HOUSE PASSES SILVER PURCHASE BILL

Administration Is Challenged by Crises on Many Fronts

STEEL STRIKE OF 500,000 IS DRAWING NEAR

WASHINGTON, D. C., May 31 — Labor, farm and international crises challenged the administration today. The ugly threat of bloody war was heard as the menace of steel and textile strikes affecting 500,000 workers drew nearer. A "rank and file" committee of workers called President Roosevelt's plan for averting the threatened strike with government supervising elections "just so much bunk." Trouble threatens on many fronts: 1.—Three-quarters of the national area suffers unprecedented droughts. 2.—Thousands of wage earners are striking or threatening toiling away tools. 3.—A war debt stalemate impedes the payments come due June 15. 4.—Congress is shying at some administration measures. 5.—Problems of international armaments demand solution. Overshadowing spectacular localized strike violence on the west coast and in Toledo and Minneapolis are threats of steel and textile walkouts and a general strike of American seagoing men. Textile workers are bitter against 25 per cent production cut ordered by NRA. Their leaders will confer with Adm'r Hugh S. Johnson tomorrow with demands for wage adjustment to compensate for decreased re-employment. Chaos in the oil industry is predicted by Sec'y of Interior Harold Ickes unless further regulatory legislation is enacted by congress.

Heads Crack in Drivers' Strike

With more than two score injured and martial law threatened in rioting continued in the Minneapolis truck drivers' strike. Here is shown a clash between a special police squad and strikers who attempted to halt delivery of perishable food at the market district. The photo was snapped as deputies arrived to reinforce police in quelling warring pickets. Note the second man beyond the automobile hood with hands raised to ward off the blow. Five thousand drivers who walked out have been joined by 36,000 building trades craftsmen.

STARR COUNTY IS FEARFUL OF NEW OUTBREAK

RIO GRANDE CITY, May 31 — Starr county stirred uneasily today least a spark fire a tinderbox of political enmity and result in additional bloodshed. Officers feared the slaying of two men and the wounding of seven others late yesterday at a political rally would be followed by more warfare. Many citizens openly armed themselves. Others gathered furtively at secret places, Texas rangers were watchful. Davila Gomez and Pable Solis were shot to death as they attended a rally against the Pharr-Guerra political faction, long-time rulers of Starr county.

HONOR PUPILS ARE GUESTS OF ROTARY CLUB

Roy Moad, member of the graduating class of the Cisco high school, today was presented to the Cisco Rotary club as the winner of the club's annual award for the "most valuable boy in high school." Young Moad's selection was made by faculty vote and was determined by the all-round record of the student during the year. The youth thanked the club for the award and avowed his purpose to try to continue in the good qualities for which the award was made. Miss Ilene Webster, salutatorian, and Julian Ely, valedictorian of the graduating class, were presented by President Phil Pettit, who had charge of the program for the day. Each delivered the brief address which was given as a part of the commencement exercises last Monday evening. Miss Webster's general average for the year. President Pettit told the club, was 93.9 per cent and Mr. Ely's '94 and 2-9ths per cent.

Baptist Pastor Has Operation at Dallas

The Rev. E. S. James, pastor of the First Baptist church, underwent an operation for a sinus affection at Baylor hospital, Dallas, yesterday morning. The minister left here Tuesday morning. Mrs. James and their children remain here. He was reported to be doing well this morning.

NO METHOD TO CONTROL FOOT ROT IS KNOWN

A disease known as "foot rot" is causing great damage to small grains, particularly wheat, in this section. J. M. Bird, vocational instructor at the high school and agricultural secretary of the chamber of commerce, said today. In some places, he said, damage has been so great that farmers are refusing to cut the grain. Specimens of the infected grain were sent to J. J. Taubenhuis, chief of the division of plant pathology at A. and M. college for a diagnosis some time ago, Br. Bird said. Dr. Taubenhuis' reply said: "I have carefully examined the specimens and found them affected by a disease known as foot rot caused by at least two different fungi, namely helminthosporium and septoria. Ordinarily, this disease is worse on wheat. Practical methods of control have not as yet been fully worked out."

President Watches Parade of U. S. Navy

ABOARD U. S. S. LOUISVILLE, off New York, May 31 — The navy proudly paraded three quarters of a billion dollars in gray steel ships and gray steel guns before President Roosevelt today at America's greatest peace-time marine and aerial spectacle. The president came here today from Gettysburg, Pa., to view the fleet.

House Probe of NRA Proposed by Sirovich

WASHINGTON, D. C., May 31 — A house investigation of the NRA was proposed in a resolution introduced today by Rep. Wm. Sirovich, Dem.-N. Y., who charged the Darrow board had failed to make a real study of the recovery administration. Under the resolution a special committee of these even would have blanket authority to inquire into the NRA.

WITH NEIGHBORS MORRIS, Conn., May 31 — Four hundred volunteers searched the woods and swamps of Morris for 16 hours for Roland Halkett, 11, before it was discovered he was with neighbors for the night.

IDEAL NATION IS ENVISIONED BY GERMAN ECONOMICS HEAD

By FREDERICH OECHSNER
United Press Staff Correspondent
BERLIN, May 31. — A nation, whose men of industry and trades are united under a code of ethics, which places the welfare of the people above the interests of their own pocketbooks—that is the vision of Nazi Germany, as seen by Dr. Kurt Schmitt, minister of economics. Dr. Schmitt sketched this ideal in an exclusive interview with the United Press. Practical Experience Chosen for his practical business experience, he was seen by foreign observers at the time of his appointment as a counter-balance to theorists. Today, Dr. Schmitt conceives the greatest need of German business to be unified leadership, and the complete cooperation of every branch in the service of the nation. "The system of economy prevailing in Germany hitherto," he explained, "was—as in all countries—a capitalist, liberalistic form—wholly free. This was likewise true in the United States, though things have changed there, too. Formerly in Germany, every man could operate his business as he chose; the only thing he could not do was break the laws. There were, consequently, innumerable businesses which went their own ways. The economic ethics and morals, the fundamentals of fairness and competition of the individual as long as there was no actual breach of the law. Nazi's Task "It was our task to change this without resorting to planned economy, to forced economy, to price-fixing, to cartels—in other words, to a fettering of economic life. "You ask me what the practical importance of all this can be in meeting economic problems?" "It is this: that the entire German economy is forcefully bound together in a semi-public organization, without depriving the individual enterprise of its freedom, or its initiative. Germany, he said, does not want to withdraw within herself, but if there is no other road open, she must do so. The way must be prepared for an international exchange of goods. That, Dr. Schmitt declared.

PAIR CLEARED IN MURDER OF 2 PATROLMEN

FORT WORTH, May 31 — Murder charges against Mrs. Billie Mae, sister of Mrs. Bennett, and Floyd Hamilton were dismissed today in the Easter slaying of two state highway patrolmen near Grapevine, Texas. Dist. Atty. Jesse Martin reported in a district court nabes corpus hearing that ballistic tests in Houston had proved that Clyde Barrow and Bonnie were the killers. Asking Mrs. Mae to stand, Dist. Judge Geo. Hoxey apologized to her for the "wrong which has been done you."

Girl Pleads to Talk With Crazy Father

ALAMEDA, Cal., May 31 — Frank Bennett, "suicide stiter," was successfully removed from his dynamite laden car at noon today. ALAMEDA, Cal., May 31 — With a plea for a chance to "talk to Dad," Virginia Bennett, 14, appeared today at the police line surrounding her father who sat on top of a homemade infernal machine and threatened to blow himself "to Kingdom Come."

Loyal Women Defeat J. O. Y. Team 7 to 4

The Loyal Women class' play-baseball team of the First Christian church registered a 7 to 4 victory over the J. O. Y. class' team of the First Baptist church in the first women's baseball game in Cisco yesterday afternoon. The game was played before a large crowd at Chesley field. Further games between women's teams have not been announced.

Britain Moves for Showdown on Debts

LONDON, May 31 — Great Britain stepped forward as leader of America's \$11,000,000,000 debtors today with a note designed to force a showdown on the issue of full payment or default.

He's Prexy, Now!

Dr. C. Q. Smith of this city who resigned yesterday as presiding elder of the Cisco district of the Methodist church to become president of McMurry college, Abilene.

DR. C. Q. SMITH NEW M'MURRY COLLEGE PREXY

Dr. C. Q. Smith, presiding elder of the Cisco district of the Methodist church for a year and a half, has resigned that post to accept the presidency of McMurry college, Abilene, unanimously tendered him by the board of trustees of the institution yesterday afternoon. At the eleventh annual convocation program of the school at 10 a. m. today he assumed actively the duties of the place made vacant March 12 by the death of Dr. J. W. Hunt, school founder. Dr. Smith's acceptance of the McMurry presidency came as a surprise to most of his friends in Cisco, who knew of his earlier refusal. Insistence of the school trustees and the challenge of a great educational opportunity finally overcame the determination of the presiding elder to return to the field he admitted he liked best—pastoral work—and he accepted tender of the place yesterday afternoon.

Bishop's Tribute

In presenting Dr. Smith to the board, Bishop H. A. Boaz, presiding bishop of the Northwest Texas conference, in which McMurry is located and also of the Central Texas conference, which Dr. Smith is now leaving, was reported by an Abilene newspaper to have said: "I regard C. Q. Smith as the most suitable man that is to be had at the present time as president of McMurry college. "I have known him a great many years. He is a successful pastor. He has never failed in any work to which he has been assigned. He has all the educational requirements necessary for a first class college president. He is an A. B. of Southern Methodist university and has the doctor of divinity degree by Southwestern university. Business Ability "He not only has the educational requirement, but he has business ability of the first order. As superintendent of the Methodist hospital at Ft. Worth for six years, he raised \$600,000 and put over a magnificent work there. "He has vision and initiative. He has the ability to block out a great program for McMurry college, or in any other position to which he might be assigned, and the ability to put the program over. He is not only a dreamer of great dreams but he is an executive to carry them through. "In addition to these qualifications, he has a very pleasing personality. The trustees and faculty will find him a man who knows his own mind and ready to speak it, yet agreeable in his relations with others. The student body will find him a wise counselor and a kind friend. Splendid Record Here. Dr. Smith's ability as an executive, organizer and religious leader was not more clearly demonstrated than in the record that the Cisco district made along all lines of endeavor since he came to Cisco a year and a half ago as its presiding elder. It became in his first year

'LEMON' AND 'SPECULATOR'S BILL' HEARD

WASHINGTON, D. C., May 31 — The house passed the silver purchase bill today by a one-sided vote, despite denunciations by silver bloc members that it was a "lemon" and charges by republicans that it was a speculator's bill. The measure now goes to the senate. The bill, result of a compromise between the White House and congressional silverites, declares it the policy of the United States to increase to 25 per cent the proportion of silver to gold in monetary stocks. The measure authorizes the secretary of treasury to purchase silver and permits the president to nationalize all domestic silver stocks.

Judge May Rule in Gas Hearing Today

AUSTIN, May 31 — Arguments and testimony before Judge W. F. Robertson were expected to determine today if the Lone Star Gas company must answer Atty-Gen. James V. Allred's suit calling for lower natural gas rates. Supporting its contention that the natural gas business is really interstate, figures were offered for 1933 by the company showing 30 per cent of the gas came from Oklahoma. Two hours a side had been allotted for arguments. Judge Robertson may take the matter under advisement until tomorrow.

2 Cisco Youths Are Lutheran Graduates

Mrs. Carl Weiser and Mrs. Carl Prange, accompanied by Ben Weiser, today are leaving for Austin where they will attend the commencement exercises of the Lutheran seminary, in which Erwin Prange, son of Mrs. Prange, is graduating as the valedictorian of his class. Rudolph Weiser, son of Mrs. Weiser, is also graduating.

Will Attend Baylor U. Summer Session

Frank Langston, a member of the grammar school faculty and who was formerly on the Daily News staff, left today for Waco where he will take summer courses at Baylor university. In addition to academic studies, Mr. Langston plans to take coaching courses. He will be away until August, he plans.

WON DECREE BRIDGEPORT, Conn., May 31 — Charles Wicks of Norwalk, told a Superior Court judge in applying for a divorce that his wife was a back seat driver, criticized him for being bald and caused him to lose 40 pounds by her nagging. He got the decree.

WHO WAS FIRST? IN AMERICA? By Joseph Nathan Kane Author of "Famous First Facts" SAMUEL OSGOOD FIRST U.S. POSTMASTER GENERAL APPOINTED SEPT. 26, 1783. FIRST POLITICAL PARTY NATIONAL CONVENTION 1827 AT BALTIMORE. TEXAS RANGERS FIRST STATE POLICE, ORGANIZED 1855.

Mrs. Barrow Protests Theater Displays Of Pictures of Clyde and Bonnie Parker

DALLAS, May 31 — Mrs. Cumie Barrow, mother of Clyde Barrow, threatened legal action today to prevent a local theater from displaying lobby pictures of the bandit and his gun-girl companion, Bonnie Parker. Last night Mrs. Barrow attempted to destroy pictures showing the bullet-riddled body of her son and his sweetheart slumped in their automobile in Louisiana. Arrested for creating a public disturbance, Mrs. Barrow said: "I'm sorrow for what I've done. I should have been a lawyer, but that theater has no right to show the bloody pictures of my son and the woman he loved. "I know what happened to them. He was betrayed by the best friend he ever had—Henry Methvin. Nobody is telling me anything. I know the story."

Proposed Negro TB Hospital Big Project

EL PASO, May 31 — The proposed Fred Douglas national tuberculosis hospital for negroes, to be built near El Paso at a cost of \$2,500,000 if a PWA loan is granted, promises to be one of the most useful and gigantic negro projects of its kind, sponsors said. The hospital will have a capacity of 1,157 beds—more hospital beds for negro tuberculars than there are now devoted to that purpose in the United States. The building also provides for the future for 600 more beds. The site of the sanatorium is about eight miles north of El Paso. The building will depict a Moorish influence in Spanish architecture, and when completed will resemble an Old Spanish feudal estate. There will be provision for about 27 units. A beautiful library modeled after the Taj Mahal in Agra, India, are planned. Equipment to be installed in the hospital will be the most modern in the world, the sponsors said.

Wheat Price Climbs 5 Cents at Ft. Worth

FORT WORTH, May 31 — Spurred by a drought over the Midwest, prices shot up to \$1.07 1-2 a bushel for No. 1 hard wheat here today. It was a five cent gain from the closing market Tuesday, last previous day of trading.

RELIEF CATTLE SLAUGHTER AT ONCE PLANNED

CHICAGO, May 31 — Arrangements for an unprecedented slaughter of a half million head of northwestern farm and range cattle, starving in barren pastures, were completed swiftly today by federal authorities as a third of the nation entered its fourth day of a record heat wave. Coming from a conference of governors, agricultural experts and federal farm agents in St. Paul, E. W. Sheets, federal drought relief director, announced that purchase and slaughter of emaciated and diseased cattle would be started immediately in seven states. He estimated that the program would reduce cattle on northwestern farms 20 to 25 per cent.

Ford Loss of Nearly 4 Millions Reported

BOSTON, Mass., May 31 — The Ford Motor company lost \$3,923,524 during 1933, according to its annual report filed with the state commission of corporations and taxation. This did not take into account possible dividends paid to Henry Ford, his wife or his son, Edsel.

Cisco and Parks to Play Here Tonight

There will be a double-header playground baseball game between an all-star team from Parks Camp and a Cisco team at the Humble-West Texas Utilities field tonight. It was announced by Vance Littleton.

WANTED NAME LOWELL, Mass., May 31 — In petitioning for a divorce on grounds of cruel and abusive treatment, Mrs. Nicho's Pappaconstantinou requested permission to resume her maiden name, Metropoulos.

7,800,766 BIBLES BOSTON, May 31 — The American Bible Society reported at its recent annual meeting (Friday) to have distributed 7,800,766 Bibles, Testaments, and portions of the Bible during 1933 in 155 languages and dialects and in more than 40 countries.

Clark Identified As Bank Robber

KINGFISHER, Okla., May 31 — Jim Clark, escaped Kansas convict, was one of the men who robbed the Peoples National bank of about \$1,600 today. Terry Farmer, bank employe, told officers on being released. Clark robbed the bank last year, with Farmer present. Farmer said there were three or four men in the robbery party today. Clark escaped from the Kansas penitentiary in the Memorial day break last year. The sheriff and other officers were reported in close pursuit of the bandits.

Cannery to Open for Summer Next Monday

The Cisco cannery will open the vegetable canning season Monday, June 4, J. M. Bird, chamber of commerce agricultural secretary, announced. Mrs. E. M. Oney will be in charge of the cannery, and she will be at the plant tomorrow (Friday) to make appointments with those who want to make use of the cannery's facilities. A schedule of charges has not been completed, Mr. Bird said.

THE PEACE OF GOD: The peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus.—Philippians 4: 7.

BLAME IT ON TOM

Tersely the Fort Worth Star-Telegram rebukes the Chicago Daily News for the poor manners of an editorial, "Uncle Sam, Piker," in which blame for the reduced federal appropriation for the second edition of the World's Fair is laid upon the shoulders of Tom Blanton. Both the Star-Telegram and the Cisco Daily News, as well as sundry other newspapers in Texas and Washington, know that Tom Blanton doesn't care a tinker's dam what the Chicago Daily News thinks about him. The point is that Blanton and most of his constituents, as well as millions of other good American citizens, admire Chicago and the splendid achievement of the World's Fair, but think that the fair ought to pay its own way. They certainly do not feel that the federal government and the taxpayers of this nation are obligated to reimburse the fair association for any losses it may have sustained, or guarantee it against any possible deficit through means of a large federal appropriation. The money that the administration is spending so liberally in an assault upon the depression has to be repaid from some source, and that source will be the pockets of the tax-payers. At least that has always been the source in the past. And if any person in the United States thinks he, or she, is immune to assessment for these costs, let him reckon what percentage of the price of his meals, the clothing he wears, the cigar he smokes and even the cold drink he consumes is commanded by these taxes. The mathematical result will make a believer out of him. Because a person does not have his name upon the income tax list does not mean he is escaping any contribution to the national treasury. He's paying and he will pay and pay.

So, when the Chicago Daily News declares that when the Texas constituents of the "miserly watchdog of the treasury" visit the fair "they will find that the American government ranks itself as a third or fourth class power," and "can thank Tom for it," his Texas constituents feel rather proud of having a representative in the national congress who rates the abuse. It is proof enough that they have a voice in the deliberations there.

COMMON SENSE RELATIONS

Abrogation of the Platt amendment in the Cuban national constitution by means of a new permanent treaty between the United States and the insular republic, which owes its independence to the fighting men of this nation, and the enunciation of a new doctrine of non-intervention in South and Central American political affairs hopefully suggest that this country is entering upon an era of common sense in international relations. It suggests that we have gotten over an obsession we were some sort of a godsend to a troubled world, with a monopoly upon the final truth, and have come to realize just what the rest of the world thinks of us as a trouble fixer. It suggests that we are prepared to let Europe and Europe's troubles alone and do some fence-mending at home. It suggests a realization that while we were getting our fingers burned in European affairs or throwing good money after bad in a noble effort to play the god-father, Japan and England and France and other trading countries were making a great deal of economic hay under the benevolent sunshine of the American smile. And it suggests it finally has percolated into the national mind how agreeably we were helping these competitors parcel out the South American markets by contriving to stir up resentment against us by sending the marines to interfere in their troubles or otherwise exercising a self-appointed guardianship. America's mission to the world may be one of great authority, but it can best be fulfilled by cultivating cordial and profitable relations in our own hemisphere. And the route of doing that is to approach these sister nations upon the basis of equality.

TEXAS COTTON GROWERS ASKED FOR IT.

Rexford G. Tugwell is acting secretary of agriculture. He has stated that an average price of 11.34 cents per pound of lint cotton has been established as the base for determining the tax rate on all cotton under the Bankhead act; that the figure was determined through a study of the price per pound of 7-8 inch staple middling spot cotton on the 10 spot markets, and that the tax which is fixed at 50 per cent of this price, will be levied on all cotton ginned in excess of the total of 10,000,000 bales established in the act. Texas leads all states in the production of cotton. A vast number of Texas growers clamored for the Bankhead act. Its restorative influence will be given the acid test this year and next year.

Petroleum is the chief money staple of Texas. Cotton held the high position for years and years. All Texans are interested in a fair price for cotton and all Texans within or without the pale of the petroleum industry, are interested in the way the petroleum natural wealth of Texas is to be handled in coming years. Texas was a free republic established by the rifles of pioneers in the long ago. These pioneers and their sons who came after them adopted the articles of annexation and the republic became one of the sisterhood. All public lands, or rather their ownership and control, were retained by Texas in the transition of a republic to a state of the union. All the handling of treasure wealth in these lands retained should be subject to the control, or rather conservation, of the Texans of today, speaking through the conservators named by the votes of the people and functioning as rail commissioners assisted by all other officials of the state government.

TO GET THE REAL SPIRIT OF THE THING

ALL DELEGATES TO DISARMAMENT CONFERENCES SHOULD ARRIVE ON FOOT—EQUIPPED WITH 15-POUND RIFLES AND 35-POUND PACKS.

"How Are We Going to Activate Capital Goods Industry?"

By HUGH NUGENT FITZGERALD. Washington sounded the warning that a big push to send congress home in another fortnight has been opened by administration leaders. President Roosevelt is said to have helped when he compromised with a militant senate conference committee "to prevent a deadlock over controversial sections of the stock market control bill. He also has given the administration blessings to a silver program in an effort to appease western senators and thus hasten adjournment." Now both measures are assured by early passage—this by the leaders of both houses of the congress.

Another important committee that is the tunable goods industry committee of the national recovery set-up has made its report. This committee was created to answer the administration's question of "how are we going to activate the capital goods industry?" Well, the committee investigated and reported. Its forecast was that re-establishment of confidence on the part of investors was most important. Its program as made to the president by a committee of 16 headed by George H. Houston, president of the Baldwin Locomotive Works, was summarized as follows by Washington correspondents: "First a free flow of private capital into private business. Second, a sound real estate mortgage market. Third, an industrial relations on a basis to assure cooperation instead of strife. Fourth a balanced parity parity between agricultural commodities and manufactured goods."

Now it is for the congress to get busy on the legislation necessary. All the people, regardless of political party affiliations are interested in pushing along the cause of national recovery and the complete restoration of confidence in all branches of business, in all fields of human endeavor and in a policy of cooperation instead of strife, on the part of the employers of labor as well as a quick recognition of the rights of all on the part of wage workers as well as those who operate the great corporations of human activity the country over.

PLACE GEOFFREY HERMAN IN THE BIG PICTURE

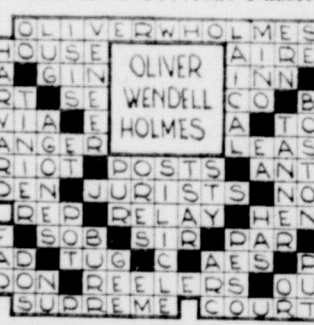

Henry Ford has the human touch. Henry Ford for 30 years has been one of the most remarkable men on the American stage of action. He has spent more than \$1,000,000 this year for a remarkable display or exhibit at the Century of Progress Chicago show. Well, Sunday was the opening day of the second year of the show. This was a top notch dispatch: "A 10-year-old boy from Boston, Mass., took precedence over a half dozen executives at the World's fair today when he was taken on a tour of the new Ford exhibit by Henry Ford himself. The boy was Geoffrey Herman, and Mr. Ford, hatless and coatless, came upon the youth at the Ford exhibit. They struck up an acquaintance and Mr. Ford proceeded to guide him around. Soon other boys joined the impromptu tour and it became a pilgrimage with Mr. Ford leading the way." Henry's important secretaries and guides stood aghast. They were horrified. They reminded the wizard of the West of previous engagements with men "high in the world of business and finance." Well, the big boss gave his secretaries the laugh. He waived aside his secretaries. This is what he said: "The boys come first. We don't need to be afraid of anything in this country if we train our boys right." Correct to the last letter. I propose this amendment to the Henry Ford advice: "We don't need to be afraid of anything in this country if we train our boys right—and our girls too."

Through the Editor's Spectacles

By GEORGE

An Eastland man was arrested Tuesday night and fined \$23 in corporation court the next morning on a charge of reckless driving. The man, who officers said was sober, was accused of having driven through the business district after 9 p. m. at a terrific rate of speed, his horn screaming.

We know this is a nine o'clock town, but we don't like for our Eastland cousins to come over here and flaunt the fact in our faces. If it keeps up we shall have to send over there and move our part of the courthouse over here.

Dr. C. Q. Smith, presiding elder of the Cisco district of the Methodist church and undoubtedly as popular and efficient as any presiding elder who has ever served this district, caused his friends surprise when he accepted the presidency of McMurry college, Abilene, yesterday. It was generally believed, until a day or so ago, that he would refuse the proffered election. In fact he had once definitely turned it down. But, as he told the Rev. and Mrs. Frank L. Turner, Methodist pastor here, early this week, the decision to go just

"struck him full in the face" as he arose that morning.

Those who know Dr. Smith know why the trustees of McMurry college were so insistent upon his taking the place that the death of Dr. J. W. Hunt, school founder, left vacant last March 12.

Dr. Smith, to my mind, is ideal timber for a college president, particularly the presidency of a school that is young and growing. I don't think he'd fit into a pattern of uncompromising tradition. He possesses executive ability that would command a large salary in the business world. That ability was demonstrated in the financing and construction of the Methodist hospital in Fort Worth, of which he was commissioner and superintendent for six years. It was also demonstrated in his supervision of the Cisco district during the year and a half he was presiding elder. The district led the conference.

That practical nature is in rare combination with a high idealism which inspires whatever he does with the wonderful color of romance. Furthermore, he is intensely active, intensely interested in whatever he does. As presiding elder here, he was ever on the go, ever doing, never done, always envisioning something better and working toward it.

Furthermore again, he is one of the handsomest men in the country.

Another good citizen, gone to Abilene!

