Miles sentenced to 60 years

Amanda Lynn Miles of Colorado City was sentenced to 60 years in prison Thursday by a San Angelo district judge after pleading guilty to aggravated robbery in a case involving the shooting death of a Snyder convenience store clerk on March 23, 1986.

Miles had been charged with capital murder in the fatal shooting of Jack Huddleston during a robbery of the store. Her co-defendant, Dorsie Lee Johnson Jr., also of Colorado City, was sentenced to death Nov. 14, 1986, in Snyder.

Capital murder is punishable by death or life imprisonment.

The sentence was pronounced by District Judge Randol L. Stout following acceptance of the guilty plea to the lesser offense of aggravated robbery.

The case was transferred from Snyder to San Angelo because of publicity during Johnson's trial in Scurry County.

Prior to the sentencing, Ernie Armstrong, Scurry County district attorney, said that in exchange for the guilty plea to the lesser charge of aggravated robbery and after consulting with the family of the victim, the state would recommend a 60-year sentence in the Texas Department of Corrections.

Aggravated robbery is a felony in the first degree punishable by not less than five years and not more than 99 years or life and a fine of not more than $10,000.

Miles will be credited for time served in jail from April 8, 1986, to April 23, 1987.

Stout also informed Miles that good time in prison cannot be earned on a conviction of aggravated robbery.

Miles was represented by court-appointed lawyers Peter Sheridan and Paul Parker.

Uniform planting date is May 18

The Mitchell County Pest Management Steering Committee has set May 18 as the uniform planting date for cotton growers in the county.

"We have had two mild winters in a row and this could easily be the year we have a severe boll weevil problem" explains Mike Maulding, county extension agent. Area entomologists are reporting exceptionally high numbers of boll weevils in overwintering sites.

Peak emergence of overwintered boll weevils is usually the last week of May through the first and second weeks of June. The weevils feed only on one-third grown cotton squares and without squares to feed on they will die about 18 days after emergence.

Cotton planted in Mid-May will produce one-third grown squares after the first week of July. By that time most of the boll weevils will have died, said Mauldin.

The Pest Management Steering Committee urges all producers to observe the uniform planting of May 18 in an effort to avoid a boll weevil outbreak," said Mauldin.

SPRING means gardening time for the Wallace Center senior citizens who have planted a garden this year. Helping in the planting were from left Canuto Arellano, a Green Thumb worker; Lily Farrar; and Harvey Jones.

Students, sponsors to be recognized

Approximately 80 students and 20 sponsors of Colorado High School clubs and organizations will be honored during a leadership recognition program Tuesday, April 28, at 7 p.m. in the school auditorium.

Groups take part in 'Great Texas Trash-Off'

Five groups in Mitchell County Saturday took part in the "Great Texas Trash-Off" co-ordinated by Texas State Department of Highways and Public Transportation. These groups are participating in the statewide Adopt-A-Highway program in this area and involve almost 100 persons.

The groups include the Kiwanis Club, Wallace Center Senior Citizens, J.O.Y. Sunday School Class of Westbrook's First Baptist Church, Tumbleweed Lioness Club and Colorado City Girl Scouts.

Saturday's event was the most extensive one-day cleanup in the history of the state (and perhaps, the world), according to highway department spokesmen.

The groups here were among more than 937 Adopt-A-Highway Groups in Texas who were committed to picking up trash during the "Trash Off". More than 18,400 individuals were involved over the state.

Purpose of the Adopt-A-Highway program is to create public involvement in our efforts to keep our highways free of litter. The program is considered one of the most remarkable success stories in the United States. Since the highway department announced that state-wide program a year ago, more than 1,000 groups have signed up.

Primary reason for the big effort by the highway department was to raise Texans' awareness of the litter problem and to impress on everyone, "Don't mess with Texas".

Signing of highway areas adopted by the local groups have not yet been completed. Gaylord Price, Mitchell County maintenance supervisor, said because of the demand of these signs, department sign shops are back logged. Signs will be in place as soon as they are available.

Highways in Mitchell County adopted by local groups include State 208 from I-20 south service road south to County Road 103, Wallace Center Senior Citizens; FM 2836 from intersection of State 163 west two miles (including state park entrance), Tumbleweed Lioness Club; US 80 Business Route (Loop 377) from intersection of Country Club Road to Lone Wolf Creek, Colo-

It was one of those conversations people get into when there's nothing better to talk about.

Call it regionalism. You take one part of the country, I'll take the other. Then we'll piece together a few stereotypes from each region and argue the merits - and demerits - of each.

He took California. Having lived there a few years, he figured his roots were about as deep as anyone else's out there. Probably were. California roots tend to be a half inch deep - the same as their brains.

I took up the cause of Texas, but you've probably already figured that out by now.

"Texans at least have roots," I told him. "Some are so deep you couldn't pull them up with a back hoe."

"Texans," he said, "have thick skulls." He claims we'll argue even when we know we're wrong. Californians, he admitted, bordered on thin. They'll argue until the next trend comes along.

Texans, he pointed out, upset the ecological balance by having snake hunts. Californians, I reminded him, gave us drugs.

