LP gas use rule addresses 'safety'

More stringent safety requirements for LP (propane) gas equipment inside the city limits were approved Monday — a change prompted in part by steps toward allowing a more general use of the fuel source in Snyder.

An ordinance amendment passed on first reading now requires both a permit and an inspection for all LP tanks and related equipment.

In addition, it was noted that the only city requirement now addressing the use of LP gas prohibits the fuel source in areas zoned R-3 — the classification which allows mobile homes as residences.

During discussion, council members noted they are considering amending the zoning ordinance to allow LP gas use in R-3 zoning areas.

The new ordinance amendment was prompted by requests from local propane dealers. A committee was appointed by Mayor Rod Waller to study the request. It was comprised of two local dealers — Wayne Bethel and Bill McCormick — in addition to Fire Chief Terry McDowell and Building Inspector Jim Haynes.

McCormick and McDowell commented Monday they were both pleased with the ordinance amendment.

McCormick noted also that the proposal with give "consumers a second choice." In addition, Snyder commercial dealers who identify unsafe LP equipment will now have a local source to report this to. The city will then have in-place policy to require equipment problems be corrected.

The council also took action Monday related to a second fuel source — natural gas distributed through Lone Star Gas Co. here.

A rate increase request filed by Lone Star was tabled to allow fur-

CAI LAB DEMONSTRATIONS — The CAI (computer assisted instruction) lab at Stanfield Elementary was the center of attention for many parents and students during annual fall semester open house activities Monday evening. The students demonstrated the system — designed to help them with basic reading and math instruction — for the visiting parents. Open house activities were underway at each of Snyder's six elementaries. (SDN Staff Photo)

Hospital lawsuit underway

Testimony began Tuesday morning in the medical malpractice suit brought against Cogdell Memorial Hospital by Ralph Cothran of Snyder

A jury was seated in 132nd District Court around noon Monday, but proceedings were recessed due to the illness of an attorney for the defense.

Shortly after 9 a.m. Tuesday, attorney's for the plaintiff placed Cothran's wife Carol Ann on the stand. She recounted the events which preceded her husband's surgery for removal of his colon in May of 1981.

The Cothran's originally filed suit against Dr. J.W. O'Banion, Jr. of Snyder and the local hospital in November of 1982. The suit alleges that "inadequate care" on the part of both O'Banion and the hospital led to an infection which they say continues to disable the plaintiff.

The Cothran's are seeking an unspecified amount of damage from the hospital.

A settlement between O'Banion and the Cothran's was reached in 1983 and he was dismissed as a defendant in the suit.

Dr. Wilton N. Jones — formerly of Snyder who now practices in Big Spring — was added to Cothran's suit as a defendant after the initial filing.

The trial began Monday morning with attorney's choosing a six-woman, six-man jury.

The recess Monday was granted by Judge Wayland G. Holt due to the illness of Frank Murchison of Dallas, who is representing Cogdell Memorial Hospital.

Attorney Dan Cotton of Snyder is representing Dr. Jones in the proceedings and the defense team is being assisted by District Attorney Pete Greene.

Attorneys for the Cothran's are Jan Weir of Dallas and Tom Sawyer of Lubbock.

WTC hires firm for energy study

By Shirley A. Gorman
SDN News Editor

Western Texas College trustees Monday night employed the firm of Fanning, Fanning and Agnew in Lubbock to assit with the implementation of the energy study recently completed by the college.

Jack Roberts, a vice-president with the company which specializes in mechanical, electrical and structural engineering projects, met with trustees to outline the firm's services and usual costs.

The basic fee is six percent of the cost of the project which has to be bid out. Type of work includes studying the existing energy system, the energy study conducted by David Parr, writing bid specifications and assisting in securing bids. Once the contact has been signed with the lowest bidder and construction begins, Roberts said any additional trips to the site will be made at the request of the college and for an additional fee of $500 per trip.

Trustees also discussed whether to have Fanning, Fanning and Agnew conduct a load evaluation to determine if the proposed 340-ton chiller unit as applied for in the government grant would be adequate to do the job.

A load study would cost approximately $8,000 to $10,000 for an estimated three weeks work and would involve a building by building evaluation of the college campus. For the most part the firm would study blueprints of the various buildings, supplemented by on-site work.

It was noted the value of the load study is three-fold:

—To verify the chiller size.

—To balance loads on pumps.

—To improve comfort among rooms.

From beginning to end it is estimated that the entire project would take approximately one year.

No decision was made regarding the load study, pending further study by the Lubbock firm. Trustees Edwin Parks Jr. and Bill Wilson Jr. expressed hope that such a study might be enough to determine what size chiller is needed without the additional load study.

The SDN Column

By Roy McQueen

The feller on Deep Creek says, "Middle-age is when you no longer want to stand up and be counted, but rather sit quietly and hope to be overlooked."

David Hines may have created a first at the Snyder Lions Club last week. Not only did Hines make an announcement, he made a serious announcement--and almost got away with it.

For the past two years, Hines has headed the Toys for Tots effort in Snyder. Hines and his construction company employees have been the backbone of the toys operation for Snyder's needy children.

It's good, but sometimes thankless work. In December, one can spend full-time making sure every youth in Snyder has a Merry Christmas.

Hines announced Tuesday that he will not be able to head the project this year, and he is urging someone who might be interested in the project to contact him. Hines says a chairman is needed right away since Christmas really is not that far away.

We said Hines almost got away with making a serious announcement. Hines said, "I've had Toys for Tots the past two years."

Some wise guy in the audience shouted, "Why don't you give 'em back?"

If you can help with the toy project--give Hines a call.

Out at Monday's open house for City Realty, Kathy McFaul pointed out that Jay Massingill has a small television on his desk.

Massingill is the retired county auditor who is now selling real estate on a part-time basis for the new firm. Kathy said she asked Jay if he wanted to work mornings or afternoons.

Jay replied it really didn't matter--either would interrupt his noon-time soap opera. The TV allows Jay to work either shift and still keep up with all the drama.

Someone Monday said to Jay, "Thought you were retired?"

"Naw, I'm just tired."

Tax rate, absences before school board

The first reading and vote regarding a new Snyder school tax rate is scheduled at 7:15 p.m. Tuesday.

It will precede the regular September meeting of the Snyder school board which begins at 7:30 p.m.

At the regular meeting, new school policy regarding absences is to be considered.

School board members conducted a public hearing related to the tax rate Aug. 30. Although no final action was taken, board members seemed to have settled on either a 43 or a 43½ cent tax rate for the 1984-85 school year.

The difference would entail from $110,000 to $112,000 in tax dollars, assuming either 98 or 99 percent of the taxes billed were ultimately collected.

The current rate is 35½ cents per $100 valuation.

Before the new rate is formally adopted, it must receive a majority vote after two public readings. Tuesday marks the first of these two readings.

Following the rate hearing, trustees will consider the policy regarding absences.

The proposed policy addresses excused, unexcused and school-related absences. The following policy guidelines are proposed.

An excused absence is one due to "personal illness, unavoidable doctor or dentist appointments; sickness or death in the family; a family emergency; weather or road conditions making travel dangerous; or unusual causes or circumstances acceptable to the

See ABSENCE, page 11

Motel owners ask 'reconsideration' on increases

A request for "reconsideration" from local motel owners Monday held up final approval of new proposed rates for city services.

Specifically, the group representing the Motel Owner's Association asked that the council reconsider proposed sewer rate increases which are calculated based upon the number of bathrooms in a structure.

For homes, the projected increase is slight, ranging from $1.80 to $4.50 monthly for a one-bath to three-bath home.

Art Feinsod, spokesman for the group Monday and local owner of the Purple Sage Motel, noted that his 47-room motel will generate a monthly increase in excess of $90.

In line with the request for reconsideraton, the council has set a 5 p.m. meeting next Monday to discuss the rate structure related to motels.

During Monday's discussion, it was noted that structures with in excess of five bathrooms already receive some reduced rates.

The basic fee for one-bath is $4.20 per month. The monthly fee for up to five bathrooms is $16.80. The sixth bathroom costs $4.20 also, while 7-10 cost $3.15 each. Any above 10 cost $2.40 each.

Noting that the motel industry is "down across the country," the local group asked the council to consider their economic situation.

As a possible alternate, Feinsod suggested maintaining the old rate structure for dwellings which have in excess of five bathrooms.

It was noted that the increased sewer rate is expected to generate an additional $190,000 yearly. The portion of this borne by local motel owners was estimated at $5,000.

All changes in city rates have been characterized as an effort to move the local operations more toward a break-even status — called "enterprise" by city officials.

By definition, the city is a non-profit entity, but they note the rates were changed to eliminate a portion of the deficit now experienced for sewer, water and

Ask Us

Q — Have any cotton bales been ginned around the area yet?

A — No word has been received from any Scurry County gins. The only report produced by scanning area papers indicates what was called the first bale ginned on the South Plains occurred at O'Donnell. It was ginned last Friday.

In Brief

Winds strong

CHARLESTON, S.C. (AP) — Hurricane Diana churned the ocean with 120 mph winds today, stoking up power and threatening to bounce inland as worried island dwellers moved to high ground and coastal residents secured boats, taped windows and stocked up on emergency supplies.

Hal Gerrish of the National Hurricane Center in Miami said Monday night that Diana was getting stronger and if it takes "a slight northward trend, it could make landfall in a very short time."

"The storm now presents the greatest threat to the north coastal areas of South Carolina," the National Weather Service said in recommending voluntary evacuations of beachfront areas from Georgetown to North Myrtle Beach.

Slate meeting

WASHINGTON (AP) — President Reagan will meet with Soviet Foreign Minister Andrei Gromyko on Sept. 28 at the White House, the first meeting between Reagan and a senior Kremlin leader, administration officials say.

The meeting is certain to be seen as reflecting a slight thaw in U.S.-Soviet relations, one U.S. official said.

But it also may be viewed as an effort by Reagan to deflect criticism by Democratic presidential hopeful Walter F. Mondale that Reagan is the first president in years not to meet with Soviet leaders.

