Outside These Counties \$2.50

GRASS ROOTS OPINION

REYNOLDSVILLE, PA., Star: "In the American system of government by law, no principle is more essential to the protection of our way of life than the principle of equality under the law. Labor unions should be required to submit to this principle, like all other American institutions. If the policy of this country is to outlaw monopoly and monopolistic practices, there is no ground for granting unions, the most powerful of our concentrations of economic power, special rights and dispensations."

NEWPORT, CALIF., Harbor Ensign: "I believe that the 'grass roots' editors of the nation have a tremendous responsibility. Newspapers are among the leaders of opinion making, along with the home, school and church. I would like to see editors throughout the nation take the lead in fighting big spending, government in business, big government, subsidies and deficit financing and come out firmly for self reliance, private enterprise, state's rights, and constitutional government."

QUINCY, MASS., Patriot Ledger: "In the final analysis, there are two types of taxes: those a person has to pay such as income and property taxes and those with which he has some freedom of choice such as automobile and cigarette taxes."

MOOSE LAKE, MINN., Star-Gazette: "Just what is a defensive driver? He's the driver who is always ready for the other driver or pedestrian to do the wrong thing. And he's the driver who is prepared to react promptly and correctly when the other guy does the wrong thing."

A HITLER TACTIC

Opponents of right-to-work laws (which simply say that a man can join a union if he wants to and can refrain from joining if that is what he wants, and that in either case he can work at his job free from coercion by union or employer) argue that they are anti-labor, and that those who advocate them are trying to undermine the labor movement.

In this connection, a remark by Senator Goldwater is apt. He recalled that the late President Franklin D. Roosevelt, who was one of the greatest friends of labor ever to occupy the White House, stated his absolute opposition to the requirement that a man must join a union, and characterized it as "a Hitler tactic." And that is precisely what it is.

A 40 Percent TAX

A leaflet issued by Gulf Oil Company says: "How many miles was your automobile driven last year—5,000, 10,000, 15,000 miles?"

"Statisticians tell us that the average mileage of U. S. Passenger automobiles in 1956 was approximately 9,300 miles. In the process, 640 gallons of gasoline were consumed for which 8.35c per gallon was paid in federal and state gasoline taxes.

"This means Mr. and Mrs. Average Motorists paid \$53.44 last year in direct taxes levied on motor fuel. The total will be even more this year because of a one percent per gallon increase in Federal tax which become effective last July.

"There are few other widely used commodities on which taxes equal about 40 percent of the purchase price, as gasoline taxes do.

"From 1925 to the present, even including the most recent price increase, the consumer's cost of gasoline, exclusive of taxes, has increased only 15 1-2 percent.

"This compares with an increase of some 67 percent in the selling price of clothing; more than 62 percent in household furnishings; 71 percent in food.

"And unlike various other products which have not been materially increased in quality, today's gasoline has been steadily improved in every respect.

"So next time you ask the attendant to 'fill it up', remember this: The real price you pay per gallon, that is the price exclusive of taxes, still represents one of the best bargains on your family shopping list."

If you want what you want when you WANT IT... then WANT ADS are for you!

WE'RE STILL EARTHLINGS

It would seem as if our preoccupation with such newly unleashed and highly mysterious forces as electronics, chemical synthesis and atomic power have caused us ordinary citizens to overlook the possibility that there is room for improvement and progress in processes we can understand.

Take for instance the wheel, which is still the basic invention on which our civilization depends, and more especially the axle that turns the wheel: In less technologically breathless times, it would be earth-shaking news that a new type of ball-bearing is causing a revolution in farm machinery, on which we all depend for sustenance.

It would even be noteworthy that the farmer is being liberated from the greasegun and the oil can, that his new machinery is running smoother, requires less fuel for the same work and will last longer. And in the pre Buck Rogers world, the fact that these new dirt proof Fafnir ball bearings can be easily and quickly installed, requiring only the ordinary tools that practically every farmer has, would deserve as big a headline as the latest progress report on those gold plated earth satellites.

It's time to remember that so long as the genus homo continues to require meat and potatoes for his personal power plant, instead of depending on some sort of bug-like antenna that would snatch vitamins out of the air and inject them directly into his blood stream, it is the discs, the colters and thimble turners turning down there in the dirt and grit, the combine and picker spindles whirring in the dusty fields, that stand between him and starvation.

And it's time to consider that a fundamental improvement in the farmer's tools is a basic advance in human welfare and that splitting a baked potato, a plump fryer or a hot biscuit is as important as splitting an atom.

Grade School News

We have had a long siege of staying in out of the wet weather for the last several days and it has caused the postponement of some very interesting ball games. We are anxiously waiting for the sun to show forth and dry out some of the wet spots and then we will be back on the trail of settling some of the long arguments as to who can hit the longest ball.

We have several back in school from illness and it is fine that we have them back. We are sorry to report that we have three or four who have been absent the last few days that have not been tardy nor absent until

then. It is very difficult to have a perfect record snapped so close to the end of the school year. We do hope they will be back in a very few days and help in planning for the rest of the work for the school year.

