Red Cross Notes

The Hedley Red Cross has begun another year. We have done quite a lot of work but not as much as we hope to this year. This work is done by anyone who feels, "I have a part to do to help win the war." Our Red Cross Room is open on Saturday. Come in and see what we are doing. Next week we will give a report of what we have done since last May when our Room opened in Hedley.

We are making another knitted afghan for which we lack 20 squares requiring around \$3 to finish buying thread. Won't you help us by donating? We are trying to do something to help when help is needed. Some one has asked when we are going to make bandages and surgical dressings. This work is being done in larger places where sterilizing equipment is available. The smaller chapters are doing knitting and sewing. We have on hand over 75 garments to work with now. If you can sew a seam you are needed to help get these made. Someone asked why we have so much sewing. These garments go to our allies. Stop and think. If your home was bombed with nothing left, where would you get clothing? The American Red Cross is where these unfortunate people are turning for assistance and receiving it. Come help us so we can be prepared to help them.

We are asking for the following donations: buttons from used clothing suitable for blouses and pajamas, bleached face sacks for quilt linings or other linings. Anyone who has any used clothing with enough good to make a 6 inch square, send it to us for wheel and pedal to be made for hospitals. We need old wool sweaters or caps to get thread to use on this.

We wish to thank all who in anyway have helped to make our work move. You have been very generous in every way and we sincerely appreciate everything that has been done.

Those who have not called for your pictures in window, please do so Saturday. Thanks to each of you helping to carry out our Honor Window.

Mrs. Alva Simmons will assist with our work in the production Room along with other volunteer workers. May 1943 find more work done in our volunteer group here.

METHODIST CHURCH

O. R. LeMond, Pastor

Both services were conducted Sunday. Though the congregations were not large the services were profitable.

Next Sunday is our regular Missionary Sunday. Let us come in the missionary spirit.

You are invited to all services at the Methodist Church. It is always our desire to be of help to all who come.

News from Our Soldiers

Sgt. R. G. Vinson of Camp Edwards, Mass., returned to camp Thursday after a visit here. His wife remained here for an indefinite stay.

Lions Club Meeting

The Lions and guest, 36 strong met at the Methodist Church basement last Thursday night. That a contest was in progress was very evident when one looked and saw several new faces. A fine spirit of rivalry was demonstrated by the Army and Navy, the two teams contending for the most new members. The Navy was leading, but the Army must be English and no doubt expects to sink the Navy as soon as the American fleet arrives.

The delightful meal was served by the committee of which Mrs. Frank Kendall is the head. Her fellow workers were Mrs. Paul Paul Pyle, Misses Jessie Davis, Ella Curd, and Melba Green.

The program was in charge of Lions C. L. Johnson and O. R. LeMond, and featured a program by the American Legion. The program was most interesting and was appreciated by all.

FIRST BAPTIST CHURCH

Bob Jenkins, pastor

"Fate" Spaulding is a successful business man in a West Texas city, but when we used to play hide and seek together we fellows used to think Fate was a little dumb. We have seen the big, overgrown hulk try to hide behind a hawberry sapling not more than six inches in diameter and think he was perfectly safe from being seen. Why, he literally overflowed around the tree, out as long as he was behind something that hid his face. He thought he was doing all right. We've thought a lot about the way Fate used to hide since we have been trying to interest people in coming to church. The most common complaint of the fellow who knocks the church is that "there are too many hypocrites in the church," but when you narrow him down he can usually name only one, or possibly two and there is usually some personal grudge behind that. Jesus gave us assurance that the hypocrites would all be in Hell, so the poor fellow is like Fate. He is hiding behind something that is not only smaller than himself, but even shows him self up. Why is it that this excuse maker will always judge the church by the worst in it rather than the best, or even the average? He stands on the outside and is like the man in the rain who won't go in because he has heard that some houses leak. Men, if someone made remarks about your new bride, you'd beat the stuffing out of him. Think, then, of the wrath that the Lord will pour out on them who have ridiculed His bride—the church.

Melba and Maxine Green of Brownfield are visiting here.

