BALKAN ALLIES DEFY POWERS

ASSUME STIFF-NECKED INDEPENDENT ATTITUDE AND DO NOT ACCEPT ORDERS

DEBATE PEACE TERMS

Montenegro Smallest Kingdom in Europe Openly Defies Six Great Powers

POWERS BEGIN BLOCKADE OF MONTENEGRIN PORT.

By Associated Press.

Cettinje, Montenegro, April 5—The blockade of the Montenegrin seaport of Antizari was definitely begun today. Eight foreign warships representing the European powers formed a bar before the harbor; the fleet is composed of three Austrian, one Italian, one British, one German and one French warship.

Uneasy Moments For European Diplomats

By Associated Press.

London, April 5.—The progress of Balkan affairs is giving European diplomacy some uneasy moments. The allies have taken a stiff-necked independent attitude, and refuse to accept orders from the powers. The question is, if it becomes necessary to coerce them how it can be done. The allies recognize this dilemma and realize that the concert of Europe is not as harmonious as a month ago.

The present policy of the Balkan states is to debate peace terms and continue the war at least until Montenegro has captured Scutrai. The smallest kingdom in Europe continues to defy the six great powers. King Nicholas has talked freely to interviewers, declaring he will take and keep the town. Eight warships are blocading his seaport, but with the exception of Austria-Hungary and Germany, this measure is being executed reluctantly.

These two alone demand that Scutari be incorporated in the State of Albania and the four other powers have joined with them apparently, merely for the sake of preserving harmony. Public opinion in Great Britain and Russia is strongly in favor of Montenegro.

In a note today the powers proposed the Thracian frontier should be formed by a line drawn from Midia on the Black Sea to Enos, on the Aegean sea. This would give Bulgaria both banks of the river Maritza in accordance with her demand. It is also suggested that all financial questions, such as indemnity, should be left to the decision of a technical commission to meet in Paris.

In their original demands, the powers asked the following: (1) The frontier of Turkey shall start at Enos and end at Midia; all territories west of that line shall go to the allied states, with the exception of Albania; (2) the question of the Aegean Islands shall be settled by the powers; (3) Turkey shall abandon all claims to Crece; (4) the powers cannot favorably entertain the demand for indemnity; (5) as soon as the bases are accepted hostilities shall cease. The allies replied with the following counter propositions:

(1) In the definite determination of the frontier of the province of Thrace the lines indicated in the conditions formulated by the powers shall be taken as a gasis and not as a definite line; (2) the islands in the Aegean sea shall not go to the Balkan allies; (3) the allies consider they should know beforehand the frontiers proposed for the future state of Albania, trusting they will be in conformity with those they proposed in London; (4) the allies' demands for a war indemnity must be accepted in principle, the task of fixing the amount being left to a commission, in which the allies will be represented; (5) the alies agree that the war shall cease as soon as these conditios have been favorably received.

GOV. COLQUITT RECEIVES MORE CONTRIBUTIONS.

By Associated Press.

Austin, Texas, April 5.—Gov. Colquitt today received a contribution of $41.80 from 106 prisoners in the penitentiary at Huntsville. The money is to be added to the fund for flood sufferers in Ohio and Indiana. The money was collected without the knowledge of the warden.

SMITHVILLE, GEORGIA NEARLY WIPED OUT BY FIRE SATURDAY

Smithville, Ga., April 5.—Fire of unknown origin today practically wiped out the business section of this town. Dynamite was finally resorted to to stop the flames.

WILSON HOLDS THE WHIP HAND

PRESIDENT APPEARS IN COMMAND OF TARIFF SITUATION ON EVE OF SESSION

WILL REDEEM PLEDGES

Efforts of Congressmen to Escape Caucus Pledge Will Not Be Tolerated

By Associated Press.

Washington, April 5.—President Wilson tonight, virtually on the eve of the convening of Congress in extra session, was in command of the tariff situation, determined to uphold the tariff pledges of the Democratic platform adopted at Baltimore.

Important additions to the tariff free lits as reportel tonight include raw wool, boots and shoes, hides and leather, skins, meats, lard, salt, iron, ore, timber, agricultural implements, sewing machines, typewriters, printing presses, road machinery, newsprint paper, wood pulp, cotton bagging, barb-wire and steel rails.

President Wilson's proffered compromise on sugar which would mean a one cent a pound duty for three years and then free sugar was rejected tonight by Senator Ransdell, Representative Broussard and Col. Robert Ewing, Democratic National committeeman from Louisiana. The Louisiana men tonight took to the White House a strong protest against free sugar adopted today at a meeting in New Orleans of the American Cane Growers' association.

They predicted the ruin of the industry if the president persists in his determination to remove all duty on sugar. They offered as a compromise the suggestion to the president that he indorse a one cent duty on sugar for three years with the provision that sugar be made duty-free at the end of that period if in the president's opinion, it at that time was advisable. They pointed out that such a proviso would enable the president to investigate the claim that a great industry would be ruined by the removal of duty and told him he would be able to insist just as strongly on free sugar then, if he saw fit, as he is doing now.

Although the delegation confefred with the president for more than an hour, he gave no intimation as to whether he would consider their offer of a compromise. Mr. Underwood reached the White House just after the Louisianan left. He brought a completed copy of the tariff bill for the president's final approval. He discussed the proposed sugar compromise briefly with the president, but it was understood no change would be made in the bill as it left the ways and means committee today. It was carried to the government printing office by Mr. Underwood tonight and he expects to have it ready for consideration of the majority members of the Senate finance committee which meets late tomorrow.

Kicking Over Traces Will Not Be Tolerated.

The president and party leaders have agreed upon free raw wool. There will be no trouble getting it through the House and Senate leaders propose there shall be no kicking over the traces when it reaches the Senate caucus. It was asserted by some leaders that efforts of Senators to dodge a caucus pledge on the wool or other schedules would not be tolerated. The president in talking today to Senator Walsh and Myers of Montana, explained his firm position on the wool tariff, declaring that the party could not afford to place any tariff on raw wool. Negotiations on the sugar schedule continued throughout the day, no agreement having been reached at a late hour as to the position to be taken by opponents of free sugar.

It became evident during the day that proposals had been made between the sugar and wool partisans looking to a combination that might force the president and the Senate leaders to give some protection to both industries. This danger has worried the Senate committee for some time, but it was declared tonight that the influence of President Wilson and the demand that all Democrats abide by the majority decision of the party would force all senators into a final acceptance of the proposed revision.

Sugar Growers Will Not Submit Tamely.

The sugar forces, led by Senator Ransdell and Representative Brouthard of Louisiana, were in conference with other senators and members of the House during the day. The president's proposal of a one-cent duty with free sugar in three years has been submitted to the sugar growers' associations of the South, and it was determined to give no answer to the president until the sugar growers had

LACOMBE DEFIANT EVEN UNTO DEATH

NOTORIOUS FRENCH ANARCHIST LEAPED TO DEATH FROM PRISON ROOF

SUICIDE WAS DRAMATIC

From Ledge of Roof He Parleyed With Officers More Than Half an Hour

By Associated Press.

Paris, April 6.—Lacombe, a notorious anarchist, bandit and murderer, committed suicide today by jumping from the roof of the prison De la Sante. His leap to death was witnessed by all the prison officials and guards, by Lacombe's lawyer and the prosecuting attorney and the judge who had committed him to prison. Some of these spectators had been summoned by telephone during the two hours that Lacombe stood at the edge of the roof arguing with the warden, who sought to persuade him to return to his cell.

He was awaiting trial on the charge of assassinating M. Ducret editor of a newspaper. He also was charged with murdering several other people in various parts of France. This morning while Lacombe was talking with his lawyer in an enclosed court-yard inside the prison his guard stood a few yards away. Suddenly Lacombe who was an all around athelete and a professional performer of feats of strength at country fairs sprang forward and grasped the lower rungs of an iron ladder leading to the upper part of the building. He had climbed past tier after tier of cells and had mounted swiftly to the roof before the guards recovered their composure. A dozen wardens ran through the prison and emerged by trap doors upon the roof, gradually surrounding him on three sides.

He threatened to throw himself down and the guards hesitated to approach. A remarkable conversation then took place between Lacombe, the examining judge and the prosecuting attorney, who had been telephoned for. Lacombe's lawyers and others meanwhile gathered on a balcony overlooking that part of the roof where Lacombe stood. The magistrate called on Lacombe to surrender, but he replied:

"It is too late; I have finished." Lacombe then complained about his food and lack of heat in his cell. The prison warden shouted to him that he himself would see that his desires were supplied. Lacombe replied:

"Too late; it is finished." He then said he would like to talk to his lawyer, who thereupon approached Lacombe, shook hands with him and talked with him for half an hour. Now and then wiping tears from his eyes, Lacombe begged the lawyer to look after his mother and grand-mother.

WEATHER FORECAST

Sunday fair and warmer.

Trembling with excitement, Lacombe continued:

"I was thrown upon the world when I was seven years old. I tried to do honest work, but fate followed me."

The lawyer begged Lacombe to be reasonable, but the anarchist glancing at a clock in a church steeple which pointed at 11:28, said:

"At half past eleven all will be finished," and at that hour, raising his hand to his forehead in salute, he shouted:

"It is the moment; tell my mother that my last thought was of her. Farewell." He then jumped like a diver to the stone court yard below, and was dashed to death.

TAMMANY LEADER KILLED BY GANGMEN

Eugene Smith Shot Down on Park Row by Four Gangsters Saturday

By Associated Press.

