TEXANS LETS TALK TEXAS

The Scurry County Times

OFFICIAL NEWSPAPER FOR THE CITY OF SNYDER AND SCURRY COUNTY AND SNYDER SIGNAL WEST TEXAS' LARGEST WEEKLY NEWSPAPER

SNYDER, TEXAS, —The busiest small city in West Texas, inhabited by the busiest people living and the best in the world!

VOLUME XLIII SNYDER, TEXAS, THURSDAY, JULY 18, 1929 NUMBER 5

Amendments Lose By Large Majority Here

Light Vote Over The State And Late Returns Make Results Doubtful

Snyder and Scurry County voted almost unanimously to continue on with the present salary of the governor, as well as not wanting to change any of the present Supreme Court laws as regards membership.

Twent-two of the 23 precincts of Scurry County had reported to County Clerk Mabel Y. German up to 5:30 yesterday, and the totals of the 22 precincts look something like this:

Courts:
For 79
Against 309
Salary:
For 87
Against 299

The amendments are carrying about two to one in the state this morning.

Short Course Will Include Many Phases

Virtually every phase of agricultural thought and activity will come in for discussion at the twentieth annual Farmers Short Course to be held at the A. and M. College of Texas July 29 to August 3, announcement of the general program by H. H. Williamson, vice director and state agent of the Extension Service under the auspices of which the short course is held, discloses. Group sessions for men and boys and women and girls will be held, and sectional meetings will be devoted to specialized fields of farming and farm operation.

Indications are that attendance this year will exceed that of nearly 5,000 registered last year, officials have announced, and arrangements are being made for a record crowd. Special rates of one cent a mile each way have been granted by the railways.

Topics of general agricultural interest will be discussed by outstanding educators and specialists at the forenoon and evening sessions for men and boys, while subject matter lectures and demonstrations will be held during the afternoons. Special programs have also been arranged for women and girls, featuring topics of particular interest to the farmer's wife and daughter.

A central theme will dominate the general lectures each afternoon. The program for Tuesday will be devoted to "The Agricultural Trend," for Wednesday to "Dairying in Texas," for Thursday to "Land Utilization and Conservation," and for Friday to "The Cattle Industry." Monday morning will be given over to the formal opening ceremonies when President T. O. Walton of the college will deliver an address in welcoming the short course visitors.

In addition to the special homemaking programs for women and girls, sectional meetings will be held every afternoon for detailed attention to such subjects as agronomy, horticulture, poultry raising, dairying, swine and sheep and goat raising.

Annual judging contests for 4-H Club boys will be held as in former years in the following divisions: Livestock, dairy, poultry and grain judging, and terracing. Trophy cups and medals will be awarded winning teams. The winning team in dairy judging, including the county agent coach and alternate member, will be awarded a trip to the National Dairy Show in St. Louis in October as guests of the M. K. & T. railroad. R. Reese, Dallas, agricultural agent for the system in Texas, has announced. Forty or more teams are expected to enter the dairy judging event with correspondingly large number of entries in the other events.

Speakers on general agricultural topics for the forenoon sessions will include: Col. Clarence Ousley, East Texas Chamber of Commerce, "Agricultural Legislation"; Harry Williams, Farm Bureau Cotton Association, "The Trend in Cooperative Marketing"; H. G. Safford, Texas Cotton Association, "The Cotton Industry and Its Future";; C. N. Shepardson, dairy husbandry department, A. & M. College, "Factors Affecting Dairy Development"; Jack Shelton, Luling Foundation Farm, "Opportunities of the Texas Dairyman"; J. H. McClain, Bureau of Dairy Industry, Washington, D. C., "The Effects of Dairying on Farming."

President T. O. Walton, A. & M. College, "Land Utilization and Its Relation to Profitable Agriculture;" A. B. Conner, director Texas Agricultural Experiment Station, "Land Utilization Research Program;" E. O. Siecke, director Texas Forest Service, "Land Utilization in the Timbered Regions;" E. W. Sheets, Bureau of Animal Industry, Washington, D. C., "The Cattle Industry in the United States;" John C. Burns, American Hereford Breeders Association, "The Relation of Beef Cattle to General Farming;" E. B. Spiller, Texas and Southwestern Cattle Raisers Association, "Livestock Marketing."

Welcome, 4-H Club Boys!

PAUL CAMPBELL
Who will lead the singing.

4-H Club Camp Opens Today At Wolf Park

Young Visitors To Be Guests Of City For Two Happy Days

Wolf Park is the center of attraction with the 4-H club boys coming in for their first camp. The boys are coming from all parts of Scurry County and have a good program that is full of fun and some work. The program will be changed according to the pleasure of the boys, as County Agent W. O. Logan says this camp is for the boys' rest and outing and not work. County Agents from Taylor and Garza Counties will assist in the camp and J. B. Dennerson of Abilene will be here to discuss poultry diseases.

The program or camp starts off with registration at ten o'clock this morning (Thursday) and organization. Then at twelve the boys will have their basket lunch. At one o'clock a parade to the court house square where the city will welcome the boys and officially open the camp. After that the boys will return to Wolf Park and start their fun in games, etc., followed with a swim and some contests. Then after supper there will be a real athletic program put on in the hall at the park. Some of the young ladies and girls of the city are arranging to give the boys a little rest and diversion. Friday the dairy judging, inspection of some business houses in the city will be had and the closing announcements will end the camp.

Friday afternoon County Agent Logan will bring the entire group to the Times-Signal office where every machine will be placed in operation together with the large press. Each boy will be given a copy of this week's Times-Signal.

Boys who enter some [illegible] contests will have an [illegible] see whether or not [illegible] in drawing two free [illegible] rides from Yoder Field. This courtesy comes through D. P. Yoder and Pilot "Slim" Lowry.

The Times-Signal wants to welcome these fine Scurry County lads to Snyder, and we sincerely hope their visit and stay here may cement the friendship between the town and country folks.

"PAT" RETRIEVES FORMER HONORS

"Pat" Bullock jumped all over the Times-Signal editor recently for "pouring it on" him in connection with a baseball game that he pitched at Hermleigh in which Maryneal was his opponent.

But Pat sure had a come-back Tuesday at Hermleigh when he let the Roscoe team down without a single hit in six inning, and won the game 5 to 4, in which he secured a hit that brought in the tieing and winning runs. "Lefty" Potter, former Simmons University star and West Texas League pitcher, was in the box for Roscoe, and a pitcher's battle was the result, with Bullock winning the honors.

So the Times-Signal gently but firmly steps down from its officious and apparently rugged post and apologizes deeply, sincerely and sublimely to Pat for the original "bawling out" we gave him. He is eligible to the fur-lined minnow bucket if he so desires.

COLORADO PASTOR IN MEETING AT UNION CHURCH

The Union Baptist Church will hold a ten-day revival meeting at their church five miles west of Snyder, starting tonight.

Rev. Wm. C. Ashford, pastor at Colorado, who can whistle, sing, and play the hand saw and xylophone, will be the evangelist. Rev. T. L. Nipp isapastor of the Union Church. The congregation and church are broadcasting a welcome to all to attend this series of meetings.

Welcome, 4-H Club Boys!

Many Delegates Attend Highway Meet Thursday

All Officers Re-Elected In Second Convention of New Road Body

The second annual meeting of the Panhandle-Rio Grande Highway Association brought delegations from all points along the route Thursday. County Supt. A. A. Bullock gave the welcoming address with Sec'y Jimmie Greene, Colorado, responding. President Horace Holley, Snyder, stressed organized effort, indicating that the highway extending north and south through here was 500 miles in length and passed through the wealthiest counties in the state. The Panhandle-Rio Grande Highway, which is seeking state designation, traverses land valued at more than $300,000,000 and which furnished 250,000 bales of cotton last year, and passes through the largest wool market in the world at San Angelo. From the highway route in 1928 was shipped 4,000 cars of maize, 2,000 cars of poultry and eggs, according to Judge Holley.

Col. C. M. Adams, Colorado, gave a short address on highways and reported Mitchell County holding four elections before a winning bond issue for repair of Iatan Flats.

Clifford B. Jones of Spur, widely known highway booster and financier, gave one of the finest talks ever given in Snyder on "Highways and Their Relation to Financial Ruin." Among other things he stated that the efforts of highway boosters of today will be noted in the years to come. "Selfishness," stated Mr. Jones, "of men not sold on their public duty is the reason they do not attend these business sessions. Good roads and education travel together."

The speaker cited conclusive evidence of the need of good roads for points west of the 98th meridian and the close relationship with the advancement of Texas Tech, of which Mr. Jones is a member of the board of regents. "We pay the tax for good roads whether we get them of not," he concluded. He commended the fighting spirit of county judges and their courts for good roads.

During the noon recess a visit was made to various points of interest in Snyder, following which a sumptuous barbecue feast was enjoyed at Wolf Park. Old officers were re-elected at the annual election.

BOOSTING MOTORCADE

Sec'y Wm. A. Wilson of the Dal-Paso Cavern Highway Association was a Snyder visitor yesterday in conference with Pres. O. P. Thrane regarding the forthcoming dates of the annual motorcade to be made from Marshall, Texas, to the Caverns and El Paso.

Everybody calls Mr. Wilson "Bill," and when he initiates any proposition whatsoever, it is undertaken with a zeal that knows no holding back. He is one of the outstanding chamber of commerce secretaries in the state, is a booster, a gentleman and a fine chap to have as a friend. The Times-Signal has always liked "Bill" Wilson, and we don't give a tinker's darn who knows it.

"WEDGE" REMINDS THAT TRANSFERS MUST BE MADE

Parents of children who live in rural school districts and who are planning to attend Snyder public schools next year are reminded by Supt. O. Wedgeworth to see that their children are transferred during this month.

All transfers must be made during the month of July, according to Supt. Wedgeworth, who urged that parents see A. A. Bullock, county superintendent, during this month and attend to transferring their children.

Welcome, 4-H Club Boys!

Evangelistic Meeting Begins Sunday, July 21

Local Pastor To Be Assisted By Singer-Artist In Campaign

An evangelistic program of unusual combination with a personal appeal to all will begin next Sunday at the City Tabernacle under the auspices of the First Church of Christ, with Thos. M. Broadfoot, local minister, doing the preaching and Paul Campbell directing the music. This program of song, art and sermon is to be highly spiritual in every detail. Every feature is arranged to elevate the Christ, spiritualize the church and convict the unconverted to the eternal truths of God.

Not burdened with the "red tape and stereotyped" training of a denominational institution, Mr. Broadfoot's interpretations will be individualistic, yet clinched by the Scriptures at every point. They are saturated with Biblical truth, logical simplicity and convincing power. The "Old Gospel Truths" in new dress. The work is to be spiritually constructive, seeking only to establish the faith on God's eternal and unalterable principles. These are a few of the subjects:

"Where Love and Hatred Met."
"Operation of the Holy Spirit."
"Mountain Top Experiences."
"Bobbing the Hair and the Fall of Man."

Come! See yourself as God sees you.

The message in song and art will be brought by Mr. Campbell, whose art will be a distinguishing feature of every program. Song and sermon appeal to the soul through hearing. The art appeals through vision. Each illustrative drawing brings its own distinctive message. These pictures will be given away at each service:

"Lower Lights."
"Harvest Is Ended."
"Rock of Ages."
"The Old Rugged Cross."
"A Fountain Filled with Blood."
"Life's Railway to Heaven."

These are a few of Mr. Campbell's art subjects which will delight the audiences each evening. This combination of song, art and sermon will lift many a weary heart to God in praise and thanksgiving.

Electric Nail Lifter Will Be Operated Here

Snyder and Scurry County will get their first glimpse of an electric magnetic nail lifter now being operated on the state highways, either the latter part of this week or the first of next, according to Section Foreman G. R. Austin, Snyder resident and representing the State Highway Department. Punctureless roads are in prospect in Scurry County with the coming of this wonderful machine.

Traveling at the rate of about ten miles an hour this machine, mounted on a light truck chassis, picks up all materials made of iron, steel or tin, taking all such materials from its resting place under the dust and attaching it to the two magnetic bars.

As much as 100 pounds of nails, bolts and other articles are taken in a mile of highway by this machine. The work is done by two bars, each four and a half feet long, which gives the machine a working sweep of nine feet. These bars are wound with wire which in turn is connected to a generator run by the car's engine.

When a full load of scrap iron is gathered on the magnetic bars a canvas is spread on the road and the truck driven over it, the switch cut, and the accumulated mass of metal drops on the canvas.

This is one of a number of such machines being used by the State Highway Department, and in this section is being run by Mr. Austin. The magnets each have a pull of 400 pounds, so strong that they will pull nails out of deeply embedded emplacements, and if the switch is on when passing over a wooden bridge nails will be pulled out of the boards.

The variety of materials gathered in this fashion would give one enough parts, it has been said, to build a small car. A pile of some taken from Scurry County roads will be placed on display at various points in the county.

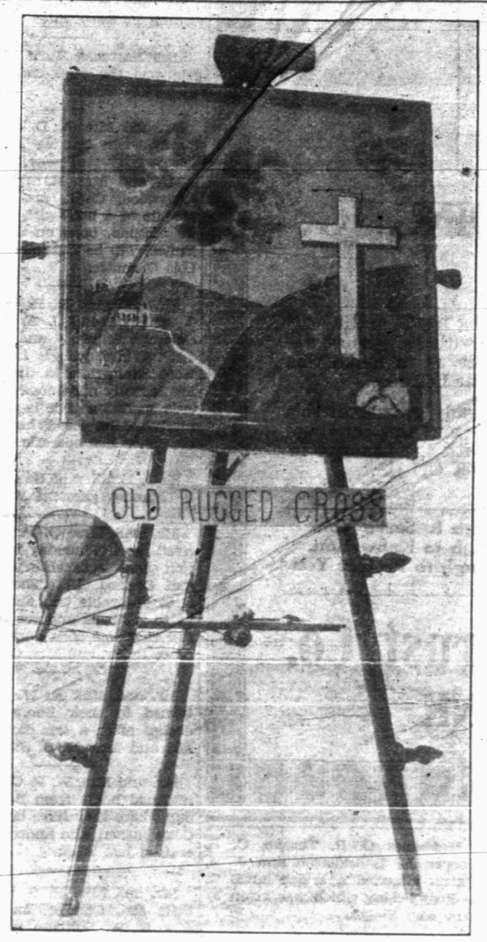

Big Spring will dedicate her new airport the first of September with fitting ceremonies.

LOCAL PILOT WINNER

At the Graham Airport opening Saturday, Pilot "Slim" Lowry of Yoder Field, won first prize of $75.00 for being the first pilot to land after 10:45 who had flown 100 miles or more.

Mr. Lowry had flown from Sweetwater where he had attended the annual banquet of the West Texas Press Association Friday night.

One of Campbell's Pictures

Above is a reproduction of "The Old Rugged Cross," one of the many pictures Paul Campbell will give away during the Church of Christ Revival beginning Sunday.

Oil Operations Gain Momentum In Scurry County

New Locations Made With Rig Building Now in Progress

The Times-Signal is indebted to the San Angelo Times through W. L. Power of this city, who was largely accountable for the leasing of a 7,000 acre block in Block 97, H. & T. C. Ry. Co. Survey. The construction of the rig on this location was started July 9, and means another oil test for Scurry County.

Part of this article appeared in a former issue of the paper, but keeping the records straight, we are giving the item verbatim:

Cottingham & Briscoe's No. 1 Truss will be 14 miles south and slightly west of Emerald Oil Co.'s production on the Boren land near Justiceburg in Garza County. The possibility of a trend extending southward from the Boren field, west of and somewhat en echelon to the Ira field in Scurry County, the Westbrook pool in Mitchell County and the Chalk field in Howard and Glasscock Counties made the area attractive to the San Angeloans. In drilling 3,500 feet, their No. 1 Truss will test about 1,500 and 1,600 feet of lime section, embracing three lime horizons in the Chalk field and the two lime pay horizons in the Westbrook field. The Chalk field produces from 200 feet in the lime, 370 feet in the lime and 800 feet in the lime, while the Westbrook field produces 900 to 1,400 feet in the lime. Emerald Oil Co.'s Boren wells produced from around 800 feet in the lime, or at around 2,500 feet.

