By Nanalee Nichols
Now THAT is a sticky situation!

Well, I think I've heard it all. Haven't seen this, don't think I want to, but definitely heard it all!

We were over in Sherman the other day at a craft supply place when I overheard two lovely little teenage girls discussing their upcoming prom.

"Well," one said (I came in during the middle of this conversation, you understand) "They make a spray that you spray on the fabric so that it sticks to you".

"Great!" the other teen exclaimed, that means that if I lean over, I won't fall out".

It took me a moment to comprehend just exactly what these girls were talking about.

Apparently there is a special adhesive that one sprays onto the fabric of clothing, most especially prom dresses so that in leaning over the wearer won't hmmm, how shall I put this? EXPOSE themselves!

Well, my first impulse is to announce that the best solution to that problem would be to have enough top to the dress that it wouldn't be a problem in the first place!

I suppose that puts me into the category of a little bit old fashioned....but so be it.

But then, as I discussed this little overheard conversation with friends last week we began to see the truly funny side of this.

Consider if one applied too much of this adhesive, and then danced with some unfortunate boy whose hand became glued to ones back? Can't you just see this little prom couple having to dance together for the whole night? How long does it take for this adhesive to let go?

What would happen if they were "attached" to one another when it was time to go home? Somehow I don't think this is going to work!

It would certainly stop any improper advances by a too eager young man...or at least he would end up caught red handed. Or would that be sticky handed? Oh, never mind, it just doesn't bear thinking about!

Hopefully there will be no flying insects around...other wise this lavishly dressed young woman could end up looking like a strip of flypaper! Not attractive.

But most of all, I cannot imagine wanting to wear ANYTHING so badly that I could tolerate the idea of having it stuck to me skin by glue!

Happy Valentine's Day! A day for sweethearts and lovers and romance. So add a little romance to your life. . . fix your "sweetie" some scones for brunch on Valentine's Day. Scones are like biscuits. . . but added with a little butter or your favorite jelly or marmalade, can be an extra special "treat" for you and yours!

Scones are a combination of flour, fat, baking powder, salt and milk. The difference comes from the fat used. . . scones are made with butter, instead of vegetable shortening with the addition of eggs and sugar. Dried fruit, chocolate, spices and sugary glazes add that extra little zing.

Always use all-purpose flour for best results. If using wheat flour add 2 tablespoons additional flour to each cup used.

Use very cold butter. Cut into dry ingredients until the mixture forms lumps the size of large peas.

Handle dough as little as possible for tender scones. Gently roll or pat dough into a large circle before cutting.

Like biscuits, scones tastes best right out of the oven piping hot. They also freeze well. Warm thawed scones in a 400 degree oven for 5-7 minutes.

If you don't believe me about scones, pick up any novel and they will have the main characters munching on hot scones as they laze about

their vast, huge empires. . . or just ask Nanalee or Thomas, they rave about them and enjoy them on their trips to England.

Hope you enjoy your valentine treat with your loved one! Have a great weekend and as usual it is always back to the kitchen!

Scottish Scones use the milk and sprinkle sugar on tops before baking to get that little extra glaze.

Lemon-Poppy Seed Scones use the Scottish Scones recipe, but used grated lemon peel and poppy seed with powdered sugar and lemon juice glaze drizzled over the tops while still warm.

Cream Scones-Served in Britain at High Tea in the afternoon with jam and clotted cream, this version uses preserves and whipped cream instead.

Double-Orange Scones with Orange Butter can be found with bits of Mandarin oranges in them and topped with a mixture of marmalade and softened butter to make the Orange Butter.

Cranberry-Orange Scones combines dried cranberries and grated orange rind for this light, fluffy combination.

Mocha-Pecan Scones. Add a small amount of dried espresso powder and chopped pecans and drizzle over the tops some melted chocolate morsels.

OPPORTUNITIES

Failing to recognize an opportunity in our society is a common practice. Many people are struggling today because they fail to see the need of a Christ centered life. One of the reasons so few are looking in the right places.

An economist was talking to a group of business people about the recession. He placed a large white sheet of paper in front of the room and placed a black dot on a corner. Then he asked each one what they saw. Each replied a black dot! Not a single person saw the sheet of white paper. Are you looking for a lasting opportunity.

TNMP cookbook continues commitment to offer choice

Texas-New Mexico Power Company provides 50 pages of choices in its newest cookbook "Serving up Tasty Choices." The company also offers those who are not current TNMP customers the chance to view the cookbook on the company's World Wide Web home page.

Featured in this cookbook is TNMP president and CEO, Kevern Joyce, who said publishing a cookbook on an occasional basis has become a tradi-

tion at the power company.

