Satellite View Of Stormy Areas

This picture snapped by the ESSA 11 weather satellite shows Hurricane Inez as she swirled between Haiti and Cuba. Tropical storm Judith, at right, was breaking up into an easterly wave today. (AP WIREPHOTO)

Cuba, Haiti Attacked By 'Killer' Hurricane

Blackout Hides Giant Tragedy

MIAMI, Fla. (AP)—Hurricane Inez fell on Cuba with savage fury today and in her gray, soggy wake a communications blackout may have concealed a great human tragedy in Haiti's "Valley of Death."

The known death toll of the tropical storm had reached 88 as Inez attacked Cuba's Oriente Province with a sustained blow of 138 miles per hour and possibly with gust much more powerful than that.

"I don't see how Haiti could have escaped a disaster," said Gordon Dunn, chief of the Miami Hurricane Center.

Reports dribbling in from the Barahona Peninsula of the Dominican Republic, where fallen communications lines also had hidden the fate of its residents, said at least 55 were dead and almost all crops were destroyed.

33 PERISH

Thirty-three were known to have perished in the French island of Guadeloupe, where Inez made her first landfall.

Weakened in her titanic battle with the mountains of Haiti and the Dominican Republic, Inez regained much of her ferocity in the water crossing to Cuba.

Guantanamo City reported to the U.S. Weather Bureau that it was taking sustained winds of 138 miles. Normally, peak gusts are considerably stronger than sustained velocities.

Fidel Castro's struggling economy faced an agricultural disaster as Inez moved into the ripening tobacco fields. Giant tides swept ashore as the storm screamed inland.

As dazed victims of the great hurricane poked through the rubble of thousands of homes on Caribbean islands, Floridians breathed more easily.

Dunn said the storm was curving toward the north, on a track that would keep it clear of the U.S. mainland.

But the switch brought the Bahamas, a British island chain paralleling the Florida coast, into an area of immediate peril. Residents were warned to begin preparing for the storm.

Forecasters were unable to issue an "all clear" for Florida but Dunn said: "We have real cause to be optimistic. The chance that the hurricane will seriously affect the state appears remote at this time."

GIANT FLOODS

And Dunn said gigantic floods surely raced down the steep slopes into the valleys and among the tin and thatch-roofed homes of the natives in this poverty-ridden nation.

The known death toll reached 39 in the French islands of Guadeloupe and the Dominican Republic, but it was feared that hundreds of others may lie dead along the way.

But as dazed victims of the great hurricane poked through the rubble of thousands of homes, Floridians breathed more easily.

Inez is on a course, Dunn said, which seems destined to keep the killer storm clear of the U.S. mainland. A weakening high-pressure ridge to the north appears to be pulling it into a track that will curve it to the north and then northeast.

"We can't say that with absolute certainty," Dunn said, "but we have real cause to be optimistic."

In Guadeloupe, 33 bodies have been found and hundreds of injured were being treated in hospitals damaged by the wind and without electric power. Bread lines were formed by 15,000 left homeless.

COFFEE CROP HIT

Rain pounded Cuba's ripening coffee crop in the mountainous province of Oriente and Castro went there to appeal for evacuation of the dangerous lowland areas.

As the full fury of Inez strikes the island, tides of six to 10 feet are expected to smash over the coastlines.

Found Slain

Irene Brandt, 20, a bank teller who moonlighted as a go-go dancer in a discotheque at night, was found slain, her throat slashed and her body trussed, floating in a sump at Blue Point, Long Island, today. She had been hunted by the FBI as an embezzler of $21,000 from the North Merrick, Long Island, branch of the Hempstead Bank. (AP WIREPHOTO)

Guard Troops Leave 'Frisco

SAN FRANCISCO (AP) — Some National Guard troops left San Francisco today, underlining official hopes that three days of racial disturbances were near an end.

Heavy trucks loaded with helmeted troops rumbled out of the parking lot at Candlestick Park, baseball home of the San Francisco Giants and one of two bivouac areas for the Guard.

Maj. Gen. Paul R. Teilh, Guard commander, announced as the troops started for home: "We now have about 1,000 men in the city. At the highest concentration we had 2,000." The strength of troops hereafter, he said, will be determined "on a day-to-day basis."

NEGROES AID

Young Negroes volunteered as members of peace patrols today, wearing silver arm bands provided by police. They walked the streets of riot-shaken Hunters Point, on the bay near Candlestick Park, to try to preserve the uneasy racial truce.

A large group of demonstrators, most of them white, and many of them bearded, was broken up by police late Thursday night as the adults and juveniles paraded with banners reading "Burn, baby, burn," and "Cops are murderers."

Police said 121 persons were jailed after they paraded in front of City Hall under the banner of "Students for a Democratic Society." Nineteen of those arrested said they attended the University of California at nearby Berkeley.

Those arrested were booked for violating the 8 p.m. curfew imposed during the race disorders.

City police confined their augmented patrols to the communithe streets of riot-shaken Hunty's business thoroughfare. City officials had the cooperation of federal authorities in their move to eliminate what they call the cause of the riots — Negro unemployment.

GET HOME

San Francisco Mayor John Shelley, saying he realized he may be jeopardizing his public career, blamed racial discrimination by labor unions and "archaic attitudes" of employer or management groups.

Shelley appealed to all San Franciscans to get home by 10 p.m. and stay there until 6 a.m.

He stressed that he was not placing a curfew on the entire city but asking that all streets be cleared "so that at that inspirational time of dawn we can start work on a creative and exciting program to cure our illness."

JOBLESS

The mayor met with San Francisco Negro leaders and promised to talk with both labor leaders and private businessmen in an effort to increase minority opportunities in the city's economic structure.

Shelley's telegram to President Johnson in which he asked for federal funds to attack the "critical unemployment situation" in the Negro areas, resulted in swift action.

President Johnson ordered White House assistant Joseph A. Califano to work on Shelley's request with Secretary of Labor W. Willard Wirtz and Sargent Shriver, director of the Office of Economic Opportunity.

The weather which had been in the 90s since rioting broke out Tuesday was expected to be cooler today.

ON ALERT

About 1,200 National Guardsmen remained on alert in encampments set up in two of San Francisco sports arenas, Kezar Stadium and Candlestick Park, although only sporadic violence was reported overnight.

About 10 leaders of the peace patrol gathered in an evening meeting at the headquarters of the local antipoverty program and reported that there had been no incidents while they were on duty in the residential areas of Hunters Point where rioting broke out Tuesday night after a policeman shot and killed a Negro youth running from a stolen car.

An 8 p.m. to 6 a.m. curfew was enforced in Hunters Point and in the Fillmore district, San Francisco's other major Negro community located five miles to the northeast.

42 HURT

There were no arrests reported in those areas to swell the arrest total of 208 adults and 29 juveniles picked up since the racial strife began. And there were no new injuries. That total stands at 42, including two policemen and a fireman.

However, in the racially mixed Haight-Ashbury district, which adjoins Fillmore, 60 demonstrators were arrested for violating the 8 p.m. curfew.

PEACE PATROL

Gov. Edmund G. Brown, after spending Wednesday night in San Francisco, flew back to Los Angeles Thursday. He told newsmen he was satisfied that military and police forces had achieved full control in the riot areas.

The jobless rate for Negro males in the five-county San Francisco Bay area is triple the white rate. The rate for Negro women is twice the Negro male rate.

The peace patrol was organized by Negroes after Police Chief Thomas Cahill agreed to keep squad cars out of the residential areas of Hunters Point if residents would keep the peace.

National Guardsmen stayed out of the picture, except to protect firemen responding to alarms, both real and false, and to help in the arrests in the Haight-Ashbury district.

B52 Bombers Deliver One-Two Viet Punch

SAIGON, South Viet Nam (AP) — B52 bombers delivered a one-two punch today in two raids against North Vietnamese forces fighting U.S. Marines just south of the demilitarized zone.

The B52s unloaded tons of bombs on infiltration routes, and supply and assembly areas for the Communists fighting on the southern edge of the zone dividing North and South Viet Nam.

One raid hit 20 miles southwest of Dong Ha, now a major base for Marines battling North Viet Nam's 324B division in Operation Prairie. The other bombing attack was made 18 miles northwest of Dong Ha.

51 BODIES

The two raids came less than 12 hours after Marine artillery, mortars and napalm rained down on a Communist command post in a valley a mile and a half below the demilitarized zone. The Marines occupied the post and found 51 North Vietnamese bodies.

U.S. forces in Viet Nam rose to 317,500 today with the arrival of 2,500 more men — most of them support units — of the 4th Infantry Division. U.S. forces in Viet Nam now outnumber the 317,000 men which South Viet Nam's regular army claims by 500, although the South Vietnamese also claim to have nearly 400,000 militiamen, local forces and the like.

U.S. planes flew 126 bombing missions over North Viet Nam Thursday, and pilots claimed damage or destruction to 52 barges, 13 bridges, nine antiaircraft sites and eight buildings. Three of the antiaircraft sites were in the Dong Hoi area and contained 24 guns.

American pilots flew 474 single-plane sorties over South Viet Nam Thursday and claimed destruction or damage to 238 enemy structures or fortified positions and 31 sampans. South Vietnamese pilots flew 153 combat sorties.

During raids in the South today a U.S. Air Force F100 Supersabre crashed while en route to bomb a Viet Cong position 14 miles northwest of Saigon. A U.S. spokesman said the pilot bailed out when his engine faltered, possibly from ground fire, but headed his bomb-laden plane for the target area. The pilot was rescued.

MARINES SWEEP

The Marines swept on the Reds' valley post after capturing a heavily fortified hill to the south and killing 50 Communist defenders.

The Leathernecks poured a heavy barrage down on the entrenched Red force, and jet planes rained fiery napalm on the 1,000-yard- long target area. Then ground troops moved in and occupied the network of bunkers, tunnels and holes which had served as a regimental or battalion command post.

The Leathernecks found 51 North Vietnamese dead in the valley. This raised to 933 the total of Communists reported killed since the Marines launched Operation Prairie on Aug. 3. The Marines have described their own casualties as moderate, meaning that some of their units have been badly hit in the two-month-old series of battles with North Viet Nam's 324B division.

POLITICAL FRONT

On the political front, Premier Nguyen Cao Ky told newsmen he would never agree to have the Viet Cong represented at peace negotiations. He added that he had not received any official word on the U.S. attitude.

The United States originally said it would not sit at a conference table with the Viet Cong but suggested later that Viet Cong representatives serve as part of the North Vietnamese delegation. In a new statement of U.S. peace proposals before the U.N. General Assembly last week, Ambassador Arthur J. Goldberg said if Hanoi wants peace there should be no insurmountable problem about getting the Viet Cong's views heard in the peace talks.

Norther Triggers 4 Traffic Deaths

By The Associated Press

A strong norther whipped into Texas today, resulting in at least four traffic deaths, bringing blasts of cold aid and setting off heavy rain in some areas.

Two Dallas men and a woman from Ben Wheeler, Tex., were killed in a two-car crash during rainy weather at Crandall, near Dallas. A fourth person, Randall Kannady, 20, of Dallas, suffered criticial injuries.

The victims in the Crandall crash were not identified immediately.

The cold front promised to force temperatures to within a few degrees of freezing in the upper Panhandle and to bring sharp drops in most other sections tonight and Saturday.

Winds with gusts up to 58 miles per hour at Amarillo booted the mass of cold air along, but abated after the forward edge of the new front passed. Blowing dust lowered visibility to five miles at Dalhart for a short time.

MERCURY DROPS

The mercury plunged 13 degrees, from 83 to 70, in 30 minutes at Brownwood as the front moved through there at 9:30 a.m. There was some blowing dust.

Petrolia received a 1.55-inch downpour in one hour and Burleson got 1.12 inches. Wichita Falls had .82 inch of rain, bringing its monthly total to 7.45 inches and making it the second wettest September in the history of the Weather Bureau there. It was the wettest in 30 years. Normal rainfall for Wichita Falls is 2.33 inches for Septemeber.

HOWLING WINDS

Winds of 35 miles an hour lowered the temperature at Wichita Falls from 74 to 57 within an hour this morning.

Other rainfall included .48 inch in downtown Fort Worth and .40 inch at Springtown.

At least one traffic death was indirectly blamed on heavy rain.

Bob Vansickle, 71, of Wichita Falls was killed today when the pickup truck he was driving collided with a truck on US 287 outside of Henrietta. He was returning from a fishing trip at Bowie.

Stock Market Bounces Back

NEW YORK (AP)—The stock market did a quick turnaround late this afternoon, advancing vigorously after sinking below its closing low on average for 1966. Trading was active.

Volume for the day was estimated at 6.4 million shares compared with 6.11 million Thursday.

At midsession the Dow Jones industrial average was down 6.02 to 766.64—smashing through the closing low of 767.03 made Aug. 29 — but the penetration was only temporary and "bargain hunters" raced back into the market to erase the loss and give the Dow industrials a small gain on average.

Wind Damages Lions Fun-O-Rama

It's an ill wind that blows down a charity project.

Downtown Lions Club members could see little good about the brisk norther, with 40-mile gusts, which completely wrecked the booths for its annual Fun-O-Rama at College Parks Shopping Center.

The booths, constructed of light steel frame, were covered with old parachutes. Wind caught these, capsized most of the booths, blew some off the grounds and across the street. Others were hopelessly twisted.

"We got word of what was happening just in time," said Frosty Robison, construction chairman for the club. "Some of us got there just in time to cut the parachutes loose and prevent the steel from blowing into the shopping center area."

Fun-O-Rama will operate this evening and Saturday without booths, said Robison. All of the rides such as the ferris wheel, scrambler, tilt-o-whirl, roller-coaster, merry - go - round, etc. were unharmed. With no football game this weekend, Robison expressed the hope that many would come to patronize the rides, and that the same would be repeated Saturday from 2 p.m. until 10 p.m. or after. Proceeds from the project go to the Lions charity and welfare programs.

Meanwhile, Robison put out an SOS to club members to report at 5 p.m. today to help dismantle the tangled steel frames.

Temperature Dips At 'First' Norther

The first "norther" of the fall season swept into Big Spring at 7:30 a.m. today, toppling the temperature sharpy and stirring up some dust.

At midmorning, the thermometers stood at 58 degrees. This, until the current chill spell, would have been an acceptable "low" for a nighttime reading.

The forecast for the area calls for continued cool, gusty winds and possible thundershowers. The skies were overcast at noon.

Cigarette Smoking Expected To Jump

WASHINGTON (AP) — The government predicts Americans will smoke 541 billion cigarettes this year, or 2 per cent more than last year's record of 528 billion.

The Agriculture Department also reported a reverse in the switch to cigars and cigarillos that followed the government report on the health dangers of cigarettes. Use of these items dropped 2 per cent.

The department said the climb in cigarette consumption reflects an increase in the number of persons of smoking age, high levels of consumer income and larger shipments to armed forces overseas.

ONE GIFT WORKS MANY WONDERS

THE UNITED WAY

IF THEY WANT TO ATTEND SCHOOL

Moptops Must Shear Locks

DALLAS (AP)— A U.S. district judge ruled today that the Dallas school system has the authority to deny admission to high schools to boys whose hair is too long.

"The conditions or terms upon which a public free education are granted in the high schools of Texas cannot be fixed nor determined by the pupils themselves," said Judge W. M. Taylor Jr.

This in effect denied admission to high school of three long-haired musicians unless they shear their locks.

The lawyer for the youngster said he would meet with the trio later today to decide their next action.

BARBER SHOP

"As it stands now, they'll either be escorted to the front door of the school or to the barber shop," the lawyer said, adding that the boys at the moment were in school.

The three are Phillip Farrell and Paul Jarvis, both 17, and Stephen Webb, 18, members of a combo called "Sounds Unlimited."

A federal temporary injunction permitted them to attend school while the case was being decided.

They were refused admission to Samuell High School Sept. 7 because of their long hair.

They attempted to register at other Dallas schools and were turned down.

CIVIL RIGHTS

The case was filed in Federal Court because the youths claimed their civil rights were being violated.

Lawyers for the Dallas school system argued the federal courts lacked jurisdiction.

William S. Lanham was the Samuell High School principal who first refused admission of the youths. He said wearing of long hair causes derisive remarks to be made about the boys, one of which is, "The girl's rest room is right down the hall."

'MOHAWK'

Lanham claimed that wearing of long hair was a disruption in the school.

The youths contended that their contract with their agent prohibits them from having their hair shorn. They said they signed the contract Aug. 16.

The defense brought witnesses in the three-day hearing attempting to show that odd-type haircuts were not distracting to the school as a whole, and particularly mentioned the "Mohawk" type of very short hair except for a longer portion down the center.

"Everywhere you look, on television, in personal appearances and in movies and magazines, this fad (of long hair) has been accepted by the youth of our country," said Herbert Hooks, lawyer for the boys in court arguments at the end of the hearing.

"No education has been denied these boys," said Warren Whitham, an attorney summing up for the school board. "An education on their terms has been denied."

The school board contended that its principals need the authority to determine what dress, appearance or behavior might be harmful or disruptive to other students.

Judge Taylor handed down the brief decision in chambers. He said a lengthy written opinion would follow.

The judge said the principal of the high school and the superintendent of Dallas schools had not "acted arbitrarily, capriciously, nor unreasonably" in refusing to admit the boys to high school.

He also noted that the musical contract which "is unenforceable against the minor plaintiffs" has no bearing on wnether the boys should be admitted to school.

Bureau Chief Crash Victim

PUTNAMVILLE, Ind. (AP)—William H. Richardson Jr., 38, chief of bureau for The Associated Press at Indianapolis, was killed today when his car skidded into a truck on rain-wet US 40 east of here.

Richardson had visited AP newspapers in three cities the past three days and was returning to Indianapolis for a morning meeting when the accident happened.

State police said his compact auto went out of control, crossed the grassy median and rammed the semi-trailer truck head on. The truck driver was not hurt.

United Fund Goes Upward

The United Fund soared to $18,516.79 today as the second week of solicitations drew to a close.

Of the total collected, Ron English in the UF office, said that it represented 13.3 per cent of this year's United Fund goal of $139,877.51.

Big gifts drive accounted for the majority of the money, a whopping $17,804. Other donations came from the payroll deduction section of the employe division, $652.79; special gifts, $50; and metropolitan division, $10.

Special gifts and the metropolitan division have not kicked off as yet, but several payments began trickling in the last of this week to UF headquarters, 106 Permian Building.

The main portion of the drive will begin next week.

NOTICE

Effective Monday, Oct. 3, the news stand price of The Herald on weekdays will be 10¢ per copy.

This advance is in line with that of other newspapers over the country, and The Herald is among the last in Texas to change its price.

This does not affect home delivery rates.

The Sunday issue will remain at 15¢ per copy on news stands.

TEXANS AT WAR

Lost Right Leg For Good Cause

By The Associated Press

"I lost what I lost . . . for a good cause," says a 19-year-old Marine who returned to Mesquite, Tex., from Viet Nam with two Purple Hearts but minus his right leg.

"No, I'm not bitter about it," said Clarence Lewis.

He considers himself lucky to be alive. He was the only survivor of an early morning surprise attack on his bunker 13 miles northwest of Da Nang April 18.

EXPLOSION

"I was asleep on top of the bunker. There were four of us. I heard two of the others talking on the phone about seeing someone moving around," Lewis said.

He clambered inside to load a machine gun but was knocked away by an explosion.

"I tried to get to another machine gun when I was hit under the legs. They were throwing grenades and mortar.

"A buddy was standing at the door of the bunker. I told him I lost my leg and needed a tourniquet. But he didn't make it. They hit him with a grenade —killed him instantly, I guess."

HUGGED HIM

He said the Viet Cong entered the door about the time he realized everyone else was dead. He played dead himself.

After five months in Oakland Naval Hospital, where his left leg was saved by skin grafting, Lewis returned to Mesquite to a hero's welcome from the mayor and members of his old Boy Scout troop.

His parents, Mr. and Mrs. Clarence Lewis Sr., and his sister Betty hugged him as he walked across the airfield on crutches.

After a 30-day leave he will return to the hospital for more treatment and eventually a medical discharge.

Watchful Weapon

Women and children, rounded up when U.S. Marines moved into a Viet Cong controlled village about 1,000 yards south of Viet Nam's demilitarized zone, look up as they are interrogated. One Marine stands guard over them with his rifle pointed over their heads. The Marines captured the hamlet after a short firefight with snipers. All civilians were later released. (AP WIREPHOTO)

Buffer Zone Defoliation Advocated By Officers

DONG HA, South Via Nam (AP) — Senior American military officers want to defoliate the demilitarized zone between North and South Viet Nam, but they are encountering obstacles.

The high-ranking officers want to use chemicals to kill the leaves of trees and other plants along the zone, depriving North Vietnamese infiltrators of natural cover.

The advocates apparently have not cleared the hurdle of Pentagon permission.

DIRECT ROUTE

The United States now estimates 6,000 men a month are moving into South Viet Nam from the Communist north. Many use the direct route across the demilitarized zone. Others take a longer, more difficult journey through Laos and Cambodia.

Reconnaissance teams working from observation posts on the ground try to keep a watch on the demilitarized zone's traffic, but lack of mobility and need for concealment hamper them.

ARGUMENT

The argument is that if all the leaves were killed, small airplanes could take over the job in the daytime. If equipped with infrared spotter scopes, they could even do it at night.

The 1954 Geneva convention which divided Viet Nam into two countries made the demilitarized zone a no-man's land where no military activity was supposed to take place.

Last July 31, the United States began using B52 bombers from Guam to strike the zone, explaining this was necessary to stop Communist infiltration to the south. The clandestine movements did not stop, and the bombings continue.

