NUMBER 33

IRRIGATION AT HEREFORD

Continuation of Article Covering
Features in Circular Issued by
Business Men.

AMOUNT OF WATER REQUIRED.

In this district, one "watering" or irrigation is secured by the application of not less than 3 inches of water and is equal to a 3 inch rain. The flooding method requires this amount, but the furrow or row method of irrigation requires a little less. The first time the land is irrigated requires from 6 to 10 inches to give the soil a thorough season. A well that flows as much as 1000 gallons per minute will "water" 10 acres in about 10 hours. Alfalfa requires one irrigation for each "cutting," sometimes two irrigations. All other field crops require from one to two "waterings," not often three. Garden and tender stuff require more water. Experiments which have already been made in the Hereford district show the way; crops already grown are here; success has already crowned the farmer's efforts. Farmers without experience in irrigation are successful.

OTHER CROPS.

While alfalfa should be the mainstay in this and other irrigation districts, the Hereford district is not confined to this one crop. It has been demonstrated that an excellent quality of sugar beets can be grown. Crops such as wheat, oats, corn, millet, speltz, kaffir corn, milo maize, sorghum, flax, barley and rye make good yields without irrigation, but the yields are doubled and trebled with the water. The catalog of truck crops must be searched for something that will not grow in this section. Watermelons and cantaloupes excel in flavor. Beans and peanuts are easily raised; cabbage and tomatoes do well; in fact all kinds of garden stuff. The orchards have the apple and the peach, but grapes, plums, cherries and berries "hit" more often and are of fine flavor.

FOUR AND FIVE ALFALFA CROPS.

Irrigation secures from four to five "cuttings" of alfalfa each season. It requires about thirty-two days for a crop to grow and one ton and more per acre is the yield, making at least five tons per season. The price is \$15.00 per ton. The many days of sunshine and the freedom from long wet "spells" gives the alfalfa farmer in this section an opportunity to save his crop after he has cut it. One farmer near Hereford cut his alfalfa the third time August 8th and it is about ready for the fourth cutting at this writing August 31. When it is known that this alfalfa was sown just one year ago, then it must become evident that five crops will be obtained. No other forage or grain crop can show as much profit as alfalfa. All of the irrigation farmers around Hereford are seeding some of their land to alfalfa and with the water, soil and sunshine, it is sure to bring profitable returns.

TWO GRAIN CROPS POSSIBLE.

It is not unusual for two crops of grain to be grown by irrigation—wheat and millet, or other quick growing feed stuff. After the wheat has been cut, the farmer goes in with a disk, followed by a seeder, or he lists the field and plants to row stuff. If he sows millet, in sixty-five days,

the crop is ready for the mower, rake and baler. If he plants kaffir or maize, his crop is waiting for the binder before frost. The wheat will make from 30 to 60 bushels, according to the methods of cultivation and irrigation; the millet will make from one to two tons per acre. The oats raised by irrigation have run as high as 90 bushels per acre. The Texas Red Oats seem to be the best for this section, but a field of Canadian oats this season stood at cutting up to a man's neck and the yield satisfactory. The corn now growing on a farm near Hereford stands 12 feet and promises to make a bumper crop.

WHAT A COLORADO MAN SAYS.

A Colorado farmer and irrigator of twenty years experience, after an actual test in this district on a farm of his own says: "I have been a farmer and feeder in Colorado for twenty years, and I consider irrigation by pumps in this section far better than the gravity ditches of Colorado. With an endless, inexhaustible supply—the Great Underflow—your irrigation is more dependable than the surface reservoirs. With a well of 1350 gallon capacity, sufficient for 320 acres, you can water your land any time of the year, not being compelled to wait on the rains and snows to fill your reservoirs." In speaking of the amount of water in one of the ditches from a Hereford well, another Colorado farmer said: "I own for my farm in Colorado a water-right for 320 acres and there is more water coming down this ditch than I use on my farm." Many men from various irrigation districts have spoken words of praise.

Cole Brothers United Shows

Wherever the Cole Bros. United Shows have exhibited press and public have been a unit in praising the work of the exceedingly large number of young and handsome women performers. Beviess of the fair sex are represented among the riders, aerialists, contortionists, jugglers, highwire artists, gymnasts, bicyclists, clowns, animal trainers, chariot drivers and in fact even among the ringmasters. As may

be seen, there is a scientific Book exists between the lady and gentlemen artists, a fact which greatly enhances their performances. The lengthy imperial program presented this year by these shows contains only the best and most modern features that money and labor can procure and in such quantity and variety as to satiate every arenic taste and fancy. Lack of space prevents an enumeration of all the different acts, many of which must be seen to be appreciated. There is an extended list, the last of which does not by any means end the pleasures which the Cole Brothers Shows will provide patrons Monday afternoon and evening, Sept. 23, in Hereford.

There are the sports of ancient Rome and modern fete day races and contests. Then the big triple menagerie, forms a zoological display without a peer in all the world. Next is Cole Brothers' marvelous museum, in which are exhibited a myriad of human and animal freaks and other attractions. Thus it will be seen that there is a royal holiday feast in store for all who attend this mighty amusement exposition.

Sermon on "Hell Fire and Brimstone."

As announced, Rev. S. T. Shore preached on the above subject last Sunday night to a well filled house. The audience listened with rapt attention to what the preacher had to say and his remarks made a profound impression on most of those present. The attention was perfect. He read for a lesson text, the latter part of John 5. In addition to the regular song service, a quartette was sang by Messrs. Barnett, Mitchell, Gallaher and Curtis, which was appreciated.

