

U.S. RECALLS TWO AIRCRAFT CARRIERS TO TONKIN GULF

North Viets Race Across DMZ

SAIGON (AP) — The United States recalled two aircraft carriers to the Tonkin gulf today to reinforce a massive air strike force preparing to hit back at an enemy offensive in South Vietnam's northernmost province.

"When the weather clears we're going to sock it to them," said one senior pilot.

The carrier Kitty Hawk arrived in waters off Vietnam today and the Constellation was steaming in from Japan to join the Coral Sea and the Hancock. The four carriers and their approximately 275 warplanes, combined with 250 Air Force jets at bases in South Vietnam and Thailand, will form the big-

gest U.S. attack force since the 1968 bombing halt.

The U.S. Command strongly indicated massive air strikes are planned against North Vietnam to retaliate for the enemy offensive across the demilitarized zone and against enemy troops and materiel already engaged south of the zone.

U.S. pilots said targets inside North Vietnam would include long-range artillery guns bombarding South Vietnamese positions across the DMZ and a reserve infantry division poised just north of the zone.

Other key targets will include tanks, self-propelled artillery pieces and other heavy equip-

ment that North Vietnam is using more than ever before in the Indochina war.

Forecasters said they did not expect fully clear skies until Tuesday or Wednesday. But the U.S. Command set the stage for the massive retaliatory attack with a statement that the North Vietnamese attack across the demilitarized zone threatened U.S. forces still in Vietnam, and the command was utilizing its "remaining air and gunfire assets as appropriate to protect our diminishing forces."

HEAVY WEAPONS

The North Vietnamese ground attack slowed down today, but the Communists pushed more heavy weapons

across the demilitarized zone and U.S. fighter-bombers and destroyers pounded a column of 50 North Vietnamese tanks below the DMZ.

The invading North Vietnamese pushed 10 miles below the DMZ over the weekend, driving the South Vietnamese from two more bases and shooting down three U.S. helicopters and a small spotter plane. Eight American helicopter crewmen were missing and believed dead.

Other Communist forces attacked Fire Base Amie, eight miles west of Quang Tri City; overran an artillery base on the Cambodian border; Fire Base Pace; and kept up artillery at-

tacks in the central highlands. But the North Vietnamese withdrew from Pace, and the South Vietnamese reoccupied it today, the Saigon command said.

The North Vietnamese also were reported moving anti-aircraft missile launchers to the frontier to attack American and South Vietnamese planes below the DMZ.

MYSTERY

A break in the heavy cloud cover allowed U.S. jets to make 128 strikes against enemy gun and troop positions below the buffer zone, the heaviest raids in South Vietnam since Feb. 18. American jets also streaked into North Vietnam to blast anti-aircraft missile sites five

miles above the demilitarized zone, but it was not known what they hit.

The biggest Communist push since the 1968 Tet offensive is now in its fifth day. The South Vietnamese have retreated 10 miles back from the DMZ and abandoned a dozen bases. At least 5,000 South Vietnamese reinforcements were ordered to the northern front.

Scores of North Vietnamese tanks were reported to have crossed the frontier, but their advance was blocked by a blown-out bridge at Dong Ha, 10 miles below the DMZ.

CROSS LINE

Associated Press correspondent Holger Jensen reported

from the northern front that the Dong Ha River in effect had become the new front line.

Jensen said there had been no serious attempts by the North Vietnamese to cross the river so far.

While the line appeared to stabilize at Dong Ha, at least for the moment, other North Vietnamese troops moved east from the Laotian border toward Quang Tri City and maneuvered to the south of the provincial capital. They appeared to threaten Route 1, the main north-south highway leading to Hue and Phu Bai, 38 miles away.

'Sacrifice' Young Boy

NEW DELHI, India (AP) — A 3½-year-old boy was hacked to death with a sickle by his father, an uncle and two aunts to satisfy the soul of their dead father, police said today.

They reported the child's father, Prakash Chand, and one of the other relatives had held the boy while another relative slaughtered him Sunday. Officers said that when they arrived, the remains were being offered to a Hindu goddess at the family home 200 miles north of New Delhi.

Ancient practitioners of the Hindu faith once used human sacrifice to ward off bad luck brought on by unsatisfied spirits of the dead, but the practice has been unused for centuries. A few Hindus still practice animal sacrifice, but most now make offerings of flowers and fruit at the graves of relatives.

Chand, his brother and two sisters were charged with murder.

Three Slain In Shootout

ATLANTIC CITY, N. J. (AP) — Two women and a man were killed and 11 persons were wounded when a shootout erupted at a crowded night club here early today.

All of the dead and wounded were patrons at the Harlem Club.

Richard Jenkins, 25, a patron who was slightly wounded, said the shooting erupted around 2 a.m. shortly after singer Billy Paul, the main attraction, had begun his act.

"Two guys got up. They started fighting," Jenkins said.

Voting Precincts

Five city voting precincts have been designated for Tuesday's city commission election. The city precincts have been designated to correspond with voting precincts, designated for general election.

CITY PRECINCT 1 voting box is at the NORTHSIDE FIRE STATION at N.E. Eighth and N. Main, and all city residents who normally vote in general election Precinct 1 will cast their ballots there.

Persons residing in general election Precincts 2 and 22 will cast their ballots in CITY PRECINCT 2 at the ELEVENTH and BIRDWELL FIRE STATION.

CITY PRECINCT 3 is comprised of voters residing in general election Precincts 3 and 16, and the polling place will be the EIGHTEENTH and MAIN FIRE STATION.

Voters who normally cast their ballots in general election Precincts 4 and 15 comprise CITY PRECINCT 4, and the polling place is the CENTRAL FIRE STATION at Fourth and Nolan.

CITY PRECINCT 5 encompasses voters in general election Precinct 8, and AIRPORT SCHOOL will be the polling place.

ITT Disputes Tax Raps By McGovern

MILWAUKEE, Wis. (AP) — Sen. Hubert H. Humphrey said today the withdrawal of U.S. troops from Vietnam should continue unabated. But he said South Vietnam might require more military aid to withstand the latest enemy attacks.

Humphrey told a news conference any aid should be in the form of supplies and that U.S. policy should move toward full disengagement of U.S. personnel.

Winding up his Wisconsin primary campaign with a 20-hour

schedule, Humphrey declined to predict his standing in Tuesday's voting.

GOING TO WIN

Sen. George S. McGovern toured a construction site in Milwaukee, then appealed for blue-collar votes at a meeting of labor officials.

"I think we're going to be all right," he said. "I still say we're going to win."

Sen. Edmund S. Muskie of Maine was taping a primary eve television appeal for votes, then touring Milwaukee in a fi-

nal personal bid for ballots. All the campaigning entries in Wisconsin's primary were at work among the voters.

McGovern said Sunday the International Telephone & Telegraph Corp. didn't pay federal income taxes the past three years, but ITT promptly disputed this. And McGovern retracted a second accusation that ITT listed a \$400,000 contribution to the Republican National Convention as a business expense in a report to the Securities and Exchange Commission.

McGovern's charges against the conglomerate, storm center of Senate hearings on President Nixon's nomination of Richard Kleindienst as attorney general, were made on a nationally televised television show on an otherwise quiet Sunday before Tuesday's Wisconsin presidential primary.

Citing documents used by members of the Senate Judiciary Committee in questioning ITT President Harold Gennep last Wednesday, the South Dakota senator said reports on file with the Securities and Exchange Commission indicate ITT paid no federal income tax for 1968, 1969 and 1970.

CHECK IT OUT

He said some subsidiaries "may have paid a tax."

He appeared on the CBS-TV program "Face the Nation."

In New York, an ITT spokesman denied McGovern's assertion, saying the company's consolidated operation paid taxes in 1968, 1969, 1970 and 1971. Earlier, ITT Vice President Edward Wallace declined comment, adding, "I'll check it out for you tomorrow."

McGovern and his top Democratic rivals scheduled dawn-to-dusk stumping through Wisconsin's farmlands and industrial plants in a final drive for votes Tuesday.

President Nixon is expected to sweep the 28 Republican delegates.

SOME FIT TO RAISE THEIR CHILDREN

Score One For Unwed Dads

WASHINGTON (AP) — The Supreme Court today ruled, 5 to 2, that states may not automatically take away the children of unwed fathers.

Dealing with an appeal of a Chicago man, the court said a natural parent—male or female—should have a chance to prove his fitness.

"It may be, as the state insists, that most unmarried fathers are neglectful parents," said Justice Byron R. White. "But all unmarried fathers are not in this category. Some are wholly suited to have custody of their children."

In other action, the court: —Ruled that Louisiana cannot systematically limit the

number of minority group members eligible to serve on criminal court juries. But the court failed to answer another question advanced in the case—whether the state also could automatically exempt women from jury duty.

POWER PLANTS

—Held that states have no authority to regulate the discharge of radioactive wastes from nuclear power plants, even if they want to impose more stringent controls than the federal government.

—Allotted 30 minutes to the U.S. Senate to present arguments in favor of Sen. Mike Gravel of Alaska in an offshoot of the Pentagon Papers issue.

The arguments will be heard next term.

—Agreed to decide next term whether an IRS summons for the record of a taxpayer held by his accountant constitutes an unreasonable search and seizure and violates Fifth Amendment guarantees against self-incrimination.

WOMEN TO CHALLENGE

—Opened the way for five Indianapolis women to challenge an Indiana welfare regulation that bars aid to dependent children until the father is absent from the home for six months.

—Agreed to decide whether payments to a retirement fund for doctors in a medical partnership are taxable.

IN CITY ELECTION TUESDAY

Ballot In Right Precinct

"If people just remember to vote in the precincts where they live, we should have a smooth day Tuesday," said Rogers Nanny, city secretary, today as he reminded people about the

new requirement in city elections this year.

Polls open at 7 a.m. and close at 7 p.m. Tuesday, and city officials are anticipating a fair turnout. Absentee vote total was 133 Friday afternoon, which doubled last year's total of 65.

However, Nanny said today he does not consider this a good prediction of the regular voter turnout Tuesday, because many of the absentee votes were cast by teachers, who have a long holiday with Easter and will be out of town Tuesday.

There are seven candidates running for three places in the election this year. Three are

uncumbents, Eddie Acri, Wade Choate, and J. Arnold Marshall. The others, Harold Hall, M. K. Carson, H. V. Crocker, and Carlisle (Frosty) Robison, are all relatively new to the city election process.

Robison and Carson have each run for city election one time prior to this race.

Last year at this time there were five candidates running for two posts on the council. Carson was one of the candidates.

Five polls will be open Tuesday for the voters.

City and county precincts in which a voter is eligible to cast a ballot, and boxes in those

precincts are as follows:

City Precinct 1, county 1. — northside fire station; City, Precinct 2, county 2, 22. — Eleventh and Birdwell fire station; City Precinct 3, county 3, 16. — Eighteenth and Main fire station; City Precinct 5, county 8. — Airport Elementary School.

Judges are: Northside station, Herbert Rubio; 11th & Birdwell station, R. L. Dunagan; 18th & Main station, Dan Conley; Central Station, W. J. Shepard; Airport School, L. R. Mundt.

Ten election clerks will be appointed by each judge to serve in the election boxes.

(AP WIREPHOTO)

ONE CONVICTED — Sister Elizabeth McAlister, one of the defendants in the alleged bomb-kidnap conspiracy trial, leaves the federal building in Harrisburg Sunday accompanied by Rev. Daniel Berrigan, brother of Rev. Philip Berrigan, another defendant, who was convicted of smuggling a letter out of prison.