HESITANT

The men running the war are hesitant to approve defoliation of the zone itself because of international criticism such a move is likely to evoke.

An alternate plan, known to be popular with top U.S. officers in Viet Nam, is to defoliate a wide strip of countryside just south of the zone's southern boundary. A buffer strip flanks the river which is the actual border between the two Viet Nams.

Men in a position to recommend defoliation estimate such a project would require 2,000 airplane loads of chemicals.

To Attend School

Deen Booth, field representative for Woodmen of the World society, will attend a four-day basic field school at Temple, Tuesday through Friday of next week. Field representatives from three states have been invited to take part.

RELIGION BRIEFS

Laymen's Revival Opens On Sunday

Baptist laymen in the Big Spring Association are joining hands for a week's revival meeting at Hillcrest Baptist Church, Lancaster and Gregg at Twenty-first Street.

Dr. Howard C. Sivills, for many years in the state Brotherhood office in Texas and now brotherhood secretary for New Mexico, will be the speaker. An all-male choir will be used under the direction of Glenn Faison, Bob Priddy and Jim Stephens, and men also are to serve as pianist and organists. A meeting of all committees on the revival will be held Saturday evening at the Hillcrest Church, said Rev. Clyde Campbell, pastor.

Hill Enrolls In Seminary

Henry Martin (Bud) Hill, son of Mr. and Mrs. G. W. Hill, 3005 Cactus, has enrolled for study at Golden Gate Baptist Theological Seminary, Mill Valley, Calif.

A graduate of Hardin-Simmons University in Abilene, Hill is working toward a master's of religious education degree at the seminary, immediately north of San Francisco's Golden Gate Bridge.

Pastors Group To Meet Oct. 5

A discussion of a community religious survey will be the main item on the agenda of the Big Spring Pastors Association Wednesday at 7:30 a.m. at Coker's Restaurant.

Darwin Farmer, Dallas, direct missions department, Texas Baptist General Convention, and Clifford Nelson, Brownwood, Baptist area missionary, will be present to discuss the survey with local pastors.

Host church is the Nazarene Church and the Rev. D. M. Duke, host pastor. President of the Big Spring Pastors Association is the Rev. Leo K. Gee, First Methodist Church.

Westbrook Church Plans Revival

WESTBROOK (SC) — The Rev. Roy Shahan of Immanuel Baptist Church, San Angelo, will be the evangelist for the fall revival at Westbrook Baptist Church beginning Sunday and continuing through Oct. 9. Morning services weekdays will be at 7:30 a.m. Prayer services will be held each evening at 7 o'clock.

Sid Williams, China Grove, will direct the singing, and Mrs. Charles Ranne, church pianist, will provide special music. The Rev. L. B. Edwards is the pastor.

Carr Blasts Tower's Trip To Viet Nam

By The Associated Press

Texas' rival Senate candidates found another area of sharp disagreement Thursday — over whether Republican Sen. John Tower should visit South Viet Nam.

Atty. Gen. Waggoner Carr, the Democratic nominee contesting Tower's bid for another term, chided the senator for "taking up Gen. (William C.(Westmoreland's time." he also said:

"I would rather put my confidence in our men from West Point than in an associate professor who bases his thinking on a three-day trip to Viet Nam."

Tower retorted:

BOMB TARGETS

"The commanding officers and the men fighting there welcomed our visits. I visited Viet Nam twice, and when this election is over I'm going back. We must inform ourselves as to how our boys are being supplied and of the peration there."

At the same time each man expressed general approval of the President's Viet Nam policy.

Tower said he feels military targets should be bombed in Hanoi and Haiphong, the major North Viet Nam cities. Carr said this was a matter which military men should decide.

Both candidates spent the day stumping East Texas, and their impromptu debate occurred as they held separate news conferences at Marshall. Tower arrived there an hour after Carr moved onto the next stop.

CONCERN

Tower again expressed concern over lawlessness in a talk at Marshall. He said it stems from "civil riots in the name of civil rights, court orders that thwart and hamper police efforts, public attitudes of apathy and a general slackening of ethics."

The senator called attention to a bill he introduced this year. It would make available federal matching funds for a computerized crime information center in Texas linked to facilities of the Federal Bureau of Investigation.

"Another step I have taken," he said, "is proposed legislation to excempt key law enforcement officers from the draft so that we can better mee tour crime crisis here at home."

DRAFT EXEMPT

Speaking at Kilgore earlier, Tower proposed that farmers be exempt from an anti-inflation move by President Johnson to suspend a 7 per cent tax credit on business investments.

The attorney general and Ramsey both took the opportunity to applaude what they described as greater unity than ever among Texas Democrats.

INFLATION

Carr likewise said that the Johnson administration has tried to check inflation by putting a curb on spending while Tower has voted this year "to spend $3.5 billion more than the President has said was needed to run the government."

He said the investment tax credit should be suspended because it tends to overstimulate the nation's economy.

"We must stop inflation and I am not going to play politics with it," Carr asserted.

The Democratic nominee visited Beaumont and Tyler earlier in the day.

He suggested at Beaumont that Congress ought to authorize a separate maritime department of government. He offered this alternative to including the shipping industry in a new transportation department, as proposed in pending legislation.

TV Losers Being Killed Off Fast

By CYNTHIA LOWRY
AP TV - Radio Writer

NEW YORK (AP) — The losers among this season's television entries are being killed off sooner than usual.

In previous years, network controllers of program destinies have given programs several weeks in which to find audiences and normally it could be anticipated that the national Nielsen reports published on Nov. 7 would indicate whether a series would be summarily canceled or renewed.

"But this year," a network program executive predicted grimly, "The Nielsens released on Oct. 10 — a week from Monday — are the big ones. I predict that the result will be the biggest explosion of cancellations we've seen in a long time."

SIX FACE AX

"The Tammy Grimes Show" had its final broadcast — its fourth show — on ABC Thursday night. And the industry is bursting with rumors about the fate of six or seven more shows which in early ratings showed symptoms of illness.

Among those reported to be on the critical list are NBC's "The Hero" and "Roger Miller Show," CBS' "Jean Arthur Show" and "Run, Buddy, Run," as well as ABC's "Milton Berle Show" and "12 O'Clock High," a returning show in a new time spot.

Network spokesmen usually protest vehemently that ratings are not the only cause of program death. It is certainly true that a number of programs have survived with low ones — "CBS Reports," NBC's "Telephone Hour" are two that come instantly to mind. But these are prestige shows and the usual rules don't apply.

Most regularly scheduled entertainment shows — the comedies, the spy stories, the westerns, live and die by the ratings, and each season roughly one-third of all shows fail to survive — the lower third of the Nielsen ratings list.

TOUGH VIEWERS

This viewer, having watched at least one episode and more often two, of all the new series, is convinced that the season's new product shapes up as a little more slick, a little better produced — and considerably more bland and cliche-filled even than that of last season. And like other interested observers, I find it curious that amid the welter of new programs, no single series has yet shown any signs of becoming a real hit as did, in other seasons, shows like "Bewitched," and "Get Smart," which took off like rockets from their pads.

It is possible, of course, that some of the trouble lies in the nation's living rooms. Over the years our relationship with our sets has changed. We have all seen so much entertainment that we are no longer as easy to amuse or move as we once were.

Baha'i Group Meets Tonight

An introductory discussion on the Baha'i World Faith will be held by the Baha'is of Midland, Big Spring and Odessa at the home of Mr. and Mrs. Mike Craddock, 1804 Dixie, tonight at 8:30 o'clock.

Discussion will center on the Baha'i faith, its relationship to Christianity and the modern world.

Mormons Begin Utah Conclave

SALT LAKE CITY, Utah— The 136th semi-annual conference of the Church of Jesus Christ of the Latter Day Saints convenes in the Tabernacle on Temple Square today through Sunday.

David O. McKay, 93, will preside. Sessions start at 10 a.m. and 2 p.m. daily and feature talks by most of the 39 general authorities who direct the worldwide church affairs.

An area telecast will be featured over KOSA Sunday from 8-11 a.m. (CST).

Special music will be presented by the Mormon Tabernacle Choir, under the direction of Dr. Richard P. Condie; a special 110-voice Samoan Choir of the Oahu, Hawaii, Stake and the Singing Mothers Chorus of the Northwest.

331st FIS Has New Sergeant

M. Sgt. Bobbie J. Stapp, a native of Morenci, Ariz., has been named as new first sergeant for the 331st Fighter Interceptor Squadron, Webb AFB.

A veteran of 15½ years in the Air Force, Sgt. Stapp reported to the 331st from the 4632nd Support Squadron, Oklahoma City AFB.

Stapp and his wife, the former Norma J. Moore of Thatcher, Ariz., have three chidren— Robert, Clifford and Donna. He is the son of Mr. and Mrs. C. E. Stapp, Clifton.

THE REASON: BANNED AGAIN

Freberg Feeling Good

By BOB THOMAS
AP Movie - TV Writer

HOLLYWOOD (AP) — Puckish Stan Freberg is feeling good these days. The reason: He has been banned again.

"Extremism in the pursuit of comedy is no vice," said Freberg, who wears the perennial air of a small-town kid who has just dumped a box of detergent in the city hall fountain.

Radio stations in San Francisco and elsewhere have put the thumbs-down on plays of a selection from the latest Freberg album on Capitol, "Freberg Underground." It features a fantasy called "Reagan meets Flackman," which the stations apparently consider too sensitive to play during the gubernatorial campaign in California.

WRONG ANSWERS

The action features an actor turned politico, boldly identified as Ronnie Reagan, who is advised by his publicity man to shield his former connection with show business. But on a "Meet the Press" show Reagan gives the wrong answers to a questioner:

Q. What about the unrest at Berkeley?

A. As far back as "naughty but nice" and right up to "she's working her way through college," I had first-hand knowledge of student problems of one sort or another. I straightened out Betty Grable in that one. Of course it's important that a governor has a sense of humor, too. Did you catch me in "Bedtime for Bonzo."?

HOW'S THAT—LADY

Q. "Bedtime for Bonzo"? These are violent times, Mr. Reagan. How are you equipped to handle a major crisis?

A. In "King's Row" I lost both my legs! How's that for a crisis, lady?

Reagan doesn't get all the lumps from Freberg, whose approach to the campaign is more of a sledge-hammer rather than a stilleto technique. He depicts incumbent Edmund G. Brown as an unsmiling drudge who explains: "You'd look crabby too, if you were governor of a state full of kooks like this one."

At his baronial office on the Sunset Strip, Freberg admitted that he leaned toward Brown in the election, but ever so slightly. "What a choice!" he complained. "It's like choosing between Guy Lombardo and Lawrence Welk for governor of California."

Plane Hijack Leader

Maria Christin Verrier, 27, above, who owns a small theater in Buenos Aires, Argentina, was one of the leaders of 18 young Argentine nationalists who hijacked an airliner with 48 persons aboard yesterday and forced it to land on a race track at Port Stanley, capital of the Falkland Islands which the British run. The extremists want the British to recognize Argentine sovereignty over the two tiny islands. (AP WIREPHOTO by radio from Buenos Aires)

Kiwanians Hear From Lt. Gov.

The Rev. V. Ward Jackson, elected last weekend in Fort Worth as Division 22 Kiwanis Club lieutenant governor, told his home club members here Thursday that he regards the election as a "high honor and grave responsibility."

Jackson, who is the immediate past president of the Big Spring club and long active in the organization, was chosen at the Oklahoma - Texas District Kiwanis Convention. Bill Johnson, president elect of the local club, with Delaine Crawford and Don Lovelady, were delegates to the convention and successfully campaigned for Jackson. They reported on the convention.

As lieutenant governor, he becomes the ranking Kiwanis officer for an area in which there are more than a score of clubs.

Texas Teen Killed When Car Hits Tree

McKINNEY, Tex. (AP)—Bernard B. Huebsch, 19, was killed near Anna, north of McKinney, Thursday night when his car ran off US 75 and hit a tree. His home was in the Anna community.

Are you one of those

who thinks you can't get finest quality contact lenses properly fitted for just $70?

If you are . . . you are wrong! Contact lenses from TSO are unexcelled in quality, even though they cost only $70, complete with examination and fittings.

Consult your telephone directory for the TSO office nearest you.

Oil Leaders Honor Texas Wildcatter

NACOGDOCHES, Tex. (AP)—The leaders of Texas' oil industry today honored the original wildcatter who died broke and unrecognized, Lyne Taliaferro Barret.

"Though his personal success may have been limited, there are few achievements in the history of our state which marked the beginning of something so vast and so vital as the Texas petroleum industry today," said Ben Ramsey, chairman of the Texas Railroad Commission.

Barret struck oil 100 years ago with a primitive well that went 106 feet under a grassy meadow 12 miles southeast of here. A second well was a dry holer, and sceptics refused the wiry Confederate veteran further financing.

20 YEARS LATER

Nearby, the first oil field was opened 20 years later.

Ramsey said Barret's enterprise "started something in which every Texan has an interest today.

"Can you imagine what the average citizen and business owner would have to dig up in additional taxes if we did not have the almost $400 million annually in state and local revenues from oil and gas operations?" he asked.

"As we enter the second century of petroleum development in Texas, we realize we are not only heirs to billions of barrels of oil reserves, but also to the wealth of technology which has been developed in every phase of the oil and gas industry," Ramsey said.

BRAINPOWER

"Beginning with Barret's enterprise, oil has stimulated the brainpower and the imagination of many Texans, like few other things which have come along.

"The spirit of adventure and inquiry which marks this industry promises us a continuation of these benefits well into the next century," he said.

Today's ceremonies featured the unveiling of a permanent marker and plaque, financed by Texas Mid-Continent Oil & Gas Association, on the Stephen F. Austin State College campus.

BLESSED

Other activities included putting a marker on Barret's barren gravesite by the Texas Historical Survey Committee, a downtown parade, barbecue, and tour of nearby oil fields.

The centennial observance was sponsored by the Chamber of Commerce, the college, and the oil and gas association.

W. A. Landreth of Fort Worth, representing Texas Mid-Continent as its president, said it was especially appropriate to honor Barret as the state moved into its second century of oil and gas production.

"We hope that our civilization will continue to be blessed by an abundance of men with the spirit of a wildcatter," he said, "not only in the search for oil and the perfection of its technologies, but in all fields of endeavor wher there is need for more knowledge and where ideas can be transformed into beneficial deeds."

HST Suffers Dizzy Spells

INDEPENDENCE, Mo. (AP) — Former President Harry S. Truman has been confined to his home since his return from a hospital where he was taken July 30 suffering from severe colitis.

Truman's long-time secretary, Rose Conway, said the 82-year-old former president promises to return to his office "any day now."

But friends say Truman suffers dizzy spells, especially when he attempts to walk. He has been ordered by his doctor to move about as little as possible, they say.

The intestinal disturbance two months ago kept Truman in Research Hospital, Kansas City, for six days.

The Truman Library, where the former president has a large office, is about a half mile from his home. In recent years Truman has arrived there at 7:30 a.m. — before the office help — and returned home for the day by 11 a.m.

Two years ago he fell against the bathtub in his home and was in the hospital for nine days with two rib fractures and cuts and bruises about the face. The year before he had a hernia operation and close friends say he never fully recovered his strength from that.

Teen Jailed In Slaying

TEMPE, Ariz. (AP)—An 18-year-old Tempe youth was arrested today in connection with the knife slaying Sept. 21 of Arizona State University coed Laura E. Bernstein, 20, of Fair Lawn, N.J., police said.

Chief of Police Worth Farley said David Mumbaugh was booked for suspicion of homicide.

Farley said it was Mumbaugh who told police that he found the body of Miss Bernstein lying near a downtown Tempe hotel. She had been stabbed twice in the head and four times in the back.

NO WEAPON

Tempe Police Sgt. Bill Hill said Mumbaugh will be taken before a justice of the peace and formally charged in connection with Miss Bernstein's death. Hill would not say what the charge would be at the arraignment.

Police earlier reported they had no murder weapon, no clues and no motive in the slaying.

Miss Bernstein transferred to ASU from Bradley University in Peoria, Ill., at the start of the fall semester. She was an art major.

PERCY LINK

The night of her slaying, Miss Bernstein left the apartment she shared with a fellow art student, Jhan Livingston, and rode a borrowed bicycle about five blocks to the Casa Loma Hotel.

Police said she was apparently attacked as she bent over to lock the bicycle to a railing on the hotel's dark veranda. Officers theorized she had intended to visit a friend living there.

Earlier this week, Chicago police contacted Tempe officials and asked for any leads in the stabbing. Chicago officers reportedly were attempting to find out if there was a link between Miss Bernstein's death and the slaying of Valerie Percy, 21, who was beaten and stabbed to death in her family home in a Chicago suburb.

Gaelic Dictionary To Be Published

GLASGOW, Scotland (AP) — A Scottish Gaelic dictionary, which will take at least 12 years to prepare, will be published by the University of Glasgow.

The historical dictionary will contain 100,000 Gaelic words and is expected to run to two or three volumes. Glasgow University will provide the staff, accommodation and equipment for the research.

Westbrook Residents Travel, Have Guests

WESTBROOK (SC) — Mrs. Frank Oglesby had as guests this week Mr. and Mrs. Don Gillespie of Levelland.

Recent guests in the Price Hendrix home were Mr. and Mrs. C. L. Fuqua and son, Hendrix, of San Antonio. Mrs. Fuqua is a sister of Hendrix.

Mrs. Sam Scroggins and Mrs. Willie Byrd were in Lubbock Thursday. Mrs. Scroggins visited her grandmother, Mrs. I. L. Smith, and Mrs. Byrd was with her children, Mr. and Mrs. Murphy Byrd and Mr. and Mrs. Clyde Smith. Guests in the Scroggins home during the weekend were her uncle and aunt, Mr. and Mrs. Al Burleson of Abilene, their son and family, Capt. and Mrs. Dale Burleson and Dudley of Ft. Sill, Okla., and Mrs. Scroggins' mother, Mrs. W. L. Carnohan of Plains.

Mr. and Mrs. Charles Ranne and daughter, Linda, visited Mrs. Ranne's mother and brother, Mrs. Edna Rabb and Raymond in Fort Worth over the weekend.

Mr. and Mrs. H. J. Geron visited Saturday with his mother, Mrs. C. N. Geron of Sweetwater, who was recently released from the hospital.

Larry Bell visited Dale Byrd in Lubbock the past weekend and attended the Tech - Texas University football game Saturday. Also visiting Dale on Saturday were his parents, Mr. and Mrs. Alvin Byrd.

Patricia Bell was a weekend guest in the S. L. Yelding home near Levelland.

Visiting from Albuquerque, N. M., the past weekend were Mr. and Mrs. Tommie Williams and son, Jimmie. They were here to be near her mother, Mrs. T. W. Daughtrey, who is a heart patient in Hendricks Memorial Hospital in Abilene. Jimmie, who is a recruit in the U.S. Navy, remained for a longer visit.

Mr. and Mrs. L. E. Gressett were Sunday guests in the home of their son and daughter-in-law, Mr. and Mrs. Donald Gressett in Snyder.

Mr. and Mrs. L. R. Messimer visited his brother-in-law and sister, Mr. and Mrs. M. D. Meek in Hedley, Sunday.

Mr. and Mrs. A. L. Young were in Fort Worth recently as guests of her brother-in-law and sisters, Mr. and Mrs. Clifford Brown and Mrs. Mary Herron.

Mr. and Mrs. Lonnie Wilkerson and son, Jackie, of Midland visited her parents, Mr. and Mrs. Bill Rees, Sunday.

Mr. and Mrs. Kenneth Ellett and son and Mrs. Ben Ellett left Monday for California where they will visit in the Eddie Eden home.

Braid Hairpin Adds New Look

A braid, banded to bring a fresh new coiffure look to a simple hairdo, is a new accessory that fits on like a headband.

Keeping with the pre-styled hairpieces created this season, this hair bandette works like an instant charm. It is available in 24 shades.

Children Prefer Waiting Gadgets

If you have to take a small child to the doctor's office, place where he will be expected to sit for any length of time — try taking a catalog along to amuse him.

You will find his attention span will be far greater with the catalog than if you tote along an ordinary picture book.

HINTS FROM HELOISE

Suggests Ways To Work With Plastic

Dear Folks:

I'd like to pass along some hints on sewing PLASTIC, which we just learned from a manufacturer.

Do not pin plastic as the material will get pin holes which cannot be removed. Mark it with chalk or crayon.

Use a FINE needle when sewing it.

Last, but far from least — and we've said it before — NEVER put plastic directly on wood. Eventually, it will ruin the finish of your furniture.

HELOISE

So be sure to remember these little tips when you're using those wonderful plastics . . . Heloise

* * *

Dear Heloise:

I also take a nap when I put my boys down for theirs.

I use a wide headband as a blindfold! Any dark color will do.

It makes it so nice and dark you will think it is night.

It's easy to get to sleep that way if you have trouble sleeping during the day . . . Mary Curtiss

* * *

LETTER OF LAUGHTER

Dear Heloise:

If you have an urge to slipcover a chair with something IMPRACTICAL, go ahead and do it!

Just remember to place the chair where the family is unable to watch television while sitting in it.

It will stay nice almost indefinitely! . . . Mrs. F. Clark

* * *

Dear Heloise:

I am forever copying recipes, and I save time by numbering the ingredients.

When writing the directions, I simply refer to the ingredients by number instead of writing out all the words again. . . Kathi Kan

* * *

Dear Heloise:

I use a spray bottle of water in the nursery to dampen a washcloth instead of running for a wet one at diaper changes.

I also save empty powder boxes for the nursery. I think it is much easier to puff powder on the baby instead of sprinkling it on.

