

## CHAMBER OF COMMERCE PUTTING OUT LITERATURE

Thousands of Well Illustrated Folders Printed on Good Coated Stock Now Ready For Distribution. Good, Well Written Description of Terry County Products.

The job department of the Herald has just completed a job of several thousand folders for the Chamber of Commerce, which are well illustrated and printed on a nice coated stock of paper. They are now ready for mailing, and if you wish to help put old Terry to the front, call on Mr. Shelton for some of them to be sent to relatives and friends that you know in the east. They are just what you have been looking for, perhaps.

These folders give a brief but accurate description, and a brief history of the county. For instance, there is a good description of the location of Terry county and Brownfield, together with the topography. In this it tells you that the surface of the county is a gently rolling country, with no hills, mountains, brakes or streams. Then there is a good description of our many and varied soils, which range from a hard mesquite land to our deepest sandy soils, and tell you what kind of grass grows best on each soil, as well as the crop. All descriptions are conservative, and will lead no one to expect something he does not find when he gets here. In fact the little booklet or folder stays well in the bounds of our old motto, "The truth about Terry is good enough."

From that the narrative goes on the climate and water, the former which is so agreeable most of the year, and the latter of which is found in such abundance and so pure. Water is never a serious question here, for the wells are never failing even in the severest droughts. The livestock production, poultry, etc., are next treated. We have very few of the diseases among stock to be found further east. No hog cholera, no ticks on cattle, or scabbies on sheep. The high, generally dry climate here accounts in a great measure for livestock being so free of disease. A brief review is then given of land values. Also, a short outline is given

of the fast growth of this section, for less than 300 people lived in the county was organized in 1904, whereas the 1930 Federal census gave us nearly 9000 souls. The schools are then given a brief description. For instance, it shows that some \$150,000 is invested in school buildings in Brownfield, with 23 teachers employed. That there are 12 independent school districts in the county, some with nice brick buildings, such as Meadow, Gomez, Union, Johnson, Wellman and others. Then the churches are taken up. All the protestant denominations with large memberships are represented here that are usually found in small southern cities, such as Baptist, Methodist, Presbyterian, Christian and Church of Christ.

The highways are well treated in this folder. It is an easy matter to get from Terry county to any point of the compass, as we have numerous highways leading in all directions. As to transportation, we are supplied with numerous bus and truck lines, and with a branch of the Santa Fe railway, leading from Seagraves to Lubbock, and have an excellent chance of the T. & P. Northern to be built through here from Big Spring to Vega, Lubbock and Amarillo. The folder shows we are supplied with all utilities, including natural gas. Description closes with the county's production for the year 1929, which was as follows:

Cotton	\$1,800,000
Corn	600,000
Other grains	300,000
Hogs	350,000
Cream, Eggs, Poultry	250,000
Total	3,200,000

The folder closes with the testimonials of a number of our best farmers, and a short list of our greatest needs, such as a Cottonseed Oil Mill, Creamery, etc.

## A. B. Sanders of Ralls To Head Our Schools

At a meeting of the local school board one night last week Prof. A. B. Sanders, of Ralls, was elected Supt. of our schools, and will assume his duties here as soon as the school term is over at Ralls, we understand. Prof. Sanders, we understand has made a fine record in the Ralls schools and comes to Brownfield very highly recommended by Ralls people and the school board of that city.

The schools of Brownfield under the leadership of Prof. W. B. Toone for the past three years have made rapid progress. During that time it has progressed from an unaffiliated to a fully affiliated school, and has many credits to spare. We will likely get some credits for work this year, also. Prof. Toone is a gentleman in every sense of the word, and a fine educator, and should he not decide to make this his home, the respect and good wishes of the people of Brownfield will go with him and his good wife wherever they may go. He leaves the schools here in splendid shape for his successor to go forward.

The Herald takes this means of welcoming Prof. Sanders and family to our city and to our schools.

## County Court Was in Session Last Week

County Court was in session most all of last week, and from what we could gather with our visits over at the courthouse it was a busy week at that. This was the first court to be held under Judge Barret, and it is said that he ruled the court like a veteran. There may be men who know more law than Jay Barret ruling the county courts of our state, but there is none who will be fairer, or led less by prejudice than he.

Some very important cases that took all day or about all day were heard, and several juries were used in trying these cases. We understand that about all the business coming before the court was disposed of last week.

In conversation with Mrs. J. E. Moore, assistant to Judge Barret, the First National Bank was again chosen by the Court as the county depository. No interest on daily deposits will be paid.

Trade at home and help yourself.

## Brownfield Takes 3 Games From Meadow

Tuesday night was a great basketball night here, and Brownfield and Meadow had it all to themselves, as far as players were concerned. All were good, interesting games, and a fair sized crowd saw them.

The first game was between the first girl's team of both places and was very evenly matched. Both teams were good on passing, but the Brownfield bunch seem to have had it over them just a bit in maneuvers. Several of the Meadow scores were made as penalties against the local team for tackling. The final score was 17 to 15 in favor of Brownfield.

The second game was between married women of both cities, and if you think the sisters who are supposed to keep the home fires burning can't play basketball, but would be out of breath in the first quarter of the heat, you are nutty. Boy they got around like a bunch of kittens, but the Brownfield ladies got and held the edge on the visitors throughout, although the visitors rallied quite a bit in the final round. The score was 16 to 8.

The writer did not stay for the game between the junior girls of both places, but understand it was an interesting game with the victory going to the locals.

## Gas Service to Seminole By April 1.

Representatives of the Seminole Chamber of Commerce called upon Mr. Hinchey, vice-president of the West Texas Gas Company at his office in Lubbock the first of this week. The object of this visit was to find out when this company expected to complete their line into Seminole.

It was stated by those in authority that pipe for their line from Seagraves to Seminole would be shipped out from the factory within the next ten days, and upon its arrival work of ditching and laying this would be started immediately. The Seminole representatives were assured that this service would be here for use by April 1.—Seminole Sentinel.

Canadian—During period from Jan. 1 to Dec. 1, 1930, total of 450 cars hogs valued at approximately \$730,000, were shipped from this town on Santa Fe Railway.

## Lion or Lamb

## Fire Rating Board Gives Us Reduction

Fire Marshall E. Brown, of this city received a wire this week from the Fire Rating Board at Austin granting the city of Brownfield a 15 percent insurance rate reduction for a good fire record for the past year. This reduction will go into effect March 1st. Possibly the acquisition of new fire fighting machinery by the city council in the way of another engine and force pump was partly responsible for the reduction.

Brownfield should feel proud of its fire boys, for they have worked hard, and for the past several years this city has been getting insurance rate reduction because of the good fire record here. We received one last year, but because of the bad record in other sections of the state, we got no real reduction, as this record at other points were put on the whole state, and really raised our rates some despite the fact that we would have received a reduction had not a bad record for the state as a whole shown up. Give the fire boys credit where credit belongs.

## Lamesa Girls a Bit Too Fast For Cubines

The Tornado Queens from Lamesa came up last Friday night to play our Cubines in a matched game, but as the game had not been very well advertised, the crowd was slim, but enthusiastic, especially the fans from Lamesa. Somehow it looked like the Brownfield girls could never get started until too late to win, but they are players, and contested heroically for the game from beginning to end. The writer having seen so few games was not able to keep up with it very well, but the final period ended in the defeat of our girls 12 to 22.

It seemed that the great trouble with our girls at first was to get a ball through that little string basket which has an iron hoop at the top. That darn iron hoop would seem to knock their balls in the opposite direction every time, but would bounce it right in there for the Lamesa girls. If any of them ever missed that basket it was while we were not looking. At first, also, they seemed to have the best knack in the world of keeping the ball away from our girls, but they soon learned to head it off, and the final wind up of the game found the Cubines in every way the match of the Queens.

We believe that if they will come back again some time, they'll be the worst beat lot of queens that ever rode out from Lamesa. And another thing, those Lamesa guys a bakers dozen of them, can make more noise than a hundred Brownfieldites. How come? Boy, next time we have a game, bring along your mint drops and yell better. You didn't encourage our girls any too much. Get us?

Little John: "Father," said a newspaper man's son, "I know why editors call themselves 'we'."  
Big John: "Why?"  
Little John: "So the man that doesn't like the article will think there are too many for him to lick."  
—New State Education.

## Our Weekend Weather Just About Same

Up till Monday, we had about decided to leave the usual weather report in the paper without change, except to say that the rainfall for the week end was about normal, but Monday, we decided to "throw in" last week's report. You don't know what "throw in" means, do you? Just means to dump the type you had up last week. Friday night and Saturday gave us our usual week-end rainfall, with a sprinkle and norther Saturday night. Sunday was very undecided with some leaning toward the "worse"—but.

Monday was the day of all days, and if New England has anything on the variety of weather on display here Monday, we wish they would trot it out. We had the old pickle man beat to a frazzle as 57 varieties wouldn't start us Monday. However, for the benefit of our "furren" readers, will give just a few of the select varieties. It woke us up raining sometime before day. By 9 A. M. it was snowing to beat the heck. Then it sleeted some and rained some until about noon when it broke into snow again, and came down like fury until mid-afternoon, when it rained again.

## New Air Route From Amarillo to Big Spring

Amarillo is a great airport on our north, and Big Spring the nearest place, 100 miles to our south, where the big air mail and passenger transport land and pick up mail and passengers. A move is now on foot to get a route from Amarillo to Big Spring via Lubbock, where air mail will be picked up each day. A meeting for this purpose is called for Lubbock the 10th of next month, and they are very desirous that a delegation from here attend, and present as much information as possible as to the air mail poundage that originates here.

If the line is granted, air mail will be picked up at Lubbock each morning at 6:30 and at 3 P. M. for Amarillo, and 8:30 P. M. for Big Spring. If we understand the schedule, if a letter for the air mail is mailed here say this afternoon, it will reach Los Angeles the next day, Chicago early morning of the 2nd day, and New York the afternoon of the second day. It will reach many southern cities like Birmingham and Atlanta the next day after being mailed here, or the same day it leaves Lubbock.

NO?  
One-legged Beggar—"Madam, I have lost my leg."  
Household—"Well, I ain't got it!"

## HUNDREDS HERE THRILLED OVER THE SHORT COURSE

All Callings and Professions Unanimously Agreed That the Short Course Worth Much to Individuals and the County as a Whole. Would Pay Admission.

The people of this county, both on the farms and in the towns got the thrills of their lives this week attending the IHC Short Course here Monday and Tuesday, and despite the fact that Monday was a day of weather inconstancies, and Tuesday was muddy and slick, the huge auditorium of the high school building was inadequate to care for the big crowds that came to hear what three of the best farm and home lecturers of the country had to say, to watch the moving pictures of home building and the many charts drawn to illustrate more clearly what the speakers wished to drive home with their hearers. More seats had to be moved into the building to accommodate the crowds, as both the ground floor and balconies were crowded.

The programs as outlined in the last issue of the Herald was carried out rather close, and there is no use for much repetition of what it consisted of, for unless one were present, they missed much of the good things intended for them. In fact no one could possibly derive any appreciable percent of the good who did not attend. But as stated above, the building was crowded at each session, except Monday night, when weather conditions prohibited a large attendance from those who lived any distance from town. The Herald, however, has reserved for future use several of these lectures in rather brief form, which will be used in these columns of from time to time for the benefit of our readers who were deprived of attending for any cause, beginning with the next issue. Perhaps all who attended would also like to review them.