A senior administration official cautioned Monday night against expecting any breakthroughs toward mending the many differences between Moscow and Washington or in setting the stage for a resumption of arms control negotiations.

Local

Grid guessers

The SDN's first football contest of the season featured the winner missing only three of the 15 games, and the second place finisher close behind with only four misses.

Mrs. Bill Boles of 202 33rd won the first place money of $12.50 and James Cain of 2900 34th St. will receive $5. Their checks will go out Tuesday in the mail.

The published Green Bay-L.A. Rams game was not counted either way as it should have read Green Bay-L.A. Raiders.

This week's contest is included on the back page of this issue.

Weather

Snyder Temperatures: High Monday, 97 degrees; low, 73 degrees; reading at 7 a.m. Tuesday, 73 degrees; no precipitation; total precipitation for 1984 to date, 7.43 inches.

Snyder Area Forecast: Tonight: fair with low in lower 70s. Wind southerly 10 to 15 miles an hour. Wednesday: sunny...hot and high mid 90s. Wind southerly 15 to 20 miles an hour.

Kindergarten very important

NEW YORK (AP) — For most adults, the word "kindergarten" summons up vague remembrances of graham crackers, finger painting, and having to hang up your coat for the first time.

Few really recall what they learned in that first year of public school — or understand now what it is supposed to do for their own child.

But they should — especially the parents of the approximately 3.2 million 5-year-olds who will be going to school this fall for the first time.

Kindergarten is in many ways a make-or-break year for both parent and child. The federal government recognized that fact in the mid-60s when it began "Head Start," a Great Society program which still provides health, educational and social services to disadvantaged preschool children.

New York City, for example, began offering all-day kindergarten for the first time last year, and will enroll 60,000 youngsters in September.

Playing with clay, children learn about volume and texture. Building with blocks teaches shapes and basic design. Kindergartners learn to recognize and read dozens of common symbols and words — a stop-sign, their own names, and the first names of their classmates, for instance. They learn to eat sensibly. They learn to solve problems with other children. They learn to listen.

Kindergarten has also received increased attention lately as more communities have adopted all-day kindergartens. The longer day is catching on partly because of the growing legion of working mothers, and because educators for years have applauded the idea despite the higher costs.

Figures show that about a third of the nation's kindergarten youngsters were in all-day programs in 1982 — the latest statistics available — compared with 14 percent a decade earlier.

A private survey compiled last May by Jack W. Humphrey, director of Reading Services and Special Projects of the Evansville-Vanderburgh (Ind.) School District, found that all but one school district in Alabama had full-day kindergarten, and all-day kindergarten far outnumbered half-day classes in Arkansas, Louisiana and Georgia.

What should parents know about the kindergarten their child is about to attend? Interviews with kindergarten teachers and education experts yielded these tips:

—First, think about what your child is like, and think about what you as a parent want from a school. Some parents feel their child is very young at 5, for instance, and they might want a teacher who places less stress on academics, and more on social development.

Other, more precocious youngsters may come to kindergarten already reading and writing. Parents will want to be sure the teacher encourages more advanced work for that sort of child.

Get a feel for the teacher's basic philosophy.

Some early childhood educators advocate a more structured approach, using a fairly rigid curriculum to get students versed in basics such as reading, writing and math.

The current national push for tougher educational standards, led by President Reagan, has even reached some kindergartens. Minneapolis has actually begun flunking kindergartners.

Other educators reject that "get tough" approach because they feel it's wrong to give 5-year-olds the impression that education just means guessing correct answers.

For instance, an alert teacher might build an entire reading, science and math curriculum out of a simple thing like a classroom aquarium. Another might capture youngsters' interest by building lessons around a holiday like Halloween and teach geometric shapes using a jack o'lantern.

There's no single right way to teach kindergarten. Educators certainly haven't settled on one — but most say that the best methods mix fun with seriousness.

Parents in the end have to choose what approach fits their child — how important it is to them that their child is reading by the end of kindergarten, for instance, and how much they themselves contribute to their child's education in their own homes.

No matter what, the teacher and classroom should invite children to think. Watch how teachers talk to the children. Is it just one-way communication, with the teacher doing most of the talking?

Look for whether there are opportunities for children to read and write. Does the teacher read to the children every day? If a child is able to read in kindergarten, is he or she encouraged?

Is the school happy and orderly, the room pleasant? Do the children seem comfortable, or are they bored or discouraged?

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

GENERAL ELECTION

NOVEMBER 6, 1984

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide state banks the same rights and privileges as national banks."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that restructures the Permanent University Fund to provide: (1) for the expansion of the institutions eligible to participate in the bonding capacity of the fund to include the components of The University of Texas and Texas A&M University systems that have been added to those two systems of higher education since the Permanent University Fund was last restructured by constitutional amendment; (2) for the expansion of the purposes for which bond proceeds can be expended from new construction to include major repair and rehabilitation projects and the acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials; (3) for an increase in the bonding capacity from 20% (⅔ for The University of Texas System and ⅓ for the Texas A&M University System) to 30% (20% for The University of Texas System and 10% for Texas A&M University System) of the value of the assets (exclusive of real estate) in the Permanent University Fund in order to provide sufficient bond proceeds to care for the addition of 10 new institutions to those authorized to participate in the Permanent University Fund bonding program and to care for the expanded purposes for which the bond proceeds can be spent; and (4) for the dedication of the dividends, interest, and other income from the Permanent University Fund remaining after payment of principal and interest due on bonds and notes issued, to the provision of support and maintenance (over and above normal legislative appropriations) for Texas A&M University in Brazos County, Prairie View A&M University, and The University of Texas at Austin.

House Joint Resolution 19 also annually appropriates $100 million in each fiscal year, beginning September 1, 1985 (from the first money coming into the state treasury that is not otherwise appropriated by the constitution) for the use of those education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a ⅔ vote of the Legislature, but could not be adjusted in such a way as to affect outstanding bonding indebtedness. Each institution of higher education that is eligible to participate (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the $100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the $100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to create from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of agencies and institutions of higher such officers, employees, and agents are already authorized by the Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for payment of assistance to the surviving dependent parents, brothers, and sisters of certain public servants killed while on duty."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of these counties would be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amendment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the above procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivisions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is $30; the maximum deduction is now $75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."

Estos son los informes explanatorios sobre las enmiendas propuestas a la constitución que aparacerán en la boleta el dia 6 de noviembre de 1984. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/9602 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.

Dear Abby

It's Hard to Teach Kids Who Aren't Even in School

By Abigail Van Buren

© 1984 by Universal Press Syndicate

DEAR ABBY: Now that school has resumed, as a high school teacher, may I make a few suggestions that would greatly improve our nation's educational system and cost the taxpayers nothing?

Make school attendance a top priority!

A message to students: Stop skipping school because you don't want to face a challenging day. Accept those challenges and do your best. Your whole life will be filled with challenges, so learn to deal with them now—one day at a time.

A message to parents: Stop letting your children skip school to go shopping, to go hunting, to sleep in, to go on a family vacation, to nurse a minor ache, or whatever. It's your responsibility to see that your children get eight hours of sleep each night, eat nutritious meals (especially breakfast) and get to school on time.

A message to business people: Stop hiring students to work during school hours. And please stop hiring teen-age students to work after 8 p.m. on evenings before a school day. They need time to study and get a good night's sleep for school the next day.

A message to doctors, dentists, counselors and social workers: Please stop pulling students out of classes for non-emergencies to accommodate your schedules. Most students are dismissed at 2:45 p.m., so please give them late afternoon appointments. Their education is as important to them as the schedules of adult patients and clients are to professionals.

Abby, recent studies show that we are a nation at risk. In the last 10 to 15 years, the quality of our education has deteriorated dramatically. An appalling number of our high school students are certified illiterates, and absenteeism is one of the main causes.

Students who do not attend classes cannot be taught.

SMALL-TOWN TEACHER

DEAR TEACHER: Bravo! Well stated. Students, parents, business people, doctors, dentists, counselors and social workers, please take note and make school attendance a top priority.

* * *

DEAR ABBY: I am a 14-year-old girl and I'm very mature for my age. My boyfriend and I have become very serious, and I don't want to take a chance on getting pregnant. I'm afraid to ask my mom because I'm sure she wouldn't understand. How do you tell a woman who doesn't realize you're grown up yet that you want to go on the pill?

Please, hurry your answer before it's too late.

MAMA'S "BABY"

DEAR "BABY": Tell your mother just the way you told me. She will then realize that you are already in a very serious relationship, and although you seem like a "baby" to her, you are old enough to have one.

I am printing this so you can show it to her. It may get a dialogue going that will be helpful to both of you.

* * *

DEAR ABBY: I could have written the letter signed "Outraged." She wanted a snappy comeback for people who joked about the fact that her child's hair color was nothing like hers or her husband's.

My husband's hair is black and mine is blond, and we produced a son with flaming red hair. Believe me, I've heard my share of mailmen, icemen and milkmen jokes.

Here's how we handled it: When our son was about 4 years old, and people would ask him where he got his red hair, we taught him to say, "It came with my head."

TOUCHE IN TULSA

* * *

(Every teen-ager should know the truth about drugs, sex and how to be happy. For Abby's booklet, send your name and address clearly printed with a check or money order for $2.50 (this includes postage) to: Abby, Teen Booklet, P.O. Box 38923, Hollywood, Calif. 90038.)

BEAUTY BRIEFS

Florence De Santis

Better mascara wand

Applying mascara without poking yourself in the eye with the wand tip has long been a problem. Now there's an adjustable mascara wand you can bend to your own most convenient angle.

This makes application a lot quicker, too. Oh, yes, the mascara itself is water-proof and fragrance-free to reduce the chance of allergic irritation to the sensitive eye area.

Dangers of 'natural'

Not all that's "natural" is necessarily healthy, especially in warm weather — poison ivy, for example. Salmonella bacteria can also be present on raw fruits and vegetables. Unpasteurized milk is downright dangerous — why do you think Louis Pasteur invented pasteurizing?

