"THE LAST HOPE
OF HUMAN LIBERTY
RESTS WITH US

WE OUGHT
FOR SO DEAR A STATE
TO SACRIFICE
EVERY ATTACHMENT"

... THOMAS JEFFERSON

America, again, is "The last hope of human liberty." and we Americans share the great privilege of keeping alight the Torch of Liberty. Surely, if our boys can afford to die, we can afford to buy War Bonds.

When You Buy Bonds You Buy Bombers

"They give their lives
you lend your money"

First Visual Educational Program Tonight At School

C. P. Ray of the State Health Department of Austin is bringing to Lamesa this week a visual education program, with the first program being held in the High School auditorium Monday night, under the sponsorship of the American Legion Auxiliary.

This special program will cover with movies and lectures T. B. control, venereal disease control and fly control. The program will start at 8:30 p. m. The public is cordially invited to attend.

The following program schedule will be carried out during the week. Lamesa High School Auditorium tonight. Tuesday afternoon, Dawson High School auditorium; Wednesday night Lamesa Colored School; Thursday noon, Lions Club; Friday noon, Rotary Club. Friday afternoon Lamesa Elementary School and Friday night Klondike School.

HOMER GLOVER RECEIVES WINGS AND COMMISSION

Homer B. Glover, son of H. B. Glover of this city, received his silver wings and a Second Lieutenant's commission in the Air Force Reserve at graduation ceremonies April 12 at William Field, Chandler, Arizona.

Dawson County Has WAAC Quota Of 10 To Meet

The West Texas District has fallen deplorably behind, and at present is in danger of trailing all the rest of the state in the enrollment of WAACs, it was declared this week by Lieut. Col. Marvin B. Durette, commanding, West Texas Recruiting and Induction District, Lubbock.

"We cannot allow this blot on our record," the Colonel said. "It is unreasonable to think that the women of West Texas are of a less patriotic character than the women of north, south and east Texas. We have a quota of 726 WAACs to meet by June 30. Dawson county's quota is 10. It is a fair quota, based on your urban population. We appeal to you to meet it, to double it if possible."

The War Department is unable to meet current requests of camps and posts for WAAC units due to failure to meet recruiting quotas assigned for the first quarter of the year, he pointed out. "The WAAC is included in the overall strength of the army now, and it is absolutely necessary that its expansion keep pace with the overall training program." "We have it straight from Lieut. General Brehan Somervell that women can do many non-combatant

Game Warden Traps Bobcats In Borden Co.

F. O. LYTTON

F. O. Lytton, Game Warden in this district, trapped these Bobcats on the Johnson Ranch in central part of Borden County on December 17. Both cats weighed 30 pounds each, and were 4 feet from tip to tip. Bobcats kill quail, chickens and turkeys.

Mullins To Have Bond Selling Party April 23

A forty-two party will be given at the Mullins School on Friday night, April 23, for the purpose of selling war bonds, L. I. Dean, bond chairman in that community announced this week. The party will start at 9 p. m.

County Judge Kilmer Corbin will be the principle speaker. Every one residing in the Mullins and surrounding communities has a special invitation to attend.

RETAILERS MUST REGISTER FOR MEAT

According to the Food Panel of the Dawson County War Price and Rationing Board, all retailers must register for meat between May 3 and 14 at that office. Registration forms are available at the Rationing Office.

—BUY WAR BONDS AND STAMPS—

jobs just as well as, and some better than, many men who are urgently needed and eminently qualified for combat duty. Every eligible woman who is not otherwise engaged in work that is essential to winning the war belong in the women's army. We are counting on Dawson county to do its part."

To be eligible for the WAAC, a woman must be between the ages of 21 and 44, have at least two years of high school education, and be able to pass the mental and physical examinations. Women interested in joining the WAAC are invited to call or write the direct to the West Texas Recruiting and Induction Headquarters in Lubbock.

One-Third Of County' War Bond Quota Has Been Met

Twenty Eight Men Reclassified By Draft Board

The Selective Service Board reclassified the following Dawson County men at their meeting on last Thursday night, April 15.

Carroll H. Davis 1-A; Andrew J. Townsen 1-A-H; Ross Shield 1-A-H; Jacob Foreman 4-A; Leo Compton 2-B; Lannie Pittman 2-B-H; Floyd Gregg, 1-C.

Men given 2-C classification. Jack Womack, Clay Hodnett, James Miller, Laurine Deatherage, Sidney Bruce, Jr., Ferdinand King, George Jones, Earl Bruce, James Reid, Charles D. Coon, Marvin Simmons, Manuel C. Carmichael, Earl L. Ellis, Longino Sanchez, Q. L. McLaurin.

R. D. Ingram 2-C-H; Alfred Shipman 2-C-H; Clifford Firestone 2-C-H; Fred Trammel 2-C-H; Julio Flores 2-C-H; Carl Key 2-C-H.

Lamesa Tennis Players Win Two Tilts at Lubbock

Lamesa High's brother-sister act of A. J. and Virginia Broyles walked off with singles honors in both boys' and girls' divisions of the sub-regional tennis tournament staged Friday and Saturday on Texas Tech's courts to give the Tornado net team two of four titles decided.

In the other two divisions, Lubbock's boys' doubles team of Jerry Lemond and Del Cooper triumphed while Pep's girls' duo of Geraldine Greener and Marie Vick moved into the regional playoffs.

Saturdays victories advanced winners in each division to the regional meet at Canyon next week end.

Highlighting the tournament on the Tech courts was A. J. Broyles' walkaway with the boys' singles crown. The lanky little Lamesa swatter, after winning by default from J. L. Houser of Levelland in the semi-final round, swept through Archie Sorley, Olton, in three successive love sets, with Sorley getting a total of only 26 points in the entire match. In Saturday morning's semi-final round, Sorley had ousted Hubert Burgess of Lubbock 6-2, 7-5.

Broyles, off his form Saturday will be heavily favored to successfully defend his regional championship.

Meanwhile, his younger sister, Virginia, had little difficulty in the girl's singles class. She bested Lubbock's Dolly Robinson, 6-3, 6-4, in the semi-finals, then thumped Marie Morley of Pep, 6-1, 6-2 for the title.

The Westerner doubles team of Lemond and Cooper triumphed over Weldon Bratcher and Glen White of Lamesa, 6-4, 6-4, in the semi-final round before besting Jack Chitwood and Earl Stinson of Olton, 6-1, 6-2, 6-4 in the championship match. Earlier the Olton team had ousted Pep's representatives, Billy Gerick and John Silham by scores of 6-4, 6-4.

In the girls' doubles, Pep's team of Geraldine Greener and Marie Vick encountered little difficulty in its finals match with Lamesa's Dot Burleson-Polly Carroll duo, winning 6-0, 6-2.

Approximately one-third of Dawson County Second War Loan Bond quota has been met, with a report from the four bond selling places of Lamesa Monday morning reporting sales amounting to \$170,101.25.

Dawson County has a quota of \$519,000 to meet by May 1. The

BIG BOND AUCTION SALE

A big War Bond Auction Sale will be held here on Wednesday, April 28, beginning at 4 p. m., at the same time the Junior Fat Stock Show calves are auctioned.

The War Bond Auction Sale will be sponsored by the Lamesa Lions Club. Items to be auctioned are now being solicited from the public, any thing any one will donate will be appreciated. Leslie Pratt will accept all donations.

More details of the auction sale will be printed in Thursday Courier.

drive started April 12. Committees have been appointed throughout the county to help put over the drive. Special programs are being planned in several communities to promote bond buying.

Every person in Dawson County will have to buy all the bonds they can if this county's quota is met. If you have not made your purchase yet do so at once. The government needs the loan of your money to help buy, guns, tanks and fighting equipment for our soldiers on the fighting fronts.

Sales of War Bonds in this district have been reported to be good by R. R. Gilbert, president of the Federal Reserve Bank of Dallas and chairman of the War Finance Committee of the 11th Federal Reserve District. Saturday he reported that sales of bonds during the first week of the Second War Loan Drive totaled \$212,435,000 or 53 per cent of the districts over all objective.

Of this total, he said sales to non-bank buyers amounted to \$119,135,000, which was 60 per cent of the quota for sale outside of the banks. The remaining \$93,300,000 consisted of seven-eighths per cent Treasury certificates of indebtedness allotted to banks out of total subscriptions amount to \$394,500,000.

Pvt. Edmund Dean Is Prisoner

Mr. and Mrs. Claude Dean, formerly of Lamesa, now living at Robert Lee, received a telegram from the War Department last Thursday afternoon telling them that their son, Pvt. Edmund Dean was a prisoner of the Japanese.

Pvt. Dean was reported missing in action last summer and had not been heard from until Thursday. He has been in the Army Air Corps two years, and has been in foreign service about a year and a half. He is 23 years old.

Pvt. Dean is well known in Lamesa, having lived here many years. He is a graduate of the Lamesa High School.

Miss Frances Compton spent the week end in Lubbock visiting with friends.