As it would be impractical for a newspaper with no more space allowance than The Brand to publish the sermon in full, only the succinct points are given. A part of the sermon dealt in the definition of technical terms and their application. This would have to be heard to be understood and appreciated. The sermon was the outcome of a number of questions addressed to the ministers of the town.

Mr. Shore said at the beginning that he thought this question had been settled long ago, but as he had been asked in a courteous way to answer the questions, he would take pleasure in giving what information he had and to state the Bible position. THE MAIN POINTS OF THE SERMON.

"I never did believe that there was a literal hell or lake of fire where the damned or saved would be punished."

"The Bible teaches that Christ was a divine person and He gave many infallible proofs of His divinity."

"If you will study the Bible as you should, you will be compelled to believe that Jesus was a divine person, and that He was the Son of God."

"The Book teaches that there are two destinies; one for the saved, the other for the unsaved."

"When Christ returns he will divide the people into two divisions; one on the right, the other on the left. To the one, he will say come unto my Father's house; to the other, depart, I never knew you." "The Bible is a scientific Book and uses scientific words and terms, and these terms must be understood to get the meaning of the many phrases referring to hell or heaven."

"Christ and the Apostles used the language of man to convey the purposes of God, and the limitations of that language, often clouded, as far as man was concerned, the intended meaning."

"The terms used with reference to hell and heaven are symbolic; the punishment for the wicked, while real in itself, was expressed in the strongest symbols."

"Jesus used three terms or phrases as to the condition or abode of the wicked: As 'utter darkness', as a 'perpetual fire' and as a place where 'the worm dieth not.' As it would be impossible for these three conditions to exact at one and the same time, these phrases must be symbols of the awful punishment to be meted out to the wicked."

"Death does not end the career of man; it is not utter destruction, nor an annihilation of the soul; it is only a separation."

"Both science and the Bible teaches that nothing is ever destroyed, not one atom; the form may be changed, but the material still exists. This body will be dissolved, will return to dust, but its elements will still exist."

"The Bible teaches that there is a

great Gulf between the saved and unsaved, and every man digs this gulf for himself, and after it has been established, there is no chance to cross it. If you climb up on the side of Dives, you must remain there; if your actions bring you into the presence of Abraham, you will enjoy the eternal ages."

"Heaven and hell are two states, two conditions. The description of the glories of the one by John in Revelation will be exceeded; while his 'lake of fire' will not compare in its awfulness with the lashings of a guilty and sinful conscience through eternity."

"God made man a free moral agent, but holds him responsible for what he does. God may let him live in sin and sorrow, yet He pleads with him to return."

"A literal lake of fire will not be a more horrible punishment than when you remember your lost and wasted opportunities in this life, when you remember that you have scorned the overtures of love and trampled under foot the Redeemer. Lake of fire will not be even a hint of the awful punishment in the eternal separation from God and the redeemed."

"God does not want the souls of men to be lost, but every man fixes his own judgment, and, like Judas, will go to his own place. Every person fixes his own destiny—heaven or hell. God simply places a man where he belongs."

"It makes no difference what you believe about the theories of heaven or hell, but it is the duty of every one to accept Jesus as his Savior. God has spoken clearly the Way of Life. You are on one road or the other—one to everlasting life, the other to everlasting death. Which road will you choose?"

Will Take Religious Census.

The Sunday schools of the county are preparing to take a religious census of the county. E. B. Black, county superintendent, called a meeting of the school superintendents last Saturday at which time plans were laid for furthering the work. Another meeting will be held next Saturday afternoon in the Presbyterian church at which time complete working details will be adopted. While this has been inaugurated by the town Sunday schools, it is expected that the country Sunday schools will also take part, as it is desired to get a complete religious census of the entire county. The object of the census is to gain information needful for the better work of the schools and to secure a large attendance on "Rally Day" at all of the schools.

Plant Wheat.

With an abundance of rain giving a fine fall season there is no reason why a good acreage of wheat should not be planted. The large wheat acreage and the fine yields all over the Panhandle this year, especially in the northern counties have shown that the soil and climate of the Plains is adapted to wheat. If it has been too dry in the past two or three years, there can be no lack of moisture at this time.

Rev. J. M. Sherman, pastor of the Methodist church, returned Sunday night from a ten days' trip thru the North Plains, where, in company with Dr. Boaz of the Southern Methodist University and Elder O. P. Kiker, he made a tour of that section in the interest of the new school. He reports that they met with fine success and received a satisfactory support for the University.

Irrigation News.

A visit from the head of the concern that manufactures the Bessimer Gas Engines has added an item of interest to the irrigation projects. This is Mr. John Caruthers, president of the Bessimer Gas Engine Works of Pennsylvania, who was here last Friday and inspected some of the plants. He was well pleased with the installation and the results and remarked on seeing one of the pumpers, "Great, best in the United States." With him were Messrs. C. H. Rittenhouse and J. R. Detweiler, who have charge of the sales department for the southwest territory. They were guests of Mr. McDonald while here and he took pleasure in showing some of the results of irrigation in the Hereford district. Mr. McDonald reports that the Tice and the Flag Ranch wells are now ready for the installation of the machinery, a car load being expected today. As soon as the roads will permit, the big engines and the pumps will be hauled out and placed in position.

The Civic League at Work.