New York, April 5.—Eugene Smith a Tammany leader, was shot and killed on Park Row today by four gangsters all of whom escaped. A brother of Smith said he had been mistaken for some one else but the police were told that Smith recently had become involved in a gang feud and had moved to Brooklyn because of threats to take his life.

CAMPAIGN OF REVENGE BY SUFFRAGETTES

Many Outrages Committeed in Last Twenty-Four Hours in Great Britain

By Associated Press.

London, April 5.—The campaign of revenge for the long sentence imposed upon Mrs. Emmeline Pankhurst is proceedingly actively and seems likely to spread. Many outrages have been committed in the last twenty four hours. These include complete destruction of the grand stand of the Ayr race course in Scotland at a loss of $15,000 and an attempt to burn the new grandstand of the Kelso race course, also in Scotland.

Many show windows were smashed in Glasgow including those of the labor exchange. Wires were cut at other places, letter boxes damaged at Liverpool, flower beds in the public park at Newcastle were torn up and letter boxes burned in London.

AMENDMENT ELECTIONS

COLQUITT ORDERS ELECTION JULY 19 ON CHANGE IN CONSTITUTION

FOUR TO BE SUBMITTED

Amendment Relating to Pay of Legislators Not Included In Proclamation

By Associated Press.

Austin, Texas, April 5.—Election proclamations for July 19 were prepared today by Governor Colquitt. The election is called to vote on constitutional amendments proposed in the joint resolutions adopted by the legislature. Votes on four resolutions will be held. No date has been set for a vote on a fifth amendment requiring that notice of elections for submitting constitutional amendments to be published ninety days preceding the election. The four amendments are:

Senate joint resolution by Morrow, abolishing the terms of district courts and providing that more than one judge may be appointed in a district if necessary.

House joint resolution by Reeves and others, providing that every officer from constable to governor shall be paid a salary and abolishing the fee system.

Senate joint resolution by Paulus and others, to raise the maximum emergency fund the state may issue and authorizing the issuance of bonds for state institutions, such as the State Universisy, A. & M. College and prison system.

Senate joint resolution by Terrell providing that road and improvement bonds may be issued by a majority vote if the constitutional amendment is adopted. They are issued by a two-thirds majority at present.

Governor Colquitt did not issue the proclamation submitting the joint resolution by Nugent proposing to change the payment of members of the legislature to $1200 for the first year and $5 per day for extra sessions; the governor has elected, probably, that it be not submited until November, 1914.

PLATFORM DEMAND MEETS WITH GOVERNOR'S APPROVAL

By Associated Press.

Austin, Texas, April 5.—The governor sighed and filed this morning the Senate bill providing that charges in felony cases shall be read before the argument begins. This is a platform demand and promptly met with Gov. Colquitt's approval.

LESS POLITICS HUERTA SLOGAN

WATCHWORD OF PORFIRIO DIAZ ADOPTED BY NEW GOVERNMENT IN MEXICO

CARTOONISTS ARE WARNED

Actors Changed and A Few Shifts of Scenery Made In Southern Republic

By Associated Press.

Mexico City, April 5.—"Less politics and more administration," the watchword of Porfirio Diaz, has become the slogan of the new Huerta government. In the days of Porfirio Diaz cabinet ministers, heads of departments and official incumbents generally, if they had opinions contrary to governmental policy, discreetly kept them to themselves. With the advent of Madero the pent up flood of political expression deluged the country. Political orators went to extremes in airing their views. From platforms throughout the republic the acts of the administration were criticised to the point of vilification. Administrative affairs were allowed to suffer.

President Huerta, in his first public utterances, made it plain that his policies were to be of a different order. To a group of newspaper men whom he summoned to the palace he expressed his appreciation of a free press, but intimated to them that their efforts should be directed along lines of aiding in re-establishment of peace, rather than toward hunting out difficulties with which to confront the administration.

"In a word," he cautioned them, "abandon for the moment political questions and give preference to those of administration."

"I am convinced," he added, "that it is not wise, in the present moment of our national life, for you to occupy yourselves, with affairs purely political, but rather with those matters which have a bearing on the pacification of the country."

Hard Days For Cartoonists.

Caricaturists also will ply their art with more circumspection. With hte person of Madero they were accustomed to take every liberty and were permitted to do so. Before President Huerta had been in office two weeks he sent for the editor of one of the best known comic weeklies of the capital. Calling his attention to a caricature of himself, the president said to the editor:

"I don't like that, I wish you would not print my picture that way."

"But, Mr. President, I——."

"Well, thats all. I don't want you to print these caricatures because —well don't. Good bye."

The editor departed, and it is safe to say that he will think twice before repeating the offense.

STATUS OF JAPANESE IS DISCUSSED

Members of California Delegation Call on Secretary of State

By Associated Press.

Washington, April 5.—With one or two exceptions, the entire California delegation in Congress called on Secretary of State Bryan today and discussed legislation now pending before the California legislature, prohibiting foreign ownership of lands. The delegation assured Secretary of State Bryan that California, regardless of party, is united in support of the measure. Mr. Bryan is very desirous of gathering information on the degree to which the proposed legislation may be in conflict with existing treaty privileges of Japanese to hold land.

It has been intimated if state legislatures try to deprive any foreigner of any treaty right, the United States court will be asked to pass on the constitutionality of the state action. Members of the delegation declare that regardless of consequences, the people of California are determined to break up the Japanese colonies in the farming counties and to reserve the state for American labor and American landlords. Mr. Bryan consistently refuses to discuss the subject in any phase.

J. P. BUCHANAN NOMINATED TO SUCCEED BURELSON.

By Associated Press.

Austin, Texas, April 5.—J. P. Buchanan was elected congressman from the Tenth Texas district, succeeding A. S. Burleson, who resigned to become postmaster general. The friends of George Calhoun, conceded tonight that Buchanan was elected.

OHIO HIGHEST IN ITS HISTORY

EVEN MARK OF FLOOD OF 1884 IS PASSED AT EVANSVILLE, IND.

SAFE ON MISSISSIPPI

Great River Makes Little Advancement Toward Disaster Point

CRISIS PASSING AT CAIRO, ILLINOIS.

By Associated Press.

Cairo, Ill., April 5.—Cairo is now passing what is supposed to be the crisis of the flood. The river is practically stationary, with a falling tendency but is expected to remain extremely high for several days. The stage is 54.7 feet. Grave danger still menacs the city from seepage and from possible high winds.

By Associated Press.

Memphis, Tenn., April 5.—On its annual romp through the Central section of the country, the Mississippi River tonight had made comparatively little progress toward that stage which might spell disaster for residents along more than 1000 miles of water front. Some encouragement came from points along the Ohio River, where that stream was reported falling. At Cairo the river is at 54.7 where it has been hovering for hours. The Cairo situation, however, is complicated by a rise in the Mississippi at St. Louis where the river at 7 o'clock tonight stood 23.1 a rise of nine-tenths in twelve hours.

Faith In St. Francis Levees.

The levees meanwhile are holding well from Hickman to Memphis. Levee experts claim the levees of the St. Francis district in Arkansas and those below Memphis on both sides of the river will not only resist the expected flood, but will withstand a crest at Memphis of 47 feet and still show one to two feet above the water line.

Low Property In Memphis Imundated.

Between six and ten blocks of lowlying propetry in Memphis is covered with two to six feet of muddy back water from the Mississippi as a result of a break in a city levee early this morning. The residents had been warned in time and escaped without loss of life. The flooded district extends from north Main street where the water is one to three feet deep eastward to St. Joseph's hospital and from Poplar street on the south to about Mill street on the north. With the rise this overflow is expected to spread, but the damage will not be so great as last year. One death occurred today when an employé of a boat company fell into Wolf River and drowned.

Unchanged at Hickman.

Refugees from Arkansas and Northwest Tennessee are arriving in increasing numbers and preparations have been made to care for several thousand.

Reports from Hickman tonight state that conditions are practically unchanged there. All available labor was put to foot on the Reelfoot levee today where weak spots developed just behind West Hickman and it is believed the levee will hold. Residents of Hickman have built scaffolding and temporary sidewalks to their stores, sometimes more than a block long so that they are getting provisions in spite of the high water.

Bread and Plenty of Water.

The mayor of Tell City sends word there is nothing left to eat in the town but bread and crackers. One bakery is still above water and there is sufficient flour.

Ohio At Highest Point In History.

By Associated Press.

Evansville, Ind., April 5.—Flood sufferers still are being brought into Evansville along the Ohio River. In spite of aid offered, many farmers are remaining in their homes although driven to second stories and endangered by a wind storm within the next week. The river tonight remains at 48.3 feet the highest point in history, but is expected to begin to fall slowly tomorrow.

Fred Zahn, a boatman, crossing the flood above Henderson, Kentucky, saw a child's face looking out of a small attic window of a house, with only the roof above water. Investigation showed Henry Schnell, wife and five children, in the attic. The father and mother had been without food three days and the children's last meal was Friday morning. The attic window was too small for escape of the parents and Zahn and two com-

GREENLEAS WELL IS LOOKING GOOD

LATEST REPORTS SAY IT HAS 30 FEET OF SAND AND IS 60 BARRELS OR BETTER

DISTRICT LOOKING UP

Week's Developments at Burkburnett Highly Encouraging

The latest news from the Greenlees Brothers well on the Hugh-Reilly is that it has thirty feet of sand, 1613 to 1633 feet, and that it made several nice flows yesterday. Until C. A. Greenlees returns from Kansas, it is not likely that the well will be drilled in. Last night there was over 200 barrels of oil in the 250 barrel tank at the well, but part of this was already on hand for fuel before the sand was reached. Estimates of the well's production range from sixty barrels up.