Miss Frances Phinetta Tate spent the week end at Morton visiting with friends.

Commander

Brig. Gen. Harris M. Melasky, native of Austin, has taken command of the 86th Infantry Division at Camp Howze. A graduate of West Point, he returns to Texas from Fort Jackson, S. C., to succeed the late Maj. Gen. Alexander E. Anderson.

Victory Garden Hints

A fertile, well-drained site is essential.

Prepare a good seedbed as soon as soil is dry.

Plant standard, adapted varieties.

Order the leading varieties recommended by your local authorities or seedmen, but don't be too choosy as seed of some varieties is scarce.

Don't waste seeds by planting too thinly. Neither should you buy more seed than you need. In the case of such things as onions and tomatoes, it will pay to buy sets or plants.

—even such things as harp harmonics, which are hard enough to get out of the harp itself.

Then you know that however well the man talks, it is only at the piano that the whole picture emerges. The man who overcomes handicaps, the serious musician, the imp, and the showman.

Water in dry seasons if possible.

Kill weeds as soon as they appear.

Thin young plants early and promptly.

Fertilize well but with care. Spray or dust promptly to control insects and diseases.

Harvest and use crops when young and tender.

Plant in succession for an all-season garden.

Don't waste space on freak novelties.

Can and store all surpluses — don't waste food.

This year it is either grow it or do without.

A half hour a day should be sufficient for the average family size garden. AFTER the garden has been planted.

You must have at least six hours of direct sunlight for vegetables.

Plant a border of showy annuals along the edge of your garden.

ARCHERS MAKE A MEAL OF COUGAR

SALT LAKE CITY (AP)—Every try "victory veal"? It's not rationed but that doesn't mean it is easy to get.

Recently J. C. Trittin and Jeano

Orlando, Salt Lake City archery enthusiasts, bagged a cougar the bow-and-arrow way. In an experimental mood, they skinned the "lion" and cooked a portion. Trittin says it tastes like veal, but Orlando insists it's even better than that.

Alec Templeton Radio's Ariel

By JOHN SELBY
Associated Press Arts Editor

NEW YORK — Alec Templeton is the Ariel of the piano. Or perhaps the Puck of the piano.

He is the one artist of his calibre who has no fear of losing dignity or losing face. He will play the second Rachmaninoff concerto with a serious symphony one day, and take off the same performance on the air 24 hours later.

He also will enjoy both proceedings.

At present he has a 3-a-week, 5-minute air spot all his own — each spot a new burlesque, and nobody's safe any more.

There will be, for example, a piece for taxpayers called "Beat Me, Morgenthau, Eight to the Bar." Another conceit will be called "Sonata for Tonette and Piano that Mozart forgot to Write Because in Those Days There Were no Tonettes So I Wrote it For Him."

And a monkeyshine from old Erin entitled "H. V. O'Kaltenborn's Irish Eyes are Smiling."

But the same fellow who does these, an eager, volatile chap in his thirties, is also the man who in six weeks played as soloist with five important symphonies, and broke attendance records for four of them.

Templeton is much alive. Too much, at times, for a normally quiet household.

"You see," he explains, "I like to listen to two radios at once. I have one going downstairs and one upstairs, and I sort of vibrate between them. And sometimes I sit on the stair, where I can hear both at once."

Mrs. Templeton (who acts as eyes for her sightless husband when he needs eyes, which is seldom) breaks in at this point.

"I defy anybody," she says, "to carry on a telephone conversation while that's going on. But he actually hears everything on both programs."

Templeton's hearing is phenomenal. He hears not only the tune and general harmonic effect when he listens to phonograph records, but the whole harmonic fabric. A couple of hearings, and he can play all of it — even if it's a complex piece of chamber music, or an orchestral score.

"Listen," he says, "to what I've done with the Ravel Septet" — meaning the piece usually called "Introduction and Allegro for Harp Strings, Flute and Clarinet," which is quite a mouthful in any language.

Templeton slides quickly into the piano chair, and before your ears there emerges not only the notes of the piece, but as good a reproduction of the actual tone color as would be possible on a piano

HAVE YOU RENDERED YOUR

PROPERTY FOR 1943 TAXES

MUST BE RENDERED TO GET YOUR HOMESTEAD

If not, or if your not sure get in touch with your Tax Assessor-Collector and make sure that they are on the rendered roll.

Many people who are buying property from or through loan companys are under the impression that the Loan Company renders their taxes for them, This is incorrect. Unless you have made the rendition yourself your taxes are unrendered.

The law states that your property must be rendered before May 1st or such property will be placed on the UNRENDERED ROLL and this means that such property will be listed as unknown and you will not be entitled to the HOMESTEAD privilege and will have to pay the STATE TAX.

This also means that the property owner will not be consulted when the Board of Equalization meets and that such property can be lowered or raised in valuation with out their being notified of such change of valuation.

The tax assessor office will try to see you, but if you are missed pleased call by the office, or phone 109-M and the Tax Assessor-Collector will see that you are placed on the rendered roll.

Your cooperation will be appreciated very much.

R. W. (BUSTER) HERNDON

TAX ASSESSOR-COLLECTOR DAWSON COUNTY

HITLER'S DREAM

There's a rumor now current, though strange it may seem Of the German Emperor's wonderful dream, Being tired of the war, he lay down on his bed, And among other things he dreamed he was dead.

In a deep coffin, lying in state, With his cold waxen figure frozen in hate, He wasn't dead long, when he found to his cost, His map of the next world and passport were lost.

So leaving the earth, he to heaven went straight, Jauntily strutting right up to the gate, But a look-out angel in a voice strong and clear, Said, "Begone Hitler we don't want you here."

"Well," thought Hitler, "that's very uncivil, Does he mean that I must go straight to the devil, So he turned on his heel and off he did go, Running full speed to the regions below.

But when he got there he was filled with dismay, For whilst waiting outside he heard Satan say, "Look here boys, I give you fair warning, I am expecting Hitler down here in the morning.

But don't let him in, for to me it is clear, That we are far too good for such a devil down here, If he gets in there'll be the dickens to pay, For bad as I am, he's much worse every day."

"Oh Satan, dear friend, Hitler cried, "Excuse me for listening, while waiting outside, If you don't let me in, then where shall I go?" "Indeed" said the devil, "I really don't know."

"Oh do let me in; I am really quite cold; If it is money you want, I've plenty of gold; Just give me a corner, no matter how hot." "No," interrupted the devil, "you was a partner Mit Got."

We don't let apartments for riches or pelf; Here's some sulphur matches to make a hell for yourself, Then he kicked Hitler out and vanished in smoke, But just at that moment Hitler woke, He jumped out of bed in a shivering sweat; And cried, "Pard's that dream I shall never forget, That I won't go to Heaven, I I know good and well But it's mighty tough luck to be kicked out of hell." Sent in by Mrs. L. D. Greaves, Patricia.

AEF Hits The Jackpot In Novel Recreation Plan

AP Features
LONDON — "Pinball games were never like this back home." That's the reaction of many soldiers after they try the bouncing ball devices in the American Red Cross Rainbow Corner and find that coins are provided for free play and it's not a near impossibility to register winning scores that pay off in packs of cigarettes, chewing gum, candy bars or other small trophies. When the Red Cross opened this latest service club just off Piccadilly it was decided that pinball games a longtime favorite in America, should be part of the equipment. They were donated by British owners. Then there arose the problem of the coins to operate. Having the doughboys use their own was out because that would be gambling.

CRUISING COPS GET FIRST AID KITS

OMAHA, Neb. (AP) — All police cruiser cars in Omaha have been issued first aid kits as a means of reducing auto fatalities. Officers are instructed to avoid attempting complicated treatment, but to try to keep an accident victim alive until an ambulance arrives.

A 500- pound bale of cotton fiber yields 140 pounds of vegetable oil for food.

—BUY WAR BONDS AND STAMPS—

Slugs were thought of but there was danger that some of these might find their way into telephone pay boxes or other coin slots.

So it was decided simply to keep a large supply of the required big British pennies (worth 2c) on hand, passing them out to the soldiers with the understanding that they should be used in the machines or returned if unused. The plan has been working splendidly with penny loss almost nil.

So popular are the games that a fund of 10,000 pennies now is required to keep the machines operating.

Birds Flash Flight Signals According To Scientists

By H. W. BLAKESLEE
AP Science Editor

NEW YORK — Here is evidence of a signal system between birds in flight. The signal operates with extraordinary speed. Five-thousandths of a second is enough time for a bird to receive the signal and alter its course of flight.

R. W. Gerard, University of Chicago, tells the story in Science, official journal of American scientists. He was driving in Vermont when about 50 birds in a flock flew alongside his car. They were only 15 feet from his window.

Car and birds were doing exactly 35 miles an hour. After a few seconds the flock wheeled away from the car. They did not follow the leader. They did not do a column left. Every single bird wheeled at exactly the same instant.

Had a bird taken even 10 thousandth of a second to make the turn, it would have lagged, at 35

miles an hour, six inches behind its fellows. No bird, says Mr. Gerard, lagged that much.