Harrisburg Seven Jury Deadlocked

HARRISBURG, Pa. (AP) — The Harrisburg Seven conspiracy jury asked again today that the judge reread his instructions on the law and give them more testimony of the government's key witness against antiwar priest Philip Berrigan and six other peace activists.

U.S. District Court Judge R. Dixon Herman said he would not read his two-hour charge nor provide transcripts of the testimony of paid FBI informer Boyd F. Douglas Jr. But Judge Herman said he would "be happy to read any specific portions" of either his charge or the transcripts.

The jury Sunday found Berrigan guilty of smuggling a letter out of a federal prison. It reported being deadlocked on nine other counts but was ordered by the judge to resume deliberations today because of what he said was the importance and cost of the 11-week trial. He said he would dismiss the jury only if it became "hopelessly deadlocked."

When the jurors filed into the courtroom today they were noticeably more relaxed and smiling than on Sunday, when they appeared tense and tired.

Among the counts unresolved is the key conspiracy charge that includes the plot to kidnap White House aide Henry A. Kissinger, blow up the steam-heating system in Washington,

D.C., and vandalize draft board offices in nine states.

The jury last week, at the start of the deliberations which now are in the fifth day, requested and received four days of Douglas' 14-day testimony.

Vote In Big Spring Election

Costly U.S. Navy Fighter Plane May Give Congress Headache

WASHINGTON (AP) — A costly new Navy fighter plane may give Congress a fresh headache if the prime contractor insists on more money to build it.

Evidence indicates that the contractor, Grumman Aerospace Corp., will demand more money than provided in the original contract for building the swing-wing F14 fighter the Navy claims it needs.

The looming debate has raised the specter of the C5, the giant military cargo plane whose cost far exceeded the original estimate and left some congressional purses watching.

"We want to make damn sure this doesn't turn into another C5 controversy," said an aide to one Senate Armed Services subcommittee member.

Grumman officials are scheduled to testify before the subcommittee April 17 as it continues its investigation of the project.

"They'll be here, hat in hand, looking for a new contract to cover their losses," another observer said of Grumman.

According to a General Accounting Office audit published last September, Grumman will lose at least \$367 million by the time all 313 planes have been researched, built and delivered. The tab would come to \$5.2 billion, including research and development, separate contracts with the engine manufacturer and electronics firm, and the Grumman contract. That's

about \$16.8 million per plane. Grumman's share would be a maximum of about \$2 billion, according to a committee aide.

Grumman refuses to divulge its estimate of expected losses. But Navy and Grumman officials and the subcommittee's acting chairman, Sen. Howard Cannon, D-Nev., are known to

have discussed the firm's projected losses in a closed hearing last week.

Despite the secrecy, there are indications the Bethesda, N.Y., firm will use its subcommittee appearance to:

—Claim its current contract was invalidated by Navy delays and design changes.

—And insist on a rewritten contract that would include enough extra money to wipe out future losses, if not those already accrued.

Some observers predict Grumman will claim that fulfilling the contract as it is now written would financially cripple the firm.

NEW YORK (AP) — George C. Scott and Jane Fonda have won the top movie awards bestowed by the All-America Press Association, which is comprised of 37 foreign and domestic publications.

The association will present its Movie Best Awards for 1971 at a cocktail party Wednesday.

Scott was named best actor and Miss Fonda, best actress for their respective performances in "The Hospital" and "Kluge."

"The Last Picture Show" was named best movie by the association.

Jane Fonda Shares Top Movie Awards

The association will present its Movie Best Awards for 1971 at a cocktail party Wednesday.

Scott was named best actor and Miss Fonda, best actress for their respective performances in "The Hospital" and "Kluge."

"The Last Picture Show" was named best movie by the association.

Hunt For Auto Executive, Claim Kidnapers Arrested

BUENOS AIRES (AP) — President Alejandro Lanusse announced late Sunday that the kidnapers of Oberdan Sallustro had been arrested but the Italian automobile man was still missing.

More than 5,000 police kept up the search for the 56-year-old general manager of Fiat's Argentine subsidiary. He was seized March 21 by guerrillas of the Trotskyite People's Revolutionary Army, the ERP.

"The investigation will continue in an effort to locate his whereabouts," Lanusse told a near-midnight news conference at the presidential residence.

The police said they raided a house in the northern suburb of Chivilavert where Sallustro had been kept, but he had been transferred to another ERP commando group four hours before the police closed in.

The missing man's fingerprints were found in the cellar of the Chivilavert house along with the bed in which he was

shown in photographs distributed by the ERP, police said. A communique said \$25,000 also was found in the house.

Lanusse said the abductors had been "identified and arrested," but he did not give their names or say how many were members of the Workers Revolutionary Party, an illegal political group which split into two factions two years ago, with militants forming the ERP.

The missing man's fingerprints were found in the cellar of the Chivilavert house along with the bed in which he was

Holcomb Heads Texas Group

Dr. Luther Holcomb, Dallas, vice chairman of the Equal Employment Opportunity Commission, has been installed as president of the Texas State Society of Washington for the coming year.

The Society, organized in 1908, has a membership of 1,800 Texans who are now in Washington.

Holcomb, a Baptist minister, is the former executive director of the Greater Dallas Council of Churches. He was appointed to the Equal Employment Opportunity Commission by President Lyndon B. Johnson and reappointed for a second term by President Richard Nixon.

Elected president of the Texas State Society at its recent annual business meeting, Dr. Holcomb succeeded Congressman Kika de la Garza of Mission. Other new officers are Mrs. Abraham Kazan, first vice president; Walter Rogers, second vice president; Jim Langdon Jr., secretary-treasurer; and Mrs. Willard Deason, historian.

Members of the Board of Directors are: Mrs. Richard J. Agnich, Bill Britt, Mrs. Jack Brooks, Mrs. John B. Connally, Mrs. E. (Kika) de la Garza, Mrs. Ardon Judd, Congressman Ray Roberts, Donald E. Smiley, R. Kenneth Towery and John H. Young.

Charles Chaplin Guest Of Honor

NEW YORK (AP) — Charles Chaplin, ending a 20-year absence from the United States, arrives from Bermuda today for a four-day visit.

Chaplin, the 82-year-old comic and silent film star, will be accompanied by his wife, Oona, and other members of the family.

He is to be guest of honor at a "Salute to Charlie Chaplin" as "Lincoln Center Tuesday night." On Thursday, Mayor John V. Lindsay has invited him to Gracie Mansion to receive the Handel Medallion, the city's highest cultural award.

The actor is expected to go to Hollywood to receive a special award from the Academy of Motion Pictures Arts and Sciences at the Oscar ceremonies next Monday.

Violent Death Toll In Texas Sails Upward

By The Associated Press

A highway crash which took 10 lives and mild weather which encouraged outings helped send the violent death toll in Texas spurring upward during the Easter weekend.

The Associated Press tabulated reports of 32 fatalities between 6 p.m. Friday and midnight Sunday, including 25 in traffic accidents.

Deputy Sheriff Rex Cowart reported he was pursuing a car at speeds up to 110 miles per hour Saturday night when it collided head-on with another one-half mile west of Dimmitt in the Texas Panhandle, and 10 young people died in the fused wreckage—five in each vehicle.

The officer said he gave chase after being summoned by a call for help because of a fight at home in the vicinity.

State police listed those killed in the fleeing car as Tony Gutierrez, 17, the driver, and Nicholas Arizola, Jr., 18, Zolia Luna Olvera, 13, and Johnny Joe Olvera, 16 months, all of Hart, Tex., and Brigido Soles Sanchez, 17, of Olton.

Occupants who died in the other vehicle were identified as Robert L. Caddell, the driver, and Johnny M. Raper, Jeffrey E. Glenn and Raymond I. McLain, all 17 from Dimmitt, and Michael D. George, 20, of Nazareth, Tex.

Among the other dead were: Margaret W. Scott, 23, of Houston was killed and two sisters with her suffered injuries Sunday in a one-car accident 10 miles west of LaGrange. Officers said Mrs. Scott's car hit a gas station pump at the intersection of Texas 71 and Farm Road 154.

Police said a sports car ran a stop sign and hit the back of another auto in a North Dallas crash which killed John Vasquez, 16, of Dallas and injured two other teen-agers Sunday night. They held the 19-year-old driver of the sports car without immediate charge.

Myrtle Davis Roland, 84, of Fort Worth died Sunday in an accident on a city street. A companion was injured.

A collision of two cars 15 miles north of Laredo on Interstate 35 Sunday killed Daisy Scott Gilligan, 76, of Uvalde. Three other persons suffered injuries.

Mrs. Sam Hammack, 55, of Abilene, whose body was found early Sunday on U.S. 283 in Coleman County, apparently was murdered, officers said.

New Norther Zips Toward Panhandle

By The Associated Press

Spring is having a tough time getting a firm foothold in Texas this year.

Strong north winds drove another late blast of winter southward through the Texas Panhandle today with a promise of showers along its course through the north and east portions of the state.

The new norther, surging over snow-covered areas in the Rocky Mountains, was expected to bring freezing weather back in the Panhandle by Tuesday morning.

As winds up to 35 miles per hour shoved the cold air mass toward the southeast, the forward edge of the frontal system near dawn today extended along a line a little south of Canadian, Pampa, Amarillo and Farwell.

At the same time those winds stirred up dust which limited visibility in the north part of the Panhandle.

The return of cold weather followed a warm Easter weekend during which gusty winds moisture in many sections, depleted the already limited

In advance of the new front's arrival, a few showers fell in early morning around Paris and northwest of Texarkana.

Temperatures near dawn remained a relatively mild 46 degrees at Dalhart and 47 at Amarillo, ranging up to the 60s in most other sections and an even 70 at Brownsville on the south tip of the state.

Sunday afternoon's top marks went as high as 87 at Alice, Del Rio and Fort Worth. Galveston was the coolest spot with a top mark of 71.

Forecasts promised overnight temperatures as low as 24 in the Texas Panhandle, the high 30s in North Central Texas and the 40s in other sections.

Scattered thunderstorms were expected this evening in the north central and northeast part of the state, and skies were due to clear throughout Texas by Tuesday. Stiff south winds were predicted over the southern half of the state.

JUST ARRIVED AT CECIL THIXTON'S
... new bicycle with disc brakes

Cecil Thixton Is 43-Year Big Spring Business Vet

The growing roar in Big Spring these days comes from motorcycle buffs, getting ready for the biggest season of them all. Motorcycling is not limited to the warmer months, but it is then that most cyclers get out on the trails for any length of time.

Cycling is one of the fastest

Cecil Thixton's is the place

LET BLUE LUSTRE SOLVE YOUR PROBLEMS
... for just a penny a foot!

Of course, Cecil Thixton has been Big Spring's Harley-Davidson distributor for each of his 43 years in business. Thixton calls the Harley-Davidson "the safest thing on wheels." He has been riding Harley-Davidson motorcycles throughout the Southwest since the '30's. The Harley-Davidson line at Thixton's includes all models — everything from the Harley-Davidson Mini-Bike to the ultimate in powerful models. Now is certainly the time to stop by and see everything they have. Yes, if motorcycling or bicycling is your interest, Cecil Thixton is the man to see. Remember that the season is going into full swing, and now is the time to buy. If you already have a suitable motorcycle for the season, let Cecil Thixton's check it out and tune it soon. See Cecil Thixton at 908 W. 3rd for a new or used motorcycle, a bicycle or a lawn mower. They invite you to come in and browse any time. You're always welcomed at Cecil Thixton's.