Now there's an emergency spare tire for cars that can be rolled into a package the size of a football, inflated with a carbon dioxide cartridge.

Randlett News
By Mollie Ruth Elliott

Bob Bakrous of New Orleans, La., visited Wayne Fowler, over the weekend.

Mrs. J. S. Bowman of Burk visited Mr. and Mrs. C. E. Williams Sunday.

Willie G. Rusk of Mesquite visited Mr. and Mrs. Robert Good and family and Slim Rusk Saturday.

Mrs. Zada Bryant spent last week visiting with her son, Mr. and Mrs. Johnny Bryant and family in Burkburnett.

Mr. and Mrs. C. E. Williams visited their daughters, Mr. and Mrs. Clarence Banning and daughter and Mr. and Mrs. Richard Wallace and Jeanie in Wichita Falls Saturday. Jeanie returned home with the Williams to spend the weekend.

Mr. and Mrs. Aubrey Gentry and son of Hollister visited her mother, Mrs. Hattie Rhoads last Thursday.

Mrs. Bill Lund and daughters of Lawton visited her parents, Mr. and Mrs. Carl Thompson, over the weekend.

Mr. and Mrs. L. E. Ellis and daughter of Burkburnett visited Mr. and Mrs. R. H. Rhoads and family Sunday.

Mr. and Mrs. Richard Wallace of Wichita Falls visited Mr. and Mrs. C. E. Williams Sunday.

Mr. and Mrs. C. M. Morrow and sons and Mrs. J. W. Hicks of Burk visited Mrs. Mollie Elliott Sunday afternoon.

Mr. and Mrs. James Ford of Walters visited friends in Randlett Monday.

Eugene Elliott of Wichita Falls visited his mother over the weekend.

Mr. and Mrs. Roy Braden and son of Hastings visited Mr. and Mrs. S. M. Braden Monday.

Mr. and Mrs. Dickie Eastman of Wichita Falls visited his parents, Mr. and Mrs. F. E. Eastman Sunday.

Mrs. Marilyn Willard and Mrs. G. G. Tyler of Burk presented a recital Tuesday night for their pupils, Misses Paula and Mary Ann Goode and Miss Mary Jane Eschler.

Mrs. Manuel Braden and Mr. and Mrs. S. M. Braden visited Miss Betty Joe Braden of Wichita Falls Monday.

Miss Waggoner Hostess BWC Tues.

BWC of the First Baptist Church met with Miss Jewel Reed, Tuesday, May 7th, with Miss Hazel Waggoner as hostess. The meeting opened with the group singing Faith of Our Mothers. Prayer by Mrs. Claud Reed.

Chairman, Mrs. A. B. Frields, was in charge of all business. Devotional from the 4th chapter of John was given by Miss Waggoner. A movie program on the Christian Home, was given with Miss Myrtle Capps as narrator. Mrs. R. P. Thaxton dismissed the meeting with prayer.

Lovely refreshments were served to the following: Mesdames W. A. Minick, H. D. Lawrence, Paul Frields, Miles B. Hayes, C. B. Beldon, Claude Reed, John Brookman, R. P. Thaxton, A. B. Frields, Misses Bessie McKnight, Myrtle Capps and hostesses, Miss Reed and Miss Waggoner.

Mrs. Roy Wilson of Fairfax, Okla., is visiting her daughter, Mr. and Mrs. Arlis Key and family this week.

HOWARD CLEMENT

New Location—Next To Legion Hall

STATE CAPITOL News

VERN STANFORD Press Association

Organization of the Insurance Commission is a super-charge issue again.

More than a month ago the governor passed a bill that would allow the present commission to allow the governor to appoint a new board.

But the State Affairs Committee turned it off to an unfriendly committee.

It is thought it would die when a verbal battle broke between John Asorio, chairman of the commission and Gov. Daniel.

Who was appointed by Gov. Allan Shivers, will be job if Gov. Daniel's reorganization plan goes through.

Answer to questions from Jerry Sadler, Osorio, said Daniel had offered to help another job if he would reorganize.

Osorio that he felt such a deal violate his oath of office. He also said, in answer to questions, that the governor apparently did not oppose reorganization of the Senate.

After the Commission had down the ICT Insurance reform Daniel called the false. He said he had personal attacks to red his efforts for reform. He declared he would fight for cleanup and reformation.

HERRING'S FOR TV Service In Town Phone 232 or 150 GIVE S. & H. GREEN STAMPS

In reply to the governor's accusation of a false charge, Osorio offered to take a lie detector test, if Daniel would.

House Committee members meanwhile, took new looks at the reorganization bill, admitted to being in a tight spot. Sentiment is reportedly very evenly divided.

ANNUAL SESSION FAVORED: With time running out on this session, the prospects of annual sessions in the future is gaining favor.

Senate gave preliminary approval to a measure for annual sessions and \$7,500 a year salaries for legislators. House passed a similar version with only \$4,800 a year pay.