Teas and Wheeler's No. 1 Long, 12 to 14 miles west of Cottingham & Briscoe's location, was spudded July 2 in the center of the northeast quarter of Section 27, Block 30, township 5 north, T. & P. Ry. Co. Survey.

Texas-Canadian Oil Company's No. 1 J. W. Mooar is scheduled to start in a few days. It is in the center of the southwest quarter of Section 379, Block 97, H. & T. C. Ry. Co. Survey, about seven and a half miles east and slightly south of Cottingham & Briscoe's No. 1 Truss.

Louisiana Oil & Refining Co. has a tentative location for No. 1 J. S. York, 1,320 feet from the west line of Section 322, Block 97, H. & T. C. Ry. Co. Survey, about five and one-half miles southeast of the San Angeloans' location.

Scurry County's latest location has been made by Camp Springs Oil & Refining Company for No. 3 Guinn, 1,320 feet from the south line and 300 feet from the east line of Section 12, Block 3, H. & T. C. Ry. Co. Survey.

MEETING HERE

The Sweetwater District Epworth League meet comes to Snyder July 27 and 28. The local church is making great preparations for both an instructive and entertaining program. The full program will appear in our next issue.

False Reports About Dal-Paso Being Circulated

Highway Is In Good Shape For Tourist Travel Officials Say

Erroneous reports have been spread as to traffic conditions on Highway 83, or what is better known as the Dal-Paso Cavern Highway.

The report is to the effect that the highway west of Lamesa in New Mexico is impassable and as a result of this report to tourist bureaus and chambers of commerce east of here, tourists have been routed over other highways at considerable distance further than this route offers for the Carlsbad Cavern. A checkup of this route in New Mexico reveals that this highway is not only in good condition, but offers a much shorter mileage to the Caverns from and through Texas than any other highway.

According to records made public by local camp owners, responsibility for the errors seems to have come out of the traffic department of the Fort Worth Association of Commerce. Recently seven people stopped at the Cabin Inn and told Manager Baze that the Fort Worth people had given them the information to continue straight on to the west coast via the Broadway of America. At Sweetwater they were advised to escape Iatan Flats by coming to Snyder and then taking the Dal-Paso Cavern Highway.

Officials of this highway association are calling on all tourists bureaus, chambers of commerce and filling station operators along this route to aid in giving the truth to tourists concerning this route. Arrangements have been made with William A. Wilson, secretary of the Dal-Paso Cavern Highway Association, to keep all chambers of commerce and tourists heads informed from time to time as to the true condition of the highway. Officials declare that there is no reason at this time to keep tourists from traveling this highway.

Manager Ed McRae of the Tourist Bureau, Fort Worth Association of Commerce, has always been mighty fair in his treatment of the amount of traffic going over the Dal-Paso, and the fact that seven people have told that the Fort Worth bureau advised another route is beyond human ken of the Times-Signal, but we are calling on Friend McRae for an explanation.

Welcome, 4-H Club Boys!

SCURRY COUNTY TO BE HONORED

Scurry County will be honored Tuesday, August 6 when State Supt. S. M. N. Marrs will come here for the annual meeting of county and district school trustees. The morning session commencing at 10 o'clock will be made up principally by a talk by Mr. Marrs, with the annual business session in the afternoon.

WEST TEXAS PRESS HOLDS FINE MEET AT SWEETWATER

CONVENTION SPOTS

As a toastmaster, Paul T. Vickers of Midland need not take a back seat for any living human being, for he kept the West Texas Press banquet moving at express speed, with quips and soft "patter" that kept the more than 250 banqueters in an enjoyable mood. Mr. Vickers is not only a past master in launching into remarkable flights of oratory but is one of the best publicity men in the state, and as secretary of the Midland Chamber of Commerce is an outstanding executive. More power to Paul T. Vickers! The only thing we hold agin' him was his red neck-tie, and calling on us to sing when we were not prepared with either music or an officially appointed accompanist. But we didn't get murdered, so that's that!

❖ ❖ ❖

When Pres. Harry Schwenker and Sec'y Sam P. Harben of the Texas State Press hove into sight, the convention was signally honored with their presence. Most of the folks knew Genial Sam and Congenial Harry, and they added spice to a fine program.

❖ ❖ ❖

The only thing that the Sweetwater boys did not give the visitors was keys to the bank vaults, as nothing was lacking to make everyone happy and glad they were there. Monte Owens seemed to be in nine places at once, while Luther Watson, Herschel Colbert and C. S. Boyles "flitted" here and yon like "skeeters," but they made everyone welcome, and that was what spelled the success of the meeting, the fourth that has been held of the present organization.

❖ ❖ ❖

Two speakers on the Friday afternoon program were so long-winded that three outstanding subjects had to be cancelled owing to the plane rides. H. H. Jackson, Coleman; George Hill, Winters, and Pat Bullock simply had to be called off until Saturday morning. At that time, we guess the boys got lost going through the U. S. Gypsum plant, but their pieces are being reserved for future historians to compare.

❖ ❖ ❖

Bowen Pope, Hamlin, president, was there with his Mrs. in his best "bib and tucker" and gave a notable example of just how to "preside" at official functions.

❖ ❖ ❖

Mayor C. W. Bryant of Sweetwater in his welcome address made it very emphatic that all were as welcome as the "bigness of West Texas." J. J. Hutchison, Abilene, in his response, let it be known that the "gang" accepted it all with wide open arms.

❖ ❖ ❖

According to all golf data, "Bill" Parker had his hands full in giving the silver cup trophy as the interest and scrapping was a most vivid picture, but young Ralph Shuffler, Sr., of Odessa received the gonfalon and blushingly accepted. They told us that J. W. Roberts of O'Donnell and Eddie Warren made "three holes in one" but we have had no verification to that. Suffice it to say that while the rest of us were holding meeting, the "golf-bugs" were displaying their wares.

❖ ❖ ❖

The newspaper tea for the visiting ladies held in the lounge of the Blue Bonnet Hotel was among the enjoyable functions given as a social side of the meeting.

❖ ❖ ❖

Editor Shelton of Rotan received the unofficial honors of bringing the most unique business card to the meeting.

❖ ❖ ❖

The Big Spring "gang" headed by Uncle Tom Jordan, daughters, Jena and Louise, Alice Phillips and Wendell Bedichek let the world know that they came from Howard County—and they were there early and stayed late and were most welcome guests. Alice Phillips of the Big Spring contingent and Miss Trena Miller of Rotan were the only two ladies present who were identified with chamber of commerce work.

❖ ❖ ❖

A. W. Puett of Robert Lee was the lucky recipient of the free round trip to El Paso from Sweetwater via. T. A. T.

❖ ❖ ❖

Snyder folks at the banquet included Mr. and Mrs. W. H. Ritzenthaler, Mr. and Mrs. Otis D. Carter, Miss Lucille Carpenter, the Times-Signal editor and the Mrs. And let it be said, folks, they knew we all were from Snyder.
were from Snyder. Our friend, J. C. Smyth of the News was likewise on the job.

❖ ❖ ❖

Beeman Fisher, Texas Power & Light Co., Dallas, was the official ladies' man of the convention, outside of State Press Joe Taylor, Bill Edwards and one or two others.

❖ ❖ ❖

Max Bentley put on several worthy talks, along with W. D. Van Blarcom and J. C. Watson, all boosting Abilene for next year's meeting. There wasn't a single chance for any other town the way these boys stressed their promotional activities, along with Din-

See SPOTS—Page 5, Please

Eddie Warren of Post Heads Organization; Abilene Gets Next Meet

Abilene will receive the fifth annual convention of the West Texas Press Association in 1930. That was the final curtain to one of the greatest and most successful conventions in the history of the organization.

Sweetwater royally entertained in the neighborhood of 250 editors, newspaper men, printing machinery and supply salesmen and publicity agents that covered a territory extending from the Panhandle on the north to Brady on the south, Dallas on the east to Alpine on the west.

"Eddie" Warren, editor of the Dispatch at Post, is the new president succeeding Bowen Pope, Hamlin Herald. Warren had been vice president. Other officers named at the close of the session were:

Vice president, H. H. Jackson, Democrat-Voice, Coleman.

Secretary-treasurer, George "Jimmy" Smith, Scurry County Times-Signal.

Executive committee: Luther M. Watson, Sweetwater; T. Paul Barron, Midland; Max Bentley, Abilene; Walter Murray, Ranger; J. W. Roberts, O'Donnell.

Membership: E. I. Hill, Tahoka; Tom Durham, Albany; George Hill, Winters.

Constitution and By-Laws: Bowen Pope, Hamlin; W. E. Reid, Colorado; Ralph Shuffler, Odessa.

Resolutions: E. F. Butler, Clyde; Harry B. Adams, Lockney; George E. Caple, Merkel.

Program: J. C. Watson, Abilene; H. H. Jackson, Coleman; Homer Steen, Floydada; George "Jimmy" Smith, Snyder; G. L. Inglish, Stamford.

Official orator, Col. Dick McCarty, Albany.

Abilene Unanimous

Stamford and Colorado both cleared the 1930 meeting by voting unanimous for Abilene. Nomination for Abilene was made by W. D. Van Blarcom, Star-Telegram, with pleas being made by J. C. Watson of the Abilene Chamber of Commerce and W. H. Jobe, Sweetwater.

Friday, Sept. 27, was voted as West Texas Press Day at the West Texas Fair at Abilene.

Among the high lights of the convention were the important thoughts that were brought out on aviation and its development with representatives and planes present from both the T. A. T. and S. A. F. E. Airways, with free plane rides to all visitors.

The presentation of a wonderful desk set to Homer D. Wade and a large basket of flowers to Mrs. Wade came after Orator Dick McCarty had paid tribute to the remarkable work that Mr. Wade has performed for West Texas. Other speakers on the banquet program included Wm. C. Edwards, Dallas; Pres. Harry F. Schwenker, Texas State Press; Max P. Bentley, Abilene, with a debate between "Buttermilk"—Jim Lowry of Honey Grove and State Press Joe Taylor, that furnished a full evening's entertainment in itself. No debate that has ever been heard in the state was more widely and thoroughly enjoyed than when these two gentlemen crossed swords for the delight of more than 250 guests.

Following the debate, Col. Dick McCarty laid the flowers and bouquets for the association and presented Mr. and Mrs. Wade with the gifts that have been noted. Both Mr. and Mrs. Wade responded in a happy, though mighty serious, vein as neither had expected the remembrances from the West Texas Press and of the citizenship of Stamford who joined with the flower presentation to Mrs. Wade.

During the Friday afternoon program the annual golf tournament was enjoyed in which Ralph Shuffler of Odessa carried off the honors, receiving a large silver trophy donated by "Bill" Parker of the Olmsted-Kirk Paper Co.

Saturday morning following a ride over Sweetwater and a visit to the U. S. Gypsum plant, the closing session was started in which round table discussions were enjoyed with an introduction of the more than sixty who were present at this session.

Following the reports of several committees and resolutions being read, the meeting was adjourned by the newly elected president, "Eddie" Warren, whom the Times-Signal is happy to state is a Snyder, Texas, product, and we feel mighty proud of the high honors that have been bestowed on him for being the head of the largest regional press group in the world.

The Blue Bonnet Hotel, with Manager William G. Adams at the beck and call of all visitors, gave the West Texas Press meet 100 per cent satisfaction, and the Times-Signal editor is personally grateful to Manager Adams for favors accorded as well as extending direct thanks not only to him, but to Luther M. Watson, Herschel Colbert and Monte Owens of the Sweetwater committee who worked 100 per cent to make everybody happy. C. S. Boyles, Nolan County News, likewise rendered valiant and noteworthy help. It seemed that everyone in Sweetwater wanted to make the editors and their families happy and enjoy every moment.

WITH SNYDER GOING FORWARD

CONSTANTLY keeping abreast of modern banking needs and a willingness to adjust ourselves to them, together with an earnest desire to co-operate in every legitimate way, enables us to make this institution more serviceable to our territory than ever before.

The success of this policy is reflected in the steady growth of this bank; for almost a quarter of a century this bank and this territory have grown together. We invite your business with the thought in mind that if you BANK WITH US YOU MAY BANK ON US.

THE BANK FOR EVERYBODY

Large Enough to Serve You.
Small Enough to Know You.
Strong Enough to Protect You.

Locals

Misses Lillie and Madge Dean of Dallas arrived Tuesday afternoon and are house guests of Mrs. Forest Sears this week.

Mrs. Rob Strayhorn and two children of Rotan are guests of Mr. and Mrs. Joe Strayhorn this week.

Marshall Higgins returned Monday night from a two weeks vacation spent in El Paso and Torreon, New Mexico.

Mr. and Mrs. J. W. Templeton Jr. left today for Los Angeles after a pleasant visit with their parents, Mr. and Mrs. J. W. Templeton and Mr. and Mrs. Joe Strayhorn.

Miss Vera Nell Grantham left Thursday for Lubbock where she will spend her vacation with her parents, Mr. and Mrs. R. C. Grantham.

J. W. Stimson, J. O. Stimson, H. W Stimson, Mrs W. A. Rogers and Mrs. H. P. Brown attended the funeral of Mr Stimson's little grandson in Rockwall the Fourth of July. J. W. Tawater, Jr., 10, died at the Baylor Hospital in Dallas, death being caused by blood poisoning brought about from an infected foot. His mother will be remembered as Miss Myrtle Stimson. Misses Eula and Jessyle Stimson, who are attending school at S. M. U. at Dallas, also attended the funeral.

Mrs. J. W. Green left last week for Albuquerque, N. M., where she is visiting her son, Wade. She expects to be gone several weeks.

Miss Erma Taylor, who is teaching at Simmons University, spent last week-end with her parents, Mr. and Mrs. J. J. Taylor.

Mr. and Mrs. O. D. Carter spent the week-end with relatives in Sweetwater, and attended the West Texas Press Association.

Mr. anud Mrs. Walla D. Fish left Sunday for San Francisco where they will spend their vacation.

Horace Eiland of Stanton came Saturday and was accompanied home Sunday by Mrs. Eiland and baby who had been the guests of relatives here the past week.

Mrs. W. L. Shaw and daughter, Miss Jonnylee, and father, Mr. Gladson, left Friday for Fort Worth where they will be the guests of relatives.

Mrs. William Wilsford spent the week-end in Big Spring. She was accompanied home Sunday by her husband.

E. B. Hull of Sweetwater was the guest of relatives here Sunday.

Miss Verna Ritchie returned Thursday night from a pleasant visit with her sister, Mrs. Clyde Teters, in Fort Worth.

Mr. and Mrs. Melvin Blackard went to Fort Worth Sunday where they will be the guests of relatives several days.

Miss Marguerite Person, who has been the house guest of Mrs. Louise Darby for the past two weeks, returned to her home in Dublin Saturday.

Dean Cochran and Hugh Taylor Jr. spent Sunday in Sweetwater.

Mrs. J. Nelson Dunn and children left Sunday for Weatherford where they will be the guests of relatives.

Mr. and Mrs. Wayne Boren and little son left Friday for Galveston where they are spending their vacation. They will return home Sunday.

Miss Alma Nell Morris returned home Saturday from a pleasant visit with her sister in Cisco. She was accompanied home by her sister, Mrs. Page Cleavenger, and two children.

Mrs. E. L. Woodley returned to her home in Dallas Friday after a several days visit with her sister, Mrs. Mary E. Banks.

Mrs. S. E. Simer and Mrs. Lela Ellis left Saturday morning for Erath County where they will be guests of relatives.

Mr. and Mrs. J. C. Bullock of Abilene came Sunday for a visit with Mr. and Mrs. A. A. Bullock.

Mrs George Beggs Sr. of Fort Worth came Friday morning and is a guest in the home of Mr. and Mrs. W. D. Beggs.

Miss Dixie Ruth Smith left Sunday for Paint Rock where she will be the guest of friends.

Miss Christine Eoff left Monday morning for Lubbock where she will spend her vacation.

