THE JUNCTION EAGLE

Volume 45 | Junction, Kimble County, Texas, Thursday, November 1, 1928 | Number 29

NEW YORK AUTO EDITOR SEES AND HEARS ABOUT "OLD SPANISH TRAIL"

Junction was honored this week by a visit from Mr. and Mrs. Duncan Curry of New York and Mr. Wm. H. Furlong of San Antonio. Mr. Curry is the Automobile editor of the New York American and has been for thirty-two years. He is recognized in New York as the dean of automobile editors on account of his long and continuous service in this line of editorial work with one paper. He is a friend of Mr. Furlong.

Mr. Furlong is the manager of the highway department of the San Antonio Chamber of Commerce and at this time is interested in directing travel to and from California over the Old Spanish Trail. It seems that some automobile clubs in the North and East are not giving the Old Spanish Trail a "square deal," and Mr. Furlong as manager of the highway department of San Antonio is making a log of the road to present the facts in the true light to the people of the North and East. He is planning now to go to New Orleans, Mobile, Atlanta and to Washington. People of the North and East are hunting warm weather when they come South, and it is the purpose of Mr. Furlong to help them find warm weather soon after leaving the North and remain in it as long as possible. The Old Spanish Trail will do this and every town on the entire route should join hands and pocketbooks with San Antonio in putting this highway in first class condition.

It is to be inferred from the talks in the meeting this morning in Judge Weaver H. Baker's office that there are some sections of the road west of Junction that are not as good as they might be. These counties should take steps at once to put the roads in condition for all-weather travel. Mr. Furlong stated that it is possible to travel from here to Houston on paved or gravel road. It is the purpose of those interested to work to get a hard surfaced road from Houston to El Paso. At present tourists are being routed from El Paso through Fort Worth and Dallas. The Old Spanish Trail is a much better winter route than the Bankhead Highway. It is more comfortable in the winter and much more beautiful in the summer.

The Hill Country is as attractive and inviting in one season of the year as another on account of the mild winters and pleasant summers. People coming to San Antonio make their excursions out into the Hill Country, and each year finds more of them coming into this immediate section. Our people are interested in making the Old Spanish Trail better, and are willing to join with people from New Orleans to El Paso in making it the best highway through these two states. From Junction west needs more attention than east, and it is hoped that our neighbors to the west of us will realize the benefits to be derived from good roads and vote bonds at an early date to fill in any sections of the road that are not all-weather roads. People interested in the Old Spanish Trail will have to do as those interested in the Bankhead Highway have done. It is reported that a man is stationed at El Paso to direct travel from El Paso over that highway. When sections of the Old Spanish Trail are improved it will be easy to direct tourists this way any kind of weather.

Ralph Anderson, sporting editor of the Houston Press, Frank Snyder, manager of the Houston baseball team and Mr. Mitchell of Houston are spending a few days at the Fritz Hotel and trying their luck at catching some Llano River bass. They reported good luck the first day.

City Council Closes Contract With O'Neil

At a meeting of the City Council last Friday, a contract was entered into with the Municipal Engineering Company of Dallas for the installation of the waterworks system of Junction. Mr. Perry Oneil was here with the papers for the signature of the officers of the council and unless there is some delay on the part of the various ones who must pass on these papers, it will not be long until actual construction begins. Mr. Oneil thinks that workmen will be on the ground within thirty days.

The council has been working faithfully for several months, but on account of scarcity of money in bond circles, it has been hard to place them on the basis the council desired. It is believed now that the matter has been profitably closed and before many months Junction will have a modern water system.

J. B. Stevenson Made Chairman Red Cross

Mr. S. Arthur Shaw, Field Director of the Red Cross at Fort Sam Houston, states that Mr. J. B. Stevenson of Junction has been appointed chairman of the twelfth annual roll call for Kimble County. It is truly an American institution and the achievements of this organization need not be enumerated here. Suffice it to say that more than seven hundred thousand people have been aided during the year at an approximtae cost of $20,000,000.

Mr. Stevenson urges every citizen of Kimble County to become a member of this organization. Mr. Shaw plans to be here on November 13th to assist the drive in Kimble County. The membership fee is only one dollar, and half of that remains in the county for such relief work as may call for attention. One hundred memberships is the goal for Kimble County. Mr. Stevenson desires that all the good people co-operate with him in putting the Red Cross over the top in Kimble County.

West Texas Utilities Shut Down 15 Hours

"What's the matter with the lights" was the question on many lips in Junction when the lights suddenly went out about eight o'clock Monday night. This is the first noticeable interruption in the service here during the two years the West Texas Utilities has been serving Junction, and the company was no more responsible than any patron. Mr. W. B. May, local manager of the company, was soon busy looking for the trouble. After it was learned that the trouble was between Junction and Menard, Mr. May and nine other men from Mason, Menard and Ballinger began looking for the trouble. After spending all night and more than half of Tuesday, it was learned that someone in trying out a high powered rifle had shot two insulators from a post about twelve miles from Junction. The jacketed bullet was found telling the cause of all the trouble, necessitating ten men spending all night and more than half the next day in the rain and cold that the citizens of Junction might have current with the least possible delay.

The fact that two insulators were shot from the same post leads representatives of the company to believe that it was not accidental. The two shots cost the West Texas Utilities more than three hundred dollars, necessitated ten men exposing themselves in the cold and rain more than fifteen hours, and deprived the people of Junction of the same number of hours service. The untiring efforts of the West Texas Utilities to give us service in the face of such difficulties are appreciated. We shall not forget our faithful "Bill" May who rode horseback all night from post to post over the rough country trying to locate the trouble.

PARENT-TEACHERS END MEMBERSHIP CONTEST WITH "SPOOKY" PARTY

Spooks held carnival Friday evening with the local Parent-Teacher Association. In a recent membership drive, the association was divided into two teams, captained by Mrs. George Pepper and Miss Austin Durst, the losing side pledged to entertain the winners. Miss Durst and her co-workers were victorious and Friday evening Mrs. Pepper and her band paid the forfeit with a Halloween Spook Carnival.

The guests gathered at the home of Mrs. Alex Wahl and were met by an eerie band of witches, devils, ghosts and goblins. Miss Durst was blindfolded, arrayed in a white shroud, crowned Queen of Spirits and throned in a "Golden Chariot." which was a decrepit and ancient buggy. Albert Bierschwale, who had secured the largest number of new members for his team, was then blindfolded, covered with a goat skin, crowned with goat horns and hitched into the shafts of the chariot. Guided by Mrs. W. P. Riley, president of the Parent-Teacher Association, the "golden chariot" moved out, drawn by the blindfolded "goat," to the music of cowbells and tin horns and accompanied by a ghostly throng, and paraded the street, finally arriving at an old and vacant house.

The setting was perfect for a spook party—dust and desertion, battered roof and creaking boards, broken windows and pale moonlight through cobwebs. Shrouded lanterns gave the only light. Jack O'Lanterns, skeletons, witches and black cats mingled with the autumn grains and leaves into a fitting decoration.

The guests were seated on the floor and ghost stories told, halloween games played and the members of a dissected body were passed around. Miss Durst won the "creamed potato race," and was also the victor after "Candy on the string." In the contest of pinning the tail on the black cat, Mrs. Conde Hardeman was winner and was awarded a live black cat cravated with Halloween orange ribbon. In the Owl and Cat pecan hunt, H. B. Cowles led the Hoot Owls to victory against Mrs. John Martin's Yowling Cats. Biting apples suspended on strings afforded both entertainment and exercise.

Pumpkin pie and hot chocolate brought the very successful evening to a close.

Halloween Ghosts Come to Junction

A large company of goblins, spooks and Halloween spirits arrived in Junctoin just a little after scheduled time. The rain delayed them only a short while. From the antics played there was evidently a large company, as it would take considerable lifting to place a concrete mixer on top of the awning. Many objects were moved from their regular places to conspicious vantage points on the main street.

Philip Joseph is giving away a new Chevrolet car and each Saturday has it on the sidewalk in front of his store, and last night one of the most dilapidated cars in town was placed in the position the new car occupies on Saturday with the proper signs. Out houses and other obstructions were placed in the streets, signs were exchanged and other stunts pulled. We have learned of no malicious mischief that was done. Our young people have learned that it does not pay to pull stunts that destroy property and damage people.

Mr. and Mrs. Chris Schraub left Monday for Seguin in response to a message stating that Mr. Schraub's mother was seriously ill and not expected to live.

JUNCTION TRIMS BOYS FROM ROCKSPRINGS TO THE TUNE OF 25 TO 6

A thirty yard pass from Richardson to Dunbar for a touchdown, a 40-yard return of a punt by King and a few other plays of like character by the Junction Eagles on the local gridiron Saturday afternoon made it easy to win from the Rocksprings High School team by the score of 25 to 6. The Rocksprings boys were a plucky bunch and played a good game, making more first downs than the local boys, but they were not able to make the gains when they would count. The Eagles were always able to hold them when their goal became endangered.

The visitors played a brilliant passing game, completing seven out of thirteen attempts. The Eagles had no trouble winning and did not resort to the air very much. However, they were not successful in their passing as they completed only one out of seven attempts. Two of Rocksprings passes were intercepted.

Soon after the first whistle was blown it was evident that the Eagles were in no danger. However, the visitors fought valiantly and kept the Junction boys on the alert. No scores were made in the first and third quarters. The Eagles made three touchdowns in the second quarter and one in the fourth. Rocksprings made one in the fourth. On account of the warm afternoon the game was a little slow and considerable time was called.

The pep squad did its part in winning the game. It is too bad that only a few of the girls will take part in this important phase of athletics. When Menard comes this week let the pep squad have about one hundred recruits, and we will show Menard that Junction has a pep squad as well as a football team.

There were several substitutions in both line-ups Saturday, but the following started the game:

Junction	Position	Rocks'gs
Lavelle	LE	Winans
Duderstadt	LT	Grooms
Allsup	LG	Sherrell
Ragland	C	Lacey
Braley	RG	Balentine
Beasley	RT	N. Smart
Dunbar	RE	Browning
King	Q	Osborne
Hubbell	RH	I. Smart
Johnson	LH	Lomax
Richardson	F	C. Smart

Officials: Referee—Blackburn; Umpire—Deckert; Head lineman—Beasley.

Score—Junction 25; Rocksprings 6.

MRS. JULIA STEPHEN

After an illness dating back three months when she suffered a stroke of paralysis, Mrs. Julia Oliver Stephen died October 26, and the funeral services were held at the home of her daughter, Mrs. J. L. Massie, Saturday, the Rev. G. W. Crabb conducting the services. The body was buried in Junction Cemetery.

Mrs. Stephen was born in Georgia January 25, 1945, and with her family she moved to Texas when two years of age. The family first settled in Caldwell County. In 1869 she was married to Jasper Stephen, and to this union ten children were born—one of them preceding his mother. She was converted when young and united with the Baptist Church. She came to Kimble County in 1895.

Elsewhere in this issue is a tribute to Mrs. Stephen by her friend, Mrs. Frank Wilson.

The W. M. S. of the First Baptist Church will give a musicale for benefit of church building fund. The best of home talent has been selected for this entertainment in the way of readings, duets, quartets, instrumental and solos. A strictly first class entertainment. Watch for date of musicale next week.

Dr. Godbold Makes Political Address

Dr. Edgar Godbold addressed a fair sized crowd in the district court room here Saturday night in the interest of Herbert Hoover for president. He stated in the beginning of his address that he had not come to abuse anyone, but to set forth the issues in the present presidential contest without giving offense. He is a good speaker, and from the applause given him, those present were evidently in sympathy with his message.

