School And City Elections On April 2nd and 5th Deny Petition To Form Special Road District In This County

WANTED SPECIAL DISTRICT IN SOUTHWEST

Taxpayers of Precinct Three Did Not Want Special District At Hearing Wednesday

Asked For An Election

Motion Not To Grant Petition Is Made By Commissioner E. A. Fuller of Precinct 3

At the hearing held before the Commissioners Court on Wednesday on the matter of the petition of fifty-nine taxpayers from the southwest commissioners precinct number three, asking that that precinct be designated as a special road district and that an election be called for the purpose of voting bonds to the amount of \$100,000 be called, the money to be used for the construction of a paved road east and west through the precinct over the route known as the old D. C. D. highway, the petition was denied by the court on the motion of R. A. Fuller, commissioner from that district. The route mentioned in the petition, being neither a state or federal road would have to be paid for entirely by local finances, no part being paid by the state or federal governments.

It is understood that the denial of this petition was in keeping with the wishes of the petitioners and that they do not desire at this time to establish a special road district out of the southwest precinct. This precinct, in the past, has voted almost solid against county-wide highway bond issues.

CLEAN UP WEEK IS SCHEDULED

MAYOR SHANKS PROCLAIMS THE WEEK OF APRIL 3 TO 9 AS CLEAN UP WEEK IN PERRYTON

The week of April 3 to 9 will be clean-up week in Perryton, according to Mayor Dave Shanks who issued a proclamation on this week to that effect. The proclamation is to be found in this issue of the Herald.

According to Mayor Shanks, the dates selected are the ones of the late-wide clean-up movement and property owners are requested to pay particular attention to the necessity of cleaning up around their premises on this week.

The clean-up division of the Better Homes in America campaign, headed by Mrs. C. W. Callaway, is working in conjunction with the city in the clean-up movement. "Everyone is eligible to enter the Better Homes in America contest," Mrs. Callaway states, "and cleanliness of your premises, alleys and yards means a lot. Even though you may not care to enter the contest, you are appealing to your personal as well as civic pride to help serve this special clean-up work."

GAS RATE HEARING IS CHANGED TO APRIL 11

The date for the hearing of the gas rate controversy before the State Railway commission has been changed again, according to Mayor Dave Shanks, the hearing is to be held on Monday, April 11.

The case was postponed from March to April 11. Then it was changed to April 1 and has now been changed back to April 11, according to a letter received by Mayor Shanks from the commission.

The controversy in question arose out of the action of the city council last fall when they passed a rate reduction ordinance. The gas company made an appeal and asked for a hearing before the commission. Should the city win the case, the reduction ordered by the council will be effective from December 1 and will be ordered and the bond put up by the Public Service Corporation of Texas will insure the rate to the statement arising from the overcharge. In the event the gas company wins the suit, the old rate will continue to be in effect.

NO HIGHWAY BOND LETTERS TO BE PUBLISHED

The Herald has a policy of running many public letters and communications in our "Letters from Readers" column but in the matter of the present highway bond issue, we have been forced to draw the line. As we go to press this week, we are confronted with enough letters, both for and against the issue, to fill several entire pages. We are unable to run all of these letters, so in fairness to all on both sides of the question, we have decided to run no public letters in our free column on this question. We expect to handle the highway bond question from a news angle and also will discuss it editorially. Any letters, communications or display advertising which we may deem acceptable to run as paid advertising will be published. Space is a newspaper's stock in trade, just the same as groceries, hardware, furniture, lumber, drugs, wheat, live stock, etc. is to the farmer and business man and owing to the present condition of our business, we simply are not able financially to devote column upon column of space to the publication of these letters.

NEW FORD V-8 IS ANNOUNCED

JOHNSON MOTOR COMPANY TO HAVE DEMONSTRATION SOON; HAVE ALL DE. TAILS OF NEW CAR

Announcements have been made this week in a national advertisement campaign by the Ford Motor company regarding the new V-8 Ford models which will be on display in Perryton soon. According to R. C. Johnson, manager of the Johnson Motor company, local Ford dealers, following his return Wednesday evening from Oklahoma City where he attended a dealers meeting, a demonstrator will probably be received here within the next two or three weeks.

All of the details of the new Ford have been announced. The new V-8 engine is of the 90-degree type, developing 65 brake horse-power at 3,400 R. P. M. It introduces new mechanical features which simplify construction and minimize wear.

