Ask Farmers to Fill Agriculture Census Blanks

Farmers in Ochiltree county are asked to cooperate in the Census of Agriculture by having their census forms filled out when the enumerator arrives.

These forms were sent by mail to every farmer in the county several weeks ago and are to be filled out, as far as possible, before the enunmerator visits the farm.

Ray McWilliams, one of Ochiltree county's enumerators, says he has thus far found only one farmer with the questionnaire filled out. This has slowed down the census and increases the cost of the undertaking.

All material given the census taker is strictly confidential and will not be released or given to anyone. The information gathered in this census is used to provide information for computing the nation's farm resources, aids in setting the government farm program and assists in other projects for which the information is

Eats One Egg, Finds Still Has One Left

L. B. Wilson, who resides on the Uncle Sam highway east of town, ate an egg for breakfast last Thursday and still had the same egg left. Perhaps not quite, but the egg he ate had another egg inside it and both were apparently quite good. The egg inside the first egg had a completely developed, hard shell, and this is the first time Wilson has found an egg like this since he has been gathering and eating eggs. The egg, or eggs, were laid by an Austra White pullet who has been laying about six weeks.

Rangers and Hereford Tangle Here Friday; Rated as Tossup

FOOTBALL QUEEN—Harriet Hale, Perryton high school junior, will be crowned 1954 Ranger Football Queen at halftime ceremonies during the Perryton-Hereford game Friday night. She will be escorted by Ranger co-captains Jack Wright, left, and Gene Good, right. The queen was chosen by secret vote of the Ranger football squad.

Dear Injured Thrasher To Call Signals

The Rangers will attempt to get back into the win column this week when they entertain the potent Hereford Whitefaces Friday night at Ranger Field. The game is considered about a toss-up with the Rangers having a slight edge on comparative scores.

Perryton's chances took a dip Monday afternoon when Shorty Dear, regular quarterback and the district's leading passer, suffered a fractured arm and will not play against Hereford.

It appears the senior signal caller will be lost for the season. His place will be taken by Bill Thrasher, regular end who has been an understudy at the quarterback job for the past two seasons. Also expected to see action at quarterback are second string quarterback Jim Baker and B team quarterback Tommy Johnson.

Jerral Allred, defensive halfback and end, will start at left end in place of Thrasher.

The Whitefaces have won four games and lost three this year, holding victories over Muleshoe, Tulia, Shamrock and Dalhart while losing to Littlefield, Brownfield and Canyon.

Canyon took a 26-14 victory in a game which Ranger scouts said could have gone either way. Hereford fumbled nine times in that one.

Hereford runs from a Split-T formation, and the backfield is said to be about as fast as Canyon's although not as heavy. Buddy Godfrey, a speed merchant, is the chief ground gain-

Ranger Club Rummage Sale Scheduled November 12-13

A gigantic rummage sale, sponsored by the Perryton Ranger Club, has been scheduled for Friday and Saturday, Nov. 12-13, to raise $500 needed to carry on the organization's summer activity program, according to Alton Witt, club president.

The sale will be in the old Kelley Drug building at 108 S. Main.

Persons having any article of clothing, shoes, toys, hats, baby clothing, furniture or anything of value that they wish to donate to the Ranger club for the sale should call the Chamber of Commerce, phone 6241, or sale headquarters at 2571 and a club member will come after it.

Residents of Booker and Balko are urged to participate in the donation of articles and also in the sale since many boys from these communities participate in Ranger club events, Witt pointed out.

Memberships are still open in the Ranger club and may be purchased at the First National or Perryton National Bank. The fee is $5 per year.

Many Perryton merchants have donated several new articles for the fund-raising sale.

Last summer more than 400 boys of Perryton, Balko and Booker had an active part in Ranger club activities.

City Workers Spend Nights Hauling Halloween Debris

Property damage caused by Hallowen "spooks" was not as high this year as in some previous years, due probably to the constant efforts of city employees who worked all night Saturday and Sunday to control the swarms of boys out on the streets.

The young children made their "trick or treat" visits for the most part on Saturday night, but on Sunday night the older group forayed out to turn the town upside down.

City workers made no effort to keep the streets clear of the assorted junk until late Sunday night, when the "spooks" were sent home. In some instances, parents had to be called out of bed to come after their youngsters.

After the "spooks" were home, the city workers spent the rest of the night moving the debris off Main street. The yard at the city warehouse south of town held an assortment of water tanks, trash barrels, lumber, junk iron, signs and anything else that was movable.

City manager J. B. Whigham said Monday that the city still has on hand three combines and two old cars that no one has claimed. One of the combines was moved off the Santa Fe tracks Sunday night.

Most severe damage was done at the county fairgrounds where someone drove up and down the rows of young trees, breaking them down for no apparent reason. The same car was driven into the gate at the baseball diamond and the gate was torn loose from the hinges.

Deputy sheriff Arlie Binion said it is believed that the person who did this damage has been found in Spearman.

The trees had been planted about four years ago and have been watered from a water tank each summer by county employees. Many of the trees were torn down completely and a few might live, according to county custodian Hardy Hulsey.

A pickup has been traced to Spearman, where paint markings indicate that this is the vehicle that did this damage.

As a whole, property damage was light in Perryton, and especially so compared to the damage reported in Follett, Darrouzett and Booker.