Mr. M. Awbrey was chairman of the meeting. He introduced Elder J. S. Newman who introduced Dr. Godbold, chairman of this district. Dr. Godbold has spoken in every section of his district, and feels hopeful of a victory for Mr. Hoover on November 6.

Barbara Denman Dies After Brief Illness

After a very brief illness, little Barbara Caroline Denman, daughter of Mr. and Mrs. H. O. Denman, died at the home of her parents Monday evening, and the body was buried Tuesday afternoon in Junction Cemetery. On account of the absence of the Methodist pastor, the Rev. Milton F. Hill, the funeral services were conducted by the Rev. G. W. Crabb, pastor of the Baptist Church in the Methodist Church building. The weather was inclement, but a large crowd of sorrowing friends, bringing beautiful floral offerings, was present at the funeral.

Little Barbara was born December 18, 1924, and died October 29, 1928, being a little less than four years old. She was not permitted to remain on this earth long, but in these short years she had formed her circle of little friends, and the tendrils of her love had entwined themselves deeply into the hearts of her parents and other loved ones, who will find the wound hard to heal. It is hard for us to understand why these beautiful buds are plucked so early. Friends and loved ones extend sympathy to the heart broken parents in this sad hour.

Weaver H. Baker on Highway Committee

In response to a call from State Senator Walter C. Woodward, Hon. Coke Stevenson attended a meeting in Coleman last Friday of representatives from this district to select a committeeman to serve on the advisory committee of thirty-one recommended by Governor Dan Moody. The Governor expects this committee of one man from each senatorial district in Texas to prepare and have ready to present to the legislature, when it meets in January, suitable and appropriate recommendations for highway legislation. Ever since we have had a highway commission, it seems that it has been difficult to pass the needed legislation to safeguard highway construction.

While there were several candidates for the place from this district, it seems that a majority of the representatives felt that a well qualified man should be selected and proceeded along that line. Judge Weaver H. Baker's name was submitted and he was elected by the representatives present believing that he is well qualified by training and experience for the important duties of the committee. His experience and training in constructing and financing road work coupled with the fact that he is an attorney amply fits him for the responsibility placed upon him.

Mr. and Mrs. J. F. Horton of Eden were Junction visitors Sunday. Mr. Horton is owner and editor of the Eden Echo.

Messrs. W. C. Coleman, commercial agent of the West Texas Utilities Company, and Alton Burleson, chief clerk of the Mason district, were Junction visitors Monday.

ALZAFAR TEMPLE HOST TO LOCAL NOBLES AND LADIES OCTOBER 27TH

On account of tire trouble, Potentate John T. Lomax and party of Alzafar Temple, San Antonio, arrived a little late last Saturday, but it made both local and visiting nobles and their ladies enjoy the turkey luncheon prepared by the Fritz Hotel. Deputy Potentate John M. Hankins was master of ceremonies. He called upon Noble Coke Stevenson to welcome the visiting nobles and ladies. He did this in his happy and easy manner. Potentate John T. Lomax responded and then called for Recorder P. D. Mathis, whom he designated as the speaker for the party to make the address. Judge Weaver H. Baker and Mrs. John T. Lomax made brief talks. It was a great occasion for Shriners and their ladies in Kimble County.

The visitors went to Sonora where a dinner was served to the Nobles and ladies of Sutton County Saturday evening, followed by a dance. Sunday was spent in Del Rio and across the Rio Grande. One other stop was made Monday before returning to San Antonio. The purpose of the visit is to bring the temple and out of town Nobles closer together.

Visitors present:

Potentate and Mrs. John T. Lomax, Recorder and Mrs. P. D. Mathis, Noble and Mrs. Ed C. Ekstrom, Noble and Mrs. Grover C. Crandall, Noble and Mrs. H. M. Simpson, Noble and Mrs. W. D. Turbeville, Noble and Mrs. W. W. Ellison, Billy Saunders Mathis, Willie Dean Turbeville.

Local nobles and ladies present:

Deputy Potentate John M. Hankins, Noble and Mrs. J. R. O'Bryan, Noble and Mrs. W. P. Riley, Noble and Mrs. Forrest Weldon, Noble and Mrs. Weaver H. Baker, Noble and Mrs. L. E. Standifer, Noble and Mrs. B. B. Ragland, Nobles M. Awbrey, Coke Stevenson, W. C. Oliver, Edgar McLendon, Arthur L. Mudge, Misses Blix Hankins, Tottie Martin, Coke Stevenson, Jr., Noble and Mrs. S. S. Bundy, Roosevelt; H. Leslie Jones, Fort McKavett; Camilla B. Raggio, Fort McKavett.

MENARD COMING FRIDAY

"They have never defeated the Junction Eagles, and it is too late to let them do it now," is the way the high school boys and football fans are talking about the game between Junction and Menard here Friday afternoon at 3:15 o'clock.

The coach says that the Eagles are in good trim and ready for the Menard team. This is the biggest game on the local ground this season and a large crowd is expected to see the boys defeat Menard.

WEATHER REPORT

On Monday, October 22, a norther blew up and Tuesday morning there was a light frost, but not enough to damage vegetation very much. The remainder of the week was cool and the mornings called for fire. It gradually grew warmer until Monday, October 29, when another norther came bringing cloudy weather with light rains. Today (Wednesday) it is still cool and cloudy with light rain. The fine weather last week gave those who have cotton an opportunity to gather most of it. Pecan gathering has received the attention of many of our people. Wood cutters are in demand but the supply is limited due to pecan gathering.

Everybody is enjoying the beautiful weather this week. However, it is rather cool for those who have no wood. On account of the busy season gathering pecans and other crops, there is not much wood on the market.

SEVENTEEN YEARS AGO

The hunting season is now open and hunters are plentiful throughout the entire region of Kimble clmes. By keeping fresh in our memory important points of our game law we may escape an unnounced and embarrassing call by the game warden. We also suggest that you do not overlook the trespass notices and posted signs.

Rev. Wm. Bierschwale delivered a noble sermon at the James River school house Sunday.

Asa Farmer was in from the ranch Friday.

Bert and A. M. Reese of Red Creek community had business in Junction Tuesday.

Mr. and Mrs. Jas. Ragland returned home Wednesday from Menard where they were called to the bedside of Mrs. Ragland's mother, Mrs. Ellis, who died Monday evening.

J. T. Meredith returned Saturday from Edwards County where he was called by the illness of his daughter, Mrs. Pierce. Mr. Meredith left again yesterday to meet his daughter who is being brought to Junction for treatment.

The Junction Epworth League gave a most delightful Halloween social at the R. M. Stevenson home Friday night.

Another good rain fell here this week. The rain seems to have been pretty general thru all this section of the State, and will do much good.

The new Methodist Church is now complete, and the pastor, the Rev. S. L. Batchelor will preach his first sermon in the new church next Sunday, November 12. The new pews have not yet arrived but are expected soon.

The Rev. B. W. M. Simms of Eden has accepted the call of the Junction Baptist Church and with his family will move here at once; his services as pastor to begin in December 1. The Rev. Simms preached here last Sunday. He is an earnest, devout minister and we extend to him and family a cordial welcome.

Mr. Milam has sold his place on North Llano to James Parker. In the deal Mr. Milam gets a store and postoffice at Noxville.

W. H. Daw, merchant of Telegraph, had business in Junction Friday.

Mr. and Mrs. J. F. Ragsdale were here from Copperas Friday.

Mrs. Boone has in stock a nice line of millinery goods.

Frank Kelley has returned from a business trip to Robertson County.

Mr. and Mrs. Will Bishop were here from Johnson Fork last Thursday.

John L. Jones and family are among those attending the International Fair in San Antonio.

Frank Randolph was in town from the ranch this week.

Charles Bruce of London was in Junction Thursday.

Suits and top coats.
Junction Tailor Shop.

BLACK SNAKE A MOUSER

The ordinary black snake, which in length will measure from 4 to 6 feet, destroys both cutworms and field mice. He will lie coiled in a large oval, and when he sees a man approaching, will run away so fast in a straight line that it is difficult to catch up with him.

Black snakes are cunning when being pursued. Should a bush be in the vicinity, they will turn a right angle through the shrubbery, run a little farther, turn another right angle, and then lie still in hiding.

Should the escaping reptile be discovered, off he goes again, and if able to reach a low tree up he will climb and lie quietly on a branch.

Unlike black snakes, rattlesnakes have a slow movement, except when about to strike. If placed on the ground in an open space, the rattlesnake will endeavor to get away, but can be easily stopped.

However, if he is coiled, he will strike so swiftly that it is almost impossible to dodge him. Rattlers, however, prefer to run rather than fight. As a rule, they will not provoke a combat, but it is dangerous if one gets between them and their holes in the rocks. Their poison is deadly, and they should be exterminated.

There is no cause of being afraid of black snakes. They are more fearful of man than man is of them. Given a chance they will run away.—Farm and Ranch.

IN MEMORIUM

With sorrow we record the passing of a dearly loved pioneer citizen of Kimble County, Mrs. Julia Oliver Stephen, who was called home October 26th, 1928, at the age of 83 years. For sixty-four of those years she had been a faithful member of the Baptist Church.

The hearts of her many friends go out in tender sympathy to the bereaved family, for Mrs. Stephen leaves eight children, 27 grandchildren and 5 great-grandchildren to mourn her death. Her children are: Mrs. Effie Timberlake of San Saba; Mrs. Carrie Livingston of Arizona; Mrs. Julia Bihl of Fort Stockton; Roy Stephen of California; Sid Stephen of Del Rio; and Mrs. Minnie Massie, Robert, Teale and Cleve Stephen all of this city.

Mrs. Stephen was a big hearted, loyal friend and neighbor. We have no words sweet enough to tell of her kindly ministries, generosity and thoughtfulness for others. It is truly said, "The soul of a mother is the finest handiwork of God." Mrs. Julia Stephen will ever be remembered and her name honored as a great mother. Her eighty-three years stood the test that she fulfilled woman's mission in life in the highest sense of the word—a true home maker; and such a mother is the most wonderful character the earth holds. Her children rise up and call her blessed.—Prov. 31:28.

Love is the ladder by which we climb to the likeness of God and so the fragrance of this dear mother's love lifts our thoughts heavenward, and we are inspired to greater service for others.

"There are three words that sweetly blend
And on the heart are graven
A precious, soothing balm they lend—
They're 'Mother', 'Home" and 'Heaven' "
—Mrs. Frank Wilson.

U. S. CHURCH MEMBERSHIP

The total church membership of the nation, according to figures compiled by the Literary Digest is 54,624,976. The increase over a ten year period was 12,698,122. The different denominations together with the total membership of each are as follows:

Adventist bodies	146,177
Baptists	8,440,922
Breth., Ger. Baps. (Dunkers)	158,248
Christian Church	112,795
Church of Christ, Scientist	202,098
Churches of Christ	433,714
Congregation Churches	881,696
Diciples of Christ	1,377,595
Eastern Orthodox Ch'es	259,394
Evangelical Church	206,080
Evangelist Synod of N. A.	314,518
Friends	110,422
Jewish Congregations	4,087,357
Latter Day Saints	606,561
Lutheran bodies	5,258,623
Methodist	8,070,619
Presbyterian bodies	2,626,284
Protestant Episcopal	1,859,086
Reformed bodies	617,551
Roman Catholic	18,605,003
Unitarian	60,152
United Brethren bodies	395,885
Universalists	54,957

You want your land abstracted; then you had better see E. Holekamp; he has complete index of all County lands. (adv)

THE "WRIGHT" WAY TO HEALTH

OUR COMMON BIRDS

Insects yearly cause a loss of upwards of $700,000,000 to the agricultural interests of the United States.