The ladies of the Civic League accomplished a lot of good in their campaign for a cleaner town and they deserve the praise of every citizen of the county. As a result of their efforts many of the home owners "tidied up" their premises and in some sections of the town, a community interest was aroused. The result of this was the general cleaning of entire blocks, but where this community pride was not created, only the individual places were cleared of weeds and other filth. This leads up to the suggestion that the ladies should not cease their laudable efforts at this time, but should begin anew their campaign for a cleaner town. It has been suggested that the League call a meeting in each "community," and with one or two of its members present, lay before the ladies of the several communities the necessity of common action. All of these meetings should be held simultaneously. A general committee should divide the town into proper size "communities," and have the boundaries definitely and publicly known. It would be well to take map and outline each community, and to have a section of the map at each "community" meeting. What do the ladies of the League say?

Will Be No Fair.

Some two weeks ago, mention was made of the desirability of a fair this fall, but as not one voice has been raised to second the motion, it must be concluded that the town and country folks do not wish to have a celebration. Other counties are giving fairs and water carnivals while Hereford is the only one of the whole bunch that is really in position to give anything like a decent "water festival." The Brand believes that a "water-fest" should be inaugurated and given each year in September.

Baptist Church.

Rev. R. H. Purser announces for his Sunday morning subject, "The Christian's Joy." Everybody invited. Night service at 7:30 o'clock.

Mrs. C. G. Witherspoon and daughter, Miss Bertha, stopped off at Hereford for a few days' visit with friends and relatives this week while on their way from Bakersfield, Calif., to Waxahatchie, Texas, where Miss Bertha will enter Trinity University to finish her course of study.

Don't Eat More than One Per Cent of Your Weight Per Day

Harvey W. Wiley, former chief of the United States Bureau of Chemistry, writes an interesting article entitled, "Intelligent Eating," in the October Woman's Home Companion. He says in part:

"Every pound of useless fat which the human being carries is an impediment to proper activity. A man six feet tall should weigh approximately two hundred pounds. If by strict attention to his diet and exercise he can reduce this weight to 190 or 185 pounds, it would probably prove beneficial, but if his weight is allowed to rise to 210, 220, 230, or even 240 pounds, he unfits himself to that extent for his duties.

"Let anyone who is accustomed to physical exercise, and suited thereto, climb a long steep hill. If his weight is normal and his health good, he can do this without any great fatigue; let him then begin at the foot of the hill and carry a weight of forty pounds, and note the effect that this will have. The man who weighs forty pounds more than he should—and there are thousands of them in this land of ours—is forced constantly to carry this quite unnecessary handicap.

"Food for special activities, or special public or private duties, is a matter which has not received any very great scientific attention. No set amount of food can be arbitrarily chosen for the brain-worker or other professional man. In general it may be said that a man of little exercise will eat less than one per cent of his weight of dry food per day. Any marked excess of food, or excessively starchy or sugary food, must also be avoided by the man and woman of sedentary habits."

LOONEY STANDS FOR CO-OPERATION AND PROGRESS

Attorney General's Department Will Aid In State Development.

Greenville, Texas, September—Hon. B. F. Looney, successful candidate for Attorney General, has announced that the policy of the legal department during his term of office will be that of co-operation with the commercial, agricultural and industrial interests of the state in the development of our resources and that he will hold up the arms of the Governor in the performance of his duties.

"Every good citizen must stand for the enforcement of the laws," said Mr. Looney, in discussing the policy of his department, "but no man with good sense and proper motives would want to disturb an investment, hinder or frighten capital from our state or do otherwise than encourage all proper development of our resources. While I stand for the enforcement of law, about the wisdom and policy of which I have nothing to do, I do not propose to use the great power of the office of Attorney General for any purpose other than to execute the law and in no sense in a demagogic or ill-advised spirit."

more influential in either accelerating or throttling progress, than that of the Attorney General, and in standing for a sensible enforcement of the law. Mr. Looney shows a keen appreciation of the responsibilities and possibilities of the office, a clear understanding of the needs of state government and a patriotic desire to serve the people honestly, faithfully and intelligently. When the policy outlined by Mr. Looney is made effective it will result in improved public highways, more interurban lines, better rural schools, more steam roads and better facilities for the transportation of products, opening of our mines and development of our latent agricultural resources.

Preparing Butter for the Market.

As much as has been said about preparing butter for the market in every farm journal, it seems that everybody has not yet realized that the "looks" of the butter when offered for sale has as much to do with the readiness of sale as the quality. Of course, if the quality is poor, it makes no difference how purty the package looks, the consumer will avoid buying another pound. The best form is the rectangular mold. The packages can be neatly placed to keep their shape retained, while with round molds it is impossible to keep the shape, if the butter is the least inclined to be soft. The butter should be wrapped in the regular sanitary butter paper, and if the maker is proud of the product, the name and address should be printed in each wrapper. It would be well to remember that house-keepers detest butter when it comes

proper care of the milk and of the butter after it is made. The milk should be kept away from all kinds of fumes and smells, vegetables, especially onions. In no event should the "turning" be kept in the bed room by the fire. After the butter has been made, washed and molded, it should be wrapped and placed in a cooling box, or in a refrigerator that is perfectly clean and sweet. All of this talk has reference to butter that is offered for sale. If the butter is intended for home consumption, any old way will do, if the family can stand it. But if you are offering your product to the innocent public, you have no right to impose filthy butter on them. Other people don't care how filthy you want to be, but they do not wish to participate in your negligence.

Wheat Seeding.

We all know that early deep preparation for wheat is advisable. Ground that has been well plowed or listed in July or early August and then has been well cared for since, will insure a better crop than that prepared later. August plowing or

listing is better than that prepared in September. Ground prepared after September 1st, must naturally be worked shallower and at the risk of not making as good crop as an early, deep and well packed seed bed. This late preparation should be well packed by the use of the sub-surface packer. If this cannot be obtained, the common smoothing harrow used two or three times over the field, immediately after the plow, will do lots of good. The harrowing and tramping of the horses will firm the ground very much. We must remember that wheat requires a firm seed bed.