Another hopeful sign in the Burkburnett field is the completion of the Corsicana's well on the Cook, being an offset on the north to the McBride well on the Chenult. The well reached the sand yesterday and is said to be good for fifty barrels.

The Producers well on the Morris reached the sand yesterday and will be drilled in early this week. If it is a well, it will be Producers' first production at Burkburnett.

Among the week's completions at Electra are Guffey No. 8 Miller, fifty barrels; Corsicana No. 47 Allen, 75 barrels; Producers No. 46 Stringer, 50 barrels.

The W. B. Honaker well drilled in last week by the Corsicana is now rated at 205 barrels. It is understood several locations will be made in that vicinity this week.

Drilling continues on the several wells around Iowa Park without anything startling yet having developed. Some of the star rigs, however, are due to show something this week and their testing will be watched with interest, as it is to the shallow sands that much of the faith in the Iowa Park section of the field is being planned.

R. R. MEETINGS HELD SATURDAY

DIRECTORS AND OFFICERS ARE ELECTED BY W. F. & N. W. AND W. F. & S.

SCHAFF WELL PLEASED

However, He Says Katy Will Hold Up Extensions Until Consolidation Is Settled

No more exteasions will be undertaken by the Katy in Texas until the question of the right to consolidate, now under fire in the courts, is finally and permanently settled; this was the statement made by C. E. Schaff, president of the Katy lines, who was in Wichita Falls yesterday to attend the annual meetings of the stockholders and directors of the Wichita Falls lines.

All the present officers and directors were re-elected at the meeting, no changes being made.

"The attitude of the attorney general," said Mr. Schaff, "seems to be to hinder and obstruct railroad development in Texas as much as possible and he is putting every possible obstacle in our way. We want to extend the Wichita Falls & Southern, but we cannot do it unless consolidation is upheld. We believe the attorney general is wrong, but nobody can see the end of a lawsuit, and we can't go ahead until the matter is settled."

Mr. Schaff was greatly pleased with conditions as he found them in this section and along the Nortwestern, having come down the line from Forgan Friday. He said that Wichita Falls had grown even in the brief space of time since he was here last. In company with J. A. Kemp, Frank Kell and others, he visited the factory section, including the glass plants, and was much inteersted in what he found there.

The meetings held yesterday were those of the Wichita Falls Railway, the Wichita Falls & Northwestern of Texas, the Wichita Falls & Southern and the Wichita Falls & Wellington. Friday the meeting of the Wichita Falls & Northwestern was held at Altus. Each of the roads elected the following officers: C. E. Schaff, president; Frank Kell and J. A. Kemp, vice presidents; Wiley Blair, secretary; W. S. Haid, treasurer; L. F. Linney, auditor; C. C. Huff, general attorney.

Mr. Schaff left yesterday for Fort Worth over the Denver, having several similar meetings to attend before he leaves the State.

Building to Be Erected By Stampfli and Roberts for Wren and Berry

Contract for the new Wren and Berry theatre building to be erected by Messrs. Stampfli and Roberts, was awarded yesterday afternoon to E. A. Cox for $21,156. Work on the foundation is already under way.

The theatre will be located on the east side of Ohio between Eighth and Ninth, next to the Bessey Furniture store. The front will be of blue face brick, white stone trimmings fronting fifty feet and extending 132 feet back. The auditorium will have a seating capacity of 1000 with loges which will accommodate 180 spectators. The electrical equipment will be along the most modern lines and the stage will be arranged with the latest ideas; among the features will be the full fly, which will permit the curtain and drops to be lifted without rolling.

The second floor will be on heavy steel beams; largest ever brought to this city; offices will occupy the upper story. The entire structure will be built along substantial lines, making it one of this city's best built business edifices. The plans were prepared by Jones and Orlopp.

JOHN BELL FLOOD HERO; KEPT OUTSIDE WORLD INFORMED OF DAYTON CALAMITY

John Bell.

Dayton, O., April 5.—Every great crisis, they say, develops its hero—some man who stands out above his fellows for the conspicuousness of his bravery or his devotion to duty in the hour of greatest need. The great flood which swept over Dayton last week developed its hero in the person of John Bell, telephone operator.

For one entire week—when the calamity was at its height—Bell slept on an average of three hours out of 24. His only food was stale bread and coffee made from flood water, innocent of a trace of sugar or milk.

Bell was in charge of the only wire out of Dayton. He stood behind the switchboard in the flooded Central Union telephone building on Ludlow street, keeping Governor Cox in the state house at Columbus, as well as the rest of the outside world, in touch with the situation, directing the efforts of the linemen who were trying to rehabilitate the telephone system; advising and helping the military men who ran to him with their problems; assisting the fire department in its efforts to find gasoline engines and pumps with which to pump out the flooded basements; supervising, by his suggestions, the distribution of relief—doing almost everything.

Bell is not only a telephone operator, as the governor and public concluded when he first established communication with the state house and began to tell Cox how bad the flood really was. He's on the Central Union's payroll as division plant manager, stationed at Dayton.

His promotion from lineman came but recently and until the flood came he was somewhat of an unknown quantity an experiment, so far as his superiors knew. The flood proved him a big executive.

John H. Patterson's brain directed things at relief headquarters over at the National Cash Register plant, but John Bell was the boss downtown. Even Adjutant General Wood leaned on him.

ONLY 53 VOTES IN TRUSTEES ELECTION

Bullock, Brown, Taylor, Downing, Carrigan, Jackson and Ferguson are Elected

Only fifty-three votes were cast in the Wichita Falls Independent School trustees' election here yesterday and even fewer votes were cast in the election for two members of the county school board. The exact number cast here in the latter election could not be learned last night. It is probable that less than a hundred votes were cast in the entire county. In many places the polls were not opened.

The vote in the Wichita Falls Independent School District election was as follows: W. J. Bullock, 52; W. W. Brown, 51; T. J. Taylor, 53; J. L. Downing, 51; A. H. Carrigan, 53; J. L. Jackson, 52; W. R. Ferguson, 53.

IF YOU'RE A WOMAN AND WOULD BE IN STYLE, GO QUICKLY AND GET A MONOCLE; THEY'RE TO BE ALL THE RAGE IN 1913

According to the latest fashion notes from New York, monocles for women are to be all the go in 1913. The picture shows how to wear 'em.

My word! wouldn't it bowl you ovah? So dejeedly English, it is. This idea of wearing a monocle, y'know, and it's being done quite a bit—oh really. By the young ladies, that is. Jolly ripping. And quite fetching, too, dash it al. Oh, cheese cloth!

Stand around girls, and get an earful. Do you want to be wise to the latest dope in styles? Of course you do—naturally. Well, grab this: wear a monocle. Yep, you sez 'er. One of those there things you wear in your eye. Yeh, with a string on it. Sure. You've seen 'em in cartoons of Englishmen. Now the wimin folks down in New York, N. Y., are wearing them. Wouldn't that give you a turn?

At the horse show a year ago, in Gotham a young social leader created some little comment, favorable and otherwise, by appearing "in" a monocle. However, it was a new idea and Mrs. Hyphen-Rox and a lot others were petulant because they hadn't thought it up themselves. The notion grew in favor 'till now it has established itself as a most essential item in the get-up of the correctly gowned. In fact, you're dubbed an awful dub if you don't hang a pane of glass over one orb and that's all there is to it. Beats all how strict old Dame Fashion is.

Just one thing more, girls, and today's lesson in monocles is over. There are two kinds of monocles. The first is what you might call—now just the ordinary sort. Let 'em ride around on your face all the time. You wiggle your nose and makes faces 'till they stick in front of your eye, and you're afraid to sneeze or they'll drop off. Then there's another kind, technically known as hand monocles, so named after the hand in which they are carried around. These are only placed to the eye when occasion demands, such as when one wants to look through them. At all other times the hand monocles are allowed to flutter in the breeze at the end of a wide black cord. The hand monocles are somewhat the larger.

We're going to get a hand monocle. Which kind are YOU gonna get

WILSON HOLDS THE WHIP HAND

(Continued from Page 1)

been heard from. Tonight Representative Brouthard received a message from the American Cane Growers' association, stating that the president's proposal had been discussed by the association at a meeting in New Orleans today and it was unanimously agreed that a duty of one cent a pound for three years and free sugar after that time, would not be acceptable. This information will be communicated to President Wilson.

Two Sugar Schedules Drafted.

The ways and means committee having completed the tariff bill, adjourned until Monday, leaving the sugar schedule open, approved in two ways. The committee voted for free sugar flatly, and also for the suggested alternative of one cent a pound for three years, to be followed by free sugar. Two schedules were drafted, the committee leaving it to Chairman Underwood to incorporate in the bill the schedule finally approved by the president. If no agreement can be reached by way of compromise with the anti-free sugar senators, it was indicated that the tariff bill would be introduced anyway, probably with sugar on the free list.

Senate Finance Committee Meets Monday.

Tomorrow the Senate finance committee will meet to go over the schedules drafted by the ways and means committee. By that time a definite understanding on the sugar schedul is expected. On Monday Chairman Underwood will introduce the bill and the House Democrats have been called to consider it in caucus Tuesday morning. At that time the question of procedure will be considered; whether the bill, including the income tax, shall be taken up as a whole, or schedule by schedule. The prevalent opinion is that the entire tariff will be considered as one measure. Chairman Underwood said tonight he planned to have his report on the bill ready for the caucus called by Representative Palmer of Pennsylvania, the caucus chairman. This report will contain a complete analysis of the bill, and is to be accompanied by a hand-book showing comparative rates with the Payne-Aldrich and other tariff bills.

