

Ten Control Measures Are Outlined At Dexter Meet

Turkey day is just a week away, but so far the Thanksgiving birds have not been numerous here. Few have been offered on the local market, probably because of the low market. The crop this year will be about normal or approximately 2,000 birds for this trade area. Several farmers in the Hope community have fairly large flocks, but so far have not sold in large numbers. Turkeys usually move to market during the Thanksgiving and Christmas season, with the bulk of the shipments going out just before Thanksgiving.

Executive Committee Makes Definite Plans For The Enactment Of Laws To Protect Water Supply Of Artesian Basin.

Eddy county will reach the 30,000 bale mark or near that figure in gathering the 1930 cotton crop, according to the latest tabulations. North Eddy county is expected to report near a total of 10,000 bales, while the south part of the county will gather near 21,000 bales before the close of the season, reports on the yield in that section state. The south end of the county has ginned more than 16,000 bales to date with approximately 14,000 bales for the Carlsbad project. North Eddy county reported a total of 8,184 bales up to yesterday afternoon, a gain of 754 bales over the corresponding period of last week. The ginning report of this district is divided as follows:

Cottonwood gin	1,761
Association gin, Espula	1,544
Association gin, Artesia	2,108
Farmers gin, Artesia	1,344
Association gin, Atoka	1,427
Total	8,184

Rains came too late to benefit some of the range sections in the hills but will save many stockmen in the valley a heavy feed bill. Calves and lambs have moved in fair numbers during the past ten days and the movement, while not as heavy as former years, has helped to increase the local bank deposits. Building and improvement in both the residential and business section of Artesia has been more than normal at this particular time, and quite a bit of improvement has been planned for later months.

Merchants have planned a nice display of holiday goods and will increase the holiday display as the season of Christmas draws near. New goods have been bought at new low prices and merchants will offer both the regular and holiday lines at a substantial saving over former prices prevailing in this section. The savings thus effected will aid in maintaining a normal business pace here, even after the holidays. Lower prices, which are now prevailing in most every line should have a wholesome effect in further stabilizing conditions in the trade area, served by Artesia.

**HOBBS OIL POTENTIAL
GAINS 71,933 BBLs.
PERIOD ENDING NOV. 15**

Potential production of the Hobbs field gained 71,933 barrels during the first period of November. The possible output of the field was placed at 973,188 barrels from 122 wells and 109 units on this date, representing the addition of eight new producers and eight new units. The Shell Petroleum Corp. led all other producing companies in this area with a potential production of 146,415 barrels, coming from nineteen wells and seventeen units, with an allowable production of 4,454 barrels. The Amerada Petroleum Corp., was second high producing company in the field with 127,526 barrels from ten wells and ten units.

The daily pipe line outlet during the period was reduced from 31,300 barrels to 29,867 barrels, a reduction of 1,433 barrels. According to the original proration agreement operators were allowed a daily market outlet of 35,000 barrels.

Among the more recent completions made just previous to November 15th, include the Empire Gas and Fuel Co., Fowler No. 3, 440 feet from the south line and 330 feet from the east line sec. 31-18-38, for a proration rating of 5,994 barrels; Shell Petroleum Corp., Berry No. 2, 440 feet from the north line and 330 feet from the west line sec. 31-18-38; Skelly Oil Co., Fowler No. 2, 440 feet from the south line and 330 feet from the east line sec. 31-18-38, was given a rating of 3,740 barrels; Shell Petroleum Corp., McKinley State 8-A, 330 feet from the north line and 330 feet from the west line sec. 19-18-31, rated at 12,960 barrels daily.

GOOD FOR NOTHING

A little girls told her mamma that some day she was going to marry a minister or a doctor. "Because," she said, "the doctor will get me well for nothing, or the minister get me good for nothing."

**SACRED MUSIC PROGRAM
TO BE RENDERED AT THE
M. E. CHURCH SUNDAY**

The following sacred program will be rendered at the Methodist church next Sunday evening, beginning at 7:00 p. m., under the supervision of Miss Katherine Ragsdale, choir director and Miss Virginia Egbert, orchestra director:

**NEW MODEL CHEVROLET
IS REDUCED IN PRICE
FROM \$20.00 TO \$40.00**

DETROIT, Michigan — Prices on the new Chevrolet line for 1931, as announced here recently by President W. S. Knudsen, range from \$475 to \$650 as against \$495 to 685 for the

Model	O. P.	N. P.
Roadster	\$495	\$475
Spt. Roadster	515	495
Std. Coupe	565	535
5-Window Coupe	New Model	545
Spt. Coupe	615	575
Coach	565	545
Std. Sedan	675	635
Special Sedan	685	650

In addition to the price changes in the passenger car line, Mr. Knudsen also announced reductions in the Chevrolet commercial car line. The commercial chassis has been reduced \$10 to a new price of \$335, and the Sedan Delivery \$20 to a new price of \$575.

HOWDEN SPEAKER AT THE ROTARY CLUB

The Rev. B. Howden, Jr., rector of the Artesia Episcopal church was the principal speaker at the Artesia Rotary club luncheon, Tuesday noon. Addressing the members and visitors on the subject of "World Fellowship." The Rev. Howden, who attended the Lambeth Conference in London, England several months ago, as secretary to his father the Right Reverend Fredrick B. Howden, Sr., gave some of his impressions of the conference.

Artesia, New Mexico

Dear Sirs:

Inclosed find check for which please put my name on your subscription list and see how your paper will stand the climate north of the 55th.

Yours truly,
BERT MACKEY.

TO LET BIDS FOR OILING SOUTH ROAD

The New Mexico Highway Department, will let bids on November 24th, for placing a top course on the south highway from Lakewood south a distance of fourteen miles. The top course will be placed on the fourteen mile stretch preparatory to milling the road, which will give the Pecos valley an improved road from Carlsbad to Roswell. Stephen Manning, proprietor of the State Oil and Refining Co., at Dayton, estimates that it will take 9,000 to 10,000 barrels of oil to complete the project.

PHONE BOXES CHANGED IN BUSINESS DISTRICT

Workmen are now busy installing the new type of telephone boxes in the business district of Artesia. About 100 telephones had been installed up to yesterday and approximately 350 additional boxes over town remain to be changed, according to Gail Hamilton, local manager, who says that it will take longer to make the change than was first anticipated. New boxes in the residential district will be installed as soon as the business district has been changed. Two men are doing the installation work.

Wedding Announcements and Invitations, Engraved or Printed—Advocate

The committee appointed sometime ago at Roswell to formulate plans for a water control district in the artesian basin of the Pecos valley outlined ten definite measures at a meeting at Dexter yesterday afternoon, which will be the basis of the proposed legislation requested from the state legislature. T. F. Wilson and I. S. Reser of the Cottonwood Community attended the meeting at Dexter.

Needs of the water users of the Pecos valley as outlined in the ten recommendations are as follows:

1. Establishment of water control district for purpose of conserving the underground water supply of the area in question.
2. Financing of the plan by a levy upon all the taxable property within the district.
3. Appointing a board of seven directors to govern the district in conjunction with the district court.
4. Separation of the district from the application of the artesian well law except to comply with the requirements pertaining to cooperation with state engineer.
5. Completion of organization by petition in same manner as prescribed by conservatory act.
6. Place following powers in the hands of board of directors: to enter premises for purpose of investigating the condition of any well; to require the owner to make the necessary repairs; to plug such well if the owner refuses to make required repairs; to place power in board to purchase such equipment and to employ such assistance as may be deemed necessary in effecting the purpose of this act; to place authority in board to borrow money, not to exceed one half of the previous year's levy, for emergency use.
7. Collection of all funds by the county treasurer or treasurers, which funds shall be disbursed by them upon vouchers drawn by the board.
8. Expense of plugging any well to constitute a lien upon the land.
9. Whenever such petition is filed with the district court the court shall fix a place and time, not less than thirty days from the time of filing, for a hearing on such petition. Notice of hearing to be given by publication.

Caller—"I want to see the boss."
Office girl—"Sorry, but he's in conference with the vice-president and general manager."
Caller—"Let me in, I know a funny story, too.—Selected.

**MRS. GRANDALL DIES
MONDAY BODY SHIPPED
TO ENID OKLAHOMA**

Mrs. A. H. Crandall, age 63, resident of Maljamar, died Monday morning near 9:30 a. m., just as she reached the St. Mary's hospital at Roswell. While Mrs. Crandall had been in ill health for several months, her death came as a distinct shock to friends over this section. A complication of kidney and heart trouble is said to have caused her death, although her condition was not regarded as grave until a few hours before she died. Mrs. Crandall was rushed to St. Mary's hospital in an ambulance from her home in Maljamar, where it was hoped that an operation would save her life.

Mr. and Mrs. Crandall have resided in this section since the beginning of the Artesia oil field in 1925. For the past two or three years they have lived at Maljamar in western Lea county, where Mr. Crandall was employed by the Maljamar Oil and Gas Corp. The deceased is survived by a husband, a son, Burris Crandall of Enid, Oklahoma and a father living in Indiana. The body was shipped to Enid, Tuesday afternoon, where burial will be made.

COLD BLOODED

Social customs of man have changed in the past
quarter century. Families do not visit as much as
formerly; neither do we take the time to greet our
acquaintances as we once did. Modern ways, which
have changed because of improved conditions, both in
our mental and physical realm, have their good and
bad points. Because man does not intermingle with
his fellow man as much as in former days, does not
signify that his blood courses through iced veins and
that he has become so cold blooded that the welfare
of his fellow man no longer concerns him. He still
possesses some of the milk of human kindness.

This point is just as true in his business life as
in his social life, all opinions to the contrary notwith-
standing. Our business transactions should not be
governed from a dollar and cent standpoint alone;
if they were, some of the more unfortunate would
soon be in dire distress. Neither is it true that the day
of individual initiative has passed. Initiative, social
bearing and an interest in our fellow man all go to
make our business transactions more agreeable.

We have heard the theory advanced that the
little man, be he a farmer, or a business man was
doomed to extinction, because of the modern business
methods, which demands mass production plus the
obligation to buy where the price is cheapest. The
matter of congenial relationship, past favors or an
obligation to help support the home community in-
stitutions would be cast aside along with the initiative
which springs from responsibility of owning your own
business. The best that the young man could hope
for under such system would be merely a cog in the
giant wheel of machinery.

Advocate of the new system should try living
in Russia, where business undertaking is on a large
scale under the supervision of the government.

"Do Your Christmas Shopping Now, Trade at Home,
Make Artesia Grow, a slogan adopted by the Lion's
club, is a mighty good slogan to be put in practice
by shoppers of this trade territory. Every dollar
left in the community may be the means of providing
some employment to the needy during the winter
months.

The fellow who borrows his neighbor's paper,
usually tells the publisher that he knows practically
everything in the paper is the reason he does not
subscribe for it.

HOOKED

The Lone Star Matrimonial Association has ceased
to function, just as a good many other frauds have
ceased to function after reaching the end of the rope.
Texas citizens and a good many New Mexico citizens
have lost more than \$10,000, an excellent experience
for some, while others refuse to learn.

A good many older people learned several years
ago that one need not expect something for nothing.
This was the principle on which the Lone Star Associa-
tion operated.

The lop hole was found in a clause of small type,
which the average applicant failed to read. A man,
who expected to marry within six months could take
out a \$1,000 policy, based on the assessment plan, pro-
vided of course there were 1,000 policy holders or
enough policy holders to pay the \$1,000 due on the
policy. By paying a dollar each time a policy holder
was married, the applicant might hope to collect at
the end of six months provided every other policy
holder continued to pay his or her assessment, which
they did not, but even so the applicant would have
paid out the worth of his policy in many cases, before
collecting his own.

Protection afforded by the old line life insurance
companies is a fine thing for every individual and
something every person should have. Old line insur-
ance offers you a dollar's value for every dollar spent,
but no more.

A THREE BILLION DOLLAR INDUSTRY

When a farmer takes his pail and goes out to milk
his cows, he probably gives some thought to the local
price of butter fat or the cost of feed, and gives little
thought to the magnitude of the industry to which he
is contributing. He may think that his cotton crop is
more important, but taking the industries as a whole,
the dairy industry of the United States is just two and
a half times more valuable than all the cotton produced
in America, and ranks ahead of the beef cattle indus-
try in the same ratio.

The demands for dairy products increases from year
to year. Increase in population has something to do
with this, but there is also a healthy increase in per
capita consumption as the quality of products im-
proves. We do not have the figures for the 1930
per capita consumption of dairy products in terms of
milk and cream, but back in 1917 it was only 42.4
gallons, while six years later it was 55.3 gallons. It
has made some increase since that time.

The advantage of dairy cows on the farm is not
all found in the measure of value received for the
milk and cream. The dairy cow is sold the feedstuffs
produced on the farm and after using them, returns
to the farm 73 per cent of the nitrogen and 90 per cent
of the mineral matter contained in the feed. This is
a factor worth considering in estimating the value of
dairy cows, especially if the farmer conserves and
uses the manure properly.

Dairying in the Southwest has suffered along with
the rest of the country in the past year, but the cur-
pus has been consumed, and those who kept their
cows will find increasing profit in them.—Farm and
Ranch.

FRIENDSHIP'S MESSENGER

Friendship is one of the most cherished things
in our life. Yet how easy we find it to neglect the
friendships that time and distance have widened. So
many of us do nothing about it and an old friend-
ship withers and dies. Have you ever thought how
much a greeting card at Christmas time helps to hold
together the friendship that has widened with the
years.

Modern life has given us a widened circle of friends.
Every time we travel we leave behind along the route
a number of people who we wish we had opportunity
to see more often. Some day that opportunity may
come. In the meanwhile let these people know that
you are thinking about them. Send them, each and
every one, a greeting at Christmas. They will ap-
preciate it. You know how much you appreciate a
greeting from someone far away or from someone whom
you have not seen for a long time. It will make
life seem so much more worth while.—Lovington
Tribune.