Mrs. Bob Gilmer Jr. of Lubbock returned home Wednesday after a visit here. She was accompanied home by Nina Rhea Vinson. Her husband, Pvt. Bob Gilmer Jr., is leaving for Wisconsin to attend a radio school, and Mrs. Gilmer will return here Saturday for an indefinite visit.

Soldier Was Out to Win
Bet at Whatever the Cost

A soldier whose main trouble was extreme talkativeness was on escort duty with a corporal taking an important prisoner to headquarters.

Before starting, he had been told that on no account was he to speak; a bet of a carton of cigarettes had been made that he couldn't keep silent until reaching headquarters.

They went in single file, the soldier quite mute.

On arriving at headquarters, the corporal, without looking round, said, "Well, Tommy, you've won."

"Yes," replied Tommy, "but you nearly had me when the prisoner escaped."

The problem of what to send a service man has been solved by the men themselves. Tobacco tops the list of gifts service men prefer from the folks back home, according to numerous surveys. If you have a friend or relative in the armed forces—Army, Navy, Marines, or Coast Guard—who smokes a pipe, or rolls his own, a pound of his favorite tobacco is very much in order. A big favorite with many service men is Prince Albert, the world's largest-selling smoking tobacco. Local dealers now are featuring Prince Albert in the pound can for the men in the service.—Adv.

Lumber Produced in U. S.
The United States produced 33,419,586,000 board feet of lumber in 1941, or an increase of 15.5 per cent over 1940 production. Oregon was the chief lumber-producing state, and yellow pine furnished more lumber than any other tree, or 10,311,693,000 feet.

Jap Armada Repulsed in New Guinea;
Russians' Rostov-Caucasus Offensive
Wins Back Vital Areas From Germans;
FDR Cites 'Miracle' of War Production

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)
Released by Western Newspaper Union.

First picture of an American officer questioning German prisoners is shown above, as Maj. William Yarborough (bareheaded), of Seattle, Wash., interrogates two German prisoners taken in Tunisia. Fighting French troops look on. Major Yarborough is liaison officer between the advanced U. S. forces and the French in Tunisia.

ROOSEVELT:
Better World Ahead

Bad news for the Axis, good news for the United Nations and the assurance of victory followed by postwar economic security were the three most significant elements in President Roosevelt's annual message to the 78th congress.

In delivering his bad news to the Axis on all fronts, the President bluntly announced: "Now our aim is to force the Japanese to fight. Last year we stopped them. This year we intend to advance." In the African area he promised that the last vestige of Axis power would be driven from the south shores of the Mediterranean. Concerning Europe, he said, "We are going to strike—and strike hard."

The good news for the United Nations was contained in Mr. Roosevelt's enunciation of the "miracle of production" at home, as well as the evidence of close co-operations between all Allied leaders. In his summary of accomplishments during the last year, the President listed the production of 48,000 airplanes, 56,000 tanks and self-propelled artillery weapons, and 10,431,000,000 rounds of ammunition and the transportation of 1,500,000 men of our 7,000,000 armed forces overseas. Significantly, he revealed that more supplies are now being flown by American planes to China than were ever transported over the Burma road.

In his approach to postwar planning and domestic policy, the President succeeded in promoting good will for the administration in a congress now closely balanced in political faith. He suggested principles rather than specific recommendations for legislation that might stir up factional disputes.

NORTH AFRICA:
Allies Coil

Give and take operations continued on the Tunisian front, with the Allied forces steadily recruiting their strength until superior air and land power aided by more favorable weather would enable them to smash ahead in the all-out assault for Bizerte and Tunis.

As American troop concentrations were stepped in the new U. S. fifth under Gen. Mark Clark, British infantry units wrested important heights from the Germans west of Bizerte.

The British, however, were dislodged from these positions by fierce German counter-attacks indicating the enemy's determination to contest every remaining foot of African soil.

British and American bombers were active in the air, while Allied submarines harassed Axis shipping in the Mediterranean, sinking two enemy ships believed to be carrying troops to Africa.

In the east, General Sir Bernard Montgomery's British eighth army had been sparring for an opening for a new push on Tripoli.

