CONGRESS TO SPEED UP PROGRAM

ARMY TROOPS MAY BE PLACED IN BANNED AREA

MORE PRECAUTIONS DEEMED NECESSARY TO HALT CATTLE DISEASE

By United News. LOS ANGELES, April 24.—Arrival of additional federal officials was awaited here tonight as Southern California continued its warfare, so far a discouraging one, against the foot and mouth disease.

Discussion of the possibility of army troops being assigned as guards over the quarantined area was heard as the state department of agriculture announced that stricter enforcement of emergency regulations must be secured.

Two new outbreaks of the disease, one in old infected territory and the other in a new dairy section, were reported during the day.

San Diego, to the south, took precaution to prevent possible spread of the disease into that section, adopting an ordinance prohibiting all automobile traffic into the county except over designated paved highways and then only after machines and passengers have been thoroughly fumigated. A charge of \$1 per person for this disinfection was approved.

Arizona is busy erecting fumigation stations in Kingham, Wickenburg and Yuma where commencing Monday all railroad passengers to Arizona points will be disinfected. The Arizona automobile ban is still being rigidly enforced, with no trouble reported either at Yuma or Needles.

Texas Quarantine Threatened
EL PASO, Texas, April 24.—Governor George W. P. Hunt of Arizona has written Mayor R. M. Dudley that Arizona would quarantine against Texas, if re-shipment of goods from California into Arizona was not stopped.

Mayor Dudley began an immediate investigation through Dr. C. A. Proper, chief food and dairy inspector and no violation of the Arizona embargo was found. It was disclosed that no re-shipments had been made from here. Mayor Dudley referred the letter to the chamber of commerce and wrote Hunt that he was opposed to doing anything to retard the quarantine work in Arizona and that he had asked the chamber of commerce to take the matter up with the merchants.

MEN WOUNDED BY GUNMAN WILL RECOVER

Ben R. McCormick and T. H. Moore, who are in a sanitarium here suffering from gun wounds inflicted by Will Word at the Windham ranch southeast of Brownfield Wednesday morning were reported to be resting well late last night and all indications are that they will both recover.

McCormick is seriously wounded, while Moore is suffering from a flesh wound.

ONE KILLED AND ONE HURT BY A TRAIN

H. E. and S. L. Miller, of Lubbock, received a telegram Thursday stating that their sister, Mrs. Lon Matthews, of St. Augustine was painfully injured and her four year old son was instantly killed when a car which she was driving was struck by a fast going train.

Mrs. Matthews' injuries are not thought to be very serious.

'SCANDAL' BOOKS STOLEN SAYS MEANS

By United News.

WASHINGTON, April 24.—Part of Gaston B. Means collection of "little black books" on which the senate committee investigating the department of justice has depended for important leads in their inquiry has been stolen the former agent declared Thursday. He said Senator Brookhart's name had been forged to an order.

With the mysterious disappearance of the books containing a minute by minute account of the famous investigators sensational career, and listing irregularities on the part of many persons in high social and political circles, the case against former attorney general Harry M. Daugherty and others not yet mentioned, has suffered seriously, in the opinion of the committee.

On March 31, two men wearing badges of senate employees and armed with a letter purporting to be from Senator Brookhart, of Iowa, chairman of the committee, presented themselves at Means' home and requested the valuable documents Means declared, he handed his entire collection over to the unknown men, thinking they would be turned over to the committee, but he since has learned the documents were stolen.

When apprised of this situation Brookhart promptly branded the letter the two men displayed as an "absolute forgery."

In reality, the books were stolen from the senate committee since they previously had been impounded as evidence, but left in Means possession, it was explained.

ALL PASSENGERS OF DISABLED LINER SAFE

Eureka, Calif., April 24.—Passengers from the Ruth Alexander, disabled liner steamer disabled Wednesday afternoon 30 miles off this port, were transferred early Thursday to the H. F. Alexander.

With more than 400 of her own passengers and 231 on the Ruth Alexander list, the H. F. Alexander is due at San Francisco on Thursday night.

Stunt Aviators Killed

CHICAGO, Ill., April 24.—Unable to recover control of their plane after a trick "stunt" Chief Petty officer H. R. Cruikshank noted professional parachute jumper and chief Aviation Rigger J. H. Green died Thursday when they fell 500 feet into a woods at Great Lakes Naval Station.

Cruikshank has a wife and two children and Green is survived by a widow.

THREE BODIES FOUND IN LAKE

IDENTIFIED AS TRAPPERS WHO HAD LAST BEEN SEEN IN JANUARY

By United News. BEND, Ore., April 24.—"Somebody got the drop on them, or they wouldn't have gone like that."

"It was a sneakin' sort of fellow that shot them—because them boys could take care of themselves in the open, with half a chance."

Thus Allen Wilcoxon, proprietor of Elk Lake Resort, last person to see alive Dewey Morris, Ed Nichols, and Roy Wilson, slain Bend trappers, commented today when he learned they had been murdered.

Bodies of the three trappers were revealed late last night in the waters of Lava Lake, when the winter ice broke.

Morris was thirty years old. Nichols 55, and Wilson 35. They were typical trappers. Bearded faces, rough clothing, and heavy boots marked their calling.

Wilcoxon last saw them when he visited their cabin January 15.

Weeks passed and the trappers still unheard of. A searching party went to the cabin from Lapine, the nearest settlement. A breakfast had been left cooking on the stove.

The only living thing about the place was an emaciated cat. Then a blood covered sled by the lakeside, and a big hole in the ice gave hint to the fate of the trappers.

The searching party waited until the ice broke up—and their expectations were fulfilled.

A bullet hole through the back of each trapper head told too plainly what had happened.

"That's the sneakest way to kill a man," Wilcoxon said.

The missing winters catch of pelts and the skinned carcasses of five foxes of the "fox farm" near the cabin, plainly showed robbery was the motive, it was believed.

"How about the Charles Kimzey fellow?" asked one thoughtful settler at the Lapine story. Kimzey was a straggler who had wandered into the district and worked at the lake last summer. When he left he stole some money and belongings from the cabin the trappers said.

Then somebody recalled they knew he was an escaped convict from Idaho—there hadn't ever been much reason to tell the "law" about it before.

Today the word was carried to the sheriff at Bend, 70 miles away from Lava Lake. The sheriff verified that he has a fugitive from Idaho.

Then through the organized channels of the law, Sheriff Roberts today sent the call for this man, the escaped convict as a suspect.

"It maybe him and again, it may not," said Wilcoxon. "I reckon it wouldn't hurt none to get him."

MAN SAYS MOTIVE BEHIND MURDER WAS INTEREST IN YOUNG GIRL

By United News.

MOUND CITY, Kan., April 24.—The name of pretty 19 year old Aileen Scott, school teacher came into the trial of J. Ellison Scott, former LaCygne Merchant accused of slaying his wife last June when Captain W. Smith, assistant attorney general said he would show instances of intimate relations existing between Scott and his niece.

Smith declares Scott had more than a friendly interest in his beautiful young niece and would prove that the motive behind the murder was influenced by this friendship. Attorneys for Scott indicated that his defense would be the same as in his first trial when a jury failed to agree, that he heard shots from his garage in which he was repairing his automobile and rushing to the house found his wife dead.

Execution Order Halted
SAN QUENTIN, Calif., April 24.—Reprieve from execution at 10 o'clock Friday morning for Isaac Wolfgang "Milk Bottle" bandit came late Thursday in an order from the California supreme court.

Wide interest was attached to Wolfgang's case because of charges that he killed a Los Angeles policeman who attempted to arrest him for stealing two bottles of milk from a doorstep in the southern city.

MUCH DAMAGE IN HAWAII BY QUAKES

By United News.

HONOLULU, April 24.—Continuance of earthquake shocks in the Puna district of the island of Hawaii Wednesday night and early Thursday opened new cracks in the earth. Some of these are five feet wide and range to ten feet in depth.

While the earth gaps open, leaving large areas resembling a shell torn field, inhabitants of the district are hastily deserting their homes. Fifty refugees of the area have succeeded in reaching Hilo, reports say.

Two hundred and fourteen shocks in four hours have stricken the natives with panic and communication with the area having been cut off as a result of the shocks, the full extent of their plight cannot be determined.

One train stands isolated on a short stretch of track, earth cracks across its roadbed in two directions having severed it from the rest of the railroad system.

In a rock quarry 150 feet in diameter, the bed is reported to have sunk four feet.

Volcano observatory near Kilauea has issued a warning, predicting a lava flow in the Puna territory. However, the gigantic Kilauea crater still remains normal and there is no visible indication of the predicted eruption.

In Honolulu the shocks were not registered.

FRANCE ENTERS WORLD AIR FLIGHT

PARIS, April 24.—Piloting a mystery plane on a spectacular flight to Japan that is aimed at showing the world what French pilots and French airplanes can accomplish, Lieutenant Pelletier d'Oisy, expert long-distance flyer, is racing eastward over Europe in an endeavor to make the fastest distance flight in history.

Flying from Villacoublay at dawn Thursday, the daring aviator began his dash across two continents. The United News learns that he was instructed to make Constantinople in a non-stop flight if possible. Otherwise he may stop at Bucharest after crossing France, Switzerland, Austria, Hungary, and Roumania in one jump.

Latest reports received here state that he was sighted flying over Budapest, Hungary, at 1:10 p. m., headed toward Bucharest.

Closest secrecy surrounds every phase of the exploit. The air minister did not announce the appearance of the plane as officials had intended to call it a false start unless d'Oisy succeeded in reaching Constantinople in one jump.

But in effect, France has entered the long-distance air race in which the American flyers and the British airplane "Vulture" are participating. Most careful preparations have been made for the attempt to show French predominance in the air.

It is believed that one aim of the expedition is to beat the British racer to Japan.

Japanese military and naval attaches witnessed d'Oisy's departure on special invitation.

The air plane was recently tested for the flight. Officials of the Breguet company which aided in the organization of the flight, were irritated when they learned that their secret plans had been uncovered. Both the company and the air ministry hoped to keep the dash secret until the flight was nearly or entirely accomplished and also to keep it secret if the flight failed.

M. Metast, one of the directors of the Breguet company refused to give any details of the plane or its equipment.

"We especially requested that nothing be made public and asked the newspapers not to publish anything," he said.

OAKLAND FIRE CAUSES \$1,000,000 LOSS THURSDAY

OAKLAND, Calif., April 24.—Fire breaking out in the Union Construction company's ship yard plant on the water front here early Thursday evening, swept through that concern and several adjoining plants causing a loss of approximately \$1,000,000.

At eight o'clock the fire was still burning, but had been brought under control through effective work of the Oakland fire department, assisted by fire boats from the San Francisco harbor.