Mrs. Dixie Smith and Miss Dorette Beggs were visitors in Abilene Sunday.

W. D. Beggs was a business visitor in Fort Worth this week.

Miss Grace Bartley and Mrs. Hallie B. Strickland returned Thursday night from their vacation spent in East Las Vegas, N. M.

Mr. and Mrs. Hugh Boren left Monday morning on a business trip to Fort Worth.

Mrs. R. E. Gray and daughter, Miss Gwendolyn, Mrs. Scott and Miss Ida Sue Wallace left Monday for Dallas where they will visit with relatives. They will be accompanied home the latter part of the week by Miss Martha Gray, who has been attending school at T. C. U. at Fort Worth.

Joe Stinson, who has been trying to be sick, told us yesterday that he was feeling fine and that he expected soon to be able to "lick his weight in wild cats," and we just about believe Joe could have done that yesterday, judging from his appearance.

While Mr. and Mrs. Lee Stinson and son, Billie Joe, are visiting at Malvern, Ark., they are likewise visiting a former Snyder resident, J. F. Ward, who used to work for the Stinson's here but who is now in business for himself at the above mentioned point. While a bit long distance, here's "howdy" to both families.

Welcome, 4-H Club Boys!

Mesdames O. P. Thrane, C. H. Cooper, E. J. Anderson and J. M. Harris attended a bridge luncheon in Post Friday which was given by Mrs. Kay Stokes.

Charles Cooper, Fritz R. Smith Jr. and Miss Elizabeth Smith visited Tracy Smith and A. D. Dodson in Big Spring Sunday.

P. W. Cloud was a business visitor in Dallas Thursday and Friday of last week.

Charles Cooper spent last Thursday and Friday in Dallas.

Mrs. Anna J. Metcalf of Camp Springs was shopping in the city Saturday.

H. J. Brice and son, Oscar, visited relatives in Mineral Wells Sunday. He was accompanied home by his son, Wiley, who had been visiting relatives there, and his nieces, Misses Frances Benson, La Vera Smith of Mineral Wells and Mary Frances Coppedge of Dallas.

Mrs. W. F. Martin left Tuesday morning for Slaton where she will make her home.

Miss Ozella Squyres of Every Woman's Beauty Shop left Saturday for her home in Gatesville where she will spend her vacation with her parents. She expects to be gone three or four weeks.

Mr. and Mrs. Tom McMillian and daughter, Miss Judey, of Ft. Worth were guests in the homes of Mr. and Mrs. A. D. Erwin and Mr. and Mrs. P. M. Chambers several days last week. Miss Judey remained for a longer visit.

Judge and Mrs. J. M. Harris moved into the old home of G. B. Clark Tuesday.

Mr. and Mrs. J. C. Stinson returned Sunday from a several days visit with Judge and Mrs. Jas. P. Stinson in Abilene. They were accompanied home by Frances, who had been the guest of her relatives all the week.

Mr. and Mrs. O. Randolph spent Sunday in Abilene.

Mrs. Billy Forrester and daughter, Miss Pearl, of Wilson are the guests of relatives and friends here.

Mrs. E. M. Hicks and Mrs. L. L. Lindsey of Fort Worth arrived last Wednesday night and are house guests of Mr and Mrs. Lewis Blackard.

Mrs. Hugh Taylor and little daughter, Jean, left Sunday for Ft. Worth where they will be the guests of relatives several days.

Mr. and Mrs. Joe Monroe were visitors in Sweetwater Monday.

Miss Hortense Hurn of San Angelo was the week-end guest of Miss Lucy Beane.

Mr. and Mrs. A. D. Johnson and family spent Sunday in Ira.

Mr. and Mrs. Harold Enfield of Hollywood, Calif., are the happy parents of a baby girl, named Mollie Clotilda, born on July 7. Mrs. Enfield will be remembered as Miss Lois Curnutte.

Mr. and Mrs. R. H. Curnutte Jr., J. A. Hood and J. A. Jr. went to Colorado Saturday and visited Mrs. J. P. White, who is in the C. L. Root Sanitarium in that city, having recently undergone an appendicitis operation She is getting along nicely. Mrs. Hood has been with her since her operation.

S. O. Bradley of San Angelo was a Thursday guest of W. L. Powers.

Mr. and Mrs. O. P. Thrane, arrived home Thursday from a vacation spent at Excelsior Springs, Mo., and Chenoa, Ill. They report a most enjoyable trip and were happy to get back and see that youngster that was born during their absence to Mr. and Mrs. George Webb.

Mr. and Mrs. R. W. Sullivan returned to their home in Nacogdoches after a ten days visit with Mr. and Mrs. R. S. Sullivan.

Mr. and Mrs. W. F. Cox and baby returned home from Bonham Sunday where they have been with Mr. Cox's father, who underwent an operation last week.

Mr. and Mrs. R. S. Sullivan and little son, Charles, and Mr. and Mrs. R. W. Sullivan spent Sunday in the Davis Mountains.

C. F. Sentell went to Hillsboro Saturday and was accompanied home Sunday by Mrs. Sentell and children, who had been visiting relatives there two or three weeks.

Sheriff F. M. Brownfield was a business visitor in Eastland and Breckenridge last week-end.

Mr. and Mrs. Brewer Palmer and children of Uvalde have been guests of Mr. and Mrs. Hoyt Murphree at Ira this week.

Miss Martha J. Pittman of St. Louis, Mo., arrived Saturday and is a guest of Mr. and Mrs. J. W. Fesmire.

Mrs. Carson C. Miles of San Angelo and Miss Irene Swann of Merkel came Tuesday afternoon and are guests of their sister, Mrs. Forest Sears, and Miss Cecile Strayhorn.

Ray Fesmire of Abilene spent Thursday and Friday of last week with his parents, Mr. and Mrs. J. W. Fesmire.

Mr. and Mrs. H. G. Towle and daughter, Mary Margaret, were guests of relatives in Colorado Saturday night and Sunday.

William Mann of Big Spring is the guest of his aunt, Mrs. Minnie L. Stewart this week.

Mr. and Mrs. N. M. Harpole left today for Hereford where they will visit their son, Howell several days.

Mrs. John R. Hollis of Abilene and Charles F. Shell of Little Rock, Ark., are visiting in the home of Mrs. Mary B. Shell and family this week.

Mr. and Mrs. Earl Henry moved into their new home in North Snyder yesterday.

Mrs. J. A. Stallings of Post was a house guest of Mrs. J. W. McCoach Friday.

Mrs. Mitchell and Mrs. Meyers and daughter, Thelma Lou, returned to their home in Whitesboro Tuesday after a week's visit with Mr. and Mrs. A. C. Alexander.

D. C. Ware returned Tuesday from Corpus Christi where he has been attending school.

R. W. Webb, E. J. Anderson, Eddie Day, Martin Norred and Wraymond Sims attended a meeting of Chevrolet dealers in Lubbock Monday night.

Miss Margaret Dell Prim left Monday for Lubbock where she is a house guest of Mrs. G. A. Gunn.

J. J. Taylor accompanied his son, Errol, to the Lubbock Sanitarium Tuesday.

Miss Addie Fickas of Lubbock spent Tuesday with her aunt, Mrs. J. J. Taylor.

Miss Violet McBurnett of Brownfield came Monday and is a house guest of her aunt, Mrs. J. J. Taylor, this week.

Mrs. J. G. Hicks and two children went to Abilene today where she will visit with relatives.

Dick Randals and Walter Scott spent Saturday in Sweetwater on a fishing trip.

Dr. and Mrs. J. W. Hicks and two children, Patty Joyce and Bobbie, were guests of Mrs. Hicks' sister in Lubbock Sunday.

Mr. and Mrs. Frank Merrill and son, James, of Slaton were guests of Mr and Mrs. W. R. Merrill last Wednesday.

Miss Aline Brumley arrived Tuesday morning from Winnsboro, Tenn., and is a house guest of her aunt, Mrs. Charley Dodson.

Mr. and Mrs. Tom Gates returned Sunday from a week's visit with relatives in Eastland, Breckenridge and Gorman.

Mrs. Kate Thompson was taken to the Lubbock Sanitarium Sunday where she was operated on for appendicitis.

Mrs. Tom Boren and children left Monday for Cisco where they will visit with Mrs. Boren's sister.

W. M. Lindsey and daughters, Misses Myrtle and Louisa and son, Van, and Herschel Nelson of Dallas were the guests of friends in the city Monday.

Henry Rosenberg returned home Saturday from his vacation spent in Fort Worth.

Mr. and Mrs. L. T. Stinson and little son, Billy Joe, and Billy Lee left yesterday morning for Malvern, Ark., where they will visit with friends. They expect to be gone two weeks.

Judge and Mrs. James P. Stinson and daughter, Mrs. Bill Ledbetter, of Abilene were guests of Mr. and Mrs. L. T. Stinson Tuesday.

Miss Floye Brownfield accompanied Misses Kathleen and Marian Edmond to Fort Worth Sunday. She will remain for a visit with them.

Mrs. A. H. Sams Jr. came Monday for a week's visit with her parents, Mr. and Mrs. P. M. Chambers. She will return to Benjamin Saturday.

Mrs. Bonte Buhl and baby of Fort Worth are guests of friends here this week.

J. S. Summers of Dallas, auditor for the Community Natural Gas Company, arrived in Snyder Tuesday afternoon.

Miss Elsie Woosley returned to her home in Tahoka Friday after a visit with Misses Margaret Deakins and Jeanette Lollar.

Judge Harry Tom King of Abilene was a business visitor in the city this week.

Mrs. E. C. Neeley and two children returned Tuesday from a several days' visit with Mrs. Dickerman in Wichita Falls.

Herman Trigg returned from Culver City, California, last week.

Miss Myrtle Murray of A. & M. Extension Service was here several days this week.

W. W. Cork of San Angelo was a visitor in the city Sunday.

Mrs. Barton and daughter, Juanita, of Colorado are visiting Mrs. W. A. Morton.

Mr. and Mrs. A. E. Wiese and son, Aubrey, left Sunday on their vacation trip. They went to Marble Falls where they will enjoy a fishing trip. Then they will visit relatives in Bell County before their return home. Mr. Wiese will be gone about ten days, but Mrs. Wiese and Aubrey will remain for a longer visit.

Dr. I. A. Griffin went to Bell County Monday and was accompanied home Tuesday by Mrs. Griffin and son, Layton, who have been visiting relatives there for about a month.

FISH WINS SEMI-FINAL GOLF GAME

Earl Fish and G. A. Hagan in their semi-finals of the local handicap tournament played a stellar game Tuesday, with Fish having the edge, turning in a 79 score for the 18-hole game, with Hagan coming through with an 88. Both players are seasoned when it comes to tournament play, and the match was very much enjoyed by those who traveled with these two hard-hitting players.

Earl Fish's win places him in the finals with Cleve Blackard, who has a handicap of 24 strokes, which will cause Earl to do plenty of par playing. A large gallery will follow this game.

Interest in golf has been decidedly increased since the local club started its tournament, and the hope of the boys here who are behind the organization to see at least thirty regular players on the course. Incidentally, the ladies are invited to become boosters so that eventually Snyder can boast of as fine a club house as can be found in West Texas.

Pres. W. T. Raybon has injected a lot of pep into the local organization, and with fellows like Earl Fish, G. A. Hagan, Austin Ervin, P. M. Chambers, O. O. Harris, Ivan Dodson, Dr. Hicks and many other worthwhile boosters, Snyder Country Club is coming through with flying colors.

A large paddock in connection with the stable helps to keep in good condition horses that are worked irregularly. A series of sodded lots is preferable, as in addition to exercise the horses eat grass, which is a tonic. Paddock exercise, though not as good as regular work, helps to prevent filled hocks, azoturia, or "Monday morning sickness" and other troubles.

Beautiful Women Use Mello-glo

Beauties who guard their complexions use MELLO-GLO Face Powder only. Famous for purity—its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process, MELLO-GLO Face Powder stays on longer.—Warren Bros. Drug Co. 2

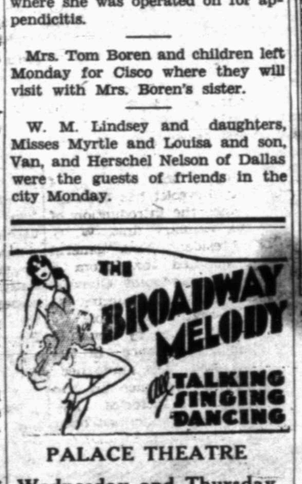

Brown GUARANTEED Puncture-Proof TUBE

IT IS THE TUBE THAT HOLDS THE AIR

This wonderful tube is guaranteed for one year against deflation from tread punctures. This guarantee means replacement with a new tube at no cost.

The greatest advance in tube manufacture since the first pneumatic tube was made.

DERMOTT NEWS

We had good attendance at church Sunday morning. Brother Sanders preached interesting sermons both morning and night. He will preach for us on each second Sunday.

Mr. and Mrs. Jacob of Bethel visited in Dermott Sunday morning.

Mrs. Sallie Scrivner spent last of the week with relatives at Sterling City.

Mrs. Bass is visiting her sister near Aiton this week.

Mr. and Mrs. A. N. Edmonson made a business trip to Sweetwater Thursday.

Mrs. S. H. Lebow, who underwent an operation recently in Snyder, is improving slowly.

Mrs. Warren Scrivner is still at Colorado taking treatments.

Mr. and Mrs. Fonzo Smith and two daughters and Tom Smith are visiting relatives in Comanche County. Mr. and Mrs. A. A. Smith accompanied them and will spend their summer vacation there.

Mr. and Mrs. Arthur Crockett and daughter of Sweetwater, Mrs. Gandle West of Ranger and Mrs. Hamilton of Fort Worth visited in the Durden home Sunday.

Melton Greenfield made a business trip to Slaton Sunday.

Mary Hulsey and children spent Sunday with Mrs. J. T. Dowdy.

The Ira boys motored up to play baseball with Dermott Sunday afternoon, and our boys won 12 to 2. Dermott played Ira Saturday afternoon, and Ira won the game.

Mr. and Mrs. A. N. Edmonson and daughters and Mr. and Mrs. H. E. Greenfield and children went on a picnic Sunday.

Mr. and Mrs. Weems of Fluvanna spent Sunday in the J. T. Dowdy home.

Mrs. Laura Whatley and daughter spent Sunday with Mrs. Essie Browning.

Daisy Fay Lebow spent Sunday with her mother in the Emergency Hospital in Snyder.

Mr. and Mrs. L. N. Periman made a visit to Lubbock Monday.

Mrs. Bessie Nix and two daughters and son of Borger are visiting her sister, Mrs. Will Reynolds.

Miss Aton Smith spent Sunday with her friend, Miss Dixie Durden.

M. J. H.

FARM NOTES

W. O. LOGAN, Co. Agent

The Short Course at A. & M. College for farmers, their wives, boys and girls, starts July 29 and lasts five days. This is the biggest meeting of its kind where farmers get together and really study their problems. Doctors, preachers, merchants, realtors, teachers, and every professional or business man will attend his convention, or meeting, or he gets in a rut. Why not leave off a fishing trip or other vacation trip and go to the Farmers Short Course at A. & M. College this last of July?

While I was in Knox County we insisted on one of the best farmers in the county going to the Short Course. Then we insisted and urged one of the poorest farmers to go along. When we all had been back home for about a week I asked the poor farmer what he thought of the trip, and his reply was, "I had the best time of my life. The baths, the food, the meetings were fine, and I learned more by seeing others from all over Texas and came back ready to really do something. And I'm going back every year or two." The best farmer's reply to the same question: "I learned that the meetings were arranged for us according to what we were interested in, and I stayed on until I got what I wanted. I wouldn't miss the contact with men that know and have experimented with these things for ten times the cost. I have saved money on feeds, seed and feeding since my return. I can't go every year, but I will go every other year or every third year at least."