The puff stops powder buildup in the creases of skin because you can apply it more evenly.

Naturally, I fill the box with baby powder . . . Barbara Yauger

* * *

Dear Heloise:

When painting, I use an old soup ladle to dip my paint out of the gallon can into the paint tray or smaller can.

No more paint around the edge or down the sides of the can, and the lid is easier to close.

The excess paint can be removed from the ladle with the brush you are using.

Also, I tape a brush to a yardstick to reach the edge around the ceiling. . . Gwen

* * *

Dear Heloise:

My dresser was always messy with powder and make-up until I put a guest towel in the top drawer.

The towel is spread over the dresser while I'm using powder and is easily folded and put back in the drawer.

Result—a clean dresser . . . Frances Page

* * *

Dear Heloise:

Grandparents, save those little comments your sons and daughters make about their children when they write to you.

Make a scrapbook of them with the date of each comment.

With three small children I find myself reporting their progress in letters to my parents, but neglecting to put it all down in their baby books.

It won't be too long before I would dearly love a present like that . . . A Reader

* * *

(Write Heloise in care of the Big Spring Herald.)

WSCS Explores Social Conditions

WESTBROOK (SC) — The Woman's Society of Christian Service met at Methodist Church Monday afternoon.

Mrs. Albert Young had charge of the lesson taken from the "Methodist Woman," dealing with "Affluence and Poverty," an introduction to the study which the society will begin Oct. 10. Mrs. L. E. Gressett and Mrs. John Hawkins assisted in the lesson.

Mrs. Young will host a business and social meeting Oct. 3.

Scout Party Held At Youth Center

The Westside Youth Center sponsored a watermelon party for Junior Girl Scouts Thursday afternoon.

Donating watermelons for the feast were the Eubanks Fruit Stand and Mrs. David Cothram. Seventeen girls attended.

Director of the center is Mrs. Teresa Bauch.

FALL'S FUN-FASHION FOOTWEAR
For top-to-toe good looks for girls

Varied Fall Footwear Is Important Accessory

Fall is a fashion time, and fashions this fall are varied as never before. The appearance-conscious collegian and her career girl sister are quick to recognize the value of a top-to-toe totally well-dressed appearance, and footwear is an important accessory to the look favored in thier leisure-time costumes.

Sportswear for fall is fresh and crisp . . . yet softened from last season's. "Little girl" inspired high-yoked or smocked dresses and short, short skirts combine with striking stockings — textured, patterned or multi-hued—and draw attention to scooped - out slippers and T-strapped brief-heeled shoes. Straight-leg 30's styled pants ending just above the ankle look newest when paired with low cut boots and sport shoes. Even the "mod" look has eased to a bell-shaped trouser and the stiff boot of last year is replaced with footgear that fits the ankle smoothly under the new looser cuffs.

And never have shoe colors and materials run such a range! Smoky reds and golds, deep hazy blues and neutral greens or browns all point the way to color-keyed costume planning. In deep-pile washable velveteens and suede cloth, or plushy widewale corduroy, the rich colors take on new importance as accessories. Even stark blacks and whites, long considered basic, have added status as accents to pop art styles. The reasonable price of fabric footwear makes several pairs possible for wardrobe-wide coordination and daily wear.

Pink, Blue Party Held Thursday

Mrs. Gary Bradbury was honored with a pink and blue shower Thursday evening at the Blue Room of Cosden Country Club.

Cohostesses were Mrs. Lee Steele, Mrs. Don Brooks, Mrs. Bill Birrell, Mrs. A. C. Balch, Mrs. Ray Fortson and Mrs. H. C. Kebbs.

Thirty-five guests attended including Mrs. Gary Jones and Mrs. Cecil Jones, both of Lamesa.

White carnation corsages were presented to the honoree, her mother, Mrs. R. B. Davison: and her mother-in-law, Mrs. Bob Bradbury.

The hostesses' gift was a bassinet, and refreshments were served from a table covered with a white linen cloth and centered with a miniature stork. The napkins were in pink and blue colors matching the stork design.

Tape Aids Pleats While You Press

The pleats in your daughter's skirts will look neater and be easier to iron if you stitch a yard of tape or ribbon under the ironing board.

Bring the tape up from the outside of the board and place it across the garment. Hold the end of the tape firmly with your other hand. Set the pleats and press.

Bride Feted With Shower

Mrs. Jerry McMahen, the former Sandra Lawrence, was the honoree at a bridal shower held recently in the Flame Room of Pioneer Natural Gas Company. Calling hours were from 7 to 9 p.m., and approximately 50 guests called during the evening.

Hostesses were Mrs. Don Anderson, Mrs. Hartman Hooser, Mrs. Lee Porter, Mrs. J. D. Thompson, Mrs. Tom McAdams, Mrs. Preach Martin and rs. T. Willard Neel.

Mrs. McMahen was attired in an off-white wool sheath and was presented a corsage of white carnations backed with tulle. Her husband's mother, Mrs. Ray McMahen, also received a white carnation corsage.

The refreshment table was covered with a floor - length white organdy cloth and centered with an arrangement of blue irises and greenery. Appointments were of silver and crystal.

Those assisting at the table were Mrs. Whitney Reynolds, Mrs. Paschal Odom, Mrs. Ky Poulson and Mrs. Sandra Head.

The bride is the daughter of Mr. and Mrs. Stanley F. Lawrence of Suffolk, England.

Bride Honored At Morning Shower

Mrs. Douglas Smith was honored recently with a morning coffee and bridal shower at the home of Mrs. W. H. Muegge, 802 Birdwell. Mrs. Everett Kessler was cohostess.

The honoree was presented a corsage of blue carnations, and the refreshment table was decorated with a yellow linen cloth and centered with blue flowers and candles.

British Bricklayers Snap Up Jobs In U. S.

LONDON (AP) — Bricklayers today became the latest to join the migration of Britons to the United States.

The U.S. Embassy said it was flooded with calls after an Illinois contractor announced a recruiting drive for bricklayers.

Philip Evans, 37, partner in a firm with 120 bricklayers at Springfield, Ill., quickly lined up applicants during a 24-hour visit to Britain.

$198 WEEK

He offered $168 to $198 for a 40-hour week. The basic union rate in Britain is $55 for a 41-hour week. But a union spokesman said "they earned much more than that with bonuses and overtime until recently."

The U.S. Embassy said the Department of Labor in Washington has approved visas for bricklayers but only where there are regional shortages.

"During the last eight months, two groups of about 30 to 40 each have gone to Massachusetts and Michigan," an embassy spokesman said.

'BRAIN DRAIN'

Britain has been worried about the "brain drain" of doctors, scientists, engineers and other technicians leaving the country.

The "brawn drain" has developed only within weeks with the end of full employment in Britain and the threat of massive unemployment under the government's austerity program imposing a wage freeze among other measures.

Evans said on arriving in London that Washington had given his firm permission to bring in 40 bricklayers this year.

"We wanted to expand, but we couldn't get the men," he said.

Evans said two years ago he hired 15 bricklayers in Northern Ireland and earlier this year recruited 24 more on a trip to Britain.

FBI Escapes Fund Slash In House

WASHINGTON (AP) — The Federal Bureau of Investigation was one of the few big agencies that escaped fund reductions in a $234.6-million budget cut recommended today by the House Appropriations Committee in an omnibus money bill.

The $2.36-billion measure provides financing for the State, Justice and Commerce departments and 13 smaller agencies for the fiscal year ending next June 30.

After hearing testimony from FBI Director J. Edgar Hoover, the committee approved the entire $175,465,000 requested for the bureau. This would provide 100 new FBI agents and 65 clerks to help handle the growing volume of civil rights work.

The U.S. Information Agency was granted $169.5 million of the $184.7 million it requested.

The State Department's share of the funds in the bill, which the House will consider next week, was $386.5 million, a cut of $6.6 million.

A Devotional For The Day

The Lord our God is one Lord. (Deuteronomy 6:4)

PRAYER: O God, who hast made us to live in this generation with its social and national differences, direct us and further us with Thy continual help. Teach us to live as one people with one witness, knowing about the one and only hope for the nations, Jesus Christ. In His name was ask. Amen.

(From the 'Upper Room')

More Democratic Approach

Lt. Gov. Preston Smith says he will not oppose an amendment to Senate and House rules, sponsored by Speaker Ben Barnes, to limit power of conference committees. It is to be hoped that non-opposition will ripen into support.

At the heart of this issue is the appropriation process. For many years it has been the custom of both houses to write "dummy" appropriation bills. When the conference committee of five representatives and five senators met, the dummy bills were discarded and the committee wrote a new appropriation bill to suit its members.

The alternative to this thoroughly undemocratic process is not a log-rolling contest between 150 House members and 31 senators. The visible and practical alternative is to write an appropriation and tax bill in committee, as Congress does. The resulting bill may be amended on the floor of the House or Senate. If differences exist between House and Senate versions a conference committee adjusts them. But under no circumstances is a congressional conference committee given authority to add new items to the versions of either house. This same procedure should be applied to the work of the Legislature.

Equally important, the work of the appropriations committees in both houses of the Legislature must be speeded up. Not less than two weeks consideration of the bill should be given legislators. The practice of offering an appropriation or tax bill to the Legislature during the waning hours of a session on a take-it-or-leave-it basis is unconscionable. A point of order made against a bill on the grounds that it contained new matter not considered by either house might be sustained, but a special session of th tained, but a special session of the Legislature would then be required to consider the matter afresh.

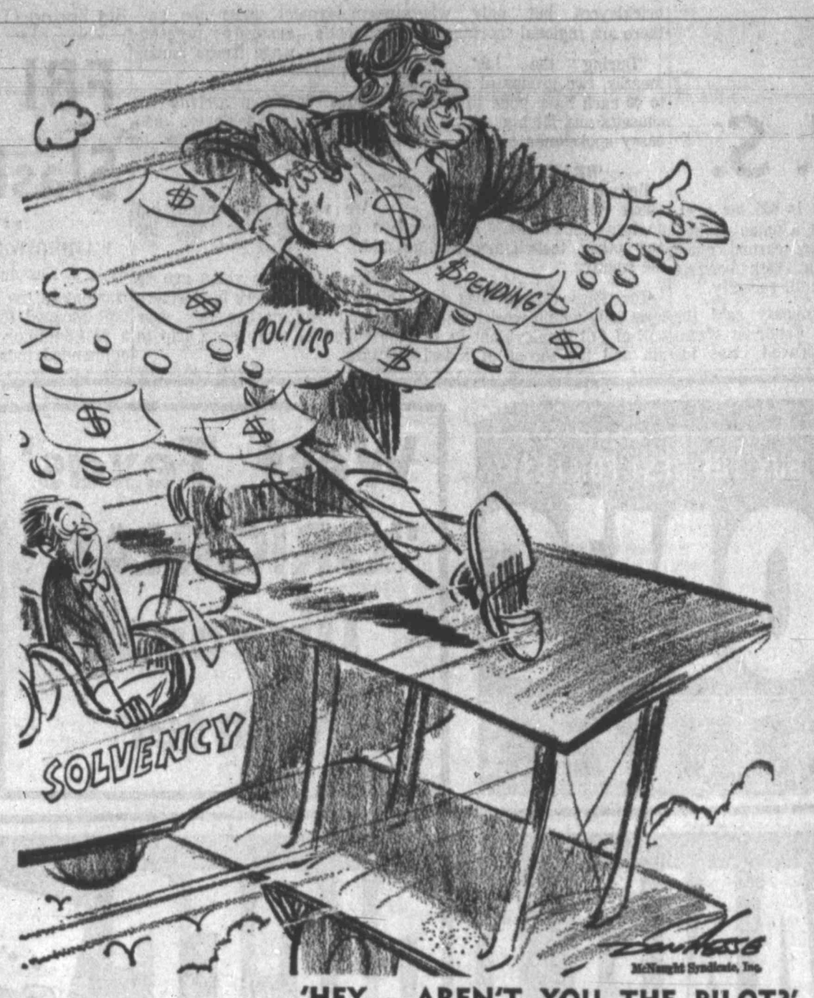
All that is needed is a more workmanlike and democratic approach to taxing and spending. The stature of legislators will thereby be enhanced and the interests of the people advanced.

Tougher Line

Whether it is opinion polls or political campaigns or a reaction to excesses, it is becoming increasingly clear that a substantially tougher line is going to be taken against rioters. Word from California is that officers have orders to shoot to kill if they encounter violent resistance to efforts to maintain the peace in San Francisco. This is drastic, but then it is time drastic measures are taken to maintain the peace.

Most people have been patient with efforts to adjust difficulties without compounding violence, but when lawless forces take this as license to riot, burn, pillage and even kill, patience ceases to be a virtue.

It makes no difference who is triggering and feeding the riots—be they black, white, yellow or brown — the time has come to reassert that laws must not be broken in the name of justice or in retaliation for claimed wrongs. Enduring and acceptable changes are effected by appeals to reason, conscience and understanding, never by anarchy.



'HEY – AREN'T YOU THE PILOT?'

David Lawrence

The Manila Conference

WASHINGTON — America's latest move—formal announcement of its intention to participate at Manila in a "summit" meeting with six Asian nations to discuss the Viet Nam war—has to be put in perspective. It doesn't necessarily mean the start of an actual negotiation. The purpose of the maneuver is to show the entire world that the United States has close friends in Asia and that each one of them has thought it worthwhile to send its forces or provide bases to help American troops fight in Viet Nam.

BUT EVEN AS plans for the Manila conference were making the headlines, Chairman Fulbright of the Senate Foreign Relations Committee was urging that the United States stop bombing for a while and see whether it would have any effect. He seems to think that it would make little difference militarily if air strikes were omitted for a few days in order to determine whether the North Vietnamese would reciprocate with some gesture to hasten peace.

Unfortunately, however, the North Vietnamese are not masters of their own destiny, and the only places where any progress can be made toward a Viet Nam peace are Peiping or Moscow or both.

THE WAR in Viet Nam would not last another month if the Red Chinese or the Soviets let it be known privately in Hanoi that they would not support any further hostilities.

President Johnson and Secretary Rusk have not said a word to indicate that their position is weakening in any way. The Defense Department is mobilizing its resources for a long war. By this time the Communists should know that, despite the unpopularity of the American military movement in some parts of the world, the opinion of most nations as expressed privately by their diplomats is one of support for the American position.

SINCE THE United States will not pull out, both Peiping and Moscow sooner or later will have to make up their minds whether they will be unwittingly encouraging a strong anti-Communist bloc in Asia and Europe to prevent any Communist aggression from succeeding in the future.

On the surface, the meeting to be held in Manila is just an effort to help bring about peace in Viet Nam, but actually it may be the beginning of something more substantial. It will be recalled that President Johnson has laid the foundations for a far-reaching program of economic aid to Asia in speeches delivered in April, 1965 and July, 1966. While it is expected that the meeting will discuss possible peace terms for Viet Nam, it would not be surprising to find even more attention given to the way by which the whole economy of Asia can be rebuilt.

IT IS HARDLY likely that spectacular moves, such as the suspension of bombing while waiting for the enemy to take reciprocal steps, will develop. Rather the emphasis is expected to be on economic improvement for Asia, and the appeal will be made over the heads of the Communist leaders to the people in the hope that they will recognize that their own governments are misguidedly prolonging the war and are not accomplishing anything for the good of Southeast Asia or the rest of the world.

SO, WHILE the Manila conference is an important step, undue hopes should not be aroused that the meeting itself will produce a formula for peace. It is much more likely to strengthen the alliance of the United States with the Asian countries and to impress world opinion with the fact that America is not standing alone and is prepared to continue its sacrifices until the peoples in Communist countries become aware of the danger of the bigger war which can ensue if the Viet Nam conflict is not ended in the next year or two.

Riots Hurt Civil Rights Cause

WASHINGTON (AP) — Stokely Carmichael, though never clear about it, shouts "black power" in a country where Negroes are only about 10 per cent of a population now numbering around 200 million.

So far this year at least 39 cities have been hit by racial violence. What good does this do Negroes? In some cases the riots may induce federal, state or city governments to do more about Negro housing and employment.

But at the same time it antagonizes a lot of whites, many of whom have been sympathetic to the problems of Negroes. Whatever kind of power Carmichael has in mind, it's still a dream. The whites have the real power.

AND THIS year, amid growing white antagonism, the civil rights cause has been hurt. Moderate-minded Negro leaders, like Dr. Martin Luther King Jr., take a dim view of Negro violence.

King said this month the civil rights movement has made too much progress through nonviolence to resort to violence now.

Yet, this week on a CBS television program, with Mike Wallace interviewing a number of Negro leaders, one of them, Daniel Watts, editor of Harlem's "Liberator" paper, spoke contemptuously of moderate Negro leaders.

"House niggers," he called them.

He said he meant Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People; King, head of the Southern Christian Leadership Conference and Whitney M. Young, executive director of the National Urban League.

WATTS TALKED of forcing the white community to negotiate with Negroes. He didn't explain that. But how 10 per cent of the population can force the other 90 per cent to do anything it doesn't want to do was also left unclear.;

Carmichael, head of the Student Nonviolent Coordinating Committee, is always vague on what he means by "black power," what it would consist of and how it could be obtained.

He was present Sept. 6 when Negroes rioted in Atlanta and dumped the mayor off an automobile. Later he was charged with inciting a riot.

PUBLIC opinion polls show white reaction against Negro violence is growing, that many whites think the civil rights movement is going too fast, and that many white liberals, previously sympathetic, are turning cool.

Spicy Fable Nets $1 Million

NEW YORK (AP) — Jacqueline Susann, who admits she is a poor speller, also made a slight error in arithmetic early this year.

She estimated then that her first novel, "Valley of the Dolls," might earn as much as a million dollars.

"Now I figure it will gross at least $2 million, and it should go much higher than that," said the pretty, dark-haired actress turned author.

Jackie's spicy fable of the price paid for success by four lovely ladies in the entertainment jungles of television, Broadway and Hollywood has been a runaway literary sensation as well as a personal bonanza.

PRINTING orders for the hard-cover edition of the novel have gone past the 350,000 mark. The book has been sold to the movies, 15 foreign editions have been arranged, and 1½ million paperback copies will be distributed in 1968.

But Jackie is proudest of the fact that her novel has been No. 1 for 22 consecutive weeks on a best-seller list.

"I am the only girl who has been up there that long whose book wasn't a selection by a major book club."

Her nearest rival, "Peyton Place," by Grace Metalious, also ducked by the book clubs, never was first on the list for more than 18 straight weeks.

MISS SUSANN has a ready explanation as to why the book clubs ignored her maiden fiction production. She thinks they are a bit stuffy, if not sissy.

"Book clubs don't go in for violence or sex unless they're in a spy story," she said.

Aided by the promotional skill of her husband, Irving Mansfield, a television producer, Jackie has put on perhaps the most extraordinary one-woman publicity campaigns in literary history. She figures she has made 100 radio and television appearances and, like the jacket of her book she's easy to look at.

The campaign has helped, but Jackie feels merchandising isn't the answer to her success.

"MANY GOOD books don't get off the ground because they aren't publicized," she said. "But you can't cram a dull or uninteresting book down the public's throat.

"Some of the professional critics sneer at my writing. They say it is too simple and lacks style."

Billy Graham

I hear you speak of an "experience" with Christ. I go to church, but I can honestly say I have never had an "experience." I do not even understand what this means. Could you explain? A. Y.

The word experience simply means, "to put to a test; to feel; to meet with, or to confront." When we speak of Christian experience we refer to an actual knowledge of Christ through personal experience. This may sound rather ambiguous, but it is clear to those who have actually had a confrontation with Christ. The Apostle Paul met Christ on the Damascus Road. The Bible says: "And as he journeyed, he came near Damascus; and suddenly there shined round about him a light from heaven: and he heard a voice saying, Saul, Saul, why persecutest thou me?" This was an experience, and it was the turning point in Paul's life. He had personally met Christ. This is still happening to people today. It can happen to you. When Joan of Arc stood before King Charles she spoke of "voices" she had heard, and the king became irritated. Then Joan answered: "They do come to you; but you do not hear them. If you prayed from your heart and listened, you would hear the voices as well as I do." Now, we may not all hear voices, or see bright lights, but if we seek Christ sincerely, He reveals Himself to us in a way that can best be described as Christian experience.

Hong Kong Air Traffic Jumps

HONG KONG (AP) — Traffic at Hong Kong's Kai Tak International Airport increased during the second quarter of 1966, the Civil Aviation Department reported.

It said the airport handled 5,898 aircraft and 273,865 passengers, a 12.8 per cent hike in aircraft and 23.9 per cent increase in passengers compared with the April-June period of 1965. The passengers excluded transit and military personnel.

To Your Good Health

Retardation Not Always Hereditary

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: I am engaged to a boy whose brother is mentally retarded. This is the only case I know of in his family or mine. Where can I get information on the causes of the problem? I fear having a mentally retarded child.—N.S.

First, dismiss the idea that all retardation is hereditary. Sometimes an illness of the mother during pregnancy can be involved. Sometimes a brain injury to a child can cause the retardation later in life. In either event, there is no reason to expect the brother's case to have any effect on other members of the family and their children.

Mental retardation is one of many problems of society and it will help if more people become familiar with the facts.

You might start a study of the subject in the public library. A good encyclopedia will give you substantial groundwork. "Mental Subnormality," by Masland, Sarason and Gladwin, is a fine, up-to-date and reliable book.

For other information consult your state branch of the Mental Health Society.

* * *

Dear Dr. Molner: My daughter bites her nails, and I keep telling her she can get an infection from the habit. She is very thin and high strung. She doesn't believe me, but she reads your column every day.

