FIRST BALE AWARD—Bentley Baize, left center, presents a premium check to Howard Franklin, producer of the first bale of 1965 cotton ginned in Scurry County. The presentation was made Thursday evening at the Chamber of Commerce booth at the Scurry County Fair. Baize is co-chairman of the Chamber of Commerce Agriculture Committee. Members of the Chamber's Producer's Club (gold coaters) on hand for the presentation were, from left, Mel Zane Gilbert, Hershel Hinshaw, Dr. John Blum, Dr. Jack Nesbit, Jack Lawrence, Tommy Deffebach, Max von Roeder and Derrell Parrish. Franklin brought in the first 1965 bale on Sept. 2 and had it ginned at the Paymaster Gin.

LBJ's Surgery Termed As 'Complete Success'

By FRANK CORMIER

WASHINGTON (AP) — President Johnson's gall bladder operation was performed without complications today, and three hours later he was reported "doing well."

However, White House press secretary Bill D. Moyers said Johnson, as would any patient recovering from a gall bladder operation, was "experiencing mild discomfort."

The operation itself went "beautifully and as expected," in the words of one of the doctors.

It was pronounced a "complete success."

The surgical team did find and remove a kidney stone in the ureter as well as removing the faulty gall bladder.

The ureter is a passage through which urine is voided.

Johnson was in the operating room from 7 a.m., EDT, to 9:15.

Moyers reported that Johnson began to emerge from an anesthetic sleep less than an hour after the surgery by a medical team enlisted in part from the famed Mayo Clinic.

He said he had talked with the President about 11 a.m.

Moyers said the doctors told him the operation was "routine." He said there was no cardiac irregularity at all and that the President's blood pressure remained normal throughout.

During the operation, Mrs. Johnson and daughter Luci, 18, remained in the bedroom across the hall from the President's.

A general anesthetic was used.

The medical estimate was that the President should remain in the hospital for 10 days to two weeks.

As is customary in abdominal surgery, there will be an early effort to get the patient to take a few steps and maintain muscle tone. The first may come before the day is out.

Vice President Hubert H. Humphrey, acting under arrangements made by the President, took over as standby chief executive of the nation.

A few minutes after the surgery, Moyers gave word to newsmen that the operation was over and said the President was "resting well in the operating suite."

He said Johnson was recovering normally.

Moyers' statement that a stone was also located in the ureter means a kidney stone was also found in addition to a gallstone.

The ureter is a tube leading from the kidney for the passage of urine to the outside of the body.

No mention of the possibility of a kidney stone had been made in previous discussions of the President's current illness.

But the President has a history of kidney stones, having had two of them removed over the years — one by surgery and another one by manipulation at a different time.

McNamara Says War Is 'Stabilized'

By FRED S. HOFFMAN

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara believes the situation in Viet Nam has stabilized since the United States began funneling large numbers of U.S. troops into war, it became known today.

However, he is not yet ready to join those who say the tide has turned and that the anti-Communist side is winning.

About the most optimistic evaluation he has made is that U.S. Army, Air Force, Marine and Navy forces have made remarkable achievements and that the Communist Viet Cong have failed in their efforts to cut South Viet Nam in two and to destroy the morale of the South Vietnamese troops.

He is best described as remaining cautiously optimistic.

It is known that McNamara believes it best that the gains should not be overemphasized because much hard fighting lies ahead.

He considers it important to remember that the Communists still control large parts of South Viet Nam, that they continue to impose taxes and to draft young men from the population and that they still have the ability to cut roads and other communications linking Viet Nam cities and towns.

Gen. Harold K. Johnson, Army chief of staff, told the National Security Industrial Association Thursday "we are doing well" in Viet Nam and "we are taking advantage of our progress to do even better."

U.S. forces in Viet Nam, which numbered only about 23,000 at the start of 1965 are about to top 140,000. And this is not the end of the buildup.

Meanwhile, the U.S. government apparently is trying to prod the Communist North Vietnamese to the negotiating table by stressing the theme that the North Vietnamese are shedding blood to further the aims of Communist China.

In a speech to the same association Thursday night, Deputy Secretary of Defense Cyrus R. Vance called on the Hanoi regime to "ponder whether its future is best secured by fully submerging its own separate interest to Peking."

Vance, second in command at the Pentagon, noted that Red Chinese Defense Minister Lin Piao recently declared that the war in Viet Nam is the focus of a worldwide revolutionary movement against the United States and that Red China is determined to drive U.S forces from Viet Nam.

Soft Landing On Moon A Failure

By FRED W. COLEMAN

MOSCOW (AP) — The unmanned Soviet satellite Luna 7 hit the moon early today and Tass indicated it was a crash landing.

It was the third unsuccessful Russian attempt in six months to make history's first soft landing on the moon.

Tass, the official Soviet news agency, announced that "most operations necessary for a soft landing were fulfilled during the approach to the moon."

But it added that "some operations, however, were not carried out in accordance with the program and needed additional development."

The Tass announcement was the first official indication that Luna 7 had attempted a soft landing. No specific mission for Luna 7 had been announced in advance.

Tass said the scientific instrument package landed on the moon in the area of the Ocean of the Storms, west of Kepler, Crater, at 1:08 a.m. local time (5:08 p.m. EST Thursday). The landing was on schedule.

But the Russians waited more than 13 hours to announce it, indicating that the landing had been unsuccessful. Successful shots are announced quickly.

Sir Bernard Lovell, director of Britain's big Jodrell Bank radio telescope, said all evidence indicated that the unmanned moon rocket had destroyed itself on hitting the moon.

FOREIGN STUDENTS FEATURED—Photographs of the seven foreign exchange students who have attended Snyder High School and the five American Abroad students from Snyder who have gone overseas are featured in the local American Field Service Chapter's booth at the Scurry County fair. County Fair Draws Surprising Turnout

The 1965 Scurry County Fair went into its second day with ribbons attached to top entries in competitive exhibits and Fair Association officials still elated over the turnout of exhibitors and spectators.

Judging of all exhibits except swine was completed Thursday and the swine judging was underway this morning.

Fluvanna took first place among the community booths, which were acclaimed as surprising in quality, and the Fluvanna Future Farmers of America won the blue ribbon in the competition for educational booths.

George Wright of Snyder was the top exhibitor in individual displays of fruits and vegetables, and T. B. Green of Snyder dominated the rabbit show. Bob and Steve Dougherty of Fluvanna were the big winners in the beef cattle division.

The fair drew good crowds late Thursday afternoon and Thursday night. It will continue in operation through 10 p.m. Saturday.

