### PLANS MADE TO LAY BASIS FOR STATE SCHOOLS

**HOUSE COMMITTEE TALKS EQUALIZATION WITH C. I. A. AND A. M.**

(By Associated Press)

AUSTIN, April 25 (AP)—Equalization of salaries at Texas A. & M. college, Texas Tech college and the College of Industrial Arts are contemplated in a classification policy adopted today by the House Appropriations committee, probably will result in decrease of Tech college salaries, and increase of some at C. I. A., committee men said.

President L. H. Hubbard of C. I. A. appeared before the committee today in interest of the biennial appropriation of more than \$800,000 sought for the college salaries, and increase of some at C. I. A., committee men said.

After usual preliminaries, the committee decided to make A. & M. salaries the basis of an adjustment between those of the other two. The three schools will compose "group two" of a classification of educational salaries. The University of Texas will be in "group one" and the normal colleges in "group three." Salaries in each group are to be made as nearly uniform as possible.

**Is New Idea Here**

Officials of Texas Tech said this afternoon that they knew nothing at all of the contemplations announced today by the appropriations committee of the house of representatives. Dr. Paul W. Horn, president, however, said Saturday that no increases in faculty salaries were being entertained by him at the present time.

### CATHOLICS' RIGHTS IN PUBLIC OFFICE UPHELD BY MRS. ROSS

**Moore-Dale Juries Are Being Chosen**

AUSTIN, April 25 (AP)—Selection of a jury to try F. A. Dale and H. H. Moore on charges of bribe-taking began in criminal district court here today with indications that a severance will be sought for trial of Moore first.

Dale, Bonham lawyer, and Moore, Cooper farmer, are under joint indictment charging them with accepting \$1,000 to secure defeat of a bill to tax stationary optometrists during the legislature several weeks ago. They were expelled from the house of representatives during the regular session.

After usual preliminaries, the jury venire was excused until 2 p. m. Meanwhile the court proceeded with other cases previously docketed.

**FORMER GOVERNOR TALKS TO DEMOCRATIC WOMEN, URGING TOLERANCE**

WASHINGTON, April 25 (AP)—Nellie Taylor Ross, former governor of Wyoming, declared today that although she is a protestant, she would like to see a Catholic elected president "just to prove that this is in reality, a republic in which we live and not one in name only."

Speaking before the national Women's Democratic club, Mrs. Ross denounced as unworthy of "precious heritage of American citizenship, any declaration by policy or practice, that prejudice rather than liberal principles shall prevail in this government," and called upon the women of the democratic party to back her up in this stand.

**Speaking "Of The People"**

She said she was not referring to any particular potential presidential candidate, but speaking "only of the people" involved and added that the issue was one "that cannot be dodged or evaded."

"There are many factors to be taken into consideration in the nomination of a president," she continued. "I do, however, insist that one factor that cannot be taken into consideration is church affiliation."

"I believe that the sin of intolerance is the greatest sin of the age. It is amazing that those who call themselves Christians can harbor and encourage in others a sentiment so inconsistent with the teachings of Christ."

**Is Leading Issue**

"It looks now as if a leading issue that is going to face us as democrats this coming year is whether or not a Catholic can be nominated to the presidency by the democratic party. It is an issue that cannot be dodged or evaded. Distasteful as it is to us all, it is well to have it brought out into the open."

"Whatever may be our religious creed, this is an issue that challenges our democracy. To many it will be and is an acid test."

"I hope that the democratic women of this country will not be found wanting on this issue."

### SNYDER MURDER PLOT SKETCHED AS CASE OPENS

**DEFENDANTS CALMLY SIT AS PROSECUTOR TELLS SLAYING PLANS**

(By Associated Press)

NEW YORK, April 25 (AP)—Albert Snyder, Queensville art editor, was "plotted for death" on March 7 last, District Attorney Newcomb told the jury in his opening statement today.

"Mrs. Ruth Snyder and her lover, Henry Judd Gray, met in Manhattan that day," he said, "after Gray had bought a wash weight and chloroform in Kingston, N. Y."

"That day the death of Albert Snyder was decided on and the implements of murder were procured."