Were is not for our birds the loss would be very much greater, and indeed it is believed that without the aid of our feathered friends successful agriculture would be impossible.

The crow is mischievous in spring and sorely taxes the farmer's patience and ingenuity to prevent him from pulling up the newly planted corn. Moreover, the crow destroys the eggs and young of useful insectivorous and game birds; but, on the other hand, he eats many insects, especially white grubs and cut-worms, and destroys many meadow mice, so that in much (although not all) of the region he inhabits the crow must be considered to be more useful than harmful.

Most of the hawks and owls even—birds that have received so bad a name that the farmer's boy and the sportsman are ever on the alert to kill them—are very useful because they destroy vast number of rodents.

An unusual abundance of grasshoppers, for instance, in a given locality soon attracts the birds from a wide area, and as a rule their visits cease only when there are no grasshoppers left. So also a marked increase in the number of small rodents in a given neighborhood speedily attracts the attention of hawks and owls, which, by reason of their voracious appetites, soon produce a marked diminution of the swarming foe.

Wolverine work shoes; none better. **Junction Tailor Shop.**

The Modern Girl Answers a Few Questions in the Registration Booth

Clerk: What's your name?
M. G.: Who wants to know?
Clerk: Your address?
M. G.: Try and find out.
Clerk: How old are you?
M. G.: Why bring that up?
Clerk: Occupation?
M. G.: Ask me another!
Clerk: Married or single?
M. G.: Don't be ridic.
Clerk: What country were you born in?
M. G.: Who cares?
Clerk: How long have you been living in this precinct?
M. G.: Be your age, dearie.
Clerk: Have you ever voted before?
M. G.: That slays me.
(It does. X marks spot where her body was found).
—Bill Levine in Life.

SHERIFF'S SALE

THE STATE OF TEXAS,
County of Kimble:

Notice is hereby given that by virtue of a certain alias execution issued out of the Honorable District Court of Kimble County, on the 24th day of October, 1928, by the District Clerk of said Kimble County for sum of Three Thousand fifty-four and 20-100 Dollars and costs of suit, under a judgment in favor of Hugh Spiller in a certain cause in said Court, No. 752 and styled Hugh Spiller vs. O. D. Nance, W. M. Burt, W. R. Richardson and B. T. Joiner, placed in my hands for service, I Dee Gibbs, as Sheriff of Kimble County, Texas, did, on the 25th day of October, 1928, levy on certain Real Estate, situated in Kimble County, Texas, described as follows, to-wit: All of the right, title, interest and estate which O. D. Nance, one of the defendants aforesaid, has in and to the following real estate, to-wit:

1st Tract: 640 acres of land being all of survey No. 1, Cert. No. 0-167, Abst. No. 584, Original Grantee, T. W. N. G. Ry. Co.

5th Tract: 144 acres of land out of and being a part of survey No. 15, Cert. No. 0-112, Abst. No. 589, Original Grantee T. W. N. G. Ry. Co., and levied upon as the property of B. T. Joiner and that on the first Tuesday in December, 1928, the same being the 4th day of said month, at the Court House door of Kimble County, in the town of Junction, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said alias execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said B. T. Joiner.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Junction Eagle, a newspaper published in Kimble County.

Witness my hand, this 25th day of October, 1928.

DEE GIBBS,
29-3c Sheriff of Kimble County, Texas.

SHERIFF'S SALE

THE STATE OF TEXAS,
County of Kimble:

Notice is hereby given that by virtue of a certain alias execution issued out of the Honorable District Court of Kimble County, on the 24th day of October, 1928, by the District Clerk of said Kimble County for the sum of Three Thousand fifty-four 20-100 Dollars and costs of suit, under a judgment, in favor of Hugh Spiller in a certain cause in said Court, No 752 and styled Hugh Spiller vs. O. D. Nance, E. M. Burt, W. R. Richardson and B. T. Joiner, placed in my hands for service, I Dee Gibbs as Sheriff of Kimble County, Texas, did, on the 25th day of October, 1928, levy on certain Real Estate, situated in Kimble County, Texas, described as follows, to-wit: All of the right, title, interest and estate which O. D. Nance, one of the defendants aforesaid, has in and to the following real estate, to-wit:

1st Tract: 640 acres of land being all of survey No. 1, Cert. No. 0-105, T. W. N. G. Ry. Co. in Block No. 4, Abst. No. 582, Patent No. 54, Vol. 29, dated April 8, 1876.

2nd Tract: 209 acres of land being part of Survey No. 2, in Block No. 4, Abst. No. 585, Cert. No. 0-104, T. W. N. G. Ry. Co. Patent No. 53, Vol. 29, dated April 8, 1876.

3rd Tract: 160 acres of land Survey No. 72, Abst. No. 949, Patented to S. J. Palmer by Patent No. 437, Vol. 22, dated January 9, 1890.

4th Tract: 80 acres of land being Survey No. 9, Abst. No. 1170, patented G. C. Earwood by Patent No. 480, Vol. 24, dated May 24, 1892.

5th Tract: 320 acres of land being Survey No. 418, Cert. No. 701, Abst. No. 446, patented to the heirs of Heinrich Rabe by Patent No. 1186, Vol. 13, dated June 11, 1887.

6th Tract: 184.68 acres of land being Survey No. 10, Cert. No. 38, Abst. No. 1149, in the name of Fisher and McClelland patented to N. T. Wilson by Patent No. 58, Vol. 7, dated January 5, 1885.

7th Tract: 260 acres of land being part of the H. McIlvail Survey No. 45, Cert. No. 353, Abst. No. 388, save and except however, from this tract of land 200 acres of this tract of land reserved by Lela Hall Nance and her husband, O. D. Nance, as their homestead, being across the entire North end.

8th Tract: 205 acres of land being Survey No. 417, Cert. No. 699, Abst. No. 480, patented to the heirs of F. C. Stisser by Patent No. 943, Vol. 13, dated February 11, 1855.

9th Tract: 51.4 acres of land being Survey No. 26, Abst. No. 2012, patented to N. J. Hall by Patent No. 421, Vol. 31, dated February 20, 1906.

10th Tract: 320 acres of land being Survey No. 8, Cert. No. 3071, Abst. No. 1600, patented to N. J. Hall by Patent No. 341, Vol. 30, dated October 9, 1905.

11th Tract: 10 acres of land out of and being a part of the H. Rabe Survey No. 419, Cert. No. 701, Abst. No. 445, patented to the heirs of H. Rabe by Patent No. 1185, Vol. 13, dated June 11, 1887, containing in all 2446.08 acres of land and described by metes and bounds in one tract as follows:

Beginning at the S. W. corner of Survey No. 417, Cert. No. 699, Abst. No. 480, in the name of F. C. Stisser; thence E. 782 vrs. to the S. E. corner of same; thence N. 20 W. 3244 vrs. to the N. E. corner of Sur. No. 418 in the name of H. Rabe; thence S. 70 W. 912 vrs; thence N. 60 W. 620 vrs; thence S. 45 W. 725 vrs; thence N. 29 W. 718 vrs. to the N. E. corner of Sur. No. 8 in the name of N. J. Hall; thence W. 1755 vrs. to the N. W. of said Sur. No. 8; thence N. 276 vrs. to the N. E. corner of Sur. No. 3 T. W. N. G. Ry. Co.; thence W. 1760 vrs. to a stone mound in the N. line of said Sur. No. 3; thence S. 49½ E. 911 vrs.; thence S. 54½ E. 183 vrs.; thence S. 51 E. 750 vrs.; thence S. 82 E. 288 vrs; thence S. 2532 vrs. thence E. 2960 vrs. to a stone mound in the E. line of Sur. No. 3 T. W. N. G. Ry. Co.; thence S. 112 vrs. thence E. 1775 vrs. to a stone mound in the E. line of Sur. No. 45 in the name of Harriett McIlvail; thence S. 390 vrs. to the place of beginning and being part of the same land conveyed to Lela Hall Nance by N. J. Hall by deed dated October 9, 1910, now of record in Vol. 14, page 265, Deed Records of Kimble County, Texas, and levied upon as the property of O. D. Nance and that on the first Tuesday in December, 1928, the same being the 4th day of said month, at the Court House door, of Kimble County, in the town of Junction, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said alias execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said O. D. Nance.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Junction Eagle, a newspaper published in Kimble County.

Witness my hand, this 25th day of October, 1928.

DEE GIBBS,
28-3c Sheriff of Kimble County, Texas.

A NEW MEASURE OF VALUE in the World's Finest Low-Priced Six

The Sport Landau Sedan, $875
Body by Fisher

Ever since it first came before the public Pontiac has been recognized as the world's finest low-priced six . . . And now a new measure of value distinguishes the Pontiac. For today's Pontiac Six provides even finer performance and more advanced style—finer performance resulting from a new, more highly perfected carburetor and new manifolding—more advanced style from the use of smaller, sturdier wheels and larger tires . . . Today's Pontiac Six offers you even more for your money than its own famous predecessors. Come in to see it and drive it and you will marvel at all that $745 will buy.

2-Door Sedan, $745; Coupe, $745; Sport Roadster, $745; Phaeton, $775; Cabriolet, $795; 4-Door Sedan, $815; Sport Landau Sedan, $875. All prices at factory. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

School Notes

Pep, perseverance and team work helped the Junction basketball girls to score their second victory Saturday. Sonora played hard until the last, but because of Junction's centers and forwards Sonora scored only nine. When our centers did give them a chance for a goal, our guards were as impossible to get around as a brick wall. The score ended 33-9 in favor of Junction.

Come Friday, November 2, at three o'clock and help us defeat Menard. Admission: 35 and 50 cents. We need your co-operation. You will see a fast, hard-fought game.

The study hall was very quiet last Friday, due to the fact that everyone was busy studying for examinations.

On account of the lack of the usual Wednesday morning entertainment, Mr. Cowles announced to the High School students that he and M. C. Blackburn had decided to engage in an old-fashioned football game. After explaining the nature and rules of the game, and he and M. C. "Chose sides," choosing all the high school boys. The seventh grade boys also took part. The game was played at recess of the same morning and was watched with much interest. The score was 27-6 in favor of Mr. Cowles' team.

Resolved: That all athletic contests, such as basketball, baseball and football should be abolished, and athletic work be restricted to the gymnasium exercises, in which all members of the high school should take part, served as an interesting subject for the debate last Thursday morning. Junior Stevenson and Ella Simon, who were on the affirmative side, had as their opponents Carleton Wright and Marvin Blackburn. The affirmative won.

Marvin Blackburn and Carleton Wright have challenged Junior Stevenson and Leonard Dunbar for a debate on any subject next week.

The Junction Eagles defeated the Rocksprings Bulldogs in the football game last Saturday. The score was 25-6. The Eagles did some splendid playing. We are going to play the Menard team next Friday, and hope that our boys will be victorious, as Menard has never won a game played against us.

The M. O. S. books, ordered by the eleventh grade English class, have arrived. The students of this class consider any investment that might prove helpful to their English course worth while.

Several of the football boys and basketball girls failed on the first six week's work and the teachers of high school are treating them fairly by going to all the trouble of giving examinations to the entire high school at the end of every two weeks, so that if they pass the two week's work they are eligible to play again. Therefore, boys and girls, you see your teachers are helping you all they can and with their help and your determination you can master that "terrible" Spanish, English, History, Geometry, Science, or whatever it may be, if you only have that determination.

Waiter in cafe—"What will you have, please."

Customer—"I want some toast, ham, scrambled eggs, a smile and good advice."