Give Your Carpets Blue Lustre Beauty

To the housewife spring means gleaming furniture, polished floors, fresh flowers on the table and the knowledge that everything is clean! But what about the carpets and upholstery? Nothing else looks right against a background of dingy, faded carpeting. Blue Lustre Carpet and Upholstery shampoo can bring the total look of beauty to your home. Give your carpets a real beauty treatment. Bring back the original brilliance of the colors and the springiness to the nap. Housewives everywhere are raving about the wonderful new look that Blue Lustre brings to their carpets and upholstery. Waxing floors and polishing furniture and windows is all

part of the spring cleaning procedure, and until families can be persuaded to remove their shoes in the Japanese style before entering the house, tracked-in dirt will continue to be a problem for American housewives. Let Blue Lustre solve your problem. Use it regularly for touch-ups in traffic paths. The Blue Lustre shampoo machine is light weight, easy to use, and easy to carry. The twin brush foaming action brushes dirt to the surface where it is held in suspension until it is vacuumed away when the carpet is dry after shampooing. For just 1 cent a square foot, you can clean your carpets at home. Blue Lustre is available at BIG SPRING HARDWARE.

Complete Body Shop Stocks Tanks

Need an auxiliary tank for your pickup truck? Get it at Marshall Day Body Shop in Sand Springs. Marshall Day has all types to fit long, wide beds — including all GMC's.

Do you own a pickup truck with a camper? If you do you need Econo-Tank universal saddle tanks available at Marshall Day. These tanks, made of space-age high density structural polyethylene plastic, holds 40 gallons of gas, enough to triple the range of most pickup trucks.

"A pickup truck loaded with a camper gets very poor gas mileage," says Marshall Day. "These lightweight saddle tanks can be quickly installed in all Chevrolet, Ford, Dodge and GMC wide-bed pickups without cutting any holes in your pickup's body."

The tanks are fitted inside the rear side panels, just in front of the wheel wells. The filler necks are located in the wheel wells, eliminating the need for body work of any kind. Only 11 holes must be drilled; all of them are out of sight.

The tanks can be moved from pickup to pickup when you trade, and it is not necessary to remove the camper for installation or removal.

These saddle tanks come in a kit that includes two tanks, four galvanized steel support bands, zinc-coated bolts, one four-way brass valve, in-line filter and adequate neoprene hose for the complete installation.

"We can also provide a kit with one tank for pickups that

have a tool box on the right hand side," says Day. The tanks are unconditionally guaranteed for 90 days against defective parts, material and workmanship.

Marshall Day Body Shop does glass work, body work, air-conditioner service and sand-blasting service. Day says they have one of the best paint rooms in the southwest. "I think we have one of the best equipped shops around. I'd consider it a privilege for anyone to come out and let me handle their paint or body work problems."

Don't forget that Marshall Day Body Shop has all types of auxiliary tanks. See them in Sand Springs.

Report Is Due On Deep Well

LUBBOCK — More than two months ago drilling of the Ralph Lowe No. 1 University "17" well in Pecos County reached a total depth of 28,500 feet, deep even by present standards of deep drilling in the Permian Basin.

It is an effort to evaluate such a deep prospect. John C. Stanfield and Hugh N. Frenzel, Midland geologists, affiliated with Ralph Lowe Estate, will report on the project at the 19th Southwestern Petroleum Short Course at Texas Tech University April 20-21.

Stanfield and Frenzel reported the geological well plan was based largely on the nearby Pan American No. 1 University "CS" well drilled in 1957. In addition to the usual Delaware Basin section of Permian rocks, this well encountered a thick section of unstable shales thought to be lower Pennsylvanian and or Barnett in age. Sloughing shales in this interval were believed to be the most serious drilling problem in this area.

"Based on geological information, the casing and drilling mud programs were designed to protect fresh waters above 2,000 feet; avoid lost circulation in the middle Permian from 2,000-11,000 feet; control high pressure gas in the Wolfcamp from 11,000-18,000 feet; maintain wellbore stability in the lower Pennsylvanian and Barnett from 18,000-23,000 feet; and for production testing prospective reservoirs in the pre-Mississippian below 23,000 feet," they said.

The permafrost — permanently frozen ground — is 2,000 feet deep under parts of Alaska's North Slope and almost a mile deep in Siberia.

THE PUBLIC FORUM

(Continued from page 6-A)

the city manager's proposal with regard to the operators' responsibility, it is difficult to express an opinion.

Robison — This question involves an administrative decision, and would call for a factual study of information which is not available to me.

Acri — Our city manager has set up a board to investigate all accidents in city vehicles. This was due to the large number of accidents involving city vehicles. Our insurance company sent an insurance engineer to Big Spring to set up a safety program for our employees, which will be instituted in the next couple of months, and which I believe every city employee who operates a City vehicle should be required to take.

2. There is some evidence that certain areas in downtown Big Spring have eroded, despite all efforts to beautify it, and some businesses keep fleeing to the suburbs. What could you offer in the way of a program to reverse the trend?

Choate — The merchants in the downtown area have, in my opinion, done an exceptionally good job in attempting to beautify the area, and I do not think we have as many businesses leaving the downtown area.

Carson — I don't know what evidence you refer to in the downtown area. True, one major business did recently move out of the immediate downtown area but this move was planned some years ago. Some locally owned property was purchased by out of town interests and remodeled. In Big Spring the downtown area situation looks healthy.

Robison — Big Spring has made more progress than many cities in developing its business areas, and I understand property owners have participated in this. Our city needs to support all worthwhile improvement and development, in every area.

Acri — The Chamber of Commerce as well as the Downtown Merchants have done a remarkable and commendable job on our downtown area, and hopefully other efforts will be successful in giving our downtown area a face lifting. Although the City cannot help financially on property not owned by the City, perhaps it can continue to help by the use of its labor force.

I don't think you can say

people here don't care how our downtown area looks because there have been steady improvements for the last few years.

3. Do you think the traffic laws are too strict or lenient? Does the Police Department offer ample safeguards against those who insist on speeding at night?

Choate — No, I do not think our traffic laws are too strict, nor too lenient. The Police Department uses the best safeguards it can for speeding at night.

Carson — The traffic laws in our city are at least ample. But without the staff available to enforce these laws, particularly at night, it is improbable that much can be done to control these nighttime speeders.

Robison — I would think traffic laws generally are in conformity with those of other municipalities. I cannot presume to judge the Police Department, whose members I am sure, are performing to the best of their ability and resources.

Acri — I do not think it is up to a city commission to decide whether our traffic laws are too strict or too lenient, but only how well they are enforced in our city.

4. Do you think Big Spring has enough through streets going east to west and north to south? There has been talk 11th Place would eventually be opened up from city limit to city limit. Could you project any ideas on how to facilitate this?

Choate — We could use more through streets east and west. Hopefully we can eventually open up Eleventh Place to help alleviate this problem.

Carson — At the present for north-south access there is only Gregg and Birdwell, for east-west only 3rd-4th and FM 700 and with a job 17th and 15th streets. Eleventh Place extension might eventually prove workable but at the present it would serve little past Abrams and this does not appear to be justified at this time.

Robison — The opening of new thoroughfares should be dependent upon expert study of needs and traffic loads. It is my understanding that the state of Texas has a program called TOPICS which would join in some phases of city traffic problems.

Acri — As the City grows we will need more north and south through streets, and at the present time we have only four

such streets east and west. I think it is too premature to anticipate doing anything else.

Carson — Currently the city is only in debt to itself. The shortages were covered by a transfer of funds from other accounts. This debt has not been brought about in a single year and it cannot be expected to be cleared up instantly without a cutback in services.

Robison — I understand progress has been made in the City's financial position, and any further action should await the presentation of the new budget.

Acri — At the end of fiscal year 1971, the City had a \$116,462.00 deficit in the General Fund and a deficit in the Water & Sewer Fund of \$41,732.00 for a total deficit of \$158,194.00. To try to cover this deficit in the 1972 Budget, the City Commission reduced the expenditures of each City Department by 5.7 per cent (a total of \$250,629.00), which was placed in the City Commission account as surplus under its control. Although a part of this surplus will have to be used to meet current expenditures during 1972, it is felt enough will remain to offset the 1971 deficit. Also the recent implementation of a centralized purchasing system will save the City untold thousands of dollars.

As to a tax raise — although in the past this has always been the easy way to clear a deficit, I was against tax raises in 1970 and 1971 and still feel we don't need a tax increase if the City watches its spending.

7. Do you think the paving program has moved ahead as fast as it should have? If elected, what parts of town would you suggest giving priorities to improve the paving?

Choate — I think we have had a good paving program since the 1968 contract which recently has been completed. It will soon be time to think about next year's paving program to cover the areas most needing it.

Carson — No. What paving program? The last paving contract bogged down about half complete with only a few dollars left in the city account. To my knowledge we have no paving program outstanding at this time. Any future paving program must give attention to those depressed areas of our city where the dirt streets become raging gullies with any heavy rain.

Robison — Any paving program generally moves as fast as the people want or demand it. Priorities should go

to streets where traffic, water erosion and general safety and convenience are most vital.

Acri — I do not feel the paving program has moved as rapidly as possible. The last paving contract for one hundred eleven and a half blocks, when awarded, did not contain a clause as to completion date, which is very unusual for this type contract. The City Commission does not designate what streets should or should not be paved.

8. There appears to be an outstanding need for a coliseum in Big Spring. What would be the best way to go about getting one in your estimation?

Choate — There has long been talk of a coliseum and I believe it should be a total county, city, school, and Junior College commitment. I am sure we would probably need to vote on a bond issue to allow the people to express their desire.

Carson — There does exist a need, occasionally, for a larger arena than furnished by the local rodeo association; even a more comprehensive facility than the Municipal Auditorium.

Robison — A coliseum would be an asset to our city and county. It would appear that a program of this magnitude would call for a joint effort.

Acri — A coliseum of some type is badly needed in our city because presently we do not have a facility that can seat over 1,500 people. However, this should be by a joint effort of all taxing agencies, and an expenditure of an amount of money as large as this should be by a capital improvement bond issue, to allow the people to decide.

9. Do you think the city has enough area parks? Some say we should have one reasonably close to downtown. What is your feeling on the matter?

Choate — I believe Big Spring has enough parks and we will do well to take care and maintain what we have in existence.

Carson — Yes, the park area available to the people of Big Spring seems to be enough, although there are some existing parks that do need further development.

Robison — Parks, like other municipal conveniences, develop as people want them and they can be financed. The city's parks and recreation board should be looked to for recommendations in this direction.

Acri — I think Big Spring has enough area parks for our size, but would like to see the facilities we have improved and adequate soft ball parks and tennis courts implemented.