And furthermore:

"Texas is a Lincoln Continental."

"California is a Volkswagen bus."

He said he drove a Honda. I said I drove a Toyota. All Lincoln Continentals are parked on the LBJ ranch now we agreed.

"California is seaweed," I continued.

"Texas is barbecued beef."

"Go ahead," I challenged him, "Put the seaweed up to your nose, then put a slab of rib eye with hot barbecue sauce to the same nose. See which one smells best."

"California is wine and Texas is beer. That proves Californians have manners. Texans are burps."

"Californians have no reason to burp," I reminded him. "They're all vegetables."

"Even the president?"

"Especially the president."

"Texans," he said "are red and white checked oil cloth in the kitchen."

"Yeah, well Californians are sandals and skateboards."

"All Texans think about is football, and they can't even beat UCLA."

"Of course not," I said. "Look at the Bruins' roster sometime. They're all from Midland, Odessa and Abilene."

"Texans," he said, "are so illiterate they can't stand to set a kid out of football for six weeks. They have to shorten the suspension to three weeks. In any real state, you'd be out for nine weeks, no questions asked."

"Most California students who transfer to Texas schools have to be put back two years," I said. "The teachers out there all come to class stoned."

"Texans," he said, "are violent and insensitive."

"Yeah, and I seem to recall a sensitivity session Charles Manson held out in Beverly Hills one night."

"Texans all have gun racks on their pickup trucks so they can get at them when they see a hitchhiker with long hair."

"Californians would have the same thing," I told him, "only a gun rack won't fit on a Harley."

"You're making excuses. Californians are peaceful. They seek to become one with nature."

"How, by breathing smog?"

"Texans are all fundamentalists. They think God created man just so he could send them all to hell."

"Californians don't have a fundamental in their bodies. They have Pied Piper preachers who take them to Guyana for lemonade."

"Texans sound like hillbillies."

"Californians sound like Miss Beasley dolls."

We ran out of time but agreed to do the Soviet Union and the United States the next time around.

He gets to be Russia.

Future job program heard by club members

Dona Reed and Jewell Tiller hosted the Self Culture Club April 17 in the home of Mrs. Reed.

The collect and the pledge to the flag was led by Mrs. Reed.

Ida Keith presented a program on "Jobs of the Future." She said, "Anyone who stops his or her education after high school is committing occupational suicide."

Where technology has taken routine jobs away from millions of assembly-line workers, it will create millions of more challenging jobs in the future.

"New generations will have the opportunity to do things that our ancestors never dreamed," she said.

The Federal Bureau of Labor statistics says that high-technology industries will generate 1.7 million new jobs by 1995-slightly more than was lost from manufacturing jobs from 1979 to 1984.

The fastest-growing occupations of the future will be in computing and engineering.

The future is bright for the fledgling nurses who are willing to learn. Nurses now supervise the training of laser nurses.

Post-high school education or training is essential to landing the first job.

Those present were Eddie Barclay, Fannie Beeman, Lil Brown, Elizabeth Elliott, Ida Keith, Pearl Watson, Joy Culwell, the hostesses Dona Reed and Jewell Tiller.

WHY THE CROSS?

Reta Richards - Pastor First United Methodist Chruch in Loraine/Westbrook

When God started out to redeem the world, he was faced with a very difficult problem: How could he love the sinner and punish him at the same time? The cross is the answer to our contaminated souls. It was on the cross that God expressed his hatred for sin and at the same time revealed his love for us. The cross was the "Go-between" - the extreme test in which God mixes law and love; here is where God gets everything in order for justice and mercy. He is a God of justice, and if he allows sin to go unpunished, he becomes a lawless God, and a lawless God is on God at all. If at the same time, he punished sin in the life of a sinner, he cannot reveal his love. So God ordered the cross as a remedy for the sin-sick nature of us all. This is a wonderful, divine provision, and it was a very expensive venture of God. We are not "redeemed with corruptible things like silver and gold, but the precious blood of Christ." (I Peter 1:18)

In that sad few days before Christ's crucifixion, many things happened to him. And then they hung him between heaven and earth with a thief on each side of him. Darkness covered the earth for three hours, while the Son of God was left on the cross alone. No one knows how much Christ suffered. The people around the cross didn't see it. The angels didn't know it because they wept in some corner of God's vast universe. God himself turned his head and couldn't look. The Jesus called out, **"IT IS FINISHED,"** and dropped his head on his breast and died. God had saved the world in Christ! Redemption was complete forever.

In the severe trials of the Cross, God Combined love and law, he had complete justice and mercy. He did it all for us. Read **Hebrews 9:11-28** and **I Peter 1:1-25.**

Letter to Editor

To the editor:
An Open Letter

Marilyn Golightly, the area representative for Texas War on Drugs, will be in Colorado City to speak to the Parent-Teacher-Student Organization on Monday night, April 27 at 7 p.m. in the High School Auditorium.

She is going to speak about recognizing and dealing with drug abuse in the home.