The lord chief justice of the police court in Mus-
kogee, Oklahoma has ruled that \$2.50 per shot is a
fair price for a woman to pay for shots fired at an
ex-husband. The sharp-shooting ex-wife was fined
\$5.00 for the two shots fired. The judgment seems
fair; we enter no exception, and will file no appeal—
State Record.

INSIDE INFORMATION

Waxing inlaid linoleum at regular
intervals makes it last longer.

Soaking a slice of very salty ham
in buttermilk or sour milk seems
to make it more tender when cooked
as well as to take out some of the
salt.

Whipped cream dressings is es-
pecially good with cabbage, but it
may be used for any salad you like.
To make it, beat half a pint of
heavy whipping cream until stiff.
Add 4½ tablespoons lemon juice,
2 tablespoons fresh grated horse-
radish, a grating of onion, a few
drops of tabasco, and salt to taste.
A dash of cayenne pepper may be
used instead of tabasco. If the
horseradish is in vinegar use only
2 tablespoons of lemon.

Roast a young turkey on a rack
in an open pan without water. When
the outside has been lightly brown-
ed in a hot oven reduce the temper-
ature to moderate and continue to
cook a 10 pound to 12 pound turkey
for about two and a half hours long-
er. A mature bird requires an hour
or more longer than a young one and
it needs to be covered part of the
time.

In treating grease spots with
cleaning fluids, place a clean pad
under the material to be cleaned,
a white blotter on top of that, and
the garment with the right side next
to the blotter. Work lightly from
the outside of the spot toward the
center, and spread the moisture un-
evenly into the surrounding goods.
"Feathering" out the liquid into the
fabric helps to prevent a ring from
forming.

NEW MEXICO LEADS MANY WESTERN STATES

SANTA FE — New Mexico is
in ahead of many other western
states in work relating to agricul-
tural economics, including farm and
ranch management, agricultural
methods and marketing of farm
products, according to a report to
Governor R. C. Dillon by E. C.
Hollenger, assistant director of ex-
tension work.

Mr. Hollenger's report included a
summary of New Mexico's repre-
sentation at the western states re-
gional conference held at Bozeman,
Montana.

aid to him when he
may be either single
may be taking out
single man or wo-
face of the policy
when the insured
agrees to pay an
\$1.25 whenever any

member of the group is married. Of
this amount 25 cents goes to the
company for expenses and the dol-
lar goes to the beneficiary fund.
A member cannot cash in his policy
until he has been a member three
months and has paid all dues and
assessments. Then, if he or she
marries (note this carefully, for it
is one of the bugs under the chip
of this cunning fraud), "He may re-
ceive a maximum of \$250, but in
no event more than one-fourth the
amount received from a full assess-
ment of the members of this group,
after deducting 25 cents from each
\$1.25 paid in."

Anyone may see, from the clever
wording of this clause of the policy
that the company does not pay the
insured \$250, and not even one-
fourth of \$250, but only one-fourth
of the amount received from a
full assessment of the members of
the group.

Reserve Funds Don't Exist

Suppose that only 200 of those as-
sessed paid their assessments, the
total amount would be \$200. The
company would pay the insured only
one-fourth of this or \$50 and would
keep the balance of \$150, pretending
to put it into a "reserve fund." But
the authorities of both Texas and
Oklahoma, who have investigated
hundreds of these companies, have
never found one of them that had
any reserve fund at all. Many of
them had large bank accounts, some
as much as \$50,000 and even \$100,-
000, but they were not reserve funds;
they were in every case simple
checking accounts, and the heads of
the company might draw out the
whole amount at any time and quit.
In fact that is what nearly all of
them did do when they had worked
a town to the fullest extent.

This deceptive clause always ap-
pears in the policies in small type
so it will be unobserved by the in-
sured. In the investigation it was
developed that in nearly every case
the insured thought that if he
married in three months he would
get the full \$250. It appeared so to
him on reading his policy. And the
agent generally told him that was
the way of it. If the member pays
all assessments and marries at the
end of six months he may receive
"a maximum sum of \$500" but in
no event more than one-half the
amount received by the company
from a full assessment of all mem-
bers.

If he marries at the end of nine
months the maximum sum he may
receive is \$750, "but in no event
shall he receive more than three-
fourths of the total full assessment."
If he keeps up the assessments and
marries at the end of a year the
maximum sum he may receive is
\$1,000, but in no event more than
\$1 for each member of that group
who has paid the assessment.

If a member stays in for one year
and has not married, he goes into
a "reserve group" and thereafter he
pays no assessments, but pays dues
of \$2 a month and whenever he
marries he may draw the full amount
he was entitled to at the end of his
first year in the company.

If a member fails to pay any as-
sessment within fifteen days after
it is levied, his policy lapses auto-
matically and he loses all he paid in.
The open door for fraud in this
lies in the fact that none of those
companies is incorporated; they are
simply associations or partnerships,
generally under the old common law
forms of Deleware. None of the
companies is classed as an insurance
company in any state, none comes
under the insurance laws by which
insurance companies are regulated,
none comes within the regulatory
rules of the blue sky law. Indeed,
none is supervised in any way. They
are not required to make financial
statements or reports. The majority
of them do not even keep books.
But they have been classified by the
supreme courts of several states and
by the postal authorities as lotteries
pure and simple.

Cashing In On A Secret

A clause in the policies issued
by these companies provides that the
company shall not be bound by any
statement or promise made by any
salesman or agent that is not in the
printed policy. So here is the way
it generally works out.

A company opens an office, has
all of its printing done in elaborate
style and sends out a bunch of
agents to get members. Many of
these agents are former college
students, others are old, experienced
salesmen of fake stocks. An agent
gets \$10 as his part of the \$15
initiation fee, and beyond that he
has no interest. A good agent
brings in from three to five members
a day, making for himself from \$20
to \$50. Many women agents have
been most successful.

In Amarillo, Texas, was a woman
agent, young and pretty, who formed
a group of 250 members in this
way.

She would present the plan of in-
surance and then say to the victim:
"Now I am going to do you a special
favor. I am going to let you in
on the inside of a secret by which
you can make \$250 in three months.
I am engaged myself,"—and here
she would put a finger on her lips
and look around to see if anyone
were looking or listening—"you take
out a policy on me, see? You pay
\$15 down and \$5 a month for three
months. \$30 in all. I am going to
be married in three months. The wed-
ding day is set. So, if you take out
a policy on me, you will cash in on
it when I marry and it will cost
you only \$30. You will get \$250,

a clear profit of \$220. But, don't
breathe it to a soul. If the com-
pany knew that I was doing this
they would fire me. So, keep it under
your hat."

After collecting the \$15 initiation
fee on this promise she would call
upon the victim the next day and
say: "Look here, I didn't think of it
till I left you. Why don't you take
out another policy on the man I am
going to marry and so cash in \$440
clear profit at the end of three
months? He is a member of this
group, too."

If the victim hesitated she would
often bring a man around with her
and introduce him as "John," the
man she was going to marry.

She went through a whole office
building with this confidence game
and sold policies to nearly every
girl stenographer in it. She sold
to men too. She even sold to the
janitors and elevator men and to the
scrub women. To each of the group
she delivered a policy, on stiff par-
chment that rattled like real money
when unfolded, and there was that
"ONE THOUSAND DOLLARS" in
big black type across the face of
each, and a strip of scroll work in
green around the edge.

"It looked mighty fine," said one
of those girl stenographers as she
showed me her policy.

Then She Sold Birth Insurance

After this woman agent sold pol-
icies on her own marriage to all
she could (it is figured she sold
200 in all) she went over the same
ground again with a "birth insur-
ance" policy and into the ear of
each victim she whispered:

"Why not make another \$220
clear profit out of this? John and
I are going to be married. I will
sell you a birth insurance policy on
the same term as the marriage pol-
icy, and as soon as we have a baby,
you will cash your policy for \$250,
making another \$220, and" she would
whisper naively, "you are betting
on a sure thing. You won't have
to wait more than a year to cash
in."

I saw a dozen of both the "mar-
riage insurance" and the "birth in-
surance" policies this young woman
sold. All were issued by a company
in San Antonio.

This woman "slicker" worked hard
and long for three months and then
disappeared. He victims then began
receiving notices of assessments from
the company. The first assessment
was for \$7.50. The assessment
notice stated that in this particular
group were 1,000 members scattered
in various places in Texas. Six of
those just had been married, so,
each member in the group must pay
an assessment of \$1.25 for each of
the six that had married, a total
of \$7.50. At the top of the assess-
ment notice was this:

Warn-O-Gram

According to your contract if this
assessment is not paid within 15 days
from date your policy automatically
lapses. Your check is your re-
ceipt.

Many of the victims in Amarillo
paid, sending good money after bad,
thinking that maybe the company
would pay. Some, abandoning mon-
ey and hope, dropped out.

The following month another as-
sessment with seven names on it,
\$1.25 for each, a total of \$8.75, came
to members in Amarillo.

And so it continued, an assess-
ment each month, ranging from \$7.50
to \$12.50, until gradually all the
members dropped out. Those who
wrote to the company about the
promises made by the woman agent
who lured them into it received let-
ters telling them to read "provision
5" of the policy which stated that
the company was not bound by any
promise made by an agent and that
was not printed in the policy.

A number of the victims got to-
gether and tried to find out whether
any of the names on the assessment
notices were real persons. There
was a suspicion that they were all
fictitious. No addresses were given
with any of those names. But noth-
ing could be learned. Finally the
victims threatened to turn the mat-
ter over to the United States postal
authorities for investigation, and
they soon received notices that the
company had sold out. That was
the end of it.

In Oklahoma City, later, I ran
across the trail of this same woman
agent, working the same racket,
whispering her promises confident-
ially to stenographers and sales
girls, to clerks and others, that she
and John were to be married and
that a policy of "birth insurance"
would be a good investment just
then.

Served As Decoy For Friends

In the offices of the gas company
in Amarillo I found a score of vic-
tims of one of these "marriage in-
surance" frauds. Young Mr. Jones
a clerk in this building, was ac-
tually engaged to be married. An
agent came to him and said:

"Why don't you cash in on your
marriage? Pay \$15 down and \$5
a month for three months on a
policy I'll write for you. Get mar-
ried at the end of three months and
draw down \$250. It will give you
a start in housekeeping. Or it will
be a nice little nest egg for a honey-
moon trip."

The young man went into it and
also took out a policy on his bride-
to-be. That made \$60 he had in-
vested. The young woman he was
going to marry took out a policy,
too, which brought the total invested
to \$90.

Everyone in the building knew
(Continued on next page)

Apples are less susceptible to
storage scald when packed in boxes,
baskets or ventilated barrels than in
the usual tight barrels.

If your chickens have worms, add
2 per cent, by weight of finely
powdered tobacco dust (containing at
least 1.5 per cent nicotine, to the
dry mash. The mixture should be
fed for a period of three or four
weeks and repeated at three week
intervals as often as necessary. This
will control roundworms and to
some extent, cecum worms in the
flock as well as lessen the danger
to young chicks and poult next
spring.

Wood used with the bark on—for
rustic cabins, summer houses, fences
etc., should be cut in late fall
or winter, says the U. S. Depart-
ment of Agriculture. Winter cut-
ting minimizes damage from insects.
Most wood boring insects eat only
freshly cut wood and are not active
in December, January and February.

Pipes in places outdoors that are
subject to freezing may be boxed
and surrounded with dry shavings,
excelsior, sawdust, leaves, chopped
straw, charcoal, granulated cork, pea
or nut size coke, or mineral wool.
Indoors, use a commercial covering
of wool felt or hair felt lined with
tar paper, or a homemade covering
of tar paper lining wrapped with
felt, covered with canvas and fin-
ished with a good waterproof paint.

Successful storage of the roots
is the most difficult part of dahlia
culture. As soon as the tops are
killed by frost, says the U. S. De-
partment of Agriculture, lift the
plants and cut off the tops about
10 inches above the crown. Let
the roots dry in the air for a few
hours and store them in a frost-free
cellar that it not too dry. If the
cellar is too warm or too dry, the
roots may be stored in barrels filled
with dry sand, sawdust or peamoss.

A basement or dugout for storing
fruits and vegetables does not need
special insulation, says the U. S. De-
partment of Agriculture. Concrete
or stone walls and a well-drained
dirt floor are satisfactory for a
storage place. Where a section of a
cellar is partitioned off to make a
storage room, cinder building blocks
make a god wall through which heat
does not readily pass. Some wall-
boards are satisfactory for insulat-
ing material for an above-ground
storage. If a basement is used for
storage, partition off a section at
the point farthest from the furnace
and provide plenty of fresh air
through the windows.

How Sunburn Costs

Dr. Charles F. Pabst, noted der-
matologist, makes a timely observa-
tion on the sun-tan fad, which is quot-
ed in the Golden Book: "Every year
200,000 working days are lost because
of illness due to sunburn, which rep-
resents an annual loss of \$1,400,000.
And usually the sunburn is deliber-
ately acquired."

NEW CHEVROLETS ON DISPLAY HERE HAVE DRAWN BIG CROWDS

Chevrolet's new car for 1931, priced substantially below current levels went on display at Jackson-Bolton Chevrolet Co., Saturday.

Heralded as "The Great American Value," the new car boasts a two-inch increase in wheelbase, larger and roomier bodies by Fisher with mohair or broadcloth as optional trimming and scores of refinements in appearance and performance despite the new prices which bring the level for the 1931 car to a far lower figure than any Chevrolet, four or six, has ever sold.

Dealers throughout the United States put the new models on exhibition nearly two months in advance of the customary date for the showing of the annual new car. This move in advancing the announcement date, it was felt by Chevrolet officials, would render a distinct contribution to the cause of general business revival by insuring extraordinary activity during two normally dull business months for the 200,000 people throughout United States who depend directly upon Chevrolet for their livelihood.

The nineteen domestic production plants of the Chevrolet organization are now in full swing on the new model, according to W. S. Knudsen, president, and shipments are going out to dealers to assure immediate delivery of all models.