Electric companies started publishing recipes as far back as the 1920's to show customers how easy it was to cook with electricity. Since electric cooking is hardly a novelty any more, most companies discontinued the service over time.

TNMP customers may pick up a free copy at their local TNMP office or may view recipes on the internet on TMP's home page.

Beta Club sponsoring Pasta For Pennies

The Rivercrest Beta Club and the Olive Garden Italian Restaurants are conducting a benefit for the Leukemia Society, North Texas Chapter, during February. Fourth period classes at Rivercrest are collecting coins which will help with the fight against Leukemia and its related cancers; Hodgkin's disease, lymphoma, multiple myeloma and improve the quality of life of patients and their families. The class collecting the most money for the Leukemia Society will receive a luncheon at the Olive Garden Restaurant in Longview.

Leukemia is a cancer of the blood-forming tissues-the bone marrow, lymph nodes and spleen. It appears as uncontrolled multiplication of abnormal blood cells. When leukemia strikes, millions of abnormal and use-

less white blood cells accumulate in the tissues, preventing the production of normal red and white blood cells and platelets. Standard treatments of leukemia and related cancers are; chemotherapy, radiation and bone marrow transplant. The Leukemia Society enrolls patients in the patient-aid program to be eligible to receive direct financial assistance. Funding is also used for research to find effective treatments for Hodgkin's disease, lymphomas, and other kinds of cancer, including breast and lung cancer. Anyone in the community may donate to the Leukemia society, North Texas Chapter through this project sponsored locally by the Rivercrest Beta Club. Call the high school at 632-5204 for more information.

Wendy Michelle Hutchings and Dustin Bryan May

Hutchings-May engagement announced

Mr. and Mrs. David Hutchings of Deport announce the engagement and approaching marriage of their daughter, Wendy Michelle Hutchings, to Dustin Bryan May.

The couple will exchange wedding vows Friday, April 3, 1998 at 7:30 in the evening at Blossom Church of God in Blossom. Pastor Larry Bridges will perform the semi-formal ceremony.

The bride-to-be is the granddaughter of Norman and Vessie Hutchings and the late Earl and Geraldine Pierce,

all of Paris. She is a 1997 graduate of Prairiland High School and is employed by McCuiston Regional Medical Center.

Her fiancé is the son of Mr. and Mrs. Larry May of Blossom. He is the grandson of G.G. and Sylvia May and Haskell and Judy Booth, all of Blossom. He is a 1996 graduate of Prairiland High School and is employed by Sears.

No formal invitations will be sent. All friends and family are invited to attend.

Girl Scout cookies are on their way

Girl Scouts throughout the Red River Valley Girl Scout Council will deliver cookies ordered during the January Cookie Sale from February 23 through March 15. For those who missed the opportunity to order in January, booth sales will be conducted during this time.

According to Debbie McNeal, Product Sales Director for the council, "If you were unable to order cookies earlier, you may purchase Girl Scout cookies at booths located near shopping centers and businesses through March 15." For more information on booth sales, contact the Neighborhood Cookie Manager, Kim Maynard at 674-2229.

McNeal stated the sale of cookies makes possible many troop and council activities and programs.

"It amazes me to see the girls of our council so excited and taking responsibility for the overall success of the cookie sale," she said. "They understand the importance and impact they make through the sale will pay off in an important, positive way throughout the year."

McNeal said other benefits to girls

include the recognition and monetary support they receive by earning credit to attend camp and Wider Opportunities programs through individual cookie sales.

The disbursement of funds from cookie sales is as follows:

-44% is used by the council to provide service to girls and volunteers and to maintain Camp Gambill.

-12% is retained by the troops for their activities, program supplies, service projects and trips.

-7% pays for cookie sale incentives and cookie credit, which provides financial assistance to girls to attend camp and program events and wider opportunity trips.

37% goes to the cookie manufacturer.

Remember this "food for thought": 63% of the money you spend for a box of Girl Scout cookies provide money for the girls, the troops and the council to pay for services, activities and fun!

For more information on this project you may contact Linda Wolfe, director of Public Relations and Fundraising Development.

The teachers were honored for their studies which enhanced their abilities to teach science and to mentor other teachers in an effort to empower others to provide a sustained and high intensity professional development and science education reform.

Kamil A. Jbeily, director of the Texas Regional Collaborates for Excellence in Science Teaching told the group, "This is a wonderful partnership between teachers and the business community. It is really about people working together to enable teachers to achieve excellence."

There are 24 such collaborative districts in Texas. Jbeily termed the collaborative in the Region VIII Edu-

cation Service Center area one of the best in the state of Texas.

Businesses join in to help teachers raise their comfort level and learn new skills and new knowledge.

State Representative Tome Ramsay was keynote speaker.

"The key to success of our nation depends on its teachers," Ramsay said. "We need to make things easier as you work toward the success of this country."