On the diplomatic front it was reported that Gen. Charles de Gaulle, leader of the Fighting French, and Gen. Henri Giraud had agreed to a discussion of North African problems designed to speed French action against the Axis in collaboration with their allies.

LOCAL TRANSPORT:
ODT Takes Over

In far-reaching executive order designed to speed up the movement of war workers, President Roosevelt placed Defense Transportation Director Joseph B. Eastman in charge of local bus lines and street cars.

The effect was to give ODT complete supervision over all local transportation equipment and to authorize Mr. Eastman to revise present service and schedules wherever necessary to step up the movement of passengers to and from war plants.

SOUTH PACIFIC:
Japs Are Stubborn

Although General MacArthur's forces had cleared the enemy out of the Papuan peninsula, the Japs still held an area in New Guinea as large as Texas and Oklahoma combined. That the Nipponese intended to stubbornly hold this area was evident from their naval operations to reinforce it.

First Jap efforts in this direction were frustrated when United Nations bombers attacked a convoy of 10 enemy ships off Lae, 160 miles up the eastern New Guinea coast from Buna. The Allied airmen sank two ships, one a 15,000-ton vessel loaded with troops, scored hits on a third and shot down 18 Jap planes, according to a communique from General MacArthur's headquarters.

Meanwhile other Allied airmen roved as far as Gasmata and Rabaul in neighboring New Britain, where unusually heavy concentrations of Jap troop and supply ships and war craft had assembled.

In the Solomons, American fliers continued to assert Allied air supremacy by attacking Jap airfields at Munda and Kahili on Bougainville island. Meanwhile in Burma, British planes strafed the area northwest of Akyab and damaged enemy shipping off Burma's west coast.

RUSS STEAMROLLER:
Gains Momentum

Best news for the United Nations' cause continued to come from the far-flung expanses of south and central Russia.

The Reds' two-pronged threat aimed at Rostov, vital city at the mouth of the Don, grew more menacing to the Nazi defenders, as both the northern and southern arms of the pincers continued to make new gains, capturing 61 villages in the Middle Don and rolling up impressive advances in the Caucasus.

The Caucasus offensive was especially significant, for after expelling the Nazis from Moxdok, gateway to the Grozny oil fields, and from strategic Nalchik, the Russ pressed the retreating Germans hard, advancing toward Mineralnye Vody, center of a network of Caucasus railroads. The capture of more than a dozen Caucasus towns indicated that the Nazi front in the area was breaking up faster than in any previous battles.

The seriousness of the German plight in the Caucasus was emphasized by the fact that for the first time the Berlin radio conceded that Axis troops were retreating in the east Caucasus, explaining that their troops had carried out "a shortening of the front, according to plan by giving up advanced strong points."

PETROLEUM RATION:
East Curbed Again

The OPA cut deeper into the use of rationed petroleum products in 17 eastern states, when an order banned pleasure driving and slashed the amount of fuel oil that schools, stores, theaters and non-residential establishments may consume to 25 per cent below present rations, giving them about 45 per cent of normal requirements.

Future operation of many amusement places was left in doubt, since the OPA order specifically banned motoring to theaters as well as race tracks, and the fuel restrictions threatened to make theaters and night clubs cool beyond comfort. The OPA warned, too, that future cuts in non-residential fuel oil rations might be necessary.

Stern measures faced motorists violating the new orders. Any car owner driving to amusement centers or to "purely social engagements" was liable to the cancellation of all or part of his gasoline ration.

CONGRESS:

Farm Bloc Program

Increasing strength of the farm bloc's influence in the 78th congress was evident as leaders mobilized their forces in both houses to modify administration farm policies and to seek release from the armed forces of drafted farm youth as a means of relieving the agricultural manpower shortage.

That the farm bloc had support for its efforts in rural America was indicated by the action of five major farm organizations in uniting behind the program. These groups include the National Association of Commissioners, Secretaries and Directors of Agriculture; the American Farm Bureau Federation; the National Grange; the Milk Producers Federation and the National Co-operative Council.

Speaking for the farm bloc, Senator John Bankhead of Alabama said that preservation of the farm labor supply should figure in a complete redistribution of manpower. Indicating the farm bloc's support of the farm organizations' appeal for release of drafted farm youth, he asserted that the estimated 3,000,000 to 3,500,000 men scheduled to be drafted in 1943 might well be diverted to production of both weapons and food.