The new engine is remarkably free from vibration. Frequent and overlapping impulses deliver the power in a smooth, constant flow.

The 65-pound crankshaft is of the 90-degree type with its four throws or cranks at right angles to each other. The crankshaft is statically and dynamically balanced. There are three large main bearings.

Crankshaft, connecting rods and pistons are in balance and operate with smoothness at all engine speeds. Pistons are of aluminum alloy. Each has three rings. The lower one, being slotted, acts as an oil-control ring.

Cylinder blocks and crankcase are cast in one piece with the result that cylinders and crankshaft are always perfectly aligned.

New-type one-piece valves which eliminate push rods operate directly off the camshaft. Thus instead of doubling the number of pushrods used in the 4-cylinder engine, they are eliminated altogether.

All connecting rods are of the single-end type and are interchangeable. Those from opposite ends are interchangeable.

Proclamation By The Mayor

The week of April 3 to 9, inclusive, has been designated as SPRING CLEAN-UP WEEK.

There are many reasons why the Spring Clean-Up Campaign this year should receive the enthusiastic support of every man, woman and child. First, because a city that is clean and beautiful creates cheer and banishes gloom. Cheer produces courage and confidence, and no doubt, most of us are badly in need of both of these attributes at this particular time. Second, because every dollar in property destroyed by fire, which so frequently is the result of "careless" housekeeping in the home and in the average place of business, is a serious drain upon our present economic condition. Third, because every job created in connection with Clean-Up Campaign not only develops better fire protection, but supplies better sanitation and public health. It creates an atmosphere of encouragement.

NOW, THEREFORE, I, Dave Shanks, Mayor of the City of Perryton, do hereby designate the week of April 3 to 9, inclusive, as SPRING CLEAN-UP WEEK and most respectfully call upon all departments of the city, the Chamber of Commerce, Civic Clubs, Patriotic Clubs and our people in general, to take an active part in this Clean-Up Campaign. I further designate the Fire Marshal and Fire Chief as a committee of two to work with the City Officials in promulgating active committees to carry on this Campaign and ask the cooperation of all of our people in this enterprising campaign for a clean city.

IN TESTIMONY WHEREOF, I hereto sign my name and seal of office, this 23rd day of March, 1932.
DAVE SHANKS, Mayor
Perryton, Texas.
ATTEST:
J. C. BEEVER,
City Secretary.

SNOW-RAIN FURNISHES 65 INCH MOISTURE

The snow and rain of last Saturday evening supplied 65 of an inch of moisture, according to Jack Allen, who keeps the government rain data in Perryton.

According to all reports, the rain and snow was fairly general only this and adjoining counties and will prove very beneficial to the growing wheat crop. Weather conditions for the past week have been unsettled with high winds prevailing. Very little damage to crops has been reported from the winds, however, and the recent moisture will protect the ground for some time.

CIRCUS COMING HERE APRIL 8

SHELL BROS. CIRCUS TO SHOW HERE; MERCHANTS TO SELL TICKETS AT VERY LOW PRICE

"When I was a kid!" An expression used daily by "the grown ups," the circuses were different then than they are today. Such are the expressions used and heard daily in every city, town and hamlet of the country, by the grown ups, as we called our fathers and mothers when we were a child, and such will be the expressions and thoughts of the kids of today when they arrive at woman and manhood of tomorrow.

As far as changes in the circus go, the circus of today is identical of that of yesterday. It has not changed only for the better. The performance is far superior than that of the old circus. The methods of operating have changed with times, and today we find among the circus folks the cleanest living performers in the world. The morals, the life, the conduct is always of the best. The staff, the working crew, the bandmen, the aerial artists, the lion trainers and animal trainers, have progressed today as the schools of our country have progressed. The old method of teaching of fifty years ago would be laughed at in the schools of today, and so with the circus, the methods of conducting a circus of fifty years ago would be laughed at today, and the change in staff and working agencies of the circus today, bring forth men and women of the highest character whose aim in life is to conduct an amusement enterprise unparalleled by any other form of entertainment. But the circus is still circus.

When Shell Bros. Circus exhibits in our city on the afternoon and night of April 8, we will find among the associates, stars of the sawdust ring who give their best and their best of today can never be exceeded as far as entertainment is concerned. Among the many unique features of the program, are the only trained baby elephants and their mothers performing with any circus today. Capt. Robt. McCue trainer of this group of pachyderms takes great pleasure in presenting the only baby elephants in the most difficult of feats, starring Baby Bolo, the ten thousand dollar baby elephant in the most unique of acts.