I used to bite my nails, but I quit in order to get her to quit, too. Please comment. — MRS. R.M.

Well, the threat about infection doesn't really carry much weight. Chewed nails don't look good, and all in all it's a profitless nervous habit.

If you, who obviously had the habit much longer, could quit, then your daughter certainly can if she makes up her mind.

* * *

Dear Dr. Molner: Is there any new treatment for diabetic neuritis? We have tried Vitamin B in every shape and form, including twice-a-week injections of B complex and B12, and brewer's yeast by mouth.

The doctor says it keeps the symptoms from getting worse, but I doubt it. I am hoping that someone has been working on a cure or help for diabetic neuritis.

This is a case that started over 20 years ago as juvenile diabetes.—H.M.

Diabetic neuritis can occur early as well as in cases of long standing, and there is nothing new for treatment beyond what you mention.

One thing is certain: Meticulous control of diabetes continues to be an essential part of treatment, and it is one of many reasons why diabetes patients should be wary of trying to "cheat" on their diets. Any way you look at it, diabetic neuritis is stubborn.

* * *

NOTE TO C.W.: There are various ways of removing unwanted hair: Electrolysis, shaving, plucking (whether with tweezers or the wax method), chemical depilatories. Of all, electrolysis is the only permanent way. I have no opinion as to the different specific electrolysis methods. An experienced operator will cause a minimum of scarring. Obviously some skin areas are more tender than others.

* * *

Never take a chance on diabetes! For better understanding of this disease, write to Dr. Molner in care of the Big Spring Herald for a copy of the booklet, "Diabetes—The Sneaky Disease." Please enclose a long, self - addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling.

Around The Rim

Autumn In The Valley

A Yankee, in West Texas, muses on autumn back home:

I can remember not so many years back, when I was a high school coed, strolling along the banks of the Ohio River, hand-in-hand with the current beau of the summer, pondering on the mystery of an Indian summer in the valley.

WE USED to walk beneath what seemed to be a multi-colored tent of gold, scarlet, ash and brown silk scarves with a wisp of a blue powder puff between them. The green hills turning softly to brown, the leaves bedecked in a glorious array of colors and the deep blue sky with its marshmallow clouds—all beckon the river folk to leave their chores and join the mood of an Indian summer.

* * *

FOOTBALL weather to southwestern Ohioans, and folks throughout much of the Midwest, is suggestive of a crackling bonfire and pep rally just before the game; sweaters and slacks and two pairs of socks and plenty of blankets; a cup of hot chocolate to warm one's palate; and a pair of ear muffs, just in case the "beautiful Ohio" began to hum the chill of winter along its choppy waves.

High school musicians blow gingerly into their instruments, trying in vain to warm up that trumpet or trombone mouthpiece. Five or six pretty majorettes draw heavy coats around themselves, although minutes later they will parade resplendent in sparkling costumes before the crowd, with bright smiles on their faces that seem to say, "It can't really be THIS cold."

MOST OF THE tobacco barns are ready for the year's rich yield. Then later, just after Christmas, the harvest will be loaded and taken upriver to Ripley, Ohio, and stored in the warehouses until the bidders come to view the crop in January.

The late september winds also bring corn picking time. The crop, which used to take a farmer weeks to harvest, now may be conquered in a few days with the help of modern corn pickers that may pick as many as five acres of corn a day.

* * *

BOATING MAY continue on the Ohio River for several weeks yet, as adventuresome pleasure craft owners brave the cool winds to take their families up or down river for "just one more cruise." Then the boats are docked for the winter, and if the river is kind, all of the craft will weather the onslaughter of winter and the floods of the great thaw, and, come the first day that suggests spring, a score or more will be happily putputting up and down river, a sure sign that spring has come to the Ohio River Valley.

* * *

AN ANNUAL EVENT which stirs river travelers everywhere is the river race between Cincinnati-based Delta Queen and a challenging steamship from up or down river. The little river towns make the most of the affair, hoping to charm visitors with the history of the town and the area.

Outdoor pageants in many villages help to portray the folklore of the region—and no one dreams of autumn.

—JERRY MONSON

Holmes Alexander

The Battle In Oregon

PORTLAND, Oregon — Coming out of California, the traveling commentator on the 1966 political contests is likely to moan "carry me back" when he reaches Oregon. The big simplicity in California is a gutsy battle for the governorship between a Democratic bullyboy and a Republican crusader, between Governor Pat Brown, who's a hammy Democratic materialist and Ronald Reagan, who's got his heart in the sympathetic role that was originated by Barry Goldwater. It is a well-balanced scenario, evocative of cheers and jeers, charged with partisanship, emotionalism and ideology, one of the feature slugfests of the season.

BUT THE OREGON contest for the U.S. Senate, between Gov. Mark Hatfield (R) and Congressman Robert Duncan (D), can't be reported in conventional format. The observer must be of several states of mind as he views it from different angles.

PRACTICAL: The 44-year-old Hatfield, ending his second term in the gubernatorial chair, is a charming personality, a remarkable administrator with a clean record, a household name throughout the state and on the verge of becoming a national figure in the GOP, which is famishing for fresh personalities. Oregon is a swing state with a slight Democratic majority, but Hatfield is a proven winner and the people like him too much to turn him out.

EXCITABLE: There is only one issue this year in Oregon, the Viet Nam War. Hatfield is on the wrong side, and Duncan is on the right side. Otherwise, there is little to choose between the two men. At 45, Bob Duncan has been Speaker of the Oregon House, twice a congressman and is known as a brilliant trial lawyer. Both are World War II Navy veterans, both vigorous and attractive campaigners. But Hatfield, either from conscience or over-confidence, took unnecessary positions that oppose a shooting war. Red - blooded Americans will not send a pacifist to the Senate, where foreign policy is often made. Duncan says he got into the campaign because no other Oregon figure was standing up for America in this crisis. Red - blooded Americans are going to support the man who is supporting their sons on the battlefield.

ANALYTICAL: But Oregon voters are going to give Hatfield his due. He is a Republican and his anti-war position is largely anti-Johnson. A lot of people in this state and around the country are remembering that every Democratic president in the 20th century has somehow blundered into war. Americans are getting tired of fighting perpetual wars in the name of everlasting peace. Lots of citizens believe President Johnson is squandering lives and money on a "no win" policy, and they blame Johnson for not wrapping up the victory and bringing it home. This is pretty much Hatfield's criticism, to which he adds that there is something wrong with an anti-Communist war in Asia when the anti-Communists out there leave so much of the fighting to us. Granted, Hatfield is rationalizing too much, and he fails to see our embattlement in a world struggle against communism. But he is a thoughtful and sincere critic who should not be condemned to extinction for one mistake which he might well rectify when he goes to Washington and learns the score.

SPECULATIVE: Mark Hatfield will come from behind to win.

Marquis Childs

Little 'Truth' In Packaging Bill

WASHINGTON—The kernel of truth left in the truth-in-packaging bill after it came through the wringer of the House Commerce Committee is so tiny that the backers of the measure have seriously thought that it might be better to let it go down to defeat and start afresh in the new Congress. In the end they will probably conduct a last-ditch fight in the conference committee trying to substitute the strong Senate bill for the gutted version the House is expected to approve.

LOBBYISTS for the food processors and manufacturers scored a notable victory when they marshalled the votes to strike out the provision in the bill giving the government power to establish standards on packages informing the housewife just what she gets for her money.

So pervasive were the lobbyists as they moved through Congressional halls that veteran observers of the lobby industry compared the onslaught to the doctors' lobby in its initial successes in blocking Medicare. Generalissimo of these forces was George A. Koch, president of the Grocery Manufacturers of America. Koch is said to have boasted, according to a report among members of the committee, that he would singlehandedly get the mandatory provision knocked out.

BUT KOCH had plenty of help. Some of the biggest guns in the industry were trained on House Commerce Committee members. Rep. John A. Gilligan of Cincinnati, a first-termer, is in a neck-and-neck contest with Robert Taft Jr. Cincinnati is the home base of Procter & Gamble and, needless to say, Gilligan heard from this giant of the soap industry.

Rep. John M. Murphy, a two-term Democrat from Staten Island, has Campbell's Soup in his district. With its subsidiaries Campbell's Soup is in a wide variety of lines of food processing and distribution. Another first-termer, Rep. James A. Mackay of Atlanta, a Democrat, has Coca-Cola.

WITH THE END of the session approaching, the opposition marshaled a battalion of witnesses—some 50 altogether. They insisted on reading their statements rather than merely putting them in the record. To Chairman Harley O. Staggers, who said he could not recall any previous measure on which so much time had been spent, it looked like a filibuster.

The arguments had an old, familiar ring. We want individuality, the opponents said, we don't want Russian supermarkets. This was the beginning of government intervention, with a Department of Consumers the next step.

A QUESTION HERE is whether the administration sanctioned the measure that came out of the House committee on the theory that half a loaf —in this instance about a tenth of a loaf—is better than none, and a law on the books can always be strengthened by later amendments. On Capitol Hill the consumer is a lonely figure. Assistant Secretary of Labor Esther Peterson is the consumers' voice. In the struggle over the packaging bill almost the only active support came from the AFL-CIO.

THE MANDATORY provision in the Senate bill, in the view of its proponents, simply carries out the provision in the Constitution for standard weights and measures. The manufacturers are given a year to agree among themselves on what the standards shall be. A 10-pounce package of dry cereal or potato chips will contain 10 ounces and be so labeled. If after a year there is no agreement, then the government—presumably the Food and Drug Administration—would set the standards.

The kernel of truth surviving in the House bill requires that all packages be labeled plainly and legibly as to contents. But the bemused housewife in the glittering tunnel of the supermarket will still confront the boasts of the giant quart and the stupendous economy size.

(Copyright, 1966, United Feature Syndicate, Inc.)

Mrs. E. G. Patton's Brother Casualty

Word has been received here of the death in Viet Nam at 1:30 a.m. last Wednesday of Spec. 4 James W. (Jim) Rowlett, Shamrock, Texas, a brother to Mrs. Elmer G. Patton of Forsan.

JAMES W. ROWLETT

Details surrounding the death are lacking. Spec. Rowlett was a member of the 19th Engineering Battalion. He observed his 20th birthday in Viet Nam Aug. 14 and was to have started a return trip to the states Dec. 1.

The time of services will not be set until the body has been returned from Viet Nam but last rites will be said in Shamrock. Burial will take place in DeQueen, Ark.

Prior to going to the Southeastern theatre, Spec. Rowlett had served a tour of duty in Berlin, Germany, where one of his duties was to patrol the Berlin Wall.

Born in DeQueen, Rowlett had been in the Armed Forces about 2½ years. He had visited in this area frequently.

Survivors, in addition to Mrs. Patton, include his parents, Mr. and Mrs. W. A. Rowlett Sr., Shamrock; two grandmothers, Mrs. Rena Lawrence, Fort Worth; and Mrs. Maggie Rowlett, DeQueen, Ark.; two brothers, W. A. Rowlett Jr., Crane; and John Rowlett, Shamrock; three other sisters, Mrs. Joe Law, Hobbs, N. M.; Mrs. Kelton Mann, Crane; and Mrs. Joe Barker, International Falls, Minn.; eight nephews and nieces.

Another Round Of Elections Loom In Viet

SAIGON, South Viet Nam (AP) — Another round of grassroots elections may be held in South Viet Nam before the year's end, informed sources said today.

A decree on balloting for thousands of village and hamlet chiefs is reported under study by Premier Nguyen Cao Ky's military government.

The sources said voting would take place only in villages and hamlets that have been secured against Viet Cong activities.

Chiefs now in office were elected in some cases and appointed in others, depending on security conditions in their areas.

80 PER CENT

High Vietnamese officials are said to favor local balloting in November or December, believing the successful voting Sept. 11 for a Constituent Assembly showed conditions are favorable.

The 117-member Constituent Assembly was elected by more than 80 per cent of South Viet Nam's registered voters despite Viet Cong sabotage attacks.

The assembly convened in Saigon Tuesday to begin writing a new constitution for this war-torn nation. This chore is expected to take about six months and pave the way for election of a national Legislative Assembly sometime in 1967.

VILLAGE LEVEL

The assembly was reported to be drafting a resolution on the Viet Nam war to be sent both to the United Nations General Assembly and a seven-nation summit conference on Viet Nam scheduled next month in the Philippines.

It also selected a credentials committee to examine circumstances about 20 contested seats.

Fresh elections at the village level this year might stem criticism of military rule expected from some assembly delegates. Hot debate is likely.

Parliamentary maneuvering appeared likely to continue for several weeks. Men in touch with assembly affairs said it may not start drafting the constitution until mid-October.

Near The Finishing Touches

Workers are nearing the finishing touches on the Downtown Inc. improvement project. Thursday they laid down the hot top paving surface for the 200 block of Main Street and for the Second and Third Street intersections. The Main Street section previously had its grade raised, decorative steps installed at the intersections, and new multi-colored sidewalks installed. Traffic was opened on the transformed street today, and the formal opening for the entire project will come Oct. 15. (Photo by Frank Brandon)

Many Hear Class Preview

Sixty-four men and women from Big Spring and surrounding communities attended the Dale Carnegie Preview meeting Thursday evening at the First Federal Savings and Loan Association.

A full class of 44 was assured as a result of the meeting. A number of others signed on a stand-by basis, and if there are enough of these, a second class will be attempted, said Warren Quinlan, director - instructor of the Dale Carnegie Courses in West Texas.

An interesting highlight of the informal program was a memory demonstration conducted by Quinlan. Fourteen objects were selected and taught to the group in less than five minutes. Then Lyndon K. Gladden, Cosden Oil and Chemical Co., impressed the group by naming all the items in sequence.

A history of the Carnegie training program was presented by Carl V. Jowell, area supervisor, who emphasized the importance of "doing the best with our natural abilities, and developing our latent skills."

The special course is being brought to Big Spring under the sponsorship of Big Spring Daily Herald as a community service.

Westbrook Schools Are Conducting Ability Tests

WESTBROOK (SC)—Reading readiness and mental ability tests have been administered to the first grade students at Westbrook as a part of the school testing program.

This is to provide teachers and other school personnel with an estimate of the pupil's potential for success in school.

Achievement tests will be administered in the seventh and ninth grades, and an ability test will be given in the seventh grade.

The achievement tests, measure of in-school learning as well as out-of-school learning of the pupils, are given in the areas of reading, language arts, arithmetic, science and social studies areas for the elementary grades.

Mental ability tests will be given also to the third and 11th grades and achievement tests in the second, fourth, sixth and 11th grades. Vocational, personal and occupational interest tests will be administered to the ninth, 10th and 12th grades, respectively. These are to get high school students to begin thinking more effectively about a career.

Conferences will be held with the students and teachers on the test results for which individual records sheets are made.

Begins Seventh Year As Head Of Sunday School

T.Sgt. Harold H. Gongaware, 331st Fighter Interceptor Squadron, begins his seventh year as Sunday School Superintendent for the Webb AFB Protestant Sunday School. The sergeant has 12 years of experience in the area of supervising volunteer workers in the religious education program.

Sunday marks the beginning of a new Sunday School year at the base. According to Chaplain (Capt.) William Warren, religious education chaplain, there are over 30 teachers and helpers who will guide the program for every age group, from age two through adults. Sunday school meets from 9:30 a.m. to 10:30 a.m. each Sunday in the Chapel Annex (Building 226).

Ceramics Group Lists Nominees

Mrs. Robert Fuller was nominated for the presidency of the West Texas Ceramic Association Thursday during the September meeting. She has served the new organization as treasurer during the past year and was a mainspring in the first annual West Texas Ceramic Show, held here last spring.

Other nominees are Mrs. Douglas Wingate, vice president; Mrs. Roger Shaw, treasurer; and Mrs. Glenn Cootes, secretary. Election of officers will be held at the Oct. 20 meeting.

A "ceramic fair" was discussed for sometime in November. Each member will make special pieces to be sold as a fund raising project. Proceeds will be used to bring a professional instructor to Big Spring for a workshop.

The constitution and by-laws were presented by Mrs. Kenneth Keeler, president, and were approved.

Gerald Wilson, teacher in the Big Spring Special Education School, gave a program of slides and demonstrations of ceramic flower making. He was formerly a crafts teacher here.

Mrs. Charles Sweeney and Mrs. Keeler were hostesses for the meeting, which had 19 in attendance.

Female Beagle Adopts Ducks

FORT SCOTT, Kan. (AP) — Cleo, a female beagle, has adopted a family of two-ducks.

Bought for the children of the R. L. Morton family when they were ducklings, Cleo took them over and guarded them as she would her own puppies.

Thursday a youth described by Mrs. Morton as about 15 entered the family's backyard and grabbed one of the ducks. Cleo dashed out from under the back porch, locked onto the youth's hand and wouldn't let go.

Mrs. Norton says when the dog barks with a certain tone the ducks, now full grown, come running. If there is any apparent danger, Cleo herds them under the porch and stands guard, she said.

Red Blast Recorded

UPPSALA, Sweden (AP) — A new Russian underground nuclear test explosion in the Semipalatinsk area was recorded by the Seismological Institute here today.

WEATHER

SOUTHWEST TEXAS EAST OF THE PECOS—Partly cloudy tonight, becoming mostly fair Saturday. Much cooler in the south tonight and Saturday. Lows tonight 52 in the north to 65 in the south. Highs Saturday 79 in the north to 82 in the south.

SOUTHWEST TEXAS WEST OF THE PECOS—Partly cloudy tonight with a few thundershowers in vicinity of mountains, becoming fair Saturday. Much cooler tonight. Lows tonight in the 50s. Highs Saturday 70 to 82.

NORTHWEST TEXAS — Partly cloudy tonight and Saturday. Cooler tonight and in the south Saturday. Lows tonight 36 in the north to 52 in the southeast. Highs Saturday 60 to 70.

Transfusion Saves Child

EL PASO, Tex. (AP)—Doctors at William Beaumont General Hospital had predicted prior to her birth that one-month-old Mary Elizabeth Jennings had only a five per cent chance to live.

But dramatic blood transfusions before birth are credited with saving the child's life.

"Betsy was given no chance of survival without an intrauterine blood transfusion," Mrs. Bernard Jennings said in an interview. "We are so thankful. The doctors did wonders."

Betsy was an RH positive factor fetus while her mother, the wife of Army Capt. Jennings, is RH negative.

Capt. and Mrs. Jennings lost one of their five children because of an RH blood factor. The blood cells of an RH negative mother affect a positive baby's cells, causing anemia and sometimes death.

To minimize the effects, the transfusions were attempted prior to Betsy's birth.

Guided by an X-ray picture on a television-like screen, doctors at the Army hospital sent a needle through the mother's abdomen into the fetal abdomen. Transfusions were performed on the 30th and 32nd weeks of pregnancy to keep Betsy alive until birth. A third transfusion was performed when Betsy was born six weeks prematurely.

"She's doing beautiful," Mrs. Jennings said Thursday of her 5-pound, 7-ounce girl who came home from the hospital Monday.

Swiss Doctor Brainpicking

PITTSBURGH (AP) — A Swiss doctor is brainpicking in Pittsburgh.

Dr. Hans Eberstark is recruiting for Mensa, a club for people who score 130 or above on an IQ test.

Speaking recently of unusually bright persons, Eberstark said, "Many of these people are under a real handicap. When they talk about the subjects closest to their hearts, most people just look at them and grunt."

Wreck Kills Two

PORT ARTHUR (AP) — A headon collision on a Port Arthur street Thursday evening killed Emory Hamilton, 58, of Groves, and his grandson, Timothy Lavergne, 9. Both died after being taken to a Beaumont hospital.

Rites Set For Stella Beach

COLORADO CITY (SC)—Mrs. Stella Beach, 79, died in the McKnight Hospital Wednesday at 10 p.m. after a three months' illness.

Services will be held Saturday at 2 p.m. at the Kiker and Son Chapel, with burial in the Colorado City Cemetery.

She was born in Hamilton County Dec. 25, 1886, and married Ben Beach there in 1904. Mrs. Beach was a member of the First Baptist Church and had made her home in Colorado City since 1926.

She was preceded in death by her husband in 1953. Survivors include one son, Jake Beach, Colorado City; five daughters, Mrs. Ed Marshall, Santa Barbara, Calif., Mrs. P. J. Owens, Abilene, Mrs. Charley Meeks, Pujunga, Calif., Mrs. Jim Jones Jr., Colorado City, and Mrs. G. L. Posey, Backdrop, La.; two sisters, Mrs. Albert Lane, Lubbock, and Mrs. Francis Reinheimer, Texarkana; also 26 grandchildren, 26 great-grandchildren and two great-great-grandchildren.

REV. A. W. STOWE

Former Pastor Is Evangelist

The Rev. A. Warren Stowe, former pastor of the Airport Baptist Church, now of Raton, N. M., will be the evangelist for a revival beginning Sunday at the West Side Baptist Church, 1200 W. 4th.

Morning services will be held at 10 a.m. daily, with prayer service at 7 p.m. and evening services at 7:30 p.m. The revival will continue through Sunday, Oct. 9. Song leader for the revival is James Kinman.

The Rev. Paris A. Barton, pastor has invited all local residents to attend. A nursery will be provided.

Friday's Forecast

The weather bureau sees rain in the offing Friday night for New England, the Appalachians, the Carolinas, the Tennessee Valley, Florida and parts of the Central and Southern Plains and Central Plateaus. Freezing conditions are expected in the Northern Plains. (AP WIREPHOTO MAP)

OIL REPORT

Martin Wildcat Flowing New Oil

Pan American's wildcat, the No. 1-B Elma L. Slaughter in Martin County, flowed 146 barrels load oil and 137 barrels new oil in 24 hours on a 12-64ths-inch choke. Tubing pressure was 780 pounds. Drillsite is 1,320 feet from the south and east lines of section 80-B, B&C survey, 12 miles north of Lenorah, six miles east of Walcott Field.

