TEN CAR LOADS LAMBS

THIRTY-TWO HUNDRED HEAD OF FAT SPRING LAMBS

With the sheep town of Perryton, the entire county shipped out thirty-two hundred head of fat spring lambs this week. This was a big double decker. They were purchased by the Bond-McRae Sheep Company, N. M., and shipped by them to eastern markets where they will be fed out.

The Perryton community lost \$20,000.00. E. W. W. lost a larger part of this. The remainder coming from J. W. Rogers, L. Ray Chase and Bill

BLAZE DAMAGES CLEANING SHOP

LOSS OF EQUIPMENT AND CLOTHING ESTIMATED AT \$300.00—NO INSURANCE

Fire starting from an explosion of fumes in the deodorizer tumbler in the cleaning plant of the Perryton Cleaners, Tuesday afternoon at 3:10 o'clock caused a \$300.00 loss before the flames could be extinguished. The Perryton fire department made a record run to the scene and almost immediately had the flames under control.

The cause of the explosion is still undetermined and could be attributed to a number of reasons. Frank Keith, one of the proprietors of the new business firm, had just left the cleaning plant which is located in a small tile structure in the rear of the new Stump building, when the explosion was heard. Rushing back to the plant, Mr. Keith passed the blazing machine and turned the valve to allow the cleaning fluid in the other machines to run back into the underground tank.

The tumbler was entirely destroyed and considerable damage done to the building. It is estimated that \$150 worth of clothing was in the tumbler when the fire occurred and was a total loss. All of these will be replaced to the owners. Damage to the plant and building will probably amount to \$150.00, making the total loss to the Perryton Cleaners amount to \$300.00.

The firm carried no insurance on the plant.

TELEPHONE EXCHANGE MOVES

CENTRAL OFFICE NOW LOCATED NEW STUMP BUILDING; LARGER AND BETTER HOME

The Perryton Telephone Exchange is now located in their new home on the second floor of the new Stump building. The move was made on Saturday night of last week, service being discontinued at 9:30 p. m. and by 10:00 o'clock Sunday morning practically all phones were back in service. Toll and rural lines were not out of commission over thirty minutes. Many people were not aware that the move had been made, so complete were the arrangements for moving.

Manager A. J. Kelley, since taking over the Perryton plant a few years ago, has expended thousands of dollars to give Perryton subscribers good telephone service. During the past few months he has rebuilt the plant entirely, moving all poles and wires into alleys and installing a new cable system. These improvements, together with moving the office has cost over \$10,000.00.

The new quarters in the Stump building will enable them to give better service than ever before. Manager Kelley's office is located at the front of the building. Just to the rear is the waiting room for customers in which the long distance booths will be located. The operating and rack rooms are both models of efficient installation and no expense has been spared.

Gene Tunney

Tunney proved himself a real champion of the ring in the ten-round bout with Dempsey this evening. Out-pointing the former champion in six of the ten rounds, Tunney succeeded in holding his crown.

First Game Friday

"Rangers" Will Play Canadian in First Game of Local Football Season

Coch Stiff of the "Rangers" announces the first game on the local schedule for Friday, September 30. It is not known for certain where the game will be played, being either here or in Canadian. Other games lined up are with Follett here on October 7; at Shattuck on Oct. 14; Spearman here on Nov. 11 and at Spearman on Nov. 25.

From all indications the Rangers are going to be hard to get around this year. From twenty-five to thirty are out every evening for practice and there is intense competition for a place on the first string. The team is going to be light in weight but lack of pounds will be more than overbalanced by speed.

NEW SCHOOL TO BE DEDICATED

EXERCISES TO BE HELD ON MONDAY, OCTOBER 10; WILL HAVE ALL EQUIPMENT

Dedication services for the new high school building will be held in Perryton, Monday, October 10, according to Prof. W. B. Irvin, superintendent of schools. The new building will be ready for occupancy by that date, with all of the new equipment installed.

Dr. J. A. Hill, president of the West Texas State Teachers college, has been invited to take charge of the dedication services. Following the dedication, the new building and all departments will be open for inspection.

The home economics girls will prepare and serve luncheon at the new building for delegates at the convention of the Trans-Canadian district which is also being held in Perryton on that date.

Mrs. Nellie Ballew Berry came in Thursday for a visit with her son, Paul Ballew and family. Mrs. Berry has been visiting with relatives in Colorado Springs and Amarillo. She lives at Wichita Falls, Texas.

TUNNEY GETS DECISION WHEN HE OUTPOINTS FORMER CHAMPION

DEMPSEY—LIKE ALL OTHERS—FAILS TO STAGE COMEBACK IN SPECTACULAR TEN ROUND GO AT SOLDIERS FIELD, CHICAGO

Making a supreme effort to regain his championship title, Jack Dempsey failed to "come back" in the spectacular ten-round bout held at Soldier field, Chicago, this evening, letting Tunney out-point him for the victory.

Tunney, the soldier, masterful boxer and champion proved to much for Dempsey, the plunging, battling, Manassa mauler, who knocked out Willard, Carpentier, Firpo and Sharkey.

Battling before a crowd, the largest in history, with a "gate" that is said to reach nearly three million the champion earned his cool million and Dempsey his \$450,000 in forty minutes of terrific mauling.

ROUND 1. Dempsey missed a left lunge, falling into a clinch. Jack piled in again with two left hooks to the ribs. In the clinches that followed he clipped Gene four times with a right on the back of the head. They sparred casually, Dempsey preferring to feint for opening while Tunney laid back. Gene snapped a left to Dempsey's chin and followed with a solid right smash to the chin. Jack fell into a clinch taking another right to the head. Jack stopped a left on Tunney's body. Jack backed away while the champion followed him across the ring with a volley of left and right hooks to the head, close to the ropes. Gene missed an overhand right as the bell sounded. Tunney's round.

ROUND 2. Dempsey was fighting casually apparently seeking to evade the disastrous first round spasm as that at Philadelphia last fall. They came out boxing again and Gene shot a left and right to the chin. They were dancing, boxing high. Gene dropped an overhand right on Dempsey's chin after chasing him to a corner. Another right missed and Dempsey smashed a left to the body and three lefts to the chin before Tunney could tie him up hands high. Dempsey stood away from the right. There was little action as they sparred carefully in the center. Tunney's left was short but Dempsey merely fell into a clinch. Gene missed two more lefts while Jack clipped two short left hooks to the body as Dempsey lunged low. Tunney missed again but managed to catch himself and jab two short lefts to Jack's face as the round ended.

ROUND 3. Again they boxed carefully, slowly in the center of the ring. Dempsey apparently wary trying to tantalize Tunney into leading and making an open fight out of it. Tunney sneaked over a

pretty jab but took a half dozen raps on the back of the neck. Gene took the offensive, driving Dempsey into the ropes. Here Jack tied him tight as they bobbed in the center. Tunney led and fell into Dempsey's straight right flash to the body. Gene held while Jack clouted both hands to the mid section. A right smash to the heart drove Tunney back. Jack drove in close again to buff the back of Tunney's head with his right and his left to the champion's ribs.