BODY OF DAY-OLD BABY FOUND ON BANK OF RIVER AT WICHITA

By United News.

WICHITA, FALLS, Texas, April 24.—The body of a day-old baby was found in a water-soaked pasteboard box on the banks of Lake Wichita near here late Thursday. Physicians announced the baby had been dead about four days but were unable to determine the cause of death.

A woman's wearing apparel, consisting of a gown, dress and undergarments were found a few feet away indicating that the mother of the baby may have drowned herself in the lake.

ATTORNEY TAKES BLAME LAND PERMITS

By United News.

WASHINGTON, April 24.—Further testimony favorable to Senator Wheeler was heard Thursday by the Borah committee investigating the Montana senators indictment on a charge of accepting a retainer to practice before a government department.

Wm. G. Feley, a Washington attorney, declared he, not Wheeler, had handled the land permit cases for Gordon Campbell of Montana, before the interior department, for which Wheeler was indicted. He said that he never had consulted Wheeler in any way about the case.

Feley told the committee he had been introduced to Campbell by Edwin S. Booth, then solicitor of the interior department, but that he never met Wheeler until the summer of 1923, when most of Campbell's business with the department had been finished.

Commissioner Spry, of the land office, said he had met Wheeler had told him he was "interested in Campbell only to see that he got proper treatment and a square deal." "This," he added "is the general custom among all senators."

LaFOLLETTE TO CARRY MO. EXECUTIVE CHAIRMAN SAID THURSDAY

By United News.

ST. LOUIS, Mo., April 24.—Claims of phenomenal gains by the "third party progressive" in Missouri and a prediction that LaFollette would carry this state for president, were made Thursday night by Sheridan Carlisle, chairman of the executive committee of the state branch of the National Progressive League, as he issued a call for a state convention to be held in St. Louis May 20.

The convention will select 32 delegates to the National Farmer-Labor Progressive convention in St. Paul June 17, two members one man and one woman, to the national progressive committee, a state committee with two representatives for every congressional district and adopt a state platform.

Indication of a real national organization, paralleling that of the two old line parties, was given in a call which stated "This convention is called under authority of the national committee."

EUROPE IS TIRED OF IDEALISM, EX-PREMIER SAYS

By United News.

LONDON, Eng., April 24.—"The people of Europe are tired of the idealism which followed the war and are now despairingly embracing materialism."

That was the assertion of ex-Premier David Lloyd George in a speech made at Llandudno Wales, in which he discussed English and European conditions Thursday.

WORD LOST LEFT LEG IN HOPPING FREIGHT

Will Word, who was captured at the Windham ranch southeast of Tahoka Wednesday afternoon and who is declared by peace officers to be the most notorious gunman yet captured in this section of West Texas, lost his left leg when he attempted to "hop a freight train in Henderson county" several years ago, he told local officers.

Word, who is the confessed slayer of Dr. S. H. Windham, prominent ranchman who was found dead near his ranch Monday night, is believed to have a criminal record and officers are making every effort to get further information concerning him.

LEADERS CLAIM WILL ADJOURN REGULAR TIME

FARM RELIEF IS MAIN DIFFICULTY FACING SENATE NOW

By United News.

WASHINGTON, April 24.—Congress has notified President Coolidge through its leaders, that it will be ready to adjourn by June 1, but it will have to legislate at top speed if it clears its accepted slate—already considerably reduced—from the heavy program outlined by the president at the opening of the session. The house will get through comfortably enough, it appears. The trouble will be in the senate, where all are not so optimistic as Senator Lodge, who carried word to the white house along with house leaders, that things would be in ship-shape by June 1. The difficulty in the senate is the farmer.

Farmers are demanding relief. President Coolidge has insisted that they have it. Friends of the farmer in congress want to give it. But farm legislation has been given last place on the senate program—because of other necessary and pressing legislation.

After weeks of consideration, the house agricultural committee finally has singled out a farm relief measure, the McNary-Haugen bill, providing a \$200,000,000 marketing and export corporation for agricultural products. A special rule will be made for its consideration by the house and the bill advocates have promised that it will be finally disposed of by May 10 at the latest.

With six weeks before schedule adjournment, here is what the senate faces, before it can consider the farmer:

Tax legislation. Senator Smoot of Utah, chairman of the finance committee, has estimated two weeks for disposition of the measure which was taken up by the senate Thursday. Others place it from three to four weeks, remembering the four days it took for the bonus general agreement.

Appropriation bills: The senate has passed four appropriation measures sent from the house and still has five others, those for the navy department, war department, district of Columbia, and the combined bill for state, justice, commerce and labor departments.

In addition to the agricultural measures there are three others on the board, child labor, measure for correction of the veterans bureau as outlined by the special committee which investigated it and Muscle Shoals.

The house has passed a bill accepting the Ford offer for Muscle Shoals and will take up the child labor amendment Friday. It has two appropriation bills to complete, a farm relief measure, and its work for the session will be over. A bill for re-organization of the veterans bureau was reported on Thursday.

Agricultural relief is the stumbling block. It is not certain that the house will pass the McNary-Haugen bill, opinion in the senate is divided though Senator Capper, of Kansas leader of the farm bloc has agreed to it and said Thursday that he expected it to pass.

It may be necessary for congress to recess for the conventions without adjournment and return to enact an agricultural relief bill. While members are opposed to this, generally President Coolidge may take that step in view of demands from farmers.

Penn Senator Urges Newspapers to Ban "Political Bankers"

NEW YORK, April 24.—Asserting that congress had spent more than half the time of its present session in muck-raking and thus preventing adequate consideration

(Concluded on Page 10.)

WEATHER

West Texas: Tonight partly cloudy, cooler panhandle; Friday partly cloudy, cooler except southeast portion.

Just Folks by Edgar A. Guest

THE RICH MAN'S FUNERAL SERMON.

We had talked in life of his rise to power
And the earthly riches which he possessed,
But now we stood in the last brief hour
When the tired body is laid to rest.
And the minister, clad in his surplice white,
Stood at his bier, as our heads were bowed,
And we talked of the soul which had taken flight
And the things of which always the soul is proud.
And he never mentioned the gold he'd made,
Or the countless men that his wealth employed.

Or the place he'd reached in the world of trade,
But only the things which the soul enjoyed,
And he never had guessed as we heard him there,
That a rich man slept in that silent hall;
For the last brief words and the last brief prayer
Only the worth of the heart recall.
The purse of the living must play its part,
But always at last, when the soul is gone,
We give our praise to the gentle heart
That loved and was loved and has journeyed on.

As They Come and Go

HOW, WHY, WHEN AND WHERE

W. M. Baugh, prominent ranchman of Brownwood is here visiting his son, Dr. Wm. L. Baugh and attended the funeral of his nephew, Dr. S. H. Windham at Tahoka, Wednesday afternoon.

Frank White, of the Texas Utility Company, returned to his home here Thursday morning after spending Wednesday and a part of Thursday at Slaton on business.

Neil H. Wright, member of the Elks lodge here, attended the meeting at Lamesa Wednesday night. He returned to his home here Thursday after transacting business there that morning.

M. R. Rutherford and two children, of Altus, Okla., passed through Lubbock Thursday enroute to Brownfield, where they will visit with relatives for a few days.

Bob Alexander, of this city, who has been at Colorado, for several days, visiting, returned home Wednesday evening.

David Nairn, of Big Lake, Texas, arrived in Lubbock Thursday and will spend some two or three months visiting with his brother, northeast of the city.

S. K. Chalmers, of Michigan, who is visiting and attending to business in Lubbock went to Brownfield Wednesday.

R. P. Bonner, of Plainview, and at one time living in this section, is visiting friends and looking after business in Lubbock this week.

S. F. Acuff, well known in this section of the country, and who is making his home for the present at Denton, is visiting and attending to business interests in Lubbock this week.

Sheriff Johnson of Brownfield, spend the day in Lubbock Thursday visiting and attending to business.

L. B. Shelley, formerly of Birmingham, Ala., and for a short time making Slaton his home, arrived in Lubbock this week and will make this place his home in the future.

O. W. Beeson, of Grovesville, visited and attended to business in Lubbock Thursday.

H. L. Holt is this week having erected on Main street a six-room modern, hollow tile and stucco home. This home is to be built out of the very best material and will be one of the real nice and commodious homes of the city.

Otis Copeland of the Meadow section spent Thursday visiting and attending to business in Lubbock.

J. J. Forester, of Floydada, who has been visiting his son, Judge Forester, of this city, left Thursday for Lamesa, where he will spend several days visiting with friends and relatives.

E. B. Gregory, banker of Winters, who has been in Lubbock visiting and looking around for a few days, left Thursday for his home.

S. W. Stockton who has been in Amarillo for two or three weeks visiting with relatives, passed thru Lubbock Thursday on his way home.

Mrs. H. G. Love, wife of commissioner Love, is seriously ill in a local sanitarium. Their son, Ralph, who resides in Fort Worth, has been notified and will arrive in Lubbock today.

J. A. Couch, for some time mak-

ing his home in Shallowater community, was in Lubbock Thursday, and stated that he would leave in a few days for Hereford, where he would reside in the future.

Fred Shell, business man of Ralls, spent Thursday attending to business interests in Lubbock.

M. Galley, of the Monroe community, spent Thursday attending to business in Lubbock.

Mr. and Mrs. J. R. Burress, of Calif., who have been spending some time visiting in West Texas, arrived in Lubbock this week from Abilene, and will be in the city for a week or two before returning to California.

J. J. Murphy, business man of Crosbyton, was in Lubbock Tuesday looking after business interest.

T. Powers of Lorenzo, visited and attended to business in Lubbock Thursday.

Rev. and Mrs. John T. Howell, of Tahoka, visited and attended to business in Lubbock Thursday.

Mr. and Mrs. M. F. Hallmark, of Abilene, were visiting and attending to business in Lubbock Thursday.

J. M. Megus and Miss Pearl Megus, of this city, are this week having erected on 14th street and Avenue N, a 16-room hollow tile and stucco home. When completed this will be one of the real substantial homes of the city and these enterprising people are to be congratulated on their enterprise.

RIX CABINET SALES OUTSTRIPPED ALL BUT HOUSTON

The South Western official publication of the Safe-Cabinet Company of Marietta, Ohio, shows that the Rix Furniture and Undertaking Company salesmen of Big Spring outdid all other crews in the state excepting the Houston gang, and now they report they are going to outdo that city during May.

W. W. Rix, of Big Spring; H. E. Hatch, of Lamesa and Sid Wells and H. H. Griffith, of Lubbock, are the boys responsible for the good showing made by the house of Rix.