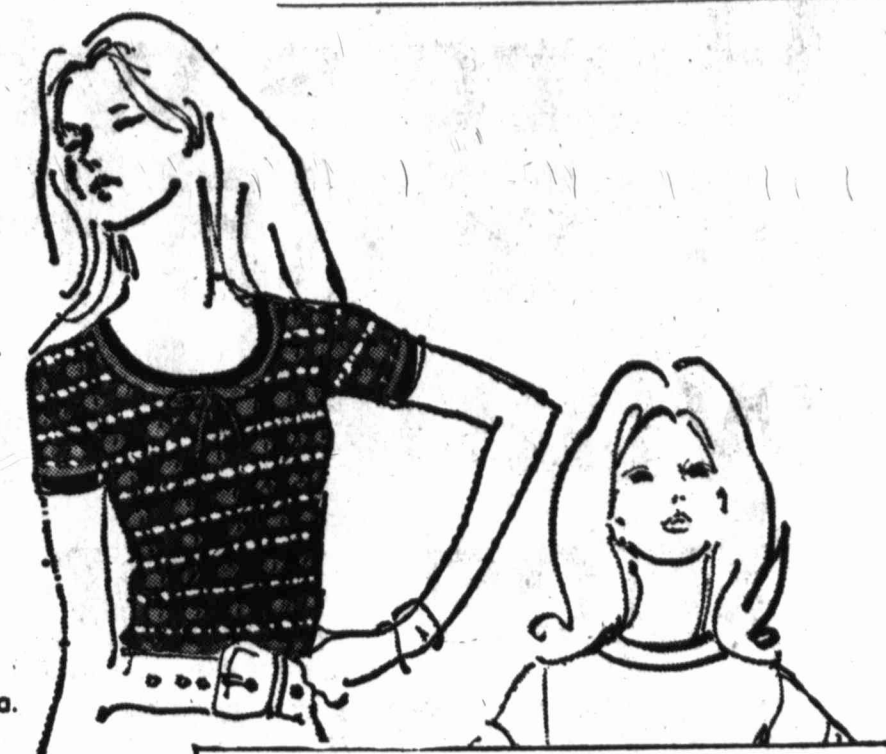

10. Do you think there is any overlapping of services offered by the city? Do you think our operating expenses could be cut to any extent so as to make it easier on the taxpayer? Do you think the tax rate is too high, compared to the services we are getting?

Choate — I do not feel we have too much overlapping of services and do not feel we can cut expenses to any greater degree than has been done the past two years. I do not feel the tax rate is too high for the services offered.

Carson — No one likes to pay taxes and little consolidation of city services seems possible. Services cannot be expected without payment.

Robison — The press has reported that our government agencies are interested in elimination of duplicate services, and that a special committee is at work on this. Anything that can be done for economy in government merits all citizens' support.

Acri — I do not feel we have overlapping city services. Operating expenses are high, but I feel by closely watching our expenditures and the use of new and more effective centralized purchasing this can be brought in line.

Cotton Knits
by Ship 'n Shore

Cool, care-free 100% cotton knits that you'll love wearing...

Paid Political Adv.

Seely And Ezell Visit DeMolays

Dennis J. Seely, state master counselor of Texas DeMolay and Easy Ezell, past master counselor of the local chapter and now state membership chairman, made a visit to the Leon P. Moffett chapter Order of DeMolay, in Big Spring.

The theme for their talk was "Brotherhood through action," which is also the 1972 statewide campaign theme. Later the two traveled to Odessa to visit the Odessa chapter of DeMolay.

The El Paso DeMolays also made the journey to Odessa to capture the traditional "West Texas Area Roving Robe."

Seely completed his west Texas tour by meeting with the DeMolays of Lubbock.

Not Too Young

Jean Adams'

TEEN FORUM

LOVE AT 13: (Comment) I disagree with you when you say that 13 is too young to go steady.

All my friends and I are 13, and all have gone with at least one guy.

We think that going with someone is just an official statement that the two people going together like each other more than anyone else.

Of course, we only let the guy we're going with put his arm around us, and

sometimes we kiss — NO heavy making-out.

None of us dates yet. When we do, we probably WON'T go steady, at least until we're sure we want to be limited to one guy.

For now, we have fun with all the boys, but each of us has a "special guy," and going together is proof that we feel the same way about each other — 14 in Upper New York State.

(A.) What you say sounds reasonable to me, so long as you keep it as moderate as you describe it.

UNBELIEVED: (Q.) My age is 16 and I know all about sex. I have a girl friend I like an awful lot. My parents think it is a joke for me to have a girl friend. How do I let them know it isn't? — Laughed at in Michigan.

(A.) I don't know all about sex. You don't either. No one does. Do not boast to your friends or your parents. Do not tell them things that are untrue. Then when you tell them something that is true and real and honest, like your having a girl friend, they will believe you.

(Want personal answers to your questions? Write to Jean Adams, care of the Big Spring Herald, P.O. Box 2402, Houston, Texas 77001. Only letters that include a stamped, self-addressed envelope can be answered.)

Didn't Help

SILVER CITY, N.M. (AP) — A flower shop presents a carnation boutonniere to each member of the Silver High School basketball squad and coaching staff if they qualify for the state tournament. The carnations have been provided the past four years as a good luck omen. Silver lost the State AAA championship in 1972 by one point.

OVER 65 ONLY: ENROLLMENT PERIOD ENDS MIDNIGHT THURSDAY, APRIL 13, 1972

Here's where most folks over 65 find out...too late... what Medicare does not pay...

Now, for just \$1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan! New Elder-Care® pays you up to \$50,000 Tax-Free Cash! It covers every hospital expense that Hospital Medicare leaves out, except the initial deductible!

- only \$3 a month after the first month!
- no age limit ■ no health questions
- all pre-existing conditions are covered!

Your first month is only \$1. And you get your dollar back if you're not completely satisfied.

IMPORTANT ANNOUNCEMENT

MEDICARE COSTS JUMP AGAIN!

Now You Must Pay 13 1/3% MORE!

Effective January 1st 1972 Hospital Medicare payments increased again, by law! Just as in past years, amounts that patients must pay rose very sharply - up 13 1/3%! Fortunately ELDER-CARE owners need not worry! Once again this Plan automatically adjusts to cover increased hospital charges... yet it still costs just \$3 a month. Today your Initial Deductible is \$68 (up from \$60!); after the 60th day you must pay \$17 per day (up from \$15!); and your "lifetime reserve" contribution is now \$34 per day (up from \$30!). These continuing annual increases make it more important than ever to protect yourself at today's rates! Send your Application NOW - before the postmark deadline.

MEDICARE IS GREAT-BUT!

Wake up friends. Blessing that it is, please realize that Medicare isn't everything many folks suppose. It has Gaps-deductibles, percentages and charges that you must pay out of your own pocket. And recent changes have increased those Gaps. The Government pays less and you pay more! What a shock to find this out too late. Today, even with Hospital Medicare, a long siege of illness in the hospital could leave you with crippling financial debts.

DON'T LEARN THE FACTS THE HARD WAY!

After you're laid up, it's a little late. Under Medicare today you pay the initial deductible for each 'benefit period'. That's the first \$68 of hospital expenses. Then from the 61st day of the period you must pay \$17-a-day. After 90 days this increases to \$34-a-day - \$238-a-week, \$1020.00-a-month-that you must pay. Plus you start dipping into your Hospital Medicare 60-day 'Lifetime Reserve'. And after your Lifetime Reserve is used up, Hospital Medicare won't pay you a cent for the rest of that period. Think what a long spell of illness could mean-the slow kind that older folks get more than anyone else! You could be stuck with unpaid bills that could wipe out retirement savings... force you into borrowing (at today's rates)... selling your home... even turning to your children for charity!

ARE YOUR PARENTS OVER 65? READ THIS!

Right now you have an opportunity to help protect your parents against today's skyrocketing hospital bills. A long illness can easily exhaust their savings. That's why we urge you to bring this plan to their attention immediately-and help them get \$50,000 worth of lifetime maximum benefits. Or better still, just complete the form below for them using your address and we will send the Policy and payment notices to you.

THIS PLAN IS A MUST FOR ANYONE OVER 65

If you feel Medicare Gaps are confusing, you're right-they are! Worse-they're expensive! Part 'A' of Medicare is Hospital Insurance, designed primarily for in-hospital costs. Part 'B' is Medical Insurance, for doctors and medical service bills. This Plan supplements 'Part A' to protect you for every eligible Medicare hospital expense that Hospital Medicare doesn't pay. After your initial deductible, you're covered for all the Hospital Medicare Gaps-100%-with no time limit-no matter how much or how often you collect-up to \$50,000.00 tax-free cash! And no matter how Hospital Medicare Gaps widen in the future, you needn't worry. This Plan fills in automatically. There's no finer Plan in America today!

MEDICARE GAPS KEEP GETTING WIDER

The law requires that Hospital Medicare costs must be reviewed each year-and if hospital charges change significantly, the money that patients contribute must be adjusted the following year. Well, it's no secret; it's already happened three times-in '70, in '71 and again in '72. In fact, hospital costs have TRIPLED in the past few years. And are still increasing! There's little doubt about it. You'll wind up paying even more. That's why our Elder-Care Hospital Plan makes so much sense!

THE COMPANY BEHIND YOUR ELDER-CARE

Elder-Care is issued to citizens over 65 no matter what their present state of health by Union Fidelity Life Insurance Company of Philadelphia, a progressive old-line legal reserve company. Union Fidelity is recommended by both Best's and Dunne's, the insurance industry's leading independent rating authorities.

EVERY GAP IS ANOTHER PROBLEM FOR YOU:

The Social Security Administration estimates that Medicare will pay less than half of your total health cost! That's why this Elder-Care Plan is so vital. It assures you virtually complete hospital coverage no matter how much Hospital Medicare pays (or doesn't pay) in the future. It assures you will never be saddled (or saddle anyone else) with bankrupting hospital bills. It's like having up to \$50,000 set aside against a rainy day!

ANY CONDITION YOU HAVE NOW IS COVERED NOW!

There are no tricky "catches" or "waiting periods". All pre-existing conditions (physical illness you've had or have right now) are covered in any recognized hospital, from the moment your policy is in force. Here are the only exceptions: Federal or State Government facilities, mental institutions, sanitariums for alcoholics or drug addicts, and geriatric extended-care facilities like nursing or rest homes. Loss paid by Workmen's Compensation or Occupational Disease Laws is not covered. Your plan cannot be cancelled as long as you pay your premiums, and the \$3. rate cannot be raised, unless a general rate adjustment - up or down - applies to everyone in your state.

SEND \$1 FOR YOUR FIRST MONTH'S PROTECTION...

while you examine your Elder-Care Plan. It's yours with a money-back guarantee. Examine it carefully in the privacy of your own home. There's no "fine print". Show it to any trusted advisor. Indeed, show it to your doctor. He knows about the limitations of Hospital Medicare. He'll tell you how valuable this Plan really is. Even then, if you're not completely satisfied, return the policy within 30 days and we'll promptly refund your money-no ifs, ands or buts! It makes sense to protect yourself now for such a low amount-while you make up your mind! If you decide to continue, your regular monthly premium is only \$3 per person. A small premium for so much peace of mind!

ENROLL AT ONCE-NOW IS THE TIME!

Everyone over 65 automatically qualifies during this mass enrollment period-with no medical questions asked! The closing date, however, is definite! We cannot accept applications after the postmark deadline. So please don't hesitate. You are protected by an iron-clad 30-day money back guarantee. Mail your Application Form, with only \$1, regardless of the number of people to be covered, before the midnight deadline. Act now, while the thought is uppermost in your mind!

9 IMPORTANT QUESTIONS AND ANSWERS

1 Q. If I have Medicare, why do I need this Plan?

A. Medicare, with its maximum limitations, was never designed to cover all hospital expenses. But the amount you pay gets bigger! \$17-a-day is up from \$15! \$34-a-day is up from \$30! Where will it all end? These widening Gaps could cost you thousands of dollars. But Elder-Care relieves your hospital money worries-up to \$50,000 security in tax-free cash!

2 Q. How do I collect my benefits once I'm in the hospital?

A. There's a simple form to be completed by you and your doctor-and that's all there is to it. As soon as your request reaches us, it gets immediate attention. Folks all over the country have praised the speed and efficiency of Union Fidelity's claim service.