A Thursday evening feature was the presentation of a premium to Howard Franklin who produced the first bale of cotton [illegible] Chamber of Commerce Agriculture Committee. Baize made the presentation in front of the first bale, which is on exhibit at the Chamber of Commerce booth in the armory.

Indonesians Burn Red Party Center

JAKARTA (AP) — Several thousand young Indonesian Moslems burned the headquarters of the Indonesian Communist party, the PKI, to the ground today.

Indonesian army troops who broke the back of the attempted coup last week cordoned off streets leading to the PKI headquarters and did not interfere with the demonstrators.

The one-story building was reduced to ashes. Three fire trucks played water in them.

The demonstrating youths shouted "Kill Aidit" and "Dissolve PKI." D. N. Aidit is the first secretary of the PKI. He has been out of sight since the coup failed last weekend.

(A Jakarta radio broadcast heard in Kuala Lumpur, Malay[illegible] broadcast said "the rally was held in very tense atmosphere" and got somewhat out of hand when some of the crowd began to shout "Kill! Kill! Kill immediately!")

After burning the PKI headquarters, the demonstrators paraded through the streets shouting "To hell with PKI."

Behind the PKI headquarters a three-story concrete building is under construction for a new party headquarters. The demonstrators did not touch it.

Truckloads of demonstrators passed the American Embassy shouting "long live America." This was in market contrast to the numerous anti-American demonstrations the Communists have staged before the embassy.

Draft Boards May Call Married Men

AUSTIN (AP) — State draft director Morris Schwartz said today some Texas boards will call next month draft-age men who married before the Aug. 27 cut-off date.

Thousands in the 19-25 age bracket hurriedly married on Aug. 27, within hours after President Johnson said that draft-age men married after that day would be subject to induction. The order did not apply to fathers.

Schwartz said some Texas draft boards may have to dip into the previously protected group in November to help fill a quota of more than 6,000 men for examinations. Some boards may not be able to fill quotas unless the move is authorized.

Texas boards will induct 1,231 men next month, compared with state quotas of 1,504 and 1,459 for October and September. The national call next month totals 32,450.

Schwartz said his office has received calls for 62 physicians, 45 dentists and six veterinarians to be supplied in January.

Settlement Averts Strike

HOUSTON (AP) — Oil workers picketed two Houston plants today but late contract settlements averted scheduled midnight strikes at other Gulf Coast refineries.

Union members were picketing the Petro-Tex Chemical Corp. and Crown Central Petroleum Corp. plants today.

No contract agreement also had been reached at the Shell Oil Co. refinery but the union had posted no pickets and negotiations were resumed.

Petro-Tex and Crown Central have 640 of 3,700 union members in the Houston area. Shell has 1,600 workers.

Pickets also appeared briefly at the Sinclair refinery but were withdrawn after the company and union agreed upon a nation-wide contract in negotiations at Kansas City.

An agreement had been announced earlier for employes of the Phillips Petroleum Co., the only other Houston plant affected.

Ex-Con Charged In Rape, Murder

DALLAS (AP) — The grand jury indicted today a curly haired ex-convict accused of raping and killing a schoolgirl, 15.

William Samples Marshall, 30, of nearby Duncanville was indicted for rape and murder.

Marshall was taken directly to the grand jury this morning.

Judy Ann Fogle, 16, who escaped the attacker, testified before the grand jury. She fainted and fell to the floor as she left the grand jury room.

Raped and slain was Miss Fogle's companion, Wanda Sue Burgess, 15, whose body was found Thursday.

Patrolmen found Marshall nude and passed out on the back seat of a car a block and a half from where Miss Fogle made the call.

The Fogle girl told officers he became unconscious after repeatedly gulping pills during the 20 hours she was captive.

After Marshall was jailed, she led searchers to the unclad body of Wande Sue Burgess, 15, beside a country road south of Dallas. It was hidden under bunches of freshly mowed grass. Medical examiner Earl Rose said the dead girl was beaten brutally but she died from a bullet in the head.

Arresting officers took two guns, a crude blackjack and two knives from Marshall's car. They said he has served two prison terms for burglary and awaits trial on charges of carrying a blackjack and of possessing obscene films.

Miss Fogle told detectives that Marshall, posing as a deputy constable, ordered the two girls into the car on a pretext of questioning them. She said he drove to a densely wooded area, tied her to a tree, walked out of sight with Miss Burgess and returned alone, stating he had raped and clubbed the dead girl.

It was about 15 hours later Miss Fogle related, before Marshall drove into a field while she pretended to sleep. After he passed out, she said, she eased under the wheel and drove back to town.

She stopped at an intersection, leaving the engine and lights on, dashed screaming to the home of the A. J. Pitts family and banged on the door.

Into the phone she cried to a police dispatcher:

"My name is Judy Fogle. I've been missing since yesterday. I got away from him. He's armed. He's already killed the other girl with me."

Later she told officers that an unidentified state patrolman stopped Marshall for questioning before dawn while the body of the Burgess girl still was in the trunk. Marshall grabbed a pistol and warned her to silence.

As Marshall and the patrolman talked, a truck passed at high speed. The state trooper quickly dismissed Marshall and pursued the truck. Other officers said that probably saved his life.

Market Responds To News Of Operation

NEW YORK (AP) — The stock market responded strongly early this afternoon to word that President Johnson's operation was successful.

Key stocks advanced from fractions to a point and trading was active. The market, however, was not running away with itself either in regard to prices or volume.

Market averages pressed close to historic peaks.

King Returns To Run Rights Drive

By DON McKEE

CRAWFORDVILLE, Ga. (AP) — Dr. Martin Luther King Jr., who had his worst setback three years ago in Georgia, emerged today in control of the civil rights drive in this small town after a power struggle with political implications.

Negroes involved in the Taliaferro County school integration push voted overwhelmingly Thursday night at a mass meeting to turn over control of the movement to King and his Southern Christian Leadership Conference and to continue demonstrations.

Another attempt to integrate school buses was scheduled today.

"As far as I am concerned the movement is out of my political education said Johnson would not be a spokesman for the civil rights movement. Williams has charged the governor with a political play linked to his reported intentions of seeking a U.S. Senate seat next year.

King has a Monday visit to Crawfordville scheduled. It was there that King, winner of the 1964 Nobel Peace prize, last his campaign against segregation in Albany, Ga.

Watson said Negro leaders have shown that they do not want a settlement.

Watson had joined with Gov. Carl E. Sanders in calling for a halt to demonstrations.