MANY SELECTIONS OF DUCHESSES BEING MADE

BROWNWOOD, Texas, April 24.—Selections are rapidly being made by Texas cities as to the lady who will represent that city at the annual convention of the West Texas Chamber of Commerce which will be held here May 13, 14 and 15, the representative duchess and maid of honor of each city having been given a big part in the pageant, the coronation of the queen, which will be staged here during the time Texas' biggest convention convenes.

Miss Brownwood is Miss Hulda Harrison, now a student in S. M. U. at Dallas. Her maid of honor is Miss Lillian Lois Grennan, a student in Brownwood at Howard Payne College.

Duchesses and maids of honor, respectively, from the following towns have announced their intentions of coming here for the affair: San Angelo, Miss Lorene March and Miss Margaret Harris; Coleman Misses Annie B. Kinney and Bada Jones; Gustine, Misses Ruth Sadler and Eva Palmer; Colorado; Misses Hazel Castin and Elsie Lee Majors; Stephenville, Misses Elizabeth Bassell and Elizabeth Slaughter.

er; and Stamford, Misses Cecil Donaldson and Blanche Carter.

Other cities have named duchesses but as yet have not chosen a maid of honor. Among those who have been appointed as duchess include: Eden, Miss Jewell B. Armour; Merkle, Miss Lillie Pratt Sears; Lamesa, Miss Agatha Gore; Desdemonia, Miss Thelma Bailey; Haskell, Miss Exa Cahill; Littlefield, Miss Woody Light; and Paint Rock, Miss Hattie Rue Hartgrove.

Spirited contests are being held in a number of other places at the present time, it is understood here, while a number have chosen their representatives but have not yet made the selection public.

GRAPE FRUIT TO BE RAISED AT SAN LEON

By United Press
HOUSTON, Texas, April 24.—The Rio Grande Valley is to have a rival in the grapefruit market, according to Charles J. Blume, owner of the Bloom-Field Orchards, San Leon. Blume announced that next year he will set out several acres of "Bloom-Sweet" grapefruit trees.

The new grapefruit is a product of Blume's own orchard. The original "Bloom-Sweet" tree is a sport or freak tree, the result of Blume's grafting the grapefruit to a trifoliata stock.

BRITISH WORLD FLYER ARRIVES IN INDIA

By United News.
LONDON, Eng., April 24.—Smashing eastward in the effort to beat the American fliers in circling the globe, the British airplane "Vulture" has arrived at Karachi, India according to dispatches from Bombay.

The plane, which is piloted by A. S. N. McLaren made the flight from Bandar, Abbas, Persia to Karachi Wednesday. Since leaving England on March 25, McLaren has covered 4,890 and a half miles.

In two more days of flying the British aviators should complete a fifth of their 23,344 mile journey.

After the long delay at Corfu, where the "Vulture" awaited spare parts, the plane has made steady flights eastward. McLaren is behind the schedule, for he expected to reach Karachi by April 7, but he is now making good time.

Karachi, or Kurrachi is one of the principal seaports of British India. It is situated on the Arabian sea.

MOTHER SHORT OF FUNDS MAKES TWO BOYS WALK

By United News.
EL PASO, Tex., April 24.—Given twenty-five cents each, two boys, Felipe and Steve Heinrich, 13 and

14 years of age, were told by their mother to walk to Tucumcari, New Mexico, a distance of 332 miles from El Paso, according to the story the two boys told police here.

The boys told the officers that their mother and six children reached here Tuesday from the west. She found that she had insufficient funds to take all the children with her and left the two oldest to walk. The mother and four children took the train for Tucumcari.

The two boys were turned over to the probation officer.

MRS. MOORE APPOINTED ON FILMS COMMITTEE

By United Press.
AUSTIN, Texas, April 24.—Mrs. C. J. Moore, acting head of the visual instruction division of the University of Texas, who has been appointed chairman of the better films committee in the seventh district of the Parent-Teachers' Association, is supervising the efforts of the association in co-operating with theatre managers and heads of the public schools in creating a public demand for better pictures.

It is Mrs. Moore's opinion that good pictures cannot be forced upon the public simply through a process of censorship, but through co-operative measures with producers and theatre managers to educate the public to a demand for better films.

Men---It's Time to Check Over Your Furnishing Goods Needs

The season for replenishing your shirt, underwear, hosiery and sock supply is at hand. With spring new well advanced and summer just around the corner, you will be wanting lighter weight garments and a more plentiful assortment. Don't put off these purchases longer. We are ready with ample stocks, plentiful assortments and good selections.

HATS IN STRAW AND FELT---TAKE YOUR CHOICE

Straw hats for young men in both bleached and tan, made from heavy straw in plain and fancy bands, all shapes, priced from \$4.00 to \$5.00.

Split Straws in bleached; good shapes and all sizes, priced from \$2.50 up.

Genuine Panama hats in shapes for the man who favors this style for summer, priced \$6.00

... SPORT NEWS ...

FIVE TEAMS ENTERED IN DISTRICT BASEBALL MEET WHICH OPENS AT MERRILL PARK HERE TODAY 2 P. M.

More than ordinary interest is being taken in the coming baseball tournament of this district, which convenes here on Friday for a two-day session, according to an announcement received Thursday from W. E. Patty, of Plainview, Athletic director of the district, and although only five cities are entered for the meet, they are all scrambling for supremacy. The five cities entered are: Slaton, Post, Plainview, Floydada, and Lubbock.

Local dope hounds seem to lean slightly toward Floydada as the hardest contender for the crown against the Lubbock High School Westerners, and although Plainview comes in for quite a share of the dopesters day dreams, it is believed that they have not thoroughly recuperated from the loss of most of their experienced men last year and the year before. However, both of these clubs come here with a clean slate, neither having lost a game this season.

This is believed to be partly due to the fact, though, that they have not met a club of their calibre, but they have defeated the clubs they have met with such odds that it is by no means figured that they are weak at any point.

Post also must be considered in the running, as must our neighboring city, Slaton, and although they have lost as many games thus far as they have won, they have both been up against strong odds, playing one against the other, and meeting other clubs throughout the South Plains of almost equal strength.

Post has met the Westerners twice this year, tying the first game, and losing the second by a narrow margin. The Slaton aggression has met the local lads in two official engagements, Lubbock taking the first by a 16 to 12 count on the local grounds. Slaton took the other exhibition last Tuesday on their home lot 2 to 1.

According to the official schedule issued by Mr. Patty, the meet will open here on Friday, two games being played in the afternoon of the first day. In the first of these games Post will meet Plainview at 2 o'clock and immediately following this Lubbock will meet Floydada.

At 2 o'clock on Saturday, the second day, Slaton will meet one of the winners of the two preceding games, drawing lots between the two as to which they will play. Then immediately following this the winner of the Slaton game will meet the one who was lucky in the draw from the day before, in the final game for district championship.

An admission fee of 50c for each double-header will be assessed, according to Coach Hunter, of the Westerners. The games will be played at the Merrill park, former home of the pennant-winning Hubbers.

The Lubbock Lawn Tennis Association will hold its first tournament of the season Friday and Saturday, May 2nd and 3rd. This tournament will be open to all tennis players both in the city and in Lubbock county. Those wishing to enter the tournament should turn their names in to Oris Felty, president of the local association at the earliest possible date so that a schedule can be arranged.

There will be a loving cup presented to the winners of both singles and doubles. This cup has not yet been selected, but it will be on display at some prominent show window some time next week. The cups will be the permanent property of the winners and will not be played for in the future as has been the custom heretofore. It will be remembered that Lubbock is now holding the West Texas Chamber of Commerce cup which was presented by San Angelo last year. This cup will be in competition at Brownwood in May and it is hoped that it will be again returned to Lubbock after which it will be permanent property. This local tournament may determine who will defend the Chamber of Commerce cup at Brownwood.

Local racquet fans have been rounding into shape for this tournament for some time and it promises to be one of the best ever held in Lubbock. Those wishing to see a real snappy display of tennis will not be disappointed in attending this tournament.

DODGERS BEATEN BY GIANTS IN "OPENER"

By United News.

In the third and absolutely the last set of official opening ceremonies to be held in New York this year, the Giants today gave the Brooklyn Dodgers a seven to four clubbing in the Dodgers own ball yard, amid the tomato tins and other scenic refinements of flat-bush. Mayor John Hylan, worn out by the heavy services of pitching the first ball at the polo grounds and again at the Yankee stadium, had a lame arm and a date at the city hall Thursday so the president of the Brooklyn chamber of commerce made the inaugural flip.

This was not the first game of the season at the Dodgers ball yard. But Uncle Charley Ebbetts always has a first game and an official "opening game" thus deriving two big crowds instead of one. Therefore there was a band and the stockholders marched to the flag pole and the hot-dog vendors have an extra dab of mustard with each Coney Island Air-dale. There were 25,000 customers on hand.

In Boston the Phillies snapped out of their despondent mood and shut out the Braves 7 to 0. It was the second victory for the Phillies in six games. This is a sensational spurt for them and they are said to be playing far ahead of their stride.

The Reds established themselves a little firmer in second place, by whipping the Pirates in Pittsburgh 5 to 4. The Cubs who are close behind the Reds, beat the Cardinals in Chicago by the same score.

Babe Ruth relaxed after his tremendous swatting of Wednesday and contributed no hits or runs to the Yankee victory over the Red Sox at the Yankee Stadium. Score 6 to 3.

The White Sox continued their scramble toward the top under Johnny Evers management whipping the Browns, 5 to 4, in St. Louis. The Tigers maintained their lead by winning again from Cleveland 8 to 2, in Cleveland.

Washington won from the Athletics in Washington, 4 to 3.

It was an erroneous day in the big leagues. There were twenty errors, all told, the Cardinals leading with three.

STEPHENVILLE WILL GO TO BROWNWOOD STRONG

BROWNWOOD, Texas, April 24.—A special train carrying in the neighborhood of 500 Stephenville boosters from that city will roll into Brownwood this morning on the second day of the annual West Texas Chamber of Commerce meeting, May 13, 14 and 15, it became known here today when announced by R. Wright Armstrong, secretary of the local civic body, who had received the information from Editor R. F. Higgs of the Stephenville Tribune, who may lead the delegation here and who served in the same company with Mr. Armstrong while in France during the war.

The Stephenville Chamber of Commerce has made arrangements for a special train which will bring a half thousand delegates. The plans are being worked out again following the desires of so many to attend the convention. The delegation will reach Brownwood early enough the second morning of the convention to take an active part in the delegation parade, and work along that line is now progressing, Editor Higgs reported.

The John Tarleton Agricultural Band of Stephenville will also be in Brownwood as one of the official bands of the convention. Besides, a detachment of seventy cadets from that institution will storm Brownwood for the affair, it was revealed.