One holder of Cisco municipal bonds believes in straight trading methods. He appeared at the city hall a week ago with \$200,000 in the defaulted securities in his brief case and offered to sell them back to the city at five cents on the dollar. That would have been \$10,000. The bonds were actual securities, not certificates of deposit.

He said, after looking over the city's financial statements, that he thought Cisco would be doing well to stand up under a 10 cents on the dollar refunding plan.

Mayor Berry informed him that although the city has on deposit to the credit of the sinking fund about \$80,000, he couldn't buy the bonds even at the low figure asked. Patiently he explained that the sinking fund is legally shared by all the bondholders and the pro rata part of the \$200,000 offered by the visitor is much less than \$10,000. He also pointed out that the legality of much of the city's debt is under fire in litigation on appeal.

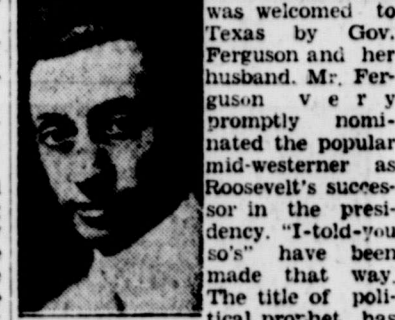

from the federal district court at Abilene.

Tom Stark is home, laid up with a fracture in one of his legs, a minor break but a painful and disabling one. The injury occurred Tuesday evening while Tom's playground ball team was playing a team gathered by Vance Littleton.

The two captains collided at second base. Some of the wags on the street are hinting that Tom is getting awkward in his advanced years, but Specs sends sympathy and a sweet-smelling bouquet to make the tedium pleasanter.

AUSTIN, May 31.—For long range political guessing—for early bandwagoning, James E. Ferguson put all competitors in the shade. When U. S. Secy. of Agriculture Wallace

visited Dallas, and was welcomed to Texas by Gov. Ferguson and his husband, Mr. Ferguson very promptly nominated the popular mid-westerner as Roosevelt's successor in the presidency. "I told you so" have been made this way.

The title of political prophet has gone to many a man whose achievement was not so much guessing right as guessing early. There are not so many eligible to be successor to the present democratic leader. Many believe the successor will come from the progressive mid-west country. Mr. Ferguson has had his say.

Strangest of the political conditions of the year is the platform upon which W. Gregory Hatcher is running for railroad commissioner. That platform is the statement that the railroad commission is, and would be if Mr. Hatcher were a member, incapable of performing the duties given it by law in respect to the oil industry. It is the advocacy of abandoning the functions

prescribed by Texas law, in favor of federal administration of the oil business within Texas.

It was a courageous bid for the support of all those who don't like the oil conservation administration of the state, under orders which will meet the objections of federal courts.

"Where do we go from here," Sen. John W. Hornsby of Austin, challenged all his opponents for lieutenant governor, after the San Angelo get-together party of political candidates at the West Texas chamber of commerce convention.

The lieutenant governor candidates have made much of their personal friendship, and the lack of bitterness in their race. His competitor, wired Hornsby to know why he was not present the first day of the San Angelo convention. They made their speeches then. Next day he as their sole candidate for lieutenant governor, and made his speech. He answered their telegram, congratulating them on accepting his proposal for joint appearance of candidates; and asked them where the campaign will take the group on its next joint appearance.

It is a merry race. Candidates are Sen. Hornsby, Sen. Joe Moore, Former Sen. B. F. Berkeley, and Rep. R. M. Johnson.

Daily News and American side Roundup want ads are a good investment.—Phone 82.

Tomorrow's Star Signals

The day is not a day of events unless things were started at some other time. It's rather favorable, being clear out and direct. The mood is in Sagittarius which is an honest and forward sign. People encountered at this time are likely to bear these qualities. The evening hours should be pleasant, inclining to artistic and literary subjects.

TOMORROW'S BIRTHDAYS

You have a talent for writing Books or writing materials should be your business. A love affair will prosper on July 4. If you are eligible for such. Two stars to be careful of are June 12 and 13. Your health and employment will prosper from November 12 through 17, but be careful of profession, parents and health during April, 1935.

DONNA of the BIG TOP by BEULAH POWYER

BEGIN HERE TODAY DONNA GABRIEL, circus performer, falls from the trapeze and is injured. To please her partner, MADLEINE SIDALL, Donna goes to Madeline's home, recuperating, pretending to be the other girl. She is ashamed of this, but her partner, BILL SIDALL, Madeline's cousin, asks her to marry him. AMOS SIDALL, Madeline's father who owns the farm, is blind. MRS. PLANTER, housekeeper, is discharged by Donna. Donna and Bill are married. Meanwhile Madeline has married GUY DAVID, circus animal trainer, and taken part in the animal act.

Amos Sidall has a stroke. Bill and Donna go to a movie. They have a fight, understanding that Amos is dead. Strangler discharges Con. Unable to get work, Con decides to go to the Sidall farm.

Bill and Donna go to a movie. They have a fight, understanding that Amos is dead. Strangler discharges Con. Unable to get work, Con decides to go to the Sidall farm.

Bill and Donna go to a movie. They have a fight, understanding that Amos is dead. Strangler discharges Con. Unable to get work, Con decides to go to the Sidall farm.

for me. It wasn't regret, or anything like it, that sent me to pieces tonight. It was thinking about a friend, a very dear friend who died in an accident. That girl—the one who played Polly—looked something like her—"Why didn't you say so then?" "You didn't give me a chance." "If I were only sure you were telling the truth—" "I am! I am! I love you more than the whole world. When you aren't yourself or there's any coolness between us the life is all gone out of me. Sometimes I think it must be wrong to love anyone as I do you. I'm afraid some misfortune will come of it."

"Darling," he murmured, and cradled her head on his chest. "What a crazy fool I am."

And at the very time when the rift that had made them both so miserable for a brief while was dissipated Con David was making his plans to come to Lebanon.

Thanksgiving day was drawing near. I mean Thanksgiving Day on this earth and Donna was determined that it should be a pleasant and cheerful one.

All Tuesday afternoon she and Minnie were in the warm, spiced kitchen, both with their sleeves rolled to the elbows. While Donna mixed cake batter, weighing the citron and nuts and fruit for the cakes, Minnie stirred the kettle of yellow pumpkin and kept up a flow of chatter.

"You should have made that cake a month ago," she said.

"Yes, I know," Donna answered good-naturedly. "Hand me that bottle of brandy, Minnie."

"My land, d'ye think Mr. Sidall's least Grandpa—will eat any of it if there's brandy in it?" Brandy's liquor, at it?"

Donna laughed, "I don't think he will object to this kind. It's just for cooking. Mrs. Planter must have used it, for I found it down in the cellar with the shelves of preserves."

"Speakin' of Mrs' Planter, I saw her the other day when I went into town. She wouldn't speak to me. I reckon she holds it again 'cause you give her her walking papers and took me on. Folks say her nose got out of joint 'cause she didn't get a chance to marry Grandpa Sidall."

"I wouldn't repeat that," Donna cautioned gently. "It's too silly to believe."

"Yes, ma'am, I spose it is, but she sure don't like this family and she must a-had some reason for sayin' the things she does about you."

"About me?" In spite of herself Donna could not keep back the question.

"Yes, ma'am. Nothing much of course. She couldn't say very much, though her tongue is pizen—just that if Grandpa hadn't been well-to-do you'd never stayed home, and that folks might think you'd changed a lot and wasn't fighty no more but that she knew better and could tell things if she wanted to."

"All of which means nothing."

ESSENTIALS FOR GOOD CAKES

Mrs. F. C. Larkins, farm food demonstrator of the Peak Home Demonstration club states, "Cake making is not only an art, but can be done by all women if the following essentials are followed. I have improved the cakes I make by following the essentials I am giving you."

1. Ingredients of the best quality.
2. Accurate measurements (don't guess or the result will not be what it should be).
3. Proper method of mixing.
4. Proper oven temperature.
5. Eggs toughen at high temperature and this one thing makes it necessary to have the oven the right temperature.
6. Careful handling during and after baking.

The fourteen cooperators of the Peak club are working to improve the cakes for the families and to help other women of the community to do the same. They say "fewer but better cakes for the family."

EXACT AMOUNT OF FLOUR

"My cakes are never too dry since I sift the flour once before measuring," said Mrs. Edwin Erwin, of the Sabano Home Demonstration club. Flour packs easily and for this reason it should be sifted before measuring in order not to have more flour than the recipe calls for and by doing this one avoids a dry cake and one that may crack on top or have a tough crust. After sifting the flour, do not dip the cup into it and do not jar the cup on the table, both will pack the flour

back and your trouble is for nothing."

CUCUMBERS ARE READY

Mrs. Grace Driehoffer, Ranger Co-Workers Home Demonstration club gives the following recipe for Chunk Pickles (sweet). "I have used this recipe for several years and my family and friends like these pickles better than any kind I make."

- "2 gallons cucumbers
 - "1 gallon boiling water
 - "1 pint salt
 - "2½ quarts vinegar.
 - "5 cents worth stick cinnamon.
 - "Alum size of a walnut.
 - "1 tablespoon celery seed
 - "7 cups sugar.
- Wash cucumbers and place in jar. Pour one gallon boiling water and one pint salt over pickles, let stand one week. Pour water off, wash cucumbers and jar; replace pickles in jar and cover with boiling water and let stand 24 hours. Drain and cut in small pieces. If the cucumbers are small, they can be used whole. Boil vinegar and sugar (with celery seed and cinnamon tied in bag) pour over pickles let stand 24 hours, repeat for three days. Each morning, boiling liquid and pour over pickles. Last day, put pickles in jars and seal."

SLEEVE BOARD ESSENTIAL

A sleeve board is useful in so many ways that it will pay a person to make one as soon as possible. Pad and cover the pressing surface,

and use it to press sleeves, under-arm, shoulder and sleeve seams, points and gathers in hard to get at places. "My sleeve board has been worth more than I can figure in my sewing," said Mrs. Floyd McCormick, clothing demonstrator of the Bass Lake Home Demonstration club. The directions with drawing is available to all. Write the home demonstration agent or the Extension Service, College Station, Texas. Scrap lumber can be used for the sleeve board, but it takes such a little it is worth more than the cost to get the new material and make one in the best way.

DILL PICKLES

"Have variety in pickles as well as other foods," says Mrs. Henry Capers of the Bass Lake club. "The following recipe will help with the different pickles."

"Place in the bottom of the jar a layer of dill and one-half-ounce of mixed spice. Then fill the jar to within two or three inches of the top with washed cucumbers of as nearly the same size as practicable. Add another half ounce of spice and layer of dill. It is a good plan to place over the top a layer of grave leaves. In fact, it would be well to place these at both the bottom and top. They make a very suitable covering and have a green- ing effect on the pickles."

"Four over the pickles a brine made as follows: salt, one pound; vinegar, one pint; water, two gallons. Never use a hot brine at the beginning of a fermentation. The chances are that it would kill the organisms present, thus preventing fermentation. "Cover with a board cover or plate with sufficient weight on top

to hold the cucumbers well below the brine. "If the cucumbers are packed at a temperature around eighty-six degrees F. an active fermentation will at once set in. This should be completed in ten days to two weeks, if a temperature of about 86 degrees F. is maintained. The scum which soon forms on the surface and which consists usually of wild yeasts, but often contains mold and bacteria, should be skimmed off.

"After active fermentation has stopped, it is necessary to protect the pickles against spoilage. This may be done in one of two ways: (1) Cover with a layer of paraffin. This should be poured while hot over the surface of the brine or as much of it as is exposed around the edges of the board cover. When cooled this forms a solid coating which effectively seals the pickles.

(2) Seal the pickles in glass jars or cans. As soon as they are sufficiently cured, which may be determined by their agreeable flavor and dark green color, transfer them to glass jars, and fill either with their own brine or with a fresh brine made as directed. Add a small quantity of dill and spice. Bring the brine to a boil, and, after cooling to about one hundred and sixty degrees F. pour it over the pickles, filling the jars full. Seal the jars tight and store in a cool place.

"I prefer sealing in the small jars because I can open the small container without disturbing the others and when all are in a large container it means sealing again.

"Dill can be grown in the gardens and each person should have some dill growing each year."

PLEASANT HILL

Mr. and Mrs. Alta Hardin and children of Loraine spent last week with Mrs. Hardin's parents, Mr. and Mrs. M. E. McCord. Mr. and Mrs. Nelson McKinnerney spent Saturday night visiting Mr. and Mrs. Jess McKinnerney and family. Mrs. Edgar Alton and children, and Shannon Ramsey attended the graduation exercises in Cisco Monday night.

Mrs. Sam Courtney of Cisco spent this week with her grandparents, Mr. and Mrs. A. A. Abbott. Mr. and Mrs. Jess Taylor and children of Eastland visited Mrs. Taylor's parents, Mr. and Mrs. S. A. Lamb, Sunday.

Ilan Clark attended the school play at Cook Wednesday night. Mr. and Mrs. Bill Welch and Mr. and Mrs. John Daugherty were Sunday dinner guests of Mr. and Mrs. Henry Hardin.

Mr. and Mrs. Jess McKinnerney made a business trip to Eastland Thursday. Misses Pearl and Mildred and Troy Lamb attended the commencement exercises in which their niece graduated at Eastland Friday night.

Several in the community attended the school play at Word Saturday night.

Billy Clayton and little Joann Hardin are ill with the measles. Mrs. G. P. Poe and son of Cisco visited in the community Thursday.

Mrs. B. F. Trott and daughters, Betty June and Doris Marie of Loraine were visiting relatives here Thursday.

Miss Lola Mae Hooker and Bob Hooker accompanied Mrs. Lee Poe of Cisco left on a trip Saturday to San Antonio, Corpus Christi and other towns in the south.

Andy J. Taylor of Eastland is visiting Troy Lamb this week. Mr. and Mrs. Edgar Alton and daughter, Elaine, spent Sunday with Mr. and Mrs. Moon.

Mr. and Mrs. Marvin Holt and children and Mr. and Mrs. Spears of Breckenridge were Sunday guests of W. J. Holt and family.

Mr. and Mrs. Homer McDonald and daughter, Margaret Ann, were dinner guests of Mr. and Mrs. James Bone Sunday. In the afternoon Mr. and Mrs. Bone accompanied the McDonalds to visit Mrs. J. C. Deyer, mother of Mrs. McDonald and Mr. Bone at Pueblo.

Mr. and Mrs. A. H. Lockhart and daughter, Rube Neile, visited Mr. and Mrs. Clarence Hasting and family of Carbon.

Misses Frances and Flora and Lucille Bacon and Vivian Kilpatrick of Cisco were callers in the home of Ilan Clark Sunday morning.

Mr. and Mrs. Jess McKinnerney and children spent Sunday with Mr. and Mrs. A. H. Morris of Rising Star.

W. J. Holt and son, Aubrey, were business visitors in Carbon Monday afternoon.

Miss Bessie Taylor of Eastland visited Misses Pearl and Mildred Lamb Thursday.

Mrs. McMillen of Carbon is spending this week with her daughter, Mrs. A. H. Lockhart.

Mrs. Ed Johnson and children were visiting relatives in Romney Monday.

Misses Ilan and Louise Clark were week-end guests of their grand-

parents, Mr. and Mrs. F. W. Smith, of Cisco, where they met their great-grandmother, Mrs. V. Hackney, and uncle and aunt, Mr. and Mrs. Gene Smith, and Mrs. Bert Green of Denton for a short visit.

Carl Stroebel visited his sister, Mrs. Dan Wende, Saturday night. Several young people in the community were visiting in Mr. and Mrs. S. A. Lamb home Sunday.

Stanley Webb of Romney, Vivian Kinard of Big Spring, Misses Lucille Bacon and Vivian Kilpatrick of Cisco also were among the crowd.

Several young people in the community attended a party of Mr. and Mrs. C. L. Carmichael of Cook.

Mr. and Mrs. Ray Tucker and Mr. and Mrs. John Daugherty and family attended the graduation ex-

ercises in which Miss Reba Tucker was graduated Friday night at Carbon.

Mr. and Mrs. Dan Wende and sons and Mr. and Mrs. Herman Reich and daughter attended an all-day picnic at Mr. Weiser place Sunday.

Last Friday evening Mr. and Mrs. James Bone were host and hostess to a party honoring Miss Lola Mae Hooker who left for San Antonio Saturday. The rooms were decorated with masses of pink and white roses and ferns. Games were played during the evening, directed by Miss Ilan Clark. The table was laid with a linen cloth and was centered with a cut glass bowl of pink roses an ice course, consisting of ice cream and cake were served to the following guests: Misses Frances and Flora

Bacon, Ilan and Louise Clark, Elizabeth McCracken, Evelyn Holt and the honoree, Lola Mae Hooker. Messrs. Ira Hooker, Aubrey, and Avery Holt, Doc and Carl Stroebel, Stanley McCracken, Alton Clark, Charlie Parks, Laura Daugherty, Shannon Ramsey and the host and hostess.

EXHIBIT PAINTINGS
NEW ORLEANS, May 31 — Pic-

tures, painted by children ranging from six to 14 years, formed an exhibit at the Arts and Craft School. Most of the works dealt with childish themes.

TARVEN IS POOR HOUSE
ROCKVILLE, Conn., May 31—The old King Stage House, a famous tavern at which Marquis Lafayette, Daniel Webster and Henry Clay visited, now is a poor house.

Political Announcement

The Cisco Daily News and American and Roundup are authorized to announce the following as candidates for the political offices with which their names are associated, subject to the action of the democratic 1934 primaries:

- For County Treasurer: JOHN WHITE, MRS. MAY HARRISON. For Sheriff: VIRGE FOSTER (Re-election). For County Comm. Pre. No. 4: ARCH BINT (Second Term), BIRT BRITAIN, L. H. QUALLS, J. J. HONEA. For County School Superintendent: C. S. ELDRIDGE, T. C. WILLIAMS. County Judge: W. D. R. OWEN, CLYDE L. GARRETT (Re-election). Justice Precinct No. 6: JOE WILSON.

AN ORDINANCE To Regulate Fishing and Prevent the Pollution of the Waters in the Lakes and Reservoirs Belonging to the City of Cisco, and Declaring an Emergency.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CISCO:

That on and after the passage of this Act it shall be unlawful to take fish from the lakes or reservoirs owned by the City of Cisco or to fish in said lakes or reservoirs except as hereinafter provided.

All persons fishing in the lakes or reservoirs belonging to the City of Cisco must obtain a written permit from the Mayor of said city before entering upon the lands adjoining said lakes or reservoirs owned by the City of Cisco and before fishing in said lakes or reservoirs, and must present same for inspection to the watchman or caretaker of any of said lakes or reservoirs or to any authorized officer of the City of Cisco when called upon to do so.

An annual permit shall be obtained by the payment of the sum of One Dollar and fifty cents (\$1.50)

per annum, or a daily permit upon the payment of the sum of twenty-five cents (25c), for each permit. The annual permit shall be good for the current calendar year, and the daily permit shall be good for the period of one day. The annual or daily permit shall entitle the holder or the members of his or her immediate family or any out-of-town guests, when accompanied by the holder of the permit, to fish in said lakes or reservoirs, provided, however, that the holder of the permit shall be at all times responsible for the infraction on the part of the members of his or her family or on the part of the guests of the holder, of any of the rules and regulations herein or that may be hereafter prescribed.

It shall be unlawful to use any kind of bait except live bait or artificial lures and flies, to set nets, seines, snares, traps, or other devices for taking fish from the waters of the said City of Cisco, or to use dynamite, powder or drugs of any kind to kill fish in said waters. It shall be unlawful to use or leave any meats or the body or any part of the body of any animal or fowl or any other putrefying substance in or near said lakes or reservoirs or on the watershed thereof.

It shall be unlawful for any person to take from said lakes or reservoirs in any one day more than fifteen (15) pounds of bass and/or crappie on his or her permit provided, however, that if any person should catch one fish weighing fifteen pounds or more, he or she will be allowed to keep said fish, but will return to the waters carefully

and alive all other bass and crappie that may have been caught. And it shall be unlawful to keep any bass under eleven inches in length, or any crappie under seven inches in length, measurements being taken from point of nose to end of tail fin, and all fish caught under the length herein specified shall be carefully returned to the waters alive.

It shall be unlawful for any person to fish in any lake or reservoir belonging to the City of Cisco without first obtaining the permit hereinafter provided for. These permits are not transferable and only one permit will be issued to each person at one time. It shall be unlawful for any person to take fish from any lake or reservoir belonging to the City of Cisco for commercial purposes or to sell any fish so taken from said lakes or reservoirs.

Any person violating any provision of this ordinance shall be fined in any sum of not less than Five Dollars (\$5.00) and not more than One Hundred Dollars (\$100.00), and in addition thereto the City Commission may cancel said permit. All previous ordinances or parts of ordinances conflicting with this ordinance are hereby expressly repealed.

In view of the fact that there are not adequate and uniform regulations providing for the regulation of the sanitary conditions in or at the lakes and reservoirs of the City of Cisco and controlling the fishing in said lakes or reservoirs, this act shall be placed on final reading and shall become effective from and after its passage and publication.

Passed on this the 22 day of May, 1934. J. T. BERRY, Mayor. Correct Attest: J. B. CATE, City Secretary. Approved on this the 22 day of May, 1934.

MOORE DRUG COMPANY

Nyal Service Drug Store SERVICE—QUALITY

free \$1500.00 in PRIZES for the best letter on "Why I like a Modern Gas Kitchen"

Your gas company and a number of leading appliance manufacturers offer 50 handsome prizes for the best letter on "Why I Like a Modern Gas Kitchen." You don't have to buy a thing to win one of these prizes, which have been donated for the purpose by manufacturers. All you need to do is to consider the advantages of the modern gas range, gas refrigerator and water heater, then write down in your own words the reasons why you like a modern gas kitchen. Possibly the convenience of gas appliances, or their efficiency, or economy, or all three of these qualities appeal to you.

You do not need actual experience with all the equipment of an up-to-date gas kitchen to enter this contest. What counts most are your own ideas of the chief advantages of modern gas appliances and what they can do for a home. There are fifty prizes! You can win one! Try it! Begin your letter today.

50 PRIZES

- GRAND PRIZE: The three absolutely essential appliances of the modern kitchen - an automatic gas range, an Electrolux gas refrigerator and an automatic gas water heater. SECOND PRIZE: An Electrolux Gas Refrigerator. THIRD PRIZE: A modern gas range. FOURTH PRIZE: A modern gas range. FIFTH PRIZE: A modern gas range. SIXTH PRIZE: A modern automatic gas water heater. SEVENTH PRIZE: A modern automatic gas water heater. EIGHTH PRIZE: A modern automatic gas water heater. NINTH PRIZE: A modern automatic gas water heater. TENTH PRIZE: A 10-radiant room heater. ALSO 40 small room heaters as additional prizes for letters that receive honorable mention.

The Rules

(Contest Opens June 1, 1934. Closes June 30, 1934)

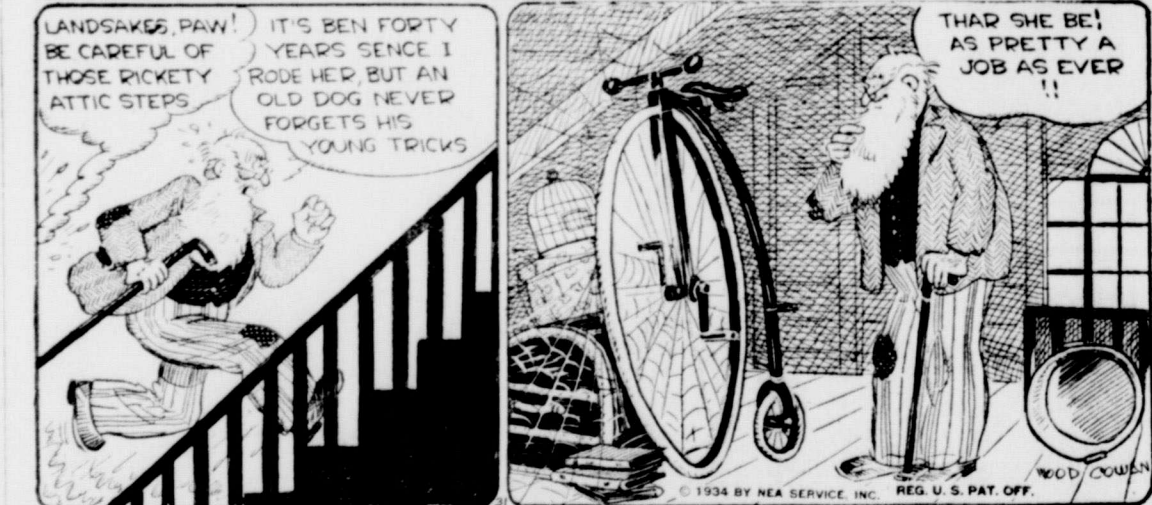

- 1 All gas customers, and Stargas customers, and members of their families served by any company in the Lone Star Gas System in Texas are eligible to compete for these valuable prizes, except employes and members of their families. 2 Write legibly on one side of the paper only. 3 Write your name and address plainly at the bottom of your letter. 4 Mail your letter to Gas Contest Judges, 301 South Harwood, Dallas, Texas, or bring it to the office of your gas company. 5 All entries received become the property of the Lone Star Gas System for their use and will not be returned. The home economics representatives of three leading Texas colleges will act as judges.

OUT OUR WAY

THE CUFFING

DESDEMONA

Miss Minyon Whitworth came home Saturday from Stephenville where she was one of the graduates of John Tarleton college. Her many friends are quite proud of the record she made there, having been on the honor roll every time the past year. She will teach the coming year at Kokomo.

In a recent issue of the Dallas News there was an account of the meeting of the Blue Key Fraternity at Southern Methodist university at which the officers for the coming year were elected. Among those elected was William Howell who was elected vice president. The Blue Key Fraternity is organized in Florida in 1921 and has spread rapidly through the nation. The membership in the Blue Key at S. M. U. is limited to 15 students and 5 members of the faculty. The students being selected for their outstanding, strong character and real worth to the university. William Howell is a son of Rev. and Mrs. Z. L. Howell and has many friends here who are glad to hear of his honors.

