old serviceman or veteran would be \$6.50 a month. At age 60, the same premium would rise to \$26 a month, and at age 70, the cost would be \$61.80 a month."

"On the other hand," Johnson continued, "the veteran who converts his term insurance to a permanent plan policy enjoys the advantage of paying a fixed premium on a policy which has a cash and loan value, and paid up and extended insurance values."

Forecasting Expansion Of U.S. Cattle Business

WASHINGTON (AP) — Agriculture Department economists are forecasting a steady expansion of the cattle business for the next several years.

Also, the experts said Wednesday, the present large demand for red meat and the relatively tight supply situation is expected to keep cattle and hog prices fairly strong through all of 1970.

This is in line with what economists have been saying for some time, particularly since it became apparent last year that no large increase was seen for hog slaughter before mid-1970 or later.

The latest outlook was in a summary report on the livestock and meat situation. Some of the observations included:

—About one million more feeder cattle were on hand at the start of 1970 even though fed cattle marketings last year rose seven per cent. The calf crop this year also will increase again.

—Producers added 2.5 million cattle and calves to the nation's herd during 1969. On Jan. 1 this year the total was 112.3 million. The 1969 increase was much sharper than in recent years because total slaughter last year was down about one per cent while the calf crop rose two per cent.

—The beef cattle inventory has increased steadily since 1958. However, the dairy herd has declined since 1954.

—Fed cattle marketings in the first half of this year are expected to continue larger than in January-June 1969, the report said.

Officials said market prices for fed cattle rose from \$28.70 per hundredweight for choice steers at Chicago in November to about \$30.25 in February.

However, the report said, prices are not expected to top last year's peak when choice steers averaged more than \$34 per hundredweight during June.

WINNING DEBATERS — Susan Sulak (left) and Kathy Thompson won third place and Scott McLaughlin and Jeff Talmadge (right) won second place in the Tech Forensics Tournament Saturday in Lubbock.

School Debaters Place High In Tech Forensics Tourney

Big Spring High School debaters won second and third places in the Texas Tech Forensics Tournament Saturday in Lubbock.

Scott McLaughlin and Jeff Talmadge, the debate squad's varsity boys team, won second; and Kathy Thompson and Susan Sulak, the varsity girls team, won third.

Talmadge and Miss Thompson are both three-year veterans on the debate team, and McLaughlin and Miss Sulak are in their second year.

The Tech tournament is one of the largest forensics meets in the state. Forty high schools were represented in all events, including debate. Each school is allowed to enter two boys teams and two girls teams.

"These awards are particularly significant because of the size of the tournament and the quality of the competitors," Sharon Ryan, high school speech teacher, said.

Last year in the Tech tournament, Talmadge and McLaughlin were eligible for the quarter finals on the basis of their win-loss record but were kept out because their speaker points were not high enough, Miss Ryan said.

Debaters in Saturday's tournament included schools from Midland, Abilene, Lubbock and Wichita Falls.

Basin Still Has No Voice

City Manager Larry Crow said this morning he returned from the Goals for Texas meeting in Midland Wednesday encouraged, but still somewhat dubious about the prospects of establishing a council of governments for the Permian Basin in the near future.

He, Mayor Arnold Marshall, and County Commissioners Bill Crocker and Bill Tine attended the meeting of area officials called by the governor, and Crow said today that a committee of six was appointed by the participants with the "responsibility to establish more committees in various sectors called for in the Goals for Texas Program, which will see to it we have a voice in the program."

He said representatives of the governor's office spoke to the approximately 70 officials present with a view toward instituting a coordinated area effort to work through the goals program for the development of the Permian Basin.

Crow said that other than the Permian Basin Law Enforcement Committee, the area has no voice in the program at this time and that other areas in the state with regional planning bodies have already begun planning for development.

He termed the general feeling toward establishing such an organization as "cautious" among the delegates at the conference.

Adolescent Psychology Workshop Begins Today

Approximately 125 professionals in various fields were on hand this morning in Alford Auditorium at Big Spring State Hospital to begin a workshop in adolescent psychology sponsored by the hospital and West Texas Education Center, Midland.

Dr. Preston E. Harrison, superintendent of BSSH, welcomed the guests to Big Spring to open the activities and expressed encouragement and hope that the current trend toward establishing mental hospitals in small communities would continue.

Dr. Mary Bubliss, child psychiatrist from Plainview, opened the workshop with a case presentation and an interview with two girls, ages 12 and 16, at the hospital.

Dr. Bubliss explained during the case presentation that the two girls both came from a disadvantaged home life, but emphasized that certain physical abnormalities seemed to be as much a cause of their mental problems as social environment.

The audience, which included psychologists, psychiatrists, juvenile officers, judges, church and school officials from throughout the state, then asked the patients about their own feelings concerning the cause of their trouble. The presentation was scheduled to continue this afternoon with more emphasis on the patients' point of view.

Tonight, Dr. Ann Hughes, director of Child's Adolescent Services of the Texas Department of Mental Health and Mental Retardation, will discuss the question of "Drug Uses and Abuses" at a dinner session set for 7 p.m.

Friday's activities will begin with a panel case discussion to be participated in by Dr. Hughes; Dr. Beatrice Cobb, director of Rehabilitation Training Program at Texas Tech; Vee Taylor, administrative assistant and counselor, West Texas Education Center, Midland; and Midland County Judge Barbara G. Culver.

The panel and audience will then discuss the case during a question and answer period. After lunch Friday the

DR. MARY BUBLISS, Plainview child psychiatrist, responds to a question from an audience of about 125 during her case presentation at the adolescent workshop at Big Spring State Hospital this morning. The audience is composed of professionals in various fields who deal with children in their work.

audience will be divided into small discussion groups to discuss general problems concerning child psychology, and small discussion groups to discuss general problems concerning child psychology, and small discussion groups to discuss general problems concerning child psychology.

Center Open House Slated

Open house will be held Sunday at the Dora Roberts Rehabilitation Center, 306 W. 3rd. Staff members will be on hand to demonstrate the equipment used at the center and show visitors around.

The open house is being held in conjunction with the Easter Seal Drive. The local Easter Seal Society sponsors a Crippled Childrens Clinic at the center every three months and helps to furnish braces, crutches and corrective shoes for patients of the center.

Jim Thompson, director of the center, said the public is invited to visit the center. Refreshments will be served.

Parking Meters Are All Sold

The last of the city's parking meters were sold Wednesday to Forrest Park, III, Assistant City Manager Roy Anderson said today.

The 117 meters purchased Wednesday finished off the 627 up for sale by the city, Anderson said, and represented a total net return of about 30 percent of the total cost of the meters.

El Paso, Corpus Christi, McAllen, Forrester, Mo., and Forrest Park, Ill., all bought a portion of the meters at an average of \$15 each or a total of \$9,300 for the lot, Anderson said.

DEATHS

Miss Carrie Alvis, Retired Teacher

STANTON — Miss Carrie Magdalene Alvis, 87, died Wednesday in her home in Stanton.

She was born Aug. 31, 1882, in Hopkins County, and moved to Stanton in 1922 from Mills County. She was a retired school teacher and had taught more than 50 years in schools in Blanket, Carlsbad, N.M.; Levelland, Fort Davis and Stanton. She retired in 1952. She was a member of the National Retired Teachers Association and a member of the First Baptist Church here.

Services will be at 2 p.m. Friday in the First Baptist Church with Rev. W. H. Uhlman officiating. Burial will be in Evergreen Cemetery under direction of Gilbreath Funeral Home.

Survivors include one sister, Mrs. J. F. Sellers, Crane; and a nephew Elmer Long, Stanton; two nieces, Mrs. Cecil Hamilton, Big Spring, and Mrs. Charles Gossett, Crane; and several other nieces and nephews.

Mrs. A. J. McCall, Friday Funeral

Funeral for Mrs. A. J. (Cora Mae) McCall, who died in a Throckmorton hospital Tuesday, will be held Friday at 2 p.m. in the Nalley-Pickle Funeral Home Rosewood Chapel, with Rev. Claude Craven officiating. Burial will be in Trinity Memorial Park.

Pallbearers will be Ray Anderson, Carl W. Ford, Leroy Dolan, Lewis Soles, Dick Dickerson, and C. C. Gooch.

Survivors include her husband, three daughters, her mother, two brothers, two sisters and 13 grandchildren.

Clarence Olsen, Dies In Utah

Clarence R. Olsen, 75, Huntsville, Utah, father of Kenneth Olsen, 1805 Settles, died Wednesday in an Ogden, Utah, hospital after an extended illness.

Survivors include his widow; and three grandchildren, Richard, Linda and Patti Olsen, all of 1805 Settles.

Services will be held at 1 p.m. Saturday in the Lindquist Mortuary, Ogden, Utah, with burial to follow in City Cemetery, Huntsville, Utah.

MRS. G. W. ROBERTSON

Mrs. Robertson, Dies Wednesday

Mrs. Rebecca Jane Robertson, 72, died about noon Wednesday in a local hospital.

She was born July 4, 1897, in Kentucky, and married George W. Robertson in Clyde, Jan. 31, 1915. He preceded her in death June 20, 1967. They moved to Vincent from Callihan County in December, 1930 and into Big Spring in 1934. She was a member of the Hillcrest Baptist Church and the John A. Kee Rebecca Lodge 153.

