

Local Businesses Suffer In Fire

Damages estimated at \$10,000 were inflicted on two local businesses Saturday when a fire caused by burning trash was reported at Wayne's Printing Company and Northside Gift Shop.

Grass at the back of the Printing Company caught fire from the burning trash and burned a wooden door to the building.

Damage to the printing shop was confined to the building and printed matter and did not affect the machinery.

The gift shop, adjoining the printing office, suffered extensive smoke damage to their stock of children's clothing and other items.

'Rainmaker' Curtain To Rise Saturday

Local residents are hoping that "The Rainmaker" may be a good omen that will break the drought here.

Raymond Driskill will play the title role in the three-act romantic comedy which will be presented here Saturday, Feb. 8.

Curtain time is set for 7:30 and the high school auditorium will become the theatre for this dramatic production by the Olton Community Theatre group.

Others on the cast include Dub Hall as H. C. Curry; Robert Meinecke as his older son, Jimmie; Billie Norfleet as his daughter, Lizzie; W. C. Gunter as Sheriff Thomas; and Ray Murphy as Deputy Fife.

The story revolves around the Curry family as they face two dilemmas - finding relief

from the drought and finding a husband for their beloved Lizzie. Both are resolved as the cast leads the audience toward the final curtain.

In addition to the major cast, students of the local schools, under the direction of Mrs. Jenny Lynn Allford, working with Ray Murphy, will present the musical overture, "It's Gonna Be Another Hot Day".

Between-acts entertainment will be provided by a male quartet made up of W. C. Gunter, Andy Andrews, Don Spain, and Ray Murphy. They will be accompanied by Harold Dean Carson.

The local Lions Club is the sponsoring organization, and members of that group, along with other community residents are working on technical and business arrangements for the

show, which is directed by Ruth Holladay, assisted by Mrs. W. C. Gunter.

Basil Sherman is in charge of ticket sales; Melvin Rape is chairman of advertising; Twila Parker, Shirley Roberson, Peggy Pendergrass and Pat Meinecke are serving as stage and prop chairmen.

Lynn Campbell handles lights and curtain; Carol Scribner is prompter; Max Malone is in charge of stage construction; and Mrs. Charles Lovelless, assisted by high school students, will do make-up for the show. These people are being assisted by many other interested patrons.

Burleson Named West Point Candidate

Steven Ross Burleson, son of Mr. and Mrs. Elma Burleson of Hart Camp, has been named as a nominee for one of the four vacancies at the US Military Academy at West Point.

The announcement was made Monday in Washington by Congressman Bob Price. The fifteen appointments were made on the basis of Civil Service Test Scores, high school academic records, athletic participation, and extracurricular activities.

Congressman Price stated that he made the nominations on an equally competing basis and that actual appointments would be announced later in the spring after the young men have been given physical examinations and College Board grades are known.

Other area nominees included Billy John Ford of Sudan, Nicholas Ray Patterson of Abernathy, Jimmie Lynn Reeves of Abernathy and Johnny Michael Raney of Muleshoe.

For Preston Leggett

Alaskan Tour Leaves Favorable Impression

Airman Second Class Preston Leggett and his wife Evelyn arrived "home" Sunday from Anchorage, Alaska where he had been stationed for three years and three months.

Leggett has just completed a four-year tour of duty with the air force. Stationed at El Mandorf Air Base, he worked with the mechanics of ground support equipment for aircraft. The equipment included 1500 volt generators and air compressors for jet starting.

The 4000-mile-plus journey to Olton was made with a wooly gray bundle of canine enthusiasm answering to the name "Gigi." All three travelers relieved for the trip, in their heavily laden car, to come to an end.

Evelyn and Preston loved living in Alaska. "People either love Alaska or they hate it - there's no in-between," Preston remarked.

"Fortunately," Evelyn added, "we loved it."

Both are enthusiastic about the scenery around Anchorage. Flowers, they say, are planted everywhere that flowers can grow.