"Prior to that two insurance policies for \$20,000 had been taken out on the life of Albert Snyder, with a double indemnity clause for death by violence."

"Albert Snyder never knew about those policies, gentlemen, but Mrs. Snyder knew of them, for she had taken them out, and Henry Judd Gray knew of them, for he hoped to benefit through his mistress."

"Gray then went away but he returned on the night of the murder and hid in a deserted room while Snyder was out to bed by his wife."

"When the poor devil was asleep, Mrs. Snyder sneaked out of bed and told her sulking lover how is the time."

"They kissed and then they went to Albert Snyder's room. They struck him with the wash weight, they struck chloroformed, cotton up his nose, they strangled him with picture wire."

**Borrowed Dead Man's Shirt**

"Then, gentlemen, the job is done. Gray wore suede gloves and after the murder he takes these off and goes into the bathroom where he sees blood on his shirt. They burn the shirt and her bloody gown. She lends him a blue shirt belonging to her husband."

"Then they decide to make it look like a burglary and they upset everything in the house."

"They sat then in the house from 3 in the morning to 6 plotting what only God knows."

"Before leaving Gray binds and gags Mrs. Snyder to help out the burglary story. Then he takes the train for Syracuse."

"Only when he got to Syracuse, Newcomb said, did he discover a large spot of blood on his coat."

"While the district attorney shouted to the jury in a voice trembling with emotion, Mrs. Snyder and Gray sat close behind him, without any show of emotion stronger than very mild interest."

**Brother First Witness**

Warren Schneider, brother of the art editor, was called as the first witness.

His appearance on the stand came after defense counsel had waived rights to opening statements at the time.

Schneider, who has retained the original spelling of the family name, established the fact of his brother's death, a necessary legal preliminary to the trial. He said he had identified the body in the presence of a county medical examiner.

Dr. H. W. Neill, medical examiner also established the corpus delicti.

### Dorothy Mackaye Drawn Into Plot

DOROTHY MACKAYE

**HUSBAND'S DEATH BASIS OF GRANDJURY ACTION**

LOS ANGELES, Calif., April 25 (AP)—The district attorney's office announced that indictments, accompanied by orders for the arrest of Dorothy Mackaye, stage actress, and Dr. Walter Sullivan, Hollywood physician, would be asked of the county grand jury today.

The request would be based upon charges that the two conspired to keep from authorities the true facts in the death of Ray Raymond, husband of the woman, and musical comedy actor, the announcement said. The grand jury was called to investigate the alleged evidence that such "covering up" had been attempted.

### MORE TOWNS IN PATH OF WATER ARE INUNDATED

**DEATH LIST PASSES 100 MARK; THOUSANDS ARE MADE HOMELESS**

(By The Associated Press)

MEMPHIS, Tenn., April 25.—Following somewhat freakish courses, flood waters from the Mississippi and its tributaries overran more towns today in both Mississippi and Arkansas rendering additional thousands homeless and adding to the already staggering total of property damage.

Occasional reports of deaths filtered through from the vast inundated territory but careful checks of the Red Cross showed that only a little more than one hundred with an estimated death total of approximately three hundred.

**Situation Is Serious**

Indianola, Miss., and Arkansas City, and Marked Tree, Ark., were the latest towns to be visited by the flood waters. The combined population is about 4,000 but each had a large quota of refugees and the encroachment of the flood waters has created a serious situation for the relief authorities.

The Mississippi town, which is about 25 miles east of Greenville, was overrun with flood waters from the crevasse at Stops landing.

This flood water is moving on to Vicksburg at a rapid rate, the engineers reporting today that it was approaching Rolling Fork, 43 miles south of Greenville. A number of plantations and villages were flooded overnight but it was assumed that the inhabitants had heeded the urgent warning sent yesterday by officials to flee to the levees.

**500 More Are Homeless**

Under five feet of water early today, Arkansas City, Ark., 20 miles north of Greenville, became isolated. Five hundred persons were homeless there and appeals for immediate relief were sent to Governor Martineau of Arkansas before communication lines went down.