Hundreds of people, animals, etc., trained horses, trained bears, trained hyenas, fighting, snarling lions, trained high school horses, aerialists supreme, reign among the diversified form of entertainment with the Shell Bros. Circus.

A four ring circus, four rings of thrills, a glittering array of gilded wagons, blaring bands in the grand free street parade, are but a part of the entertainment you will get.

FARMER IS DEAD FROM EXPOSURE

HANSFORD COUNTY FARMER IS FOUND DEAD FROM EXPOSURE IN STORM LAST SATURDAY NIGHT

GRUVER, Tex., March 28.—Searching parties today found the body of Sophas Brandzik, 65 year old Hansford county farmer, who died from exposure Saturday night soon after he had abandoned his stalled truck in Coldwater Creek.

Searchers found the body sprawled face down in pasture about three miles from the truck. Weakened by a recent attack of influenza, Brandzik had collapsed about one mile from shelter, a vacant farm house.

Discovery of the body ended a search that was assuming gigantic proportions. Searching parties organized at Texhoma, Goodwell, and Guyton, Okla., and in Hansford county, had been working since Saturday night. They were joined today by pupils of the Gruver school, taught by Brandzik's daughter, Miss Helga Brandzik.

Brandzik was caught in a late spring blizzard that swept this section for several hours Saturday night. A terrific north wind and wet snow made travel on foot hazardous.

Brandzik has been a resident of Hansford county 25 years.

INVITES PUBLIC JUBILEE EVENT

MUSICAL FESTIVAL IS FREE TO PUBLIC; TO BE HELD HERE ON APRIL 8 AND 9

All events of the Musical Jubilee to be held here on April 8 and 9, will be open to the public and no admission will be charged at any of the various programs. Supt. W. B. Irvin announced this week.

"The Perryton Chamber of Commerce and the Lions Club Male chorus have made it possible," Mr. Irvin stated, "for all events to be open to everyone free of charge."

"The purpose of the Jubilee is to encourage high school pupils to do better work in their own particular field of music and oratory and is not intended to be commercial in any way," he continued. "We want it to be a Jubilee that everyone may take part in."

Next week's issue of the Herald will contain a detailed schedule of the various events and contests so that the public may plan to attend these events that are of special interest to them.

VOTERS MUST CAST BALLOT IN HOME PRECINCT

In many past elections held in this county, it has been the custom to let electors cast their ballots in other precincts other than their own voting precinct. This is strictly illegal and such votes can be contested and declared null and void. The law is very plain on this subject and says that voters must vote in their own voting precinct. Do not get voting precincts and commissioner precincts confused.

There are four commissioner precincts in the county while there are fourteen voting precincts. Bear this statute in mind and in the coming highway bond election, cast your ballot in the voting precinct of your residence.

DRAMATIC CLUB PLAY SUCCESS

"APPLE BLOSSOM TIME" GIVEN BY CLUB AT HIGH SCHOOL LAST THURSDAY EVENING

The three-act comedy play, "Apple Blossom Time," was presented to a large audience in the high school auditorium on last Thursday evening, March 24. The high school orchestra, under the direction of G. Ward Moody, played several well rendered musical selections.

The presentation was a strict comedy from beginning to end, producing much laughter from the audience. Responsible for the success of the play was Miss Ella Marie Wales, director of the cast and sponsor of the Dramatics club.

Individual members of the cast acted their parts exceptionally well. The part of Betty Anne, the unruly little "brat" was played by Tommie Lea Hogland, while Ella Ray Kutch did justice to the part of Nancy.

Lester Bryan acted the part of the guardian very well, but all will agree that he made a better lover. The part of Charlie Lawrence, who could always "handle the situation," was played to perfection by Clyde Cofer.

Eloise Stevens made a very entrancing Loretta, while Clarice Allen was a very affectionate old maid. Emile Withers was a picturesque exemplification of the "law in action" as the city constable.

Polly, an old maid house keeper, was played by Eleanor Stark. Max Dean and James Morris made the pair "Spud" and "Mickey" and Mary Ann Forbes was a very attractive Melvina.

The plot ended very satisfactorily with many happy romances just having begun.