He got no clue to the nature of the signal. It could be sound, or sight. Possibly the signal is something connected with the mysterious thing that enables homing pigeons to find direction. The bird signal and maneuver works faster than anything human columns can do.

JUST LIKE THE MOVIES

NEW YORK. (AP) — The night club debut of Tina Beaumont happened when Belza Bizony, Hungarian violinist at the Coq Rouge, heard a voice accompanying his rendition. He discovered a young woman was singing to her escort. Bizony urged her to sing louder. The audience applauded, and Frank Banacchini, the cafe owner, introduced himself and offered the young contralto a contract.

Raised in Switzerland, Miss Beaumont studied voice both in the United States and abroad, but her only previous singing appearances had been on the concert stage.

The mountain laurel is the state flower of Connecticut.

Honored

Majors Army Air Field at Greenville, Texas, was named in honor of the late Lt. Truett Jay Majors, first Greenville pilot killed in World War II. Son of Rev. and Mrs. W. O. Majors, Lt. Majors lost his life January 5, 1942, in the Philippines. (Photo by Army Air Forces).

Systematic Calf Raising Will Net Good Returns

Dairy and beef cattle owners should look to their calf-raising methods if they are concerned about the future of their herds, declares G. G. Gibson, dairyman for the A. and M. College Extension Service.

They should start even before a calf is born, he explains. In that period the cow should have a good supply of green feed in the form of grazing or good hay. Some dairymen have found it worthwhile to feed calves a tablespoonful of good stock grade of codliver oil daily in cases where dams did not have green roughage for 30 days or more before freshening. Cows get their vitamin A from green feed, and vitamin A is essential in the proper development of unborn calves.

After a calf arrives proper feeding is paramount, Gibson says. A simple, four-point program will safeguard its health through babyhood: (1) Feed the dam's milk for the first four days; (2) Do not overfeed with milk or concentrates; (3) Use only clean and sterile pails for milk feeding, and (4) Feed fresh sweet milk at a constant temperature of 98 degrees F., and at regular intervals.

From that point onward doing certain things in feeding and avoiding others should bring a calf along safely to maturity. For example, feed a young calf either whole or coarsely ground grains, but do not feed it silage. Feed a vitamin A supplement when whole milk is not available. Start feeding a high quality non-legume roughage at two weeks of age. Provide a clean shelter of sufficient size to avoid overcrowding when calves are grouped. Provide a paddock with ample shade and water. Separate calves after feeding by use of individual stalls or stanchions and any which are ailing should be strictly isolated to prevent spread of disease.

Gibson recommends Extension publication B-104, Raising Dairy Calves to Weaning Age, for advice on prevention and treatment of some common calf ailments, feeding milk substitutes, and other pertinent information.

The name of Alaska was derived from an Aleut word meaning "great country."

China Is Doing Her Part To Aid Agriculture

If the next peace is to be just and lasting the American public at large should know what China is doing to help win the war and the kind of country China is becoming, an American woman who worked in rural China for 12 years told staff members of the Texas A. and M. College Extension Service during a recent conference.

The speaker was Miss Josephine A. Brown of New York, farm-reared native of Nebraska, who in recent years has done educational and social welfare work in China.

Eighty-five per cent of China is agricultural, Miss Brown said, and prior to the "China Incident" which began in 1937, China's industrial wealth was concentrated around Shanghai and along the coast. When factories were bombed out of existence, the nation's economic life became disorganized. Despite the mass evacuation of 50 million people and the penetration of one-fifth the country by the Japanese, China is carrying on nobly in the sixth year of war, she said.

One movement which has made this possible has been the organization of small rural industrial cooperatives in the interior which provide employment for evacuees, dispose of huge quantities of raw materials formerly exported, manufacture goods needed by military forces and civilians, and help ward off inflation. Keeping the cooperatives small has cut down cost of transportation of the processed products and has prevented these minute factories from becoming targets for bombs.

Miss Brown's story of China at war will be told in a broadcast on the Texas Farm and Home Program Tuesday, April 20, at 6 a. m. She will be assisted by C. E. Bowles and Miss Myrtle Murray of the Extension staff.

DISTRIBUTORS OF BUTTER MUST REGISTER

All primary distributors of butter, meaning housewives or any one selling butter, must register with the Dawson County War Price and Rationing board between May 3 and 14, the board reported this week.

There are 670 windows in the Capitol at Washington.

Crackling Noises Made By Fish Under Water

By H. W. BLAKESLEE
AP Science Editor

NEW YORK — E. O. Hulburt, of the Naval Research Laboratory, Washington, would like to hear from devotees of the sea about a curious under-water sound.

He is trying to solve the mystery of a crackling noise which he has heard just off Chesapeake bay, off Cape Hatteras, off Beaufort, N. C. and at Norfolk, Va.

It comes from somewhere underwater, and apparently is not an under-water echo of waves on the shore. At Beaufort, where it lasted continuously for two days, a fisherman said it was well-known there.

It was, the fisherman asserted, caused by the toadfish gnashing their teeth.

The sound would be audible in sailing craft, and as a rule would not be heard in motor boats. Mr. Hulburt wants the experiences of others who have heard the sound in order to identify its source.

Wherever he has heard the sound, he tone was, the same, except for varying degrees of loudness. He tells his experiences in the Journal of the Acoustical Society of America.

"COME, HEAR THESE TWENTY-TWO SUBJECTS DISCUSSED IN THE LIGHT OF GOD'S TRUTH"

"Is it true, what they say about War Bonds?"

THEY SAY — "Hey, Bill, I heard that in order to pay for the fighting equipment our boys need, each of us should be putting at least 10 percent of our pay into War Bonds."

THEY SAY — "That's a sweet investment, I'd say! And when you lend dough to Uncle Sam, you know he'll make good on his I O U"

IT'S TRUE — "That makes sense to me, Joe. Those things cost plenty of dough. After all, one dime out of every buck is a darn cheap price to pay for freedom!"

IT'S TRUE — "Say! War Bonds are better than dollar bills! They're backed up by the strongest Government in the world — and they make more money for you!"

THEY SAY — "We're not really paying that money to the Government, either. It's just a loan to Uncle Sam, as I see it."

THEY SAY — "Must be a lot of people owning War Bonds by now, aren't there, Bill?"

IT'S TRUE — "Sure. You get it back — with interest. Every 3 bucks you put in brings you 4!"

IT'S TRUE — "A lot of people? Listen! 50 million of 'em have bought War Bonds — and I'm one of 'em. 50 million Americans can't be wrong, Joel!"

Manpower Problem Is 'Womanpower'

By JOHN GLOVER

WASHINGTON — The manpower problem isn't manpower — it's womanpower. That explains the extreme reluctance of Congress and the executive department to deal fortrightly with this political hot potato.

The bald fact is, childless U. S. married women aren't totting a war load comparable to their sisters in combatant countries elsewhere.

Britain and Russia, with relatively larger numbers of men in the armed forces, are not faced with manpower breakdowns and dislocations to the degree the U. S. is threatened. This is simply because Russian and British women have moved into war production and essential civilian services in greater numbers.

Manpower actuaries estimate a net increase of 2,700,000 in necessary manpower for 1943, including the 4,000,000 men who are destined to go in the military. This means, actually, an increase of 6,700,000 in civilian employment, 4,000,000 to replace drafted men and 2,700,000 new jobs.

Some of the jobs will be taken by the estimated 1,000,000 to 2,000,000 men who will go back into the labor pool from war plant construction, now sharply curtailed.

Where are the rest coming from? No matter how the experts figure it, the answer comes out: "U. S. women, particularly childless married women, must be drawn into the labor pool."

Unhampered Wives

Latest available figures show 14,700,000 women working, 30,100,000 listed as homemakers, and 1,900,000 students over 17.

Of the 14,700,000 working women, 1,600,000 are engaged in war production. Of the 30,100,000 homemakers, 13,800,000 have children under 16, leaving 16,300,000 not tied down by the demands of motherhood.

These 16,300,000, plus 1,900,000 students, constitute the largest labor reserve — 18,200,000 women without juvenile responsibilities.

Further breakdown of this reserve shows 10,200,000 of these women are over 44 years old. That leaves 8,000,000 women — counting the 1,900,000 students over 17 — as the first line of labor troops available.

Baltimore was picked as a typical war production center for recent surveys. Labor needs there were estimated at 59,000 workers. They found 371,000 women of working age, without home responsibilities, not working, who could have filled the great bulk of those jobs.

Random surveys among women in the 18-50 age group showed appalling indifference to and incredible ignorance of the critical situation.

Many women frankly said they thought factory work would lower their social prestige. Others said their husbands were making plenty. Some feared a working wife would jeopardize their husband's draft status. It was also found that federal agencies did a poor job of selling war work to women. Posters that showed female Sampsons juggling cauldrons scared away women who envisioned themselves doing the heaviest kind of labor.