Services Held Saturday for J. A. McWilliams

Funeral services were held at the Boxwell Bros. Chapel Saturday for J. A. McWilliams, 72, a former resident of Perryton who died Oct. 28 at his home in Florence, Colo.

ports on wheat, opopsing state control of underground water, favoring the use of natural gas for irrigation purposes, and strongly favoring the employment of a Home Demonstration agent for Ochiltree county.

The following resolutions were passed:

Resolved that the Ochiltree County Farm Bureau go on record favoring the employment of a Home Demonstration agent for Ochiltree County.

WHEREAS: Ochiltree County wheat producers are opposed to our present law, providing flexible price support as a means of controlling production, and recommendation that this law be repealed or amended. We recommend continued use of acreage allotments and marketing quotos as a means of controlling production and that wheat be supported by commodity loan at not less than 90% of parity.

WHEREAS: When acreage allotments and marketing quotas are in effect on wheat we recommend that producers be required to seed within their allotment and that marketing quota penalties be sufficiently high to definitely discourage excess production, also, that producers be permitted to seed any crop on diverted acres that is not at the time of seeding, under marketing quota and or acreage allotment.

WHEREAS: We recommend a change in regulations permitting seeding of wheat allotments without being subject to a reduction in wheat base.

WHEREAS: As a means of expanding our export market we recommend acceptance of foreign currency as payment for wheat sold to importing countries.

WHEREAS: As a means of increasing exports of wheat by offering a better quality product, we recommend revision of our grading standards that wheat be graded according to milling and baking qualities rather than test weight.

WHEREAS: We recommend continuation of marketing research in an effort to find new markets and new uses for wheat.

WHEREAS: We recommend that laws pertaining to our farm program be written in such language as will provide maximum administration by law rather than by directives from the Secretary of Agriculture.

WHEREAS: Under Texas law, underground water is owned and controlled by the land owner. We recommend that water conservation districts be formed and legislation be enacted, empowering local controls of underground water. We oppose state ownership and control of underground water.

WHEREAS: We recommend that participation in the Social Security program be optional with farmers.

WHEREAS: We recommend a change in Federal Crop Insurance regulations permitting the planting of a substitute crop, prior to harvest, without any reduction in indemnity.

WHEREAS: We have natural gas pipe lines through our county, as well as through neighboring counties which force passage through our properties without permitting tap rights for irrigation; thereby forcing use of fuels at considerably higher cost. Therefore be it resolved, that the Ochiltree County Farm Bureau go on record favoring legislation to permit use of such gas for irrigation and domestic use.

Resolved that the Ochiltree County Farm Bureau urge continuation of the bind weed control program on railroad right of ways, State highways, county roads, and any other public lands within the county.

Resolved that the Ochiltree County Farm Bureau encourage 4-H and FFA work by sponsoring an awards program, purchasing a club calf or in any other manner the Board of Directors decide best.

Resolved that the Ochiltree County Farm Bureau cooperate with other organized groups in promoting a county fair.

Resolved that the Ochiltree County Farm Bureau cooperate with Extension Service, P.M.A., District Supervisors, Soil Conservation or any other group or agency in promoting field demonstrations, range demonstrations or in any other manner, bringing useful information to the public.

Firemen Turn Out for Three Calls This Week

Three fire calls were answered by the Perryton fire department during the week, one of them a Halloween "trick" set on Main street.

Two "hot" wires on a pole back of the Mays Produce Co. brought out the firemen Saturday afternoon. The fire was stopped before any adjoining buildings were threatened.

On Sunday afternoon, the garage at the Bill Moon home, SW 1st avenue and North Drake, was damaged, when fire broke out and burned the walls and some articles of furniture stored in the garage. Moon told the firemen that some children had been playing in the garage that afternoon and that he suspected they had been playing with matches.

The Halloween fire was set in front of the Bud Fuller Service by some boys who mixed gasoline with cement, spread it across the street and set the mixture on fire. The cement blazed fiercely for a while until the firemen were able to put out the fire.

At least one of the boys involved in this fire has been caught and his parents have been notified as to the amount of cost involved in calling out the firemen and paying for the damage.

Abandoned Car Rumor Stopped

Mystery of three abandoned cars south of Perryton was cleared Tuesday when one of them was identified as having been stolen from Guymon and the other two were claimed by their owners.

A '53 model Dodge convertible was found on the King ranch in a deep canyon. Apparently occupants of the car pointed it toward the canyon and stepped out. A report from the Guymon Sheriff's department says that the car had been missing since Feb. 2, 1954.

The other abandoned cars had developed engine trouble and the owners had gone for help when they were reported to the sheriff's office.

Warren-Danzey Wedding Read October 17 In Abbeville, Alabama

Mr. and Mrs. Ralph Danzey who were married on October 17 at 3 p. m. in the home of the bridegroom's sister and brother-in-law, Mr. and Mrs. W. L. Woodham of Abbeville, Ala. have returned to their home in Perryton following a wedding trip to Florida.

The bride, the former Mrs. Lillian Warren, is the daughter of Mrs. Kirt Williams of Perryton and the late Mr. Williams. Mr. Danzey's parents are Mrs. B. L. Danzey of Abbeville, Ala. and the late Mr. Danzey.

The Reverend W. R. Hammock performed the ceremony.