MUSIC JUBILEE ON APRIL 8-9

FIRST ANNUAL SPRING MUSIC FESTIVAL OF HIGH SCHOOL TO BE STAGED IN PERRYTON

Perryton will hold its first annual Musical Jubilee on Friday and Saturday, April 8 and 9, of next week in the high school auditorium.

This will be the first time that this kind of an occasion has been tried in Perryton and it is expected to be a very great success.

Much interest from other schools is being manifested, several letters of inquiry have been received regarding it, which have all been answered.

A number of entries in the various classes of the contests have been made and several more are expected to be received by April 1, the final date for all entrances.

The contest will include competition in class A, B, and Junior bands; boys and girls glee clubs, instrumental and vocal solos, and the oratorical contest that is to be a special feature of the event.

Cups and medals will be awarded to the winners of first and second places in each event.

According to Supt. W. B. Irvin, over 150 students are expected to be in Perryton for this affair. Homes will be needed for all outside contestants.

With the cooperation of the entire population of the city of Perryton this Music Jubilee should be a very successful affair.

PRESENTS PICTURE TO SCHOOL

This presentation of Mr. Wilson's is greatly appreciated by the students and faculty members. Gifts of this kind help to rightly decorate the buildings with something worth while.

CHURCHES

NEWS BY THE MINISTERIAL ALLIANCE

seems to be a mistaken notion which has traveled a long period of years. It even happens that pastors are introduced in public as rivals. It is thought that churches are rivals of each other; the church goes down the other goes up; if one church has trip-observance schisms another has a better chance. The fact is the church goes up or down together. "For the body—of Christ—is not one but many." And then follows the only natural argument possible: the foot shall say, "Because I am not the hand, I am not of the body; is it therefore true. The body of Christ would be dreadfully to be all foot, all hand, all ear, all hearing. Each of these must be in the right size and proportion in the body—in their own estimation. But now hath GOD set the members each of them in the body, as pleased him." Where blood is of one sort, diseases are of a sort. The blood which is of one sort is that each of these several are fed and nurtured by the blood of Christ. Then all suffer together; when one has on church disease, another is open to it and when one member suffereth, all the members suffer with it; member is honored, all the members rejoice with it. It some times we enjoy suffering together and have better grace at it than re-joice when one is honored.

Our Neighbor

In loving memory of J. F. (Bud) Smith, written by Edith Perkins-Sheets, a friend.

I saw him once as he passed my way, His back was bent and his hair was grey.

His step was slow and he walked with a cane
As day by day his race he ran.

A family he raised; six children, yes, Five girls and one boy his dear life to bless.

And of education, he gave them the best.

His family he loved very dear, Well he provided for them year by year.

He chanced to be our neighbor too, But only for a year or two.

His health was poor and he went away
To Mineral Wells one December day.

With a smile on his face he bade all good-bye
And said with a twinkle in his dark blue eye,

"I'll be back to the ranch in a month or two,"
Little dreaming that in a day or two

He'd be numbered with the "chosen few".
Oh! the wound was fatal friend
And he realized he was nearing the end.

The angels held a beacon light
As he sailed safe home, one sad, sad night.

His body is at rest in "Old Ochil-tree".
The spirit soared on to eternity.
He's looking back, wife, daughters, son,

With loving eyes on every one.
And my advice dear friend to you
Is to live your best being always true.
Reunited soon will you be
To live throughout eternity.

NOTICE TO DOG, CHICK-EN AND COW OWNERS

Spring is here and it is time for gardens, flowers and shrubs. Also flies and disease.

If you have a dog that you want to keep, please have him licensed. Unlicensed dogs should be licensed at once.

If you have chickens, confine them.

All cow owners in the city are re-quested to clean their cow lots at once and to keep them clean. All refuse from cow and horse lots must be hauled out of town by the owner. It is a violation of the city ordi-nances to pile such refuse in the alleys and the ordinances will be en-forced. Unless cow owners make a greater effort to clean and keep clean their premises, it is likely to bring a greater demand for the out-lawing of cows, and one that can't

be ignored.

It is necessary for us to surrender some rights when in cities and towns in order that we may enjoy others. Owners of live stock, pet stock and poultry should not overlook the fact that their neighbors rights should be respected, as well as their own.