Time For Seeding—The time for seeding wheat must necessarily vary according to the season. Our best wheat crops come from sowing from October 1st, to October 20th, providing the season is favorable. Sowing as late as December 1st, often produces good results under favorable conditions.

Good Seed—Too much cannot be said in favor of food pure seed. A

great deal of wheat which will be used for seeding this fall is badly mixed and is of an inferior quality. It pays to sow good seed, even if it has to be secured slightly above market prices. It will pay to run all seed through the fanning mill. Turkey Red and Kharkof wheats will be found as good varieties as can be obtained for our conditions. These are both hardy winter varieties of excellent milling and good yielding qualities.

Amount of Seed to Sow—The most of us continue to make the mistake of sowing too much seed. For our hard lands, 30 pounds of seed to the acre is sufficient, if the ground has been well prepared. 25 pounds per acre is usually sufficient. We must give our wheat a chance to stool.

Treatment For Smut—It is a good plan to treat all seed wheat for smut, whether the wheat appears to be free from it or not. The "Formalin Treatment" is the most reliable.

Sowing—Sow all wheat with some good reliable grain drill and cover with the press wheel attachment, if possible. The press wheel attachment firms the ground immediately around and above the seed, and insures it coming up better. The seed should be sowed deep enough to come in contact with moist soil, but this should not be over two to four inches in depth. Wheat can be sowed slightly deeper in sandy soils than in heavy or tight soils.

Let us sow smaller acreage and do the work right, rather than to sow twice as many acres on ground that has been but half prepared. We cannot afford to "Hog-in" our wheat.

H. M. Bainer,
Agricultural Demonstrator,
Santa Fe System, Amarillo, Tex.

Pathfinder News Notes.

The postal appropriation bill as finally passed included a provision that first and second-class post-offices shall not be open on Sundays for the delivery of mail, except special-delivery letters. If this law is carried out literally it will prevent vast numbers of people from getting their Sunday papers and other Sunday mail—even those that have lock-boxes. But there are loopholes in all laws and it is whispered that the authorities will wink at Sunday mails which are for any reason urgent.

The government is still after the American Press Association and Western Newspaper Union under the anti-trust law. These concerns furnish "boiler-plate" and "ready-prints" to about 16,000 rural newspapers and the government finds that these methods are apt to lead to a monopoly. As the papers in question reach 60,000,000 readers it is considered that it would be against public policy to allow the field to come under the control of any one central concern, which might use its power to propagate doctrines, etc., for its own selfish purposes.

New Orleans is the latest and largest city to adopt the commission plan of government. It has just voted for this reform by a majority of about 12 to 1. A board of five men, including a mayor, will run things.

When the government went to prosecute the express companies for defrauding their patrons by collecting charges at both ends of the line, several of the companies evaded the penalties by claiming that they were not corporations under the law. U. S. Judge Hazel has now decided that whether corporations or not, they are legal entities and as such can be prosecuted. They face heavy fines.

Representative Curry of N. Mex. has come to the conclusion that the District of Columbia is a much-neglected child, since the people here are utterly disfranchised and are taxed without representation, thus

having good ground for starting a revolution. He urges a plan to allow the District to have a delegate in congress, the same as the territories have. This delegate could not vote, but would have the right to talk—which is something in these parlous days.

Bring your window sash to us; no charge for glazing if you bring them to the yard, R. H. Kemp Lumber Co. 331f

**A SAFE SUBSTITUTE
FOR CALOMEL**

A Mild Vegetable Medicine for the Liver That is Free from the Dangers of the Powerful Chemical, Calomel.

The Betts-Clark drug store has a mild, vegetable remedy that successfully takes the place of the powerful mineral drug calomel, the old-fashioned liver medicine. This remedy is Dodson's Liver-Tone, a very pleasant tasted liquid that gives quick but gentle relief from constipation without the bad after-effects which so often follow taking calomel.

Dodson's Liver-Tone is fully guaranteed to be a perfect substitute for calomel, and if you buy a bottle and it does not entirely satisfy you, Betts-Clark drug store will promptly give you your money back upon request.

It is fine for both children and grown people.

Stops the Hair From Falling Out

Dandruff is not only disagreeable, aggravating and embarrassing—it is dangerous—it means scalp disease and loss of hair.

You may have but little dandruff at the present time, but if neglected it will increase in quantity, close up the pores of the scalp and rob the roots of the hair of the proper nourishment—the moisture and heat of the scalp will soon change a loose and fluffy dandruff into an almost solid mass—it gets sticky and forms in layers.

Nyal's Hair Tonic Will Soon Relieve This Condition

—loosens up the dandruff and prevent the bacterial action. It supplies proper nourishment to the scalp and hair—stimulates its growth and gradually darkens gray hair.

Its continued use will result in a luxuriant growth of hair.

Besides good goods you get good treatment at our store. Always glad to have people come in and look around, whether they want to buy or not. We wait on you promptly, give you what you ask for but never tease anyone to buy anything.

A PREDICTION

The following is the first paragraph of a general letter sent out by one of the leading business firms of Kansas City soliciting business. If their prediction proves only half true, Texas will be the wonder of the ages and the Plains will be the apex. Read this and come to Hereford where you can be on top.