Funeral will be held at 3:30 p.m. Friday in the Hillcrest Baptist Church, with Rev. Clyde Campbell officiating, and interment in Trinity Memorial Park under direction of Nalley-Pickle Funeral Home. Survivors include four sons, Jake Robertson, Garland, Speck Robertson, Sam Robertson and Don Robertson, all of Big Spring; one daughter, Mrs. Georgia Ward, Big Spring; one brother, Elmer Tate, Abilene; one sister, Mrs. Nita Mae Robertson, Phoenix, Ariz.; 15 grandchildren and nine great-grandchildren.

Pallbearers include George Franklin, Preston Myrick, Terry Carter, Bobby Nobles, Travis Mauldin and Larry Barrett.

Mrs. Walker's Sister Dies

Mr. and Mrs. Arvie E. Walker returned Wednesday from the funeral for Mrs. Walker's sister, Mrs. Herbert Jones, Wichita Falls, who died last Wednesday after an apparent heart attack in a Wichita Falls hospital.

Mr. and Mrs. Walker were accompanied to the services by Mrs. Fern Swann Lee, Odessa, daughter, and A. E. Walker Jr., Big Spring, their son.

City Drawing For Ballot Set Friday

The 13 candidates for the three city commission seats up for election April 7 will draw for a place on the ballot Friday at 9 a.m. in City Secretary Charles Smith's office, Smith said today.

Absentee voting will begin next Wednesday, Smith said, in accordance with the city charter provision that sets the date at 20 days prior to the election.

Drums Stolen

Michael Duncan, Webb AFB, reported a set of four drums stolen from the John H. Lees Service Club at Webb AFB sometime last weekend. No value estimate was available.

By The Associated Press

Snow coated an area from the Texas Panhandle to central Illinois today while rain wet down a large part of the Deep South.

Five-inch snows piled up in southwestern and central Missouri.

Travelers warnings were out in portions of New Mexico and Texas and for much of the region eastward into Indiana. Heavy-snow warnings remained in effect overnight in parts of Arkansas and Missouri.

Rain spilling out of the storm system generally was light, but an inch or more fell on some

northern Alabama communities.

Thunderstorms hit various parts of Florida throughout Wednesday. Hail and strong winds pounded some areas near Tampa and Tallahassee. More than 1 1/2 inches of rain soaked Fort Myers.

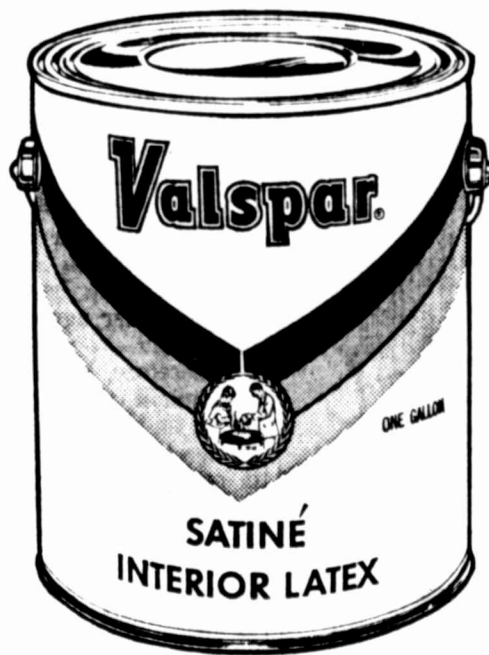

A tornado spun out of a thunderstorm near Abbeville, in southeastern Alabama, Wednesday afternoon. There were no reports of injuries or serious damage.

Light sprinkles dampened parts of the Pacific Northwest, but most other sections of the Far West were under fair skies.

Zero cold clung to the northern plains. Temperatures before dawn ranged from -12 at Grand Forks, N.D., to 76 at Fort Lauderdale, Fla.

Some other reports: Boston 33 clear, New York 36 clear, Philadelphia 36 cloudy, Washington 44 cloudy, Atlanta 59 cloudy, Miami 76 cloudy, Detroit 26 clear, Chicago 31 clear, Minneapolis-St. Paul 18 clear, St. Louis 31 snow, Kansas City 33 cloudy, Dallas 33 rain and snow, Denver 17 partly cloudy, Phoenix 48 clear, Los Angeles 55 clear, San Francisco 52 cloudy, Seattle 46 partly cloudy, Anchorage 33 clear, Honolulu 75 clear.

Doctors Say LBJ Takes More Walks

SAN ANTONIO, Tex. (AP)—Army doctors say former President Lyndon B. Johnson is progressing satisfactorily after 10 days in the hospital and that he remains in "excellent spirits."

"There has been no chest pain for several days," a midday medical bulletin reported Wednesday.

Chest pain that erupted from hardening of the coronary arteries sent Johnson to the Army's Brooke General Hospital March 2.

"President Johnson continues to make satisfactory progress," Wednesday's report said. "His doctors advise that all vital signs are normal and that President Johnson rested well Tuesday night."

Officials also said the former president is gradually being allowed to take more walks around his hospital room.

He has been confined to the special seventh-floor suite atop the hospital since he arrived. Mrs. Johnson has been sleeping in a nearby bedroom.

Doctors have reported only one "bad night" for Johnson during his stay and that came two days after he entered Brooke. It was blamed on pains in the chest and left arm and "general restlessness." A cold also pestered him.

The pains and cold soon diminished and then disappeared. The former chief executive's physicians have said previously that he would probably remain hospitalized "several days." Not once have they predicted when he might be able to return to the LBJ ranch.

He was at the ranch, 65 miles north of here in the Texas hill country, when doctors decided to hospitalize him for the chest pains. He flew here by helicopter.

Since then only his immediate family and staff members have been allowed to visit him. Mail has poured into the hospital from many parts of the world.

The latest good wishes came

from a large department store here in a six-column, full length newspaper advertisement.

It showed a photograph of the former president, walking with a big white Stetson hat in his hand. It bore this caption: "Things are looking up neighbor, get well fast."

OIC CHIEF—Gene C. Bankston, Houston, has been named state chairman of the Oil Information Committee of the Texas Mid-Continent Oil and Gas Association. The OIC is the Texas oil and gas industry's organized public information and service program. Bankston in turn will name chairmen in the various regions and counties of the state. The new chairman is head of the North American division of Shell.

LTV To Cover Deal Losses

DALLAS (AP)—Establishment of a \$30 million reserve was approved Wednesday by directors of Ling-Temco-Vought Inc. to cover any losses which might be incurred through their sale of Braniff International and Okonite Co.

The proposed sale is the result of an out-of-court settlement with the Justice Department, which had brought suit against LTV.

The Justice Department claimed the company had an over-concentration of stock in related industries and that LTV should divest itself of either Jones and Laughlin Steel Co. or the Okonite Co. and Braniff.

Spokesmen for LTV said there presently is no buyer.

Common-Law Marriages Hit Rape Charges Snafu

AUSTIN (AP)—An opponent of common-law marriages says he believes statutory rape charges could be filed against anyone who forms such a union with a girl 17 or under.

M. C. Elsberry, a Houston candidate for state representative, expressed the opinion at a news conference Wednesday.

Atty. Gen. Crawford Martin recently interpreted the new family code as permitting girls young as 16 to register common-law marriages with county clerks. He said the clerks are bound to accept the declarations. The state bar of Texas says persons that young could form common-law marriages, and the new law merely safeguards the property rights of common-law wives by providing registration.

Statutory rape charges can be filed against a man or boy who has intercourse with a girl under 17. Previous unchastity of the girl is a defense, unless the girl is 14 or under.

By declaring a common-law marriage, "the man must swear that he has slept with the girl under agreement," Elsberry said.

"Therefore, he has performed a criminal act because she is not of an age to contract or of an age to give consent herself... in my opinion, any man or boy would be open to charges of rape or statutory rape, particularly if the girl was 14 years of age, and of statutory rape or child molesting to the ages of 14-17," he said.

"Any parent that did not approve of their 14-year-old girl signing a contract of common-law marriage could prosecute the charge of statutory rape or rape, especially in the case of 14-year-olds."

He said a test case probably would be filed in a week or 10 days.

'Hot' \$100,000 Convicts Ex-Con

DALLAS (AP)—Ex-convict Vernon Morales, 30, Wednesday became the 11th person convicted in a case involving \$100,000 in counterfeit bills printed in Dallas a year ago.

Morales was charged with possessing 401 of the bogus bills.

Asst. U.S. Atty. Cecil Emerson said a substantial amount of the bogus bills had been recovered but some apparently remain in circulation.

Sentencing of Morales was set for March 19.

Viet Vet Killed In Training Test

FT. HOOD, Tex. (AP)—A Vietnam veteran was killed Tuesday during a battalion training test.

Spec. 4 Rene A. Bourque, 21, of Hatfield, Mass., died when he was run over by a tank at this Army post in Central Texas.

Bourque, a member of the 2nd Battalion, 50th Infantry, 2nd Armored Division, was to be discharged in May.

Building Known Around World To Be Auctioned

DALLAS (AP)—A Dallas building which became known around the world will be sold at auction next month.

It's the brick structure on the west side of the business district from which a sniper shot and killed President John F. Kennedy on Nov. 22, 1963. The Warren Commission decided Lee Harvey Oswald fired the fatal rifle shots.

Presently the first four floors of the seven-story brick building house the Texas School Book Depository, which has just completed its own warehouse. The upper three stories are vacant.

Thousands of tourists have visited the spot, pausing outside to eye the sixth floor window from which Kennedy was shot in his passing motorcade.

Real estate men said construction of a new skyscraper and erection of a new county courthouse in the neighborhood prompted a decision by the Dallas Trust Corp. to sell the building. The auction is set for April 16.

Orta Accused Of Murder

WAXAHACHE, Tex. (AP)—The third and fourth jurors were selected Wednesday in the murder trial of Felipe Orta of San Antonio.