Considerable truck farming is done near Anchorage. The couple has pictures showing the enormous size that vegetables grown in that area attain. Cabbages often grow as large as 40 pounds.

Corn, Leggett added, has just got a start in Alaska but large fields of carrots, cabbages, turnips and other vegetables thrive in the greenhouse-like temperatures.

The world's largest oil field is not far from Anchorage. Perhaps the hardest thing the Texans had to get accustomed to was the lack of darkness. In the summertime the sun set about 10:30 and then rose at 2 a. m. Even through the "dark hours" one could see without using the headlights of their car.

Temperatures in the summertime was considered "heat wave" if the mercury reached 85 degrees.

Winters, the couple ex-

plained, were from 20 degrees to minus 20 degrees but the absence of wind made them seem no colder than winters at Olton.

There are perhaps 40,000 people living at El Mandorf, including many civilian workers. Evelyn and Preston, however, lived in town, across Ship Creek, in a section called Mountainview.

The area is flat, about sea-level and reaches to the foot

of a beautiful mountain range where snow can be seen the year-round.

"We had not seen the ground since Oct. 13th", Evelyn remarked. The ground will remain snow-covered, she added, until late spring and along near the end of May things will suddenly turn green.

In the summer, they explained, it rains at least once a week. The rainfall is not like

that of West Texas. Instead a slow, gentle rain might fall all day. Evelyn added, "I didn't hear it thunder or see it lighten during the year I was there."

Small earth tremors are quite routine - many so mild that people hardly notice. Just before Christmas, however, there was a quake that measured 6.4 but lasted only a few seconds and did no major damage. Scars still remain of the

tragic quake that caused millions of damage to Anchorage in 1964. In the business section where the street literally swallowed a section of buildings, a memorial "park" has been marked off, a vivid reminder of nature's vengeance.

"It seems like almost 50 percent of Alaska is made up of Texans" Preston remarked. One friend, he remarked, was "almost like homefolks" - coming from Whittier.

Wages are good in Alaska but living expenses leave little for saving. Bread sells for 54 cents per loaf. Most of their groceries, however, were purchased at the base commissary.

Their one-bedroom apartment ("very small and not fancy") rented for \$150 a month. House payments are very steep. Friends of the couple who were buying their own home were making payments of \$283 per month.

"I didn't realize how far it really was to Anchorage", Evelyn confides. They went by plane following their marriage last March but, returning by car, discovered the distance was "quite a way".

The couple carried Artic emergency kits so they might be prepared for the possibility of car trouble. Luckily they did not have an occasion to use them.

As they traveled across Canada the temperatures dropped to minus 35 to minus 50 degrees. Near each town they ran into "ice fog". The fog, they add, coats things but is not like our "iced-over". The frosted trees make beautiful scenes.

The prettiest part of the trip home was made in bright moonlight across the Canadian Rockies. "It was so beautiful" both exclaim.

Preston and Evelyn crossed into the States at Sweet Grass, Montana. "It even felt good," Preston remarked.

The couple plan to make their home in Amarillo and Leggett will return to West Texas State University this fall.

HOME FROM ALASKA—Mr. and Mrs. Preston Leggett with their pet Gigi are pictured by their car with "Good-bye Alaska, Hello Texas" emblazoned on their luggage carrier.

Legislative committee appointments now have cleared the way for lawmakers to get down to the real business of the 61st Texas session.

Lt. Gov. Ben Barnes announced 27 senate committees which assured increased power for liberals, urban areas--and the presiding officer.

Speaker Gus Mutscher followed up two days later with a sweeping reshuffling of all major House panels, leaving only three chairmen in their old places of authority.

Barnes picked veteran Senators Grady Hazlewood of Amarillo and William T. (Bill) Moore of Bryan to head the "Big Two" Senate committees -- finance and state affairs. Sen. A. M. Aikin Jr. of Paris, however, remains as finance vice-chairman and head of the working sub-committee which actually conducts hearings on the budget.

