Thanks Extended to Blood Donors, Workers

On behalf of Seth Steele, chairman of the Aransas County Chapter of the American Red Cross, I desire to express our appreciation and congratulations to the blood donors who so willingly gave of their life blood in order that there will be no shortage of this vital life-giving fluid on our battle fronts.

In recognition of the wonderful support of the workers who participated in this blood gathering campaign, Mr. Steele desires me to express our joint appreciation for having put the project over in such an able manner. It is not practical to mention the names of those who assisted in view of the fact that there were about as many working as there were donors, so I just say thanks to all alike.

R. R. RICE, Gen. Chm. Aransas County Blood-Unit American Red Cross.

Seth Steele, chairman of the Aransas County Chapter of the American Red Cross, appointed R. R. Rice as general chairman of the Aransas County Blood Unit, and he very ably managed the affair to carry it well of the county quota.

Large Turnout of Voters Expected As Hard-fought Campaign Ends

When voters go to the polls Saturday, July 26 they will bring to a close one of the hardest fought primary political campaigns in many years.

Candidates seeking state and national offices have visited in Aransas County and many have made political speeches, and contacted local voters, creating quite a bit more interest in these offices locally.

Aransas County has always polled a large vote for local offices and this year although some high county officials have no opponents, there is keen interest shown in the various offices where there are two or more in the race.

Candidates for county commissioners, justices of the peace, and constables have been putting on one of the hardest fought campaigns in recent years.

A race which is drawing considerable attention is the one for the representative from the newly created 35th district. There are five in this race, one from Aransas County, one from Refugio County and three from San Patricio County.

The polls will open at 7 o'clock Saturday morning and there are indications that Aransas County will poll its largest vote in history.

Ballots are somewhat different this year as the new election law specifies that election squares (□) be placed opposite each name on the ballot. You may vote for the candidates of your choice by placing an (X) in the square beside the name, or you may vote for the candidate of your choice in each race by scratching or marking out all other names in that race.

Another change in the ballots this year is that only those candidates in each precinct will be shown on ballots for that particular precinct. As an example: In Precinct 1—Only those candidates for office in commissioner, justice, etc., will appear with other state and county offices, while on ballots in Precinct 2 will appear on the ballot—and so on in other precincts.

The following is a list of the candidates seeking election to the various offices:

New GMC Model 470—powered by the sensational new "302" gasoline valve-in-head 145 h.p. engine. Also available as cab-over-engine.

GASOLINE 1/2 TO 30 TONS
DIESEL 2 1/2 TO 35 TONS

TOPS IN PAY LOAD!

If you use gasoline-powered tractors in the 45,000 GCW class, here's big news. This new GMC Series 470 will haul more pay load than any other vehicle of its rating with comparable standard equipment—up to more than a half-ton than some!

That's because GMC has found new ways to take dead weight out of truck design by advanced engineering.

One example is GMC's sensational new "302" valve-in-head engine that delivers 145 h.p. at 3200 r.p.m. It weighs less than other engines of equal power by as much as 500 lbs. Yet it's the highest-compression gasoline truck engine ever built—gives you extra mileage from regular fuel!

Come in. Compare them—in power, in pay load, in rugged long-life construction—against all the rest!

Then check the price and you'll agree: nowhere else will so little buy so much in a 3- to 4 1/2-ton truck.

COOLING Borden's BUTTERMILK

A cold glass of Borden's Buttermilk is just the thing on a sizzling day. You'll love its fresh churn flavor. Every sip is so chilly-good it seems to pull the temperature down. And, its alkalizing effect helps undo the wearying damage of fatigue acids. Try it. There's nothing like good old Borden's churn flavored buttermilk on a hot day.

Texas Will Furnish 1,188 Men in Sept. Draft Call

Austin, Tex. — State Selective Service headquarters was called on last week to furnish 1,188 men for the armed forces in September, the state's share of a national call of 30,000.

Brigadier General Paul L. Wakefield, state Selective Service director, said quotas for local boards will be computed and put in the mail soon.