ROUND 4. Dempsey took the offensive but Tunney's right cracked off his chin. Dempsey found the same mark while Jack rapped two lefts to the body. Gene complained that they were fouls and fought Jack desperately as they fell again into the ropes. Gene missed with a right and took another left to the body. Tunney missed with both hands but saved himself by falling into a clinch. Two rights smashed to the chin stung Jack. Gene lifted two more left hooks and tailed Dempsey off the ropes. A right sent Dempsey reeling into a corner. A left hook nearly floored him. As Jack lay against the ropes, stunned, Gene missed with both hands and the bell ended his opportunity.

ROUND 5. Dempsey handlers worked fiercely during the intermission. Tunney missed a right and fell into a clinch. Jack fell close pounding the body. He backed away, falling into the ropes as Tunney took up the attack when Jack tied him up. They sparred in the center of the ring. Jack bobbed out of three left jabs and sent Tunney's head back with stiff straight left. A right high on the temple shook Jack badly. The champion backed away in another clinch. Jack rapped again on the

GENERAL RAIN SOAKS PLAINS

FALL OF 1.10 INCHES IS BIG HELP TO FARMERS WHO ARE READY TO SOW

Gentle rain started falling Sunday morning at 1:00 o'clock lasting until 2:00 o'clock in the afternoon, soaking the well prepared fields of the Panhandle with nearly an inch of moisture.

The rain, general over this entire section, was quite timely, enabling farmers who have not already planted to sow their grain, and assuring others that their grain would soon be above the ground. The rain in Perryton measured .98 of an inch. It was preceded by a shower measuring .12 of an inch on Friday, making the total for the week, 1.10 inches.

COUNTY COURT IS IN SESSION

SEVERAL CIVIL AND CRIMINAL CASES DISPOSED OF—PRACTICALLY OVER NOW

County court convened Monday for regular session, Judge J. M. Grigsby presiding on the bench, disposing of several criminal and civil matters. Although court is still in session, all of the business to be brought before it this term has been disposed off and it is thought that it will be adjourned this week.

In the case of G. W. Mason vs. John Hoyle, judgement was allowed the plaintiff in his suit for collection of a note amounting to \$327.70 including interest and costs.

Judgement for plaintiff was also allowed in the case of Mrs. Sina Cook vs. J. H. Wright for collection of \$277 debt including court costs.

The estate of Frank Elmore, deceased, contested by heirs, judgement probating the will was made.

Other probate matters were taken up, including the guardianship of Willie Ester Phaup, a minor. D. B.

AWARD PRIZES NEXT SATURDAY

JUDGES WILL DECIDE WINNERS IN POULTRY AND PIG CLUBS IN COUNTY

Every contestant will be a winner in the judging contest of the pig and poultry clubs, Saturday, October 1, according to Guy R. Sheets, county farm agent, who is sponsoring the club work in the county. A list of fifty prizes has been made out to be given to the various club workers who enter in the competition.

For the first place in each club, seven in number, the county commissioners have allowed a ten dollar prize, making \$70.00 in prize money. The grand winners in the pig clubs and in the poultry clubs will each be given a free trip to the Texas State Fair at Austin, being sent by the Perryton Chamber of Commerce. The grand winner of the club project work in the county will be given a free trip to Chicago for the International Live Stock Exposition, November 25 to December 2, by the Santa Fe railway.

The merchants of Perryton have made up a list of prizes offered to contestants who do not place in any of the above mentioned prizes. This list contains forty prizes ranging in value from \$1.00 to \$2.50 both cash prizes and in merchandise.

The exhibit will be held on the streets of Perryton, one block of Main Street to be roped off and used exclusively for the exhibit. All members must have their entries at the show ground by 2:00 Saturday afternoon, October 1, with their

MUCH INTEREST IN CONVENTION

NOTABLES TO GATHER FOR ORGANIZATION OF NEW DISTRICT W. T. C. OF C.

Plans for the Trans-Canadian District convention, to be held in Perryton, Monday, October 10, are forging ahead, a number of men, prominent in Panhandle affairs, already having accepted the invitation to be present on that date.

Col. H. H. Haines, manager of the board of city development, Amarillo, has consented to speak at the luncheon which will be served in the new high school building at noon, by the home economics department. Henry Ansley of the Amarillo News-Globe has consented to act as toastmaster at the luncheon.

A. F. Barkley, Spearman, director of the West Texas Chamber of Commerce will be the presiding officer at the convention. Stacy Wells, president of the Beaver Chamber of Commerce will speak at the convention. Dr. L. L. Long, Beaver, will also attend the convention. Both are very anxious to be included in the new district, feeling as they do that they are divorced from Oklahoma in about the same way that the North Plains is from Texas. Dumas also reports that they are sending a delegation.

J. E. Biggs, field representative of the W. T. C. of C., Stamford, and W. T. Fleeson, secretary of the newly formed district, will start Monday morning for a two day tour of the district, personally inviting the various towns to be present at the convention.

International Sunday School Lesson

SEPTEMBER 25, 1927

Review—The Early Kings of Israel

The lessons of this quarter, which have attempted to cover a period of history of 120 years, have necessarily been very fragmentary. For review lesson the writer suggests a brief character study of the three principal kings whose reigns have come before us, namely, Saul, David and Solomon.

It might prove of interest in many classes to have members of the class present papers on these characters. These could be discussed with great profit. A prize could be awarded the one bringing out the greatest number of beneficial points.

Another plan would be to submit to the class members, a Sunday in advance, review questions concerning these characters. These questions should be formed by the teacher to recall outstanding points brought up in the class.

SAUL

"I have played the fool." Saul summed up his own life in the words: "I have played the fool" (1 Sam. 26:21). Mighty man that he was in the beginning, he confesses himself at the end "a self-made fool."

This confession had reference to his childish acts toward David, the young man whom at first he so much admired and loved. The same confession, however, well applies to his whole life. He chose the role of a fool because he chose to set up his will against the will of God.

Splendid physique had much to do with putting Saul on the throne to begin with. He cut a stylish figure. There was a princely bearing about him. A good strong body is no small asset in bringing a man to the front, but it counts for little in keeping him at the top when he hasn't sense enough to walk with God. Many a man handicapped by physical weakness, has made a better success than Saul.

Let us realize, however, that a strong body is a great advantage, other things being equal. We heard of a young man who was sent to a railway station to meet a visiting preacher. Seeing a sickly, neurotic type of man alight from a coach, he at once jumped to the conclusion that this was the minister. Many seem to have the idea that dyspepsia goes along with piety. The preacher who has a body like Saul's has much to be thankful for, but the greatest asset, after all, is to have a will surrendered to God.