Waiter, with the order—'Anything else, please?"

Customer—"All is here but the advice."

Waiter—"Don't eat the eggs."

CARD OF THANKS

We wish to extend our thanks to each and everyone who assisted and comforted us in the illness of our beloved mother, Mrs. Julia Stephen. May God's richest blessings rest on you.

Sincerely,
The Family.

Election Day Dinner and Bazaar

Sunday is our regular conference day and the entire membership is urged to be present.

CURB FIRE MENACE

There is no greater menace to our national progress and prosperity than fire. Each year in America this destroyer takes ten times the amount it takes in Europe.

It is estimated that the loss by fire in 1926 averaged about $1,500,000 daily, reaching a total for the year of $560,000,000. The rapidity of increase is shown by the fact that ten years before in 1916, the loss was about $258,377,952, less than half of what it is at present.

Perhaps the greatest tragedy of this waste is that it is practically entirely preventable. European countries have demonstrated this with strict building codes, inspections and laws holding the owner of property which has sustained a preventable fire guilty for any damage done to his neighbor's property, as well as his own without allowing him insurance indemnity.

It may be questioned whether European preventative methods would be either practical or acceptable in this country. This, however, is a minor issue. The point is that fire is preventable—anthorities state that as high as 80 per cent of fires are unnecessary—and the prodigal waste must be blamed entirely on ourselves.

Fire Prevention Week is just past. Various public and private organizations, throughout the nation, have made laudable efforts to educate the public on abolishing fire risks, and have taught practical prevention. If full advantage was taken of the opportunity, and the teachings are carried out during the coming months, it will mark another milestone in our progress.

Al's Family to Cast Ten Votes to Five in Herbert's Clan

Washington, Oct. 30.—The Alfred E. Smith family can outvote the Herbert Hoover family two to one next Tuesday as there are ten of voting age in the immediate family of the Democratic presidential candidate and only five in that of the Republican nominee.

Besides the Governor and Mrs. Smith there are two sons and their wives and two daughters and their husbands who can cast their ballots.

In addition to Mr. and Mrs. Hoover, there are two sons, both of voting age, and the wife of one son, Herbert, Jr.

All five of the Hoovers will vote at the same polling place on the campus at Stanford University, but the members of the Smith family will have to separate, some of them voting outside of New York City.

The management appreciates the large number of new subscribers and renewals that are coming in.

The Junction Eagle
EDGAR McLENDON
Editor and Manager

Published every Thursday by
The Junction Publishing Co.,
Junction, Texas

Entered as second class matter, at Post Office at Junction, Texas.

Subscription: In Kimble and adjoining counties.....$1.50
Elsewhere in Texas.....$2.00
Outside the State.....$2.50

All cards of thanks, resolutions of respect, church or club notices, where there is a money consideration, will be run only as paid matter at regular rates.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon calling the attention of the management to the article in question.

The Eagle is pleased to have the Segovia Siftings this week. The management will not be satisfied until there is a correspondent in every community in Kimble County. Will all the correspondents that have been sending in the news from their communities continue to send in items as often as convenient? There is no better feature to any weekly newspaper than the news from over the county. With the help of our correspondents we can make the Junction Eagle the best weekly in Southwest Texas.

—o—

The Junction Eagle wants to tell the world about the good things in Kimble County and makes this appeal to everybody to help. If you weighed the individual clip of some of your goats and sheep tell the paper about it, and let it pass the good word along. Some of the best pecan trees in Texas are in Kimble County. Send in the number of pounds that your best trees are yielding. If you have some special variety of young trees that are making records tell that too. Some flocks of hens make records that are worth relating. Some cows are almost feeding the family. Do you have a small plot of ground that has made an unusual yield of tomatoes or some other vegetables? All this makes good reading and lets the world know of the good things here. This is the "Oasis of the Western Hills," and Junction is in the center ofthe oasis.

—o—

Now that the Graf Zeppelin has arrived another major step has been made in man's fight to span the Atlantic Ocean. Despite rough weather and injuries to the Zeppelin, it "came through" nobly. Again the world is advanced a thousand years within less than the space of a week.

This is the ninth successful skirmish in man's battle with the Atlantic.

On October 12, 1492, Columbus made the first voyage from Europe to America.

In 1958 the first submarine cable between the new and old worlds was laid by the Atlantic Telegraph Co., headed by Cyrus Curtis.

In 1901 the first wireless message was sent across the Atlantic.

The first transatlantic telephone message service was completed January 7, 1927, between London and New York.

The first picture was wirelessed from New York to London in 1924.

Three United States Navy boats flew from Newfoundland to Lisbon via the Azores, starting May 8, 1919.

The first airship crossing the Atlantic was the British dirigible R-34, in 1919, from East Fortune, Scotland, to Mineola, New York.

The first steamship to make the trip was the Britannia, built by Samuel Cunard, which sailed in 14 days from Bristol to New York in 1840.

Now comes the Graf Zeppelin, the first passenger dirigible to cross the Atlantic.

Thus the world progresses.

C. OF C. BANQUET

Members of the Kimble County Chamber of Commerce are planning for an enthusiastic meeting when the annual banquet will be held at the Fritz Hotel, Tuesday night, November 13. Secretary J. B. Stevenson will read his annual report, setting forth the achievements of the organization the past twelve months. This will be the time to elect officers and directors and a full representation is urged.

A live organization of the business and professional men is needed to carry on the work needed for the growth and development of Junction and Kimble County. The work accomplished has had a far-reaching effect and those interested most are anxious for the good work to continue with more interest and zeal if possible. The organization has been awake to the needs of the county and the report on the 13th will enumerate the activities.

Make your reservation for a place at the banquet and have a part in the plans of the organization.

MIGHT-HAVE-BEEN

"Mr. Mean-to has a comrade
And his name is Didn't-do.
Have you ever chanced to meet them?
Did they ever call on you?
These two fellows work together
In the House of Never-Win,
And I'm told that it is haunted
By the ghost of Might-Have-Been," —The Galley.

PECAN INSTITUTE IN BROWNWOOD, 15-16

Under the title, "The Loan Value of Pecan Lands," a subject of state wide importance will come up for discussion and conference at the Pecan Institute to be held here on November 15-16, under the sponsorship of the Brownwood Chamber of Commerce. This is the first time in history that this matter has been taken up publicly.

Judge M. H. Gossett, president of the Federal Land Bank of Houston, will be the chief speaker. Some fifty representatives of National Farm Loan Associations are expected as well as a large number of land owners and bankers within a radius of 75 miles of Brownwood.

The West Texas Chamber of Commerce will be represented by Homer D. Wade, manager, and other officials of that body. Mr. Wade has been gathering pecan data for the past two years, showing the value and earning power of land on which pecan trees grows. Informed pecan men have long been aware that Texas is far behind in the production of papershell pecans, whereas, the state of Georgia is cited as having thousands of acres of papershell orchards which return a large annual income. The open forum on this matter at the Brownwood meeting is expected to be the first step in establishing an extra value of pecan lands as a basis for loans, thus directly and indirectly affecting all citizens of the State. Invitations have been sent to more than 2000 banks within 100 miles of Brownwood asking them to have representatives present to take part in the deliberations.

SAN ANGELO NEARING END IN R. R. DRIVE

San Angelo, Oct. 31.—With subscriptions passing the $200,000 mark, committees in San Angelo were preparing to close the drive this week for the Gulf & West Texas Railroad.

"With the interest in the new road manifested so far and the relatively large subscriptions, we feel sure that the campaign will be closed successfully," said Charles W. Hobbs, vice-president of the San Angelo National Bank and general chairman of the drive.

—o—

The fine crisp mornings this week has made the pecans fall rapidly. With fine weather like this week the large pecan crop will soon be gathered.

—o—

$6,000,000 JAPANESE VESSEL IS LAUNCHED

Nagasaki, Japan, Oct. 30.—The Asa Maru, largest vessel ever built for the Japanese merchant marine, was launched Tuesday at the Mitsubishi dockyard. The Asa Maru cost $6,000,000 and is of 11,800 tons.

The vessel is the first of three motorships intended for the Nippon Yusen Kaisha Line's transpacific service. The Asa Maru is expected to begin service between the Orient and San Francisco in September, 1929.

NEW BANK BUILDING

Finishing touches are being given the new Junction State Bank building this week, and we understand that the officers will take advantage of the election holiday and move the bank to the new building. The Eagle hopes to give a description and picture of the building in our next issue.

—o—

El Paso buildings were shaken yesterday by the first earthquake felt in more than five years. The shock was felt a number of places within a radius of 30 miles in the valley.

ZEPPELIN RETURNS HOME IN 60 HOURS

Friedrichshafen, Nov. 1.—Completing the first round trip commercial trans-Atlantic flight, the Graf Zeppelin landed at the airdome here at 7:06 a. m. today (1:06 a. m. Eastern standard time) with passengers and mail from America.

The airship, which left Lakehurst, N. J., at 1:54 a. m. Eastern standard time Monday, made the fastest crossing of the Atlantic by a lighter than air machine, covering a distance of 4,003 miles. She reached her home port 68 hours and 56 minutes after starting from Lakehurst and touched the ground after 71 hours and 12 minutes had elapsed. The Britist derigible R-34, which made the fastest previous crossing, was in the air 75 hours before being landed at her hangar in England, completing a flight which began at Roosevelt Field, N. Y., in July, 1919.

'Who Is This Man Chrysler?'

The phenominal success of the Chrysler Automobile in five years is largely the story of Walter P. Chrysler's leadership, ability and ideals. His history embodies the secret of the rise of his organization. It is a pleasure to briefly outline it below:

AN ACTIVE CAREER

Briefly told, be was born in the Western Kansas village of Wamego. He grew up in the nearby town of Ellis, out of which his father piloted a wood-burning locomotive across the prairies. Untilhe was 17 he attended the public schools of Ellis, clerking in the neighborhood grocery store in the summer. Served as a machinist's apprentice in the Union Pacific Shops. Graduated from a correspondence school of Mechanical Engineering. Became general foreman in the Colorado & Southern Shops at Trinidad, Colo. At 33 became the youngest superintendent of motive power on record at the Chicago & Great Western System. Then works as manager of American Locomotive Company in Pittsburg. President and General Manager of the Buick Company. Vice President in charge of all production in all General Motors units, and later Executive Vice-President.

HIS GREAT OPPORTUNITY

Then his lifetime opportunity came with the Maxwell-Chalmers consolidation. Confronted with difficulties that seemed insurmountable, Chrysler took off his coat, which he well knew how to do. **"Our first need is for a better car,"** said Chrysler.

"But," it was explained to him,"we have a lot of material, we have thousands and thousands of dollars worth of machinery for building present parts, we have literally a fortune in dies, tools, and equipment."

"What we need," replied Chrysler, "and what we are going to have, is the most advanced motor car the world has ever seen. If the old materials won't do, scrap them. If our machinery is obsolete, buy new machinery. **We start with a clean slate.** Forget precedent. Our engineers are going to have the opportunity that all engineers dream of. No obsolete machinery to restrict them, no precedents to observe, no style limitations, no hampering of any kind. It's up to them to design the best car they possibly can—and we'll build it better than motor cars have ever been built before."

PRODUCING A WINNER

The new car appeared, "the CHRYSLER." It was a smashing innovation, utterly ignoring the trend toward high, cumbersome vehicles upon which it had been thought that public preferences was fixed.

Smart and agile, with quality that had never been incorporated into a car of its weight, it stirred the market from top to bottom and started a wave of patronage that gained momentum with every passing week.