Place no junk or rubbish in the alleys that you do not want hauled off. The alleys are public property and not for exclusive use or storage space. The city junk and garbage wagon makes the alleys regularly but does not take up garbage on the same trip that it collects trash and junk. Garbage and trash con-tainers, should be separate and must be placed at the property line. City employees are not expected to leave the alleys to secure any trash or garbage.

Is Committee Head

Mrs. R. W. Stratford Appointed Head of Better Homes Committee at Farnsworth

Mrs. R. W. Stratford has been appointed chairman of the Better Homes committee for Farnsworth.

This is the eleventh nation-wide campaign of Better Homes in America, an educational organization established for public service in the interest of home improvement. President Hoover is honorary chairman of the organization and Secretary Wilbur is president. The headquarters office is in Washington, D. C., with Dr. James Ford in charge as executive director.

The Better Homes campaign is designed to stimulate the improvement of housing conditions and bring about a more wholesome type of home and family life. The programs carried out by local committees are determined by the needs and conditions in the community. Features include lectures and discussions, exhibits, contests, and where possible the demonstration of one or more new or remodeled houses to show how the better types of homes can be provided for families of modest incomes at a cost within their reach. Care and repair programs as a means of relieving unemployment during the winter are being emphasized again this year. These programs culminate in Better Home week which in 1932 will be from April 24 to May 1.

The findings of the president's conference on home building and home ownership, which took place in the first week of December, are giving added stimulus to the Better Homes campaign this year. The studies of the various Conference committees include such subjects as the design of homes, home construction, financing of homes, household management, homemaking, landscape planning and planting for homes, the elimination of slums and blighted areas, farm and village housing, home information centers, home furnishing and decoration, and standards and objectives.

More than eight thousand communities took part in the 1931 campaign and Better Homes in America is looking forward to even greater cooperation in the coming year.

CARRILLO REPEATS HIS SUCCESS IN FILM PLAY

Leo Carrillo, stage star for many seasons in "Lombardi, Ltd.," re-enacts his stage role in Paramount's filmization of "The Broken Wing." The picture version of this famous drama comes to the Ellis Theatre for two days, beginning Monday of next week.

As the swaggering bandit who holds captive the aviator forced down near his camp, Carrillo joins Lupe Velez and Melvyn Douglas, who have important parts in the cast.

Carrillo, who has been dividing his time between the screen and stage, recently closed his engagement in the stage version of "The Broken Wing" at San Francisco, after having played to a long run in Hollywood.

Noted for his work in dialect characterizations, Carrillo has been a stage star for many years, his biggest hit having been "Lombardi, Ltd." He recently entered talking films and has just completed the "bad man" role opposite Dolores Del Rio in "The Dove." Preceding this work were parts in "Hell Bound," "The Homicide Squad," "The Guilty Generation," "Lascas of the Rio Grande" and "Race Track."

Miss Velez, subsequently featured in Ziegfeld's current musical comedy, "Hot-Cha," was signed for the feminine lead following her work with Lawrence Tibbett in "Cuban Love Song."

To Provide Education

American Legion Auxiliary Striving To Assist In Educating World War Orphans

Intensive efforts to open opportunities for higher education to all of the 1,112 World War orphans who will reach college age this year are being made by the American Legion Auxiliary, working in cooperation with The American Legion, according to Mrs. J. R. Thomas, chairman of the activity for the local Auxiliary Unit. State educational aid has been secured for war orphans desiring to remain in school beyond the age of eighteen in twenty states, containing approximately half the orphans. As all World War orphans are now approaching college age, it is imperative that aid be made available for the remainder without delay. Mrs. Thomas said.

"The American Legion and Auxiliary have adopted as one of our major activities a program designed to provide adequate education for children of the men who died for the country in the World War," explained Mrs. Thomas.

"We realize that, being deprived of a father's aid and support, these orphans may some day stand ready to enter adult life seriously handicapped by lack of education. We believe that every war orphan is entitled to the full educational opportunities he might have enjoyed if the father had not died for America, and we are working to make college or technical training possible for every one of them."

HUNTOON ITEMS

Miss Ethlyn Cokerell, Red Cross nurse, spent the entire day at Huntoon, Monday examining school and pre-school children. The following pre-school children were examined: Donald Hedgepeth, Jack and Roland Hurter, Jack, Esther and Chester Kershman, Everly and Bobby Jo Marriot, Lorene Littan, Edwin Bernard and Barbara Pletcher, Rita Ann Hurter, Harold Hedgepeth, Albert Littan, and Carl Cummings.