Saul seemed to be a very modest young man. When Samuel came to anoint him king, he felt it was far beyond him. He was not too big to continue at humble tasks,

even hunting for his father's asses, although he was at the time anointed king. Those are fine qualities if one can keep them alive after he gets power to himself.

God gave Saul a great friend—Samuel. Through thick and thin, Samuel stuck to him as his pastor and advisor. With patient devotion Samuel loved him, keeping after him whenever he went wrong, and to the end of his life never ceasing to pray for him. Yet what heartaches Saul must have given his loyal friend.

No man ever had placed before him more magnificent opportunities than Saul. What use did he make of them? Answer: "Played the fool." He left God out of his plans. The tragedy of his life was that when he sinned, he never could be brought to face it, and get right with God. David, his successor, perhaps sinned in a more hideous way than Saul ever did, but he became penitent and gave God a chance to put away his sin.

Saul was given to half-obedience, and that is something which God counts as pure rebellion. If Saul was told to utterly wipe out the Amalekites for the good of the human race, he would wipe out what he wanted to and keep what spoils attracted him. Obeying God as far as it suits us, is trifling with God, and is bound to bring chastisement.

Saul was full of excuses. He was clever at devising explanations when Samuel would face him with his failures. Someone else was always to blame. The man who will not confess himself guilty, is in no position to receive pardon and divine blessing. Saul would never put himself in that position. He was always putting a religious face on his sins.

But someone will say: "Did not Saul many times say: 'I have sinned'?" Yes, many—but under what circumstances? In every case, he was in a corner. The prophet had the goods on him. He did not want to lose the kingdom. But where is there evidence of heart repentance?

Saul ended up a suspicious, peevish, childish man. The green-eyed monster, jealousy, wound itself around him. One who is a prey to envy, suffers the pangs of hell in this life. The once brave man ended up the plaything of evil forebodings. There was no relief, for he had been too busy to learn how to pray. He turns to a witch for help. He asks his armor bearer to kill him, and ends up by falling on his own sword. How differently the story might have ended, but "he played the fool."

DAVID

"Against thee have I sinned." If we are called to follow the promising Saul into the valley of humiliation, what shall we say of that even more remarkable character, David? The Bible is written to show us the subtleties of Satan and the utter folly of sin. No character has been whitewashed. The faults of men who were greatly used of God, are laid bare before us that we might know how human and like ourselves they were.

David is called in Scripture, "a man after God's own heart," not because he was sinless, but because he was a man of faith and when he sinned, confessed from the depth of his heart and took up his walk with God again.

The history of even the most obscure believer, will be found to exhibit, although perhaps on a smaller scale, the same inconsistencies as those seen in David. Who is there who has not at times been assailed by unbelief, like David when he fled for refuge to the king of Gath?

What sincere Christian worker has not had mistaken notions about the Lord's service, like David when he tried to build a house for the Lord before the time?

What Christian has never been taken in by notions of self-complacency and pride, like David when he sought to number the people?

Is there one who has never known, even in the thought life, the vile lustings of nature, like David in the matter of Uriah the Hittite?

It is all this that makes David peculiarly interesting to us. But what discouragement the picture would bring us except that the Scripture story also reveals the divine grace that met David in his sins and again lifted him up. That makes the story precious to every heart that knows its own plague.

We may profit much from the fine traits of character seen in David, but let us be sure we do not miss the warnings to be derived from a close study of the causes of his sad fall. It was when he retired from the post of duty, and lay around at Jerusalem, that the enemy got the advantage over him.

That is just when the darts of the enemy are most apt to hit us. Keep busy for God; keep nature under pressure. There is safety in it! Satan never fails to find mischief for idle hearts and hands.

We have a watchful enemy. The moment we are unoccupied, Satan knows his hour. When we are up and doing for God, and maintaining communion with Him, we are in the attitude of positive hostility to

the Devil. That is not his opportunity to make us instruments for his own ends.

When David failed in energy as the captain of the Lord's hosts, he became the slave of lust. Likewise, we are either dominated by the energy of the Spirit or the energy of the flesh. "At the time when kings go forth to battle," David was at rest in his own house and Satan presented the fatal bait before him.

To what length will this nature of ours go when it is out of touch with God! Who would have thought that a man like David would first degrade his character to indulge nature and then, in order to maintain his reputation at all cost, put a man out of the way?

No man becomes suddenly vile. White ants can pick a carcass clean sooner than a lion can. A long train of evil thoughts led David into all this. Our only safety is in watching the beginnings of things and avoiding the first steps that lead down.

Did David forget that the eyes of the Lord were upon him? God help us not to forget that He sees. Had David kept himself conscious of this, he would have faltered ere he added the sin of murder to adultery.

God will maintain His holiness. He cannot be trifled with. If his child wanders into sin, he is bound to be dealt with. So in David's case much as God loved him, we find Him pronouncing most solemn judgments upon his house because of sin. "We are chastened of the Lord that we should not be condemned with the world."

SOLOMON

"All is vanity" The comparative scantiness of

material concerning the life of Solomon is significant. The story of David occupies more than sixty chapters; that of Solomon fills only eleven chapters of 1st Kings and 2nd Chronicles.

No person occupies so important a space in sacred history of whom so few personal incidents are related. Solomon's name hardly occurs after the close of his reign.

The position to which Solomon became heir was certainly unique. Large resources, accumulated through many years, were at his disposal. The people were for the most part true to Jehovah. Knowledge, art, music and poetry had received a new impulse. There was a great outlook.

Solomon's reign marked the climax of the Hebrew monarchy. With Solomon came the beginning of its decline. Never again did Israel take its place among the great nations of the East. Starting out with great wisdom, Solomon later prepared for the downfall of the kingdom by luxury and arrogance.

He was the author and compiler of the richest maxims of wisdom in the world's literature. But sad to say, Solomon so dissipated himself through sensual pleasure, that he sums up with the confession: "Vanity of vanities—all is emptiness and vexation of spirit." Thus may very intellectual men come to nothing because they attempt to exercise their wisdom independently of God.

Solomon's great piece of work was the building of the Temple. Beyond that, there is little in his history to record besides the description of his magnificence and wealth.

In Solomon, we see the utter powerlessness of mere culture and intellectualism, even of the highest kind, when it is not vitally related

to the love and reverence of God. Dr. Plummer has well said: "The lesson of his life is to a large extent that of Samson's and Saul's combined—miraculous powers neutralized by self-indulgence—great natural gifts rendered baneful by desertion of God."

Solomon seems never to have known the bracing influences of difficulty and adversity, which largely made his father the man he was. He had been brought up in expectation of a glorious crown, and when it came to him, it swelled his head until his character could not stand the strain.

Fastest Four in America Proves Its Claim to Title

Dodge Averages 67.35 miles per hour in Beating All Other Fours in Atlantic City A. A. A. Race

The Atlantic City (N.J.) Speedway Association, without Dodge Brothers instigation or knowledge, bought a Dodge Brothers Four and entered it in a Labor Day race for Four cylinder stock cars. Four cars of other makes also competed. All were strictly stock cars as required by the rules of the association. The race was for 25 miles—to determine which was "The Fastest Four in America."