The railroads have granted a rate of nine dollars for a round trip from Snyder. Meal tickets while there will cost five dollars for five days. The room rent will be one dollar and fifty cents for five nights. These are prices that you can afford. One golf tournament, or one fishing trip will take more money. It will mean seeing the egg laying contest in action, seeing disease of poultry, cattle and hogs, seeing effects of feeding and breeding on farm animals; see cows being fed and state records being made. You can't find any time that something you are interested in isn't happening. There is a good camp ground, lots of shade, and hundreds of cars full of people camping. Let's have Scurry County's crowd the biggest yet. See the county agent or the home demonstration agent at once.

T. B. Testing July 22

Six or eight men have signed to have their herds accredited. If you think more of your children than you do a cow, this is your time to insure your children and yourself. Scurry County should have every cow tested. One case of T. B. prevented is worth the cost and trouble, says Matt Bavousett. See County Agent Logan at once if interested.

NEW TYPE OF MAIL BOX NOW REQUIRED

According to a recent bulletin issued by the United States Post Office Department, the rules concerning the erection of boxes by rural route patrons has been changed. The new ruling states that all mail boxes erected after July 1, 1929, shall be of the No. 2 size which measures 23½ inches long, 11 inches wide and 14 inches high. The bulletin states that all mail boxes of the old type in use at the present time may be used as long as they remain serviceable and weather proof. Residences on routes, who wish to change mail boxes, must use the new size.

The extension of Route 1, Snyder, will necessitate users buying the new size.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Okla.

George V. McIntire, editor of the Raton, N. M.) Range, says:

THAT there is just no use in trying to educate some people into advertising.

A man we know runs a clothing business and buys his advertising in a little free circulation sheet because it's cheaper by quite a bit than advertising in the city's thriving newspaper.

In his fitting room he has a sign that reads something like this:

"No man ever made anything that someone else couldn't make and sell cheaper, and the buyer who thinks only of price is the legitimate prey of this type of manufacturer."

It is one printed by a large retail clothing house whose goods our friend handles.

The funny part of it is that he can't see the connection between clothing and advertising.

No newspaper ever sold circulation and space that some other paper couldn't cut under by giving less circulation and less reader interest. The merchant who thinks only of what his advertising costs him is the legitimate prey of the wildcat publisher who gives him cut rates and cut circulation.

Advertising dollars are just like any other dollars, and advertising is just like any other commodity. You get what you pay for—no more, no less. If you buy shoddy clothes and pay a shoddy price, you generally get shoddy clothes. If you buy good clothes and pay a good price you generally get good clothes.

In time we hope to convince our friend of this.

1914 DODGE EXCEEDS 300,000 MILES ON ROAD

How long is "long life" in a motor car?

The characteristic dependability of Dodge Brothers cars has been given additional prestige by the discovery of a 1914 model whose mileage has been lost somewhere above the 300,000 mile mark. The motor number is 166, and for thirteen years this veteran car has been the proudest possession of Hill McCardle, a copper prospector who lives in a tar covered shack, isolated in the high mountains of northeastern Nevada.

McCardle's house and garden are surrounded by peaks nearly 10,000 feet high. There is nothing like a boulevard in this country. Over rocky hills, across gulches, and up difficult dugways, McCardle patrols his domain in his faithful car, which, he declares, still "runs like a top." Bill bought it second hand in 1916, and since that time the car has taken him wherever he wished to go. Yet the repair bills in this period have totaled only $91. In 1921 he spent $70, and this spring he invested $21 more for the welfare of this old car and Bill's business.

A pair of kitchen shears with sanitary white handles and strong, sharp blades is a useful tool. It can be used for chopping celery, apples and pickles for salad, also chicken and other meats; for cutting the heads and tails from fish; for cutting lettuce for shredded salads, bread for stuffing, marshmallows, dates and nuts, for desserts. Then there are all the ordinary uses for scissors—to cut paper for lining cake tine, twine on packages, shelf paper, and many other uses.

Old hens are rarely profitable for egg production and should be culled from the flock after two or three laying seasons.

Sweetwater will dedicate its new Municipal Airport August 10 and 11.

For some years past Manitoba, Canada, has set aside a day each year known as a Made-in-Manitoba day, and now the Manitoba Industrial Development Board is starting a new feature by setting aside a day each month under the same name and urging citizens throughout the province to support their own provincial made goods that day.

Manitoba is to be congratulated on this progressive movement. It no doubt will do much to make the home folks learn to buy and use Manitoba products every day.

Spending money in the home community is the best way to bring and keep prosperity in the community.

The success of a community is founded on the confidence its citizens have in it and it will be just what its citizens make it.

Individuals will be prosperous only when their community is prosperous.

No influence can hinder or retard the growth of a community that has constantly year after year instilled in its citizens a spirit of progress.

The buy-at-home spirit is a force that will go ahead and bring a complete victory over any and all obstacles.

CHEVROLET MAKES RECORD PRODUCTION

W. S. KNUDSEN
President and General Manager Chevrolet Motor Company

DETROIT, July 17.—Reflecting the ever-widening appeal of the low priced six cylinder automobile, the Chevrolet Motor Company, on July first, had produced 845,469 six cylinder cars. June was a heavy contributor to the achievement. Output for the month was 151,297 cars and trucks—nearly 20,000 units greater than the best previous June on record.

Commenting on the succession of records that Chevrolet has been establishing since the introduction of the new six January first, W. S. Knudsen, president and general manager, explained that from a manufacturing standpoint Chevrolet was not constantly aiming at new records—that production is governed at all times by demand. "Record public acceptance of the new six," he said, "has made necessary record performance on the part of our sixteen factories. The automobile buying public has been the dictator of our manufacturing pace.

"Naturally, we are gratified to see the steadily increasing demand for the product. It is a tribute to the vision of our engineering staff that worked for four years to design and perfect the new six sylinder valve-in-head motor.

Bread for sandwiches should be 24 hours old. It should be cut in thin slices and preferably filled with a chopped filling. If the filling is soft and likely to soak through, butter both slices; otherwise the butter may sometimes be mixed with the filling and the spreading may be done in one operation. Cream the butter until soft enough to spread, but do not melt it as the flavor will be changed.

A new electrical safety razor cuts the beard with parallel shearing plates, vibrating 120 times a second.

KNOW TEXAS

During May 439 producing oil and gas wells were brought in in Texas.

In 1928 Texas spent $65,128,019 on its public schools.

Of the 700,000 members of the W. O. W., 165,000 are in Texas.

Texas' death rate in 1928 was 9.51 per 1,000 population. The average for the United States in 1926 was 12.1 per 1,000.

Texas turkey growers received $10,000,000 for their Thanksgiving shipments in 1928.

Texas' equine population has decreased from 1,170,000 in 1910 to 780,000 in 1929.

DISCOMFORTS OF HAY FEVER REDUCED

Before many weeks have passed, numbers of citizens will be wheezing and sneezing, victims of so-called hay fever. (By the way, there are great numbers doing that very thing in this section already.—Ed.) While they are thus suffering and waiting for that distant event, a "fall frost," they will get little relief from any source. Therefore, the lot of the hay fever sufferer appears to be a hard one, as once you have the disease it is very hard to do anything that gives much relief.

Those who have suffered year after year from hay fever, asthma, and similar affections will welcome the information that in a large number of instances it is possible through late scientific discoveries, to greatly relieve and sometimes permanently cure the diseases, without going away from home.

Before discussing the method of treatment, we should first consider some of the causes of hay fever. True, hay fever is due to a peculiar sensitiveness on the part of some persons to the pollens of certain grasses, weeds, plants or trees. formerly it was supposed that the pollen of the golden rod and ragweed were alone the cause of the trouble, but now we know that many other pollens are also to blame.

In cases coming at practically the same time yearly, a fairly correct guess as to the cause can often be made by noting the grass, weed or flower pollen most prevalent at that time. A physician can often decide definitely by inoculation with minute amounts of a sterile extract of each of the pollens considered responsible for producing hay fever. No discomfort is felt until the substance actually causing the trouble is injected, when a slight swelling and itching occurs. Once the pollen is discovered that is the cause of the trouble, relief from the affection can usually be obtained by semi-weekly inoculations of increasing doses of an extract of the pollen in question, thus causing the body to manufacture its own antidote.

The success in this therapy lies in establishing immunity before the pollen season. Afterwards it is liable to be too late. Therefore, it behooves all hay fever sufferers to take advantage of this scientific weapon without delay. It may not be effective, or perhaps only partially so, but the percentage of successes is sufficiently high at least to try the treatment.—Dr. Clyde W. Beson, Commissioner, Department of Public Health, State of Oklahoma, in Farm and Ranch.

Sweet corn loses its sugar content very rapidly after being removed from the stalk, and to have the best flavor should be picked only a few hours, or better, a few minutes, before being cooked.

Blackberry juice makes a very appetizing punch combined with other fruit juices, lemon and ginger ale.

EDITOR SETS HOT WEATHER STYLE; WEARS PAJAMAS

ELIZABETH CITY, N. C.—Pajamas worn with snug fitting trunks or shorts are sensible hot weather departure from the heavy sticky leather belted apparel men generally wear, in the opinion of W. O. Saunders, editor of the Elizabeth City Independent, who appeared here Sunday attired in pajamas.

"I wore light tan or conventional palm beach color set off with a necktie to match," Sanders said. "They looked respectable enough for street wear. It is nothing new with me. I frequently don pajamas over white rayon shirts, put on my house slippers, and lounge on my front porch or come down to my office."

The Sabbath appearance of the editor in pajamas created little or no excitement here. "My, how cool you look," was a comment brought by his papama apparel.

"I do not believe here in the South the wearing of pajamas of decent cut and texture in either plain or ornate patterns would be resented," Saunders declared, "and I believe everybody would be happier for the comfort and freedom they would afford."

"Instead of being condemned for his public appearance, the local editor has received scores of telephone messages from people asking him to repeat the performance as they were unable to see him Sunday.

"They actually talk as if I had put something over on them, and I may yet have to satisfy their curiosity by advertising the time and place of another public appearance in my modest nighties," Saunders said.

let it be" is good advice. The leaves of poison sumac are divided into from 7 to 13 leaflets, arranged in pairs, with a single leaflet at the end. Through the winter the plants have cream-colored fruits. Poison sumac grows only on wet land.

Get into the habit of closing up the sewing machine when you stop work for the day. A little dust can undo all your efforts at cleaning up your machine and making it run easily. Unnoticed dust also gets on light colored work to its detriment.

More fertilizer is used on cotton than on any other one crop in the United States. The price, yield and acreage of cotton for one year determines largely the quantity of fertilizer bought for use on the following crop.

Welcome, 4-H Club Boys!

A tasty way to cook string beans is to shred them finely and give them a short, quick cooking in a comparatively small amount of lightly salted water. Remove the tips, ends and strings, and cut the beans lengthwise into long, thin shreds, with a pair of scissors. If the beans are young they will cook tender in from 15 to 20 minutes. They will keep their good green color and have a delicate fresh flavor if cooked quickly and for a very short time. Season with melted butter and more salt if necessary.

Miss Lucille Stumpf of Evansville won the school typewriting championship of Indiana and will compete in the international contest to be held in Toronto next September. She wrote 66 words a minute for 15 minutes without an error.

Get set for extra miles

YOUR speedometer wants to tell a story—and it's a story with a happy ending, too. It wants to show you just how much extra mileage is really packed into Conoco Gasoline. *So give it a chance.*

Note your mileage the next time you fill with Conoco—then keep an accurate record of your miles per gallon. That's the way to prove to your own satisfaction that Conoco is the real low cost economy fuel for summer driving.

Look for the sign of the Continental Soldier—it's the symbol of extra miles. Back of that sign stand the resources and experience of an organization which has been serving the public with petroleum products for almost half a century.

CONTINENTAL OIL COMPANY

Producers, Refiners and Marketers

of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Packed with extra miles!

DUNN FOLKS DO FRIENDLY TURN

Tuesday will remain as a red-letter memory day of Cleveland Clay of the Dunn community, when neighbors to the number of 54 dropped in and completed his cotton chopping and made him know that this great West Texas friendly spirit is not the "bunk" but that in reality it is one of the tremendous forces of the great West. Mr. Clay has had an invalid son who has needed the father's constant attention and he got behind with his farm work. Therefore, the friends. The son is quite low at this writing.

The Times-Signal editor arrived on the scene of the cotton chopping through our good friend, W. A. Taylor's phoning us to bring a photographer with us to get the 54 good-looking gentlemen who were working like Trojans when we reached the scene with "Shorty" Miles.

Upon interviewing the first man we met, he told us that W. A. Taylor and J. C. Beakley were the "official and unofficial" bosses of the crew, but as we noted them working there did not seem any necessity of anyone being a "boss", as the boys were sure shooting the weeds to all four corners. In addition to the gentlemen named, we saw the following: Walter Clay, Oscar Bowers, C. C. Autry, A. D. Eggleston, Loyd Horton, Elmer Cotton, D. M. Denson, J. H. Robinson, Owen Clay, H. F. McCormick and D. A. Monton.

Fred Crabtree, Herschel Clay, Elroe Crabtree, J. W. Everts, Ollie Robinson, Hiram Beasley, J. E. Beasley, J. A. Dunn, Ross Crabtree, O. L. Ward and Archie Crabtree.

Bob Billingsly, Wesley Reynolds, Owen Nail, Mark Lane, Leonard Crabtree, Olen Hale, W. H. Flippin, Oscar Worthington, F. W. Wood, Marvin Gary, Jack Anthony and Fred McElyea.

Clarence Corbell, E. W. Cobb, Loyd Cotton, Virgil Nail, Fred Bowers, Sam Clay, Master Davis Clay, B. A. Worthington, J. B. Nixon, Russell Nixon, W. H. Richardson, R. G. McFarland, Cleveland Clay, E. L. Crowder, J. K. Westbrook, A. E. Lee, L. G. Gary and W. H. Lee.

Congratulations and honor to the men who will roll up their sleeves and help their neighbors. That's friendship and the sort of spirit that breeds health, wealth and success.

RURAL WOMEN TO RECEIVE HONORS

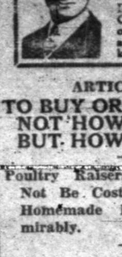

Five rural women of Texas, selected as representatives of the highest type of wife, mother and community builder, will be honored with the title and gold pin of Master Farm Homemaker at the twentieth annual Farmers Short Course at the A. and M. College of Texas July 29 to August 3. The award will be made this year for the second time.

The award will be bestowed by The Farmer's Wife, national farm women's magazine of St. Paul, Minn., on each of the group of five Texas rural women selected by that journal in cooperation with the Extension Service of the A. and M. College of Texas. Announcement has been made that more thann 100 outstanding rural homemakers in the nation will be so honored this year. Recognition of the farm wife's job as one of the world's most important lines of endeavor is an aim of the Master Farm Homemaker movement.

Outstanding farm women from virtually every section of Texas have been nominated for the honor in this state this year and have answered more than 500 questions concerning their home making methods for the judging committee named by Miss Mildred Horton, state home demonstration agent of the Extension Service. Miss Bess M. Rowe of the farm magazine will come to A. and M. to confer the honor on the winners.

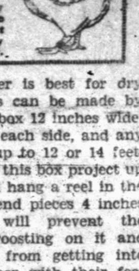

THANKS FOR PLUMS

Our good friend, W. W. Merritt, who inhabits a fine farm west of town, remembered the editor Tuesday with a fine box of luscious plums which are being well taken care of by Aunt Bina. We surely have a natural falling like any editor who walks and breathes to receive such fine gifts, and we surely thank Mr. Merritt.

How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XXVII

TO BUY OR NOT TO BUY; NOT HOW EXPENSIVE, BUT HOW EFFICIENT?

Poultry Raisers' Equipment Need Not Be Costly to Get Results; Homemade Devices Serve Admirably.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well known national authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

A man fed from solid gold table service will be no better nourished than if his food were taken from dishes of the heaviest and cheapest earthenware, neither will he rest any better in a bed made of mahogany than he would in a bed made of pine. By the same token, poultry get along no better if raised with the aid of expensive devices rather than something far cheaper. As a matter of fact, homemade devices serve just as well in many cases as anything one can buy.