Mr. and Mrs. Wofford Jones of Addo, were guests of his mother, Mrs. Eula Jones a few days last week.

Henry Gentry and three sons, his

father-in-law, Mr. Reid and his nephew, Philip Reid, spent a few days fishing on the San Saba last week. They brought back a nice lot of fish.

Rev. and Mrs. Sherrod Stover came in from Lubbock Friday night and visited his parents, Mr. and Mrs. S. T. Stover a short time before going on to his church at Cleburne.

Mrs. H. B. Davis and little son, Bobby Glenn, of Lubbock visited her sister, Mrs. Plummer Ashburn last Wednesday and Thursday.

Born—On Friday morning May 25, 1934 to Mr. and Mrs. A. B. Henslee, a girl whose weight was 7 1-2 pounds and who was given the name of Sarah Ann. Mother and baby are getting along nicely.

Born—On Thursday, May 24th, 1934 to Mr. and Mrs. Gene Ashley, a girl whose weight was 8 1-2 pounds and who was given the name of Billie Gene. The Ashleys and her parents, Mr. and Mrs. W. R. McGowan lived in Desdemona two years but now live in Eastland.

Rev. and Mrs. Z. C. Chambliss have been visiting friends at Freer the past week and he has been preaching there.

Mr. and Mrs. Obed Henslee and little daughter, Barbara of Freer, Texas, came in Saturday night to visit their parents, Mr. and Mrs. W. B. Hilliard and Mr. and Mrs. A. E.

Henslee. They came especially to see the new member of the family the baby daughter of Mr. and Mrs. A. B. Henslee.

Miss Dorace Roe left several days ago for Abilene where she is visiting her sister, Miss Bernice Roe, who has an important position with an insurance company.

The "21" Study club met Tuesday of last week at the club house for the closing meeting of the club year. After a longer business session than usual, Mrs. A. C. Robert led the program the final one of the course, "Our Nation—Its Progress and People." The subject was "Progress in Government" and was as follows: U. S. Supreme Court—Mrs. A. C. Moore.

Cabinets of Washington and F. D. Roosevelt—Mrs. Mattie Henry.

"The Senate" and "The House"—Mrs. John Mendenhall.

Song—The Star Spangled Banner—club.

The Bureau of Standards—Mrs. S. E. Snodgrass.

The Biggest Business in the World—U. S. Post Office—Mrs. W. E. Barron.

The New Deal and the Dealer—Mrs. A. C. Robert.

Smithsonian Institute—Mrs. Plummer Ashburn.

Those present were Meses. Gifford Acree, W. E. Barron, Plummer Ashburn, W. C. Bedford, Aaron Henslee, A. C. Moore, Fred Welder, C. W. Matthy, Roy Ashburn, Mattie Henry, Dave Parker, John Mendenhall, Arnold Anderson, S. E. Snodgrass and A. C. Robert.

Miss Mollie O'Rear is visiting friends in Eastland this week.

Miss Virginia Bruce left several days ago with her sister and brother-in-law and their baby, Mr. and Mrs. R. D. Hendrickson, for Port Arthur where she will visit them a week.

Mrs. W. W. Mitchell formerly of Desdemona but now of Huckabee is visiting her sister, Mrs. A. B. Henslee.

Mr. and Mrs. I. N. Williams drove over to riding Star Sunday afternoon.

Mr. and Mrs. M. P. Williams had with them last week their little grandson, Bobby Williams of Midland. On Saturday they took him to Ranger to visit his other grandparents, Mr. and Mrs. R. B. Patterson.

Mrs. H. J. Abernathy is enjoying a visit from her sister, Mrs. Mott of Bridgeport, Wise county, who came Saturday. She was met at Stephenville by her nephew and niece, Mr. and Mrs. Homer Abernathy of Gorman.

Dr. P. M. Kuykendall came down from Ranger on professional business Saturday evening. He was accompanied by his daughter, Miss Alla Ray Kuykendall and his niece, Miss Virginia Acree. The many friends of the Kuykendall family were glad to hear that Mrs. Kuykendall is improving after a few weeks' illness.

Miss Ruth Abel is visiting relatives at Alexander.

Mrs. J. E. Heeter drove up to Graham Saturday to visit her husband who is drilling oil wells near there.

Married—At Bryan, Friday, May 25, 1934, Miss Berlie Gallagher to Mr. Dick Cutting. Both of these popular young people have grown up in our town and have nests of friends who are extending congratulations and good wishes. The bride is the daughter of Mr. and Mrs. N. D. Gallagher and the groom is the

only son of Mr. and Mrs. C. Cutting. W. B. May assumed his duties as postmaster Saturday, having been appointed to take the place of J. W. Griffin who left Tuesday for his home in California. Mr. May is a pioneer settler here and has proved himself to be a good business man and his many friends feel sure he will be very successful in the business of the post office.

The Methodist Missionary Society met Monday afternoon for a social meeting at the home of Mrs. W. C. Bedford. The meeting was called to order by the president, Mrs. I. N. Williams who read a passage of Scripture after which Mrs. W. E. Barron offered prayer. After a short business session a number of games were enjoyed and the hostess then

served peppermint ice cream, angel food cake and orange cake to the following: Meses. I. N. Williams, M. P. Williams, S. E. Snodgrass, W. E. Barron, Gifford Acree, Plummer Ashburn, G. S. Bruce, W. H. Davis, Aaron Henslee, Mattie Henry, Z. L. Howell, Dora Cotton, A. C. Robert, Charles Lee, Style McEntire and Miss Lois Howell.

SEVEN CHURCHES OVER 100

BOSTON, May 31—Boston has seven church buildings more than a century old. The oldest is Christ church, built in 1723 and the others are Old South Meeting house, King's chapel, St. Stephen's Roman Catholic church, West church, Charles Street Meeting house and Park Street church.

SET UP HOME

BEND, Ore., May 31—Two honker geese seldom seen near the habitat of man have established their home on Bend's scenic mirror pond and have set up housekeeping. Six newly-hatched offspring have added to the "homelike" atmosphere. It is believed they are the first ever hatched within the local city limits.

STROTHER'S TAILOR SHOP

I wish to announce to my customers and friends that I have moved my shop to new quarters, where I will be found ready to give highest quality service in Alterations, Hat Cleaning and Blocking and Suits made to order.

JOHN STROTHER, Tailor
703 Main Street — Cisco.

It's time to do something when:

- You can't look a meal in the face;
- Eating always means stomach pain, distress;
- Gas, belching, bloating give you daily discomfort;
- You're nervous; you lose sleep; you're dragging around "half alive."

It that describes you, then you already know baking soda and things like that don't do any lasting good.

If you're going to get that stomach back on the job—where you can eat what you like and enjoy it, sleep like a log, feel "like a million dollars"—isn't it common sense to get after the cause?

Every day your body must purify itself of certain poisons and purities that otherwise result in sickness and pain. When it cannot do this vital work properly it must help.

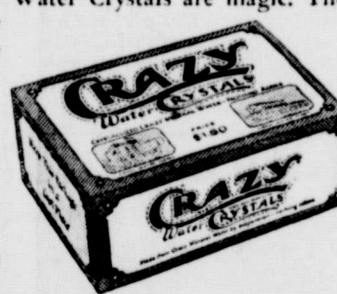

Many already have found this help in Crazy Water Crystals. Thousands of them have written us: "I can eat what I like once more. I am sleeping soundly. I feel ten years younger."

Crazy Water Crystals are taken from a great cleansing, purifying mineral water—they were prepared by old Mother Nature herself. They are not some human being's idea of how this cleansing ought to be done. Nothing is added to them. Anyone who tells you a different story does not tell the truth.

This cleansing means a great deal more than just moving the bowels. This mineral water—made at home with Crazy Water Crystals—cleanses the system—not just the digestive tract. The part played by the kidneys in this purifying work is as great as, or greater than that of the bowels. And drinking this mineral water increases elimination through the kidneys as well as through the digestive tract.

This explains why so many thousands of victims of other troubles besides stomach disorders—many of the aches in muscles and joints which they call "Rheumatism," "Arthritis," or "Neuritis," terrible backaches; headaches; loss of sleep and extreme nervousness; and some things less serious, like ugly skin, foul breath, etc.—bless the very name "CRAZY." The way to up-root a trouble like this is to get right at its cause.

We do not believe Crazy Water Crystals are magic. They are not a cure-all. But if your life is being made miserable by one of these troubles, give them a thorough, honest trial. Get a package today. Stay with them a month at least. It will cost you only a few pennies a day, at the most. And then let your own common sense tell you how much better you feel.

About Cisco Today

MRS BRANDON ENTERTAINS

Mrs. H. Brandon entertained Tuesday afternoon in her home on West Eighth street with a bridge party. The house was beautifully decorated with nasturtiums, tiger lilies, and lady fingers. Prizes were won by Mrs. Jack Phippen, high; Mrs. A. L. Foster, high cut, and Miss Mary Jane Butts, low.

Ice cream and cake and tea were served to the following guests: Mesdames Jack Phippen, Jack Jones, James Moore, Hubert Seale, W. J. Leach, K. H. Pittard, T. D. Schaefer, Lee Smith, Rex Moore, Sam Kimmel, F. J. Borman, A. L. Foster, P. P. Shepard, D. Ball, R. L. Ponsler and Misses Ora Bess Moore and Mary Mary Jane Butts and hostess.

BIBLE STUDY CONCLUDED

"The Open Gate to Prayer," the Bible study of the Missionary society of the First Methodist church was concluded Tuesday afternoon when Mrs. P. Pettit gave the last three chapters. The study has been very inspiring and helpful to those who have attended Mrs. G. W. Powell was in the chair and the meeting was opened by singing "The Beautiful Garden of Prayer." The devotional, from entire first chapter of James was also read by Mrs. Powell. At the conclusion of the study, the benediction was in unison.

THE PHILATHIA CLASS TO HOLD PICNIC

The Philathia class of the First Methodist church will hold their monthly social in the form of a picnic tomorrow afternoon at 6:30 o'clock at Lake Cisco. Husband and children will be guests for the evening. Each family is to bring a picnic basket. All members and associate members are urged to attend and those without transportation are to meet at the church at 6 o'clock.

Personal Mention

Rev. and Mrs. A. C. Miller and children of Belton spent last evening with Mr. and Mrs. E. J. Poe and left this morning for Lodi for an overnight visit with Mr. Miller's parents. They will go to Abilene tomorrow to attend the 25th anniversary celebration of Dr. Sandefer's presidency of Simmons university.

Mr. and Mrs. W. Robins and children and Misses Andie and Mattie Stevens spent yesterday in Brownwood.

Mr. and Mrs. Raymond Doyle of Ranger spent the day visiting in Cisco.

Miss Elizabeth Dial left yesterday for Dallas where she will spend a few days with friends.

Jack Lewis transacted business in Cisco yesterday.

Mrs. Conrad Schaefer and son, Don, left today for a visit with relatives in Panna.

Mrs. J. G. Rupp is visiting her daughter, Mrs. J. B. Spearman, in Lubbock.

Mr. and Mrs. A. D. Anderson and Mr. and Mrs. Jack Anderson were visitors in Breckenridge last evening.

C. H. Parish transacted business in Stamford today.

Mr. and Mrs. Lee Comer and children of Phoenix, Arizona, are the guests of his brother, Oscar Comer of Cisco.

Mrs. G. H. Kinsey is leaving today for Trenton, Tenn., for the summer.

Mrs. A. Owen of Dallas is the guest of Mrs. C. Owen of Cisco.

Miss Marjorie Neill left Sunday for a visit with her aunt, Mrs. A. J. Fields, in Gainesville.

W. C. Andrews and M. B. Johnston have returned from a fishing trip near Palo Pinto on a branch of the Brazos.

Mr. and Mrs. A. J. Olson are leaving for San Antonio in the morning for a brief visit with their son, Marion, and wife, and Miss Bessie Olson of Austin will meet them in San Antonio and return home with her parents.

Mrs. Edward C. Collins who has been the guest of Mr. and Mrs. A. C. Green has returned to her home in San Antonio.

TEACHERS' PAY BOOSTED
AMARILLO, May 31—Trustees of Amarillo college here are determined that teachers shall share in the recovery program. Salaries of the faculty were increased seven per cent over 1932-33 depression levels, effective in September. The year's salaries for the 13 members of the teaching staff will aggregate \$23,470.

INNER TUBE BOUNCED OWNER
NORWALK, Conn., May 31—While Joseph Polakovich was changing a tire on his truck an inner tube exploded with such force his head was bounced on the pavement. He was taken to a hospital to have cinders removed from his eyes and a scalp wound dressed.

CALENDAR

Tuesday
The Missionary society of the First Methodist church meets in business Tuesday at 3 o'clock at the church.

Wednesday
The Missionary society district meeting will be held in Breckenridge Wednesday at 10 o'clock.

DOTHAN

Mr. and Mrs. Ben J. Camp are the parents of an eight month daughter, born Monday morning, May 28.

J. B. Bostick, Mr. and Mrs. J. M. Postick and children, and Mr. and Mrs. E. L. Hazlewood and children were Sunday dinner guests of Mr. and Mrs. L. C. Camp and children.

Marston Surles and Miss Estelle Hunt were graduated Monday evening from Cisco high school in a class of fifty-six. We feel proud that two young people of our community can enjoy this distinction, and wish them success and honor in whatever they undertake in the future.

W. D. R. Owen of Eastland, candidate for county judge of this county, was in this community meeting the people Tuesday.

Woodrow Hazlewood of Baird is spending this week with relatives and friends here.

Mrs. P. E. Dugan and daughter, Bettie Jean of Baird were at Dothan Wednesday.

Mr. and Mrs. Josh Shaddy of Scranton were here on a business trip Friday.

Mrs. C. E. Phippen and son, Clifford, and daughters, Gwendolyn and Mrs. Elmer Lisenbee of Cisco, have returned from a trip to East Texas to visit relatives.

Raleigh Murray of Cisco was in Dothan Tuesday.

Mrs. L. Camp and son, Donald Dean, and Misses Argeline Coats and Glenna Phippen attended the school picnic at Union Friday.

Mr. and Mrs. L. C. Camp and children attended a play at Union Wednesday evening.

COOK

Rev. Kelley spent Sunday night with Mr. and Mrs. Lou Allen.

Misses Bessie Mae and Bernice and Juanita Townsend, and George Mae Hunt enjoyed a birthday dinner in the home of Mr. and Mrs. A. S. Walker Sunday. The dinner was in honor of the 75th birthday of Miss Blanche Fay Walker.

Miss Alma Tucker spent part of this week with Miss Muri Moore.

Miss Alma Walker and Aleta Maples were the Sunday dinner guests of Mr. and Mrs. G. W. Hunt.

Mr. and Mrs. O. D. Carver spent Sunday with Mr. and Mrs. Sherrel.

We are sorry to report the serious illness of Mrs. Amanda Hill.

Mr. and Mrs. Cantwell of Brownwood were the Sunday dinner guests of Mr. and Mrs. Oscar Perce.

Rev. Cantwell from Brownwood preached at the Christian tabernacle Sunday morning at 11 o'clock and also Sunday night. Rev. Kelly of Abilene preached at 3 o'clock.

Mr. and Mrs. Bill Gardner served ice cream to the following guests Saturday night: Mr. and Mrs. Joe Allen, Mr. and Mrs. Trigg M. and Mrs. Howard White, Rev. Kelly and Mr. and Mrs. Willie Gardner.

Mr. and Mrs. Rodgers who live near Rising Star visited Mr. and Mrs. Jinks Dugan Sunday.

MEDICAL CLINIC MAY APPEAL TO AID OF COURT

LOS ANGELES, May 31.—The fight to maintain medical service at low cost for the salaried classes may be taken to the civil courts, Dr. H. Clifford Loos, co-founder of the Ross-Loos clinic of Los Angeles, has told the United Press.

The controversy between "socialized" medical treatment and "rugged individualism" is being brought to a head here in the controversy between the Ross-Loos clinic and the Los Angeles County Medical Association.

The clinic has been furnishing complete medical care to several thousand patients, including hospitalization, at the rate of \$2 a month.

The issues seem to be largely economic. No question of professional ability within the clinic has been raised.

The medical association recently expelled the clinic's physicians on the ground that the clinic had solicited patients and had sanctioned complimentary articles in house organs published by groups subscribing to the clinic, the latter coming under the professionally unethical head of "advertising."

Dr. Ross and Loos deny the charges categorically.

The clinic has at present some 15,000 "contract patients," many of whom also contract for the care of their dependents. The complete roster of patients is estimated at 30,000 to 45,000. It has grown to its present proportions from an experiment launched in 1929.

Fifty-five full-time and part-time physicians are employed, and as many more nurses, orderlies and clerical attendants.

The founders are Dr. Loos, a surgeon who retired just prior to 1929, and Dr. Arnold E. Ross of Canada, fellow of the Royal College of Surgeons of London and of Edinburgh and of the American College of Surgeons.

The Plan
The clinic will accept groups of from ten persons up. When a group is signed, all members are entitled to the service, regardless of the physical condition of any one member (exceptions: drug addiction, insanity and alcoholism). The well pay for the sick. The healthy are encouraged to visit the clinic early in illness, so that in a sense they pay the clinic to keep them well.

As an example of service, a woman can get a thorough course of pre-natal care, confinement, hospitalization and delivery, post-natal care and instruction in the care of the child at the basic rate.

Beginning in a small building, the clinic now occupies a modern four-story building, crowded with laboratories, libraries, operating rooms and offices. Hospitalization—up to three months per patient per year—is offered within the basic rate.

The Clinic's Side
Dr. Loos, who, incidentally, is a brother of Anita Loos, the writer, said in reference to the controversy: "We are charged with advertising, which we deny. We think for that matter, that we don't need to advertise. Obviously I cite our growth; we are filling a great need

HOW ELECTRIC REFRIGERATOR SAVES MONEY

MISS CLARA DEAN
General Electric Kitchen Institute

In a recent survey, owners of one make of an electric refrigerator were asked, "What do you consider the outstanding advantage of electric refrigeration?" 82 per cent of these women replied "Economy."

It is actually possible to save from \$10 to \$200 per year with an electric refrigerator.

On a year round average, the cost of electricity to run the average sized refrigerator is less than the cost of ice.

Then there are the savings on left overs. For instance, an extra cup of milk, a slice of pineapple, a sauce dish of peas or a few potatoes, or the remains of a roast—if the housewife couldn't find immediate use for them—she'd either throw them away immediately rather than take a chance of having them spoil and make someone in the family ill.

In an electric refrigerator there is plenty of room to properly preserve these bits for which good money was paid, until they could be used in salads, desserts or sandwich fillings.

At least five cents a meal can be saved in this way—that is \$4.50 per month or \$60.00 per year on left-overs.

Week at a Time
Electric refrigerator users have found that they can buy almost an entire week's supply of perishable foods on Saturday when prices are 20 to 50 per cent lower — and keep

among modestly-salaried persons. We don't feel that we are encroaching upon the revenues of individual physicians, for the reason that the great majority of our patients are not economically able to contemplate private care, particularly surgery.

The house organs or several of our patients' groups have printed complimentary articles, which we are accused of inspiring or sanctioning. That is not true.

The clinic is appealing to the State Medical Association from the county association's ruling, and expects to be refused.

"We may then have to go to court to vindicate ourselves," Dr. Loos said. "We feel that an exemplary verdict of one dollar from a jury of laymen would tend to prove our case."

Dr. Philip Stephens, president of the County Medical association, would not discuss the matter for publication.

them until used up without suffering spoilage. These savings are stated by the most conservative to be not less than \$15c per day or over \$50 per year.

There is over \$100 that can be saved by an electric refrigerator owner on leftovers and quantity buying. In addition, savings can be made in buying larger cans of vegetables and fruits at 25 per cent less cost than the smaller cans, for the refrigerator will preserve the left over quantity.

Many people with electric refrigerators buy large portions of meat at substantial savings and have the butcher cut it up for them. The refrigerator will preserve perfectly until used.

Thus you see it isn't hard to count up savings of nearly \$150 per year with an electric refrigerator.

Is it good economy to pay out money for inferior refrigeration when an electric refrigerator actually makes possible the saving of so large a sum.

Ideal Nation---

CONTINUED FROM PAGE ONE

ed, was first and foremost the function of other nations. If this was not done, Germany would have to see that (unable to purchase raw materials abroad) she created substitute products, like artificial silk and wool.

Reichmark Endangered
Asked whether the measures already undertaken to protect Germany's economic position (strict control of imports, etc.) and in view of the tremendous costs of the re-employment program, the Reichsmark might not be endangered, Dr. Schmitt replied that he could not understand the reports abroad of a threatened inflation.

Energetic and, like all Nazi leaders, vehement in expression, he rose from his desk and paced the floor. There were moments when he might have been addressing an audience.

"It is difficult to prophesy, but signs are at hand that we are going forward. What we may observe today of economic success naturally is not simply the result of putting men back to work but also a really effective stimulation of affairs, much influenced by the psychological mentality of the people."

Dr. C. Q. Smith---

the banner district of the conference in the point of membership gains and financial improvement. It was continuing that record this year.

In spite of the great demand upon his time, Dr. Smith was able to maintain his perfect attendance record as a Rotarian. His membership was transferred here from the Fort Worth club.

Soil Erosion May be "High Falutin'" But it Happens Anyway, Says Altom

"Soil erosion is one of those high falutin' terms you read about," said Edgar Altom of Pleasant Hill community. "But that is what had happened to Will Poe's 20 acres that had been abandoned because of washes and worn out soil. About six years ago the farm was terraced and the lines ran across this eroded area. Now I am working this farm and the abandoned portion has filled in and leveled up, and I am making about as much from it as from other portions of the farm." This is just one more illustration of what terracing can do for farm land that is not paying dividends, according to county agent, J. C. Patterson.

DEMAND FOR RABBIT MEAT INCREASING

Many people felt that the raising of domestic rabbits was just an expensive hobby but rabbit raisers are experiencing difficulty in producing enough meat rabbits to meet the demand according to George Par-rack of Eastland, who has appealed to the county agent to assist him in locating Eastland county rabbit growers who may have a surplus of meat rabbits. When properly fed and dressed domestic rabbits are said to make the most delectable of food.

EVERY ACRE WILL SOON BE MEASURED

Every acre of cotton ground rented to the government under a cotton reduction contract as well as cotton being grown by contract signers will soon be measured, according to advices received by County Agent Patterson for the County Cotton Production Control association. Contracts require producers to have the corners of rented acres permanently staked before committees do the measuring.

TO SEE AFTER 13 YEARS

NEBRASKA CITY, Neb., May 31—After 13 years of darkness, Mrs. Sterling M. Copeland once more is looking out upon the world. Over-joyed at the results of a thyroid operation, which began the process by which her sight is being restored, Mrs. Copeland at 65, is planning to re-adjust her life to the new world of light and colors.

FUNDAMENTALIST SUBJECT

"What Will You Do With Jesus Which Is Called Christ?" will be the subject of the Sunday morning sermon at the Fundamentalist Baptist church. It was announced today. Sunday school will held at 9:45 o'clock and the preaching service will follow.

PISGAH

Mrs. J. D. Rogers and son, Gene, of Dallas, have returned to her home, after a visit here with her parents, Mr. and Mrs. L. E. Clark, and relatives in Cisco.

Mr. and Mrs. Roy Speegles and children and father, B. F. Speegles visited Mr. and Mrs. Roy Williams in Putnam Sunday.

Misses Lottie Mae and Louis Bennett of Eastland visited Mr. and Mrs. Roy O'Brien and family last week.

Mr. and Mrs. Lewis Horn and Billie Ruth and Alford and Gerald Parks attended the program at Dan Horn Friday.

Quite a few in our community have the measles. All are reported better.

Mr. and Mrs. L. D. Westerman and little daughter, Jean, visited Mr. and Mrs. L. A. Parks Sunday.

Mr. and Mrs. A. E. Merritt, of Brownwood last week visited their daughters here, Mrs. B. O. Speegles and Mrs. Homer Ledbetter and attended the graduation exercises at Randolph in which their son, J. F. Merritt, received his diploma.

Mr. and Mrs. Graydon Abbott and little son, Brooks of Dallas visited relatives here Monday. He spent the week-end with his father, O. M. Abbott of Dan Horn.

Merrett Speegles is sick with the measles but is reported getting along nicely.

BELLAIRE, O., May 31—Edward J. Foster, 52, native African her doctor, who came to the United States only 12 years ago, died here recently. Twenty-five sisters and half sisters survive him in Africa.

HOUSE PASSES MEASURE FOR SILVER BUYING

WASHINGTON, D. C., May 31 - Labor, farm and international crises challenged the administration today. The ugly threat of bloody war was heard as the menace of steel and textile strikes affecting 500,000 workers drew nearer.

A "rank and file" committee of steel workers called President Roosevelt's plan for averting the threatened strike with government supervised elections "just so much bunk."

Trouble threatens on many fronts:

- 1.—Three-quarters of the national area suffers unprecedented droughts.
- 2.—Thousands of wage earners are striking or threatening to litigiate.
- 3.—A war debt stalemate impedes when payments come due June 15.
- 4.—Congress is shying at some urgent administration measures.
- 5.—Problems of international armaments demand solution.

Overshadowing spectacular local-ized strike violence on the west coast and in Toledo and Minneapolis are threats of steel and textile walkouts and a general strike of American seamen.

Textile workers are bitter against a 25 per cent production cut ordered by NRA. Their leaders will center with Adm'r Hugh S. Johnson tomorrow with demands for wage readjustment to compensate for decreased re-employment.

Chaos in the oil industry is predicted by Sec'y of Interior Harold Ickes unless further regulatory legislation is enacted by congress.