CONSUMER GOODS:
Fewer Purchases Ahead

Purchases of consumer goods and services by American civilians will register declines of 10 to 15 per cent in 1943, while production of goods will show a 15 to 20 per cent dip, according to a prediction by the Office of Civilian Supply of the War Production board.

The OCS estimated that the lag in production would be offset by the absorption of 25 per cent of the inventories on hand at the beginning of the year.

Largest drop in buying is expected in durable goods, continuing a trend started in 1942 when purchases by civilians declined 45 per cent below 1941. This year's decline is estimated at 35 per cent below 1942. The OCS said that production of consumer goods from steel would virtually stop.

VICTORY PREDICTIONS:

Premature, Says Davis

White-haired OWI Chief Elmer Davis, who prides himself on being realistic, exercised that trait when he took exception to Admiral William F. Halsey's prediction of a United Nations' victory this year.

Commenting on the naval officer's forecast, Davis said: "I have no information to support such a prediction, although I have been trying to get some."

Davis pointed out that the Germans are still building submarines faster than the Allies are sinking them and the U-boats' toll is creat-

ELMER DAVIS

ing "heavy losses in ships and the cargoes that go with them and sometimes trained men on them."

The director of war information tempered his pessimistic views, however, by stating that the Allied nations, particularly the United States, for some months past have been building more ships than Axis submarines have been sinking.

POSTWAR CARS:
To Cost \$400

Radically new light-weight passenger cars that may sell for as little as \$400 were envisioned by F. C. Crawford, president of the National Association of Manufacturers, as a postwar development resulting from amazing strides in metallurgy.

Mr. Crawford said that motorists in the coming peace era will have better gasoline than the 100-octane fuel now used for combat aircraft. The superior gasoline, plus greater use of light metals developed during the war, will give the American people far greater mileage on their cars and the cheapest all-around automobile transportation in history.

The NAM president said automobile companies expect to start production on some cars immediately after the war, but that the new postwar models probably will not appear for 15 to 18 months afterward.

MISCELLANY:

NEW YORK: The American people contributed more than \$9,000,000 to United China relief during 1942, Wendell L. Willkie announced here. Speaking over a national radio hook-up, Willkie, honorary national chairman of the drive, said that last year's donations amounted to \$7,083,357 in cash and pledges totaling \$2,209,676. Gifts, he said, ranged from 3 cents to Bernard Baruch's \$100,000.

HOUSEHOLD
HINTS

If you will rub a bit of melted paraffin on your snowshovel before using it, you will find that snow will not stick to it.

Fix a special hanger for that dress that keeps slipping off a hanger; rubber bands placed tightly around the ends of the hanger will do the trick.

If there is a sick person in the house, who requires stillness, you can lessen the noise of the doorbell by placing a finger of an old glove over the clapper.

A coating of shellac on the inside of metal wastebaskets or garbage cans prevents rust and makes them a good deal easier to clean.

When cooking mush, occasionally add two teaspoons of coco to the cornmeal, before stirring it into the boiling milk or water. This makes a fine flavor and a new dish which I have named coco mush.

If shredded coconut becomes dry it may be freshened by soaking for a few minutes in sweet milk.

"DEAR Mrs. Spears: Recently I sent for your stamping pattern of Mexican figures and used them for two sets of tea towels and pot holders and a pair of curtains for my grand-daughter. Her husband made racks of them that also helped to give the kitchen a gay air.

A triangle shelf to fit in a corner near the sink was put up. It had

an ordinary bathroom towel rod screwed to the bottom, and painted, cut-out scallops nailed to the front. For the pot holders, he scalloped both edges of a 4 by 1/2-inch board; painted it; screwed a brass cup hook in the center of every other scallop and then nailed it up over the stove. G. B. S."

"You bet, we're proud
of 'em!"