Decorations in the living room were of greenery and white flowers. Cascading greenery formed a background before the mantel for a fan shaped arrangement of white gladioli, white figi chrysanthemums and tuberoses. Tall white candles burned in tiered silver candelabra on either end of the mantel.

Charles Woodham, nephew of the bridegroom, lighted the candles.

The bride wore a dress of ice blue faille fashioned with a tucked bodice and flared skirt. Her accessories were white and her corsage was of orchids. The necklace she wore was a gift of the bridegroom.

A reception was held following the ceremony.

The bride's table was covered with a hand embroidered linen cloth and centered with a tiered wedding cake embossed with spun sugar calla lilies. On the top tier were white wedding bells. Encircling the cake was a frill of white nylon net. Crystal candelabra held tall white burning tapers.

The punch table was overlaid with an imported linen cloth. Plumosa fern and pink coral vine encircled the punch bowl. On the buffet, in a silver bowl, was an arrangement of pink roses.

Presiding at the cake service was Mrs. Ralph Reynolds and at the punch table, Mrs. Harold Danzey.

Firemen Turn Out for Three Calls This Week

Three fire calls were answered by the Perryton fire department during the week, one of them a Halloween "trick" set on Main street.

Two "hot" wires on a pole back of the Mays Produce Co. brought out the firemen Saturday afternoon. The fire was stopped before any adjoining buildings were threatened.

On Sunday afternoon, the garage at the Bill Moon home, SW 1st avenue and North Drake, was damaged, when fire broke out and burned the walls and some articles of furniture stored in the garage. Moon told the firemen that some children had been playing in the garage that afternoon and that he suspected they had been playing with matches.

The Halloween fire was set in front of the Bud Fuller Service by some boys who mixed gasoline with cement, spread it across the street and set the mixture on fire. The cement blazed fiercely for a while until the firemen were able to put out the fire.

At least one of the boys involved in this fire has been caught and his parents have been notified as to the amount of cost involved in calling out the firemen and paying for the damage.

The other abandoned cars had developed engine trouble and the owners had gone for help when they were reported to the sheriff's office.

Canyon Eagles Overpower Rangers in 35-26 Thriller

The Canyon Eagles remained undefeated for the season by ramming past the Rangers at Canyon Friday night in a 35-26 thriller. The score was tied at the half, and the lead changed hands four times in the exciting contest.

Canyon displayed the most pulverizing ground game the Rangers have run into this season. With a quartet of big, fast backs carrying the ball, the Eagles rolled up 457 yards and were never once forced to punt.

The Rangers were unable to open up the Canyon defense with their usual passing game—the Canyon line was looking down quarterback Shorty Dear's throat every time he faded to pass. On the ground, the Canyon line, which hasn't a senior in it, refused to be moved, and charged hard on offense.

The game started out quite favorably for Perryton. The Eagles received the opening kickoff, fumbled the ball on the 16, Perryton gave it back to them on a fumble, and then the Eagles returned the favor on their own 34.

Eight plays later the Rangers scored with Shorty Dear making the final yard on a quarterback sneak. The extra point was a tricky pass from Bill Thrasher to Bill Farrington, thrown from a fake place kick formation, and the Rangers led, 7-0.

Canyon established the pattern of the game on the next series of plays when they marched 54 yards for a touchdown which covered only 13 plays. Leroy Burrow sprinted through a split in the Ranger line for the final 8 yards. The try for extra point was wide, and the Rangers still led, 7-6.

However, the Eagles held Perryton on the 20, forcing a kick, which traveled 54 yards to the Canyon 26, and from here they marched the 74 yards for another touchdown. R. A. Burgess smashed the final yard for the touchdown on this drive, which lasted into the second quarter, and Canyon was ahead, 12-7. Burgess kicked the point and it was 13-7.

The Rangers made 25 yards and then Dear booted a perfect kick which carried 52 yards and died on the Canyon 2-yard line. Three plays failed to net a first down and the quarterback gambled on the fourth down and failed. This gave Perryton the ball on the Canyon 11 and they wasted no time in taking advantage of the gift.

Gene Good powered over right guard for five yards and the touchdown which tied it up, 13-13. Thrasher's kick was low and the half ended, 13-13.

The Rangers came charging out on the field to open the second half as though they meant business, and things looked rosy for Ranger partisans for a while. Bill Thrasher received the opening kickoff and trudged 67 yards with the ball to set up the touchdown on the 18. Dempsey Gyger, Jimmy Todd and Shorty Dear drove down to the 4, where Gyger smashed over right tackle for the touchdown to make it 19-13. Dan Pearson ran the extra point and it was 20-13.

On the next kickoff, Thrasher booted a mighty one that found Eagle halfback Jamie Airhart trying to run the ball out from his end zone and he got about one foot inside the playing field. It looked as if the Rangers had a golden opportunity to hold the Eagles in check, but the powerful Canyon backfield hammered out of the danger zone and it began to look bad for Perryton.

The Eagles drove the full 99 yards for a touchdown, hammering the line down to the Ranger 9 where quarterback Jimmy Golden flipped a pass to end Don Britain for a touchdown and it was 19-20. The try for extra point was fumbled and Perryton was still ahead, 20-19.

Canyon really came to life then. They kicked to Pertyton and after Pearson had carried out to the 31, the Eagles drove Shorty Dear back to the 22, two more plays failed to gain, and Perryton kicked to the Canyon 46.