In 1924, the first year, it was found that 32,000 cars had been produced and sold. The company at that time occupied 27th place among the manufacturers belonging to the National Automobile Chamber of Commerce. The following year, sales reached the staggering total of 137,526 cars. In 1926, they swept on up to 170,414. And in 1927, the remarkable total of 193,750 cars was produced and sold, representing a total of $275,000,000 paid by the public—and establishing Chrysler among the leaders of the industry.

It was not so remarkable to have passed many of the smaller and less prominent manufacturers,but to have swept beyond many of the older, longer established and highly respected manufacturers who for years had been in the forefront of the industry, was a feat that stamped the Chrysler organization as a powerful factor in the motor car business, bringing a new vigor and alertness which foretold even greater things to come.

The Entire History of the Industry Holds No Such Record as This

Today, the public, with confidence is buying Chrysler Automobiles as they have never bought before. Count the years—five now—since this great car has been introduced. The most enthusiastic automobile owners in the world are Chrysler owners. Chrysler owners today are sincerely urging their friends to buy because they have found value above and beyond other cars in their Chryslers:

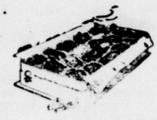

The New Models—The Still Lower Prices—The Demand for Chryslers

is still making it hard for us to supply our demand for the "Hill Country." We urge you to let us demonstrate, and then give us your order for the model that you prefer.

CURRENT NEWS

Collection of occupation taxes on the sale of gasoline in Texas for September, first month under the operation of the 2c rate, will be approximately $1,225,000, according to Sam Houston Terrell, State Comptroller.

The tax of 3c was reduced to 2c Sept. 1. This causes an average decrease of about $600,000 a month in the State's revenue. The collections for August were $1,826,709.

Mr. and Mrs. Herbert Hoover of Houston have joined the Al Smith Club in Houston. Mr. Hoover claims to be a third cousin of the Republican presidential candidate. He said that he and Mrs. Hoover were two "real Hoover Democrats."

Cotton of this year's growth ginned prior to Oct. 18 totaled 8,147,678 bales, including 306,678 round bales counted as half bales and excluding linters, compared with 8,117,625 bales, including 252,242 round bales to that date in 1927 and 8,727,709 bales and 259,529 round bales in 1926, the Census Bureau announced.

John Bule, Shackelford County rancher, has completed delivery of 1,649 head of 2 and 3 year old steers to Jack Farmer of Fort Worth.

The Rt. Rev. George Herbert Kinsolving, 79, bishop of the Texas diocese of the Episcopal Church, died in Austin last week after having been in ill health for several months.

The largest incandescent lamp—as large as three cauliflowers—will burn the clothes off any person standing within three feet of it. The smallest lamp in the world is as large as a grain of wheat and will not scratch the tender membrane of a baby's stomach when the light is poked down the infant's gullet to search for a missing pin or button.

The commissioners court of Runnels county received notice Saturday that the issue of $525,000 road bonds recently voted had been approved by the Attorney General's department. The court will offer the bonds for sale at an early date.

Charles S. Barrett announced Saturday that he will retire as head of the National Farmers' Union at the time of the national convention in Denver, Nov. 20, after twenty-two years of service. Mr. Barrett will remain as chairman of the national board of farm reorganizations.

Dr. Albert Schneider, 65, inventor of a "lie dectector" and widely known criminologist, was found dead Saturday on a sidewalk. The coroner ascribed death to a sudden heart attack or cerebral hemorrhage.

Forty-three million men and women, by far the largest number ever registered, have qualified to participate in the battle of ballots at the presidential election on November 6. The total marks an increase of nearly 14,000,000 over the vote cast in 1924 and makes the figures of former years appear small in comparison.

Investigation of gasoline prices in Texas by Attorney General Claude Pollard and his staff of special investigators has reached a stage already that makes imperative State regulation of prices on this widely consumed commodity.

SIX BALES ON FIVE ACRES

Six bales of cotton on five acres have been made by E. Whitmire of Madison County, Texas, by the use of 5,500 pounds of 9-6-3 fertilizer, costing $75.50. The six bales of cotton and two tons of cottonseed are worth $660, making a total net profit, above the cost of fertilization and cultivation, of $542. At a field meeting on this plot, arranged by the county agent and attended by forty-seven farmers, Mr. Whitmire pointed out that his success was due to breaking, proper cultivation, and heavy fertilization. A 5-acre check plot, unfertilized, produced only 1¼ bales of cotton and ½ ton of cottonseed, all of which was worth $140.

Bobby—"Daddy, a boy at school told me that I looked just like you!"

The Dad—"That so? And what did you say."

Bobby—"Nothin'. He was bigger'n me."—Passing Whos (London).

CULL CHICKENS PUT INTO CANS

"The pantry shelf is a good place to put the loafer hen culled out of the poultry flock this fall provided she is well encased in tin," so Dor W. Brown, county agent of Tom Green county, declares. Years ago it was nearly out of the question for the housewife to can meat but since the invention of the steam pressure canner all has changed. The barn yard shiek and the boarder hen are now turned to profit by this means on thousands of Texas farms, he said. Those unfamiliar with the steam pressure canner, however, will find it necessary to learn its operation from a neighbor or home demonstration agent.

In canning chickens care must be taken that the meat is not overcooked and that as little liquid as possible is used in order that the delicate poultry flavor may be retained. Older birds may be boned by splitting the flesh down the back and removing it from the skeleton with a sharp knife. A more common method is to steam in pressure cooker for a short time and then pack the meat in tin cans to be sealed and processed.

Canned chicken is best served, according to those home demonstration authorities, in combination dishes, such as creamed chicken, croquettes, chicken-a-la-king, salads, sandwiches. A circular, C-55, "Home Canning of Meats," including recipes, is available by writing the Extension Service, College Station, Texas. Mr. Brown advised, urging interested persons to write for the circular.

PIG FED CAREFULLY WEIGHS 270 POUNDS.; BROTHER WEIGHS 78

Tyler, Oct. 11.—What proper care and feeding will do in raising hogs is graphically shown in a contrast offered by Lewis Chapman, a Pig Club member of Smith county, who has made a high record in raising hogs on his father's farm.

Lewis took two pigs from the same litter, both weighing 29 pounds at the time the feeding period was started. Feeding and caring for one of the pigs according to instructions given him in the club under the direction of County Agent E. Gentry, the boy produced a hog weighing 270 pounds. The other pig which was given the usual care and feeding on the farm, without scientific methods, weighing only 78 pounds at the end of the experiment period.

Lewis entered his 270-pound pig in the East Texas Fair here in September and took first money for the best boar under six months of age in the Duroc Jersey division.

WANTED

The Eagle is anxious to secure a correspondent from every community in Kimble County. If your community is not represented in the columns of the Eagle come in to see us and we shall try to help you. It is our desire to give Kimble County a first class newspaper. We cannot give you the paper you want unless we can get someone from your community to send in the news. You help us and let us help you.

FACTS ABOUT DIAMONDS

The diamond is the hardest mineral. Because of this it is used in cutting, slicing and polishing other gems. The edge of a crystal is rounded and used to cut and engrave glass and steel. The black diamond is used for boring hard rocks.

Diamonds are sawed by a rapidly revolving sheet of very thin bronze which is covered with diamond dust and oil.

In the lore of precious stones the diamond is symbolic of purity. In ancient legendry it was supposed to preserve peace and prevent a storm.

The diamond is the queen of precious stones, and undoubtedly the most beautiful.

The "brilliant" cut is the most modern and shows off the beauty of the diamond best. It is cut in facets both at top and bottom, the principal face of which is flat. There are 58 facets altogether, 32 on the top and 26 on the back. A very slight imperfection may greatly lower the value of the diamond.

In the troublesome times throughout Europe, when nations were tottering and the value of her money shrunk to almost nothing; when land values depreciated and bonds became worthless, it was then that her people turned to their diamonds. In all countries and all climes no other article has a greater cashable value than the diamond.

OKLAHOMA BOY KILLED IN BATTLE AFTER GAME

Pomona, Cal., Oct. 29.—A street battle between students of the Chaffet Union and Pomona High Schools, which is held annually as an incident of their athletic rivalry, resulted Friday night in the death of one student and serious injuries to two others, it was disclosed Saturday.

The dead youth, Gilbert F. Hill, 19, of Chickasha, Okla., was killed when his automobile was crowded to the curb by that of rival students and overturned.

KILLS DOZEN RATTLERS

A mother rattle snake comfortably sprawled out in the back yard of the Jacob Seiler home following the heavy showers Tuesday a week ago, was responsible for the discovery of a lively little nest occupied by 12 baby rattlers.

A heavy hoe wielded by Seiler ended the "happy" family bonds shortly after they were detected.

Mr. Seiler repeated that he considered the find a lucky one in view of the fact that the children frequently were seen playing where the nest was located.—Guadalupe Gazette.

DUTIES OF CITIZENSHIP URGED UPON ALL MASONS

New York, N. Y.—Masons as an organization have no place in politics, but Masons as individuals should not neglect their duties as citizens, said Dr. Percy Silver, pastor of the Church of the Incarnation, in addressing the Five Points Masonic Club of Kingsbridge.

Urging his listeners "to give their best thought and efforts for their Government," Dr. Silver said that no Mason worthy of the name would neglect his duty to go to the polls and do what he could to obtain an honest and efficient administration. Without exercising the privilege of ballot no Mason could be a good citizen, he said, adding that "good citizenship is the challenge to Masonry."

CHRISTMAS CARDS

It is several weeks until Christmas, but it is not too early to be thinking about buying Christmas cards. The Eagle office has a good line to select from. Come in and look them over.

KNOW TEXAS

The Lone Star Gas Company has added 60 towns to its pipe line system since January 1 and has extended the system 350 miles.

The Dallas Power and Light Company is planning an addition to its generating plant to cost $2,750,000.

The Bermuda onion crop of Texas is valued at almost $4,000,000 a year.

Texas had an increase of 45 per cent in its natural gas production in 1927.

Texas consumes in its mills only about 2.5% of the cotton grown in the state.

POISONING TREES

In thinning out native pecan groves, C. M. Knight has demonstrated in Red River county that a tree poison applied with a small oil can to a fresh gash in the doomed tree is an effective way of deadening undesirable foreign timber. About one tablespoonful of the poison is poured in for each six inches of circumference, this procedure resulting in the complete killing of 200 trees in that county within six days. The poison is made by mixing and boiling 1½ gallons of water, 2 pounds of sal soda and one small can of lye and then adding one pound of white arsenic—Texas Extension News.

The New Ford

Did you ever stop to think how much money is wasted trying to keep up with the new models every six months or every year?

In the New Ford there are constant improvements but no yearly models. Today, Tomorrow, NEXT year, the Ford will give you the same economical transportation with the least money invested.

To appreciate the New Ford you have to ride in it, drive it yourself, see how easy it glides over all kinds of road and how smooth and quick it moves up and over the Hills. Come in and let us demonstrate to you.

BOB SILVER'S SENTENCE LIFE IMPRISONMENT

Sentence of death which awaited J. R. (Bob) Silver, robber and participant in the murder at Fort Worth of Roscoe Wilson, was commuted to life imprisonment at hard labor by Governor Moody in an order at 6:30 p. m. last Thursday.

Inequality of the sentence of death for Silver and the 99-year prison sentence given W. A. Stone, his companion in the robbery and murder of the Majestic Theater treasurer, January 31, 1927, was given by Governor Moody as the reason for commuting Silver's sentence.

The following is a brief review of the case:

Jan. 31, 1927—Roscoe Wilson, 24, theater treasurer, slain in daylight robbery at Tenth and Commerce.