Fall Proves Fatal To College Student

ABILENE, May 31 - Owen Martin, 21-year-old sophomore ministerial student at McMurry college, died today of injuries suffered when he fell 25 feet from a rafter.

Martin was injured Tuesday night while helping make preparations for the school commencement pageant. He had climbed a rafter to adjust a light when he fell.

It was believed he suffered an electric shock. His skull was fractured and he was injured internally. He was a son of Mr. and Mrs. M. D. Martin, Sweetwater, and is survived by his widow. Services were scheduled for late today.

Jury Finds Missing Banker Slain in 1922

EL PASO, May 31 - Warren C. Spurgin, Chicago, Ill., banker, who disappeared 14 years ago when the Michigan Avenue Trust Co. closed his slain near Canutillo, Durango, Mexico, in February, 1922, a federal district court jury at Santa Fe, N. M., decided.

The jury awarded Spurgin's daughter, Mrs. Vivian Tilton, El Paso, and Mrs. Spurgin \$25,000 in a suit against the Penn Mutual Life Insurance Co., said Atty. C. W. Boche.

Rosendo Degado, former colonel in Francisco (Pancho) Villa's army, was called as Mrs. Tilton's surprise witness. He testified that Spurgin was slain in 1922, and that he saw the body.

Two men who admitted the slaying later were killed, he said.

Spurgin visited Villa's camp in Durango several times weekly from December, 1921, until his death, Delgado testified.

Spurgin has been the object of a search in the United States and Mexico since he was asserted to have absconded with \$1,000,000 in Michigan Avenue Trust Co. funds.

Britain Reported to Be Planning Default

LONDON, Eng., May 31 - Great Britain has decided to accept the challenge of the Johnson law and default its \$85,670,000 war debt payment due the United States June 15, a high official source close to the treasury told the United Press last week. It was regarded as certain that a British default would be followed by defaults of other nations.

Belgium Planning to Default Payment

BRUSSELS, May 31 - Belgium has decided to default its June 15 war debt payment to the United States, unless the situation is altered, it was said authoritatively here.

WEATHER

West Texas - Partly cloudy, probably thundershowers tonight and Friday; cooler tonight and Friday.

Texas - Generally fair; cooler in northwest portion tonight; Friday increasing cloudiness, cooler north and west portions.

Mrs. Barrow Protests Theater Displays Of Pictures of Clyde and Bonnie Parker

DALLAS, May 31 - Mrs. Cumie Barrow, mother of Clyde Barrow, threatened legal action today to prevent a local theater from displaying lobby pictures of the bandit and his gun-girl companion, Bonnie Parker.

Last night Mrs. Barrow attempted to destroy pictures showing the bullet-riddled body of her son and his sweetheart slumped in their automobile in Louisiana.

Arrested for creating a public disturbance, Mrs. Barrow said:

"I'm sorrow for what I've done. I should have been a lawyer, but that theater has no right to show the bloody pictures of my son and the woman he loved.

"I know what happened to them. He was betrayed by the best friend he ever had - Henry Methvin. No body is stealing me anything. I know the story."

Proposed Negro TB Hospital Big Project

EL PASO, May 31 - The proposed Fred Douglas national tubercular hospital for negroes, to be built near El Paso at a cost of \$2,500,000 if a PWA loan is granted, promises to be one of the most useful and gigantic negro projects of its kind, sponsors said.

The hospital will have a capacity of 1,157 beds—more hospital beds for negro tuberculars than there are now devoted to that purpose in the United States.

The building also provides for the future for 600 more beds.

The site of the sanatorium is about eight miles north of El Paso. The building will depict a Moorish influence in Spanish architecture, and was completed with reasonable Old Spanish feudal estate. There will be provision for about 27 units.

A beautiful library modeled after the Taj Mahal in Agra, India, are planned.

Equipment to be installed in the hospital will be the most modern in the world, the sponsors said.

Clark Identified As Bank Robber

KINGFISHER, Okla., May 31 - Jim Clark, escaped Kansas convict, was one of the men who robbed the Peoples National bank of about \$1,000 today. Terry Farmer, bank employee, told officers on being released.

Clark robbed the bank last year. With Farmer present, Farmer said there were three or four men in the robbery party today. Clark escaped from the Kansas penitentiary in the Memorial day break last year.

The sheriff and other officers were reported in close pursuit of the bandits.

Cannery to Open for Summer Next Monday

The Cisco cannery will open the vegetable canning season Monday, June 4, J. M. Bird, chamber of commerce agricultural secretary, announced.

Mrs. E. M. Oney will be in charge of the cannery, and she will be at the plant tomorrow (Friday) to make appointments with those who want to make use of the cannery's facilities. A schedule of charges has not been completed, Mr. Bird said.

ITALY'S NAT'L LOTTERY GETS POOR PENNIES

By THOMAS B. MORGAN
United Press Staff Correspondent
ROME, May 31 - The Italian state makes from \$5,000,000 to \$6,000,000 a year on its national weekly lottery, which is chiefly supported by the pennies of the poor.

It is a long-standing institution, and is played regularly every week by thousands, many of whom go on for years without ever winning anything.

On the other hand, a lucky win can bring a man a fortune for a small outlay.

The system follows. Every Saturday, five numbers are drawn from all the numbers between and including one and 90. A blindfolded boy does the drawing in public. The drawings are made in light of the chief cities: Rome, Venice, Milan, Turin, Bari, Florence, Naples, Palermo. The would-be lottery winner may bet that two, three, four or even five certain numbers from the numbers between one and 90 will be drawn. To be on two numbers being drawn, say 51 and 67, is called an "ambo" and is, of course, easier than to guess right about three numbers, which is known as a "terno." Four numbers called a "quaterno," is very hard to guess and brings in a correspondingly large win.

It is open to the tacker to bet on the numbers in his own town, or in any town, or all the towns. Thus to bet that two numbers will come out in the drawing in one of the eight cities is the least difficult kind of bet to make and does not bring in a very high return.

On the other hand a quite small sum, say five or ten lire, on four numbers being guessed correctly, would net the lucky guesser a handsome sum if he were right.

The winning numbers are published in the evening papers on Saturday, and payment is made to the lucky winners the following week. It sometimes happens that large sums, running into the hundreds of thousands of lire are won but it is a very hard game to play and much more difficult to guess winning numbers than it would seem.

NRA REVISIONS ARE ORDERED BY JOHNSON

WASHINGTON, May 31 - Acting in accord with President Roosevelt's executive order, Rec. Adm'r Hugh S. Johnson Monday suspended fair trade practice sections of codes for seven industries, including cleaning and dyeing.

Other so-called service trades affected were motor vehicle storage and parking, barber shops, shoe rebuilding, bowling and billiards, advertising display installation, and advertising distribution.

Under the order the trades will continue to be bound by provisions regulating maximum hours and minimum wages, collective bargaining guarantees, banning of child labor, and reserving to the president the right to cancel or modify any code or agreement.

The suspensions marked NRA's first major retreat in the regulation of small business. It was seen as a careful readjustment of NRA to economic features.

As Johnson's orders were handed down, Rep. Fred Britten, Rep.-Ill., speaking in the house, called the president's service code pronouncement a definite indication that "cracking up of the NRA has started."

He predicted NRA's next step would be to "announce the steel, oil and practically every other important code is operating in violation of the law in the direct promotion of monopolies."

Britain Moves for Showdown on Debts

LONDON, May 31 - Great Britain stepped forward as leader of America's \$11,000,000,000 debtors today with a note designed to force a showdown on the issue of full payment or default.

7,800,766 BIBLES
BOSTON, May 31 - The American Bible Society reported at its recent annual meeting that it distributed 7,800,766 Bibles, Testaments, and portions of the Bible during 1933 in 155 languages and dialects and in more than 40 countries.

June Given \$1,000 A Week Stage Offer

HOLLYWOOD, Cal., May 31 - June Robles, Arizona heiress who was found chained to a prison pit in the desert 19 days after she was kidnapped, may profit from her cruel experience.

Brought to California for a visit by her parents, Mr. and Mrs. Fernando Robles, June has been offered \$1,000 a week for a ten-week stage engagement.

STARR COUNTY IS FEARFUL OF NEW OUTBREAK

RIO GRANDE CITY, May 31 - Starr county stirred uneasily today least a spark fire a tinderbox of political enmity and result in additional bloodshed.

Officers feared the slaying of two men and the wounding of seven others late yesterday at a political rally would be followed by more warfare.

Many citizens openly armed themselves. Others gathered furtively at secret places. Texas rangers were watchful.

Davia Gomez and Pablo Solis were shot to death as they attended a rally against the Pharr-Guerra political faction, long-time rulers of Starr county.

A disease known as "foot rot" is causing great damage to small grains, particularly wheat, in this section, J. M. Bird, vocational instructor at the high school and agricultural secretary of the chamber of commerce, said today. In some places, he said, damage has been so great that farmers are refusing to cut the grain.

Specimens of the infected grain were sent to J. J. Taubenhaus, chief of the division of plant pathology at A. and M. college for a diagnosis some time ago. Dr. Bird said. Dr. Taubenhaus' reply said:

"I have carefully examined the specimens and found them affected by a disease known as foot rot caused by at least two different fungi, namely helminthosporium and septoria. Ordinarily, this disease is worse on wheat. Practical methods of control have not as yet been fully worked out."

HONOR PUPILS ARE GUESTS OF ROTARY CLUB

Roy Moad, member of the graduating class of the Cisco high school, today was presented to the Cisco Rotary club as the winner of the club's annual award for the "most valuable boy in high school." Young Moad's selection was made by faculty vote and was determined by the all-round record of the student during the year.

The youth thanked the club for the award and avowed his purpose to try to continue in the good qualities for which the award was made.

Miss Irene Webster, salutatorian, and Julian Ely, valedictorian of the graduating class, were presented by President Phil Pettit, who had charge of the program for the day. Each delivered the brief address which was given as a part of the commencement exercises last Monday evening. Miss Webster's general average for the year, President Pettit told the club, was 93.9 per cent and Mr. Ely's 94 and 2-9ths per cent.

Talks by Horace Condeley, Eastland, past Lions district governor; Jim Horton, past president of the Eastland Rotary club, and T. E. Richardson, Eastland druggist and Rotarian, were heard.

R. C. Ames, oil operator of Baird, was the guest of Forrest Wright.

On motion of J. J. Collins, the club passed a resolution directing a letter of congratulations to Dr. C. Q. Smith, club member, who has become president of McMurry college, Abilene.

The letter will express regret at losing him from the club, but speak the pleasure of the organization in his advancement.

PETITIONS ASK SUBMISSION OF DRY LAW ISSUE

Petitions calling upon the state executive committee of the democratic party to submit the question of a platform demand for maintaining constitutional prohibition in Texas to the voters in the forthcoming primary elections are being circulated here by the local chapter of the United Forces for Prohibition, of which Dr. Lee Clark is president. The ministers of the city, said Dr. Clark, are giving their support to the movement, and any who may wish to sign one of the petitions may see either himself or any of the members of the Cisco Ministerial association. The petitions must be completed before June 1.

The plank which the United Forces would submit as an issue to the democratic party in the primary, reads:

"We are opposed to legalizing the manufacture and sale of intoxicating liquor in Texas and we demand the preservation of the existing constitutional provisions for state-wide prohibition; and such liquor legislation only as will strengthen the enforcement of state-wide prohibition; and we declare it to be the duty of each senator and representative to vote for or against the submission of a constitutional amendment legalizing the manufacture and sale of intoxicating liquor in accordance with the views of the majority of the voters of his or her district voting for or against this demand."

The petition asks that this question be submitted to the primary voters on the official ballot in the following form:

"Against legalizing the manufacture and sale of intoxicating liquor in the state of Texas;

"For legalizing the manufacture and sale of intoxicating liquor in the state of Texas."

Baptist Pastor Has Operation at Dallas

The Rev. E. S. James, pastor of the First Baptist church, underwent an operation for a sinus affection at Baylor hospital, Dallas, yesterday morning.

The minister left here Tuesday morning. Mrs. James and their children remain here. He was reported to be doing well this morning.

NO METHOD TO CONTROL FOOT ROT IS KNOWN

A disease known as "foot rot" is causing great damage to small grains, particularly wheat, in this section, J. M. Bird, vocational instructor at the high school and agricultural secretary of the chamber of commerce, said today. In some places, he said, damage has been so great that farmers are refusing to cut the grain.

Specimens of the infected grain were sent to J. J. Taubenhaus, chief of the division of plant pathology at A. and M. college for a diagnosis some time ago. Dr. Bird said. Dr. Taubenhaus' reply said:

"I have carefully examined the specimens and found them affected by a disease known as foot rot caused by at least two different fungi, namely helminthosporium and septoria. Ordinarily, this disease is worse on wheat. Practical methods of control have not as yet been fully worked out."

President Watches Parade of U. S. Navy

ABOARD U. S. S. LOUISVILLE, of New York, May 31 - The navy proudly paraded three quarters of a billion dollars in gray steel ships and gray steel guns before President Roosevelt today at America's greatest peace-time marine and aerial spectacle. The president came here today from Gettysburg, Pa., to view the fleet.

Trial of Gas Case Is Begun in New Court

AUSTIN, May 30 - District Judge W. F. Robertson today took up the suit by which Atty-Gen. James V. Allred seeks to force the Lone Star Gas company to abide by rate reductions ordered by the state railroad commission.

Dist. Judge Charles Wheeler, who has been hearing the case, transferred it because of other business in his court.

The gas company presented an amended answer. The new answer says that when the state amended its petition last week the petition was so changed that the court is now asked to enforce an order which the railroad commission never made.

Loyal Women Defeat J. O. Y. Team 7 to 4

The Loyal Women class' play-baseball team of the First Christian church registered a 7 to 4 victory over the J. O. Y. class' team of the First Baptist church in the first women's baseball game in Cisco yesterday afternoon. The game was played before a large crowd at Chesley field.

Further games between women's teams have not been announced.

IDEAL NATION IS ENVISIONED BY GERMAN ECONOMICS HEAD

By FREDERICH OECHSNER
United Press Staff Correspondent
BERLIN, May 31 - A nation, whose men of industry and trades are united under a code of ethics, which places the welfare of the people above the interests of the owner pocketbooks—that is the vision of Nazi Germany, as seen by Dr. Kurt Schmitt, minister of economics.

Dr. Schmitt sketched this ideal in an exclusive interview with the United Press.

Practical Experience
Chisen for his practical business experience, he was seen by foreign observers at the time of his appointment as a counter-balance to theorists.

Today, Dr. Schmitt conceives the greatest need of German business to be unified leadership, and the complete cooperation of every branch in the service of the nation.

"The system of economy prevailing in Germany hitherto," he explained, "was—as in all countries with a capitalistic, liberalistic form—wholly free. This was likewise true in the United States, though things have changed there, too. Formerly in Germany, every man could operate his business as he chose; the only thing he could not do was break the laws. There were, consequently, innumerable businesses which went their own ways. The economic ethics and morals, the fundamentals of fairness and competition, were subject to the interpretation of the individual as long as there was no actual breach of the law."

Nazi's Task
"It was our task to change this without resorting to planned economy, to forced economy, to price fixing, to cartels—in other words, to a fettering of economic life.

"You ask me what the practical importance of all this can be in meeting economic problems?"

"It is this: that the entire German economy is forcefully bound together in a semi-public organization, without depriving the individual enterprise of its freedom, or its initiative."

Germany, he said, does not want to withdraw within herself, but it must do so. The way must be prepared for an international exchange of goods. That, Dr. Schmitt declared.

CONTINUED FROM PAGE SIX.

PAIR CLEARED IN KILLING OF 2 PATROLMEN

PORT WORTH, May 31 - Murder charges against Mrs. Billie Mae, sister of Bonnie Parker, and Floyd Hamilton were dismissed today in the Easter slaying of two state highway patrolmen near Grapevine, Texas.

Dist. Atty. Jesse Martin reported in a district court nabes corpus hearing that ballistic tests in Houston had proved that Clyde Barrow and Bonnie were the killers.

Asking Mrs. Mae to stand, Dist. Judge Geo. Hoesy apologized to her for the "wrong which has been done you."

Girl Pleads to Talk With Crazy Father

ALAMEDA, Cal., May 31 - Frank Bennett, "suicide sifter," was successfully removed from his dynamite laden car at noon today.

ALAMEDA, Cal., May 31 - With a plea for a chance to "talk to Dad," Virginia Bennett, 14, appeared today at the police line surrounding her father who sat on top of a homemade infernal machine and threatened to blow himself "to Kingdom Come."

"I know I could talk him out of it," pleaded the daughter of Frank Bennett, 43, crazed World war veteran, who has held the police department at bay since yesterday.

Police feared that if his daughter approached the dynamite laden machine, Bennett might press the electric button and explode the neavy charge he rigged up to carry out a fantastic suicide plan.

Newspapermen, police and photographers gathered about 300 yards from the automobile.

Ford Loss of Nearly 4 Millions Reported

BOSTON, Mass., May 31 - The Ford Motor company lost \$3,923,524 during 1933, according to its annual report filed with the state commission of corporations and taxation. This did not take into account possible dividends paid to Henry Ford, his wife or his son, Edsel.

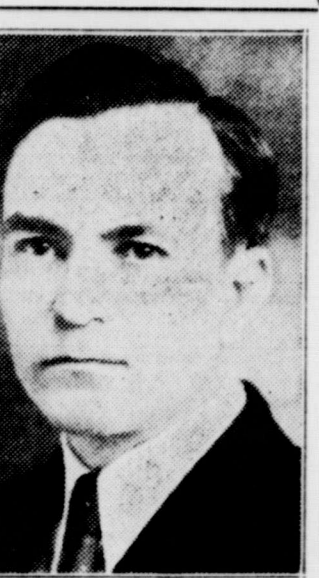

BULLETS MEANT FOR HAMILTON, SHERIFF SAYS

DALLAS, May 31 - Two police officers shot to death near Grapevine, Texas, on Easter Sunday, received the bullets that Clyde Barrow meant for Raymond Hamilton, Sheriff Smoot Schmid said Tuesday after making public a letter from Barrow to Hamilton.

Sheriff Schmid believed that Barrow and Bonnie Parker were waiting for Hamilton on the Grapevine highway in order to kill him when he kept a rendezvous with his brother, but killed the two officers instead when the patrolmen sought to question him.

The letter revealed that Hamilton was marked for death and that only his capture followed by the slaying last week of Barrow and Bonnie saved him.

He's Prexy, Now!

DR. C. Q. SMITH NEW McMURRY COLLEGE PREXY

Dr. C. Q. Smith, presiding elder of the Cisco district of the Methodist church for a year and a half, has resigned that post to accept the presidency of McMurry college, Abilene, unanimously tendered him by the board of trustees of the institution yesterday afternoon. At the eleventh annual convocation program of the school at 10 a. m. today he assumed actively the duties of the place made vacant March 12 by the death of Dr. J. W. Hunt, school founder.

Dr. Smith's acceptance of the McMurry presidency came as a surprise to most of his friends in Cisco, who knew of his earlier refusal. Insistence of the school trustees and the challenge of a great educational opportunity finally overcame the determination of the presiding elder to return to the field he admitted he liked best—pastoral work—and he accepted tender of the place yesterday afternoon.

Bishop's Tribute
In presenting Dr. Smith to the board, Bishop H. A. Boaz, presiding bishop of the Northwest Texas conference, in which McMurry is located and also of the Central Texas conference, which Dr. Smith is now leaving, was reported by an Abilene newspaper to have said:

"I regard C. Q. Smith as the most suitable man that is to be had at the present time as president of McMurry college.

"I have known him a great many years. He is a successful pastor. He has never failed in any work to which he has been assigned. He has all the educational requirements necessary for a first class college president. He is an A. B. of Southern Methodist university and has the doctor of divinity degree by Southwestern university.

Business Ability
"He not only has the educational requirement, but he has business ability of the first order. As superintendent of the Methodist hospital at Ft. Worth for six years, he raised \$60,000 and put over a magnificent work there.

"He has vision and initiative. He has the ability to block out a great program for McMurry college or in any other position to which he might be assigned, and the ability to put the program over. He is not only a dreamer of great dreams but he is an executive to carry them through.

"In addition to these qualifications, he has a very pleasing personality. The trustees and faculty will find him a man who knows his own mind and ready to speak it, yet agreeable in his relations with others. The student body will find him a wise counselor and a kind friend."

Splendid Record Here.
Dr. Smith's ability as an executive, organizer and religious leader was not more clearly demonstrated than in the record that the Cisco district made along all lines of endeavor since he came to Cisco a year and a half ago as its presiding elder. It became in his first year.

WILL ATTEND BAYLOR U. Summer Session

Frank Langston, a member of the grammar school faculty and who was formerly on the Daily News staff, left today for Waco where he will attend summer courses at Baylor university. In addition to academic studies, Mr. Langston plans to take coaching courses. He will be away until August, he plans.

Rudolph Weiser, son of Mrs. Weiser, is also graduating.

House Probe of NRA Proposed by Sirovich

WASHINGTON, D. C., May 31 - A house investigation of the NRA was proposed in a resolution introduced today by Rep. Wm. Sirovich, Dem.-N. Y., who charged the Darrow board had failed to make a real study of the recovery administration.

Under the resolution a special committee of these even would have blanket authority to inquire into the NRA.

WON DECREE BRIDGEPORT CONC.

CHARLES WICKS OF NORWALK, told a Superior Court judge in applying for a divorce that his wife was a back seat driver, criticized him for being bald and caused him to lose 40 pounds by her nagging. He got the decree.

MANY CRISES FACING NAT'L GOVERNMENT

WASHINGTON, D. C., May 31 - The house passed the silver purchase bill today by a one-sided vote, despite denunciations by silver bloc members that it was a "lemon" and charges by republicans that it was a speculator's bill. The measure now goes to the senate.

The bill, result of a compromise between the White House and congressional silverites, declares it the policy of the United States to increase to 25 per cent the proportion of silver to gold in monetary stocks. The measure authorizes the secretary of treasury to purchase silver and permits the president to nationalize all domestic silver stocks.

Judge May Rule in Gas Hearing Today

AUSTIN, May 31 - Arguments and testimony before Judge W. F. Robertson were expected to determine today if the Lone Star Gas company must answer Atty-Gen. James V. Allred's suit calling for lower natural gas rates.

Supporting its contention that the natural gas business is really interstate, figures were offered for 1933 by the company showing 30 per cent of the gas came from Oklahoma.

Two hours a side had been allotted for arguments. Judge Robertson may take the matter under advisement until tomorrow.

2 Cisco Youths Are Lutheran Graduates

Mrs. Carl Weiser and Mrs. Carl Prange, accompanied by Ben Weiser, today are leaving for Austin where they will attend the commencement exercises of the Lutheran seminary, in which Erwin Prange, son of Mrs. Prange, is graduating as the valedictorian of his class.

Rudolph Weiser, son of Mrs. Weiser, is also graduating.

Will Attend Baylor U. Summer Session

THE PEACE OF GOD: The peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus.—Philippians 4: 7.

BLAME IT ON TOM

Tersely the Fort Worth Star-Telegram rebukes the Chicago Daily News for the poor manners of an editorial, "Uncle Sam, Piker," in which blame for the reduced federal appropriation for the second edition of the World's Fair is laid upon the shoulders of Tom Blanton. Both the Star-Telegram and the Cisco Daily News, as well as sundry other newspapers in Texas and Washington, know that Tom Blanton doesn't care a tinker's dam what the Chicago Daily News thinks about him. The point is that Blanton and most of his constituents, as well as millions of other good American citizens, admire Chicago and the splendid achievement of the World's Fair, but think that the fair ought to pay its own way. They certainly do not feel that the federal government and the taxpayers of this nation are obligated to reimburse the fair association for any losses it may have sustained, or guarantee it against any possible deficit through means of a large federal appropriation. The money that the administration is spending so liberally in an assault upon the depression has to be repaid from some source, and that source will be the pockets of the tax-payers. At least that has always been the source in the past. And if any person in the United States thinks he, or she, is immune to assessment for these costs, let him reckon what percentage of the price of his meals, the clothing he wears, the cigar he smokes and even the cold drink he consumes is commanded by these taxes. The mathematical result will make a believer out of him. Because a person does not have his name upon the income tax list does not mean he is escaping any contribution to the national treasury. He's paying and he will pay and pay.

So, when the Chicago Daily News declares that when the Texas constituents of the "miserly watchdog of the treasury" visit the fair "they will find that the American government rates itself as a third or fourth class power," and "can thank Tom for it," his Texas constituents feel rather proud of having a representative in the national congress who rates the abuse. It is proof enough that they have a voice in the deliberations there.

COMMON SENSE RELATIONS

Abrogation of the Platt amendment in the Cuban national constitution by means of a new permanent treaty between the United States and the insular republic, which owes its independence to the fighting men of this nation, and the enunciation of a new doctrine of non-intervention in South and Central American political affairs hopefully suggest that this country is entering upon an era of common sense in international relations. It suggests that we have gotten over an obsession we were some sort of a godsend to a troubled world, with a monopoly upon the final truth, and have come to realize just what the rest of the world thinks of us as a trouble fixer. It suggests that we are prepared to let Europe and Europe's troubles alone and do some fence-mending at home. It suggests a realization that while we were getting our fingers burned in European affairs or throwing good money after bad in a noble effort to play the god-father, Japan and England and France and other trading countries were making a great deal of economic hay under the benevolent sunshine of the American smile. And it suggests it finally has percolated into the national mind how agreeably we were helping these competitors parcel out the South American markets by contriving to stir up resentment against us by sending the marines to interfere in their troubles or otherwise exercising a self-appointed guardianship. America's mission to the world may be one of great authority, but it can best be fulfilled by cultivating cordial and profitable relations in our own hemisphere. And the route of doing that is to approach these sister nations upon the basis of equality.

TEXAS COTTON GROWERS ASKED FOR IT.