Sessions on odd numbered years would be as now. On even numbered years a short budget appropriation session would be held.

Measure is a constitutional amendment which would require approval of the voters in November, 1958.

SLUM BILL MOVES—

Texas cities would be able to get federal aid for cleaning up blighted area under a bill given final House passage.

Senate State Affairs Committee blackballed the same bill 9-8. But supporters gained an unusual victory when the Senate voted 23-6 to accept the report of the committee minority.

Opponents attacked as unconstitutional the provision allowing a city to condemn property for sale to private parties. Backers said the bill had safeguards to prevent abuse to condemn powers.

Segregation Up To Senate —

Enactment of 8 bills designed to preserve school segregation is in the hands of the senate.

Sponsors predicted an easy majority in the upper house. However, Two South Texans whose constituencies are already integrated promised opposition. Sen Abraham Kazen, Jr. of Laredo and Sen. Henry B Gonzales of San Antonio indicated they might try to talk the bills to death in an end of session filibuster.

Measures already given House approval would (1) allow school boards to assign pupils to schools, (2) exempt children from compulsory attendance at integrated schools, (3) authorize state to pay tuition for pupils to segregated non-sectarian schools where no segregated public school is available, (4) authorize school boards to designate schools as "white," "Negro," or "integrated," (5) direct the attorney general to defend anti-segregated suits against the state, (6) require registration of persons paid to work for integration, (7) prohibit public employment of NAACP members and (8) ban future integration without a local school district vote.

CALICO AND TWILL

Old-favorite cottons team up in spectator ensemble by Macshore Classics. Calico shirt and back-pleated twill skirt need little or no ironing.

Teacher Money Sought—

Two bills aimed at gaining funds for teacher pay raises probably will be debated this week. Each has gained committee approval in both houses.

One would double tuition at state colleges for an estimated \$10,000,000 more in revenue. Another would make one per cent of the permanent school fund available for current spending. It would bring in \$7,000,000 to \$11,000,000.

Added to a predicted \$27,000,000 surplus in the general fund passage of the two bills would bring to about \$47,000,000 the amount available for teacher raises.

Teachers originally asked a basic \$399 a year boost, plus improvements in the schedule of increases for experience. This would cost a total of \$67,000,000. Gov. Daniel suggested a compromise where teachers would get the basic raise, but not the experience increase. Teacher spokesmen have indicated probable acceptance.

Women Gain Ground—

Women's clubs won a modified victory with Senate passage of a much patched separate property bill. It would give married women authority to manage their own estates without husbands consent.

A number of restrictive amendments were put in before passage. One would require a woman be 21 before assuming estate management to prevent a 14 year old girl from getting married and throwing away her

inheritance.

A bill designed to smooth over the squabble between private and cooperative utilities has been voted out of committee in both houses.

Bill stems from a recent Supreme Court decision limiting activities of REA co-ops.

Proposed changes in law would allow a coop to continue to serve old customers in an area after it is annexed by a city and add new customers where private power is not available.

SHORT SNORTS—

After two months delay the Senate okayed the House passed Pool bill requiring a runoff in special elections for U. S. senators and congressman at large.

Legal Security Life Insurance Company won the right to continue business after a show cause hearing before the Board of Insurance Commissioners. Board called some of the company assets overvalued but did not find the one third impairment of capital required by statute for dissolution. Friends of Speaker Waggoner Carr are pushing him for a second term. His only comment is that he's too busy now for politicking. U. S. Dept. of Agriculture has approved continuance of emergency feed program in 119 Texas counties. The Thanksgiving snafu whereby Texas celebrates the last Thursday in November and the rest of the country the fourth Thursday is apparently to be cleared. A bill making the Texas holiday conform passed both houses

Kay Brummage of Dallas won first place in the blue ribbon group of an ice skating meet. She is the daughter of Dr. and Mrs. R. M. Brummage and grand daughter of Mr. and Mrs. O. H. Buzbee.

Notes from HD Agent

The Ray Home Demonstration club found the solution to a problem many organizations have in common. The 16 members of this club found that taking care of 11 children, in a club meeting, kept them rather busy. It was impossible for the members to derive the benefit from club meetings, for which they belong.

This solution is a baby sitter. At the present time, Mrs. Ellen Johnson is serving as the baby sitter. The club raises money, in various ways, to help pay Mrs. Johnson. All the members help not just the ones with children. Working together, for this goal, not only helps provide care for the children, but helps knit the group closer together. Working together helps make any organization stronger.

Mrs. Raymond Krull, president reports that the children look forward to club as well as the mothers. Mrs. Johnson provides planned recreation and refreshments.

Members of the Ray HD club know their children are well taken care of; therefore they attend meetings regularly and take advantage of all the educational teachings of home demonstration clubs.