Of course, there is ample justification for buying factory made equipment made of such materials as galvanized iron or earthenware. As a rule, it is more sanitary and also more durable. It is often essential, however, to keep the investment for equipment as low as possible. If so, the right kind of homemade equipment will serve just as well as the most expensive factory-made article. Moreover, with but little more effort, if any, it can be kept clean and sanitary. As an example, I have some nests made from ordinary soap boxes that have given satisfactory service more than ten years continuously.

Troughs, which are undoubtedly the most generally used of all feeding appliances, are also easily made by the home workman. A number of excellent factory-made troughs are also available if wanted. The familiar V bottom trough made entirely of wood is, I believe, the most commonly used for feeding wet mashes as well as the easiest to build. It is very good, too, because feed cannot lodge in the corners. Whatever material or style of construction is used, a grating of some sort should protect the food so the fowls can reach it easily, but cannot roost over it or get their feet in it. All feeding troughs and water vessels should be up off the ground or floor, on platforms or racks, so the chickens cannot scratch litter and dirt into them.

The reel hopper is best for dry mash feed. This can be made by making an open box 12 inches wide, 7 inches high at each side, and any length required up to 12 or 14 feet. Have the ends of this box project up 7 or 8 inches and hang a reel in the center of these end pieces 4 inches square, which will prevent the chickens from roosting on it and will keep them from getting into the box or hopper with their feet and still permit them to eat the mash feed. On the top of each side have a lip project into the box at least ¾ of an inch. This will keep the chickens *from wasting* the feed. It should be upon a platform where the hens can jump up and eat from each side.

In addition to the various kinds of troughs and hoppers which can be of homemade construction there are several very practical styles of homemade drinking equipment which are more or less satisfactory. Drinking vessels should be made of tin, galvanized iron, glass or crockery. A wooden vessel or trough is not easily cleaned or sterilized; therefore should not be used for either water or milk. An ordinary pan, bucket, pail or can can be used for a drinking vessel or excellent sanitary drinking fountains can be bought from any dealer in poultry supplies. If homemade equipment is used, be sure to protect it in some way so the fowls cannot get in the water with their feet or turn it over.

For watering poultry, the best plan is to build a platform 24 inches square and have it up 20 or 24 inches from the floor. Make a round hole in the center of this platform just large enough to get a tapered galvanized pail or bucket half way down in the hole, and the chickens can jump up on all sides of this platform and drink. A platform can be made 2 feet wide and 6 feet long, if desired to accommodate three pails. Plenty of pure, fresh drinking water should be available at all times, convenient for the hens to find.

Space is lacking to describe even briefly the various other accessories which may be desirable in the poultry yard. All of them may, as a rule, be made at home of simple material and at very little cost if so desired. Not only does the maker of such equipment effect a worthwhile saving, but I know from personal experience that he gets a whole lot of genuine, personal enjoyment out of making his own equipment. He has the additional satisfaction of knowing his percentage of profits will be greater because his investment has been kept as low as possible.

(Copyright, 1929)

Charles Weeks Writes About Wichita Project

Little Farm Originator Tells of Wonderful Progress In Texas Venture

Scurry County folks will all recall the visit here of Charles Weeks, originator of the One-Acre Poultry Colonies in California, and who has come to Texas to render a like service to the Wichita Falls area. The Times-Signal has been wondering just how the Texas project has been working out and received the following letter from Mr. Weeks Monday, which we publish verbatim:

Substantial Foundation Now Established for the Charles Weeks Poultry Center, Wichita Falls, Texas

Before any great development can be carried out satisfactorily it takes a demonstration to verify the possibilities. It is now about six months since the first demonstration farms were built in this community. It has taken time to get the Model Farm in operation, with trees planted, green feed growing and the laying hens raised. It would have been imprudent to have attracted thousands of people to this center before this demonstration could have been established. It would be time and money lost to bring crowds to a bare field with nothing to see. Now that the system which has been devised for Texas climatic conditions is now operating our people can see exactly what can be done. It is now time to advertise to the world what can be done here in this poultry center and have proof for the facts in our poultry plants already established and running.

Already thousands of catalogs and magazines have been mailed to prospective buyers all over the United States. We have been busy preparing this new literature for the Wichita Falls Poultry Center and all those interested in receiving this literature will receive a copy by writing to Charles Weeks, Wichita Falls, Texas. This literature includes a new magazine with many stories of actual accomplishments on intensive Little Farms. Also a catalog giving details of the plan to be carried out in this new poultry center. We are desirous that all in and around Wichita Falls and this part of Texas should be well informed as to what is being actually accomplished on our Little Farms this far. Therefore, we extend to you a cordial invitation to visit these Intensive Little Farms and see for yourself what has been accomplished in so short a time.

The new poultry house designed for this part of Texas is giving wonderful satisfaction, and poultry men all over the country are remodeling their poultry houses to conform with this new type poultry house. It will pay all interested to come and see how comfortable fowls can be in this well ventilated and cheerful house.

We have been agreeably surprised with the growth of vegetation on our Model Farm, where we have super-abundance of irrigating water. When we will have had time to thoroughly fertilize this little farm as it should be, the growth of vegetation will be truly marvelous. We have already demonstrated beyond a doubt that we can raise more green feed on a little plot of ground 100x250 than 1200 hens can consume. It is our ideal to have a very little farm thoroughly cultivated and well watered and producing maximum crops rather than to have large farms carelessly worked.

We have made some recent experiments in the raising of baby lima beans and have found that they grow here even better than in California, where they are produced in great quantities for markets all over the world. From our experiments here it would appear that lima beans could be grown in the Wichita Valley as well or even better than in California. We intend to carry out this experiment on larger tracts and get the exact facts as to the possibilities of growing them here in this soil with this irrigating water. We have also found that Ladina Clover has made wonderful growth on our demonstration acre and we look forward to a great production of the legume for green feed for our poultry. On our Model Farm in California this Ladino Clover has proved to be the best green feed for poultry that we have ever found, and it produces more tons to the acre than any other plant that we have ever grown. We expect this Ladino Clover to furnish the biggest part of the green feed for our poultry on our little farms here at Wichita Falls. One seeding will last over a period of many years, and it grows stronger and better with age. Sudan grass also makes a very good green feed for poultry and everyone knows that it is a native crop to this part of the country.

Our vegetable garden on the Model farm has done surprisingly well for this first year, considering that we were short of fertilizer at the beginning. With the poultry fertilizer we will be able to bring the vegetable garden to the very highest state of production. We have had good results with growing vegetables under the Mulch Paper and have learned many things from our experiment with it. It will have to be well covered with earth during the windy season of the year. It is well worth while to grow vegetables this way, because it holds the moisture in the soil, keeps down all weeds and eliminates cultivation. We have demonstrated to our complete satisfaction that the soil here needs abundant fertilizer in order to produce good crops. With our poultry on the little farm we have our own fertilizer factory with us, and it will not be long until maximum production can be reached, for we have found this soil to respond wonderfully to fertilizer and water. In the use of water, we have found that sprinkling of the vegetation gets very good results on our little farm. It does not pay to use too much water and waterlog the soil. Just the right amount of water with abundance of fertilizer will get almost unbelievable results.

We have found that the poultry is very healthy in this section and have raised a fine bunch of high-grade pullets, having secured the foundation stock from the famous Johnson Poultry Breeding Farm. Thus far we have found everything to be in favor of intensive poultry farming in this locality, and we look forward to one of the most prosperous poultry centers in the world.

The fruit trees on our Model Farm have made a remarkable growth for the short time they have been planted. We are training these on the fence the Esphalier or French System, and already these trees look like natural vines spread out on the fence.

We have the choicest varieties of all kinds of fruits growing for the family on our Little Farm. If you have never seen trained fruit trees on the fence it will pay you to make a visit to this Model Farm and see how we start the trees on the fence. This demonstration farm is open for the inspection of every person interested. It should be a lesson to the whole State of Texas along the line of intensive agriculture. It is our purpose to show how a man and his family can earn a very comfortable living from so little as one acre of land or less. Our miniature farm is 100 feet wide and 250 feet long, on which we keep 1200 laying hens.

Now that we are well established and have something really worth seeing, we invite the public to come and see for themselves what can be done on a very little land well fertilized and watered.

EDITOR'S NOTE: Would a Scurry County delegation be interested in forming a motorcade for a visit to the Wichita Falls property? Mr. Weeks has written us that he would be pleased to be at the property any date that we might select. Who is interested?

SPELLS OF BACKACHE

"I HAVE used Cardui at intervals for sixteen years, when I suffered from weakness, and it always helped me," says Mrs. J. W. Jinright, R. F. D. 2, Troy, Ala.

"Mostly I was afflicted with bad spells of backache. At times I felt as if my back would break. I would drag one foot after the other, in a helpless sort of a way, and once I got down in bed. My husband urged me to take Cardui, and I soon found what a fine medicine it really was.

"When my second child was little, I was in very bad health. I did not pick up as I should have. I was weak and sickly. I do not believe that I would have come through, but for Cardui." EX-1468

CARDUI
HELPS WOMEN TO HEALTH
Take Thedford's BLACK-DRAUGHT for Constipation, Indigestion and Biliousness.

WHAT'S DOING IN WEST TEXAS

PAINTROCK'S exports, during one week recently included one car of sheep and three cars of mixed stock. Eighteen cars of grain and 15 cars of wool have been shipped to date. Last year's cotton crop is expected to be equalled this year.

ABERNATHY'S $15,000 Struve cheese plant is still running to capacity, milk being brought in from a wide territory. The present capacity of 10,000 pounds of milk per day can be doubled with the purchase of another large vat.

HAMLIN has been experiencing a prosperous increase in residence building. Five new homes of permanent construction are being built in the most desirable locations. Modern improvements, as sidewalks, sewer, lights and natural gas are being used.

HEREFORD'S Chamber of Commerce officials traveled 1200 miles infive days and visited seventeen towns and fifteen counties in securing $4,500 for the Panhandle Plains, Inc., which will be used to advertise the opportunities that exist in the vast Panhandle Plains area for the farmer, homeseeker and investor.

ROSWELL, N. M., entertained the fourth annual motorcade of the WTCC on July 16 when the Pecos Valley-Intermountain district convention of the organization was held. An interesting program on which Governor Dillon and other notables had prominent parts preceded a visit to the irrigated farm section, the reception and entertainment.

VAN HORN was visited by the WTCC motorcade on July 13, and the Big Bend district convention held there. Mayor R. E. Thomason of El Paso, Col. R. Durill, Col. Perkins of Alpine, Dr. H. W. Morelock of Sul Ross Teachers College, Hunter Metcalfe of Marfa and President Bourland of the WTCC were speakers on the constructive program.

HALE CENTER had shipped 300 cars of wheat and other grain by both elevators and independent shippers up to a little over a week ago. It is estimated that over 80 per cent of the wheat has already been harvested. The 1929 crop promises to be one of the largest from the standpoint of yield in many years.

STEPHENVILLE'S milk receipts at the local receiving station of the Southwest Dairy Products Company passed the 500 gallon per day volume recently. Another milk route is expected to be inaugurated soon to care for the supply.

COLEMAN County's increase in valuation over last year has been announced as $1,500,000, the total valuation this year being $16,000,000. The new increase is due to oil and the newly constructed buildings in Coleman, and these influences have operated about equally in causing the raise.

PECOS building permits amounting to $40,000 were granted for structures down town and along the highway recently. Construction of a $40,000 building by the American Telegraph & Telephone Co. is expected to begin shortly. Plans for a new court house are being rushed.

BIG SPRING'S Petroleum building was accepted by the directors recently and a formal opening held shortly following. The building was constructed by a stock company composed of local citizens. A $10,000 bonus to be used for the purchase of the site was given by the Big Spring Chamber of Commerce.

BRADY'S newest building and loan association, the Central Texas, with headquarters at Brady, was perfected recently with an authorized capital of $150,000. This is the second building and loan association at Brady and was organized as an evidence of faith in the growth of the community.

BUILDING STORE ROOM

J. Wright Mooar and B. F. Womack, owners of the room in which the Farmers Exchange is located, have commenced the construction of a new brick addition that will be used as a warehouse.

Manager R. O. Von Roeder needed more room for the increasing business of the organization, and the owners were glad to build the improvement which will greatly increase storage capacity.

RETURN HOME

The Joe Byrd family returned home last week from a month spent at Sundance, Wyoming, in the Black Hills where Joes broth'er, R. H., is sheriff. In addition to seeing many wonders in the regions where they visited where the crops were looking fine, the entire group visited Yellowstone National Park, and get Joe talking about it. He gets to wrapped up in the subject, he actually starts stuttering.

POST MAN DIES

R. N. Miller and Ed Miller attended the funeral of Charley Cooper in Post Thursday. He was a nephew of R. N. Miller.

Mr. Cooper, 34, was a mechanic and was working on an oil truck Wednesday. He had the truck hoisted up with a chain, which broke, causing the truck to fall on him, breaking his back in three places. He lived only four hours after the accident happened. He leaves a wife and two children.

Lord Knaresborough of London willed $11,000 to his secretary in recognition of her faithful service.

SNYDER GOLFERS DEFEAT LAMESA

A number of golfers from Lamesa accompanied by their ladies came Sunday, and the Snyder bunch mopped up as is evidenced by the following:

Fish and Harris beat Rose and Nix.

Hagan and Chambers beat Lavender and Thomas.

Dodson and Raybon beat White and Barnhart.

Cloud and Stacy beat McEachen and Wilson.

Blackard beat Willis.

Rounding up a total sum of 40 points.

At 6 o'clock there was held the long distance driving contest of the club tournament which was won by Burgess Brown.

The Lamesa players were loud in their praise of the Country Club properties, stating in emphatic terms that it surely was a credit to any city four times the size of Snyder.

It looks natural to see Pete Thrane back at his desk at the Snyder National Bank. Now here's Ernie Taylor over vacationing in Tennessee, and here is Peter just back. Gosh! These bankers sure have it on editors when it comes to vacations, and we hope they enjoy them, as we hold no ill-will against the fellows who can take them.

Welcome, 4-H Club Boys!

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Business Affairs

It was a matter of considerable interest to our people when the big oil derrick loomed up above the horizon Monday some two miles south of Fluvanna. It will be only a matter of a few more days until we will begin to know more about what is beneath our feet and how far it is to it.

It has been reported, apparently on good authority, that preparations are being made for putting in a power plant and a storage house a few miles north of Fluvanna in the Justiceburg community. A loading rack is also to be put in on the Santa Fe near the same place. These developments clearly indicate that in due time something is going to be doing in these parts. It is also reported that 12 more wells are in prospect in that locality. Watch the indicator. Something is going to happen.

Our old school building is being completely overhauled. Our Board of Trustees has recently secured an additional block of land just east of the present school building and directly in front of the Presbyterian Church. This is to be the site of the splendid new structure to be erected this year. When this is accomplished and the three school buses are put into operation, the Fluvanna Consolidated High School District will have a school second to none of the small town class. Although there were not half as many votes cast as should have been, the people (who did vote) did themselves great credit last Wednesday when they rolled up a majority of nearly ten to one in favor of the building bonds.

Mr. Cole is erecting a small private garage in connection with his stand.

Church Services

Regular services were held at the Presbyterian and First Baptist Churches last Sunday—the latter only at night. At the morning hour V. P. corrected some erroneous statements which had recently been made concerning church matters. Following this, in response to President Hoover's call and the unanimous action of the recent Presbyterian General Assembly, a patriotic service was held at which service law observance and law enforcement was duly stressed.

The preacher declared that the present strong tendency towards disregard for law—especially such laws as the individual might not personally favor—was rapidly gravitating towards anarchy. He insisted that every citizen should not only keep the law but that everyone should stand for and aid in the rigid enforcement of all our laws. The pastor and congregation of the First Baptist Church dismissed their service and came over in a body to the Presbyterian Church in order to participate in this service. This was a fine thing to do, and much interest was manifested.

The Christian Church begins its annual revival at the arbor Friday night of this week. They will serve dinner on the ground and devote the day to the several services. Other services of the town will be called off out of deference to this meeting.