Burrow made 18 yards, a pass from Golden to Airhart made 16, then R. A. Burgess slipped around right end for 20 yards and the touchdown, which put Canyon into the lead, 20-25, and they never relinquished it. Airhart plunged for the point and it was 26-20.

The Rangers received this kickoff and drove 62 yards to the Canyon 17, but were held for downs, and the outcome began to be apparent. Airhart made 7 yards, then R. A. Burgess, slipping behind excellent blocking ran 75 yards for the touchdown which put the game on ice. This made it 32-20 and the try for extra point was no good.

But the Rangers never let up, driving hard in an attempt to score again. They finally held Canyon for downs on the 35 and started rolling in the fourth period. Pearson made 17, Dear hit Thrasher with a pass good for 21, Todd made 5, Pearson made 14, then Dear hit Bill Farrington with a pass which the senior end caught with two Canyon defenders hanging on his shoulders. Farrington twisted free, fell across the goal line, and it was 33-26. The try for extra point, a line plunge, failed, and the Rangers still trailed.

Canyon then got the ball on Thrasher's attempted on-side kick which looked good to the spectators, but which the officials placed down on the Ranger 49.

The Eagles, trying to stall the clock, very deliberately drove down to the Ranger 5 before the defense stiffened and held.

With 8 seconds left in the game, Dear faded for a pass, was rushed hard, and fell back of the goal line to give Canyon a 2-point safety on the final play of the game. This made it 35-26.

Carbon Monoxide Is Hazard of Winter Months

AUSTIN—The cold winds of winter will whip up a new threat to Texans' safety.

The threat comes from carbon monoxide, which, Dr. Henry A. Holle, State Health Officer, characterizes as being invisible, odorless, and tasteless — but deadly.

As cold weather draws near, the danger of carbon monoxide in the home or garage increases. Many people throughout the state are lighting poorly or faulty ventilated heaters and furnaces in their homes or running their cars in closed garages. Closed houses keep cold out and the deadly fumes in. A few people live to tell about it because someone found them before it was too late.

The burning of any fuel that contains carbon may produce carbon monoxide. This is true of coal, coke, wood, oil, kerosene, gasoline and such gaseous fuels as natural or manufactured gas. Last year 7 Texans died of carbon monoxide poisoning, two of them in automobiles.

All heating equipment should be vented to a flue. Keep all rooms ventilated. Do not turn the heater higher than it was intended to run. Never leave gas heating appliances burning while you and your family are asleep. Regulate adjustable air-mixing valves so that enough air is supplied to insure complete combustion of the gas.

If a person is overcome by carbon monoxide they should first be removed to fresh air. In addition open windows and turn off the gas in the room. If the victim has stopped breathing, administer artificial respiration and if possible an inhalator should be used to administer oxygen. Keep the patient warm and lying down until a doctor comes.

Another Fake Orphanage

Over at Dumas last week, the sheriff threw three colored men in jail after their well paying racket of soliciting funds for a "colored orphanage" went stale.

Charges of swindling were filed against the three, who had made Sunray and Dumas as part of their territory for several years. They said they were soliciting funds for the colored orphanage in Paris, Texas and had secured the necessary soliciting permits in Sunray.

Finally, a man in Sunray took the trouble to investigate. He found that there was no such colored orphanage in Paris, and there never has been. When questioned, the three colored solicitors readily admitted this.

What is remarkable about the story is that the same three men made this part of the Panhandle year after year, taking a dollar or so from each businessh ouse in town, then moving on with their loot.

No one became suspicious until finally their luck ran out at Sunray.

Perryton stopped thes ame sort of soliciting deal several years ago when the Chamber of Commerce investigated a colored man who had been soliciting funds for an orphanage in Oklahoma for several years. A telephone call revealed that the man once worked there, but hadn't been heard of for six years. But he was doing quite well on his own, running his own private "charity" racket.

Moral of the story is: Be a little bit suspicious when a stranger asks for money. When in doubt, check with the Chamber of Commerce. They have the time and facilities to do your investigating for you.

Self Interest Works

"People who tell other people how public affairs ought to be conducted (like editorial writers, for instance) are always talking about 'enlightened self-interest.' And well they should! For when one is motivated by enlightened self-interest it means that he has discovered some, at least, of the identity of his good with the common good. It means also that he thenceforth on that issue will reinforce his devotion to the common good (which is understandably diffused) by his devotion to his own concerns (which is, equally understandably, very particular indeed).

"One of the best and most commendable examples of this we have seen in some time is to be found in the sponsorship of a new organization, Keep America Beautiful, Inc., by the container and packaging industry. It has been the makers of the cans bottles, boxes, and wrappers who woke up first to the idea that they might be in for a good deal of ill will from those disgusted with the littering of highways and public places.

"So much for the self-interest. But the man who made the empty bottle on the roadside probably is irritated by the man who made the gum wrappers on the sidewalk. And they both are citizens, too, offended by anybody's litter. The upshot of all this has been an alliance with organizations who are also against litter for all sorts of self-interest and public-interest motives, from the American Automobile Association to the Garden Clubs of America.

"That's the way these things work. And it's a pretty good way."