3 Q. Can I enroll if I'm not in good health?

A. Yes you can. There are no medical questions to answer. No matter how poor your health, any health condition you have right now is covered. There is no waiting period. And of course, any accident or future health condition is covered too.

4 Q. Can you cancel me, or raise my rates if I go in and out of the hospital, or if I collect thousands of dollars?

A. Absolutely not! Your Plan cannot be canceled as long as you keep up your low premiums-no matter how often, or how much, you collect - up to the \$50,000 maximum. And you'll never pay more than \$3 per month, unless a general rate adjustment is made on all policies of this class (Form 1-919) in your state.

5 Q. Does this plan cover doctor bills?

A. No. Private doctor bills are not covered by Elder-Care because they do NOT come under the hospital part of Medicare. For protection against doctor bills make sure you're signed up for the Medical part of Medicare through the Government.

6 Q. How can it cost only \$3 a month?

A. Because the initial deductible is not insured-that's still your responsibility. Without this one provision Elder-Care would be too costly to afford. With it, however, this Plan is exceedingly reasonable. Hospital Medicare covers most expenses in the first 60-day hospital benefit period. Then Elder-Care fills in the rest of the hospital benefit Gaps-100%-provides up to \$50,000 long-range protection. In addition, mass-enrollment by mail-only-plus no medical questions to process-keeps policy-issue costs at a minimum. And since no salesman will call, there are no sales commission costs. All these savings are passed on to you!

7 Q. If I have other hospital insurance, doesn't it cover these Medicare Gaps?

A. Unfortunately no! Many other plans specify exclusions, riders, and limitations on Medicare. They don't bridge all the Gaps, particularly as benefits are adjusted. But with Elder-Care you know that hospital Gaps are covered automatically with up to \$50,000 protection. There's no waiting period-you're covered immediately for pre-existing conditions. And note: this Plan pays in addition to any other coverage you may have. It's your money to spend as you wish.

8 Q. What other advantages are there to joining this Plan right now?

A. During this period there is no red tape of any kind. Just fill in the simple Application Form here. And you enjoy a 30-day approval guarantee! You're protected for only \$1-while you examine your Elder-Care Policy. If you're not completely satisfied return the Policy within 30 days and we'll promptly refund your money. In the meantime, you're still protected!

9 Q. How do I enroll?

A. Complete the Application Form at left and mail with only \$1 for the first month's protection. Your spouse, if over 65, may also be enrolled on this form. But do not send more money! \$1 covers you both during your 30-day approval. Be sure to sign your name and mail before the postmark deadline.

Not Always Clear

There is always good political mileage in a pitch for tax reform and the Internal Revenue Service's analysis of performance under the 1969 Tax Reform Act has sharpened interest of the reformers — and the candidates.

Loop-hole closing has become a focal issue in the Wisconsin presidential primary campaigns. Sen. Gaylord Nelson and Rep. Henry Reuss, both from Wisconsin, are spearheading congressional drives for so-called "soak-the-rich" tax reform. They threaten opposition to raising the national debt ceiling unless President Nixon supports tax reform.

The IRS analysis says the 1969 act resulted in previously tax-free rich persons (who made all their income from tax-exempt municipal bonds or made enough gifts to charitable causes to avoid income taxes) got off with a lower rate than the rest of us. The new law collected an average of 4 per cent income tax from some 18,000 who avoided all income taxes previously. The average for all taxpayers was 13.8 per cent.

But that's not the whole story. It is perfectly legitimate, even obligatory, for congressmen to resist spending (by opposing federal debt ceilings or other means) unless sufficient income is collected. There has to be a balance

at some point and the cost of the debt today is a scandal of its own.

Fair tax policy can emerge from a point-by-point examination of the "loop-holes." Oil depletion allowance, for example, is one point. We don't know what a fair allowance is. We do know that when the allowance was cut in 1969, exploration for gas and oil dropped and, for that reason or others, the predicted shortage has come about.

Eliminating tax-free municipal bonds (marketable because they are tax free despite

lower interest yields than other investments) has been proposed. Instead, under the plan, subsidies would be paid to make them marketable. The arithmetic of that has to be detailed before one can tell whether subsidy is another name for tax-free. The present mode may be more practical.

Answer to loop-hole closing is an examination of why the loop-holes are there and what are they worth to the public. When that is determined, the politics of getting fair tax policy will be clearer even if it isn't easier to achieve.

Volunteer Army Obstacles

Surely to no one's surprise, the plan for shifting to an all-volunteer armed force by July 1973 faces problems.

With the decline in the draft — and resulting decline in draft-pressured enlistments — the volunteer rate is falling. According to a report delivered by the Defense Department to Congress, the goal of an all-volunteer military a little more than a year from now cannot be reached unless new incentives are found.

The first thing which comes to mind, of course, is additional pay. But to make military service

fully competitive with pay in civilian life might make the cost of a volunteer force prohibitive. So other factors must be considered, including probably shorter terms of enlistment, increased benefits once discharged (including job training and placement), increased status and prestige for servicemen, and a better quality of life for those in the armed forces.

We don't have long to accomplish a lot, if the July 1973 goal is to be reached. That date may have become an unrealistic goal, given limited progress to date.

Lean Leap Year

Around The Rim

Tommy Hart

One thing and another: We are now in the midst of Leap Year, the time when bachelors are supposed to be on the lam. We'll tack an extra day onto the calendar every fourth year until 3,000 A.D., when we observe a February that has only 28 days.

REASON: The earth travels around the sun once every 365 days, five hours, 48 minutes and 46 seconds. To make up for the extra quarter of a day that occurs each year, we add a whole day every four years.

It's not quite that simple, however. Since the added time isn't a quarter of a day (11 minutes and 14 seconds short, to be exact), we eliminate leap years on centesimal years, like 1700, 1800 and etc., unless they are divisible by 400.

IF YOU'RE around in the year 3000, don't mourn the loss of an extra pay day in that period between Feb. 28 and March 1. Maybe the government will make it up to you by celebrating Benedict Arnold's birthday. Someone observed recently that if

designers of women's swim wear aren't careful, they'll soon be out of a job.

I ONCE KNEW a woman so unfair of face, she walked into a bar one time and seven men took the pledge. When she came into a room, the mice jumped on chairs. She looked like the first wife of a widower. When she was born, her father ran down to the zoo and threw rocks at the stork.

A city could probably be described as a place where they cut down trees and then name streets after them.

WAR MAY make millionaires out of munition makers and some generals (some of whose closest contact with combat was in manning recruiting desks) but you'll have to admit that it's not very healthy for children and other living things.

MY EYES must have been playing tricks on me when I walked into a supermarket the other day. I think the sign read "No one under \$21 admitted."

Gilding The Lily

Omar Burleson

WASHINGTON, D.C. — Occasionally letters are received with only the first name signed. Knowing so many people we are usually able to identify the writer with the postmark of his hometown.

SINCE THE reorganization of the Post Office Department, which for all intents and purposes removed control from Congress, mail is now received with postmarks such as "TX 781." Some may be IA 713 and so on. Sometimes it is a little difficult to identify ole Joe, Bill, Jim or Jane as the writer of the letter. This is because the local postmark is that of the Regional Distribution Center. When complaints have been made to the new post office setup, they say that anyone in our small towns can still get their local postmark by going to the Post Office but they have to do so at certain hours.

THIS HAS the effect of losing the identity of small communities. There is a pride in having our own postmarks and, besides, there is no evidence that improvement has been made in postal service. The complaints are still numerous. As a matter of fact, there exists many doubts as to whether making the Postal Service a semi-public corporation is going to bring about the efficiencies which it was recommended to do.

The organization is subsidized at \$98 million a year, which is supposed to be eliminated by 1985. Of course, this is a lot less than the \$700 million or more loss before the reorganization but it has yet to be proved.

THE POSTAL SERVICE may get into enough side lines to make it profitable in a few years. From plans they have, it looks as if the service may become sort of a variety store. Patrons in Alaska can buy automobile tags at the post office window and Europe-bound travelers can get passports at the same place. For a special price the postal service promises that in the near future it can deliver a letter about 300 miles away in two minutes.

The service, in addition to selling

stamps, is now designing more exotic issues to keep collectors busy and money coming in. The bigger offices also carry stamp albums. Even the rogues' gallery will be blown up and likely the pictures will be in color.

POST OFFICES may soon be selling hunting stamps, stock job applications for federal positions and information on the federal budget.

Some old-time postal managers deplore the new operations saying they are gimmickry designed to take the public's mind off the fact that the mail service is not getting any better. The complaints may get louder as more and more over-the-counter transactions are put into effect.

THERE IS still the problem of the delivery of the individual letter across town in a reasonable time. Postal officials have said that "in instances we can get a letter across the country faster by jet plane than a letter can be delivered on the other side of the city by truck." This seems to be one of the hangups.

If post offices become sort of like shopping centers, one must wonder if marriage and divorce may eventually be offered over the postal counter.

And No Taxes

CAPE TOWN, South Africa (AP) — A six hour, three-day work week? They had it here 400 years ago, scientists believe.

These Utopians were hunter-gatherer nomads who inhabited what is now western Cape Province before the arrival of white settlers.

University of Cape Town archaeologists have been studying them and believe they lived off the fat of the land in an area north and west of Cape Town.

The vanished people were known as Bushmen and Strandlopers. They had handy tools with which they worked pottery, bones, shells and ornaments. They painted on cave walls.

No Great Mystery

John Cuniff

NEW YORK (AP) — The search for a "middleman" profiteering on the price of food is going to end nowhere, in the opinion of a lifelong farmer who has just typed off a letter to C. Jackson Grayson Jr., Price Commission chairman.

In this farmer's opinion, there is no mystery about the high retail food prices, not when the cereal box costs more than the contents, not when rising wages, costs and strikes hamper food storage, processing, distribution.

It isn't any one operation that accounts for rising prices, he said in an interview, but the cumulative effect of higher prices in many marketing operations; but they add up to the same thing.

SAVED BY SEEDS

The farmer asks to remain anonymous except to say that he is 59; farms 320 acres of

soybeans, corn and oats in Minnesota; is being forced by ill health to retire, and would have abandoned farming long ago but for hybrid seed and fertilizer that gave him greater yields.

Now he resents seeing the finger of blame pointed, Ojibwa fashion, at the farmer, among others. There is no scientific reason for blaming him, he says, and he could be right.

The factors involved in pricing are so complex that they defy instant analysis. But some facts do stand by themselves:

In March 1971 the farmer received \$1.39 a bushel for wheat, but \$1.34 this March. A year ago he received .925 cents for his bushel of rye, but only .825 in March. For oats, 658 a year ago, .38 in March. Corn, \$1.43 versus \$1.10. Barley, \$1.02 versus .983.

And so this farmer, typical in

some respects, wrote:

"Dear Mr. Grayson:

"I am writing to give a farmer's viewpoint of prices and wage controls.

"Your job is not one to be envied, and one can understand the situation you are in with various consumer interests pushing for lower prices on food, while farmers and Secretary of Agriculture Butz says that it is impossible.

"However, some of your statements . . . do not indicate you have all the facts in regard to the cost-price squeeze in which the farmers find themselves.

"It is true most food products are a great deal higher in retail stores than they were 20 or 25 years ago. However, the price for the raw products has gone up very little. In some cases,

Right To Know

To sensation-seekers at the courthouse, this was the big day. A local politician was on trial for seduction, and the victim — a 16-year-old schoolgirl — was scheduled to take the witness stand and tell her story.

BUT THE GIRL became so nervous about testifying in public that the judge ordered everyone except relatives and newspaper reporters out of the courtroom.