To gain some impression of how the people were liking the programs, the writer took the trouble to interview almost every class and condition of people who attended, but mainly farmers, as we felt that they were the ones who could derive the most benefit. We talked to farm

## Musicians of South Plains Meet March 4-6

Lubbock, Texas, Feb.—Approximately 900 music students from over the South Plains will be in Lubbock as contestants March 4, 5 and 6, for the eighth annual Spring Festival, sponsored by the South Plains Music Teachers' Association, it is estimated.

Mrs. Lillian Butler of Slaton is president of the organization and Mrs. M. E. Ware of Ralls is secretary, while Miss Mary Dunn of Lubbock is director of the contests.

Committee chairmen in the piano department are: Juanita Nugent, Loveland; Pauline Buck, Crockett; Carrie T. Bier, Plainview; and Jeanette Ransley, Slaton. Mrs. Roy Hollingshead of Lamesa is chairman of the Theory contest. Miss Beulah Dunn of Lubbock is chairman of the violin contest, H. A. Anderson of wind instruments and bands, and Mrs. L. J. Von Tungel is chairman of the voice department contests.

In addition to the regular contests guest artists will appear on the program. Hazel Griggs, pianist, of Houston; Flossie Lee Harper, soprano, of Dallas, and the Abilene String quartette will appear on the program. The piano program by Miss Griggs will be rendered at 3:45 P. M. Wednesday, March 4 at the high school auditorium.

The other program will be rendered Wednesday evening, March 4, at the high school auditorium. Two complimentary luncheons and a "refreshment hour" program will be given for the benefit of members of the association and guests. A luncheon will be given at noon, March 4 by the South Plains Music Teachers Association for guests and the Lubbock Chamber of Commerce will be host Thursday, March 5 at noon at a complimentary luncheon for members of the association and guests.

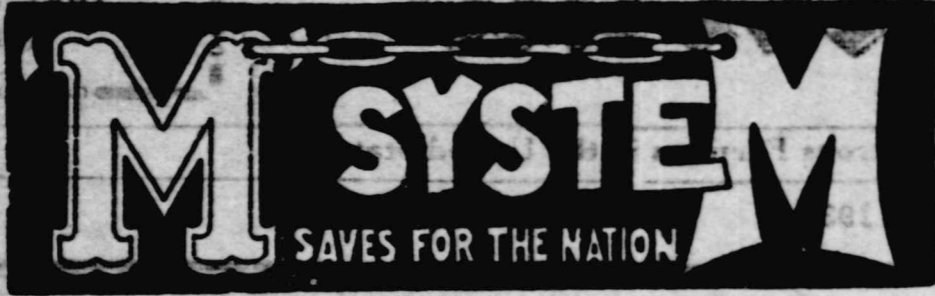

## The Rotarians Hear Two Lubbock Men

The Rotary Club was entertained highly last Friday at the regular noon luncheon by two prominent citizens of the city of Lubbock, being their Mayor, Jerry Clements, and one of their leading hardware men, B. Sherrod. Mayor Clements is a Rotarian, and Mr. Sherrod is a member of the Kawans club of that city.

The address of Mr. Clements was along the line of the changing conditions and thoughts of the world, in which he maintained that the world was really growing better and with a better understanding of the common brotherhood of man and the fatherhood of God than any age of the world. He compared the condition that existed in the old Bible under the "thou shalt not," with the "thou shalt" of the New Testament and modern age. He brought vividly to mind of Esau and Jacob, that although the former was born first of the twins, and was entitled to the birthright, the latter through scheming beat him out of it. No half way gentleman of our times, said he, would think of cheating his brother in such a way. He also cited the case of Joseph being sold into slavery by his own brothers, and maintained that we of this age would never think of selling some one else's brother into slavery, much less our own. He brought out many beautiful thoughts along this line.

The address of Mr. Sherrod was more along the line of the civic and service side of clubs, showing what was possible for them to do to make their towns and cities better places in which to live, as well as taking a great part in making them more beautiful to the eye. In doing the work are supposed to do, they take nothing from the duties of the city officials, nor the chamber of commerce or any other body, but must cooperate with them in making their towns and cities better. We must, he said, not only do what we can to help mankind and build our towns upon a higher plain, but must live out a life of unselfish service day in and day out without having to make a great flourish to call our good works to the attention of others.

Rotarians Young and Ross of Loveland also attend luncheon to make up their attendance record.

Good Farm News

J. E. McDonald, Commissioner Agr.

Austin, Tex., Feb.—One of the most ambitious legislative programs for agriculture seen here in years was in the hopper of the Texas legislature when the closed season was declared on introduction of bills.

The agricultural bills were on a variety of subjects, from cotton to citrus fruit, and sweeping changes in the state's taxing system, meant to relieve the farm and small home owner from tax burdens, were included.

Bills approved by the state department of agriculture, according to Commissioner J. E. McDonald, included, among others, the following: the cotton conservation measure, a revision of the gin inspection laws, a rewritten code for warehouse supervision, a proposal for an annual farm census, and a bill which would allow any county or community of farmers to elect the variety of cotton which shall be grown in that section.

All of these were written, wholly or in part, by Judge R. M. West of Navastota, now connected with the department of agriculture.

Considered by Commissioner McDonald the most important is the cotton conservation bill, which would fix the Texas acreage of cotton on the basis of world wide economic conditions. It is simply an attempt to make the cotton supply equal the demand, at the same time providing for revitalization of the soil and pest control.

In the flood of comment it has loosed, several endorsements stand out. Among these was the vote of the legislature committee of the Texas Cotton Committee, a state wide group composed of outstanding men in every phase of the cotton industry, from planting to marketing.

Another outstanding endorsement was that of a farm convention recently held in Dallas, attended by approximately 1,700 farmers, of whom only five voted against the principle of statutory control on a standing vote on the floor of the convention.

The department of agriculture is one of four major organizations backing the farm census bill, the others being the University of Texas through its bureau of business research; Texas A. & M. College, through the division of farm and Ranch economics; and the Federal Department of Agriculture, through the Crop Reporting Service.

Enactment of this proposal would make available, for the first time in Texas, annual statistics by counties on production of all principal crops, farm acreages, and other natural resources. It was believed that Chambers of Commerce, called upon to furnish business prospects with farm statistics, would especially appreciate the value of such a law. Eighteen other major farm states have the census, in cooperation with the U. S. Department of Agriculture.

The one-variety cotton bill was the creation of the Texas Cotton Committee. It would allow voters of any community to designate, at an election, the variety of species of cotton which might be planted in that community, thereby opening the way for improving breed and staple, with the ultimate result that a better price would be obtained. It is not a new idea. In this country, California has the plan, and other countries, particularly India and Egypt, follow it. Commissioner McDonald pointed out that the quality of cotton from these two counties has been steadily improving for the past few years, while the quality of Southern cotton has been on a steady downward grade.

In the revised gin inspection bill, it is sought to relieve ginners of the necessity of bonding themselves, also to furnish the department with a semi-monthly report on number of bales ginned. The revised warehouse code was an attempt to bring together conflicting provisions of the present law.

COMMON SENSE LAW

Complaint is going in to Austin, where the legislature is in session, to the effect that Texas' new marriage law is hurting the business of the clerks, the preachers and the justices of the peace. Apparently this is being used with the legislature as reason for repealing Texas' marriage law, which requires notice and physical examination before the license is issued and the nuptials are performed.

If the new law has prevented only half a dozen too hasty marriages in Texas the past year or two, or has kept some man physically unfit for marriage from spoiling the life of a girl, it has been worth the money to the people of Texas. It is to be regretted, perhaps, that so many people see fit to leave the borders of the state to marry, but not necessarily because it hurts the "marrying business." We don't want to get the argument for the repeal of the law on that basis. In fact, we don't want the law repealed. Perhaps the neighboring states will see the common sense of it and pass similar laws sooner or later, which would be the best solution.—Floyd County Hesperian.

The Chisholm trail will be depicted in the art work of "La Ventana," year book of Texas Tech.

The Centenary of The First Reaper

The 100th anniversary of invention of the reaper of Cyrus Hall McCormick and the beginning of modern harvesting methods will be celebrated this year by the International Harvester Company and other organizations. McCormick gave the first public demonstration of a reaper in July, 1831, in a Virginia wheat field following six weeks' work on the machine in a blacksmith shop on his father's farm. His effort to build a reaper followed several unsuccessful attempts on the part of his father.

McCormick's reaper was not patented until 1834, and none were sold until 1840, when two were marketed. Seven were sold in 1842, twenty-nine in 1843, and fifty in 1844, at \$100 each. While the first reaper, which required two men to operate, but cut as much grain in a day as four or five men with cradles, was a crude machine, it is said to have contained several basic features of modern reapers.

Following invention and introduction of the reaper, and of the steel plow by John Lane, in 1833, and John Deere and William Parlin, about the same time, and of the threshing by Hiram Pitts in 1834, farming was revolutionized. Large-scale grain production was now possible, and millions of acres of land were opened to farming on the Western prairies. Only through these inventions could the agricultural and industrial progress of this century have been possible. From this small beginning a vast industry has been built up, reaching into all parts of the civilized world, with profound influence upon agricultural production methods.

Hundreds of people here this week attending the I. H. C. Short Course viewed with interest and exact replica of Cyrus McCormick's first reaper.

REVISE THE CONSTITUTION

The success that constitutional amendments met at the last general election has stimulated the introduction of others in the Legislature. Twenty-three amendments have been introduced in the House and twenty-one in the Senate. Or this sudden influx of suggested changes due to a closer study of our decrepit Constitution and a realization that it is sadly in need of revision?

Every State should revise its fundamental law once a generation at least, so as to have a Constitution that meets current approval. A constitutional convention does not have to tear to pieces the work of earlier years; there may be much in the old Constitution worth saving. But each generation should have the privilege of revising its paramount law by striking out the obsolete, inserting new provisions, and retaining whatever is worth preserving.

A convention preferably should have a small membership of the most distinguished citizens of Texas, who would take pride in formulating a fundamental law that would further the interests of the State. Large conventions are filled with small men, too easily influenced and too prone to speechmaking and logrolling.

Why should not the Legislature after the decision for or against a constitutional convention to the people of Texas? The final determination should lie with the voters; the Legislature should merely ask the sovereign people for instructions.—Dallas News.

Nation-wide publicity has been given the "Fast day" for the jobless sponsored by Dr. J. C. Granbery of Texas Tech.

PANTRY PLENTY GIVES PLEASURE AND PRIDE

Olton—With her pantry shelves laden with 455 quarts of canned fruits, meats and vegetables, prepared in 70 different ways from 33 varieties, Mrs. I. V. Fent, 4-H pantry demonstrator of the Sand Hill Home Demonstration Club in Lamb county, is rejoicing that her family is so well provided for these winter days. She says "I entered the 4-H pantry contest first of all because I wanted to make a canning budget that would enable me to serve my family a balanced ration; second, to do this in the best and most economical way; and third, because friendly rivalry makes the work a greater pleasure."

In making her garden Mrs. Fent planted enough for her food budget and added enough cabbage, tomatoes and green beans for sale to pay for the needed commercial foods which she bought in quantity at favorable prices by watching the market for

"specials." "To me," Mrs. Fent says, "my pantry is a great help in time as well as money saving. To my husband it is a pride in more ways than one, for he knows that there is \$217.39 worth of food for our use this winter which will not have to pay for. To some of my neighbors it has been an inspiration and several of them are planning to make a canning budget and plant a garden to fill it during this coming season."