Rexford G. Tugwell is acting secretary of agriculture. He has stated that an average price of 11.34 cents per pound of lint cotton has been established as the base for determining the tax rate on all cotton under the Bankhead act; that the figure was determined through a study of the price per pound of 7-8 inch staple middling spot cotton on the 10 spot markets, and that the tax which is fixed at 50 per cent of this price, will be levied on all cotton ginned in excess of the total of 10,000,000 bales established in the act. Texas leads all states in the production of cotton. A vast number of Texas growers clamored for the Bankhead act. Its restorative influence will be given the acid test this year and next year.

Petroleum is the chief money staple of Texas. Cotton held the high position for years and years. All Texans are interested in a fair price for cotton and all Texans within or without the pale of the petroleum industry, are interested in the way the petroleum natural wealth of Texas is to be handled in coming years. Texas was a free republic established by the rifles of pioneers in the long ago. These pioneers and their sons who came after them adopted the articles of annexation and the republic became one of the sisterhood. All public lands, or rather their ownership and control, were retained by Texas in the transition of a republic to a state of the union. All the handling of treasure wealth in these lands retained should be subject to the control, or rather conservation, of the Texans of today, speaking through the conservators named by the votes of the people and functioning as rail commissioners assisted by all other officials of the state government.

"How Are We Going to Activate Capital Goods Industry?"

By HUGH NUGENT FITZGERALD

Washington sounded the warning that a big push to send congress home in another fortnight has been opened by administration leaders. President Roosevelt is said to have helped when he compromised with a militant senate conference committee "to prevent a deadlock over controversial section of the stock market control bill. He also has given the administration blessings to a silver program in an effort to appease western senators and thus hasten adjournment." Now both measures are assured by early passage—this by the leaders of both houses of the congress.

Majority Leader Joseph Taylor Robinson is hopeful of disposing of both the tariff and the silver legislation this week—perhaps in the early days of the month of June. Very important is the tariff bill and its passage. It authorizes the president to raise or lower tariff rates 50 per cent for the purpose of negotiating reciprocal trade agreements. According to the wise leaders who are legislative friends of the administration the tariff bill is certain. Likewise quick acceptance by both houses of the compromise conference report on the stock market regulation bill was forecast May 28.

Another important committee, that is the durable goods industry committee of the national recovery set-up has made its report. This committee was created to answer the administration's question of "how are we going to activate the capital goods industry?" Well, the committee investigated and reported. Its foreword was that re-establishment of confidence on the part of investors was most important. Its program as made to the president, by a committee of 16 headed by George H. Houston, president of the Baldwin Locomotive Works, was summarized as follows by Washington correspondents: "First a free flow of private capital into private business. Second, a sound real estate mortgage market. Third, an industrial relations on a basis to assure cooperation instead of strife. Fourth a balanced price parity between agricultural commodities and manufactured goods."

Now it is for the congress to get busy on the legislation necessary. All the people, regardless of political party affiliations are interested in pushing along the cause of national recovery and the complete restoration of confidence in all branches of business, in all fields of human endeavor and in a policy of cooperation instead of strife, on the part of the employers of labor as well as a quick recognition of the rights of all on the part of wage workers as well as those who operate the great corporations of human activity the country over.

One holder of Cisco municipal bonds believes in straight trading methods. He appeared at the city hall a week ago with \$200,000 in defaulted securities in his brief case and offered to sell them back to the city at five cents on the dollar. That would have been \$10,000. The bonds were actual securities, not certificates of deposit.

He said, after looking over the city's financial statements, that he thought Cisco would be doing well to stand up under a 10 cents on the dollar refunding plan.

Mayor Berry informed him that although the city has on deposit to the credit of the sinking fund about \$60,000, he couldn't buy the bonds even at the low figure asked. Patiently he explained that the sinking fund is legally shared by all the bondholders and the pro rata part of it applicable to the \$200,000 offered by the visitor is much less than \$10,000. He also pointed out that the

city's financial statements, that he thought Cisco would be doing well to stand up under a 10 cents on the dollar refunding plan.

"struck him full in the face" as he arose that morning.

Those who know Dr. Smith know why the trustees of McMurry college were so insistent upon his taking the place that the death of Dr. J. W. Hunt, school founder, left vacant last March 12.

Dr. Smith, to my mind, is ideal timber for a college president, particularly the presidency of a school that is young and growing. I don't think he'd fit into a pattern of uncompromising tradition. He possesses executive ability that would command a large salary in the business world. That ability was demonstrated in the financing and construction of the Methodist hospital in Fort Worth, of which he was commissioner and superintendent for six years. It was also demonstrated in his supervision of the Cisco district during the year and a half he was presiding elder. The district led the conference.

That practical nature is in rare combination with a high idealism which inspires whatever he does with the wonderful color of romance. Furthermore, he is intensely active, intensely interested in whatever he does. As presiding elder here, he was ever on the go, ever doing, never done, always envisioning something better and working toward it.

Furthermore again, he is one of the handsomest men in the country. Another good citizen gone to Abilene!

One holder of Cisco municipal bonds believes in straight trading methods. He appeared at the city hall a week ago with \$200,000 in defaulted securities in his brief case and offered to sell them back to the city at five cents on the dollar. That would have been \$10,000. He also pointed out that the

legality of much of the city's debt is under fire in litigation on appeal from the federal district court at Abilene.

Tom Stark is home, laid up with a fracture in one of his legs, a minor break but a painful and disabling one. The injury occurred Tuesday evening while Tom's playground ball team was playing a team gathered by Vance Littleton.

The two captains collided at second base. Some of the wags on the street are hinting that Tom is getting awkward in his advanced years, but Specs sends sympathy and a sweet-smelling bouquet to make the tedium pleasanter.

Texas Topics

By RAYMOND BROOKS

AUSTIN, May 31—For long range political guessing—for early bandwagoning, James E. Ferguson put all competitors in the shade. When U. S. Secy. of Agriculture Wallace

visited Dallas, and was welcomed to Texas by Gov. Ferguson and her husband, Mr. Ferguson very promptly nominated the popular mid-westerner as Roosevelt's successor in the presidency. "I-told-you-so's" have been made that way. The title of political prophet has a man whose achievement was not so much guessing right as guessing early. There are not so many eligible to be successor to the present democratic leader. Many believe the successor will come from the progressive mid-west country. Mr. Ferguson has had his say.

Strangest of the political candidacies of the year is the platform upon which W. Gregory Hatcher is running for railroad commissioner. That platform is the statement that the railroad commission is, and would be if Mr. Hatcher were a

member, incapable of performing the duties given it by law in respect to the oil industry. It is the adequacy of abandoning the function prescribed by Texas law, in favor of federal administration of the business within Texas.

It was a courageous bid for support of all those who don't like the oil conservation administration of the state, under orders which will meet the objections of federal courts.

"Where do we go from here," said John W. Hornsby of Austin, challenged all his opponents for lieutenant governor, after the San Angelo get-together party of political candidates at the West Texas chamber commerce convention.

The lieutenant governor candidates have made much of their personal friendship, and the lack of bitterness in their race. His competitor wired Hornsby to know why he won't present the first day of the San Angelo convention. They made the speeches then. Next day he as the sole candidate for lieutenant governor, and made his speech. He answered their telegram, congratulating them on accepting his proposal. He asked them where the campaign would take the group on its next joint appearance.

It is a merry race. Candidates are Sen. Hornsby, Sen. Joe Moore, Former Sen. B. F. Berkeley, and Rep. R. M. Johnson.

Cisco and Parks to Play Here Tonight

There will be a double-headed playground baseball game between an all-star team from Parks Camp and a Cisco team at the Humboldt West Texas Utilities field tonight. It was announced by Vance Littleton.

HOOD RIVER, Ore., May 31—HOOD RIVER, Ore., May 30—New Frances abandoned the plan of requiring each apple and pear exported to her ports be enclosed in a wrapper bearing the name of its origin, has been well received in the fruit growing center. The wrapper plan" assertedly was to have been in retaliation for a ruling fostered by American wine interests to force French exporters to specify on each bottle wrapper the origin of every bottle of wine.

Vacation time is here!

Get the smoother performance and full economy of

Mobilgas and Mobiloil

FREE ROAD MAPS
New 1934 Road Maps of Texas, Oklahoma, Arkansas, Louisiana, and New Mexico are now ready at all Magnolia Stations and Dealers. Drive in and ask for a set. They're FREE!

MAGNOLIAND is truly Vacationland. Here in the Southwest is every kind of pleasure and recreation you could wish for.

Miles upon miles of paved highways make it easy for you to drive in comfort. Thousands of Magnolia Stations and Dealers are eager to provide you with road maps... information... and to keep your motor pur-

ring smoothly with Mobilgas and Mobiloil.

Before you go, let us Mobilize your car, fill your gas tank with Mobilgas and your crank-case with summer-grade Mobiloil, the world's largest selling motor oil. You'll find that your car has more power and greater smoothness when it is protected by Mobilgas, Mobiloil and Mobilgrease.

LUBRITE
(Formerly Magnolia Motor Oil)
Lubrite is a tough, full-bodied, long-lasting motor oil, second only to the world-famous Mobiloil. Exhaustive tests indicate that Lubrite gives as good (if not better) performance than many other motor oils selling at a higher price... If you want a good quality motor oil costing less than Mobiloil, ask for Lubrite.

Home Demonstration Club News

By MISS RUTH RAMEY
Co. Home Dem. Agent

ESSENTIALS FOR GOOD CAKES

Mrs. P. C. Larkins, farm food demonstrator of the Peak Home demonstration club states, "cake making is not only an art, but can be done by all women if the following essentials are followed. I have prepared the cakes I make by following the essentials I am giving you."

1. Ingredients of the best quality.

2. Accurate measurements (don't guess or the result will not be what should be).

3. Proper method of mixing.

4. Proper oven temperature.

5. Eggs toughened at high temperature and this one thing makes necessary to have the oven the right temperature.

6. Careful handling during and after baking.

The fourteen cooperators of the club are working to improve the cakes for the families and to help other women of the community to do the same. They say "few-better cakes for the family."

EXACT AMOUNT OF FLOUR

"My cakes are never too dry since I get the flour once before measuring," said Mrs. Edwin Erwin, of the Basso Home Demonstration club. Flour packs easily and for this reason it should be sifted before measuring in order not to have more flour than the recipe calls for. By doing this one avoids a dry cake and one that may crack on top or have a tough crust. After sifting the flour, do not dip the cup so it and do not jar the cup on the table, both will pack the flour

back and your trouble is for nothing."

CUCUMBERS ARE READY

Mrs. Grace Driehoffer, Ranger Co-Workers Home Demonstration club gives the following recipe for Chunk Pickles (sweet). "I have used this recipe for several years and my family and friends like these pickles better than any kind I make."

"2 gallons cucumbers
"1 gallon boiling water
"1 pint salt
"2 1/2 quarts vinegar.
"5 cents worth stick cinnamon.
"Alum size of a walnut.
"1 tablespoon celery seed
"7 cups sugar.

"Wash cucumbers and place in jar. Pour one gallon boiling water and one pint salt over pickles, let stand one week. Pour water off, wash cucumbers and jar; replace pickles in jar and cover with boiling water and let stand 24 hours. Drain and cut in small pieces. If the cucumbers are small, they can be used whole. Boil vinegar and sugar (with celery seed and cinnamon tied in bag) pour over pickles let stand 24 hours, repeat for three days. Each morning, boiling liquid and pour over pickles. Last day, put pickles in jars and seal."

SLEEVE BOARD ESSENTIAL

A sleeve board is useful in so many ways that it will pay a person to make one as soon as possible. Pad and cover the pressing surface,

and use it to press sleeves, under-arm, shoulder and sleeve seams, points and gathers in hard to get at places. "My sleeve board has been worth more than I can figure in my sewing," said Mrs. Floyd McCormick, clothing demonstrator of the Bass Lake Home Demonstration club. The directions with drawing is available to all. Write the home demonstration agent or the Extension Service, College Station, Texas. Scrap lumber can be used for the sleeve board, but it takes such a little it is worth more than the cost to get the new material and make one in the best way.

DILL PICKLES

"Have variety in pickles as well as other foods," says Mrs. Henry Capers of the Bass Lake club. "The following recipe will help with the different pickles."

"Place in the bottom of the jar a layer of dill and one-half-ounce of mixed spice. Then fill the jar to within two or three inches of the top with washed cucumbers of as nearly the same size as practicable. Add another half ounce of spice and layer of dill. It is a good plan to place over the top a layer of grave leaves. In fact, it would be well to place these at both the bottom and top. They make a very suitable covering and have a greenening effect on the pickles."

"Pour over the pickles a brine made as follows: salt, one pound; vinegar, one pint; water, two gallons. Never use a hot brine at the beginning of a fermentation. The chances are that it would kill the organisms present, thus preventing fermentation."

"Cover with a board cover or plate with sufficient weight on top

to hold the cucumbers well below the brine.

"If the cucumbers are packed at a temperature around eighty-six degrees F. an active fermentation will at once set in. This should be completed in ten days to two weeks, if a temperature of about 86 degrees F. is maintained. The scum which soon forms on the surface and which consists usually of wild yeasts, but often contains molds and bacteria, should be skimmed off."

"After active fermentation has stopped, it is necessary to protect the pickles against spoilage. This may be done in one of two ways: (1) Cover with a layer of paraffin. This should be poured while hot over the surface of the brine or as much of it as is exposed around the edges of the board cover. When cooled this forms a solid coating which effectually seals the pickles. (2) Seal the pickles in glass jars or cans. As soon as they are sufficiently cured, which may be determined by their agreeable flavor and dark green color, transfer them to glass jars, and fill either with their own brine or with a fresh brine made as directed. Add a small quantity of dill and spice. Bring the brine to a boil, and, after cooling to about one hundred and sixty degrees F. pour it over the pickles, filling the jars full. Seal the jars tight and store in a cool place."

"I prefer sealing in the small jars because I can open the small container without disturbing the others and when all are in a large container it means sealing again."

"Dill can be grown in the gardens and each person should have some dill growing each year."

PLEASANT HILL

Mr. and Mrs. Alta Hardin and children of Loraine spent last week with Mrs. Hardin's parents, Mr. and Mrs. M. E. McCord.

Mr. and Mrs. Nelson McKinnerney spent Saturday night visiting Mr. and Mrs. Jess McKinnerney and family.

Mrs. Edgar Alton and children, and Shannon Ramsey attended the graduation exercises in Cisco Monday night.

Mrs. Sam Courtney of Cisco spent this week with her grandparents, Mr. and Mrs. A. A. Abbott.

Mr. and Mrs. Jess Taylor and children of Eastland visited Mrs. Taylor's parents, Mr. and Mrs. S. A. Lamb, Sunday.

Ilan Clark attended the school play at Cook Wednesday night.

Mr. and Mrs. Bill Welch and Mr. and Mrs. John Daugherty were Sunday dinner guests of Mr. and Mrs. Henry Hardin.

Mr. and Mrs. Jess McKinnerney made a business trip to Eastland Thursday.

Misses Pearl and Mildred and Troy Lamb attended the commencement exercises in which their niece graduated at Eastland Friday night.

Several in the community attended the school play at Word Saturday night.

Billy Clayton and little Joann Hardin are ill with the measles.

Mrs. G. P. Poe and son of Cisco visited in the community Thursday.

Mrs. B. F. Trott and daughters, Betty June and Doris Marie of Loraine were visiting relatives here Thursday.

Miss Lola Mae Hooker and Bob Hooker accompanied Mrs. Lee Poe of Cisco left on a trip Saturday to San Antonio, Corpus Christi and other towns in the south.

Andy J. Taylor of Eastland is visiting Troy Lamb this week.

Mr. and Mrs. Edgar Alton and daughter, Elaine, spent Sunday with Mr. and Mrs. Moon.

Mr. and Mrs. Marvin Holt and children and Mr. and Mrs. Spears of Breckenridge were Sunday guests of W. J. Holts and family.

Mr. and Mrs. Homer McDonald and daughter, Margaret Ann, were dinner guests of Mr. and Mrs. James Bone Sunday. In the afternoon Mr. and Mrs. Bone accompanied the McDonald's to visit Mrs. J. C. Deyer, mother of Mrs. McDonald and Mr. Bone at Pueblo.

Mr. and Mrs. A. H. Lockhart and daughter, Rube Nole, visited Mr. and Mrs. Clarence Hasting and family of Carbon.

Misses Frances and Flora and Lucille Bacon and Vivian Kilpatrick of Cisco were callers in the home of Ilan Clark Sunday morning.

Mr. and Mrs. Jess McKinnerney and children spent Sunday with Mr. and Mrs. A. H. Morris of Rising Star.

W. J. Holt and son, Aubrey, were business visitors in Carbon Monday afternoon.

Miss Bessie Taylor of Eastland visited Misses Pearl and Mildred Lamb Thursday.

Mrs. McMillen of Carbon is spending this week with her daughter, Mrs. A. H. Lockhart.

Mrs. Ed Jonsson and children were visiting relatives in Romney Monday.

Misses Ilan and Louise Clark, were week-end guests of their grand-par-

ents, Mr. and Mrs. F. W. Smith, of Cisco, where they met their great-grandmother, Mrs. V. Hackney, and uncle and aunt, Mr. and Mrs. Gene Smith, and Bert Green of Denton for a short visit.

Carl Stroebel visited his sister, Mrs. Dan Wende, Saturday night.

Several young people in the community were visiting in Mr. and Mrs. S. A. Lamb home Sunday.

Stanley Webb of Romney, Vivian Kinard of Big Spring, Misses Lucille Bacon and Vivian Kilpatrick of Cisco also were among the crowd.

Several young people in the community attended a party of Mr. and Mrs. C. L. Carmichael of Cook.

Mr. and Mrs. Ray Tucker and Mr. and Mrs. John Daugherty and family attended the graduation ex-

ercises in which Miss Reba Tucker was graduated Friday night at Carbon.

Mr. and Mrs. Dan Wende and sons and Mr. and Mrs. Herman Reich and daughter attended an all-day picnic at Mr. Weiser place Sunday.

Last Friday evening Mr. and Mrs. James Bone were host and hostess to a party honoring Miss Lola Mae Hooker who left for San Antonio Saturday. The rooms were decorated with masses of pink and white roses and fern. Games were played during the evening, directed by Miss Ilan Clark. The table was laid with a linen cloth and was centered with a cut glass bowl of pink roses an ice course, consisting of ice cream and cake were served to the following guests: Misses Frances and Flora

Bacon, Ilan and Louise Clark, Elizabeth McCracken, Evelyn Holt and the honoree, Lola Mae Hooker.

Messrs Ira Hooker, Aubrey and Avery Holt, Doc and Carl Stroebel, Stanley Meracken, Alton Clark, Charley Parks, Laura Daugherty, Shannon Ramsey and the host and hostess.

Political Announcement

The Cisco Daily News and American and Roundup are authorized to announce the following as candidates for the political offices with which their names are associated, subject to the action of the democratic 1934 primaries:

- For County Treasurer: JOHN WHITE, MRS. MAY HARRISON. For Sheriff: VIRGE FOSTER (Re-election). For County Comm'r, Pre. No. 4: ARCH BINT (Second Term), BIRT BRITAIN, L. H. QUALLS, J. J. HONEA. For County School Superintendent: C. S. ELDRIDGE, T. C. WILLIAMS. County Judge: W. D. R. OWEN, CLYDE L. GARRETT (Re-election). Justice Precinct No. 6: JOE WILSON.

AN ORDINANCE An Ordinance to Regulate Fishing and Prevent the Pollution of the Waters in the Lakes and Reservoirs Belonging to the City of Cisco, and Declaring an Emergency.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CISCO: That on and after the passage of this Act it shall be unlawful to take fish from the lakes or reservoirs owned by the City of Cisco or to fish in said lakes or reservoirs except as hereinafter provided. All persons fishing in the lakes or reservoirs belonging to the City of Cisco must obtain a written permit from the Mayor of said city before entering upon the lands adjoining said lakes or reservoirs owned by the City of Cisco and before fishing in said lakes or reservoirs, and must present same for inspection to the watchman or caretaker of any of said lakes or reservoirs or to any authorized officer of the City of Cisco when called upon to do so. An annual permit shall be obtained by the payment of the sum of One Dollar and fifty cents (\$1.50)

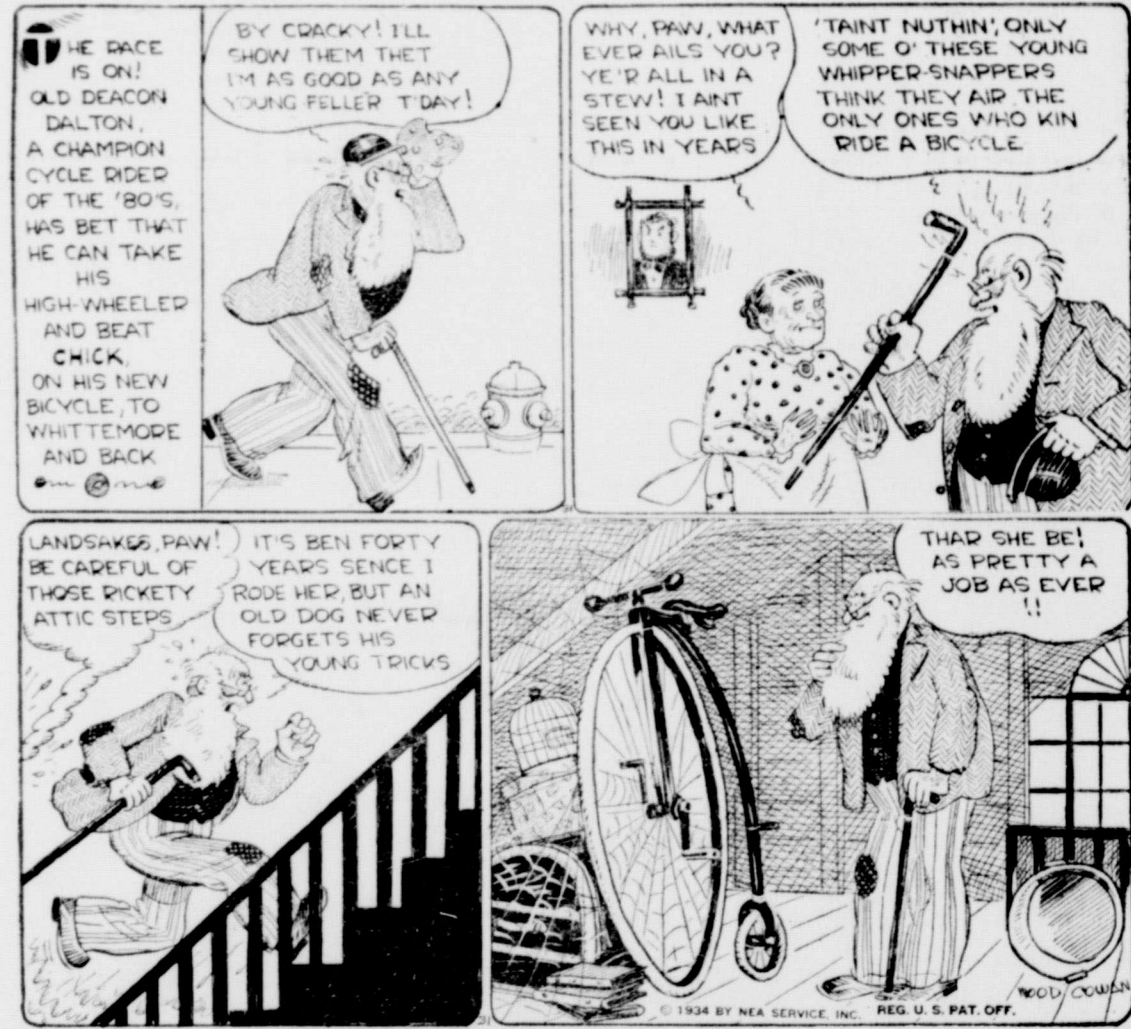

per annum, or a daily permit upon the payment of the sum of twenty-five cents (25c), for each permit. The annual permit shall be good for the current calendar year, and the daily permit shall be good for the period of one day. The annual or daily permit shall entitle the holder or the members of his or her immediate family or any out-of-town guests, when accompanied by the holder of the permit, to fish in said lakes or reservoirs, provided, however, that the holder of the permit shall be at all times responsible for the infraction on the part of the members of his or her family or on the part of the guests of the holder, of any of the rules and regulations herein or that may be hereafter prescribed. It shall be unlawful to use any kind of bait except live bait or artificial lures and flies, to set nets, seines, snares, traps, or other devices for taking fish from the waters of the said City of Cisco, or to use dynamite, powder or drugs of any kind to kill fish in said waters. It shall be unlawful to use or leave any meats or the body or any part of the body of any animal or fowl or any other putrefying substance in or near said lakes or reservoirs or on the watershed thereof. It shall be unlawful for any person to take from said lakes or reservoirs in any one day more than fifteen (15) pounds of bass and/or crappie on his or her permit provided, however, that if any person should catch one fish weighing fifteen pounds or more, he or she will be allowed to keep said fish, but will return to the waters carefully and alive all other bass and crappie that may have been caught. And it shall be unlawful to keep any bass under eleven inches in length, or any crappie under seven inches in length, measurements being taken from point of nose to end of tail fin, and all fish caught under the length herein specified shall be carefully returned to the waters alive. It shall be unlawful for any person to fish in any lake or reservoir belonging to the City of Cisco without first obtaining the permit hereinafter provided for. These permits are not transferable and only one permit will be issued to each person at one time. It shall be unlawful for any person to take fish from any lake or reservoir belonging to the City of Cisco for commercial purposes or to sell any fish so taken from said lakes or reservoirs. Any person violating any provision of this ordinance shall be fined in any sum of not less than Five Dollars (\$5.00) and not more than One Hundred Dollars (\$100.00), and in addition thereto the City Commission may cancel said permit. All previous ordinances or parts of ordinances conflicting with this ordinance are hereby expressly repealed. In view of the fact that there are not adequate and uniform regulations providing for the regulation of the sanitary conditions in or at the lakes and reservoirs of the City of Cisco and controlling the fishing in said lakes or reservoirs, this act shall be placed on final reading and shall become effective from and after its passage and publication.

tion. Passed on this the 22 day of May, 1934. J. T. BERRY, Mayor. Correct Attest: J. B. CATE, City Secretary.

free \$1500.00 in PRIZES for the best letter on "Why I like a Modern Gas Kitchen"

Your gas company and a number of leading appliance manufacturers offer 50 handsome prizes for the best letter on "Why I Like a Modern Gas Kitchen." You don't have to buy a thing to win one of these prizes, which have been donated for the purpose by manufacturers. All you need to do is to consider the advantages of the modern gas range, gas refrigerator and water heater, then write down in your own words the reasons why you like a modern gas kitchen. Possibly the convenience of gas appliances, or their efficiency, or economy, or all three of these qualities appeal to you. You do not need actual experience with all the equipment of an up-to-date gas kitchen to enter this contest. What counts most are your own ideas of the chief advantages of modern gas appliances and what they can do for a home. There are fifty prizes! You can win one! Try it! Begin your letter today.