Y... we are just plumb stock-up about
these men! They're making good sol-
diers, good sailors, and good marines.
One (Captain Tommy Dodson) is miss-
ing in Java. One (Pfc. Othello "Doc"
Adams) is credited with killing 20 Japs.
Thirty of them now are commissioned
officers. Two are lieutenant-colonels, five

are majors, five are captains, 17 are lieutenants and one is a Navy ensign.
All 150 received training and experi-
ence in this organization which is en-
abling them to render valuable service
to their country.

While they stand ready to make the
supreme sacrifice in the fight for our
American way of living, those of us left
behind stand united in backing them up
with plenty of electric power.

And we're proud of the job we're
doing here at home, too! There has been
no power shortage... either in your
home or for Uncle Sam.

Back of this ample supply of power

is the American system of FREE EN-
TERPRISE, which is performing the in-
credible job of producing the weapons
of war with which to win the victory...
weapons for all the United Nations.

Business management under free en-
terprise is supplying the brains, the
know-how, and manning the production
lines that turn out the planes, tanks,
ships and guns.

The creative genius behind the lines
comes from the ranks of industry, not
from the middle of bureaucracy.

A PIPELINER WRITES TO HIS BUDDY IN AUSTRALIA—

Dear Joe:

Things are humming around here. I'm sure it will make you feel good to know that folks in the Gulf South are mighty aware they are in this war—and they are doing their part.

In factories, in the shipyards, in military centers, everywhere things are humming—and these ships, airplanes, shells and guns are on their way constantly. Where they are going, they say, is a military secret. But we will get you fellows plenty of what it takes.

In our own Company all of us are on our toes, keeping good old Natural Gas pouring in to the factories to keep the wheels going faster and faster. Helping you fellows to win this war is the No. 1 job of our organization as it is with all Americans.

We are doing our best to see that all folks here have gas this winter, Joe, even though building of pipe lines must be kept to a minimum to conserve the steel needed for the things you fellows have to have.

All good luck to you Joe from all the fellows. We hope all of you will hurry back here. The Gulf South will be waiting for you.

As ever,

Hank

THINGS for You TO MAKE

A CUNNING pixy hood, snug little mittens—double crochet does them in a jiffy. Make this set from the easy directions in Z988D for the grammar-school

miss, or add a few rows and you have a skating set for the teenager.

That isn't all of Z988D though for this sheet also brings directions for the luxurious bedspread shown. You'll love its rich simulated chenille appearance, but

even more you will like the interesting stitch which makes it up. Any number of patterns are possible depending upon the way this is put together.

The illustrated spread makes use of quarter and half blocks effectively; whole blocks may be used, or a combination of whole and half blocks, etc. This entirely new and different crochet makes grand pick-up work, and offers a spread of distinctive heirloom possibilities. Z988D, 15 cents, brings both the bedspread and hood and mitten directions. Send your order to:

QUICK RELIEF FOR STUFFY NOSE

When nostrils are clogged—reach for cooling Mentholatum, quick! Instantly it releases vapor. "Mentholations" that start & vital actions: 1) They help thin out thick mucus; 2) Soothe irritated membranes; 3) Help reduce swollen passages; 4) Stimulate nasal blood supply. Every breath brings quick relief! Jars 30¢.

"Staff of Life"
Bread, "the staff of life," is truly worshipped in certain parts of the world. In Morocco, for example, it is considered unholy to cut bread with a knife, and in mountainous areas of Asia it is treasured so highly that it is wrapped in silk and locked in a strong box.

DRY CRACKED LIPS RESINOL

Black Leaf 40 KILLS LICE

Is the appetite poor and are you nervous and tired? You may be skipping over lightly vitamin B1—found in whole grain cereals, meats and fish, liver and kidneys. Can't recover quickly from a cold, from that run-down feeling, or having bleeding gums and a sallow, muddy complexion? Better get more vitamin C—from oranges, grapefruit, green leaves, cabbage, tomatoes and berries.

"All the Traffic Would Bear"
● There was a time in America when there were no set prices. Each merchant charged what he thought "the traffic would bear." Advertising came to the rescue of the consumer. It led the way to the established prices you pay when you buy anything today.

HOUSEHOLD MEMOS by Lynn Chambers

Flatter Your Winter Menus With a Crisp Salad Bowl
(See Recipes Below)

Flair for Salads

Tie a string around your finger and remember that salads belong in wintertime menus, too.