Turner asked for a show of hands on the question of control at Thursday night's meeting. Nearly all the approximately 150 Negroes voted for King and his SCLC.

The significance of this action lies in the fact that the governor and State Sen. Leroy Johnson of Atlanta, a Negro, had sought to solidify Georgia Negro leaders in a more moderate course that would have halted demonstrations and blocked SCLC.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I have been married for only three months, and I have a problem. My wife thinks it's her "duty" to stay nights with her mother every time her father goes on an overnight business trip, which is about twice a week. Mother Bea is a registered nurse, so my wife picks her up at the hospital at 11 P.M. when she gets off duty, and the two of them drive cross-town to spend the night together at Mother Bea's. Meanwhile, I sleep alone. So where does that leave me?

NORMAN

DEAR NORMAL: Sleeping alone (which is hardly fair to a man who is still technically on his honeymoon). Tell your bride to persuade her mother either to get a large watch dog for protection, or to find a woman companion who has no marital responsibilities. As a last resort, you could invite Mother Bea to sleep at your place, which is just a notch better than sleeping alone.

* * *

DEAR ABBY: We own a small, but nicely furnished motel, and you wouldn't believe what some people steal. Everything from ash trays to towels, bed linen, light bulbs, bath mats, pillows, shower curtains, window shades, not to mention pictures and furniture. (They've even unscrewed hardware and fixtures!)

Once a woman checked out with one of our bath towels over her arm and thinking she'd mistaken it for her own, I politely pointed out our name on it. She said she knew it was ours, but she thought she was doing us a "favor" by taking it because it was good advertising.

Abby, please tell folks that if they think the articles they steal are not missed, they are wrong. When a guest checks out we know exactly what goes with him. It's a disgrace!

MOTEL OWNER

DEAR OWNER: I agree. We may see the day when it's necessary to search the luggage and person of all guests who check out of hotels and motels. Insulting to those of integrity? Yes, but it may be preferable to having the rates raised higher and higher to cover the cost of replacing so many stolen articles.

* * *

DEAR ABBY: Why are left-handed people treated as though they were handicapped? Our biggest complaint seems to be against waitresses. When we move a cup of coffee from the right to the left side of the plate for our convenience, why does the waitress unvariably return it to the right side when she refills it? (It is like having one's hands slapped.)

I carried a five-dollar bill in a special place in my wallet for three years, waiting to give it to the first waiter or waitress who recognized that I was a lefty and treated me accordingly. I finally found that waitress in a small coffee shop in San Francisco. She was startled and grateful when I gave it to her. She found it hard to believe it had taken me three years to find a waitress who was alert enough to make a left-handed person happy.

Sentences Probated

For the first time in local legal history, three men today received probated sentence under the new misdemeanor probation law after entering guilty pleas in County Court.

Judge Sterling Taylor accepted the guilty pleas of Elwin Kenneth Kidd, Arthur Douglas Hobbs and Michiel Lee Coats. The three were charged with driving while intoxicated, first offense.

All three men will have to pay court costs and Kidd and Hobbs must pay $50 of a $100 fine. The remaining $50 of their fine will be probated for one year along with a 30-day jail term. Coats received probation for one year on a $100 fine and a 30-day jail term.

Solons Stay Late To Approve Bill

By JOHN BECKLER

WASHINGTON (AP) — It took one of the roughest sessions of the year to do it, but the House passed President Johnson's highway beautification bill Thursday, soon after he entered Bethesda Naval Hospital for gall bladder surgery.

Sitting until 12:51 a.m. the House held up the big party Johnson gave as a salute to Congress and delayed the President's departure for the hospital, but it passed the bill, 246 to 138.

Voting for the bill were 249 Democrats and 26 Republicans. Against it were 49 Democrats and 89 Republicans.

At times raucous and angrily partisan, the long session stemmed from a reported Johnson request to House leaders that they finish up the bill so he could make a speech about it at the party.

The members had been told the House would quit early Thursday and vote on the bill today, and the late switch in plans made some Republicans angry. They didn't think much of the bill, anyway.

Using many delaying tactics available under the House rules, they stretched out consideration of the bill until the tempers of Democratic leaders frayed.

"No wonder the Republicans have controlled Congress only four years out of the last 30," stormed Rep. Hale Boggs of Louisiana, the assistant Democratic leader. "We need a responsible minority desperately, but we don't have it. We have a frustrated minority."

The bill that emerged from the 14-hour session resembled closely one passed a few weeks ago by the Senate. Minor differences will have to be reconciled before Congress completes action.

The bill would require states to set up effective controls to ban billboards and junkyards on all interstate and primary roads outside of areas zoned or used commercially.

The Democrats used their big majority to cut short debate so that many Republican amendments were voted on with only a few seconds available for explanation, or no time at all. This made the Republicans even angrier.

"This is a dangerous way for Congress to consider amendments," said Rep. Melvin R. Laird of Wisconsin. "The majority should be more interested in preserving the rights of the minority than in trying to give a present to Mrs. Johnson."

Just before the final vote, though, differences were put aside as Speaker John W. McCormack, D-Mass., and Republican Leader Gerald R. Ford of Michigan joined in wishing the President speedy recovery.

"Every member of the House prays and hopes for the complete recovery of the President," said McCormack.

"We join in that hope completely," added Ford for the Republican members.

Betty Grable, Harry James Are Divorced

LAS VEGAS, Nev. (AP) — The public wasn't invited, there was no music and the script was secret when the marriage of Betty Grable and Harry James reached the ending so familiar to film folk: divorce.

The glare of flashbulbs and a fanfare of publicity heralded their wedding 22 years ago. Thursday the decree was handed her in a sealed judgment after a private hearing by Clark County District Court Judge John Mowbray.

The announced reasons for the breakup were extreme cruelty and mental cruelty.

Her attorney, Carl J. Christensen, said the settlement was amicable and that "both parties remain friends." He said there would be no statements from Miss Grable or James.

Two decades ago, Betty became pinup queen for millions of servicemen who ogled and catcalled when her famous legs flashed across the silver screen.

Matching her smile, the infinitely sweet trumpet of circus-trained Harry James consoled the girls the GIs left behind during World War II.

In those days Betty was averaging $300,000 yearly and James $10,000 a week.

James, 49, and Miss Grable, 48, met in 1940 and were married three years later after appearing in the film "Springtime in the Rockies." She had married actor Jackie Coogan in 1939. They were divorced two years later.

Campbell Plans For Expansions

PARIS, Tex. (AP)— The $20 million Campbell Soup Co. plant in this Northeast Texas city has proved so profitable that expansion will be speeded within a year.