El Paso Sen. Joe Christie, prospective sponsor of a constitutional amendment to legalize sale of liquor by the drink, heads the constitutional amendments committee. Aikin is chairman of the education panel which probably will handle important school legislation.

Sen. Charles Herring of Austin heads the jurisprudence committee; Sen. Creighton of Mineral Wells, water and conservation; and Sen. J. P. Word of Meridian, nominations.

All 45 chairmanships in the House went to veterans of two or more terms of service.

For the fifth time, Rep. W. S. (Bill) Heatly of Paducah will be chairman of the budget-writing, appropriations committee, and Rep. Ben Atwell of Dallas

will chair revenue and taxation which originates tax measures. Only other chairman retained by Mutscher was Rep. John E. Blaine of El Paso, liquor regulations.

Rep. Rayford Price of Palestine, who came to the legislature with Mutscher in 1961, has been designated chairman of the busy House state affairs panel. Rep. R. H. Cory of Victoria, who headed state affairs last session, is in charge of the rules committee which controls the flow of legislation to the House calendar. Rep. Tommy Shannon of Fort Worth directs the House administration committee with offices close to the speaker and his top staff assistants.

BILLS PASSED--Even while awaiting committee assignments during the third week of the session, legislators boomed through two bills of a semi-emergency nature.

First passed was a \$905,815 appropriation measure to forestall a welfare cut (in aid to dependent children), to assist growing junior colleges and to help finance legislative and governor's office operations this year. A fund transfer of \$35,000 headed off a \$28 cut in aid to needy families. Governor's office got \$130,000 for new personnel, equipment, travel and postage. Colleges got \$335,815, the senate \$325,000 and House \$115,000.

Second bill urged by Gov. Preston Smith increased retirement benefits of some 6,500 retired state employees in average of 10 per cent. Minimum benefit would be raised from about \$30 to \$50 a month. A retirement boost for elected officials will be the subject of

a separate bill.

SENATE REFORMS RULES-- Senate lost no time in adopting rulebook reforms designed to curb free-wheeling conference committees and to relax its own secret-vote provisions.

They voted 25-6 for new joint rules. Most dramatic change would limit conference committees named to adjust differences between House and Senate bills to doing just that--rather than writing totally new legislation behind closed doors. The House has yet to act.

Senate later approved 30-1 revisions of its own operating procedures which for the first time direct open committee hearings on appointments by the governor (unless a majority of the nominations committee votes for executive session). Senators also were authorized to announce how they voted on confirmations of appointments.

LEGISLATION RAINS IN-- Bulk of legislation proposed by Governor Smith -- and a lot he didn't ask for -- in his first message to the 1969 Legislature already has rained into hoppers of both houses.

Constitutional amendment proposals would lower the voting age to 18, shore up women's legal rights and authorize horse track betting on a local option basis in Bexar and Harris Counties.

Among other bills introduced in the House and Senate are:

* A proposal by Sen. Criss Cole of Houston to make air and water pollution a misdemeanor offense -- for corporations as well as individuals.

* A Texas Meat Inspection Law, sponsored by Sen. Jim Bates of Edinburg. (Without a state act, the federal government will take over meat inspecting in Texas.)

* Rep. Dick Cory of Victoria wants to abolish common-law marriage and permit divorce because of unsolvable discord between husband and wife.

* Liberals will try again for a minimum wage with a bill sponsored by Reps. Reul Longoria and Lauro Cruz setting a state minimum of \$1.10 per hour.