The Dodge won. Its average speed for the entire race, from a standing start, was 67.35 miles per hour (officially timed by A. A. A.).

Generous confirmation, to say the least, of the modest claim of "Mile-a-minute Performance!"

Even more remarkable than the speed, however, is the fact that the car had been driven only 10 days and yet was able to withstand this difficult test without once stopping. Thus the race not only offers conclusive proof of the Dodge's superiority in speed, but stands also as a glowing tribute to the rugged materials and excellent workmanship that go to make it—America's Fastest and Finest Four!

LUTHERAN CHURCH

Contrary to the opinion of many people, Spiritism is not something new, it is not the product of our modern age, which is forever on the hunt after new ideas and inventions. Many centuries ago, the "black arts" were practised such as sorcery, witchcraft, necromancy, clairvoyance, telepathy, spirit manifestations, etc. Spirit messages, flying tables and chairs, belief in the possibility of communicating with the dead, were common thousands years ago with the Chinese, Hindus, and Africans. They had their medicine-men, hoodoo-doctors, snake-charmers, spirit controllers, etc.

But what of Spiritism as practised today? Are the so-called Spirit messages, the moving of heavy objects like tables, pianos, etc., without being touched, the floating in mid-air of books and other objects, the blowing of trumpets and similar noises—are these and other

spiritistic phenomena simply trickery, slight of hand, and fraud, or is there supernatural power sometimes connected with them? Can the spirits of the dead be called back to earth? Can they talk or send messages to the living? If so, by whose power? And even though we admit that most of these things are done by fraud, still we know that some can not be explained in that way. Must we not attribute the abnormal and supernatural phenomena to evil spirits? What effect has spiritism on its victims? Taking for my subject, "The Witch of Endor" (1 Sam. 28), I purpose to answer the above questions in the light of the Holy Scripture on Sunday, September 25, at the Plainview school, north of Perryton. This the Age of Romance

By Dr. Frank Crane

It is quite common to hear people regret that they live in this prosaic age this age given up to dollar worship and so void of anything heroic. They wish they had lived in former times when men were more occupied in glorious deeds than they were in making money.

This illustrates the fact that you have to have a perspective in order to judge anything properly. The trouble with our impression of this age is that we are too close to it.

Putting our mind in the position of fifty years from now and looking back upon this time we would see that we are living in the most romantic age of the world.

We have progressed more in the last twenty-five years than the world had previously progressed in twenty-five centuries.

For the first time in history men, such as Byrd and Amundsen, have flown over the North Pole.

This is the day when Lindbergh flew alone from New York to Paris and amazed mankind.

It is really an age when men care more for great deeds than for dollars or life.

It is an age when the League of Nations was forming and the sentiment of world consciousness was gradually taking shape. It is an age when women were given rights of citizenship and for the first time in history were released from their bondage.

It is the first time when any nation was able to shake itself loose from the liquor habit and the foremost republic of the world adopted prohibition.

It is an age when more men have given themselves up to scientific and medical research than ever before.

Altogether one ought to be proud to be living during the first quarter of the twentieth century.

We are still in bondage, owing to the force of inertia.

We still vote at a voting place instead of by mail, which is the only rational and sensible plan of voting and the only practical way to secure a universal plebiscite.

What we need is not another age of living, but eyes to see the present one in which we live.

What's the Big Idea?

Money plus interest makes money. Indians sold New York City for \$24 to Dutchmen. Had they placed that sum at six per cent compounded on the day they sold the land, their heirs would have more money than New York City is worth. Chauncey Depew, past ninety, tells how he put \$100 in the savings bank sixty-six years ago, and now has \$1,100 in the bank.

But interest, while sure, is slow. A good idea makes money quickly. John E. Andrus, called the "Straphanger Millionaire" because he hangs to street-car straps when he might ride in his automobile, bought one share of Singer Sewing Machine stock for a few dollars in 1864. Having bought a good thing, he knew enough to keep it. That share has paid him thus far \$94,600.

It was not Mr. Andrus' thrift that made the money, but THE IDEA of another man, putting the eye of the needle in the needle's point, instead of the other end, thus making the sewing machine possible. Be thrifty, save, let interest work for you by all means. But use your brain for QUICK results.

Farm Relief Coming

Farm relief at the coming session of Congress is imperative. Such were the words this week of Senator Borah of Idaho, an opinion expressed after interviews with informed persons in travels from Chicago, west to the Pacific coast. They are in line only with an idea agricultural leaders have had since the last failure of the Haugen-McNary bill to be enacted into law.

Agriculture knows that it rightfully asks and expects the same federal aid, protection—or what have you?—accorded American manufacturers or other industries enjoying the high tariff. That agriculture means to attain its objective was thoroughly demonstrated at the St. Paul Conference of agricultural leaders this summer.

While capital always wields a powerful hand when opposed to an issue, in this particular instance the forces are divided and for a very good reason, namely that there are manufacturers with vision enough to see and know that agriculture must be put on a sound basis for the nation's prosperity to be economically sound.

The mid-western manufacturer, closer than his eastern brother to the seat of trouble, is in many instances now advocating the passage of a farm relief bill as sponsored by agriculture. Evidence of this comes in reports of an interview with Paul F. Beich, a candy manufacturer of Bloomington, Ill., president of the Illinois Manufacturing Association, which was broadcasted quite generally last week. Mr. Beich said: "We must help the farmer. He works hard and gets less for his toil than anyone else in this land of prosperity and luxury."

Such expressions substantiate Senator Borah's latest declaration. And didn't he say a mouthful: "Farm relief is imperative?"

Civilization

White men have decided that they want a bridge across the north end of the Grand Canyon, which would be very convenient for automobilists and tourists generally. The bridge would cost \$200,000. The typical "white man" plan is to make the Navajo Indians pay half the amount. The bridge wouldn't do them any good. It doesn't connect any separated sections of their reservation. It is purely a white man's improvement for the benefit of white men. But after the white men had given the Navajo, Osage and some other Indians about the worst land they could pick out for their reservations, fate decided that oil should be struck in the land of the Navajos and of the Osages also.

The Osage Indians are looked after by enterprising white men that sell them whiskey for large sums, and get away with the rest of the money when they are drunk, or insure their lives, and then kill them to collect the insurance. Uncle Sam is apparently taking a hand in the game with the Navajos. He has arranged to build the bridge take half the cost, \$100,000, from the oil profits of the Navajo Indians, about all they would get in a year.

This will not surprise the poor Navajos. HONEST TREATMENT WOULD SURPRISE THEM.

A certain percentage of the alcohol seized and confiscated by the federal prohibition forces is being turned to the U. S. Postal service, "to be used," it is said, "chiefly as an antifreeze in postal automobile trucks."—It is said.