From the SIDELINE

with HAROLD HUDSON

This season has seen an unusual number of lopsided football scores, with heavy emphasis on scoring. Many teams pour it on an outclassed opponent, even though the final score means little once it gets into the higher figures. There are about a dozen schools in the state with scoring averages of around 50 points per game.

We were interested to read in the official Interscholastic League publication this month that there may be some changes. The League suggests that a rule be adopted, and placed in the Football Plan, to the effect that if one school gets 50 points ahead any time during the ball game the officials are authorized to terminate the contest. Teams unevenly matched should not be allowed to continue playing, says the League. They ask for suggestions from members schools.

In last week's issue, we reported on a mail meeting at Amarillo and credited the right comment to the wrong man. R. M. Lemon of Booker called to say that he didn't say "We don't mind seeing Perryton get better mail service, but we would like to be sure that their better service isn't at the expense of ours." Turns out that this comment was made by a man from Follett, and not Mr. Lemon. We're sorry to have misquoted our neighbor to the east.

Speaking of the mail situation, we understand that the proposed changes still hinge upon the recommendations of the postmasters in the towns affected and that no definite decision has been made.

The spooks were out Saturday night, and we suppose all homes had as many "trick or treat" visitors as ours did. We don't mind feeding the young ones, but when the big boys come around with a tow sack and not even a mask, it is out of the fun-loving spirit of things. Last year Dean McCutcheon refused to contribute to one of his visiting "spook's" sack until the lad went home and shaved.

This "trick or treat" custom is a fairly new one on us. Perhaps we shouldn't be dating ourselves, but when we were growing up here in Perryton there wasn't any such custom. Maybe it was imported from somewhere and we're sure we'll find out it has an ancient origin, but it's still rather new to us. About the wildest we got when we were grade school age was to slip around and "tick-tack" somebodys' window.

And for the benefit of the very young, this was done by fastening a hook to a piece of stout twine, fastening the hook to a window screen, then retreating a strategic distance and rubbing the twine with a chunk of resin. This gave off a "ripping" noise and if the home owner was any kind of sport, he came charging out to see what had happened to his window screen. This gave the "tick-tackers" a chance to run like mad and giggle for blocks.

As we became a little bit older our Halloween tricks progressed in inventiveness and intensity, we must admit. But enough of that.

A woman who wants to look like an executive might try propping her feet on the washing machine.

The Canyon game was about as exciting a game as we've witnessed the Rangers play in a number of years. Only trouble was that we came out a touchdown short and this always detracts from the enjoyment of the contest. One thing about it—the Eagles have a stronger team than we figured on, and they should be able to give Phillips quite a battle.

Another thing we enjoyed about the game was the excellent press box facilities. Enclosed, and heated, no less. Of course the press box at West Texas State College is expected to to be a bit better than those around the high school circuit. The field had a scoreboard, too, a welcome addition after playing the other three road games at fields without a scoreboard. Makes the fans appreciate the splendid electric scoreboard at Ranger Field.

We have noticed a number of magazine articles lately dealing with segregation, Olympics, and other subjects, all winding up on the note that to do or not do this particular thing would "give the Russians material for propaganda." This is the height of silliness to us. Since when do the Russians look for us to furnish food for their propaganda? They can manufacture their own quite nicely, and do so. And who cares? Why should the United States care what Russia says about this nation?

You didn't notice Malenkov calling off the Beria purge because it might "furnish material for American propaganda" did you? Of course not. Comrade Beria being liquidated as efficiently as ever a Chicago gangster got his in the old days. If they don't worry about our propaganda, let's quit worrying about theirs, we say.

Ben Franklin once said: "Teach your child to hold his tongue; he'll learn fast enough to speak."

NEW KIND OF DRIVE-IN—Station KCEN-TV near Temple, Tex., has the only "Drive-in Telecast" in the country, according to program director Jim Bentley. Motorists are shown parked in a field adjoining the TV station to watch a weekly open-air barn dance program. (AP)

Wolf Creek Philosopher

Maybe Scoreboard Would Be Answer

(Ed. note: The Wolf Creek Philosopher probably is right—he doesn't strike us as the type of fellow that you ordinarily see at football games. But maybe his opinion is as good as any.)

Dear editar:

I know as much about football as I do Constitutional law or the life cycle of greenbugs, but I've been noticing lately that more and more fans are coming away from football games each week unsatisfied with the results.

At any given game, you know beforehand half the fans are gonna come away unhappy over the outcome, and I never have figured out how an enterprise with such odds against it could survive. On the other hand, most winters I've never figured out how my cows could survive on the feed they've got, but somehow they make it.

A year or so ago I figured out a plan where both teams could win, everybody could come away from a game feelin elated and the coachin profession wouldn't be any more hazardous than farmin, but I never got anywhere with it.

I have been thinkin about football some more though—why shouldn't a farmer advise on football, everybody else advises farmers on farmin—and was interested in readin about a situation up in the East a few Saturdays ago. It seems the stadium time clock stopped during the middle of the game and the fans were almost helpless. Didn't know what down it was half the time, couldn't tell how many yards to go for a first down, and had a hard time finding out when the game was over.

Of course, this is strictly a hypothetical situation, as far as we're concerned, since most schools Perryton plays don't have a scoreboard or time clock or any of that fancy trimmings. But this is probably a mistake—an elaborate scoreboard would keep everybody happy and instead of the losers going away mad, everybody would be happy under my system.