DAILY DRILLING

DAWSON

Pan American's wildcat, the No. 1 McBrayer, pumped 23 barrels oil, 86 barrels water, in 24 hours. Drillsite is 330 feet from the south and west lines of Labor 34, League 271, Loving CSL, 18 miles southwest of Lamesa.

GARZA

Cabot Corporation No. 1 Alldredge is drilling below 1,975 feet in red sand and shale. The wildcat is spotted 1,980 feet from the north and east lines of section 57-6, H&GN survey, 15 miles southeast of Post.

HOWARD

Larion No. 2 Barber is drilling below 2,525 feet in lime. Location is 1,980 feet from the south line and 2,173 feet from the west line of section 11-31-1s, T&P survey, two miles south of Coahoma.

MARTIN

Texaco No. 1 Key flowed 147 barrels load oil in 19 hours, minus 848 barrels load oil. Drillsite is 1,980 feet from the north line and 870 feet from the east line of section 9-37-2n, T&P survey, 18 miles northwest of Stanton.

Pan American No. 1-C Slaughter is drilling below 6,910 feet. The well is located 1,320 feet from the south and east lines of section 85-B, B&C survey, 13 miles north of Lenorah.

Pan American's wildcat No. 2 Snell pulled tubing and perforated at 8,190-8,192 feet, 8,198-8,207 feet, 8,347-8,352 feet, and 8,349-8,352 feet; ran tubing at 8,347-8,352 feet; acidized with 4,000 gallons fluid. Operator later acidized with 3,000 gallons fluid. The well flowed 33 barrels load oil in six hours, and 240 barrels load water. Drillsite is 660 feet from the south line and 770 feet from the east line of Labor 2, League 259, Borden CSL, seven miles southwest of Patricia.

Pan American No. 3 Snell is drilling below 9,533 feet. The location is 1,320 feet from the south line and 660 feet from the east line of Labor 2, League 259, Borden CSL, seven miles southwest of Patricia.

STERLING

Champlin No. 1 Foster perforated the Fusselman between 8,537-42 and 8,555-60 feet, set packer at 8,497 feet, and swabbed one hour with 23 barrels fluid. There was no breakdown and operator is continuing to swab naturally. Total depth is 8,584 feet, with a 5½-inch casing set at the total depth.

Texaco No. 1 McEntire is swabbing and testing with no gauges. Location is 660 feet from the south line and 1,980 feet from the west line of section 6-T, T&P survey, seven miles west of Sterling City.

COMPLETIONS

HOWARD

Pan American No. 3-U-B H. R. Clay, an old well workover, completed from the Howard-Glasscock field, pumping initially 46 barrels of 31.2 gravity oil per day, of which 10 per cent was water. The gas-oil ratio was 432-1. The formation was fractured with 30,000 gallons fluid. Total depth is 2,500 feet, with a 7-inch casing set at 2,210 feet. Location is 1,656 feet from the north line and 330 feet from the west line of section 139-29, W&NW survey, 12 miles southeast of Big Spring.

Pan American No. 4-U-B Clay, an old well workover, completed from the Howard-Glasscock (Queen) field, pumping 59 barrels of 30.5 gravity oil per day, no water on potential test, from perforations in the 1,658-1,799 foot interval. Gas-oil ratio was 371-1. The zone was fractured with 30,000 gallons fluid. Total depth is 2,539 feet, with a 2⅞-inch casing set at 2,467 feet. Drillsite is 330 feet from the south and east lines of section 139-29, W&NW survey, 12 miles southeast of Big Spring.

Basin Oil Co. No. 7-L R. C. Scott completed from the Howard-Glasscock (Glorieta) field, pumping initially 77 barrels of 29.0 gravity oil per day, two per cent water, with a gas-oil ratio too small to measure. Perforations were in the 2,605-2,733 foot interval. Total depth is 2,788 feet, with a 7-inch casing set at 2,786 feet. The well is spotted 990 feet from the south and east lines of section 86-29, W&NW survey, 10 miles south of Coahoma.

The No. 7-U R. C. Scott, also a Basin Oil Co. well, was finished from the Howard-Glasscock, with a pumping potential 660 barrels of 29.0 gravity oil per day, with a gas-oil ratio too small to measure. Perforations were in the 2,010-2,196 foot interval. The formation was fractured with 80,000 gallons liquid. Total depth is 2,788 feet, with a 7-inch casing set at 2,786 feet. Drillsite is 990 feet from the south and east lines of section 86-29, W&NW survey, 10 miles southeast of Coahoma.

STERLING

W. A. Moncrief and Champlin Petroleum No. 2-46 Hildebrand completed from the Wolfcamp, flowing initially 66 barrels of 31.2 gravity oil per day, with two per cent water. The gas-oil ratio was too small to measure. Perforations were in the 6,948-5,962 foot interval. Operator used a one half inch choke, tubing pressure of 20 pounds and acidized with 500 gallons. Total depth is 8,563 feet, plugged back to 6,000 feet with a 4½-inch casing set at 6,340 feet. Drillsite is 933 feet from the south line and 2,800 feet from the west line of section 46-A, GC&SF survey, 12 miles southwest of Sterling City.

No Permit

A door-to-door salesman was arrested at the Coronado Apartments Thursday for soliciting without a permit. Officers were summoned by a resident of the complex.

Emergency Ambulance Runs End At Midnight

Big Spring will be without emergency ambulance service after midnight today.

A Thursday afternoon meeting between city officials and O. D. Majors, of Big Spring Ambulance Service, proved fruitless, Larry Crow, city manager, said this morning.

"He told us he felt he needed a subsidy of $500 per month," Crow said, "and we were unable to reach an agreement."

Mayor Arnold Marshall, Commissioner Jimmy Morehead, and City Attorney John Burgess sat in on the meeting, Crow said, as well as Majors' attorney, Roger Brown.

The officials spent most of the afternoon negotiating with Majors. Brown notified Crow late Thursday that Majors would end his emergency service at midnight today.

"We will consider proposals from anyone to provide emergency ambulance service in the city," Crow said. "One businessman stated he will have a proposal for us next week."

"Meanwhile," Crow explained, "our police and fire departments will do the best they can in the event of emergencies." (This may mean police and fire department vehicles will be used to move injured persons to hospitals.)

"Even though the city has no legal obligation to provide emergency ambulance service, we are seriously concerned with the health and safety of our citizens," Crow added.

"We will do what we can to help work out a plan to provide this service."

He pointed out the city has been negotiating for several weeks with Majors in an effort to keep his business in operation.

"We provided an ordinance requiring payment of ambulance fees, then followed this up with a proposal to pay 80 per cent of uncollectable fees," he said. The latter agreement winds up tonight. Majors said he could not continue to operate on this basis.

Heresy Charge Raps Bishop

TAMPA, Fla. (AP) — Auxiliary Bishop James A. Pike of California has been charged with heresy by the Rt. Rev. Henry I. Louttit, bishop of south Florida.

Bishop Pike — cleared of heresy charges three times since 1961 — was asked by Bishop Louttit to renounce the Episcopal ministry or stand trial before a Church court. Bishop Louttit charged Bishop Pike with violating ordination vows and committing heretical acts.

Bishop Louttit said he had received backing from bishops in Albany, N.Y.; Long Island, N.Y.; Tennessee; Montana; Georgia; Dallas, Tex.; Upper South Carolina; Kentucky, and northern California.

Bishop Pike was unavailable for comment.

Bishop Pike resigned as bishop of California last May to take a post at the Center for Study of Democratic Institutions at Santa Barbara, Calif. He retains the title of auxiliary bishop.

The accusations were made known in letters to Bishop Pike and the Rt. Rev. John E. Hines of New York City, the presiding bishop of the nation's 3½ million Episcopalians.

Bishop Louttit said he and the other bishops agreed Pike should surrender his bishopric for the "good of the church."

"For the past several years," he said, "(Bishop Pike) held and taught publicly and advisedly doctrine contrary to that held by this church set forth in the creeds, the catechism and offices of instruction and the Book of Common Prayer. This teaching has confused, not to say bewildered, many of the faithful laity of the church."

New Cabinet Post Looms

WASHINGTON (AP) — President Johnson appears sure to have a 12th Cabinet officer soon — a secretary of transportation with fewer powers than the President recommended.

The Senate approved creation of a department of transportation 64 to 2 Thursday.

The House passed similar legislation 336 to 42 on Aug. 30. Leaders said they expect no difficulty in working out a compromise although the Senate version includes the Federal Maritime Administration in the department and the House bill does not.

BIG BUDGET

The bill would bring into one department government policies, functions and operations now carried on by almost 100,000 employes in 35 separate units. At present levels, it would have a $6.3 billion budget, fifth largest in the federal establishment.

The President has not indicated whom he might name to the expected new Cabinet post.

A key authority for the secretary to carry out his responsibility of trying to coordinate the nation's tangled transportation policies was heavily watered down in the Senate. The House struck it completely.

FIX STANDARDS

The section asked by Johnson would allow the secretary to fix standards and criteria for federal spending on transportation facilities.

The Senate Government Operations Committee wrote five exemptions from this authority into the bill and the Senate added a far-reaching sixth Thursday covering all federal grant-in-aid programs. Sen. Jennings Randolph, D-W.Va., said he was concerned particularly about highway funds.

Y Indian Guides To Organize Next Tuesday

An organizational meeting of all boys in grades one through three, and their dads, who are interested in becoming Y-Indian Guides will be held Tuesday at 7:30 p.m. at the YMCA.

Tribes are formed of about six boys and their dads. Meetings of boys and dads are held twice a month in the homes. Special events include campouts hikes, trips, contests with other tribes, city-wide pow-wows, and the making of tribe projects.

Membership for the boy is $12 per year and it is not necessary (though preferable) for the father to be a member. Last year, according to Y general secretary Curt Mullins, 100 boys participated in the program.

Dads who have been members this past year are invited to come, Mullins said, but it is not necessary for old tribe members to be present at the organizational meeting for new tribe members.

Plan Car Wash

WESTBROOK (SC) — The FHA Chapter of Westbrook High School is having a car wash Saturday from 9 a.m. to 3 p.m. behind the school. Charges will be $1 per car with proceeds to be used to finance a trip to the Dallas fair.

MARKETS

LIVESTOCK

FORT WORTH (AP) — Cattle 5,000, calves 1,500; good and choice feeder heifers 24.00.

NATURE'S FURY — Swirling clouds of smoke and ash rise from fiery Taal volcano during eruption in center of Lake Taal, south of Manila in the Philippines.

SOMETHING TO SEE — Balenciaga, for his new fall collection, fashioned this arresting hat of black coq feathers. A diamond cluster pinched in center adds to effect.

SELF SERVICE — A pigeon, one of the flock that frequent the Hibaya Park in downtown Tokyo, perches itself on lip of a fountain to refresh itself on a hot summer day.

IN SUNNY CLIMES — Britain's Princess Margaret and her husband, Lord Snowdon, are pictured at Porto Cervo, Sardinia, where she marked her 36th birthday.

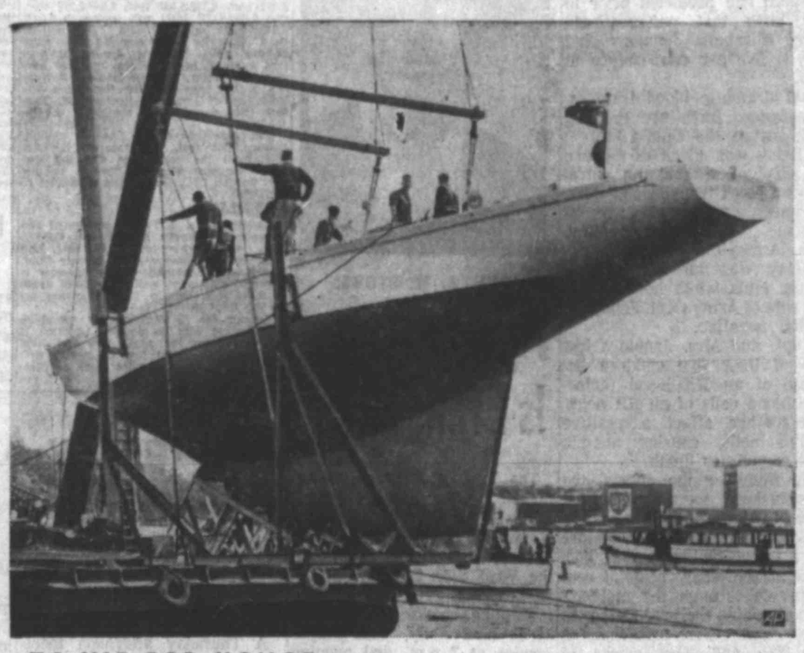
FLYING HIGH — Chuck Stearns of Bellflower, Calif., appears poised atop palm tree during zenith of his jump in national water ski championships at Miami.

A CAPITAL SIGHT — Tom Brown dons a replica of British Royal Crown while seated on arm of "Justice" atop the Central Criminal Court in London. The steeplejack placed replicas of the Crown Jewels on the statue for a scene in the film, "The Jokers."

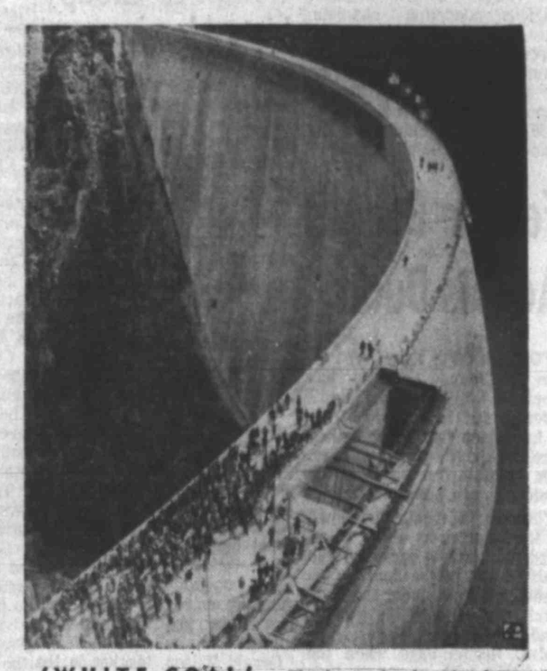
TO FAR EAST — U. Alexis Johnson, career foreign service officer, has been nominated to be U.S. ambassador to Japan. He is to succeed Edwin O. Reischauer in the post.

UPPER LEVEL — Laurie Young, a steeplejack, lifts a heavy cross off its pin atop steeple of Stoneham, Mass., church. Cross, to be refinished, was 140 feet above ground.

CHOW HOUND — Duc, the scoutdog, evidently liked its combat ration during meal break in Viet Nam highlands. Dog helps track down infiltrators from Cambodia.

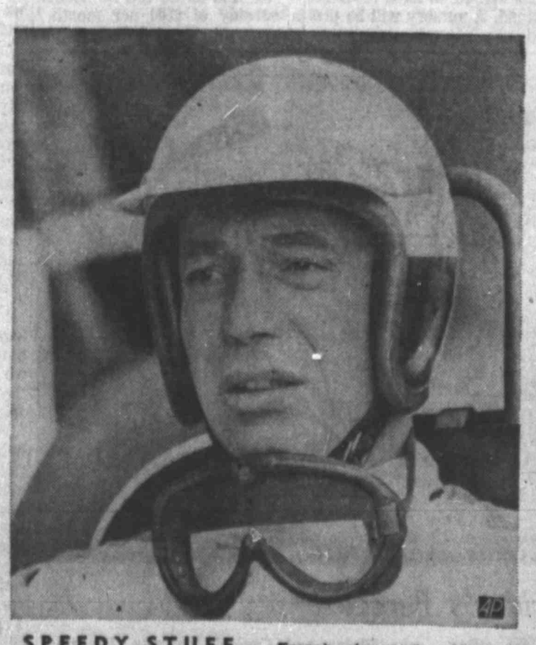


TO VIE FOR HONOR — Dame Pattie, the new Australian contender for the America's Cup, is readied for launching in Sydney. The 70-foot long craft will race with the previous challenger, Gretel, for right to represent Australia against the U.S.A.