Granola products often include fats and sugar, unhealthy for many persons' diets. Many herbs and foods, such as strawberries and tomatoes, can cause allergic reactions. These are simple reasons to select and eat "natural" or "health" foods with as much care as "processed" foods.

Protecting tinted hair

If your hair is artificially colored, it needs protection from the sun. Keep it covered when outdoors. A swim cap will prevent sea salt or pool chlorine from turning the color brassy or even slightly green. Between monthly renewals or a permanent tint, use a semi-permanent or one-shampoo rinse to keep color true. Ask your salon colorist for the right shade to use for this quick fix, especially while on vacation.

End played at trick two

By James Jacoby

This week Montreal holds its annual regional tournament, which should serve as an exciting preview to the Spring Nationals to be held there next March. Thanks to bridge chronicler Eric Kokish, I have some dynamic deals from our Canadian neighbors.

Today's action was at the Pierrefonds Club in Montreal, where Harold Goldstein was South, partnered with his wife, Rosalie. I cannot endorse a six no-trump contract off the A-K of spades, but I must heartily applaud the bold and successful play. Harold won the opening diamond lead. Since he had only 11 tricks, the first step toward developing a possible squeeze was to give up a trick. He promptly tabled the queen of spades. West won the ace and returned a diamond.

Now came the hearts — all seven of them. Since East was compelled to keep the spade king, he came down to only two clubs at the finish. Since West had to hold a diamond higher than dummy's nine, he too was forced to reduce to two clubs. Voila! The slam was made with the lowly nine of clubs.

The post-mortem revealed that the slam could not be set after the opening diamond lead, since poor West had the spade ace singleton.

Family gathers for first reunion

The first reunion of the descendants of Andrew Jackson and Martha Kathryn Smith Grimmett was spent visiting and taking pictures on Saturday, Aug. 18, at Wade Park in Paris.

Snyderites attending the event included Herbert and Ruby Grimmett Stout, Kathy and Terri; and Darrell, Leatha and Mimi Stout.

Other family members attending were Grover and Martha Grimmett Henry; Charles, Patricia, Sharon, Barbara and Darla Dalby; Danny, Liz, Danielle and Jeffrey Henry; Ralph and Stina Lenoir; Ray and Merle Jones; and Kennette Grimmett, all of Paris.

Also included were Jim and Donna Grimmett of Lubbock; Bob and Evelyn Grimmett Lyons; Dorothy, Kenneth and Jacque Dalby; Steven Dalby and Morris, Jaquita and Andrea McConnell, all of Dallas; Bill, Pat, Willie and Donny Grimmett; Royce and Cumi Grimmett Jacobs; Ronnie, Debbie and Ronnie Lyn Williams; Christine Grimmett Helton; and Ronnie and Randy Henry of Irving; Terry Hodgkiss of Houston; Bill and Doris Crow of Mabank; H.D. (Bit) Hill and Jimmy Hill of Midlothian; Ken and Jo Grimmett and Brandon Chappell of Lone Star; Karen Grimmett and David Hicks of Mount Vernon; Tommy and Pam Good and Duane and John David of Deport; and Sudie Varner and Angie and Jamacia Grider of Clarksville.

Attending from Oklahoma were Geneva Roberts and Arta Sue Spotts of Haskell; Thomas and Janice Grimmett and Randy and Nettie Crenshaw of Okmulgee; and Betty Grimmett Steel of Tulsa.

Every work day more than 1 million American workers call in sick, according to the Health Insurance Association of America. This means, it says, that every year there are more than 330 million workdays lost because of health-related complaints.

Retraining a displaced worker costs an estimated $5,000.

The average 25-year-old male American can look forward to an additional 48 more years of life. But a woman the same age can expect to live another 54 years, according to the American Council of Life Insurance.

PUBLIC NOTICE

AT&T Communications of the Southwest, Inc., has filed with the Public Utility Commission of Texas (PUC) a proposal to reduce intrastate, interLATA long distance revenues to offset proposed increases in specialized service rates for private line, WATS, 800, OCC facilities and directory assistance services. The proposed tariff restructure will not result in any increases in the overall revenues of the Company. The proposed effective date for the tariffs is September 20, 1984. All customers and classes of customers will be affected by this filing.

The restructure in the basic long distance service (MTS) results in an overall decrease in the revenues received by the Company from such service of approximately $100 million. While this proposed restructure results in an overall decrease in revenue, certain MTS rates are proposed to be increased to more nearly recover the access charges approved by the PUC for such service.

AT&T Communications has also filed restructured tariffs designed to more closely recover access costs for private line, DATAPHONE* Digital Service (DDS), OCC facilities, WATS, 800 and directory assistance services. These restructured tariffs result in an approximate overall revenue increase of approximately $100 million from increases in its WATS, 800, DDS, OCC facilities and private line rates, and institution of a charge for directory assistance.

The result of these proposed tariff changes and the restructure of our service offerings is to more nearly recover access costs from those services for which such access costs are incurred.

This proposed restructure results in no increase in overall revenue to AT&T Communications and is not a major rate change as that term is defined in Section 43(b) of the Public Utility Regulatory Act.

A complete copy of all tariffs and rate schedules is on file with the Texas Public Utility Commission at Austin, Texas. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

In Lamesa at 7:30...

Snyder set for loop tilt with Tornadoes

LAMESA — Snyder's Tigers open the 1984 district volleyball season here this evening, taking on the Golden Tornadoes at 7:30 in the Lamesa High Gym.

The Tigers, 5-7, were to have opened the 2-4A slate on Saturday, but officials did not show up for the match, which was scheduled in Fort Stockton.

"We're really looking forward to playing Lamesa. This will probably be one of the best and toughest matches all season," said Tiger Coach Penny Bane. "We'd like everyone who can to come to the game. It's not that far away, and it means a lot to the team."

Lamesa is 0-1 in District 2-4A play, having lost in a close three-game match to Pecos last Thursday.

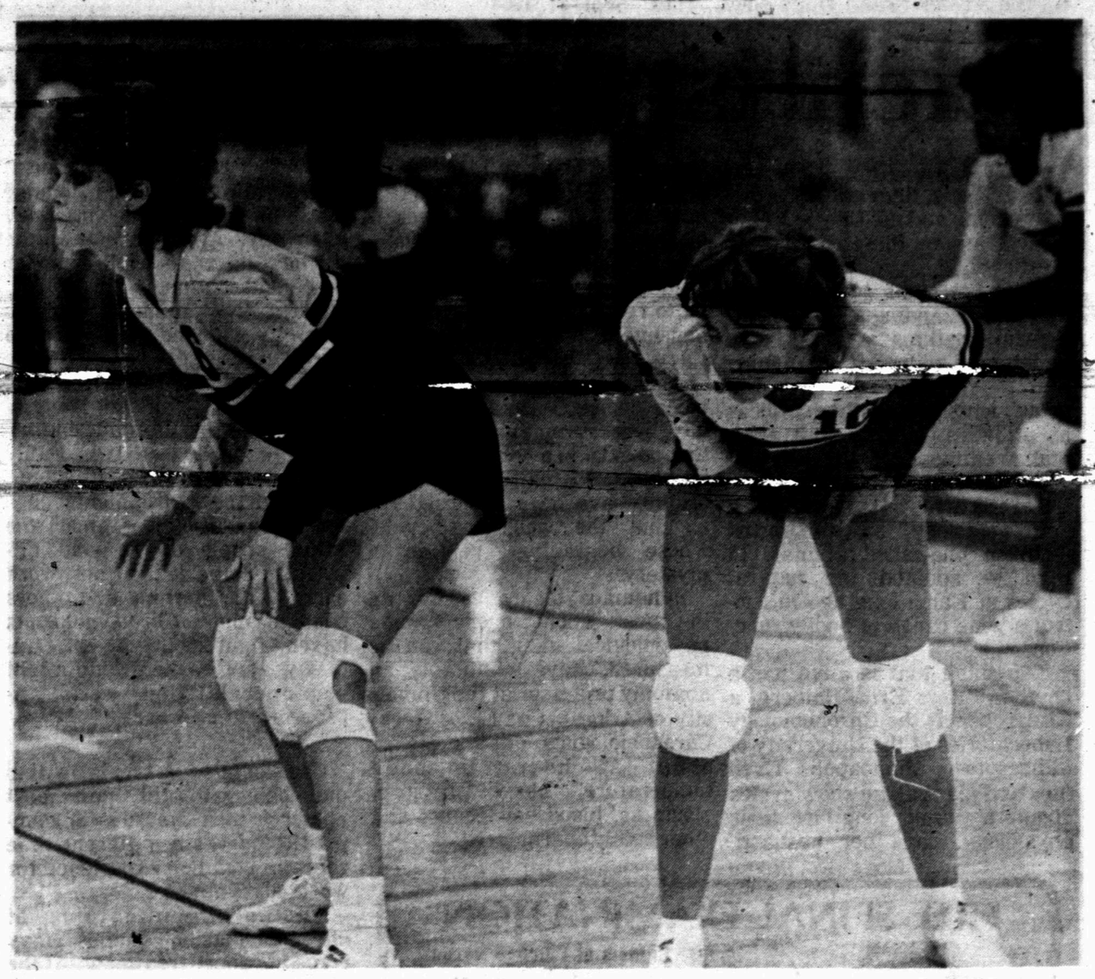

Snyder starters are expected to be seniors Gina Vaughn and Sabrina Sullivan, juniors Karlene Thompson, Donna Anderson, and Hope Hernandez, and sophomore Allison Adams. Kim McLarty, a junior, comes in for Vaughn when she is on backline.

Other players on the squad are senior Rosellia Aguirre and juniors Brenda Zajicek and Cintia Gonzales.

Vaughn, called "an exceptional hitter" by her coach, is one of four returning letterment for the Tigers. Others include key setter Sullivan, "a play-maker;" Thompson, "a spectacular hitter and blocker;" and Anderson, "a good all-around player."

Tonight's varsity game will be preceded by a freshman match at 5 and a junior varsity match at 6:30. Tickets are $1 for adults and 50 cents for students.

Snyder's district home opener is Thursday when the girls take on Andrews at 7:30.

