Post Office Helps Count Livestock

Rural mail carriers from the Depot and Pattonville Post Offices will leave some livestock survey cards along their routes beginning Nov. 20.

"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms," the Postmaster explained. Rural carriers distribute the cards at random in boxes along their routes. "This means that not every box will get a card," the postmaster said. "For this reason, it's important for everyone who gets a card to return it filled out so that USDA can get a true sample of the State's livestock holdings."

Carriers assisting with the survey are:

Doyle Whitaker, Route 1; David Scaff, Route 2, of Depot, and John D. Ball of Pattonville Route 1.

Facts and figures secured in this survey are the basis for Texas and National pig crop report and inventories of livestock and poultry on farms as of the first of the year. Stockmen and many others use this information in making business decisions.

Survey results will be widely distributed through Texas Crop and Livestock Reporting Service releases, newspapers, farm magazines, radio, and television.

Seven Counties Eligible Work Aid

Lamar, Red River and Titus Counties, along with neighboring Bowie, Delta, Franklin and Fannin Counties, have been declared qualified for grants, loans and technical aid under the new Economic Development Administration. The financial help available would emphasize planning and coordination to create permanent new jobs in areas suffering from high unemployment or low family income.

The qualified areas must request such loan and grant assistance and are not officially designated until an overall plan has been approved. Lamar and Red River and most other counties have had overall plans approved.

"Grants and loans will finance public works and facilities vitally needed to support existing industry and encourage new business development," the announcement said. "Loans will be available also for industrial commercial projects which will open new and permanent jobs."

Texas roadside scene is about to take place. Gov. John Connally has pledged full cooperation with the Federal government in connection with the new Highway Beautification Act. A legislative council committee here now is considering the legal steps necessary in Texas to enforce provisions of the Act. This to prevent loss of U. S. funds.

State Highway Engineer D. C. Greer is outlining an initial plan of compliance with the Federal law which proposes control of scenery-spoiling billboards and junkyards and general scenic enhancement along 17,589 miles of Texas' Federal-Aid highways alone.

Texas Highway Department, Greer reports, already is taking steps to put into effect an expanded program of landscaping and beautification at a cost of about \$10,000,000. Program will cover a two-year period and will include planting projects, rest areas, irrigation systems and possible scenic easements at selected overlooks and natural-beauty spots.

Greer anticipates Texas will get about \$6,000,000 a year in federal funds for this work.

He has called for a complete inventory of junkyards and large outdoor advertising signs and devices within 600 feet of highways. Some of the junkyards, Greer emphasized, will be screened by plantings, fences and other means in the near future.

Meanwhile, information from the inventories will be used in studies of needed state legislation, including zoning of industrial and commercial areas along the state highway system as called for in the beautification act.

INTEREST RATES STUDIED — State Banking Commissioner J. M. Falkner, on the heels of a new policy announced by U. S. Comptroller of the Currency James J. Saxon, has asked Atty. Gen. Waggoner Carr whether state banks may charge the same interest rates as loan companies.

Saxon said national banks in Texas may charge the same interest as loan companies regulated by the state. So Falkner wants to know if the State Banking Department should let state banks exceed the constitutional interest limit of 10 per cent.

Texas law authorizes small loan companies to make loans with rates scaled from \$1 interest on a \$5 loan to about 17 per cent for loans up to \$1,500.

Governor Connally vetoed a bill earlier this year authorizing banks to raise their rates to 17% each year on \$100 loans up to \$1,500 and 14% per \$100 on loans between \$1,500 and \$5,000 a year.

Question now is whether state banks may charge the same inter-

Austin. — A facelifting of the est rates as loan companies and national banks in Texas.

COURTS SPEAK — Houston Independent School District must pay its \$82,899 phone bill, State Supreme Court ruled. Court held that the school must pay Southwestern Bell Telephone Company full business rate of \$16.50 per month for service rather than residential rate of \$5.90 it had tried to settle for under a 1911 city ordinance.

Court refused to hear a suit alleging malpractice against a former Littlefield physician. Woman attempting to bring suit claimed the doctor left a gauze pad in an incision during an appendectomy.

Court of Criminal Appeals for second time upheld murder conviction of a Midland man, Marvin Clewis, who received a 25-year sentence for slaying his wife.

CRIMINAL CODE REVIEWED — Texas' much-maligned new code of criminal procedure was defined by State Bar official, Fred Erisman of Longview, at a three-day institute to study its provisions here.

Erisman said code brings Texas criminal statutes in line with modern-day decisions of U. S. Supreme Court. It means little to law enforcement, he maintained, to obtain convictions, only to have Supreme Court set the defendant free because of unconstitutional procedures.

SECURITIES SALES HIT RECORD — Securities approved for sale in Texas reached an all-time high of \$283,300,000 during fiscal year just ended, according to University of Texas Bureau of Business Research.

Total was \$66,900,000 or 31 per cent over fiscal 1964, despite a major market upset during 1965.

Activity, Bureau predicts, will "continue to be strong so long as the economy continues to expand."

W. O. P. EMBARRASSED — Dr. William H. Crook, southwest region director of the War on Poverty, said the program is temporarily "embarrassed by success."

Project Head Start, a child development program, has met such tremendous national success that there isn't enough money to meet the demand.

Regional office here now has 67 Head Start applications, totaling more than \$15,000,000.

LAND OFFICE ACTIVE — First oil and gas lease sale for 1966 will be held February 1 at the General Land Office. Nominations for tracts must be in the Land Office by December 8.

Land Commissioner Jerry Sadler says his department's activities added \$87,000,000 to the permanent school fund this year, boosting the fund to \$654,000,000.