In politics you may be either "Progressive" or "Reactionary," but in business you must be in the Progressive class to succeed in a state that is growing as fast as Texas—the state that has shown the largest percentage of increase in the past ten years, and one that is pushing forward in all lines. In fact it is claimed by people who have carefully gone into this matter that Texas has greater opportunities than any other state and will show an increase of two million in population in the next ten years. This will mean an increase of 50 per cent over your population in 1910. Let your business increase proportionately.

EXCEEDING THE SPEED LIMIT.

Some attention has lately been directed to the running of automobiles and motorcycles within the city limits. It is common talk on the curbstone that many drivers exceed the "speed limit" along Main street and other streets. As a matter of fact few keep within the slow speed required, which is 8 miles an hour within the city limits and 18 miles along the public roads. The state law also makes it an offence to run a motor vehicle at a greater speed than 8 miles an hour within the built up portions of a town. These "limits" are entirely too low for ordinary business purposes and very little attention is paid to the law either by the drivers or the officers. Only when some one has been hurt or some danger has been threatened is the speed "limit" thought of. What is the use to have a law that is being constantly broken? There should be no limit, but drivers should be held responsible for careless, reckless or fast driving. If a "limit" must be fixed by statute, it should be placed at not less than 15 miles per hour on residence streets and not less than 12 miles on business streets. The writer "timed" a number of machines the other day and found that all of them exceeded the "speed limit" on Main street, but none were running too fast to endanger the traffic or life. They were all going

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation.

at the ordinary business rate of speed. No one's attention was called to their fast running and no one thought that any of the machines were "going" at any unusual rate. They were all running at the usual speed on Main street. The Commission should repeal the old ordinance and pass one that gives the automobiles a chance to get out of the way of buggies and farm wagons. The old ordinance is defective and the citizens have never cared to have it enforced. The Brand believes in giving every man full freedom to exercise his judgment in running autos, but if he abuses that right, then let the law take its course, and let him pay the penalty.

Gabriel Blows His Trumpet.

Under this caption The Plainview News gives an account of the arrest, incarceration, trial and acquittal of M. F. Ellison, a traveling preacher, who carries with him a large trumpet, which the preacher calls "Gabriel's Trumpet," and a ram's horn, both of which he blows much to the amusement of the small boys and greatly to the annoyance of other folks. He was arrested by the city officers for disturbing the peace, but turned over to the county authorities on an insanity charge. After being turned loose by the court and the curious crowd had made him up a purse of \$15 or \$20, he took his place again on the street corner, gave "Gabriel's Trumpet" several loud and vociferous blasts, and began to preach of the "wrath to come." These circumstances brought out a vigorous editorial from the pen of the editor of the News and as it taps the clap-trap methods of the modern evangelists, The Brand takes pleasure in reproducing the article:

"If the old, unbalanced preacher, who was arrested on the street Saturday for blowing his 'Gabriel's trumpet' was the only preacher these days who resorts to clap-trap methods in preaching, we would say hang him as a fearful warning to others. There is entirely too much clap trap in present day preaching and general religious work. It is practiced in nearly every religious body, and the average sermon is made up of flimsy things, a few grains of wheat in a bushel of chaff; a real thoughtful sermon, one that is all meat and nutriment for the intellect and soul, is too seldom heard, but one such gospel sermon does more real good than a score of the other kind. The professional evangelist's stock in trade is buncomb, clap-trap and sensationalism. Such practices bring out great audiences, as people like entertainment and sensationalism, but to our mind it falls far short of what a sermon should be. The Christian religion is not a joke nor a farce, and you can search the record in vain for an instance where Paul or any of the early preachers resorted to such methods or made clowns of themselves; they realized that Christianity means more than mere twaddle, that it is the most stupendous force in the universe as it deals with the final disposition of the immortal soul, and upon the preached word to a great extent depends the salvation of men. And we are old-fashioned enough to believe that if the clap-trap was cut out of preaching and

religious work generally, much more good would be done. It is more of a detriment than a benefit to the cause, for the person who is by fakery and sensationalism rushed into the church before he is really converted, is usually in a worse condition than ever, because it puts him outside the pale of appeals, and he becomes merely a barnacle on the church body. We need straight-forward, thoughtful, devout, prayerful preaching, that will appeal to the best intellect of people and cause them to turn to the Lord. Anyway, cut out the vaudeville.

"Keeping In."

Appropos of the near approach of school opening, The Post would like to ask both the teachers and trustees to abolish that moss grown, foolish old rule of "keeping children in." It deprives the child of that which

its physical well-being demands, fresh air and recreation, and does more to arouse discord and ill feeling between parent and teacher than almost anything else. The child comes home too late to perform a given errand for the parent because "teacher kept me in" and there is some disrespectful remark made about the teacher that can never be overcome. As a punishment "Keeping in" is the greatest failure ever tried. Its infliction is so simple and so easy that before the teacher is aware its value is all lost because it has become so common there is no longer any disgrace attached to it. This method of school punishment has never been sanctioned by any authority on pedagogies and is admitted by all well-posted teachers to be essentially wrong, and yet is more universally practiced than any

Health Not Trifled With

If it requires remedies of certain potency to stop a pain or fever, or to loosen the hold of some disease, weaker remedies are apt to be no better than no remedies at all. Remembering these things you will better appreciate the matchless prescription service at the Corner Drug Store. Every important preparation is made from assayed drugs, every tincture, syrup, etc. is standardized and the precise strength of every remedy is known. Then the compounding of prescriptions is done by a registered pharmacist and every ingredient used is doubly checked to insure absolute accuracy.