This flood water came from the Pendleton break, on the Arkansas river. Reports today to the Mississippi levee board said there had been another break in the levee and should these prove correct, the situation in and around Arkansas City would be aggravated.

The boy said the two had told him they would kill him if he told the rangers about their making whiskey. However, assured by the rangers that he would be protected he led them to the stills and told how the whiskey had been made and how numerous men in automobiles had come daily to buy whiskey. # SPECTACULAR BASEBALL FEATURES PLAY OF MAJOR LEAGUES

## BENGALS STEAL TO VICTORY AS CHI-SOX FALTER

### RUTH AND MEUSEL CRACK OUT HOMERS; PIRATES LOSE TO ALEX

(By Associated Press) Games won by sheer daring on the base paths, by masterly pitching and by main strength with the bat went down in the records today as major league clubs began to hit top speed in the long race for a world crown.

There is no longer a Ty Cobb on the base lines for Detroit, but a play of the type he made famous in his younger years was flashed by two Tigers yesterday in a game that was won by a hair from the White Sox at Chicago.

**Double Play Wins** Hits were scarce and desperate means were necessary to take the game. The scale was turned by a spectacular double steal by the fleet Fothergill and Blue, another rapid stopper on the bases. Their double dash and slide made safe a 4 to 3 victory for Detroit.

Two starting right handers were matched in the pitching classic of the day out of which Grover Cleveland Alexander emerged victorious over Vic Aldridge of the Pirates. The Cardinal old master granted six hits to the hungry Pittsburgh crew and gave his team the edge to win, 2 to 1.

**Ruth Hits No. 3** Hitting was feverish in the other games. Two homers cracked from Yankee bats in their 6 to 2 victory over Washington. One of them was number 3 for Eddie Meusel made the other and Cedric Durst, new comer to the team, joined the heavy hitting parade by slugging a pinch hit triple to far center field with three on base. Hitting the specks in and slugging from the heels, the Giants won in Yankee style from the Braves by 12 to 8. Al Devorner, Giant backstop, hit four times in five times up and drove in five of his team's runs.

**Browns Slug Win** Pitchers had a hard time too, against St. Louis at Cleveland where the Browns trained their kums on three before the game was theirs, 9 to 4. Still faulty in the field, the Browns made four errors but took the game with ease by dint of a mighty punch at the plate.

Carl Mays, the old side wheeler, deserved to win for Cincinnati, but he faced a handicap that was too much to overcome. He took charge in first with one out, three on and three runs already in, he retired the side, held the opposing Cubs to six hits for the rest of the game and slammed out three hits, one a triple. The Cubs won 5 to 2.

Wild throws and muffs meant defeat for Robble's shaky Brooklyn team, this time 5 to 1 at the hands of the competent Phils.

## PRIESTS MAKE MEXICAN EXIT

### Calles Government Reports 8 Churches and Continues Probe On Revolt

(By The Associated Press) MEXICO CITY, April 23.—Having deported eight archbishops and bishops and executed a priest on the charge of government responsibility for the revolt, the government today announced that it was seeking to oust other priests alleged to be implicated in a revolutionary movement.

Despite vehement denials by the Mexican Catholic authorities of all connection with the rebellion, the government places responsibility for the outbreaks on the Catholic episcopate, priests and some laymen.

**Two Put On Train** Archbishop Pedro Vera Zuria of Puebla and Bishop Jose Marique Zarate, of Huejutla, were put aboard a train bound for Laredo Friday night, shortly after six priests, including a Bishop Mora Del Rio, had left the country. After the withdrawal of the priests from the churches as a protest against the laws, he was arrested, charged with engaging in subversive and rebellious activities, but was released after a period in jail.

Dispatches from Monterrey, state of Nuevo Leon, say authorities have ordered the deportation of Archbishop Juan Jose Herrera Pina. Monterrey, his whereabouts is not known and the police are endeavoring to locate him.

An official account of the execution of a priest at Rio Del Cuale, in the state of Jalisco, says he was captured with others in an engagement against government troops. Here is Prof. Cobb's lecture: "The best message and the only message I could give you to convey to the boys of your school for me is this: 'Let them always play to the very best of their ability any game in which they take part. Let them try to win by every fair means. Should they lose, there is a great victory to be won in learning to lose gracefully.'"