The firm's president, William Murphy, made that prediction Thursday at the formal dedication.

"Sales gains have been registered this year for every product made here, and in some cases these gains have been substantial," he said.

The first products were made here last November by about 1,000 employes.

"Consideration is already being given to an expansion of this plant and the installation of additional equipment at a much earlier date than was originally anticipated," Murphy said.

"It now appears likely that employment at Campbell's Paris plant will be increased substantially during the next 12 months."

The plant processes 45 products, including beans, spaghetti, macaroni, soups, gravies and stews using materials grown in the nearby fields.

Lt. Gov. Preston Smith pinchhitting for ailing Gov. John Connally, told an invitation-only audience that Texas' idustrial expansion from 1960 to 1965 was greater than that of the United States as a whole.

Recruiter For WAC Due Here

Sgt. Joe Welch, local Army Recruiter, announced today that a Women's Army Corps Recruiter from Dallas will visit the local recruiting office Tuesday and Wednesday.

S-Sgt. Martha J. McBroom is coming here to interview and counsel any young women in the area who are interested in the Women's Army Corps and the Army's nurse program.

Those interested in an appointment may call Sgt. Welch at HI 3-9675 or HI 3-9934 and Miss McBroom will be happy to visit in the home or at the recruiting station, located at 1825 Twenty-fifth Street.

Sgt. McBroom has taken over the duties of WAC Recruiter from S-Sgt. Helen Wilson who served this area for several years from her office at Abilene. Sgt. Wilson has been transferred to Tulsa, Okla.

Twentieth Century Club Takes Water Field Trip

The Twentieth Century Club inch line had been installed to members were guests of the Colorado River Municipal Water District and Sharon Ridge Unit Tuesday for a tour and luncheon.

Mrs. Owen Ivy, general manager of CRMWD began the tour of the pump station by explaining to the group that there are four large oil repressuring fields serviced by CRMWD, but that their primary service was to furnish water for Snyder.

The use of water by the oil fields does two things. It reduces water rates and enables CRMWD to retire outstanding bonds in advance.

Eleven million gallons of water are used each day even though the contract calls for as much as 16 million. This is the world's largest secondary oil recovery project.

Mr. Ivy said that the cooperation of the oil companies had been excellent.

Mr. T. C. Richardson, Superintendent East Division, guided the ladies through the plant and explained how each piece of equipment was used. He distinguished between original equipment and new, stressing safety features. He said that an 18-

service Sharon Ridge which receives one million gallons of water per day.

Other companies being serviced are Monsanto, Sun Oil and Standard Sinclair.

Other staff members introduced by Mr. Richardson were Skeet Herrington, Sims Graves and Jack Dunn. Mr. Robert Irwin, another member of the staff was not present.

The group then went to the R. E. Smith lease, Sharon Ridge Unit, and were given an interesting tour of the water filtering plant by Mr. Harold Lacik, general manager. He traced the process of the water through the reactor, filter, storage tanks and on to the oil fields, stressing water use and conservation.

Mr. Lacik said that there were 343 wells serviced from Sharon Ridge. This is a result of 32 openings coming together to make water pressure maintenance is needed because of a lack of gas pressure. He said that water at the filtering plant is tested every two hours. The water has to be pure so that the parts of the rocks will not become contaminated and close, thereby allowing less oil recovery.

Water that is recovered for reinjection does not have to be purified again as it is injected immediately and never wasted.

A tour of the laboratory revealed means of testing water for purity and amounts of clorine. Before water pressure maintenance was begun only 25 percent of the oil was recovered and this has been raised to 50 percent.

Mr. Lacik introduced Mr. A. J. Ray, plant superintendent and Mr. Bo Powell, operator, who assisted in the tour.

The tour ended with a luncheon provided by Mr. R. E. Smith for 24 members and guests.

The invocation was given by Rev. Ross Dunn, pastor of Trinity Methodist Church.

WORDS TO LIVE--OR DIE--BY!

Mass Of Evidence Ready For Investigation Of KKK

By HARRY KELLY

WASHINGTON (AP) — Almost daily now, the witnesses come down the dim marble corridor of the old House Office Building and enter the door marked "Committee on Un-American Activities."

There, in an inner conference room, they face the members of a subcommittee laying the groundwork for public hearings aimed at unmasking the Ku Klux Klan.

Most of the witnesses come under subpoena. Most are considered hostile. Some won't talk. But some do.

"The minute I walk into these hearings it is like entering another world," observed the committee's senior Republican, John M. Ashbrook of Ohio. "You enter an eerie world where guns, beatings, exhortations to violence, hate, arson, bombings, shootings, blacklists, sugar in gas tanks, night rides, become commonplace."

It is this eerie world that Chairman Edwin E. Willis, a Democrat from Louisiana's bayou country, intends to bring into the light.

When Willis announced the Klan investigation on March 30, he said public hearings would begin in a couple of months. But as the months flipped past without hearings, there were charges the committee was dragging its feet.

Now the hearings are scheduled to begin in about 10 days and the committee reportedly has more witnesses than it can use — 200 or more.

The list is so long that if it isn't cut, one source said, the hearings could go on for 13 weeks.

"It is unbelievable to review all of the evidence we have so far," says Ashbrook.

The committee, using the same techniques it employs in investigations of alleged Communist activities, reportedly had trouble at first locating insiders willing to talk about the invisible empire.

Since then, the committee is said to have heard testimony from men who have had a hand in bombings and night rides and have, says Ashbrook, convinced about a dozen Klansmen to cooperate with the investigation.

To shield witnesses from retribution, Willis intends to use the subpoena power which extends to each the protection of federal law for five years.

Another problem has been what pattern to use in conducting the hearings — whether to divide them into alleged incidents of violence, to explore the Klan state by state, or to pinpoint individually the activities of each of the dozen or more Klan organizations.

The decision is understood to be for the committee to take up the Klans one by one— leading off with the biggest, Robert Shelton's United Klans of America, estimated to have grown to 50,000 members.

Abacus Used To Check Computer

By JOHN F. DAFFRON

RICHMOND, Va. (AP) — David Wang, a systems analyst, travels in the sophisticated business world of computers. But he still makes use of his suan pan — the Chinese abacus He took it up in the third grade in Shanghai.

"For a quick check on figures — addition, subtraction or multiplication — the abacus is better than a computer because it's so much simpler," he said. "And it's just about as fast as an electric calculating machine."

In the hands of an expert, perhaps. A novice, who shall be nameless, took a whack at it. Modest confusion was the result.