Exaggerated 'Chivalry' An exaggerated national chivalry, frequently remarked by visiting foreigners, has also hampered recruitment of women. It makes politicians chary of any draft of womanpower. The "woman's place is in the home" idea still carries a lot of weight around the country.

The fact remains that the bulk of those 8,000,000 women must be drawn into employment this year. Right now, the War Manpower Commission is betting its blue chips on local campaigns to recruit women.

The only thing that can stop an eventual draft, however, is some other plan that successfully brings home-makers into the labor force. It's simply a question of cold mathematics. There is no other labor reserve.

Don't forget, either, that Mrs. Roosevelt has advocated a national service plan for women. She usually knows which way the wind blows.

CUT MEAT WISELY TO CONSERVE IT, ARMY MAJOR URGES

CAMP POLK, La. (AP)—Housewives, worried about conserving the family meat supply, are advised by Major Sidney J. Michael of the seventh armored division to learn how to cut meat "as well as prepared it."

Major Michael conducts classes in meat cutting and preparation as a part of the training program of mess sergeants and cooks.

"We utilize everything edible," he said, "and that which cannot be prepared for the table is brought to some other use. Fats are converted into cooking oils, and used for seasoning in numerous instances."

"Crackling, the ancient Southern delight, is one result of careful preparation of pork rind, after the lard and fat has been removed."

"Chicken and beef have 'by-products' which can be easily prepared in the kitchen."

"The simple rule to conserve meat and add to its usage is in proper cutting and preparation."

Pop-Over Dress War Creation

NEW YORK. — The Pop-over threatens to play the role in World War II that the Hoover apron performed in the first big fight. A loose, tailored coat dress, with deep arm-holes and three quarter sleeves, the Pop-over is designed to be worn either as a work dress or as a protector for other garments. It has one large pocket and a set-in-

belt at the wastline.

Now being shown in blue denim and in plaid, checked or striped heavy cotton, the Pop-over not only is workmanlike in appearance but also washable and easy to keep

fresh and clean. Some manufacturers have added a mitt of matching material that has a quilted palm.

Come on, Let's WIN this war!

★ ★ ★ ★ ★

If we should lose the war, life would not be worth living.

"But we won't lose it," you may say.

Listen, brother—in this world nothing's sure, unless you make it so.

This month it's up to us here at home to do our part, and then some, to make Victory surer—and quicker! To do it, we've got to lend Uncle Sam 13 billion extra dollars.

It isn't easy—but war isn't easy and Victory isn't cheap. It takes money—and more money—to buy planes, ships, tanks, guns and a million other things our boys must have to deliver that final, paralyzing knock-out punch.

And it's a whale of a lot easier for us at home to lend our money than for our boys to fight through the hardships and dangers of deserts, swamps, jungles, ice-fields and sub-infested seas!

There are 7 different types of U. S. Government securities—choose the ones best suited for you!

Just think! Every extra bond you buy will help provide the weapons to save the lives of many American boys! Isn't that alone worth every effort, every economy you can make? You bet it is!

There are 7 types of U. S. Government securities to meet the needs of every purse. They offer the finest investment in the world—liberal interest, plus securities guaranteed by Uncle Sam himself.

A volunteer worker for the 2nd War Loan Drive may visit you soon. Welcome this unselfish patriot—and buy all the bonds you can. But don't wait for that call. Go—today—to your bank, investment dealer, broker, post office or bond booth and invest to your uttermost limit. Even if it hurts, it's nothing compared to the agonizing impact of a bayonet thrust, a flesh-tearing torpedo fragment or a bone-crushing bullet.

So dig deep, brother, and do it NOW!

THEY GIVE THEIR LIVES . . . YOU LEND YOUR MONEY!

LAMESA NATIONAL BANK

Commander

Col. Herbert M. Newstrom has been assigned as commanding officer at Majors Army Air Field, Greenville, Texas. A native of Minnesota, he has spent most of the past 20 years in Texas.

"TELL ALL AMERICA TO GO TO ITS KNEES"

The above are the words of a young lieutenant "in the United States Army on some far-off battle front" to his sister in Pennsylvania. The letter is headed "The Wilds of Nowhere, the Land of Death and Destruction." It was received September 3, 1942.

Omitting parts of the letter and with slight changes in some of the sentences, but in no way taking from the message, the following is the story of "A Lieutenant's Miraculous Escape from Death."

When he knew he was going over he said he was going armed with the Bible. It was of small size, and he kept it in his breast pocket. He writes, "My buddy and I were sent out in the work I told you before was our job. We had just received important information. When the enemy discovered us, I gave my buddy the information, told him to beat it, and turned to face them. It was the first time I'd been faced with the necessity of pointing my gun at a man. I thought fast; then I said 'Lord, it's your responsibility now.' My buddy had not obeyed my order. As I reached for my carbine, a shot from one of them struck me in the breast and blasted me down. Thinking I was dead, my pal jumped and grabbed my carbine as well as his own, stood astride my body, blasting away with both guns. He received three bullet wounds in his knees, but when he finished there was not one of them left. He was amazed when I rolled over and tried to get up. The force of that bullet had only stunned me. Dazedly wondering why, I pulled my Bible out of my pocket and in utter muteness looked at the ugly hole in the cover. It had ripped through Genesis, Exodus, Leviticus, Numbers, on through the other books and kept going. Where do you think it stopped? In the middle of the ninety-first Psalm, pointing like a finger at this verse, 'A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee. Only with thine eyes shalt thou behold and see the reward of the wicked.' Sis, when I read that verse it took me three feet off the ground! I did not know such a verse was in the Bible. Had read mostly in the New Testament. I read the rest of that chapter. In utter humility I said, 'Thank, You, precious God,' and felt like a little boy that has escaped the mouth of an enemy of prey.

"When I got my buddy back at the post he said, 'I've had enough. This convinces me. Come on, I want to get right with God, starting right now!'"

Then he tells how his buddy said, "Nothing matters but this," and refused to let them tend his wounds, but stayed on his knees until he was saved. Then he jumped over bunks and even ran outside and shouted it to the whole camp.

Continuing, we quote in part: "Since I've given my heart to God I talk, pray, and hold meetings with the boys, and God has given me twenty-five souls who have prayed through and come out for God. God led me to go after my general, and I stuck until he was grounded and came through. It took a long time. He was so dignified. The Spirit of God hovered over that tent with a sort of glimmering golden haze. I tell you, Sis, prayer is going to win this war. Not guns alone. Fervent, angonizing prayer. God is bringing them in one by one. Think of it. One hundred twenty men and one general in one regiment. When that happens this unit will be unconquerable. Pray, Sis. Pray as you never prayed before.

TELL EVERYONE TO PRAY. Tell all America to go to its knees.

"Before each decisive victory any where over here, sometimes for hours, sometimes for days, there has been a feeling of people praying from far away. The feeling is so strong you can hear it. One of the most stubborn of the men said, in the stillness of the night, 'Did you hear anything? Sounded like people praying from some distant place. Must be hearing things in this dead place.'

"So, pray, everyone. It will have to come from afar. No one prays in this land of utter desolation. God has turned away from the horror and destruction man has brought on himself. Again I plead, TELL AMERICA TO PRAY. This war will not end until nations and people have paid in blood and tears for thrusting God out of their hearts and countries. And tell them to send Bibles, and MORE BIBLES. A Bible gives a soldier confidence that God is with him.

"I'd like to have this letter broadcast over every radio in America. Try to get it on the air and printed in the papers. Make copies of it. Send it from coast to coast. Tell them the army wants prayers and Bibles.

"And you complacent, bridge-playing, cocktail-drinking mother, why didn't you teach your son about

God instead of handing him a cigarette, and a dance program? Get to your knees and ask God to forgive your sins. An then pray for the army. Pray, Pray, Pray. And you preachers' Why didn't you teach the people to pray? Only repentance for sins can stop the shelling, the killing, and the murdering. "I could go on, but I am so tired,

so weary. But so happy to see them coming to God one by one. So tell them to keep on praying. And when you send things to our boys, send BIBLES. They want Bibles.

"Your loving brother,
"Lieutenant—"

THIS IS PART OF YOUR PAY CHECK

That gun's making things pretty hot for the Axis

It came from the pay check and pay envelopes of people like you. It was bought with the money you lent your Government in regular installments from your pay.

But hold on now—Maybe it's *not* your gun! Maybe you aren't setting aside at least 10 percent of your salary for War Bonds!

There are still some people who aren't; not many, but maybe you're one of them. If you are one, we're sure it's not for want of patriotism, but because

you haven't gotten around to it.

Tell your boss today you want to help win the war by joining the Pay-Roll Savings Plan. Tell him you want to save at least 10 percent of every pay check by putting it into War Bonds.

You can't make a better investment. You'll be buying the weapons that insure a future of freedom, peace, and plenty . . . and you'll be getting back \$4 for every \$3 you save.

MAKES SENSE, DOESN'T IT? THEN START TODAY!