Fundamentally the new model embodies the same basic features which since the introduction of the Chevrolet six, enabled it to achieve a popularity exceeding Chevrolet's former four cylinder model and four times as great as any other six cylinder car. However, scores of improvements and refinements have been made this year—every change designed to increase smartness, performance, safety or durability of this latest General Motors model.

Among the improvements are a fully insulated front compartment, easier steering, more durable clutch, smoother and quieter transmission, and liberal use of rustless chromium plate on exposed bright parts. Four Lovejoy hydraulic shock absorbers and fully enclosed, weatherproof four-wheel brakes continue as standard equipment.

All sport models come equipped with the new and popular chrome-plated radiator grille. All models have smart new wire wheels, with 4:75 by 19 tires, as standard equipment. Hubs are very large, of the concealed bolt type, with hub caps of gleaming chromium plate set off by a black ring circling the Chevrolet emblem in the center. Wheel finishes harmonize with the wide variety of body combinations.

Head lamps and tail lamp are full chrome plated in the new car. Chrome plated parking lamps attached to the cowl are standard equipment with all sport models, and the special sedan has front fenders with wells for the two spare wheels. The models equipped with one extra wheel carry the spare in the rear.

Safety factors stressed in the new car include a frame increased fifty per cent in torsional strength, continuance of the gasoline tank in the rear away from the heat of the engine, and inclusion of a flame arrester in the air cleaner.

The two inch increase in wheelbase has been utilized throughout the line to increase the roominess and comfort of the new bodies. Smart new Duco color combinations, the addition of decorative body features and a head on appearance extensively changed from the 1930 car combine to make the 1931 model decidedly finer in appearance than any of its predecessors.

The radiator has a larger cooling capacity this year, and is improved in both efficiency and appearance. A new treatment of the shell makes it appear much higher and the sides appear to have more curvature. At the bottom of the shell is a black enameled beaded panel surrounding the starting crank hole, which enters through the radiator instead of the splash pan as formerly.

A chrome plate tie bar arches from fender to fender across the front of the radiator, and holds in position the parabolic chrome-plated head lamps, as well as the new and popular high-frequency vibrator horn, which is mounted this year, just beneath the left head lamp. The splash guard which formerly extended horizontally from the bottom of the radiator now drops away vertically in the conventional manner.

Front fenders have been raised slightly at the forward end to achieve a lighter and finer appearance, and the sweep of the rear fenders has been made more pronounced.

The hood is longer, with a higher crown in the upper panels. The side hood hinges have been raised to coincide with the body molding, and this molding is continued on through the hood at the hinge line, the molding being so designed that it conceals the hinges. There are more hood louvers this year, grouped on a raised panel toward the rear of the hood.

The new Fisher bodies all have a raised belt line to emphasize the low appearance of the car achieved by the deeper side body panels, with their slight outward bulge. Roof lines are improved by streamlining

KANSAS CITY REPORTER EXPOSES INSURANCE FRAUD

That Jones was going to be married and the agent sold policies on Jones and his fiancée to more than twenty of his friends. Several bought birth insurance policies, too, believing that surely Mr. and Mrs. Jones would be blessed with a baby in due time. All of them were going to cash their marriage policies as soon as Jones married.

On the appointed day Jones did marry, but none of the policies was ever paid. They were issued by a company in Houston. The agent who had sold the policies had gone to work other suckers in another town. Jones, by threatening to put the postal authorities on the track of the company, got back the original \$90 he and his bride had put into it. He was the only victim who received anything. When others tried to follow that course they found that the company had dropped out of sight.

A trick of these companies, when beginning operations in a town, is to pay off a policy here and there as an advertisement. For example, in a big office building a popular stenographer will be paid \$100 or more on a matured policy, or in a shop or factory some workman will be paid. This payment is called by the companies "sucker bait," or "come-on-money" or "sales scenery."

A company in Oklahoma City was investigated by the Better Business Bureau and was found to have worked it in this way:

It had 20 agents out, bringing in new members as fast as old ones dropped out. Its membership ranged around 200 all the time. The company would send notices to each member monthly, that from three to six members had just married, for which each member in the group was assessed \$1.25. Thus, if five had married that month, each member in the group must pay \$6.25.

But the names were all fictitious. There had been no marriages and the company kept all the money. If a member went to the office to demand addresses of those who had married, the clerks furnished him addresses of far-away places.

A hotel clerk in Oklahoma City told me he went to the office of one of the companies with a list of six names of persons represented as recently married and for which he had been assessed \$1.25 apiece. He demanded addresses. He was given addresses in five distant cities. He wrote to each and got no reply. His letters came back stamped: "No such address" or "Not known at this address."

Nearly all the companies work on this plan, levying assessments as often as they think their victims will pay, keeping all the money, never paying the full amount on any policy, carrying on as long as they can in one town, then selling all their "alive" names of suckers to other territory for all it is worth, they close up, change their names and open another "marriage and birth insurance" office with a new name in another town. There are men who have moved from town to town half a dozen times in the last two years, and have changed their names each time they moved, and they are still traveling.

The Better Business Bureau of Oklahoma City found that many of these companies worked the racket in this way:

Say the group has 500 members. One marries. The company assesses each member \$1.25 for that marriage, of which the company keeps 25 cents, a total of \$125. The insured member, who has just married, supposes that he will get the balance of \$500. But, as there is no supervision, no member knows how many are in the group. The company tells the insured that the group has dwindled to 100. It pays him \$100 and keeps the \$400. The newly married couple is glad to get even \$100. They tell it to all their acquaintances and thus become good advertisers for the company.

Employment Insurance Pays 17c Day Following is an article on another kind of fraud insurance which is clipped from the El Paso Post:

Could you live on 17 cents a day? That is the amount members in one employment insurance firm will get after 11 months, if they pay every assessment and live up to their contract 100 per cent, according

and by an increase in crown at the front.

An outstanding feature of the new bodies is the better vision made possible from the driver's seat by slightly lowering the seat and raising the header bar which runs across the top of the windshield. A further aid to clear vision for the driver is the narrow stamped pillar at the ends of the windshield, which augments the safety provisions of the car.

All body moldings are pressed integral with the body panels, thus eliminating all separately applied molding with their consequent difficulties. The drip moldings also is pressed integral with the roof panels. This method of construction eliminates the inevitable rust streaks which result when the molding is separately applied because the paint chips off at the connecting line.

New Chevrolets, which were placed on display here Saturday by the Jackson-Bolton Chevrolet Co., attracted large crowds, according to V. D. Bolton. Numbers of people are still visiting the display room to view the new Chevrolets.

THREE HOBBS MEN HELD

Three men recently arrested in Hobbs and returned to Roswell by Deputy United States Marshal Jas. W. Johnson on charges of violating the Harrison anti-narcotic act have been arraigned at Roswell before United States Commissioner, Dan C. Savage.

James E. Davis and C. B. Irving were arraigned Tuesday morning before the commissioner on charges of possession and sale of narcotics. Both men pleaded not guilty and each was held under bond in the sum of \$1,000 for their appearance before the United States district court.

William Weir pleaded not guilty Monday afternoon before Commissioner Savage on a charge of possession of narcotics and was held for the federal grand jury under bond of \$1,000.

Each of the three men is being held in the Chaves county jail pending the next session of United States district court.

to figures of Edw. D. Hodge, manager of the Business Men's Protective Ass'n.

Employment insurance is a form of mutual insurance similar to marriage and birth insurance. Although no agents are operating in El Paso, it was learned Monday that a Dallas firm, known as the Southern Employee's Protective Ass'n. is considering appointing agents here.

Hodge said the persons investing in this form of mutual insurance are taking a chance of collecting.

Under the provisions of one contract, each member pays \$1.50 per month. If he keeps the payments up to date for at least a year, and then loses his job, he may get \$125, after two years, \$150, and so on until after 10 years he may get \$500.

Besides the regular \$1.50 monthly assessment, and a varying application fee paid to the agent, the member is liable to special assessments. He must keep on paying assessments while he's out of a job.

No indemnity is payable if the member is discharged by his employer for acts while off duty, for use of liquor, for going on a strike, for disobeying rules, for being asleep while on duty, chronic physical disability or old age.

In case of wage cuts before discharge, the benefits to be received also are cut. If the employee does not immediately notify the firm of the wage cut, it costs him an extra \$5 for "investigation" before the firm will pay indemnities.

Regulations may be amended at any time without notice to members.

Typewriter Ribbons—The Advocate

KONJOLA DID WONDERS FOR ME SAYS THIS LADY

Stomach Trouble and Headaches Are Banished When New Medicine Is Put To Test.

"Konjola did wonders for me," said Mrs. Avey Keswski, Box 205-A, Route No. 1, Galveston. "For several years I suffered dreadfully with stomach trouble. I had severe and sickening headache almost constantly. Gas accumulated in my stomach after every meal and I had the cramping pains of indigestion. My nerves were so weak that I could not rest or sleep well at night.

MRS. AVEY KESWSKI

"I am now on my fourth bottle of Konjola and I feel better than I have in five years. Pains and headaches have been banished and I have not had an attack of indigestion since I began taking Konjola. My nerves have quieted and I enjoy sound, restful sleep at night. My entire system has taken on new life and I will always praise Konjola for the good it did me."

Taken regularly after meals over a six or eight week period, this master medicine for ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis and nervousness has done as much for thousands as it did for Mrs. Keswski.

Konjola is sold in Artesia at the Palace Drug Store, and by all the best druggists in all towns throughout this entire section.

REGARDING UNORDERED MERCHANDISE

Nuisances, like twins, do not usually come singly and now is the time to give thought in regard to combatting that twin nuisance, the unordered package of greeting cards, or other merchandise received thru the mails.

In regard to this practice, the National Better Business Bureau advises that "The recipient accord the merchandise a reasonable degree of care, that it should not be appropriated for use by the recipient unless he intends to pay for it, and that he is in no way obligated to return it to the sender even though return postage and suitable mailing carton is enclosed.

"The merchandise should be held only for a reasonable length of time, during which the sender may instruct a qualified agent to call for it.

"If such an agent does call, the recipient has the right to demand the payment of storage charges before turning it over to the agent."

It would pay retailers to acquaint their customers with these facts for the reason that many recipients of unordered merchandise are not sure of their legal rights or their obligations. This information published in your advertising would go far to combat the evil.—(Reprinted from The Buzza Company's "Greetings."

"You say you're looking for a cashier? Why, I thought you engaged one only last week?" "I did; that's the one I'm looking for!"

How Great Cemetery Began

Hardly had the Lee family left Arlington when the federal troops took possession of the estate. A hospital was established, and when other available cemetery grounds no longer sufficed for the burial of the dead, the spacious grounds of Arlington were, by Quartermaster General Meigs, devoted to the purpose of a military cemetery. The first grave prepared was for a Confederate prisoner who had died in the hospital.

How Indians Set Fires

James Mooney gives the following regarding the shooting by Red Indians of a flaming arrow at night as a signal: "Methods of setting fire to an enemy's camp or fortified village by means of lighted combustibles attached to arrows were in general use down to a recent period, but the statement by one author that the Sioux had an elaborate system of signaling at night by means of fiery arrows requires confirmation."

PHILCO

BABY GRAND CONSOL

Big Radio Performance for \$69.50 less tubes

A wonderful, 7-tube, Screen Grid Radio complete with built-in genuine Electro-Dynamic Speaker

PHILCO Baby Grand Console has taken the town by storm. Here, in this compact console cabinet is a marvelously engineered radio. It has quality. It outperforms radios costing many times as much.

These sets are built on the famous Philco balanced-unit principle which eliminates distortion. This Baby Grand Console has a wealth of fine tone, excellent distance ability, selectivity, high sensitivity and true, clear reception, always.

Or If You Want the Same Big Performance in Smaller Space

Then see the Baby Grand at \$49.50, with the same 7-tube Chassis and Electro-Dynamic Speaker, in a compact Gothic Walnut cabinet only 17½ inches high and 16 inches wide.

Have a Free Trial Today

Don't wait! Call at our store or phone at once for a free demonstration in your home. You can't afford to miss the pleasure of perfect radio reception, at these prices.

Philco Baby Grand Console

This incomparable radio comes a compact cabinet of genuine Walnut trimmed with Bird's-Eye Maple and American Zebra Wood, 33 inches high; 19 inches wide. All-Electric, with genuine Electro-Dynamic Speaker built-in, Station Receiving Dial, 7-tube Screen Grid Receiver. "cross-talk." Philco quality throughout.

All for \$69.50 less tubes (Sold with 7 Philco Balanced Tubes)

JOYCE-PRUIT CO

BIGGER AND BETTER

PRESENTING THE NEW CHEVROLET SIX

Today the Chevrolet Motor Company presents the Bigger and Better Chevrolet Six, a new model of the six-cylinder car which has enjoyed such wide popularity.

In both the chassis and body of this new six-cylinder Chevrolet you will find expressed, more impressively than ever before, Chevrolet's well-known policy of progress through constant improvement.

For—without departing from the basic features which have won the enthusiastic approval of over 2,000,000 buyers—Chevrolet has produced a six-cylinder car which represents an entirely new standard of quality, value and refinement in the low-price field.

Your first impression of the new Chevrolet will be one of striking fleetness, grace and beauty. The car is longer, lower and modernly smart. The radiator has been deepened and its appearance enhanced by a curving tie-bar and chrome-plated parabolic headlamps. The long hood

lines sweep back unbroken to blend gracefully into the new Fisher bodies. And never were Fisher's fine artistry and finished craftsmanship more evident than in the bodies of the new Chevrolet Six!

Not only are the bodies roomier and more comfortable, but as you study them you will discover many gratifying new features and pleasing refinements—many examples of that painstaking attention to detail which is the basis of true quality.