Among those honored in our area were Debra Fleming of Paris Independent School District, Ann Allen of Mount Vernon, Cathi Brown of Mount Pleasant, Estelle Doloney of Mount Pleasant and Dianna Adams Eudy of Mount Vernon.

Choosing The Right Insecticide For Corn

There are many factors that can have an impact on corn yields in our area. But, often the most troubling factors are natural events such as insect infestations both at the seedling and mature stages.

Clay Petrus
Zeneca Ag Products

To avoid insect problems in seedling corn, use a soil-applied insecticide at planting.

The ideal soil insecticide should:

- provide excellent control of damaging soil insects
- rank low in mammalian and environmental toxicity, so it's a low risk to humans, birds and earthworms
- have low solubility and soil mobility for reduced chance of leaching or groundwater contamination.

At planting time, FORCE® insecticide is one of the best granular products to control cutworms, white grubs, wireworms, corn rootworms, seed-corn maggots and seedcorn beetles.

As corn matures, scout for corn earworms and armyworms. The most common recommendation for controlling cutworms and other tough corn pests in mature corn is to use a postemergence insecticide, such as KARATE®. This broad-spectrum insecticide is newly labeled for corn and can control infestations of damaging insects that could greatly lower field, pop, seed or sweet corn yield and quality.

Karate controls a number of ear and foliar feeding pests, including fall armyworm, cutworms, corn earworm and European corn borer. Tests indicate this foliar insecticide works longer than competitive products, which can mean fewer applications.

For more information about Force or Karate insecticides from Zeneca Ag Products, please contact your local ag chem dealer.

Lady Rebels and Rebels host Prairiland Feb. 3

The Lady Rebel JV and Varsity and Rebel JV and Varsity played host to the Prairiland Patriots on Tuesday, Feb. 3. The Lady Rebel JV began the evenings play and took a 39-26 win over the Lady Pats. Kim Shirley finished the game with the high score honors. Also scoring were Debra Jones, Jill Foster, Cara Morgan, Kim Ross and Cheryl Griffin.

The JV Rebels also took a win over the Pats with a score of 43-42. Chase Collins reappeared on the court after his absence with knee surgery to have a good return game. The half time score saw the Rebs up 25-18 with scores coming from Kenneth Johnson, Michael Galloway, Coleman Brown, Myron Ellis, Chase Collins and Clinton Cheatwood. The Pats did not make a run at the lead until the final quarter. An unsportsmanlike conduct call on the Pats sent Coleman Brown to the line for two free shots which he netted easily but the Pats were put back into the game when the Rebels missed crucial free shots and the game went neck and

neck to the final buzzer which rang just ahead of a Patriot shot that hit its mark. Posting high score for the Rebs was Michael Galloway with 13 points.

The Lady Rebel varsity hit the floor determined and outscored the Lady Pats 19-8 in the first quarter. Kristi Hines hit 2 of her 5 treys in the quarter. By the end of the half the Lady Rebels had taken a 41-23 lead. Tiffany Prentice and Hines had both added a trey along with scores from Candias Nickerson, Erin Stansell, Joanie Swarts and Missy Carroll.

At the half time Lady Rebel and Rebel fans were happy to welcome the 1968 State Champion Rebelettes and Coaches Larry Tucker and Billie Pirtle back for a 30 year reunion. The team and coaches enjoyed seeing each other and friends from the past.

The final half was all Lady Rebel as Hines hit her final 2 treys of the game and Deidre Brown also added a trey. Nickerson, Prentice and Carroll also netted points and the game ended with a 72-55 Lady Rebel win. The 1968 Rebelettes were again asked to

come out on the court to help the Lady Rebel celebrate their win. High score for the game was posted by Kristi Hines with 23 points. Also scoring were Candias Nickerson, Deidre Brown, Tiffany Prentice, Erin Stansell, Missy Carroll and Joanie Swarts.

The Rebel varsity played for a packed house and trailed the Pats by 2 at the first quarters end. The Pats continued to hold the lead into the half with the help of cold shooting from the Rebs and missed free shots. Score 25-19.

In the final half the Rebel made the game into an all out war. Brian Giles and Jason Freelen had a good game for the team on defense and offense. Courtney Huddleston, Giles and Michael Allen added the points that gave the Rebels a 60-57 win. Huddleston took the high score honors for the evening and also adding points were Broderick Fulbright, Keith Hines, Michael Allen, Brian Giles and Jason Freelen.

Lady Rebel Junior High host Chisum Feb. 9, 1998

The Talco-Bogata Junior High Lady Rebels played host to the Chisum Lady Mustangs on Monday, Feb. 9. The evening's action began with the 7th grade team.