Flicking his fingers over the rows of wooden beads on their wire strands, Wang completed a five-number multiplication in a few seconds.

An onlooker started checking the results by standard arithmetic. Wang ran through a few more problems on the ancient calculating device — the primitive cousin of the modern electronic digital computer.

In his job with Robertshaw Controls Co., Wang packs a 10-by 5-inch abacus in his brief case on his trips to the firm's plants in other cities.

"I use it to check my own cost figures and estimates," he said, and showing a letterhead, he added "How about this one?"

It was an itemized cost sheet submitted to Robertshaw by a leading manufacturer in the business machine field.

"See where the total is $25 off?" Wang said. "I caught it on the abacus."

Twenty years ago, a career in industrial automation was as far from Wang's mind as his present home in Woodside, N.Y., is from his native Shanghai.

He wanted to be a tea merchant. And his schooling at Shanghai's St. John's University, 1944-46, and the University of California at Berkeley, 1946-48 was aimed toward management of the family's Wang Yue Tai Tea Co.

The firm, founded by his great-grandfather in 1837, was perhaps the oldest tea export firm in Shanghai, Wang said. But before his planned return home, the Communists took over the Chinese mainland. His family made it to Formosa.

So Chia Shih Wang — he adopted the name David in school — armed with his abacus and a bachelor of science degree in business administration, took a turn at the tea trade in San Francisco, briefly, before moving to New York.

The rest of the family followed from Formosa. His father still does a bit of tea importing, Wang said, but the idea of perpetuating the Yue Tai Tea Co. is dead.

David moved into the computer field with Sperry-Rand's Univac. He worked for other firms as a systems consulant before joining Robertshaw more than a year ago.

Aqaba, Jordan's only outlet to the sea, boasts a modern air-conditioned resort hotel, long stretches of white beach and facilities for water skiing, skin diving and fishing.

Sentenced To 99 Years

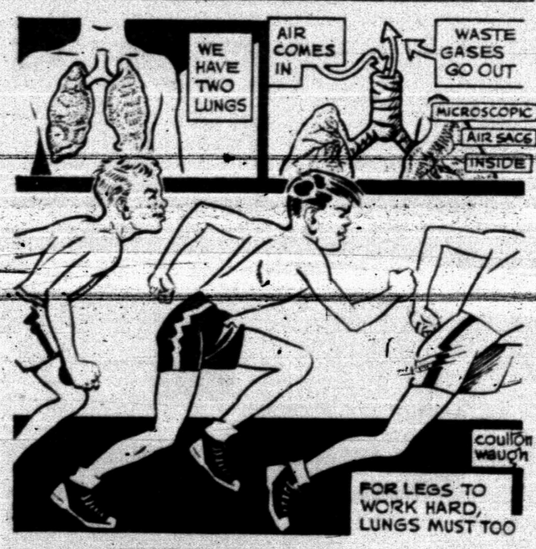

FORT WORTH (AP)—Thomas Burrell drew a 99-year prison sentence Thursday in connection with the fatal shooting Jan. 2 of a Fort Worth grocer.

Burrell, 23, changed his plea from innocent to guilty after Dist. Judge J. E. Winters overruled a defense argument that his confession was inadmissible. The judge then changed the charge from murder to armed robbery.

Grocer Benjamin Wilson was shot five times after the revolver he pointed at a trio of would-be robbers did not fire.

Burrell's brother James, 19, admitted driving the getaway car and told police how to reach Thomas. He received a seven-year sentence. A third youth committed suicide a night after the shooting with a gun taken from the grocer.

Junior Editors Quiz on LUNGS

QUESTION: How do our lungs work?

• • •

ANSWER: The living cells of our bodies must have oxygen supplied to them constantly. Think of our two lungs as areas where air is brought in by breathing in, and the oxygen in this air exchanged for waste gases which are removed by breathing out. This exchange is possible because the lungs contain millions of tiny air sacs or alveoli. These are like extremely small round balloons covered with minute blood vessels or capillaries. Air goes into the alveoli, and its oxygen is passed through the alveoli walls, which are very thin, and into the capillaries. The blood in the capillaries contains carbon dioxide, a waste gas, and this is passed into the air sacs and given off as we breathe out. When we exercise (main picture) our cells need more oxygen to produce more energy, and they also give off more carbon dioxide which must be carried away. This means the whole exchange process must be speeded up, which is attended to by a wonderfully sensitive respiratory center in the brain. This center can detect when the carbon dioxide level in the blood gets too high, so it makes us breathe faster in order to restore a balance.

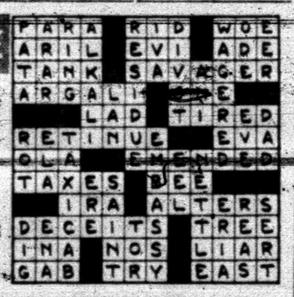

• • •

FOR YOU TO DO: The next time you exercise check on yourself and notice that you are breathing harder than when you are at rest. Now you know why this is necessary. 10-8

Travis Eighth Wins!

Key pass interceptions and a 90-yard fourth quarter drive following a lack-lustre third quarter brought victory to the 8th grade Travis football team here Thursday night as they turned back a determined Sweetwater crew, 14-12.

The come-from-behind touchdown drive in the last quarter took 10 plays. Willis Harrison scored it with a brilliant 27-yard sweep around right end as he faced a 4th and nine situation. That tied it up, 12 all. Then Ricky Glasscock fought his way around the same end for the go-ahead points.

The drive apparently had stalled at the 27 after Harrison, Glasscock and Merce Hernandez had moved from their own 10 in five plays with stunning end sweeps and off tackle power plays.

An interception by Hernandez in the end zone had set the drive in motion and killed Sweetwater hope for a clincher touchdown early in the fourth period after the visitors had gone ahead, 12-6, and appeared to be enroute to victory.

Interceptions played a big role in the Travis triumph. With 3:51 remaining after the final long Travis drive, Sweetwater had time remaining to score again — but Mike Hodge pulled in a stray aerial from Sweetwater's left handed passer, Tucker. And Snyder ran out the clock.

Mark Gilstrap killed Sweetwater drives in the second quarter with interceptions inside the Travis 20. The first drive began in the first frame after the visitors recovered a fumble at the 25. They drove to the 17, but the Blue Devils stiffened and allowed only one yard in three running plays. Gilstrap intercepted on fourth down. The second one came after Rivera, Sweetwater's outstanding runner, ran a punt back to the Travis 30 to set up a 1st down situation with good field position.