As it is now, fans at games where they have scoreboards keep one eye on the field and the other on the scoreboard, and it keeps their heads turnin like it was a tennis game, while at the same time they keep an ear cocked around to learn who carried the ball how far.

Under my plan, it wouldn't be necessary to watch the players at all. All you'd have to do is listen to the stadium roars and keep your eyes glued to the scoreboard. In addition to showing how many yards was just gained, what down it is, how many minutes left to play, etc., the scoreboard easily could be enlarged to show little moving electrical figures representing all the players on both sides, manipulated by experts in the press box, with each play accurately represented on the board, which would be in the form of a football field with yardage stripes on it.

The electrical sign business is at such an advanced stage that showing players running up and down on a scoreboard shouldn't be any trick at all to achieve.

Do you think this plan has any merit? Maybe I should try it out on some colleges in case it proves too complicated for high school.

About my plan to have both sides come away from the game satisfied—I don't have time this week to go into that. I'll write you about this plan next week in case you're interested.

Yours faithfully,
J. A.

Doggy Robbery

SAN DIEGO, Calif. (AP)—Mabel Whitsitt's hat shop was spic and span and ready for the first customer. When the door was opened a big Dalmation dog slipped inside, snatched a stuffed poodle from the show window and then made his getaway.

Startled clerks followed him for half a block but quit the chase when the Dalmation had placed the poodle gently beside a tree and turned to defend his fuzzy friend against any attackers.

Ice Retreat Slowed

WEST GLACIER, Mont. (AP)—M. E. Beatty, Glacier National Park chief naturalist, says increased precipitation, despite warmer weather, has slowed the retreat of the park's 60 glaciers.

During the 1940s end of the glaciers was predicted before the year 2000. In 1900, Sperry, largest of the park glaciers, had an area of 840 acres. By 1950 it was down to 300 acres.

Our Town Makes Good in New York City

Couldn't place a new subscriber named Clark, but I found out who they were last week when they dropped in *The Clarion's* office.

"We're native New Yorkers," Mrs. Clark said, "and all our friends there are originally from other places. We always felt left out when they talked about things 'back home.'"

"That's why we 'adopted' your town and to get all the news we subscribed to *The Clarion*. Now *we* have a 'back home' to talk about—and we think it's the most wonderful town there is!"

From where I sit, just about everyone thinks his own home town is best. Picking your town comes natural. The *right* to do this "picking," though, is what really counts. Whether it's a favorite town, a favorite cut of meat, or even a choice of a beverage—say between beer and buttermilk, it's respecting the right to this freedom of choice that makes a good neighbor. I hope you subscribe to that!

B Team Loses To Liberal

The Ranger B team lost their second game of the year to the Liberal B team, dropping a 32-14 decision at Liberal Thursday night.

Priefert returned a punt 70 yards for the first touchdown, sped 73 yards on a pitchout around for the second, and ran 70 yards in the fourth.

Wayman Epp scored both Perryton touchdowns and the extra points were added by Tommy Johnson and Sammy Carter.

Old Smoke-Eater

DOVER, N. H. (AP)—This city of 15,800 thinks it has the oldest active firefighter in the nation.

And in his 59 years on the department, 81-year-old Joseph Heeney recalls he missed only one bell alarm of some 2,000 sounded during those years. A case of pneumonia a few years back caused him to break his record.

Recalling his narrowest brush with death, Heeney said he and three other fire-fighters entered a basement during a 1933 fire. Without warning an upper floor collapsed, blocking their exit.

Just as the quartet was about to give up hope of escape, a gas explosion blew them off their feet. When they regained consciousness, all four were sprawled in the street outside, injured, but not seriously, by the blast.

HUMPHREY BOGART, Audrey Hepburn and William Holden co-star in Paramount's comedy delight, "Sabrina", which is due to open Tuesday, November 9 at the Ellis Theatre. Bogie and Bill portray the roles of immensely wealthy brothers, both in love with Audrey, the chauffeur's daughter. The devious schemes to win Audrey's lovely hand makes for gay, light-hearted, frothy film entertainment.

'Sabrina' Heralded As Year's Most Delightful Screen Tale

As fresh as a breath of spring is the brand new romantic comedy "Sabrina" which comes to the Ellis Theatre on Tuesday-Thursday. A trio of Academy Award winners are seen as Humphrey Bogart, Audrey Hepburn and William Holden take the leading roles.

The motif of "Sabrina" is as charming and as gay as anything that has yet flashed on a motion picture screen. It is a modern day Cinderella tale with lovely Audrey Hepburn being the center of attraction. Audrey portrays the role of a chauffeur's daughter, whose father drives for an immensely wealthy family, of which Humphrey Bogart and William Holden are sons.

As a child on the sprawling Long Island estate, Audrey develops a crush on William Holden, the young playboy brother, but she goes unnoticed. However, after a trip to France, where she is transformed from a gangly-legged girl into a lady of fashion and charm, both Holden and Bogart become captivated by her.

Thus begins a merry, dizzying triangle that is fetching, frothy and fantastically funny. Which of the two brothers winds up with the chauffeur's daughter is ultimately resolved but not until a great deal of lively, romantic fun has been had by all.

Supporting "Sabrina's" glittering trio of stars is a group of distiguished featured players including Walter Hampden, John Williams, Martha Hyer and Joan Vohs.