Mechanically, too, the new Chevrolet Six is a better automobile. The wheelbase is longer. The frame is stronger. The steering is easier. The clutch is more durable. There is a smoother, quieter, easier shifting transmission. In fact, wherever finer materials and more advanced design could add to Chevrolet quality or increase Chevrolet's traditional economy of ownership—improvement has been made. See the new Chevrolet Six—for here is *the Great American Value!*

» » AT NEW LOW PRICES « «

Chevrolet has long been one of the lowest priced cars in the world. Yet due to the savings of volume production and increased manufacturing efficiency, the *Bigger and Better*

Chevrolet is offered at new low prices. Come in today. See and drive the new Chevrolet Six. Learn the *new economy* of owning a modern, fine quality, six-cylinder automobile.

Social Activities

THE LIBRARY RECEPTION

The reception given by the board last Saturday afternoon from three until five o'clock was a real social event. It was given primarily to observe national book week, and secondly, to create in the public a greater interest in this important institution. To this end books were displayed and members of the board were present in all departments to show the books and explain the resources of the library.

The building was attractively decorated with handsome bouquets of cut flowers and potted plants, including dahlias, chrysanthemums and cyclamens. Punch and wafers were served. Mrs. Stanley Blocker and Miss Catherine Clarke presiding at the punch bowl. Members of the board serving on the reception committee were Mrs. S. E. Ferree, president; Mrs. F. G. Hartell, vice-president; Mrs. J. H. Jackson, treasurer; Mrs. Ella Hewett, librarian; Mrs. Laura Welsh, Miss Ella Bauslin, Mrs. C. O. Brown, Mrs. M. W. Evans, Mrs. Will Ballard, Mrs. Arba Green, Mrs. D. E. Buckles and Mrs. Myron Bruning. About one hundred called during the afternoon.

ONE O'CLOCK LUNCHEON

Mrs. Ralph Shugart was hostess at a delightful two course luncheon, which was served at one o'clock last Friday. Dainty bouquets of roses adorned the quartette tables at which the luncheon was served and the Shugart home was bright with large bouquets of chrysanthemums and dahlias. The afternoon was devoted to needle work and visiting. Mrs. Shugart's guests on this pleasant occasion were Mesdames E. M. Phillips, M. W. Evans, J. H. Jackson, R. G. Knodler, Rex Wheatley, Chester Russell, R. L. Paris and H. A. Stroup.

BRIGGS—BLAIR

A belated announcement has reached us of the marriage of Miss Pauline Marie Briggs to Mr. Robert Blair, both of Artesia, on the 8th at Carlsbad. The ceremony was performed by Rev. St. John, pastor of the Assembly of God church, at the church pastorage. The bride and groom were attended by Mr. and Mrs. Virgil Chester and Miss Edith Briggs, sister of the bride.

Mr. Blair is the son of Mr. and Mrs. A. Z. Blair of Powell, Ohio and has been employed by the Gray Coggin Welding Shop for the past two years. Mrs. Blair, daughter of Mr. and Mrs. J. W. Briggs of Artesia, has lived here for the past three years and has a wide acquaintance in the community.

Mr. and Mrs. Blair will make Artesia their home, where Mr. Blair will continue in the employment of the Coggin Welding Shop. The young couple have a host of friends here who unite in wishing them a happy future.

BIRTHDAY PARTY

Little Frances Knodler celebrated her fifth anniversary last week and her mother entertained fifteen little folks for her Thursday afternoon. A color scheme of red and white was pleasingly carried out in the decorations and the refreshments of ice cream and birthday cake upon which five candles gleamed brightly. The children played lively games and had a general good time. The little guests were Jane Shugart, Ralph Shugart, Jr., Shirley Watson, Dorothy Linell, Mollie Sinclair, Katherine Sinclair, Janice Mann, Billie Sue Barnett, Betty Barnett, Andree Bulot, Barbara Bulot, aBrbara Wheatley, Shirley Bartlett, Orlena Martin and Mary Ann Hamilton.

STARS TO LAKE ARTHUR

Mrs. Jessie Morgan, grand secretary of the Eastern Star, Mr. and Mrs. Arba Green, Mrs. E. H. Perry, Mrs. J. M. Story, Mrs. M. W. Evans and Miss Helen Green drove to Lake Arthur Tuesday evening to attend the Star meeting and bring back the Grand Worthy Matron, Mrs. Mae B. Tillman of Albuquerque, who is making her official visit to the valley. The Artesians were guests at a splendid turkey dinner given by the Lake Arthur lodge in honor of the grand worthy matron.

IDLEWHILES BRIDGE CLUB

The club met with Mrs. E. M. Phillips on Tuesday afternoon. There were two substitutes, Mrs. R. D. Compton and Mrs. J. M. Clark of Wyoming, who is visiting her mother, Mrs. Phillips. Light refreshments were served.

Buy your Christmas Cards from the Junior Women's Club and help build a club house.

Social Calendar

TELEPHONE 217

THURSDAY (TO-DAY)

The First Night Bridge club will meet with Mr. and Mrs. C. J. Dexter at 7:00 o'clock.

The Second Night Bridge club will meet with Mr. and Mrs. F. G. Hartell at 6:30 p. m.

FRIDAY

The Young Mothers' club will meet with Mrs. John Dunn at 2:30 p. m.

The Sunshine class will have an all-day meeting at the home of Mrs. Henry Paton with covered dish luncheon at noon. The M. E. Missionary Society is invited to join with the class in the meeting.

The P. E. O. will meet with Mrs. R. L. Paris at 2:30 p. m.

TUESDAY

The Second Afternoon Bridge Club will meet with Mrs. Ray Bartlett for one o'clock luncheon.

The "Chevie Six" Bridge club will hold its annual Thanksgiving dinner at the home of Mr. and Mrs. Leslie Martin at 6:30 p. m.

The Pastime club will meet with Mrs. C. A. Bulot at 2:30 p. m.

MRS. RICHARDS APPOINTED

INDIANAPOLIS, Indiana, The appointment of Mrs. Albert Richards, of Artesia, to the national trophies, emblems and awards committee of the American Legion Auxiliary has been announced at the Auxiliary's national headquarters here. In the position Mrs. Richards, who has been prominent in Auxiliary work in New Mexico for a number of years, will have part in the direction of the organization's important national trophy contests. The appointment was made by Mrs. Robert L. Hoyal, of Douglas, Arizona, national president, and ratified by the Auxiliary's national executive committee.

PRESBYTERIAN LITTLE FOLKS HAVE SOCIAL

On Tuesday afternoon at 3:30 p. m. the members of the beginners and cradle roll departments of the Presbyterian church together with their mothers met to have a social time.

Mrs. Woods superintendent of the primary department and Mrs. Schulze superintendent of the cradle roll department had charge of the program. After a devotional opening the children played games while the mothers visited and were otherwise entertained.

Certificates were presented to the new members of the primary and cradle roll. Mrs. Sinclair spoke briefly of the purpose and importance of enlisting the little folks in the church program. Delightful refreshments were served with winter daisies and confection novelties as favors.

About forty-five children and mothers were present.

Buy your Christmas Cards from the Junior Women's Club and help build a club house.

DANCING PARTY

Stewart Compton gave a dancing party last Saturday evening in honor of his guests, Will Arnett and Myron Floersheim of the State University. There were twenty-four young people present and Mrs. Compton served a delicious supper during the evening.

GIRL SCOUT COUNCIL

The Girl Scout Council met at the home of Mrs. W. E. Kerr on Monday afternoon with seven present, and routine business was transacted. The next meeting will be at the home of Mrs. Jim Berry on Monday, December 29, and is hoped that at this time the other members will be present.

FIRST AFTERNOON BRIDGE CLUB

The First Afternoon Bridge club was entertained by Mrs. M. A. Corbin for Mrs. E. J. Brooks at the Corbin home on Tuesday afternoon. There was an extra table of guests, Mesdames Beecher Rowan, J. B. Atkeson, F. G. Hartell and L. P. Evans. Delicious refreshments were served in two courses.

The Woman's Guild of St. Paul's church will hold their annual bazaar the first Saturday in December, place to be announced later. 49-1tc

WOMEN'S CLUB

"Laughing Boy," by Oliver LaFarge, the book winning the 1930 Pulitzer prize for novels, was admirably presented in a review given by Mrs. Leslie Martin at the club meeting yesterday afternoon. The book is of especial interest to New Mexicans because it is located in this state and depicts the life of Navajo Indians, who inhabit the western part.

Routine business preceded the program, the most important being the matter of calling a special meeting to take action on the purchase of a club house. This meeting is called for Saturday afternoon. It will be held in the Dr. Clarke building at 3:30 p. m. All members are urged to be present and on time as the business will begin promptly.

"CHEVIE SIX" BRIDGE CLUB

The "Chevie Six" Bridge club met with Mr. and Mrs. T. C. Bird last Thursday evening for its regular meeting. There was an extra table of guests, Mr. and Mrs. Fred Cole, Miss Ruth Morgan and Howard Whitson. Light refreshments were served. Miss Morgan and Mr. Whitson won high score for the evening.

ZONE MEETING

The Quarterly Zone meeting of the Methodist Missionary society was held in Carlsbad yesterday with a big attendance from various valley points. The Roswell Zone was invited and the attendance from that place swelled the crowd to over one hundred. A sumptuous chicken dinner was served in the church at noon. Mrs. Reed Brainard of Artesia led the morning devotionals and Rev. Scoggins favored the meeting with a vocal solo. Mrs. Scoggins accompanying. The election of officers resulted in Mrs. Scoggins being chosen zone leader and Mrs. I. C. Keller, secretary.

Those present from Artesia were Rev. and Mrs. Scoggins and Mesdames Brainard, McCann, Keller, J. H. Jones, S. S. Ward, Lee Vandagriff, J. H. Long, W. S. French, Abe Burnett, Grant Knepple and Joe Richards. The presiding elder, Rev. Linebaugh, and wife, were among the Roswell delegation.

VENISON DINNER

Mrs. C. A. Bulot and Mrs. S. B. Barnett gave a venison dinner at the Bulot home Monday night, the piece de resistance being the game brot in by Messrs. Bulot and Barnett from their hunting trip in the mountains. Besides the two families there were present, Aubrey Watson and family and Jack Clady and family.

BIRTHDAY PARTY

A merry crowd of little girls helped Barbara Wheatley celebrate her sixth birthday anniversary last Saturday afternoon. Pinning the tail on the elephant and other indoor games provided fun for the children and the mysterious contests of the birthday cake gave them quite as much of a thrill as eating the cake and other good things provided by Barbara's mother, Mrs. Rex Wheatley. The children invited were Phyllis Bartlett, Shirley Bartlett, Betty Flint, Janice Mann, Jane Shugart, Orlena Martin, Frances Knodler, Billie Sue Barnett, Margaret McDermott, Darleen Dunn, Edna Cave, Andree Bulot, Christine Anderson, Mary Lou Lanning, Shirley Watson, Marjorie and Margaret Clowe.

LINE PARTY AT MAJESTIC THEATRE

Little Miss Phyllis Bartlett celebrated her eighth birthday with a line party to the Majestic theater, Friday evening. Each guest was presented with a package of popcorn on entering the theater. The following guests enjoyed the show: Misses Emilee and Eloise Gleghorn, Margaret and Dorothy Company, Betty Nelle Lanning, Jane Shugart, Orlena Martin, Barbara and Joan Wheatley, Catherine Williams, Sybil Prior, Pauline Cunningham, Margaret Virginia and Minnie John Kyle Evelyn Bates, Lyuanna Monschki, Dorothy Berry and Edwin Ward and Billy and Shirley Bartlett, brother and sister of the hostess.

OIL SCOUTS HAVE DANCE

The New Mexico Oil Scouts held a very enjoyable dance last evening at the roof garden of the Artesia hotel. About forty-five couples attended including visitors from Roswell, Carlsbad, Hobbs, Lovington and Midland, Texas. Music was furnished by Gus Lemp's orchestra.

After spending a great part of the evening with convivial friends, Smith decided that home was the place for him, but, on arriving there he went to the next morning, opening his eyes, he saw his wife looking at him from an open window. "Shut that window," he yelled. "Do you want me to catch my death of cold?"

AN EVENING ENTERTAINMENT

At the Upper Cottonwood school, slight of hand and magic performance, male quartette selections and other features, Friday, November 21, 7:30 p. m. Admission 20 and 35 cents. 49-1tc

STATE OFFICER VISITS STAR

Mrs. Mae B. Tillman, of Albuquerque, Grand Worthy Matron of the Eastern Star, made her official visit to the Artesia chapter yesterday. In the afternoon she conducted a school of instruction for Star members and in the evening made her official visit to the chapter. At this time she delivered a beautiful address upon the work of the organization. The work of the order was put on by the chapter and was witnessed by members from the Lake Arthur and Hope chapters, who were guests at the meeting. The chapter room was beautifully adorned with fall flowers for the occasion and following the exercises a lovely plate supper was served. About seventy-five were present at the meeting. Mrs. Tillman will inspect the Hope chapter tonight and tomorrow will leave for her home in Albuquerque. She was the guest of Mrs. Jessie Morgan, grand secretary, while in town.

DINNER FOR MRS. TILLMAN

Mrs. E. H. Perry will entertain at six o'clock dinner tonight honoring Mrs. Tillman, worthy grand matron of the Eastern Star, the other guests being Mrs. Jessie Morgan and Miss Ruth Morgan. The ladies will accompany Mrs. Tillman to Hope and bring her back here after the meeting there.

WEEK OF PRAYER

The annual Week of Prayer was celebrated by the Methodist Missionary society last Thursday with an all-day meeting at the church. Mrs. Reed Brainard was in charge of the program and was assisted by Mrs. Joe Richards and Mrs. Will Benson, who led devotionals, Mrs. J. E. Robertson, who gave a talk upon the function of prayer, Mrs. J. H. Jones, who gave a reading on prayer, Mrs. George Frisch, a talk upon the Martha Gibson Mission school at Cienfuegos, Cuba, and Mesdames Scoggins, Grover Kinder, Ike Keller, Abe Burnett and L. W. Feemster, who gave a playlet presenting the work of Wolf Settlement, at Tampa, Florida. Miss Virginia Egbert, accompanied by Mrs. Tex Henson, rendered the beautiful violin solo, "Meditation," from "Thais," at the morning session and Rev. Scoggins sang a beautiful solo, "Shall I Empty-handed Go," Mrs. Scoggins accompanying. In the afternoon an offering was taken for the work of the missionary society.