OPEN DISTRICT TONIGHT — Snyder's varsity volleyball girls open District 2-4A play this evening in Lamesa against the rival Golden Tornadoes. Above, Allison Adams and Sabrina Sullivan stand ready for an opponent's serve. Tickets to the contest are $1 for adults and 50 cents for students. (SDN Staff Photo)

Snyder Cubs uncover 1984 volleyball season

Snyder Cubs opened their 1984 volleyball seasons Monday against Levelland.

The girls will play again Sept. 18 in Sweetwater. Seventh graders will begin action at 5; eighth graders at 6.

In matches with Levelland, Snyder eighth grade Gold lost 16-14, 12-15 and 15-11. Becky Davila served for six points in both the first and second games while Rhonda Echols served for six in the first and third games.

Snyder's eighth grade Black squad also lost, 15-8 and 15-8. No high-point girls were listed.

The Cubs' seventh Gold squad took a 15-5, 15-13 defeat. Dana Echols served up six points in the match.

Snyder's lone winner was the seventh grade Black team which won 15-4 and 15-7. Lois Urdy served for 10 points in the first game; Angie Brewster for 8 in the second.

Below are team rosters.

Coaches

Amanda Geiger, Nancy Jones and Connie Comer.

Managers

Stacy Logston, Melissa Hodge (eighth) and Ann Osborne (seventh).

Teams

8th Gold: Sandra Morin, Rhonda Echols, Christy Greene, Becky Davila, Melissa Hodges, Melody Pickering, Sandra Powell, Christy Quintella, Holly Fuller, Pam Batchelor, Charla Hall, Brani Bell and Marcie Chrane.

8th Black: Debbie Yandrich, Larray Farr, Kim Daniels, Lena Hodges, Melody Musick, Christi Necessary, Nellie Rodriquez, Michelle Anderson, Reva Gonzales, Jodi Dunk, Rebecca Vestal, Karen McAnelly and Linda Smith.

7th Gold: Amber Adams, Tina Braziel, Cathy Armstrong, Annette Ramos, Jeanie Pate, Shelly Tomlin, Diana Espinosa, Dana Echols, Cindy Srna, Brandy Robbins, Jamie Leatherwood and Lois Cates.

7th Black: Tisha Mendez, Melissa Alvarado, Lois Urdy, Kim White, Christy Cypert, Kathy Bloomenstock, Jacy LaRue, Sherry Holley, Angie Brewster, Wendy Watkins, Wendy Hart and Jennifer Spence.

Hunter safety course tonight

A Texas Hunter's Safety hunter education class will be offered tonight through Thursday in the Snyder Savings and Loan community room here.

The Canyon Gun Club is sponsoring the course, which runs from 6 to 10 p.m. for the three nights.

The course is open to anyone and includes instruction in rifle, shotgun and bow handling safety, outdoor ethics, laws and regulations, conservation, hunting traditions, wildlife identification, field care of game, wilderness first aid and survival.

Those 12 of age or older completing course will receive a hunter safety card from the Texas Parks and Wildlife Department. Fee for the course is $1 per student.

For more information, call Calvin Goebel at 573-6938 or Tommy Wright at 573-2128 or Bill Robbins at 573-2729.

This will be the first and last course for this year.

'First-quarter blues' hamper Pokes; Donley calls for momentum change

DALLAS (AP) — The Dallas Cowboys say they are going to have to cure the "first quarter blues" if they expect to go far in the 1984 National Football League race.

"We just come out too flat," said wide receiver Doug Donley. "we did it a lot last season and we did it against Los Angeles. Then we did it against the (New York) Giants.

"Eventually, you have to pay if you keep doing it."

The Cowboys have yet to score in the first quarter this season. It took them five games to finally score a point in the first period last year.

"We have to come out and set the tempo," said Donley, "not let the other teams do it."

Donley said if anything else Sunday's 28-7 loss to the Giants should serve as an "eye-opener."

"Maybe we thought after we beat the Rams like we did (overcoming a 13-0 lead) that we could keep doing it," said Donely. "We came from behind a lot last year but we've got to quit getting ourselves in that position."

The Cowboys meet the Philadelphia Eagles at 3 p.m. Sunday in Texas Stadium in their home opener.

Philadelphia is 1-1 thanks to a touchdown pass in the final two seconds against Minnesota.

New owner Bum Bright made his first trip with the Dallas team to New York. It was a long plane ride back for him.

Asked his opinion of the rout, Bright said, "I'm not going to critique the game, but I'm a bottom line kind of guy and the bottom line is 28-7."

The Cowboys have suffered nine turnovers in their first two games.

"We played like our feet were in mush," said Coach Tom Landry.

Running back Tony Dorsett said, "We did everything humanly possible to help them win the game. We just didn't show up."

Quarterback Danny White, who got into the game only as a punter, saw little solace in Gary Hogeboom's poor day.

"It was obvious Gary was trying to force the ball," White said. "Sometimes when you get behind you have to force the ball and try to make something happen. I know the feeling. I've been through it once or twice."

He added, "It was frustrating. It's one thing to sit out a victory but it's quite another to sit out a loss. My patience is beginning to wear thin. I may last a few more weeks."

Meanwhile, Hogeboom, who took a beating in the game, was listed as a probable starter for Sunday's contest with the Eagles.

Hogeboom suffered a bruised and lacerated right elbow which took stitches to close, contusions to his hip and calf, and a cut chin.

But team officials said he practiced Monday and was expected to play against the Eagles this weekend.

The only questionable starter for the game is rookie defensive back Vince Allbritton, who sprained an ankle.

It was also announced that wide receiver Tony Hill, who has a separated shoulder, was released from the hospital and can begin working on leg conditioning. Hill will be out for at least a month but apparently will not have to undergo an operation.

Rozier agent states Maulers are history

PHILADELPHIA (AP) — Mike Rozier says he through with the Pittsburgh Maulers, but officials of the United States Football League want to hear it from the player, not just his agent.

And the Houston Oilers of the National Football League have said "No, thanks," to further contract talks with the former Heisman Trophy winner.

Rozier's Philadelphia-based agent, Art Wilkinson, said Monday that the Maulers were willing to allow Rozier to buy up the remainder of his three-year contract, which he described as a personal-service pact with Edward J. DeBartolo, Sr., the club's owner.

"They want us to give them back the signing bonus of $1.3 million plus the $300,000 Mike received for playing last season, and they want it tomorow," Wilkinson said Monday. The buyout was being considered, he added, "although we won't do it tomorrow."

Maulers General Manager George Heddleston told the Pittsburgh Post Gazette that Rozier "has never told us he wants out of here. We don't want to hear it from his agent. We want to hear it from him."

Heddleston referred to an interview earlier Monday on Houston radio station KIKK, during which Wilkinson read a statement from Rozier.

"I now find myself with an organization that cannot decide whether it wants me or not," Rozier was quoted in the statement. "In short, I do not wish to return to the Pittsburgh Maulers in 1985 and I will not.

Wilkinson said Rozier wanted to sign a contract with the Oilers, but Houston General Manager Ladd Herzeg said Rozier would have to wait.

"I said last week we felt it was too late for Mike to be effective for the Oilers this year," Herzeg said. "We told him the on-going negotiations were becoming a distraction for the team."

Degrate elected Longhorn captain

DALLAS (AP) — Tony Degrate, all-Southwest Conference defensive tackle from Snyder, was one of five players named Monday as team captains for the University of Texas Longhorns.

Degrate has been chosen to several pre-season All-American teams.

Others include safety Jerry Gray, linebacker Tony Edwards, tailback Rob Morschell and fullback Terry Orr. Gray is from Lubbock; Orr is from Abilene.

Team members also elected fullback Ervin Davis, who suffered a knee injury that ended his season during a pre-season practice, as honorary team captain.

The Longhorns, ranked No. 4 in the latest Associated Press Top Twenty, open their season against Auburn on Saturday. Auburn, formerly No. 1 but knocked off 20-18 by Miami, Fla., is ranked No. 11.

Scientist: anything that is alive has rhythm

NEW YORK (AP) — The sun rises and sets, tides ebb and flow, years come and go. Life on Earth evolves among these rhythms of the planet.

Some scientists today believe that understanding such ancient, natural rhythms is the key to understanding basic human function — and to making improvements in such diverse areas as athletics, factory shift work and treatment of cancer and other diseases.

Scientists studying "chronobiology" say life forms — from one-celled animals to man — adopted the natural cycles of Earth long ago to control a wide range of bodily functions.

"Anything that is alive has a rhythm," says Erna Halberg, a researcher at the Chronobiology Laboratories of the University of Minnesota in Minneapolis. Even flies and giant algae show cycles about a week long in their physiology, says her husband, Dr. Franz Halberg, laboratory director. Far from being a human invention, "The week is built into you and me," he says.

Chronobiology differs from "biorhythms," which are supposed to reveal physical, emotional and intellectual cycles based on date of birth. Instead, chronobiology is based on four basic cycles — lasting about a day, week, month and year — that co-exist in a complicated but synchronized pattern. Natural origins have been proposed for all but the week-long cycle, whose beginnings remain a mystery.

In humans, the cycles show up in "just about every single physiological thing that can be measured," says John Pauly, an anatomy professor at the University of Arkansas at Little Rock. Chronobiologists cite cycles of about 24 hours in body temperature, blood pressure, alertness, blood cell counts and other bodily characteristics.

Whatever the inner mechanism is, it synchronizes itself to outside cues, like a watch being reset each day. A major cue is the daylight-darkness cycle, another is societal routine.

When the timing of cues is abruptly changed — as when a traveler crosses several time zones in a single flight — the inner rhythms can get out of whack, like an out-of-tune engine. That produces jet lag, Pauly said.

Though the environmental cues for a population are about the same, people do respond differently. Some do their best work early in the morning and others peak at night. Chronobiologists haven't figured out why yet, Pauly says, but further study might help people find work appropriate to their cycles.

Czeisler also is trying to find out how athletes can best preserve their abilities for competition in vastly different time zones, a common experience for world-class athletes.