Fierce Gorilla Star of Show

The carnival midway, sideshow freaks and other ingredients of show business form a background for murder and a fierce gorilla in "Gorilla at Large," which comes to the Ellis Theatre on Friday and Saturday.

In "Gorilla at Large" Cameron Mitchell and Anne Bancroft are teamed in a trapeze act that employs a dangerously daring finale to freeze the hearts of the cash customers as she glides temptingly close to the reach of "Goliath," the gorilla held captive in a pit. New terror is unleashed as these facts are employed by a vicious killer to cover his tracks of murder.

Lee J. Cobb of "Death of a Salesman" fame is the methodical detective who weaves his way through the web of the bizarre and corrupt, to learn what is in the hearts and minds of these boardwalk entertainers, with Raymond Burr as a suspect husband and Charlotte Austin, Mitchell's heartbroken fiancee.

There are about 1,200 million acres classified as "land in farms" in the United States.

Rock Hudson Is Heroic in Tale of India's Wars

The seething violence of India's most turbulent era comes to gallant life on the Technicolor screen in "Bengal Brigade," a heroic adventure which comes to the Ellis Theatre on Sunday and Monday.

Rock Hudson, Arlene Dahl and Ursula Thiess star in the production, which opens with a spectacular view of the defense of Malakai Pass, a page from India's turbulent history.

Against this canvas of history, the clash of personalities and the surge of battle weave the inspiring narrative of the mutinous hero of Malakai whose defiance of orders saved his loyal Sepoy troops but cursed him with disgrace. The great love that almost eluded him, the intrigue that followed him from market place to palace, the danger that dogged his tracks thru swamp and jungle, the daring with which he defied the rebels and restored his honor make "Bengal Brigade" an epic of raw courage and glory.

An the scope of "Bengal Brigade" is matched by a regiment of sterling performers. Hudson, fresh from the greatness he achieved in "Magnificent Obsession," demonstrates his dramatic prowess anew, in a role that demands a lover's warmth, and a master-plotter's nerve.

HOPEWELL, Va. (AP)—The city of Hopewell has purchased for $13,000 property it sold for $1.

The land was sold to the Hopewell Baseball Corp. in 1949, undeveloped. It became the home of the Hopewell Blue Sox in the Class D Virginia League, which later disbanded. Lights, bleachers, concession stands went with the repurchased ball park which the city will use for a municipal recreation program.

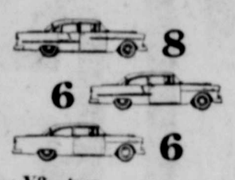
What's new with Chevrolet?
everything!

And look what you see from the driver's seat
Chevrolet's new Sweep-Sight Windshield curves around to vertical corner pillars, giving you a wide, full view. And you can see all four fenders from the driver's seat!

Wonderful new Glide-Ride Front Suspension
New spherical joints flex freely to cushion all road shocks. New exclusive Anti-Dive Braking Control, assures "heads up" stops.



New Outrigger Rear Springs
Rear springs are longer—and they're attached at the *outside* of the frame. This means they're spaced wider apart, outrigger-fashion, to give you greater stability in cornering. And Chevrolet's new Hotchkiss drive cushions driveline shocks through the rear springs!

Great new V8—two new 6's
New "Turbo-Fire V8" delivers 162 h.p. with an ultra-high compression ratio of 8 to 1. You can choose from two new 6's, too—the new "Blue-Flame 136" with Powerglide (optional at extra cost) and the new "Blue-Flame 123."

Even Air Conditioning, if you wish
Air is heated or cooled by a single unit that fits compactly into the front of the car. Requires no trunk space! (V8 models only.) And that's only one of the wonderful extra-cost options you can get!

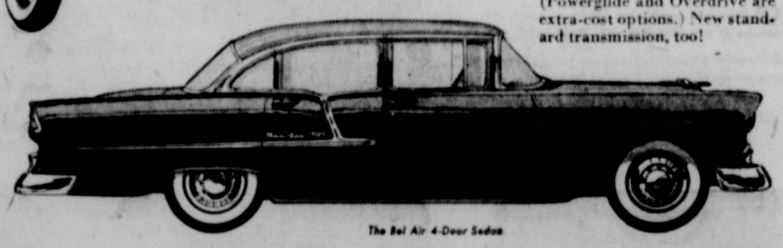
Easier steering, stopping, clutching
The new Chevrolet steers with ball-bearing ease, thanks to new friction-cutting Ball-Race Steering. New Swing-Type Pedals pivot at the top.

A ventilating system that really works
Chevrolet's new High-Level Ventilating System takes in cleaner air at hood-high level—away from road heat, fumes and dust.

Three drives, including Overdrive
There's Powerglide teamed with the new V8 or the new "Blue-Flame 136." New Overdrive teamed with the new V8 or the new "Blue-Flame 123." (Powerglide and Overdrive are extra-cost options.) New standard transmission, too!

Tubeless tires as standard equipment
On all models! Proved tubeless tires give you greater protection against a blowout . . . deflate more slowly when punctured.

. . . and Chevrolet's got that long, low "let's go" look
It's a show car from the word go! Longer looking—and lots lower. There's plenty of glamor inside, too—plus more room for hats, hips and shoulders!