Reports show that the American teenagers are now making a cool billion dollars a year as baby sitters. And they, as well as their elders, are taking their duties seriously, according to extension home management specialists. Baby sitting books are available, and many high

schools teach courses in baby care. Baby sitting is being recognized as a responsible teenage profession. Paper routes, soda fountains and a variety of other activities provide other teenagers with income of their own.

Managing the use of this earned money presents another problem to teenagers. It also presents an opportunity for parents and leaders to help young people plan better money management. Available at the county Home Demonstration office is a "Personal Money Management Record Book," which offers suggestions. It is even more effective when used along with the family guide, Extension bulletin, "Money, Family Style."

Livestock producers are advised by County Agent, B. T. Haws, to watch the calendar in connection with marketing. He says livestock prices follow definite cycles and that the alert producer can cash in on these seasonal changes. L-333, Seasonal Variations in Livestock Prices, which Haws authored is now available at the offices of local county agents and it traces these cycles.

Combinations of stillbirth and antibiotics in yearling steers gave higher, more economical gains and heavier carcasses on extended feeding trials than either stillbirth or antibiotics alone, report Texas Agricultural Experiment Station animal husbandmen. The feeding trials were conducted at the Spur substation.

Creep Feeding Lambs, L-322, is the title of a recently released Extension Service publication which is available from the offices of local county agents or from the Agricultural Information office.

Most farm ponds are well supplied with water and B. T. Haws County Agent says it's a good time to stock them with fish. Local county agents can supply copies of B-213, Farm Fish Ponds.

Texas produces about 80% of the sulphur of the nation.

Small budgets love big Fords

You don't have to be rich to enjoy fine-car luxury. The new kind of Ford is America's lowest-priced* big car... yet it offers the beauty, V-8 GO and luxury ride of cars costing far more!

If you love big-car performance you'll love our '57 Ford.

If you love *thrill* you'll love our '57 Ford. No car ever before has offered such perfect blending of big-car luxury and small-car price.

Once you take the wheel, you'll discover how the "Inner Ford" gives you the kind of ride you have experienced before only in cars costing far more. You'll find its advanced-

design chassis and lower center of gravity let it corner as if it were on rails... that its engine is as responsive and nimble as a polo pony. Six or V-8 the going is great!

But even though this Ford *handles* like an expensive car, it's still priced Ford-low. In fact, model for model right across the board, the 1957 Ford is the *lowest* priced of the low-price three!

Ford is worth more at trade-in time. And when you go to trade your Ford, you'll find Ford's traditionally high resale value makes it worth more at that time, too.

Why not come in and Action Test this fun-lovin', budget-lovin' Ford? Why not come in and see it today?

The new kind of **FORD** Lowest priced of the low-price three!

203 NORTH AVENUE D
"Convenient Off-the-Street Parking"

Power Is Menace

Power is a deadly disease has the people in its grip and the drug is in sight to the frightful toll of human life.

safety publication, "Heedless Horsepower," The Travelers Insurance Companies of Hartford, Conn., point to the fact that 40,000 Americans were killed and 2,368,000 injured in 1956 on U. S. Highway. That's an increase of six percent in fatalities and nearly ten percent in injuries over 1955's toll.

The disease of heedless horsepower is highly contagious," the booklet states. It can be spread by an irresponsible word, an inflated claim, a careless example. And everyone who is in a position to influence drivers should learn that horsepower, in the hands of the heedless, is the fundamental cause of our ever-mounting toll of disaster.

In recent years, engineers

have made many attempts to feature safety equipment in the new cars. Probably many lives have been spared by safety glass, seat belts, padded instrument panels, all steel bodies, etc. But these safety devices can be nullified by any combination of speed plus carelessness, thoughtfulness or lack of judgment by the driver behind the wheel.

However, it is the driver, not the manufacturer, the advertiser or the salesman who must bear the greatest weight of blame. For it is the driver who can control the horsepower and use it safely for his greater ease and convenience. It is the driver who is lectured to, legislated at, prayed for, preached to, in every medium of public expressions known to man. And it is the driver who nods sagely promises readily, and forgets everything but his sense of overwhelming power when he steps on the gas.

Casualty lists on U. S. highways have mounted steadily until in 1956 all records of heedless haste and needless waste were shamefully broken. The facts of human suffering and death speak for themselves.

Human error is by far the biggest single cause of accidents. Figures compiled by The Travelers show that in 96.4 percent of the fatal crashes last year, the automobile was in apparently good condition. Clear, dry weather prevailed in more than 85 percent of these instances.

If this year's record is equal to that of 1956, one in 70 Americans will be a statistic, a pain wracked survivor, or a name in the obituary column.

News From The County Agent

The Wichita Valley DHIA Association ranked second in the state in average pounds of milk which was 950 pounds. They also ranked second in average pounds of fat, which was 35 lbs.

There is lot of leaf rust in small grain fields in the county due to a rainy season. If the rain continues, rust will be a greater problem.