MISUNDERSTOOD

He had called on her twice a week for two years, but had not proposed. "Sophomora," he said, as they were taking a moonlight stroll one evening, "I am er-going to ask you an important question."  
 "Oh, Archibald" she exclaimed, "this is so sudden. Why I—"  
 "What I want to ask is this," he interrupted: "What date have you and your mother decided on for our wedding?"

Natural Gas Service and Just Natural Gas

If you could go to the corner grocery or out to a gas well, get a sackful of gas, pay cash for it and carry it home, you could buy a huge volume of it for 5 cents.

Of course, your gas sack would have to be large and it would have to be good and tight. That might add somewhat to the cost.

Just when you hapened to need the gas, the weather might be unpleasant outside, too.

When you got your sack of gas home, you would have quite a merry time trying to get the gas fed into the burners of your stove.

It is then that you would realize that you had bought the wrong thing. You wanted GAS SERVICE, and you had bought just gas.

Gas without service is a vapor that cannot be handled by ordinary means. It is of little use to anyone.

Gas—WITH SERVICE—is a clean, efficient, reliable fuel—ready to do your instant bidding when and where you want.

It is GAS SERVICE, rather than just gas, that you buy, use and pay for.

## Hunter News

Johnson Chapel B. Y. P. U. attended the Zone meeting at Wellman, Sunday. We were 100 per cent present. We brought the banner back with us. Lets all go to Tokio next Zone meeting.

The B. Y. P. U. entertainment given at Mr. and Mrs. Joe Smith's Friday night was well attended. Among those present were, Robert Smith, Orville Snow, R. L. Jenkins, Deward Williams, Orvis Beckmon, Cecil Smith, Harel Hill, Guy Smith, John Jenkins, Robert Webb, Mr. Downs, Clyde Owens, Albert Buchanan, Viola Hight, Dora Faye Jenkins, Johnnie Mae Jenkins, Delma Williams, Thelma Williams, Mrs. Lee Lyon, Mrs. O. O. Breland, Geneva Williams, Mrs. Downs, Manis Goddard, a number of smaller children and the host and hostess, Mrs. C. G. Smith and Miss Florence Fitch all had a wonderful time. Games were played until a late hour. Refreshments were served and every one left happy.

We were glad to have Rev. Weaver Lovelace with us Sunday morning and Bro. Little with us Sunday night.

Hunter school was well represented at the short course despite the rainy weather. Among those that attended the short course at Brownfield Tuesday were Mr. and Mrs. John Jenkins, Mr. and Mrs. Lee Lyon and Deward Williams.

The ball games Friday evening was very interesting. Hunter beat the Lahey girls but the Lahey boys defeated the Hunter boys.

Mr. and Mrs. H. L. Holleman were Lubbock visitors Sunday.

Mr. and Mrs. O. O. Breland visited Mr. and Mrs. Elmer Macher of Lahey, Sunday.

Mr. and Mrs. G. S. Snow visited Mr. and Mrs. H. H. Butler Sunday.

### WELMAN P. T. A.

Wednesday, February 18th, the P-T. A. was glad to have the Doctors out to examine the children. Dr. Graves, M. D., and Dr. Parrish, dentist, gave the entire afternoon in examining the school children. Their work was greatly appreciated and we would like to again express our thanks to them.

Their report was favorable as they reported many of the children up to standard weight; not such so many cases of bad tonsils and few defective teeth than they expected to find in that number of children. We did not get the exact report of number of children examined, etc., but this general report given was very satisfactory.

We were delighted to have several of the patrons out to assist the doctors. After the examination our president, Mrs. Schroeder, served refreshments of sandwiches, hot chocolate and cake to the Doctors, Mrs. Hunter, the expression teacher, and others.

Next Friday, February 27, don't forget to visit the schools for this is Parents Visiting Day. Friday night a cake ceremony given in honor of the birthday of the National P-T. A. will be followed by an interesting Literary program.

## FORRESTER ITEMS

The County P. T. A. meeting was held at Forrester last Friday night. The school rendered a Washington Day program which was much enjoyed. Bro. Turrentine of Brownfield made a very interesting talk. After the business meeting refreshments were served.

Almost every one attended the short course at Brownfield.

Miss Wilma Comstock of Tokio visited her aunt, Mrs. G. M. Thomason, over the week-end.

Mrs. G. W. Crone left Sunday night for Mineola Texas.

Miss Wilma Holland spent the week-end with friends in Tokio.

Everyone is invited to attend the singing next Sunday night.

### TECH BOYS EARN MORE THAN GIRLS

Lubbock, Texas, Feb.—Figures compiled by the Texas Tech employment bureau show that the earning power of students recorded with that office averages \$36.55 monthly.

Men students average \$38.43 each month while the co-eds reach a monthly average of \$31.82.

Tentative figures indicate that Tech students will earn well over \$130,000,000 by the close of the regular school year. This figure, however, is somewhat lower than the earnings last year.

K. B. McWilliams, who has been grading cotton here all fall for the Co-ops., has received orders to close the office here March 1st, and so far as he knows will leave for his home in Hillsboro. He has shipped nearly 6900 bales of cotton from this point. The Lubbock office will handle the rest of the cotton to be shipped, we understand.

C. H. Hester advises us to leave the weather report in from week to week. Farm operations are moving along nicely on the Herater farm. Fine season, says he.

### ROTARY AND BUSINESS

During the early years of the Rotary Club, Rotarians did not demand nor indeed expect their fellow-members to deal exclusively with each other in business matters, for according to Chesley R. Perry, secretary of Rotary International, writing in the February Rotarian, "it was early agreed that the best exemplar of the Rotary idea was not the one was trying to get all he could out of his fellow-members but rather the one who was trying to be of greatest helpfulness to them."

Thus a mooted point in the basis of the origin of Rotary is cleared up, for it is seen that service was a dominant keynote from the start. Rotation in business was achieved, for A gave business to B, and B to C, and C to D, who might give it to A. Thus each member helped his fellow-member, but demanded nothing in return. However, because criticism arose claiming that Rotarians were self-centered even with this rotation of business, the Rotary club very early engaged in civic and social work. Such activities were a vital portion of the program of Rotary, according to Mr. Perry, and the work of developing citizens who should be more active in community affairs attained a very great momentum.

They debated whether to put a little 2 1-2 acre plot in cotton or a garden last spring, did Mr. and Mrs. Edgar Kieke, Pleasant Hill community, Washington county, Gardening won and Mrs. Kieke threw in her lot with the garden demonstrators lined up by the home agent. There is no more argument for there's an actual cash gain of \$370.60 in the family treasury.

### TEXAS MAY HAVE COAT OF ARMS

Austin, Texas, Feb.—Members of the Alamo Chapter of the Daughters of the Republic of Texas will submit to the legislature designs for a coat of arms for the State of Texas, according to Mrs. Mattie Austin Hatcher, archivist at the University of Texas library, with whom a D. A. R. committee conferred in checking the accuracy of the drawings. The proposed coat of arms will include in its design the six flags under which Texas has served, arranged around a shield bearing insignias of the three outstanding battles in the fight of

Texas Independence—the Alamo, Gonzales and San Jacinto. Beneath the shield is the inscription, "Texas One and Indivisible," while a blazing Lone Star surmounts the heraldic emblem.

Happy Jack Bryan was in Monday after supplies for the ranch, and so far as we could see was making the rifle.

Lee Fulton was in Monday attending the IHC Short Course.

Leo Allen and wife have returned from a visit to the lower valley.

**CHEVROLET**  
For heavy work the whole year 'round—  
at the lowest cost-per-mile

Whether it's heavy loads to be hauled in the country, or quick deliveries to be made through city traffic, Chevrolet trucks are always ready to do a good job—at low cost. These big, powerful Sixes have the strength and stamina for continuous hard work the year 'round. Long hauls, hard pulls, fast schedules, rough going are all a part of the day's work for trucks like these. And Chevrolet's cost-per-mile is not only extremely low, but it stays low, season after season. You will find it well worth while to inspect today's Chevrolet truck line. Many features have been introduced that have a direct bearing on Chevrolet performance, capacity, endurance and appearance. And there are now available Chevrolet bodies built in Chevrolet plants exclusively for use on the Chevrolet chassis.

Advertising Rates on Application Official paper of Terry County.

Member 1931 Annual Editorial Association

MEMBER TEXAS PRESS ASSOCIATION

Last Sunday's Dallas News locates the famous Davis mountains in south Texas. We'll agree to let Dallas move part of our oil fields over in east Texas, but we'll be dogged if we let them move our greatest scenic wonder to South Texas.

The Lamesa Reporter tells us of a gentleman that resides in that city that can so amplify his heart beats until it can be heard over the telephone. The Reporter failed to state whether or not it made any difference whether he was talking to the male or female persuasion when the organ was pounding its prettiest.

One of the reasons Texas has made as little progress as it has toward intensified agriculture is that while it is spending as a state a mere pittance of \$127,000.00 annually to promote better farming, Michigan is spending nearly a million dollars. Yet the annual value of the Texas crop is 430 million last year compared to Michigan's 175 million dollar crop.

We saw an article in a neighboring paper last week in which a party from the black land belt took our

people to task for raising cotton in competition with them, stating they had worn out their land raising cotton, and we should raise feed and let them raise the cotton. Instead of wishing to raise some feed themselves and help to put lost vitality into their own acknowledged worn out land, they still wish to further impoverish it with their one idea cotton farming. Good reasoning (?)

Alfalfa Bill Murray, Gov., of Oklahoma, the Atlanta Constitution, Gov. "Hoey" Long of Louisiana and perhaps other experts have raised the question how to eat potlikker as well as how it should be spelt, whether with one "t" or two "t's", and whether it should be "licker" or "Liquor." Whether the cornpone should be crumbled in or just "soaked." So far they have not gotten to the vitamine part of the discussion, and that part alone will interest us more scientifically inclined people.

That old tobacco tax is up again, but we find that many educators do not wish the law for fear it will give tobacco too much free advertising. It already having plenty. They are right. Besides it is class legislation the best one can make of it. It is a useless habit all will perhaps admit, and can be made filthy, just as other habits are filthy, perhaps. There are lots of people who don't eat garlic, and some don't eat onions and carrots and radish, but the rest of us have no idea of taxing those who do eat them.

The Plains Review remarked last week that it wished it could grow up and be included on an advertising committee. The remark was perhaps occasioned by the editor of the Review not being included with other Plains folks on the advertising committee of the Short Course here. In explanation, will say that the Review editor was thought of, but we did not feel just right in putting her on the advertising committee and ask her to distribute circulars and other advertising matter over at Plains, when we aimed to ask her for some free space in her paper. We certainly appreciate the good front page article The Review carried last week, and stand ready to reciprocate any time.

And, Herbert Hoover, president of the United States, in giving a definition of a boy, declares, "A boy is a complex of cells teeming with affection; filled with curiosity as to every mortal thing; radiating sunlight to all the world; endowed with dynamic energy and the impelling desire to take exercise on all occasions. He is a perpetual problem to his parents, and the wisdom in his upbringing consists more often in the determination of what to do with him next rather than what he should do when he gets out in the cold world."—Ropes Hustler.