The September quota will be filled with men 20 years old or older. State Selective Service headquarters said that at present it appears Texas can furnish around 400 men in September who will be 21 or older. The remainder of the quota will have to come from the 20-year-old group.

The local boards will not be able to send any man for induction in September below the age of 20 with the exception of delinquents and volunteers.

The September call compares with an August call of 1,129, previously announced. The September 1951 call was for only 619 men.

State draft headquarters also announced a call for six physicians for military service in August. A call for three dentists in July has been announced previously.

There will be no regular physical examination of registrants in August, according to present plans at State Selective Service headquarters. Examination of several thousand men may take place in September. No call for re-examination of 4-F's in August or September has been received from national draft headquarters.

Through June, more than 97,000 Texans had been given combined mental and physical examinations since beginning of the Korean conflict. During the same period, more than 40,000 Texans were called for service.

G.I. JOE "SHOJO" — To the amazement of Japanese spectators, Lt. Donald C. Mills, of Shreveport, La., performs the difficult and graceful Noh dance, "Shojo," in Fukuoka, Japan. Experts predict that the Itazuke air base officer will become an excellent Noh dancer in time. He was ready for his first performance after only a few months' instruction.

Everett Appelt, son of Mr. and Mrs. Fred Appelt, came home from the Aransas Pass Hospital last Friday. Everett underwent major surgery and was confined to the hospital for a week. He is recovering nicely.

Miss Evelyn Townsend, of Corpus Christi, was in Rockport the first of this week, called here by the death of her uncle, Charles Townsend.

Mrs. L. G. White is visiting her daughter, Mrs. Fred White and family in Sacramento, Calif. Mr. White will join her this week and help entertain the three grandchildren on the coast. They will return to Rockport in December.

The Truth About
Old Age Assistance
Governor Allan Shivers wrote and helped pass the first Old-Age Assistance Law in Texas.
He stands for equitable distribution of funds for the needy.
Two years ago he was one of the leaders who tried to get more money for the aged, a cause that failed because the voters disapproved a constitutional amendment.
Governor Shivers has, in the past and will in the future, advocate making available to our deserving aged citizens not merely enough for a meager existence, but sufficient funds to carry them through the evening years of life as proud, dignified citizens.
An increase of \$5 in each pension check is due next October.
The Truth About
County Road Funds
Farm-to-market road building has been the greatest in history during the Shivers administration.
During Governor Shivers' administration, Aransas County has received rural road benefits from state highway user taxes as follows:
License fees \$87,959.86, road bond surplus \$16,029.73, bonds paid \$29,720.15, construction of farm-to-market roads \$195,000.00, authorized but not under construction \$126,500.00.
In this county, 13 miles of farm-to-market roads have been built, and an additional 17 miles have been authorized for construction, for a total of 30 miles.
Governor Shivers' administration has consistently supported the Aransas County road building program and will continue to do so in the future.

build a greater Texas*

Gonzales Warm Springs Foundation Admits Many Patients

Gonzales, Tex. — Reflecting the upsurge in polio incidence in Texas already this year, admissions at Gonzales Warm Springs Foundation for Crippled Children have continued at a record-setting level for the last several weeks. Ten patients entered the rehabilitation hospital on July 7 and nine a week later, the largest patient groups admitted in several years.

All but three of the 19 are post-acute polio victims. The rest are other types of neuromuscular cases.

The Gonzales hospital of physical medicine and rehabilitation is currently operating at the maximum capacity its staff can efficiently handle, with admissions each week dependent on the discharges during the week previous. However, hospital officials point out that admissions might be increased if additional registered nurses and physical therapists could be recruited. The extreme shortage of professional personnel of this type, they indicated, makes recruitment most difficult, a problem which faces nearly every hospital in the country.

As soon as additional nurses and therapists can be located and employed, the Gonzales treatment center can increase its patient load substantially. Since this hospital draws patients from all over Texas, it is anticipated that the increase of applications for admission may result in a waiting period before patients can be admitted.

Four of the recently admitted patients are from the San Antonio area, but included in the group were patients from Del Rio, San Angelo, Big Spring, Shiner, Austin, Texas City, Sweetwater, Midland, Corpus Christi, San Marcos, Giddings, Laredo and Seguin, indicating the state-wide aspect of the treatment center's activity.