Being the under dog in any kind of a mixup gets a lot of sympathy for anyone—while the thing most desired at such times is a little assistance.

Michigan puts new "no-limit" speed law into effect. Evidently the state motto now is: "No pedestrian shall escape."

Pullman sleeping car receipts for 1926 were \$81,834,317.—which shows that it evidently pays to work while others sleep.

The best salesman the automobile companies have is Mr. Pride of the buyer.

Senator Walsh of Massachusetts.

when Congress meets will introduce a bill to provide "a West Point of the air," a United States aviation academy, to take equal rank with West Point and Annapolis. An excellent suggestion, and "equal rank" is none too high, for in case of war the fliers would have to protect the obsolete warships and slow, crawling army.

West Point and Annapolis should be changed to flying academies and the sooner the better.

A group of well-meaning, but not too intelligent farmers inform the Government that they don't want any more reclamation work done, no more irrigation canals, no more land drained or deserts irrigated until the price of farm products increases.

Those are the farmers that have voted to keep out the first class European immigration that this country needs, the immigration that would provide mouths to eat all the farmers can grow and more. They vote to keep out customers for the farms, and would vote to prevent development of the country. But they will not prevent it.

No extensive development begun now would have any effect or add one acre to cultivatable land in less than ten to fifteen years. By that time, in the natural course of events, the population of the country will increase by twenty millions.

The farmers, more than any other class, are interested in canal development, which would take, as Mr. Hoover has shown, from six to twelve cents a bushel from the freight charge of export wheat, and increase the price of American wheat by that amount per bushel.

Professor Hempes, of Budapest, is reported to have perfected a new cure for hydrophobia, better than the Pasteur antitoxin. In one year 3,063 persons bitten by mad dogs and cats were all cured, and every one of them, except four, within a few days. That's good news, but it would be better to wipe out hydrophobia as the British have done. Every dog is kept in quarantine for a necessary length of time, and no hydrophobia case was known in England until recently, when a flier brought a dog through the air, escaped the quarantine, and started a small epidemic.

The secret of health is cleanliness, inside and out. Clean lungs, clean blood, clean thinking prolong the life and fight disease.

Leprosy, that killed thousands

and was looked upon as a necessary visitation from above, was another word for filth.

In Africa, a strange, destructive, fever swept across the great dark continent, 60,000 were killed by it, quarantine stations were established with success.

Soap, water and disinfectant would have done the work. Disease is carried by vermin. Before asking why the natives do not free themselves of vermin, we must remember that it isn't so long in this country since people looked upon the absence of vermin as a sign of ill health.

They thought the tidy children

abandoned, unhealthy children. They also thought that the mosquito's bite, which actually put malaria in the blood, was a good cure for malaria.

Mr. Will C. Wood, California's superintendent of Public Instruction, says that school hours should be made longer, and recommends legislation to the effect. He is mistaken, the hours should be made shorter if there is to be any change.

Two hours a day, or three at the most, a child properly taught could learn all that its mind could absorb in one day. No hours of sunlight should be spent indoors unnecessarily.

For centuries men quarreled the nature of the soul. Was it spiritual? Now science says that there is no such thing as matter, every atom being aggregation of electrons, elct, tiny positive and charges of electricity. And know what electricity is.

Christ's Letter

Found Under a Great Stone Near Iconium Sixty-Five Years After Crucifixion

The following article was furnished the Herald through the courtesy of Mr. J. L. Flowers. It was taken from the Hamilton, Texas, Progress, dated March 17, 1893.

Found eighteen miles from Iconium, sixty-five years after our blessed Savior's crucifixion, transmitted from the holy city by a converted Jew, faithfully translated from the original Hebrew copy now in possession of the Lady Cuba's family at Mesopotamia.

This letter was written by Jesus Christ, and found under a great stone, both round and large, at the foot of a cross, eighteen miles from Iconium, near a village called Mesopotamia. Upon that stone was written and engraved:

"Blessed is He That Shall Turn Me Over."

All people who saw it prayed to God earnestly, and desired he would make known to them the meaning of this writing, that they might not attempt to turn it over in vain. In the meantime there came a little child about six or seven years old, who turned it over without help, to the admiration of all who stood by, and under this stone was found a letter written by Jesus Christ, which was carried to the city of Iconium and there published by a person belonging to the Lady Cuba, and on the letter was written the commandments of Jesus Christ, signed by the angel Gabriel twenty-eight years after our Savior's birth:

"Whoever worketh on the Sabbath day shall be cursed. I command you to go to church and keep the Lord's day holy, without doing any manner of work. You shall not idly mispend your time on bedecking yourselves with superfluities of costly apparel and vain dressing, for I have ordained it a day of rest. I will have that

Rode Plane's Tail

Vincent Taylor, 17, of Hackensack, N. J., in helping an air-mail pilot straighten away a plane for a night flight caught his hand in a strut and was taken aloft on the tail of the plane where he rode for 30 miles. The pilot was unaware of the boy's plight.

day kept holy, that your sins may be forgiven you. You shall not break my commandments, but observe and keep them—written with my own hand. Smite them in your hearts and steadfastly observe this was written with my own hand, spoken by my own mouth. You shall not only go to church yourselves, but also your man servants and your maid servants, and observe my words and learn my commandments. You shall finish labor every Saturday in the afternoon by six of the clock, at which hour the preparation for the Sabbath begins. I advise you to fast five Fridays in every year, beginning with Good Friday and continue the four Fridays immediately following, in remembrance of the five bloody wounds I received for all mankind.

You shall diligently and peacefully labor in your respective vocations, wherein it has pleased God to call you. You shall love one another with brotherly love and cause them that are not baptized to come to church and hear the holy sacrament, viz., baptism and the Lord's supper and be made members thereof. In so doing, I will give life and many blessings and your land shall bring forth abundance. I will give you many blessings, comfort you in the greatest temptations and surely he that doeth the contrary shall be cursed and unprofitable. I will also send hardness of heart upon them, but especially upon hardened and impenitent unbelievers. He that hath given to the poor, he shall not be unprofitable. Remember the Sabbath day, for the seventh day I have taken to myself, and he that hath a copy of this letter written with mine own hand and spoken by mine own mouth and keeps it without publishing it to others shall not prosper, but he that publisheth it to others shall be blessed of me and though his sins be in number as the stars in the sky, and he believes in this, shall be pardoned, and if he disbelieves in this writing and my commandments, I will send my plagues upon him and his children and cattle, and whosoever shall have a copy of this letter written with my own hand, and shall keep it in their houses, nothing shall hurt them, neither pestilence, lightning nor thunder shall do them any hurt, and if a woman be with child and in labor, and a copy of this letter be about her and she firmly put her trust in me, she shall safely be delivered of her birth. You shall have no news of me by

the Holy Spirit till the day of judgment. All goodness and prosperity shall be in the house where a copy of this letter shall be found."