Inspired by A. J. Stricklin, editor of the Brownfield Herald, the people of that thriving South Plains city, have inaugurated a campaign that might well be copied by every town in the country. Editor Stricklin decided that one of the primary causes of hard times was the psychological reaction of the people to the constant reiteration of doleful stories. Brownfield and Terry county were neither in desperate circumstances nor were the citizens lacking confidence in the ability of their town and county to recovery from the temporary inconvenience of a slight drouth. There have been other drouths and old Terry always came back. In order to divert the popular trend of conversation from useless and demoralizing pessimism to more wholesome and optimistic subjects, Stricklin printed some pledge cards and distributed them to the merchants and business men of his town. Each signer pledged himself to stop talking hard times and the cards were so favorably received that there were not enough to go around! Even the farmers expressed themselves as unutterably weary of gloom-spreaders and glad to be handed a refreshing line of optimism and cheer on their visits to their county metropolis. The Nolan County News has also enlisted the assistance of its clientele in furthering the rout of old man Depression. The News offered a five-dollar bill to the person who could display the biggest and best grin! The entry list was jammed full and the final decision was a tie between a young lady cashier and a Nolan county farmer! All honor to that farmer who could still grin through his section suffered severely in last year's drouth! His courage should put to shame the howlers who are largely creating the condition of which they howl. The people of West Texas and the Panhandle are naturally optimistic and with the best of reasons—and right now is the time to assert that optimism. It is said that more than ninety five per cent of the West Texas borrowers from the Federal Land Bank at Houston, met their installments, last year. Even those farmers in the drouth-stricken section made their payments and such being the case, why have the rest of us allowed ourselves to become overwrought about some impending calamity that hasn't materialized, so far as we are concerned, and probably never will. Of course, we are and should be, properly sympathetic with the people of those regions that are in dire distress but there is no need to bring disaster upon ourselves because we are sorry for them. Hurrah for Stricklin and the Nolan County News. — Southwest (Amarillo) Plainsman.

JIM FERGUSON SEES SMALL TOWN'S DOOM

Temple, Feb. —There are 15,000 being fed by the Red Cross in Arkansas and the situation is even worse than newspapers have reported, Will Rogers said in a conversation with James E. Ferguson, former governor, in Austin Monday, Mr. Ferguson said while on a visit here Tuesday. "It's the first time that I have heard of a farmer's bread line," Ferguson said. "The condition is due to the drouth they had. I asked Will if they had no coons, 'possums and rabbits to eat. He said they had already eaten them up." Ferguson said farming conditions are very bright in this section, with the best season in the ground in ten years. The Lord has smiled on us with mild weather and good ground season."

Hits New Administration Ferguson was very caustic in his remarks about the new State administration. "Honestly in government, hump! They have been saying that the State road bond issue would be backed only by the gas tax. Imagine a bonding company buying that sort of security."

"And the bill from Sterling's camp starts off with these words: 'A bill pledging the credit of the State of Texas.'" Ferguson said that there is nothing in sight pointing to a change in the highway situation and it appears that "the only way to get highways is to work with the highway commission. If the State bond issue should carry and the State should build its own roads, there is no doubt but that the highways would be built on straight lines and miss towns right and left."

"People are certainly getting lined up against the trucks and busses. Most of the railroad people voted for my wife when she had that in her platform. I have had some who did not, come to me and apologize, since they are all coming around to see what the truck and bus business is."

CORLEY FAMILY HOLDS REUNION IN TAHOKA

A reunion of the Corley family was had out at the Jack Corley home at the western suburbs of the city Sunday. Present were Mr. Corley's brother, A. P. Corley of Brownfield, and his sister, Mrs. Joe Hamilton of Odessa and Miss Corne Corley of Lubbock. A big dinner featured the occasion and all had a good time.—Tahoka News.

Brownfield State Bank advertisement with logo and text: "We cordially solicit your banking business, but whether you have an account with us or not, we want you and your friends to make use of our facilities in whatever way they may serve your needs. We assure you of an appreciative, co-operative consideration accorded to every transaction at this bank. 'MAKE OUR BANK-YOUR BANK' BROWNFIELD STATE BANK MEMBER FEDERAL RESERVE SYSTEM"

Trucks Vs. Railroads

Stagnation of countless Texas towns and small cities and the demoralization of local business is being laid at the door of the unregulated truck, according to reports from Austin where numerous legislators are said to regard strict regulation of truck as necessary to stem the constantly increasing tide of business away from the smaller centers to the larger cities of the state. Demands on the part of Chambers of Commerce, bankers and merchants of scores of small and medium sized towns that the 42nd Legislature pass regulatory laws adds another formidable force already aligned openly against unregulated trucking. The claim is made that the truck has almost overnight become a graver problem to the small town merchant than his old foe, the mail order house. Failure of many a small town merchant recently is said to have been due partly at least to the fact that truckmen have been making a practice of soliciting retail business in the small towns for the merchant in the larger point at the end of his "run." The truck, too, is said to have seriously impaired the profits of the small town jobber and wholesaler and to have had the effect of this diverting business to the larger points at the expense of the smaller ones.

THE FLU EPIDEMIC

There is no occasion for alarm over reports from various sections of the country to the effect that, due to an open winter, influenza is making its appearance. Always there are to be found cases of it in some part of the country or another. The fact that this winter has, generally speaking, been an exceptionally mild one, accounts no doubt for the increasing number of cases. But so far it has not been in virulent form, and the ratio of deaths from it has been lower, far lower, than when it swept the country during the World War. However, one cannot be too careful, and especially at a time when temperatures are above normal and there is a lack of freezing weather to allay disease germs. Just follow the common-sense rules of keeping properly clothed, avoiding draughts, sleeping in well-ventilated rooms and eating temperately. With everyone doing

DIED

Mrs. Willie Brownfield, who underwent an operation some two weeks ago, died at a Lubbock sanitarium last Saturday morning having developed complication. The body was taken in charge by the Brownfield Hardware undertaking department, and carried to Sterling City, where it was laid to rest Sunday afternoon beside that of her husband who died a few years ago. Deceased leaves a son Virgil, and a number of nephews and a niece, Dick and Ray Brownfield of this city, Dee Brownfield of El Paso, and Mrs. Rosco Wilson of Lubbock, all of whom attended the funeral.

**TEXAS HAS A LIQUOR BILL**

Here are some statistics furnished by District Judge E. J. Miller of Brownwood, which it is doubtful that Mr. Hoover's Liquorism committee took into consideration. Judge Miller says that last year Texas physicians wrote 1,050,000 whisky prescriptions for which \$3,150,000 was paid for the prescriptions and \$4,675,000 for the liquor. A tidy sum, \$7,825,000.

spent annually for liquor by physicians' prescriptions, which is federal law, and by a citizenship who voted a majority for Hoover as against Smith because Smith boldly declared that prohibition was a failure, while Hoover meekly said it was "a noble experiment." O! Consistency, what a jewel thou art not.—The Pyote Signal.

THE TERRY COUNTY HERALD

**Terry County Council Met With Forrester**

The Terry County Council P-T. A. met with the Forrester P-T. A. Friday, February 20th at 8 P. M. and the meeting was opened with an address of welcome by the local president, Mr. G. M. Thomason, after which the Council was entertained with a 30 minute Washington Day program put on by the local association.

The Council president, Mrs. Brit Clare, then took charge of the meeting and the business session was opened with a prayer by Rev. Dennison, pastor of the M. E. Church at Meadow. Mrs. Money Price was elected a delegate to the District Conference which meets at Lamesa, April 8, 9, and 10, and the presidents of the local associations in membership with the County Council were selected for a nominating committee to nominate officers for the coming year.

The main speakers for the evening was Rev. G. E. Turrentine who spoke on the question, "What Shall I Do For My Child?" Which brought out very plainly the duty of the parent in relation to the child.

Mrs. Corley demonstrator of H. and K. coffee was present and gave us a short talk. She informed us that 20 per cent of the proceeds from the sale of I and K coffee went to the local P-T. A., in the town where the coffee was sold. The council adjourned and partook of the delicious refreshments served by the Forrester P-T. A. and resolved singly and collectively to go to Forrester again.

The next meeting will be with the Brownfield P-T. A. some time in April. New officers will be elected and installed at this meeting with a district officer presiding over the installation.

**Burrus Discusses The Wheat Situation**

McKinney, Texas, Feb.—J. Perry Burrus, president of the Tex-O-Kan Flour Mill corporation, with headquarters in Dallas and owning big flour mills over the states of Texas, Oklahoma and Kansas, spoke before the McKinney Rotary club at its Friday luncheon and several visitors present to hear him on "The World Wheat Situation." Mr. Burrus is a native of McKinney, and a charter member of the McKinney Rotary club.

He said that in the last ten years the per capita consumption of flour in the United States has declined from 220 pounds to 177 pounds, or practically 1 per cent, while wheat acreage and production in the United States, Canada and Argentina had steadily increased. He believes, however, that the wheat industry is suffering from under consumption rather than overproduction. He declared that the sales of bakers' bread very largely increased during 1930 over the previous year. In his opinion, modern developments, such as building of good roads, widespread increase in number of autos, dietitian education of school children and adults as to balanced rations, all have their bearing on the marked decrease of the last decade of per capita flour consumption. He defended the federal farm board and wheat stabilization corporation, saying that their activities acted as a buffer in minimizing the severity and shock of the 1930 depression which probably would have amounted to the most disastrous panic in the history of the United States had it not been for governmental agencies in heading off a more dire disaster to the general economic condition.

**WILL ROGERS TOURS TO CITY WHERE HE WED**

Rogers, Ark., Feb.—Will Rogers had a twofold interest in his visit here Monday, the one real and the other romantic.

In the role of a "Robin Hood" to the Southwest drought-stricken, he came to train his humorous guns on an audience of "home folks" to raise funds for sufferers.

As the erstwhile Oklahoma cowboy and sagebrush Romeo who journeyed here some 20 years ago to marry the daughter of J. (Jim) Wyeth Blake, he returned with Mrs. Rogers to visit friends of her girlhood days.

Their visit had something of a "homecoming" flavor.

Four prominent women, who went to school with the former Betty Blake, met the humorist and his wife.

Before Rogers' public appearance he and Mrs. Rogers were guests at a dinner at the home of Col. O. L. Gregory.

Rogers came here after an appearance at Fayetteville and Mrs. Rogers motored here from Tulsa Okla.

When the Rogers Chamber of Commerce telegraphed him some time ago, inviting him to come here for his benefit tour of the southwest, Rogers could find no excuse for leaving this romantic spot out of his itinerary and promptly replied:

"I'll be there if only for breakfast."

**How to Prune Your Rose and Grape Vines**

(By BEN MOORE)  
Prune Roses Now

Roses are rather forward this season and should be pruned within the next few days. Remove all dead and damaged wood, leaving only last year's growth as far as possible. Do no fear that too much wood is being removed since all blooms will appear on the following season's growth. So the more new growth we have this season the more blooms you will have. Unless already set, we would advise the planting of pink and red Radiance, Kaiserin (white) and Lady Hillingdon (yellow). There are no more profuse bloomers throughout the season.

Since climbers must form on last year's wood do not make the mistake of pruning them along with the bush roses. If necessary to prune them, this should be done as soon as the season is over, thus giving time for new wood to form for following season. We like pink Killarney for continued blooming. Dr. Van Fleet is also fine in pink. Paul's Scarlet and Meteor are fine reds and Frau Karl Druschki is a good white for this section. Mareschal Neil is too tender for the Plains. Many others are also good.

We should all appreciate our roses since it was freely predicted that roses would never succeed in this section as late as twenty years ago.

**GRAPES**

Do not wait until buds are swelling before pruning your grapes, else they are likely to bleed profusely, weakening their bearing ability for the season. Perhaps arborers are pruned more than are necessary in some instances. In making a cut, always cut just ahead of a bud or the cane will likely die back for several inches, back to the next bud. Remember, grapes will spring from last year's wood growth, principally. Principal reason for pruning is not to make grapes bear more bunches but rather to make them larger.