Orta, 18, is charged in the slaying of Texas Highway Patrolman Travis Locker last Nov. 9.

Dist. Judge Bruce Allen denied a motion for change of venue by attorney Roy Barrera, because there is only one Negro among the 200 prospective jurors.

The highway patrolman was shot and killed after he stopped a car occupied by five men on Interstate 35 near Waxahachie.

Two other teenagers are charged with murder in the case.

Lawyers had questioned 57 prospective jurors from the special panel called Monday.

It usually takes five or six weeks to issue a refund if a tax return is properly made out and filed early. Ellis Campbell Jr., District Director of Internal Revenue for North Texas, said today.

Taxpayers who do not receive their refunds within this period should wait to write IRS at least 10 weeks after filing. Writing earlier may only delay processing, he said.

To avoid refund delays, Campbell said, taxpayers should check their return for accuracy and completeness. They should check to make sure all W-2 Forms are attached, the name and address and Social Security number on the name label are correct, and the return is signed.

Therapist Describes Use Of Art, Crafts

Mrs. Clara Jackson, occupational therapist at Big Spring State Hospital, was guest speaker at the Big Spring Art Association meeting Tuesday in the home of Mrs. Bill Patton. Mrs. Ruby Bruns was cohostess.

"Occupational therapy means activity; being occupied," Mrs. Jackson said. "The patients express themselves through art work and crafts. They are recommended by the treatment team staff for the type of therapy considered most beneficial."

Mrs. Jackson gave members and guests a color preference test then explained what the different colors represented in regard to personality.

Guests were Mrs. Richard Porter and Mrs. DeForest Frazier.

Dates for the regional Texas Federated Art Association show

Fora Hears Of Texas Heritage

Texas Heritage and the six flags that have flown over the state were discussed by Mrs. Oliver Cofer at the Spoudazio Fora Study Club meeting Tuesday at the home of Mrs. Hack Huggins, 1008 Howell. Mrs. Cofer included a historical sketch of Big Spring and the Howard County area.

"Texas is a colony, a nation and a state," she said. "It's a section of the world which has given an inspiring lesson of endurance, patriotism and valor."

The flags of Spain, France, Mexico, the Republic of Texas, the Confederacy and the United States have flown over the state.

Plans were made to sponsor an additional patient at the Big Spring State Hospital. The next meeting will be March 24 at the home of Mrs. Hulan Harris, 2608 Cindy.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, or your waistline is larger than 32 inches, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A feather-stitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available at Hemphill - Wells Co. Foundation Department, 214 Main Ph. 267-8284.

'Sadie Hawkins' Dance Scheduled By BSP Chapter

A Sadie Hawkins dance will be held by Beta Omicron Chapter, Beta Sigma Phi, Friday at the home of Mrs. Edwin Dixon, Coahoma. Plans were completed at the Monday meeting at the home of Mrs. Jack Aultman, 217-B Langley.

The program, "To See and To Know," was given by Mrs. Bobby Hughes and Mrs. William McIntosh who reviewed highlights of programs during the year.

Members voted on the BSP Pledge of the Year and Girl of the Year who will be presented at the annual Founder's Day banquet April 30 at Big Spring County Club.

Mrs. Melba Smith was a guest.

The next meeting will be March 23 at the home of Mrs. David Rhoton, 2802 Lawrence.

Entertain Guests In Westbrook

WESTBROOK (SC) — Guests of the A. C. Moodys were the Fred Carstensens, Ackerly; the Howard Massingales, Big Lake; and Mrs. W. T. Wyatt, Sweetwater. The Massingales and her sister, Mrs. Pat Padgett, and daughter also visited the Carl Bacons.

Rev. Hodnett and family left Monday to visit their parents, the Emil Rolstons and J. E. Browns in New Mexico. Rev. Hodnett returned Tuesday while his family remains for a week's visit.

The J. A. Moody's spent the weekend with friends and relatives in Abilene.

W. C. Hutchins was visited by his brother and sister-in-law, Mr. and Mrs. George Hutchins, and brother-in-law and sister, Mr. and Mrs. Burnice Foster, all of Cross Plains.

Mr. and Mrs. D. A. Oglesby and Mrs. Frank Oglesby visited with the Rev. and Mrs. Wayne Oglesby in Champion.

Potpourri Club Sees 'Marijuana'

The Potpourri Club viewed the film, "Marijuana," at a Tuesday meeting in the home of Mrs. Noel Hull, 2611 E. 25. Patrolman Stewart Dickson, Big Spring Police Department, showed the film and answered questions. The film, geared for youth, is narrated by Sonny Bono of "Sonny and Cher." It has been shown in the high school and the junior highs, and has been well received by youths and adults, Dickson said.

Eastern Star Has Odessa Seminar

Several members of Coahoma Chapter 499, Order of Eastern Star attended the OES seminar in Odessa Wednesday. The chapter held its regular meeting Tuesday in the Masonic Temple to plan for the Odessa trip. Refreshments were served by Mrs. A. K. Turner, worthy matron and Dave Grant, worthy patron.

Upholstery Tip

When upholstering a sofa or chair, protect the upholstery nail heads when driving into place by putting an empty wooden, sewing thread spool over the nail head and hammering the spool. This keeps the nail head intact without damage.

New Loungewear

Loungewear featured in the first New York showing by the Korean Association of Fashion Design Artists included a multi-striped ensemble in satin. Its sleeveless top, showing bare midriff, was teamed with wide-legged pants.

FOR BEST RESULTS, USE THE HERALD'S WANT ADS!

Film Shown For Child Study Club

The Child Study Club viewed the film, "Marijuana," Wednesday and heard a report on a party given by members for children at Big Spring State Hospital. Sgt. Pete Stone, Big Spring Police Department, showed the film. Mrs. Richard Grimes, Mrs. Calvin Daniels, Mrs. R. C. Thomas and Mrs. Tommy Hart were hostesses for the children's party.

Mrs. Grimes, president, appointed a nominating committee composed of Mrs. David Elrod, chairman, Mrs. Rick Moses and Mrs. Don Lovelady.

Mrs. James Love was a guest. The club donated \$20 to the Easter Seal Society.

The next meeting will be April 8 at the home of Mrs. David Elrod, Birdwell Lane.

Business Women Give To Nursing Scholarship

Donations were made by the Business and Professional Women's Club to its projects for the year at the Tuesday meeting in the Chamber of Commerce. The club contributed to the Chinese Nursing Scholarship Fund to bring Nationalist Chinese to the United States to study, and to the Mary Lysterstrom Fellowship Fund.

Mrs. Weldon Nuckolls, president, appointed a committee to nominate officers. Members are Mrs. Alma Gollnick and Mrs. Robert Smith.

The state convention of Texas Federation of B and PW Clubs was announced for June 11-13 in Amarillo.

The next meeting will be March 24 in the Pioneer Gas Flame Room. A covered-dish supper will be served and the legislation committee will give the program, "Know Your Laws." Mrs. Mel Frazier is chairman, and Mrs. Douglas Richardson and Mrs. Dealon Stanley will assist.

4-H Club Takes Test On 'Thought'

Lucky Acres 4-H Club met Tuesday at Howard County Courthouse. Members took a National Aeronautics and Space Administration test designed to determine whether group or individual thought is best. They found group thought gave best results, which is generally the case for the test.

Jo Ann Crawford played guitar for a song session. Five new members were welcomed into the club. Plans were discussed for the county stock show, the food show and methods demonstration show.

TOPS Club Names New Officers

Mrs. Alton Carlisle was elected leader of the TOPS Pound Rebels Tuesday at the YMCA. Others on the slate, which will be installed April 1, are Mrs. R. L. Collins, co-leader; Mrs. Donald Carlisle, secretary; Mrs. Lewis Collins, treasurer; Mrs. Stuart Dickson, weight recorder; and Mrs. Harold Bell, reporter.

Mrs. Tim Lee presided, and the 23 attending reported a total weight loss of over 30 pounds. Guests were Mrs. Ernest Saiz and Miss Laura Price.

The club plans a garage sale April 11-12 at the home of Mrs. Alton Carlisle, 1204 Lloyd.

At next Tuesday's meeting, a program will be given by Patrolman Stuart Dickson.

Pair Pledge Vows In Home Wedding Rites

Miss Elaine Hale, daughter of Mr. and Mrs. Marvin Hale, Westbrook, and Dale Byrd, son of Mr. and Mrs. Alvin Byrd, Westbrook, were married March 5 in the home of the bridegroom's parents. The Rev. Caddo Matthews, pastor of Plainview Baptist Church, officiated at the double ring ceremony.

The bride was attended by her sister, Miss Marsha Hale. The best man was Jimmy Rees, Colorado City.

Following a wedding trip to

Houston the couple are making their home in Westbrook until May, when they will attend summer school at Sam Houston State University.

The bride attended Odessa Junior College. She recently moved to Westbrook from Midland where she was employed by Midland National Bank.

The bridegroom is a graduate of Westbrook High School and Sam Houston State University with a BS degree. He is a science teacher and coach at Westbrook High School.

A LOVELIER YOU Makeup Must Meet Purity Requirements

By MARY SUE MILLER

As women become informed on the problems inherent in various food additives, pesticides and even drugs, it is natural that cosmetic ingredients should arouse interest and curiosity. How pure is pure makeup?

The answer depends on your definition of "pure." If you mean clean — antiseptically produced — you may be sure that recognized producers have spotless laboratories housing sophisticated equipment. All cosmetic laboratories are subject to the inspection of various agencies.