- 50 PRIZES GRAND PRIZE: The three absolutely essential appliances of the modern kitchen - an automatic gas range, an Electrolux gas refrigerator and an automatic gas water heater. SECOND PRIZE: An Electrolux Gas Refrigerator. THIRD PRIZE: A modern gas range. FOURTH PRIZE: A modern gas range. FIFTH PRIZE: A modern gas range. SIXTH PRIZE: A modern automatic gas water heater. SEVENTH PRIZE: A modern automatic gas water heater. EIGHTH PRIZE: A modern automatic gas water heater. NINTH PRIZE: A modern automatic gas water heater. TENTH PRIZE: A 10-radiant room heater. ALSO 40 small room heaters as additional prizes for letters that receive honorable mention.

- The Rules (Contest Opens June 1, 1934. Closes June 30, 1934) 1 All gas customers, and Stargas customers, and members of their families served by any company in the Lone Star Gas System in Texas are eligible to compete for these valuable prizes, except employes and members of their families. 2 Write legibly on one side of the paper only. 3 Write your name and address plainly at the bottom of your letter. 4 Mail your letter to Gas Contest Judges, 301 South Harwood, Dallas, Texas, or bring it to the office of your gas company. 5 All entries received become the property of the Lone Star Gas System for their use and will not be returned. The home economics representatives of three leading Texas colleges will act as judges.

See the displays of your Gas Company or Gas Appliance Dealers LONE STAR Community Natural Gas Co. GAS SYSTEM

DESDEMONA

Miss Minyon Whitworth came home Saturday from Stephenville where she was one of the graduates at John Tarleton college. Her many friends are quite proud of the record she made there, having been on the honor roll every time the past year. She will teach the coming year at Kokomo.

In a recent issue of the Dallas News there was an account of the meeting of the Blue Key Fraternity at Southern Methodist university at which the officers for the coming year were elected. Among those elected was William Howell who was elected vice president. The Blue Key Fraternity as organized in Florida in 1921 and has spread rapidly through the nation. The membership in the Blue Key at S. M. U. is limited to 15 students and 5 members of the faculty, the students being selected for their outstanding, strong character and real worth to the university. William Howell is a son of Rev. and Mrs. Z. L. Howell and has many friends here who are glad to hear of his honors.

Mr. and Mrs. Wofford Jones of Caddo, were guests of his mother, Mrs. Eula Jones a few days last week. Henry Gentry and three sons, his

father-in-law, Mr. Reid and his nephew, Philip Reid, spent a few days fishing on the San Sabá last week. They brought back a nice lot of fish.

Rev. and Mrs. Sherrod Stover came in from Lubbock Friday night and visited his parents, Mr. and Mrs. S. T. Stover a short time before going on to his church at Cleburne.

Mrs. H. B. Davis and little son, Bobby Glenn, of Lubbock visited her sister, Mrs. Plummer Ashburn last Wednesday and Thursday.

Born—On Friday morning May 25, 1934 to Mr. and Mrs. A. B. Henslee a girl whose weight was 7 1-2 pounds and who was given the name of Sarah Ann. Mother and baby are getting along nicely.

Born—On Thursday, May 24th, 1934 to Mr. and Mrs. Gene Ashley, a girl whose weight was 8 1-2 pounds and who was given the name of Billie Gene. The Ashleys and her parents, Mr. and Mrs. W. R. McGowan lived in Desdemona two years but now live in Eastland. Rev. and Mrs. Z. C. Chambliss have been visiting friends at Freer the past week and he has been preaching there.

Mr. and Mrs. Obed Henslee and little daughter, Barbara of Freer, Texas, came in Saturday night to visit their parents, Mr. and Mrs. W. B. Hilliard and Mr. and Mrs. A. E.

Henslee. They came especially to see the new member of the family the baby daughter of Mr. and Mrs. A. B. Henslee.

Miss Dorace Roe left several days ago for Abilene where she is visiting her sister, Miss Bernice Roe, who has an important position with an insurance company.

The "21" Study club met Tuesday of last week at the club house for the closing meeting of the club year. After a longer business session than usual Mrs. A. C. Robert led the program the final one of the course.

"Our Nation—Its Progress and Prospects." The subject was "Progress in Government" and was as follows: U. S. Supreme Court—Mrs. A. C. Moore.

Cabinets of Washington and F. D. Roosevelt—Mrs. Mattie Henry.

"The Senate" and "The House"—Mrs. John Mendenhall.

Song—The Star Spangled Banner—Mrs. E. Snodgrass.

The Bureau of Standards—Mrs. S. E. Snodgrass.

The Biggest Business in the World—U. S. Post Office—Mrs. W. E. Barron.

The New Deal and the Dealer—Mrs. A. C. Robert.

Smithsonian Institute—Mrs. Plummer Ashburn.

Those present were Mmes. Gifford Acres, W. E. Barron, Plummer Ashburn, W. C. Bedford, Aaron Henslee, A. C. Moore, Fred Welder, C. W. Malby, Roy Ashburn, Mattie Henry, Dave Parker, John Mendenhall, Arnold Anderson, S. E. Snodgrass and A. C. Robert.

Miss Mollie O'Rear is visiting friends in Eastland this week.

Miss Virginia Bruce left several days ago with her sister and brother-in-law and their baby, Mr. and Mrs. R. D. Hendrickson, for Port Arthur where she will visit them a week.

Mrs. W. W. Mitchell formerly of Desdemona but now of Huckabee is visiting her sister, Mrs. A. B. Henslee.

Mr. and Mrs. I. N. Williams drove over to Rising Star Sunday afternoon.

Mr. and Mrs. M. P. Williams had with them last week their little grandson, Bobby Williams of Midland. On Saturday they took him to Ranger to visit his other grand-parents, Mr. and Mrs. R. B. Patterson.

Mrs. H. J. Abernathy is enjoying a visit from her sister, Mrs. Mott of Bridgeport, Wise county, who came Saturday. She was met at Stephenville by her nephew and niece, Mr. and Mrs. Homer Abernathy of Gorman.

Dr. P. M. Kuykendall came down from Ranger on professional business Saturday evening. He was accompanied by his daughter, Miss Alla Ray Kuykendall and his niece, Miss Virginia Acres. The many friends of the Kuykendall family were glad to hear that Mrs. Kuykendall is improving after a few weeks' illness.

Miss Ruta Abel is visiting relatives at Alexander.

Mrs. J. E. Heeter drove up to Graham Saturday to visit her husband who is drilling oil wells near there.

Married—At Bryan, Friday, May 25, 1934, Miss Beryl Gallagher to Mr. Dick Cutting. Both of these popular young people have grown up in our town and have hosts of friends who are extending congratulations and good wishes. The bride is the daughter of Mr. and Mrs. N. D. Gallagher and the groom is the

son of Mr. and Mrs. C. Cutting. W. B. May assumed his duties as postmaster Saturday, having been appointed to take the place of J. W. Griffin who left Tuesday for his home in California. Mr. May is a pioneer settler here and has proved himself to be a good business man and his many friends feel sure he will be very successful in the business of the post office.

The Methodist Missionary Society met Monday afternoon for a social meeting at the home of Mrs. W. C. Bedford. The meeting was called to order by the president, Mrs. I. N. Williams who read a passage of Scripture after which Mrs. W. E. Barron offered prayer. After a short business session a number of games were enjoyed and the hostess then

served peppermint ice cream, angel food cake and orange cake to the following: Mmes. I. N. Williams, M. P. Williams, S. E. Snodgrass, W. E. Barron, Gifford Acres, Plummer Ashburn, G. S. Bruce, W. H. Davis, Aaron Henslee, Mattie Henry, Z. L. Howell, Dora Cotton, A. C. Robert, Charles Lee, Style McEntire and Miss Lois Howell.

SEVEN CHURCHES OVER 100

BOSTON, May 31 — Boston has seven church buildings more than a century old. The oldest is Christ church, built in 1723 and the others are Old South Meeting house, King's chapel, St. Stephen's Roman Catholic church, West church, Charles Street Meeting house and Park Street church.

STROTHER'S TAILOR SHOP

I wish to announce to my customers and friends that I have moved my shop to new quarters, where I will be found ready to give highest quality service in Alterations, Hat Cleaning and Blocking and Suits made to order.

JOHN STROTHER, Tailor
703 Main Street — Cisco.

YOUR STOMACH

It's time to do something when:
—You can't look a meal in the face;
—Eating always means stomach pain, distress;
—Gas, belching, bloating give you daily discomfort;
—You're nervous; you lose sleep; you're dragging around "half alive."

If that describes you, then you already know baking soda and things like that don't do any lasting good.

If you're going to get that stomach back on the job—to where you can eat what you like and enjoy it, sleep like a log, feel "like a million dollars"—isn't it common sense to get after the cause?

Every day your body must purify itself of certain poisons and purities that otherwise result in sickness and pain. When it cannot do this vital work properly it must have help.

Many already have found this help in Crazy Water Crystals. Thousands of them have written us: "I can eat what I like once more, I am sleeping soundly, I feel ten years younger."

Crazy Water Crystals are taken from a great cleansing, purifying mineral water—they were prepared by old Mother Nature herself. They are not some human being's idea of how this cleansing ought to be done. Nothing is added to them. Anyone who tells you a different story does not tell the truth.

This cleansing means a great deal more than just moving the bowels. This mineral water—made at home with Crazy Water Crystals—cleanses the system—not just the digestive tract. The part played by the kidneys in this purifying work is as great as, or greater than that of the bowels. And drinking this mineral water increases elimination through the kidneys as well as through the digestive tract.

This explains why so many thousands of victims of other troubles besides stomach disorders—many of the aches in muscles and joints which they call "Rheumatism," "Arthritis," or "Neuritis;" terrible backaches; headaches; loss of sleep and extreme nervousness; and some things less serious, like ugly skin, foul breath, etc.—bless the very name "CRAZY." The way to up-root a trouble like this is to get right at its cause.

We do not believe Crazy Water Crystals are magic. They are not a cure-all. But if your life is being made miserable by one of these troubles, give them a thorough, honest trial. Get a package to-day. Stay with them a month at least. It will cost you only a few pennies a day, at the most. And then let your own common sense tell you how much better you feel.

About Cisco Today

MRS BRANDON ENTERTAINS

Mrs. H. Brandon entertained Tuesday afternoon in her home on West Eighth street with a bridge party. The house was beautifully decorated with nasturtiums, tiger lilies, and lady fingers. Prizes were won by Mrs. Jack Phippen, high; Mrs. A. L. Foster, high cut, and Miss Mary Jane Butts, low.

Ice cream and cake and tea were served to the following guests: Mesdames Jack Phippen, Jack Jones, James Moore, Hubert Seale, W. J. Leach, K. H. Pittard, T. D. Schaeffer, Lee Smith, Rex Moore, Sam Kimmel, F. J. Borman, A. L. Foster, P. P. Shepard, D. Ball, R. L. Fonsler and Misses Ora Bess Moore and Mary Mary Jane Butts and hostess.

CALENDAR

Tuesday
The Missionary society of the First Methodist church meets in business Tuesday at 3 o'clock at the church.

Wednesday
The Missionary society district meeting will be held in Breckenridge Wednesday at 10 o'clock.

DOTHAN

Mr. and Mrs. Ben J. Camp are the parents of an eight pound daughter, born Monday morning, May 28.

J. B. Bostick, Mr. and Mrs. J. M. Bestick and children, and Mr. and Mrs. E. L. Hazlewood and children were Sunday dinner guests of Mr. and Mrs. L. C. Camp and children.

Marston Strles and Miss Estelle Bunt were graduated Monday evening from Cisco high school in a class of fifty-six. We feel proud that two young people of our community can enjoy this distinction and wish them success and honor in whatever they undertake in the future.

W. D. R. Owen of Eastland, candidate for county judge of this county, was in this community meeting the people Tuesday.

Woodrow Hazlewood of Baird is spending this week with relatives and friends here.

Mrs. P. E. Dungan and daughter, Bettie Jean of Baird were at Dothan Wednesday.

Mr. and Mrs. Josh Snoddy of Seaton were here on a business trip Friday.

Mrs. C. E. Phippen and son, Clifford, and daughter, Geraldine and Mrs. Elmer Lisches of Cisco, have returned from a trip to East Texas to visit relatives.

Raleigh Murray of Cisco was in Dothan Tuesday.

Mrs. L. Camp and son, Donald Dean, and Misses Argeline Coats and Glenna Phippen attended the school picnic at Union Friday.

Mr. and Mrs. L. C. Camp and children attended a play at Union Wednesday evening.

BIBLE STUDY CONCLUDED

"The Open Gate to Prayer," the Bible study of the Missionary society of the First Methodist church was concluded Tuesday afternoon when Mrs. P. Pettit gave the last three chapters. The study has been very inspiring and helpful to those who have attended. Mrs. G. W. Powell was in the chair and the meeting was opened by singing "The Beautiful Garden of Prayer." The devotional, from entire first chapter of James was also read by Mrs. Powell. At the conclusion of the study, the benediction was in unison.

THE PHILATHIA CLASS TO HOLD PICNIC

The Philathia class of the First Methodist church will hold their monthly social in the form of a picnic tomorrow afternoon at 6:30 o'clock at Lake Cisco. Husbands and children will be guests for the evening. Each family is to bring a picnic basket. All members and associate members are urged to attend and those without transportation are to meet at the church at 6 o'clock.

Personal Mention

Mrs. O. C. Curtis and son, Billie Price, of Big Spring are visiting relatives and friends in Cisco.

Mr. and Mrs. Homer Smith have returned from a visit in Wink.

J. A. Karkalis of Fort Worth father of C. S. Karkalis and Mrs. Frank Walker, is here visiting his children.

Rev. and Mrs. A. C. Miller and children of Belton spent last evening with Mr. and Mrs. E. J. Poe and left this morning for Lorraine for an overnight visit with Mr. Miller's parents. They will go to Abilene tomorrow to attend the 25th anniversary celebration of Dr. Sandler's presidency of Simmons university.

Mr. and Mrs. W. Robins and children and Miss Aodie and Mattie Stevens spent yesterday in Brownwood.

Mr. and Mrs. Ramond Doyle of Ranger spent the day visiting in Cisco.

Lon Garrett of Eastland spent last evening in Cisco.

Miss Elizabeth Dial left yesterday for Dallas where she will spend a few days with friends.

Jack Lewis transacted business in Cisco yesterday.

Mrs. Conrad Schaefer and son, Don, left today for a visit with relatives in Panna.

Mrs. J. G. Rupe is visiting her daughter, Mrs. J. B. Spearman, in Lubbock.

Mr. and Mrs. A. D. Anderson and Mr. and Mrs. Jack Anderson were visitors in Breckenridge last evening.

C. H. Parish transacted business in Stamford today.

Mr. and Mrs. Lee Comer and children of Phoenix, Arizona, are the guests of his brother, Oscar Comer of Cisco.

Mrs. G. H. Kinsey is leaving today for Trenton, Tenn., for the summer.

Mrs. A. Owen of Dallas is the guest of Mrs. C. Owen of Cisco.

Miss Marjorie Neel left Sunday for a visit with her aunt, Mrs. A. J. Fields, in Gainesville.

W. C. Andrews and M. B. Johnston have returned from a fishing trip near Palo Pinto on a branch of the Brazos.

Mr. and Mrs. A. J. Olson are leaving for San Antonio in the morning for a brief visit with their son, Marion, and wife, and Miss Bessie Olson of Austin will meet them in San Antonio and return home with her parents.

Mrs. Edward C. Collins who has been the guest of Mr. and Mrs. A. C. Green has returned to her home in San Antonio.

TEACHERS' PAY BOOSTED
AMARILLO, May 31—Trustees of Amarillo college here are determined that teachers shall share in the recovery program. Salaries of the faculty were increased seven percent over 1932-33 depression levels, effective in September. The year's salaries for the 13 members of the teaching staff will aggregate \$23,470.

INNER TUBE BOUNCED OWNER
NORWALK, Conn., May 31—While Joseph Polakovich was changing a tire on his truck an inner tube exploded with such force his head was bounced on the pavement. He was taken to a hospital to have cinders removed from his eyes and a scalp wound dressed.

MEDICAL CLINIC MAY APPEAL TO AID OF COURT

LOS ANGELES, May 31—The fight to maintain medical service at low cost for the salaried classes may be taken to the civil courts. Dr. H. Clifford Loos, co-founder of the Ross-Loos clinic of Los Angeles, has told the United Press.

The controversy between "socialized" medical treatment and "rugged individualism," is being brought to a head here in the controversy between the Ross-Loos clinic and the Los Angeles County Medical association.

The clinic has been furnishing complete medical care to several thousand patients, including hospitalization, at the rate of \$2 a month.

Economic Issues
The issues seem to be largely economic. No question of professional ability within the clinic has been raised.

The medical association recently expelled the clinic's physicians on the ground that the clinic had solicited patients and had sanctioned complimentary articles in house organs published by groups subscribing to the clinic, the latter coming under the professionally unethical head of "advertising."

Dr. Ross and Loos deny the charges categorically.

The clinic has at present some 15,000 "contract patients," many of whom also contract for the care of their dependents. The complete roster of patients is estimated at 30,000 to 45,000. It has grown to its present proportions from an experiment launched in 1929. Fifty-five all-time and part-time physicians are employed, and as many more nurses, orderlies and clerical attendants.

The founders are Dr. Loos, a surgeon who retired just prior to 1929, and Dr. Arnold E. Ross of Canada, fellow of the Royal College of Surgeons of London and of Edinburgh and of the American College of Surgeons.

The Plan
The clinic will accept groups of from ten persons up. When a group is signed, all members are entitled to the service, regardless of the physical condition of any one member (exceptions: drug addiction, insanity and alcoholism). The well pay for the sick. The healthy are encouraged to visit the clinic early in illness, so that in a sense they pay the clinic to keep them well.

As an example of service, a woman can get a thorough course of pre-natal care, confinement, hospitalization and delivery, post-natal care and instruction in the care of the child at the basic rate.

The Clinic's Side
Dr. Loos, who, incidentally, is a brother of Anita Loos, the writer, said in reference to the controversy: "We are charged with advertising, which we deny. We think, for that matter, that we need to advertise. Obviously (I cite our growth) we are filling a great need

HOW ELECTRIC REFRIGERATOR SAVES MONEY

MISS CLARA DEAN
General Electric Kitchen Institute
In a recent survey, owners of one make of an electric refrigerator were asked, "What do you consider the outstanding advantage of electric refrigeration?" 82 per cent of these women replied "Economy."

It is actually possible to save from \$100 to \$200 per year with an electric refrigerator.

On a year round average, the cost of electricity to run the average sized refrigerator is less than the cost of ice.

Then there are the savings on left overs. For instance, an extra cup of milk, a slice of pineapple, a sauce dish of peas or a few potatoes, or the remains of a roast—if the housewife couldn't find immediate use for them she'd either "throw them away immediately rather than take a chance of having them spoil and make someone in the family ill.

In an electric refrigerator there is plenty of room to properly preserve these bits for which good money was paid, until they could be used in salads, desserts or sandwich fillings.

At least five cents a meal can be saved in this way—that is \$4.50 per month or \$60.00 per year on left-overs.

Week at a Time
Electric refrigerator users have found that they can buy almost an entire week's supply of perishable foods on Saturday when prices are 20 to 50 per cent lower—and keep

among modestly-salaried persons. We don't feel that we are encroaching upon the revenues of individual physicians, for the reason that the great majority of our patients are not economically able to contemplate private care, particularly surgery.

The house organs or several of our patients' groups have printed complimentary articles, which we are accused of inspiring or sanctioning. That is not true."

The clinic is appealing to the State Medical association from the county association's ruling, and expects to be refused.

"We may then have to go to court to vindicate ourselves," Dr. Loos said. "We feel that an exemplary verdict of one dollar from a jury of laymen would tend to prove our case."

Dr. Philip Stephens, president of the County Medical association would not discuss the matter for publication.

Soil Erosion May be "High Falutin'" But it Happens Anyway, Says Altom

"Soil erosion is one of those high falutin' terms you read about," said Edgar Altom of Pleasant Hill community. "But that is what has happened to Will Poe's 20 acres that had been abandoned because of washes and worn out soil. About six years ago the farm was terraced and the lines ran across this eroded area. Now I am working this farm and the abandoned portion has filled in and leveled up, and I am making about as much from it as from other portions of the farm." This is just one more illustration of what terracing can do for farm land that is not paying dividends, according to county agent, J. C. Patterson.

Many people with electric refrigerators buy large portions of meat at substantial savings and have the butcher cut it up for them. The refrigerator will preserve perfectly until used.

Thus you see it isn't hard to count up savings of nearly \$150 per year with an electric refrigerator.

Is it good economy to pay out money for inferior refrigeration when an electric refrigerator actually makes possible the saving of so large a sum.

Ideal Nation--

CONTINUED FROM PAGE ONE
was first and foremost the function of other nations. If this was not done, Germany would have to see that (unable to purchase raw materials abroad) she created substitute products, like artificial silk and wool.

Reichmark Endangered
Asked whether the measures already undertaken to protect Germany's economic position (strict control of imports, etc.) and in view of the tremendous costs of the re-employment program, the Reichsmark might not be endangered, Dr. Schmitt replied that he could not understand the reports abroad of a threatened inflation.

Energetic and, like all Nazi leaders, vehement in expression, he rose from his desk and paced the floor. There were moments when he might have been addressing an audience.

"It is difficult to prophesy, but signs are at hand that we are going forward. What we may observe today of economic success naturally is not simply the result of putting men back to work but also a really effective stimulation of affairs, much influenced by the psychological mentality of the people."

Asked whether the measures already undertaken to protect Germany's economic position (strict control of imports, etc.) and in view of the tremendous costs of the re-employment program, the Reichsmark might not be endangered, Dr. Schmitt replied that he could not understand the reports abroad of a threatened inflation.

Energetic and, like all Nazi leaders, vehement in expression, he rose from his desk and paced the floor. There were moments when he might have been addressing an audience.

"It is difficult to prophesy, but signs are at hand that we are going forward. What we may observe today of economic success naturally is not simply the result of putting men back to work but also a really effective stimulation of affairs, much influenced by the psychological mentality of the people."

Dr. C. Q. Smith---

the banner district of the conference in the point of membership gains and financial improvement. It was continuing that record this year.

In spite of the great demand upon his time, Dr. Smith was able to maintain his perfect attendance record as a Rotarian. His membership was transferred here from the Fort Worth club.

TO SEE AFTER 13 YEARS
NEBRASKA CITY, Neb., May 31—After 13 years of darkness, Mrs. Sterling M. Copeland once more is looking out upon the world. Overjoyed at the results of a thyroid operation, which began the process by which her sight is being restored, Mrs. Copeland at 65, is planning to re-adjust her life to the new world of light and colors.

FUNDAMENTALIST SUBJECT
"What Will You Do With Jesus Which Is Called Christ?" will be the subject of the Sunday morning sermon at the Fundamental Baptist church. It was announced today. Sunday school will held at 9:45 o'clock and the preaching service will follow.