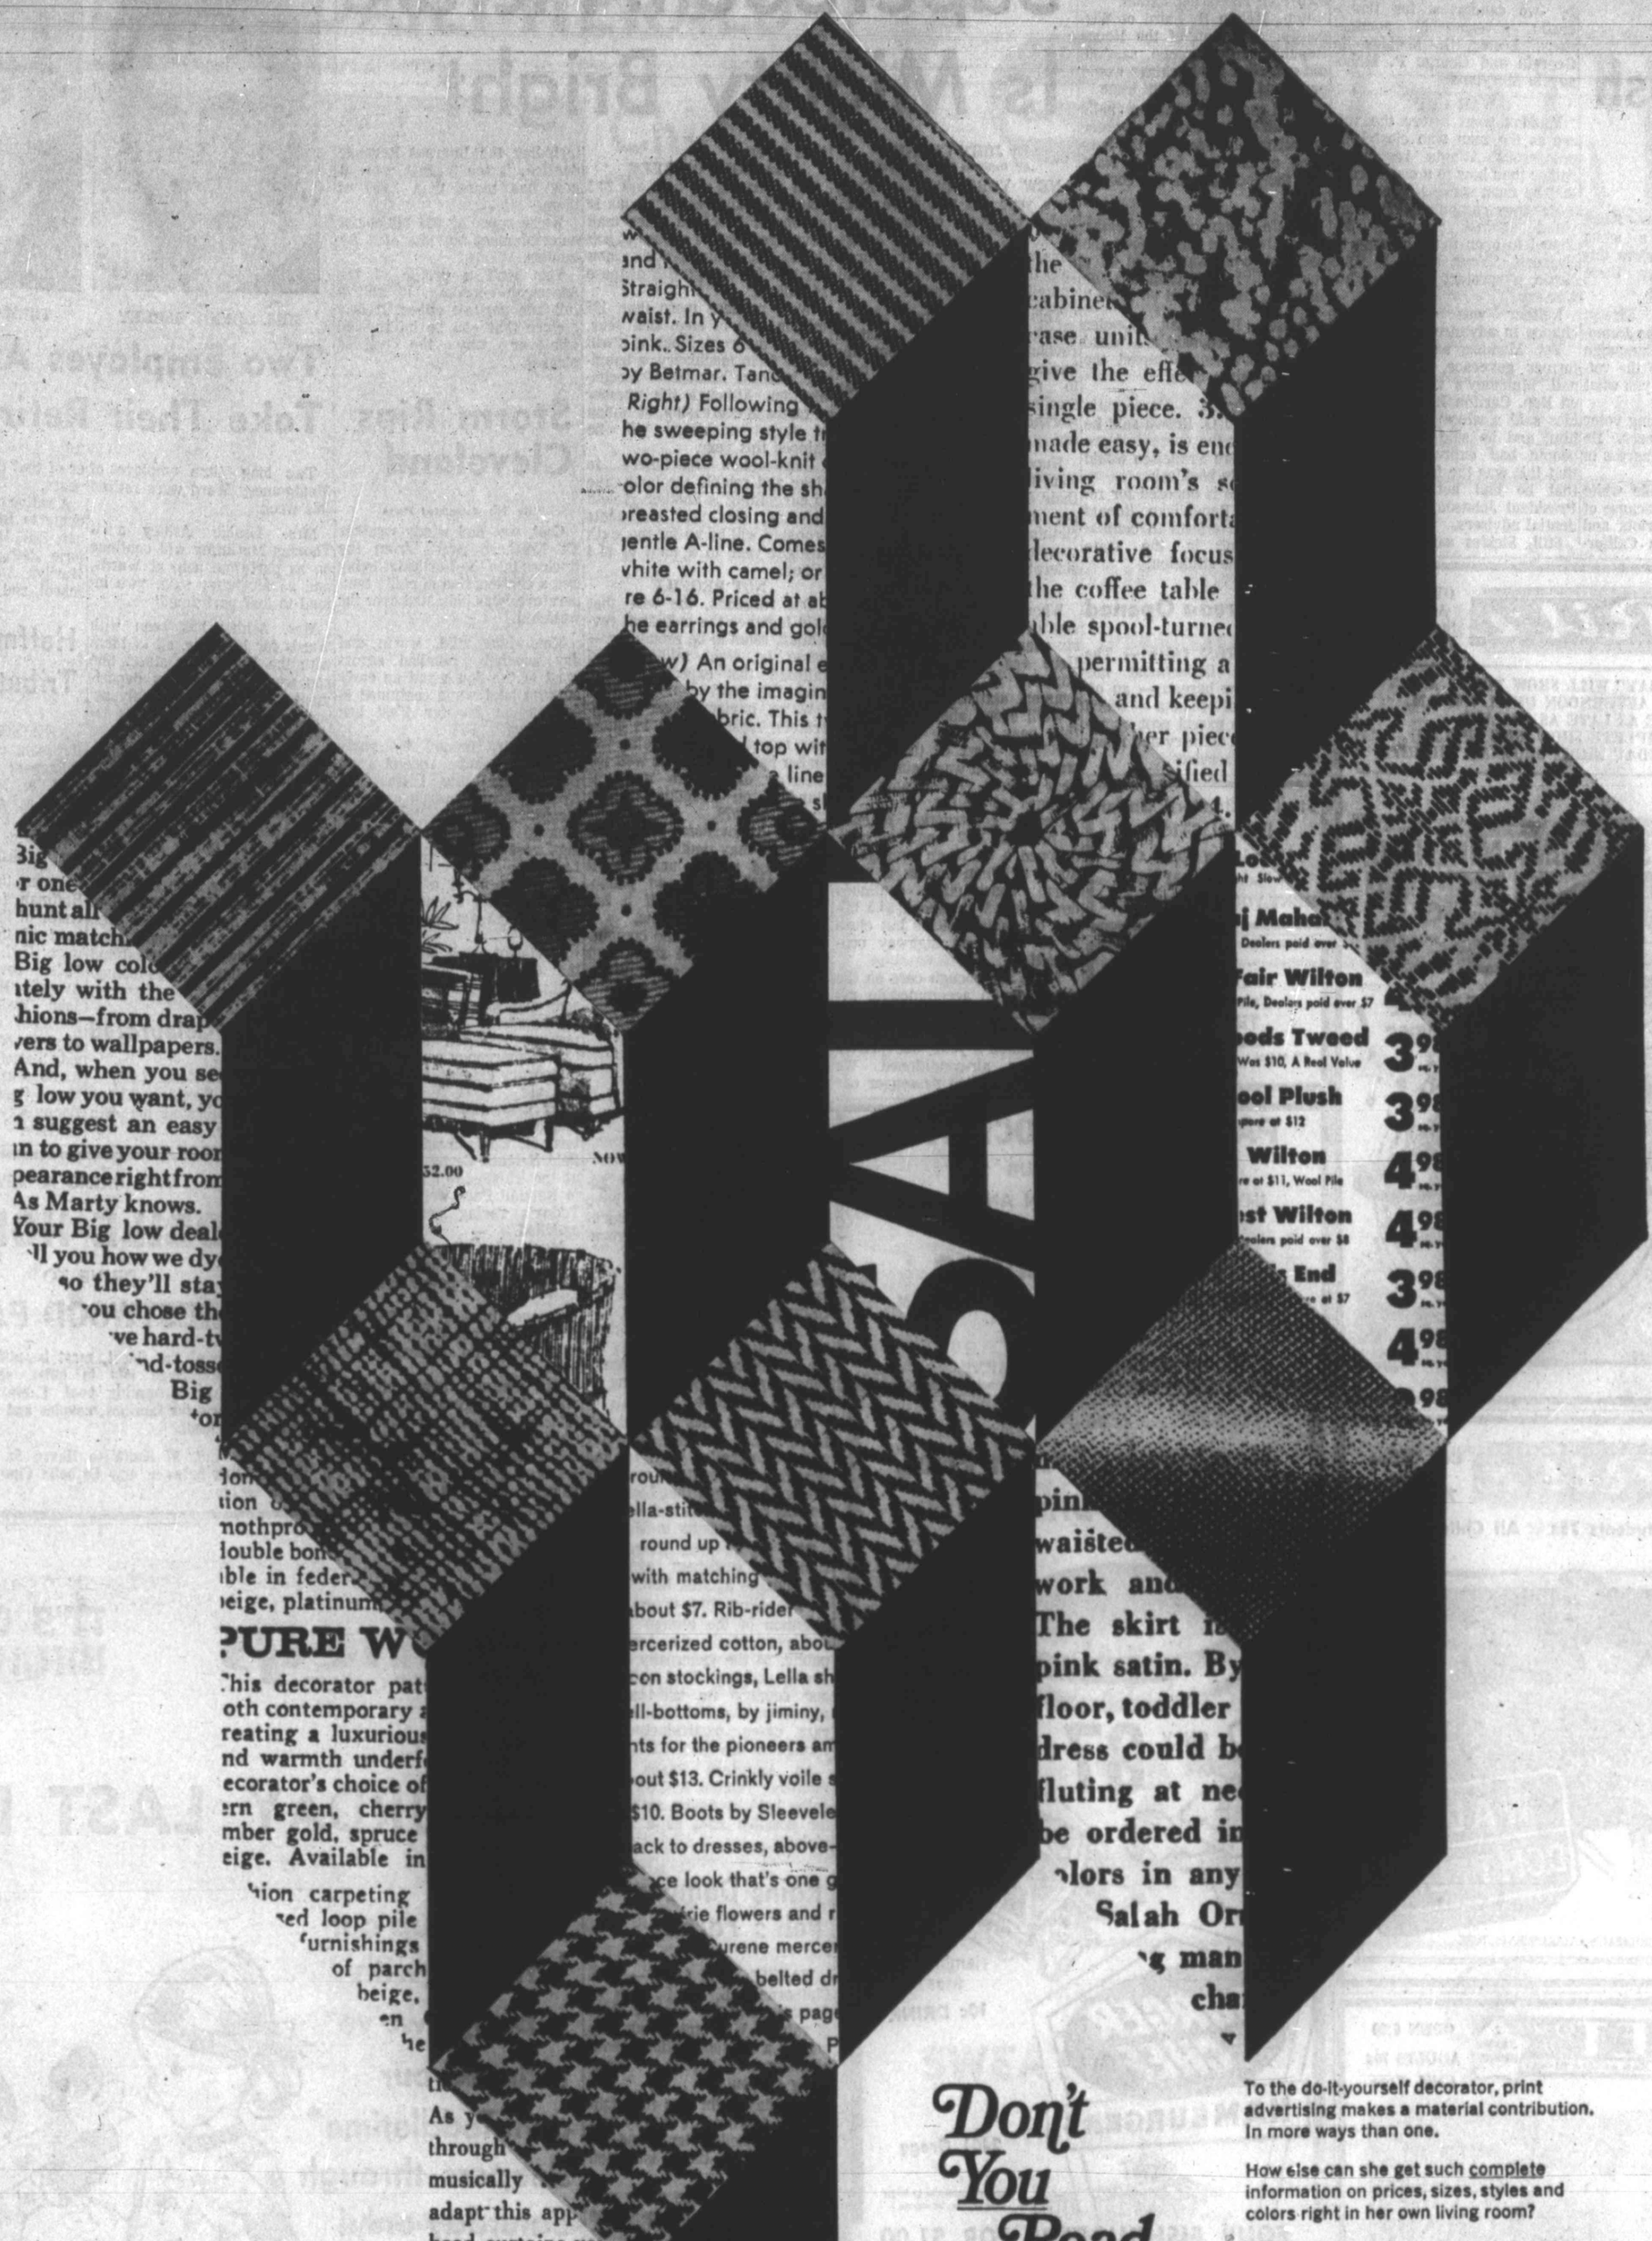
'WHITE COAL' — Flowing water is extensive in mountainous Switzerland and a new dam was built at Curnera to exploit this source to produce electric power.

SET FOR LONG SAIL — Giant support for offshore drilling platform is ready for launching into San Francisco Bay. The 136-foot long structure is eight stories high on its side. It will be floated to Alaska's Cook Inlet to be placed in operation.



SPEEDY STUFF — French singer-actor Yves Montand is now before the cameras in Milan in an unusual role. He plays the part of a Formula One race car driver.

EXPENSIVE COVER — The British fashion accent is on ponyskin and it has spread to the portable radio held by Louise Thomson in London. The receiver with the "fur coat" costs a little more than twice the amount it would without the luxury coating.



Don't You Read Before You Buy?

To the do-it-yourself decorator, print advertising makes a material contribution. In more ways than one.

How else can she get such complete information on prices, sizes, styles and colors right in her own living room?

Where else can she find a stunning idea-and bring it to a standstill for further study? What other medium lets her clip and compare?

Print's the only one.

And the spell that print weaves doesn't stop with material. It helps ring the register for everything from automatic can openers to zipper closures. Which is why-whatever you have to sell-part of your sales message belongs in print.

Print makes sense, because print makes sales.

This message is being run in the interest of the Print Advertising Association

White Backlash Threat

WASHINGTON (AP) — Some in Congress expect a white backlash among the voters this November. Some say there won't be any such thing.

But Rep. Michael J. Kirwan of Ohio, chairman of the Democratic Congressional Campaign Committee, says this of the voters: "No one could tell you what they're going to do."

Kirwan has been testing voter reaction for many years. He first took his seat in Congress in 1937.

The talk of a possible white backlash came about because of (1) continuing Negro riots and disorders, currently in California, and (2) the surprise wins by two candidates for Democratic governorship nominations, Lester G. Maddox in Georgia and George P. Mahoney in Maryland.

WAR CRY

Maddox went before the voters as the man who closed his prosperous Atlanta restaurant rather than bow to a court order that he must serve Negroes.

Mahoney campaigned in Maryland against proposals designed to open more housing to Negroes. "Your home is your castle — protect it," was his war cry.

Neither was given much chance in advance.

Yet Maddox easily upset a former governor, Ellis G. Arnall. Mahoney's victims included Rep. Carlton R. Sickles. Sickles said a white backlash hurt him, and he said White House people had expressed concern that this was the fact. He added that he had not talked with President Johnson or top presidential advisers.

Still, Sickles said, many national political leaders are concerned about the white backlash. He said it might affect future civil rights legislation.

Rep. Melvin R. Laird of Wisconsin, chairman of the House Republican Conference, said he did not think the backlash would or should be a dominant issue.

Laird said Republican polls indicate major issues of voter dissatisfaction are over the handling of the war in Viet Nam and the increase in the cost of living.

Senate Democratic Leader Mike Mansfield said, when the backlash issue was raised by a reporter, "I don't think it's the issue it's been played up to be."

House Republican Leader Gerald R. Ford said it's "hard to tell" how much impact the backlash might have.

In California, Democratic Gov. Edmund G. Brown said he did not think the current Negro violence in San Francisco would create a white backlash.

Brown, who is opposed for reelection by Republican Ronald Reagan, said efforts to combat unemployment in the state would help the situation.

New Bureau Opened

WASHINGTON (AP) — The Post Office Department has opened a new bureau — an office of special projects — which will examine parcel post operations, special delivery and many other postal services.

Superboom Picture Is Mighty Bright

By JOHN CUNNIFF
AP Business News Analyst

NEW YORK (AP) — Early next year we will have completed six years of superboom, 72 months during which Americans made more material progress than some civilizations accomplished in centuries.

This progress comes after a couple of centuries of industrial revolution and refinement, the basic change of which has been to make Americans urban dwellers and office and factory workers rather than rural farmers.

Hundreds of millions of persons around the world still base their daily activities on supplying the essentials — food, clothing and shelter. This search pre-empts any other consideration.

SOME FACTS

Where have the many centuries of progress and the latest six years of superboom left us? Here are some of the facts, gathered at random from government statistics.

We'll spend about $4.5 billion this year putting up private buildings, most of them office structures and warehouses. Last year stores, restaurants and garages led the list.

Church construction reached a peak in 1962 and has now dropped a bit to an average of about a billion dollars a year. Farm construction continues downward. We'll spend $4.5 billion on public schools but close to $8 billion on highway construction.

There are enough cars on the road now to accommodate everyone in the front seat. They're being turned out at the rate of nine million a year, one-quarter of them air-conditioned. We make 150 million passenger car tires a year.

GALLONS OF BEER

On average, we now eat 20.5 pounds of candy a year, drink 16 gallons of beer and other malt beverages, and 14 gallons of soft drinks. Low-calorie drinks now account for one-quarter of those 14 gallons.

We'll produce more than 125 million tons of steel this year, close to a record. Much of it will be for farm machinery, a booming business because of mechanization. Although the number of farms is decreasing, $4 billion of farm machinery will be shipped this year.

Construction machinery to clear and rebuild the landscape to our suiting is another growth industry. This year shipments probably will be up for the sixth straight year to a total of $1.4 billion.

NOT PROFILE

Our railroads, the wire that held together the industrial revolution, seem to be rebuilding — based on eight million wood railroad ties expected to be made this year.

We're buying larger refrigerators, most of them 14 cubic foot boxes. The automatic icemaker has caught on so well the industry expects to make it standard on a million refrigerators in 1970.

Color television production this year may double 1964's total of 1.4 million units. We'll spend $300 million on phonograph records, more if a hot singer shows on the scene.

The use of electronic computers is on an almost straight-up course. The U.S. government, including the Internal Revenue Service, is the biggest user. It now has more than 2,000 of them.

We're spending $25 billion for entertainment but less of it for movies.

This isn't a profile of the American economy. It isn't a full-face portrait either. It is a picture that can be interpreted whatever way the viewer pleases.

MRS. LENNIE ASHLEY

THOMAS McGUFFEY

Two Employes At Wards Take Their Retirement

Two long-time employes of Montgomery Ward were retired this week.

Mrs. Lennie Ashley and Thomas McGuffey will continue on as part-time help at Wards, and as McGuffey said, "we intend to loaf part-time."

Mrs. Ashley has been with Wards for 10 years, all of them with the Big Spring store. She has worked in various departments, but has been mainly associated with the alterations department.

Her husband, Floyd Ashley, operates a service station. They have two children, one son, Lyndell Ashley, and a daughter, Mrs. Alice Webb, and five grandchildren. The family resides at 1604-B Lincoln.

McGuffey has been employed by Wards for 11½ years, all of them in Big Spring. He has been assistant to the department manager of hardware, electrical and garden supplies and was manager of that department for many years.

A native of south Arkansas, he came to Big Spring in November, 1954. He and his wife, Marjorie Ruth, have a daughter, Marilyn Ann, a junior in high school, and reside at 1513 Vines.

Storm Rips Cleveland

By The Associated Press

Cool, wet and windy weather hit Northern areas from the Rockies into the Northeast today and a continuation of chilly temperatures was indicated over the weekend.

Meanwhile mild, warm and dry weather prevailed across most of the South and an early autumn heat wave continued in sections of the far West and Southwest.

Cold air, fanned by gusty northwest winds, spread from Canada into the Plains and freezing temperatures were indicated in sections from Montana to Wisconsin. Gale warnings were posted over the Great Lakes.

A storm north of the Great Lakes brought showers in parts of the Northeast and the Plains states.

A violent wind storm lashed the Cleveland area Thursday night, injuring at least 20 persons and wrecking and damaging scores of homes. About 100 persons reported to the Red Cross emergency center seeking temporary lodging, food or medical aid.

Six homes were demolished and 32 others damaged by the tornadic winds in suburban Garfield Heights. Seven horse barns at the Thistledown Race Track in Randall Park were unroofed. Today's racing program was cancelled.

Much of southeast Cleveland suburban areas were without electricity after power lines toppled.

Temperatures in the Midwest cool belt dropped to the 40s southward into Nebraska and Iowa.

The mercury again climbed above 100 degrees Thursday in interior sections of Northern California. The top mark was 109 at Red Bluff, a record high for Sept. 29, and the 103 at Sacramento also was a record for the date.

Birthday Celebrated

SEOUL, South Korea (AP) — South Korean President Chung Hee Park celebrated his 49th birthday today.

Hoffman Paid Tribute In NY

NEW YORK (AP) — Paul G. Hoffman, chief of the U.N. development program, was honored in New York Thursday night at a testimonial dinner attended by personalities from the worlds of government, labor, publishing and diplomacy.

Among those paying tribute to Hoffman, former chief administrator of the Marshall Plan and head of the Ford Foundation, were: U.N. Secretary-General U Thant; roving Ambassador W. Averell Harriman; publisher John Cowles; Walter Reuther, president of the United Auto Workers of America; Gen. David Sarnoff, chairman of the Radio Corporation of America; Mrs. George Romney, Mrs. Danny Kaye and Mayor John V. Lindsay.

Reds Expel U.S. Student

MOSCOW (AP) — Soviet authorities said today they have expelled an American student for spreading anti-Soviet propaganda.

The Soviet labor paper Trud said Nicholas H. Riegg of the University of Pennsylvania was ousted this month after authorities accused him of working for the American Central Intelligence Agency and engaging in "hostile activities."

Trud said that Donald R. Lesh, a U.S. Embassy secretary who was expelled Sept. 14, had served as a contact man for Riegg. It charged that Lesh also worked for the CIA and subverted African students in Moscow.

The report said Riegg had signed a statement admitting the charges against him.

"We should like to draw the attention of the foreign public, and particularly the American public, to the generosity of the Soviet people," Trud said. "In our country we use extreme measures of punishment only in rare cases, particularly when foreigners are involved."

An American Peace Corps member, Thomas R. Dawson, is being held by Soviet authorities for possible trial as a border violator.

Rains Dampen Pell's Parties

WASHINGTON (AP) — Sen. Claiborne Pell, D-R.I., says he doesn't mind the current siege of rain in Washington, but he's getting a bit superstitious about planning any parties — especially cookouts.

Thursday night was the night for Pell and his wife to play host again to Rhode Island students at colleges in the Washington area.

But it rained. The party was held as planned — but inside the Pell home. Pell's staffers manned the grills in the garden outside.

Last Sept. 14 the publishers of Pell's new book, "Megalopolis Unbound," had a party in three special railroad cars to mark publication of the book. That was the day the long drought in the Washington area was broken by rain. And it has been raining for the most part ever since, doubling the normal September rainfall.

Railway Provides Keys To Street

EXETER, R.I. (AP) — Keys to the outside world arrived Thursday — and now three families in Exeter, R.I., can drive in and out of their dead-end street.

They were stuck for a day behind a New Haven Railroad crossing gate that cuts across the street. A lock on the gate was smashed, and when a second lock was put on, the families didn't get keys to open it.

The gate was put up after three girls were killed in a car-train crash at the crossing last winter. It has to be kept locked because state officials ruled the crossing is private.

Gov. Brown Seeks Third Term

Governor Edmund G. (Pat) Brown of California talks to grammar school children in Daly City as he campaigns for re-election as the first Democrat to gain a third term. He faces a tough fight at the polls against his Republican rival, one-time film actor Ronald Reagan. (AP WIREPHOTO)

Brown Must Skip Demo Strife Hurdle To Win

By RELMAN MORIN
AP Special Correspondent

SAN FRANCISCO (AP) — A current gag in California's hot gubernatorial fight has a prominent Democrat saying:

"We have met the enemy and they are us."

The joke can be no joke to Gov. Edmund G. Brown. Internal strife among his fellow Democrats ranks high among the hurdles he must clear to win a third term in a campaign drawing national attention.

If he wins, Brown will be the first Democrat to get a third term in the California Governor's Mansion. Chief Justice Earl Warren, a Republican, held the office for three terms, but Warren was a "two-party governor," who regularly received support from the Democrats as well. Brown enjoys no such advantage.

'WHITE BACKLASH'

The third term, party dissension, a potential "white backlash," a personable opponent who is putting on a strong campaign adds up to a tight race. At this point, Brown appears to be running slightly behind the GOP candidate, Ronald Reagan, former actor and television personality.

A Republican candidate must win Democratic support for victory in California, where registered Democrats outnumber Republicans three to two.

In seeking another four-year term, Brown is aware that he is swimming against a riptide of "time-for-a-change" sentiment.

OUTSIDE HELP

This sentiment, says Los Angeles Mayor Samuel W. Yorty, explains in part the startling vote he attracted in the Democratic primary last June. Yorty rolled up a whopping 981,000 votes to Brown's 1,355,000.

"There's a feeling in the party that it's time for new leadership," the mayor said.

Brown is getting much outside help. The President's wife was here last week. No political implications were attached to Mrs. Johnson's trip, the White House said, but then she did find some kind words for Brown in her speeches.

PAT ON BACK

Earlier this month, the President gave Brown a pat on the back after the governor had a nationally televised confrontation with Reagan. Brown's aides said Johnson told him, via telephone, he had put on a "magnificent performance."

The governor says Reagan will be more difficult to beat than his two previous GOP gubernatorial opponents, former Sen. William F. Knowland in 1958 and former Vice President Richard M. Nixon in 1962.

Nonetheless, Brown exudes confidence. "We've turned the corner now," he says, "and we're on the way."

A recent survey indicated he may be right. The State Poll showed Brown gaining on Reagan but still behind. In percentages, the poll rated Reagan 45, Brown 41, and "don't know" 14. The comparable June figures were Reagan 48, Brown 37, and "don't know" 15.

NECK AND NECK

Political observers in California said they consider the race neck and neck now and likely to remain so to the finish in November. A spectacular blunder in either camp, of course, could change the picture.

In order of importance, Brown's aides rate the following as his principal assets — prosperity, experience, his record, and his proven ability as a campaigner.

The governor takes every opportunity to emphasize the "booming economy" of California. With the exception of housing starts, the barometers tend to bear him out. He claims that personal income in the state is 20 per cent above the national average.

TIME FOR CHANGE

In his record, Brown is especially proud of two achievements, water and education. He put through the $1.75-billion, 20-year California Water Project and he has obtained nine new campuses for higher education.

Along with the "time for a change" sentiment, Brown may be burdened with another potential disadvantage, the "white backlash," aftermath of the fight over the state fair housing law, the Rumford Act.

In a 1964 referendum Californians voted more than two to one to eliminate the law; Brown fought hard to retain it. Despite the vote, it remained on the books when the State Supreme Court ruled the referendum procedure was not constitutional.

CHANGED PARTIES

Edmund Gerald Brown was born in San Francisco, April 2, 1905. As a 12-year-old selling Liberty Bonds in World War I, he quoted Patrick Henry so often that he acquired his nickname, "Pat."

The record shows that he has been running for offices most of his life. In high school, at age 15, he held 11 student posts. He studied law in night school, passed the bar exams when he was 22, and opened a private practice.

In his first political foray, running for the state assembly, Brown ran as a Republican. He lost the race but won a pretty wife, Bernice Layne, daughter of a San Francisco police captain. She was one of his best precinct workers.

He changed parties in 1934 because, he says, he approved of the policies of President Franklin D. Roosevelt. In 1950, on his second try, he became attorney general, the only Democrat to win a statewide office that year. Eight years later, he became governor.