The Huntoon school had a 100 per cent representation at the Special train in Booker on Thursday of last week. The prize for attendance was divided between four schools and Huntoon received \$4.37.

A drinking fountain has been installed at the school recently. This is not only sanitary but adds to appearances. We have also just finished oiling the school room floors.

Those on the honor roll for the seventh month are as follows: Primary, Donald Schuster, Mildred Morris, Ruth Day; first grade, Elsie Littan; second grade, Margaret Mary Pletcher; third grade, Bobby Schuster and Randolph Skulley.

A cleaning up day has been planned for the Huntoon school in the near future. At that time the playground equipment will be moved to the south side of the school building, curtains will be made for the windows, the barn will be rebuilt and other improvements will be made.

have the further effect of adding to the safety of the highways by insuring against any possible mechanical defects in those cars serviced during the campaign. Mr. Douglas pointed out.

Some vital operation, ranging from brake adjustments to wheel alignment and complete tightening of every part of the chassis, is to be offered by the dealers at sizeable reductions from the flat rate charge, for a period of one week only during the campaign. Ten such featured services, all having to do with appearance and performance, are in the campaign, which extends over a period of ten weeks.

National newspaper advertising, as well as special newspaper campaigns for the dealer's local use, are to publicize the event and the featured services each week. Radio announcements on a national and local scale also are to be used.

Mr. Douglas pointed out that the special rates during the campaign will induce many people, who otherwise might not have their car serviced, to check at least vital points pertaining to performance before they get out on the highways during the heavy motoring season.

Mr. and Mrs. W. B. McLarty and children, Pollett, spent Saturday night and Sunday with his folks, Mr. and Mrs. W. W. McLarty, and family.

SOME PLAIN TALK

One of the strongest protests that has been voiced in opposition to the ever increasing expense of government was contained in a memorial to Congress by the Federation of American Business a few days ago. It included these plain words:

"You have balanced your books by borrowing. Deliberate over-appropriation in expectation of recourse to borrowing for ordinary and recurring expense invites financial disaster. Your last offering of Treasury notes was barely over-subscribed. It is perfectly obvious that your credit is burning up."

The condition of which the Federation so justly complains is to be brought home to the taxpayers when they study the new revenue bill increasing their tax burden by both direct and indirect levies. The imposition of this further burden is bound to retard, even if it does not entirely prevent, the recovery of business and industry.

But if the Federal government is extravagant and wasteful, the various state governments are even more so, while county and municipal governments are in many cases virtually bankrupt as a result of reckless spending.

During the last few years the creation and extension of departments, bureaus, boards, commissions and other tax-spending agencies, with

their increasing army of employees, has become a veritable public menace. Worst of all, many of these agencies are devoted chiefly to harassing and oppressing the very business men and other taxpayers who have to foot the bill.

There is an increasing demand for the balancing of all government budgets. This should be done, not by increasing taxes, but by reducing expenses. And the time to begin is now.

FREDRICK Wm. SALZMANN

Another name is stricken from the ever lessening roll of our settlers and a home is left lonely by the passing of Fredrick Wm. Salzmann on March 24, 1932, at his home near Balko, Okla.

Mr. Salzmann was born at Berlin, Germany, on September 6, 1855, and came to the United States in June 1881. He made his home at Chicago, Ill., and became an American citizen in October 1886.

In 1883 he was united in marriage to Miss Barbara Faist, who preceded him in death. To this union were born five children. They are Charles A. Salzmann, Mrs. Emma Morris and Mrs. Lena Partridge of Gray, Okla.; Mrs. Carrie Nass, Liberal, Kans., and Fred Salzmann of Galveston. Beside these children there are eleven grandchildren, one great grandchild and a host of other relatives and friends, who mourn the departure of this loved man.

Mr. Salzmann came with his family from Chicago to Beaver County, Okla., in October, 1903, and filed a claim northeast of Gray, where he made his home until death claimed him at the age of 76 years, 6 months and 18 days.

Rev. J. W. Martin, Booker, was in charge of the funeral services held from the Balko church Monday afternoon, March 28. The mortal remains were laid to rest in the Beaver cemetery.