DAVIS TALKED
AS OPPONENT
FOR LOCKHART
By GORDON K. SHEARER
United Press Staff Correspondent
AUSTIN, May 31 — Former State Representative John Davis was dismissed here as a possible candidate for state treasurer after the killing of Rex Waller this week left Charley Lockhart without an opponent.
Davis, a Mesquite editor, ran quite a race with Lockhart before he was reported to have pledged his support to Phil Sanders, Nacoches, a former fellow-legislator, when Sanders' candidacy seemed probable. Sanders' decision not to enter, and Waller's death, leaves Davis free to make a lone race with Lockhart.
Gains for Tom Hunter continued to be reported to Austin in the race for governor. These gains were generally reckoned to be at the expense of Attorney-General James V. Allred. A set-back in the attorney general's suit to reduce natural gas charges was expected to bring another attack from Hunter.
Largest Crowd
Lieut.-Gov. Edgar E. Witt's inaugural crowd is reported to have been the largest to greet any candidate's opening. Its lateness may have been one of the contributing causes. He followed up by adding to his Waco campaign headquarters branches at Dallas, Fort Worth, Austin and San Antonio, each with popular local men in charge. Houston already had a branch.
Rivalry between Witt and Sen. Clint Small in the governor's race is focusing attention of many. Supporters of each would gladly see the other out of the race. In similar fashion the candidates of lieutenant-governor, failed to materialize. R. D. Parker, chief of the oil enforcement in east Texas, also failed to come forward with a reported candidacy.
The Barrow-Parker capture revived discussion of a Simmons-for-governor movement that was heard earlier in the year, before Lee Simmons, Texas prison system manager, indicated he did not expect to run.
Petronis Elected As Masonic Head
Tony Petronis was elected worshipful master of the Cisco lodge No. 556 A. F. and A. M. at the regular meeting of the lodge Thursday evening, May 24. He and the following other officers were chosen to serve for the year beginning with their installation after June 24:
Frank P. Yarger, senior warden; Frank Leech, junior warden; E. J. Poe, treasurer; L. D. Wilson, secretary, and George D. Boyd, tiller.
Step out into the SUNSHINE
How many days of your life are lost in feeling under par? How many hours which might be bright are dull and dispirited?
Half-hearted days are frequently due to common constipation. It clouds your waking hours, takes the sunshine out of living. Yet it can be overcome so easily by eating a delicious cereal.
Laboratory tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid elimination. ALL-BRAN is also a fine source of iron.
The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this "cereal way" pleasanter than risking patent medicines?
Two tablespoons daily are usually sufficient. With each meal in chronic cases. If not relieved this way, see your doctor.
Serve ALL-BRAN as a cereal or use in muffins, breads, omelets, etc. In the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

NEED OF NRA REFORM SHOWN BY DARROW REPORT, DECLARES NYE

Editor's Note: Senator Gerald P. Nye, R., N. D., whose demand for investigation of charges that the NRA oppressed small businesses led to creation of the Darrow review board believed the board's report substantiates the charges. He presents his views in an article written exclusively for the United Press.
By U. S. Senator Gerald P. Nye (Copyright, 1934, By United Press)
WASHINGTON, May 31 — An outstanding feature of the Darrow report in the discovery that both majority and minority opinions find that NRA codes are working real hardship on the little man and are fostering monopoly.
Since so much effort has been made to indicate there was a strife in the committee, this point is of double interest and importance.
President Roosevelt repeatedly has declared it is to be his purpose to aid and encourage the small business man.
In light of the findings of the review board, I would expect now to see the president move in the direction that would accomplish the sweeping reform which has been so long called for in the NRA.
Reform Direction
This reform should take the shape of wholesale revision of codes which would give the small business man larger influence and voice in shaping code policies.
There is now very large evidence of the need of continuous effort by a review board to remain divorced from the NRA and to study codes from the standpoint of smaller business enterprises and to guard against further entrenchment of monopoly.
The personnel of the federal trade commission in such a cause to firmly believe that a far larger voice in the making of codes should be exercised by that commission.
The very intemperate language resorted to by General Johnson, Donald Richberd and other higher-ups in the NRA in their response

OFFICERS DENY KNOWING WHERE METHVIN HIDES

DALLAS, May 31 — Although a subpoena for Henry Methvin was reported to have been sent from Fort Worth to the Dallas county sheriff's office, local officers Monday denied knowledge of Methvin's whereabouts.
The man, who escaped from Eastham prison and who was reported to have aided officers in trapping Clyde Barrow and Bonnie Parker in Louisiana last week, was wanted in Fort Worth to testify at a habeas corpus hearing for Mrs. Billie Mace, sister of Bonnie, held on a murder charge in the slaying of two highway patrolmen.
Both Sheriff Schmid and Deputy Bob Alcorn, one of the killers of Clyde and Bonnie, insisted they did not know where Methvin was. Both officers declared they had no dealings with him, and that, so far as they knew, Methvin had no part in putting the bandit pair "on the spot".

Hamilton Ready to "Finish Up That Crop You Helped Plant Before Your Escape"

HUNTSVILLE, May 31 — Raymond Hamilton, West Dallas bad boy, was taken inside the high walls of the Texas state penitentiary Saturday.
Hamilton entered the prison gate chained by the neck to a forger. He scowled as he looked up at the blank prison walls. The two convicts and two officers had completed a 250-mile journey from the Denton county jail.
"Well, Ray," Warden W. W. Waid said, "they want you to hurry back to Eastham and finish up that crop you planted before your escape in January."
Hamilton smiled for the first time.
"I'm ready, Warden," he said. "I was a good hand when I was up there before, you know."
The warden gave Hamilton his old prison number and a new striped suit to wear.

Hamilton Indicted Under Habitual Act

HUNTSVILLE, May 31 — Raymond Hamilton, former gun mate of the desperado Clyde Barrow, was indicted here Monday by a county grand jury as an habitual criminal.
The indictment listed the killing of Major Crowson, Eastham prison guard slain in a break in which Hamilton escaped January 16, and the murder of J. N. Bucher, of Hillsboro, Texas. It also listed a robbery with firearms case against Hamilton in the robbery of the Carmine State bank in Fayette county.

Private Building in Texas Still Lagging

AUSTIN, May 31 — Private construction in Texas still lags, it was

Something's Really Wrong With Them

BEAUMONT, May 31 — Yes, there's something wrong with those grass roots. County Farm Agent J. F. Combs is convinced, and if you want to know just what it is he'll let you read for yourself the official diagnosis.
Combs didn't like the looks of some of the roots so he sent them to the bureau of plant industry at Washington. The report received in reply said:
"These roots are infested with Nematodes. We found numerous specimens of the root-knot nematode, heterodera marioni, and also another quite serious plant-infecting form, anguillulina multicauda. In addition, aphelenchoides parietinum, cephalobus esyruoides, anguillulina, filiformis, and dorylamus, perhaps obtusicaudatus, were found, but the trouble really comes from the first named species. If you don't believe it, you can examine the roots yourself."

Charges Prepared in Fatal Knife Attack

CLARKSVILLE, May 31 — Murder charges were prepared here against Frank Phelps, 40, in connection with the fatal wounding of Hood Brown, 35, Sunday.
Brown died in a Paris, Texas, hospital from effects of wounds he received in a cutting scrape near the Red River, where he had gone on a fishing trip.

Republicans Will Hold State Primary

HOUSTON, May 31 — The state executive committee of the republican party met here Saturday to make plans for a state primary.
Republican leaders attending the meeting said they did not hope to elect any members of their party to state offices this year.
The party is holding a primary this year, however, because Orville Bullington of Wichita Falls, running against Miriam A. Ferguson as candidate for governor two years ago, polled more than 100,000 votes.
It will be the second state primary of the republican party in its history in Texas.

JUNIOR POLICEMAN

GALLION, O., May 31 — Police Chief Frank Cook has recommended Bobby Thomas, school boy safety patrol member, as a "junior" policeman. Here's why: A hardware merchant told Bobby one noon that a knife was missing after a boy had been in his store. Young Thomas produced both the boy and the knife within a half hour.

Canada, U. S. Lead Industrial Activity

GENEVA, Switz., May 31 — The United States and Canada led all countries of the world in increase of industrial activity in the first quarter of 1934, as compared to 1933, the League of Nations economic section announced Monday.
Canada's increase was 40 per cent over the same period last year. The United States' increase was reported as 30 per cent above the first quarter of 1933.

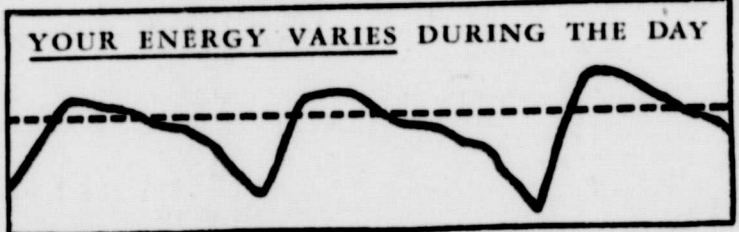

WHAT, NO MOSQUITO?

CANYON, May 28 — Wanted: a mosquito! Army officers of the veteran's CCC camps near here have been forced to disregard orders from Ft. Sill directing them to send a mosquito there to be examined in the army medical laboratory. Three weeks search for a mosquito has been futile.

KILL FILTHY FLIES AND MOSQUITOES!
FLY-TOX
FILTH-CARRYING, germ laden insects cause 135,500 deaths annually, according to Health Authorities. Surely flies, mosquitoes and other insects deserve no mercy. Kill them with FLY-TOX—the perfumed mist, pleasing to human senses—harmless to furniture and draperies... but DEADLY to insects.
Insert on the genuine FLY-TOX

NEWS!

Science reveals important new Facts for Smokers!

Camel Smokers can verify these facts!
A famous New York research laboratory announces a basic discovery that throws new light on our past knowledge of cigarettes. It embodies an "energizing effect" ... a quick restoration of the flow of natural body energy ... an experience well known to Camel smokers. When you smoke a Camel you feel an almost immediate relief from fatigue. What has actually happened is that you have released and made available the latent energy in your body. You've helped your body to help itself. During the day your energy curve hits certain low points. Camels raise your flow of energy ... quickly, conveniently and without jangling your nerves.

Petronis Elected As Masonic Head

Tony Petronis was elected worshipful master of the Cisco lodge No. 556 A. F. and A. M. at the regular meeting of the lodge Thursday evening, May 24. He and the following other officers were chosen to serve for the year beginning with their installation after June 24:
Frank P. Yarger, senior warden; Frank Leech, junior warden; E. J. Poe, treasurer; L. D. Wilson, secretary, and George D. Boyd, tiller.

Step out into the SUNSHINE

How many days of your life are lost in feeling under par? How many hours which might be bright are dull and dispirited?
Half-hearted days are frequently due to common constipation. It clouds your waking hours, takes the sunshine out of living. Yet it can be overcome so easily by eating a delicious cereal.
Laboratory tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid elimination. ALL-BRAN is also a fine source of iron.
The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this "cereal way" pleasanter than risking patent medicines?
Two tablespoons daily are usually sufficient. With each meal in chronic cases. If not relieved this way, see your doctor.

There's a "Lift" in CAMELS that drives away Fatigue and Irritability

Feel "all in"? Then's the best time to light a Camel.
It's cool and fragrant and delightful ... but far more important than that, it brings your flow of energy up from the depths!
You feel fatigue vanish. Irritability seems to slip away. And you go back to work—or play—with the energy and cheerfulness that are naturally yours.
YOU'VE HAD THE EXPERIENCE...HERE'S THE EXPLANATION!
This experience is no news to Camel smokers. But the explanation is news—and good news—to everyone.
The "lift" you get from smoking Camels is simply a release of the natural latent energy in your body. In other words you have helped your body to help itself ... easily, naturally, and without the slightest strain.
Remember this explanation when your energy curve is "down" ... times when you're irritable and your brain just doesn't seem to work and you feel too tired to move. At such times ... "Get a lift with a Camel!"
AND CAMELS NEVER JANGLE YOUR NERVES!
Camel fans smoke frequently—and they can—as often as they like. Camel's costlier tobaccos never get on the nerves.
Keep your flow of energy at a higher level with Camels.

TOO TIRED FOR FUN... and then she smoked a Camel!

CAMELS Costlier Tobaccos never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

KNOW THIS FEELING? The feeling of being too "all in" to respond to the gaiety of the crowd? No taste for the pleasure and fun of the sort of social evening that you would ordinarily look forward to? That's one of the many times to light a Camel, enjoying its rich flavor while your flow of natural, healthful energy is restored. You'll like Camels—a matchless blend of costlier tobaccos!

"Get a LIFT with a Camel!"

ROMANCE NEED OF EDUCATION SAYS WIGGINS

By FRANK LANGSTON
Dr. D. M. Wiggins, dean of Simmons and their guests at the 1934 commencement of Cisco high school in the school auditorium Monday evening. Of this number receiving their diplomas from Secretary O. J. Russell of the school board, 12 were graduated with high honors and 20 with honor, it was announced.

Roy Moad, a member of the graduating class, is to receive the annual Rotary club award for the most valuable boy in high school. It was announced by Principal H. Brandon. The award is made to the boy in the school who ranks highest in dependability, leadership, courtesy, popularity, and scholarship.

Miss Irene Webster, with the second highest scholastic average in the class, welcomed the visitors to the commencement exercises and Julian Ely, with the highest average, gave the valedictory. Both were awarded scholarships to various colleges of the state.

Boys Outnumber Girls
Of those receiving their diplomas 33 were boys and 23 girls. Supt. R. N. Cluck announced that during the last four years Cisco high school has graduated 19 more boys than girls. He also called attention to the fact that a number of the students in the 1934 class have worked their way through high school.

From the indolent alley to the "Royal Road to Romance," as depicted by Richard Halliburton, was the trend taken by Dean Wiggins in his commencement address. He began by saying that he welcomed criticism of the constructive kind, but that he attributed much of the failure of national recovery to destructive criticism or "street corner gossip," as he called it. "The reality educated, not schooled, man does not stoop to gossip," he said.

"Don't lose romance," Dr. Wiggins said, "for when you do you lose confidence, and when you lose that you haven't much left."

"Too much romance has been forced out of the curriculum. Wherever life has been lived it is full of romance. There is romance in law, romance in medicine, romance in business, and if it isn't in education, God knows it should be."

Recommended Book
He suggested that every member of the class should get Halliburton's book, read it, and throughout life try not to lose sight of the spirit of adventure found there.

Dr. Wiggins added that education should teach salesmanship and its value. "Know how to sell yourself. Some sell for less than they are worth. I am not worried about how much geometry you know. I want to know whether you have learned to live with one another. The test of education is whether one can like another after one has found out little things about him."

The professional and the recreational were played by G. W. Colman, director of the high school band. The Rev. E. S. James, pastor of the First Baptist church, offered the invocation. A double quartet of high school students sang two numbers on the program.

Diplomas Awarded
Diplomas were awarded by Secretary Russell, representing the school board, after the class had been presented by Supt. Cluck. Misses Elizabeth Daniel and Elizabeth Dial were sponsors of the class.

Following are the names of the graduates:
Earl Akire, Lurline Archer, Arthur Baker, Marjorie Barker, Estelle Birt, Dixie Blis, Claude Blackburn, Delpha Mae Blair, Ruby Lee Blanton, Clifford Blumburg, Delmar Borman, Burns Brown, Catherine Collins, Dimple Cone, Dalton Cook, Edna Cooles, Irene Culbert, Bertha Dunn, Julian Ely, Geneva Fenley, Gen. Groce, Joe B. Hall, J. E. Hall, L. A. Harrison, Jr., Faye Henderson, Adele Harrison, John St. John, John Robert Kilpatrick, Leonard Latch, J. H. Latsen, Jr., Melvin Lawson, Nerine Little, Bill McMahon, F. B. Mathews, Jr., Dell Frances Miller, Glenna Moad, Roy Moad, Marcia Mobley, Jack Moon, Terence Nance, Ralph Nance, A. G. Noble, Boyd Pflizer, Judson Russell, Jr., T. A. Smith, Jr., Georgia Smith, Carl Stroebel, Marston Surles, Forbes Walker, Marion Waters, Clark Webster, Irene Webster, Bob Whitman, Laura Wilson, Bryan Lee Winston, Lloyd Witten.

Quintuplets Given Names; All Thrive

NORTH BAY, Ont., May 31—The Dionne family—given international publicity because of the births of 5 baby girls to Mrs. Oline Dionne—observed Memorial day Wednesday by naming the infants.

The record-breaking achievement continued to amaze the medical world as the babies thrived and appeared assured of life.

Reports from the little log farm house indicated the tiny mites in one big basket were taking mild administered through an eye-dropper eagerly enough to entangle their slight father in mighty problems. He wondered if the girls ought always to be dressed alike.

STAMPS POPULAR
SOUTH BEND, Wash., May 31—The South Bend post office had difficulty in selling the 1914 issue of 12-cent postage stamps, of which they bought 10,000 when issued. The last few days stamp collectors have swarmed in to buy them. It was found they were the last stamps made by the government by the flat-bed printing process.

Asks Re-election

Geo. H. Sheppard

Sheppard's Friends Urging Re-election

Since Geo. H. Sheppard of Sweetwater assumed the duties and responsibilities of the comptroller of public accounts, the state comptroller's department has undergone a thorough revision, with the installation of business principles being the foremost motive in his administration of the state fiscal affairs, his friends assert.

Sheppard has endeavored to enforce all laws incumbent upon him as comptroller, which has been reflected by the records and results of his efforts, they said.

Sheppard is a life long democrat, and in announcing for re-election he pledged a continuation of faithful service.

JULY FOURTH PICNIC PLANS TO BE PUSHED

Plans to place signs at intervals of five or ten miles along the Bankhead highway on either side of Cisco were further discussed at the meeting of the board of directors of the chamber of commerce Tuesday night. The committee in charge was given further time to secure bids.

Plans call for placing one large sign near Cisco on either side and about 50 smaller signs along the highway, all calling attention to the attractions at Lake Cisco.

The Humble Oil and Refining company's Abilene sales area picnic to be held next month will be invited to Cisco, according to instructions which the board gave the secretary. The picnic of the Magnolia Petroleum company's Fort Worth sales district has already been invited here for the third successive year.

E. L. Betty, Abilene, is manager of the Humble sales area.

Political Carnival
Instructions to push arrangements for the annual Fourth of July picnic were given the publicity committee, headed by W. H. LaRoque, and the secretary. The picnic this year, which is an election year, will take the form of a political carnival, and candidates for state and national offices will be invited as well as those seeking local offices.

Two years ago such a picnic drew more than 10,000 persons and was declared the most successful Fourth of July event at the lake in recent years.

Cooperation with the Cisco County club in its annual invitation golf tournament to be held June 15, 16 and 17, was voted.

Murder Suspect Is Arrested in Guiana

EL PASO, May 31—Requests were sent to Gov. Miriam A. Ferguson to ask the state department to start proceedings immediately to extradite Arthur Wilson, reported arrested Tuesday at Georgetown, British Guiana, on a complaint charging murder of Mrs. Irene Deboit, Cleveland, O., widow.

The requests were made by the El Paso county sheriff and assistant district attorney.

The search for Wilson began with the finding of the nude and battered body of Mrs. Deboit November 7, 1933, on a lonely desert stretch near Van Horn, Texas.

Wilson's arrest was made at the request of the United States state department as he was leaving a Canadian steamship.

Methodist Revival To Begin June 17

The First Methodist church will begin a two-weeks summer revival Sunday, June 17, at the 11 a. m. service, the pastor, the Rev. Frank L. Turner, announced. Services will be held twice each day. During the week days the morning service will be at 10 a. m. and the evening service at 8 p. m. The morning services will be held in the church and the evening service will be held on the church lawn. Sunday, the morning services will be held at 11 o'clock and the evening services at 8.

Preaching will be done by the pastor.

Let us figure your next job of printing. Our job printing department is equipped to serve your needs.—Phone 80

NEW ATTACKS ON CITIZENS OF U. S. IN CUBA

HAVANA, Cuba, May 31—Renewed attacks on United States residents and a mysterious warning for all Americans "to get out of Cuba within 30 days" caused serious alarm Wednesday despite the news that the Platt amendment had been abrogated.

While the populace celebrated termination of a permanent treaty with Washington that restores full Cuban sovereignty, the rattle of police gunfire added to disturbances created by attacks on Americans.

Latta Carly, an employee of the Havana Post, was the victim of the fresh wave of attacks. He was set upon by a group of ruffians and beaten and robbed. Police gunfire dispersed the attackers.

A double guard was maintained around members of the American embassy.

TREATY ORDERED REPORTED TO SENATE

WASHINGTON, D. C., May 31—The senate foreign relations committee Wednesday ordered the new treaty between the United States and Cuba reported immediately.

Ciscoan on Program At State Lions Meet

W. H. LaRoque, secretary of the Cisco Lions club, is on the program for the secretary's breakfast of the Texas convention of Lions clubs which begins at Mineral Wells next Monday. Mr. LaRoque will speak on "Activities for Small Town Clubs" at the breakfast which is to be held Tuesday morning, June 5, beginning at 7:30 o'clock. Mr. LaRoque was a speaker on the secretary's breakfast program at the Lubbock state convention last year also.

H. L. Dyer, president of the Cisco club, and Mr. LaRoque are delegates to the state convention and to the convention of District 2-E which will be held Sunday, June 3 at Mineral Wells immediately preceding the state meeting Monday and Tuesday, June 4 and 5.

Mr. Dyer is also the delegate of the Cisco club to the international convention which will be held in Grand Rapids, Mich., in July.

Officer Determined To Keep Mustache

FORT WORTH, May 31—Let other policemen do as they please, but Detective Tommy James has the only mustache on the Fort Worth police force and intends to keep it.

James was left lonely but undaunted when the only other mustache wearer, Traffic Officer William Davidson, shaved his upper lip. "A razor never has touched my upper lip and never will," James announced emphatically.

The remedy is a simple one, it administered drastically and on a large enough scale, he said. It consists merely of limitation of grazing for a long enough time to give the wild grasses and bushes an opportunity to re-establish themselves.

The forestry service sees a start in the right direction in the grazing bill, now on the calendar of the senate. The bill, as drawn by the interior department at the urgent request of western agricultural leaders provides for governmental regulation of grazing on the public domain.

Western Wheat Country Threatened With Becoming Another Sahara, Says Expert

By FREDERICK C. OTHMAN
United Press Staff Correspondent
(Copyright, 1934, by United Press)
WASHINGTON, D. C., May 31—A Sahara-like desert—lacking only the pyramids and the camels—may be the destiny of the western wheat country.

Congress, the forestry service and the nation's emergency reclamation agencies are exerting all efforts to forestall such a cumulative tragedy. It has been creeping upon the west for 25 years, threatening to ravage millions of fertile acres, as other areas of the earth's surface have been ruined in ages past.

"Unless something is done, and done quickly, history is going to repeat itself and in a few more generations the western plains will be as arid as the Arabian desert or the Sahara," E. A. Sherman, associate chairman of the forestry service, explained. Since the early days of the century he has watched apprehensively the spread of the western desert.

First Damage
First damage was done in the decade from 1900 to 1910, when homesteaders invaded eastern Montana, parts of Wyoming and the Dakotas; by the thousands, intent upon practicing dry farming.

They plowed under the wild grasses and the sage brush which held the surface soil together, chopped down the scrub oak and cleared away the weeds. Vainly they seeded their acres with wheat, only to be beset with continual droughts until finally they were forced to move.

Grass returned slowly, and most of that which did grow in later years was eaten to the roots by grazing cattle and sheep. Yearly the situation became more desperate. In 1933 a dust storm such as never experienced by the oldest inhabitant swept the region surrounding Lemmon, S. D.

That was the first dramatic evidence of the damage which had crept so insidiously upon the land. The famous dust storm of a few weeks ago was a recurrence magnified thousands of times, of last year's swirling sands.

"The winds last fall and this spring have been no stronger than before," said Sherman. "There simply have been more particles of silica and granite for them to pick up."

"These particles do an abrasive job, rubbing out what vegetation there is, like a sand blast, so that the damage progresses geometrically."

"No semi-arid country which has been inhabited through the centuries has escaped becoming a desert. Whether our own western plains can escape it is something that only history can tell."

MAY BE HOSPITAL
CANTON, O., May 31—Plans for converting buildings formerly occupied by the Deuber-Hampden watchworks here, into a national hospital for World War veterans, will be submitted at the national convention of Disabled American Veterans in Colorado Springs, Col., in June. Proposal to convert the factory site long vacant, into a hospital was offered to the state convention of Disabled Veterans here.

Cisco Girl Winner In State Contest

Little Miss Henryetta Moss, 10-year-old Cisco girl living at 500 West Eighth street, was announced as winner of the 49th prize of \$250 in the Texas History Map Coloring Contest, conducted by the Fant Milling company of Sherman.

Thousands of Texas children entered the contest. Judges were Frank Calder, artist who painted the original Texas history map for the company; Martin B. Campbell, manager of Radio Station WFAA, Dallas; Miss Katherine Sherwood, director of art in the Sherman schools; and Wilson W. Crook, of the Crook-Advertising agency, Dallas.

Others have figured in speculation through the winter and spring as possible successors to Johnson. They include:

1.—Leon Henderson, drafted from the Russell Sage Foundation to become chief of NRA's research and planning division.

2.—Donald Rieberg, general counsel for NRA.

3.—Numerous nationally known industrialists and lawyers, including Newton D. Baker, Owen D. Young, and John W. Davis.

Inquiry provoked general denials that Johnson contemplated early retirement or that his ultimate departure was predictable with any accuracy now. Discussion of the subject was viewed at the White House as mere prophecy. It is known, however, that President Roosevelt last winter considered several possible nominees for the Blue Eagle command.

FRANCHISE FOR NEW GAS CO. IS DISCUSSED

An ordinance granting a gas franchise to the Consolidated Gas company, Hickok subsidiary, was discussed at length at a recessed meeting of the city commission Tuesday night.

General features of the franchise by which the Consolidated would install a gas distribution plant in Cisco in competition with the Community Natural Gas company's system, have been agreed upon. City Attorney Grantham said Wednesday morning. "There is no question, now, but what the plant will be constructed," he said.

Details of the franchise and the program by which the Consolidated would eventually own by the city and operated as a municipal plant, are yet to be worked out, he said. As soon as these are determined and the ordinance passed, announcement will be made, he said.

"Diver's Suit" Made For Post's Flight

NEW YORK, May 31—Wiley Post, who established two records flying around the world, will use a "diver's suit" when he takes off from London in an attempt to fly to Australia in two days.

"The way we figure it," Post said, "nobody can withstand the rarified pressure of high altitude flying for long periods at a time, even when sustained by oxygen, so we've developed a flying suit that can be charged so that the air inside of it will be kept constantly at sea level pressure."

Post said he expected to fly altitudes of from 30,000 to 35,000 feet in his dash from London to Australia.

Eastland Man Pays Fine in City Court

An Eastland man who drove his sedan through the business district at a terrific rate of speed, the hour screaming yesterday morning paid a fine of \$22 in corporation court for his fun. Officers Fleener and Hericks, who arrested him Tuesday night, said that neither the man, nor a companion, had been drinking. He was charged with reckless driving.

"CHEVROLET IS RIGHT!"

After driving the New Chevrolet five miles, I'd never buy any other low-priced car!

In the low-price motor car field there's nothing that even compares with Chevrolet's famous 5-mile ride. The reason is: No other car at Chevrolet's price has any of the vital features pictured below. And without these features, it's impossible to equal Chevrolet's ride! You can't get Knee-Action results with anything less than a genuine Knee-Action car. You can't get six-cylinder economy with more than six—nor can you get valve-in-head performance with anything inferior to valve-in-head design. And the same thing applies to the Fisher body, the brakes, the steering. Chevrolet offers one feature after another that makes a tremendous difference—in the way the car feels, performs and saves. One feature after another that puts Chevrolet far ahead in value... farther ahead every day in sales!