REMINGTON UMC

AUTOLOADING SHOTGUN

For singles—trap or field—just toss in a shell, press the button and—"PULL." The side bolt makes it easy. You don't have to tug at the barrel or watch an on-and-off device. The action stays open after each single shot is fired.—It always stays open when the magazine is empty. Five shots—three to get the cripples—each under absolute control of the trigger finger. The recoil reloads for you—kicks another shell in; takes the strain off the gun—the discomfort out of the kick—all without diminishing the drive behind the shot.

Simple take-down—a few turns of the readily handled magazine screw-cap makes cleaning, carrying and interchange of barrels quick and easy.

Send for a motion picture booklet telling how the kick is used—how a friction device found only on the Remington-UMC Autoloading Shotgun takes the punishment out of heavy loads.

Write to-day.

Treatment of Seed Wheat To Prevent Smut.

There are two kinds of wheat smut, loose smut and stinking or ball smut. Both can be prevented by treating the seed and rotating the crops. The spores of both kinds of smut are carried by the seed, but the spores of loose smut may also be carried in the soil from one year to another. Treating the seed prevents stinking smut, but loose smut requires that the seed be treated and that the ground on which it grew be planted to another crop the following year. The stinking or ball smut is the kind most commonly found, it destroys the kernels only, while the loose smut destroys the grain and chaff entirely, and the sooty mass of spores remain. The stinking smut gives off an offensive odor when broken.

The following treatment will prevent stinking smut in wheat, also the smuts which commonly affect barley and oats:

Formalin Treatment—There are several methods of treatment: hot water treatment, blue stone treatment and Formalin Treatment, the last of which is safest, most reliable and cheapest.

Secure a 40 per cent solution of formalin at a reliable drug store. One pound of formalin is sufficient to treat from 2000 to 2500 pounds of wheat. Before mixing the solution, get the seed wheat ready. The treating solution is made by carefully mixing a one-pound bottle of the formalin with 40 gallons of water.

The seed may be treated by dipping or sprinkling. To dip, the seed may be placed in a gunny sack and the solution in a barrel or tank. The wheat should be immersed in this for at least ten minutes and then taken out and allowed to drain back into the barrel for a short time. The wheat should then be emptied into a pile in a clean place and covered with sacks or blankets for two hours, after which it should be thoroughly dried before sowing.

To sprinkle, prepare a clean place on a canvas or smooth floor. Thoroughly sprinkle the place with the solution before spreading the wheat on it. Now thoroughly sprinkle the spread-out wheat and at the same time shovel it over. Continue to sprinkle and shovel over the wheat until it is thoroughly moistened. Next, shovel the wheat into a pile and cover with sacks or blankets for two hours, after which it should be thoroughly dried before sowing. Do not allow the wheat to remain wet too long after treating, as the germinating qualities may be injured.

Place the dried wheat in sacks which have been dipped in the solution. It is also advisable to sprinkle the grain drill with the solution before using it. Exercise every precaution not to bring the treated seed in contact with any that has not been treated. The wheat which has contained smut wheat. The wheat should be treated but a short time before sowing.

H. M. Bainer,
 Agricultural Demonstrator
 Santa Fe Ry. Co.
 Amarillo, Texas.

A Certain Shot on Chills.
 I have been using your Chamberlain's Chill Tonic in my family for sometime and can say it is a certain shot on Chills, says J. B. Blackshear, Lewisville, La. Money promptly refunded if it fails to cure. Price 50c. Sold by all dealers. An excellent tonic for invalids and feeble persons. Prepared only by A. B. Richards Medicine Co., Sherman, Texas. 31-4t

The small boy and the big rube are reading the show pictures with much interest and are anticipating the big event on Monday, Sept. 23.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing household all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

New Telephone Directory.
 The Brand has just issued from its presses a new telephone directory for the Southwestern Telegraph & Telephone Company, the directory covering Hereford and vicinity. The new issue contains 373 names, each one having the information as to the business next to the name. On pages 2, 3 and 4 "Important Information and Helpful Suggestions for Bell Telephone Patrons," will be found. This information is of such a nature that every telephone user should read it carefully. Often the mistakes and misunderstandings, for which the telephone people are always blamed, that lead to hard feelings, may be avoided. Scattered thru the book at the top and bottom of the pages and on the inside and cover pages will be found a number of attractive ads. Opposite page 16 will be found space for writing the names and numbers frequently called. This is useful and should be used, as it will save many minutes thumbing the pages. On the reverse side of this sheet, the company, as usual, puts a short story. Read the story, study the rules and learn to be a good telephonist. The Southwestern wants to give good service and their patrons must do their part to make the service what they demand.

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

Foot Ball Now On.
 The foot ball season opened simultaneous with the ringing of the school bell. Each afternoon the boys of muscle are being tried out on the temporary grounds. Prof. Shirley is acting as "coach." The boys will arrange a number of "beef and bull" games with other teams and a right lively time is anticipated, as there are a number of husky fellows in the Hereford team. Ab Carter is doing the "center" for the training team.

Best selected line of Fall Dress Goods and trimmings in the city at D. R. Gass & Son's. 33t

Robert Elliott, who was at home over Sunday, reports that a three weeks' business trip on the North Plains was a revelation to him as to the crops. The wheat yield was simply great, running from 15 to 40 bushels to the acre and of very fine quality. Oats also made a good yield, while the row stuff, such as maize, kaffir and cane, were immense. The millet, of course, always makes good if there is a half a chance. Mr. Elliott says the farmers in that section are in good shape and that land is selling right along.

Hughes Grain Co. is selling the very best Colorado coal to be had at a very low price for cash. 32-2t

Thos. Cook returned yesterday from a quick trip to Miami and Panhandle City. He says that the farmers are in splendid shape in that section of the Panhandle, as they have made a big wheat crop and plenty of oats, and now they are harvesting the best feed crop ever raised.