Their cool crispness will be a tonic to your stove-hot meals, and their vitamin alphabet is one of the longest and most substantial that you can find in any food. Oranges and grapefruit are having a fling in their abundance, and crackly crisp, red, red apples are better now than during warmer months. Use leftover bits of vegetables or just plain greens—lettuce and watercress—and your table will take on a new charm.

A bit of cheese here and there will bring a longed-for sharpness in salads. Here's one that makes use of winter vegetables, and is as pretty as pretty can be:

***Bermuda Salad Bowl.**
(Serves 6 to 8)
1 small head cauliflower
1 small head lettuce
½ large peeled Bermuda onion
½ cup stuffed olives, sliced
Watercress, for garnish
2½ ounces Blue cheese, crumbled
French dressing
Separate uncooked cauliflower into flowerets. Break lettuce into pieces. Toss together with cauliflower, lettuce, onion rings, olives, and french dressing into which the blue cheese has been crumbled.

Look to the crisp and juicy apples for real menu inspiration. Apples which provide plenty of vitamin A—to help you resist winter colds and infections—along with sunny carrots make for a nice salad:

Apple-Carrot Salad.
3 large, red apples, coarsely sliced
2 cups shredded raw carrots
1 small onion, minced
½ cup cream, sweet or soured
1½ tablespoons lemon juice
Salt and pepper to taste
Dice apples without peeling and combine with grated carrot and onion. Add cream blended with lemon juice, salt and pepper. Serve in crisp lettuce cups.

A salad that can make you the hit of the party is this grapefruit ring if you fill the center with a Waldorf salad made of apples as crisp as the frosty night:

Grapefruit Salad Ring.
(Serves 6 to 8)
2½ tablespoons gelatin

Lynn Says:

Your Diet I.Q.: If you're deficient in some vital vitamins and minerals you may have certain physical indications of this lack. Check the following indications:

Frequent ear and sinus troubles, nose, throat and sinus infections? Perhaps you're missing vitamin A—found in meat, eggs, milk, green vegetables, yellow-colored fruits and vegetables.

Is the appetite poor and are you nervous and tired? You may be skipping over lightly vitamin B1—found in whole grain cereals, meats and fish, liver and kidneys.

Can't recover quickly from a cold, from that run-down feeling, or having bleeding gums and a sallow, muddy complexion? Better get more vitamin C—from oranges, grapefruit, green leaves, cabbage, tomatoes and berries.

Anemia? Feel tired and listless? You may need iron—molasses, liver, beans, peas, whole grain cereals, egg yolks and leafy green vegetables.

Poor teeth, brittle bones, excessive bleeding when accidents occur, or weakened heart and muscles? A deficiency of calcium may be responsible. Eat more eggs, cheese, milk and cream—and vegetables.

This Week's Menu

Pork Liver With Rice
Baked Squash
*Bermuda Salad Bowl
*Corn Muffins Honey Beverage
*Cranberry Bavarian Cream
*Recipes Given

¾ cup cold water
1 cup water
1½ cups sugar
¼ cup orange juice
¼ cup lemon juice
¼ teaspoon salt

Soften gelatin in cold water. Boil water (1 cup with 1½ cups sugar for 3 minutes). Pour over softened gelatin, stir well and cool. Add fruit juices and pour into ring mold. Let cool until firm. Unmold, serve on lettuce with center filled with Waldorf salad:

Waldorf Salad.
2½ cups diced, unpeeled red apples
1 cup chopped celery
¼ cup broken nutmeats
¼ cup salad dressing

Combine all ingredients together and fill ring mold or if served separately, fill lettuce cups. If apples are peeled in advance, squeeze juice of one-half lemon to prevent their turning dark.

A salad for every purpose. Here's one for a lovely winter luncheon or bridge refreshments:

Peach Cup Salad.
(Serves 6)
12 halves canned peaches
¼ cup apple butter
3 ounces cream cheese
¼ cup celery
¼ cup chopped nutmeats
¼ cup seeded raisins, if desired
Arrange nests of lettuce on platter. Place two peach halves in nest after they have been filled with mixture of apple butter blended with cheese, celery, nuts and raisins. Serve with honey flavored mayonnaise.