**Grange On The Field**  
Prof. Grange got around to the field in person. One reason was that Miss Abrams inquired his sleeping car in the railroad yards and told him exactly the idea. "Red" took his downy couch and went to the field. He met the girls' shock hands with them and talked football with them like a regular.

## WESTERNERS TO MEET BULLDOGS HERETOMORROW

### ATER WILL TAKE BOX TO TRY TO EVEN SERIES WITH PLAINVIEW

Swearing to wreak vengeance behind the dizzy slants of Captain Raymond Ater on the team that manhandled them to the tune of 7 to 2 last week, the Lubbock High school Westerners will clash on the diamond here tomorrow afternoon with their ancient and honorable rivals, the Plainview Bulldogs.

The game will start promptly at 4 o'clock and will be battled out on the Merrill park field, Coach Ludolph Von Tungen said today. Charlie Guy will call the contest.

While Coach Von Tungen is not absolutely certain about his hurling selection he said today that in all probabilities he would put the burden on the good right arm of Captain Ater, who performs in the shortfield when he isn't on the block. Ater has a nice fast ball, a sharply breaking curve and his popularity with his team-mates keys them up to support him well.

Although beaten at Plainview last week the Westerners are not fearful of dropping the home tilt for had not a flock of errors punctured a single inning of the Plainview battle the tale might have been a different one, both

W. W. Rix, president of the Lubbock Retail Merchants association, will attend the state convention of the Retail Merchants association of Texas which meets at Port Arthur May 23, 24 and 25, it was decided at a meeting of the directors of the association Monday morning.

Mr. Rix has been invited by the state association to make the response to the welcome address at the convention and will also invite the convention to be held in Lubbock in 1928.

The directors voted to postpone the quarterly membership meeting from May 19 to June 7 in order to include the report of the convention which Mr. Rix will make.

Stung by rumors a thief returned all the valuables stolen from a home in Dublin, but kept a baby's rattle.