BIG FAIRBANKS SPECTACLE IN "THE BLACK PIRATE"

In Douglas Fairbanks' new photoplay "The Black Pirate," which will appear at the American theatre on Thursday and Friday, a vivid, swash-buckling affair of the Spanish main, the Technicolor process has been used to heighten the dramatic effect in an unusual way.

Up to the climax—which is the blowing up of an expensive, especially designed Spanish galleon—the coloring is in a somewhat minor key—unobtrusive, muted, yet picturesque and pleasing.

But when the galleon is resolved into its component parts by a movie explosion, there is a climactic plunge into primary tints. Vivid reds sprawl over the film. A slight-

ly less vivid yellow makes its evening bow to the audience. In short, when the action takes on sudden violent movement the coloring turns from the mild to a sublimely dramatic flash.

We have received word from our good friend, C. R. Hartman, who in company with his two nephews, E. H. and W. H. Wanner, are making a motor tour of the west. The Hartman party was at Cheyenne, Wyoming, the fore part of last week.

Mr. and Mrs. J. T. Carlson returned Monday from Liberal with their little daughter, Marie. Little Miss Marie received medical attention at the Epworth Hospital. She is now on the road to a complete recovery.

Now-an even better car at even lower prices

Since its first day before the public, the Pontiac Six has been scoring a series of triumphs. First came the triumph of its introduction, which resulted in world record sales for a new make of car! Then came a steady succession of important improvements in quality, luxury and convenience—

—improvements that resulted in smoother operation and greater handling ease, in greater comfort, greater economy and greater owner pride—in higher standards of quality and higher levels of popularity!

And now Pontiac Six again represents a sensational new standard of value—the result of this notably finer quality, combined with beautiful new Duco colors on bodies by Fisher, at lower prices on all body types.

GRAND OPENING OF Our New Modern Motor Home Tuesday, September 27th

THE PERRYTON MOTOR COMPANY will hold a grand opening of their new building on Tuesday, September 27, entertaining in the afternoon with the Chevrolet Caravan which will be in Perryton and in the evening with an old timers dance. Everything is free and everyone is urged to attend. A cordial welcome awaits you.

THE CARAVAN

will be in

PERRYTON

—on—

TUESDAY, SEPTEMBER 27

Between 5 and 6 o'clock

THE CARAVAN contains sixteen trucks, representing as many different body types, including straight truck, tank truck, delivery truck, truck and trailer, truck and trailer body truck, and many others. A novel exhibit will be made, one that should interest every one in Perryton.

SEE THIS DISPLAY

The New Home of the Chevrolet, Oakland and Pontiac

We are making an effort to have our building as nearly finished as possible. The hard wood floor upstairs is finished, surfaced, filled, and waxed, ready for the dance. The plate glass front is being set, plumbing installed and the floor put in downstairs.

A display of cars and trucks will be shown in the building, Tuesday evening.

Free!

OLD TIMERS DANCE

The Perryton Motor Company will entertain the public with a free Old Timers Dance, on

TUESDAY, SEPTEMBER 27

FREE DANCE IN NEW BUILDING

AND OPENING OF PERRYTON MOTOR COMPANY TO BE HELD TUESDAY SEPT. 27

Every effort is being made to complete construction work on the new building of the Perryton Motor Company, in order that the structure may be ready for the grand opening of the building, on Tuesday, September 27.

L. L. Donley, proprietor of the Perryton Motor Company, announces that he will open the new building with a big free old timers dance and fiddlers contest, to be held on the evening. An old timers dance will furnish the music for the large crowd that is expected to attend the event.

As a part of the evening's program, Mr. Donley is offering three prizes, the first, \$5.00; second, \$2.00; and third, \$1.00, to be awarded to the best old fiddlers. All old time fiddlers are requested to bring their instruments and enter the contest.

It may be possible that the entire evening's program will be broadcast from the garage building. It is understood that the Chevrolet car, which will be in Perryton on Tuesday, carries with it a small broadcasting station. Should this be the case, the program will be put on the air.

In inviting the public to the new opening, Mr. Donley says, "We want your money at home—everybody has it."

YOU WANT THRILLS AND LAUGHS, SEE "ROOKIES"
If you want to laugh and thrill, there is a good place to do both at the American theatre, where "Rookies," a Metro-Goldwyn-Mayer production, will be shown Monday and Tuesday. The picture, which was made with the co-operation of the government, is laid against a background of life at one of Uncle Sam's military training camps for civil-ized. Kad Dane, one of the heroes of "The Big Parade," has the role of sergeant and George K. Arthur, who as a film comedian, is seen as the greatest of recruits. The picture arises when both fall in love with Marceline Day.

Mr. and Mrs. C. W. Claybaugh, Mr. and Mrs. Conley and Arch Talley will give the style show at Liberal on Thursday.

Miss America 1927

Miss Lois Eleanor Delander, 16, high school girl of Chicago, won the annual Atlantic City beauty contest and is "Miss America" for 1927. She has long brown tresses and fair complexion.

PARENT-TEACHERS PROGRAM

The Parent-Teachers association will meet in the school auditorium, Monday afternoon, September 26, at 3:30 o'clock, at which time the following program will be given:
Reading—by one of Miss Card's pupils.
Duet—by two of Mrs. J. W. Wilson's pupils.
Paper, "Art"—by Miss Della Landers.
Business session.
Plans for the coming year.

A CORRECTION

The Herald wishes to correct a statement made in last week's issue. Mary Lou, the little girl born to Mr. and Mrs. George Rupprecht Jr., on September 10th, objects very much to being called a boy.

CARAVAN WILL BE HERE TUES.

SIXTEEN CHEVROLET TRUCKS SHOWING ALL MODELS AND DESIGNS ARE INCLUDED

A Chevrolet caravan, composed of sixteen trucks including all of the regular truck bodies and cabs, will arrive in Perryton between five and six o'clock Tuesday evening, September 27, the date set for the opening of the new home of the Perryton Motor Company.

Arrangements are being made to park the trucks along the middle of Main street that all may inspect and examine the different types. Among the sixteen different models will be included a straight truck, tank truck, delivery truck, truck and trailer, truck and trailer body truck, and many others.

It is understood that the caravan carries with it a broadcasting outfit and should this prove correct a broadcasting exhibit will no doubt be made.

This fleet of trucks is attracting nation-wide attention. It seems an excellent way to get the public acquainted with the Chevrolet truck and will no doubt find many interested spectators in Perryton upon its arrival here.

Don't forget the boys and girls Saturday, eat lunch with them.

Society

Current Events Department

On Wednesday, September 14, the Current Events department of the Sorosis club had their first fall meeting at the home of Mrs. H. C. Brillhart, with Mrs. K. H. Bray and Mrs. Brillhart as hostesses.

Mrs. H. T. Cutter had a very interesting paper on "Public Opinion and Popular Control in Government." Mrs. D. D. Shanks had as her subject "Political Parties and Elections." Both subjects were ably handled. The reading given by Mrs. O. C. Shearer in honor of the new members and the burlesque play in the form of a welcome by Miss Nellie Perry and Mrs. W. C. Barber were very clever.