OCHILTREE GRANGE

The Ochiltree Grange met Tuesday evening, March 22, instead of the regular Wednesday night so everyone could see the special Farm and Home train. Considering the bad roads, a nice crowd was present, and a very interesting program enjoyed.

The Juvenile members visited during the lecture hour. Afterwards business matters were discussed. A Grange seal was ordered. The tax subject was brought up and several papers read showing how other counties of Texas, and counties of Missouri and Minnesota were dealing with this problem.

A committee was appointed to meet with other county Granges.

ROAD BONDS

To the Ochiltree County Herald and All Parties Interested:

In discussing the tax question that is sweeping the country today, we are thinking taxes, talking taxes and dreaming taxes. It is evident that the law-makers are becoming convinced that the people are in dead earnest in the matter of reducing public expenditure. The tax question is being discussed in all quarters.

In my judgment the most simple way to reduce taxes is to down expenses. If our county, state and nation are contemplating any public improvement the first matter of consideration should be "can the taxpayers meet the expense and keep their heads above the water?" We can never accomplish much in reducing taxes unless we are governed in public improvement by the same rule that should guide our private affairs, and not make debts that are burdensome. Taxes must come down. The tax burden is very serious, but the cold fact of the matter is, we are all to blame for bringing about the present condition. No one can help the people until they wake up and get ready to do something themselves. Taxes will be reduced when the people, as a whole are made to

realize that we are responsible for the heavy and growing burden of taxation. We elect the men to office who impose and collect these taxes and more often they are more interested in increasing the expense than reducing it. My taxes are higher this year than they have ever been. I have also learned that forty per cent of the very best citizens of the farm and in the cities, intelligent and hard working people are by hundreds losing their homes they have spent years seeking to acquire in clear title.

Home owning and farm owning would be far more general than it is today if it were not for the heavy burden of taxation. Try to purchase a city home or farm home and in many cases it will be found that back taxes forced the owner to dispose of the property. Many a farm is priced cheap enough but when the prospective purchaser looks up the matter of taxes, the sale is off. Excessive taxes constitute one of the greatest bars to real estates in city and country and yet the situation seems to be getting worse every year.

Now they are voting the county road bonds upon us, subjected to taxation. D. E. Colp, of San Antonio, and a pioneer of Texas, said one of the most unpopular things a person could do, was to go into a county and advocate a bond issue for road construction. The way it

looks now the problem of excessive taxation will never be solved until all realize that in one way or another all are taxpayers, and that the thing to do is to put on the brakes. When we made the laws so the government could build roads and enter other business we thought we were passing the buck and going to get something for nothing. We are learning that we are the government, consequently we do the paying but have very little to do with the spending. The fact that our nation is governed by a group of people instead of a king will not render it immune against decay caused by unlimited tax abuse.

I am not a red, not even a socialist. This government is all right provided it is run by the people and for the people instead of being run by the government employees. By what right has one man or any set of men to induce conditions which virtually enslave their fellow men? Where are the equal rights, liberty and happiness guaranteed by the constitution.

Respectfully
C. S. McGarrough

PLAYERS LEARN TO TALK LIKE APES IN TARZAN FILM

Learning to talk from the simplest syllable sounds was the difficult dialogue problem mastered by Johnny Weissmuller, world's champion swimmer, for his role in "Tarzan, the Ape Man", now playing at the Ellis Theatre for two days.

As an Englishman raised by apes in the jungle as one of their own, Weissmuller was required to speak only the most rudimentary vocal sounds in early sequences of the adventure drama. When he meets the heroine, Maureen O'Sullivan, in the jungle, she is supposed to teach him to talk.

The only word he knows is his own name, "Tarzan", which he repeats constantly in response to any spoken word. Starting with very simple one-syllable words, he is taught to say "me", "you", "we" and has to speak them in a halting and uncertain tone of voice like a beginner learning how to talk. The feat required as much study and practice as the task of learning long lines of dialogue.

A player in W. S. Van Dyke's last jungle drama, "Trader Horn", found himself in somewhat of a similar predicament, for in this picture the heroine, Edwina Booth, was not permitted to speak a word of English, having to learn instead long lines of difficult African tribal speech.

"Tarzan, the Ape Man" is a picture of the widely-read Edgar Rice Burroughs novel. Prominent roles are played by Neil Hamilton, C. Aubrey Smith, Doris Lloyd, Forrest Harvey and Ivory Williams.