The bill, it is estimated, will result in a loss of revehue of from eighty million to eighty-five million, as compared with the Payne-Aldrich law. The saving to the people, it is estimated by the Democratic experts, will aggregate several times this loss.

Income Tax Bill Thoroughly Prepared

The income tax provision from which the loss of tariff revenue is expected to be recovered, has been thoroughly planned. Low exemption on this is placed at $4000; it is said tonight that should the compromise plan for a three years' of reduced rates on raw sugar prevail, the personal income exemption might be raised to $5000. The $4000 exemption it is understood, was determined upon with the view of placing sugar on the free list, which alone would cut off $52,000,000 in revenue. Chairman Underwood waited until late today for word from members of the Senate finance committee or the president, but none came. He will be on hand tomorrow to hear from them and members of the ways and means committee will be subject to call should a meeting be necessary.

Among the president's callers to consider the tariff today were Senator Kern, the majority leader, and Senator Thompson of Kansas. A delegation of Hawaiians led by their delegate in Congress, also called to protest against free sugar.

Cane Growers Announce Opposition.

By Associated Press.

San Juan, Porto Rico, April 5.—The Porto Rican Commerce association has sent a cablegram to President Wilson, in which it is declared that the removal of the sugar tariff will mean disaster to that industry on the island of Porto Rico and will leave thousands without employment and affect financial conditions materially.

President Wilson is requested to allow a commission representing Porto Rico to be heard before final action is taken.

Louisiana Growers Protest.

By Associated Press.

New Orleans, April 5.—Members of the American Cane Growers' association today announced opposition to any tariff plans that would ultimately mean free sugar and in telegrams sent to Washington, said the association is willing to fight and take the chances. J. D. Hill and Henry Pharr, members of the association, left today for Washington. Before leaving they said they expected to tell President Wilson his plan means absolute ruin to the industry in Louisiana.

PRISON LEAGUE SEASON OPENS

FIRST GAME IN FEDERAL PRISON ATTENDED BY ALL CEREMONIES OF BIG LEAGUE

A PENNANT WAS RAISED

Prisoners Given Freedom of Grounds and Fans Discuss Umpires Frankly

By Associated Press.

Atlanta, Georgia, April 5.—Attended by all the ceremonies of the opening of a big league pennant race, the baseball season in the Federal prison league was opened here today. Before the games there was a parade across the prison grounds behind the prison band and the raising of the 1912 pennant. That there is something in a name was indicated by the fact that the pennant last year was won by the Giants, a team comprised of strong armed men from the prison marble shops.

Today there was a double header in which the Tigers beat the Cubs 15 to 3 and the Champion Giants walloped the Crackers 9 to 1.

The scenes about the diamond were probably the most unique in the history of the National game. All of the more than 800 prisoners were given the freedom of the grounds. No restraints whatever were placed upon them. The umpires, who were selected from among the prisoners, were freely and frankly discussed as robbers and once one of the umpires was surrounded by a group of protesting players when he called a Giant runner out in a close play at second.

The Giants had as their pitchers a negro known to the fans as "Black Matty." This pitcher had a record last season of winning fifteen straight games. Black Matty was not a hold out this season as he is under contract for several years.

Warden Mayer was called upon to pitch the first ball but as he was suffering from a glass arm he turned his honor over to Deputy Warder Fawk.

The partisanship among the fans was intense at times.

"Take him out and put in 66" yelled on enthusiast when the Giants hammered the pitcher for his team.

"Come on you old Moonshiner," said a Tiger fan to the Cracker pitcher in the second game.

Two former ball players were the opposing pitchers in the second game and they played with the confidence of seasoned professionals. The catcher for one of them, known as "66" caught without a breast plate or mask.

A number of plays in both games would have done credit to big league stars in mid-season form.

The raising of the pennant was a pretty sight. About the flagpole were grouped the players surrounded by the prisoners. A man once prominent in the news of the day but whose identity is now hidden behind a number made a pretty little speech in presenting the pennant to the Giants. As the red white and blue pennant fluttered to the breeze the prison band played "America" and hats were doffed and three lusty cheers beat against the concrete walls of the stadium in a great wave of sound from the throats of the prisoners.

PROGRESSIVES TO HAVE RECOGNITION

New Party Will be Given Recognition on Several House Committees

Washington, April 5.—Plans for strenuous legislative campaigning during the coming session of Congress were outlined today by the new organization of the Progressive party in the House. The fifteen progressive members spent today in a series of conferences to perfect plans.

Recognition of the new party in the House was assured this afternoon when Majority Leader Underwood, in conference with Representatives Murdock, Heinbaugh and Stephens, the progressive committee on committees agreed to allot to the new party its proposition of committee places. Mr. Underwood said he would give the proportion of committee places. Mr important committees, ways and means and rules. The progressives were jubilant over this decision.

From the fall of Speaker Clark's gavel on Monday the progressives intend to get into the legislative struggle aggressively. The progressives rules committee labored today over a draft of proposed rules for the House, which they expect to offer as a substitute for the rules brought in by the Democrats.

TEGLER SENTENCE REVERSED BY OKLAHOMA COURT.

By Associated Press.

Oklahoma City, April 5.—The criminal court of appeals today reversed the case of Rudolph Tegeler, serving a life sentence for the murder of James T. Meadows in this city on the night of June 4, 1907. Tegeler was tried three times and convicted twice. The case is one of the most famous murder cases of the Southwest. Meadows was superintendent of construction for a telephone company and Tegeler maintained friendly relations with Mrs. Meadows. When Meadows disappeared the search for his body lasted several weeks, and it was not found until Tegeler himself led the officers to the spot where it had been buried in a cornfield.

Mrs. Meadows was acquitted of complicity in the murder.

OKLAHOMANS ARRESTED AT McKINNEY FRIDAY NIGHT.

McKinney, Texas, April 5.—Deputy Sheriff George Terry of Dustin, Oklahoma, arrived here last night and took into custody Eldris and Madison Grimes and Tom Teevyhouse, arrested at Melissa a few days ago and wanted in Dustin on a charge of disposing of mortgaged property.

HALF OF FIRES INCENDIARY

CHICAGO GRAND JURY'S REPORT BRISTLES WITH CRITICISM OF COMPANIES

FIFTY-SIX ARE INDICTED

Laxity of Insurance Companies Declared Responsible for Bad Record

Associated Press.

Chicago, April 5.—A report bristling with criticism of methods used by fire insurance companies in issuing policies was made today by the special grand jury investigating the so-called arson trust. Fifty-nine indictments based on thirty-one alleged incendiary fires and involving fifty-six members of the alleged trust, were returned. The report declared fifty per cent of Chicago's fires are incendiary because of insurance companies' laxity in examining property insured and relaxation of vigilance after a policy has been granted. Chicago fire underwriters while upholding the general spirit of this report made many objections to its recommendations.

The jury recommended that companies fight every loss they were convinced was crooked, declaring that the present system is a compromise. The report said:

"The business of arson is regularly carried on by many of the public fire insurance adjustors. It is the practice among insurance companies to accept what are known as rotten risks from brokers in order that companies may also get the good risks from the same brokers."

N. J. Naghton, president of the Chicago board of fire underwriters, said tonight the success of changes recommended by the special grand jury depends largely upon aroused public sentiment. The fire insurance companies are eager to reduce arson, he said, but all suggested changes penalize 100 honest men to head off one crook.

The inspection of property advocated as the chief remedy by those not familiar with the business would make insurance prohibitive in cost to small families; the average premium for a small flat is $2 a year and it would cost as much more to make an effective inspection. Dishonest persons easily could arrange to stand inspection. Failure to fight crooked claims is a responsibilitiy resting chiefly on the courts, on some firebug cases, insurance companies have spent as much as $25,000 only to have the men go free.

FEDERAL LEAGUE TO OPEN MAY 6

Indianapolis, Cincinnatti, Cleveland, Pittsburg, Chicago and St. Louis Members

By Associated Press.

Indianapolis, Ind., April 5.—After a meeting of the magnates lasting all day and far into the night a schedule for Federal league was adopted. It calls for the opening of the season May 6 and provides for 120 games.

The opening games will be: Indianapolis at Cincinnati; Cleveland at Pittsburg; Chicago at St. Louis.

Cincinnati was awarded the franchise that had been given to Covington, Ky., the latter town having failed to post its forfeit.

Five club managers were announced as follows: William Phillips, Indianapolis; George Schlei, Cincinnati; William Bradley, Cleveland; Fritz Frazier, St. Louis.

President Powers of the new league said the names of many stars should be attached to contracts with its teams.

Our success—due to the fact that we have won the confidence of our patients by always maintaining the highest standard and being well equipped. We know how. Dr. DuVal, the Progressive Eye, Ear, Nose, Throat Specialist. 81 1tc

Entered at the Postoffice at Wichita Falls as second-class mail matter

Wichita Falls, Texas, April 6, 1913

Now that Gov. Colquitt has expressed publicly what most people will think was his private opinion of Speaker Terrell, it might add some interest to the controversy should Speaker Terrell express publicly his private opinion of the governor. Let 'em fight. Confound 'em. Both are antis anyhow.

The American Red Cross Society estimates that four hundred and sixty lives were lost in the Ohio and Indiana flooded towns and districts; forty-two hundred homes were destroyed; forty thousand persons rendered homeless, and nine thousand families outside of Dayton, Columbus and Cincinnati in need of assistance. The response to the appeal made to the people of the United States has been and is yet being responded to most liberally, and the money will be distributed to those who are helpless. No one need regret having assisted in helping the unfortunate people of those two states.