Another application of chronobiological studies may come in cancer treatment. At the University of Minnesota, cancer specialist Dr. William Hrushesky is investigating how the performance of powerful cancer drugs varies with the time they are given.

Cancer drugs have serious side effects, including damage to the heart, bone marrow, kidneys, gut and nerves, and vomiting and loss of hair. Hrushesky wants to find ways to get the best benefit from them while minimizing those drawbacks.

The body's response to such drugs varies through the day because of cycles in processes such as cell division and elimination of the drugs from the bloodstream, Hrushesky says. So far, his tests indicate that properly scheduled chemotherapy can minimize side effects while maintaining effectiveness against cancer, he says.

Standard chemotherapy is not based on the time of day, and Hrushesky believes most hospitals couldn't handle many cancer patients under precise timetables if timing turns out to be critical. But rather than increase health care costs by hiring more hospital staff, he says, the best solution would be automatic pumps that can be worn or implanted. The pumps could be programmed to administer the drug at the best times, he said.

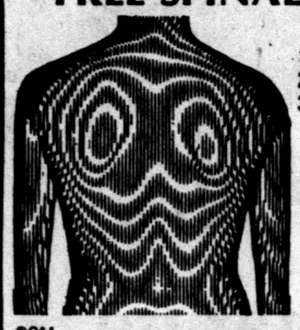

Drug therapy for many other illnesses probably will be affected by chronobiology, says Dr. Donald R. Bennett of Chicago, associate director of the drug division of the American Medical Association.

WINNERS--Winners in the Senior Center's spelling bee Tuesday received ribbons and also gift certificates from Whataburger to mark their victories. Pictured above are Jeri Workman, local Whataburger manager; Kathryn Holder, third place; M. W. Pilcher, second place; and Margaret Dell pilcher, first place. (WTC Photo)

British Prime Minister Winston Churchill, American President Franklin Roosevelt and Soviet leader Joseph Stalin agreed Dec. 1, 1943, on the scope and timing of operations to smash the German armies in World War II. They also planned a peace era in which all nations would be invited to join a world family of democratic nations.

FRIENDLY FLOWER SHOP
573-3851

Friendly Flowers specializes in homecoming accessories

Homecoming is just a few weeks away on October 5, so now is the time to start thinking about ordering a special mum for that special girl from Jo Ann Prince at Friendly Flower Shop. Jo Ann and her staff offer a variety of decorations to put on the mums and will be happy to make yours up exactly the way you want it. Braided ribbons are a specialty at Friendly Flowers and they also have bells, footballs, helmets, megaphones and fall leaves which add a special touch. Letters for names on the ribbons are also available. If you girls want to give that guy something special too, you can find decorated garters at Friendly Flowers. Call Jo Ann at 573-3851 or go by 3001 College Avenue and avoid the rush by ordering your Homecoming mum early this year.

The Pick-Me-Up bouquet is being featured this month at Friendly Flowers. A pretty spring bouquet is nestled in a rainbow mug which is then put inside a multi-colored carry-all bag. It's a delightful way to brighten someone's day or just to say "I care". The mug and bag provide a keepsake gift that can be used long after the flowers are gone. Jo Ann and Speedy Prince, owners of the flower shop, want to remind you to call and place your order now. Don't wait to let someone know how special they are to you. With FTD, AFS, Teleflora or Florafax, flowers can be sent almost anywhere in the U.S.

There are many beautiful fall fowers to choose from at the flower shop now and a wide variety of vases, containers and baskets are available for that special arrangement. Friendly Flowers has all types of blooming and green plants which can be decorated with all types of bows, ribbons and ornaments for any occasion.

Friendly Flowers also carries a wide variety of dried and silk flowers and arrangements.

Just remember, whatever your needs Friendly Flower Shop at 3001 College Avenue is the place to go. Just stop by the shop or give them a call at 573-3851.

PAM VAN SICKLE AND JANIE MCCORMICK at Friendly Flower Shop invite you to come in at 3001 College Avenue or give them a call at 573-3851 and place your orders for homecoming mums early. (SDN Staff Photo)

Heat stress

Heat stress is the overall effect of excessive heat on the body. Important factors contributing to heat stress are temperature, humidity, air movements, radiant heat from solar radiation. Also: bright lights, atmospheric pressure, physical activity and clothing.

At Wit's End

by Erma Bombeck

Who are these people who get sick and have no appetite?

The ones who languish on the sofa and wave food away saying, "I'm just not hungry."

My body has never heard of starve-a-cold-feed-a-fever. It eats anything ... anytime. I have been on the verge of going to that enchanted land in the sky where there are no wax build-ups or ring-around-the-collars, and I have whispered through cracked, feverish lips, "Could we pack a few sandwiches in case I miss dinner?"

I have friends who have dropped off seven or eight pounds in a week when they've "felt a cold coming on." But then they're the same people who gave birth to a ten-pound baby and wore a knit dress home from the hospital.

I have summoned nurses from my hospital bed in panic, wondering if there were seconds on the I.V.'s. The high spot in my entire hopsital experience is when the menus are distributed.

Now I don't pretend to know the secrets of those who feel no need to "force something down for strength." These people are strange. But I do know that the medical profession has been sitting on a few secrets of its own for years now.

All the time we are struggling to get well, they are slipping us calories we don't even know about. Take the thermometer they pop in our mouths six times a day. Harmless, you say? That little sucker contains at least 35 calories. A tongue depressor? 50 calories.

Sleeping pills, 150 calories a pop. Ice water that they push on you like green beer on St. Patrick's Day ... 75 calories.

And who among us has not felt our upper arms get fatter and flabbier every time they take our blood pressure? Huh? And if you think that paper bedroom slippers don't cause cellulite, you're out of it.

I have a friend who, every time she has her teeth cleaned, skips dinner and takes to the sofa. In less that 12 hours, she develops cheekbones like Katharine Hepburn, her midriff melts, the bulges drop from her tighs and her stomach becomes concave.

I have been "under" the weather" for the past five weeks. I haven't been able to read, stay on my feet long, talk on the phone, write letters, or watch television. But I have been able to "force down" three tons of nourishment.

Yesterday, I weakly climbed into a pair of slacks. The zipper would not close.

It isn't fair.

Dr. Lamb

Lawrence E. Lamb, M.D.

By Lawrence Lamb, M.D.

DEAR DR. LAMB — Recently I had a blood test and my blood sugar was over 300. I am 55 and weigh 176 pounds. My doctor put me on a diet and gave me Tolinase pills to take for 150 days. After I finish the pills in five months, I am to return for another test.

I have taken the pills for two weeks and still urinate quite often and have burning in my urinary tract. There is no history of sugar in my family. This is the first I knew that I had sugar problems.

Should I take another blood test before five months? What effect does this high count have, and could I go into a coma? What is your opinion of this medication? Is there a better one? What part does it play with my sex life (I no longer have any desire)?

DEAR READER — Frankly, I would like to see you get a little more aggressive management. Since you did not tell me how tall you are, I can't judge how overweight you might be. If you have any excess body fat, you should make a major effort to lose it. Use a sensible well-balanced diet that restricts calories, and increase your exercise by walking and activity that does not create excessive peak exercise levels. In many adult-onset diabetics, elimination of obesity will normalize the blood-glucose level.

Many diabetic specialists believe that patients who can be treated with oral medications can be treated just as well with a proper diet and weight control. When that doesn't work, insulin is needed.

You've got problems. Your loss of sexual capacity probably means you already have diabetic neuropathy, affecting the nerve fibers that control erection. There is evidence that tightly controlled diabetics who do not have markedly elevated blood glucose have an improvement in nerve-fiber function, and this is important in both treating and preventing the progression of diabetic neuropathy. So I think you need careful immediate supervision for better control. You may want to see a diabetic specialist.

You need to read The Health Letter 18-10, Hyperglycemia: The Diabetic Problem, which I am sending you.

DEAR DR. LAMB — I am a 30-year-old woman, 5 feet 11, and weigh 116 pounds. I still consider myself fat. What exactly is anorexia nervosa? When I look in the mirror I see large thighs or a big rear, yet my husband calls me "Bones."

I take a Dexatrim capsule every day that I can hide them and take one. Sometimes I eat OK, and then I vomit it back up because my stomach hurts so bad. I'm scared to go to my doctor because everyone laughs at me and tells me this fat stuff is all in my head. What is a true anorexia-nervosa person? It doesn't kill all people, does it?

DEAR READER — No, it doesn't kill the person who gets professional help and learns to restructure his or her life. It does occur in men, but is more commonly seen in women. Your story is rather typical. The victim usually has a false self-image and does think of herself as being fat when, in reality, she is skinny.

I must tell you that this is a dangerous condition, and I strongly recommend that you do see your doctor, and you will probably need professional counseling to see yourself as you really are and to help you solve your basic problems. You will feel a lot better if you do this and have proper nutrition.

Ira prepares for 1984 homecoming

Plans have been made for the 10th Ira homecoming which begins at 7:30 p.m. September 28 with a varsity football game against Paint Creek. Ira plans a big homecoming celebration only every three years.

Registration will begin at 10 a.m. September 29 in the new gym.

Many activities have been planned for the day including:

—10 a.m. to 2 p.m.: Registration (new gym).

—2 p.m. to 2:30 p.m.: Business meeting.

—2:30 to 4:30 p.m.: Women and men exes basketball games.

—4:30 to 5:30 p.m.: Classroom open house-new cafeteria.

—5:30 p.m. to 7:30 p.m.: Hamburger supper (new cafeteria).

—8 p.m.: JV vs Trinity Bible Institute.

The homecoming king and queen will be crowned during the business meeting from 2 to 2:30 p.m.

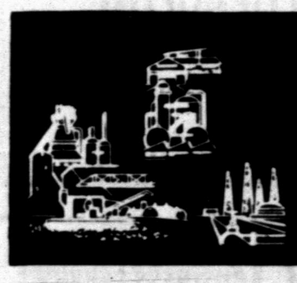

The Ira Booster Club will be serving a hamburger supper from 5:30 to 7:30 p.m. Plates with one hamburger are $3.50 and plates with two hamburgers are $5 each. Wednesday is the final deadline for ordering hamburger plates.