## CALLES NAMES NEW DICTATOR

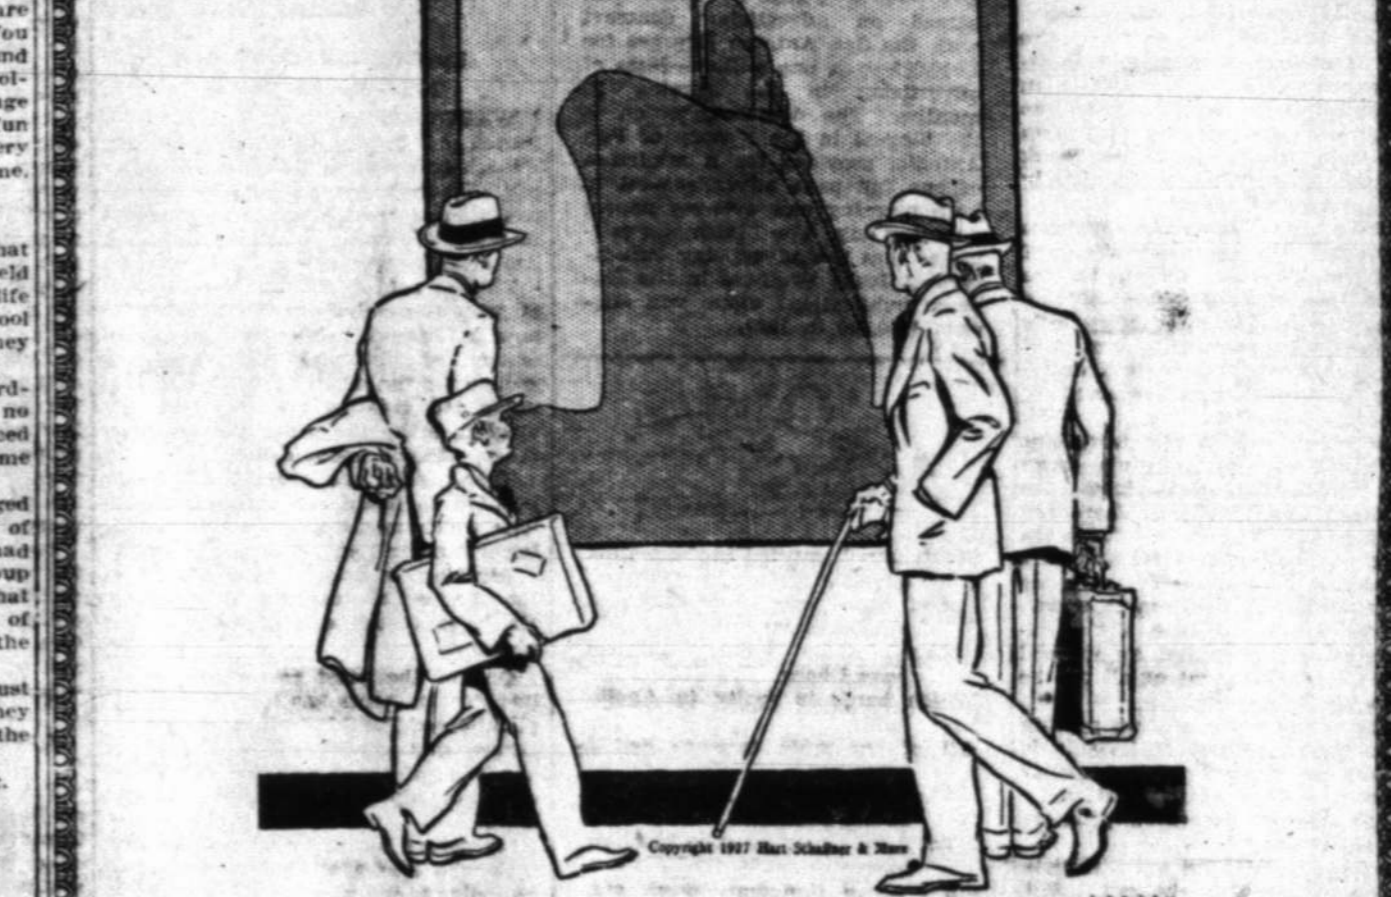

### Secretary of Treasury Given Full Control of Finances For Economy Era

(By The Associated Press) MEXICO CITY, April 23.—Mexico's finances were in the hands of a financial dictator today. President Calles having issued a decree vesting full powers in the secretary of the treasury, Montes de Oca.

The secretary was authorized to make radical changes in his department to prevent a deficit and to take drastic steps to assure the collection of all taxes.

Payments on the foreign debt under the terms of the Paul-Lamont agreement, the decree stipulates, are to be conscientiously fulfilled. The secretary however, will be permitted to conclude arrangements with domestic creditors for postponement of payments on domestic debts. He also has been advised to negotiate with Mexican banks which are creditors of the government for extension of payments due at least 50,000,000 pesos (about \$25,000,000) in the year's budget, with all possible retrenchment. The secretary, who has been in office three months, said the decree might be considered as marking the inauguration of a regime of utmost economy.

But Just For One Day During Boys' Week When Lads Will Fill Lubbock Offices

In keeping with nation-wide plans for simultaneous observance of National Boys' Week May 1 to 7, boys of Lubbock will be in charge of every department of the city government Tuesday, May 2, the day set aside as "Citizenship Day" under plans announced Monday by Pink L. Parrish, Mayor of the city, who has been named chairman of the day's program.

Boys will be selected for every department in the city's government, from the mayor on down, and full administrative authority will be given over to the boys, as similar to plans carried out with a great deal of success last year. Names of boys selected have not yet been announced, but will be made public in a day or two, it was said.

**Other Days Arranged**  
Other days of the week, which have been arranged to be observed simultaneously all over the nation, have been set aside each for a particular purpose, including Thursday night, which has been named "Home Night" for fathers and sons, when a questionnaire will be submitted through the press to be worked out by father and son together. This questionnaire is now in the course of preparation, and is planned to be carried in the Thursday afternoon Journal. Prizes are to be offered for the best reply to the questionnaire.