Later found guilty, the defendant appealed on the ground that he had not had a public trial. However, his appeal was denied. The court said clearing the courtroom was justified if that was the only way to get the girl's story.

COURTS GENERALLY agree that a judge may exclude spectators if the modesty of a witness makes that necessary. But suppose the purpose is not to protect the witness but to protect the public. May a judge exclude spectators because he thinks the testimony might corrupt their morals?

Unless local law authorizes it, judges ordinarily do not have that power — no matter how lurid the testimony may be. Thus:

IN A RAPE case, the judge excluded spectators on the theory that

their "only motive was to satisfy their morbid tastes." But an appellate court ruled that the judge had exceeded his authority. The court said the defendant's right to a public trial is too fundamental to be cast aside so easily.

"A judgment of conviction, where the defendant has been refused a public trial, cannot stand," said the court, "even against the meanness of the crowd in the land."

WHAT IF THE defendant himself wants to keep out spectators, for reasons of his own? In a pandering case, the defendant took that position, demanding that the entire proceedings be conducted in secret.

But the court ruled that he had no right to that much privacy.

"A CRIME IS A public wrong," said the court. "The community is deeply interested in the administration of justice, and the presence of its members at a trial is as basic as the presence of a defendant. The people have the right to know what is being done in their courts."

Hal Boyle

By JOY STILLEY (Submitting for Hal Boyle)

NEW YORK (AP) — Attention Authors: Planning to write an authentic autobiography? Why travel? Why pay a researcher? Why go through the drudgery of clipping and pasting? Why spend weary hours talking into a tape recorder?

I have available extensive autobiographical material never before used for a book, including personal data, pictures, movies, letters, drawings, handwriting specimens and tapes.

And I can vouch for their authenticity, too, since they all document the life and times of our firstborn, Brenn.

Shortly after we acquired a son, who weighed in at 6 pounds, 11 ounces, we also ac-

quired a huge leather-bound scrapbook, which weighed in at slightly more—empty. Since then we have filled it with all sorts of items of doubtful historical value. But what they lack in quality, they make up for in quantity.

First, there is a day-by-day, almost hour-by-hour, account of his physical growth. Then there is a detailed record of the growth of his accomplishments, from his first resounding burp to his initial attempt to walk alone, plus official notation of the appearance of every tooth.

Mementos of his early years include his first letter to Santa Claus, dictated to his mother—a lengthy missive that closed on a note of compromise: "It's okay if you don't bring me everything, as long as you bring

me something."

Nestled in the pages of that bulky scrapbook are Brenn's kindergarten bus tag, the notebook page on which he first printed his name, his Junior Air Line pilot license, his Cub Scout graduation certificate and the clock face he made at school out of a paper plate.

There are the contracts he habitually executed with his younger sister, assigning to her his slightly-used lollipop, 10 baseball cards or escort service to the 10-cent store in exchange for a half hour of her viewing time on our single television set.

In addition to the memorabilia stuffed into the scrapbook we have many other of other things that have to be valuable source material.

Billy Graham

My Answer

What do you think of spiritualism so-called, mediums and seances? It is surprising to see people going in for modern spiritualism, fortune-telling, and astrology. My Bible study group would like your opinion of what is commonly called spiritualism.

J.P.

Modern spiritualism in America seems to have had its start in a farm house in March, 1848, in New York State when "strange rappings" occurred in the attic of the house, occupied by a Mr. Fox. His daughter Kate, was to have successfully challenged the 'spirit' to repeat the number of times she flipped her fingers, by rapping on the attic floor. Kate Fox became the first known medium, and she and her sister spent the rest of their lives as spirit mediums.

But, spiritualism, and as the Bible calls the phenomena, "familiar

spirits," is probably as old as man. The Mosaic writings condemned the practice of "familiar spirits." "And the soul that turneth after such as have familiar spirits, and after wizards, to go . . . after them, I will even set my face against that soul, and will cut him off from among the people." Leviticus 20:6.

When King Saul fell into sin, he sought out the witch of Endor, and the experience was not a happy one. The New Testament speaks often of "unclean spirits," demons, and doctrines of devils.

There is such a thing as spiritualism, some of it of course false, and some of it real, but all of it in my opinion, is Satanic. It is natural for people to try to communicate with their departed loved ones, and spiritualism's success is in part predicated upon this. But, the Bible tells us that only in heaven will "we see, even also as we are known."

A Devotion For Today . . .

"Lo, I am with you always." — Matthew 28:20 (RSV)

PRAYER: Dear Lord, help me to remember that You are with me even when I forget You in my struggle to survive. I pray in Your name. Amen.

Whose Business?

Dear Abby
Abigail Van Buren

DEAR ABBY: How do you feel about women using the title "Ms." in order to keep their marital status confidential? All men are called "Mr." which gives no one a clue as to whether they are married or single, which in some cases could be to their advantage. Don't you think women should demand equal privacy in their marital status?

DEAR MS. SCHWARTZ: If it's equality women want, instead of adopting "Ms." to conceal their marital status, they should insist that all men be identified according to THEIR marital status. (After all, a woman has a right to know whether a man is a bachelor, married, divorced, a widower, or just swinging.)

Example: Joe Blow, M. M. (Married Man); Moe Schmo,

ter" was old enough to have a cocktail. And that was in an area where 18 was the legal age! What fun! We both have a lot of laughs when things like this occur. It doesn't happen quite so often now, but when it does, it really makes my day.

DEAR BABYFACE: As time goes on, you'll find it happening less, and you'll be enjoying it more.

BR. (Bachelor); WR. for widower; AV for available, or T.O.L. for Temporarily on the Loose. Girls?

DEAR ABBY: Re: That 25-year-old school teacher who often mistaken for a teenager. She will enjoy it when she can adopt an attitude more mature than her looks.

I was nicknamed Babyface in the 7th grade and I hated it. In college I was frequently asked what I wanted to be when I grew up. Now I am 32, and married to a physician, and am still asked if my "father" is home when a patient comes to the door to see my husband. (I simply smile and call "the doctor.")

My husband was asked by a waiter recently if his "daugh-

ter" was old enough to have a cocktail. And that was in an area where 18 was the legal age! What fun! We both have a lot of laughs when things like this occur. It doesn't happen quite so often now, but when it does, it really makes my day.

DEAR BABYFACE: As time goes on, you'll find it happening less, and you'll be enjoying it more.

Ex-Wife Owes Him Sausage Galore?

SAN JOSE, Calif. (AP) — In a breach of contract suit filed against his ex-wife, Frank P. D'Ambrosio claims his former spouse owes him 500 pounds of sausage.

The missing links, the plaintiff complained in a suit filed in Santa Clara County Superior Court, were provided for in a 1970 divorce agreement in which he gave his wife his sausage business.

The agreement, he said, called for his ex-wife to fork over five pounds of sausage a week.

Whoops! You missed the point, Abby. If that boss owns his own business, that's one thing. But if he is just one of the employees of the company, then he is asking the typist to do nonproductive work on company time. And ask anyone in personnel what that does to the overhead.

I am a typist in one of the largest firms in the world, and we have a print shop here

PEANUTS

ARE YOU A STUPID BIRD? WHAT'S TO MISS? HOW CAN YOU BE SO BITTER? NOBODY'S GOING TO TELL ME HOW TO READ "WAR AND PEACE"! I'LL BET YOU MISS HIM. WE BEAGLES HAVE A LOT OF PRIDE!

SNUFFY SMITH

FETCH TH' STICK, OL' BULLET. OH-OH!!

Big Toe Bursitis

Your Good Health
Dr. G. C. Thosteson

Dear Dr. Thosteson: Is there a cure for bunions? I am having quite a bit of trouble with my feet now that I am in my 70s. — Mrs. C.L.R.

Yes, there's a cure for bunions. Surgery. But in practice, the question usually is whether a cure is worth it. Not only has the joint been forced into a different position, but the bursa, or sac at the end of the joint, has become inflamed. It swells in protest against the continued pressure.

In plain language, you have developed bursitis of the big toe. That's what a "bunion" is. Most folks with bunions have spent anywhere from 15 to 50 years developing their bunions, and the joint is so distorted there's no reasonable chance of trying to maneuver it back into

its original position. Neither is there any hope at all of applying medicine on the outside and expecting it to do any good.

One wonders why people wear tight shoes long enough to cause such distortion. Why won't they change the type of shoe to one that gives the toes enough room? By the time the bunion has developed, it's too late. The damage has been done.

That leaves two possible courses. One is to change shoes to take the pressure off the painful big toe joint. Some people just cut a piece out of the shoe.

The only thing that approaches a real cure is surgery, to remove some of the distorted bone and rearrange the shape of the joint. But it's not a rapid process, and you have to do some hobbling while the foot heals.

And after that you have to wear shoes that don't crowd your foot or start the same sort of trouble all over again.

Dear Dr. Thosteson: My daughter, 15, started menstruating a while back. How long should she wait before trying tampons? — Mrs. B.B.

Now, or any time. Some girls can't use them because the opening in the hymen is not large enough. This varies a good deal.

Dear Dr. Thosteson: Is emphysema related to tuberculosis? My husband had T.B. and now has emphysema (shortness of breath). — Mrs. B.B.

Tuberculosis, which is an infection, can and does cause some scarring of the lungs. The lungs lose something of their efficiency. This can contribute to emphysema.

It isn't the whole story of emphysema. Emphysema can and often does develop with no prior history of T.B. But damage from T.B. can add to the other causes of emphysema.

Emphysema can be controlled. To learn how to live with this serious lung disease, write to Dr. Thosteson in care of the Big Spring Herald, requesting a copy of the booklet, "How to Control Emphysema," enclosing a long, self-addressed (use zip code), stamped envelope and 20 cents in coin to cover cost of printing and handling.

HODGES AFTER SERIES VICTORY — New York Mets manager Gil Hodges, center, who died Sunday at age 47 of a heart attack in West Palm Beach, Fla., is hugged by daughter, Irene, left, and wife, Joan, after the Mets had won the 1969 World Series. In background is Gil Hodges Jr.

Diamond World Is Hit By Gil Hodges' Death

WEST PALM BEACH, Fla. (AP) — Gil Hodges, a loveable giant who won Dodger fans with his bat and Met hearts with his brain, died on Easter Sunday when he should have been in a baseball uniform.

"Gil was walking," said Ed die Yost, "then tumbled backwards."

Yost and fellow New York Mets' coaches Rube Walker and Joe Pignatano had just finished a fun day on the golf course with their manager.

"Only reason we were playing golf," said Pignatano, "was that the players' strike put us out of business. Otherwise, we'd been over in the West Palm Beach ballpark playing the Atlanta Braves."

Yost still was stunned Sunday night.

"Gil had a beer with us," said the man who played 18 years as a major league infielder. "I think he also ate a piece of cake. Gil, Piggy, Rube and me shot the bull with Jack Sanford for awhile."

SITUATION SAME Efforts Renewed To End Strike

NEW YORK (AP) — Baseball completed its last weekend and the countdown to opening—or non-opening—day reached two with more meetings scheduled today in an attempt to settle the players' strike in a pension dispute with the owners.

"The situation remains the same," John Gaberin, representing the owners, said following Sunday's session with Marvin Miller, executive director of the Major League Baseball Players Association. "There is no progress towards a settlement. We will meet again Monday."

Miller said today's get-together probably would be enlarged from his head-to-head weekend meetings with Gaberin. "He's been talking about a fuller committee and I'll probably have one, too," Miller said.