A covered dish luncheon was served at noon.

Office Boy—My brother has a gold medal for running five miles, an' one for ten miles; a silver medal for swimming; two cups for wrestling, an' badges for boxing an' rowing!

He must be a wonderful athlete. He's no athlete at all. He keeps a pawnshop.

TAX COMMISSION PUTS OFF VALUATIONS OF LIVESTOCK A MONTH

SANTA FE—The State Tax Commission met Monday to consider valuations on livestock and grazing lands for next year, but were forced to postpone their hearing on this matter until December 16. Many of the cattlemen and sheepmen who were to have appeared before the board Monday were unable to do so. The board will meet Tuesday to consider regular matters of routine business.

The office boy rushed into the boss' office with his hat on one side of his head and shouted, "Hey, boss! I want to get off to go to the ball game."

"William," said the boss, "that is no way to ask. Sit here at the desk and I will show you how."

He went from the room and returned with his hat in his hand, saying, "Please, Mr. Smith, may I go to the ball game this afternoon?"

"Sure," said Bill, "here is 50 cents for a ticket."

LOCALS

Mr. and Mrs. J. K. Wallingford were Roswell visitors Tuesday.
J. R. Smith of Hobbs spent a few days here the first of the week, visiting with his family.
Bettynelle Lanning underwent a tonsil operation Monday morning and is getting along nicely.
R. G. Knoedler made a business trip to Roswell Saturday afternoon. His family accompanied him.
C. P. Slaughter of Kaufman, Texas is spending a few days here visiting his son, Buck Slaughter and wife.
Miss Luella Akins of Artesia spent the week end here with Mrs. Caroline Brown. — Current-Argus, Tuesday.
Rufus Stinnett, of the State University, spent the week end here, guest at the home of Mr. and Mrs. Arba Green.
Gerald Black of Lamesa, Texas nephew of Mr. and Mrs. Preston Dunn and R. W. Dunn, was here over the week end, visiting the different Dunn families.
Mrs. A. T. Woods, who was visiting her husband here for a couple of weeks has returned to San Antonio, Texas, where the family is located for the winter.
Col. William B. Pistole expects to leave today for his home in Chicago, Illinois, going by way of Ruidoso for Mrs. Pistole, who has been staying in the Pistole cabin.
Stewart Compton, accompanied by two fellow university students, Myron Floorsheim and Will Arnett, was at home for the week end, and returned to Albuquerque Sunday morning.
Mrs. Ballard Spencer returned home Monday from the Merchant ranch near Capitan, where she visited her parents, Mr. and Mrs. Wallace Merchant, while Mr. Spencer was on a hunting trip.
Mr. and Mrs. W. A. Hickox and son, Duane, of Emporia, Kansas, have been visiting Mr. and Mrs. Clint Rice during the hunting season. Mr. Hickox bagged a 12 point buck.
Mr. and Mrs. Will Benson expect to leave the last of the week for a combined business and pleasure trip to Texas, during which they will visit relatives at San Antonio and Dallas. They will be gone about a week.
W. A. Wunsch, county agent, accompanied by H. C. Stewart, state horticulturist from State College, spent a short time here Saturday afternoon, assisting some of the local residents in the selection of tree planting this fall.
Miss Helen Sage, teacher in the Roswell schools, visited with her aunt and uncle, Mr. and Mrs. Frank Wilson, over the week end. Miss Sage drove down with Miss Inez Jones, who went on to Carlsbad to spend a short time with her parents.
E. J. Feemster, of Denver Colorado, brother of L. W. Feemster and former resident of Artesia, is spending a few days here visiting friends. Mr. Feemster lived in Artesia some ten years ago. He was a member of the Artesia baseball club and played on the team for several years.
Clifford Hoskins of Fowler, Kansas, has been here the past week, guest at the home of his friend, E. V. Haisley. Mr. Hoskins is on an extended motor cycle tour, and had been through Colorado and Arizona before coming here and left for a visit to Iowa and Nebraska before returning to Kansas. He made the Cavern trip while here.
J. M. Clark of Wyoming and his mother, Mrs. Edna Clark of Ft. Collins, Colorado, who had been visiting at the home of Mrs. E. M. Phillips for a couple of days, left for the north on Sunday. Mr. Clark will go as far as Montana where he will be engaged in the oil business for some time. In the meantime his wife and baby daughter, who accompanied him here will visit her mother, Mrs. Phillips.
Swimmer Makes Catch
Eugene, Ore.—Buster Love, swimming the McKenzie river, saw a salmon below him. He grabbed it and brought it up splashing in his hands.
and a good teacher for every class. Send your boys and girls to Sunday school Sunday.
Morning worship 11:00 a. m. Thanksgiving sermon by the pastor.
N. Y. P. S. 6:00 p. m.
Evening service 7:00 p. m.
Great missionary rally, special singing, music and reading. Address by the pastor.
Don't forget the union Thanksgiving service, Thursday evening, November 27th at Baptist church.

WHY

Farmers Like "Grasshopper Mouse."

Many farmers are now encouraging the "grasshopper mouse" to make his home in their fields. This husky little rodent takes its name not from any physical characteristics of its own, but rather from its diet. It first got its name in North Dakota when examinations showed that it fed largely on grasshoppers. In Arizona, on the other hand, it is called the "scorpion" mouse for a similar reason. This variety of mouse has been known to science not quite a century, the first specimen having been taken by Maximilian, prince of Wied, at the Mandan villages in North Dakota in 1883. Recently reported studies have demonstrated their importance. In the western United States and adjoining parts of Canada and Mexico they have been found to be holding numerous harmful insects in check and keeping the proper balance among the small animals that infest farms. The grasshopper mouse is distinguished by its heavy build and short, thick tail. Its short legs and bulky body handicap it in running but it is harder to catch than swifter rodents on account of its quickness at turning and dodging, which enable it, also, to corner its prey easily. It is less nervous and timid than most rodents and gives evidence of unusual hunting instincts. Its quarry includes not only many kinds of insects, but also other rodents. Its chief sport is said to be capturing other mice of its own size or smaller, and it is credited, too, with destroying the young of many burrowing rodents much larger than it self. It will also rid kitchens, basements, cellars or greenhouses of many insect pests.

Why Oil on Surface of Water Curbs Movement

Oil being a viscous, slow-moving liquid, remains on the surface of the water, and so curbs the movement of the waves. So sometimes in a storm oil is poured into the sea from different parts of a vessel according to the direction of the wind, the course of the ship, and so on. When the vessel is running before a gale the oil is distributed from the bows, whence it spreads aft, and gives protection to the vessel all round. If it were poured on the sea from the stern the oil would be left behind. Where one vessel is towing another the towing vessel distributes the oil from its own bows and in both sides. In this way the oil spreads so as to benefit both vessels. The oil is distributed sometimes by pipe, and sometimes by throwing overboard porous bags attached to a rope. The oil slowly filters through these bags.

Why Flowers Fade Quickly

There are two mistakes commonly made in cutting flowers for indoor use. One is to wait until they are fully opened, often until they have been open for several days, before cutting them. The other is to cut them during the heat of the day, when they are in ideal condition to wilt. Most flowers are best cut when in full bud or just as they are beginning to open. There are, of course, some exceptions to this, such as dahlias, which do not expand fully until after three to five days after the buds have unfolded. As a general rule, flowers will open more nearly perfect and will last longer if taken just as the buds are expanding and with fairly long stems.

Why Called Sport of Kings

Horse racing has been called the "Sport of Kings" because it has been one of their amusements since the earliest dawn of civilization. Thothmes I of the eighteenth Egyptian dynasty left a papyrus letter telling of his conquest of Mesopotamia, and priding himself upon the acquisition of the racing horse (the Arab) and being the first to introduce him in Africa. Somewhat later the records tell of King Solomon's buying horses from Egypt and paying as much as \$3,000 for some of them. Among the Greeks horse racing was introduced into the Olympic games in the thirty-third Olympiad (648 B. C.).

Why "Hammer and Tongs"

When you see two or more people evidently disputing any question, heatedly airing their views pro and con, thumping their fists and gesticulating with their hands, they may fairly be said to be at it hammer and tongs.

This phrase is a typical illustration of how words, through mere usage and similarity to others, become altered in form, for hammer and tongs is a corruption of hammer and tongues.

The significance of the latter is instantly perceptible when the typical application just given is considered.—Kansas City Star.

Why Insects Don't Look Back

The Bible tells how Lot's wife looked back at the burning cities of Sodom and Gomorrah, and for disobedience was turned into a pillar of salt.

There is a tradition that since then insects have not looked back.

Insects' heads are set so that they cannot turn them to look backward—except the "Praying Mantis." This bug's long front legs are held in a position of prayer.

Why Called Trilby Foot

Trilby, a model, was the heroine of a novel by du Maurier, and a Trilby foot means a small, perfectly formed foot.

PICKED UP ON MAIN

Determined to keep in the forefront with the biggest "whopper," E. B. Bullock tells one on Polk Turner. The farm of Turner is so rich that he plants his cotton in the fence corners and his watermelons on the fence row so that the vines will run up the fence, using his farm lands to grow grass and small grain while waiting for his cotton hanging on the fence row to open.

Tex Polk saw a dead buck brought into town without a single hole in his hide. The hunter told Tex that he shot the buck at the base of the horn, the bullet knocked the deer down, killed him and cut his horn off. Next!

Of all the different sets of Martins in the community, Irvin Martin, is evidently the most prosperous looking one of the lot, at least the hi-jackers thing so. So far as the records go, no other individual by the name of Martin has ever been suspected of having any money on his person. Irvin should feel complimented.

How Naval Batteries Fought

That the United States navy played an important part in the closing battles of the World war, is shown by the records of the naval batteries brought into action. Each was a .50-caliber, 14-inch navy rifle, capable of throwing a shell 25 miles. Mounted on specially designed railway cars, each train of the five batteries was self-supporting and carried a string of 15 cars, including a locomotive. Each train was a complete unit, comprising a gun car, sand car, fuel car, battery kitchen car, ammunition cars, berthing cars, headquarters car and a complete workshop car. These batteries were commanded by Rear Admiral Charles P. Plunkett.

How Flyers Are Guided

There are now about 7,000 miles of electrically lighted airways for airplanes. The string of revolving beacons stretches from the Atlantic to the Pacific, and deep into the South.

The towers, lighthouses of a new commerce, are built and operated by the government, primarily for air mail service, while the airplanes which carry the mail are owned and operated by private companies.

The towers are 60 feet high. The beacon lights cost \$475 each, and the lamps, which have a life of 60 hours, sell for \$6.50 each.—Capper's Weekly.

This picture, a view from the talking moving picture of a tour through the Ford plant, shows how fenders for the Ford car are pressed into shape from sheets of steel. This is one of the largest presses in the Ford plant.

LAKE ARTHUR ITEMS

Miss Ella Ohlenbusch

Mr. and Mrs. Oscar Moore of Hope were visiting relatives Sunday.

C. L. Dalton and Redmond Pate went thru the Carlsbad Caverns Sunday.

Mrs. L. Chester of Artesia visited her mother, Mrs. Ollie Smith this week.

Edwin Byers and Frankie Thorpe of Lovington spent Saturday night at the A. G. Lane home.

Mr. and Mrs. Orrin Smith and Mr. and Mrs. John Turner visited friends in Roswell Monday.

Max Walden and Clyde Nihart were deer hunting from Thursday to Sunday, without any success.

Mr. and Mrs. Robert Cumpsten and family went to Clovis, Saturday to visit his mother and brother.

John Miles of Bellville, Arkansas was called to the death bed of his daughter, Mrs. Zelma Thorpe, Monday.

Messrs. Ford Frazier, Jim Smith, Charles Doyle and Sil Waldrip returned from their hunt Monday with no success.

Mr. and Mrs. Bill Holden who were visiting friends here last week left for Carlsbad Monday where they expect to locate.

President Caroon of the Normal University and Mr. Parker of Las Vegas were visiting the Lake Arthur school Tuesday.

Mrs. Zelma Thorpe, age 17, died at the Carlsbad hospital Saturday evening. The body was taken to Hagerman where burial was made Sunday afternoon.

Robert Murphy and Mrs. Charlie Doyle, who have been practicing their Sunday school classes for sometime, entertained this community with a program at the Baptist church Saturday night.

Mrs. Mae B. Tilman, of Albuquerque, worthy grand matron of the Eastern Star, visited the Lake Arthur chapter Tuesday evening. A turkey dinner was given in her honor.

Mr. and Mrs. John Meador and family, entertained the A. G. Lane family with a venison dinner Monday night. After the dinner the young folks played cards until a late hour. Miss Alma Lane won high points.

Mr. and Mrs. Henry White from Breckenridge, Texas visited their uncle and aunt, Mr. and Mrs. J. W. Roberts last week. While here they were accompanied to the mountains

on a three day trip by the Misses Ola Roberts and Ola May Tholbert.

The home economics girls were given a surprise dinner Tuesday by the F. F. A. boys in return for their kindness of serving the banquet the night before. Mr. Caroon, president of the Normal in Las Vegas and Professor Parker were also guests at the dinner.

The F. F. A. of Lake Arthur gave a fathers and sons banquet in honor of their fathers Monday evening. It was a three course menu and served by the home economics department. Funds were obtained by putting on a box supper several weeks ago. William Ohlenbusch acted as toastmaster. The speakers were: Supt. C. R. Bernard, John Havens, Clyde Nihart, D. Ohlenbusch, Mr. Reese, Rev. Slate and C. L. Dalton and several others.

DRAMATIC CLUB

The Dramatic club of the Artesia high school met Wednesday morning. The club members were entertained with a play: "The Question of Morality," by Percival Wilde. The characters were: Billy Shelton, the husband, Jimmie Keith; Caruthers, Doyle Trayler; Dorothy Shelton, the wife, Glennis Smith; The Maid, Cora Mae Marable. After the play a business meeting was held.