Sickness

Mrs. Clark of this community is being operated on at about this time (Tuesday morning) in the Lubbock Sanitarium. The patient has been in the sanitarium several days, but we have not learned the nature of the trouble.

Mrs. C. F. Landrum had a severe attack of acute indigestion last Thursday night and was taken back to the sanitarium Saturday. She is said to be getting along very well. The patient was carried to Lubbock by the husband and Mr. and Mrs. Bos Stavely.

J. L. Roddy has been suffering from blood poisoning in a finger for two weeks. The trouble is the result of having stuck a fish hook in the end of the finger while on a fishing trip a few weeks ago. He is some better.

John A. Stavely went to Lubbock last Thursday for special treatment of his throat which has been giving him trouble for some time.

Bob Snedgrass, who had been in the Emergency Hospital for several days, was able to return home last Saturday.

Dolph and Mrs. Faver had a bouncing boy born to them Sunday night.

Joe Belew went to the Lubbock Sanitarium last Saturday where he expected a minor operation.

R. H. Cox, residing some four miles south of town, received a long distance message Sunday night stating that his son was seriously ill in Throckmorton with acute appendicitis. Mr. Cox departed at once for his son's bedside. The young man, apparently in good health, left here last Friday in quest of employment. We understand that the patient was to be operated on in Stamford Monday.

Visits and Trips

D. A. and Mrs. Jones, having spent several days at the Presbyterian Buffalo Gap Encampment, joined the motorcade and are now on that trip westward. Mert Jones, wife and baby joined the WTCC motorcade at Ballinger and are also seeing the sights.

Mesdames John Truss, E. V. Boynton and Fowler Mathis went early Tuesday to Lubbock to be with Mrs. Clark during her trying ordeal.

Tolbert Koonce and family departed during the very early sleepy hours of Sunday morning for a visit to Beckville and other points.

Gene Trussell enjoyed a visit by his brother and family from Louisiana last week.

One Mr. Ratliff of San Angelo was here on business last Saturday.

J. D. Lagrone of Breckenridge was here on business and visiting Mr. and Mrs. Power Monday.

J. B. and Mrs. Morgan and Mrs. Poteet of Collin County;; H. M. and Mrs. owell of Fort Worth; Ray and Mrs. Patterson and L. P. Patterson of Hermleigh have all been recent visitors with the Roy Patterson family of this place.

Mrs. G. W. Hay of McGregor arrived last Saturday and is spending this week with her sister, Mrs. F. W. Park. John Davis and family of Plainview also visited the Park family last Saturday.

G. A., J. H. and B. W. Moore and families, all of Augusta, Texas, spent the week-end here with a brother, F. W. Moore.

Miscellaneous

The Senior Class (seven members) of 1927 enjoyed a nice social occasion with suitable refreshments in the home of one of its members, Miss Frances Beaver, last Thursday night.

On July 11 and 12, J. F. and Mrs. Dowdy had birthdays. Although they were not thinking of celebrating, a daughter, Mrs. Cora Patterson, assisted by Mrs. Iva Ainsworth and Mrs. Minnie Garner, prepared a sumptuous dinner on Thursday, had charge of the Dowdy home and the table loaded to capacity with the good things to eat when J. F. and wife went from the store to take their usual plain lunch. We imagine they might well have sung "Oh What a Change." Mrs. Fred Wenner and Grandma Edwards were fortunate enough to be guests for this occasion. Not only a great feast but a most delightful time is reported. Folks don't mind growing old that way..

The news has leaked out that J. E. Jones had a birthday last Sunday. It also happened that he was treated to a fine dinner which was enjoyed not only by the family but by a few other relatives as well. It seems that John is not announcing his age—leaving that for the rest of us to guess at. Judging from his appearance, our guess is something less than one hundred.

JAS. H. TATE.

LETTER FROM UNCLE JIM ROBISON

Editor George F. Smith,
Scurry County Times-Signal,
Snyder, Texas.
Dear Mr. Smith:

As a grateful acknowledgement to those loyal friends from all portions of Texas who so loyally stood by me in deeds, words or silent prayer during the six months effort made by certain persons to destroy me, I send the lines below as a feeble expression of my whole-hearted appreciation of their confidence. The pains of the ordeal were somewhat assuaged when I found by my side those who had known me longest and those who had had the most business with me over a period of thirty-four years service in the State Land Office.

"If nobody smiled and nobody cared,
And nobody helped us along;
If every fellow looked out for himself
And the good things all went to the strong;
If nobody cared just a little for you,
And nobody thought about me,
And we stood all alone in the battle of life,
What a dreary old world this would be!

Life is sweet because of the friends that we love,
And the things that in common we share;
We want to live on, not because of ourselves,
But because of the people who care;
It's giving and doing for somebody else—
On that, all of life's splendor depends—
And the joy of this world, when you've summed it all up,
Is found in the love of your friends."

I want you to know that your goodness and kindly interest made my heart glad.

Your friend,
J. T. ROBISON.

Austin, Texas,
July 10, 1929.

FORMER SNYDER BOY GOING TO WEST POINT

J. G. Morrow, son of Mr. and Mrs. W. M. Morrow, formerly of Snyder, has received an appointment to West Point Military Academy. He is now stationed at Fort Sill and was one of the two out of 6,000 soldiers from Fort Sill selected to go to West Point. He recently won out in life saving at the Fort over 750 contestants and was sent by airplane to the U. S. Army school for life guards at Chicago but is back at Fort Sill in charge of life saving.

J. G. graduated from Snyder High School with honors and as president of the class of '25. His parents now reside in Abilene.

Dried milk may be rolled into sheets like paper which will keep for years by a newly invented Danish machine.

ty Moore, who sells telephone service in Abilene when not trying to tell funny stories and getting conventions.

❖ ❖ ❖

So much has been said of the famous debate of Buttermilk Jim Lowry of Honey Grove and State Press Joe Taylor of the Dallas News that our readers would enjoy reading that we asked Wendell Bedichek of the Big Spring Herald for his notes taken at the banquet as we were too busy keeping Toastmaster Paul Vickers and Monte Owens in line to keep any sort of notes at all, but here we give it in more intimate detail:

The Debate

Their subject was "The Relative Merits of Buttermilk and Pot Likker, Lowry upholding the lacteal fluid and State Press the likker.

Mr. Lowry opened with the declaration he was glad to come to so thriving a portion of the state "where knighthood is always in flower."

"I am here in behalf of the cause of buttermilk," he said. "There is in us the vein of righteousness and the vein of sin. There is one sweetly lacteal fluid that nurtures, symbolizes and emblemizes righteousness. Pot likker is evil. Buttermilk gives hope to the heart, lustre to the eye and makes the innards glad.

"Adam and Eve were given the Garden of Eden and told they had to do no work. The Lord said 'Adam, you have ambrosial fruits and all that is good.' They fell. Why?

In Eden

"Adam had been told he could remain there provided he made buttermilk his only beverage. Satan, that old forked tailed devil, dragged his shiny self out of the pit of hell and appeared to Mother Eve—poor, foolish Mother Eve.

"Good morning, Mrs. Adam," said old Satan. How beautiful you look and your fig leaf is so becoming."

"My fig leaf? Oh, yes."

"And where did you get that beautiful fig leaf?" asked Satan.

"Oh, I got it over yonder for $1.98. They cost two dollars around here," said Mrs. Adam.

"Well, do you want to step out and get a little drink?" asked Satan. "If you do, come with me, for I have just put on a fresh batch of my Pot Likker," the Evil One urged. "It's nectar to the mind and heart."

❖ ❖ ❖

She Drank

"And Mother Eve took a little drink of that Pot Likker. She made Adam drink it and God drove them out of Eden, their son ran off to the land of Lot and married a baboon. And, all because of this Pot Likker.

"Why, the reason people became bow-legged was from hours of bending over the pot. For years this deformity was chronic at the expense of long skirts on the women. Buttermilk's use has so cured this ailment that only a few women are embarrassed when seen in today's styles. Buttermilk removes freckles, freshens the complexions of Hollywood movie stars until they can get a new husband a year and have a waiting list.

"Pot likker, it has been discovered, causes Hookworm. For is a hookworm not shaped just like a pot hook?

State Press

State Press' main speech was about like this: "When I reached the city I very soon saw the evil genius from Fannin County, lugging his carpet bag and hunting for a one-dollar hotel.

"His remarks remind me of a small girl of our own day. She was left in her grandmother's care while her mother, modern-like, went away to dance and play bridge. The child was restless and fidgety. Her grandmother finally got her into her bed and said, "now daughter, I'll read you a nice fairy tale about Red Riding Hood."

"Aw, grandmother, to hell with that bunk," said the small child.

"That is the attitude I ask you to take toward the remarks you have just heard.

"I regret to meet a man of such low ideals. He has spurned the source of the stimulus that has made of this country a fit region for Max Bentley to live in. It is replete with all necessary elements. It builds sinews, thews the muscles. It makes wonderful the edifice of man. Buttermilk builds only bone and mostly in the head at that. It even destroys the hair. I'd rather go to heaven in a pot than to hell in a churn.

Look not upon the buttermilk when it is pink. Cleve to the food of the Gods, priceless, imperial Pot Likker.

Mr. Lowry's rejoinder: "Speaking of buttermilk destroying the hair; Esau, the first hairy man, sold his birthright for a mess of Pot Likker. Samson partook of Pot Likker and let a heathen suffragette lead him to his death. The churndasher is the hope of the world."

State Press: "I agree with the gentleman's remarks except I'd like to remind you that Esau made a trade that lost him his estate but saved his soul."

Vickers On Job

Toastmaster Vickers rendered the verdict of the audience, which awarded both combatants the prize for mutually excelling one another.

❖ ❖ ❖

The Times-Signal editor wants to call Max Bentley's article in Sunday's Reporter News to task. Max said right out loud that 99 editors had signed up on the dotted line for $2.50, which would make the tidy sum of $247.50, and upon a check-up we find that $130.00 was the actual amount of cash turned in so that to keep the records straight we must stand up on our right foot (if possible) and tell an anxious world of the receipts.

❖ ❖ ❖

Two great moments were in evidence during the banquet; one was when the decision was to be rendered in the now famous Lowry-Taylor debate; the other, the tense moment at the presentation to Manager Homer D. Wade and Mrs. Wade of their memory gifts. The first tense moment was funny, but the second one caught you right down in the heart that's by you all the time. But let it be said, Mr. and Mrs. Homer D. Wade will always have bright and cheery spots in their hearts for the West Texas Press Association . . . and may their shadows never grow less!

At the close of the banquet program Col. Dick McCarty of Albany presented to Homer D. Wade, who retired Monday as manager of the West Texas Chamber of Commerce to become general manager of the Dallas Chamber of Commerce, a desk set in behalf of the association. Mrs. Wade was presented a wonderful basket of flowers. The following letter was read in presenting the remembrance to Mr. Wade:

"Mr. Homer D. Wade,

"Manager, West Texas Chamber of Commerce,

"Stamford, Texas.

"Dear Homer: Since we are addressing you by the title with which, these past four years, you have so ably led the people of West Texas to bigger and better things.

"This little gift was suggested by your right bower, Clara, (Miss Clara Lively, Wade's assistant in Stamford) who said your new office in Dallas would be dolled up for your coming and that this desk set might come in handy. It represents scarcely no value as value ordinarily is measured, but we think you will be glad to get it because of the sentiment which it carries of which is a token; and this is the sentiment:

"'Presented by the officers and membership of this association this the 12th day of July, 1929, in convention at Sweetwater, Texas, to Homer D. Wade—

"'First in our wars, first in peace, first in the hearts of this region.'

"With our affectionate wishes,
(Signed) West Texas Press Association, by Bowen Pope, president, and George F. Smith, secretary-treasurer."

—And in connection, folks, with that fine gift and the sentiments contained therein, our hats are off to fine and noble Max P. Bentley of Abilene, than whom there is no "whomer."

❖ ❖ ❖

The Nolan County News, Luther M. Watson, owner; C. S. Boyles, editor, issued one of the finest welcome editions ever accorded the West Texas Press when sixteen pages of wholesome "welcome" were delivered to the visitors as the compliments of Sweetwater merchants. The paper was crowded full of pictures and interesting news and every possible angle of the program was given. Watson as the owner and Boyles as editor received many pats on the back for their progressiveness and being on the job. As a "live-wire-pep-weekly" the Nolan County News takes no back seat for any West Texas publication, whether a weekly or a daily.

❖ ❖ ❖

Eternally youthful Rufus Higgs, editor of the Stephenville Tribune, was right there with his golf pants n'everything. As the years roll on Rufus seems to grow younger and better-looking, if that were possible, but Higgs had might as well pushed the famous peanut up Pike's Peak as coming close to winning Bill Parker's cup. He might as well have had a broom stick as a golf stick in the Sweetwater tournament. But he swore a vendetta to win the Abilene trophy next year—and we do hope that Rufus maintains his girlish figure.

We'd enjoy making some remarks about all the boys who were there, but our linotype man said we had to quit if we wanted to still get out a newspaper this week and have enough room for advertising that pays the bills for the baby's necklace.

THE TOWN DOCTOR

(The Doctor of Towns)

—SAYS—

"THANK YOUS" ARE A MEANS OF MUCH BUSINESS

There is a cigar store I know where they will give you back the amount of your purchase if the clerk fails to say "Thankyou."

There is a string of drug stores in Chicago that appeared to make it a habit of not saying "Thank you"—they were forced to sell out at a loss.

There is nothing that grates on my nerves quite as much as to pay a check, a bill, or present legal tender in payment of purchase, and have the recipient of my money fail to express any appreciation for the patronage extended. And there are millions of others just like me.

One of the most successful mercantile business concerns in the country has built its business on the motto, "It is only natural to trade where you are served best." Some cash register company might do good if they put a "Thank You" on their register, like cuckoos on clocks.

Why shouldn't the customer be thanked? If one man gave another a dollar and the received didn't even grunt to show appreciation, you'd call him an ungrateful cuss and a poor specimen of humanity; yet, many a sale at a profit equivalent to much more is accepted with the air of "Well, it's coming to me." That is mighty poor business, or else inexcusable ignorance.

The cheery "Thank you, "Call again," or some other such card on the inside of the door, or over the cash register, shows the right spirit and helps, but isn't enough. The American public are fickle buyers, and for that reason "business goes where it is invited, and stays and comes back to the place where it is well treated and served best. There is many a business house, many a community, failing to make an expression of appreciation for patronage extended, that is thereby driving customer to its competitor, for it isn't always what is done, but what is left undone that counts.

"Thank You's" never drove business from any store or community, but lack of them has cost many thousands upon thousands of dollars.

This Town Doctor Article, one of a series of 52, is published by the Scurry County Times-Signal in cooperation with the Snyder Lions Club.

Note: These articles are written by The Town Doctor, without prejudice or malice and are impersonal. They treat each subject as applied in general—not to a particular town. Opinions favorable or otherwise on subjects covered are solicited and may be addressed to the paper in which these articles appear, or to The Town Doctor, Suite 350, McCormick Building, Chicago, Illinois.

THE DALLAS NEWS LET'S CAT OUT OF THE BAG LAST WEEK

Editors of Post and Snyder Papers Have Full Faith in the Future, News Says

The following article—heading and all—appeared in Friday morning's Dallas News and is self-explanatory. While the editor of the Times-Signal got the low-down from The News, he cannot be accused of re-printing the article in this paper, for the compositor took advantage of his absence and took a chance on his good nature and slipped it by him in the Times-Signal. The News said:

FUTURIST PHOTO TAKEN OF FLIGHT

Editor Jimmy Smith Takes Liberties With Facts in His Propaganda

George (Jimmy) Smith of the Scurry County Times-Signal and Eddie Warren of the Post Dispatch, secretary and vice-president, respectively, of the West Texas Press Association, which opens its convention at Sweetwater Friday, have full faith in the future—even if it's only the future of a day or two.