A DOLLAR AND A HALF WORTH OF OIL PROTECTED THIS MOTOR FOR OVER FOUR THOUSAND MILES!

Low Consumption and Motor Protection Proved in the Most Daring Motor Oil Test Ever Made!

WHEN New and Improved Conoco Germ Processed Motor Oil was perfected, it had lubrication values so great that a mere statement of them WOULD SEEM ABSURD.

We arranged with the Contest Board, American Automobile Association, to test five widely-known and advertised motor oils along with New and Improved Conoco Germ Processed Motor Oil in a daring "Destruction" Test, to PROVE its superiority. These six oils, a single fill of five quarts, with no more oil added, in six brand new strictly stock cars, were driven until the motor in each car was destroyed from lack of lubrication.

The first oil failed at 1,713.2 miles... others failed in rapid succession. The best of the competing oils ran a total of 3,318.8 miles... while New and Improved Conoco Germ Processed Motor Oil lubricated its motor for a total of 4,729 miles!... more than 3,000 miles farther than the first oil to fail... and more than 1,400 miles farther than the second best oil. A marvellous record!

You can and should have this oil in your car. It costs no more than other quality oils—at the Sign of the Red Triangle.

SHIPMENTS OF STOCK DURING APRIL DECLINE

AUSTIN, May 31—Livestock shipments from Texas to Fort Worth and interstate points during April fell below those of the corresponding month in 1933 for the first time during the current year, according to the University of Texas bureau of business research.

Total shipments of 8,652 cars compared with 8,794 cars during April last year, a decline of 10 per cent, the bureau's report said. Only one class of animals, cattle, showed an increase and that was only 5 per cent. Respective carload shipments of the various classes of livestock compared with April, 1933 were: Cattle 6,659 and 6,358; calves, 1,111 and 873; hogs, 395 and 765; and sheep, 347 and 798. It will be noted that only about half as many hogs and sheep were shipped from the state as in April last year and about 5 per cent fewer calves.

For the first four months of the year, however, total shipments of 33,133 cars were still above the 17,477 cars of the corresponding period last year.

Summer Grazing

This is the season of year when large shipments of cattle and calves are made to the Flint Hills of Kansas and the Osage country of Oklahoma for summer grazing. Shipments to Kansas this year were much larger than in April a year ago, but there was a decline in shipments to Oklahoma.

A number of significant changes occurred in shipments of livestock to important markets in comparison with last year. Fort Worth, for example, received only about one third as many sheep and half as many calves as during April last year, and shipments of Texas cattle to Los Angeles were 80 per cent below those of April last year while no Texas calves or sheep reached that market during the month.

Receipts of hogs from out-of-state points totaled 277 cars, against 206 cars in April, 1933. The bulk of these receipts came from points in Kansas, Nebraska, and Oklahoma.

Compared with last year considerable variation is to be noted in the number of animals shipped from the different sections of the state. This situation probably reflects differences in range and forage conditions. Fewer cattle were shipped from the panhandle section than in April a year ago, but in north Texas east of the Cap Rock a considerable increase in shipments occurred. There also was a large increase in shipments of both cattle and sheep from the Trans-Pecos country, while a marked decrease in shipments of cattle, calves, and sheep occurred from the Edward Plateau.

DROUGHT BURNS UP WHEAT CROP OF MIDDLEWEST

CHICAGO, May 31—Heat seared fields over two million square miles of the northwest broiled again this week under a sun which burned a round \$100,000 from the soil in every hour it shone.

Farmers prayed in dusty little churches amid barren fields, far away government officials studied dismaying statistics and refrained relief policies—and still the sun shone and record temperatures mounted.

Crop experts estimated that the best, chancing means of drought, dust storms, and insect plagues, was cutting potential wheat production 1,000,000 bushels every day, besides going inestimable damage to a score of other major and minor crops.

One man died in a field in Iowa as the mercury soared to 103 degrees. A dozen North Dakota points felt 105 degrees.

There has been no rain of consequence since April 5 in Iowa, Nebraska, South Dakota, and Minnesota. Thousands of acres of land planted to corn were as barren today as the day they were seeded, two three or four weeks ago.

AGED CIRCUIT RIDER DEAD

GOLD BEACH, Ore., May 31—One of the oldest "circuit riders" in the state died here recently. The Rev. Thomas Jefferson Owens, long occupying pulpits in Lane, Coos and Curry counties, died at 77 years. He traveled about on horseback along lonely mountain trails before other transportation became available.

Students of High Grades and Perfect Attendance Records Given Recognition

Students in the Cisco high school who last week were awarded honor certificates for general averages of more than 90 in their scholastic standing during the past year or for perfect attendance records during the same period, were:

Honor students — Flora Bacon, Horace Cameron, Mercie Clark, Annie Rae Clogh, Mary Catherine Donohoe, La Verne Dill, Julian Ely Ben Groes, Mabel Halbert, Margaret Hageman, Faye Henderson, Elyatt Horne, Noma King, Lavinia Lankford, Roy Moad, Glenn Moad, Marcia Moberly, Penola Nance, Lurline Poe, Luther Ponsler, Meiba Ray, Jimmie Rominger, Virginia Lee Smith, Annie Muriel Throp, Devon Warren, Hene Webster, and Reuben Wende.

Perfect attendance students — Evelyn Allen, Robert Bates, Clifford Blumberg, Deimar Borman, Maxine Burkett, Annie Ray Crough, Bessie Rae Coats, Cecil Edwards, Emogene Farris, Edna Hightower, Paul Johnson, Rosa Lee Kirshner, Virgie Meador, Forest Moberly, Gerald Merket, John Pearce, Joyce Rainbolt, Jimmie Rominger, Nellie Sanders, Virginia Lee Smith, Johnnie Sue Slaughter, Vernon Sharley, Dick Stansbury, Daskam Stephens, Donald Surles, Doris Surles, Vada Belle Tomlinson, Marie Tune, Mildred Whitman, Tommy Wilson, Reuben Wende, and Velsy Wood.

GRAMMAR SCHOOL HONOR STUDENTS

Students in Cisco grammar school who received certificates either for having made a general year average of 90 in their studies or for being neither absent nor tardy during the year were:

Honor students — Joe De Steiger, Mary Louise Poe, Martha Joe Pass, Ectyrene Logan, Margie Linder, Barbara Blythe, Winna Lee Arnold, Maurine Ensey, James Qualls, Alice Louise Slicker, Jeanne Jamison, Marian Jacobs, June Holbert, Kathleen Colburn, Theda Smith, Kathryn Lottin, June Morehart, Octava Jones, Mary Frances Stansbury, Lucy Cole, Viola Moad, and Nanella Bible.

Housing Measure Is Put on "Must" List

WASHINGTON, D. C., May 31—President Roosevelt has placed his broad housing program, calling for extensive construction and modernization, on the "must" list of legislation before congress adjourns.

A sub-committee of the senate banking committee has begun executive sessions on the house measure indicating the measure would be pushed through even if adjournment is delayed after June 9, tentative date set by some of the leaders.

SHOT WOLF FROM PLANE

MACOMB, Ill., May 31—Claim to being the first person to shoot a wolf from an airplane is made by Walter Zettle of Macomb. Zettle killed a large gray wolf recently with buckshot while shooting from a plane piloted by Harry Clugston, also of Macomb.

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

NAVY EYEING ALEUTIANS FOR PACIFIC BASE

By MACK JOHNSON
United Press Staff Correspondent
WASHINGTON, D. C., May 31—The navy is eyeing the Aleutian Islands and Alaska as probable future Pacific bases.

A hard-working survey expedition, undertaking the third year of its program, is obtaining data on possible fleet and aircraft anchorages and bases. The expedition under command of Rear Admiral Sinclair Gammon sailed recently from Bremerton, Wash.

The survey's results will be communicated to Secretary of Navy Claude A. Swanson for action. The work is expected to be finished by October. Meanwhile, the cabinet officer is guarding details of the navy plans carefully.

Modification of Treaty

Bases, however, could not be built on the Aleutian Islands without modification of the Washington naval treaty, which said the present status of the islands must be maintained. Fortifications, according to the treaty could be built on continental Alaska.

The expedition consists of the minelayer Ogala, the storeship Sirius and four minesweepers, which will be joined soon by the oiler Ramapo.

Naval observers attached unusual significance to an announcement that the navy is sending six of its largest and newest submarines to the area for navigation trials.

The undersers craft, the Bonita, Bass, Barracuda, Norwahl and Nautilus, participated in the recent maneuvers of the fleet. Instead of continuing to New York for the fleet review, they were assigned to the Arctic cruise.

Naval officers admit frankly the desirability of the Aleutian strongholds in view of unsettled Far Eastern conditions. They believe the development should have been undertaken a long time ago.

"The ideal way, from a naval

WORLD'S LARGEST BALLOON TO MAKE TRIP INTO STRATOSPHERE

AKRON, O., May 31—The world's largest free balloon rapidly is taking shape here in a factory whose windows are sealed, whose air is strained through flannel and where employees must wear grit free "slumber shoes" of cloth.

When completed late this month it will be a bag capable of holding three million cubic feet of hydrogen gas. This capacity is nearly three and a half times that of the largest free balloon yet built.

Bag to Go West

The completed bag will be rushed westward for the take-off of the National Geographic society-United States army corps stratosphere flight which will lift Major William E. Kepner, pilot, and Capt. Albert W. Stevens, scientific observer, nearly 15 miles above the earth.

Every one of the 3,482 major pieces into which the fabric of the bag has been cut and each of the scores of smaller fragments is pasted together with rubber cement. The next step is to cover the cemented seams of this jig-saw puzzle with fabric backed rubber tape on both sides. When these operations are finished the

viewpoint, to reach the Far East by Alaska and the Aleutian Islands. It lies along the short Great Circle course, an immense advantage for aviation. Moreover, the climate is modified by the warming Japanese current," a naval officer said.

Another Angle

Added importance has been given by some observers to the problem with evacuation of naval bases in the Philippine islands considered inevitable although probably not immediate.

Aside from probable eventual evacuation under the island independence program, naval experts consider the bases almost impossible to defend in the case of war. If and when the bases are withdrawn, Uncle Sam's Pacific strongholds will be thrust back to the Hawaiian islands.

Naval experts feel the Alaskan defenses would fill the Philippine gap in the Pacific.

place here; but the rigging of the balloon—the attachment of its ropes—will be done at the point from which the balloon will take flight.

One of the last portions of the balloon to be constructed will be the appendix. This is a sort of inverted smoke-stack of balloon fabric, at the bottom point of the bag. It will be eight feet in diameter and fifteen feet long and will be open. During most of the flight the gas will all be above the appendix and there will be no loss. When the balloon has become fully inflated (at an altitude of about 60,000 feet above sea level) and rises higher, surplus gas will be forced out of the bottom of the appendix. It will thus serve as an automatic safety valve to prevent the bursting of the balloon.

Millions of Pounds Used by Our Government

BAILEY BEGINS CAMPAIGN FOR SENATE PLACE

DALLAS, May 31—Congressman Joseph Weldon Bailey Jr. Monday began an intensive speaking campaign which will take him into every Texas county before election day. He will make three and four speeches daily, scores of special meetings having been arranged for him.

Mr. Bailey returned Saturday from Washington, where he has been making an aggressive fight against the Ickes oil control bill. His speeches Monday were at Grapevine, Bowie, Archer City, and Graham. His Tuesday schedule consisted of speeches at Olney, Jacksboro, Weatherford and Mineral Wells.

It is declared likely that Mr. Bailey will return to Washington to lead the opposition to the Ickes oil control bill in the House of Representatives when it comes up. However, he hopes to devote sixty days to his present campaign. In 1958, Congressman Connally came to Texas and opened his speaking campaign against Earl Mayfield on April 17. It was pointed out.

Mr. Bailey regarded as amusing Senator Connally's request that the rights of Texas in regard to the conservation and control of the oil industry be safeguarded in the Ickes bill.

The Ickes bill is designed in its entirety to take away the rights of the states, and particularly of Texas, to control the oil industry," he said. "It would be impossible for a federal control bill of this nature to respect any of the rights of the states."

Reciprocal Agreement
Mr. Bailey commented on the recent debate in the senate concerning a model reciprocal trade agreement with Columbia, of which Columbia would import American products, particularly automobiles, and in return export to the United States oil and fruit.

"This may be the reason that such strenuous efforts are being put forth to pass the Ickes oil control bill," he said. "Naturally if Columbia exported to this country 150-200 barrels of oil it would be necessary to reduce our domestic output, 50,000 barrels. All such reciprocal agreements with South American countries would naturally include oil, which is one of their main products. Such agreements would also include hides, beef, wool and other raw materials, which would further lower the price for American producers."

Mr. Bailey also called attention to the fact that 37 per cent of all Texas school funds came from taxes on crude oil and its derivatives. The Ickes oil control bill would virtually put the education of Texas children in the hands of federal authorities he said.

GOVT DENIED INJUNCTION IN WEIRTON CASE

WILMINGTON, Del., May 31—A preliminary injunction was denied the government Tuesday in its suit against the Weirton Steel company. The government contended the steel company violated the collective bargaining provision of the NLR Act.

Judge John Nields, who listened to four days of testimony in what was heralded as a test case of the constitutionality of the Roosevelt recovery measures, handed down the decision in the U. S. district court.

Military Guard Upon Canal Locks Doubled

CRISTOBAL Canal Zone, May 31—The military guard on the canal locks has been doubled, it was reported today. A high army officer said the report was true, and added: "Perhaps those who are guarding the canal are sensitive about something."

ABILENE FIRM LOW BIDDER ON HIGHWAY 23 JOB

Wasmack-Henning Construction Co. Abilene was low bidder on the national recovery project for the reconstruction of Highway 23 south of Cisco to Romney, it was announced after bids were received by the state highway commission at Austin Monday.

The company bid \$79,771 on the project which calls for widening the base, building drainage structures and laying down a double-bituminous surfacing on 7.4 miles from one-fifth of a mile north of Romney to one mile south of Cisco.

The bid, together with low bids on other national recovery projects, must be approved by the federal bureau of roads at Washington before contract is awarded.

Total of Bids
The total of bids tabulated by the commission on highway projects yesterday was \$72,297, of which \$37,361 will be paid from federal relief funds.

Successful contractors on state projects may start work as soon as they have furnished bond, approval by the federal bureau being unnecessary.

Low bidders on state projects included:
Moore county: 13.3 miles bituminous seal coat, highway 9, from Dumas to the Sherman county line. Coke and Braden, Marshall, \$10,976.

Dallas: 9.4 miles double bituminous surface, highway 5, from 17.5 miles north of Dalhart northwest, Cooke and Braden, \$23,289.
Hartley: 8.2 miles double bituminous, highway 5, from Dalhart southeast, Cooke and Braden, \$19,904.

Ochiltree: Bridges over Wolfe, South Wolfe and Northup creeks, highway four, between 10 and 18 miles south of Perryton, W. S. Crawford and company, Dallas, \$31,600.

Wheeler: 16.8 miles double bituminous surface, highway 152, from Wheeler to the Gray county line, Cooke and Braden, \$35,259.

Walburger: 21.5 miles double and triple asphalt surface, highway 32, from seven miles south of Vernon to the Red river, Brown and Root, Inc., Austin, \$66,397.

CAMPBELL WILL ATTEMPT SPEED ON SALT FLATS

SALT LAKE CITY, Utah, May 31—Sir Malcolm Campbell, British speed king, will bring his 4 1/2-ton Bluebird here, July 24, for a record-breaking run on the shores of Great Salt Lake.

William P. Sturm, Campbell's American representative, made careful examination of the proposed route. Tests proved the salt beds will provide the fastest course in the world," he said.

Campbell will attempt to break his world record of 272 miles per hour, established a year ago at Dayton Beach, Fla., and has set 300 miles per hour as his goal.

13-Mile Track
A track now under construction will allow seven miles in which to warm up the huge engine of the new \$100,000 machine, one mile for the clocked run, and four miles in which to slow down.

The Britisher's experience at Dayton Beach was a rough one. He made the 300-mile per hour mark, but conditions of the course held the speed down. When the run was completed, he exclaimed, "It was the roughest ride I ever had."

Salt beds of Great Salt Lake, located nearly 100 miles west of Salt Lake City, promised to provide an ice-smooth course, Sturm said.

Blowout Hazard Low
Abe Jenkins, Salt Lake City racer, has made many runs on the great flats. Nearly a hundred American records fell to him last year when he broke the official American Automobile association mark.

"Hazard of blowouts is minimized on the salt beds," Jenkins explained, "and there is little danger of overturning. The crust of the sand is hard as a tortoise shell. Then, too, the smooth surface makes driving much easier."

Specifications for the proposed course as outlined by Sturm were that it should be not less than 12 miles, and preferably 14 miles long; 60 feet wide, with careful "soundings" taken on each shoulder to avoid mistakes; and plenty of guidance space.

146,830 People Bet \$2,863,827 at Dallas

DALLAS, May 31—A total of 146,830 horse racing fans bet \$2,863,827 at the Fair Park track during the recent 21-day meeting, figures released by officials showed.

The gate receipts totaled \$96,944. Of the \$2,863,827 mutual take, the state's commission was \$71,995.70 and the fair association's commission was \$214,372.

J. Donald Hay, who was in charge of the mutual department, said the meet was one of the most successful he ever worked. The average amount bet each day, \$136,372 was slightly higher than the \$135,251 average at Houston despite the fact that the Houston track had almost twice as many horses.

SOVIET INSPECTOR DISCOVERED CAMERA DID NOT TELL TRUTH

ARCHANGEL, May 31—Modern science, marvelous though it may be, has not produced a camera that can register foul odors. And thereby hangs a tale.

A certain soviet inspector, nameless here, recently was ordered to make a survey of the government stores in his district. Disliking travel he brought himself of the wonders of science and decided that they should save him a trip.

Summoning several photographers the official ordered them to tour the stores in his district and photograph their managers, clerks and stocks.

In time the photographers returned with their pictorial reports. The official gazed at the first picture, that of a store manager.

"I don't like his face," the official observed. "He looks as though he were given to drink and embezzlement."

"Discharge for drinking and a tendency toward embezzlement," the official wrote on the back of the photograph.

He looked at a second picture, that of a girl clerk.

"This girl is decidedly a flapper type," he commented. "Goes out nights and is late to work next morning."

"Politically backward," was written on her photograph.

He looked at a third picture, that of a store-room. It showed fowls neatly suspended in rows from the ceiling. There were well-arranged barrels of pickles and sauerkraut. Ox-tails protruded from carefully spaced baskets.

"Excellent!" the official said. "This store-keeper must be commended."

All was well until another inspector visited the "model grocery." When he walked into the store-room he nearly fainted from the stench. The neat-appearing fowls and ox-tails had been there, unrefrigerated, for months.

TWO OBSESSIONS RUFFLE PLACID LIFE OF ENGLISH KING GEORGE

By H. L. PERCY
United Press Staff Correspondent
LONDON, May 31—Life flows placidly for King George.

EX-BOOTBLACK IS IDOLIZED BY BULLFIGHT FAN

EL PASO, May 31—Alejandro Del Hierro, a former El Paso boot-black, is the toast of Mexico City bullfight fans.

The 20-year-old matador recently has scored six consecutive triumphs in the Mexican capital, according to reports reaching here. A triumph in bullfights means such a smashing hit that the spectators vote to give the matador an ear and the tail of a bull he kills.

Mexico newspapers reaching here said the youthful Alejandro is one of the most promising matadors in the country.

Alejandro took up bullfighting less than two years ago. His teacher was Jose (Gerla) Rodriguez, an old matador who fought in the days of Gaona, Belmonte and Freg.

Rodriguez organized a troupe of matadors, all of whom were boys. Alejandro is the only one of the troupe who made good.

Best in Juarez
"He is the best matador to be developed in Juarez in the 22 years that I have been here," said Rodriguez. "He will soon be one of the highest paid matadors in the world."

Alejandro is described as being one of the most graceful workers with the big cape.

His speciality, however, is the "muleta" and sword. The "muleta" is the small red cape which the matador uses to maneuver the bull into position for the thrust of the sword.

Mexicans class Alejandro now as a "novillero". In American it means the same as a minor leaguer. Within six months he will receive his "alternative" or degree, which will permit him to accept maximum sums. He has not been gored in one of his 35 fights.

"Right now, Alejandro is one of the bravest matadors in Mexico," Rodriguez believes.

Alejandro is expected to compete with the best of the Spanish bullfighters who will come to Mexico to face the best of the Mexican matadors in November.

Red Haired Twins Are Star Swimmers

HOLLYWOOD, May 31—This city nationally known to the swimming world because it is the home of Katherine Rawls, world's champion swimmer and diver, has a couple of red-haired twins coming along so fast that soon Miss Rawls will have to step over and give them a large part of the national spotlight.

The twins, Marion and Virginia Hopkins, age 12, and weighing about 100 pounds each, were "discovered" by Mollie Grimshaw, one-time world's champion high diver, less than two years ago at a community swimming class she was teaching.

Hamer Denies Offer To Hunt Dillinger

AUSTIN, May 31—Former Ranger Capt. Frank Hamer, back home Saturday from his successful Barrow-Parker hunt, denied as fanciful some of the reports connected with the case.

Hamer said he had not offered his services to the federal government in the John Dillinger hunt.

DALLAS, May 31—Mrs. E. M. Dunstan found languages no barrier in her academic path to a master of arts degree at Southern Methodist university. In her study of Ray Barbarosa, Mrs. Dunstan is using five languages, English, French, German, Latin and Greek.

He was reported to have been turned down because he is not a lawyer. He also denied that there was any friction between state and federal men in the Barrow hunt.

He also denied that there was any friction between state and federal men in the Barrow hunt.

INTEGRITY

WILLIAM McCRAW is the type of man that Texans can place faith and confidence in with perfect assurance of his worth. He is the only man that the people of his county ever elected to three terms as their District Attorney. He was never defeated. No class, cult or clique ever influenced him in public service. There were no back doors to his office as District Attorney—he could not be "reached."

The unexpected audit of the books of all Dallas County officials found his books "correct"—thousands of dollars of the people's money had been honestly handled.

All this insures that Texas will combine unquestioned and proven integrity with demonstrated ability.

Wm. McCRAW OF DALLAS COUNTY FOR ATTORNEY GENERAL

Thousands of Women Benefited By Cardui
The benefits many women obtain from Cardui give them great confidence in it. "I have four children," writes Mrs. J. L. Norred, of Lagrange, Ga. "Before the birth of my children, I was weak, nervous and tired. I had a lot of trouble with my back. I took Cardui each time and found it so helpful. Cardui did more to allay the nausea at these times than anything I have ever used. I am in very good health and believe Cardui did a lot for me." Cardui is a woman's health friend. It does not benefit YOU, consult a physician.

IVY POISONING
Soothe burning itching torment quickly and help nature clear the irritants that cause
with mild, effective
Resinol

Consult your Texas and Pacific Ticket Agent for Reservations
THE TRAIN FOR SPEED, COMFORT, SAFETY

DOCTORS ADMIRE THIS LAXATIVE
To banish headaches, dizziness and other constipation ills doctors regularly prescribe the laxative ingredient used in Feen-a-mint, the modern, pleasant-tasting, chewing gum laxative. Feen-a-mint acts more promptly, thoroughly, and satisfactorily, for it is gently released into the intestines by chewing, thus giving a "fall" more natural action. Feen-a-mint is pleasant to take, but contains no richness to upset the stomach or diet. Feen-a-mint is the modern development from old-fashioned, unpleasant-tasting, habit-forming, bowel-abusing laxatives. Does not interfere with diet. "Day" is dangerous—chew Feen-a-mint for constipation. 15c and 25c at druggists.

CLAIM SNAKE RECORD
BERLIN, Wis., May 31—Roman Indra and his son, Thomas claimed the snake-killing record for Wisconsin when they killed 65 copperheads on their farm in a week. A den of hibernating reptiles was discovered by the pair.

Biggest Bookkeeping Job in World Does Not Worry Daniel W. Bell
By FREDERICK C. OTHMAN
United Press Staff Correspondent
WASHINGTON, May 31—Daniel W. Bell has the biggest bookkeeping job in the world, but it doesn't worry him.

U. S. MAKES BID FOR PEACE AT ARMS PARLEY
GENEVA, Switz., May 31—The United States went squarely on record for peace at the World Arms conference Tuesday by offering to reduce its navy and to join an international agreement for control of the traffic in arms.

Cattle Buying to Be Done in Drouth Area
WASHINGTON, D. C., May 31—Chester Davis, agricultural adjustment administrator, announced Tuesday that the area of emergency counties in which surplus cattle buying would be undertaken by the government would be extended to the southwestern drouth area, centering in the panhandle.

Oil Control Bill Is Favorably Reported
WASHINGTON, D. C., May 31—The administration's oil regulation bill, vesting in the secretary of the interior the power to prevent the excessive supply of crude petroleum by fixing production and import quotas, was reported favorably Tuesday by the senate committee on mines and mining.

Capone's Appeal for Habeas Writ Denied
NEW ORLEANS, May 31—The U. S. circuit court of appeals in a decision Tuesday, denied Al Capone, Chicago gangster, a writ of habeas corpus which would have freed him from Atlanta federal penitentiary where he is serving 10 years for income tax evasions.

SNAPPERS AND DUBLIN PLAY 18 INNING TIE
The Cisco Snappers baseball team, captained by Satch Henson, and the Dublin team played to a one-all tie in 18 innings, two of which were played by moonlight, Sunday afternoon.

GRANDDADDY HOPPER MISSOULA, MONT.
MISSOULA, Mont., May 31—Two Missoula girls have captured what they believe to be the "granddaddy of all grasshoppers." They found a "hopper atop Mount Sentinel near here which measured two inches in length—not counting, antennae, wings, and legs.