Boy scouts, already well organized are to take the lead in the week's activities, but all boys of the city, regardless of their affiliation with the scout movement, are urged to participate for the movement has no direct connection with the scout organization. Parents also are urged to join in the movement in an effort to impress upon their boys the importance of their future activity toward development and progress of the world. Reverend Jack M. Lewis, general chairman of the week's program said today.

### SAINT AND SINNER

COPYRIGHT 1926 NEA BY ANNE AUSTIN

WHEN Bates answer came, the audience, largely sympathetic with Cherry, breathed an audible sigh of relief, for Bates said, very distinctly:

"Miss Cherry used the present sense in every preference to Mr. Cluny on the night of November 25. Now, Mr. Bates, you have sworn that as soon as Miss Cherry was safely married to Mr. Wiley her agitation, her nervousness vanished, and that she was gay and light-hearted? You are sure of that point?"

"I am," Bates nodded, and his pale blue eyes blinked at Cherry behind his gold-rimmed spectacles. The girl smiled, fluttered her hand in a charming little gesture to show her gratitude.

"Mr. Bates, when you took the news to Mr. and Mrs. Wiley the next morning, that is, the morning of Friday, November 26, what was Mrs. Wiley's expression and manner upon learning of the death of Mr. Cluny?" Churchill asked boldly.

"She was horror-struck," Bates answered simply. "Surprised," Churchill drove home his point.

"Yes, sir. Dumbfounded, horror-struck, I should say. Banning objected furiously to this line of questioning, but the judge sustained Churchill, who went on triumphantly:

"Did her surprise seem genuine to you, Mr. Bates?"

"It did."

"You have been a minister of the gospel for how long, Mr. Bates?"

"For forty-one years," Mr. Bates answered with a slight flush of pride on his waxen old cheeks.

"You consider yourself a good judge of human nature?" Churchill asked sympathetically.

"I do."

"You liked Miss Cherry, believed what she said?" Churchill probed softly.

Before Banning could phrase his objection, the gentle voice of the preacher had answered clearly, "I did—and do."

"That is all, Mr. Bates," Churchill announced in a satisfied voice, as if the witness had been his, rather than the state's.

But both Cherry and Churchill looked far less happy during the examination of the former, Jefferson Anderson, by Banning.

Anderson, a tall, stoop-shouldered, gaunt-faced man, with walrus mustaches and broken, yellow teeth, showed himself almost bitterly inimical toward Cherry from the beginning of his examination. Under Banning's questioning, he told how Cherry and Chris had applied at a quarter to eleven for shelter for the night, how he had given them the "spare room," which he was in the habit of renting to transient guests, with meals included; how Cherry and Chris had retired immediately, refusing his wife's offer of a "pick up supper."

"What was the defendant's manner and attitude during the negotiations for a room?" Banning asked.

"Well, I can't say much about her attitude," the farmer said sourly, "but her manners were pretty bad—complained about the room being cold and the window being nailed shut—made me get a claw hammer and pry it open before she'd go to bed in it, spite of the fact that she was harping on it being so cold and all."

"Did she and her husband look like a happy bride and groom to you?" Banning smiled.

"Can't say as they did," the farmer grunted. "You mean, did they hug and kiss in front of me and the wife they didn't?"

The judge rapped sharply with his gavel as a woman giggled hysterically.

"All right, Mr. Anderson. Now tell the jury where your own bedroom is located in reference to the room occupied by Mr. and Mrs. Wiley," Banning demanded.

"Next to the garage, answered Anderson, "and the garage is used for storing my tools and my horse."

"What sort of partition divides the two rooms?"

In anticipation of sensational developments, reporters summoned messenger boys, who came running, to hover over the backs of the writers' chairs, awaiting the sheaves of yellow copy paper.

### Presence of Vitamin E in Food Will Prevent Anemia

BY DR. MORRIS FISHBEIN  
Editor Journal of the American Medical Association and of Hygea, the Health Magazine

ONLY recently has it been definitely established that vitamin E, first described by Evans and Bishop of the University of California as a vitamin charged primarily with sterility and the failure of the young to develop in the mother's body, is probably also definitely associated with the manner in which iron is used by the body in the prevention of anemia.