YOUR Horoscope Forecast for Tomorrow

By Carroll Righter

GENERAL TENDENCIES: Until this Saturday Noon you would be wise to make a point to let others see you avoid whatever is risky in its nature. Important officials and world figures are apt to make some pretty bad decisions and it would be wise to wait until a more propitious date to put ideas in motion. p.m. fine for practical details. fails.

ARIES (March 21 to April 19) Morning could bring some reverses in business if you are not careful, but after this time you can add much to present abundance. Find ways to economize in a.m. Plan for wise investments. Be cagey.

TAURUS (April 20 to May 20) Showing that you have self control in a.m. will prevent loss and you can make better plans for the days ahead. Be sociable tonight. Study into perplexing situations. Resolve problematical affairs wisely.

GEMINI (May 21 to June 21) That anxiety you have can be magnified to a terrifying degree in a.m. if you permit, but later you see all in its proper perspective. Help another in trouble. You can then reach right decision for your good.

MOON CHILDREN (June 22 to July 21) During morning your personal goals seem very distant, but good pals are most helpful later and you also can delve into new ideas, interests. Clear up any social frictions. Meet with good friends tonight.

LEO (July 22 to Aug. 21) Don't try to force a higher-up to do your bidding in a.m. since your judgment is rather poor at that time. Take time to pyramid your holdings by wiser planning, which you can achieve in afternoon. Pay your bills, buy mechanisms to achieve greater efficiency.

VIRGO (Aug. 22 to Sept. 22) Instead of dashing off to new interests in the morning, more careful study will bring success in them later on. New contact could give you erroneous information early. The clarification comes in own mind.

LIBRA (Sept. 23 to Oct. 22) Stop doodling around and get all of those accumulated tasks out of the way quickly, so that tonight you can devote yourself to happiness and romance. Intuition is not accurate in a.m. Later it helps greatly.

SCORPIO (Oct. 23 to Nov. 21) Avoid any talks with associates in a.m. since they are in rather a bad mood, but after lunch they see things more clearly. Civic matters are somewhat annoying during early part of day. Fine by early evening, though.

SAGITTARIUS (Nov. 22 to Dec. 21) You seem to be overburdened with work during morning, but careful planning sees it done methodically and well. Although coworkers who are usually dependendable disappoint in a.m., later they make up for lost time. Be happy.

CAPRICORN (Dec. 22 to Jan. 20) You can have a pleasant time today, but not in the morning. Prepare well for the type of recreation you like. Then out in a cheerful mood and with congenials you fruity like. Show you have poise.

AQUARIUS (Jan. 21 to Feb. 19) Anything concerning home and family should be handled with great care during a.m., and you can then have a happy time in that important sphere of your living. Consult with kin. Find some new way to add to income.

PISCES (Feb. 20 to March 20) You must walk or drive carefully during a.m. but later all eases up and you can visit, delve into sports, etc. and have a fine time. You are able to get the information you need after lunch. Be patient during the morning.

IF YOUR CHILD IS BORN tomorrow . . . he, or she, will be one of those youngsters who will appear to find it difficult to learn as quickly as others of his, or her, age, but the fact is that your youngster has a reasoning mind and tries to figure everything out meticulously, instead of just accepting pat rules. You will find that later on in life, the progress and the success will be quite phenomenal. Forte will show itself early.

Chinese To March Saturday

TOKYO (AP) — Swept by a new purge, whipped up to revolutionary frenzies by its youthful Red Guards, Communist China celebrates its 17th anniversary Saturday and the glory of the cult of Mao Tse-tung.

A million persons — among them the newly created Red Guards — are expected to parade through the Tien an Men—Gate of Heavenly Peace—Square before the 72-year-old Mao, a ritual carried out with flourishes since 1949.

NEW BLOOD

The accent, Japanese correspondents in Peking report, will be on the Red Guards, boys and girls who have been designated by Mao to infuse new blood into his disputed ideological program for China. They have been doing so by violently shaking up old customs, old ideas, and the old religions.

The big festival commemorates Mao's proclamation of the People's Republic of China in 1949.

Normally it is the dramatic highlight of the year with its well-drilled, colorfully dressed marchers. This year's may be something of an anticlimax. Three enormous rallies already have been held in the great square since Aug. 15 with Mao present at all of them. Beside him has been China's new strong man: Defense Minister Lin Piao.

CHEN MISSING

The prominent presence of Lin, described as Mao's "close comrade in arms," and the absence of some other party leaders will underscore the fact that 1966 has been an extraordinary year for China.

Missing will be Peking's Mayor Peng Chen, who cried from the rostrum last October, "Imperialism and its lackeys will not last very long!" Peng himself did not last very long after that.

Mao touched off the purge soon after his appearance last Oct. 1. Quitting Peking in November, he retired to South China and drew up another of his blueprints for remolding China's masses. He ordered the army to plunge deeper into work and farm projects, called on farmers to get into industrial production, on factory workers to do parttime farming, cut the university course from four to one or two years. It was his answer to those who had dared to criticize and oppose him.

All Ready For Festival

The Immaculate Heart of Mary Church fall festival, which will begin Saturday on the school grounds, has had a crew of hard workers planning for the festivities. Firming some last-minute plans are, from left, Mrs. J. P. Williams Jr., Bob Harbison, the Rev. Francis Beazley, pastor, Mrs. Raymond Boucher and Mrs. Dan Maestas. (Photo by Danny Valdes)

Catholic Church Plans Festival On Saturday

Special features of the Immaculate Heart of Mary fall festival, which is to begin Saturday from 2 to 10 p.m. on the church grounds, are a barbecue dinner, free prizes, games and booths.

Royal C. Mills, general chairman, and Bob Harbison, ticket chairman, have rounded up a crew of workers to help with the festival preparations. Mrs. Dan Maestas is in charge of serving the dinner, which will cost $1 for adults and 50 cents for children. Members of the Altar Society will aid her.

The Rev. Francis Beazley, pastor, has invited all local and area residents to attend. This is the eighth fall festival put on by the church to raise funds for church activities.

St. Ann's Guild at Webb AFB will provide food and prizes for the booths, and a special musical program will be staged by the children of Immaculate Heart of Mary School at the close of the festival.

Workers have included Dan Maestas, meal ticket chairman; Mrs. Royal C. Mills, publicity; Harold Decuir, bingo; Jim Reidy, penny pitch; Mrs. L. D. Jenkins, grab bag; Mrs. Raymond Boucher, country store; Mrs. Luis Casillas, cake walk; Mrs. James Cape and Mrs. Paul Meek, snack bar; Harry Jordan, wheel of furtune; Mrs. Martin Gehling, parcel post; the Missionary Sisters of the school, school booth; J. P. Williams, walking clown; and Anne Sanders, bottle game. Booth construction was by Bert Andries.

Church World Service Marks 20 Years Oct. 7

NEW YORK, N.Y. — Church World Service, one of the largest overseas relief agencies, will mark its 20th anniversary of service on behalf of major U.S. Protestant and Orthodox denominations with a dinner and ceremony in Indianapolis, Ind., Oct. 7.

The Indianapolis affair, to which hundreds of American church, government and secular leaders have been invited, as well as representatives of some 40 foreign governments, will be followed with a series of regional celebrations in various parts of the country.

Speakers for the Oct. 7 anniversary event will be the Most Rev. Edward E. Swanstrom, head of Catholic Relief Services, and Dr. Reginald H. Helfferich, general secretary for world service of the United Church of Christ.

Dr. Spencer P. Austin, CWS chairman and an official of the Disciples of Christ, will preside at the dinner.

A highlight of the dinner will be the inauguration of the Church World Service Distinguished Christian Service Award, which will be given to three individuals who have performed distinguished service to those in need overseas.

Churches Win In Program

DALLAS — Four churches winning in the 1966 Texas Baptist Church Development Program have been announced by Darwin Farmer, new secretary of the Baptist General Convention of Texas district missions department.

Selected as Church of the Year, with Pastor of the Year in each category were Iglesia Bautista Oriente, Austin, the Rev. J. William Mason, pastor, 1-100 resident members; San Gabriel Church, San Gabriel, the Rev. Melvin D. Zornes, 101-200 resident members; Meadowbrook Baptist Church, Waco, the Rev. Clifford H. Feeler, pastor, 201-400 resident members; and Plymouth Park Baptist Church, Irving, the Rev. Don Dyer, pastor, more than 400 resident members.

One of these churches will be announced Nov. 3 as the 1966 Texas Baptist Church of the Year and its pastor as the Minister of the Year.

Rev. Puckett To Show Slides

"The Dead Sea Scrolls," seventh in a series of 10 sermons-in-slides presented by the Rev. James A. Puckett, pastor of Baptist Temple Church, will be held Sunday at 7:15 p.m. at the church.

The slides cover the story of the discovery, and Rev. Puckett will present a replica of the jar in which the scrolls were found and a copy of one of the scrolls. The public is invited to attend.

Sacred Heart To Build Youth Center

A $37,000 youth center, financed by the Sacred Heart Catholic Church, will be built for the youth of the area at 509 N. Aylford.

The Rev. James P. Delaney, pastor, said that construction on the project was due to begin Monday, with a completion date set for late January. Pioneer Builders are handling the construction.

The building will be L-shaped, with a 50 x 120 foot main building and a 40 x 40 foot wing. The land has already been cleared and leveled, according to Rev. Delaney. The entire project is being financed by donations.

Included in the youth center, which, Rev. Delaney said, is being built for the purpose of spanning all age groups, will be facilities for teenagers, such as a boxing area, teenage games and recreation, and areas and equipment for young children. There will also be a kitchen area.

Cafe Cards Provided

Cafe patrons in most of Big Spring's restaurants are finding a small cardboard folder attached to the menu which they are handed.

The card is provided by the church work committee of the Big Spring Kiwanis Club. It is captioned "Put your Faith to Work Every Day."

On the reverse side are four brief prayers of thanks, each approved by the Orthodox, Protestant, Roman Catholic and Jewish faiths.

The diner is invited to take the folder with him.

Cafe workers indicated interest in the little cards is good. They say many patrons take them when they leave the cafe. The club keeps the establishment supplied with the folders.

Evangelist Due At Revival Here

The Galveston Church of God, Galveston and Fourth Streets, will begin a two-weeks revival Sunday at 6:30 p.m. featuring the Rev. Joe Stamper, pioneer preacher from Pryor, Okla. Rev. Stamper has over 45 years in the ministry.

The Rev. Bob Bohannon, pastor, invited the public to attend. Week night services will be at 7:30 o'clock.

TWO GREAT PROPHETS

A built-in sense of guilt, unclean lips, and a lonely soul confronted both Isaiah and Jeremiah, two of the greatest prophets in Hebrew history, and turned them toward God to do his bidding. For the next 11 Sundays, the International Sunday School Lesson will discuss these two prophets, who stood as great rocks in a weary, desperate land. The text is taken from Isaiah 1:6.

The prophets had a cleansing, revealing experience of God. They admitted their guilt, wanted to be rid of their sins, and truly desired to serve God.

God says to man, "Never mind what you have been; I am interested in what you want to be." (Isaiah 6:5)

CHURCH CALENDAR

ASSEMBLY OF GOD

FIRST ASSEMBLY OF GOD—The Rev. Homer Rich, 11 a.m., "His Unusual Death"; 7 p.m., "Transforming Power"; A. Puckett, 11 a.m., "Live by Faith";

BAHA'I FAITH—Discussion topic, "Baha'i faith and its relationship to Christianity and a modern world"; Friday, 8:30 p.m., 1804 Dixie.

NEW RECTOR AT ST. MARY'S
The Rev. John H. Payne Jr.

St. Mary's Rector Begins His Duties

The Rev. John H. Payne Jr., new rector of St. Mary's Episcopal Church, will preach his first sermon here Sunday morning. Rev. Payne has replaced the Rev. Donald Hungerford, who is now pastoring St. John's Episcopal Church, Odessa.

A native of Massachusetts, Rev. Payne was educated in the public schools of Newport, R.I., and received his bachelor of arts in psychology from Trinity College, Hartford, Conn., in 1942. After four years of military service, Rev. Payne was graduated from the Episcopal Theological School, Cambridge, Mass., in 1948.

After a two-year curacy at St. Paul's Church, Pawtucket, R.I., he became rector of St. Paul's Church, Gardner, Mass., St. Paul's, Artesia, N. M., and for the past eight years, he has been rector of St. Andrew's, Seguin.

The new rector has been a member of the American Legion, Disabled American Veterans, Kiwanis Club and various other civic organizations.

In 1944 he was married to Ruth A. Barry, Hartford, Conn., and they have three children, John, Richard and Ruth Ellen.

Story Time with God

Religion is a vital need at every age. And these boys and girls are busy gaining religious knowledge that will be important to them all through life.

We grownups are accustomed to the Church's presence in community life. It is always there, gracing the horizon with its spire . . . offering its message of faith to a confused world.

But peek into the corner of a beginner's room on Sunday morning and behold the *majesty* of the Church's mission. It brings the consecrated talents of artists, writers and teachers together, and focuses them upon the eager minds of a generation preparing to face life. It gathers the spiritual truth unfolding for centuries, and in beloved story brings it to the ready ears of tots and toddlers.

Support and attend the church of your choice. Make sure your children are sharing in this life — enriching STORY TIME WITH GOD.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

MINNESOTA FATS PAYS VISIT HERE

As Sharpie Or Gourmet, Rudy Eats High On Hog

By TOMMY HART

A dead tired Minnesota Fats, who said he had been on the road longer than he could remember, put in a full day of exhibiting his best pool shots, talking and eating here Thursday before moving on to Abilene to repeat the routine.

The self - acknowledged world's greatest pool player was here to focus attention on a brand of pool table Montgomery Ward is marketing under his name.

He first appeared before patients at the Veterans Administration Hospital, then shifted the scene of his operations and his lectures to the Ward building in the Highland South shopping center. Between appearances at Ward's, the famed fat man (he stands only 5-8 but weighs 260) popped out to Webb AFB for a meal and a match against some of the prime talent there.

This working for a living is something relatively new to Minnesota Fats, who was born Rudolf Wanderone 54 years ago in the Washington Heights section of New York City. He decided to go straight about a year ago and took the first job in his life.

"They sprang me with a company, my own company," Rudy said, "Minnesota Fats Enterprises—made me an executive. How could I say 'no'? I turned down at least 500 job offers in my time—jobs that would have paid me anywhere from $60,000 to $70,000 a year. When they laid this company on me and made me the boss, I had to say yes."

Wanderone lays no claim to being modest about his talents with a pool cue or as a trencherman.

"Why should I? A fellow has as good a chance against me as he has going to Viet Nam with a slingshot and coming back alive."

Minnesota Fats has been playing pool ever since he first started frequenting pool rooms in the tenderloin district of New York City when he was 3½ years old. He studied the masters who came in there from all over the world and quietly concluded that each was a master of only one phase of the intricate game. He decided to make pool his life's study and master all the shots. He has pretty well succeeded.

He loves to eat, will often put away a whole ham or turkey at a time, but doesn't dissipate. He's never smoked nor wrestled with Demon Rum in his life and says he never has once been sick.

Jackie Gleason, the famed TV comic, took his part in the movie "The Hustler," and Fats says it might have been a mistake to agree to lend his prestige to such an opus.

The movie was authentic in all but one detail and that was in letting Gleason get beat by the young challenger, whose part was taken by Paul Newman.

"Such a thing would never have happened to me," Rudy says in a matter-of-fact way. The fact that the script writers saw to it that Gleason took his lumps wasn't what bugged Fats, however.

"Since then I've been autographing things 'til my arm all but falls off," he laments.

Pool is the nation's fastest growing recreation, the cue star maintains.

"Whereas four million played the game four years ago, there are 50 million players today," states the round man. "My company is making 150 pool tables a day and can't keep up with orders."

Pool is a game played by the famous as well as the masses, Wanderone likes to point out. He says Napoleon and Josephine were pool addicts and George Washington liked to wield a pool cue in his spare time.

Among the nationally known entertainers, Wanderone ranks Gleason, Newman, Mickey Rooney and Jim Garner at the very top but, he adds, none will play in public for fear of getting beat. Fats reasons the attitude has something to do with damaging their image in the eyes of the movie-going public.

His book, "Bank Shots and Other Great Robberies," will shortly be on the market. He says he had no ghost writer. (It will be available through Montgomery Ward).

Rudy once played before 138,000 people in Indianapolis and has exhibited his talents around the globe. He says he actually is better if he stays away from a pool cue for two or three days.

He recalls the best women players he's ever opposed were Ruth McGinnis and Kutura, the Japanese star.

The world's most famous pool hustler—who has never contended for the world titles (although he has beaten Hoppe and Mosconi among others) because (1) he can't spare the time and (2) the money offered isn't worthwhile—has never lived in Minnesota, by the way.

The movie people liked the name of Minnesota Fats and hung it on him. He now maintains a home in Dowell, Ill., not far from St. Louis, but rarely stays there because of the demands on his time.

Along about now, he'd like to go back there and sleep in for a week — even if he dreamed of playing pool all the time. He's that bushed.

Minnesota Fats

Bruins Seek To Protect Top Rating

By The Associated Press

UCLA's hard-won No. 2 spot in the Associated Press' college football poll could be in jeopardy Saturday when the Bruins face Missouri in a nationally televised contest.

Despite impressive victories over Pitt and Syracuse, UCLA is only a slight favorite over Missouri, which boasts early-season triumphs over two Big Ten opponents, Minnesota and Illinois.

Most of the rest of the Top Ten teams in the AP poll ought to have little trouble in dispatching their opposition Saturday, although Alabama, the No. 3 team could have problems with an unbeaten Mississippi team. Also, fifth-ranked Southern California opens its Pacific Eight schedule with Oregon State, which, after a fearful opening beating by Michigan, bounced back to beat Iowa 17-3 last week.

The No. 1 team, Michigan State faces Illinois in its Big Ten opener. The Illini, with losses to SMU and Missouri, are still looking for their first victory.

Notre Dame, the fourth-ranked team, also faces Big Ten competition from Northwestern, but Ara Parseghian's team shouldn't have much difficulty as Northwestern has suffered losses to Florida and Indiana.

Sixth-ranked Nebraska should get past winless Iowa State without much difficulty and seventh-rated Arkansas figures to handle TCU, which has lost to Nebraska and Ohio State, easily.

Michigan, the No. 8 team, meets North Carolina State, which rebounded from its opening loss to Michigan State with a 10-7 victory over cross-state rival North Carolina State. Georgia Tech, the ninth-ranked squad, meets high-scoring Clemson, which won its opener last week from Virginia, 40-35.

Tenth-rated Tennessee meets Rice, fresh from a 17-15 victory over LSU.

Goliad Wins 4th In Row

Goliad Junior High's ninth graders set a school record by flogging Snyder Lamar, 26-6, here Thursday night.

The win was the fourth straight for Jimmy Marcus' team, which represents the longest winning streak in the history of the school.

Leonard Basco made Goliad's first TD on a dive play that carried 65 yards — the Mavericks' first play from scrimmage.

In the second round, fullback Danny Glover raced 65 yards off tackle for Goliad's second six-pointer. Lamar then scored and the two teams departed at half time with Goliad leading, 12-6.

In the third, quarterback Gary Hughes counted for the Mavericks on a one-yard quarterback sneak. Hughes had set up the score with a 40-yard run, which came on a bootleg play. Jerry Stewart added the two extra points on a dive play.

Basco scored an insurance touchdown for Goliad in the fourth when he intercepted a pass and raced 70 yards across the double stripes.

On defense, linebacker Glover, guards Danny Cunningham and Bill Guinn and halfbacks Basco and Hughes excelled for Goliad.

* * *

Lamar scored on the second play from scrimmage and went on to pummel Goliad in the eighth grade encounter, 36-6.

Scott McLaughlin went one yard on a keeper play for Goliad's lone TD in that engagement. The drive covered 50 yards.

Shorthorns Play Abilene Eaglets

Unbeaten, untied and unscored on, the Big Spring High School B team goes to Abilene Saturday to face its sternest challenge, a 1:30 p.m. outing with the Abilene High Eagles.

The Shorthorns have defeated San Angelo's Sophs, Snyder and Andrews in that order, running up a total of 54 points.

The game will be broadcast over radio station KBST Big Spring.

Sandy Koufax Fashions 26th Win For Dodgers

By DICK COUCH
Associated Press Sports Writer

Sandy Koufax' golden arm is back in cold storage today, but the Los Angeles Dodgers have plenty of ice left over for the champagne.

Koufax, the Dodgers' arthritic southpaw ace, tamed St. Louis 2-1 Thursday night and set another strikeout record as Los Angeles inched a step closer to its second straight National League pennant.

The Dodgers lead second-place Pittsburgh by two games, with three to play, and can nail the flag tonight if they win at Philadelphia while the Pirates stumble against San Francisco.

Koufax turned what could be his last regular-season appearance into an historic triumph, checking the Cardinals on four hits and fanning 13 to become the first pitcher ever to hit the 300-strikeout mark in three different seasons.

The 26-game winner then dipped his pitching arm in ice — his regular post-game routine — and said he'll be available to pitch with two days rest against the Phillies Sunday if the pennant hasn't been wrapped up by then.

Koufax struck out the first two men he faced in the ninth before Curt Flood, who had put the Cards on the scoreboard with a seventh-inning homer, lashed a double to center. Manager Walt Alston then conferred with Koufax and it was decided to walk Orlando Cepeda intentionally, putting the potential winning run on base.

The strategy paid off when Mike Shannon flied to center for the game-ending out.