C. D. Miller, Rooms 8 and 10 Dunlap Building, can sell you most anything you want in irrigable lands or ranch property. 24t

Earl Wilson left yesterday for Baylor University where he will finish a course of study this year. This makes the fourth year for young Wilson at Baylor and he has made a fine record. Each summer after he comes home he straddles a bronc and helps on the ranch, but this past summer he used a run-about instead of a bucking pony, either of which he manages with ease.

Weather Forecast.
 Cooler with rains causing Rheumatic pains. Hunt's Lightning Oil stops all aches and pains whether from Rheumatism, Neuralgia, Cuts, Burns or Bruises. The Quickest Liniment known. 25 and 50c bottles. All Druggists. 31-4t

Mrs. R. E. Cook returned last night from West, Texas, where she had been to attend the funeral of her brother-in-law, Mr. Will McFarlen, who was killed by an automobile accident.

Meeting Continues.
 The religious revival being held at the Church of Christ continues with much interest. Elder Dies of Roswell is doing the preaching. Good crowds have attended each service, but the rains have interfered with many who would attend. The meeting will continue over Sunday. Every one invited to attend. Services morning and night.

Let us figure your bills; our prices always low. R. H. Kemp Lumber Co. 33t

Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourn, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.

I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

TAKE CARDUI The Woman's Tonic

For more than 50 years, Cardui has been relieving woman's sufferings, and making weak women strong and well. During this time, thousands of women have written, like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, tonic remedy for women.

Cardui strengthens, builds, restores, and relieves or prevents unnecessary pain and suffering from womanly troubles. If you are a woman, begin taking Cardui, today.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn. for Special Instructions, and 64-page book, "Home Treatment for Women," sent free. 1-6

Citation by Publication

STATE OF TEXAS }
County of Deaf Smith }
To the Sheriff or any Constable of Deaf Smith County, Greeting: Oath having been made as required by law.

You are hereby commanded to summon Sam S. Wright by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 69th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 69th Judicial District, to appear at the next regular term of the District Court of Deaf Smith county, to be holden at the Court House thereof, in Hereford, on the 4th Monday in October, A. D. 1912, the same being the 28th day of October, A. D. 1912, then and there to answer a petition filed in said Court on the 18th day of May, A. D. 1912, in a suit, numbered on the docket of said Court No. 501, wherein J. H. Jackson is Plaintiff, and E. Van Metre, Sam S. Wright and J. W. Wright are Defendants, and said petition alleging that defendants on or about September 10th, 1909, executed and delivered to H. M. and O. B. Jackson their four certain promissory notes, three for \$1,000.00 each and one for \$4,571.00, due on or before 1, 2, 3 and 4 years, respectively from date, and bearing 8 per cent

interest, interest payable annually, and each containing the usual 10 per cent attorney fee clause.

That said notes were given in part payment for Section No. 54, Cert. No. 4-568, Block K-11, Grantees G. C. & S. F. Ry. Co. in Deaf Smith County, Texas. That defendants have failed and refused to pay the same or any part thereof.

Therefore Plaintiff prays for judgment for his debt, interest, attorneys fees, and for a foreclosure of his vendor's lien upon the land above described, and for such other and further relief as he may, in law or equity, be entitled to.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, J. S. Jones, Clerk of the District Court of Deaf Smith County. Given under my hand and the seal of said Court, at office in Hereford, this the 7th day of September, A. D. 1912.

[SEAL] J. S. JONES, Clerk District Court Deaf Smith County.

By R. T. MOSES, Deputy.

DON'T BE MISLED

Hereford Citizens Should Read and Heed This Advice.

Kidney trouble is dangerous and often fatal.

Don't experiment with something new and untried.

Use a tested and proven kidney remedy.

Begin with Doan's Kidney Pills.

Used in kidney troubles 50 years.

Doan's have cured thousands.

Are recommended here and everywhere.

The following statement forms convincing proof.

J. D. Bailey, carpenter, Canyon, Texas, says: "I used only one box of Doan's Kidney Pills, but they did so much good that I did not think I needed any more. I had pains across my back and sides. Seeing Doan's Kidney Pills so highly recommended by people whom I knew, I got a box and used them as directed, with the results told above. I can highly recommend Doan's Kidney Pills for they do just as advertised."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE HERFORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not imitate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

Ministers State Their Position.

In response to some Biblical questions as published and a request for answers, three ministers of the town have set out the following answers, Rev. J. M. Sherman, pastor of the Methodist church; Rev. R. H. Purser, pastor of the Baptist church; and Rev. W. M. Baker, pastor of the Presbyterian church, joining. In order to place the matter in convenient form for readers and for those who would care to investigate, the numbered questions and answers are given in succession.

1. Do you endorse the "Anti Hell-Fire and Brimstone Resolution" as adopted by the International Bible Students Association in a session held recently in Washington City?

Ans. God cannot act deceptively toward His creatures. In communicating His will, He cannot employ figurative language of stronger import than the reality. His attributes forbid the hypothesis; hence, if, in portraying the future punishment of the wicked, He has used figures of speech, they cannot transcend the reality. On the contrary, we have reason to infer that the figures used on the subject are but dim shadows of the awful substance. See John 15:6—"If any man abide not in Me, he is cast forth as a branch and is withered, and men gather them and cast them into the fire and they are burned." Matt. 18:8—"It is better for thee to enter into life maimed or lame, rather than having two hands or two feet, to be cast into everlasting fire." Rev. 20:15—"If any was not found written in the book of life, he was cast into the lake of fire." Mark 9:43—"If thy hand offend thee, cut it off; it is better for thee to enter into life maimed than having two hands to go into hell, into the fire that never shall be quenched; where their worm dieth not

and the fire is not quenched." Rev. 21:8—"Shall have their part in the lake that burneth with fire and brimstone; which is the second death." Matt. 25:41—"Depart from Me, ye cursed into everlasting fire, prepared for the devil and his angels."