In rooting cutting be sure to put them deep, even two feet deep is not too deep, permitting two buds to remain above ground surface. We like to use long cuttings and leave each end protruding. Don't forget to water well through the summer or they are likely to die after growth seems well under way.

We are very partial to Niagara for white variety. Concord is a good all around grape, used much for grape juice. Thompson seedless does well here. The wonderful Tokay should be planted, though they were killed to the ground last winter. This may not occur again soon. They are out and ready for another crop this season.—Tahoka News.

**MCCOY IS SHOT ACCENTALLY**

Press dispatches from Cisco tell of the shooting of Rue McCoy, 19, by his father, C. B. McCoy, last Sunday night at the family residence near Rommey, the father mistaking the son for a burglar. Young McCoy was taken to a hospital at Gorman and was said to be in a most critical condition. His entire body was paralyzed as a result of a spinal injury inflicted by the bullet.

The McCoy family resided in the Edith community in this county several years, removing from this place to Rommey about a year ago. They are related to the Gollehon families who have resided for many years in the vicinity of Central Church.

In a statement published in the Cisco News, the father, C. B. McCoy, explained that the shooting was the result of mistaken identity. Awakened about 10:30 by a noise at the back door, he arose and walked to the back porch. He saw the figure of a man fumbling with the latch and just as the supposed intruder was about to open the door, Mr. McCoy fired. The bullet struck the youth in the back. Mr. McCoy stated that the home had been aroused several times recently by prowlers. He thought his two sons were asleep in bed at the time. The son stated that he had arisen from bed and was preparing to leave the house, and the darkness prevented him from finding the latch readily.

The terrible tragedy is greatly deplored by friends here.—Tahoka News.

The McCoy's were also related to the Gollehon family who live a few miles east of Brownfield, who state the McCoy boy died, last Tuesday.

**KNOW TEXAS**

Texas had 212,592 inhabitants in 1850 when it took its first census. In eighty years it has gained 5,612,123 or 2,647 per cent. In the last thirty years it has almost doubled its population.

Texas built the first "teacherage" in Gaudalope County in 1860. Now it leads the United States with 1,425 valued at \$2,000,000.

Texas improved 2,402.88 miles of highway in 1930 and will do better in 1931. It has more than 18,000 miles of designated highways within its borders.

He was greeting his friends here this week and all were delighted to learn the next ninety days.—Big Spring News.

J. A. Forrester and wife were in town Saturday and paid the Herald a short call.

From great folks great favors are expected.—Cervantes.

Good humor is good sense.

**9x12 FELT BASE RUG \$5.50**

**BANKS TURNIPS FOR WINTER USE**

San Angelo—Cutting the tops and banking her turnips with corn stalks and dirt in the rows where they are growing is Mrs. H. C. White's method of insuring her family a winter supply. Mrs. White is a member of the Tankersly Home Demonstration Club in Tom Green county, and as a part of her club work has canned \$239.20 worth from her garden, 48 quarts of which are greens, so that she can serve either fresh turnips and greens or canned ones three times a week the year around. From her garden she also sold \$10 worth of tomatoes, \$5 worth of beans and \$20 worth of watermelons and cantaloupes.

**WILL P. EDWARDS TO RETURN TO BIG SPRING**

Will P. Edwards, pioneer ranchman and banker of Big Spring, whose many interests had caused him to make his headquarters in Fort Worth for several years is planning on returning to Big Spring to again make his home. Mr. Edwards has large ranching interests here and in Ector county.

He was greeting his friends here this week and all were delighted to learn the next ninety days.—Big Spring News.

J. A. Forrester and wife were in town Saturday and paid the Herald a short call.

From great folks great favors are expected.—Cervantes.

**WILL ROGERS FOR PRESIDENT**

Because of his big minded work in raising money for the drought stricken southwest, Will Rogers now is being boosted for the presidential nomination in 1932 of the democrat party.

Elsewhere in this issue will be found an article upon this subject, which appeared in the Houston Post Dispatch of March 4, 1928.

Surely, Texas could do nothing less than instruct its democratic party delegates for Will Rogers. He certainly possesses more ability than all but one or two other democrats possess and, in many ways, is better qualified than any living American.

Will Rogers owns an understanding of the average American. He possesses enough horse-sense to hobnob with the nation's and the world's greatest citizens, knowing them everyone to be as human as any Texan or Oklahoman.

The greatest claim Will Rogers could have to the capacity of holding the job of president, it seems to us, is his unerring discernment of the heart of any problem.

We can imagine him at the White House, when some wretched senator from Idaho or the senator from Massachusetts would be holding up national legislative procedure, going to such nonsense in person to untangle things. He has had enough experience with horses to know how to ride 'em down as they will work in harness.

Will Rogers would be the mind of America perhaps more than any man. He would be president for all Americans. A change that would be.—Fisher's Progress.

**REPRESENTATIVE WOULD BAR MASTER'S BOOK FROM MAILS**

Washington, Feb.—A bill to bar from the mails Edgar Lee Master's new book on Abraham Lincoln has been introduced in the House by Representative Crail (Rep.), California, who disapproves of "tearing down national heroes after they are dead."

Crail favors making it a criminal offense to send the volume, "Lincoln, the Man," through the mails. He branded the book, which is critical of the Civil War President, as "obscene, lascivious, filthy and indecent."

The bill has been referred to the Postoffice Committee. Crail, who said he had not read all the book, intends to press for an early committee hearing to determine the veracity of its statements.

**BISHOP CANNON, JR. IS CLEARED OF CHARGES**

Bishop James Cannon Jr., charged by four ministers of conduct unbecoming a man of his position charges never made public was acquitted by special church committee of 12 who heard these charges in secret session.

The Bishop would have been tried before the next general conference had the charges been sustained by the special committee of twelve.

The Bishop will now go forward as with the duties assigned by the college of bishops.

THE TERRY COUNTY HERALD

# AMONG SOCIETY FOLKS

Mrs. Ibe Bailey, Editor

Phone 160

This week, being the fourth week of the month, has been quite full of social activities. In addition to the regular meetings of clubs, several parties have been given in honor of recent brides or of birthdays. Many of the missionary societies also observed fourth Monday or fourth Tuesday as social day.

### KILL CARE CLUB ENTERTAINED AT HOME OF MRS. MCBURNETT

A very enjoyable party was given Wednesday afternoon at the home of Mrs. MCBurnett. Four tables were set for bridge. The guest list included Mesdames Tom May, D. P. Lewis, W. C. Smith, Bailey, W. A. Bell, Collins, Fred Smith, Webber, Toone, Copeland, Pyatt, Telford, F. McSpadden, Carter, Stricklin and Miss Addie Hamilton. Prizes for high and next to high among the club members went to Mrs. Lewis and Mrs. F. Smith; Mrs. Tom May won the high guest prize. All were novel door stops. Cake sandwiches, salad and tea were served.

### MRS. LOLAN FLIPPIN COMPLIMENTED

Friday afternoon Mrs. Welch and Mrs. Redford were hostesses to about twenty of the friends of Mrs. Lolan Flippin. As toast to the bride was given by Mrs. Collier, as follows: We've watched you grow from childhood,

Ah how cute you were at ten. And when you finished grade school, So sweet and pure were you then. Then in the high school we see you as you go, Making new friends and comrades And then began catching beans. We see you then on Commencement, That grand and glorious day, Loved by your teachers and classmates; Such memories with us will e'er stay.

When commencement days are over Our life's work is to begin. And life then is what you make it, Whether we lose or win. So your home life will be pleasant, If each of you will always do, To each other and their folks, As you want to be done unto. But let us all remember, that on this earth we will not always roam, We are only here to make preparations,

For that eternal home. Then the crowd was led to the dining room where many beautiful and useful presents were ranged on the table. After her gifts had been admired by the bride and other guests, the hostesses served angel food cake and hot chocolate.

At eight o'clock Friday evening, Mrs. Flippin shared the position of guest of honor with her husband. The occasion was a shower tendered them by Misses Norma Dell Welch and Inez Jones. The guests were members of the younger set. A clever treasure hunt eventually led the bride and groom to their many presents. Punch was served and various games were played throughout the evening. Those present were Mr. and Mrs. Abe George, Mr. and Mrs. Lolan Flippin, Messrs: Ralph Bynum, Fayze Smith, Lee Ohville, Lewis, Sylvan Tankersley, Misses Julia Burns, Vivian Eubanks, Mary Coe Bailey, Kathleen Alexander, Lucille Oliver, Velma McClish and Wanda Sandefer.

### GIRLS CLUB MEETS

Miss Patterson was hostess to the Theta Beta Club Thursday night. The tables were graced with glasses of sweet peas, which were awarded to those who cut high. Mrs. Carter, Mrs. Lawlis and Miss O'Brien were the lucky ones. The evening was spent in playing bridge. Miss Martin scoring high, received a box of stationery. After which refreshments of nut fondant ice cream, punch and cake were served to the following: Mesdames Carter, Hudgens, McSpadden, Lawlis, Lawson and Misses Martin, Flippin, Hlume, O'Brien, Webb and Taylor.

Mr. and Mrs. Arthur Sawyer made a business trip that included Lamesa, Colorado, Stanton, Lubbock and several other West Texas towns Friday and Saturday. They returned to Lubbock Saturday night and spent that night and the next day visiting with Mr. and Mrs. Rame King.

A. D. Brownfield returned from Sterling City with Mr. and Mrs. A. M. Brownfield and will visit a few days here and Lubbock before he proceeds on to his home in El Paso.

### FRIDAY FORTY-TWO CLUB

Mrs. R. M. Kendrick, assisted by her daughter Mrs. Gladys Stice, entertained two tables of forty-two guests Friday afternoon. Cherry pie and coffee were served. Those enjoying the occasion were Mrs. Holgate, E. Williams, Webber, H. W. McSpadden, Ellington, Longbrake,

Brothers and Miss Addie Hamilton. Mrs. Hamilton received a pretty vase for high cut and Miss Hamilton cut low and received a candle holder.

### JOHN JR., McLEOD ENTERTAINS

A group of the young people were entertained Wednesday evening at the home of Mrs. J. H. McLeod, in honor of John Jr.'s birthday. Many games were enjoyed. After which pop corn balls, hot chocolate and cake were served to the following guests: Sallie Truman Stricklin, Barbara Henson, Postell O'Neal, Daphne Moore, Bernice Hale, Imogene Wall, Truett Flache, Vernal Brothers, Charles Michie, Bert Elliott, Cleon Jones, Marnar Price, Oie O'Neal Jr., and John Jr. McLeod.

Miss Addie Hamilton, who has been working for the Phillips Petroleum Co., at Seagraves, has returned home to spend some time.

### P. T. A. PROGRAM FOR TUESDAY NIGHT MARCH 3

Music—Miss Rascoe's Rhythm Band. Texas Song—Mrs. Wingerd. Spanish Number—Miss Long. St. Patrick's Day—Mrs. Savage. Talk on Texas Independence—Chas. White. Talk on Vocational Education—Mrs. W. G. Hardin. Talk—Rev. Surface. Talk on Athletics—Mr. Hayhurst.

This looks like it should be an exceedingly interesting program and well worth attending.

Rev. and Mrs. May and family are now settled at Mercedes, and their many friends here are feeling their loss. A gentleman whose poetical ability has been heretofore hid under a bushel handed in the following verse.