When weather conditions become favorable for farm and ranch work, farmers and ranchmen will be busier than in many years trying to catch-up with all of the jobs which are now behind schedule. The Texas Farm and Ranch Safety Council passes on this word of warning. "Fatigue plays a most important part in farm accidents, don't drive yourself nor your farm workers to the point of exhaustion. It will pay to conserve your health and well being just as it does to conserve other resources. Just plain be careful," advises the council.

Wilbarger-Wichita Soil Conservation District News

Sorghum Alnum, a rapid growing perennial grass, will be field tested this year by several local farmers and ranches, according to Lloyd Ladd, Soil Conservation Service employee.

This grass has been under test for several years in Texas, but last years drought and newspaper articles, accompanied with pictures of sorghum Alnum growing unprofitably near Wellington, Texas created local interest.

It's adapted to all cropland soils and is usually planted in rows as you would plant sudan grass. It can be planted anytime from May 1st to July 1st and will produce abundant supplemental pasture, silage or hay under droughty conditions. Seed are rather costly, \$3.00 to \$4.00 per lb., but one pound per acre for rows is all that is needed.

Ellis McCullough has already planted 45 acres of Sorghum Alnum and intends to plant more. Others that have purchased seed for planting are: Brack and Harold Preston, Jewel Riley, Floyd Marten and J. C. Hinkle. The plantings will be made on nearly every type soil found in the Burkburnett area, which will give us more information on this grass.

Planting instructions can be secured at the local SCS office or from your implement dealer.

Most of us don't put best foot forward until we get the other one in hot water.

FROM WARM SPRINGS

FACT AND FANCY

by *Walter H. Richter*

(Wherein the director of public relations at the Gonzales Warm Springs Foundation tells of Texas' own physical rehab center and also throws in a little tongue-in-cheek palaver for which, incidentally, the management is not responsible.)

On occasions in the past I have wondered why someone didn't come up with Mother-in-Law day in the fine tradition of Mother's Day. I'll admit I never pushed the matter or fretted about it because it occurred to me that most mothers in law are also mothers and this would be sort of like starching the same shirt twice.

Now, however, the word has reached me that the Nation, beginning April 28th is going to observe Mother-in-law week. If that isn't going overboard on a thing, I'm a wall eyed pike.

I could understand why we might have a Be Kind to your Mother-in-law Week because it seems that almost anyone could or should restrain his or her true feelings for one week in the interest of harmony. And maybe that's what the instigators of this "week" had in mind.

My notion is that the whole subject of Mother-in-lawism needs considerable looking into and maybe the week of April 28th would be as good a time as any to get with it. I believe a scientific survey would show that most mothers-in-law, outside of being frightfully blind to the shortcomings of their own offsprings and thereby needlessly critical of the shortcomings of their offspring's spouses, are a fairly decent lot.

Much of the trouble, I feel, lies in the unfortunate use of the phrase "in law" which gives

the whole matter a cold and harsh legalistic air. It puts your mother-in-law in about the same category as the federal income tax; it's the law and just you try to escape it.

I think the little boy who asked his father, "Is grandmother your mother-in-law?" had a much better idea. It was love that started the whole relationship and perhaps this "in-law" business was a mistake all along.

Next year maybe we ought to try a Mother-in-Love Week. May be.

We are right pleased to reprint here a letter we have just received from the Governor of Texas:

"I am indeed honored that the Gonzales Warm Springs Rehabilitation Foundation has selected me as an honorary member of the Board of Directors. "Please be assured of my con-

tinued support and cooperation in the worthy objectives of the Foundation.

"Kindest personal regards. Sincerely Yours, Price Daniel"

Mrs. Wilma Bird of Electra spent the weekend here with her sister, Mrs. Opal Gamblin. Sunday guests of Mrs. Gamblin were Mr. and Mrs. Harvey Owen and son of Wichita Falls.

Golf is what letter carrying, ditch digging and carpet beating would be if all three tasks were to be done in an afternoon.

There is little use talking about your child to anyone; other people either have one or they haven't.

Mr. and Mrs. Nike Thompson and girls of Denver City, Texas visited Mrs. Thompson's aunt, Cora Lee Harmon over the week end.

Guests in the home of Mr. and Mrs. J. C. Adams Friday were Mr. Billy Lucas and family of Ft. Worth. Mr. Lucas is connected with the Ft. Worth National Bank.

Mrs. Ed Charles of Akron, Ohio and Linda Charles of Wichita Falls spent the weekend in the home of Mr. and Mrs. A. J. Harris.

Mr. and Mrs. JoAnn Herring and family plan to visit her parents, Mr. and Mrs. J. L. Smith in Denton, Tex., this weekend.

Mrs. O. E. Melton Hostess April 17th University Club

The University Study club met on April 17th in the home of Mrs. O. E. Melton. Mrs. Elmer Burns, vice president, presided over the brief business meeting as our president was late coming in.

A card of thanks was read from SAFB for the cookies the club had sent. Mrs. Majors and Mrs. Mathis were responsible for them the first Saturday in April. Mesdames Sessums, Mathis and young were appointed to serve on the menu committee for our last meeting on May 15 which will be a luncheon.