It will be noted, no doubt, that in issuing his proclamation for an election on July 19 to vote on proposed constitutional amendments, Gov. Colquitt failed to include in the bunch the one that calls for more pay for our legislators. In that he has made a serious mistake. If Texas ever expects to get her best and most able men (and by this we do not mean the men who are both able and rich and can afford to give their services to the state in the capacity of law-makers) she must at least pay a fair compensation for their work. If the pay was sufficient who can doubt but there would be less nubbins and more men of big brains to serve the state as legislators?

Alfonso Madero and Gov. Carranza, the latter the acknowledged leader of one of the strongest and most formidable rebellious factions in Mexico, met for a short interview on the international bridge at Eagle Pass Friday, and speeches were made denouncing Provisional President Huerta as an usurper and murderer. This does not look much as if peace was soon to come in Mexico. Already the Huerta factions are said to be making overtures to the rebels by agreeing to have Huerta resign the presidency in favor of a man who is a Madero sympathizer and was a member of Madero's cabinet. The dispatches also assert there are not more than 40,000 soldiers who are loyal to the Huerta government, and that the rebel forces—all factions combined, greatly outnumber the government troops. This is as it should be. The people of a country that ever expects to gain the respect of other nations can't well do this while they retain in power cowards and assassins—such as Diaz and Huerta have both proven themselves to be.

The best way to build a city is for the citizens to work in harmony with each other. Not many successes have been scored by men in efforts to build up their business by trying to tear down that of their neighbor or competitor. It is the same way in city building. Wichita Falls is not jealous or envious of any of her neighboring cities or towns. All of them are good. Perhaps some could be better and more prosperous were those who inhabit them to work in concert together, and get rid of that feeling that, by knocking on Wichita Falls they better themselves. It won't work, at least it never has yet, and the more knockers any town, city or community boasts the worse off they are. The "knocker," whether he knocks on his own town or on some, other is of but little use to his community. Wichita Falls, for instance, never knocks on anything, but if there is the slightest hope of securing an additional enterprise that will result in adding a few more people to her population, a few more wage-earners on her pay-roll, or a few more dollars to her wealth, she goes after it like she meant to get it, and never stops until the proposition is landed or forces the fellow who put up to us to back squarely down and admit that he was only running a bluff or seining in the hope of catching a few suckers. So far, not many have tried that game, and those who did, or at least some of them, now no doubt, wish they had not. Wichita Falls has more open-hearted, generous, live, wide-awake business men than cities of twice her population, and for that she naturally feels proud. They work together, and the result is that all of them prosper in proportion to the prosperity and growth of the city.

Local News Brevities

J. N. Bryan, who lives in the Tohrnberry-Charlie community, brought a report to the city yesterday that the chinch bug and other insects were damaging the wheat and oat crops in that section. Inquiry from farmers and others from all parts of the county yesterday afternoon failed to develop reports of chinch bugs from any other neighborhood in this section. Although several reported that the wheat was beginning to need rain.

DIVORCE.

There is this new fashion of divorce. I am married to a woman, and because I do not like the way she wears her hair, because she sings out of tune, because she will not go motoring with me. I say that she is no wife of mine; that I will divorce her—trifles, nothing but trifles, yet ever gaining an ignoble importance in the childless marriage. The average divorce is simply an exhibition of the most deplorable lack of self restraint. When Rome grew rich and mercenary and pleasure loving, when she forgot the sanctities of the home and of virtuous living, when she defied nature and the sane, normal human instincts and impulses, when she became a mass of greed and corruption, she was smashed! I think that God will wait and look on only a little while longer and then he will send his thunderbolt.—Cosmo Hamilton.

The State of Texas, To the Sheriff or any Constable of Wichita County—Greeting: You are hereby commanded to summon J. J. Mullins and the unknown heirs of J. J. Mullins by making publication of this Citation once in each week for eight successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Wichita County, to be holden at the Court House thereof, in Wichita Falls, on the first Monday in June, A. D. 1913, the same being the second day of June, A. D. 1913, then and there to answer a petition filed in said Court on the 5th day of April, A. D. 1913 in a suit, numbered on the docket of said Court No. 4561, wherein J. P. Lynch, Bishop of the Roman Catholic Church of the Dallas Diocese, State of Texas, and Trustee of the church of the Sacred Heart at Wichita Falls, Texas and the Roman Catholic Church of the Sacred Heart at Wichita Falls, Texas, are plaintiffs, and J. J. Mullins and the unknown heirs of J. J. Mullins are defendants, and said petition alleging that on or about the 11th day of December, 1907, plaintiff was and is now lawfully seized and possessed of the following described lands and premises, situated in the County of Wichita, State of Texas, holding and claiming the same in fee simple, to-wit:

Five acres of land out of the Simpson Holloway Survey, Patent No. 21, Vol. No. 26, Certificate No. 1045, situated about two miles west of Wichita Falls, in Wichita County, Texas, described by metes and bounds as follows: Beginning at a point 912.6 varas North and 1171.6 varas west of the Southeast corner of said Simpson-Holloway Survey; Thence South 237.6 varas; Thence West 181.8 varas; to a stake in the West line of said Simpson Holloway Survey; Thence North with its west line 237.6 varas a stake; Thence East 181.8 varas to the place of beginning. That on the day and year last aforesaid, to-wit December 11th 1907, plaintiff acquired said land by deed of conveyance from W. Hund by which he conveyed to E. J. Dunn for the benefit of the said Roman Catholic Church for a cemetery in the said County of Wichita and State of Texas, the said land. That said deed was immediately filed for record in the office of the County Clerk of Wichita County, Texas, to-wit: on the 1st day of February, 1908, and was on said date duly recorded in the Deed Records of Wichita County, Texas. That since said time, to-wit: the 11th day of December, 1907, the plaintiffs and Trustee beneficiary, claiming the same under said deed, duly registered, has had peaceable, continuous and adverse possession of said land and tenements hereinabove described, occupying, using and enjoying the same and paying all the taxes thereon for a period of more than 5 years, and claiming the same under said deed by limitation of five years.

Plaintiffs further claim through a deed from W. Hund, who also claims through deed from Theodore F. Reed, dated Feb. 14th, 1902 and by statute of limitations of ten years all the right, title and interest of said land against the defendants, which title he now asserts and alleges as his claim to recover the land sued for.

The defendant, J. J. Mullins and his unknown heirs are asserting some kind of right, title and interest in said land, which they claim through a deed from H. L. and J. S. Lennox, executed in favor of the said J. J. Mullins on Feb. 18th, 1887, the said J. J. Mullins claiming under deed from A. Schulte, dated August 3rd, 1886. That on the first day of April, 1913, the defendants unlawfully entered upon said premises and ejected plaintiff therefrom and set up an unlawful claim to said land and unlawfully withholds same from plaintiff's possession to his damage in the sum of Ten Dollars.

PARTNERS IN MORGAN FIRM WILL CARRY ON THE WORK OF THE DEAD MONEY KING

Thomas W. Lamont (top left), E. J. Stotesbury (bottom left) and Harry P. Davison.

New York, April 5.—The firm of J. P. Morgan & Co., has not suffered by the death of the great financier, who for so many years stood at its head. J. P. Morgan, Jr., and the other members of the firm give every promise of directing its affairs with the same success which has ever characterized its operations in the past.

Chief among the partners, after the younger Morgan, is Harry P. Davidson, a keen, hard surface business man, a student of economics and poltical development, a business man of the new type, thoroughly equipped to comprehend and handle the new problems which the growing socialization of industry in forcing on his firm.

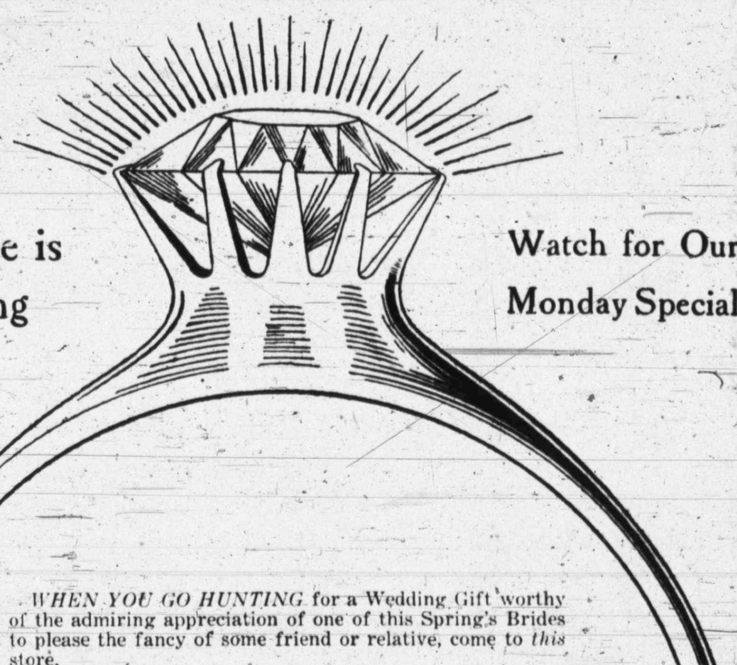

Before his affiliation with Morgan the elder in 1909 he had been actively associated with the First National Bank of this city for fifteen or twenty years. He was generally reckoned the ablest and most aggressive young banker in New York. He was the chief founder of the remarkable Bankers' Trust Company.

Thomas W. Lamont is a man in training and point of view not unlike Davidson. A Harvard man, he underwent a long service in newspaper work as reporter and editor, followed that up with a notable success in the wholesale business. He became secretary and treasurer of Davidson's Bankers' Trust Company, then vice-president of the First National and a Morgan partner.