Mrs. Dewey R. Allen was elected secretary-treasurer to fill the vacancy left by Mrs. I. S. Bradshaw.

Those present were Mrs. J. M. Bull, Mrs. H. T. Cutter, Mrs. K. H. Bray, Mrs. H. C. Brillhart, Mrs. J. B. Nash, Mrs. Mammie Powers, Mrs. D. D. Shanks, Mrs. H. T. Cropper, Mrs. O. C. Shearer, Mrs. Harriett Thornton, Mrs. Dewey Allen, Mrs. Geo. Cutter, and Mrs. W. C. Barber.

The visiting guests were Grandmothers Perry and Cutter, Mrs. Jas. Barbour, Mrs. Sam Hergert, Mrs. Billie Stramp, Mrs. Eugene Barnett.

Mrs. Bruce Bray, Mrs. P. T. Sherman and Miss Nellie Perry.

At the conclusion of the program a dainty two-course luncheon was served.

Federated Society

The program for the Woman's Federated society for Thursday, September 29, to be given at the Baptist church, will be as follows:

Hymn.
Devotional, by Mrs. G. D. Holt.
Subject: "China."

"Fundamental Facts in the China Situation Today, Through Chinese Eyes," by Miss Nellie Perry.

"The Christian Educational Movement," by Mrs. M. R. Todd.

Special Music.
"The Christian Church in China," by Mrs. C. E. Forbes.

"The Family of Nations in the Kingdom of God—in Christ," by Mrs. W. B. LaMaster.

Free Will Offering.

Shower for New Bride

A shower was given in honor of Mrs. Walton Wilson at the home of Mr. and Mrs. J. O. Wooten, Saturday afternoon by the Home Economics girls.

After every one had arrived but the bride, the cars were driven out of sight so it would be entirely a surprise to Mrs. Wilson.

Miss Mildred Wooten went to Mrs. Wilson's home to take her for

a ride, Miss Mildred making the excuse that she had forgotten something at home and would have to go back for it. When they arrived Kathryn suggested that she would wait in the car but Mildred insisted on her coming in.

Kathryn had up an interesting conversation about the draperies for her new home, but as she stepped inside the door, she was surprised by a shower of rice.

Mrs. Wilson was seated in a bride's chair in one corner of the room by a well, decorated in blue and white. The well was filled with many pretty and useful gifts. Much pleasure was derived from watching Mrs. Wilson draw the gifts out of the well and unwrap them.

Delicious refreshments were served consisting of punch and cake. A toast was given by Miss Ruby Jane Simmons. Mrs. Wilson gave many points on "How to catch a husband" so that those who were not present missed a lot of valuable information.

tion. The members of the club in departing reported an enjoyable time and wished the bride and the bridegroom a long and happy life.

WAKA NEWS

The members of the G. S. C. club met in the home of Mrs. Dave Dunthoo last Thursday, Sept. 15. Those present were Mrs. J. J. Klem, Mrs. J. P. Robertson, Mrs. Alfred Cook, Mrs. Harry Bishop, Mrs. Ray Berger, Mrs. W. A. Reed, Miss Gertrude Robertson and Mrs. Dave Dunthoo. After some earnest work was done, and delicious refreshments of ice cream and cake were served by the hostess, the club adjourned to meet in the home of Mrs. W. A. Reed, Thursday, September 22.

Miss Eva Robertson has been visiting for the past two weeks in the homes of relatives and friends in Miami.

The people of the Waka community gave a reception at the school house last Friday evening for the new school teachers. Good entertainment of music, talks, etc., was furnished, after which all those present were served with ice cream and cake. Altho the weather was rather stormy, the community was very well represented, and everyone went home declaring himself better acquainted with his neighbor than he was before.

Mrs. N. P. Dear has been very ill for the past week or two, but is reported to be improving rapidly.

Mr. and Mrs. Jesse Wilson and children spent last Sunday in the H. N. Elledge home.

Sid Plack and Grady Bishop left for Hedley, Texas, last Thursday. Mr. Bishop expects to attend high school there.

Mr. and Mrs. Wm. Robertson of San Benito, Texas, who have been visiting in the home of their daughter, Mrs. B. L. Barnes, for some time, are expecting to return home in a few days.

The ball game which was scheduled with Range for last Sunday, was called off on account of the rainy weather.

Mrs. T. E. Miller's sister, Mrs. Strawn of Oklahoma City is visiting with her now. Mrs. Miller has been ill for some time, but is better now, and we hope will continue improving.

Mr. and Mrs. Jerry Berger and Miss Nadine Berger returned last Friday from a visit in Colorado.

Mrs. Jesse Wright was out from Perryton Friday evening, and took part in the program at the school house.

Heavy rain falls have been general throughout the community and were appreciated by the farmers.

Mr. and Mrs. J. P. Robertson spent Saturday in the B. L. Barnes home.

Mr. and Mrs. Wm. Newingham

are the proud parents of a fine girl, Lily Ellen, who arrived Saturday, Sept. 10.

Mrs. Frank Cheek of Oklahoma City has been visiting with her sister, Mrs. Jno. Berry since last Thursday.

Miss Gertrude Robertson spent Tuesday with Mrs. H. N. Elledge.

PAIR MOVIE STARS HAIL FROM TEXAS

Kathleen Collins is appearing for the second time as Ken Maynard's leading lady in "The Overland Stage," the First National picture showing at the American Theatre, Thursday night, September 29.

Miss Collins, like Maynard, is a discovery of Charles R. Rogers, producer of the picture, and like the star, is from Texas. This bond of union, together with the fact that Miss Collins became very popular with the film troupe during the making of "The Unknown Cavalier" caused her to be selected for the current picture. Miss Collins has been in pictures less than five years. Like many of the greatest stars of today, she started in comedies, and played her first leading role in a picture starring Rex, King of Wild Horses. "The Overland Stage" was directed by Al Rogell and supervised by Harry J. Brown. It is a tale of settlers' warfare with the Indians.

Ernest Williams was through here last week end visiting with old friends. Ernest was enroute to Wichita, Kansas, on a buying trip for his store at Littlefield, Texas.

George Rupprecht has accepted a place in the market at the McLarty Mercantile Company. Mr. Rupprecht is an experienced meat cutter and his many friends and former customers are glad to see him back again in the business.

Mr. and Mrs. R. C. Johnson returned Sunday from Temple and other points in Texas. While at Temple Mr. Johnson underwent a tonsil operation.

HIGHWAY TO BE IMPROVED SOON

CONVENTION OF MID-WEST HIGHWAY BEING PLANNED FOR NOVEMBER

An effort will be made soon to organize the towns along the route of the Mid-West, Kansas City to Amarillo highway in order that the road may be improved and marked. Several changes have been made recently in the route, which shortened the distance considerably.