Travis' defense looked good throughout the game except for a lapse in the third quarter. The defenders shut out the Ponies in the first quarter, making a magnificent goal line stand inside the 10, stopping four straight power runs.

Coach Jerry McLeod's boys took the lead, 6-0, with an 80-yard drive in the second quarter following Gilstrap's first interception. Gilstrap engineered the drive at quarterback and made the tally play work with a beautiful fake as he handed off to Howard Murphree. Murphree scooted around right end, lost his helmet in a scuffle at the 20, and fought his way on in for a 57-yard run. A pass for extra points failed. Merce Hernandez contributed good yardage in the drive with a 14-yard blast over right end.

The score held up until the third quarter, which the Ponies completely dominated. They scored first on a 48-yard pass play, Tucker to Rivera. Rivera caught the bullet pass about the 25 and simply outraced the defenders to the goal. A pass for extra points missed, leaving the count at 6-6.

Rivera charged through the middle about two minutes later, cut to his left and went 72 yards for the go-ahead tally. Tucker was stopped on a keeper as he tried to extend the margin. The Ponies then launched the march while Hernandez stopped with his interception, and the locals drove in with their second long drive, climaxed by Harrison's fancy run.

Quarterback Jim Patrick engineered the second touchdown drive for Travis as both quarterbacks looked good. Hernandez, Harrison and Murphree all ran with authority. The entire team played good defense. Ricky Glasscock was perhaps the outstanding defender, not counting the timely interceptions.

The determination to keep trying after falling behind in the for the victory.

LOS ANGELES (AP) — Brimming with confidence after beating the Dodgers' fearsome pitching pair of Don Drysdale and Sandy Koufax, the victorious Minnesota Twins expressed confidence today they can add nemesis Claude Osteen to their list of victims when the World Series resumes Saturday in Los Angeles.

Halfway to the World Championship after beating Koufax 5-1 at Minnesota Thursday on top of their opening 8-2 defeat of Drysdale, the Twins were even dreaming of a four-game sweep, predicted earlier by Los Angeles General Manager Buzzie Bavasi—but by the Dodgers.

"I'd love to sweep," said Twins' Manager Sam Mele, "but they're a tough outfit, and you've got to play heads up all the time. I've been telling you guys we're pretty tough, too."

Perhaps the toughest assignment of the Series goes to Camilo Pascual, the Twins' right-hander who is slated to open in Los Angeles following Friday's off day for travel.

Not only will the American League champions be playing in the Dodgers' home park, but the Twins' record against the Angels there has been nothing to write home about.

Minnesota's batting average for nine games at Dodger stadium during the regular season was less than .200. They hit only one home run at Dodger Stadium all year.

In addition, left-hander Osteen was exceptionally tough for the Twins during his years with the Washington Senators. The 26-year-old southpaw, traded to Los Angeles last winter, holds five victories over the Twins without a defeat.

"We've hit Claude in some of the games," said Harmon Killebrew, the Twins' third baseman and home run king. "Maybe we can again."

The Twins beat Koufax without hitting a home run. The big blows were Tony Oliva's sixth-inning double, which drove in the Twins' first run, a clutch run-scoring single by Killebrew and Zoilo Versalles' triple that led to a run in the seventh. Kaat helped his cause with a two-run, bases-loaded single in the eighth.

The Twins hit two home runs to one for the Dodgers in the opener.

Pascual, who missed seven weeks because of back trouble, was an interested dugout spectator during the Twins' first two triumphs. Did he think he learned something while watching Jim Grant and Jim Kaat tame the Dodgers hitters?

"The only way to learn is to go to the mound and do your own job," said the 31-year-old Cuban. "No two pitchers are alike. Grant pitches one way, Kaat another and neither pitches the way I do."

Injuns Scalp Local Netmen

Seminole's tennis team beat Snyder, 4 matches to 3, in a dual match here Thursday.

Gordon Stokes of Snyder beat Bobby Malone, 6-3 and 6-3 while Emily Kincaid beat Kathy Thompson of Seminole, 7-5 and 6-1. In the No. 1 doubles, Stokes and Jerry Bell defeated Bobby Malone and Berry Hill, 4-6, 6-4 and 6-2.

Matches the locals lost were No. 2 singles (Jerry Bell to Berry Hill, 6-4, 2-6 and 6-4) and Wayne Anderson to Marvel Bailiff, 6-1 and 6-3. Jim Rannefeld lost to Ronnie Duland 6-0 and 6-0. No. 2 doubles team lost, Ronnie Maddox and John Phillips lost to Duland and Bailiff, 6-3 and 6-0.

Coach of the Snyder team is Ken McAllister.

Saturday morning, the high school team hosts Sweetwater on the Towle Park courts at 9 a.m. Stokes is undefeated this fall. He plays the district favorite this name — Romine.

Lamesa Hosts 'B' Team

A close and probably exciting football game is on tap at Lamesa Saturday night when the Snyder High School "B" team invades Tornado Stadium for a clash with the junior Tors. Both teams have 3-1 records.

Coaches Bill Hartsfield and Roy Carter listed probable starters, as follows:

Offense — ends O. L. Cooper and Frankie Grimmitt, tackles Emmitt Hataway and Tim Mebane; guards Jack Green and Bobby Clayton; center David Wilson; quarterback Mickey Almond; halfback Lloyd Pinkerton; wingback Danny Garner; and fullback Ronnie Shields.

On defense, Drake Snyder and Alan Rasco, Lonnie Gilstrap, Lonnie Hardwick and Eddie Eicke come into the game. Kickoff is 7:30 p.m.

Ponies Blank Ninth Grade

SWEETWATER — Sweetwater socked the Travis 9th grade football team here, 6 to 0, Thursday night after capitalizing on a break early in the first quarter.

Snyder fumbled the opening kickoff at its 30, but held on downs after the hosts drove to the 10. A short punt put the Ponies back in possession on the Blue Devil 35 and they were able to drive in from there. The big play was a long pass.

Outstanding for Snyder on offense was halfback Florencio Valdez. Defensive standouts included linebackers Rocky Cowan and Valvin Garcia and defensive halfback David McGinnis.

Sweetwater Hosts Snyder In District Grid Opener

Can a good defense beat a good offense?

That question will be answered at Sweetwater at 7:30 p.m. tonight when the Snyder High School Tiger football team meets the Sweetwater Mustangs in the District 3-AAA opener for both teams. Elsewhere in the district, Brownfield travels to Lake View and Levelland journeys to Lamesa for games tha count in the record.