It's Colonel William Sterling now. The former adjutant general of Texas and 22 years a member of the famed Texas rangers, recently was promoted to the rank of colonel. He is a liaison officer between the Office of Civilian Defense and the Eighth Service Command.

The sponge was once believed to be a combination of both plant and animal.

There are about 900 inspectors in England assigned to apprehend black marketeers.

Rationing Is His Meat

AP Features

Meat rationing, says Symon Gould, Secretary of the Vegetarian Society of New York, is "heaven-sent."

"We vegetarians are amused by all the fuss over the lack of meat," says Mr. Gould. "You won't starve on a diet of vegetables, fruits, milk, cheese and butter. Supplemented by proteins from the bean and nut families, that's about all your body needs."

Anyway, that's what the true vegetarian eats. And, says Mr. Gould, some of the foremost men of our times, including George Bernard Shaw, Gandhi, H. G. Wells and Maeterlinck are vegetarians.

Americans are considered the greatest meat eaters in the world—that is, all except the 100,000 Vegetarian Society members.

"But right in our own country," continues Mr. Gould, "we have a perfect example of the effects of wrong diet. Heart trouble, bad teeth and rheumatism are prevalent, even in the young."

Vegetarians use the experience of Great Britain as a talking point. Since consumption of meat has been reduced to a fraction there, Mr. Gould asserts, the people are healthier and statistics indicate that the decrease in mortality has more than offset the loss of lives by bombing.

"Many people," says Mr. Gould,

PALESTINE ARABS PLAN POLITICAL BODY

JERUSALEM (AP) — First steps toward creating a representative body of Palestine Arabs have been taken by a newly formed sponsoring committee at Haifa.

No official political body representing all Arabs of the country has existed since dissolution of the Arab High committee by the Palestine government in October, 1936, during disturbances. Requests for support have been sent by the new committee to the government officials.

A conference of leading Arab personalities from the entire country now is planned by the Haifa leaders.

New York is only 1,605 miles farther from Tokyo than San Francisco by air.

The original Indian name for Mount McKinley was Denali, meaning "Home of the Sun."

The constitution of Liberia, African republic, is modelled on that of the United States.

"feel that it is important to eat large quantities of meat to maintain strength. Actually, however, the majority of the human race are vegetarians. Some have exceptional strength and endurance. The Chinese soldier can march 35 miles a day on a handful of rice. The Manchukuo farmer toils from dawn to dusk living mainly on the soy bean."

How well do you know your War Bonds?

Q. Why does Uncle Sam want you to put money into War Bonds—
.... to pay for equipping our fighting forces?
.... to help keep prices down?
.... to give you extra money after the war?

A. Check all three! The money you lend in War Bonds works hard—for the government and you! It helps pay for victory, helps keep prices down. And it comes back with interest!

Q. If you put \$3 into War Bonds, how much do you get back—
.... \$3.00? \$3.50? \$4.00?

A. For every \$3 you put into War Bonds you get \$4 back when the bonds mature! And how those extra dollars mount up! Look at this: You buy a War Bond today at \$18.75. In 10 years you get \$25.00. You buy a War Bond today at \$37.50. In 10 years you get \$50.00. You buy a War Bond today at \$75.00. In 10 years you get \$100.00.

Q. How much money should you put into War Bonds—
.... 10 percent of your pay? 12 percent? 15 percent?

A. Every loyal American ought to be putting at least 10 percent of his pay into War Bonds. And more if he can possibly do it. War Bonds make good sense—for selfish reasons as well as patriotic ones! Put every cent you can into War Bonds—and both you and your country will benefit!

HERE'S WHAT YOU SHOULD DO

If you are—

Already setting aside 10 percent of your pay for War Bonds through the Pay-Roll Savings Plan—boost that 10 percent if you can.

Working in a plant where the plan is installed but haven't signed up yet—sign up tomorrow. Working in a plant where the Pay-Roll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away.

The local bank will be glad to help.

Unable to get in on the Pay-Roll Savings Plan for any reason, get to your local bank. They will be glad to help you start a plan of your own.

Fashions for Men, Women and Children

HISTORY PROVES AMERICAN WOMEN CAN TAKE IT

By VIVIAN BROWN
AP Features Writer

America women have never been sissies!

Food, clothes and labor shortages, even blackouts have been part of every American war. That's one reason why today's women aren't stymied by it all.

Always as courageous as their men folk, their hardships on the home front started back in Revolutionary days.

They had been used to good food, the colonists, and though there was no enforced rationing during the Revolution, there just wasn't much to eat.

Before the Revolution an average dinner consisted of ham, chicken, sausage, sweet potatoes, greens, corn and fruit. In New York in 1763, a turkey cost only 2 shillings, a duck one penny.

War changed this scene of plenty. Tea could be had, but many colonists attributed the war to the Boston Tea Party so it was not wanted. Coffee, chocolate, sugar and practically all foodstuffs were gone from almost every community. This didn't stop the colonial mothers, and when point-rationing gets you down, try making pies of peas and beans or just corn and salt-pork, as they did. Salt, which was needed for preserving meat, was scarce and had to be smuggled in.

No Food To Ration

At Valley Forge, the army had no vegetables, little meat. Salt herring eaten off planks and out of community plates was the main food. General Washington and his wife, who had joined him at Valley Forge, ate hard bread and potatoes. For days, armies existed on nothing more than Indian corn, lived without blankets or any protection for entire winters. Some were so poor-

ly shod they left bloody footprints in the snow. In dressing wounds on the battlefields, doctors had to cut up tents for bandages.

Clothes were a problem. Even without a Dache or a Schiaparelli, women had dressed fashionably. Musk-melon and whale-bone bonnets were the vogue. Dresses were of chintz for morning, elaborate satins or brocades for evening. Soon, however, women were making their own clothes and weaving the cloth as well.

Even little girls who had dressed in lawn and cambric wore coarse clothes which they made themselves. Young boys were taught to spin and knit. In Upper New York, children helped the farm labor shortage. The spirit of competition and the value of teamwork was taught and at early ages they were organized in groups to gather the fruit which grew in abundance.

17th Century Blackouts

Blackouts date back to the Indian days. At the approach of the enemy residents were warned by a scout, who might be called a landwarden. Women would lift up the heavy hand-hewn tree board flooring to conceal valuables, then blow out the candles. They did some snipping, too, some even fighting besides their husbands on the battlefields. Whether they lived on the frontier threatened by the Indian or along the coast dreading invasion, they were constantly alert.

You know, of course, about courageous Molly Pitcher. And there was the time when Tarleton, one of the most unsparing of British officers, quartered himself in the home of Colonel Slocumb in North Carolina. His name had been associated with massacre but he didn't frighten the Colonel's wife. He sat one evening discussing with one of his men the division of the con-

quered-to-be American provinces. Mrs. Slocumb interrupted:

"Allow me to observe and prophesy, the only land in these United States that will ever remain in possession of an enemy officer will measure but six feet two."

UPSET OVER RATIONING? CIVIL WAR WOMEN HAD REAL TROUBLES

Because the war between states on their very doorsteps, women of the South felt its privations more severely than those in the North.

In the North there was a steady agricultural development, and women were spared the worst of the tribulations of the home front. Cotton and sugar were scarce, however. Flax was thought for a time to be a substitute for cotton but attempts to use it on cotton machinery failed. Sorghum from China as a sugar substitute proved a disappointment, too. Butter sold for 50 cents a pound flour \$12 a barrel.

Besides the use of a labor-saving machinery such as the newly invented McCormick reaper, women's work in the fields helped save the harvests in the North. They drove reaper teams, harvested corn and took care of the stock. Even children 10 and 12 years old worked the farms. The result was an abundance in some sections of staple products such as wheat, corn, pork and wool.

The plantations in the South had been noted for their wonderful fruit trees, good stock, and vegetable gardens. Yams, beans, chickens, ducks and beef were basic fare.

Butter \$28 A Pound

During the war, there was no wood, corn, meat or vegetables in most areas. Fruit trees were bare. Salt was scarce and had to be scraped up from the floors of the smoke houses. Children were surviving on corn pone, dried beans and the vitamins they got out of turnip greens. After dark, mothers used to visit the picket grounds and pick up corn that was left by the horses. Food that could be procured

was too expensive; butter cost as much as \$28 a pound; meat, \$40.

Nevertheless, the spirit of the women was excellent. Except for some needlework many had never done any work. But they toiled alongside what labor could be found in the fields. At home they made flags and did some spinning. Even sheeting and shirting was made on the loom. Some turned their homes in hospitals and remained as nurses. Bandages had to be used over and over, so the women had to wash and sterilize them. There was a scarcity of chloroform and quinine. Clara Barton started the good work which eventually led to the Red Cross.

Lovely garments of taffeta, crepe and satin were remade until there was nothing left but shreds and patches. Then women would line them with newspapers. The frames of their plumed velvet bonnets were saved and recovered with cotton or old draperies; pantalettes were made from worn-out curtains.