TRY THIS FAMOUS BLINDFOLD TEST! 6 OUT OF 5 CAN TELL THE DIFFERENCE!

"SNIFF! SNIFF!" That suit came from Harlow's! Yes folks, it's true! Your nose knows. Six out of five can tell the difference, in the smell of the clothes returned from the cleaners. Hundreds have tried this blindfold test, yes thousands—what do we care for figures—and what does it get them? Nothing! But one outstanding fact remains—out of the three leading cleaners, the clothes returned from Harlow's smell the worst.

And in order to give our customers even better service, we burned our cleaning plant down. Of course we did it for the insurance thinking we could retire but they didn't pay us enough so we had to go back into the business.

To make matters worse, just because we couldn't pay the rent, our land-lord kicked us out, so we moved next door, where we'll be located for several months, we hope.

We remove all buttons in our cleaning process.

And we're in a similiar position. We've got all kinds of merchandise, but we can't eat valves and piston rings and break lining.

Farmers—

We have a solution for this depression and believe us it will work. Now all you have to do is come in, each one of you and buy \$10.00 worth of repairs, and pay cash for them of course. Simple isn't it? Suppose only a thousand do this—that makes \$10,000 we'll have and the depression will be all over as far as we're concerned.

We'll be looking for you or if it's more convenient, just mail us a ten spot—we'll take good care of it.

We Owe For OUR HOME

The Modern Motto

DO YOU OWE FOR YOURS?

Meet Mr. and Mrs. Glutch. Six years ago they got tired of paying out rent. In spite of everything we could do they insisted on buying a home on the uneasy payment plan. Now they still owe for it and unless they make the two payments they are behind we'll have this wonderful place for sale again.

You too should owe for a home of your own. All you have to do is rustle enough for the down payment and make regular monthly payments in addition to the taxes, paving assessments, insurance, and upkeep.

Or we'll sell you a whole farm the same way. It looks too good to be true but we're kind hearted that way.

NEW FORD V-8

(Continued from page 1.)

Cylinders are placed side by side on the same crankshaft. A new type of floating crank-pin bushing, babbitted inside and out, distributes the pressure load from opposing cylinders over the entire crank-pin bearing surface.

The intake manifold passages are cast integral with an aluminum coverplate between the cylinder blocks. This is a new Ford development.

The down-draft carburetor is supplied by a fuel pump which is of the diaphragm type operating off an eccentric on the camshaft.

A small opening inside the center of the manifold coverplate runs from the exhaust chamber on one side of the engine block to the exhaust chamber on the other side, allowing a surge of hot gases to pass back and forth and forming a hot spot on the intake manifold which preheats the gas.

The distributor is connected directly to the camshaft and thus operates without any interposed gears. The distributor is fully automatic, spark timing being controlled by vacuum from the intake manifold.

A movement for better attention to exactness and elegance of expression in the English language in New York schools is most commendable. Oddly enough, the educator selected to head this better English campaign bears the decidedly un-English name of Gustav Straubenmuller.

Guards at a Massachusetts estate refused admission to a plumber carrying tools, fearing he was an impostor. They couldn't image a real plumber bringing his tools on his first trip to the job.

An Atlanta marble works advertisement is headed thus: "You know a lot of people who need monuments." Perhaps there is no urgent need for monuments, but some communities will be better off when certain citizens become eligible for them.

One Ohio town ordinance provides as follows: "When two cars come to a crossing both shall stop and neither shall start until the other is gone." If this be carefully observed there will not be many collisions, but there may be some slight traffic congestion.

Perhaps there's nothing in a name, but A. G. Luck of Bridgewell, Eng., things there is. He insured his married daughter against the birth of more than one child, and when she bore twins he collected \$5,000.

Do You Feel Like This Fellow Looks?

Do you have B. O. (body odor) halitosis, dandruff, falling hair or falling arches and pink toothbrush? Then no wonder you are a wallflower at any party. What you need is a thorough cleaning and pressing.

However all cases are not so simple as this one. Many require a thorough examination but regardless of what is wrong, we'll clean you if we can and press the sides of your pocket book a little closer together.

Listen To This Pitiful Tale!

Probably you think we're going to tell you the reason moths leave home is because you have let us do your cleaning work.

The real low-down is that there is so much cotton in most of the wool suits that we get that the moths are dissatisfied with their rations.

Feed them better woollens and you won't be troubled like this anymore.