Mr. Smith and Mr. Warren intend to fly to Sweetwater and neither of them is modest when it comes to seeing their pictures in newspapers other than their own. And they have full confidence in the pilot who will carry them to the convention by air. So, to insure the publicity they like, but wouldn't admit they want, Mr. Smith, known as Flying Jimmy, mailed to The Dallas News a few days ago the accompanying photograph.

On the back of the picture, as is customary, Mr. Smith wrote the caption he wanted to appear. It read: "Picture shows Pilot R. L. Lowry, Secretary Jimmy Smith, Snyder, and Eddie Warren, Post Dispatch, arriving at Sweetwater airport. Both Smith and Warren flew to the West Texas press meeting at Sweetwater with Pilot Lowry in his three-seater Curtiss-Robin plane."

In the story accompanying the photograph Smith announced that he and Mr. Warren "were the first editors to land at the Sweetwater airport" and gave other details of the thrilling flight from Snyder—the flight which, at the time Mr. Smith wrote the details, still was a number of days in the future.

The Dallas News always is willing to aid other newspapers in the State and give their editors all the publicity they merit—and more, maybe. Butu the picture of an arrival that is three days or so in the future is too much—much too much.

However, not to disappoint Mr. Smith, the futurist photograph is printed herewith. That it was taken in Snyder several days ago and that the flight hasn't even started as this edition goes to press are matters of detail—mere detail. But why be hampered by facts?

CROP REPORTS ARE FOR THE FARMER

It is reported by the Bureau of the Census that industry furnishes more information to the public through government reports than does agriculture. The old idea that secrecy is better than publicity has largely disappeared from the business world, but not from those engaged in agriculture. Yet, industry could, if it would, keep much to itself that now appears in reports for public consumption. On the other hand farmers, many of them, at least, either attempt to conceal information desired by the government or offer no aid in securing it. This is done on the theory that the information thus acquired will be used by tax collectors, or that it will be taken advantage of by speculators and market prices run down.

There are more ways than one in arriving at the condition of agriculture. Inspectors traveling through the country can estimate pretty accurately the condition of crops and the size of the acreage. Bankers and other business men with whom the farmers deal know something about both acreage and conditions. Attempts to withhold the desired information always prove futile.

And why should farmers fear government reports on acreage and crop conditions, or yields? Without these official reports as a check, speculators' reports would run wild. Only the official report expected from the government keeps advance reports from private sources from being manipulated.

Commenting upon Government reports, Secretary of Agriculture Arthur M. Hyde said:

"Without government reports the farmer would be compelled to deal with the buyer in the dark. The buyer would know the facts—the farmer would be in ignorance of the facts. Both sides should know the truth. Accuracy is the ideal."—Texas Farm and Ranch.

GREEN FEED AND SKIM MILK FACTORS IN EGG PRODUCTION

Green feed and skim milk are two important factors in egg production, according to May records of 101 poultry flock demonstrators sent to the Extension Service by county and home demonstration agents in widely separated sections of the state. In the few cases where no green feed was supplied the flocks, production was lower, and in general where skim milk was fed with grain the production was higher.

An average above feed cost of 27 cents per hen was shown for May in these flocks, with those running above 300 birds in size having the largest profits, 33 cents per hen. The average number of eggs layed during the month by the fowls in flocks was 17½, which is slightly lower than the standard of production of 19 eggs for the month. This is due, E. N. Holmgreen, poultry specialist, says, to a number of flocks having worm infestations, the monthly production in these flocks being as low as nine eggs per hen in some cases.

The flocks reported vary in size from 18 hens to 900, with the majority ranging from 100 to 300 birds. Nearly all flocks are standard bred and of many varieties, the White Leghorn predominating. There are more than 700 such flock demonstrations now under way for the purpose of showing how average farm flocks may be put on a paying basis. Careful records are kept by owners on calendars furnished by the Extension Service.

LARGE ATTENDANCE AT CONFERENCE AT WASTELLA TUESDAY

Next Monthly Meeting To Be Held At Champion Church August 12

The Baptist Workers Conference of the Mitchell-Scurry Association met with the Wastella church Tuesday in all-day session. There was a large attendance from all over the association, and the spirit of the meeting was fine.

The program was on Revival, and was well discussed from all angles—prayer, personal service, music and preaching—in a most enjoyable and inspirational way. There is a revival going on in the Wastella church in which grown men and women are being saved and added to the church by baptism, so the subject was well chosen.

Following a bounteous feast spread by the good women of the community, a board meeting and a W. M. U. session were held. At the board meeting good reports were given and a balance was shown in the treasury. The Missionary, Rev. W. D. Green, is laying himself out in the work, and revivals are being held all over the association.

The outstanding work at the W. M. U. hour was the instruction in the work of the new District No. 8, which comprises Lamesa, Big Spring and Mitchell-Scurry Associations, with Mrs. B. Reagan of Big Spring the efficient and already loved president. The names of the new chairmen and their addresses were given and the president, Mrs. Whipkey, plead with Mitchell-Scurry women to all get their reports in on time. Apportionments were given and all cheerfully accepted.

Mrs. Sewell, wife of the young pastor at Champion, conducted the devotional exercises. The scripture used was part of the fourth chapter of Acts. Snyder received the banner for the best attendance. The next meeting will be at Champion on August 12.

SNYDER MAIL RT. NO. 1 IS EXTENDED

Uncle Sam has notified the Snyder post office that there is to be an extension of Rural Route No. 1 by August 1 and that all persons living along the following route should provide themselves with the new model mail boxes before that time. J. E. Lemond is the carrier on this route which will extend:

From the Holt corner to the Monroe ranch, south to Patterson corner, east to the Boyd corner; 4 miles from the Warren ranch to the Wellborn ranch; south to Bison school, thence east to intersection of old route.

This means adding many new names to the Snyder delivery list and will provide faster and quicker mail service to the folks living along the route as noted. The route is expected to start August 1, according to Carrier Lemond, and patrons must purchase the new model mail boxes.

Although a Chicago judge admitted that Mrs. Ada Gorham was married to a "brute," he refused to grant her a divorce.

SPOTS—(From Page 5)

got. Shine Phillips, druggist of Big Spring furnished all with whom he could get in contact, free rubber balls before taking the plane rides . . . and let it be said that the Texas Air Transport with Silliman Evans and Bob Gray on the job, and S. A. F. E. Airways surely showed the folks a real "honest to goodness" time. Nothing like it ever happened before in the annals of press association meetings, the West Texas Press having the distinguished honor of being the first press organization in the world to stress aviation, and the aviation boys came right back with as fine a bit of activity as ever could happen. "Bill' Larnier, manager of the Sweetwater Municipal Airport, made everybody feel at home.

SOCIETY

EUZELIAN CLASS MEETS

Mmes. W. [illegible] Newt Hargrove and Frank Poteet were hostesses to the Euzelian class of the First Baptist Sunday School at the home of Mrs. Raybon Thursday, July 11.

Mrs. Clyde Boren presided over the meeting in the absence of the president, Mrs. G. H. Leath.

Two very interesting radio talks were given by Mrs. Clyde Boren and Mrs. J. E. Sentell, Mrs. J. M. Newton illustrated Mrs. Sentell's story by singing "There's Four in Our Family."

Refreshments were served to Mesdames J. M. Newton, George Northcutt, Ollie Bruton, J. E. Sentell, H. R. Lee, Jack Inman, G. L. Burt, Edgar Wilson, Bill Hutchinson, O. R. Collier, Clyde Boren, J. E. LeMond, T. H. Duff, Marion Newton, and two visitors, Mrs. Moody and Mrs. Patton.

ALATHEAN CLASS MEETS

The Alathean Sunday school class of the First Baptist Church had a unique and enjoyable meeting at the Scott Ranch on Thursday, July 9. This being the monthly meeting of the class, after gathering on the beautiful picnic grounds at the ranch, the group went into business session. At the close of the business meeting everybody was turned loose to have a good time. Many games were played and a delicious luncheon served to the following members and visitors: Mrs. J. S. Bradbury and daughter, Vernelle, Mrs. H. L. Wren, Mrs. J. O. Spear and children, Mrs. Belk and children, Mrs. Huestis and daughter, Mrs. Reichardt and children, Mrs. O. S. Williamson and daughter, Mrs. Will Williams, Mrs. Randolph, Mrs. Dunn and children, Mrs. Casstevens and son, Mrs. Morton and children, Mrs. W. C. Hamilton and children, Mrs. H. J. Brice and son, Mrs. Joe Taylor, Mrs. Scott, Mrs. H. M. Blackard, Mrs. Martin and daughter, Mrs. McFarland and daughter, Mrs. Spear and children, Mrs. Fish and daughter, Mrs. Chapman and children, Mrs. Bullock and daughter, Mrs. Huckabee, Mrs. O. D. McCoy and son, Mrs. A. R. Morton, Mrs. Harvey and Misses Bessie Lou Allen, Dixie Lee Davis and Little Mary Ellen Williams.

100 GUESTS ATTEND FUNCTION WEDNESDAY AT THE C. R. BUCHANAN HOME

Honoring Mrs. J. W. Templeton, Jr. and Mrs. George McJimsey

Mrs. George B. McJimsey of New York City and Mrs. J. W. Templeton, Jr. of San Francisco, were complimented yesterday morning with a reception, an outstanding function of the season, at the home of Mrs. Buchanan, with Mrs. J. W. Templeton, Sr., and Mrs. C. R. Buchanan as hostesses.

One hundred guests calling between the hours of 8:30 until 11:00 were greeted by the following matrons and maids; the honorees, Mesdames: Joe Strayhorn, Hugh Taylor T. S. Eggerton, Joe Monroe, J. E. Sentell and the hostesses and Misses Dorothy, Cecile and Neoma Strayhorn, Dorothy and Annie Bess Eggerton, Doris Buchanan, Mattie Ross and Maurine Cuningham, Eula Pearl Ferguson and Lucille Brown.

Sun flowers and shasta daisies made a delightful setting for the occasion and a pretty background for attractive summer frocks worn by the members of the house party.

The entertaining program composed of readings, piano selections and vocal solos was given by Misses Dorothy Strayhorn, Eula Pearl Ferguson, Lucille Brown, Maurine Cunningham and Mrs. J. E. Sentell.

Frozen punch was served by Misses Cecile Strayhorn and Mattie Ross Cunningham and yellow and white sandwiches were passed, the colors predominating in appointments for the affair.

BILLY CASSTEVENS HONORED AT PARTY

Mrs. S. J. Casstevens complimented her son, Billy, on his thirteenth birthday with a party Tuesday afternoon at their pretty home.

Games were played on the lawn after which an ice course carrying out a pink and white color idea was served to the guests by the hostess, who was assisted by Mrs. O. Randolph and Miss Nona Carr.

Billy was the recipient of many useful gifts.

Mrs. Casstevens then took the party to Keller's swimming pool where they enjoyed a swim.

Those enjoying the [illegible] Fred Wolcott, Morene Lambeth, Adrial Moore, Travis Ferguson, Joe Tom Ely, Ella Ree Ely, Frances Northcutt, Bob Hamilton, Louise Ely, Florentz Winston, William Miller, Mary Beth Abercrombie, Brooxie and Merle Carr.

METHODIST W. M. S. MEETS

The Women's Missionary Society of the First Methodist Church met Monday afternoon at the church. Mrs. Homer Snyder conducted the lesson on the Bible, and several song selections were enjoyed. Thirty-nine were present at this meeting.

GALA AFFAIR HELD IN MONROE HOME FRIDAY

Mrs. Joe Monroe and her daughter, Mrs. Hugh Taylor, entertained two different groups of friends Friday at the home of Mrs. Monroe.

The entertaining rooms were beautifully decorated with shasta daisies and other summer blossoms. Nine tables were prettily appointed for the play of forty-two. At noon a lovely two-course luncheon was served.

Forty-two games held interest Friday afternoon when the same hostesses again entertained.

At tea time a two-course refreshment plate was passed to forty guests.

BRIDGE PARTY

Miss Leona Sample entertained Saturday afternoon with a bridge party at the home of her parents, Mr. and Mrs. Glenn Sample.

After the interesting bridge play, refreshments of sandwiches, punch, potato chips and Olives were passed to Misses Margaret Deakins, Jeanette Lollar, Roberta Raybon, Evelyn Raybon, Charline Ely and Mary Janet Smith.

W. M. U. MEETS

The ladies of the First Baptist Church met July 15 in the home of Mrs. W. M. Scott 8 miles south of town. The missionary program on prayer was led by Mrs. W. A. Morton. A very interesting program was rendered.

Refreshments were served to 48 members and guests, Mrs. Martin, Mrs. Norris, Mrs. Barton, Miss Allen, Miss Smith and Rev. W. F. Ferguson.

SENIOR B. Y. P. U. ENTERTAINS

The Senior Baptist Young People's Union entertained the Spizzerinctum B. Y. P. U. with a party Monday evening at the home of Mrs. Dora Cunningham. Various games and contests were enjoyed during the evening. Refreshments of ice cream and cake were served to about forty guests.

MERRITT FAMILY HOLDS REUNION

Members of the family, relatives and friends gathered at the country home of Mr. and Mrs. W. W. Merritt Sunday where everybody enjoyed himself to the limit. A dinner fit for a king, including turkey, chickens, various meats and all the trimmings, was served to twenty-two people who declared they had one of the best times of their life.

Children and grand-children of Mr. and Mrs. Merritt included Mr. and Mrs. J. W. Merritt and two children; Mr. and Mrs. W. J. Powell, children, Arah; Miss Geraldine Wooliver Miss Ruth Powell, Austin; Mr. and Mrs. Joe A. Merritt and daughter; Mr. and Mrs. J. W. Woody, Snyder.

Friends told us that the daddy of the reunion, W. W. Merritt, tucked away so much turkey under his belt that he's been spitting feathers ever since. Is that right, W. W.?

CHILDREN GIVE "PA AND MA" BAZE CHICKEN DINNER

The children of Mr. and Mrs. W. T. Baze gave a surprise chicken fry Sunday evening at the City Hall lawn in honor of the parents' birthdays, and it surely was a fine time, and "Pa and Ma" just had the time of their lives.

Those enjoying the tempting morsels that had been prepared were: Mr. and Mrs. John R. Baze and daughters, Jerry and Lavada, Colorado; B. L. Baze and family, J. I. Baze and family, Mrs. H. E. Baze, Mrs. Julia Maples, Hamlin; Dudley Anz and family, Roy Allen Baze, and John Johnston and family.

The Times-Signal while just a bit late, wants to join in the finest birthday greetings possible to Mr. and Mrs. Baze, old and honored residents of Snyder and Scurry County.

MRS. BRICE ENTERTAINS

Mrs. H. J. Brice complimented her house guests, Misses LaVera Smith and Frances Denson of Mineral Wells and Mary Frances Coppedge of Dallas with a swimming party Tuesday evening.

After a swim in the country club pool the guests returned to the home of Mrs. Brice where they were served cantaloupes and watermelons. Miss Jeanette Lollar invited the party to the Palace Theatre where they enjoyed the talking picture, "Madonna of Avenue A."

Those present on these delightful occasions were Misses Roberta and Charline Ely, Hilda Jean Williamson, Katherine and Frances Northcutt, Jeanette Lollar, Mary Ellen Martin, Maurine Stimson, Mrs. Guy Stoker, Mrs. H. J. Brice and son, Wiley, and the honorees.

POST ENCAMPMENT PROGRAM HAS MANY PROMINENT SPEAKERS

Commencing July 22 and continuing through July 28, there will be held at the Post Encampment grounds the annual Baptist Encampment for this section of the state. Much time and labor has been given to have a program that will be one of the finest ever enjoyed. It is anticipated that there will be a very large attendance.

Dr. W. R. White, Lubbock, is president of the encampment; Rev. M. C. Bishop, Post, corresponding secretary, and Rev. Ross A. Smith, Breckenridge, chairman of the program committee.

Following is the program for the entire meeting:

Monday Evening, July 22
8:00—Song service, Leader, J. D. Carroll, Lubbock.
8:30—Address, Dr. J. D. Sandefer, Abilene.