Shoes \$500 A Pair

Shoes at \$500 were ill-fitting coarse ones made by Negro cobblers and often didn't even match. Others were made of old carpets. In spite of all difficulties Southern women always managed to look fastidious. Even a French upswep hairdo kept the younger girls busy brushing their hair.

Women did everything in their power to provide clothing, food and comfort for their men. The Confederate Army was poorly clothed and soon General Lee's army was in rags. Because of the scarcity of materials many were without shoes. The socks and even the uniforms they wore, in most instances, were made by women. Often by the time a uniform reached a husband who had been living on half rations he had lost so much weight it didn't fit.

Running the blockade was the only means of procuring some essentials and a few luxuries. Confederate dollars being almost worthless, it took more than \$3,000 to buy

an ordinary table and kitchen chair. A single kitchen utensil that had cost \$1 sold for \$1,000 in paper money.

But very few women were attracted to advertisements of finery. Most of them willingly sold their valuables, some even their hair for the maintenance of the Confederacy.

WORLD WAR I WOMEN MADE GOOD

In a way, World War 1 was a boon to women. It created opportunities for them in the business world and in other fields for the first time. Later, it was to prove a contributing factor in the realization of equal rights and the enactment of Woman Suffrage.

Belgian relief was the main wartime activity of most Americans until we took up arms ourselves. Collections of clothing, food and funds occupied the spare time of many women.

Everywhere, reminders of obligations to hungry allies were posted. "Food Will Win the War" was the slogan. In the cities school children started war gardens. Summers found school boys working farms. A woman's land corps called farmettes was organized.

Women were employed as telegraph messengers, street car conductors, traffic cops, letter carriers and nurses. There were Marinettes for the Marine corps, and Yeomen who took over Navy clerical jobs and released men for overseas duty. Even in munition factories women took over fulltime jobs vacated by men. They who were not busy nursing their families during the flu epidemic helped in the hospitals.

The housewife had her problem, too. Because America was the breadbasket of the Allies, we had to use the more perishable foods for ourselves. Fish was eaten instead of sugar. Recipe contests were held to encourage the use of substitute food. There were wheatless Mondays when cornmeal, oatmeal and bran were used instead of flour, meatless Tuesdays and porkless Thursdays.

At the produce Center Bring in your Produce

Moses Austin Launched

The father of Texas was honored at Houston when the 10,000-ton Liberty ship Moses Austin (shown above) was launched at the yards of the Houston Shipbuilding Corporation.

The killing of hens, because of an egg shortage, was forbidden for three months. Eggs had skyrocketed to \$1 or more a dozen, butter to 65 cents a pound and the sugar that could be obtained sold as high as 25 cents a pound. There was a voluntary ration of 2 pounds of sugar per person a month.

Coal was so scarce there were heatless days and four lightless days a week in the east; two in other states. All advertising signs had to be darkened on Sundays. There was no gasoline rationing but the use of automobiles, motorcycles and motorboats was forbidden on Sundays except for doctors.

Due to the coal shortage all theatres in New York City were closed. Wealthy women donated their homes to the Red Cross for entertainment purposes.

Generally, styles remained the same. High shoes (expensive despite price-fixing), large hats and long dresses were the modes of the moment. Women bobbed their hair, to the consternation of the men.

Working girls threw away their corsets because they were far too busy to bother with them, hiked their skirts up so they could get around faster and in short won a freedom which they never intended to give up.

This is Easter Time...

Now millions of Americans reaffirm their faith in truth, justice and mercy.

But This Easter is Different . . .

In other years, we would be talking about the Easter Parade: new bonnets, smart dresses, suits, gay shoes and colorful handbags . . . spring outfits for everyone.

Of course we have all these things. But this Easter, the greater emphasis is on wardrobes for the Home Front job . . . for now

Every Easter Outfit is a Uniform!

THE HOME FRONT UNIFORM IS EVERYTHING YOU WEAR: It may be a dress, or slacks and sport shirt; a skirt and blouse; an overall or a suit . . . whatever is comfortable, long-wearing, becoming and fitting for the job you have to do.

THE HOME FRONT JOB IS EVERYWHERE: In church and school, factory and shipyard, on the farm and the assembly line, in the store and the home.

THE HOME FRONT WORKER IS EVERYBODY: Your son Joe and your daughter Mary; your husband Sam, your neighbors Ann and Henry, and you, yourself!

AND TODAY, AS ALWAYS FOR 41 YEARS, PENNEY STORES ARE OUTFITTING AMERICAN FAMILIES!

Our long experience with low-cost, neighborly storekeeping stand America in good stead today: your J. C. Penney store is part of a nation-wide business that brings to each community, at the very lowest possible cost, things produced in all sections of the United States. It does for millions on the Home Front, what the Services of Supply do for millions on the battle front.

HINTS ON Preserving Food

One slice of bread molds, one carrot shrivels — multiply that by the Nation's 34 million homes. Fight food waste on the home front.

Store to save. Find out how each food keeps best, and store each article in the right, and correctly cared for, cupboard, cooler, can or jar.

Keep bread and cake in ventilated containers, scalded, sunned, and aired once a week.

The three C's for meat conservation: Clean; Cold; Covered.

Cover fresh meat loosely. Wipe with damp cloth just before cooking. If ground, store in extra cool place and cook soon.

Fish and other sea foods spoil in a few hours at room temperature. Cook at once, or wrap in wax paper to keep odor from other food, and store very cold.

Don't wash eggs before storing. Water destroys the protective film that keeps out air and odors. Wipe off with dry, rough cloth. Store eggs in open bowl or wire basket in a cool place.

The fresher a vegetable when it is used, the better the taste, the

less the waste, and the more vitamins retained.

To hold the sweet in corn, peas, and lima beans and to keep snap beans fresh, keep them cold. Let them stay in the pod or husk unless you can store them tightly covered in refrigerator.

Cauliflower, brussels sprouts, and broccoli lose freshness faster than cabbage. Leave them uncut; keep cold and not too-dry.

To keep berries, cherries, and grapes tiptop, store in a shallow tray in a cold place. Wash just before using.

The natural sugar in dried fruits keeps them from molding easily. Store them in a tight bag or jar in a cool place. Watch in warm weather for worms or weevils.

Crisp cookies and crackers soften if kept with bread and cake. Keep them in airtight tins or boxes all their own.

The majority of mental institutions in Great Britain are maintained by public funds.

The growth of potatoes has been stimulated by the use of ethylene and propylene gases.

Since 1940 medical care for employees has been compulsory in British factories.

—BUY WAR BONDS AND STAMPS—

Soil Conservation Farm Planning To Pay Off This Year Presented To Memorial

Ten years of soil conservation and farm planning will hit pay dirt in Texas again this year and continuation of these practices will assure indefinite top speed production.

That's the emphasis Fred Renels, assistant administrative officer of the AAA, placed upon the farm program this week when he urged Texas farmers and ranchers to continue soil-building practices at the same time they produce Food for Freedom at maximum capacity.

"Texas farmers contribute enormous amounts of food and feed to the nation's needs and the only way they can continue this job is to keep their soils in condition to produce," he said in encouraging farmers to earn their maximum production allowance during 1943.

Under this year's AAA program, approximately 40 practices are offered for soil and pasture improvement through which the production allowance can be earned.

At the same time Texas farmers and ranchers are signing production plan sheets under the Food for Freedom program, they also are working out with community AAA committeemen a farm plan for investing their maximum soil-building allowance into approved practices.

Follow through on these farm plan sheets during the program year will assure continued production of food and feed needed for "unconditional surrender" of the Axis, the AAA official said.

The above is a likeness of a life size painting of Gov. Coke R. Stevenson by Seymour M. Stone of New York and Fort Worth presented to the Texas Memorial Museum's Hall of Remembrance by friends of the governor. The Hall of Remembrance is a memorial to the part played by Texans in the present war.

THIS ANTI-AIRCRAFT GUN COSTS \$50,000

YOUR HOUSE may not be a military target, but bombs don't stop to inquire. Bombs don't ask your name or the names of your children, either. In this war, as in no other in history, we are all targets. Blackouts merge soldiers and civilians alike. "War is hell" . . . for all of us. And it is costly . . . for all of us.

Who's going to pay the bill? Not only for the guns, but for the tanks and ships and planes our boys must have to smash the Axis?

Who? Why, all of us . . . you and me and the man next door. Because we are all in this war, and because blood and tears and sweat don't mean a thing if they do not come from everybody. Everybody must put every dime and dollar he can spare into Bonds and Stamps, even if it means going without something else . . . realizing that we are apt to go without everything, unless we win.

Remember you can start buying Bonds by buying Stamps for as little as 10 cents and that you get a \$25 Bond (maturity value) for only \$18.75.

Help Win the War With the Money You Save

Buy U.S. Savings BONDS & STAMPS

\$50,000 for one 90-millimeter anti-aircraft gun sounds like a lot of money, doesn't it? But this type gun is a real "plane-crasher"—one shell from it can smash a half-million dollar Jap bomber quicker than you can sweat a fly.