Sweetwater generally was favored to come in second behind Levelland in pre-season polls, but the Lobos have been less than exciting in early games while the Mustangs have come through as expected. Thus, if the Tigers of Coach Horrace Bostick can beat Sweetwater, they will be a dark-horse favorite to cop the district crown.

The horses of Coach Murry Holditch own the best record of any district team with three victories and only one setback. The wins were 14-6 over Graham, 35-0 over Coleman and 6-0 over Breckenridge while always strong Abilene took the horses, 35-12.

Snyder, on the other hand, still is seeking its first victory of the year after successive losses to Andrews (23-12), Stamford (14-9), Big Spring (34-7) and Kermit (14-0).

The offense looked good in the Andrews game and the defense was adequate in the Kermit affair. So, if the Tigers can just get the offense and defense clicking together, they may get their share of victories.

With two returning lettermen in the backfield and an all-letterman line, Sweetwater has the hosses to move the football. Fullback Robert Rivera, 165-pound senior, can move the ball well on offense and he is outstanding as a defensive linebacker. Rivera has been limited to defensive duty because of an injury, but he should be ready to go both ways against the Tigers. The break-away back in the Mustang camp is wingback Randy Reed. He scored against Graham on two long runs and is a threat every time he gets the ball.

Gary Ruffin, 155-pound Junior, has proved to be a capable replacement for the departed Benny Pace. Gary likes to sprint out and throw short ones to his ends and backs. If the Tigers can find a way to defense the rollout pass, they may have a chance to win it.

Leader of the returning lettermen in the Sweetwater line is Terry Owen, 195-pound Senior tackle. Other lettermen are ends Bobby Powell and Tony Caldwell, tackle Buddy Price, center Rodger Bruce, and guards Raymond Gomez and Mickey Price. John Hefner is the blocking back. Price and Bruce, each at 190, give the Ponies plenty of heft.

The Tigers have played against tougher opposition in the early games, so the game rates a toss-up.

Snyder coaches were pleased with the workouts this week. The varsity hit well against the "B" team, and the boys seem to have a good attitude. One change may bring more punch to the ground game — Vernon Clay, 165-pound senior running back, has replaced Donnie Newman at offensive fullback on the strength of his fine showing in practice. Otherwise the alignment is about the same as it was at the beginning of the season.

Jackie Rice has not quite reached the potential he showed in the opener against Andrews, but he remains a dangerous all-the-way threat. Rick Hall has proved to be one of the better recivers in the loop and is ready to take "the bomb" from either Murry Bowden or David Cadena.

Probable starters:

SNYDER

Ends — Ray Kizer, 175, Sr. and Bobby Clardy, 191, Jr.; tackles — David Holt, 200, Sr. and Terral Austin, 228, Sr.; guards — Keith Noble, 170, Sr. and Danny Howell, 170, Sr.; center — Roy Kizer, 175, Sr.; quarterback — Murry Bowden, 155, Jr.; halfbacks — Jackie Rice, 160, Sr. and Rick Hall, 165, Jr.; and, fullback — Curtis Clay, 165, Jr.

(The defense has Steve McMahan and Kizer at end, Austin and Howell at tackle, Jimmy Wilson at middle guard, Holt and Donnie Newman as linebackers, and Rice, Billy Wilson, Bowden and Rob Golden as deep backs).

SWEETWATER

Ends — Bobby Powell, 170, Jr. and Tony Caldwell, 165, Sr.; tackles — Jerry Owen, 195, Sr. and Buddy Price, 190 Sr.; guards, Raymond Gomez, 175, Sr. and Mickey Price, 165, Sr.; center — Rodger Bruce, 190, Sr.; quarterback — Gary Ruffin, 155, Jr.; halfbacks — Randy Reed, 155, Sr. and John Hefner, 150, Jr.; and, fullback — Robert Rivera, 165, Sr.

Porkers, 'Horns Favored In SWC

By HAROLD V. RATLIFF
Associated Press Sports Writer

Texas seeks to remain at No. 1 in the nation and Arkansas hopes to take over first place in the Southwest Conference football race Saturday.

Both appear most likely to have their wish.

Texas meets Oklahoma in the Cotton Bowl a wide favorite to thunder to an eight consecutive triumph over the Sooners and stay on the nation's top spot.

Arkansas clashes with Baylor at Waco and is a 13-point choice to knock over the grimly fighting but crippled Bears. If the Razorbacks win, it not only will be their 16th straight victory but will mean they stand alone in first place in the conference race.

Arkansas is the defending champion.

Often Texas and Oklahoma have met with one or the other being No. 1 in the nation. Back in 1950 Oklahoma won the national championship by beating Texas 14-13. In 1963 Texas took a long leg on the national championship by whipping Oklahoma, which was No. 1 at the time.

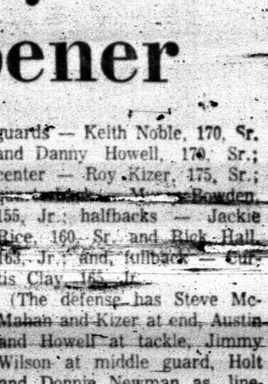

And there have been other occasions of a similar nature. But Saturday isn't due to be one of them—Texas already is on top and a victory over Oklahoma will just serve to keep it there.

Arkansas, mighty ground attack featuring Harry Jones and Bobby Burnett looks like much too much for Baylor, which does not have its great passer, Terry Southall, this time, thus its attack can't be very versatile.

Baylor's big hope is a surprising defense but Arkansas has one of those things, too.

Anti-Poverty Backers Say They Are Winning The War

By W. B. RAGSDALE JR.

WASHINGTON (AP) — President Johnson's "war on poverty" enters its second year today, under investigation by Congress and the target of some criticism, but, with its chiefs convinced they are making progress.

There have been charges of poor administration from both Democrats and Republicans. There have been congressional suggestions that Sargent Shriver, the antipoverty commander, step out as Peace Corps director and give full time to running the Office of Economic Opportunity.

But Shriver and other top OEO officials appear confident. They say they had expected even more criticism because of the scope of antipoverty efforts and their new approaches to the poverty problem.

Despite a riot Aug. 20 at the Camp Breckinridge, Ky., Job Corps center, officials say they feel they have solved their most serious administrative problems and are turning their major efforts to finding jobs for graduates.

And VISTA — Volunteers-in-Service-to-America — better known as the domestic peace corps, recently announced an expansion program and said it was further advanced now than the Peace Corps was at the same stage developments.

President Johnson signed legislation appropriating $793 million to the antipoverty programs a year ago today, but nothing much happened for another month.