BRIDGE PARTY

One of the most attractive parties of the season was given Friday night by Mrs. J. Harvey Wilson. Bright autumn flowers made a beautiful setting for three tables of bridge. Small silver vases filled with flowers adorned each table. Mr. Jones held high score and low score fell to Mrs. V. E. Eubanks.

After cards were laid aside, the hostess, assisted by Mrs. Eubanks served a delicious salad course, with a fruit drink. Those playing were: Messrs. and Mesdames Jones, Jernigan, Durant, Woods, Eubanks, J. Harvey Wilson and Miss Ruth Scott.

Hero's Jaw Broken; Alleged Rival Held

Halifax, Calif.—Anton Ricci, seventeen, was the hero of the season's first brush fire and posed for a photograph with Mona Kohler, sixteen, belle of Cascade's swimming pool. Shortly afterward Ricci was taken to the hospital with a broken jaw. Richard Crinni, seventeen, alleged jealous rival, was held as his assailant.

CALIFORNIA--MICHIGAN AND TEXAS GAIN IN THE REAPPORTIONMENT

WASHINGTON—President Hoover Tuesday announced the reapportionment of the house under the 1930 census would show that California gains nine seats, Michigan four and Texas three.

The census bureau figures which will be transmitted for congressional action, give other added representations in the house as follows:

Connecticut, one; Florida, one; New Jersey, two; New York, two; North Carolina, one; Ohio, two; and Washington, one.

On the basis of the figures, Missouri will lose three seats; Georgia, two; Iowa, two; Kentucky, two; Pennsylvania, two and the following states one each: Alabama, Indiana, Kansas, Maine, Massachusetts, Minnesota, Mississippi, Nebraska, North Dakota, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia and Wisconsin.

WORLD HAS PHONE AT BECK AND CALL

Forty-Two Nations Are Now Linked by Wire.

Washington.—Forty-two nations are now linked in the rapidly growing international telephone system and prospects are that within a few years a "telephone Utopia" will be reached when all instruments of all nations are connected, according to a government study being made here.

A list of international telephone connections compiled in this study by G. Stanley Shoup of the Department of Commerce shows that conversation is now possible between six continents. Eighty-five per cent of the world's telephones are interconnected and seven transatlantic ocean liners maintain regular service with half a dozen countries.

International Directory.

Such countries as Germany, England and the United States are in contact with between 25 and 35 other nations. Such great distances are regularly spanned as between London and Australia, the United States and Argentina, Holland and the East Indies, or France and Indo-China. Equipment is being assembled to span the Pacific. American engineers are preparing to lay a transatlantic telephone cable and an international telephone directory already has been published in its second edition.

"This amazing extension of international telephony during the last few years has been one of the most significant and progressive developments in the field of communications," Shoup comments.

"As late as 1922 the sum total of international telephony services consisted in the main of circuits from London to Paris, Brussels and Amsterdam, while on this side of the Atlantic the United States was connected only with Cuba and Canada.

Opens Vast Possibilities.

"We are now connected with fully 85 per cent of the telephones of the world, reaching most of the European countries, Mexico and South America. Such radio-telephone circuits are now in service between Spain and Argentina, France and Argentina, Paris and Indo-China, London and New York, Netherlands and Java. American engineers have perfected a transatlantic telephone cable which is expected to be in operation by 1932.

"This opens vast possibilities and in all probability the next few years will witness an even greater development in this art, which will continue, no doubt, until we have reached that telephone Utopia when all telephones and all nations can be interconnected."

Shoup's compilation, which is constantly being revised as new connections are made, shows 42 nations hooked up in a web of 718 international telephone connections. The United States maintains contact with 28 countries. England is in touch with 35; Germany with 34; Italy, 21; France, 34; Spain, 28; Poland, 28; Czechoslovakia, 29; Russia, 6; Argentina, 27; Mexico, 20; Brazil, 16, and Australia with 13.

How Radio Speeds Crops

Crops can be made to grow at double speed by the application of radio, according to Dr. Fritz Hildebrandt, a Berlin physicist. In a field of poor fertility, he says, he treated seeds of beans, sunflowers, melons, tomatoes and radishes with short waves ranging from half a millimeter to 30 centimeters for 15 minutes.

HOW

CINDERELLA LEGEND HAD COUNTERPART IN LIFE.—The "Cinderella" theme is common in our dramas of today, one playwright recently admitting that about 60 per cent of his many plots were taken from this old story.

It was about 1730, says Arvine, when a French actor of talent and wealth, named Theyenard, in passing through the streets of Paris, observed upon a cobbler's stall the shoe of a woman, which struck him by the remarkable smallness of its size. After admiring it for some time, he returned to the house, but his thoughts reverted to the shoe with such intensity that he reappeared at the stall the next day. The cobbler, however, could give him no clue to the owner other than it had been left for repair.

Day after day Theyenard returned to his post to watch the reintegration of the slipper which proceeded slowly; no did the owner return to claim it. Although he had passed his sixtieth year, so extravagant became his passion for the unknown that he became melancholy and miserable. At last the owner appeared, a pretty and youthful girl in the very humblest walk of life. All distinctions were at once leveled by love, and the actor sought the parents of the girl, obtaining their assent to the match.—Clair Price in New York Times Magazine.

How to Place Thermometer

Where a thermometer should be placed in a room depends on the existing conditions and the kind of thermometer. For ordinary use the thermometer should be placed to get free circulation around it; that is, in a position to get the most representative temperature. Generally it is placed about five feet high.

The Record for POPULARITY —held by Goodyear Tires

The single record that, in our opinion, really counts with careful tire-buyers is the popularity record which Goodyear has held for fifteen years: "More people ride on Goodyear Tires than on any other kind."

It simply says that an overwhelming percentage of your fellow-motorists get the most value and every-day satisfaction out of Goodyear Tires.

GOODYEAR All-Weather

The reason, of course, is that Goodyear builds more than 1/4 of all tires sold in America, enjoys lowest costs, can give greater values.

May we analyze your needs and recommend the most satisfactory type of Goodyear Tires and Tubes for you? You will also appreciate our courteous, efficient service. If you prefer, we will call at your home or office.

ARTESIA INVITED TO ATTEND REGIONAL OF UNITED STATES C OF C

The local Chamber of Commerce has received an invitation from the United States Chamber of Commerce in Washington to send delegates to the regional traffic and aviation conference which will be held under the auspices of the latter organization in Dallas, November 24th and 25th.

This is one of several similar conferences held for the purpose of discussing and considering the state and highway traffic problem from the standpoint of accident prevention, congestion relief and looking toward ultimate uniformity of state laws and municipal ordinances.

Also it is for the purpose of considering from the standpoint of business interest in this part of the United States the question of sounder development of aviation facilities and the uniform regulation of air transportation.

The states to be represented by delegates in this conference are, Colorado, Kansas, Missouri, Arkansas, Oklahoma, New Mexico, Louisiana and Texas.

George W. Elliott, former safety director of the city of Philadelphia, will be one of the program headliners sounding the needs of the traffic situation.

T. B. Clement, vice-president of the Transcontinental and Western Air Express, will cover the aviation situation. The Honorable Clarence M. Young, Assistant Secretary of Commerce, will informally discuss the general question of aeronautics. The program will be largely one of discussion rather than that of set speeches. The licensing of drivers of motor vehicles with compulsory examination and demonstration of fitness and ability to handle the vehicle under traffic conditions, will be considered and aviation questions including the experiences of commercial organizations in the development and management of airports, uniform state and municipal air laws and regulations will likewise be topics for consideration.

The delegates who will attend the conference on behalf of the local Chamber of Commerce have not been selected but if any citizen of Artesia will be in Dallas at the time of the meeting, we will appreciate their attendance and report.

SUNDAY SCHOOL CLASS ORGANIZED LAST WEEK

The Young Married Women's class of the Baptist Sunday school was organized at the home of Mrs. Noel Meeks last Friday afternoon with a membership of thirteen. Mrs. Morrison Livingston was elected president; Mrs. V. D. Bolton, vice-president; Mrs. Brooks Slaughter, secretary-treasurer; Mrs. Meeks, reporter and Mrs. Martha Harris, teacher. The class will meet every two weeks on Friday afternoon. After the business meeting the afternoon was spent in social diversion with the game of hearts. Light refreshments were served.

MAY DEVELOP NEW LEA-CO. TOWNSITES

SANTA FE—Two new townsites, approximately 18 miles south of Hobbs will probably be developed soon, one application for a commercial lease on state land situated SWSW Sec. 15, Twp. 21, range 36-E and E½ SE¼ Section 16-21-36 and NW¼ NW¼ Sec. 22-21-36 has been made by B. V. Culp of Lovington. Land Commissioner Dr. Austin D. Crile said Monday that a lease would be issued at \$2.50 per acre. Ten locations for wells have been made near the new townsite with 15 more in prospect, Dr. Crile said. Application for the second township site lease has not yet been received.

"Hello, Brown, why, you've shaved off your beard and mustache . . . I really wouldn't have recognized you if it hadn't been for my umbrella.

COTTONWOOD ITEMS (Miss Alma Bradley, Reporter)

Misses Ruby Jenkins and Mabel Vowell spent last week end at the home of Mrs. Willie Perry.

Mr. and Mrs. George Trimble left Friday for a ten day visit with relatives in Plainview, Texas.

Mr. and Mrs. Walter Troutman and little son, Dale, left Tuesday for Amarillo, Texas where they will make their home.

Mrs. Wes. Knowles and Mrs. Glenn O'Bannon visited in Carlsbad Saturday and Sunday with their cousins, Mrs. Mack Campbell and Mrs. Lloyd White.

Mr. and Mrs. Wes Knowles who have been here hunting and visiting Tuesday returned to their home in Guyman, Oklahoma. Walter Knowles accompanied them home.

Mr. and Mrs. J. O. Garner and children, Robert and Miss Olva, of Dardnell, Arkansas arrived here last Friday. They will make their home in Cottonwood community.

C. R. Bernard superintendent of of Lake Arthur school, accompanied by Misses Ruby and Minnie Leet Smith, Bertha Ewing, May Brewer, Dick Flowers and Ruby Reese, all of Lake Arthur were visiting on Cottonwood Sunday.

Quite a number of the people from Upper and Lower Cottonwood met at the Upper Cottonwood school house for an old time spelling match, Friday night. Sides were chosen and a long period was given to spelling after which a song service was enjoyed.

Among those from Cottonwood who went hunting and returned with a buck are: Jess Huff, Chris Doery, Victor Parker, G. W. O'Bannon, Glenn O'Bannon, Douglas O'Bannon, Truman Howard, Joe Bill Funk, Roy Vermillion and Boss Baze, Maurice Brown, and Ernest Hester of Snyder, Texas, who went hunting with Glenn O'Bannon.

STATE INSTITUTIONS WANT INCREASED REVENUE

SANTA FE—Educational institutions of the state are planning increased facilities for the next biennium and are submitting increased facilities for building programs to the state comptroller which in turn will go before the legislature.

The Military Institute is asking \$457,000 and \$472,000 for two years, increasing its maintenance account \$22,500.

The Silver City Normal is asking \$411,050 for the 20th fiscal year and \$216,450 for the 21st. During the 18th fiscal year the school spent \$163,601. They ask \$175,000 for building purposes during the 20th fiscal year.

LOCALS

Jeff Hightower is spending a few days at home this week.

Mr. and Mrs. W. A. Porter left yesterday for a short trip to Dallas, Texas.

Miss Ruth Bigler was at home from the State University at Albuquerque over the week end.

Rev. J. H. Watson of Cohoma, Texas, is visiting his brother W. A. Watson and family of Artesia this week.

Mrs. C. W. Bartlett of Carlsbad is spending the week in Artesia, guest of her son, Ray Bartlett and family.

A. L. Terpening and wife, of Dexter spent the week end here with their sons, Ralph and Henry, and families.

Born to Mr. and Mrs. Skelt Williams at St. Francis hospital in Carlsbad last Wednesday, the 12th, a daughter.

Mrs. Olin Jernigan, of Pinon, spent the week end here with her sister, Miss Lucille Morris, at the E. B. Bullock home.

Mrs. John Runyan was in Carlsbad yesterday to see her sister, Mrs. Skelt Williams and new baby at St. Francis hospital.

Mr. and Mrs. Grant Knepple and Mrs. Charles Roe drove to Carlsbad Monday to see Miss Bertha Rose at St. Francis hospital.

Virgil Wells drove over to Hamilton, Texas Sunday with Mrs. Wells and little daughter, Helen. Virgil returned Tuesday by Mrs. Wells will remain for a longer visit with her parents.

Adley McCaw came over from Chillicothe, Texas for the hunting and to visit his parents, Mr. and Mrs. U. M. McCaw. He succeeded in getting a turkey. The friends, who came with him were unsuccessful.

Loose-leaf Binders, Special Ruling and Stock Forms.—The Advocate.

HE GOT THE BUCK. WE GOT CUSSED

The following communication received this morning is additional evidence that the life of a newspaperman in a small community is one continuous round of pleasure: Friend Editor:

I see by your most useful paper that George Gage heads the list of successful hunters who have returned with their deer. Now if you had said that George was just naturally the poorest deer hunter in or out of the woods, or that he was the ugliest of the returned deer hunters, or had the biggest feet, I would not have made a dissenting sound, but when you give him credit for returning with a buck and give people the impression that he killed it, honesty bids me make known the facts. "I" shot this said deer that this said George returned with while said deer was in the act of running straight away from me. I did, solemnly and truthfully shoot him twice in the part nearest me and he did die and George Gage returned with him and me.

FONE 65

The Latest CORONA

No radical changes.

But some interesting refinements and a few added features.

For one thing you may now have a paper bail on your Corona, if you prefer the bail to paper fingers.

You may also order your machine equipped with 1, 1½, 2 line spacing. All typewriters will space single or double between lines; but the 1½ space is something new. It gives a very pleasing effect to a letter and allows you to get more words on a page.