The Bel Air 4-Door Sedan

Chevrolet and General Motors have started something—a whole new age of low-cost motoring—by taking a whole new look at the low-cost car. Here are new ideas, young ideas . . . and some of tomorrow's ideas, too! And they're all rolled up in the most glamorous package that ever wore anything like a Chevrolet price tag!

This is the car that began with a great idea—the idea that a low-priced car *could* be built that would have the style, the performance, the comfort and convenience features, and the fine quality "feel" of high-priced cars.

This is the car that only the world's leading car builders—Chevrolet and General Motors—could have built. The *Motoramic* Chevrolet!

Come in and see how the Motoramic Chevrolet for '55 is far more than a new model. It's more, even, than a completely new car. It's a whole new idea *about* cars!

Come in and meet the motoramic Chevrolet

Vanishing Iceman

OKLAHOMA CITY (AP) — Ever wonder what is becoming of the iceman?

J. D. Owens, 23, Wichita, Kan., who owned an ice company at Wichita, took a cue from declining ice sales in his rural deliveries. A check showed his customers were buying refrigerators.

As a result, Owens enrolled in a refrigeration and air conditioning course at Oklahoma A & M Tech here. When he completes the course, Owens plans to return to Wichita and open a new business for himself.

Veterans Forum

Q. I understand that a veteran may not receive Korean GI training benefit payments if they duplicate payments made by the Government under some other program. I plan to enroll in a land-grant college, which gets Federal funds from a non-VA source. Would I still be permitted to take my training under the Korean GI Bill?

A. Yes. The fact that the Government provides funds to land-grant colleges would not deprive you of your rights to enroll under the Korean GI Bill. The ban on duplicate payments would apply only if you yourself were to get money from two Federal sources—the VA and some other agency.

Q. I have a GI insurance policy. I have named my beneficiaries but I have not yet told VA how I want the money paid out. If something were to happen to me before I designate a method of payment, what will VA do with the money?

A. If you fail to select a method of settlement, the insurance money will be paid to your beneficiary in 36 equal installments. Your beneficiary, however would have the right to choose some other settlement method so long as it is not a lump-sum payment.

Q. I am a disabled World War I veteran drawing a VA pension. Recently I set up a small business that I operate part-time from my home. Do I have to count all the money I make from the business as income, for pension purposes?

A. No. In computing the income from your business, you are permitted to deduct necessary expenses of carrying on the business. It is your net income that counts, not your gross income.

Q. Would it be possible to attend a cooking school in France under the Korean GI Bill? This school is not a college.

A. No. Under the Korean GI Bill, veterans may train in foreign countries only at accredited colleges and universities. They may not enroll in any other type of school.

Mrs. H. C. Brown Jr., Mrs. H. C. Brown Sr., Mrs. P. W. Wermske and Mrs. Wesley Bryan attended the Grand Chapter, Order of the Eastern Star, in Houston the week of Oct. 24.

Conoco Super Gasoline with TCP

The Greatest Gasoline Development in 31 Years

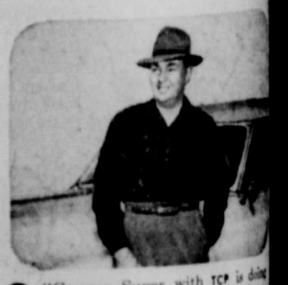
Here are the facts proved by millions:

1. TCP boosts your car's power as much as 15% (because it *neutralizes* power-robbing lead deposits).
2. TCP gives you extra gas mileage (motorists report up to 3 miles more per gallon).
3. TCP is just like an engine tune-up (because it lets you enjoy *all* your car's built-in power).
4. TCP increases spark-plug life up to 150% (because it actually *fireproofs* your spark plugs).
5. TCP makes it possible for you to enjoy all the extra performance of Conoco Super's higher-octane rating.

But don't take our word for it! Read what motorists, themselves, say about Conoco Super with TCP.

❶ "I remember when tetraethyl lead was first put into gasoline 31 years ago. Now comes Conoco Super with TCP! It's livened up my '51 Mercury—and now I get 3 more miles to the gallon."

Mr. John T. Knudsen, Traffic Officer
3089 South Fourth East, Salt Lake City, Utah



❷ "Conoco Super with TCP is doing everything it's promised in giving our '53 Cadillac extra mileage, power, and performance. We won't take any other gasoline, because TCP has no substitute."

Mr. S. E. Brooks, Retired Railroad Engineer
107 North Third, Belen, New Mexico

❸ "I maintain four cars and three trucks. In all of them, it's Conoco Super with TCP. I'm getting new-car performance! Starting on cold mornings is 50% better. I'm *sold* on Conoco Super!"

Mr. Ray D. Crowley, Wholesale Florist
Littleton, Colorado

❹ "Conoco Super Gasoline with TCP does the job as no other gasoline has done before. My 1950 Chevrolet runs quietly, doesn't make knocking noises, starts right up and goes farther to the gallon."

Mrs. S. J. Crosby, Housewife
415 West 6th Street, Anaconda, Montana

❺ "Conoco Super with TCP is a vitamin tonic for my '48 DeSoto. The engine starts promptly. And the mileage savings are like getting up to a gallon and a half of free gas to every tankful."

Mr. William Grabowski, Electrical Contractor
402 North Wirth Ave., Elgin, Illinois