If purity of ingredients is your meaning, be assured that the Federal Drug Administration (F.D.A.) is a guardian here. Every product must be able to meet official reviews. It is a complicated process beginning at the manufacturing level with pre-testing on hundreds of skins of ingredients already proven "safe."

However, no product is completely safe. Somebody, somewhere, is going to have an allergic reaction to the cleanest, purest, mildest product. Even a truly hypoallergenic cosmetic. That's one from which all known allergens are excluded.

This is why tests pile upon tests. Why new products may seem mild but play it safe, rather than sorry. Why ad-

Contest Winners To Be Speakers

STANTON (SC) — Eulene Ledbetter and Larry Shaw, 1969 winners of Cap Rock Electric oratorical contest, will give a program March 19 sponsored by Xi Theta Nu Chapter of Beta Sigma Phi. Plans were made at the chapter meeting recently in the home of Mrs. Benny Welch. The program will be in Cap Rock Auditorium at 7:30 p.m.

As winners of the oratorical contest, Miss Ledbetter and Shaw traveled to Washington, D.C., last summer and have a program of slides taken during their trip.

New officers elected were Mrs. Kenneth Holcomb, president; Mrs. Gerald Hanson, vice president; Mrs. J. R. Dillard, secretary; and Mrs. Jimmy Conner, treasurer.

Area Families Have Guests

FORSAN (SC) — The Wayne Monroney family, Snyder, visited his parents, the G. L. Monroneys, and the Bob Cowleys, during the weekend.

Mrs. J. W. Griffith is being visited by her daughter and family, the Robert Newcombs, who are moving from Kenal, Alaska, to Woodward, Okla.

B. D. Caldwell, San Angelo, former local resident, is in Shannon Hospital recovering from a heart attack suffered last week.

Mr. and Mrs. Dennis Hughes, Hobbs, N.M., and their daughter, Ann, a student at Abilene Christian College, visited here with the B. R. Wilsons and A. D. Bartons during the weekend.

Mrs. Earl Beeson and daughters were guests of her brother and family, the Johnny Stokes in Odessa.

Guests of Mr. and Mrs. H. D. Smith were the Hugh Eudys, Van Horn; Mrs. Janitta Gott-hold, Marfa; and Lt. and Mrs. Donald Eudy, en route from Altus AFB, Okla., to Robins AFB, Ga.

Westbrook Group To Meet Tonight

WESTBROOK (SC) — Committees for the community homecoming sponsored by the Parent-Teacher Association of Westbrook School will meet at 7:30 p.m. today in the school lunchroom. The homecoming will be June 19-20.

Committee chairmen include Mrs. A. A. Raschke, food; Mrs. W. E. Smith Jr., decorations; Mrs. Rex McKenney, invitations; the Rev. Frank Hodnett, general chairman; Mrs. Mary Ellis, refreshments; Sidney Jones, class meeting; Mrs. Witt Hines, program; D. J. Barber, finance; and Mrs. W. A. Swafford, registration.

Box Supper Set By Stanton Club

STANTON (SC) — Plans for a box supper auction Saturday were made at a recent meeting of the Ladies Association of Martin County Country Club. The auction will be held at 7:30 p.m. in Cap Rock Auditorium for all club members. Proceeds will go into the association fund. Bernard Houston will serve as auctioneer.

Beauceants Give Items To Hospital

Items donated recently to Big Spring State Hospital were reported by Mrs. Lee Porter when the Social Order of Beauceant met Monday at Masonic Temple.

According to Mrs. Porter, dresses, fabric, needles, thimbles, scissors, quilt scraps and thread were taken to the hospital in conjunction with the year's project of aid to patients. Mrs. Porter asked members to bring assorted garments to the next meeting, and they will be delivered to the hospital.

On March 23 the order will celebrate its 10th anniversary with a banquet at 6:30 p.m. in the Masonic Temple. At that time, all past presidents and Sir-

Touch Up China

Tint porcelain paint with vegetable coloring and use it to paint over the chipped places on pottery dishes. With these ugly nicks hidden, your dishes look much better.

ABOUT ACNE

Is acne your problem? If so write to Mary Sue Miller in care of the Big Spring Herald, requesting her leaflet, "Facts About Acne." Advice covers medical and home care; use of cosmetics; diet and tension control. Please enclose self-addressed, stamped envelope and 15 cents in coin.

- Choose from actual finished portraits—not proofs.
- Extra prints available at reasonable prices. No obligation to buy.
- Groups taken at 99¢ per child.
- Age limit: 5 weeks to 12 years.
- Limit: one per child—two per family.

Welcome Veterans

SGT. RODNEY BRASHEARS

Sgt. Brashears Will Be Honored

Sgt. Rodney Brashears, 21, will be honored by the Civilians Friday in a noon luncheon at the Downtown Tea Room as part of the Mayor's Veteran Recognition Program.

Brashears, son of Mr. and Mrs. Ray Brashears, 2602 Larry, is employed by Mobil Oil Co. and is awaiting transfer to

New Mexico.

He is a graduate of Sweetwater High School and attended McMurry College in Abilene for one year. He moved to Big Spring with his parents in 1968. He joined the Army in June, 1968, and was discharged Feb. 18, 1969, after 19 months. He was stationed in Korea immediately prior to his discharge.

Lions Sit In On Session

Downtown Lions got in on a jam session at their meeting Wednesday noon at the Settles. Larry Stanley, John Stanley and the Rev. Steve Birdwell delighted the Lions with improvisations on the drums, piano and trumpet.

Lions are anxious to hear about crippled children who can go to summer camp, said Harlan Hulbregtse, chairman of this activity. Any child from eight to 16 is eligible, and there is no cost. Lions arrange for transportation as well as care for expenses.

Capt. Harold Johnson was introduced by Maj. Bill Lund as a new member.

Past presidents of the club will meet at a nominating committee March 19, said Waymon Clark, president.

Teachers To Mull Code Of Ethics

AUSTIN (AP) — A public hearing will be held April 18 on a statewide Code of Ethics and Standards Practices for teachers, administrators and other professional personnel in Texas schools.

The Texas Teachers Professional Practices Commission will use the testimony in drafting a code that will take effect Sept. 1, 1971.

The commission was established by the 1969 legislature and appointed by Gov. Preston Smith.

Teachers will vote on each provision of the code at a referendum next February. Revision, based on the referendum results, will be written into the code.

"We will hear everyone who wants to be heard if we have to go into a late night session. This code is important to all teachers and we want all of them to express their views," said Dr. John McFarland, commission chairman.

San Angelo GI Killed In Viet

WASHINGTON (AP) — Two Texans were among 13 servicemen named Wednesday by the Defense Department as killed in connection with the fighting.

They were: Army Sgt. Rocky Y. Hirokawa, son of Mr. and Mrs. Ichiro J. Hirokawa, 3100 Pecan, Apartment 121, Nacogdoches; Pfc. Mario Gonzalez, husband of Delia R. Gonzalez, 422 E. 13th St., San Angelo.

Died of wounds: Marine Corps Pfc. Eucarnacion Ledesma, husband of Mary Ledesma, Route 1, Box 84B, Sinton.

Died not as a result of hostile action: Marine Corps Cpl. James J. Pumphrey, brother of Sandra L. Young, 5231 Falvey St., Houston.

Husband, Children Are Help To Homemaker-Secretary

By MARILYN NEVELS

Mrs. Billy Mac (Dene) Sheppard does double duty as a housewife at 1411 E. 18th and a full-time secretary at the Veterans Administration Hospital. She has worked as secretary to the chief of medical administration service for three years and prior to that had worked several years at Webb AFB.

"I really like working and love to be among people," she said.

Mrs. Sheppard and her husband are natives of Big Spring and their parents have lived here many years. Mrs. Sheppard is the daughter of Mr. and Mrs. C. C. Choate, 102 E. 16th, and her husband is the son of Mr. and Mrs. W. J. Sheppard, 1417 Wood.

Their mothers often help out with meals on extra busy days when the Sheppards take art lessons or attend meetings. With a family of four children, a dog, a cat and numerous fish to feed, life can become pretty hectic. Members of the household include Teresa, 13, Cindy, 13, Connie, 8, Scott, 6, Charlie Brown, the basset hound, and Mines, a very pregnant cat.

Judging from the neat appearance of the Sheppard home, it is apparent that everyone helps. The older girls are becoming accomplished cooks which seems to run in the family.

One particularly busy day Mrs. Sheppard came home and found that "Cindy had the table set and the entire meal with salmon croquettes prepared." Each of the four children attend a different school. Scott goes to Jack and Jill, Connie to College Heights Elementary, Cindy to Goliad Junior High and Teresa to Big Spring High School.

"Without the girls helping at breakfast and getting everyone off to school, we'd never make it," Mrs. Sheppard said. "I like to prepare simple meals. We like casserole and love to grill foods."

The Sheppards use their covered barbecue the year around. "We grill just about anything," she said. "I usually serve a big salad and baked potatoes. We barbecue ham, roasts and pork ribs, among other things. Bill's specialty is making the barbecue sauces, and he is the best gravy maker in the world. His favorite meal is round steak and potatoes."

Due to their busy schedules, Mrs. Sheppard often does her cooking "in sprees" and during the weekend.

"We have a large freezer and buy a half a beef," she explained. "When I start a cooking spree, I'll bake five or six loaves of homemade bread and five pans of rolls to put in the freezer."