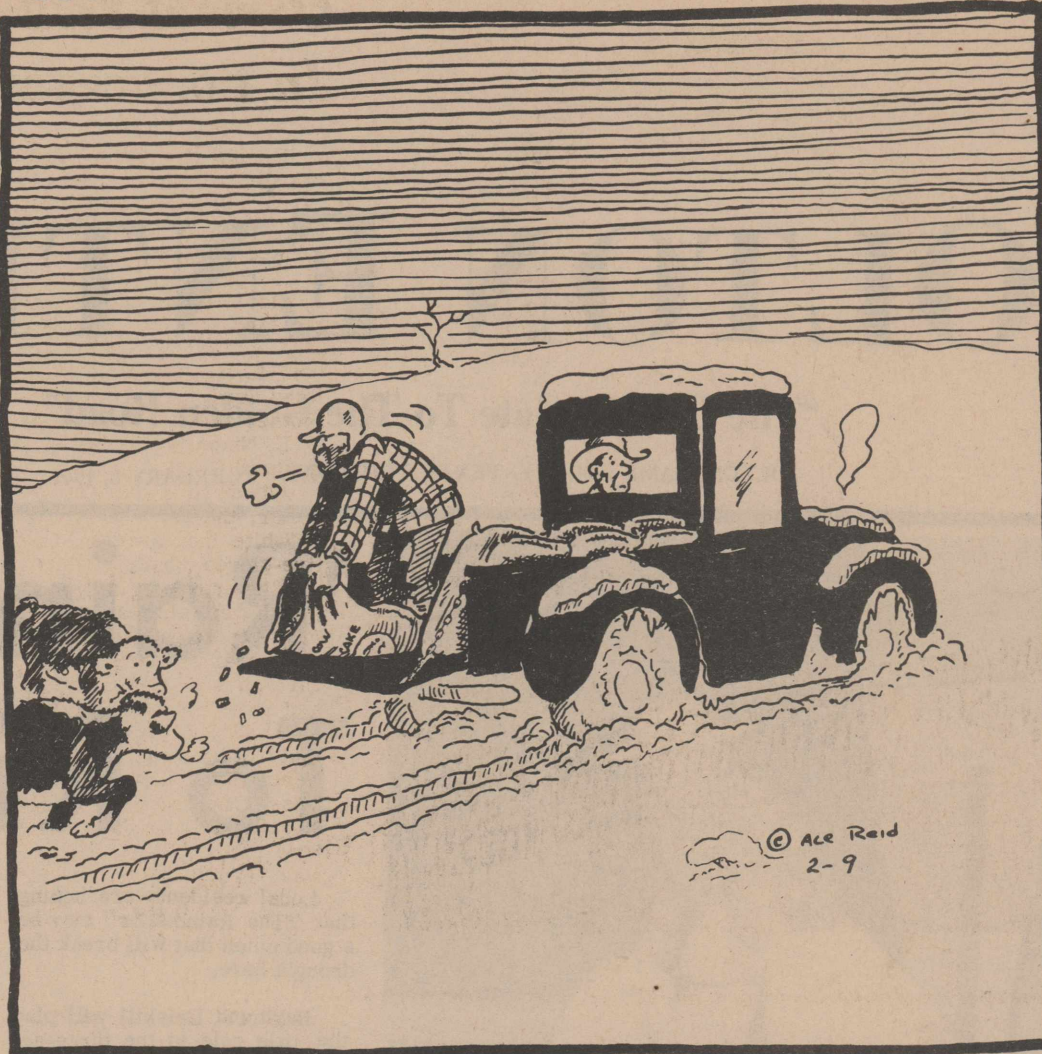

* Senator Bates also has a bill prohibiting private clubs -- including country clubs -- in "dry" areas (based on his premise that if an area votes to be dry, it ought to be completely dry).

* Sen. V. E. (Red) Berry of San Antonio wants to extend until 2 a. m. every day the time in which alcoholic beverages may be sold. (Such a bill passed in 1967 but was vetoed by Gov. John Connally.)

* Affirmative action is expected on the industry-labor

"It's a normal February, cheap cattle, high feed, zero weather and a bank account to match."

compromise bill to increase the maximum weekly payments under the Workmen's Compensation system to \$49.