He added that the weekend meetings were spent "rephrasing and reviewing positions. Really, it's been rather fruitless. Mr. Gaberin has no authority to make any new offer. He is pretending to bargain."

The players went on strike Saturday seeking contributions from the owners above the one-and-only \$400,000 offer for the health care segment of the pension package.

They contend that an \$847,000 surplus in the pension fund—resulting from increased interest rates on loans, overfunding and overestimating payments for permanently disabled players—plus no more than \$11,000 from each of the 24 major league clubs would make up the 17 per cent pension rise they seek.

Baseball's current pension plan, covering any player active from 1959 on, provides a pension after four years service. Players, who don't contribute a dime to the plan, may start drawing a pension at their 45th birthday.

A four-year player, at 45, gets \$174.34 a month. With 10 years service, the pension at 45 is \$436.36 monthly, and \$582.36 after 20 years. The figures, for the same years of service, at age 65 are \$618.04, \$1,545.11 and \$1,945.11.

Most players scattered from their training camps, but 23 members of the Kansas City Royals worked out in civilian clothes at a junior college in Fort Myers, Fla., and all but four of the Padres were to begin unsupervised workouts today in San Diego.

Meanwhile, Dick O'Connell, general manager of the Boston Red Sox, said he was not optimistic over settlement of the walkout.

"I see no indications of a quick settlement," he said. "I don't see any signs of either side budging."

Players Are Taking Bad Rap, Says Astro Star

HOUSTON (AP) — Larry Dierker, star pitcher for the Houston Astros and the team's player representative to the baseball players association, believes players are getting a bad rap during the current strike of major leaguers.

Dierker, squinting into the sun as the Astros held a workout on their own at the University of Houston Sunday, said fans just aren't getting all the facts.

"We're not out to hurt the owners," he said. "If we wanted to hurt them we could strike on TV dates, the Game of the Week during the season, and not do it until opening day. We're not trying to make it hard on them."

The dispute is over funding of the players' pension plan. The public, says Dierker, believes the players are being greedy.

"They don't understand that the normal person's pension program is either geared to the cost of living or his salary. As it increases, and the years go on, it builds up and becomes larger."

"Ours has to continue to be negotiated. Sure, it's a great plan, but we want to keep it, we want to preserve it."

"The way our pension is set up right now," Dierker said, "if I were 50 and started to collect it would be great. But if it stays where it is now, then in 25 years when I'm 50, it won't be worth anything. So we have to have an adjustment in the cost of living. Right now, it takes 17 per cent improvement."

Dierker contends there is a solution which would call for each club to shell out \$11,000 each.

George Archer Unpacks His Car, Wins At Greensboro

GREENSBORO, N.C. (AP) — Arnold Palmer suffered his biggest collapse since the 1966 U.S. Open. Gary Player was disqualified for failing to sign his scorecard. And George Archer had to unpack his car to win the golf tournament.

"I had the car all packed and ready to go," Archer recalled Sunday after Palmer's collapse gave him a second chance in the \$200,000 Greater Greensboro Open Golf Tournament.

"I was watching television and when I saw Arnold make that six I said, 'Oops, let's go get the clubs.'"

Archer beat Tommy Aaron on the second hole of sudden death. Palmer finished third, tied with Dave Stockton, Chi Chi Rodriguez and J.C. Snead.

GREENSBORO, N.C. (AP) — Final scores and money winnings Sunday in the \$200,000 Greater Greensboro Open Golf tournament on the 7,034 yard, par 71 Sedgfield Country Club course. (x denotes amateur. x-won sudden death playoff):

x-George Archer, \$40,000	70-68-66-68-272
Tommy Aaron, \$22,800	71-67-67-67-273
Arnold Palmer, \$9,750	69-66-68-70-273
J.C. Snead, \$9,750	66-67-70-68-273
C. C. Rodriguez, \$9,750	68-69-67-67-273
Dave Stockton, \$9,750	69-68-68-67-273
Julius Boros, \$5,900	66-69-67-75-275
Bruce Crampton, \$5,900	67-65-70-73-275
Tony Jacklin, \$5,900	69-68-69-68-275
Bob Charles, \$4,400	70-68-68-70-276
Hale Irwin, \$4,400	69-68-69-70-276
Low Graham, \$4,400	68-69-70-68-276
Jerry McGee, \$4,400	70-67-69-70-276
Allen Miller, \$3,300	67-71-72-67-277
Labron Harris, \$3,300	69-68-71-69-277
Doug Sanders, \$3,300	68-75-76-67-277
John Lister, \$3,300	69-69-69-70-277
Rod Curl, \$1,993	67-70-72-69-278

Archer and Aaron were in the clubhouse with scores of 12 under par 272s when the dynamic Palmer burst out of a four-way tie for the lead with consecutive birdies on the 14th and 15th holes.

A 15-footer on the 15th gave the 42-year-old Palmer a two-stroke lead with three holes to play in the chase for the \$40,000 first prize.

A broad smile creased his face when he went to the 16th tee on the Sedgfield Country Club course, a tough, 225-yard par three.

His usual massive gallery groaned when his wood shot began hooking far to the left, and came to rest in a shallow creek.

Palmer elected to play it out of the creek, and splashed it up short of a sand trap—but still had the bunker to negotiate to reach the green.

He dumped the little chip square in the trap, blasted out and two-putted for a six that knocked him out of the lead and put him one stroke behind.

Palmer parred in, then shouldered past officials, shrugged off newsmen and didn't even go to the locker room. The pilot of his private plane had to run to keep up as he left immediately without speaking to anyone.

That triple bogey represented his biggest collapse since he blew a seven-stroke lead with nine holes to play in the 1966 U.S. Open, which he lost in a playoff to Billy Casper. He had a final round 70 for 273.

And the big six left it up to the 6-foot-6 Archer and the smooth-swinging Aaron to battle it out in sudden death—the seventh playoff of the season and the second time they'd faced each other.

Both made routine pars on the first extra hole, the 15th.

And then the 16th snapped up Aaron. Archer, who won the Los Angeles Open in a playoff with Aaron and Dave Hill, put his tee shot on the green.

But Aaron found another branch of the creek on the other side of the green, dropped out, chipped short and missed a long putt. He was lying four when Archer two-putted from 25 feet for the par that gave the former ranch hand his 10th tour title.

Big Spring (Texas) Herald, Mon., April 3, 1972 5-B

News Of Death Is Kept From Campy

VALHALLA, N.Y. (AP) — Roy Campanella, baseball Hall of Famer in serious condition at Grasslands Hospital, has not been told of the death of Gil Hodges, manager of the New York Mets and an old teammate of Campanella on the Brooklyn Dodgers.

Dr. W.R. Dalziel said Campanella spent a restful Sunday in the hospital's intensive care unit. "I heard about Hodges' death," Dr. Dalziel said, "but have no intention of telling Campanella."

Campanella, 50, has been in the hospital since last Thursday with an embolism on the lung.

DIVISION WINNERS — Pictured are the five riders who emerged as division winners in the West Texas Championship Motocross races staged here the past weekend. From the left, they are Wyman Priddy, Fort Worth, Danny Weir, Big Spring, Craig Hodnett, Big Spring, Greg Schoenherr, Carlsbad, N.M.; and Jim Tyler, Abilene.

Wyman Priddy Is Big Winner In Motocross

Fort Worth's Wyman Priddy emerged as the big winner in the two-day West Texas Championship Motocross races, which ended here Sunday.

Upwards to 2,000 persons watched the action on the final day and both the contestants and the sponsoring organization, the Hi-noon Optimist Club, began clamoring for an event like it in 1973.

No serious injuries resulted, although there were lots of spills. A total of 105 riders took part in Sunday's races while 55 were busy Saturday.

Priddy, rated one of the top riders in the Southwest, rode in six heats and emerged with five victories and placed second in another.

With so impressive an array of firsts, Priddy easily topped the 250 cc. and 500 cc. classes of competition.

Danny Weir, Big Spring, didn't win a heat all day but emerged with enough points to capture the 125 cc. Senior class. He placed no better than second in three heats but was a different rider. None accumulated enough points to beat out Weir.

Greg Schoenherr, Carlsbad, N.M., accumulated 1,000 points to be declared the 250 cc. junior winner.

The crowd was so big that pit racing had to be eliminated from the program.

Ray Weir, speaking for the Hi Noon Optimists, said the show likely would become an annual event.

IN WACO Cage Clinic Set For April 28-29

WACO — Stan Williams, chairman of the Waco Chamber of Commerce Athletics Committee, has announced that invitations have been mailed to approximately 1,500 college, junior college, high school and junior high basketball coaches throughout the State of Texas. The invitations are to the seventh annual Texas Basketball Coaches Clinic, which will be held in Waco, April 28-29, at the Hilton Inn.

Williams has appointed James Burroughs, basketball coach at McLennan Community College, as the basketball clinic chairman.

The annual clinics are jointly sponsored by the Waco area basketball coaches and the Waco Chamber of Commerce. The American-Amicable Life Insurance Co. of Waco is also providing support to this year's clinic.

Top sporting goods manufacturers will have representatives present at the clinic to display equipment during the two-day session.

The 1972 clinic will begin with registration at 9 a.m., April 28. Registration will continue till noon.

As in past years, the clinic presentations will be made by leading basketball mentors in the state. Following registration and lunch at 1:40 p.m. on the first afternoon, Carter Williams of Hill Junior College will instruct on the "Rebel Press."

Bob Brewitt, Southern Methodist University, will follow at 2:45 p.m. with instructions on the "Three Guard Offense."

At 3:45 p.m. Ray Landers, Deer Park High School, will give presentation on "Off-season Physical Development Program for Basketball Players."

A special sporting goods manufacturers' exhibit from 4:45 to 6 p.m. will complete the first day of the clinic.

The banquet will be held beginning at 7 p.m. Recognition of the state champion basketball coaches will follow immediately after the meal. Bob Wright, former coach and well-known Texas sportsman from Belton, Tex., will be the featured speaker.

Steers, Cooper To Vie Tuesday

The Big Spring Steers, 1-2 in the District 5-AAAA baseball race, return to play here at 7 p.m. Tuesday against Abilene Cooper.

The Longhorns were deprived of the chance of playing last Thursday by the weather, at which time they were to have tangled with Lee High School in Midland.

The Steers are booked for three games this week. They go to Midland for a makeup game with Lee, then challenge powerful Odessa High here at 2 p.m. Saturday.

Coach Oakley Hagood has not indicated who he will pitch tomorrow but it could be David Carter.

Lakers, Celts Lead In NBA

By The Associated Press

The Los Angeles Lakers are sitting pretty, the Boston Celtics are in a comfortable position and the New York Knicks and Baltimore Bullets are up to their old painful posture—too close for comfort.

That's the National Basketball Association playoff picture today.

Los Angeles defeated the Chicago Bulls 108-101 Sunday to take a commanding 3-0 lead in their best-of-seven Western Conference semifinals.

The Boston Celtics took a 2-1 lead in their Eastern semifinals by beating the Atlanta Hawks 136-113.

And New York trimmed Baltimore 110-88 to even their Eastern series at 1-1, a typical Knicks-Bullets playoff set.

The NBA playoffs continue Tuesday with Boston visiting Atlanta and New York at Baltimore. Los Angeles can wrap up its series at Chicago Tuesday and Milwaukee, holding a 2-1 edge, plays at Golden State.

There were no playoffs in the American Basketball Association Sunday, but four games were played Saturday. In the East, Virginia beat the Florida 125-100 to take a 2-0 lead in that series and New York topped Kentucky 122-108 in their opener. In West Division semifinals, Denver beat Indiana 106-105 to tie the set at 1-1 and Utah tripped Dallas 106-96 to make it 1-0.