The Stephenville delegation will be one of the largest here for the affair and it is thought that the boosters from that city will make a very favorable impression on the large number of visitors expected here.

OIL ACTIVITIES IN THE MIDLAND SECTION BRISK

MIDLAND, Texas, April 24.—Oil activities are rapidly increasing in the Midland section. Texas Development No. 1 was spudded on Monday at a barbecue attended by people from all the surrounding counties. This well is located on the Cowden ranch in Crane county. S. F. Johnson and his 49 eastern associates will start a second test within six weeks about seven miles from the well now drilling but on the same structure, the Marathon fold.

Drilling is progressing rapidly on the Brunson well 18 miles southwest of here. This well is within six miles of the McDowell, a small producer.

Tentative arrangements have been made for investigation of a structure in Andrews county. Drilling for water wells in that county has resulted in passing through an oil sand at 590 feet.

The Midland county Chamber of Commerce is working on a proposition to put an automobile road through to the Reagan county field in order to divert traffic through this town. A new stage line operating out of Midland cuts off 29 hours from the time in reaching Fort Worth by the old route via San Angelo, according to Thomas Northcutt, operator of the line.

ENGLAND TIRES OF PERPETUAL PENSION PLAN

By United Press.

LONDON, April 24.—England's perpetual pension system has almost played out.

The government has just "bought off" the Rodney perpetual pension—leaving only one in existence, the Nelson pension. Recommendations have been made that it, too, be abolished as soon as possible.

The "perpetual system" plan, in favor years ago as a method of rewarding great English heroes, was to grant a certain annual payment to the hero as long as he lived, and to continue that same payment to his heir, and so on eternally.

The Rodney perpetual pension, just cancelled by purchase, was granted in 1783 to Admiral Rodney for his victory over the French fleet. The payment was \$10,000 a year. The total payments to Rodney and heirs has come to about \$1,410,000. The pension was "bought off" recently by paying the present Lord Rodney a lump sum

of \$210,000—or twenty-one years of the pension—in consideration of which he agreed to call it quits.

The Nelson pension of \$10,000 per year will probably be disposed of eventually by a similar agreement between the treasury and the Nelson heirs.

JURY ALMOST COMPLETE IN WIFE-MURDER CASE

By United News.

MOUND CITY, Kan., April 24.—Selection of a jury to try John E. Scott, former wealthy merchant of Lacygne, on a charge of murdering his wife in Linn county last June was drawing to a close late Wednesday and it is expected to be completed Thursday.

Wm. Smith, assistant state attorney general, is prosecuting the case. Attorney General Griffith, however, has signified his intention of assisting in the prosecution. This is the second time Scott has been tried, the first jury disagreeing.

BUILD A HOME.

Two more modern stores for Colorado

COLORADO, Texas, April 24.—Excavations have been completed for two more modern brick business buildings in Colorado.

One of the buildings, corner Third and Walnut, will be the new home of the Palace Theatre. The other building, in the 200 block on Oak street, will be occupied by a local tin and plumbing shop.

BOYS' WEEK.

Governors of twenty states have issued proclamations calling upon cities to observe Boys' Week from April 27 to May 3. More than 1,500 cities will celebrate the week, including 100 in Canada.

It is estimated that at least 7,000,000 boys will make a demonstration on Boys' Loyalty Day, May 1, and that at least 12,000,000 boys will participate in some way in the other activities of the week.

On Boys' Day in Industry and Citizenship there will be boy leadership all over the country. Many Governors will give over their offices for two or three hours to the boys; the Mayors of at least 1,500 cities will retire for a brief time, in some cases for the entire day, so that the boy can get the vision of his potentialities for leadership in political, professional and industrial enterprises.

On Boys' Day in Churches at least 20,000 clergymen will herald a message on the challenge of boyhood to the citizens of the country.

On Boys' Day Outdoors 100 of the larger American cities will engage in the Junior Olympic. The results of the Olympics will be broadcast on the evening of the Boys' Day Outdoors, the winners being announced at that time.

"Boys—a Nation's Greatest Asset" is the motto being used in the respective states. The movement has been carried on nation-wide to stress the idea that our boys are loyal and are the medium through which we can eventually come to a solution of all the problems that are inherent in the body politic. The week's program follows: Sunday, April 27, boys' day in churches; Monday, boys' day in schools; Tuesday, boys' day in industry and citizenship; Wednesday, boys' day in entertainment and athletics; Thursday, boys' loyalty day with parades; Friday, boys' day at home; Saturday, May 3, boys' day out of doors.

Then Lubbock people, we believe, are not taking as much interest in the boys of the community as they should, and this will probably be seen to the sorrow of our people in years to come. As we see it the boys of this town are simply permitted to grow up, and make men if they can and if they are not inclined that way, they are apt to miss the mark, and become criminals. The people here to a large per cent, try to give their children a high school literary education, and up to the present time, have not been hindered from this by the cotton patch, but aside from that, there is no other training for them.

The Rotary Club is endeavoring to give the boys some hearing by contributing some to their pleasure and recreational advantages and had a very exhaustive program outlined for next week, with Rev. Showell at the head of the committee. Since the death of his wife and the removal of this gentleman to another part of the country, the plans have been broken into, but even now, there is a desire among the men of this organization to see a marked forward movement toward taking a greater interest in the boys of the community, and something definitely will likely be done to help the youngsters to engage their time in better pursuits than running in the alleys continually, or loafing the streets.

It is the plan of this organization to put a case of books suitable for boys in the public library, and this one act will mean a great deal to the boys of the community, provided the class of books are the kind that will educate and promote higher ideals in life.

CIVIC LOYALTY.

Few of us ever pause to consider how our town came into being. We have taken its existence for granted and have been willing to let the other fellow assume all the responsibilities of management. But our town did not just happen. A definite force called it into being at the very point at which it grew, and that same force continues to exist. The life of a town depends partially upon economic conditions and partly upon the character, energy and enterprise of its citizens. The progressive community center must be a social structure for the promotion of friendliness, which, after all, is the most important thing in the world. The community center does not exist to make them healthy, though it may accomplish this also. It exists that life may flower more fully—the social life of the whole community. Business exists to furnish a living; social life exists to develop friendships. Therefore that community that brings people together in such a way that social life, friendship, comradeship, brotherly and neighborly love is most fully developed, is the most successful and most prosperous community. Manufacturers undoubtedly contribute largely to the growth, development and wealth of a community, but today manufacturers are giving more attention to the social life and home advantages of a prospective location than they give to any single phase of the question. Civic

spirit implies loyalty to the community in which we make our homes and of whose good name we are justly jealous. Civic loyalty is but a part of that larger loyalty to country for which lives are willingly offered in time of need. For a town all things are possible. The single need is some group of persons who have faith in the outcome. Improvement cannot be wished on a town—it must come from within.

There is possibly more of that civic loyalty in Lubbock than most any other city in the state of Texas. Our people are called upon to "dig up" for more different things and more at a time than possibly any other place, but very few of them complain at all. They usually cheerfully contribute if the proposition is one that is for the general good of the community—that is the small circle that have practically built the town, and have dug down in their jeans till it hurt many times, to put things over, because they believed it was for the good of the community, and the town. Some time the benefits were very small to them individually, but they dug just the same, and did not grumble.

But there are a few that seem to have the idea that Lubbock needs to do nothing more but grow, which is one of the greatest mistaken ideas that one ever possessed. It is much the same as a great big business—the larger the business, the harder one has to work, and the great co-operation is needed in the working forces.

Lubbock is growing, and she is becoming the attraction of the entire Southwest, but it is just now time that we should be putting forth our best efforts. Everyone should help, and we believe in order to get a uniform distribution of the burdens of building that the organizations that lead in the promotion of things that are for the development of the community, should be taken care of by the system of taxation, and not require a few men to shoulder the whole burden.

No real progressive move can hardly be started that does not very materially benefit every class of people, hence it is but fair that they should contribute something toward bringing about these things.

Civic loyalty will build towns, and towns do not happen, they are built.

SUSPICION WRECKS CONFIDENCE.

When President Roosevelt ordered legal action taken against various great industrial combinations, on the Sherman act it was claimed that the prosecution of the so-called "trusts" was injuring legitimate industry and commerce by "unsettling business confidence."

The prompt rejoinder from the President was to the effect that no legitimate industry had any reason to fear from the enforcement of laws prohibiting monopoly conditions, or unfair competitive methods, and that the foundations of business were not so weak that they could be shaken by an attack on what was claimed to be the unlawful acts of a few great corporations.

Recent disclosures of what appears to be worn doing in high places has again evoked the objection that the course of the United States Congress, in making investigations into leases of oil lands and other administrative acts, is hurting business, particularly those great industrial and commercial activities whose stocks are actively dealt in on the exchanges. In the language of some of the protestants: "These investigations are destroying confidence in the men at the head of great enterprises; the sensitive fabric of credit is affected, and production and trade will suffer."

There is nothing to indicate that the congressional investigations have pointed to wrongdoing on the part of any considerable number of persons in responsible positions, nor that there is any reason for or illegal practices. Legitimate business, big or little, is not such a timorous thing that it can be figured by the exposure of organized selfishness using the powers of a government for profit. If there is no wrong-doing there will be no "muckracking." Confidence can best be restored by putting all the cards on the table face up. Suspicion destroys confidence.

A MODEL COMMUNITY.

The little town of Bauxite, Arkansas, with 4,000 population, mostly of foreign extraction, claims to be the model town of the United States, and challenges a contest for this distinction. In the 22 years of its existence no resident has ever been arrested for a major crime; it has no jail; no drunkenness; no political administration; no poverty; no gangs of bad boys. Its police force of a dozen boys keeps the streets clean as well as maintain order. A six-room bungalow with bath and sleeping porch rents for 15 per month, and smaller houses as low as 3 to 5 per month. Many of the foreign laborers are well-to-do and many have saved sufficient to enable them to retire. Wholesome social and community life is given free rein. Baseball for the men and the ordinary school athletics for the school children are encouraged. Community sings and other pastimes are indulged in. This reads like a fairy tale, but the facts may be easily verified. It is simply a question of faith in your fellows and a determination to do the things that you know are right. Bauxite is setting an example that all other towns ought to, and some day will follow.

Has it ever occurred to you that your schoolhouse is the logical spot for an exhibit of your county's resources? Such an exhibit is an assured success in several sections of America. Sometime the exhibition is known as the "Junior Fair;" at Hadley, Mass., it is known as "Trophy Day;" in North Carolina the exposition generally opens on "Good Roads Day;" in Ohio and in Montana, permanent exhibitions have been established. It is truly an eye-opener, a source of genuine wonder to many who have lived all his days in the community.