This Space is a Contribution to America's ALL-OUT War Effort by

CICERO SMITH LUMBER CO.

Connally Decorated

Lt. Col. J. T. Connally of Waco, Texas, cousin of Texas Senator Tom Connally, receives decoration as mass awards are given famed 15th Bombardment group at Pyote, Texas, Army Bomber base Feb. 12. Pinning award on Col. Connally (L) is Brig. Gen. E. L. Eubank, Chief of AAF bombardment forces.

MORE LIBERAL PAY TO DEPENDENTS CONSIDERED

WASHINGTON, Feb. 12. — Government officials are studying the probable need in many cases of liberalizing the allowances and allotments plan for dependents if and when married men with children are inducted into the armed services, it was learned today.

They are not contemplating revision of the present scale of allowances, but rather special provisions that would take care of "hardship cases" — families of soldiers and sailors unable to get along on the amount allowed under the present system. No legislation is contemplated at this time and it may not be necessary.

Army and Navy officials declined to comment on the reports. But other sources revealed that officials of the armed services charged with administration of the allowances and allotments system have been conferring with social security officials on the problem.

The first step, it was understood, will be to determine the probable number of families that will require allowances higher than those provisions cover, mattress cover, and avide now, and the probable extra cost involved.

Officials, emphasized that the allowances and allotments act was not designed to maintain the families of soldiers and sailors on the standard of living in which they have been accustomed. But they point out that with the drafting of men with children imminent, there will be

BRITISH SALVAGE A HAIRBREADTH ART

LONDON (AP)—Britain's salvage experts have now got the job narrowed down to a fine art.

Each bus ticket is only 1-5000th part of an inch thinner than in pre-war days, but it represents a total saving of 450 tons of paper pulp in a year.

Cans of powdered household milk now have their contents stamped on the tin instead of on a paper wrapper. The saving on every million tins represents 110 3.7 in. shell containers.

London's Metropolitan Water Board delivers its bills and letters in envelopes made from obsolete forms, saving the purchase of 4 1-2 tons of paper.

Government typists, by closer spacing and other economies, save 5,000 tons of paper yearly.

Mrs. Leck Cowden left Wednesday for Wichita Falls to be with her husband who is ill.

The state motto of California is "Eureka," meaning "I have found it."

Sponges were used by the ancient Greeks to erase written mistakes.

Nearly one-tenth of the entire U. S. population was hospitalized

many cases where the family would be hard put to provide even minimum standards on its allowance.

Airlines Head

Tom E. Braniff, who became interested in aviation when Lindbergh hopped to Paris in 1927, today heads Braniff Airways, one of the nation's major airlines companies. His system operates planes to a number of Texas cities. Before organizing Braniff Airways, Braniff was engaged in the insurance business in Oklahoma.

BRITISH SHIPS HIT PEAK IN CARRYING PASSENGERS

LONDON (AP) — Over 2,250,000 persons, including members of the armed services and civilians, were carried last year by British Merchant Marine ships of the Sea Transport Service, or ships otherwise controlled by the Ministry of Transport. This number is almost four times the total of passengers carried in ordinary passenger ships between the United Kingdom and non-European countries before the war.

NAVY COOK'S RECIPE FOR COFFEE CAKE

LONDONDERRY (AP) — R. K. Rhoads of San Francisco, Calif., a baker at the U. S. naval base, has a new recipe for coffee cake which is a hit here.

Rhoads' recipe is designed for large-scale feeding but he passes it along to American housewives:

Take 10 pounds of sugar, 7 1-2 pounds of lard, five ounces of salt and cream the ingredients. Then add 34 pounds of flour, 1 1-2 pounds of baking powder and two gallons of milk. For the topping, cream 2 1-2 pounds of sugar, 2 1-2 pounds of lard, five ounces of cinnamon and lemon extracts to taste. Then add five pounds of flour.

In 1942 a patient was admitted to some hospital in the U. S. every 2 1-2 seconds.

Uses Your Old Wire
PARMAK
PRECISION
Electric Fencer

High cost and scarcity of wire is no problem... with PARMAK you can triple your fence with wire on hand. Produce more with less time, labor, cost.

Operates off Hot Shot or Wet 6-Volt Battery. Guaranteed 5 years. Many operating in Dawson County 8 to 10 years, with no service trouble
ONLY 14.75

THE VOGUE

PERSONALS

Mrs. Inez Dubose has accepted a position at the Vogue Dress Shop.

Lt. and Mrs. Perry Cox of Clarksville, Tenn., are here visiting this week with relatives and friends.

Miss Lynn Coleman of Dallas, spent the week end here visiting with her parents, Mr. and Mrs. C. C. Coleman.

Mrs. Leck Cowden, Mrs. Guy Simpson and Miss Clara Davis spent Sunday in Lubbock attending to business.

S. N. Allen of Abilene spent the week end here visiting with his son and wife, Mr. and Mrs. Sam Allen.

Mr. and Mrs. Lloyd Cotten spent Sunday in Midland visiting with her parents, Mr. and Mrs. B. F. Abbott.

Cpl. Norris Sellers of Del Rio, spent the week end here visiting with his parents, Mr. and Mrs. R. R. Sellers.

Mrs. Hugh Lott, Mrs. N. H. Price and Mrs. Weldon Lindsey, spent Saturday in Big Spring attending to business.

Mrs. Milton Davis and son of Lubbock spent several days here this week visiting with Miss Jo Lerr and relatives.

JODIE "V" TAYLOR OF LAMESA COMPLETES COURSE IN DIESEL MORTOR OPERATIONS

BROOKLYN VILLAGE, O., — April 13. — Jodie "V" Taylor, 22, son of Mr. and Mrs. Thomas P. Taylor, Motor Route A, Lamesa, has completed a special, advanced course in the operation of diesel motors at the Navy's trade school here. A Navy veteran, the Bluejacket reported here from duty at sea to learn the latest developments in the diesel-electric field. From here he will return to duty with the fleet.

MARRIAGE LICENSES

Those securing marriage licenses this week end, were, S. R. Jeter and Miss Evelyn Gertrude Roberts, April 17, and Albert Eddie Demerson and Miss Willie B. Walker.

Mr. and Mrs. E. V. Wilkes and Miss Earnestine Gambill are in Pueblo, Colorado, visiting with Sgt. Tom Wilkes.

Mr. and Mrs. J. R. Coker of Seminole and Mrs. Jessie Lauder of Lubbock spent several days here visiting in the home of Mr. and Mrs. D. Hull.

Mrs. Bonnie Smith spent Sunday in Lubbock visiting with friends.

Pvt. Paul Cameron of Wichita Falls spent the week end here visiting with his parents, Mr. and Mrs. C. E. Cameron.

Seabees Recruiter At Big Spring Thurs. April 22

Civil Engineering Officer, Lieutenant Parrett of the Navy Recruiting Service in Dallas will visit the Big Spring Recruiting District for three days in the interest of Seabee enlistments. Lieutenant Parrett will be in the Big Spring Office of the Navy all day Thursday, April 22, for interviews of men interested in this kind of work. Friday, April 23, he will visit the city of Odessa, to interview men in that section and Saturday, April 24, he will be in Midland, to give the men of that territory a chance to learn if they are qualified for enlistment in the Seabees. The kind of men needed are Construction Men of all types. Any man who has had as much as two years experience may be qualified for a rating in this branch of the service.

There are many ratings open at the present time in the construction field, and all men who have had experience in this line of work are urged to contact the Recruiting Officer on his present trip, for the ratings open and close by wire and those open now may be closed any time. All ratings carry extra pay.

This is acknowledged to be one of the most satisfactory methods of serving your country, for while you

Mrs. Inez DuBose spent the past week at Pampa visiting with relatives and friends.

Miss Grace Weaver and Miss Elwanda Gilbert spent the week end at Dallas visiting with friends.

Sgt. Jimmie Boss of Pecos spent the week end here visiting with friends.

Lt. and Mrs. B. C. (Bill) Harrington and little daughter of Ellington Field, Houston, are here visiting their parent sand friends.

Miss Maynette Moore of Midland spent the week end here visiting with her parents, Mr. and Mrs. Ben Moore.

are helping to defeat the Axis, you are also acquiring more training and experience in your particular field of endeavor. This will enable you to better provide for yourself and family when the war is over, for the additional experience gained will undoubtedly be of great benefit when you seek employment in civil life. With the present curtailment of all construction work, it seems evident that men trained by the Navy will have a decided edge when the re-employment period comes after the war, as it surely will.

Don't wait. The rating for which you may be qualified may close soon, and if you have received your orders to report for induction, you are ineligible.

SHE'S MISSED PLENTY, AND GLAD OF IT

JEFFERSON CITY, Mo. (AP) — One of the questions asked of each witness called by a legislative liquor committee was: "Ever take a drink?" A lady from the W.C.T.U. was among the witnesses and when she took the stand, but before the question had been asked of her, she snapped: "No, I don't drink!" "Lady, you've been missing out on a lot," drawled the committee chairman, with a smile.