E. T. Stotesbury is head of the Philadelphia branch of the house. He is a shrewd business man, with an experience of more than a quarter of a century with the firm.

Other working partners, operating in the New York office, are William H. Porter, a sound, energetic, practical banker, who directs much of the routine business of the office and has an extraordinary knowledge of securities and commercial paper; Charles Steele, director in many great business enterprises and a clear headed, cool business adviser; Temple Bowdoin, son of an early partner, who works out many details of the business, such as arrangements for its underwriting syndicates; and William P. Hamilton, son-in-law of the dead financier and great-grandson of Alexander Hamilton, handling the general management of the office.

The boiling lie softens unripe fruit, kills the natural fruit juice, gives it the appearance of being ripe, but is lacking in flavor. Don't accept fruit offered you "just as good as Hunt's. You pay just as much for inferior fruits.

MANY VISITORS AT GLOBE'S OPENING

Crowd Ran Far Above Thousand Mark Friday—A Splendid Display

Although not a new concern in Wichita Falls, the Globe Clothing Store, which formally opened to the public Friday afternoon and evening, has enlarged its business and broadened out in such a way as to make it seem like a considerably different concern. The new quarters, in the old postoffice building at Eighth and Ohio, afford much better opportunities than the old stand near the corner of Seventh.

The opening Friday was attended by a crowd which ran far above the thousand mark and which at times taxed the capacity of the store. The souvenirs of ash trays and knives were soon exhausted and the addresses of hundreds of visitors had to be taken so as to provide them with souvenirs later. Lady visitors were given carnations. While the opening was in progress, music was dispensed.

The store's greatest charm lies in the opportunity for display which it affords, and this, both in the windows and show cases, is taken advantage of by Kleinman Brothers in a most attractive way. Every article of clothing is displayed neatly and without crowding, although no space is wasted. All furnishings are neat and tasty and there is a general air of freshness about the place that is pleasing.

Crowds thronged the store throughout the opening hours on Friday and while no goods were on sale, the display won sufficient favor to bring the Globe much business in its new home.

Mrs. W. M. Langford, 309 Lee St., Wichita Falls, Texas, says: "I have used Doan's Kidney Pills for several years and I am glad to join others in recommending them, as they did such fine work. There were times when my back was so painful that I could not sleep. I had pains in my sides and when I got up in the morning, I was more tired than when I went to bed. My kidneys were weak. Doan's Kidney Pills promptly relieved all the pains and strengthened my kidneys. Since then I have taken a box of Doan's Kidney Pills occasionally and they have kept my kidneys in good working order."

TRAFFIC EXPERT TALKS TO MERCHANTS

R. O. McCormick Says Smaller Concerns Receive Advantages from Association

R. O. McCormack, secretary of the Fort Worth Chamber of Commerce and head of the traffic bureau of Fort Worth, addressed a number of merchants and business men Friday night at the Chamber of Commerce rooms, on the line of traffic organization. Mr. McCormack spoke interestingly and convincingly and was heard with close attention.

Mr. McCormack's address dealt with the benefits to be derived from properly managed traffic organizations, and he cited many instances where the Fort Worth organization had been of direct financial benefit to its members. While the smaller concerns, he pointed out, were not often so directly benefitted, they received many indirect advantages.

Traffic bureau work, explained Mr. McCormack, is not confined to such matters as over-charges, errors in billing, and the like, but to securing new rates where the ones being applied are not considered equitable, and this constitutes an important feature of the organization's business. Mr. McCormack attends every session of the state commission and probably keeps better in touch with rate matters than any other man outside of railroad offices, in the State. He returned to Fort Worth Friday night.

DEVELOPING AND FINISHING DONE

CLEOPATRA
is said to have been about the swellest damsel who ever worried the milliners of her city. She wore large rings in her ears and had a complexion like a new saddle. She never met a hobble skirt and if she sholud sweep down Eighth street this afternoon she would be looked upon as what the Ladies Home Journal would call a lumpy dresser. Our old friend Cleo was rather shy on happy raiment but gold and silver, well she had some because she took money off of every farmer in the Nile Valley whether he belonged to the union or not and in the matter of real shiners seventeen of the best pawn shops in the business could not have covered her sparklers with a twenty per cent margin if they had rediscounted every ticket in the house and soaked everything they had but their shoes. She spent more money for beads than Mary Garden spends for clothes, but there was one thing that Cleo could not buy because the ALTA VISTA PURE ICE CREAM man had not yet happened. Don't forget when you are regarding yourself with good old ALTA VISTA PURE ICE CREAM that Cleopatra, Queen of Egypt, who had gold and diamonds enough to load a two-ton truck, could not buy a dimes worth of it.

Believed Worst Over at Paducah.

Paducah, Ky., April 5.—Paducah waited in the wet tonight for morning confidently expecting that daylight will see the worst over and the crest of the Ohio flood passing. The river tonight was a fraction of a foot under the record of 1884. Preparations are under way for repair of the damage done by water and gangs of men are ready to begin house-cleaning as soon as the wate rrecedes.

PITCHED HIS TENT ON RIGHT OF WAY ON INTERURBAN.

Ennis, Texas, April 5.—By pitching his tent on the right of way L. B. South, a laborer yesterday stopped track laying on the interurban route half a mile south of Garrett. South claimed a sub-contractor owed him $800; he was fined in justice court here today for using abusive language.

TAG DAY PROCEEDS AMOUNT TO $375

Results of Campaign to Raise Money For the Cemetery Fund

Approximately $375 was secured for the cemetery fund yesterday through the sales of tags by members of the Civic League, the occasion being the annual "tag day." Although fewer than the usual number of ladies was at work, the results were very pleasing and there were comparatively few male individuals walking the streets by 2 o'clock yesterday afternoon who did not have the yellow tags on their coats.

The tags sold at prices ranging from 25 cents up to $15, one bringing the latter price. A number were sold for $5 and not all the buyers thought that a quarter was enough.

Among the ladies who sold tags were Mesdames M. M. Adlickes, A. D. Anderson, T. S. Ford, McNeil, T. R. Boger, Jesse Dolman, Fauntleroy, W. M. Coleman, Wade Walker, J. A. Kemp, H. O. Cravens.

Don't Sacrifice Quality for Quantity
There is no economy in buying cheap Groceries. Every housewife knows this, or ought to know it, and a careful comparison will prove it. Our business has been builded upon the plan of handling only the very best grades of goods—giving the very best values, but never sacrificing for quantity or price.
We take pride in the knowledge that not a single customer has ever gone out of our store dissatisfied. Our prices are low—when the quality is considered, and a dollar spent with us buys a full dollars worth of groceries—no matter who buys them.

The D. A. R. Musicale given at the College of Music and Art Thursday evening was a social and artistic triumph. The crowd present was not so large as might have been expected at an affair of this kind and one given for so worthy a cause, but the half hundred or more present enjoyed a program such as could be rendered by local talent, in few towns of this size.

The first number a Norwegian Bridal Chorus by Grieg, played by Mrs. A. B. Huff was greeted with enthusiastic applause. Mrs. Wade Walker's beautiful voice was heard to excellent advantage in the Meditation from T...is. Miss Mabelle Jackson, whose talent as a reader is already greatly appreciated by her friends, gave a dramatic number, "The Leper" in an admirable manner and responded to an encore with a dialect reading entitled "Higher Culchuh." Mrs. Boone's selection, "Romeo and Juliette," a waltz song by Gounod, was song in her usual finished manner being excellently suited to her voice. Miss Ritchie's full rich voice delighted her hearers in Donizette's "O, Mio Fernando" and Mr. Bradley's number was most pleasing. Dr. McKee made an interesting talk setting forth the objects of the Daughters of the American Revolution. Mrs. McKee's piano solo Schubert's "Impromptu" was enjoyed as this artist's numbers always are. The sweet toned Weber grand piano on which she played seeming to responded to her touch with an almost human intelligence.

Store Talk

WE are quite pleased to say to our newly made friends that the first four days with us have proven very satisfactory. The business has been all we could wish for or hope to do, which fact demonstrates to us that our merchandise pleases and our efforts are appreciated. Our store is not yet up to the high standard to which we will soon make it, as we are greatly handicapped on account of so much of our merchandise not having arrived, and while we do not apologize for a thing for which we can not help, we do ask our friends and patrons to take into consideration these facts.

¶ We are now displaying a most excellent showing of Millinery in such a wide range of styles and new colorings that a call means a treat in this department.

¶ In the Ready-to-Wear section you will find so much to interest you that we are at a loss to undertake a detailed outline of what we really have.

¶ Our goods are marked with plain figures and are one price to all. We guarantee what we sell to be what it is represented and worth the money paid for same.

¶ We invite you to see our new store.

MUSICAL VALUES

Mrs. H. G. Carpenter.

The value of a musical education was recognized by Aristotle centuries ago and such excellent reasons were given by him for its adoption as a branch of public education that the measures he advocated were taken up. The oldest bachelor's degree of which we have any knowledge included music as a required subject. But at the present time in our own country music is regarded largely as an accomplishment for the few, a pleasant sort of luxury, a training for the boy or girl with a "musical ear." We forget that Lowell Mason, when he organized the Boston Academy of Music in 1832 and trained the men and boy's choir that produced such a prodigious sensation and did so much in a cultural way for the young men and boys under his charge, exploded the old idea that only those children with a musical ear should pursue the study of music. Shall we excuse the boy or girl with "no head for figgers" from the study of arithmetic? On the other hand, the child with no mathematical ability or no ear for music stands in greater need of the development that a study of arithmetic or music gives than the talented one, since he is lacking in the qualities of mind that will be necessary for a well rounded character. If there were no other values in the study of music than the cultural value it gives, which is a small but necessary part, the student would be well repaid.