For more information call Susie White at 573-3895 or Ronda Calley at 573-7301.

Burma could offer the world an agricultural revolution of its own, according to National Geographic. As many as 30,000 rice varieties may exist in the country's northern areas. Many plant geneticists believe them to be among a handful of dwindling zones in the world that preserve the genetic history of commercial food crops.

An estimated 50,000 gray owls live in North America. Because the birds evolved in northern latitudes, where there are long periods of daylight, great grays hunt as efficiently by day as by night.

Interiors is the place to go for your refurnishing ideas

Judy, Sally and Gay at Interiors invite you to visit their shop at 2901 College Avenue where they will help you to create a beautiful environment for both your home and business. For a company that is only two years old, they have accomplished many new looks for both commercial and residential projects. After completing 14 motels throughout Texas, they are proud, at present, to be working on Shyder's own Willow Park Inn and the newly constructed townhouses at Cedar Creek. Hopefully you have visited Snyder Savings and Loan lately and noticed their refreshing new look in the lobby.

Interiors offers a complete service in flooring, window treatments, fine furniture, wall coverings, unique gifts and decorative items.

They are proud of the fact they can offer customers everything for inside a home ranging from marble vanities to special made items such as mirrors with any design a customer might dream up, silk trees, collectable dolls, a unique art gallery, Miss Noah stuffed animals, handmade rugs, porcelain, weavings and hand carved wood items.

Judy, Sally and Gay invite you to come by and have coffee with them and let them show you how to give a total look to your entire home or just one room. Come in and browse and see for yourself the fine lines and items Interiors has to offer.

GAY IDOM, JUDY GRIMMETT AND SALLY WALTON of Interiors specialize in providing a total look for all your commercial and residential projects. (SDN Staff Photo)

Child support crackdown begins

FORT WORTH, Texas (AP) — A promised crackdown by Attorney General Jim Mattox on parents behind on child-support payments began in Tarrant County over the weekend with 23 arrests and 150 arrest warrants.

Similar roundups can be expected soon in other Texas cities, officials said.

NOTICE OF
RATE CHANGE REQUEST
AND
STATEMENT OF INTENT

Notice is hereby given that LONE WOLF ELECTRIC COOPERATIVE, INC. (the "Utility") intends to change rates for electric utility service effective September 25, 1984. The increase requested over test year revenues is $530,626 or 15.76%.

The amount reflected above includes an adjustment of $251,469 for the wholesale power cost increase experienced by the Cooperative during the test year, and net revenue increases of $1,536 as a result of other adjustments. The Cooperative is reviewing the power cost increase described above as a part of the power cost adjustment clause. This increase in wholesale power cost amounts to approximately 7.47% of test year operating revenue.

The changes are applicable to all areas and all customers served by the Utility. The classes and numbers of Utility customers affected are as follows:

Farm and Non-Farm	1,173
Small Commercial	1,458
Irrigation	188
Large Power	493
Cotton Gins	2
Luminaires	494

The Utility intends to change its service rules and regulations including rules relating to service fees.

Implementation of the proposed changes is subject to approval by the appropriate regulatory authority. A statement of intent including the proposed revisions of tariff and schedules and a statement specifying in detail each proposed change is available at the general office of the Utility located on the Robert Lee Highway, Colorado City, Texas. Its mailing address is Post Office Box 793, Colorado City, Texas 79512.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING
The State Department of Highways and Public Transportation is planning the construction of Houston Parkway (M.H. 725) in Snyder as an extension of Houston Avenue from 32nd Street north to 30th Street and from 48th Street southeast and east to State Highway 350.
The proposed new street is to be 48 feet wide with concrete curbs and gutters. The pavement will consist of asphaltic concrete on flexible base about 10 inches thick. The right of way will be 80 feet wide except within about 469 feet of S.H. 350, where it will vary from 62.86 feet to 67.75 feet. A multiple box concrete culvert will be constructed at the small creek about 500 feet west of S.H. 350.. The channel will be improved in an easement between the new culvert and the one under S.H. 350 north of the proposed street. No relocation of any residence or business will be necessary. Maps and other drawings showing the proposed location and design, the environmental assessment, and any other information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office in Snyder on the southwest side of the U.S. 84 expressway just northwest of the interchange at State Highway 208. Also the maps and drawings showing the proposed location and design have been placed on file with the City of Snyder at the Snyder City Hall.
Information about the State's Relocation Assistance Program, the benefits and services for displacees and information concerning the relocation assistance office as well as information about the tentative schedules for acquisition of right of way and for construction can be obtained at the Resident Engineer's Office.
Any interested citizen may request that a public hearing be held covering the social, economic and environmental effects of the proposed location and design for this highway project be delivering a written request to the Resident Engineer's Office on or before October 12, 1984. The address of the Resident Engineer's Office is P.O. Box 396, Snyder, Texas 79549.
If such a request is received, a public hearing will be scheduled, and adequate notice will be publicized about the date and location of the hearing.

Ernest Tubb funeral held

NASHVILLE, Tenn. (AP) — Ernest Tubb's funeral ended like most of his country music shows for the past 40 years — with the entertainer singing "I'm Walking the Floor Over You."

A tape recording of Tubb's 1941 million-selling hit closed his 60-minute funeral Monday as many of the top stars in country music paid final respects to the pioneer singer-songwriter-guitarist.

Tubb, a Grand Ole Opry star for more than 40 years, died Thursday at age 70 after a two-year bout with emphysema.

Tubb's open blue steel casket was flanked by guitar-shaped floral arrangements with his traditional white cowboy hat resting atop the end of the casket.

Tapes of Tubb singing six of his songs were played for the 1,500 mourners during the service at Two Rivers Baptist Church, which ended with his self-penned "I'm Walking the Floor Over You."

Singer B.J. Thomas sang three songs during the funeral and bluegrass music pioneer Bill Monroe sang one.

Thomas recalled that he was 8 years old when he saw the slim, 6-foot Tubb perform on the Grand Ole Opry.

"This song is in memory of the greatest country singer who ever lived," Thomas said, just before singing "Tomorrow Never Comes," which Tubb wrote.

Loretta Lynn, among the many stars Tubb helped out early in their careers, was on a concert tour and did not attend the funeral. Tubb portrayed himself in the movie "Coal Miner's Daughter," based on Miss Lynn's autobiography, which was shown on ABC TV Sunday night.

Among those who did attend were 80-year-old Roy Acuff, the "king of country music," Little Jimmy Dickens, Kitty Wells, Billy Walker, Hank Snow, George Hamilton IV, Jim Ed Brown, Connie Smith, Lorrie Morgan, Charlie Walker, Jeannie Seely and Del Webb.

Tubb, known affectionately as "ET," pioneered the honky-tonk sound of country music, a style characterized by forceful guitars and earthy lyrics that originated in the Texas beer halls 40 years ago.

He was known as a tireless traveler who gave as many as 300 concerts a year — a pace which the Rev. Billy Roy Moore of the non-denominational Lord's Chapel in suburban Nashville noted in his eulogy.

"He had to do a lot of traveling. Now he's home," Moore said. "If Ernest could say something, it would be 'I love you' because he did."

Active pallbearers were either singers or former members of Tubb's band, the Texas Troubadours. They included Monroe, Cal Smith, Hank Williams Jr., Teddy Wilburn, Carl Butler, Jack Greene, Billy Parker, Junior Prunedo, Carl Smith, Porter Wagoner and Tubb's brother, Calvin Robert Tubb Jr.

The five other Tubb songs played during the service were "If We Never Meet Again This Side of Heaven," "I Love You Because," "Precious Memories," "I Will Miss You When You Go" and "Stand By Me."

Burial was in Hermitage Memorial Gardens.

Forecast record spending

WASHINGTON (AP) — American businesses are planning to spend a record $307.6 billion on modernization and expansion in 1984, 14.3 percent above the amount spent last year, the government reported today.

Business investment actually declined 4.8 percent last year to $269.2 billion despite the relatively robust recovery from the 1981-82 recession.

The latest Commerce Department business survey, taken in July and August, confirmed earlier projections that capital spending in 1984 would increase at the fastest clip since 1966.

The 14.3 percent rise is expressed in actual spending. When the effects of inflation are taken out, the increase is 13.3 percent, compared to a 3.6 percent inflation-adjusted decline in 1983.

With the nation's factories now operating at more than 82 percent of capacity, economists say the strong drive to expand and build new facilities should continue.

The increase in capital spending is expected to sustain the economic recovery as the earlier surge in consumer spending begins to taper off.

Cotton

NEW YORK (AP) — Cotton futures No. 2 were higher at midday dealings today.

The average price for strict low middling 1 & 1-16 inch spot cotton advanced 13 points to 62.14 cents a pound Monday for the eight markets, according to the New York Cotton Exchange.

Midday prices were 75 cents to $1.35 a bale higher than previous close. Oct 65.22, Dec 65.85, Mar 67.72, May b68.55, Jul 69.85, Oct b69.50, Dec 70.45.

College looks at energy plan

(Continued From Page 1)

Trustees are also uncertain as to how changing the size of the chiller will affect the government grant already approved for the 340-ton unit. That is yet to be determined, but Roberts said the government is "not particularly interested" in whether a chiller machine is actually sized to the buildings served. Instead, the government is interested in whether a new machine uses less energy than the old machine being replaced.

Roberts also told trustees that after studying the energy study conducted by Parr, he was not sure what reasoning he followed in selecting the 340 ton chiller unit.

Other conclusions that Roberts reached after studying Parr's plans is that the idea to install a new cooling tower, a larger chiller, modulating values and the big variable speed pump were good.

He added that smaller variable speed pumps under individual buildings might not be necessary, but that the matter needed further study.

If it is determined that the larger 450-ton chiller is needed, it would increase the cost of the project by approximately $20,000.

In other business, trustees approved the hiring of Marcy Jean Mattson as director of the Diamond M Museum. She began her new duties Sept. 1.