* Reps. Hilary Doran of Del Rio and Guy Floyd of San Antonio will run with a bill exempting Texas from Daylight Saving Time.

* Representative Cory wants a code of ethics for teachers and a state commission to enforce it.

* A proposal by Rep. Neil Caldwell of Alvin to require cities and counties to designate the right of way at intersections and put up traffic signs within two years to help establish blame in accidents.

* Representative Caldwell also would prohibit games, puzzles and other advertising techniques such as those used by gas stations.

There has been a shortage in only one field. Nobody is rushing forward with tax ideas. Although that may soon be the subject of a new address to the Legislature by Governor Smith.

BUDGET WORK BEGINS-- A record \$5.6 billion in spending proposals of the Legislative Budget Board has been placed before the House appropriations and Senate finance committees as a starting point in 1970-71 budget-making.

Bill calls for \$1.1 billion in general revenue spending, an increase of \$170.4 million, but it does not provide for teacher pay raises, new senior colleges and many other high-priority items.

Starting bill calls for \$14.9 million for the judiciary; \$277.2 million for health, hospitals, special schools and youth institutions; \$2.67 billion to executive and administrative departments and agencies of state; \$2.63 billion for education; and \$16.7 million for the Legislature.

COURTS SPEAK-- Federal district court judge here ruled that a college student with a I-S deferment from the draft may finish out his academic year.

State Supreme Court told a San Antonio judge he could not order an insurance company to reveal its auto liability policy

limits when involved in a lawsuit.

Supreme Court upheld lower courts rulings that a Vidor youth who promoted an illegal drag race was not entitled to damages for injuries received when he was hit by one of the racers.

Life sentence given a Wichita County man in 1928, for assault, was thrown out by the Court of Criminal Appeals because the man had no lawyer in two prior convictions cited in his trial.

Attorney General Martin obtained a permanent injunction in an Austin district court against an aluminum concern to halt "halt and switch" selling tactics or misrepresenting price cuts.

Third Court of Civil Appeals held constitutional a 1935 law against synthetic milk that included both vegetable oil and dry milk solids.

Parents in the Edgewood School district in San Antonio brought a federal court suit challenging constitutionality of

the tax system under which some school district property owners pay higher taxes than others for the same or inferior educational opportunities.

Basketball Results

Olton's varsity boys defeated Abernathy last Friday night to the tune of 69 to 61. This was a special victory as it was just about the first time that an Olton basketball team has beaten Abernathy in both of the district games.

Charles McClain was high point with 23 points and Kenneth Johnson picked off 16 rebounds for the night.

Tuesday night the Mustangs were defeated by the Dimmitt Bobcats. This victory assured Dimmitt of the district title for this district.

McClain was once again high point with 14 and Joe Schultz grabbed 10 rebounds for the game.

Sue's Views

Lots Of Laughs

BY SUE CANNON

I went over to play practice the other night to get a few shots of the cast in action and got so interested I just about forgot to get out before I saw the entire thing and ruin Saturday night's performance.

If you have read anything about the play (and how could you miss all the signs all over town?) then you know that it is about this guy who claims he can make it rain.

(Maybe we need him to do his magic for this area, huh?)

Any way, Raymond Driskill plays the part of the "con man" and is he good! He has ALL believing that he can bring rain before too long. And if I'm not mistaken, I think rain does come.

Then there's Earl Spruiell... He plays the part of a guy that is not quite smart.. rather dumb in fact.

If you saw the play "Arsonic and Old Lace", you know what a good actor HE is... (I sometime think he missed his calling.) Well, he is absolutely hilarious in this play.

Of course, the little lady that everyone is so concerned about being an old maid, Billie Norfleet, is just perfect.

I don't know what Ruth Holladay does to these plain ole everyday, ordinary people to make them turn out to be so great! That magic touch she has I guess.