The proper study of music trains the body, the voice, the ear; develops perception, memory, imagination, reason, judgment; forms habits of attention, concentration and order; and gives the power of instantaneous decision and control.

In nearly every instance the pupil at school who studies music seriously requires a shorter time for the preparation of lessons, owing to powers of concentration that are greater. At the same time, a greater interest is taken in the study of English and literature, since literature and music are twin sisters and in no case should they be separated. The average man will readily state the difference between a poem and a drama, but stands aghast when asked to state the difference between a rondo and a symphony. And yet the creation of a symphony is as great an achievement, requiring even more ability, originality and teachnical skill, than the writing of a drama or an epic, and is of as much historical interest to the race. We are prone to smile at the man whose knowledge of literature extends no further than the rhymes of Mother Goose but consider it perfectly natural that he should enjoy hearing the light popular music, which is nothing more than musical Mother Goose jingles, fit only for babes.

In a commercial age, like the present one, an age of graft and greed, the pendulum swings far from the study of those subjects whose commercial assets are not at once recognizable. Refined taste and esthetic appreciation are not vendable commodities, it is true; but in the development of these qualities by a study of music, certain faculties of the mind are awakened that lead to success in the business world as well, and the student is twice blessed.

America is very much behind in its recognition of a musical education for its general values. In the centers of civilization of the Old World thousands of cutlivated men and women, leaders in society, in political, military and financial circles regard the study of music as a vital, indispensable factor in life and a very necessary element in education. A musical training for the rough boy gives an outlet for his pent up energies and the pounding of the piano lessens his desire to pound another boy's head. Statistics show that students of good music do not find their way to the jails. It has been found in some instances that the boy whose soul was filled with music, but who was deprived of a musical education, has, owing to an unsatisfied craving of the soul, plunged into vice and fiddles a few tunes by the ear in some gambling den. Parents who feel a horror lest Johnny become a musician should find comfort in the thought that Johnny may be saved from a worse fate by a study of music.

A man wholly devoid of musical intelligence must feel himself an alien in cultivated society, for music has come to stay and should be regarded as an every day necessity; a training for the mind as essential as the study of mathematics or Latin. The bored and inane expression on the faces of the average male audience at a musical is a stronger argument for the study of music than any given here.

In brief, a musical education for the boy as well as the girl is essential as a part of true culture, a source of real pleasure, lasting pleasure (of which there is little enough in life) and as an element of fitness to mingle as an equal with refined and broadly educated people. In addition to this, music in itself is a wonderful restorer of jaded energies; a solace; a refreshment; a satisfying of the hunger for the beautiful; the only art which we carry with us to heaven; in fact, it is one of the nearest approaches to heaven. Why not cultivate it?

MRS. GEO. H. CARPENTER.

REVENUE IS INCREASED

About $1500 Added to Amount Pledged For Support of Organization

More than 100 members, with an increase of about $1500 in the annual revenue, were secured Friday afternoon for the Chamber of Commerce in the brief but vigorous membership campaign that was waged. The forces were under the general chairmanship of B. J. Bean, who saw that everything went off smoothly.

TO AWARD CONTRACTS FOR NEW RESIDENCES.

Contracts for five handsome new residences will be awarded within the next few days, in addition to some new business buildings. Among those soon to erect new homes are J. C. Mytinger, Mark Walker, Frank Griffin, Monte Staniforth and Frank Cullinan. Plans for all of these were prepared by Jones and Orlopp.

Announcement of plans for two more business buildings will probably be made this week and in spite of the marked activity along this line in the past five or six months, it appears that no abtement is in sight.

WINDOW GLASS WORKERS HAVE ORGANIZED BALL TEAM

The workers at the window glass factory are now organizing a baseball team and will soon be ready to meet any and all comers. They are anxious to match a game with the Drillers and it is probable that they will be accommodated.

On account of the different shifts at the factory, it is difficult to get all the players together for practice but a fast nine is being lined up. Charley Martin is the manager and those wanting games may communicate with him.

NEWS LETTER FROM LONDON

CONCERTED MOVEMENT STARTED FOR APPEAL OF LAWS AGAINST BLASPHEMY

TITANIC DAMRGE SUITS

Amounts Claimed Less Than In Similar Suits In America—Other News

By Associated Press.

London, April 2.—While the militant London, April 5.—While the militant erty, have received the lion's share of publicity since the question of votes for women became a really live one in England, some very effective work has been done by those women who, adopting the quieter methods of their American sisters, are endeavoring to get the vote by constitutional means.

The work of the latter, in the minds of many of the politicians of the country, is far more likely to lead to success than the more strenuous efforts of the militants. The argument is advanced that the militants, by their methods, have estranged many men supporters, and especially since their resort to arson and their attacks on the parks, they have undoubtedly aroused certain elements of the population to make counter demonstrations, with the result that a suffrage meeting is now seldom held in peace.

Quieter Methods.

The women who are making the suffrage fight in the usual way, by attempting to convict their opponents by press and platform arguments, have banded themselves together under the name of the Women's National Suffrage Societies, and are carrying on a campaign throughout the country. They have been holding meetings at the universities, in the hope of making friends of the younger men of the country; they have had demonstrations in most of the large cities, and whenever an opportunity offered, they have taken part in bye-elections.

One of these opportunities came in the election at Houghton-le-Spring. The constitutency has for years been represented by a liberal, and the last majority was so large that unless a third party intervened, the Unionist would have had no chance of election. Even though the Unionist was opposed to them, the women decided to support him in preference to the Liberal, as their policy has been to "keep the government candidate out." At Houghton, however, they found in Alderman House, a third candidate nominated by the Labor party, a man whom they could support with their heart and soul, for not only Mr. House but his party is pledged to give votes for women equally with men.

Mrs Henry Fawcett one of the first women in England seriously to take up the suffrage question, is the head of the non-militant organization, and with her lieutenants she carried on quiet propaganda work in the Houghton constituency which, if it did no great good this time, she hopes will help materially in the future. The Union has raised a big fighting fund, and each election will and the members on the field to support those who favor their cause. If they have not got a friend among the candidates, they will at least endeavor to keep out the supporter of the government which refuses them the franchise.

Anti-Suffragists Not Idle.

The anti-suffragists also are by no means idle, and their campaign, which has had the aid of such men as Lords Curzon and Cromer and a great many men and women of ability and influence, goes steadily along.

In the meantime the matter of most immediate necessity is to find some means of dealing with the law-breaking militants. They are usually caught, convicted and sent to jail, but as they immediately start the hunger strike and are released, the campaign of destruction is not restrained. The press and public blame Reginald McKenna, the Home Secretary, who should, they say, insist upon the sentences imposed being served. Thousands of letters have been whitten to the authorities, making suggestions of how the militants should be dealt with.

Civilization No Help to Her Race Says Dainty Squaw in U. S Fmploy

Denver, Colo., April 4.—In the employ of the Indian service of the United States government, in this city, is a full-blooded Oneida Indian girl, Leila Somers, who attends to the stenographic work of the department.

Dainty and petite of form, with exquisitely shaped hands and feet, dressed in clothing adopted by her paleface sisters selected with good taste, there is but little, if any outward signs to cause one to suspect that she is the daughter of a squaw.

"But I am not ashamed of my people," says this pretty Indian maiden, "and I wish I had been born in the olden times when the prairie presented an uninterrupted sweep and the free tribes traveled from one camping ground to another. That was a life worth living. I hate the shut-in places. I was born some years too late."

Miss Leila Somers does not wish to forget for a moment that her father, Wah-ta-nis in the tongue of his tribe, was an Indian. Although at the age of seven she left her father's wigwam in Wisconsin to attend the Haskell Institute in Lawrence, Kan., she remembers every syllable of the Oneida language.

She is not particularly proud of the fact that she speaks the English language well, in a low and musical voice, with just a hint of accent. She loves her race, its traditions, its former history, its mode of life—with a deep passion that is almost fetish.

"I do not think the government carries the education of the Indian to as high a point as it might," says Miss Somers, "at the institute we finish only the eighth grade. I wish they would establish a high school course and let us pay for our own books. I love to study and I am going to save my money and go through high school, if I can, and possibly college. I am paying my sister's way through a high school now. Tht negro is given greater educational privileges than the American Indian.

"No; I don't know so very much about woman suffrage, or equal rights; but I do know that the first laws of human nature is for the braves of our tribes to protect their wigwams, their squaws and their papooses. Equal rights, such as the paleface women advocate, would rob the women of the privilege of admiring their husband or lover. If man is not lord of his household or his wigwam, he has nothing to be proud of. Equal suffrage makes of him a squawman.

"I think the women of the world should be educated, but it would seem to me that the politics might be bettered through the suggestions of the women—touching the finer and higher sense of honor and morality of the men—than by seeing the women go into politics as a profession."

Leila Somers.

Aphorisms of An Indian Lass.

Civilization lessens human endurance.

Deceit and trickery is taught the Indian by the paleface.

Higher education is withheld from the Indian, while the negro is given all the educational privileges that a white man has.

The first law of human nature is for the braves to protect their wigwams, their squaws and their papooses. Equal rights, such as the paleface women advocate, would rob the women of the privilege of admiring their husband or lover. If man is not lord of his household, or his wigwam, he is nothing to be proud of.

Equal suffrage makes of ihm a squawman.

Miss Somers has a marked gift for music and not only plays well, but composes music—in fact, her improvisations are so marvelous that professional musicians have expressed a regret that she did not begin earlier in life, predicting a brilliant musical career for her, had she been trained when a child in the rudiments of music.