Trustees also accepted two bids from Recreonics of Indianapolis, Ind. for swimming pool equipment. The first in the amount of $5,295 was for three pool covers and two reels. However, trustees voted to add another reel to the purchase which will increase the total bid by about $650. The other bid for $5,047 was for a cartridge filter. Both bids were the lowest bids submitted and the purchases have already been included in the current budget.

Dr. Ben Brock also read to the board a letter from J.D. Sheffield of Loraine in which he expressed appreciation to the board. He spoke highly of WTC's "...excellent facilities, well qualified and friendly professors, small classes, community support, but most of all the spirit of friendship everpresent on and off campus...."

Sheffield attended WTC from September, 1978 to May, 1980 and is now a first-year medical student at the Texas College of Osteopathic Medicine in Fort Worth.

Dr. Don Newbury, college president, presented a Booster Club report to the effect that a membership drive would be conducted and a golf tournament has been planned as a fund raiser. The club is seeking to raise $5,600.

Newbury said that one of the projects of the Booster Club is to purchase textbooks which are then loaned to athletes.

Trustees expressed their support of the club and its efforts on behalf of the WTC athletes and athletic programs.

Newbury also told trustees that with four days of registration left they expect to exceed the fall enrollment of 1,300 students. He said this was a plus for WTC as many area colleges are reporting decreased enrollment.

He added that contact hours and vocational-technical hours have also increased. Contact hours are up to 200,000 and occupational-technical hours have increased from 61,000 to 64,000.

Newbury also said that the new food service--American Food Management--is now in place and that students' comments are apparently very favorable.

Trustees attending the meeting were Bill Jones, Dr. Bob Hargrove, R.C. Patton, Howard Sterling, Wilson and Parks. Only Roy Baze was absent.

Obituaries

Ronnie Gemes

Services for Ronnie Gemes, 26, of Royal Trailer Court will be at 2 p.m. Thursday at Bell-Seale Chapel with the Rev. Larry McAden of Calvary Baptist Church officiating. Burial will be in Snyder Cemetery under direction of Bell-Seale.

He was found dead at his home around 10 p.m. Monday. An official ruling as to cause of death was pending at noon Tuesday.

He was born Oct. 7, 1957 in Dublin, Tex. He was employed by B&F Well Service at the time of his death. He had lived in Snyder at various intervals for 19 years.

He is survived by a daughter, Marcey Lynette Gemes of Snyder; his mother, Marie Gemes of Snyder; three sisters, Glenda McKinney of Dunn; Kathy Shannon and Susan Wright, both of Colorado City; and several nieces and nephews.

Margaret Costa

Private memorial servics will be held for Margaret Mabel Costa, 68, of 2303 43rd Street who died at approximately 6:30 p.m. Monday at her home.

She was born Sept. 26, 1915 in West Virginia.

She was a bookkeeper.

She is survived by a daughter, Margie Sealy of Snyder; two grandchildren; and a brother, Russell Miller of Okron, Oh.

Geo. V. Rogers

Graveside services for Geo. V. Rogers, 73, of 104 Milburn will be at 3 p.m. Wednesday at Snyder Cemetery.

He died at 10:34 a.m. Monday at Methodist Hospital in Lubbock.

He was born Jan. 10. 1911 in Fullbright, Tex. He was a retired oilfield worker, Baptist and member of the American Legion, serving in the U. S. Army during World War II.

He married Avalon Ruth Loso June 5, 1946 in Colorado City. She survives.

He is also survived by two sons, Ronny of Canyon and Tommy of San Angelo; three grandchildren; three sisters, Alma Perryman of Big Spring, Fannie Henley of Alabama, and Edie Vickery of Alice; one brother, Ralph Rogers of Amarillo.

Mrs. Rodriguez

PLAINVIEW--Services for Placida Rodriguez, 69, of Plainview will be at 4 p.m. Wednesday at Lemons Memorial Chapel with the Rev. Frank Bernel, pastor of the Spanish Church of the Nazarene, officiating.

Burial will be in Plainview Memorial Park under direction of Lemons Funeral Home.

She died Monday morning in Central Plains Regional Hospital after a lengthy illness. She was the mother of Sylvia Ybarra of Snyder.

Her husband, Francisco Rodriguez, died in 1961.

Other survivors include four sons, Jose of Plainview, Adolfo of Harlingen, Juan of Lyford, Francisco of Raymondville; a sister, Maria Garcia of Denver City; four borthers, Marcella Zamora and Santiago Zamora, both of Lyford, Hipalito Zamora of El Campo, Jose Zamora of Corpus Christi; 21 grandchildren and 32 great-grandchildren.

Absence rules before trustees

(Continued From Page 1)

principal."

Students will be allowed to makeup work after an excused absence. Except in special circumstances, the student must provide a written excuse related to the absence from their parent or legal guardian.

Examples of unexcused absences are those include truancy, suspension, or family recreational trips. For each unexcused absence, a student will have three points deducted from the six-weeks grade of the class or subject missed.

In addition, an unexcused absence during a semester or final exam will result in a "0" grade for the student.

Makeup work will be required for classroom studies conducted during an unexcused absence.

A student will not be given credit for a class or subject if he has more than five-days unexcused absence during a semester.

As for school-related absences, a student will be allowed to have up to 10 class-misses during the school year for school-related activities.

If a student goes over the 10-times limit, he will be given an unexcused absence for each class missed in excess of 10.

Absenses considered school-related include academic field trips and UIL sponsored activities.

Astro-Graph

By Bernice Bede Osol

Your Birthday

Sept. 12, 1984

If you have already charted a course for something upon which you have your heart set, don't alter the compass heading. The objective you envision can be achieved this coming year.

VIRGO (Aug. 23-Sept. 22) You tend to benefit today from doing things that help others as well as yourself. The same can be true in matters where you focus solely on your own interests. The areas in which you'll be the luckiest in the year ahead are revealed in your Astro-Graph predictions for the coming year. To get yours, mail $1 to Astro-Graph, Box 489, Radio City Station, New York, NY 10019. Be sure to state your zodiac sign.

LIBRA (Sept. 23-Oct. 23) Try to associate with active companions today, because they will help accelerate your accomplishments. Sluggish associates will do the opposite.

SCORPIO (Oct. 24-Nov. 22) You could be quite fortunate in your material affairs today if you follow your own ideas and instincts. Trust yourself before others.

SAGITTARIUS (Nov. 23-Dec. 21) Persons with whom you associate today might not function too well under pressure, but you'll be at your best when challenging situations develop.

CAPRICORN (Dec. 22-Jan. 19) You're still in a cycle where things tend to work out to your advantage in the long run. Don't be dismayed if you get negative early signals.

AQUARIUS (Jan. 20-Feb. 19) You're a worthy person who is deserving of sincere compliments, but be on guard today if someone you don't know too well flatters you excessively.

PISCES (Feb. 20-March 20) If a business contact impulsively offers to do something for you today, accept his offer immediately. Second thoughts may alter his proposal.

ARIES (March 21-April 19) Today you may be called upon to mediate a situation between two people of whom you're equally fond. You'll know how to resolve it properly.

TAURUS (April 20-May 20) Time is not necessarily your ally today. If you are reticent to act when opportunity knocks, you might realize only partial gains.

GEMINI (May 21-June 20) Be extra careful today not to play favoritism where friendships are concerned. If you do, there is a chance you might lose one or both pals.

CANCER (June 21-July 22) It's best today to get your distasteful chores out of the way first. By afternoon, your will to work may wane and you might never get around to them.

LEO (July 23-Aug. 22) Try to be a good sport today and go along with the will of the majority, even if your friends select activities that you're not overly fond of.

(NEWSPAPER ENTERPRISE ASSN.)

Motel owners question rates

(Continued From Page 1)

garbage operations here.

Other "old business" items address by the council Monday included second and final readings to adopt the 1984-85 city budget and its related city tax rate and a new city-county intergovernmental contract.

The 1984-85 City Budget features a lowered tax rate, projected at 25½ cents per $100 valuation. This is down from last year's rate which was in excess of 29 cents.

The overall city budget is estimated at $4.9 million. This is an increased spending estimate from the current $4.4 million city budget. Exact figures for each are $4,903,916 and $4,465,991 respectively.

The intergovernmental contract has already been approved by Scurry County commissioners. As part of it, the county will assume the city's tax collection service effective Sept. 1, 1985.

The fee charged the city will be .6 of 1 percent of all ad valorum taxes collected.

The collection aspect was to begin this year, but the county asked for a delay after it was determined there was insufficient memory space and time to transcribe tax data into the county's computer system.

Other major changes will see all city prisoners booked directly into the Scurry County Jail. This will eliminate the need for the city's 24-hour "holding cell" facility located at the police station.

The sheriff's office will also gain access to the city's police computer programming system.

For a flat fee of $100,000 yearly, the county will continue to share such city-administered services as the fire department, ambulance service, landfill and trash dumpster pickup.

The county will continue to provide such services as park maintenance, street sealcoating assistance and such facilities as the hospital, airport, library, coliseum and health unit.

Birthday Alamanac

Sept. 11 — Paul "Bear" Bryant (1913-1983), the college football coach whose teams won a record 323 games. He was closely associated with the University of Alabama, whose football teams he led from 1958 to 1982.

Sept. 12 — Jesse Owens (1913-1980), the track and field athlete and official who will be remembered for winning four gold medals at the 1936 Berlin Olympic games.

Deficit action is encouraged

By The Associated Press

With his tax-increase plan for cutting federal red ink on the table, Walter F. Mondale is challenging President Reagan "to stop avoiding the deficit issue." But Vice President George Bush says there's no need for Reagan to offer a plan because "the people know where we're coming from."

Bush, campaigning in the South while Reagan continued his break from the campaign, responded to the Democratic presidential candidate's unveiling Monday of a $177 billion package of tax increases and spending cuts designed to slash the budget deficit.

"It looks to me like a program for failure and for turning this country back to the economic gloom and doom it was in when we took office," Bush said.

Reagan, who is heading out Wednesday for political events in Buffalo, N.Y., dismissed Mondale's proposals as "nothing new" during a White House photo session.

Bush was going today to Charleston, S.C. before flying to Columbia, S.C., and on to Atlanta.