Feb. 1, 1927—J. R. (Bob) Silver and W. A. Stone arrested in Sulphur, Oklahoma, almost $4,000 of loot found in their car.

Feb. 15, 1927—Silver and Stone made joint confession stating that the latter fired shot that killed Wilson.

Feb. 24, 1927—Stone, repudiating part of confession which said he fired shot, receives life sentence.

March 2, 1927—Silver receives verdict of death.

March 3, 1927—Interstate Amusement Company pays $1,000 to Oklahoma officers for arrest and conviction of defendants.

March 8, 1927—Stone accepts life sentence without appeal and makes ready for departure to state penitentiary.

Jan. 11, 1928—Criminal Appeals affirms Silver death verdict; motion for rehearing lost; second rehearing motion defeated later.

Aug. 25, 1928—Judge Hosey formally sentences Silver to die Sept. 3; reprieve later granted extending death date to Sept. 21; second reprieve set date for Sept. 28; third reprieve moved date up to Oct. 26.

Oct. 25, 1928—Governor Moody commuates sentence to life imprisonment.

The next chapter will be written when he escapes from the penitentiary or some governor pardons him.

SAN SABA HAS PEAR-APPLE TREE WITH TWO KINDS OF FRUIT

(By Mrs. Edgar T. Neal)

A freak pear tree, claiming the interest of San Saba horticulturists, is growing at the home of B. B. Russell. It is about 12 years old and was budded several years ago from another pear tree in the Russell yard. There developed on one side of the tree a distinctly different foliage, more like an apple leaf, and when it came into bearing the fruit on one-half of the tree was as much like a yellow delicious apple as that of a pear, the texture of the skin, the shape, color and flavor and fragrance bearing out its kinship to the delicious apple. The crop on this side ripens first. That on the other half is loaded with regular pears, now ripening in the regular way.

Russell can not account for the freak as he is sure all the buds were from the same pear tree. The meat of the apple-pear is not so grainy, but the core, seeds and general nature of the fruit show it to be as much pear as apple.—Menard Messenger.

ESTATE OF MRS. BUSCH AMOUNTS TO $5,336,988

St. Louis, Mo., Oct. 30.—Mrs. Lilly Busch, wife of the late Adolphus Busch, St. Louis brewer, left an estate valued at $5,336,988.38, according to an inventory filed in the Probate Court here Monday. This does not include an undivided one-eighth interest in the trust estate created by her husband, which is understood to amount to more than $4,000,000.

Mrs. Busch died at her winter home in California Feb. 26, last. The estate is divided among her children and a niece, while $423,000 will go to charity, friends, employes and relatives.

A teacher in a lower grade was instructing her pupils in the use of a hyphen. Among the examples given by the children was the word "bird-cage."

"That's right," encouragingly remarked the teacher. "Now, Paul, tell me why we put a hyphen in 'bird-cage'."

"It's for the bird to sit on," was the startling rejoiner.—Ex.

BABY GROWS IN SUMMER

The growth of a boy or girl from babyhood makes an interesting study for one who is willing to keep an accurate record of sizes, weights and heights.

During the first year the average baby grows about nine inches. If this rate were kept up for ten years, the schoolboy of ten would be over eight feet tall, and a giant in the making.

During the second year, however, baby grows only three or four inches and gradually decreases his growth per year from then on until he attains his full height around his twenty-fifth year.

As for weight, boys make their greatest gain in their sixteenth or seventeenth year, while girls put on poundage more noticeably in their fourteenth. Incidentally, although, little boys and young men are stronger than girls and young women of their age, girls from eleven to seventeen are physically able to handle boys of their age.

From December until April neither boy nor girl will gain much weight or height. When April comes they will begin to sprout upwards again like little trees but not until hot weather will they begin to add weight quickly.—Dublin Progress.

PAYMENT DEMANDED ON BOND OF TEXAS REPUBLIC

Austin, Oct. 30.—A man in New York owns a $500 bond of the Republic of Texas and has called on the Comptroller for its payment. The State assumed all the obligations of the Republic when the latter ceased to exist. An appropriation by the Legislature would be necessary to pay any debt of the Republic, since there is no fund to meet such indebtedness.

A GREAT TRIBUTE

If you the ever so fortunate as to visit our National Capitol at Washington, you will find many things there to thrill you.

But none, perhaps, as stirring as one picture that hangs as a permanent gift to the American people and a fitting tribute to one of the most glorious deeds in all our nation's proud history.

This wonderful picture bears the simple title, "WE," and as its name suggests, depicts the gallant flight of Colonel Charles A. Lindbergh from New York to Paris—the flight that thrilled the world, and gave it probably its most loved hero of all time.

And the best part of all this is, you can have a handsome copy of "WE," printed in twelve colors and measuring eighteen by twenty-four inches, to hang in your own home.

You cannot buy the picture at any price. It may be had only through The Youth's Companion as its free gift to you with a year's subscription to the magazine.

In its new form as a monthly magazine, The Companion itself has more to offer than ever before—a full book-length novel complete in each issue; serials and short stories; feature articles, editorials, contests, puzzles, poems, recommendations of books and motion pictures, and special departments for both boys and girls covering their own favorite activities.

In order that every American home may enjoy the inspiration of the famous pictue "WE," we make the following liberal offer:

1. The Youth's Companion, 12 big monthly numbers, and
2. Two extra numbers to new subscribers ordering within 30 days, and
3. A copy of "WE" in 12 colors, framing size 18x24 inches. All for only $2.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS.

To the Sheriff or any Constable of Kimble County—Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for four consecutive weeks exclusive of the first day day of publication before the return day hereof:

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS.

To all persons interested in the Estate of S. B. McKee, Deceased, W. B. McKee has filed in the County Court of Kimble County on the 11th day of October, A. D. 1928, an application for the probate of the last Will and Testament of said S. B. McKee, Deceased, and for letters testamentary (the said Will accompanying said application), which will be heard and acted on at the next Term of said Court, commencing the first Monday in November, A. D. 1928, same being the 5th day of November, A. D. 1928, at the Court House thereof, in the City of Junction, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

Herein fail not, but have you then and there before said Court this Writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and seal of said Court, at Junction, Kimble County, Texas this the 11th day of October, A. D. 1928.
(SEAL) L. R. HODGES,
Clerk County Court, Kimble County, Texas

Henry Murr Numbered Among Old Timers

Mr. Henry Murr was an appreciated caller at the Eagle office Monday. He moved the figures on his paper up to November, 1929. In talking with Mr. Murr we learned that he has been here long enough to be numbered with the old timers. He received his honorable discharge from the Federal army at Fort McKavett in 1882. He had been in this section long enough at that time to want to continue to live in the South, and bought some land between Junction and Fort McKavett. About ten years ago he retired from the ranch and has been living north of Junction since that time.

Mr. Murr, as a seventen year-old boy, ran away from his Pennsylvania home in 1861. He says that he borrowed $10 out of his father's pockets and walked twelve miles to Lancaster where he caught a train to Washington. He secured work driving a government team during the civil war, and after the war became a member of the regular army. He was sent to the South during re-construction days. He was first sargeant in the Federal army and marrried the daughter of a southern officer living in Richmond, Virginia. At one time during the war he had his horse shot from under him in Washington. He says he saw some rough service, but after the war he enjoyed his stay in the South in the regular army, so much so that he married a southern woman and settled in Texas. He is now eighty-four years old and still thinks that Texas is a great state and that Kimble County is a great county.

—o—

Hon. Coke Stevenson was in Austin this week on legal business.

—o—

PECANS IN COURTYARD KIMBLE COUNTY SAMPLE

This is a great pecan country as is evidenced by the quantity and quality of pecans grown in the county. Until recently no special attention was given to the pecan industry, and not yet is enough attention given to it. County Judge J. B. Randolph is a great exponent of the industry and takes great interest in the various specimens in the courtyard. About twelve years ago he put out six trees in the court yard and five of them lived, and are now big producers. Some of the best nuts found anywhere are in the Kimble County Courtyard.

There are many young trees in the yard, and Judge Randolph believes that the nuts should be given to visitors rather than sold. He believes that no better way to advertise Kimble as a pecan country could be employed than to distribute the fine nuts in the courtyard to as many people as possible over widely scattered areas.

The United States Department of Agriculture credits Kimble County with having 267,000 pecan trees in their natural state. The county is also credited with having the largest native pecan orchard in the world. We have no figures from experts, but it is believed that the crop this year will reach 750,000 pound or more. The pecan industry will mean a million dollars or more this year in Kimble County.

FIRE INSURANCE KEY RATE.

While Mayor Holekamp was in Austin Monday to attend a hearing of the Railroad Commission, he also called upon the Fire Insurance Department and presented a blue print of our proposed water system that will be installed soon. He asked the fire insurance commissioner for a statement on the key rate we may hope to get after the system is installed. The statement follows:

Austin, Texas,
October 29, 1928.

Hon. E. Holekamp, Mayor,
Junction, Texas.

Dear Sir:

Key Rate

In compliance with your verbal request of even date, we will be very glad to quote you an approximate rate based upon such information as we have before us, in the way of proposed waterworks improvements and also upon the fact that your city has a volunteeer fire department consisting of from fifteen to twenty members who shall drill not less than twice each month throughout the year.

In addition to your present auto chemical truck, it will be necessary to provide yourselves with an auto hose truck carrying not less than 1000 feet of hose. Taking this into consideration and the proposed waterworks layout with its pumping equipment, water supply, elevated tank, etc., an approximate Key Rate of 66c will be in order. This figure can be reduced 2c by the installation of an 8 inch main from the pumping station to the elevated reservoir and also 8 inch all the way connecting to the proposed 8 inch mains in the mercantile district. In addition to this saving, a further saving of 2c will result if the proposed dead end 4 inch mains are replaced with standard 6 inch cast iron pipe.

By metering over 75% of the service connection in your water works system, a further reduction of 2c in charges will be in order.

We have given you the necessary information and data with regard to the teaching of fire prevention in your public schools, and if this is successfully completed and this office properly notified, a 3% credit can be secured immediately in your Key Rate.

By passing an Arson Ordinance offering a reward of $100 for the arrest and conviction of any party or parties found guilty of arson within the corporate limits, and posting placards 8x12 inches in size in wooden frames under glass inside of six different buildings, a 2% credit can be secured in your Key Rate. If this is done, we will ask that you kindly furnish us with a certified copy of the ordinance, a copy of one of the placards and a list of the places where the placards have been put up in wooden frames under glass.

We have already written you with regard to your Fire Marshal Ordinance, and we will again suggest that you arrange at once to furnish us with a certified copy of the same.

In the connection with the installation of your water works, we desire to call your attention to the fact that your engineer must specify the use of National Standard Hose Threads, whose dimensions are 3 1-16 inches outside diameter with 7½ threads to the inch. This thread, as you know, has been adopted by law in this State governing the future installations of all water works systems.

Assuring you of our heartiest desire of co-operation at all times and asking that you kindly call upon us if we can serve you further, we beg to remain

Yours truly,
J. W. Deweese,
Fire Insurance Com.

TEXT BOOK ADOPTION TO COST $1,000,000.00

Austin, Oct. 30. — Adoptions were announced Tuesday by the State Textbook Commission of books to be used in the public schools of Texas for varying terms, but mostly from four to six years, the latter being the maximum term allowed under the law. It is estimated that the contracts awarded Tuesday for the forty-four textbooks will go well over $1,000,000.

Generally speaking the prices are higher than now being paid. There are some exceptions where they are lower than the existing costs of the same texts. Prices being paid at this time cover the cost of the books to the schools of the State while the new prices are only to the Texas depositories, most of which are in Dallas. The State will be compelled to pay the freight from the Dallas depositories to the various schools scattered in every part of the State. That cost must be added to the new contract prices.