The members enjoyed a white elephant sale with Mrs. Majors as our auctioneer. We collected \$24.50 at this sale, besides taking home our white elephant. Mrs. Newman presented Mrs. Burns who was our speaker for the afternoon. Her subject was Peace or War and Crusade for Freedom. She very ably presented The Radio Free Europe Story stating "The Radio free Europe medium wave transmitter at Holzkirchen, Germany has fourteen times the signal power of New York's WRCA. There are 28 other RFE transmitters and relay stations in Europe supported by Crusade for freedom. She emphasized over and over again that words of truth are a powerful force. They combat the communists doctrine that has been pushed over Eastern Europe. They sustain the spirit of opposition in people who are threatened. It is true Russia dominates the governments of the satellite countries but it does not control the beliefs or hopes of the people. They have souls of their own and they can never get away from the spiritual values that are better than communist doctrine. They want desperately to be free. They are hungry for words that show there are people who care. She brought out the American organizations that support the crusade for freedom and the great American leaders who are behind it. She used a color print world map to base her talk pointing out all political divisions, principal cities and shortest steam ship distances between ports. She talked on the balloons of the free Europe press lion miniature newspapers on Iron Curtain countries every month.

Twenty hours a day the broadcasts and balloons remind 70 million behind the iron curtain of the friendship and interest of the American people and give them hope and confidence that freedom can once again be theirs.
She closed her interesting review with the words of Everett R. Clinchy, president of the National Conference of Christians and Jews. America must support the crusade for freedom more vigorously and generously than ever for as essential as planes, tanks and H bombs, are the spiritual values of democracy which the crusade for freedom has kept alive in combatting the tyranny of atheistic materialism. This was a most interesting and informative review.
A salad course was served to 21 members. Mrs. Brocker drew the door prize and Laura Louise Tevis also won a prize.
Everett Walden and Jo Bryant left April 28 for Germany where they will serve with the 509th Armored FA Bn., 3rd Armored Division for a year and a half. Mrs. Walden and baby will remain in Burk with her parents.

C. A. Moreman May 1st Builders Class

The Home Builders class of the Methodist church met Wednesday, May 1st in the home of C. A. Moreman, Mrs. Jones, president, opened the meeting with the group singing "The Every Hour Mrs. J. Moreman brought a lovely person entitled Love For Family Life. Mrs. Lowrey secretary, read minutes of the previous meeting. In the presence of the treasurer, the class collected the dues. The new officers for the coming year were as follows: Gage, president; Miss Patton, vice-pres.; Mrs. Jones, devotional leader; Mrs. Jones, ass't.; Mrs. Lowrey, Mrs. Stacy, sec.; Mrs. Jones, ass't.; Mrs. Lowrey, Mrs. Gilbert read a letter Mrs. Bertha Cropper, president of our class now in Ft. Worth. Mrs. Moreman presented the class with a certificate. Meeting will be with Mrs. Gage June 5th. The class benediction, prayers were served to the Misses Patterson, Gage, Tucker, Coy Jones, Revier, Knauth, Gilbert, Henry, Gloger, Bradford, hostess, Mrs. C. A. Moreman.

Junior High News

Wednesday, May 1st, was designated as Citizenship Day at Burkburnett Jr. High School, by the Student Council, under the sponsorship of John V. Ellis, Principle.

In honor of the occasion, an assembly was held in the Hardin Grade School auditorium. Mr. Ellis gave a short talk on the meaning of holding citizenship day and stated the possibility of its becoming an annual affair.

Shirley Hodges, vice president of the Student Council, was the announcer for the program. She introduced 7th grade student, Jim Davey, who gave a talk on school citizenship.

Mr. Roy Silkwood, High school principal, presented by Shirley gave an explanation to the students of college requirements so that they might begin now to plan the course to follow in high school to supplement the requirements for college entrance.

Mr. Ellis presented to the student body, students who had won honors of different kinds during the school year. Students introduced were: valedictorian of the 8th grade, Irma Ned Riley salutarians of the 8th grade, Carolyn Clement, Shirley Boyle and Sharon Boyle; 7th grade honor students, Chuck Duke, Linda Holt, Bill Welch, Margaret Faulk, Donnie Culpepper, Linda Carter, Jim Davey and Sharon Nix.

Interscholastic League winners presented were Linda Lilley and Barney Fudge, who won first place in sixth grade spelling; Sharon Nix and Karan Burton won second place in 7th grade spelling; and Irma Ned Riley who won third place in ready writing.

AZTEC INSPIRED

Polished cotton swim suit designed by Robby-Len for sun worshippers everywhere has Aztec print motif. Suit has boyleg shorts, high neckline split at center, and narrow removable shoulder straps. A single pocket accents the hipline.

Students who have won honors for entries in band contests during the year include, Shirley Thaxton, Shirley Boyle, Sharon Boyle, Loretta Brocker, Linda Holt, Sandra Bruer, Janelle Sanders, Phillip Miller, Patricia Simmons, Ronnie Anderson, Jackie Beaver, Margaret Faulk, Wendell Ainsworth, Patsy Preston, Linda Holman and Mike Matherly. Medals and certificates were presented to these students.