Mondale revealed his proposal in Philadelphia, and he was hoping to put the president on the defensive as he set out for Chicago and Green Bay, Wis., today to hammer away at the budget issue.

"I challenge Mr. Reagan to stop avoiding the deficit issue and start telling you what he intends to do about it," said Mondale. "Right now, Mr. Reagan, all my cards are on the table — face up.

"Americans are now calling your hand. Let's see it, let's debate it."

Reagan has not offered a similar plan for cutting the deficit. Treasury Secretary Donald Regan belittled Mondale's plan as "budget gimmickry" and said the administration would offer its ideas in the 1986 budget — to be presented to Congress after the election.

Bush, too, said there was no inclination to meet Mondale's challenge and put forward an administration proposal for deficit cutting.

"I don't see any propensity on the president's part to do that," Bush said while campaigning in North Carolina.

Asked if the American people didn't deserve more information, the vice president replied:

"No, I don't think so. I think they know if there's ever a president that the American people understood the direction he's going and wants to go it's this president. They know he wants to hold down spending. They know he is opposed to taxes.

"I think the people know where we're coming from. We're saying, just stay on this general course we're on," Bush added.

Meanwhile, the results were announced of a poll taken for USA Today. The survey of 1,032 registered voters last week showed Reagan leading 57 percent to 35 percent. The survey had a margin of error of 3 percentage points.

Baby to hospital following wreck

A three-week-old baby was taken to Cogdell Memorial Hospital by private vehicle for treatment of possible injuries following a two-vehicle mishap in the 1600 Block of 26th St. at 5:08 p.m. Monday.

The infant apparently did not require treatment, however.

The baby, Joe Martinez Jr., was a passenger in a 1978 Chevrolet driven by his mother Olga Gomez Martinez of 2612 Ave. U. She was involved in a collision with a 1977 Chevrolet driven by Lavinda Lea Smith of 1609 8th St.

Employees of Texas Electric Service Co. called police to investigate an apparent hit-and-run traffic accident at 2:46 p.m.

TESCO employees reported finding a utility pole in the 2000 Block of Ave. I which appeared to have been struck by an unidentified vehicle. Date and time for the accident is unknown.

Posse to meet

The Scurry County Sheriff's Posse will have its regular September meeting Tuesday.

It will be conducted at the club house beginning at 8 p.m.

Jet fuel was contaminated

DAYTONA BEACH, Fla. (AP) — Jet fuel contaminated by water caused an engine flameout in a grounded Eastern Airlines jet Monday and forced a Delta Air Lines flight to make an unscheduled landing at Jacksonville, a Federal Aviation Administration official said.

No injuries were reported in either incident, but Eastern and Piedmont canceled later flights out of Daytona Beach Regional Airport after the FAA suspended fuel sales there.

"There are so many precautions, it doesn't happen very often," said Andy Bray, a spokesman for the FAA's St. Petersburg flight standards district office.

The contaminated fuel was discovered early Monday when pilots attempted to start the engine of an Eastern DC-9 bound for Atlanta with 50 people aboard.

The engines flamed, sputtered and stopped almost at once, said Eastern spokesman Mark Wegel, and the fuel was suspected immediately.

The FAA suspended jet fuel sales at the airport until the cause of the contamination is determined, Bray said.

Meanwhile, Delta Flight 1444, another DC-9 also bound for Atlanta, already had taken off with 53 people aboard and was en route after fueling at the Daytona Beach airport.

Because bad fuel was suspected in the Eastern flameout, airport officials notified the Delta pilots of the situation and advised them to divert to Jacksonville, said Delta Spokesman Bill Berry.

"There were no performance problems," he said, and the jet landed safely at Jacksonville International Airport.

Juveniles implicated in missing cash case

Snyder police Tuesday reported clearing a recent misdemeanor theft reported at a local convenience store.

Two juveniles — one 15-years old and the other 14 — were arrested at 11:45 p.m. Monday in connection with the theft of money from the C&W Food Store at 13th St. and College Ave. Sept. 2.

Investigators have turned the case over to county juvenile authorities for possible prosecution. Both suspects were released to the custody of their parents late Monday night.

Dorothy Matthews of 700 N. Ave. T called police at 7:21 a.m. Monday to report the theft of two minibikes from her residence.

She told investigators that the bikes had apparently been taken from the residence sometime between 7:30 p.m. Sunday and 5 a.m. Monday.

Value of the missing bikes was estimated at $225.

In other action, city police jailed two suspects for public intoxication Monday evening.

Lone Star gas rate postponed

(Continued From Page 1)

ther consideration by the council. Lone Star is now seeking a rate hike equaling approximately 4.2 percent.

The council exercised its legal option to postpone a decision to allow further study. They are now required to take action within a 90-day period.

Local Lone Star Manager Wedge Turner made the presentation on behalf of his company Monday. The proposal is projected to raise the average residential customer's monthly bill about $2.47 in winter.

Lone Star's last rate increase in Snyder became effective in December of 1982.

Other agenda items prompting decisions Monday included votes to:

—Approve Snyder National Bank as the city depository for another year. Bids were submitted by each city bank. The main variance entailed interest amounts paid for certificates of deposit in excess of $100,000 and left for periods in excess of 180 days. For such deposits, SNB bid a flat interest rate of 12 percent. American State Bank bid a rate tied to the fluctuating levels of treasury bills (plus 1 percent); and West Texas State Bank bid a flat rate of 11 percent.

—Approve contracting with the Scurry County Appraisal District for the collection of city taxes during 1984-85 through August. The request will now be submitted to the appraisal district.

—Accept a bid from Blue Cross-Blue Shield for the new employee group hospitalization insurance plan. The BC-BS bid was among those received from four insurance companies. The council accepted a plan which offers employees options regarding family coverage and entails an employee premium of $51.19 per month with a $200 deductable.

—Deny a request to change a three-lot area in the Boothland West Addition from R-3 (general residential) to M-2 (heavy manufacturing). The area is in the 2400 Block of Gilmore Ave. The change was applied for by Don Fox, who sought permission to park two oilfield-related heavy equipment vehicles on vacant lots there. Opposition was raised by adjacent homeowners. The request was denied by a 4-2 split vote with Gene Thomas and Mickey Nunley voting against denial.

—Approve a second zone change request to change a 7½-lot area in the Boothland West addition from R-3 to M-2 also. It was requested by Bill Bailey, who sought to add a machine shop to the existing Bailey's Tire Service at 2412 Huffman Ave.

—Deny a special use permit being sought to allow the opening of a gift shop and book exchange at 2801 Ave. T, an area currently zoned for residences only. The permit was sought by Carolyn Gulseth. Opposition to the request was voiced by surrounding neighbors and the city's planning and zoning commission had recommended against it.

—Accept a recommendation made by a Dallas-based consultant to accept a bid for an "umbrella policy" proposed for the city which would cover "exposure liability limits" related to workman's compensation, motor vehicle accidents, public officials, police and general liabilities. The plan is in addition to the city's self-insured fund. The policy — to be issued through Arthur J. Gallagher and Company — will entail a first year premium of $47,874.

—Accept the lone bid for construction work to widen 30th St. east from College Ave. to the Deep Creek bridge. The bid — totaling $51,439, was submitted by Grimmett Brothers Construction of Snyder.

—Reject bids for a new city street sweeper. The plan now is to ask for new bids specifying diesel fuel engines and the option of air-conditioning — an extra seen as a health-saving measure to protect employees from dust.

—Reject bids submitted to purchase two new radar guns for city police units. One company indicated it failed to receive bid information in time and the council was asked to delay its decision to correct this.

—Approve adding a traffic sign at 32nd St. and Houston and yield signs at 32nd and Irving and 34th and Irving.

—Approve a request from Our Lady of Guadalupe Church to hold a parade next Sunday in the city.

—Approve a request from the chamber of commerce to hold the annual White Buffalo Days Celebration parade at 9 a.m. Oct. 13, a Saturday.

Births

A baby girl weighing 7 lbs. 4 ozs. was born to Becky and Darrell Craig of Rt. 1 at 9:30 a.m. on Sept. 10 in Cogdell Memorial Hospital.

Mr. and Mrs. Roger E. Burton of 2807 Ave. W are the parents of a baby girl named Meagan Elizabeth. Weighing 6 lbs. 1 oz., she was born at 7:30 a.m. on Sept. 6 in Methodist Hospital in Lubbock.

She is welcomed home by a brother, John Ryan. Her maternal grandparents are Col. and Mrs. John Barrett of San Antonio. Dr. and Mrs. Robert E. Burton of Canyon are her paternal grandparents.

FOOTBALL CONTEST

WEEKLY PRIZES!

PERFECT SCORE $100 Nothing To Buy

FIRST PRIZE $12.50

SECOND PRIZE $5.00 No Obligation

Entries Must Be In By **NOON FRIDAY**

Bring Your Entries to the News Office or Mail to Snyder Daily News Box 949 Snyder, TX. 79549

Test Your Skill...Win Cash Prizes

HERE ARE THE RULES OF THE CONTEST

In each advertisement on this page you will find the contestants in a prominent football game being played around the country this weekend. On the entry blank at the bottom of the page, fill in your selection of the WINNING TEAM only...opposite the name of the business firm on the entry blank. Then clip out the entry blank and send it to FOOTBALL CONTEST EDITOR, SNYDER DAILY NEWS, BOX 949, or bring your entry by the News office. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie must be specified as a tie or else it will be considered a miss.

To avoid splitting the prize money a TIE-BREAKER slot will be provided on each entry blank. Pick the score for that game only and in case of a tie the one who picks the winner and the nearest number of total points will receive the prize money. The same formula will apply to second prize winners. In case of a tie for a perfect score, the same formula would apply.

There will be fun for the entire family. Only one entry blank will be permitted for any one person. More than one will disquality all the person's entries. Scores listed on the entry blank will have no bearing except in the case of the tie-breaker. Sign your entry blank and list your address and phone number and watch for the story in next Tuesday's SDN. Employees of the Snyder Daily News and their families are not eligible to enter.