"My mother, who still resides on the Oneida reservation in Wisconsin, is not an educated woman, but she has a greater insight and higher ideals than many white people," she said.

Miss Somers does not believe that the civilization of the paleface has benefited her race. A lack of endurance has come in civilization's wake, she says, as well as deceit and trickery.

IDA TARBELL ON WAGES AND VIRTUE

Lack of Modesty and Purity of Heart in Women Real Cause of Immorality

After all the arguments have been advanced that can be advanced to prove that upon man should be placed the blame when women sacrifice their virtue, the plain fact remains that, except where violence is employed, the issue depends finally on the consent of the woman.

Whatever may have been true in remote ages, whatever may be true today in uncivilized countries the relative positions of the sexes in this country at this time are that the average man is sexually indifferent to any woman until she has done something to attract his notice and stimulate his emotions—that at the start the average woman pursues the man, says Ida M. Tarbell in the New York World.

I do not mean to imply that a woman deliberately sets out to capture a man with a view to establishing any irregular relationship with him. What I mean is that many unthinking women will, whenever occasion offers, use their sex consciously or unconsciously for the purpose of gaining influence over men, and that once they fall under a strong temptation to force its exercise further and further for the gratification of their wishes, whether these lie in the direction of flattery, gifts or matrimony.

Women are rarely honest with themselves about their attitude toward men. I suppose that if a woman were to go to anyone of the thousand girls that may be seen on Fifth avenue on a fine afternoon dressed in the present alluring and suggestive fashion, their cheeks and lips painted, every trick and device employed which is likely to attract the attention of the passerby, and chief object in dressing and adorning herself in that fashion was to excite the emotions of the men, she would profess and often feel the greatest astonishment and indignation.

But if the matter is faced frankly, traced back to its causeand forward to its issue, it is, missing out some of the intervening steps, precisely a manhunt, disguised if you will by silks and satins, by lingerie and lace, by the conventions of society, but none the less a manhunt. Talk with these girls and women and they will deny it indignantly. They are simply dressing according to the fashion. It is at this point that most of them refuse to give the matter another moment's thought, decline absolutely to carry the idea of fashion to the logical conclusion.

As the women of this class have plenty of money, obtained from husbands, fathers, brothers or other relatives it is not necessary to read into their man chase any motives less worthy than matrimony. But carry this man chase into a class where the girls, instead of being able to gratify all their whims of dress and ornament at the expense of their male relatives, are supporting themselves by their own work and are just able by severe economy, to provide themselves with food, shelter and clothing on a very modest scale and the changed conditions introduce some new and very important factors into the situation.

The question is now no longer merely one of getting a husband; it is one of getting everything which makes the difference between a lonely, dull and laborious life and a life of companionship, amusement and ease. So far from being surprised that with this choice before them a number of girls purchase the brighter lot to the expense of their virtue, I am astonished that greater numbers do not do so.

In regard to the specific point which is being so widely discussed today of the relation between wages and virtue it seems to me that it is a foolish as well as an unjust thing to try and make it appear that the precise economic condition of a girl fixes in any considerable number of cases the state of her morality.

Two considerations make such a hypothesis untenable. One is that there is no class of people in any civilized country in which the morality of the women is hgiher than it is in the very poorest classes; the other is that there is a good deal of evidence to show that there is at least as large a proportion of unmoral women among the moderately well to do, the wel lto do and the rich as there is among those who are just able ot make a decent living.

MAN STRUCK BY AN AUTOMOBILE

Charles Folks, a carpenter, sustained a broken collar bone and other injuries early yesterday afternoon when an automobile driven by J. McGehee of Electra, struck him. The accident took place on Eighth street near the Kemp and Kell building. Folks was removed to Dr. Mark Moore's office and his wounds dressed, after which he was taken to his home.

The automobile was not going fast at the time of the accident and Folks was not inclined to blame the driver, saying that the accident was unavoidable; a passing vehicle prevented his seeing the car until he was directly in front of it. Eugene Baker of the McGratton-Millsaps Company and Ab Collins helped to pick Folks up after the machine had knocked him down. Folks came here recently from Slaton, Texas.

The driver of the car did not alight after the accident, but later called on Folks at the latter's hotel and saw that he was provided for.

RUMOR CONCERNING RINGLING ROAD

Reported Wichita Valley Will Be Part of Cut-Off From San Angelo to Ardmore

An Ardmore dispatch in the St. Louis Globe-Democrat says it has practically decided to build the Ringling road into Byers, Texas.

It is believed by some that the Ringling road is a Santa Fe project and that it is the plan for the Santa Fe to take over the Wichita Valley and the Wichita Falls & Southern and make them links in a cut-off from San Angelo to Ardmore.

Ringling road surveyors were in Byers about ten days ago.

Red, Yellow and Purple Harmonies in Spring Dresses

New York, April 5.—Whether or not the new movement in art will have any direct bearing on color combinations, it is too early to predict. But certain it is that the blendings of colors in the paintings of both Futurist and Post-impressionist are food for the artistic mind. A combination a year or so ago of bright yellow, red and purple would have occasioned a revulsion of feeling and an avalanche of criticism. The colorings would have seemed a hodgepodge. Now yellow has become one of our most fashionable shades, not only for evening, but for afternoon wear. To tone down this vivid color color impression, purple and red has been adopted as a soothing relief, until those who have familiarized themselves with the palette of the present school appreciate the use to which tde designers may turn the gaily colored stuffs in silk and wool.

Already it is evident that tones are no longer somber. The old staple blacks and whites have been relegated to a place in the past, nor are shades, either pastel or half tones, now considered in first fashion, although women of conservative taste will adhere to them and consider the new colors ostentatious and impossible. Yellows, blues, greens, purples, and reds in vivid tones are now worn without any fear of criticism and will be among the fashionable colors of the coming season. A compromise is made by choosing a gown of pale tint and touching it with a glint of vivid color at waist or throat. Such a gown is illustrated in the first figure. It was developed in light gray messaline with girdel of Bulgarian silk wound about the waist, knotted loosely and terminated in two ends falling midway to the knee. The vest front is of Milan lace. The skirt is fashionably caught up in two deep tucks across the front which unconned at the sides, forfim the folds of drapery.

One piece frocks, notwithstanding the advent of spring and the fact that summer dresses are in the making, have lost none of their popularity. This is not surprising when it is remembered that no matter how simple tehy may be they present a finished costume effect. The openings at the fashionable shops have covered the whole range of advance summer modes. That the season's garments are to be characterized by style and beauty is proved by the features introduced the fabrics cohsen and the grace of line and curve. b

General lines will undergo no radical change. Waists in blouse effect back and front having peplums, lon, or elbow length sleeves, either close fitting or on loose lines and coming from dropped or regulation shoulder seams, skirts narrow at the hem and broadening toward the hips with folds of drapery in the skirt proper or cleverly inserted in an overdrop, are the features which dominate spring fashions. The sash as we know it now, was introduced first in the mid-winter season. To be sure, these charming accessories, in one style or another, never go quite out, but the sash of today is unique among its kind. It is made of bright colored ribbon or soft messaline either in stripes, moire or Bulgarian coloring. Sashes, too, in the new shades of Nell rose, flame, brilliant green, purple and French blue are worn with afternoon and evening gowns. Many of them are brought high on the corsage, others are suspended low over the hips. The sash is also a strong fashion note in the tailored suit, and is distinctly novel when tied in front. Sometimes it has long ends appearing in quite distracting fashion in the center front from under a vested and cutaway coat.

The long Russian blouse of the winter will be replaced by one of much shorter length fashioned on loosely-fitted lines. This coat is particularly well suited to slender figures, and when worn with a broad sash of any fancied shade of ribbon, is as girlish and pleasing as it is possible to conceive. For wear with these indifferently fitted jacets, skirts elaborately draped are much in favor. Walking is made possible by the skilful introduction of slashes and inserts. Notwithstanding the fact that the finger of disapproval has been repeatedly pointed in their direction, slashed effects lead the fashion for afternoon and evening wear. The influence of this style on shoes and stockings is at once evident. Owing to the exposure of the feet and the prominence given to the shoes, only the daintiest dressing may be tolerated.

The materials used for frocks will continue to be soft. Crepes, both of fancy and plain weave, are very popular. The attractive gown of the second illustration was developed in gray crepe de chine with front, collar and belt of similar material in white. Bodice and sleeves are fashioned in one. The three piece skirt has tunic of gray bordered crepe, smartly draped and caught toward the center back. The pointed train is a feature of the latest spring models. To accommodate the ample folds and soft material of prevailing afternoon and evening dress models, a wrap on loose lines is essential. A new style, known as the mantle wrap is very attractive. To all outward appearance it has neither cut nor line, but great folds of material caught high in the center back by a buckle and falling over the shoulders in layers merely suggestive of sleeves.

INVESTIGATION CLEARS U. S. SENATOR

By Associated Press.

Washington, D. C., April 5.—United States Attorney Wilson, who has been investigating certain allegations of impropriety against a senator today made this statement:

"I have heard the statement of the complaining witness and her friends whom she brought to this office. I find no justification whatever for laying any complaint against any United States senator before the grand jury." It was alleged that the senator in question had made improper advances to the iwfe of a politician of his state, who called in relation to appointments and later when the senator visited her at a hotel. Almost at the same time that statement was being made, Jim R. Jacobs of Oklahoma was presenting to the secretary of the Senate a written statement addressed to the president of the Senate containing a set of allegations similar to those investigated by the United States attorney. Vice President Marshall received the allegations which covered three typewritten pages.