Drug use in the schools has been pretty well dealt with by the dogs and severe detention policies. Now it is up to the rest of us to keep it out of the home and out of the lives of our children completely.

Mrs. Golightly will tell us how to recognize signs of drug use and how to deal with it.

Of course the thought of our children using drugs is horrifying and almost impossible to accept, but nowhere in the world has it ever been guaranteed that they won't. We need to face this fact and become educated and informed about dealing with the situation, should it occur.

Marilyn Golightly has this information. Don't miss it. Monday night, April 27, 7 p.m. High School Auditorium.

Program recognizes long-time farmers

Pointing to the importance of recognizing and remembering the pioneer farm and ranch families in Texas, Mitchell County Historical Chairman Tom Goss has invited long-time farming families to participate in the Texas Department of Agriculture's 1987 Family Land Heritage Program.

Registration for the program, which recognizes families who have had land in agricultural production for 100 years or more, is now open and will extend through July 15, Sen.-Rep.-County Judge-Historical Chairperson Goss said.

Since the program was established in 1974 to honor pioneering families, 2,090 such families have been recognized.

The basic requirements of the program include continuous agricultural production on the farm or ranch for 100 years, land ownership within the family, complete operation or supervision of the farm-ranch production by family members who are Texas residents, and a size of at least 10 acres with a minimum income of $50 from farm or ranch products. If the farm or ranch is smaller than 10 acres, sales must total $250 per year.

"These families are living, productive symbols of our family farm unit. We celebrate their past achievements, and acknowledge the importance that such family farms hold for us in the future," he said.

This year's certified registrants will be honored at a state ceremony to be held in Austin in November, 1987. Honorees will receive a certificate with an official sign-marker to be placed on the recipients gate or home designating their property as a "Century Farm" or "Century Ranch". Additionally, a Family Land Heritage Registry will later be published and distributed to all honorees.

Those who wish to apply may obtain an application from their county judge, county historical commission chairperson, the nearest TDA district office or by writing to: Family Land Heritage Program, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

ARE YOU SICK AND TIRED OF FEELING SICK AND TIRED?

If you are tired of dreary days and restless nights . . . of having no pep . . . of feeling too droopy to enjoy a zestful life . . . maybe it's time you had a chiropractic checkup.

Structural changes that pinch or impinge on nerves can rob your body of its natural energy and you of your zest for living . . . your capacity for enjoying a full and active life.

If you're not too tired to pick up the phone, maybe we can help you change all that. Chiropractic helps thousands of people every year to regain that good-all-over feeling. Consultation and a preliminary screening exam can help determine whether chiropractic might help you. If treatment, x-rays or other lab tests are indicated, most health insurance plans cover chiropractic. CALL US TODAY.

TENNIS PLAYERS to represent Colorado High School at the Region I-A tournament Wednesday and Thursday are left to right, Randy White, Raymond Craighead, Larry Raschke, Mark Molina and Wylie Dakan.

Boxers exhibit

Mitchell County Boys Club boxers found little competition at a Big Spring tournament last weekend.

"We did a lot of boxing against each other," said coach Vince Gaona Sr. "There weren't enough kids so we put on a show for the fans. There weren't enough boys in our weight division. We got real good compliments from the fans for the exhibitions."

Jaime Rivera was the lone fighter to box against a non-teammate. He lost his bout while Shane Jones, Leonard Gordon and Greg Gaona won their bouts over Eddy Martinez, Adrian Martinez and Lewis Martinez. Bill Sadler and Greg Gaona also were involved in an exhibition bout.

"We've been travelling a lot," said Gaona. "We're just running out of money." The team is planning a car wash for May 2 to help with expenses for upcoming tournaments that include the annual Water Wonderland tourney during Midland's Cinco de Mayo celebration Sunday (today).

That tourney begins at 2 p.m. The team will also field a junior olympic team for a Seminole tourney May 8-9.

Tennis at regional

Five of the six Colorado High School varsity boys tennis players will be at the Region I-A tournament being held at Odessa Wednesday and Thursday.

Seniors Raymond Craighead and Randy White will go to the regional tourney as the 5AAA champions after sweeping through the district doubles division two weeks ago.

Seniors Wylie Dakan and Larry Raschke will represent CHS as the 5AAA runners-up after losing a close 6-4, 6-7, 6-4 match to Craighead-White in the district finals.

Singles player Mark Molina is the only one of the five netters with a chance to return to the regional meet next year. Molina, only a sophomore, took second at district with a 6-1, 7-6 (7-2) finals loss to Hooper of Sonora.

The Wolves were to have been at a Junction regional qualifiers tournament over the weekend and play Forsan Monday.

The Region I-A singles competition starts with first round matches scheduled for 10 a.m. Wednesday at the Odessa College tennis center. Doubles play wil also be held at Odessa College with first round matches set for 1 p.m. Wednesday.

Second round singles matches will start at 3 p.m. with second round doubles play set for 5 p.m.

Thursday will conclude the Region I-A singles tourney with 9 a.m. third round matches and 1 p.m. finals play. Third round doubles play will be at 10 a.m. Thursday and finals at 2 p.m.