Following the assembly program, Mr. Silkwood met with members of the 8th grade class and helped them in filling out forms stating preferences in subjects that they would like to take in their freshman year in high school. He answered students questions and explained the three courses of study now offered by Burk High School namely, (1) preparatory for any college, (2) preparatory for a few of the smaller colleges, and (3) a course which would not meet requirements for entrance into any college. The student, with his parents, should decide before his freshman year, the course of study he is to follow.

IT'S THE LAW In Texas

HOMESTEAD MAY BE SOLD FOR TAXES

Many Texans have the mistaken impression that their homestead cannot be seized and sold for delinquent taxes. In many cases, this idea has led to considerable grief and monetary loss which could have been avoided. A homestead should be rendered to tax assessors like any other property, and taxes assessed against it should be paid as faithfully as those on any other taxable property.

The deadline for rendering property for taxation is April 1, so far as most city taxing agencies are concerned. The last date for rendering real and personal property for state and county taxes is April 30. State taxes are collected by the County tax Collector.

Under the Texas Constitution each family is entitled to claim one piece of real property as their homestead. This claim must be established by an affidavit filed with the county tax assessor on or before April 30th, each and every year. This affidavit must be filed by the owner himself. A lending agency cannot do so, even though it may actually pay the annual taxes thereon from a fund created by the owner's monthly installments.

When the homestead affidavit is properly filed, the owner becomes entitled to an exemption of State taxes up to the value of \$3,000 or 200 acres in the case of farm lands. This is an exemption from payment, not a complete exemption from rendition and assessment. There is no similar exemption with reference to county or city taxes. The homestead claimed for tax purposes need not be the property which is actually occupied by the owner as his residence.

Texas Egg Law Becomes Effective

The next few months mark a period of preparation for one of Texas' most important agricultural advances in recent years, the enforcement of an egg grading and standards law.

Recent passage of the Texas Egg Law brings the state into line with all other states which already have active egg programs, making possible the protection of Texas Egg producers and consumers alike from misrepresented and mislabeled eggs.

The law became effective immediately upon its passage although it will not become operative in full for a six months prescribed period. This period presumably is to allow for preparation of persons and firms for compliance with the law in full.

With a few minor exceptions, the new egg law provides that eggs sold for human consumption must be graded according to consumer grades and weight classes set up by the United States Department of Agriculture.

The new law also makes it illegal to sell or advertise shell eggs below the quality of Grade A as "fresh", "yard", "Selected", "Hennerly", "Newlaid", "Cage", or other words which represent such eggs to be fresh. This does not include the sale of eggs from a producer's own flocks. The labeling provisions are a-

mong those which will not become effective until 180 days following the law's effective date, or in about six months.

Another provision involves licensing of certain dealers and processors of eggs, with fees set according to the volume of eggs handled. The proceeds of these fees will help to defray the cost of administration and enforcement of this act.

Any person desiring a copy of the new egg law or additional information on egg grading should send a request to John C. White, Commissioner, Texas Department of Agriculture, Austin, Texas.

The proposed record peacetime budget of \$71.8 billion for fiscal 1958 can be cut substantially if people stop looking to Washington and spend their tax money at home.

Triple-Turbine take-off!

Sweet, Smooth and Sassy—that's Chevy! Model illustrated, the Bel Air Sport sedan with Body by Fisher.

Turboglide is the first and only triple-turbine transmission! You can feel the difference from your very first take-off!

Just slip Turboglide into "D" for "Drive" and pay it no mind. There is no "Low" or other positions to worry about.

For this is the automatic with triple turbines. One for quicksilver starts from a standstill. Another for cream-smooth cruising. And a third turbine for passing

response that's safer all the way.

In GR (Grade Retarder) position Turboglide helps slow you down—saves your brakes on long, steep hills.

When you team Turboglide with Chevy's new Positraction rear axle, you've really got it made! You have surer, safer control on any road surface.

Try a sweet, smooth and sassy Chevrolet with these two new extra-cost options at your Chevrolet dealer's.

GET A WINNING DEAL ON THE CHAMPION!

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. GET A DEMONSTRATION!

Only franchised Chevrolet dealers display this famous trademark

WANTED — Waitresses and cook. Apply in person, 722 Glendale. 42-CZ

Junior High News

Loretta Brocker, with her poem, "Stars", was revealed as winner of the Junior High Poetry contest, by Irma Ned Riley, President of the sponsoring group, the Lowanna Camp Fire girls. Poems were judged (point system) by Mesdames E. E. Clack F. G. Jeffers, and Vernon Speir. Other winners, as revealed by Irma Ned, were tie for second place, Dana Standifer, with poem, "Flowers," and Nina Weiss with poem "Little Brother, tie for third place Kathryn Ross, "The Night of the Play," and Jane Yarbrow, "Easter Prayer"; fourth place Joey Skinner, "Highwayman"; and three way tie for honorable mention, Roxene Edwards, "Life," Loy Walker, "School Days," and Joyce Denny, "Life."