CARD OF THANKS

We as ministers of the Ministerial Alliance of the city of Lamesa and Dawson county wish to express our appreciation and gratitude to Rev. T. F. Sager, who has been so faithful in laboring in the capacity in which he has been serving as Secretary of the Ministerial Alliance of the City of Lamesa and Dawson County. We have been made to appreciate his faithfulness as a Minister and worker, as we have been closely associated with him for the past few years, and we do regret to lose him from our association. Wherever he may serve as a Minister we are sure that the ministers will find him to be a faithful servant and always willing to cooperate with others in the work of the Lord.

As he may go to another field of labor we will miss him, but may the richest blessings of the Lord Rest upon him as he goes.

Signed:
Rev. E. F. Cole, president,
W. M. Bozeman, Secretary.

GOOD NEWS!
After March 1, all motorist are eligible for recapping without certificate or any red tape whatever.
Make an appointment with us now for your recap work, after that date.
We use the Bacon Equipment, the very latest type, known as the best in the world, for tire recapping. With this type of equipment and our skillful labor you can not get a better job. We have not had a single tread to peel in over 3 years, and so why should you send your tires out of town and take a chance of them being lost or mischanged for junk tires. We recap your tires while you wait.

Grandma Goes To War

By ADELAIDE KERR
AP Features Writer

Grandma is building up a record of war production that can teach you and me a thing or two. In shipyards, railroad yards and assembly lines, she is proving that she can "take it" and "turn it out." Consider Mrs. Katharine Wetherhold, grandmother of two and welder for Todd Shipyards in Hoboken, N. J. She is on the job at seven every morning, welding a torch on steel plates for Uncle Sam's ships. The boss says, "She is fast and accurate, works hard, and is interested in her work." Grandma also has proved that she has her share of vitality. Mrs. Eva Waterman, one of several grandmothers employed by the

Brewster Aeronautical Corporation, says she is "59 and feels like 30." After Pearl Harbor she took a high school vocational course in machine shop practice and now works the night shift in the Johnstown, Pa., plant, assembling small parts on dive bombers. She does her housework in the afternoon and no one hears her complain of being tired.

Gangway! Here Comes Grandma! Add to grandmother's war record "good spirits and good sense." Mrs. Nita Bater, 45, another Brewster grandmother who does sub assembly, is known to all her co-workers as "Scotty." The boss says, "She's got a good head on her shoulders and is one of the best workers to work with. She fits in fine, keeps her spirits up and always has a smile."

Mrs. Mildred etao shr eta sh rmm mother of two who works as an inspector for the Sperry Gyroscope Co., is proof that the woman in middle register years can orient herself in industry after years away from the working field. After her husband's death she went to work in a Sperry Brooklyn, N. Y., plant inspecting flight instrument parts and is credited with "doing a fine job."

Mrs. Gertrude Weimann, another grandmother employed by Sperry, entered the production battle because she wants to do her part in a family that has concentrated on making war on the Nazis. Her son is a paratrooper, her brother is a prisoner in Japan, her husband is in the Marine Corps and her son-in-law in the merchant marine. Her daughter works in a Sperry plant. Mrs. Weimann, who is an inspector, adds patience and punctuality to grandmother's record. Her boss says she does a competent steady job and that she is "always on time and always there."

Grandma Gets It Done Summing it up, grandma seems to have wrecked the horse-and-buggy-age theory that women of the middle age have passed their best working days. Foremen say that the girls best grandma in one thing — they have more physical stamina for the hard physical jobs. But grandma makes up for that in patience which enables her to do particularly well the repetitive work

Dogging It On The Deep

AP Features

AN EASTERN CANADIAN PORT—The crew of a Royal Canadian Navy destroyer claims no dog in the world can come up to their

(like inspection) which gives some youngsters fidgets. She is cheerful about it too and gets on well with her fellows. The younger girls look up to her. Besides that, grandma is not forever combing her Lorelei locks. The boys like her — but let her alone. Grandma concentrates on her job and gets it done.

Sabo. Sabo got his name from the word sabotage and is the result of his ability to sabotage the ship's food and the men's gear. But Sabo's claim to fame is that it has its own hammock, and like nothing better than to sleep in it.

The dog is the proud possession of the ship's company. Originally it was a gift given to one of the crew — Seaman Earl Costello of Montreal — but the crew became so wrapped up with the new mascot they persuaded Costello to make the pup the property of the ship. Now he is Ordinary Seaman Sabo, R.C.N.V.R.

"He's a smart pup and can sure take it," says Costello, "and he showed that during our last action at sea. The big guns were

booming and men were running everywhere. When it was all over Sabo had weathered the fight—he had slept in his hammock through the whole thing.

"Yes, sir," he said, "you can't scare that sailor."

Carbohydrates furnish more than 50 per cent of the energy content of most diets.

Britain expects to import 80,000 tons of dried eggs from the United States in 1943.

It is estimated that the Army Air Forces will contain 2,500,000 men by the end of 1943.

The Evangelical Lutheran church is the state religion of Finland.

THE 2nd WAR LOAN DRIVE IS ON!

How to invest in "fighting dollars!"

"Lend more money to help carry on the fight!" That's what our Government is asking you and all the rest of us . . . asking us to lend it 13 billion fighting dollars in the next few weeks! 13 billion extra dollars—over and above all regular War Bond buying!

We can do it . . . we must do it . . . we owe it to our boys who are fighting overseas. For their sake . . .

We've got to build more ships! We broke all records last year when we built 8 million tons of shipping. This year, we're building 18 million tons . . . but still it is not enough!

We've got to do more fighting! More and more of our soldiers and sailors are going into actual combat . . . requiring more equipment, and more supplies. We cannot let them down!

We've got to buy more War Bonds! To help pay for the things our fight-

ing men need . . . we've got to buy War Bonds as we never bought them before!

In the next few weeks you may be visited by one of the thousands of men and women who are giving their time and effort to the 2nd War Loan Drive. Welcome these patriotic workers if they call . . . buy from them all the War Bonds you can!

Better still, don't wait for them. Go to your nearest bank, post office, or War Bond booth, and invest more fighting dollars now! It's the least you can do to help those who are fighting and dying overseas!

Among the 7 different kinds of U. S. Government securities is one that exactly fits your own particular purse and requirements. These securities are the finest investment in the world . . . bar none! For your Country's sake . . . for your own sake . . . invest all you can!

Dan Bartlett Celebrates 69th Birthday Wed.

D. H. (Dan) Bartlett, a Dawson County Pioneer, celebrated his 69th birthday Wednesday, April 14 at his home 802 South First Street.

A number of his good loyal friends, remembering his birthday, presented him with gifts on the street Wednesday, among these friends was H. J. Woodul, who gave him a nice package, Will Burkett and Mayor Chanall Jobe both presented him with a 50c piece.

Later Wednesday, his daughter, Mrs. Raymond Earnest, prepared a nice birthday surprise at his home, at which ice cream and birthday cake were served to Mr. and Mrs. Bartlett, Mr. and Mrs. Clay Randolph, and Mr. and Mrs. Raymond Earnest and sons.

Mr. Bartlett moved to Dawson County in January 1907, and has always called Dawson County his home, although he lived in other parts of Texas for 15 years. He has three daughters, one residing here, one living at Dimmitt and one at Shreveport, La.

The Bartlett family, have been prominent in this county for many years. There were 16 children in the family, two died in infancy, two others died at 29 years of age, twelve are still living, eleven of this number are boys, the girl being the oldest living member of the family. Their ages range from 52 years to 74 years.

Eight of the Bartlett Brothers are now living in Dawson County and all attended funeral services for a nephew in Abilene recently.

If every man, woman and child in the United States lays aside \$100 the aggregate will be about \$13,000,000,000 or the amount the Treasury must raise in its Second War Loan.

Boarding House Employees Must Have S. S. Number

Elliott W. Adams, manager of the Big Spring office of the Social Security Board, today called attention to the fact that cooks, maids, and other employees of boarding houses are covered by old-age and survivors insurance of the Social Security Act. He said that since the war began, with its attendant increase in business, numerous boarding houses have come into existence, especially in industrial areas and in the vicinity of military camps; and although it is generally understood that employees of cafes, hotels, restaurants, etc., are subject to the law, very few owners of boarding houses realize that their employees too come under old-age and survivors insurance provisions. Even though a boarding house has only one employee, he said, that employee should have a social security account number and should show it to the owner of the boarding house so that he, in turn, may include it in the quarterly wage tax report required by law.

The old-age and survivors insurance tax paid by the worker is one per cent of his wages. The employer—who in this case is the proprietor of the boarding house—is required by law to deduct one per cent from the worker's wages, add to this amount one per cent, and send the total amount with his quarterly report to the Collector of Internal Revenue.

The quarterly wage reports covering the months of January, February, and March—due on or before midnight April 30—will include the names and accounts numbers of many workers who, until recent months, were never employed in jobs that come under the Act.

In 1942, there were 859,694 persons on U. S. federal pension rolls.