The Bulls playoffs continue tonight with Dallas playing at Utah.

WHITE HOT

The Celtics rode the shooting of John Havlicek, Jo Jo White and Art Williams to victory over Atlanta. White got 15 of his 29 points in the first quarter and Havlicek fired in 15 of his 31 in the second.

Boston had a 48-33 lead at the half and moved it to 95-78 deep in the game as Williams came off the bench to ignite the fast break.

"When Artie gets into the game the team has to move to keep up with him," said Havlicek.

Williams scored 15 of his 19 points in the last stanza to help the Celtics pull away.

"Atlanta forgot that he's a shooter, too," said Boston Coach Tom Heinsohn. "They gambled on his passing the ball several times, but he shot and scored."

Pete Maravich led Atlanta with 37 points while Walt Bellamy had 21.

New York overwhelmed Baltimore behind Walt Frazier's torrid first-half shooting. Frazier, who finished with a game-high 30 points, scored 19 of them in the first half as the Knicks opened a commanding 66-38 lead at intermission.

Dave DeBussche finished with 29 and Jerry Lucas added 20 for the Knicks. Archie Clark, who had led Baltimore with 38 points to pace Friday night's victory over the Knicks, wound up with only 18 points to lead the Bullets' scorers Sunday.

"It would have been nice to save some of the points for the next few games," said New York Knicks Coach Red Holzman.

In an off-the-field development, player-coach Lenny Wilkens of the Seattle SuperSonics announced that he was through as a coach. "I've decided to give up the job and continue as a player," Wilkens said.

NEAR SWEEP

The Lakers, led by their brilliant backcourt of Jerry West and Gail Goodrich, moved closer to a four-game sweep. But it wasn't an easy victory.

"It was a tremendous effort by the Bulls," said Los Angeles Coach Bill Sharman. "They gave 110 per cent. We had to shoot well to win and we did."

Chicago was at a disadvantage because center Tom Boerwinkle was out with injuries and forwards Chet Walker and Bob Love played only part-time due to injury.

The Bulls fought back from large deficits to close within two points late in the third quarter and again in the fourth. But each time the Bulls threatened, there was West or Goodrich to throw in killing points.

West wound up with 31 points and Goodrich had 23. Wilkins Chamberlain wound up with 16 points for the winners and knocked back several Chicago shots. Norm Van Lier paced the losers with 21 points.

"I told my players after the game they gave me more than deserved," said Dick Motta, the Chicago coach. "They gave all they had—and more."

**Little Man's Play Has
Coach Hank Iba Agog**

DAYTON, Ohio (AP) — Hank Iba searches for the big men for his U.S. Olympic squad. However, it was a little fellow's play that caught his eye in the College All-Star basketball game.

"He's a hustler, he keeps moving. He may dribble a little bit, but he releases the ball," Iba said of Star of Stars Bill Shepherd after the East triumphed the West for the fourth straight time Saturday 96-91 in overtime.

Shepherd, a 5-foot-10 Butler guard, teamed with Travis Grant, Kentucky State's 6-9 all-time college scorer, to lead the East to an 8-3 edge in the series involving the nation's top seniors.

Shepherd, who was voted the outstanding player in the game after scoring 12 points and playing a brilliant floor game, prefers an Olympic shot to a pro contract right now.

"I'd love to represent my country in the Olympics," Shepherd said. "After all, when you're 5-10 you don't expect much money from the pros."

Iba, who coached the West squad, likes the idea. "I want to look at him more. I'd sure like to have him at the trials," said the three-time Olympic mentor.

Grant, who scored a team-leading 19 points and four in overtime, would not say he would turn pro and bypass the Olympics.

"I don't even have an agent yet," said Grant, who scored 4,045 career points. "I just want to go home and rest up."

Little Man's Play Has Coach Hank Iba Agog

**8-YEAR-OLDS
ARE SOUGHT**

Van Brown, American Little League vice-president in charge of minor leagues, said this morning more eight-year olds are needed to fill out rosters for the 1972 season.

Those in that age group desiring to play can contact Brown by dialing 3-6517. He will supply them player forms.

The league formally begins play April 29, Brown stated.

Still Time To Set Out New Trees

COLLEGE STATION — There's still time to set out new trees in your home or community landscape.

Dr. Bill Welch, Extension landscape horticulturist, points out that planting trees demonstrates a feeling of continuity with the past and anticipation for the future.

"Trees are probably one of the biggest bargains in our environment," says Welch. "Varieties should be planted that are adapted to the area and that will meet specific needs. Trees can provide lasting beauty if cared for properly."

In addition to aesthetic reasons for planting trees, there are many other bonuses, notes the horticulturist.

1. Trees reduce smog and purify the air by acting as dust and pollution filters and by releasing life-giving oxygen into the air.

2. Trees moderate the climate by protecting from extremes in wind, heat, cold and drought.

3. Trees provide food and shelter for many bird and animal species.

4. Planting good trees increases the value and sales appeal of homes. Beautiful, well-placed trees are a prime selling factor, especially in older homes.

WILL COMPETE SATURDAY — Pictured are seven of the eight Howard County 4-H food show winners who will enter district competition Saturday at Texas Tech University. They are (above) seniors, Joan Crawford, Kayla Gaskins and Annette Couch, and (below) juniors, Suzanne Brasher, Toni Mundell, Dee Dee Adkins and Van Gaskins. The seniors will compete at district for the opportunity to attend the 4-H Roundup at Texas A&M University in June. Junior competition stops at district level.

Family Reunions Held By Forsan Residents

FORSAN (SC) — Recent guests of the J. H. Cardwells for a family reunion were the Travis Brethupps and daughter and the R. A. Edens, all of Odessa; the Paul Garones, San Antonio; the H. M. Cardwells, Mrs. J. W. Cardwell and Mrs. Ray Hewitt, all of Fort Worth; Mrs. W. A. Cardwell and Mrs. Ray Wood, both of Dallas; Mrs. J. W. Heilhecker, Abilene; Mrs. W. S. Cannon, Nacogdoches; C. C. Cardwell, Duncan, Okla.; the J. N. Edens, Breckenridge; and the Gay Millers, Crane.

The G. L. Monroynes have returned from a camping trip to Lake Falcon.

The Danny Henrys were weekend guests of his parents, the T. T. Henrys.

The Herbert Drakes of Lake J. B. Thomas were guests of the S. C. Cowleys.

The Bob Rectors of Whiteface were guests of Mrs. P. F. Davidson.

Bobby Dean Shelton of Monahan recently visited friends here.

The David Redwines are visiting their parents, the W. H. Redwines and the Arthur Carters, all of Colorado City.

Guests of the D. L. Griffiths have been their granddaughter, Mrs. Bill Jones of Arlington, and Miss Nell Foster and Miss Mona Tinsley, both of Andrews.

The Bob Washes are in Bayfield, Colo.

Mrs. Wally Hiedeman is a patient at Medical Arts Clinic-Hospital.

The A. L. Hawkines of Graham were Wednesday guests of the T. R. Camps.

The Dub Days spent Easter with her sister and family, the Pat Bruntons of Skitook, Okla.

The Earl Beesons recently took their son-in-law and daughter, the Bill Willis, to Lubbock where the Willis will make their home.

Guests of the A. J. McCall Wednesday were Mrs. Maggie Hunt, Lamesa; Mrs. J. W. Archer, Seminole; and Miss Mary Beth Archer, Canyon.

Mrs. Shirley Steinberg is spending Easter vacation with her parents, the Paul Kennedys, and her sister, Mrs. Don Murphy. The Kennedys and Murphys spent Easter Sunday with their children, the M. E. Petrees and the James Kennedys, all of Kermit.

'FRIGHTENED' OF MODERN WORLD Nun Leaves Convent Without Taking Vows

By PEACE MOFFAT
AP Newsfeatures Writer

NEW YORK (AP) — Nancy Henderson is a poised, well-dressed 28-year-old woman who fits with ease now into a world from which she was cut off during five years in a convent.

But when she left the Missionary Sisters of Our Lady of the Holy Rosary at age 23 without taking her final vows she was frightened of getting on a train, didn't know how to shop or handle money, was unable to make small talk and unaware of news events.

She had, however, attended Rosemont College for one year while in the convent, and was able to get a scholarship to Bryn Mawr after she left. She graduated summa cum laude with honors in philosophy.

"You don't make a transition immediately of finding out what the world is like," she said on a visit to New York for the publication of the book she wrote about her life as a nun, "Out of the Curtailed World."

"When I first left, I stayed with a family that had five children and I was supposed to take care of them for room and board," she relates. "That was demanding enough, but coming out of the convent I was so accustomed to quiet and routine I couldn't handle it. So I went to live with a different family and got room and board for doing housework."

"I had no idea at all of the value of money," she goes on. "I had to borrow \$500 and it was really frightening. And I had forgotten how to make light conversation. At the convent we had silence during meals, and on the occasions when permission was given to speak it just seemed impossible to talk and eat at the same time."

Married four years now, Mrs. Henderson met her husband Bill soon after she left the convent. It was he who suggested she write a book about her experiences, but when she first began she had not been out of that "curtailed world" long enough to have any perspective on it.

"I was still plagued by nightmares," she recalls. A few years later however, she and her husband rented a house in Normandy, France, and she finished the book in 11 months.

Mrs. Henderson explains that she had wanted to be a nun from the time she was in the fourth grade. "I was raised a Roman Catholic and I went to a Catholic school and the nuns were always encouraging me to think I had a vocation," she elaborates. "The doctrine of vocations says that God calls people to certain careers and it was pretty bad for you if you didn't get the right one. I entered the convent right out of high school."

Mrs. Henderson says her reasons for leaving the convent are complicated, but central in her decision was the theory of obedience, by which a nun does whatever she is directed to do by her superior in the order.

"I don't want a person giving me a set of rules to live by, so then I can feel good about following them. I want to assume responsibility for my own judgment and for the moral choices I make based on that judgment," she says.

"I rejected the Catholic Church almost immediately after I left, and contrary to my first expectations I wasn't immediately struck down by lightning."

She and her husband are not practicing any organized religion now, she says, but Mrs. Henderson says she has no regrets about her five convent years. "Had I not gone into the convent," she points out, "I could always have lived with a burden of guilt that I didn't do what God wanted me to do. Also I learned how to think and concentrate, and some good points of the convent stayed with me, like having a portion of time to meditate, and a general atmosphere of quietness. And the stress on poverty."

was good — in the sense of not encumbering yourself with a lot of objects.

"Finally, I challenged what I grew up with — and learned that just because things had always been one way, that didn't mean they always had to be."

Mrs. Henderson says her reasons for leaving the convent are complicated, but central in her decision was the theory of obedience, by which a nun does whatever she is directed to do by her superior in the order.

"I don't want a person giving me a set of rules to live by, so then I can feel good about following them. I want to assume responsibility for my own judgment and for the moral choices I make based on that judgment," she says.

"I rejected the Catholic Church almost immediately after I left, and contrary to my first expectations I wasn't immediately struck down by lightning."

She and her husband are not practicing any organized religion now, she says, but Mrs. Henderson says she has no regrets about her five convent years. "Had I not gone into the convent," she points out, "I could always have lived with a burden of guilt that I didn't do what God wanted me to do. Also I learned how to think and concentrate, and some good points of the convent stayed with me, like having a portion of time to meditate, and a general atmosphere of quietness. And the stress on poverty."