"We really like Mexican food too. I'll make five or six dozen enchiladas and fix chili and refried beans then freeze them in individual TV dinner pans. For desserts I make cobblers, and the girls have taken over the cake baking. Then, Bill's

TO DECORATE HOME — Mr. and Mrs. Billy Mac Sheppard have both contributed paintings to the decoration of their newly-remodeled home. Here Mrs. Sheppard adds more color to a canvas as her husband gives a helpful suggestion.

mother is always sending over something delicious."

Sunday dinner is their big meal of the week. They are members of St. Mary's Episcopal Church and Sheppard teaches sixth grade Sunday school and Mrs. Sheppard is a substitute teacher.

The Sheppards have one big meal a day which depends upon his work schedule at Cosden.

Mrs. Sheppard has found her activities snowballing until she says, "next year I'm just going to be a belonger instead of a doer." She is vice president of the National Secretaries Association, secretary of the Howard County Heart Association, past secretary of the VA Hospital Federal Credit Union and secretary for the newly-formed Hospital Employees Association.

Their most enjoyable pastime began when Mrs. Sheppard gave her husband art lessons for Christmas in 1968. When he went to sign up for his lesson he insisted that his wife join him. Now they have several of their originals decorating their home. Sheppard specializes in the palette knife style of Maurice Utrillo and Mrs. Sheppard does the colorful still-lives in Vincent Van Gogh style. They were forced to give up their lessons for a while last April due to a devastating fire in their home. Now they have completely repainted, plastered, hung curtains and added three rooms, a large den, two paneled bedrooms and an outside workshop. Mrs. Sheppard did all the interior painting herself. Their next project is to re-do the kitchen with built-in appliances.

"I plan to get Spanish-style furniture for the living room and partition it for a dining room," she said. Once Mrs. Sheppard quit her job for the birth of a child and thought she would concentrate on being a housewife.

RECOMMENDED RECIPES

By Mrs. Sheppard

POUND CAKE

2 sticks butter or margarine
2 cups sugar
4 eggs
3 cups flour
2 tps. baking powder
1 tsp. vanilla
1 tsp. lemon extract
1 cup milk

Cream butter, sugar, eggs and flavoring. Alternately add flour and milk. Bake at 350 degrees.

CHOCOLATE ICING

1 1/4 cups sugar
1 tsp. white syrup
3/4 stick butter or margarine
1 1/2 squares of chocolate
1/2 cup of milk (just enough to wet mixture)

Let boil until thick (pouring) consistency, add 1 teaspoon vanilla. When ready to serve, cut slice of pound cake and pour hot icing over. If icing gets cold and perhaps thick, add a little milk and reheat.

MEXICAN CASSEROLE

(10-12 Servings)
1 1/2 lbs. ground beef
Salt
1 onion, chopped
1 can cream of chicken soup
1 can cream of mushroom soup
1/2 can green chilies
1 pkg. tortillas
1 lb. cheese, grated

Mix ground beef and onion in a skillet and brown. Add salt to taste. Mix all other ingredients, except tortillas and cheese, in the skillet and warm. Break each tortilla into four pieces. Alternate the tortillas and meat mixture in a baking dish. Sprinkle with cheese and bake at 300 degrees for 30 minutes.

SUGAR COOKIES

1 cup shortening
1 1/2 cups sugar. Mix well
2 eggs
Sift together and then stir in above mixture:
2 3/4 cups sifted flour
2 tps. cream of tartar
1 tsp. soda
1/2 tsp. salt
Cream shortening, sugar and eggs. Sift together all other ingredients and stir into first mixture. Roll into balls the size of small walnuts. Then roll balls in mixture of two tablespoons sugar and two teaspoons cinnamon. Place two inches apart on ungreased cookie sheet. Bake eight to 10 minutes at 375 degrees.

BLACKBERRY JAM CAKE

1 cup butter
2 cups sugar
4 eggs
1 cup buttermilk
1 tsp. baking soda
3 cups flour, sifted
1 tsp. allspice
1 tsp. cloves
1 tsp. nutmeg
1 tsp. cinnamon
1 cup nuts
1 cup jam
1 tsp. brandy (optional)

Cream butter and sugar, then add eggs. Mix buttermilk and soda in separate bowl. In third bowl, combine flour, allspice, cloves, nutmeg and cinnamon.

Alternately mix the flour and buttermilk mixtures to the creamed mixture. Add the nuts and jam, saving a little of the jam to spread on top of each layer while piping hot. If desired, put the tablespoon of brandy in with the jam and pour over the layers. Ice with seven-minute white icing.

Steaming Platter Of Good Beef

Please the beef-eaters with this aromatic combination.

BRAISED BEEF WITH VEGETABLES

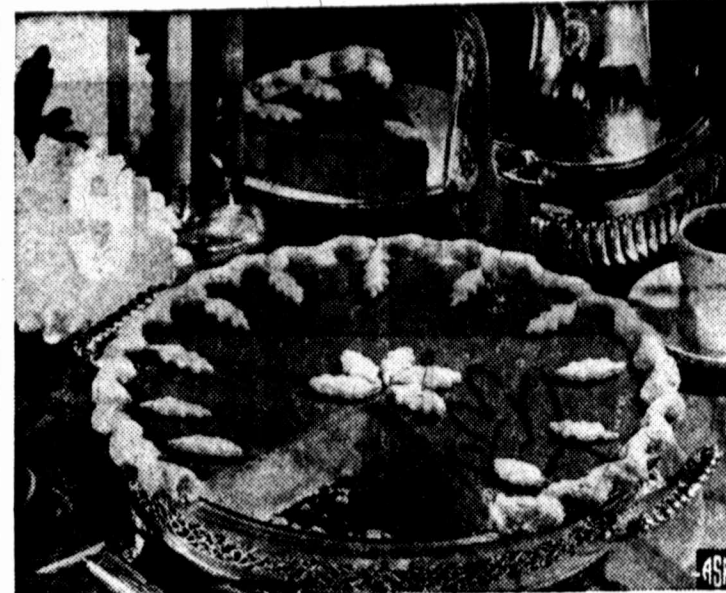

2 lbs. boneless beef for stew
2 tps. drippings or cooking oil
1 tsp. salt
1/4 tsp. pepper
2 cups water
6 medium onions
6 small whole carrots
1 lb. fresh or 1 12-oz. pkg. frozen Brussels sprouts
Flour for gravy

Brown beef in drippings or oil, and then pour off drippings. Season. Add water, cover and cook slowly (275 to 325 degrees) for 1 1/2 hours. Add onions and carrots, cover and cook 30 minutes longer. Add the Brussels sprouts and cook an additional 30 minutes, or until meat is tender and vegetables done.

Remove meat and vegetables to serving platter. Add water to cooking liquid to make two cups and thicken liquid with flour for gravy.

Leftover Franks Spark Muffins

Ever use leftover frankfurters this way? Slice diagonally, place on top of split English muffins, top with slices of cheddar cheese and bake in the oven until cheese melts and edges of muffins are brown and crisp. Small fry love this treat.

ANY TIME is time for pie, a favored dessert at most family meals. Over the years, pumpkin pie has increased in popularity as a nourishing and delicious ending to a perfect meal.

Pretty Pumpkin Pie Gains In Popularity

Though apple may be the year around pie favorite, pumpkin may run a close second on the dessert list. Acknowledged, too, is the fact that evaporated milk makes the best pumpkin pies, providing smooth richness to the golden and fragrant spicy custard filling.

FAVORITE PUMPKIN PIE

2 eggs
1 can (1 lb.) pumpkin (about 2 cups)
3/4 cup firmly packed light brown sugar
1/2 tsp. salt
1 1/2 tps. pumpkin pie spice
1 tall can (13 fl. oz.) evaporated milk (one and two-thirds cups)

9-inch unbaked pastry shell

In medium size mixing bowl beat eggs slightly to blend yolks and whites. Stir in pumpkin, brown sugar, salt, spice and evaporated milk, blending well. Ladle into pastry shell. Bake in preheated hot oven (425 degrees) 15 minutes; reduce temperature to moderate (350 degrees) and continue baking until filling is set, about 45 minutes longer.

Remove to cooling rack and cool away from drafts. When ready to serve, garnish with leaves cut from scraps of pastry and baked golden brown, if desired. Makes 9-inch pie (6 to 8 servings).

PANTRY PICK-UPS

When you are browning beef for stew, sprinkling a little sugar over the meat will help the browning process. A half teaspoon of sugar to a pound of beef is a good proportion.

Spice canned beef bouillon with lemon juice and Worcestershire sauce and serve over ice as a before-dinner offering.

When a recipe calls for "crushed garlic," you can use either a garlic crusher or a mortar and pestle for reducing the garlic clove to a pulp. If you use a garlic crusher, it is not necessary to peel the garlic clove before crushing.

Delicious to serve with cold cuts: kidney beans (from a can) mixed with enough wine vinegar and brown sugar to make sweet-and-sour. Add a little finely chopped sweet onion if you like. And drain the kidney beans and rinse under cold water before using. This combination is, of course, served cold.

To remove the skins from small silver-color onions, pour boiling water over them and let them stand for about 10 minutes. Cut off the ends of the onions and then slip off the skin.

Israeli Jets Return Safely After Raid

TEL AVIV (AP) — Israeli jets streaked across the Suez Canal today for the first time in six days, striking at Egyptian targets along the southern sector of the waterway and penetrating up to 15 miles inside Egypt, Israeli spokesmen said.

The military command said all planes returned safely following the 10-minute raid.

No Israeli air attacks across the canal have been reported since last Friday. Military observers say jets have been grounded by bad weather and poor visibility caused by desert sandstorms.