In the first quarter the Lady Rebels who are usually up and ready began in slow motion. Molly Hare, Erica Williams, Tina Carder and Jessica Rose went to the hoop to score 10 points to the Lady Mustangs 7. A complete turnaround was made in the second quarter by the Lady Rebels. Williams, Hare, Carder, Rose and Khrystal Valenzuela went to the hoop to add 15 points to the score. Tina Carder also shot 99% from the free shot line during the quarter making 5 of 6 baskets. The half time score stood at 25-13 Lady Rebels.

In the third the Lady Rebels added 9 more points and Michelle Bryant, Tina Carder and Camelia Mankins had a good quarter for the team. Rachel Case and Molly Hare both were in foul trouble and Case was lost before the quarter ended. In the final quarter the Lady Rebels coasted to a win with Carder, Hare and Williams adding more points. Final 42-25. The win gave the Lady Rebel 7th grade team the District Champs title.

High scorer for the game was tied between Tina Carder and Erica Williams both with 12 points and followed by Molly Hare with 11 points. Also scoring were Khrystal Valenzuela and Jessica Rose. Congratulations Lady Rebels!!!

The Lady Rebel 8th grade took the floor for a heartbreaker. The Lady Mustangs greatly outsize the Lady Rebels and Lady Rebel post, Erin Miller was quickly singled out by the officials which put her in early foul trouble. The first quarter ended in a 5 all tie. In the second Molly Moles and Brittany Bull came off the Lady Rebel bench to add good defense and Charla Hines had her best scoring quarter. Also scoring in the quarter were Brittny Barnett and Kendall Stansell. The half ended with the Lady Rebels up 19-15.

The third quarter saw a change in the game. The Lady Mustangs hit the floor with win on their minds. The second technical foul of the evening was called on the Lady Mustangs and Charla Hines went to the free shot line for two but the Lady Rebels had begun to panic. Erin Miller was finally lost to fouls in the third and the team was to lose Kayla Sears also to

fouls shortly after. Misty Tucker did a great job for the team in the hustle department and Barnett, Hines and Tucker all added points. The Lady Mustangs held on in the quarter ended 27-31. The final quarter saw the excitement. With under 3:00 left the two teams tied up on a free shot from Melissa Waller at 35 all. Waller also tied the ball up which gave the Lady Rebs possession with :49 seconds left. How less than a minutes could last so long is unknown but a Lady Reb foul sent the Lady Mustangs to the line for 1 but then a Lady Mustang foul sent Misty Tucker to the line where she made 1. Still at a tie and :33 seconds left Brittney Barnett was lost to foul trouble and the Lady Mustangs hit 2 free shots bringing the score to 39-36 Lady Mustangs. Even though a Lady Mustang foul sent Kendall Stansell to the line the rebound was tied up by Waller to give the ball to the Lady Rebels. With :04 seconds on the clock and one last chance the Lady Rebels fumbled with a bad pass. Final 39-36 Chisum. High scorer for the night was Brittney Barnett with 16 points. Also scoring were Charla Hines, Melissa Waller, Misty Tucker, Kayla Sears and Kendall Stansell.

For County Judge

In 1987 A law was passed enabling a county judge to establish a County Industrial Commission.

If elected county judge one of the first things I would do would be to appoint a county industrial commission. This commission will consist of seven persons residing in Lamar county and must be persons interested and dedicated to the industrial development of Lamar County. These members will be selected by our county commissioners and county judge.

This commission will work along side our local chamber of commerce in an effort to investigate and undertake ways of promoting the prosperous development of business, industry, and commerce in Lamar county.

This commission's sole interest is to research and develop opportunities that would enhance our county such as: focusing on the building of lakes in our county and establishing ourselves as a retirement destination for DFW.

JOBS! JOBS! JOBS!

OPEN HOUSE-E.T.M.C.- CLARKSVILLE

E.T.M.C.-Clarksville has acquired the latest technology in a Computerized Spiral CAT Scanner. This scanner gives a highly detailed x-ray, in a fraction of the time previously required. The average exam would take less than one minute of scan time inside the machine, and there is a larger, more open passage area for the patient. The new technology allows for a better picture, insuring a more accurate diagnosis.

We would like to thank the family of Erbie and Allie Bell Sale for making a very generous donation to the hospital toward the purchase of this equipment. We are appreciation of the consideration they have shown for the medical and diagnostic needs of our area and for the future of healthcare in Clarksville and Red River county.

E.T.M.C.-Clarksville is extremely proud and excited to have this new technology available at our hospital and we will be having an "Open House" from 2:00 p.m. - 3:00 p.m. on Friday, February 20th, to honor the Sale family and allow the public to view the new Scanner. We would be honored to have you join us as we present a commemorative plaque to the Sale Family