There are other interesting things to learn about the latest Corona. We haven't the space here to describe them; but we will gladly explain them fully if you will drop in or phone us.

ARTESIA ADVOCATE

ARTESIA, N. M.

PRESIDENT HOOVER HAS STARTED ANNUAL MESSAGE TO CONGRESS

WASHINGTON—President Hoover began writing his message to congress Monday as a demand arose for him to call the newly elected members into extra session next spring.

Work on the annual message was done in the seclusion of his executive office and no indication came of either its nature or his progress upon it. He already has said he planned to call for an additional appropriation for public works to relieve the stress of unemployment.

The proposal for an extra session came from Senator Walsh of Montana, the assistant democratic leader. He said all public questions, including the world court, could not be disposed of at the approaching short term.

However, Senator Walsh asserted he would not countenance any move to force the extra session by blocking appropriation bills at the approaching short term. He said "the responsibility belongs to Mr. Hoover."

There was more talk Monday at the capitol about prospective unemployment legislation but this has not crystallized pending announcement by the administration of its plans. Senator Borah of Idaho remarked that "no dollar in the treasury is sacred against the man who is hungry," but he, too, was waiting to hear what was planned.

BEAVER MILO SHOWS TO GOOD ADVANTAGE

The first seed list for the coming year of the New Mexico Crop Improvement Association has just been issued and includes some of the purest and most viable seed that have been growing in the state, says G. R. Quessenberry of the New Mexico Agricultural College. The list includes several growers of Beaver milo, a new type of grain sorghum produced largely in eastern New Mexico, parts of west Texas and Oklahoma, but everywhere on a very small scale.

One of the principal objections to milo has been the recurring, which makes it difficult to harvest; also in New Mexico, following a freeze, much of it fell and lodged, which made harvesting very slow. Beaver milo grows upright and during the 1929 season, the trial plots which were rather evenly distributed over the east central part of the state, showed practically no lodging. Increase seed from these plots was planted over a rather large acreage in Quay county and has shown, up to this time, few or no fallen plants. One field is being left to determine how long it will remain upright under adverse conditions.

This variety resembles the dwarf milo, except that it has an erect head, also the stem is slightly heavier. As yet, it is not known how it will compare with the dwarf type, but fields harvested indicate little or no difference. Some of it, which was apparently a complete failure in July, by the latter part of September showed an excellent crop, which proves that it can recuperate as readily from adverse conditions as any other grain sorghums. One of the best crops of this variety in the state was produced with less than two inches of rainfall from the date planted until the crop was mature. The soil naturally had some moisture at planting time which carried it until late in the season. All farmers who grew any of it during the present year state they are well satisfied and expect to increase their acreage in 1931 as they feel by its upright growth it will solve the problem of harvesting, which has been so difficult to handle on a large scale in previous years.

SEED LOAN PLANNED

WASHINGTON—An appropriation of \$60,000,000 for loans to farmers in the drouth areas with which to buy seed, fertilizer and other necessities for planting next year's crops is planned by the administration.

The measure, now being drafted at the capitol, will be among the first to be presented to congress when it convenes for the short session on December 1. Senator McNary, republican, Oregon, the chairman of the agricultural committee, probably will sponsor the measure in that branch.

The seed loans will be made available to the farmers of the twenty-one states included in the drouth area during the emergency relief period and probably will be dispensed by the department of agriculture. This legislation, together with the bills to expand the government building program in the interest of relieving unemployment, will command first attention of the congress under the administration's program.

NOTICE TO TAX PAYERS

Your 1930 taxes are now due and payable and will become delinquent December 1st, when a penalty will be added. R. E. Wilkinson, County Treasurer. 48-3te-2i

TALKING PICTURE
"A TRIP THROUGH
THE FORD PLANT"

HEAR

THOUSANDS of people from all over the world visit the Ford plant every year. Now this vast industrial organization is brought direct to you by an intensely interesting Talking Motion Picture. Come see where and how America's most

popular motor car is built. Only when you see and hear efficiency and economy and craftsmanship have been into mass production can you realize how so much value can be given in the Ford car without increase in price.

ACTUAL FORD CAR SAWED IN TWO

You don't have to be a mechanic to appreciate this feature. There's a cut-away chassis of a Ford truck too. Women as well as men show great interest in this revelation of vital

mechanical parts that are seldom seen. Many things you have always wanted to know about the construction and operation of the Ford car and truck are clearly explained.

FIRST TIME IN THIS VICINITY

COMPLETE SHOWING
OF FORD CARS
AND TRUCKS

Don't miss the new Ford De Luxe Body Types. Distinctive in line and color. Smart in new appointments. Rich and luxurious in their interior trim and upholstery. You will be interested, too, in the reasons why so many leading manufacturers and stores have chosen the rugged Ford truck and the swift Ford delivery cars.

There are many other features and displays that in themselves make the Ford show worth a visit. You will learn about the safety of the Triplex shatter-proof glass windshield, the strength of the sturdy Ford steel-spoke wheels, the comfort of the Houd double-acting hydraulic shock absorbers, and the lasting brilliance of Rustless Steel.

Artesia Auto Company

Telephone 52

Come and bring your friends and be the guest of The Artesia Auto Company. Tent will be heated with natural gas and well lighted.

Final Step in Assembly of Ford Cars

This is a scene from the moving picture of a tour through the plants of the Ford Motor Company, one of the features of the Ford road show. The picture shows the final assembly line on which the Ford is put together part by part as it moves slowly forward until at the end of the line the completed car is driven away under its own power. Parts are served the workmen by conveyors. Each part is timed to arrive at precisely the right moment. In this illustration, the chassis of the car in the foreground has been completed and a body is being lowered by a crane from a balcony.

LOCALS

T. M. Jeffers of Pinon spent the week end in Artesia.

Mrs. Martin O'Brien and Mrs. Jim Nellis motored to Roswell Monday.

Miss Maggie Hollis of Hobbs, was visiting friends here over the week end.

Rev. and Mrs. Harold Scoggins and son, Grant, made a trip to Roswell Saturday.

Mrs. C. V. Brainard and Mrs. Reed Brainard and children were Roswell visitors Saturday.

Frank Privett returned Saturday from a month's trip to Fredonia and other points in Kansas.

Mr. and Mrs. F. S. Donnell of Santa Fe were visiting friends and attending to business matters here Friday.

Richard Westaway of Carlsbad, deputy tax assessor, spent a short time here Tuesday, attending to official duties.

Charles Miller, geologist for the Gypsy Oil Co., has been transferred to the Roswell office and the family will move there tomorrow.

Mrs. H. C. Garrison of Dexter spent two days here last week visiting at the home of her daughter, Mrs. Roy Pior and Mr. Pior.

Dr. O. E. Puckett, of Carlsbad, county health officers spent Tuesday here, testing school children for successful vaccination of typhoid fever.

Messrs. Glenn Staley and John Michael of Hobbs, stopped off in Artesia a short time Saturday en route to the hills, where they went in quest of deer.

Mrs. Dan Eipper returned from a six months absence during which time she visited relatives in Illinois and friends in Pennsylvania and saw various points of interest in the east.

Artesia people who remember, W. M. Todd, one of the former publishers of the Advocate, may be interested to learn of his appointment to the office of justice of the peace at Alamogordo recently.

Messrs. E. B. Ward and Cleve Ward of Springfield, Missouri stopped of recently for a visit with their old time friends, J. E. Robertson and family, while en route to Mexico to see their brother, Lloyd Ward.

RHEA FLETCHER WILL BE TRIED IN CHAVES COUNTY COURT DEC. 1

Rhea Fletcher, charged with murder in the first degree, will be tried in Chaves county at the present term of district court, it was announced at Roswell Monday. The case has been tentatively set for trial on Monday December 1, it was announced.

Rhea Fletcher is charged with the murder of William Frese at Hobbs on August 29. Following the killing feeling ran high in Lea county and a mob formed at Hobbs and was on its way to Lovington when Fletcher was brought to Roswell where he has been held since that time for safe keeping.

The indictment in this case charges that Fletcher wantonly, wilfully and maliciously killed William Frese, a youth of 18 years, following an argument at Hobbs. Fletcher was a taxi driver in Hobbs and Frese was visiting his brother at the time.

The case came to Chaves county on a change of venue from Lea county, it being agreed to by both attorney for the defendant and the district attorney's office. — Roswell Record.

WILL RESIST EFFORTS TO LOWER WOOL TARIFF

Definite move to block any reduction in tariff schedules for southern products in the next short term of congress has been launched by the Southern Tariff Association. Vance Muse, organization director for the association who is conferring with ranchmen, cotton growers, independent oil producers and other groups affiliated with the Southern Tariff Association at Roswell Monday.

A defense committee of southern producers has been organized to offset the recent application of the Carded Woolen manufacturers for the readjustment of the tariff schedules on wool and wool waste. Success of their efforts will mean much to ranchers, cotton growers and independent oil operators in this vicinity Mr. Muse, whose headquarters are in Ft. Worth and Washington, D. C. said.

ROSSELL MAN KILLED IN AUTO ACCIDENT

P. R. Crunk, Roswell resident was instantly killed and Mrs. Lester B. Lynch and three children also of Roswell were injured Saturday, near Bronco, Texas, when the automobile in which they were riding left the road. As Crunk attempted to pass another car; his car skidded from the road and overturned three times. A coroner's jury empaneled at Bronco, rendered a verdict that Crunk had met his death in an auto accident. Mrs. Crunk, wife of the deceased, underwent a major operation in a Roswell hospital a few days previous to the accident. Crunk was employed as a lineman for the Southwestern Public Service Co.

IN THE MATTER OF THE ESTATE OF TELESFERO M. BERNAL,
Deceased.
No. 649.

NOTICE OF APPOINTMENT OF ADMINISTRATOR

Notice is hereby given that the undersigned was, on the 18th day of October, 1930, appointed administrator of the estate of Telesforo M. Bernal, Deceased, by Honorable M. O. Grantham, Probate Judge of Eddy County, New Mexico.

Therefore, all persons having claims against said estate are hereby notified to file same with the County Clerk of Eddy County, New Mexico, within one (1) year from date of said appointment, as provided by law, or the same will be barred.

ESTABAN BERNAL, Administrator.

ELECTION PROCLAMATION TO THE QUALIFIED VOTERS OF THE LAKE ARTHUR DRAINAGE DISTRICT:

I, I. S. Reser, Chairman of the Commissioners of the Lake Arthur Drainage District in accordance with law, fixing the time for the election of Commissioners, and by virtue of authority in me vested by law do hereby proclaim and declare that a regular election of three members of the Board of Commissioners of the above named Lake Arthur Drainage District in Chaves and Eddy Counties of the State of New Mexico, in place of I. S. Reser, E. C. Jackson and C. E. Mann, whose terms are now expiring as members of said Board. Said election is to be held in the town of Lake Arthur, New Mexico, in the office of E. C. Jackson, on Tuesday, December 2nd, 1930, between the hours of nine a. m. and six p. m. Judges named to conduct said election are Victor Buel, W. R. Foster and A. V. Flowers.

No list of candidates have been filed with the Secretary of the Board for said election. All qualified electors within the Lake Arthur Drainage District, and any persons residing in Chaves and Eddy Counties, who are owners of agricultural land within the said Lake Arthur Drainage District will be entitled to vote.

This notice is to be published in The Artesia Advocate, Artesia, New Mexico for four issues.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Secretary of said District to affix the seal of the District hereto, this, 5th day of November, 1930 (SEAL)

I. S. RESER, Chairman,
C. E. MANN Secretary.

NOTICE TO TAX PAYERS

Your 1930 taxes are now due and payable and will become delinquent December 1st, when a penalty will be added. R. E. Wilkinson, County Treasurer.

DEMOCRATS HAVE A MAJORITY IN THE HOUSE OF REPRESENTATIVES

SANTA FE — Virtually complete returns on the legislature as compiled by the office of the secretary of state give the democrats a majority of seven in the house of representatives. The count shows 28 democrats and 21 republicans.

The republican count includes two representatives from McKinley county where there is a possibility that their election will be contested by the defeated democrats. Should that contest be sustained the democrats would have 30 members as opposed to the republican 19.

The revised personnel of the house or representatives, which is believed to be correct without further change follows:

1. Valencia (two republicans) Melquiades Chavez and Eliso Salazar.
2. Socorro-Catron (democrats) J. B. Woods and Mrs. P. Saiz.
3. Bernalillo (three democrats) Orlando Ulbarrit, Mrs. H. L. Hogrefe and Merritt Ildaker.
4. Santa Fe (two republicans) Remigio Lopez and Robert Montoya.
5. Rio Arriba (two republicans) Perez Quintana and Narciso Martinez.
6. San Miguel (three republicans) Julian Prada, Juan B. Gallegos and Luis Alvarez.
7. Mora (two republicans) Demetrio Quintana and Mrs. Ezequiel Gallegos.
8. Colfax (two democrats) J. T. Fernandez and Fred Broughton.
9. Taos (two republicans) A. A. Rivera and Benito A. Valdez.
10. Sandoval, (one republican) Fernando Sandoval.
11. Harding (one democrat) Louis De Baca.
12. Union (one democrat) Hill Burrows.
13. Torrance (one republican) R. M. Kranawitter.
14. Guadalupe (one democrat or independent) Benito Baca.
15. McKinley (two republicans) J. F. Branson and Mike Montoya.
16. Dona Ana (two democrats) W. H. Gary and E. C. Vigil.
17. Lincoln (one democrat) Mrs. Marie Cavanaugh.
18. Otero (one democrat) W. D. Bryars.
19. Chaves (three democrats) Willis Ford, Clarence Hinkle, and Emmett Patton.
20. Lea-Eddy (two democrats) W. M. Beauchamp and J. D. Hudgins.
21. De Baca-Roosevelt (one democrat) Mrs. Blanche Trigg.
22. Luna (one republican) William A. Spence.
23. Grant-Hidalgo (2 democrats) Alvan N. White and John to Muir.
24. Sierra (one democrat) Sam N. Matson.
25. San Juan (one democrat) Ed H. Foster.
26. Quay (two democrats) J. D. Lamb and O. S. Greaser.
27. Curry (one democrat) H. M. Pile.
28. Rio Arriba-Sandoval (one republican) Meregildo Martinez.
29. Guadalupe-Santa Fe-Torrance (one republican) Manuel Martinez.
30. Guadalupe-San Miguel (one republican) Nicanor Aguilar.
31. Lincoln-Otero-Socorro (one democrat) A. C. Torres.