Now, however, things have been moving so fast that Shriver recently cautioned that the programs soon will begin leveling off. To some, he said, this might appear to be a slowdown.

Shriver brushes aside criticism of confusion and high personnel turnover. It was the same way at the Peace Corps, he says, "We had 150 per cent turnover the first two years at the Peace Corps."

The GOP task force on economic opportunity has been a frequent critic of Shriver.

The House Education and Labor Committee, meanwhile, has begun a nationwide inspection of some antipoverty projects. The chairman, Rep. Adam Clayton Powell, D-N.Y., has named a special staff to conduct hearings, and this week, Rep. Roman Pucinski, D-Ill., opened hearings on the antipoverty situation in Washington.

OEO officials sum up their first year this way, statistically:

— Community action programs, ranging from classes to teach migrant workers how to handle their money to dissemination of birth control information, more than 1,100 grants totaling $218,520,599 in more than 1,000 cities and counties in all 50 states.

Texas U Rolls Grow

AUSTIN (AP) — Enrollment in the University of Texas system, with campuses from Houston to El Paso, totals 47,209 students, up 7.7 per cent from last fall's figure of 43,814.

This was reported to the board of regents Thursday by Vice Chancellor L. D. Haskew.

The main university at Austin posted a 9.5 per cent increase—26,320 students, compared with 24,001 the year before.

At Texas Western College in El Paso, enrollment climbed 11.9 per cent to 7,422 students, compared with 6,632 last year.

Arlington State College, which the Legislature transferred to the University of Texas from the Texas A&M system this year, showed a 3 per cent increase, from 11,513 to 11,845.

The medical branch at Galveston increased from 757 to 776. Southwestern Medical School's enrollment expanded from 406 to 414. The dental branch rose from 489 to 497 and the graduate school of biomedical science has 25 students, compared with 16.

Estate Is Evaluated

HOUSTON (AP) — An estate valued at $7.2 million was left by Jacques Mossler, 60, Houston and Miami financier who was slain in Florida last year.

An appraisal was filed in the Harris County probate department Thursday.

Mrs. Candace Mossler, 46, the millionaire's widow, and her nephew, Melvin Powers, 23, are charged with killing Mossler.

Cubans Talk Of Freedom Flotilla

By THEODORE A. EDIGR

MIAMI, Fla. (AP) — The arrival of the first Cuban refugees under Fidel Castro's open-door policy has sparked talk of a freedom flotilla crossing the Florida Straits from Cuba.

Exiles in Miami's Cuban colony say that some boats already have left Miami for Cuba 90 miles away, but that could not be confirmed. Officials were skeptical that the U.S. government would allow any massive movement of small boats.

Cuba's Communist government reportedly is working hard to prepare the port at Camarioca, the one closest to Florida, as an exit station.

Bartolane Julian Rosales, who brought the first group to Florida Thursday in a 25-foot boat, said a barracks stocked with food had been set up at the port.

The usually reliable Cuban exile news service AIP said cabins are being built at the port, and the port channel is being deepened.

The Cuban government has sent telegrams to exiles with preliminary instructions on how to get relatives out of Cuba. The telegrams, sent to exiles who requested information, ask the refugees to cable the names and descriptions of their boats and wait for authorization.

Authorities are disturbed over the possibility of a "Dunkirk of the Florida Straits." That, they said, would be contrary to the orderly process described by President Johnson when he accepted Prime Minister Castro's offer to let anyone leave for the United States.

Rosales, who has lived in Miami three years, said he telephoned his wife in Cuba after he heard of Castro's offer. She arranged with the Cuban government for her exit, he said.

He left Key West Tuesday and picked up his wife, their daughter, his 84-year-old mother and others. The group, 15 in all, docked at Marathon in the Keys Thursday.

Previously the straits had been guarded so closely by Soviet-built Cuban torpedo boats that the passage had been named "Death Corridor" by the refugees.

Exiles estimated that 50,000 Cubans are waiting to leave their homeland, but have been unable to get visas or transportation. About 300,000 Cubans have fled since Castro seized power in 1959.

New Report Tells Decline In Drilling

By CHARLES HASLET

WASHINGTON (AP) — A new report tells the statistical story of the over-all decline in the search for oil and gas.

For example, in Texas, the leading oil state for many years, 13,152 wells were drilled for oil and gas last year, the smallest total since Texas became a major producer. In 1956 the number for Texas was 21,519 and in 1963 it was 13,468.

As it has for many years, Texas still topped all other states in the number of wells drilled.

One exception to the trend was Louisiana, which was ranked second to Texas in the 1964 drillings. Louisiana was credited with 5,344 in 1964, compared with 5,282 in 1963 and 3,875 in 1956.

The report, prepared by the Independent Petroleum Association of America, showed Oklahoma had 4,516 wells drilled in 1964, 4,492 in 1963 and 8,936 in 1956.

For the nation as a whole, the report said 45,236 wells were drilled last year, up from 43,653 in 1963 but down from the 1956 total of 58,160.

In the total number of wells drilled for oil and gas since Edwin Drake brought in the first well near Titusville, Pa., in 1859, Texas is far and away the leading state. The report put the Texas total at 531,305. Pennsylvania was rated second with 284,163 and Oklahoma third with 269,802.

Of these totals, 172,189 in Texas, 37,072 in Pennsylvania and 75,266 in Oklahoma were dry holes.

Every good bowler knows the thrill of a 'ten strike.' To see all the pins go down is the goal of every player. That is success. That is the perfect game. He will play again, who has seen and enjoyed such a good hour.

How much more important is the game of life! Here is a fine girl or boy at school. He has done his studying to good advantage. The letter A ornaments his paper. An eager athlete has learned to play in team work. He has carried the ball across the line. That is a strike. His is a thrill that is intensified by the plaudits of his fellows. A woman entertains in her new home. Her table is immaculate and her friends made to feel at home. So all rejoice in the thrill of A Strike together.

All of life may be a thrilling game, if we play it well. High satisfaction comes, however, to those who approach the end of the years of living. To lay down the load, as one's friends give hearty cheers, because of work well done; this is the real Strike. To close one's eyes at the end of a day, with a consciousness of having done one's best . . . that is always a Strike. But to come to the very end of all days, with the praises of men and God in one's ears; that is the 'Ten Strike' indeed, which earns the heavenly "Well Done."

You In The Church... The Church In You

Form a combination for good. We should attend church regularly. Every man, woman and child needs the influence of the CHURCH. Be faithful Be a Churchman!