STARS

Have you ever looked to Heaven To find a blinking star? Its very much like the diamond You find without a mar. Have you ever looked to Heaven On a burning summer day? And wondered how the stars Just seem to melt away? And where do they go you wonder, As you look up at the sky; Do they go to Jesus, or just Fade away and die?

LITTLE BROTHER

I have a little brother, And he's cute as he can be. He has red hair like his mother, And likes to play with me. He has blue eyes like my sister, And he is jumpy as a flea. He is stubborn like my father, But he likes to play with me. And, at night when we are playing, And he wants to take a nap, He will go and get his pillow And will put it in my lap. He will say to me "I do you," Which means he wants to hug my neck. He's a rotten little stinker But I love him, like all heck.

FLOWERS

Flowers are of many kinds And also many colors. They help cheer us when we pine And help us cheer others. There are many kinds of flowers And just as many weeds, But without the aid of April showers, They would both remain seeds

University Club Met May 1st With Mrs. L. W. Mathis

Mrs. L. W. Mathis was hostess to the University Study club on May 1st. Mrs. Harwell was in the chair and announced that we would have our social hour first and the program afterward. Mrs. Mathis invited us to the dining room to be served from a beautifully decorated table covered with a pink organdy floor length cloth, carrying out a pink motif, with silver containers. Mrs. Harwell and Mrs. Burns served coffee and tea, assisted at the table by Mrs. Mathis and Peggy. It was a beautiful setting.

Mrs. Tevis as the program chairman presented Mrs. Holt who brought us a very interesting and informative paper on Immigration, "The Stranger at our Gate." She used an interesting discourse of Hubert H. Humphrey, Jr., a U. S. Senator from St. Paul, Minn., to base her remarks from. Beginning with these words from Deut. 11: 19, "Love ye Therefore the stranger for ye were strangers in the land of Egypt." She said "It is well to remember that at one time we or our ancestors were all immigrants to this country. From the beginning there were those who had founded America and recognized a national need, not merely to tolerate, but to encourage it, not only to admit those who were wealthy or skilled but in the words of George Washington, to give haven to the oppressed and persecuted. In the first years of our republic, we deliberately sought to stimulate immigration. We need help to build our industries and to assist in the development of our frontiers. The wisdom of this policy is now manifest everywhere in our land for we learned and gained much from them. She talked at length on our immigration laws giving us data on each of them. She also talked on our family tree and said it isn't easy to trace. It goes back in a real sense to a history of many peoples, but she emphasized over and over again that immigration has always contributed to America's greatness and shall continue to do so.

Mrs. Crosley was our next speaker and talked on Population changes. She reminded us of the handful of colonists that became the first 13 states and the glorious pageant of movement change and conquered frontiers. The plains became farms and mountains were crossed by roads and rails campfires were replaced by electric ranges and automatic furnaces; the pony express to telephone; horses to motor cars. Distance and time were telescoped. America be-

came civilized, we relaxed to stable, fruitful secure land. The challenge and danger of the frontier were passed, we thought of course we looked forward to change, but one we could control and enjoy. However this progress and changes meant two great world wars in our time. Our population has increased 2,900,000 during 1956 in the U. S. This population now has a gain of about 50 million in 30 years. It is estimated that if the present rate of population growth continues another 50 million people will be added within the next 18 years and by 1975 our population will reach about 220 million. Americans are moving. In 1953 the number of people moving their place of residence during 1951 was 19.8 percent of the population. 5,112,000 moved across the state lines. The 5 leading long distance moving companies in the U. S. report that in 1953 they moved more families than in war time. Today people who have lived in the same house for 10 years are real old timers. She told us of the changing rural population. What are we going to do about it. She told us some fantastic stories about moon forms, whales and etc. These were told first by Arthur C. Clark of En-

gland. Mr. Clark says practical now but it is sometime.

Indeed we had an excellent afternoon with a very interesting program.

Mrs. Sessums was the door prize. There were members present and Mrs. Jack Mathis.

While the farmer was this question, a crew leader inquiring at another desk same social security office was furnishing a crew of ers to hoe corn on another We he their employer for security purposes?

Both the farmer and the leader were handed a clearly their individual The farmer was the one he and the crew leader agreed in writing that the leader was also his employer. If there was no written ment to that affect, the crew leader was the one if he paid the workers on his own behalf or for the If there was no written ment between the farmer the crew leader, and the leader did not pay the then whoever had the right to control the crew bers was the employer, the social security law.

The leaflet in question titled "Social Security tion for Crew Leaders and mers." It is available asking at the Wichita P. O. Bx 1650 in tion to explaining clear- mer-crew leader farm relationships for social purposes, the leaflet tear off postcard which ployer of farm labor can obtain an employer iden- tion number, a necessary every employer of agri- labor.