All bids were rejected on American and English literature on the grounds that not a sufficient number of suitable texts at satisfactory prices were offered.

ROBERT LANSING DIES

Washington, Oct. 30.—One of the leading figures of the World War passed into history here Tuesday when Robert Lansing, Secretary of State under President Wilson, died suddenly of heart trouble.

His death strikes another name from the roll of statesmen of the war days. Only four now are left who were instrumental in directing the policies of the allies—Col. E. M. House, confidential advisor to President Wilson; Clemenceau, former Premier of France; Lloyd George, 10rmer Premier of Great Britain, and Rear Admiral Cary T. Grayson, who acted as the intermediary between the President and Lansing, and whose retirement from the active list of the Navy has just been approved at his own request.

NEW STORE COMING

Shelving is being placed in the new building near the post-office for a new drygoods and grocery store, according to Mr. G. W. Curtis, who recently moved here. Curtis Brothers will be the name of the new store.

TWO FAITHFUL DOGS FOUND AT SWEETWATER

Sweetwater, Oct. 30. — Two dogs here have upheld the tradition of faithfulness to man.

In the first instance, a doctor making a call at 1:30 o'clock in the morning was forced to stop his car by a dog which refused to move from a place in the road that barred the car's progress.

At the side of the road, a few feet away, stood the dog's charge, a shivering, crying baby girl of 18 months, whose feet were tortured with the grass burrs that had shown no mercy as she toddled away from home and bed. Investigation developed the fact that the child's father worked on a night shift and that the mother was in the habit of driving downtown at 1 o'clock every morning to bring her husband home when he got off duty, leaving the baby asleep in the home.

The other dog was found Sunday morning standing guard over the unconscious form of his master on the ground beside his car. The man, W. E. Ellis, 35, a carpenter, had arrived here two weeks ago from Florida and lived in his car, which he kept parked at a local tourist ground.

At first thought the victim of hijackers, examination showed no marks of violence, but the man is critically ill in the hospital here from an unknown cause.

Dan St. Clair

Junction Cadet on Pageant Committee

College Station, Texas, Oct. 30.—Lusty lunged cadets of the A. & M. College of Texas will take a brief respite form yelling encouragement to their Texas Aggie football team to indulge in such cries as "Ride 'em, cowboy" and "Hold that steer" when the tenth annual rodeo and pageant of the Saddle and Sirloin Club of the college is staged at the animal husbandry pavilion here November 16. Bronco "busting," fancy riding, roping, bulldogging and other such events will be included on the program. This annual affair, given by juniors of the animal husbandry department to raise funds to send the senior livestock judging team to Chicago for the international competition, is usually an event of much interest in the student body and plans are under way to make the rodeo this year the best in the history of the club.

The following students are members of the rodeo and pageant arrangements committee: R. W. Howe, Seymour, ringmaster; N. K. Farmer, Junction, social secretary; J. E. Tatum, Dublin, decorator; George E. Love, Jr., Del Rio, business manager.

The pageant feature will be staged under the direction of Mrs. C. W. Mitchell, Bryan. Girls selected by the cadets will appear in this event, the program for which will be announced later.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS,
To the Sheriff or any Constable of Kimble County—Greeting:

You are hereby Commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for three consecutive weeks exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS,

To all Persons interested in the Estate of S. H. Ivy, Deceased. Mrs. Sally Ivy has filed in the County Court of Kimble County on the 12th day of October, A. D. 1928, an application for the probate of the last Will and Testament of said S. H. Ivy Deceased, and for letters testamentary thereon to said Will accompanying said application, which will be heard and acted on at the next Term of said Court, commencing the first Monday in November, A. D. 1928, same being the 5th day of November, 1928, at the Court House thereof in the City of Junction, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

Herein fail not, but have you then and there before said Court this Writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and seal of said Court, at Junction, Texas, this the 15th day of October, A. D., 1928.

(SEAL) T. R. HODGES,
Clerk County Court, Kimble County, Texas
27-3c

A soldier went to his colonel and asked for leave to go home to help his wife with her spring cleaning.

"I don't like to refuse you," said the colonel, "but I've just received a letter from your wife saying that you are no use around the house."

The soldier saluted and turned to go. At the door he stopped, turned and remarked:

"Colonel, there are two persons in this regiment who handle the truth loosely, and I'm one of them. I'm not married."
—Ex.

The auctioneer, who had been whispering excitedly to a man in his audience, held up a hand for silence.

"I wish to announce," he said, "that a gentleman here has had the misfortune to lose a wallet containing $2,500. He tells me that a reward of $100 will be given to anyone returning it."

After a silence a man in the crowd shouted: "I'll give $150."
—Tit-Bits.

Service Station

Every purchaser of a new Ford is entitled to Free Inspection Service for the first 1500 miles

THE modern automobile is a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given proper care.

The first few hundred miles are especially important because that is when the mechanism of your car is being broken in.

Proper attention during this period will lengthen its life and prevent unnecessary trouble later on.

We are particularly interested in this matter because we believe it is our duty not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time at a minimum of trouble and expense.

With this in view, the entire Ford dealer organization has been specially trained and equipped to service the new Model A car.

Furthermore, we have instructed every Ford dealer to give the following Free Inspection Service at 500, 1000 and 1500 miles:

Check battery
Check generator charging rate
Check distributor adjustment
Check carburetor adjustment
Check lights
Check brakes
Check shock absorber adjustment
Check tire inflation
Check steering gear
Change engine oil
Lubricate chassis

No charge is made for labor or materials incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

See your Ford dealer, therefore, and get this Free Inspection of your new car at 500, 1000 and 1500 miles. Find out, too, how little it will cost to have your car given a thorough going-over at regular periods thereafter.

A checking-up by experienced mechanics, together with oiling and greasing every 500 miles, will add months and years to the life of your car and mean more economical and pleasurable motoring every mile you drive.

County News

SEGOVIA SIFTINGS

The norther which blew up late Monday afternoon makes fires and heavy wraps welcome. A light mist has been falling today and more rain would be welcomed.

We regret to report that Miss Lula Belle Fairchilds was on the sick list Friday and Saturday.

The party at Miss Knokles' cabin Friday night was a delightful occasion. The guests enjoyed many interesting and entertaining games and contests. A marshmallow roast was a scene of much pleasure, after which delicious refreshments of punch and cake were served to the following guests: Misses Naomi Knowles, Louise Keithley, Audrey Kirkpatrick, Louise and Marjorie King, Opal and Maxine Jobes and Messrs. Walter Blackmon, John and Edward Keithley, Vernon Kirkpatrick, Nobel Jobes, Gordon King, Robert and Ellis Davis and Mr. and Mrs. J. B. Murray.

Mr. and Mrs. L. H. McDonald, Mr. and Mrs. J. P. Jones and John Keithley were Sunday guests of Mr. and Mrs. Luther Jones.

Misses Opal and Maxine Jobes visited in the Moss home Sunday.

Misses Naomi Knowles, Louise Keithley and Louise King made a business trip to Junction Thursday.

The new home of Mr. and Mrs. W. M. Fairchilds is almost completed.

Junction visitors Saturday were, Misses Knowles, Louise and Tiny King and Julia Fairchilds, Messrs. Frank Rembold, Walter Blackmon, Edward and John Keithley, Gordon King, Mr. and Mrs. J. B. Murray, Mr. and Mrs. R. R. King, Mr. and Mrs. Bill Bishop and son, Phillips, and Mr. and Mrs. Chas. Fairchilds.

Mr. Edward Keithley spent the week-end at Hunt, Texas visiting friends.

Mr. and Mrs. W. N. Hatch visited in the Noxville community Sunday.

Misses Louise King, Louise Keithley and Audrey Kirkpatrick were Sunday guests of Miss Knowles.

Mr. Granville Barker visited a fair friend in Noxville Sunday night.

Mr. and Mrs. Enoch Hatch were Segovia visitors Monday.

Misses Lena, Marguerite and Edith Davis spent Monday night with Mr. and Mrs. Allan Davis.

A large crowd from Segovia attended the circus at Junction Tuesday night.

THE NOXVILLE BRAND

Most every one in this part of the county has been busy shearing this week. This unexpected cold spell has been rather bad on the fresh shorn sheep.

The pupils of the James River School are very busy taking tests this week. Friday ends the second month of our school term.

Mr. and Mrs. Dillard Stapp are the proud parents of a new baby girl born October 26.

Mr. and Mrs. Merdith Joy of Camp Allison spent the week-end with Mrs. Joy's parents, Mr. and Mrs. H. F. Sofge of this community.

Mr. and Mrs. Paul Jones of Harper spent Sunday with Mr. and Mrs. Walton Whitworth.

Mr. and Mrs. Willie Collins attended the circus in Junction this week.

Mr and Mrs. R. B. Moore and daughter, Miss Ada Birt, made a business trip to Fredericksburg Saturday.

Mr. and Mrs. E. A. McCoy of Junction spent Sunday with Mr. and Mrs. H. F. Sofge.

Mr. Henry Bierschwale and son, Clarence, made a business trip to Comfort Monday.

Mr. Henry Bierschwale and wife attended a birthday dinner at Mrs. Vesta Parker's Sunday. The dinner was given in honor of Mr. Bierschwale's father who was seventy years old.

FORTY FIRST LEGISLATURE

The Biennial session of the state legislature will convene in the state capitol, the first week in January, 1929. It might be termed a new legislature. Not new as to the number of the session, but comparatively new as to personnel.

In the Senate there are already thirteen new members elected, and two others are to be elected, caused by resignation of present members since the primary. This means that almost one-half of the members of the Senate will be new in that body. Nearly this same ratio will be new in the House. In the total of nearly two hundred members of the legislature, West Texas will have less than one fourth of the total membership, and yet in area it has more than half of the state in West Texas. Of the five and one half million people in the state, more than a third of these reside in West Texas. Nothing is intended in detailing these facts, to raise sectional feeling. It is simply a recital to keep the record straight.

The representatives in the legislature from West Texas, however, rank with the best. In fact a study of the personnel of the West Texas representatives discloses the fact that many are of the leadership type, and it can be said with all assurance, that with these representatives, West Texas is going to get what is justly coming to this great section. It is the business of West Texas citizens to co-operate with their representatives in the legislature, by advising them of the ideas as to needed legislation, and giving recognition otherwise.—West Texas Today.

UNIVERSITY LANDS LISTED FOR SALE OF OIL RIGHTS

Austin, Oct. 30.—Lists of University of Texas lands to be advertised for the purpose of selling oil and gas rights are being prepared by Land Commissioner J. T. Robison and the sale will be held as soon as the lists are completed.

A minimum of 10c an acre plus one-eighth royalty is necessary for the purchase of the oil and gas rights, although these rights are conveyed to the highest bidders. Commissioner Robison said it will be several months before the sale can be held due to the lengthy process in preparing the lists.

ACCIDENTS EXPENSIVE

While humanitarian reasons should be sufficient to make accident reduction an important factor in every business organization, there is, in addition, the fact that accidents cost industry approximately $5,000,000,000 annually.

An authority on the subject states that 88 per cent of all industrial accidents can be prevented through enforcement of proper safety rules and that 10 per cent result from improper physical conditions in plants. Unpreventable accidents constitute only two per cent of the total.

RAMSEY'S NURSERY

I am representing the Ramsey Nursery and will be glad to supply you with any kind of fruit or ornamental trees.

29p Mrs. Nettie Brooks.