In other action, Arab guerrillas wounded six Israeli soldiers today at the fog-shrouded northern end of the occupied Golan Heights. An Israeli spokesman said the body of one guerrilla and four mines were found after the attack. The mines were dismantled.

Arab saboteurs set off explosives in the occupied Gaza Strip for the third day in a row, hurling a hand grenade at an Israeli military vehicle.

The Israelis said four Arab bystanders were wounded in the blast at Deir el Balah but the vehicle was not damaged.

Israeli officers describe the grenade attacks in the strip as "a campaign to disrupt the day-to-day life." Grenades injured 22 Arab civilians in the same town Wednesday.

The Israeli Supreme Court ruled against 14 wealthy Arab landowners who sought \$6.8 million in compensation for Jordan Valley farmlands the Israelis occupied after the 1967 war.

The Arabs, all from Nabulus, charged that the army took over more than 4,000 acres in November, 1967, and destroyed buildings, equipment, water pumps and crops.

In the petition the Arabs said they went first to the army's legal department, which ruled in their favor and appointed an assessor to make an evaluation. But when there was no further action, some of the landowners hired Israeli attorneys and went to court.

While the case was pending, the military governor for the West Bank ruled that the army "is not liable for damage caused to property designated as a war zone."

In Cairo, the Arab League Council called on the United Nations to take "firm sanctions" to prevent Israel from carrying out a rumored plan to evacuate 300,000 Palestinians from the Gaza Strip.

The Council instructed the league secretary to cable U.N. officials to draw their attention also to Israeli plans to build settlements in territories occupied after the 1967 war.

The United Nations' special envoy to the Middle East, Gunnar V. Jarring, was to hold separate talks today with Israeli, Egyptian, Jordanian and Lebanese diplomats in New York for the first time since last fall.

At the same time British, French, Soviet and U.S. delegates were scheduled to hold their 30th meeting in an effort to draft guidelines by which Jarring might help the Arabs and Israelis reach a settlement.

Bystander Killed

CORPUS CHRISTI (AP) — Frank Mosley, 43, was shot to death in a tavern Tuesday night.

Police said Mosley was an innocent bystander when an argument broke out between two men at an adjoining table.

A man later surrendered to police, officers said.

Prince Is Ready For 'Cease-Fire'

VIENTIANE, Laos (AP) — Premier Prince Souvanna Phouma said today his royal Lao government is "ready for a cease-fire," but North Vietnam must withdraw its troops before there is a cessation of American bombing in Laos.

The chief of state acknowledged in an interview that American bombing raids had been stepped up in recent months at his request in response to an increased North Vietnamese threat.

Souvanna was asked about a new peace proposal by the Communist Pathet Lao, calling for a cease-fire and an end to U.S. intervention in Laos.

"Let's not talk uniquely about aerial bombardment," the premier said. "We must also talk about the presence of North Vietnamese troops. The two things are tied together, on one hand the withdrawal of the North Vietnamese troops and on the other hand the stopping of the bombardment."

fect, you must remove the cause of the bombing which is the presence of North Vietnamese troops in Laos."

Prince Souvanna agreed with President Nixon's statement that North Vietnam infiltrated more than 12,000 additional troops into Laos during the past few months, raising their total strength in the country to more than 67,000.

"There is now in Laos more North Vietnamese than last year," Souvanna said. "Some journalists think that North Vietnamese troops are mostly on the Ho Chi Minh trail, which is wrong."

Asked how he assessed the military situation in southern Laos, particularly on the Ho Chi Minh trail, Souvanna said: "The situation is serious but not dramatic. We must not be too pessimistic. We must keep cool. We'll see what the great powers will do if Laos is actually totally invaded by North Vietnam."

(AP Wirephoto) **HIGHLY CONSERVATIVE** — Rep. Barry M. Goldwater Jr., of California, at 31 is the youngest Republican in Congress. Nearing the end of his first year on Capitol Hill he has been rated 91 per cent conservative on the basis of his 1969 voting record. The rating is higher than that of his famous father, Sen. Barry M. Goldwater, R-Ariz., whose voice of conservatism led him to the 1964 GOP presidential nomination.

Four Left To Be Called By State In Death Trial

EDINBURG, Tex. (AP) — Hildalgo County Dist. Atty. Oscar McInnis had only four more witnesses to complete the prosecution's case against Pete Thomas Scamardo when the lengthy trial resumed today.

McInnis, who has presented 15 days of testimony in the often sensational trial, is seeking the death penalty for Scamardo who is charged with being an accomplice in the 1968 shooting death of Sam Degelia Jr. near McAllen.

McInnis said the four remaining witnesses are Mr. and Mrs. Sam Degelia Sr., the victim's parents, Mrs. Ruth Murtaugh, manager of a McAllen private club, and Sandra Sue Attaway, identified as a former girl friend of the alleged triggerman.

The indictment against Scamardo, 31, alleges he offered to pay Charles Harrelson of Houston \$2,000 to kill Degelia, his former business partner and longtime friend.

Most of the testimony from 10 witnesses Wednesday involved an alleged incident in

November, 1968, when Harrelson, also known as C. S. Stoughtenborough, and Scamardo arranged for the alleged gunman to take Scamardo's car on a cross-country trip.

Texas Ranger J. L. "Skipper" Rundell of Houston testified that Harrelson had the keys to Scamardo's car in his pocket and the car parked nearby when he was arrested at Atlanta, Ga., Nov. 20, 1968, on a murder charge filed in Brazoria County.

Ranger O. L. Luther of Bryan testified that a car rented by Harrelson in Nevada was found in about ten feet of water in a gravel pit near Hearne the same day Harrelson was arrested.

Earlier testimony had revealed that Scamardo reported his car stolen Nov. 15, 1968. He told a Hearne automobile dealer the car's brakes had failed and he had left it at the dealer's service department the evening before.

Luther testified that he flew to Atlanta to pick up Scamardo's car. He said he drove the car back to Bryan and experienced no trouble with the brakes.

Mike Muth Sr., service manager at Brown-Allen Motor Co., Bryan, testified that he examined the car Nov. 26, 1968. He said the inspection revealed no brake trouble and the car's

braking system had not been tampered with or impaired.

James Leon Wilson, operator of a Hearne drug store, testified that records kept at a Western Union branch office in his store revealed that two money orders had been sent from Hearne to Harrelson who was using the assumed name.

The prosecution, headed by McInnis and his staff, alleges that Scamardo hired Harrelson to kill Degelia in order to collect on a \$25,000 life insurance policy.

Number, Please!

LAREDO, Tex. (AP) — Telephone service between San Antonio and Laredo was restored Wednesday afternoon following a two-hour and 40-minute interruption when a construction crew severed a cable.

A spokesman for Southwestern Bell Telephone Co. said the cut also affected service in the Laredo area.

Communities nearby were able to call Laredo, the spokesman said, but Laredo operators were unable to complete outgoing calls.

U.S. Combat Deaths Dip In Vietnam

SAIGON (AP) — The total of U.S. combat deaths in Vietnam dropped to 88 last week, a reduction of 22 per cent from the previous week's three-month high of 113. But the wounded total jumped 72 per cent, from 465 to 803.

The U.S. Command's weekly summary of casualties raised the total number of Americans reported killed in action in Vietnam to 40,946 since Jan. 1, 1961. A total of 269,099 Americans have been reported wounded, and another 1,363 are listed as missing or captured.

The allied commands claimed 2,105 Viet Cong and North Vietnamese were killed last week, bringing the reported enemy total for the war to 607,886. The Saigon government's battle dead exceeded the U.S. total for the 42nd consecutive week, with 343 men reported killed and 742 wounded.

The U.S. Command reported three American helicopters were destroyed by ground fire Wednesday, including an OH-58 Kiowa observation craft, the latest model chopper to join the Vietnam war. It was the first Kiowa loss reported.

The two-man ship was on a reconnaissance mission over Bien Hoa Province just north-east of Saigon when it was hit and crashed. One of its crewmen was wounded.

The other two helicopters lost were an OH-6 shot down in Tay Ninh Province, wounding three men, and an AH-1 Cobra gunship that went down southwest of Da Nang, killing one crew member and wounding the other.

Three other U.S. Army helicopters were shot up Wednesday night—but not destroyed—while trying to rescue wounded men of the Americal Division during a battle 12 miles south of Quang Ngai City.

The U.S. infantrymen came under heavy mortar fire followed by a ground attack, U.S. headquarters reported. American infantrymen returned the fire and called in helicopter gunships.

One UH-1 helicopter sent in to evacuate the wounded was hit by enemy ground fire and one soldier aboard was killed, the U.S. Command said. Although damaged, the helicopter was able to return to its base.

Another helicopter was called in and also was hit. It landed at a landing zone nearby. About half an hour later, a third helicopter attempting to evacuate wounded was hit and forced to land nearby. That craft and its crew were retrieved during the night.

The second and third helicopters were marked with Red Crosses and were unarmed, U.S. spokesmen said.

The battle broke off after nearly three hours of fighting. In addition to the man killed aboard the helicopter, six Americans were wounded and two North Vietnamese were killed, the U.S. Command said.

Nonpartisan Visit By Nixon

WASHINGTON (AP) — President Nixon made a strictly nonpartisan visit to the Naval Medical Center Wednesday to cheer up four ailing congressmen—two are Republicans, two Democrats.

The congressmen-patients are Sen. Carl E. Mundt, R-S.D., and Reps. Charlotte T. Reid, R-Ill., Michael J. Kirwan, D-Ohio, and Earle Cabell, D-Tex.