Tuesday Morning, July 23
8:00—Class period.
10:15—Church hour.
11:15—Bible Lecture, Dr. M. E. Davis, Brownwood.

Tuesday Evening, July 23
8:00 Devotional, Rev. Joe Wilson, O'Donnell.
8:30—Sermon, Dr. Elmer Ridgeway, San Angelo.

Wednesday Morning, July 24
8:00—Class period.
10:15—Church hour.
11:15—Bible Lecture, Dr. M. E. Davis, Brownwood.

Wednesday Evening, July 24
8:00—Devotional, Rev. W. K. Horn, Post.
8:30—Sermon, Dr. Elmer Ridgeway.

Thursday Morning, July 25
8:00—Class period.
10:15—Church hour.
11:15—Bible lecture, Dr. Davis.

Thursday Evening, July 25
8:00—Devotional, Rev. B. G. Holloway, Slaton.
8:30—Sermon, Dr. Ridgeway.

Friday Morning, July 26
8:00—Class period.
10:15—Address, Rev. Pat Horton, Plainview.
11:15—Bible lecture, Dr. Davis.

Friday Evening, July 26
8:00—Devotional, Rev. W. F. Ferguson, Snyder.
8:30—Sermon, Dr. Ridgeway.

Saturday Morning, July 27
8:00—Class Period.
10:15—Address, Rev. Pat Horton.
11:15—Bible lecture, Dr. Davis.

Saturday Evening, July 27
8:00—Devotional, Rev. B. N. Shepherd, Tahoka.
8:30—Address, Prof. M. H. Duncan, Lubbock.

Sunday Morning, July 28
10:00—Sunday School.
11:00 Sermon, Dr. T. L. Holcomb.

Sunday Afternoon and Evening
3:00—Address, Dr. W. R. White.
8:00—Song service, J. D. Carroll.
8:30—Sermon, Dr. T. L. Holcomb.

EPWORTH LEAGUE PROGRAM

Vocal solo, Mrs. D. P. Yoder.
"What is Worth While For Me to Read?" Grace Holcomb.
Song, "Jesus, Savior, Pilot Me."
League Benediction.

CHARLES KING and CHORUS in "THE BROADWAY MELODY"

PRUNING WATERMELONS

Had he pruned all his watermelons twice, W. G. Brooks, Falfurrias farmer, would have made $14 more per acre from his crop this year, he thinks. He pruned the vines once, and the county agent, H. C. Atchison, Jr., pruned two rows the second time, cutting off all melons with rotten ends and bottle-necks. It took him 30 minutes to cut off 110 worthless melons from the two rows, each a quarter of a mile long. These rows made 1922 pounds of melons each, while adjacent rows, pruned but once, yielded only 1199 pounds. The melons sold for about one cent per pound.

One cup of rice will absorb 3 or 4 cups of milk when cooked in the double boiler and is of course much richer in food value than when boiled in water.

COMMUNITY PROJECTS

WISE MANAGEMENT AND ENERGY BROUGHT SUCCESS

Happy Valley Parent-Teacher Association, working in a rural community seven miles from Nampa, Idaho, with an active membership of twenty-five, has rendered the following service to the community:

Installed playground equipment at the school grounds at a cost of $250.00. Purchased a fire escape, and had it attached to school building at a cost of $250.00. Bought a large school bell which can be heard all over the valley, at a cost of $56.00.

Had a cement sidewalk laid at a cost of $45.00; also had school grounds sanded.

Purchased pictures of a high grade and hung them in the four school rooms, price $75.00. Sponsored three health clinics for children of pre-school and school ages.

Sent cut flowers and flowering plants to the sick and bereaved of the community. Sponsored the organization of the Camp Fire Girls and helped finance it.

Gave Christmas treats to the school children every year.

Assisted the school boys in buying football and baseball equipment.

Purchased a piano for school at cost of $125.00.

Kalsomined school rooms at cost of $40.00; bought lamps for $30.00.

This money was raised by hard work on the part of different presidents and members of the Parent-Teacher Association. The means included three auction sales, several plays, ice cream socials, a box supper, chicken showers, parties, cooked food sales, piecing and selling quilts and cleaning school house for which our members were paid $25.00.

MRS. H. N. GOBLE,
Rt. 5, Nampa, Idaho.

Two Crocks Secured

Colored citizens of the "Black Belt" state that only one home was searched by the law last week where two crocks were secured, said to have been filled with "home brew" and which Sheriff Brownfield and his deputies confiscated.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs,—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstores. (Adv).

EX-SERVICE MEN, WAKE UP!

The Times-Signal has been endeavoring to the best of its ability to get the ex-service men of Scurry County lined up to organize a live-wire American Legion post here and bring back the charter they once had. So many benefits can be secured for ex-service men that it's high time that our local boys are getting the lead from their heels and get going.

Ross R. Cole of Austin, Department Adjutant, The American Legion, has sent us the following letter:

Austin, Texas,
July 16, 1929.

Editor Times-Signal,
Snyder, Texas.
Dear Sir:

I have received thru our clipping bureau an article in your paper under date of June 27th headed "Snyder Should Have an American Legion Post." I want to thank whoever is responsible for the article and the paper for publishing it.

The American Legion of Texas and the Nation is now on a firm foundation. We are really accomplishing things for the good of the individual communities as well as for the veterans. Every single bit of legislation on the statute books today for the benefit of disabled men has been placed there thru veterans of the American Legion. There is yet much to be done. The American Legion of Texas needs the help of the veterans of Snyder, and I am sure these veterans need the American Legion. The City of Snyder needs the American Legion. This great non-political, non-sectarian organization of World War veterans provides the only place where men from all walks of life and with every political and religious faith can meet on common ground. The facilities of department headquarters of the American Legion of Texas are at the disposal of the veterans of Snyder. I would be glad to furnish all necessary information required with which to organize a post in your community. Any further help you can give in your columns along these lines will be greatly appreciated.

Yours very truly,
ROSS R. COLE.

Ed. Note—Who will be the first ex-service man in Scurry County to call a meeting? The Times-Signal will gladly and willingly broadcast the information to all parts of the county if a meeting date is set.

SHARES IN SCURRY COUNTY'S BIG PUBLIC MARKET—2c A WORD

The great old game of "swap" between friendly neighbors finds plenty of help in the want-ad columns of the Times-Signal. Only one want-ad in five runs more than two issues—there's nothing for them to do after their purpose is accomplished.

During this week want-ads "found" a suit case, "sold" a house, "rented" others, and performed dozens of other pleasant duties.

Advertising is the cheapest good servant in the world.

Have you bought your column-inches today?

KNOW POISON IVY?

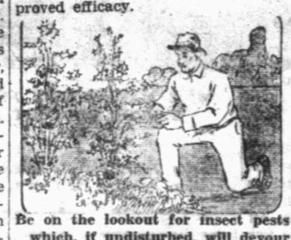

Many people are introduced to poison ivy or its relative, poison sumac, in a most unpleasant way, because they don't know how to avoid "acquaintanceship" with these poisonous plants. Poison ivy is most readily recognized by its leaves, which are always divided into three leaflets, and by its whitish, waxy fruits (though the plants don't always have fruits) that resemble mistletoe berries. "Leaflets three,

THE BUGS WILL GET YOU IF YOU DON'T WATCH OUT

A sprayer to convert liquid into a mist is a necessary garden adjunct.

While June brings the great floral pageant in the garden with peonies, irises roses and delphiniums, it is the month in which the insect pests bring their families into the world to devour everything in sight in myriads. Every day must be one of watchfulness to kill them before they get a start. The insecticide business has now reached such a point that there are preparations ready to slay any sort of pest. Ask the seedsman to recommend one for your particular pest. They are all tested scientifically and are of proved efficacy.

Be on the lookout for insect pests which, if undisturbed, will devour everything in sight.

There are two main classes of pests, the chewing and the sucking insects. The former are represented by the races of slugs, and worms so called, really caterpillars or larvae of either beetles or moths or butterflies. Cabbage and currant worms are the most familiar and prevalent examples.

Plant lice make up the great family of sucking insects. In addition there are most troublesome pests known as mites. Red spiders are the commonest and the deadly larkspur "blacks," a pest which has driven these magnificent perennials out of many gardens is due, it is now known to be a mite. There are special remedies for mites and for the larkspur blight mite in particular. Ask for these.

A powder gun, with the proper insecticide, will get the worms and caterpillars.

In addition to the insect pests there are the mildews and molds. Bordeaux mixture is the standard remedy for these. Tobacco is the standard principle to destroy plant lice and arsenical compounds for the chewers. The seedsman can recommend you an efficacious compound. There are general mixtures which combine cures for both insect and mildew pests.

Most of these poisons are applied in the form of a spray. A sprayer to convert the liquid poison into a fine mist must be added to the list of garden tools and a powder gun for insecticides that are applied as a dust. The sprayer should be one of the easiest operations on the market. They are better than the small hand sprayers which are exhausting if any amount of territory is to be covered. For larger gardens a bucket spray pump is the most convenient or a compressed air sprayer.

A "NOBLE EXPERIMENT" FOR AGRICULTURE

The following contributed by E. J. Anderson:

Perhaps the noblest as well as the greatest experiment ever made in the world's history for agriculture is the passage of the bill by Congress in accordance with the promise made by Mr. Hoover during the presidential campaign. Despite a good deal of opposition President Hoover has won out and now has the opportunity to carry out his plans backed to the extent, if needed, of $500,000,000. During his campaign he expressed the thought that an investment of several hundred million dollars by the Federal Government would be a very small amount for this country to spend if by doing so it could put the agricultural interests of the United States on a profitable and safe basis. With that position the Manufacturers Record fully agreed then and it rejoices in the passage of this bill by Congress.

This farm organization must of necessity become one of the most powerful financial organizations in the world. Upon the members of the board will rest a responsibility as great as that upon the members of the Federal Reserve Board. Their power for good will be almost without limit and their power for evil, if mistakes should be made, will be equally as great. It will devolve upon President Hoover to select men equal to this tremendous opportunity and responsibility.

Now that this agricultural bill is out of the way, Congress should concentrate on the passage of the tariff bill and enlarge the protection given to agriculture by including cotton, jute, oils and the seeds from which oils are produced for whatever purpose intended, whether for foodstuffs, for paints, varnish or soap making. Until Congress has included all of these agricultural products in a protective tariff bill it will have failed in its duty to the farmers, and then it should give full measure of protection to the mineral interests, to the so-called raw materials and to manufacturers alike. Then and not until then can the full benefit of the agricultural act be realized.

Viola Caruso, 13, of Attleboro, Mass., has had a book accepted by a well-known firm of publishers, who acclaim her as a girl of wonderful writing talent.

About 1,400 miles of railway line is to be electrified in Spain.

Bananas are banned in Italy because they do not grow in that country or in any of its colonies.

In Burma people born on the same day of the week are not allowed to marry.

Nearly 1,300 factories have been established in Mexico during the last few years. The new plants employ more than 50,000 workers.

It is a mistake to try to save ice by wrapping it in papers or cloth. You want to save food, which is done by lowering the refrigerator temperature through the warm air coming into contact with the ice. This naturally melts the ice, but at the same time accomplishes the purpose of refrigeration.

The parents' job in training a child in good food habits is only half done when well begun. New problems may develop at any time. Playmates who are allowed to pick and choose what they will eat at home may have a detrimental influence. There are times when the best of children have finicky appetites. The mother must try to have all food attractive in appearance, odor and flavor, to tempt the appetite, and use judgment in handling the child at the table. Quietly expecting the food that is set before him to be eaten goes a long way toward accomplishing that end.

Marian Farmer of Zion, Ill., was denied her school diploma because she bobbed her hair on the eve of her graduation. The rules of the Zion community forbid bobbed hair.

Mexico is good only during these months having the letter "z" in them.

French toast is not only a good way to use up stale bread, but a very appetizing addition to breakfast, lunch, or supper. It can be used in place of potatoes, rice, or other starchy food for dinner, or as a main dish with syrup for lunch. Allow ½ to ¾ cup of milk to two eggs and salt lightly. Beat the mixture, dip the slices of bread into it, and fry in butter or well-seasoned fat in a heavy smith skillet. Use moderate heat and let the toast become golden brown before turning.

Capt. Ed Kennedy and his surveying party arrived here today for further promotion of the east and west line. My, how time does fly! That was a year ago, and where in the 'ell is the road now?)

Company "G" 142nd Infantry, Texas National Guard, are enjoying themselves at Camp Palacios. Staff Correspondent Otis Carter had a lengthy story of the activities of the camp in this issue, together with the names of all the members.

United States government authorities show that under favorable conditions with a beginning of one male and one female fly, they may increase in one season to over 50,500,000,000 flies. This shows the need of FLY-TOX. FLY-TOX is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Research Fellowship. Simple instructions on each bottle (blue label) for killing ALL household insects. INSIST on FLY-TOX with the perfume-like fragrance. It is safe, stainless, sure.—Adv. 5

Paramount News and Comedy

Two-Dollar Dinner for Six

Pear Cocktail—37¢
Mashed Potatoes—10¢ Liver with Fried Onions and Spinach—73¢
Parsley Peas and Carrots—19¢ Hot Buttered Rolls—25¢
Mocha Spanish Cream—27¢ Black Coffee—5¢
Total—$1.96 Incidentals—4¢

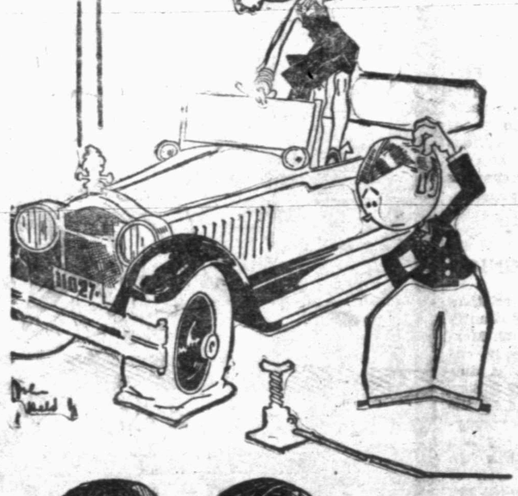

SIX people can dine charmingly with an outlay of less than two dollars when the money is judiciously spent. Here is the way it can be done:

For pear cocktail: cube and divide into six cocktail glasses the canned pears from a number 2 can and pour the pear syrup over them. Add one tablespoon grenadine syrup to each glass and chill well. The pears cost 25 cents and the grenadine 12 cents.

To prepare the liver, wash a pound and a half (42 cents), cover with boiling water and parboil gently for fifteen minutes. Drain, remove membranes and skin and cut into serving portions. Slice a pound of onions (10 cents) and fry in four tablespoons drippings; remove onions and keep in a hot place. Brown the liver in the pan, reduce heat and cook until tender. Season well and remove to a hot platter, piling onions on top. Heat contents of a number 2½ can of spinach (17 cents) in the pan and arrange as a border around the liver. Make a gravy of two tablespoons flour, one cup milk and drippings in the pan.

Heat a number 2 can of peas and carrots (15 cents), drain and add two tablespoons butter and one-fourth bunch minced parsley. Season and toss together.

For the dessert: Scald together in a double boiler, one and one-third cups evaporated milk, seven-eighths cup strong coffee, and three-fourths square chocolate until the chocolate melts. Beat two egg yolks slightly, add one-half cup sugar and add to above mixture stirring constantly until thickened. Add one and one-half tablespoons gelatine softened in three tablespoons cold water and stir until dissolved. Cool. When about to stiffen fold in two stiffly-beaten egg whites and chill. In this, the milk costs 8 cents, the gelatine 4, and the eggs 9 cents, and the others 6 cents.

You'll drive faster

This Summer: Better roads invite speed

So—

pay more attention to your tires!

New Goodyears Cost Little

Don't take chances on hot roads with old tires, even if they "look" good. You've had narrow squeaks before!

Building nearly twice as many tires as any other company, Goodyear is giving Greater Values than ever. Dollar for dollar, "The World's Greatest Tires."

Besides giving you low prices, we save you money by putting on the right type tire for your needs. And our watchful all-year service helps you get all the miles you buy.