It is predicted that in five years women of fashion will use neither paint nor powder. Certainly a back-to-nature movement would seem to be in order, in view of the forbidding extremes now seen on every hand.

MARKETS

EARLY GAINS ARE SWEEP AWAY BY BEARS

By EDWARD J. CONLON

(United News Financial Editor.)
NEW YORK, April 24.—The stock market made fair headway Thursday when the light public demand was reinforced by the scurry to cover by some of the larger bear operators. Several new marks were scored in the active industrial stocks, when it became known generally that well over fifty stocks were loosing "flat." The trend of the market was upward from the start with relatively few lapses. The bear crowd, however, retaliated in the final half hour when much of the earlier gains were swept away.

The currency market is showing at times a fine disregard for current business conditions. Professionals merely single out one or two stocks and hammer hard, hoping to shake public confidence in the market so that the momentum on the downgrade may not easily be checked.

The pendulum of stock prices at present is confined to narrow limits. The bear movement started with efforts to shake out the large bull interest in the market. Now, the short interest in the market is so large it is almost unwieldy.

It is true that, with a few exceptions, the rail issues during the past two days have not performed in the fashion expected. Pere Marquette did attract considerable attention, Thursday, finishing with a modest profit after touching a new high for the year. This issue, which is now selling for a bit low in view of its \$4 dividend rate compared with Southern Pacific, which fell sharply to 88 1-2 off nearly 2 1-2 points from Wednesday's high.

The drop in foreign exchange prices may be explained in part by the tendency among foreign exchange speculators since the publication of the Dawes report, to take quick profits and decline to purchase for the long pull.

Bond market was enjoying an excellent under tone Thursday with our governments war loans active and higher. Only two of the active liberties are selling below par.

The cotton market was able to overcome considerable opposition which developed around mid-day. Cotton is moving rapidly out of stock locally with less than 40,000 bales of unsold cotton reported at New York.

THREE BALLOONS IN RACE LATE FRIDAY

By United News.

KANSAS CITY, Mo., April 24.—Approximately 3,000 feet in the air, one of the few remaining contesting balloons in the national elimination race, passed over Richards flying field here at dusk Thursday. The craft was proceeding north-eastward at an estimated speed of 20 miles an hour.

The U. S. S. 14, navy balloon and an army balloon flying close together, were sighted at Gardner, Kansas, at 5:15 p. m. according to reports reaching here.

The navy bag dropped hundreds of circulars to the crowds who lined the streets to watch it pass. Shortly before six p. m. the racer which passed over Kansas City, was sighted at Lawrence, Kansas. Orick, Mo., 22 miles from here, reported seeing the gray bag at 6:16. Dresel, Mo., saw a balloon at 7 p. m.; St. Joseph, Mo., reported its passing at 7:15.

At 7:45 p. m., the second balloon was sighted on the outskirts of Kansas City flying high northeast. The Kansas City Co-operative Club balloon piloted by Captain H. E. Honeywell, veteran of the air, passed over Waverly, Kansas, at 6 p. m. it was reported here.

A note dropped by Honeywell stated he was forced to descend from 12,000 feet to a thousand foot level because of snow and rain storm raging above him. Honeywell said his craft was making at least 30 miles an hour.

At 8:05 o'clock a silvered colored balloon going northeast was sighted between Hamilton and Middleton, Mo.

The army balloon No. 2, piloted by Captain E. W. Hill, and Lt. J. Powell, was forced to land at Moline, Kans. Thursday night when it encountered a severe electrical storm according to advices received here.

X-5 Gas Bag Ripped
WAPANUCKA, Okla., April 24.—The army balloon X-5 which crashed to earth at 10:30 a. m. Thursday was lost and had dropped beneath the clouds in order to get its bearings, Lt. Ashley McKinley, the pilot, said Thursday night.

The giant gas bag dropped suddenly and in doing so ran into a dangerous air pocket which forced it even farther downward. As the craft launched sideways, it hit a tree, ripping the envelope wide open.

Neither Lt. McKinley nor his aide were injured. The San Antonio piloted by B. H. Fournier, was forced to land at Kaw City, Okla., an hour later when it, too, ran into a dangerous air current. The bag fell on the banks of the Kaw river a mile from town. Fournier and his aide escaped injury.

COULDN'T MAKE HORSES CROSS THE RIO GRANDE

By United Press.

EL PASO, Texas, April 24.—"You can lead a horse to water but you can't make him drink—o swim."

Fourteen horses of the Prio Dairy company were found roaming the banks of the Rio Grande. Thieves had broken into the barn of the company, leading the horses to the river. After futile effort to make the horses cross the river, the "rustlers" abandoned their prize, leaving the "horse flesh" to rot the American side of the river.

Of Scotch invention is an instrument for accurately measuring the inside circumference of tire and when rims.

NOTED BIRDMAN TO BE HERE

The above photograph is of Captain Lowell Yerex, noted aviator, who will arrive in Lubbock Saturday at about noon together with Lieutenant Gray and stunt aviator "Diavalo."

The aviators will drop circulars and copies of the Morning Avalanche over Lubbock as they reach the city Saturday and among the circulars and Avalanches will be four free tickets, entitling the holders to free airplane rides.

Two of the Avalanches will be marked, and the ones who find them may bring them to this office and receive tickets to ride on the planes free. Only two of the papers will be marked showing that the holders are entitled to the rides.

The birdmen will spend all Saturday afternoon taking up passengers, and on Sunday afternoon at 3:30 o'clock they will stage a big free airplane exhibition.

Both Gray and Captain Yerex will pilot their planes and "Diavalo" will perform his wing walking stunts.

The aviators are being brought to Lubbock by the local Texas Company agent, Scott May, and Texas Company products will be used in the planes exclusively.

The planes and fliers are of the Western Aviation Company at Denver, and their performances will be worth witnessing.

ODD FELLOWS WILL MEET AT AMARILLO SOON

AMARILLO, Texas, April 24—Programs for the twenty-fifth annual session of the Panhandle Association, I. O. O. F., to be held here Tuesday and Wednesday, April 29 and 30, has been announced. Sessions will be held in the local Odd Fellow hall.

The association will be called to order at 10 a. m. Tuesday, April 29, with a song after which Chaplain C. S. Rice, of McLean will deliver the invocation. Judge R. W. Hall, chief justice of the Seventh

Court of Civil Appeals, will give the address of welcome after which the response will be made by a grand lodge officer.

Encampment degrees will be exemplified Wednesday morning and at 11:30 a. m. the grand lodge of Texas will hold a special session. At the same time the Rebekah Assembly of Texas will also meet. A business session will be held in the afternoon. The Canton degree will be conferred at p. m. and the degree of Chivalry at 7:30 p. m. after which there will be an entertainment.

Officers of the association are: Dr. H. L. Bartlett, Dalhart, president; O. M. Anderson, Pampa, first vice president; Mrs. Lorett Cowen, Canadian, second vice president; B. W. Baggett, Amarillo, secretary; Mrs. O. F. Glascock, Shamrock, treasurer; C. S. Rice, McLean, chaplain.

Those on the program and arrangement committee are: J. F. Ross, E. P. Hallmark, J. E. Spann, S. H. Taylor and A. E. Thompson, all of Amarillo.

The purchasing committee members are: B. W. Baggett, F. E. Walker and Miss Gladys Whitten, all of Amarillo.

INFORMALITY REASON FOR SUCCESS OF RADIO PROGRAM

Upon being asked to state why the regular Night Hawks' program of the Kansas City Star is regarded as the most successful of its kind in America, the "Merry Old Chief" of the Night Hawk answered, "Because of the absolute informality of this program, and because there is something doing every second from the time we tune in until we sign off."

The Night Hawks "take the air" at 11:45 every evening. Their program lasts until one o'clock in the morning. At this time no other programs are broadcast in the vicinity of Kansas City and the air is clear.

From the time of tuning in until

the very last moment, the "Merry Old Chief" keeps up a rapid fire of comment, which it is impossible to describe. Those of you who have heard him know of the artistry of his work. This accounts in great measure for his popularity.

There is no question but that every person in America who has heard the Night Hawk program and the "Merry Old Chief" will be mighty anxious to see the man himself. This is the opportunity by the Premier Chatauqua program.

OLDTIME DANCES ARE DIFFICULT FOR MODERNS

Ye Oldtime Dancers may have been all the poetry and grace of motion as compared with our jerky modern jazz steps, but it certainly is hard to swing into them after the lapse of a hundred years!

If you don't believe it ask some of the comely young women who took part in the big colonial ball room scene of "Little Old New York," the Cosmopolitan picture starring Marion Davies which opens at the R. & R. Theatre on Monday. Attired in their charming old-fashioned dresses, right merrily did they dip and curtsy in the dance called Roger de Coverly. And next day when the cameras were not grinding all of them were gingerly rubbing stiff knees and trying their best not to walk with a limp. The truth was that "ye oldtime dance" brings into play muscles which are seldom used as the modern fox trots do not include low curtsies to one's partner.

The dance did not trouble Marion Davies, star of the production, as she is used to taking daily setting up exercises which include all sorts of twistings and bendings and which keep her as fit as any athlete. The ball room scene with its stately setting was indeed a picture. From the great crystal chandeliers to the scarlet coated musicians in the gilded balcony it was an exact reproduction of the ball room of a century ago as found in the homes of most exclusive old aristocratic families in New York, Philadelphia, or Boston.

"Little Old New York" was adapted to the screen by Luther Reed from the successful stage play by Rida Johnson Young. Sidney Olcott directed and Joseph Urban planned the settings which include some most striking views of New York as it was a century ago.

SON OF LOCAL MAN TO BE STATIONED AT WASHINGTON

Dr. E. H. Inmon, son of T. J. Inmon, of Lubbock, was scheduled to leave San Francisco at noon Thursday for New York via the Panama canal.

He has been with the Medical Corps, U. S. A., for the past four years, having served two and a half years in the Philippines and was stationed for short periods in Japan and China.

NEWSIES WILL BE ENTERTAINED AT BROWNWOOD

BROWNWOOD, Texas, April 24—Visiting newspaper correspondents, whose words of the West Texas Chamber of Commerce convention to be held here May 13, 14 and 15, will be sent from here over the wire and through the mails to their publications to put Brownwood before the eyes of thousands of newspaper readers, will be guests at the luncheon given in their honor by the Brownwood Chamber of Commerce during this convention.

According to the announcement made today from the chamber of commerce headquarters, plans are being hastily arranged for the preparation of this luncheon, which will be strictly informal. There will be no set speeches or addresses, it was announced. This will be the only restriction, every effort having been made to make the affair very enjoyable for the men who have contributed in giving Brownwood the publicity made possible by the meeting here of this West Texas commercial body.