The route runs from Perryton to Spearman, through Stinnett, Borger, Panhandle, into Amarillo. Going north from Perryton, it goes through Beaver, Porgan, Meade, Kansas, then taking Kansas and Federal Highways on into Kansas City by way of Wichita and Topeka.

A convention of towns along the route is being planned for November. Beaver having been selected as a suitable place for the meeting.

Dempsey-Tunney

back of Tunney's neck. Gene does two nice lefts in Jack's body at the bell.

ROUND 6. The crowd bellowed as Jack's right hand smashed under Tunney's heart. The champion came back ripping both hands to the chin. Dempsey tiring, fell into a clinch after the blows. Jack turned the champion half way around with a right hook to the head. Tunney came back strong. Two more left hooks and a straight right stung the champ. He missed a long left. Jack took a right to the heart as they fell again into the ropes at the bell.

ROUND 7. Dempsey's handlers pleaded with him to keep his chin down as he came out under Tunney's right. Jack jabbed a soft right to the ribs. A volley of right and left hooks to the head floored Tunney for the count of nine. Dempsey was on him like a wild cat. Jack came in close with a smashing body attack. Wobbly and dazed, Tunney only jumped and floundered backwards. Jack cornered him at the ropes and smashed a left and right to the body. Gene came back weakly. Jack laughed and urged Gene to come in and fight. Losing his temper Jack smashed Tunney with left and right swings to the head. Gene badly dazed grabbed Jack with both hands and was still holding on fiercely at the bell.

ROUND 8. Jack came in a crouch. Gene appeared recovered. As Tunney backed Jack made no effort to catch him. Tunney came back to fight, whipping a left and right uppercut to Jack's chin. Dempsey left to the jaw. A smashing left to the body throws Tunney back and a right to the heart made him grab Jack. As Dempsey dogged, he slipped to his knees for two counts. Tunney flew. Dempsey pumping both hands to the head. Tunney nailed Jack with both hands to the chin as the former champion bounced off the ropes. They were boxing cautiously as the round ended.

ROUND 9. Tunney's retreating acts drew boos from the crowd. Jack grabbed the champ and smashed him half a dozen times on the back of the neck. They both had slowed up. Tunney held Jack off for a few moments for three straight left jabs. Jack bored into close quarters. Gene's right opened a cut over Jack's right eye. Jack tried to bob but two solid rights felled him off his jaw. Jack was wobbly. The champion came back and rocked Jack with a flinging smash to the head. Dempsey was wobbly as the gong sounded.

ROUND 10. Jack floored Tunney with a right and left to the chin. Jack's right smashed into Gene's head. Jack whaled in with both hands but Tunney tied him in a clinch. Tunney whipped a left and right into Jack's face. Gene came ripping both hands to the head. Jack appeared to tire. Gene laid him on the ropes. Dempsey does several rights to the body. Gene countered with a left. Dempsey wobbled about the ring as the bell sounded. Tunney won.

Mr. and Mrs. Will McKenzie, New York City, and Mr. and Mrs. C. W. Claybaugh, Pretty Prairie, Kans., were visiting over the week end in the home of Mr. and Mrs. Chas. W. Claybaugh.

Mr. and Mrs. Jim Thompson and little daughter, Doris, left Tuesday for Bayside, Texas, where they will visit with relatives and friends for the next three months.

C. W. Callaway and little son, Cleo, and J. A. Jones attended the Beaver County Fair last Tuesday.

Visit Amarillo Cemetery

G. R. Wilson and Commissioners Leave Wednesday to Inspect Llano Burial Place

G. R. Wilson and County Commissioners R. A. Fuller, H. C. Brillhart and W. G. Yearly left Wednesday morning for Amarillo where they will inspect the Llano Cemetery which is one of the best improved and maintained burial places in this part of the southwest.

The Llano Cemetery is owned and operated by an association and is a self supporting institution. The Ochiltree Cemetery is owned and maintained by the County from tax funds, which are not sufficient to keep up the final resting place of our loved ones as would be possible under the association plan.

The Commissioners and Mr. Wilson are visiting in Amarillo in order that correct data and information can be obtained relative to turning the Ochiltree Cemetery over to an association. There is little question but what that this would be the best plan and that everyone concerned would be better pleased.

W. G. HIBBS COMPLETES McLAIN COUNTRY HOME

Contractor W. G. Hibbs has just completed a seven room residence for Mr. and Mrs. Sam McLain, who live southwest of Perryton. This house is of frame construction and is modern in every way. Mr. McLain is one of our most prosperous farmers.

TWINS BORN MONDAY MAKE FIFTH GENERATION

Twin boys born to Mr. and Mrs. Rex Clark, Monday evening, made the fifth generation of the Whippo family, all of whom live around Perryton.

The great, great, grandmother of the twins is Mrs. Matilda P. Whippo, age 94. Her son, E. L. Whippo, is the father of Mrs. Ross Thurman who is the mother of Mrs. Rex Clark, to whom the twins were born completing five generations. One of the twins weighed 6½ pounds, the other 4½ pounds. As yet they have not been named.

Mrs. Marianna Joplin and Mrs. C. J. Fay, Anaheim, California, came in Saturday to visit in the home of their daughter and sister, Mrs. P. H. Sebastian. Mrs. Sebastian and Mrs. Lucy Nelson and little daughter, Virginia Ray, met them at Canadian.

KILLED WHEN CAR GOES OVER HIGH EMBANKMENT

According to word recently received here, T. J. Holland, a former resident of Perryton, and a brother of B. L. Holland of north of town, was killed when his car swerved from the road and went over a high embankment west of Tranquilly, California. He was driving alone and the cause of the accident is unknown, there being no eye-witnesses. Mr. Holland was crushed beneath his car and lived but a few minutes after the accident was discovered by passing motorists.

The Holland family left Perryton about a year ago, moving to Van Nuys, California, where they lived at the time of the fatal accident. Mr. Holland was manager of the Holland Motor Company, at San Joaquin, Star car dealers.

Ira J. Teurman, a former Beaver County citizen, writes us from Baldwin Park, California, stating that they are all well and getting along fine.

COUNTY COURT

(Continued from Page One)

Stump was appointed permanent guardian by the court.

On the criminal docket, State vs. J. W. Johnson, the defendant was fined \$100 and costs on a theft charge. State vs. H. E. Larson, defendant was fined \$100 and costs on a similar charge.

Fred Traylor, Red Emerson and A. M. Buchanan were each fined \$5.00 and costs before Judge Grigsby Monday, on drunkenness charges. No jury was called for any of the cases.

WHEN YOU PAINT

The Outside of Your House

Don't Neglect the Inside

SHERWIN - WILLIAMS Varnishes will give the interior of your home a new and more attractive finish.

No need of leaving the interior dull and worn when you give the outside a new coat of paint, especially when you can get these fine varnishes—a varnish for every purpose.