These characters have other supporting characters and they all do extremely good jobs in their supporting roles and I am looking forward to seeing the play very much.

I just hope everyone will make a little effort to get out on Saturday night and support this community project that is

sponsored by the Olton Lions Club.

By the way, if you need a ticket, I have a few that the Lion member, Basil Sherman handed to me to sell over at the Lions Club meeting the other day.

Of course, all the Lions are selling tickets so if you don't get one from me, you can get one from any of them.

Or if you don't get one at all, get one Saturday night at the door. The important thing is to "just get one."

You're in for a lot of laughs when you walk into that school auditorium Saturday night at 7:30.

She is supervisor for the school lunchroom and is affectionately known as "Margie" to the many boys and girls who eat lunch at the cafeteria.

Margie got her experience in cooking for a group when, as the eldest, she was a chief cook for her seven brothers. She also had three sisters.

Widowed in 1967, she has two children. Her son Jack lives in Turpin, Okla. He has five children. Her daughter, Mrs. Paul Ray Spain, moved only last month to San Antonio. They have three daughters.

Margie is also the proud great-grandmother of seven-week-old Carissa Lea Mannin of Nacogdoches.

She is a member of First Baptist Church and Olton Study Club.

Included with her recipes is a little poem she wants to share.

"Thank God for dirty dishes,
They have a tale to tell;
While other folks go hungry,
We're eating very well.
With Home and Health and Happiness
We shouldn't want to fuss.
For by this stack of evidence
God's very good to us."

Tax Man Sam Sez

If you are in business for yourself, or you are fortunate enough to earn sufficient income so as to require the estimated income tax return each year, you will be getting an additional tax form package from Internal Revenue within the next few days. The Internal Revenue Service Centers have gone through all the taxpayers accounts on the computer tape and are sending out a set of controlled vouchers to all the individual income taxpayers who must file an estimate. You will use these numbered vouchers to file your estimate and make your quarterly payments.

In the past, you waited for your bill from Internal Revenue and sometimes the taxpayer and the computer crossed in the mail or just plain got crossed -- anyway the good tax folks hope that this will help you send your estimated tax payments through on time without any mix-ups.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

Well, hello again. Been drinking any instant hot chocolate? We're still having hot chocolate breaks at the Gazette.

I discovered some of you have scooped me and already have an instant chocolate recipe that calls for non-dairy creamer.

Since last week, I've about reached the point of swearing off reading my "horroroscope".

You know what it told me Tuesday? "A surprise communication could highlight your entire day. Good news denoted."

Now, isn't that an exciting thought? All day long, "Ad Gal" and I waited for that surprise communication.

The mail got put up and no letter that filled the description. Must be coming by phone or telegram!

We figured that we must be holders of "lucky numbers" and would win thousands of dollars. Even started figuring how to spend it.

Of course, as the author of this column (?) I had a few lingering, haunting visions of being called by some big organization - you know, such as the Pulitzer committee?

Well, night came and that "communication" still hadn't arrived. Guess it must be coming by railroad or steamship

and they just haven't figured out how to get here.

Did you read (or hear about it via radio) about the new program of feeding paper to cattle? They've been doing it at the Research Station at Pantex.

Now just think! Our columns now have a place to go!

Can't you just see a bunch of cattle going after a nice serving of ground-up newspapers? If you can "talk with the animals" you might hear them fussing over who gets the front page, who gets the funnies and one cantankerous old cow whining, "Why do I get left with the 'kitchen sink'?"

And just think! When you decide to clean out the attic and come across all those old letters tied with a ribbon? Imagine what you might hear then!

Oh, well, another good thing about it. Someone's finally come up with some other use for our labors besides lining the trash can!

Mrs. Percy Parsons and her parents, Mr. and Mrs. J. O. Aday visited recently in Muleshoe with Mrs. Aday's sister and her husband, Mr. and Mrs. J. D. Vaughn.