To Honor Gus

JACKSBORO, Tex. (AP) — Plans for a lighted fountain at Jacksboro High School have been announced by the school's ex-students association to honor Guy Kemp, who has been custodian of the school since it was a small red brick building. He became custodian in 1929.

ONE THAT GOT AWAY — Carlos Mark, left, of Trinidad, slides under a powerful right from Emile Griffith during their non-title 12-round middleweight elimination bout at New York's Madison Square Garden Wednesday night. New Yorker Griffith, however, won by a unanimous decision.

NCAA Playoffs Start Anew This Evening

By The Associated Press

This is the Age of Aquarius. Will it be the Year of the Dolphin in college basketball?

Or will it once again be the Year of the Bruin? Or the Wildcats?

The weeding out process by which college basketball's annual championship is decided continues tonight with eight games at four NCAA regional tournaments.

Of the 16 teams competing tonight for quarter-final berths, only top-ranked Kentucky and No. 2 UCLA have won national titles in the past. Kansas State, unranked, is the only other

team to even get as far as the finals in the previous 31 NCAA post season playoffs.

A case could be made for the Dolphins from Jacksonville University being just the team for the Age of Aquarius. After all, the Johnny-come-latelies of college basketball have been scoring at a record pace of 101 points a game.

EXCITING CLUB

And the Dolphins, 24-1 and No. 4 in the final Associated Press poll, are a new and exciting entry in college basketball. This is Jacksonville's fourth year of competition, but the first one for the Florida school to make

any splashes.

Jacksonville goes against Big Ten titlist Iowa in one of the two games at Columbus, Ohio. The Dolphins revolve around 7-foot-2 Artis Gilmore, the nation's No. 1 rebounder with a 23-percentage average, and 7-foot Pembroke Burrows.

Here's the line-up for tonight's regionals, all starting times EST:

—East at Columbia, S.C., 7:05 p.m., No. 17 Niagara, 22-5, vs. Villanova, 21-6, 9:05 p.m. No. 3 St. Bonaventure, 23-1, vs. No. 10 North Carolina State, 22-6.

—Midwest at Columbus, Ohio: 7:05 p.m., No. 1 Kentucky, 25-1, vs. No. 9 Notre Dame, 21-6, 9:05 p.m., No. 4 Jacksonville, 24-1, vs. No. 7 Iowa, 19-4.

—Midwest at Lawrence, Kan.: 8:05 p.m., No. 12 Houston, 25-3, vs. No. 14 Drake, 21-6, 10:05 p.m., No. 5 New Mexico State, 24-2, vs. Kansas State, 19-7.

—West at Seattle, Wash.: 10:05 p.m., No. 16 Utah State, 21-6, vs. Santa Clara, 22-5, 12:05 a.m., No. 2 UCLA, 24-2, vs. No. 19 Long Beach State, 24-3.

Adolph Rupp, the Bluegrass Baron whose Kentucky quintets won titles in 1948, 1949, 1951 and 1958, was named Southeastern Conference Coach of the Year Wednesday.

Winningest coach in the sport, the 68-year-old Rupp needs another national championship to equal the five won by UCLA's John Wooden, including a record three-in-a-row, 1967-69. UCLA's foe, the Long Beach State 49ers, are really an upstart. Until last weekend when the 49ers upset Weber State 92-73 in the first round of the NCAA playoffs, the team was virtually unknown.

AGAIN SATURDAY

The survivors of tonight's games play quarter-final matches Saturday afternoon at the same sites. Saturday's winners go to College Park, Md., for next Thursday's semifinals.

The championship game, also at Maryland, will be played March 21.

The 33rd National Invitational Tourney in New York, featuring high-scoring Pete Maravich of LSU, gets under way Friday with a 16-game field.

At the NAIA, Stephen F. Austin, No. 1 team in the AP's final small college rankings, reached the quarterfinals, defeating Augusta, Ga., 74-71.

It was the 33rd straight victory for the Lumberjacks, including 29 this season. The Nacogdoches, Tex., team is top-seeded in the NAIA tourney.

JVs, Ector Vie Here At 4 P.M.

Big Spring's JVs hope to get their baseball season off and winging here today.

Weather permitting, they will tangle with the Odessa Ector team at 4 o'clock. The playing field was covered with snow Wednesday but absorbs moisture well.

The varsity Steers are booked to return to play Friday in Odessa, at which time they tangle with Permian again.

Permian edged the locals here earlier this week 3-2.

The Longhorns will entertain powerful Lubbock Monterey twice Saturday. The first game gets under way at 1 p.m.

Allen Agrees To \$85,000 Card Offer

By The Associated Press

Richie Allen missed the deadline and Joe Hague is making the most of the opportunity.

Allen, the St. Louis Cardinals newly acquired slugger failed to arrive Wednesday at St. Petersburg, Fla., for a 10 a.m. deadline set up by the Cardinals brass. However, Allen, in Philadelphia, agreed to terms late Wednesday for a reported \$85,000 and said he would report to training today.

"We ain't gonna give in," said St. Louis owner Gusie Busch earlier in the day of Allen's request for a \$125,000 contract. Allen, who slugged 32 homers and batted .288 for the Philadelphia Phillies last year, reportedly earned \$70,000-\$80,000 last year.

"He's going to play at our figure or he's not going to play for the Cardinals," Busch said.

Meanwhile, Hague, who figured to battle Allen for the first base job, cracked a home run and added a single in the Cards' 4-3 victory Wednesday over Detroit.

GOOD CREDENTIALS

Hague, a slugging left-handed hitter, batted .332 with 16 homers for Tulsa of the Texas League. Dal Maxvill also had a two-run single for the Cards while Don Wert slammed a homer for the Tigers.

Washington made it five in a row, stopping the winless Minnesota Twins 12-11. Gene Martin crashed a grand slam homer and Mike Epstein a solo shot for the undefeated Senators. The Twins, 0-5, had homers by Cesar Tovar and Jim Nettles and a pair by Tony Oliva.

Rick Monday cracked a three-run blast and Oakland snapped a four-game losing streak with an 8-3 triumph over California. Tom Reynolds and Randy Duncan also had a round-tripper for the A's while Rick Reichardt connected for the Angels.

The Baltimore Orioles swept to a 12-10 thriller over the Chicago White Sox on the slugging of Paul Blair, who cracked two 400-foot plus homers. Andy Etchebarren drilled a homer for the Orioles with Duane Josephson and Walt Williams rapped homers for the Sox.

Willie Crawford's two-run ninth inning homer climaxed a four-run inning as the Los Angeles Dodgers nipped Houston 15-14. Bill Sudakis also connected for the Dodgers while Andy Kosco had five hits for the winners.

DUNBAR MAN TO ECTOR?

ODESSA — The Odessa school board convenes tonight for the purpose of naming a head coach at Ector High School.

Indications are it will be Prentis Williams, now head coach at Lubbock Dunbar High School.

It has been known for some time that the trustees are seeking a Negro for the job. Williams attended Prairie View A&M. If a formal contract is signed, Williams may report here as early as April 1 to assume his duties.

The job was vacated by Harold King, who resigned after last football season. Ector is returning to Class AAAA next season after two years in 4-AA.

Bob Lunn Could Be Next Big Pro Links Standout

PENSACOLA, Fla. (AP)—Bob Lunn, who burst out of the shadows of obscurity with a dramatic victory over Arnold Palmer, could be pro golf's next big winner.

But he's not yet ready to claim the status of a star.

"No," he said when asked if his nationally televised triumph in the Florida Citrus Invitational last week should boost him into such a category. "I don't think so. I have a lot to do to prove myself yet."

The comment was typical of the big, quiet guy who ranked as one of the favorites today in the first round of the \$150,000 Monsanto Open.

He's only 24 and has made one of the fastest starts on the pro tour since Jack Nicklaus. He has been on the tour since 1966, has claimed four titles in the last three years, has one \$100,000 season behind him, and currently leads the 1970 money winning list.

But—at least until last week—he was a virtual unknown to the casual golf fan. Lunn, a native of San Francisco, is a burly 215-pounder who looks more like a football linebacker than a golfer. He has the shoulders of a

Many Stars Shine In Studies, Too

NEW YORK (AP) — Janmes Thurber once wrote a story about a big, dumb tackle who, to remain eligible for football, had to answer one question correctly. The conversation went something like this:

Professor: "Name a means of transportation."

Tackle: "Duh-h-h-h-h."

Professor: "How did you come here?"

Tackle: "Muh father sent me."

Professor (exasperated): "Choo-choo-choo."

Football players, for the most part, have changed. A survey by The Associated Press on the academic prowess of last fall's All-Americans turned up some interesting items.

TOUGH SCHEDULE

Mike McCoy, the Notre Dame tackle, took the following courses during the football season: Intermediate macro theory, urban economics, credit and

banking, advanced statistical inference and social disorganization. Hardly snap courses.

—Dennis Onkotz, Penn State's linebacker, once got up at 7 a.m. the day of a game to take an exam in biophysics, his major subject.

—Four members of the All-America team also made the academic All-America. They are quarterback Mike Phipps of Purdue, tight end Jim Mandich of Michigan, Onkotz and defensive back Buddy McClinton of Auburn. Phipps also won a \$1,000 postgraduate scholarship from the National Collegiate Athletic Association.

Only three of the 19 seniors majored in physical education—tackle Bob McKay, Texas; center Rodney Brand, Arkansas; and defensive end Jimmy Gunn, Southern California.