### IN APPRECIATION OF BRO. MAY

Now that you're going from among us, Our hearts are filled with pain. We know that you will make new friends, With them your love entwine. Will you forget the old ones, Those who have been tried and true; Or will you ever remember, Those happy hours you knew? No you won't forget, Your friendship is just as true; You will always love us, Just as we love you. So we bid you God speed, What more can we do, Just hope and pray to meet you, In that land beyond the Blue.

### CONTRACT CLUB

Mrs. McGowan was hostess to the contract club Friday afternoon. Her guests were Mesdames Michie, Shelton, DuBois, Endersen, McDuffie, King, Copeland and F. Smith. A chicken salad course was served. Attractive pitchers were given as table cuts to Mrs. Michie and Mrs. DuBois. Mrs. King won high score prize, a pretty jardiniere.

Mrs. Orb Stice spent several days with her mother. Orb came over Saturday night and they returned to their home in Lovington.

### CHURCH SOCIETIES AND ACTIVITIES

**SOCIAL AND SHOWER GIVEN**  
Mrs. A. Sawyer was hostess to the First Christian Missionary Society Monday afternoon. The roll was called and answered to by each member with a Bible verse. Then an interesting program was rendered with a song by Mrs. E. Williams, a piano solo by Queenelle Sawyer and a reading by Mrs. Crews. Bible contests followed, with Mrs. Lolan Flippin winning the distinction of having the greatest number of correct answers. Mrs. Flippin, Mrs. Eldon Cornelius and Mrs. Barney Holgate, three recent brides, were showered with presents by the members of the society.

A salad course was served to the following: Mesdames Gracey, Flippin, Holgate, Barney Holgate, Lolan Flippin, Kendrick, Crews, Joe Price, Ballard, E. Williams, Walters, Holder and the hostess.

### JUBILEE AUXILIARY

The following members of the Jubilee Auxiliary met at the Methodist church Thursday for a lesson in the new study book. Mrs. J. C. Hunter, V. A. Bynum, Knight, Endersen, Rickels, McClish, Wilson, Moore, Coleman, Eubanks, Holmes and A. Bynum. The lesson was led by Mrs. V. A. Bynum and was very interesting.

### INDUSTRIAL DAY

The Louise Willis Circle met Monday in the home of Mrs. Wayne Brown. The following members spent the afternoon in sewing on garments for the orphan's home. Mesdames

Cave, Brandon, Rogers, Green, Jack Benton, Stewart, Pyatt, Hilyard, Hamm, Ruth Draper, H. Neill, Garrison, Ballard and Brown. Three dresses and a gown were completed and a shirt cut out. The hostess served congealed salad, tea and cookies. The next meeting will be held Monday at the home of Mrs. Carter.

Circle Three met for Industrial Day in the home of Mrs. Hale. Seven members were present and spent several hours working button-holes in garments already completed and in quilting on their quilt. They were served with cake and cocoa.

Due to the inclemency of the weather circle one and circle two did not meet Monday. Circle two however plans to meet later in the week, probably Thursday.

The Presbyterian society is holding another bake sale Saturday, so if you wish either a cake, pie or dressed chicken for that day let some of them know and they will reserve it for you. Mrs. Ellington is the president of the society.

### SOCIAL AT HOME OF MRS. LEGG

Mesdames Ditto, Burnett, J. H. and R. Drennan, L. F. and Claude Hudgens, Jack Jackson, Collier, Gray, Graves, Travis, Murphy and Williamson, members of the Thursday Bible Class of the Church of Christ met Thursday at the home of Mrs. Legg. After the lesson, Paul apprehended at Jerusalem, conducted by Mrs. Drennan, a social hour was enjoyed. Mrs. Jackson favored the assembly with music through out the evening, which was very much appreciated. Delicious refreshments were served.

### METHODIST LADIES ENJOY DINNER AND SOCIAL

The Senior Missionary Society of the Methodist Church Monday inaugurated a new idea to promote congeniality and sociability among the members. On fourth Monday each one prepares and brings a dish to a one o'clock dinner held at the home of some member. After dining together, the usual social hours are enjoyed. This is a slight change from the regular routine, and will probably prove an interesting and enjoyable innovation.

Mrs. C. L. Williams was hostess to the first social of this kind. On accordance with the season, she had the house and table decorated with the emblems relative to Washington's Birthday. Mesdames Webber, Downing, Cook, Longbrake, Thompson, Jim Jackson, Wheeler and Williams enjoyed a delicious meal. After which contests were worked. One George Washington and one Bible contest.

### MEETING OF G. A.'s

The G. A.'s met in the home of Mrs. Stewart, Wednesday, at four o'clock. They had a very interesting program about Missionaries from the World's Comrades magazine. Those present were: Etehl Pippin, Marguerite Burnett, Wilma Frank Dunn, Evelyn Diffy, Lois Goodpasture and Leota King.

### WELLMAN CHURCH NEWS

Those striving to serve God went up on the mountain top, as they met four soul stirring services this week-end.

Rev. Claude Allen met with the Wellman Missionary Baptist church Saturday night, bringing an inspiring message after which he and his companion received such a pounding as he said he seldom receives and he adds he "was away from home." The small gifts were fruit of the peoples love and appreciation of this good couple. Sunday at the 11 o'clock hour many came rededicating their lives for more constant service to the Lord, claiming the promise that "If my people who are called by my name, will humble themselves and pray, I will hear their cry and heal their land."

The B. Y. P. U. Zone meeting met with the Wellman B. Y. P. U. Sunday afternoon. Glorious thoughts were brought by music, songs, verse and in talk. The speaker of the afternoon, Miss Clara May, from Wilson, brought a most inspiring message. Many of the B. Y. P. U.'s of this district were well represented. The next meeting will be at Tokio the fourth Sunday in March at 3:00. B. Y. P. U. workers are invited.

Bro. Burnett preached at the 11 o'clock hour at the Church of Christ we have no specific report of this meeting but know great services were enjoyed.

Elder Robt. Drennon and Oscar Jones and families left Tuesday for Abilene to attend the lectures at A. C. C. We believe others from here attended, but we failed to learn who.

The West Texas Gas folks at Lubbock will read the Herald regularly from now on for twelve months at least. In that time, we hope to convince them that Brownfield was really the place they should have made their headquarters, or else we'll make them think we are bigger "gassers" than they.

J. L. Millsap, of Meadow, is one of the new readers of the Herald.

## Baptist Church to Start a Revival Here

Remember friends that our spring revival starts Sunday March 1st. We want every redeemed man, woman and child to throw themselves into this meeting with every ounce of energy they have for the glory of God and the salvation of the lost of Brownfield. Whatever you have in the way of musical instruments bring it and use it to God's glory. "Praise Him with trumpet and sound, praise Him with saltery and harp, praise Him with string instruments and organs." Ps. 150 Whatever you have in the way of talents bring it, if you sing come to the choir, come with your testimony your words of praise COME. Whatever you are bring that. Come with song, come with prayer, come with praise, come with your consecration. By all means COME.

We are greatly encouraged by the steady increase in attendance upon our services since we have been in Brownfield. Our crowds are a third larger than they were when we first came. We are having additions nearly every Sunday. All these things encourage our hearts. But we are more encouraged by the Great Spirit of comradeship that is being developed among our people; as we get closer to our good Father. We are getting closer to each other. Come and see us.

REMEMBER that all depends on getting a good start so be there at the first service.

9:45 A. M. Sunday School, E. H. Aubrey, Gen. Supt.

11 A. M. Congregational Singing, W. W. Price in charge.

11:20 A. M. Preaching by the pastor. Subject, "Elijah at Cherith."

7 P. M. All B. Y. P. U.'s meet. Remember a Union for every member of the family. Come.

8 P. M. We want a great song service. Don't fail us.

8:30 Preaching by the pastor. Subject, "The Second Coming of Christ."

This is a continuation of the sermon we brought last Sunday evening. This time we will discuss, 1st the certainty of His coming, 2nd, what will happen when He comes. You will never forget it.

Remember our Motto: "A glad hand, and a cordial welcome and a Bible message."

J. M. HALE, Pastor, On behalf of the church.

### METHODIST CHURCH

As we approach the Easter season let us apply our thoughts to the Word of God. The written word is one of the most helpful ways to understand our Lord. Let us study his life. Read the Gospel of Luke both in connection with your S. S. lessons and without this connection. "Study to show thyself approved unto God." Then come to hear the word expounded and to worship. "Life's Choices" and "The Convenient Season," sermon topics for Sunday. Our attendance continues to increase.

Geo. E. Turrentine

### CHURCH OF CHRIST

We were delighted with the services last Lord's day, especially the evening service when a splendid crowd gathered to hear the old subject of "Baptism."

The singing has improved very much since we have our new song books. Those interested in congregational singing meet with us Wednesday night when we practice singing one hour.

We would be glad to have any one attend the Bible school, where you will find seven classes taught by competent teachers. We do not want you to send the children, but come and bring them.

The subject for next Sunday night "How Often Must We Commune." The church with a welcome for everyone.

R. P. Drennon.

Dee Brownfield was here this week the guest of his brothers, Dick and Ray and families.

## Harmony Happenings

Uh, huh, we Harmony folks figure Gomez lost a prize when Mr. Davis moved over here, for we know he is going to make us an excellent S. S. Superintendent. We are tickled pink our new neighbors, are coming to Sunday school. We feel flattered too, because Mrs. Pete Tiernan is going to come every Sunday. The Singing Sunday night was a howling success also. Buford Hobbs is our leader—well the audience may have thought we were howling but we think we done some grand singing.

Help! hal-up! The stork is leaving entirely to many babies out here. Of course we are glad to have Harmony populated so thickly but we just hate for the stork to cheat our communities. He thinks there isn't enough Jones' in the world so he left a fine baby girl at Walter Jones, Sunday 15th. The Williams, recently moved in here from Repes, are happy over the arrival of a new boy. Sybil had the honor of naming him, Bobbie Lee. She was describing him to us on Wednesday after he was born on Tuesday 17th and said: "He's a bit sun-burned but I guess we'll keep him." Mrs. Williams and the baby are not doing well at all. But we hope when this reaches the press they are doing fine.

The weather just can't decide what to do, and it furnishes us plenty to talk about as its always a safe subject to discuss. Today it has snowed enough to cover the ground in a 3 foot snow, but the rain preceding it warmed the earth to much to allow the snow to stick. Delvie Sullivan has been writing us from New Mexico that snow falls there every time it rains here, and that snow is shoulder-deep to horses, in the mountains and the young folks have had a gay time all winter skiing and tobogganing. Wouldn't that freeze yuh? To think, all we have to do out here for winter amusement is to play forty-two! The whole community has certainly played plenty games of that this winter.

Ossie Murry and wife at dinner with Marion Stones' yesterday and they said, they sure enjoyed the delicious chicken dinner Dessie served. But heck, I was there too and I know it was only Ossie's stomach that enjoyed itself—not he. For if he ate as much as I he was in abject misery. Dessie excels in cooking as well as painting. Didn't you know Harmony had an artist? We have and Dessie Stone is it! Marion doesn't have to buy pictures to decorate the walls of his home. Dessie has painted many lovely pictures which adorn their walls. We think one who has talent for painting would do well to take instructions from Mrs. Stone.

Miss Mitchell, one of our school teachers is getting up a play and Mrs. Gracy is to be one of the actress—well we only need to mention her name to get a crowd. She's another Marie Dressler. Will announce later the opening night of the play.