Miss Ruth Lipscomb, who has been teaching at Friendswood, Texas, the past winter, has come home to spend the rest of the summer in Rockport. She is staying with Mrs. Mamie Hooper this summer.

Commission Sets 1952 Hunting Dates

Austin, Tex. — The Texas Game & Fish Commission recently voted to renew its efforts to persuade the United States Fish & Wildlife Service to zone Texas for duck and goose hunting.

The commission recommended that, should the zoning plea fail, the waterfowl season in Texas open October 31. It recommended that, if the state is zoned for waterfowl, the season open in the north zone Oct. 31 and in the south zone on Nov. 21.

The commission, in considering hunters' preference for the seasons, reported "a surprising amount of sentiment" in South Texas for an early November waterfowl opening.

The executive secretary of the commission pointed out that while the duck bag limits may not be increased from the five a day and ten in possession of last year, that the improved waterfowl conditions

might warrant a longer season. Texas had a non-zoned 50-day waterfowl season last year, beginning Nov. 9 and ending Dec. 28.

The executive secretary of the commission will personally take the Texas zoning appeal before the Fish & Wildlife Service at a meeting in Washington, Aug. 5.

The commission recommended that the federal authorities who also set dove hunting regulations, designate the opening in the north zone of Texas for Sept. 1 as last year and designate the opening in the south zone for Oct. 1, with shooting restricted to afternoons only. The south zone season opened Nov. 15 in 1951.

The commission recommended a white-winged dove season for the Rio Grande Valley for Sept. 12, 14 and 16. Regular shooting hours of 4 p.m. to sunset would prevail with a 10-bird limit.

The commission decided not to open the antelope season in the Big Bend country because two dry years have reduced the herds.

Mr. and Mrs. E. M. Courts and granddaughter, Murlene Jordan of Jasper, Texas, and Mr. and Mrs. Jack Nugent of Houston, are stopping at the Idylwild Motel this week and visiting Mrs. Roy Court, Sr., and other relatives in Rockport.

Shivers Agin Auto Inspection Law

"SHALL CHANGE IT OR REPEAL IT" He Says

By Ben Kaplan, Press Staff Writer

Governor Allan Shivers today said that the new auto inspection law should either be modified or repealed.

The Governor told the Press before he left Austin for Houston to make a campaign appearance that he had some ideas for changing the controversial law.

His idea is to take the red tape and confusion out of the law.

"The law was intended to bring about real safety and not inconvenience," said Governor Shivers.

"We need to stop killings on the highways. Texas has become the number one State in the United States for murder on the highways.

"The Legislature passed this inspection law by a vote of 117 to 12 in the House of Representatives and 19 to 9 in the State Senate, with the thought that it would save more than 200 Texas lives each year. If the law fails to do this and instead causes confusion and inconvenience, it ought to be changed or repealed."

The Governor said that he would recommend to the next session of the Legislature that it re-study and examine this law in view of the experience and either modify or repeal it.

(Several months ago, when it became apparent that the new law was causing inconvenience and confusion, Governor Shivers ordered it suspended until it can be reviewed by the Legislature.)

From where I sit... by Joe Marsh

Me—Advising a Banker!

The Missus and I were invited to dinner over at Balesville the other night. I sat next to a banker from the state capital.

"Mighty nice country you've got down there," he says. "Don't be surprised if I come to live there myself. In a few years I plan to get away from everybody, buy a farm and just take it easy."

"Well," I told him, "we'd like to have you. But when someone plans to buy a farm and 'take it easy' he often winds up working harder than ever. It takes work to run a farm right no matter how many

hands you can afford to hire.

"And from where I sit," I continued, "you won't get away from people either. Neighbors are plenty important in a farming community—whether it's helping one another out or just friendly visiting over a sociable glass of beer." "Hard work and neighbors dropping in all the time?" he asks, looking at me over his glasses. Then he smiles and says, "Sounds wonderful. You've just sold me on a farm."