Since it's the muffin season, this is a good place to include a muffin—they go so well with salads:

***Corn Sticks or Muffins**
(Makes 12 medium)
¾ cup yellow corn meal
1 cup sifted flour
4 teaspoons baking powder
4 tablespoons sugar
1 egg, well beaten
1 cup milk
3 tablespoons shortening, melted
Mix and sift dry ingredients. Combine well-beaten egg and milk and add to dry ingredients. Stir in shortening. Bake in greased muffin tins or in iron corn-stick pans (which have been heated before being greased) in a moderately hot (425-degree) oven 20 to 25 minutes.

Ruby red cranberry sauce goes into this delightful bavarian cream dessert that's made with corn syrup if you're short on sugar:

***Cranberry Bavarian Cream**
(Serves 6 to 8)
2 tablespoons gelatin
¾ cup cold water
1 1-pound can jellied cranberry sauce
¼ cup sugar, or ½ cup light corn syrup
1 tablespoon lemon juice
½ teaspoon salt
2 egg whites
1 cup heavy cream, whipped
Soften gelatin in cold water and dissolve over hot water. Crush cranberry sauce and combine with sugar (or corn syrup) and lemon juice. Add gelatin and stir well. Whip egg whites and salt and fold into cranberry mixture. Fold in whipped cream. Turn into large or individual molds which have been rinsed in cold water. Chill until firm, unmold and serve.

Girl's Jumper

WHEN she's the age to be "hard on her clothes" and wants to be smartly dressed, too—the answer is a jumper and blouse outfit. The jumper can be of sturdy stuff; flannel, corduroy or corded wool, so that it will wear and wear. Contrasting blouses will give variety and constant charm.

Barbara Bell Pattern No. 1692-B is designed for sizes 8, 10, 12, 14, 16 years. Size 10 jumper requires 1½ yards 34-inch material, short sleeve blouse 1½ yards 36-inch material.

Cat's Nine Lives

We speak of a cat having nine lives. Of course it is not true that cats have more lives than one, nor has it more persistent vitality than other animals, but it has the advantage that, even after thousands of years of domestication, it retains self-dependent instincts of preservation to a greater degree than, say, the dog or the horse.

A cat is more skillful in defending itself from attack, in avoiding accident and in treating itself when it suffers injury, because it has never been debilitated by too much dependence upon man.

But its actual vitality is no greater than that of any other beast.

1694-B

Midwinter Frock

PLAN a frock now, in bold striped material or fabric of vibrant solid color, to wear under your winter coat. . . it will brighten your entire outlook on the snowy season! And, what better style could you pick, for a dress to make at home, than this shirtwaist—with its straight, simple cut and few fussy details?

Barbara Bell Pattern No. 1694-B is designed for sizes 34, 36, 38, 40, 42, 44, 46, 48. Size 36, short sleeves, requires 4 yards, 36-inch material.

SNAPPY FACTS ABOUT RUBBER

Rubber is considered one of the three most important strategic materials in war by officers in the Army's ordnance department.
Progress in reverse is the reopening of a street car line in Brooklyn, N. Y., that had been converted to motor buses several years ago. A war measure that will save 1,000,000 bus miles a year—and of course a relative amount of rubber.

Ceaser, chamber, knee-in and king-pin inclination are factors in wheel alignment. Tire wear is going to hear about now that periodic fire inspections are mandatory. They mean much to fire conservation.

D. E. BOLIVER, Publisher

Entered as second class matter
October 28, 1910, at the postoffice
at Hedley, Texas, under the Act of
March 3, 1879.

NOTICE—Any erroneous reflec-
tion upon the character, standing or
reputation of any person, firm or
corporation which may appear in
the columns of The Informer will
be gladly corrected upon its being
brought to the attention of the
publisher.

All obituaries, resolutions of re-
spect, cards of thanks, advertising of
church or society doings, when ad-
mission is charged, will be treated
as advertising and charged ac-
cordingly.

In case of error in legal or other
advertising the publisher does not
hold himself liable for damages to
exceed the amount received for
such advertising.