Ignorance Excuses No One

If you haven't learned about Black and White Ointment—which is doing such almost miraculous things for people who had tried many things in desperation trying to get rid of pimples, blotches, bumps, eczema, "breaking out," etc., your friends, and people who see you, won't excuse you for still having these ugly things all over your face, neck, arms and hands.

Nearly two million packages of Black and White Ointment are being used a year, which just proves its wide use and tremendous popularity with the people whose skin it has cleared up.

Any dealer can supply you. So there is no excuse to keep being bothered with your skin troubles. The 50c size contains three times as much as the 25c size.

JAZZ HOUNDS MAKE HOME IN LUBBOCK

The Georgia "Jazz Hounds", a jazz combination of four pieces, all members of which have played together for the past two years in Arizona and California, are locating in Lubbock permanently.

The first engagement of the troupe will be played at Slaton to

night and at the country club here tomorrow night.

Claud W. Davis, whose home is at 1416 Avenue L is business manager of the jazz hounds.

The government of Greece has been studying the possibilities of making use of that country's waterfalls for the production of power to aid industry and for irrigating unproductive regions.

RUSSIAN REDS, PLOTTING TO OVERTHROW U. S. GOVERNMENT, ENLISTING SENATORS, DAUGHERTY CHARGES

By United News.

COLUMBUS, Ohio, April 24.—Russian revolutionists bent on overthrowing the American government failed to win over the labor unions and thereupon sought to use United States senators for that purpose, former attorney general Daugherty asserted in a speech here Wednesday night. He mentioned the fact that Chairman Brookhart, of the senate department of justice investigation committee, and Senator Wheeler, chief prosecutor of the committee, spent last summer in Russia.

"The communists failed in their efforts to capture the labor organizations and thereupon arranged for pilgrimages to Moscow by United States senators and others as guests of soviet Russia," Daugherty said.

"There, no doubt, new inspirations were advanced, as to what steps should be taken to cripple the government of the United States and crumble the columns which support it. It fairly may be inferred that one step in this direction was to capture, by deceit and design, as many members of the senate of the United States as possible and to spread throughout Washington city and in the cloak rooms of congress a poison gas as deadly as that which apped and destroyed brave soldiers in the late war."

Within the files of the department of justice and elsewhere in the government abundant proof of the plans, purposes and hellish designs of the communist international can be found. Bear in mind that the files of the department of justice which I refused to deliver to the Wheeler investigation committee at the time my resignation was requested, were demanded by Brookhart and Wheeler, two United States senators who spent last summer in Russia with their soviet friends—those same soviet and communist leaders who preach destruction of constitutional government, destruction even of human life.

"I preferred to permit my integrity to be questioned and my honor to hang in the balance for the time being, rather than surrender the files in the keeping of the beneficiaries of a veteran who had died before me had made application for a bonus, from receiving the bonus insurance if they had already received insurance under the war risk insurance act. The vote was 41 to 37.

"Two amendments were tentatively accepted without a vote on condition that they would be considered by the senate and house conferees in order that a vote on the bill could be taken. One by Senator Walsh, of Massachusetts, struck out the provision that loans cannot be made only up to sixty per cent of the face value of the policy, leaving in the provision for loans up to 90 per cent of the reserve value at the time the loan is made.

"The other by Senator Jones, of New Mexico, struck out a section requiring that no payment could be made to a beneficiary under the dependency provision, unless that beneficiary was dependent upon

on the veteran at the time of his death.

"The fire of criticism following defeat of the cash option amendment was opened by Senator Harris, Mississippi, democrat, who charged that there had been a conspiracy among republican leaders to pass the insurance plan and that they had misled American Legion officials into thinking that the insurance plan must be taken or no bonus was possible."

"You are just opening a Pandora's box by passing this legislation," he declared.

"You'll have to explain it from now on to every boy in the country."

Senator King, of Utah, who opposes the bonus on principle, but who voted for the cash amendment, said the insurance plan was the "result of a conspiracy" as Harrison had charged.

Wheeler Counters to Attack.

WASHINGTON, April 24.—Senator Wheeler, of Montana, prosecutor of the senate committee investigating the department of justice, has launched a counter-attack against former Attorney General Daugherty's statement yesterday, in which the latter issued a blanket denial of all the charges made against him during the hearings.

The evidence thus far adduced before the committee is but a drop in the bucket, Wheeler declared Wednesday.

The Montana senator then attacked separately each denial Daugherty made.

Daugherty says "I never was a drinking man. Nobody ever brought liquor to my house and I never served liquor in my house," Wheeler said.

"The Daugherty-Smith apartment at Wardman Park Inn was frequently referred to as 'one of the wettest spots in Washington.' Evidence clearly shows that Daugherty and Smith were always well supplied with liquor.

"Daugherty, in referring to my indictment tries to create the impression that he had nothing to do with it. But that it originated in the postoffice department. My indictment was due solely to Daugherty's desire to discredit me because I was investigating him. Such indictments have been a regular part of his game just as it had been a

regular part of his game not to prosecute criminals when some advantage was to be gained thereby.

"His hand in the Montana indictment shows clearly from the fact that John S. Pratt, his trusted man normally on duty at Toledo, Ohio, was sent to Montana by solicitor General Beck to prepare the case for the grand jury, the foreman of which is one of my bitterest political enemies."

DEPT. OF AGRICULTURE TO TAKE OVER FIGHT ON CATTLE DISEASE

By United News.

WASHINGTON April 24.—The department of agriculture will take over active direction of the war being waged in California against the foot-and-mouth disease. According to present plans, Dr. U. G. Houck, of the bureau of animal industry, stationed at Sacramento, California, will direct both federal and state forces in the fight against the plague.

Meanwhile a movement was started in congress to combat unnecessary embargoes against California fruit, and vegetables because of the epidemic. A conference, headed by Senator Shortridge, of California, was held at the capitol Wednesday at which it was said "in all of the six outbreaks in the United States not once has infection been traced to any product of the soil."

An official government statement on this matter is being prepared which will be broadcasted to all parts of the country in an effort to have states adjoining California lift their ban on its fruit and vegetable products.

QUARTERLY CONFERENCE AT WOODROW SATURDAY

The second quarterly conference for the Lubbock Circuit will be held at Woodrow Saturday morning at the close of the 11:00 a. m. service. Dr. Robinson will preach and hold the conference. Rev. Pickens is pastor. A full attendance of the official board is requested.

ELKS MET AT LAMESA IN COMPLIMENT TO THE MEMBERS THERE

In compliment to the many Elks in Lamesa, a special dispensation was granted by District Deputy Grand Exalted Ruler, Chas. Y. Welch, of Quanah, to hold the regular weekly meeting at Lamesa Wednesday night instead of at the local lodge rooms.

Exalted Ruler Welch made the automobile, a distance of 150 miles, to attend the meeting.

There are about forty members of the Elks lodge at Lamesa, all of whom are members of the local lodge but hope to secure a charter in the very near future.

About forty local Elks attended the meeting.

HOME ECONOMICS CLASS, LUBBOCK HI REPRESENTED AT STATE CLOTHING CONTEST AT GALVESTON THIS WEEK

Miss Clara Price, superintendent of the Home Economics department of the Lubbock high school left Wednesday for Galveston with the following girls, where they will enter the state clothes contest: Chloe Johnson, Bonna Brown, Eva Lee Mosley, Ruth Smith, Flora Sims, Stella Seitz, Gladys Murfee and Eva May.

Lubbock was represented in the contest last year and won some first prizes.

Opinion is that this delegation will take several of the first prizes this year and it is believed that as a class they will win the championship of the state.

Miss Price has been very industrious in conducting the affairs of the home economics department of the school, and the success of the students at Galveston is assured.

Wm. M. SMITH BURIED AT CONE WEDNESDAY

Wm. M. Smith, of Floydada, died Wednesday morning following an operation.

Funeral services were conducted Wednesday at Cone.

HIGHWAY DEPARTMENT HAS COMPLETED WORK TO BROWNFIELD

L. O. Burford, superintendent of construction for the highway department, stated that the road to Brownfield has been completed and two tractor crews have been put to work on the Lubbock-Abernathy road.

Two new White trucks have just been received by the department and practically all road-building machinery needed in carrying on the work is now available.

The department officials are to be commended upon the progress being made in building the roads through this section of the state.

C. OF C. SECRETARIES ARE URGED TO COMPLETE CONVENTION PLANS

BROWNWOOD, Texas, April 24.—Secretaries and unit directors of West Texas cities are being advised today by the central committee of the West Texas Chamber of Commerce of Brownwood as to the assistance which they can render in making the annual meet here May 13-14-15, the biggest convention ever held in Texas.

The name of the duchess and maid of honor which the city has selected is being asked to be mailed here at once to complete plans. Also information is desired from the secretaries as to whether that city will have a decorated float for the illuminated parade the evening of May 14 and whether the delegation will come in an organized way to take a part in the delegation parade which will be staged at 9 o'clock Wednesday morning, May 14. Bands will accompany delegations in this parade and the city may arrange stunts to advertise that city. A dozen airplanes and a squadron of cavalry will move in formation with the parade. The secretaries are being urged to have their delegates register as soon as they arrive, giving them a badge which entitles them to all the events of the convention, and information sheet which is for the benefit of the visitors, giving them

general information immediately upon their arrival.

The letter also urges the executives to talk up the meeting and to urge the local newspapers correspondents to exploit the plans and arrangements of that city in coming here for the affair. This, the letter says, is valuable aid and cooperation and is being expected of every city.

Concluding, the letter, signed by the central committee, extends a most cordial invitation to the citizenship of West Texas to attend this great gathering expressing hopes that the meeting will prove a potent factor in the future development of all West Texas and will shed lustre upon the fair name of the great Lone Star State.

CATTLE DISEASE SPREADS TO NEW REGIONS WED.

By United News.
LOS ANGELES, Calif., April 24.—Southern California's plague of the foot and mouth disease spread to new herds today with the situation reported as critical as at any time since the first outbreak. Four new cases of the epidemic were turned in at local state quarantine headquarters for the 24-hours ending at 6 p. m. today. The latest report is from Long Beach, 20 miles away, where 250 head of dairy cattle were found diseased and ordered killed. This outbreak is in the vicinity of the Long Beach hog ranch, where 750 head of hogs were slaughtered today as a result of the disease.

Word from Washington that the federal government will take over the warfare against the epidemic brought cheer to local campaigners. State authorities have combined with county heads in an exhaustive and expensive battle, but admit there has been little headway gained. It is hoped that with the federal veterinarians in control the scourge may be speedily halted.

JOURNAL EDITOR WILL SPEAK AT ROGERS, ARK.