Can't say we enjoyed the high winds last week that were so heavily laden with dead horse aroma! Why can't some one find a way of making scents from dead horses so heavy the breeze can't carry them? Then our noses wouldn't suffer so.

How come? Hunter Reporter, why wish the Saturday Evening Post such bad luck? Now the Herald will fire me just 'cause you don't like my reports. How could you?

Mr. Willie Green is badly sick with pneumonia.

This evening as I mail this, there is lots of snow on the ground and I'll bet there are plenty of spoons clicking and lips smacking over cups of "snow" ice-cream.

The Odd Fellows had a banquet Tuesday night, to which some fifty of the brethren attended. After the eats, much music and some old time square dancing was staged. The Odd Fellows now have their hall clear of debt and are making many needed improvements. They are taking in many new members, too.

Lee Lyon and family were in Monday from Hunter attending the Short Course.

George Carter, prominent citizen of Repes community, was down Tuesday to pay his taxes, as he has some land in this county. Mr. Carter informed us that he had traded some of his Repes property for property around Dallas and Fort Worth, but

was having trouble clearing some of the titles cleared up. Pretty bad mess he said.

Housewife—"How can I keep fish from smelling in hot weather?" Delivery Boy—"Cut off their noses."

## Curtains and Drapes Dry Cleaned

Have you hangings and curtains looking like new this spring. It is easily done. Entrust them to our expert care for cleaning or when you rehang them they will bring the freshness of spring to your windows.

And at all times a nice line of fresh Vegetables and fruits. Try our Market FOR GOOD MEATS

AN APPROPRIATE TEXT

A pastor in a small community ministered to a congregation that was small and very tight-fisted. Having a large family, the good parson saw the dire necessity of seeking a new

field where he could increase his income. At his last Sunday he announced from the pulpit that he had secured a position as chaplain in the county jail. "My text is 'I go to prepare a place for you.'"

A. S. Mathews, of Corpus Christi, was in a dollar last week for the Herald on trial for six months. Wonder how he happened to know we were conducting such a good paper in such a good section.

B. M. Wade was in last Friday from near Tokio, assisting himself in walking with an old broom handle. Got to careless with the hind leg of a horse the night before, he said.

Tremendous Power from the Wind

THE Aeromotor Co. is now making a self-oiling windmill 20 feet in diameter. If you have a well 1000 feet deep, or if you want to raise a large quantity of water from a shallower well, this is the windmill you need. This new Auto-Oiled Aeromotor weighs nearly 2 1/2 tons without the tower. It is a giant for power.

Whatever your water requirements may be there is an Auto-Oiled Aeromotor of the right size for the work. They are made from 6 feet to 20 feet in diameter. Use the smaller sizes for the shallow wells and the larger ones for the deep wells or large quantities of water. Our tables, sent upon request, tell you just what each size will do.

The Improved Auto-Oiled Aeromotor, the genuine self-oiling windmill, is the most economical and the most reliable device for pumping water. It works every day and will last a lifetime.

Every size of Auto-Oiled Aeromotor has double gears running in oil. All moving parts are fully and constantly oiled. One oiling a year is all that is required.

The Auto-Oiled Aeromotor is made by the company which originated the steel windmill business. For full information write

TREASURER'S QUARTERLY REMORT

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF Mrs. J. L. Randal Treasurer of Terry County, Texas.

COMMISSIONERS' COURT Terry County, Texas, Term, 1931. In Regular Session.

WE, THE UNDERSIGNED, as County Commissioners within and said Terry County, and the Hon. Jay Barrett, County Judge of said Terry County, constituting the entire Commissioners' Court of said County, and each one of us, do hereby certify that on this, the 12th day of February A. D. 1931, at a regular term of our said Court, we have compared and examined the report of Mrs. J. L. Randal Treasurer of said County, for the period beginning on the 31st day of January A. D. 1931, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of said County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 31st day of January A. D. 1931, and have ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Article 1448-1449-1450 and 1451, Chapter 1, Title 29 of the Revised Statutes of Texas.

And we, and each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of the said Treasurer belonging to Terry County at the close of the examination of said Treasurer's Report, on this the 12th day of February A. D. 1931, and find the same to be as follows, to-wit:

	Dr.	Cr.
Balance on hand as shown by Treasurer's Report on the 31st day of December 1930	\$ 1,880.75

Total Cash on hand belonging to Terry County in the hands of said Treasurer 20,214.73

ASSETS  
In addition to the actual cash as above, we find the following assets belonging to the said County, and to the credit of the following funds, which is also in the possession and custody of the said Treasurer, to-wit: NONE.

BONDED INDEBTEDNESS

The bonded indebtedness of the said County we find to be as follows, to-wit:

Court and Jail Bonds	65,000.00
Court and Jail Warrants	52,150.00
R. B. George Machine Company Warrants	7,000.00
Lewis Patten Company Warrants	4,500.00
Gailon Machine Company Warrants	1,234.00
Moline George Machine Warrants	2,000.00
1919 Road Warrants	16,000.00
Texas Bridge Company Warrants	1,500.00
Lone Star Machine Company Warrants	3,456.48
Terry County Road Bonds (Paving)	13,500.00
John L. Chesley	375.00

TOTAL 156,715.48

WITNESS OUR HANDS, officially, this 12 day of February A. D. 1931.

Jay Barret County Judge.  
L. L. Brock, Commissioner Precinct No. 1.  
W. A. Hinson, Commissioner Precinct No. 2.  
J. W. Lasiter, Commissioner Precinct No. 3.

SWORN TO AND SUBSCRIBED before me, by Jay Barret County Judge, and L. L. Brock and W. A. Hinson and J. W. Lasiter County Commissioners of said Terry County, each respectively, on this, the 12th day of February A. D. 1931.

(SEAL) Rex Headstream, County Clerk, Terry County, Texas.

Mrs. Frank Andrews is feeding lacks to make a balance diet is tomatoes. Of course, its an unusually mild year, but the lady is somewhat unusual, too.

Artichoke pickle has been put on sale in the home demonstration club market in Smith county. Farm women sold \$162.48 worth of home made products through this market in the home agent says Mrs. Andrews January.

Weaver Elated Over Results of Sargon

"I've spent lots of money on different medicines—but Sargon and Sargon Pills did me more good than everything else put together." de-

A. C. WEAVER  
clared A. C. Weaver, RFD No. 1, Dallas.

"As far back as I can remember I have suffered with dyspepsia, constipation and biliousness; finally got so nervous and rundown I could hardly work. Sargon was the only medicine that ever mastered my troubles. Now everything agrees with me perfectly. I'm not nervous either; sleep like a log, and get on the job feeling fine.

"Sargon Pills are so far ahead of anything I ever used for constipation and biliousness there is no comparison. They are effective, but mild at the same time."

Sold by The Palace Drug Store.

Hudgens & Knight now have their grocery side cut off from the hardware department. Their only explanation to us was that the hardware side was feeding too much on the grocery side. But we noticed an opening further back where they can sneak in and graze some if they want.

Born to Mr. and Mrs. Frank Weir, a girl on the 24th inst.

Dickens Farmers Thru With Half and Half

Spur, Feb.—Dickens county farmers are going in strong this year for good staple cotton and many thousand bushels of state certified cotton seed are going to be planted. This announcement was made by D. L. Grandberry, receiving agent for the Texas Cotton Cooperative Association who stated that some communities are also going to support a better variety of cotton by general agreement.

"For the last five years Dickens county has sowed much half and half cotton and as a consequence, farmers have been forced to take a heavy penalty on all cotton," he said. "The banks, Chamber of Commerce and county agents are getting in behind the good seed movement and there is every indication that it will go over in a substantial manner."

TECH GIRLS ORGANIZE A RIFLE CLUB

Lubbock, Texas, Feb.—Men here at Texas Tech are about to lose their prestige as marksmen.

Under the direction of Capt. H. E. Killin, head of the military department, the co-eds have formed a rifle club. Forty-five girls have joined this organization and are practicing in anticipation of the competing against similar clubs from other colleges.

Instruction in scientific rifle shooting is given the girls on the indoor rifle gallery and the outdoor range. Triangling, sighting, and firing positions are being studied preliminary to actual firing. Four cadets, George Redinger, Hale Center; Willet Kuhn, Weatherford; L. W. Chapman, Lubbock; and R. R. Sprayberry, Lubbock are coaching the girls.

Miss Josephine Cowert, Dimmitt, is president of the girl's rifle club and Virginia Hash, El Paso, secretary.

To think about the matter, one would imagine that all the cotton has been picked, ginned and sold, but one of the local gin men informed us this week that he ginned 14 bales Saturday. We did not get a report on the rest of the gins.

**"I've just read Swift & Company's 1931 Year Book . . .**

"This book is most interesting to me, because I'm one of the 200,000 producers of cream, poultry and eggs who sell to Swift & Company. It is just as interesting to everyone who has something to sell to Swift & Company, as well as the housewife who buys food for her family.

"This book showed me the source of Swift & Company's profits, which come, mainly, from savings in expenses, and not at the expense of the producer or the consumer. What impressed me was that Swift earns its dividend from an average profit from all sources of only a small fraction of a cent a pound.

"The chapter on Swift & Company's produce plants on page 35 held my attention, for here is shown how the company creates a direct road to remote markets for the producers' products. And you may learn how Swift's marvelous distributing plan serves producer, small retailer and consumer in every corner of the country.

"I know that Swift & Company will gladly send you the 1931 Year Book free of charge. Send for it; there's information of interest to every man and woman. Just fill out this coupon below."

**"You can bet your Bottom Dollar Germ-Processed Oil won't fail you these cold days"**

The multitude of motorists who have switched to Conoco Germ-Processed Motor Oil know what a great oil it is for summer use. Maybe they are wondering how it will act in cold weather at zero and below.

The makers of Conoco know. Better still, thousands of users know, from their experiences of last winter. In Canada, Montana, the Dakotas . . . in Denver . . . with temperatures far under zero, Conoco Germ-Processed did not congeal. It remained fluid and continued to furnish efficient lubrication.

This accomplishment is no surprise. Conoco Germ-Processed is easy starting, non-congealing at sub-zero temperatures, because it is a thoroughly de-waxed paraffin base oil. The Penetrative Lubricity of Germ Process makes certain an ever-present lubricating film in your motor, even after long periods of idleness . . . particularly valuable at starting time, when 40% to 60% of motor wear occurs.

Save this wear on your motor . . . your battery . . . your nerves. Drain and refill now with the proper grade of Conoco Germ-Processed oil at the sign of the Conoco Red Triangle. All grades, 35¢ per quart.

**CONOCO GERM PROCESSED PARAFFIN BASE MOTOR OIL**

Time is on Conoco Lubricator's Hour . . . On 16 leading stations across the country . . . a program somewhere every day from Monday to Friday. Your nearest Conoco station will give you a log of stations, days and time. Here is a unique radio program . . . built upon the preferences of the listeners.

**AUTO SALES FALL UNDER 1930 TOTALS**

Austin, Texas, Feb.—New automobiles purchased in seven representative counties of Texas during January totaled 2,410, according to the Bureau of Business Research at the University of Texas. This figure compares with 3,995 during the corresponding month of 1930.

**THE TWO-CENT RAILWAY FARE**

From the development of the past few months there is beginning to dawn a hope that soon the traveling public is to enjoy a two-cent mile fare from the railways and the bus lines.

Several specific instances are on record where the two-cent has been granted to railway and bus lines, and it is the hope of the people generally that this rate will soon become the accepted standard.