SIXTY YEARS AGO

An Oregon newspaper in its "60 Years Ago" column prints the following item of news which couldn't happen today:

"Nails—A gentleman called our attention to the fact that on last Sunday a number of ladies while enroute to church caught their dresses on the nails sticking out of the sidewalks and tore them quite badly."

NEED GLASSES

Dr. Jones, the eye man, will be in Dr. Luehrs office Friday, November 16. See him about your eyes and glasses. 19-2c

DO IT ELECTRIÇALLY

Someone with an analytical mind and an electrical education has worked out a few simple rules for handling a woman electrically:

If she talks too long—Interrupter.

If she wants to be an angel—Transformer.

If she is picking your pockets—Detector.

If she will come all the way—Receiver.

If she gets excited—Controller.

If she goes up in the air—Condenser.

If she wants chocolates—Feeder.

If she sings inharmoniously—Tuner.

If she is away from town—Telegrapher.

If she is a poor cook—Discharger.

If she eats too much—Reducer.

If she is wrong—Rectifier.

If she gossips too much—Regulator.

If she becomes upset—Reverser.

TRESPASS NOTICE

Hunting and trapping is positively forbidden on my place, and all violations will be prosecuted.

The new Buick is the new Style

Men and women on every street--in every city and town--are pronouncing the new BUICK, with *Masterpiece* Bodies by Fisher, the most beautiful automobile of the day

Never before in the history of motor car manufacture have the motorists of America welcomed any new automobile as they are welcoming the Silver Anniversary Buick with new Masterpiece Bodies by Fisher!

Sweeping into the market at a time when motor car lines were practically standardized—when imitation was destroying individuality—these epic Buick creations introduced an entirely new mode—

A mode of body-symmetry—of size and magnificence—of soft contours instead of straight lines—of embossed side and hood panels involving the most costly steel paneling work employed on any car in the world!

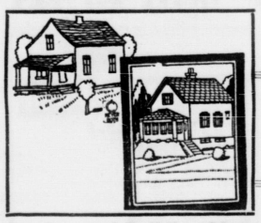

And as the weeks have passed—and the full significance of Buick's achievement has become apparent to the public—enthusiasm for this car has swelled and grown to unprecedented proportions!

Buick sales records have been broken! Production schedules have been increased again and again! The great Buick plants are working to the limit of their capacity to supply the demand.

The Silver Anniversary BUICK

Junction Trade Notes

The following item from San Antonio Express is intended to acquaint Junction folks with an asset which many of us may have overlooked: "The dusty gray-white shrub with showy lavender flowers which is making so many San Antonio yards attractive this fall, is called "cenizo" and is a native Texas plant found wild on the foothills around Junction. This is another instance of a Texas shrub transplanted into nurseries, cultivated and cared for, repaying the care a hundred-fold."

New flower seeds from Mandeville & King Co. just received by **Gann Grocery Company.**

Mr. and Mrs. Dee Gibbs, who will vacate the sheriff's office about the first of the year, have drawn plans for their new ranch home to be erected in the picturesque hills northwest of Junction.

Judge Weaver Baker of Junction has been selected as one of the 31-member advisory committee sought by Gov. Moody to work out policies of highway legislation to be submitted to the 41st Legislature. The committee is to be composed of members from each of the 31 senatorial districts.

For the Thanksgiving season: Just received candied cherries, candied pineapple, candied orange and lemon peel, citron. **Gann Grocery Company.**

We have Uvalde honey for those who prefer it, but recommend Mason county honey from the apiaries of R. L. Becker. Perry's country-made molasses is made on Cedar creek near Junction. **Gann Grocery Company.**

C. D. Stokes, wool buyer, was in Junction Monday inspecting wools. Approximately 200,000 pounds fall fleeces are in storage at Junction wool warehouse. The first sale of fall wools was scheduled to be held in San Angelo November 1st.

Mr. and Mrs. Stoltje of Houston, who are sojourning at Price's popular tourist camp for health and recreation, are delighted with Junction and the Llanos. Mr. Stoltje has registered a gain of twelve pounds in weight during four weeks sojourn at the Llano camp.

Mr. and Mrs. J. W. Sylvester of Corpus Christi were prospecting in Junction Tuesday and may conclude to locate here.

Butter is a "delicate" subject with particular families. Our farm butter is prepared by capable hands and every pound is guaranteeed. **Gann Grocery Company.**

New crop black-eye peas in bulk, head rice in bulk. **Gann Grocery Company.**

G. W. Curtis, recently of Uvalde, with his family has located in Junction and will open a dry goods store in the new building adjoining Junction State Bank. The interior of the building is now being arranged for Mr. Curtis, whose stock is in transit. Another addition to Junction's trade circle is a fur house soon to be opened by Dave Turner. The fur house expects to be open for business by November 15th in a building directly north of court yard square.

"Everybody's Store"

SEND IN THE NEWS

Our readers will find news from Noxville this week. Last week and this we have Segovia Siftings. The management appreciates both these communications and is anxious to get a good correspondent from every community in the county. Since the new editor came our esteemed London correspondent has gone into winter quarters. The editor has ben wanting to go to London to see what has become of him. This is an urgent invitation to him to keep the news coming. To have the kind of newspaper we want will require news from every community. If possible, sent in something every week.

Mr. G. W. Curtis and family moved here recently from Uvalde. Mr. Curtis will open a store here as soon as the shelving can be placed in the building.

Society

BRIDGE LUNCHEON BY MRS. SAYERS FARMER

A delightful occasion was the bridge luncheon given Friday by Mrs. Sayres Farmer, complimenting the Ladies' Afternoon Card Club and a group of friends.

Vari-colored zinnias and autumn flowers intermingled with maiden hair fern provided a lovely note of color.

A luncheon of chicken a la king, hot buttered rolls, asparagus tips, creamed sweet potatoes, pickled peaches, olives, cake, Spanish cream, coffee and salted nuts were served at the noon hour.

Mrs. Sam Woodward made high club score in the bridge games and was rewarded with a card table. A pretty table cover went to Mrs. Guy Wynne, who made high guest score. Mrs. Vann Martin received a linen towel for cut prize. Mrs. S. S. Bundy received a dainty linen handkerchief for low score.

The guests were then invited to the dining room where the table was most attractive with a floral centerpiece of yellow zinnias and graceful fern, flanked by tall tapers in silver candlesticks. Mrs. S. S. Bundy poured coffee and Mrs. H. W. Rieck presided over the tea service. Little cakes and nuts were served.

MRS. FRANK PATTERSON ENTERTAINS GUEST

Mrs. Frank Patterson entertained in honor of Mrs. Harold Kilpatrick of San Antonio on Saturday evening.

The Halloween motif was carried out in the light shades and all decorations. Cosmos in vases and bowls provided a pretty note of color.

After the bridge games a hand embroidered dresser scarf was presented to Mrs. Vann Martin for high score. The honoree, Mrs. Kilpatrick, was the recipient of a pretty hand made scarf. Mrs. Dorothy Westmoreland was awarded a lace doily for low score.

Pumpkin pie with whipped cream and coffee were served at the close of the evening.

The hostess then directed the guests to a witches caldron from which hung a myriad of ribbons. When these ribbons were pulled each guest received a package. When opened dainty aprons, kitchen memo pads, laundry bags and wall vases were revealed.

THOMPSON-FRITZ

Miss Clara Fritz and Mr. Arthur Thompson of Beaumont were married in San Antonio Saturday evening at the residence of Dr. and Mrs. L. L. Skaggs. They returned to Junction Monday and left today for Chicago where Mr. Thompson makes his headquarters. He is with the Practical Drawing Company.

Mrs. Thompson is the daughter of Mr. and Mrs. Joe Fritz, and is one of Junction's most popular young ladies. The many friends of the bride extend best wishes to Mr. and Mrs. Thompson.

WOOD WANTED — We will buy green or dry oak cord wook. 29c **Borden Ice Company.**

HALLOWEEN PARTY

The members of the Fidelis Class of the First Baptist Church were entertained with a Halloween party at the home of Rev. and Mrs. G. W. Crabb last Thursday night.

They all came dressed as ghosts and were greeted at the door by a real witch. The rooms were appropriately decorated with bats, witches, skeletons and so on. Ghostly games were played and they provided plenty of "thrills." Mrs. C. W. McCarroll entertained with a number of musical selections, after which the refreshments, consisting of chicken sandwiches, sweet gerkins, baked apples topped with whipped cream and nuts, individual pumpkin pies and coffee were served.

The "ghosts" present were: Mr. and Mrs. C. W. McCarroll and sons, Mrs. Roy Reynolds, Mrs. Hilery Henderson, Mrs. Chas. St. Clair and daughter, Mrs. Vann Martin, Mrs. Weldon Williams, Mr. and Mrs. Carl Glossbrenner and daughter, Mrs. Wm. May and son, Mrs. C. Taft, Mrs. A. P. Boyett and son, Mr. and Mrs. Earl Glossbrenner, Mr. and Mrs. U. D. Kindrick and daughter, Miss Lillie Mae Smith, Mr. and Mrs. Croft, Mr. and Mrs. M. Awbrey and son, Mr. and Mrs. Dave Turner and children, and Rev. and Mrs. G. W. Crabb and children.

Extra Heavy Fine Seed Oats at Ware house.

KIDDIE REVUE

The Kiddie Revue to be put on by a number of the younger members of Mrs. Conde Hardeman's class in expression at the Texan Theatre Saturday evening will be given as an additional feature to the regular program there and will precede the showing of the motion pictures. It will be made up of several short features including a brief playlette by Aleta Bierschwale and Mary Leigh Hull, and numbers by little Marche Burt and Betty Fay Kindrick, Lenore Riley, Mary Farmer, Wilna Pepper, Azalee Wallace and Reba Nell Little are the cast presenting A Spook Revel and Christine Schraub Marie Sheppard, Mae Delle Lowry and Juanita Cowsert will give a little figure dance called "In the Temple of the Winds." "In the Temple of the Winds," with Mrs. Guy Wynne at the piano.

The program will begin at 7:45 and there will be no advance in the regular price.

Extra for this week only—all ready-to-wear selling at 15% discount.
29c **The Model Shop.**

SCHELL BROTHERS SHOWS

Show people as well as others have their hard luck as was evidenced this week when the Schell Brothers Animal Shows were two days getting from Menard to Junction. They showed in Menard Monday and were billed to show here Tuesday. Some of the trucks and the one with the elephant did not arrive in Junction until nearly noon Wednesday.

No show was given Tuesday, but after all of the fifty-four trucks reached here Wednesday the tents were pitched and the shows given.

Schell Brothers have a good animal show, but could not do themselves justice here on account of the inclement weather.

MISSISSIPPI BILL ON WIFE DESERTION PASSED

Jackson, Miss., Oct. 30.—The House of Representatives passed a bill seeking enactment of a law making wife and child desertion a felony, a charge not now covered by law in Mississippi since the Supreme Court has overruled the present law.

Under provisions of the measure, wife desertion would be punishable by two years imprisonment, the same penalty applying to child desertion by either parent of children 16 years of age and under.

One hour's sleep before midnight is worth htree after.

The fearful unbelief is unbelief in yourself.

Courtship of 16 Years' Across Nation Results in Wedding

Providence, R. I., Oct. 29.—After sixteen years of correspondence over 3,500 miles across the United States, Zotic Napoleon Marcott, chief park ranger at Pinnacles National Monument, California, and Miss Marie Corinne Eugenie Therrien of this city were married here Monday morning.

The couple met while children. They will live in a house built for them by the Government on the reservation where Marcott is employed.

Who ever saw an old age which did not praise the past time, and blame the present.—Montaigne.