James Nance, editor of the Plains Journal, left the first of the week for Rogers, Arkansas, where he will be one of the principal speakers on the program of the Annual Apple Blossom Festival, to be held in that city the latter part of the week.

One of Mr. Nance's brothers is said to be very ill there, and he will, in all probability spend several days in that vicinity.

"When America Was Young"

Every school child in Lubbock is interested and should rightfully be in the early history of America. The Management of the R & R Lindsey considers the announcement of

MARION DAVIES

—IN—

"Little Old New York"

Which will be shown at this theatre Monday and Tuesday of more than usual importance, both from the standpoint of a interesting, amusing picture and as of educational value to every man, woman and child who is interested in the early history of this country.

Believing that the school should be benefitted by this picture we have made arrangement to have some of the school children sell tickets for this unusual picture giving the Lubbock City School a percent of all money they receive from these sales.

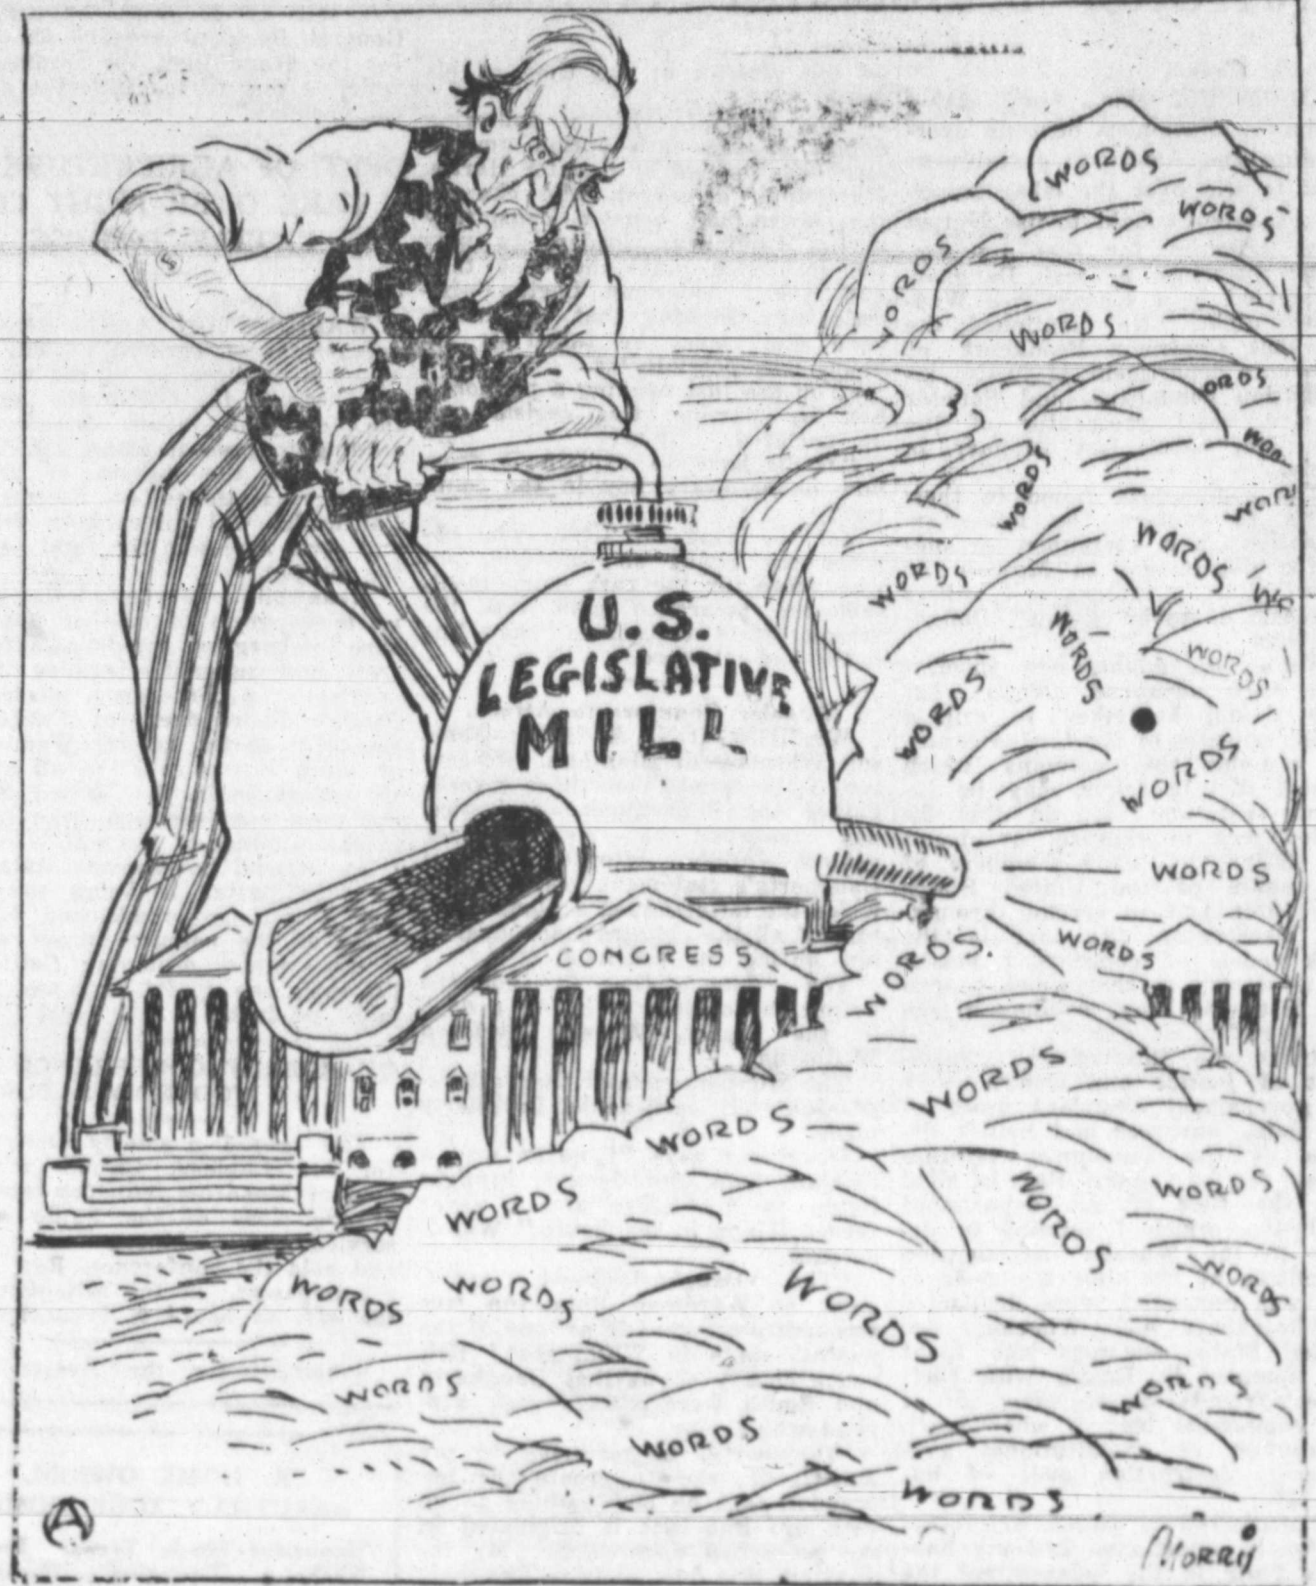

Yours for "Little Old New York"

BIDS WANTED

The Commissioners' Court of
Lubbock County hereby solicits bids
for contract to furnish labor and
material for the construction of a
club house on the County Park
Grounds near the town of Shal-
lowater in said county according to
plans and specifications of said
structure now on file in the county
Judge's office of said county. The
said plans and specifications are
here referred to for all information
necessary in determining and as-
certaining the terms, conditions,
class and kind of material to be
used in the construction of said
building, mechanical skill, charac-
ter of labor, and other matters and
things pertaining thereto, that will
be incorporated in such contract.

The person to whom such con-
tract may be let will be required
to make and enter into a good
and sufficient bond binding and ob-
ligating himself to carry out and
perform every duty and obligation
imposed upon him by the recitals
and terms of such contract.

Every bidder is required to de-
posit with his bid a certified check
for the sum of One hundred and
fifty dollars payable to Lubbock
County as an evidence of his good
faith in the matter and with the
understanding and agreement that
if the said contract shall be let
to him and he shall fail to accept
same and enter into such contract
and carry out same as above men-
tioned, the said One Hundred and
fifty dollars will be forfeited to
Lubbock County as liquidated dam-
ages for such failure on his part.

The proposition is to let the said
contract to the lowest and best
bidder the said Commissioners' Court
reserving the right to exercise
its own judgment and discretion
in all such matters, and also reser-
ving the right to reject any and all
bids submitted.

All such bids and certified checks
must be enclosed in an envelope,
sealed addressed to the County
Judge of said county, and delivered
to said county Judge on or before
ten o'clock a. m. on the 12th day
of May, 1924. The said envelope
should be marked so as to indicate
its contents.

Said sealed bids will be opened
and duly considered by the Com-
missioners' Court as soon after the
time above stated as may be con-
venient.

P. F. BROWN,
County Judge, Lubbock County,
Texas. 152-2 Fri

THE KIWANIS PLAN TO ATTEND THE BIG CONVENTION

A very interesting program of
the Lubbock Kiwanis Club was
carried out Thursday with Kiwanian
Owen McWhorter in charge.

"How Denver plans to entertain
the delegates to the 8th Internation-
al Convention," was the subject
assigned W. C. Rylander, and in his
usual manner he told of the many
beautiful parks, buildings and the
general appearance of that city, and
impressed his hearers with the ad-
vantages to be enjoyed through at-
tending the convention.

Louie F. Moore, one of the dele-
gates from the local club to attend
the convention, spoke in the absence
of E. L. Klett who had been as-
signed a part of the program. Mr.
Moore assured his hearers that the
convention would be worth while
for any or all of the Kiwanians,
but said he would be more able to
make a report on the advantages to
be derived through attending the
convention after he returns home.

The senior class of the Lubbock
high school had charge of the
luncheon and many favorable com-
ments were to be heard regarding
it.

After the regular program had
been concluded president Wilson
took charge of the meeting, and
called upon several visitors.

A report on the work being done
by the committee appointed to as-
sist the Federated Club committee
in arranging for the entertainment
of the delegates to the convention
to be held here in the near future
was made by B. Sherrod, and the
Kiwanians will give \$100 to the
general fund to be used by the
club women.