This vitamin is present particularly in wheat germ, in liver and in kidney. When it is absent from the diet of a prospective mother, at least so far as has been shown by experiments on animals, the growing young fail to assimilate iron, develop what is known as an iron crisis and die before birth.

Fortunately this vitamin is present in considerable amounts in all ordinary human diets so that the condition is not likely to affect human beings. However, investigators in Boston showed that the disease, pernicious anemia, could be controlled to a large extent by the eating of liver and kidneys. It was thought that one of the reasons for this control was the presence of large amounts of iron in these tissues.

The newer investigations incline to the belief that it is not only the presence of iron that brings about this result, but also the presence of vitamin E, which seems to be charged particularly with the manner in which iron is taken up by the body.

### As A Woman Sees It

BY OLIVE ROBERTS BARTON

MISS TALLEY AND DISHWASHING  
MARION TALLEY, the eighteen-year-old prima donna of the Metropolitan Grand Opera Company who startled the world a year ago by her voice, has written an article about her life struggle for success, and, finally, her debut in New York.

It is full of scenes, her simply related story. It tells of a little girl's love of music, the modest way the family accepted the praise of great divas who heard her sing, their strict economy in order to give her lessons, the frugal manner of spending the sum raised by friends to educate her properly, and the present simple, almost austere, manner of living of her mother, her sister and herself in a New York apartment. They have lived there since the night of her great success.

She tells of their dislike of ostentation, their inborn habits of strict economy, and above all their love of work. Her father is still at work as telegraph operator in Kansas City. Economy seems to be the keynote of the entire story. As a little girl she was taught to do housework. Her music was not allowed to interfere with the routine of a well-managed home, and part of that routine was to teach its daughters house-keeping.

Now that she has reached the top of the ladder and become one of the world's greatest singers, she still helps to wipe the dishes, make beds, and do other things in the way of light housework.

That part of it is so pathetic as it is amusing. I think that the very best of girl training will agree with me that Miss Talley's rather nice little apology for being so great is not so mean. And we do not wish her to expect her to wipe dishes—unless she prefers that pastime to other forms of indoor sports. It is enough that she can give the world something beautiful that it wants and needs.

She has worked slavishly for years to make the best of her God-given voice. Surely that is enough! And if the world wishes to pay her homage and make obeisance, she should give it that privilege. We need things to look up to and people to look up to. And we like to clothe them with all the glamour we can hang on them. It hurts no one I am sure.

### Just Too Bad

JUDGE: Although you are only just married, you have beaten your young wife cruelly. Have you anything to say in your defense?  
ACCUSED: No, your honor, except that if you send me to prison you will interrupt my honeymoon.—Pat. Constantinople.

**Postal Workers To Gather In Abilene**

ABILENE, April 25. — Abilene will

have as guests on July 4, 5 and 6, the largest number of postal workers ever to gather at one time in the history of Texas. Over 2,000 employees of the federal post-office department will gather here on those days for a three-day convention of mail handlers, and on top of that, it is highly prob-

able that three or four hundred more will be added to the bunch if the Texas Branch of the National Postal Supervisors follows the lead of their three co-workers organizations, and selects this city as their meeting place. Indications are that this will be done. Abilene was selected as the 1927

convention city of the Texas Rural Letter Carriers association and the Postoffice Clerks of the state at the last convention of those bodies held at Amarillo last July. The League of Texas Postmasters, composed of the executives of the third and fourth class postoffices of the state, through its ex-

ecutive committee, has recently changed the date of the annual meeting of that group from June 15 and 16 to the same time as the other meeting, so grandstand at the West Texas Fair the three organizations might meet together.

Entertainment plans for the affair when the annual Mid-Summer auto-vention bureau of the local Chamber of Commerce. A special section of the the same time as the other meeting, so grandstand at the West Texas Fair the three organizations might meet together.

mobile races are held. Efforts are being made to have one or more officials of the postoffice department attend the convention. Mrs. J. C. Fenner of Glasgow gave a burglar her jewels on his promise not to awaken her sick aunt.