The other 16 seniors had the following major subjects: Mandich, economics; wide receiver Walker Gillette, Richmond, math; offensive tackle John Ward, Oklahoma State, forestry; guard Bill Bridges, Houston, secondary education; Phipps, industrial economics; halfback Bob Anderson, Colorado, business; halfback Steve Owens, Oklahoma's Heisman Trophy winner, general business administration; fullback Jim Oles, Ohio State, marketing.

Defensive end Phil Olsen, Utah State, personnel and industrial relations; McCoy, economics; defensive tackle Mike Reid, Penn State, music; linebacker Steve Kiner, Tennessee, secondary education; Onkotz, biophysics; linebacker Don Parish, Stanford, history; defensive back Tom Curtis, Michigan, economics; McClinton, business administration.

PHIPPS BRILLIANT

Of the academic All-Americans, Phipps compiled a cumulative 5.10 average for all classwork at Purdue on a 6.0 scale.

When Onkotz isn't playing with his 2-year-old daughter, he's tackling the books for an assignment in mutations or genetics or taking care of the many rubber plants and vines scattered about his apartment.

Gillette, who would like to be a computer programmer if he doesn't make it in pro ball, took such courses as advanced calculus, introduction to computer programming and sociology, the city.

Reid is a piano and organ virtuoso who was invited to perform with the Utah Symphony Orchestra.

The only sophomore on the academic All-America is Carlos Alvarez, Florida's Cuban flanker and a pre-law honor student. He is a third-team AP selection. Ironically, the year's most publicized student was James Street, Texas quarterback and an honorable mention All-American.

Street dropped all his courses—accounting, statistics, real estate, insurance and business law—last Jan. 9, six days before semester exams.

"I was a little bit behind, and I was afraid I'd mess up on one of my exams and not get to play baseball," explained Street, a second team All-American pitcher the last two years.

However, Street re-enrolled in February and was ruled eligible for baseball after his teachers submitted statements saying he had passing grades when he withdrew.

And finally there's Buddy McClinton, whose mother wouldn't let him play high school or college football unless he maintained a B average.

Bengal Hopes Gravely Hurt By Suspension

LAKELAND, Fla. (AP) — Detroit's chances of winning the American League pennant flickered and all but died Feb. 19 when Denny McLain was suspended indefinitely by commissioner Bowie Kuhn for "1967 bookmaking activities and his associations at that time."

As manager Mayo Smith said at the time, "where do you pick up 24 games? That's the problem."

The job of replacing McLain, a 24-9 winner in 1969 and a 31-6 sensation for the 1968 world champions, is all but impossible. Nobody knows for sure how long McLain's suspension will last but Tiger fans might well prepare for the worst.

"I told the team that with the personnel we have we can win this thing without him (McLain)," said Smith with a brave attempt to whistle past the graveyard. "This thing just makes our job that much tougher."

JOLTING EFFECT

The effect of McLain's suspension on the rest of the ball club has to be devastating.

In spite of all their problems, the Tigers are going about the job of getting ready for the American League race and trying to close ranks. Even before the McLain case broke, Detroit faced an awesome task of trying to make up 19 games on Baltimore which won the Eastern Division title in a cakewalk last summer, ending the Tigers' one-year reign.

Smith has a pat answer when asked what happened to the Tigers last year. He sums it up in one word, "Baltimore." But, of course, it was not all Baltimore. In 1968 the Tigers were 103-59, romping by 12 and beating St. Louis in the World Series. Last year they were 90-72 and had fallen 13½ games back before the end of June.

HC Frosh Slam Tompkins Oil

In a Tuesday night Easter Seal benefit game played here, HCJC's freshmen enjoyed a big second half on the way to a 126-94 victory over Tompkins Oil. An estimated 500 persons watched the proceedings.

The HCJC team had six players in double figures, Billy King leading the way with 31 points. Shelly York tossed in 24 and Melvin Perez 21.

Delnor Poss led the Tompkins team with 33 points while Kirby Pugh had 22.

HCJC (126) — Decell Lewis 7-15; Terry Wooten 5-11; Shelly York 10-24; Billy King 14-31; Melvin Perez 9-21; Tommy Butler 8-17; S. Smith 3-17; Totals 54-176.

TOMPKINS (94) — Bob Davis 10-22; Ben Neel 5-14; Kirby Pugh 9-22; Delnor Poss 15-33; Tommy Tompkins 2-15; Ron Plumlee 2-24; Danny Parchman 14-12; Totals 37-204.

Half time score — HCJC 51 Tompkins 46.

Three Aides Quit Stamford Posts

STAMFORD — Three football coaching aides at Stamford high school have submitted their resignations.

They are Jerry English, varsity defensive coach; Arlon Alexander, offensive backfield coach; and Sam Walker, who has been helping with the offensive line.

IT ISN'T OFTEN

in the history of an auto dealer that new car sales are so good that all used cars in stock must be sold at a minimum profit. It isn't often . . . but that is the situation we now face. We have marked down all of these cars to make room on our lot for more new car trade-ins. If you're looking for a real buy, come in and look over these cars today.

'69 MUSTANG MACH I, 2-door hardtop, pretty maroon with matching interior, Cobra-jet engine, 4-speed transmission, radio and heater, come drive this one.

'67 BUICK, 4-door sedan, beautiful blue with custom matching interior, loaded with power steering, power brakes, air conditioner, V-8 engine, automatic transmission, the works.

'64 PONTIAC GTO, 2-door sedan, pretty green with a white vinyl top and black vinyl bucket seats, automatic transmission, air conditioner.

CIRCUS FUN — Mrs. Richard M. Nixon holds some cotton candy as she sits with clown Lou Jacobs during yesterday's performance of Ringling Bros. Barnum and Bailey Circus in Washington. The First Lady attended the show put on for underprivileged and handicapped children.

Extra \$30 Million To Wage Dope War

WASHINGTON (AP) — President Nixon, announcing a \$30 million increase in federal research and education efforts to fight narcotics traffic, says "drug addiction among school-age youth is increasing at an alarming rate."

In a statement issued Wednesday, Nixon said:

"Although appropriations for drug education and training have grown six-fold between fiscal 1969 and fiscal 1971, the situation calls for much greater effort."

He called for \$135.6 million in education and research funds for the fiscal year starting July 1, up from \$105.8 million in the current budget year.

One feature of the Nixon drug program will increase available research for marijuana research by the National Institute of Mental Health to \$3.3 million in fiscal 1971, compared to \$2.6 million currently.

Dr. Stanley F. Yolles, director of the institute, said researchers are convinced that marijuana "is not an innocuous drug" and can lead in some cases to toxic psychosis and disrupt patterns of thought, speech, and memory. He acknowledged, however,

he knew of no documented case of the drug causing a single death.

When asked if marijuana represented a more serious problem than alcohol, Yolles said:

"We don't have the answer as yet. Both drugs have negative effects."

Nixon announced plans to spend \$3.5 million through the Office of Education to train teachers and other school personnel in the fundamentals of drug abuse education. When spread among all the states, however, grants to each will be quite modest, ranging from \$40,000 to \$210,000 each.

The President also has ordered the creation of a National Clearing House for Drug Abuse and Education "giving the public one central office to contact." Initially staffed by only 16 employees, its first-year budget will be less than \$700,000.

One of the first undertakings by the clearing house, starting in May, will be distribution of a new book on drug abuse. It will be called, "A Federal Source Book: Answers to the Most Frequently Asked Questions About Drug Abuse."

Another effort will involve ex-

pansion of an advertising campaign aimed at preventing drug abuse. Animated cartoons aimed at pupils in the elementary schools, and designed for television use, are being prepared. Other commercials, advertisements and posters are being designed to reach high school and college students.

In his statement, Nixon said: "There is no higher priority in this administration than to see that children, and the public, learn the facts about drugs in the right way and for the right purpose through education."

More Coeds Enter Contest

Three more HCJC coeds have entered the Miss HCJC Pageant to be held April 18 in the college auditorium, bringing the total contestants to nine.

New entries are Mary Jane Fierro, daughter of Mr. and Mrs. Emiliano Fierro; Bridget O'Rourke, daughter of Mr. and Mrs. James O'Rourke, both of Big Spring; and Deborah Woods, daughter of Mrs. Daisy Riggs, Midland.

Previously announced contenders are Wanda Heckler, Sandy Busung, Lucia Taylor, Mitchell Harrell, Julia Adams and Mollie Condon.

The winner will be crowned by the reigning Miss HCJC, Pat Pierce. Deadline for entering the pageant is March 24. Application forms are available at the El Nido and Administration Offices on the campus. Any female student enrolled at HCJC for the spring semester 1970 and has never been married is eligible to participate.

Three Going To Dallas Meeting

Three HCJC instructors will represent District 18 at the state meeting April 18 in Dallas of the Texas Business Education Association.

At a regional meeting in Odessa Friday, Mrs. Judy Blick, HCJC night business instructor and a high school teacher during the day, was elected chairman of the local group. Mrs. Doris Hubregtse, HCJC business administration teacher, was chosen District 18 representative. Dr. Dean Box, chairman of the college business department, is historian in the TBEA.

Attend Academy

Two HCJC biology instructors and four students attended the Texas Academy of Science recently at Angelo State College in San Angelo. The purpose of the meeting is faculty and students reporting on research projects in science. Those attending from HCJC were Gladys Burnham and Paul Ausmus, instructors. Genard Davila, Charles Jones, Kenneth Bingham and Rodney Wall.

Justice Burger Leaves Hospital

WASHINGTON (AP) — Chief Justice Warren E. Burger has left the Bethesda Naval Hospital after five days of treatment for a virus ailment.

A court spokesman said after Burger went home Tuesday the justice probably would spend a day or two resting before going back to his court office.