TWO SAW WAY TO LIBERTY

George Scarborough and Ira E. White, inmates of the Chaves county jail in Roswell, sawed their way to liberty early Friday morning. The escape was effected by sawing two bars of the west window of the jail round house. Scarborough was being held in the Chaves county jail for safe keeping for Roosevelt county, being charged with Joe Coker and John Watson with robbery of several stores in Elida and an attempted robbery of the First National Bank of Elida. The three men are charged with the theft of a Ford car from O. O. Askren, Roswell attorney. After committing the Elida robbery, they are said to have overturned the car en route to Hobbs, the point they were finally arrested. White was arrested for an alleged violation of the Dyer act, having transported a stolen car from Illinois to this state.

OVER SEVEN MILLION DOLLARS TO N. M. SCHOOLS IN YEAR 1930

SANTA FE—The receipts received by the state schools during the year amounted to \$7,054,981.20. This amount was derived from the following sources:

Income from permanent state funds	\$ 56,108.15
Income from leases of school lands	769,196.59
From taxation	5,727,325.70
From federal reimbursement for vocational education	25,706.00
From forest service earnings	16,151.00
From miscellaneous revenues	58,445.76
From proceeds of bond sales	402,048.00
Total	\$7,054,981.20

MANY SUCCESSFUL DEER HUNTERS CONTINUE TO RETURN FROM HILLS

Successful hunters continue to return with their bucks. Local sportsmen coming in during the middle and latter part of the season appeared to have fared well. An early report from Alamogordo is to the effect that 100 bucks had been checked out of Alamo canyon. Turkeys were reported plentiful in many regions of the Sacramento mountains, but deer were not found quite so numerous, except in a few areas.

Nevil Muncy brought in the first cactus buck seen in Artesia, last week Ray Bartlett and E. A. Hannah each secured a buck and Mr. Bartlett got his quota of turkeys in addition. John and Albert Richards secured a buck a piece. L. P. Evans bagged the limit of turkeys, while his companion George Henderson got his buck.

M. R. Jones and son, Percy, brot down a partnership nine point buck. Other hunters to bring home their buck included J. J. Schnoor, Carl Jenks and A. Buel, R. C. Withers, John Shearman and the latter's brother-in-law from Kansas, returned with fine bucks and turkeys. Elzie Swift brought in a 12 point buck from the Wood's tank neighborhood. Mr. Hickox of Emporia, Kansas bagged a 12 point buck. Other successful hunters returning yesterday were Alf Coll, Britton Coll, W. C. Gray, Ed Gray and Roy Spivey.

Charles Roady and Ted Carter were also among the hunters to bring in a buck. Eight hunters in the party with M. W. Evans made a quota of 100 per cent, in fact if turkeys, trout and squirrels count for anything these hunters made a return of about one hundred and forty per cent. Each of the nine men secured a buck, and in addition the bunch bagged five turkeys, forty-five squirrels, and fifty trout. In the party were M. W. Evans, W. H. Cheney and Dick Gardner of Artesia, J. R. Ogden of Carlsbad, John Tweedy, Chas. Smith, Carl McNally, Leland Fellows, J. E. Samson, all of Roswell.

He had spoken to her on the street and she was properly insulted.

"I don't know you from Adam!" she exclaimed, indignantly.

"You ought," he returned mildly.

"I'm dressed different."

Mrs. Wesley Knowles of Guymon, Oklahoma and Mrs. Wicher Angel of Carlsbad, spent Saturday here, visiting Mrs. Grant Knepple. Mrs. Knowles, who was Miss Grace McDonald of Lakewood, also visited her sister-in-law, Mrs. Glenn O'Bannon on the Cottonwood, while Mr. Knowles was on a hunting trip with Mr. O'Bannon.

SCIENCE AND LOVE SAVE BRIDE'S LIFE

Navy Aids Stoker in Long Trip to Wife's Side.

London.—Science and love joined hands here to save the life of pretty Mrs. Margaret Bennett, youthful bride of a naval stoker.

The spectacular incident was watched with interest and sympathy by the entire nation.

Years ago Margaret and Will Bennett were childhood sweethearts in the Devonshire village of Newton Poppleford. Last December they were married and a few weeks later Bennett left to join his ship for a two-year cruise in the South Atlantic and Pacific.

Recently the young bride became desperately ill. At the hospital a staff of highly skilled physicians and nurses began the fight for life.

They despaired as they watched their tense, pale patient grow steadily worse until she fell into delirium. Here the great drama began.

Through the long hours of the day and night she mumbled "Will" and "I want Will." They appealed to the admiralty to order the young stoker home.

Stoker Bennett, then in South American waters, was given a special leave and rushed for London.

Newspapers reported his progress and his bride's condition. Physicians consulted colleagues and all was done to maintain the tiny spark of life until the 5,000-mile trip had ended. They succeeded and one day "Will" walked rapidly up a hospital corridor and into his wife's room.

"My Will," she cried weakly, struggling to rise. "Thank God."

Stoker Bennett isn't going back to his ship until she is fully recovered and the doctors now say this is virtually assured.

Horse on Milk Wagon Is Trained to Keep Quiet

Washington.—Found! An ideal milk wagon horse. No longer will the residents of certain streets in Washington be disturbed at early hours of the morning by clatter of hoofs and loud shouts of "whoa" and "giddap." Bud, a diligent worker for one of the Capital city's milk companies, has carefully considered the feelings of a peaceful sleeper and has allowed his master to teach him the latest methods of keeping quiet.

With rubber shoes on his feet, Bud comes into the residential section without detection. When the time comes for his driver to deliver the milk, Bud is halted with merely a "shush" instead of the usual "whoa." When his master is down the street there is no need for a loud "giddap" to bring Bud along. A wave of the hand starts the rubber-soled feet into motion and Washington's residents sleep on, unaware of the visit of the milk wagon until they find their milk in its usual place.

CIVILIZATION MAY WIPE OUT ESKIMOS

Arctic Visitor Says Race Faces Extinction.

New York.—Mrs. Maude Radford Warren, writer and traveler, returned recently from a three months' journey within the Arctic circle, in the northwestern part of Canada with Aklavik as her headquarters. She traveled alone, with the aid of Indian and Eskimo guides, except when she went by airplane, the most comfortable means of travel in the Northwest.

Of strong physique and indifferent to hardships, Mrs. Warren found the life of the frontier villages the "most thrilling adventure" she had known since her work in first aid stations during the war, but does not recommend the trip to the average woman traveler. "Bulldogs," or moose flies, as big as wasps and twice as voracious, impaired the pleasure of sleeping out of doors, she confessed.

Influence Wiping Out Race.

Mrs. Warren returns an enthusiastic admirer of the Eskimo, a cheerful and industrious people, but she is alarmed lest they vanish from the Northwest within 50 years. "The Eskimos are dying off in great numbers from the ravages of influenza and other diseases brought in by the white man," she said. "They have learned to eat white man's food instead of the good caribou meat and fish which used to be their chief diet. This summer I saw them eating soggy pancakes covered with syrup three times a day."

"The Indians have an arrangement with the Canadian government by which they 'take treaty,' becoming the wards of the government, and are thus guaranteed against starvation. But the Eskimos, being a more independent race, have no such arrangement. The white man could not survive within the Arctic circle without the Eskimo and the Indian."

Village Life Simple.

Mrs. Warren found village life in Aklavik charmingly simple for one who longed to escape the trivialities of modern America, but confessed she would not care to endure it permanently.

"In the winter there is no amusement at all, not even a pool table, in the entire village," she said. "They read all winter, after their day's work is done. The newspapers are brought in during the summer and they save them, in order, and read them later day by day."

"There are seven nuns in the village and five other white women connected with the Anglican missions. There is also one American woman who runs the restaurant."

"The people in Aklavik prefer the long lonesome winter to the uncertainties of summer, when strangers come poking into their peaceful village, and inspectors and all sorts of officials disturb their routine."

Pipe Organ Lights Aid Teaching in N. Y. Schools

Battleboro, Vt.—Perfection of a method of visual instruction which will be made available to musical educators for the first time through automatic pipe organs now being built for New York public schools was announced here at the organ works where seven of the instruments are under construction.

The new construction is based on inventions of Harry F. Waters of Larchmont, N. Y.

In the new automatic reproducing organs each stop tablet will have a colored electric light directly over it. This light will flash as that particular stop or set of pipes is brought into the composition by playing of the roll. Under full automatic operation, these stops will be both indicated by the lights and played by the action of the roll, so that an entire classroom can observe and identify the stop with the tone quality as it is registered.

For individual instruction in organ registration, the roll can be played semi-automatically; the stops to be used will be indicated by the lights, requiring the person at the key desk to depress the stop tablets as their use is called for in the composition.

How Color Affects Man

Man has apparently become careless about one of the most important items in his environment—color. As soon as he realizes fully the inhibitive and repressive influence of drab, uninteresting color surroundings, the vistas about him will be immediately transformed. Man has always conquered or changed conditions unfavorable to his best development. There is no reason to believe that he will not rise to the present situation and reinstate into his daily life the color which is so important to his well-being.

MISSING DEER HUNTER MAY BE LOCATED IN EL PASO IS REPORT

Lester Williams, Carlsbad hunter, who disappeared from camp near Pinon, on the 11th, was still missing according to an early report, after a fruitless search over the surrounding country side. Williams a world war veteran, talked irrational immediately before he disappeared and may have wandered to a road where he was picked up by Texas hunters, companions of Williams believe. After Williams complained of being ill, Hiram Medlam, one of the party of hunters, went toward the camp as if to summon a doctor. Medlam, it was said walked a short distance, turned back and saw Williams approaching. When Williams was within half a block of his companion, he turned into the brush. That was the last seen of the missing man.

When members of the party noticed Williams talking irrationally, they decided to end the trip, but not until the evening of the 11th, when all members of the hunting party were in camp at one time. Williams was believed to have fired two shots from his gun after disappearing. One of the party is of the opinion that he tracked the missing man to the road to Blue Water.

The search for Lester Williams, who disappeared in the Sacramento mountains last week while with a party of other Carlsbad men, was believed to be nearly ended, Tuesday morning.

John Wheat of Carlsbad and Williams' brother, who lives in Pecos, left Carlsbad Monday, and traced the missing man to El Paso by way of Artesia, from where the report came Monday that he had been seen in the mountains 25 miles from where he disappeared in the undergrowth.

Tuesday morning Wheat telephoned from El Paso to E. H. Weaver, who was in the hunting party with Williams, that the missing man had been traced to that city and that he searched believed they would be able to find him.

Scientist Finds Ancient Idol of Pre-Aztec Era

Mexico, City.—What is alleged to be the largest idol ever found in America was discovered recently near Teoco, 40 miles from Mexico City, by a Hindu archeologist, Pandurang Khankhoje. It is 3 feet high and is supposed to date back to pre-Aztec times.

Its existence is said to have been known in the days of Porfirio Diaz, president of Mexico in 1877-80, and again in 1884-1911, although no books mentioned it.

The stone idol represents the Goddess of Water and is called Chalcutlique. It has a thickness of 20 feet and is fantastically carved. Traces of the original green paint which ornamented the head are still visible.

The ancient image will probably have to lie in the deep ditch where it was found because it would be necessary to build a railroad to haul it out.

Woman Builds Shrine That Attracts Tourists

Canton, Ohio.—Mrs. Joseph Naegellen spent several weeks of hard labor building, with her own hands, a miniature shrine of Our Lady of Lourdes. Hundreds of persons from many parts of the state now make pilgrimages to her shrine. Mrs. Naegellen's shrine is a place of beauty. Flowers bloom in a profusion of colors around it and small granite stones decorate the backyard in artistic design.

Yes, Sir, This Must Be Ye Perfect Humbug!

Cambridge, England.—Mark Webb, bacteriologist, told students that two youths who had grafted the head of a bee on a beetle afterward maintained they had evolved the perfect humbug.

Knife User Bitten, Opponent Wounded

San Francisco.—Attacks committed on each other by two sent both to the hospital. Julio Heredia was treated at the Harbor Emergency for a badly lacerated ear. He said George Rogas had bitten it. Rogas was treated for a knife wound on the thigh, which he said Heredia made. They had been drinking, police reported.

HOW

HUMAN BODY REACTS TO ABSTINENCE FROM FOOD.—A human being can live without food for a relatively long time without injury to his body. When an organism fasts it merely subsists on the nutrient in its own tissues. Prof. Sergius Morgulis points out in Hygeia Magazine.

It is not uncommon for devotees of certain religious sects to abstain from nourishment for periods up to a month without their health being thereby undiminished. In Japan there are temples to which pilgrims retire to pray and to fast for weeks on end, to purify their souls and to regain lost health. Terence McSwiney, the lord mayor of Cork, who starved himself to death a few years ago, made the longest fast on record, Professor Morgulis says. It is not entirely certain, however, whether the fast was complete, since it is not known to what extent his followers may have resorted to forced feeding. Nevertheless the case illustrates dramatically the power of the human organism to survive lack of nourishment.

At first sight it seems reasonable to suppose that one could survive as long as his reserves held out. Strictly speaking, this is not true, however, because chemical changes take place in the body that cause an intoxication that in turn leads to death. Death from starvation, therefore, is not an exhaustion death, but death from severe intoxication.

You would not think of employing unskilled labor to do the work of a high class salesman—it's just as serious a matter to use only good printing. Try the Advocate, phone 7