The Dodgers open their final three-game set at Philadelphia tonight, with Claude Osteen, 17-13, scheduled to pitch against the Phils' Chris Short, 18-11. The Pirates, who were idle Thursday, will send rookie Woody Fryman, 12-9, against San Francisco ace Juan Marichal, 24-6, in the opener of their three-game wind-up at Pittsburgh.

In Thursday's only other action, Houston nipped Cincinnati 3-2 on homers by rookies Chuck Harrison and Aaron Pointer. The Kansas City-Baltimore and New York-Washington doubleheaders in the American League were canceled because of rain.

Koufax, who finished the game with a season total of 307 strikeouts, passed the 300-mark for the third time in the last four years when he fanned the side in the fourth inning. Washington's Walter Johnson and Rube Waddell of the Philadelphia Athletics were the only other pitchers who had struck out 300 or more in two seasons.

Strikeouts—Koufax, Los Angeles, 307; Bunning, Philadelphia, 248.

Yearlings Batter Sweetwater Colts

SWEETWATER — Although frustrated by a penalty bugaboo all night, the Big Spring Runnels JH ninth graders bruised to a 10-0 football victory over Sweetwater Junior High here Thursday night.

The win was the third in four assignments for the Yearlings. Runnels led by a score of 2-0 at half time.

The Big Springers counted their safety in the second period when Rickey Ray Thomas and Tony Green tackled a Sweetwater ball carrier in the end zone.

Runnels scored again in the fourth on a bootleg pass from quarterback Johnny Rutherford to Lewis Switzer, good for 20 yards. Rutherford added the two extra points on a run.

Switzer later broke loose on a dive play that carried 55 yards but penalties set the Yearlings back.

Runnels looked especially good on defense. Sweetwater did not threaten the Yearling goal all night.

Switzer, Saul Marquez, Fred Pena, Green and Charley Rodriquez all excelled on defense for Big Spring while Rutherford, Switzer and Marquez glistened on offense.

Runnels will be at home to San Angelo Edison next Thursday.

* * *

Runnels' eighth graders were defeated in an all out offensive struggle, 28-22.

Tackle Dale Crenshaw blocked a punt for Runnels in the first quarter and end Gary Holley recovered it in the end zone for the Yearlings' first score.

In the third period, quarterback Joe Lane raced 50 yards to pay dirt on a punt return for another Big Spring six-pointer, then ran across the two extra points.

In the fourth, halfback Bill Franklin sprinted 60 yards for Runnels' third tally, after which Ernest Zubiate added the two points.

Zubiate played an outstanding game for Runnels on defense as the mike man.

Golfers Play As Tandems

Tandems can tee off any time Saturday in the Partnership Golf tournament scheduled by the Country Club.

Players from throughout the area are eligible to take part and can choose their own partners, as long as they observe the rules.

A total of 50 players had registered with pro Jerry Green this morning and Green is making plans to greet twice that many, if the weather is favorable.

Entry fee is $5 per team and the field will be shooting for merchandise awards.

In the past, such tournaments have been held on Sunday but club officials think a Saturday date might work better.

Unknown Leader

VANCOUVER (AP)—Hugh Royer, a little-known touring professional from Columbus, Ga., carded a three-under-par 68 Thursday to take the lead after the first 18 holes of the Canadian Open Golf Meet.

Forsan Juniors Decision Bronte

BRONTE — Forsan Junior High raced to a 20-0 football victory over Bronte here Thursday night. The Buffs return to play next Thursday in Robert Lee.

Bobby Davis scored two touchdowns and Jack Willis one for Forsan while a pass from Rocky Ford to James Barnett added the two extra points.

Forsan led at half time, 14-0. Bronte made only one first down and that came in the final two minutes. Forsan suited out 31 boys and all played.

Seek Third Win

Pictured here are six members of the Sands High School football team, which opposes Loop in Ackerly at 8 o'clock tonight in a battle of the unbeatens. Both teams have been tied, however. Front row, from the left, they are Oren Lancaster, Ken Gillespie and Randy Hambrick. Back row, Alfonso Calvio, Merwin Beal and Larry Oaks. (Photo by Danny Valdes)

Dallas Given Football Edge

PHILADELPHIA (AP) — Dallas and Green Bay should maintain their perfect records in the National Football League this weekend but the St. Louis Cardinals may be in danger in Philadelphia.

In the American Football League the three unbeatens, Kansas City, San Diego and New York, figure to roll along although the high-scoring Chiefs could have serious trouble with the defending champion Buffalo Bills.

Despite surprises by the Cardinals and Washington Redskins last week, it was a good week for the Hand picker with 9-2 over-all and 28-6-2 for the season. Pressing our luck we'll take another shot. All games will be played Sunday unless otherwise indicated.

National League

Los Angeles 27, San Francisco 17 (Friday night) — The 49ers have won the last three from the Rams in regular season play but Los Angeles rolled to a 29-9 score in a Sept. 3 exhibition.

Green Bay 27, Detroit 10 — Lions always give Packers fits with that rush on Bart Starr but Detroit running game is weak and Packer pass defense is superb.

Dallas 28, Atlanta 10 — Cowboys can name the score in this one although Mel Renfro will see only spot duty.

St. Louis 24, Philadelphia 21 — This could be an upset. Eagles romped over Giants while Cards come off toughie at Cleveland.

Cleveland 34, New York 21— Browns have too many weapons with Frank Ryan's passes to Paul Warfield and running of Leroy Kelly and Ernie Green.

Washington 23, Pittsburgh 17 — Steelers injuries, especially John Baker, will give Sonny Jurgensen time to hit Bobby Mitchell and Jerry Smith.

Minnesota 24, Chicago 21—No guarantees here. Bears have been off since Sept. 16 loss at Los Angeles and Papa Bear has been cracking the whip. Vikings showed good balance, outgaining Cowboys in losing effort.

LOOKING 'EM OVER

With Tommy Hart

The fellows who are paid to do the worrying about the local high school football team — the coaches — were gravely concerned about the Steers' aerial armor plate before the season began. A good pass defender needs to have speed and agility as well as experience.

The boys who were volunteering to man those positions perhaps were deficient in all three departments but not in desire.

As it has turned out, pass defense has been one of the team's strong points to date. The Longhorn backs have come up with as many pass interceptions as the opposition has completions in three games (six).

Of course, some of the biggest challenges remain ahead of the locals but Bob Wiggins of Lamesa, Randy Kersh of Plainview and Snyder's Murry Bowden are no slouches when it comes to throwing the ball. The opposition, in those three games, has averaged less than 30 yards a game in aerial thrusts.

* * * *

That 7-3 won-lost record compiled by the Steers' three opponents to date doesn't look bad, either. Lamesa has won all three of its assignments. Plainview came back to topple Tulia last week after dropping its first two games and Snyder brought a 2-0 record to town.

* * * *

Before the season began, coach Bob Burris of Midland Lee said his experience with the pros taught him the value of the forward pass, so the Steers can expect to see the ball put in the air a lot when they return to action here against the Rebels next week.

* * * *

Beverly Rockhold of Baytown, who ran on the Big Spring High School track team years ago and who is now one of the state's best known track mentors, is campaigning to have the University Interscholastic League change the qualifying system for the state meet.

Under the present rules, the top two athletes in each event in the regional meets automatically advance to the state meet.

Rockhold contends that such a rule is discriminatory in that some districts have as many as five athletes in an event who are better than the best two in other regions.

He would adopt a set of arbitrary standards for field events only. Athletes equalling or excelling these standards would automatically qualify for state, under Rockhold's plan.

Rockhold would also make the top two entries in each region eligible whether or not they are able to meet the standards but it would make it possible for a region to qualify more than two if they are good enough.

Rockhold reasons that such a method could not be used in running events because "there is too much margin of error in official judgment involved, and weather conditions may also be a great factor."

There is little chance of Rockhold's proposals gaining approval, mainly because the state meet is too big as it now stands.

However, the UIL officials could solve that problem by assigning divisions of the meet to cities other than Austin.

* * * *

Warran J. Quinlan, the Dale Carnegie man here, was once an amateur boxer of note around the city of Chicago and came very close to turning pro.

* * * *

Against Howard Payne College the other night, Big Spring's Johnny Hughes punted the ball eight times for an average of 38.8 yards. One of his boots traveled 63 yards.

* * * *

Ernie Ladd, the celebrated lineman acquired by the Houston Oilers from San Diego after last season, was all but run out of the game by Sam DeLuca when the New York Jets humiliated Houston recently.

It was DeLuca's job to protect passer Joe Namath from the likes of Ladd.

Guidelines For Schools Brew Storms

WASHINGTON (AP) — The mounting political storm over federal guidelines for desegregation of schools and hospitals aims today at Commissioner of Education Harold Howe II, a chief target of guidelines critics.

He is scheduled to testify before the House Rules Committee in what could be a preview of a promised congressional investigation of standards used by the Department of Health, Education and Welfare to judge eligibility of schools and hospitals for federal funds.

FRAMEWORK

As the framework for the congressional probe was building:

HEW Secretary John W. Gardner said his department would "review our activities very carefully" under terms of a Senate request. But he said he did not think HEW had exceeded powers granted by the 1964 Civil Rights Act.

President Johnson was said by his press secretary, Bill D. Moyers, to believe that "Gardner is doing his best to carry out the law the way he sees it."

Senate Democratic Leader Mike Mansfield of Montana retracted a statement of Wednesday in which he had said HEW was moving too fast and said instead that school desegregation is too slow if anything. He said he had misunderstood a reporter's question.

NOT IN FACT

The Public Health Service said some hospitals which agreed to desegregation guidelines have not in fact complied.

Southern congressmen have been criticizing the guidelines for weeks.

The Senate Appropriations Committee formally reported earlier this week it believed the guidelines go beyond the intent of the 1964 Civil Rights Act. It asked Gardner to study the matter and report. The committee statement, however, was criticized by some Northerners from each party.

PROBE BACKED

Today the House Rules Committee continues consideration of Southern-sponsored resolutions asking that a special committee investigate the guidelines.

The Rules Committee indicated Thursday it favored a probe, but that it would leave the matter to the Judiciary Committee. Judiciary Chairman Emanuel Celler, D-N.Y., promised that an investigating panel including Southerners could go to work right after the Nov. 8 election.

Critical Of Rioting

FBI Director J. Edgar Hoover said today that it was a "disgrace to our country" that firemen, responding to alarms, were fired upon during the San Francisco rioting. He said "this is most degrading to the whole United States." Hoover made the observation as he was honored by the "100 Club of Massachusetts," an organization assisting the families of policemen and firemen killed in line of duty. (AP WIREPHOTO)

Antipoverty Fight Shifts

WASHINGTON (AP) — The fight over the antipoverty program shifts to the Senate today where debate opens on a $2.5-billion authorization bill that is $750 million above the administration's budget.

The Senate action follows House passage Thursday night of a bill tailored to the $1.75-billion budget request but tightening controls over how the money could be spent. The House vote was 210 to 156.

NO VOTES

No votes are expected in the Senate before next week when Republicans plan a drive to cut back the increased authorizations added by the Labor Committee.

The funds would boost authorizations for Head Start a program for preschoolers; and the Neighborhood Youth Corps, which puts needy youths to work in public agencies. Money also was added to start a new program for neighborhood health centers.

FIRST TIME

For the first time since the antipoverty program started two years ago, the House set spending limits on each of the many programs directed by the Office of Economic Opportunity.

It put a $7,500-per-trainee ceiling on the cost of running the Job Corps, well below the present $9,100 cost. It fixed $12,500 as the maximum federal salary of community antipoverty workers.

Republicans offered dozens of major amendments but succeeded in getting only one approved. Offered by Rep. Albert H. Quie, R-Minn., it would require that at least one-third of the members of a community antipoverty board be composed of representatives of the poor. The present law calls only for "maximum feasible participation" by the poor.

New Deputy Due Monday

Sheriff A. N. Standard's new deputy should be on the job Monday.

"I am not making any definite promises," he wrote the sheriff. "I promised once before, and you know what happened."

The new deputy is Shelton Leon Ward, 30, formerly of Snyder where he has served as deputy sheriff for several years.

Mr. and Mrs. Ward formerly lived in Powderly, a small town just out of Paris. Prior to coming here, they went to Powderly to gather their possessions.

Last Saturday they set out for Big Spring from Powderly. Mrs. Ward was going ahead in the family car. Ward, with their two young sons, Greg, 5, and Sammy, 4, were following in a rented truck.

Mrs. Ward crossed a railroad track and pulled into a service station. Ward started over the tracks, but the truck was struck by a train. Ward and his two sons were hospitalized. They were just released from the hospital on Thursday.

So the Wards are again on their way to Big Spring.

When they get here, Standard said, they will make their home in Forsan where a deputy has been promised for a long time.

Standard said that Ward comes highly recommended and that he feels he has materially helped his staff.

Residents Warned Of Alarm Fraud

Sheriff A. N. Standard has issued a warning to residents of the county to be on the lookout for two men who are reported to be working an insurance-burglar alarm fraud.

According to word from the Texas Board of Insurance, the two men sell burglar alarms, usually to elderly persons, taking payment in advance. The devices are never delivered.

Standard asks if anyone has been contacted by these men that they notify his office. He also urged all persons to insist on adequate identification before buying from strangers who sell door to door.

Truck Is Found, Theft Reported

You win some and you lose some.

Friday police found a pickup truck, reportedly stolen from Lubbock. It had been abandoned in the 700 block of San Antonio Street.

On the other hand, a theft and a burglary were reported Thursday.

C. E. Jones, 3229 Drexel, said some car parts were taken from his garage within the past four or five days. The Hamburger King, 803 Lamesa Drive, reported money taken from some vending machines, then the yeggs topped off the evening with a snack of candy and potato chips. A window was forced to gain entry.

Mrs. Rix, Former Resident, Dies

Mrs. Frances Rix, widow of Jed A. Rix, former Big Spring resident, died Thursday in Fort Worth after a long illness. Services were to be held there Friday, and graveside rites will be in the cemetery at Lubbock at 11:30 a.m. Saturday.

Mr. and Mrs. Rix lived here until around 1920 when they moved to Lubbock with opening of a branch of the Rix Furniture Company there. Later he became assistant manager of the West Texas Chamber of Commerce and operated its offices there. He died three years ago and was buried in Lubbock, and Mrs. Rix will be laid to rest beside him.

Ike Says Viet 'Meanest' War

CHICAGO (AP) — Former President Dwight D. Eisenhower says the Viet Nam conflict is "one of the meanest wars we've ever been in."

Eisenhower told newsmen Thursday night personal contacts with American military and civilian personnel in Viet Nam indicated optimism on their part.

The former president arrived by plane from his Gettysburg, Pa., farm to speak at a Republican fund raising dinner today. His brother, Earl, is the GOP candidate for treasurer of Cook County.

Hard Day For Parked Autos

A couple of empty cars were in collision here Thursday. The driverless car of Helen Dawson, 605 Colgate, rolled into the parked car of Howard Shivers, 505 Nolan, in the 100 block of West Fourth.

The Kent Service Station at 902 Lamesa Drive, was damaged by the truck driven by Valentin Torres, Garden City. Officers said the truck crashed three feet through a wall.

The other minor accident reported Thursday involved Epifania Parras, 801 N. Nolan, and Beatrice Padron, 1004 S. Main, at Northwest Sixth and San Antonio.

Earlier Service Planned At Webb

Protestants at Webb AFB will be able to attend a Sunday worship service at 10:00 a.m., beginning Sunday, Oct. 2, according to Chaplain (Lt. Col.) Robert T. Deming. This new service will be in addition to the 11:00 a.m. worship now offered in the base chapel.

"The new 45-minute service is for those who find an earlier time more convenient in their Sunday plans," said Chaplain Deming. "Parents of children attending Sunday School, parents of very young children and persons with Sunday military duties should find the new schedule helpful."

During October, Chaplain Deming will conduct the new service, and Chaplain William H. Warren will be in charge of the existing 11 a.m. worship.

Lad Picked Up

An 11-year-old Latin American has a date with the juvenile officer. Police took him out of school Thursday for allegedly taking money from a newspaper vending machine at the Wagon Wheel Restaurant.

Intellectuals Challenged

WASHINGTON (AP) — President Johnson has challenged intellectuals to provide answers to problems facing urban areas.

Addressing the 50th anniversary dinner of the Brookings Institution Thursday night, Johnson said intellectuals cannot rest on their laurels. He gave them a new assignment: "What do we want our cities to be, and how can we achieve what we want?"

Earlier in the day, the White House announced Johnson will meet next week with French Foreign Minister Maurice Couve de Murville and British Foreign Secretary George Brown, then confer on Oct. 10 with Soviet Foreign Minister Andrei A. Gromyko.

Bill D. Moyers, press secretary said "there is no limit to the conversations that will take place" betwen Johnson and the three foreign leaders.

New Meter Maids Prove Impartial

DETROIT (AP) — Detroit's new meter maids are impartial.

City councilman William G. Rogell said he had been told by police officers that one of the meter maids ticketed a squad car in a no-parking zone while the officers were answering a call.

The meter maids were hired to relieve patrolmen for other duties.

♣ 7 3 2

The bidding:

West	North	East	South
1 ◇	2 ♣	2 ◇	2 ♠
3 NT	4 ♠	Pass	Pass
Dble.	Pass	Pass	Pass

Opening lead: Ace of ♣

When West was frustrated in his attempt to buy the hand from his opponents, he was obliged to resort to desperate measures on defense to end up with a profit on the deal.

West opened the bidding with one diamond and North overcalled with two clubs. East managed to eke out a competitive raise to two diamonds. South had sufficient support to raise his partner, however, he decided to avail himself of the low level opportunity to show his five card spade suit first, on the chance of uncovering a fit there.

West's jump to three no trump was a strategic call. He did not think that the partnership had sufficient assets to make five diamonds, however, if East had the diamond king and something in hearts, then it would be routine to run nine tricks at no trump.

North showed good judgment in not defending on the deal. He realized that West's call might be based on a long suit. Furthermore, North had an excellent fit for South's bid, and the prospects for scoring offensively were good. He, therefore, proceeded to four spades.

West felt that he had been outbid but, it appeared that the opponents were attempting to sacrifice, so he doubled to obtain whatever compensation might be available.

West opened the ace of clubs, with the intention of obtaining a ruff in that suit. An examination of the dummy revealed that the only quick entry East might have would be the king of diamonds. Inasmuch as East had raised diamonds, West decided to play him for that card and he shifted to a small diamond. East put the king and when it held the trick, he returned a club. West ruffed and subsequently scored the ace of spades for the setting trick.

DEAR ABBY

Don't Give Him The Stall

DEAR ABBY: What is a gal supposed to do when a real nice guy calls and asks her for a date to a big party and she hates to accept on the spot because she's hoping someone more interesting will ask her?

Please understand, Abby, this guy who asked me is a very fine person. He's smart, has a good reputation, and is a gentleman, but he is short. I'm afraid if I accept him, and a taller guy asks me later I'll be sorry.

But how can a girl tell a fellow she would like a few days before giving him her answer?
NOT SURE

DEAR NOT: She can't. And if she's smart she won't pull any of those, "call-me-in-a-few-days" capers. The "guy" may be short, but the gal who puts him off waiting for a taller proposition is shorter than he is — in the common sense department.

* * *

DEAR ABBY: I am married to a wonderful woman and we have two nice kids, which the wife really raised up fine. That I will say for her. But here is my problem: She doesn't know how to put things back when she has used them. She leaves dresser drawers and cabinet doors open, clothes on the floor and make-up all over the house. She leaves dinner dishes on the table overnight and the place is generally always a mess unless I clean it up.

I have tried to tell her to keep things straightened up better, but all I get is, "Sorry, I'll try to do better." But she never does. Abby, she doesn't drink, smoke or run around. I love her and would do anything for her, but I shouldn't have to do the housework. She is 30 years old and in good health, so there isn't any excuse for her sloppiness. What is your advice? TIRED OF IT

DEAR TIRED: You say you love her and "would do anything for her." That's good, because you may have to. You have two choices, if your wife is unwilling (or unable) to learn to keep house properly. (1) Do it for her. (2) Overlook it.

* * *

DEAR ABBY: First let me say I am not a silly kid who is trying to hang on to her "daddy." I am a happily-married, 27-year-old woman. My mother died two years ago and my father started seeing a 45-year-old widow. (He is 52). She's a bright gal and secretary to a prominent business man.

One evening when dad and his lady friend were here I went into the kitchen to make coffee and when I came out I found them locked in a passionate embrace the likes of which I haven't seen outside the movies. I love my father and it made me sick to see him carrying on like a teenager. My mother was such a dignified, modest person, Abby. She never would have been caught in a situation like that.

Should I try to break this thing up? My husband says to stay out of it. I liked this woman at first, but now I can't look at her. What should I do?
SICK AT HEART

DEAR SICK: Stay out of it. Why should you be "sick" because your father was able to find happiness again? Would you rather have him lonely and grieving the rest of his life? If you really "love" father, accept his lady friend.

* * *

CONFIDENTIAL TO "UNDECIDED IN LEXINGTON:" If it is really love, it will last until you return. "Absence is to love what wind is to fire; it extinguishes the little and kindles the big." (Rabutin)

* * *

Problems? Write to Abby, Box 69700, Los Angeles, Calif. 90069. For a personal reply, enclose a stamped, self-addressed envelope.

* * *

Hate to write letters? Send $1 to Abby, Box 69700, Los Angles, Calif., 90069, for Abby's booklet, "How to Write Letters for All Occasions."

Woman Collects Wooden Nickels

CLINTON, Mich. (AP)—Don't tell Mrs. William Johnson not to take any wooden nickels.

Her hobby is collecting wooden nickels, tokens and other coins. She has about 20,000, and they range in value from a dime to $135.