When the two-cent fare is with us, maybe then we can get an adjustment with the pullman company so that the surtax may be taken off and a small reduction on upper and lower berths secured.

Every auto is a competitor of the rail and bus lines, and they are beginning to realize it.—Clarendon News.

**BEAT THIS ONE**

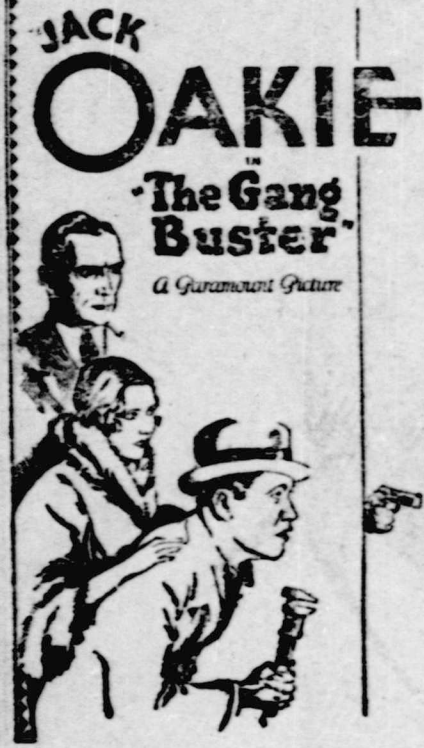

A quiz listed the following question: "Define a bolt and nut and explain the difference, if any." A sweet young thing submitted the following: "A bolt is a thing like a stick of hard metal, such as iron, with a square bunch on one end and a lot of scratching wound around the other. A nut is similar to the bolt only just the opposite, being a hole sawed off short in a chunk of iron, with wrinkles around the inside of the hole."

Despite the very disagreeable weather, the town was full of our farm folks Monday, who were attending the short course.

**Jones Stores Have On Big Mid-Winter Sale**

Some six or seven of the Jones Dry Goods stores of the Plains section now have on their mid-winter sales, which are now under way, and which they advertise by putting out thousands of circulars with the same prices and conditions. These circulars are always issued by some paper in one of the towns where the stores are located, and the Herald sometimes gets the work, and sometimes a neighboring paper gets it. Kinder passed around.

But you will likely see one of their big circulars or the half page display in the Herald last week. They have thousands of splendid bargains that await your selection. Be sure and attend the sale here before the stock is depleted. In a few weeks the new spring stocks will replace the winter goods they are clearing.

**FOR EFFICIENCY IN COURTS**

Senator Woodward's bill to permit defendants accused of crimes other than capital to waive jury trials and take their chances at the hands of the judge was enacted by the Senate Monday. The measure has no other purpose than to lessen the congestion of criminal dockets and speed justice. It infringes no fundamental right of the defendant and involves no radical experiment.

Under existing conditions, hardly less time is required in the criminal courts for a case in which the defendant pleads guilty than for one in which there is a contest. A jury panel must be summoned and examined, and the jury when obtained must listen to the evidence and return a verdict which, in addition to fixing the punishment, can only repeat what the defendant already has admitted. A law which would allow the judge to hear the evidence and pass sentence in cases where the defendant waived the right of trial by jury undoubtedly would speed matters.

Judicial reform is vastly needed in Texas. Simplification of procedure is vital. Senator Woodward's bill tends to accomplish this.—Star-Telegram.

Bob Owens had a lot of his chicks from his hatchery at Rotan on display at his store over the week-end. He reports that he sold all of them.

The lecturers for the IHC Short Course here will go from here to Levelland, where they will be Thursday and Friday this week.

Butler trial dropped on Italy's aversion to endangering relations.

**Special Nursery Offer**

Beginning Saturday, February 28, for 10 days, we will sell 4 to 5 ft., 2 year old Peach, Apple Plum and Cherry trees in leading varieties, adapted to this country at \$4.00 per doz., 2 year monthly roses in fifteen leading kinds and colors \$3.00 per doz. Nice grape vines \$1.50 per doz. You will save money on your Evergreens, Chinese Elms, Flowering shrubs and other items by coming direct to the Nursery and seeing what you buy.

**DR. CARL'S DISCOVERY STOPS GAS, CONSTIPATION**

In his private practice, Dr. Carl Wescheke first perfected the simple mixture now known as Adlerika. Unlike most remedies, Adlerika acts on BOTH upper and lower bowel and removes old poisons you would never believe were in your system. Stops GAS bloating in 10 minutes! Relieves chronic constipation in 2 hours! Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel! It will surprise you!—Alexander Drug Store.

**FAVORS FAIR DEAL FOR SOLDIERS**

The World War Veterans were drafted without their consent. Thousands of them paid ten per cent interest on money they borrowed to pay for Liberty Bonds and many of them sold their bonds later or less than cost. The soldiers were forced to pay \$7.00 per month for insurance out of the \$30.00 they received per month from the Government. The civilian received more than twice as much as did the soldier for their labor during the War not to consider the hardships, exposure, heart aches, and mental anguish of the boys on the battlefield and in the camps, whose sacrifices made it possible for the bondholders, bankers, business enterprises and the American citizenry to succeed in business. The Veterans earned and paid for every dollar of their certificates or so called Bonus. The railroad properties were confiscated, but all of its property was returned in first class condition with a large Government appropriation, or bonus.

Mr. Hoover had a measure passed by Congress to furnish the starving Belgians Twenty Million Dollars (\$20,000,000). There was no protest from President Coolidge, Secretary Mellon or any of the big bankers or bondholders.

But when Congressman Garner and other Democrat and Republican Congressmen proposed cash payments to the Veterans it was swatted. The certificate measure was then introduced, propaganda was immediately broadcast throughout the United States, Secretary Mellon said it would create a tremendous deficiency. Congressman Garner and others took issue and contended that it would not create a deficiency but would leave an excess. The bill passed, was vetoed and later passed over President Coolidge's veto.

**YEAR AROUND GARDEN DEMONSTRATOR SUCCEEDS**

Post—Forty-five feet of blackeyed peas furnished a family of five with all they could eat for the summer and a sufficient surplus to can 14 quarts and dry three quarts for the winter, according to Mrs. S. M. Lewis, member of the Pleasant Valley Home Demonstration Club in Garza county. Three rows of cucumbers yielded all the family needed and enough more to can 57 quarts, put up three gallons in brine and sell 75 cents worth. Mrs. Lewis is a year around garden demonstrator who planted 10 varieties of vegetables and had something fresh from her garden every month of the year. She cleared \$51.15 from sales in addition to furnishing the family all that they could eat.

**NARY A HOOT**

Rastus: "Wha' fo' you all lookin' so unnecessary, Mose?"  
Mose: "Ah feels like a dumb owl."  
Rastus: "A dumb owl? Boy, reveal your meaning."  
Mose: "Ah jes' don't give a hoot."  
Perryton—City accepts new domestic lighting rate cut.  
Borger—Post office receives new truck for parcel post delivery.

**ANOTHER TOLL LINE FOR SEMINOLE**

The building of a new copper toll line from Lamesa to Seminole is now under construction. New twenty foot cross-arms poles have arrived in Lamesa and are being distributed over the route.

The old line between Lamesa and Seminole has been out of commission for some time and calls going that way have been handled by way of Brownfield or Midland, causing patrons in this section much confusion in using same. However, it is hoped that within a short time satisfactory service can be had over the new line.—Seminole Sentinel.

**ALL THE WORLD LOVES**

The growth of observation of St. Valentine's day in the United States is an interesting phenomenon. "All the world loves a lover" is a truism which still seems to hold true. In recent years, with the growth of marital problems, divorce, companionate marriage, etc., our attention has been focused more and more upon the expression of human affection. No matter what forms of institution ultimately develop out of the modern chaos, we have assurance, however, of the fact that "lovers" are always with us.—Sovereign Visitor.

Winters—York Variety Store held formal opening in their new location on North Main Street.

Borger—Southwestern Bell Telephone Co. will begin work soon on new building.

Marfa—Work being rushed on local airport.

Hoover assures Democrats of liberal view on relief compromise.

**WONDER IF T-P HEAD HAS RABBIT FOOT**

Dallas, Feb.—Oil men call him "Lucky Lancaster" and are wondering if J. L. Lancaster, president of the Texas and Pacific railroad, carries a rabbit's foot in his pocket or possesses a magic shoe from an "iron horse" which serves as a divining rod to locate oil fields.

Ten major Texas oil fields have been discovered along the line of the Texas and Pacific in the last 15 years, since Lancaster became president of the road. These fields include Ranger, Breckenridge-Stephens county, Colorado county, Winkler county, Crane-Upton counties, Big Spring, Pecos, Odessa, all in West Texas. Then in 1929, the Van field in East Texas was discovered, and now the lucky break for the railroad at Longview.

One prominent oil operator called at Lancaster's office today to ask for a "working map" of the railroad company's lines.

"Say, I've just about decided to abandon all wildcatting," he explained, "and instruct my geologists to locate only in the vicinity of your railroad. When I'm working through new territory and run across a railroad, all I want to know is if it belongs to the Texas and Pacific. If it does, then I am going to dig as close to the right-of-way as possible."

Burnet—Road being built to Beaver Creek lead mines.

Sierra Blanca—Talkie equipment to be installed soon in Sierra Blanca Theatre.

Report shows employment gaining in some areas.

Bankers' Journal finds gains in industrial lines.

**BUT THERE'S STILL HOPE, SAYS FARM BOARD**

Some reduction in production may be expected, according to the Federal Farm Board's "Outlook for Cotton," in India, Brazil and Peru, where the fall in prices may tend to discourage production next year, and the board concludes that American cotton growers will be able to continue in competition with foreign growers.

The Texas seed program is intended to help the cotton farmer win back his foreign markets with a high-quality product, grown at the least possible cost. The seed program is one of three things which state agricultural agencies have set up as fundamentals, without which the cotton farmer succeed. The other two are better land and better cultivation. Small yields per acre will not return a profit, whether they result from poor seed, poor land or poor cultivation.

"Who is really the boss in your house?" inquired th friend.

"Well, of course, Maggie assumes command of the children, the servants, the dog, the cat, and the canary. But I can say pretty much what I please to the goldfish."

Mrs. Claude Bryant, or route three, was a caller at the office Tuesday.

Crowell—Post Office Department secures ten-year lease for building in which it is now located.

Pampa—Allocation of \$180,000 made by Congress for construction of post office for this town.

Noticed among those attending the Short Course Monday was Gus Ratcliff of the Union community.

**The CAMELS! are coming.**

This is the Camel package in which a significant change has recently been made

**\$50,000 REWARD**  
for the best answers to this question:

**What significant change has recently been made in the wrapping of the CAMEL package containing 20 cigarettes and what are its advantages to the smoker?**

First Prize, \$25,000

Second Prize, \$10,000 Third Prize, \$5,000

For the five next best answers . \$1,000 each

For the five next best answers . \$500 each

For the 25 next best answers . \$100 each

**Conditions Governing Contest:**

- 1 Answers limited to 200 words.
- 2 Write on one side of the paper only.
- 3 No entries accepted that bear a postmark later than midnight, March 4, 1931.
- 4 Contest open to everybody except employes and executives of R. J. Reynolds Tobacco Company and their families.
- 5 In case of ties, the full amount of award will be paid to each of the tying parties.
- 6 It is not necessary to buy a package of Camel cigarettes in order to compete. Any store that sells cigarettes will permit you to examine the Camel package containing 20 cigarettes.

All communications must be addressed to Contest Editor—R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.