With the above statements we put ourselves on record as believing the statements of the Saviour and the Holy Scriptures.

2. If you do endorse the Resolution, will the wicked or unsaved be eternally punished?

Ans. We believe that they will be eternally punished. The same scriptures that teach the eternal happiness of the righteous, teach the eternal punishment of the wicked. The objection, they prove too much, the argument that disproves the eternal punishment of the wicked, would strike with equal force at the eternal happiness of the good. The scriptures are too numerous to mention in a brief article.

3. What kind of punishment will be meted out to the unsaved? Will this "Eternal Punishment" be of conscience only or will it be material or bodily?

Ans. We believe it will be both.

4. If you do not endorse the Resolution, do you believe in a literal hell, a literal lake of fire, a literal burning, a real place of abode for the wicked or unsaved?

Ans. We do not endorse the Resolution. We believe in a real place of abode and punishment for the wicked. Luke 16:23—"And in hell he lifted up his eyes, being in torments." Rev. 21:8—"The lake that burneth with fire and brimstone."

Ans. We believe in God, the Father Almighty, maker of heaven and earth, and in Jesus Christ, His only Son, our Lord, who was conceived by the Holy Ghost, born of the Virgin Mary. Luke 1:35—"And the angel answered and said unto her, the Holy Ghost shall come upon thee, and the power of the Highest shall overshadow thee; therefore, also that Holy Thing, which shall be born of thee, shall be called the Son of God."

6. Does the disbelief in the Virgin Birth of Jesus necessarily deny His divinity? In other words, can a believer in Christ and His divine claims refuse to believe in the Virgin Birth and still be a Christian and be saved?

Ans. Yes. We have no right to select one part of the New Testament and say we believe this and then say of another part, we do not believe that. We believe it all to be the inspired word of God and accept its teachings as such. John 1:1,14—"In the beginning was the Word, and the Word was with God, and the Word was God." "And the Word became flesh and dwelt among us, and we beheld His glory, the glory as of the only begotten of the Father, full of grace and truth." See also I John 2:22-23; 4:2-3.

W. M. BAKER

Johnson Fixes Up Store.

The J. A. Johnson store has added some improvements in the way of two show windows. The front has also been given a new coat of paint, all of which improves the "looks of things" around that popular establishment.

Take two hours more of vacation every day. You can do it by using one of our Perfection Kitchen Cabinets. E. B. Black Co. 3311

Bakery Makes Improvements

Manager Lewis of the Hereford Bakery and Confectionery has had carpenters at work this week remodeling the rear of that establishment. Windows have been cut and a candy kitchen made, in which has been installed a brand-new candy furnace and all the modern utensils for making pure and wholesome candy.

Buy your glass from Kemp's. No charges for glazing. 331f

F. D. Lawson of Kirksville, Mo., and Adam Vanwey of Greentown, Mo., came in yesterday to look after their land interests. They bought some land here in this county six years ago and they have not been since. They say they are well pleased with the looks of the country and that it was in much better condition than they expected to find it.

A. M. Jones writes Fire Insurance and would like to have a share of business. 91f

Dr. Price left Tuesday for Austin where he will enter his daughter, Bernadine, in the school for children of defective eye-sight. Her eyes have given her much trouble and it is hoped the treatment will benefit her. She will attend school at the same time. Mrs. Price accompanied them as far as Amarillo.

Settle Hubbard Dry Goods & Grocery Company's notes and accounts with S. J. Dodson. 32-3t

Misses Ethel and Mary Dunlap left yesterday for Georgetown, Tex., where they will enter Southwestern University. These young ladies are '12 graduates of the Hereford high school and their friends expect to see them retain their good records.

We make a specialty of picture framing. Have on hand a large assortment of mouldings and can frame your pictures for less than ever before. E. B. Black Co. 3311

Makes Tests of Sugar Beets

P. R. Mitchell, local man for the Fairbanks-Morse Company, is somewhat of a chemist as well as a machinist. Being interested in the sugar beet industry, Mr. Mitchell secured some of the beets from the McDonald farm and reduced a part to pulp. Taking the juice and with ordinary cooking vessels, he extracted a pint or more of syrup. The samples shown are heavy but of medium brown color. Out of 66 ounces of beet pulp, he secured about 10 ounces of syrup. The flavor was good and the product would make a fine table syrup. Mr. Mitchell proposes to secure a larger quantity of the beets and to make several gallons of syrup.

Car load Rock Salt just received. E. W. Harrison. 281f

A Dinner

Mrs. Alice Lea entertained on Wednesday evening with a six o'clock course dinner, complimentary to Mrs. C. G. Witherspoon and Mrs. J. E. Ferguson. Other guests present were Mesdames R. Collins, S. F. Evans, C. C. Ferguson, Claud Witherspoon, A. C. Elliott and Miss Bertha Witherspoon. The floral decorations were pretty and quite artistic, roses and geraniums being favored for the parlor, while pink carnations and ferns graced the center of the perfectly appointed table. The gracious welcome of this thoughtful hostess, together with the pleasant conversation of congenial friends made this occasion one of unusual pleasure.