W. T. Raybon made a report on
the work being done by the recre-
ation committee, and it is probable
that the Silver Lake Falls will be
the summer camp for the Girl
Scouts, this organization being
sponsored by the Kiwanians.

Ray C. Mowery made a report
of what the stock-judging team did
at College Station, and was cheered
by the Kiwanians when his report
had been concluded.

Dr. Ferguson, Dentist, Conley
Bldg., knows how to cure Pyorrhea.
297-30p.

LAWYER FINED WEDNESDAY ON JOY RIDING CHARGE

By United News.

KANSAS CITY, April 24.—Laws
were made to be observed by law-
yers just the same as by anyone
else, Judge Ira S. Gardner, in South
Side Municipal Court ruled Wednes-
day. James West, of Leavenworth,
Kansas has been arrested for joy-
riding. A bottle of hooch was found
in his car.

"What's your occupation?" Judge

Gardner asked when West said he
represented himself in court, and
didn't need an attorney.

"I'm a lawyer," West replied,
"Please be lenient with me."
"You should know the law then"
the court mused. "Fifty dollars and
costs."

Hemstitching and pecking done
by experienced operator. Balcony
of Texas Furniture Company, Sing-
er Sewing Machine Company. Phone
97. 127-4t.

"Now, I am Glad We Waited—"

"We came near buying a monument from an agent
to get rid of him." There has been at least a dozen
called on my sister and I since mother's death, but
we had heard of the many nice monuments you had
sold here at Tahoka, and we decided to wait until
we could see you, and NOW I AM GLAD WE
WAITED, your prices are less and I know that we
can depend on you for nice work."

The above statement made to us by a lady living
at Tahoka, after she had placed an order with us
for a monument.

ENFORCEMENT OF G. O. P. RULES DEMANDED

By United News.

WASHINGTON, April 24.—The regular republican organization is now by common consent engaged in enforcing the strictest party discipline in many years for the purpose of building up a wall of insulation against the insurgency which has thrived at an astonishing rate during the last three years.

This rigid discipline more than anything else killed the Hiram Johnson boom. Skilled party workers found that it would be to their disadvantage to help Johnson and he was compelled to make a one-man campaign.

Two other distinguished victims now lie mangled on the political landscape. Governor Pinchot has just suffered a humiliating primary defeat at the hands of the

Pennsylvania organization dominated by the Pepper-Reed-Mellon forces. Pinchot appears to have been overwhelmingly defeated in an attempt to be a delegate at large to the Cleveland convention.

This is the first time perhaps in the history of national conventions that a Pennsylvania governor has been denied a place on his party's delegation. Pinchot has paid the price of his insurgency. He attacked Secretary of the Treasury Mellon and the regular organization came to Mellon's assistance.

The same lash was applied to Senator Moses, of New Hampshire, in the primaries there some weeks ago. Moses as a candidate for delegate, refused to pledge himself to vote for Coolidge and the result was that the organization licked and denied him a place on his states convention delegation.

An illuminating insight into the state of mind of the regular party workers is afforded by the announcement that the National Republican weekly political journal published here, will no longer be the official organ of the Republican national committee or the mouthpiece of the national republican organization. Some regard this as a step to permit this publication more freedom in its criticism of Coolidge for dismissing Daugherty, as attorney general and for exposing the world court. The national Republican has been caustic in its criticisms in both instances.

However, that may be the publication itself makes a significant explanation when it declares that the purpose of this change of status is to permit it complete freedom to refuse to support that type of leadership and candidacy which uses the liveliest of republicanism to serve unrepentant.

This is aimed at candidates like Senator Brookhart, of Iowa, who is a nominal republican but who disregards party lines in exercising his prerogatives as a senator.

"The policy of compromise with destructive elements, wearing the camouflage of republicanism, has already gone so far that these elements in both political parties are now planning to launch a third national party while retiring, for time being, the advantages which comes of a thoroughly insincere and dishonest profusion of allegiance to the existing parties," the National Republican declared.

DEATH OF YOUTH MAY CAUSE BAN ON CARNIVALS

By United News.

ARKANSAS CITY, April 24.—The death of Leslie Kindell, 19, of Republic, Mo., Wednesday after a fall from a trapeze bar may cause city officials to inflict a ban on traveling shows and carnivals here.

There have been several accidents here in the last few years similar to the one in which Kindell lost his life. Just what steps would be taken however, officials refused to say.

FUMIGATION OF TOURISTS HALTS SPREAD OF DISEASE

By United News.

EL PASO, Tex., April 24.—Some apprehension has been caused among cattlemen by the large number of tourists, released from the Arizona headquarters spreading Arizona quarantine, spreading the foot and mouth disease. Dr. Thos. A. Bray, in charge of the United States Bureau of Animal Industry here, says that there is no danger, inasmuch as all automobiles and contents have been fumigated at the Arizona state line.

Tourists who passed through the fumigating plants after a stay of ten days at the Arizona line, are loud in their praise for the work of the officials and chamber of commerce at Yuma, declaring that they did everything possible to make it comfortable for them while they were held by the quarantine.

Arizona authorities have lifted the ban on dining cars from California, on agreement of the railroads to burn all refuse from the cars railroad officials report.

PLATFORM FOR THIRD PARTY OUTLINED

By United News.

NEW YORK, April 24.—A declaration of independence will be embodied in the platform of the permanent third party to be erected in June on the foundations of the national farmer-labor-progressive movement, according to Rev. John Hayne Holmes, noted pastor of the community church where third party plans are to be discussed on Sunday April 27.

Holmes said the chief planks of the third party's platform would be: Free speech; public ownership of public utilities, natural resources, and railroads; prevention of judicial abuses and the entrance of the government into banking.

"The ignorant, corrupt, old parties are the real enemies of our American democracy," Holmes declared.

"The English people, in the rapid rise and triumph of the British labor party, have shown us the way. This year gives the opportunity for Americans to follow and to start in this country what is now so well established in England."

Holmes ridiculed the efforts of the republican national committee through its organ, the National Republican to brand as satellites of Moscow the men and organizations behind the third party.

"The idea that those who oppose the republican party are necessarily seeking the destruction of the existing American system of government is incomprehensible," Holmes said.

"This seems to suggest the extraordinary assumption that the republican party and the American government are synonymous. Such a confession by that party sheds a flood of light upon the psychology of our old time politicians. Now then we know who and what they deem themselves to be, they stand convicted out of their own mouths," Holmes concluded.

RANGER REDUCES ITS MUNICIPAL OFFICE FORCE

By United News.

RANGER, Texas, April 24.—Ranger has abolished both its municipal judge and attorney as a policy of retrenchment.

Mayor R. H. Hodges, and other members of the commission, agreed to let the mayor serve all three offices, eliminating \$150 in salaries formerly paid the judge and attorney.

"I don't relish my new job," Mayor Hodges said. "However it is a matter of economy, and I'll be glad to serve for that reason."

PLANT A TREE!

PREMIER URGES U. S.-BRITISH UNITY

By United News.

NEW YORK, April 24.—The future of humanity depends in large measure upon a cordial friendship between the United States and Great Britain, Ramsey MacDonald declared in a message to the American Newspaper Publishers Association read during a speech by Sir Esme Howard, the British ambassador here Thursday night.

"I like to feel that in saluting the American press I am saluting a powerful colleague in work which as the head of the British government, I have very close at heart, namely, the maintenance and strengthening of a real understanding between the American and British peoples," Premier MacDonald said. "I have always held strong opinions as to the value of that understanding and the more I study the present plight of the world, the more I feel that in the long run the moral and material future of humanity must depend to no small extent upon a cordial friendship and a generosity of sentiment between our two nations."

"Never in the history of the two countries have the official relations between the U. S. and Great Britain been better than they are now. They are marred by no outstanding disputes. They are, on both sides of the Atlantic, in the hands of governments and ambassadors working harmoniously together. But in those days international friendship is not based on official friendship alone. To be fruitful and enduring, it needs the sanction of popular sympathy."

A new diplomacy, less selfish and violent, and more considerate of others, is developing," the British ambassador said.

CONGRESS TO SPEED PROGRAM (Continued From Page 1.)

of essential legislation. Senator D. A. Reed, of Pennsylvania, urged American newspaper publishers to close the columns of their papers to "political bunkum and force congress to return to its proper functions."

Reed addressed the bureau of advertising of the American Newspaper Publishers Association on the same program as Sir Esme Howard British ambassador, who delivered a message to the publishers from Premier MacDonald which declared that "humanity rested largely on cordial relations between Britain and America."

days, Reed declared. He claimed the publishers could "bring congress to book by ignoring politicians who indulge in a clap-trap or pander to the baser motives of their constituents" and make the body return to its "proper business."

Murderers Believed Captured.
LONDON, Eng., April 24.—The Albania legation announces that Albanian troops have captured two members of the band of six men who murdered the two Americans, Coleman and DeLong, near Tirana. Only one member of the band is still at large, according to legation officials.

MEMORIAL HALL SOON TO BE COMPLETE

BROWNWOOD, Texas, April 24.

The Soldiers' and Sailors' Memorial Hall, which has been constructed by the citizens of Brownwood at a cost of \$115,000 to be used to take care of the multitude which will attend Brownwood's dozen conventions this year, will soon be completed and dedicated with appropriate services which will

take place here Monday afternoon, May 12, with the Isham A. Smith Post of the American Legion taking a leading part. It was announced from the chamber of commerce headquarters here this week.

The auditorium, which is said to be the largest between Fort Worth and El Paso has a seating capacity of 3,200, and will play a big part in taking care of the meetings of the West Texas Chamber of Commerce when that body meets here in its annual convention May 13, 14 and 15.

Post Commander C. A. McNeil of the local American Legion Post, will have charge of the services, and plans are rapidly being perfected along this line, he said. Officials of the American Legion are expected to be here for the services.

The services will be held the day preceding the formal opening of the West Texas Chamber of Commerce meeting, which opens May 13 and lasts through May 15.

In South Africa the use of electric power has increased 30 per cent in three years while the increase of steam power has been only seven per cent.

The normal human eye is capable of distinguishing only from 15 to 20 different colors according to a European expert.

MANY ATTENDED OPENING OF NEW STORE

The formal opening of the Halsey Hall drug store on Broadway Thursday was attended by more than fifteen hundred people.

More than forty gallons of ice cream was served those who visited the store, together with a quantity of all kinds of soft drinks, for which no charges whatever, were made.

Several extra helpers and the regular crew who will take care of the store's business were kept busy the entire afternoon.

Messrs. Halsey-Hall received many congratulations upon the splendid appearance of their store, which is one of the finest of its kind to be found in West Texas.

Just Like This

A pretty young lady named Jane, While walking was caught in the rain. She ran—almost flew, Her complexion did, too, And she reached home exceedingly plain.
