

Mrs. Fred Massey, Lifelong County Resident, Dies

Mrs. Fred Massey, 59, of Dozier, whose parents were among the earliest settlers of this county, died at St. Joseph's Hospital here Wednesday evening, July 20, at 6:00 p.m.

Mrs. Massey was the daughter of the late Mr. and Mrs. W. H. Groves, who came to the Dozier community in 1890 from Denton County, when she was only a few months old. She was before her marriage Mary Irene Groves, and was born January 11, 1890.

She grew up in the north part of the county, knowing as a child the pioneer days of this section when neighbors were distant and the entire area having only a few inhabitants. She received her education in the schools of the county, and took an active part in the life of the community where she lived.

She was married to Fred Massey on February 11, 1912, at Dozier, by Minister W. H. Riley. The family continued to live in that area, and she took her place of responsibility in the Dozier area.

She had been a member of the Church of Christ for many years.

Funeral services were conducted Friday at the Church of Christ at Dozier, with Minister Van Bonneau of Dodson officiating, assisted by Min. Riley of Dozier, who had married her.

Pall bearers included three brothers and three nephews: Claude Groves, George Groves, John Groves, Richard Groves, Ernest Groves and Paul Groves. Flower bearers were nieces, Miss Willie Massey, Miss Maxine Massey, Miss Joan Massey, Mrs. Gay Isaacs, Miss Lida Groves, Miss Linda Groves, Miss Edna Pearl Groves, Miss Ernestine Groves, and Mrs. Pat Groves.

Special music included a quartet by Harold Binkley, Marshall Binkley, W. H. Riley and Mack Brooks.

Burial was in the Dozier cemetery under the direction of the Kelso Funeral Home.

Surviving are her husband, Fred Massey of Dozier; two daughters

Ag Teachers to State Meeting

The county's three vocational agriculture teachers are attending the annual Vocational Agriculture Teachers Conference which convenes in Dallas July 27 through 29.

At this conference, plans and a program of work will be set up on a state-basis for the coming year.

Going in the local group were Mr. and Mrs. Bennett Goodloe, Wellington; Frank Kennedy, Quail; Mr. Cristy, Samnorwood; also Howard Weatherly of Shamrock and Duard Lamb of Stratford. The latter was one of the practice teachers here last year from Sam Houston State College, Huntsville. He has accepted a place as vocational ag teacher at Stratford for the coming year.

Will Divide Work Among Schools

Supervisors and Special Service Teachers Available to County

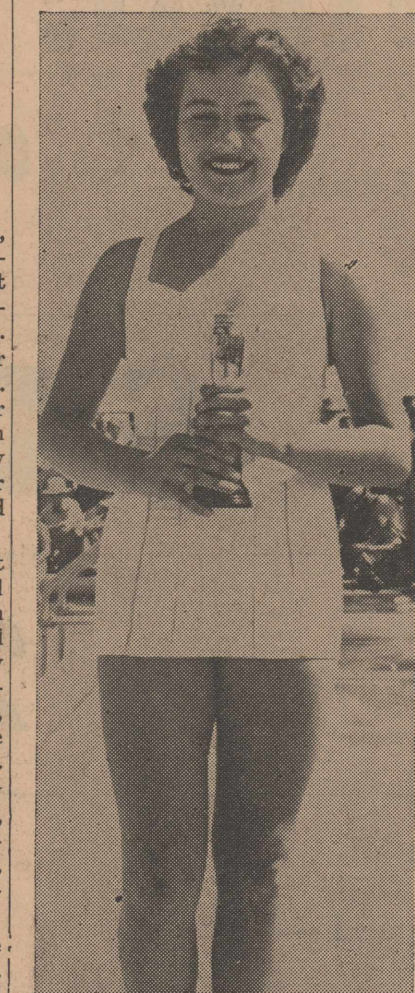

The county school system will have two school supervisors and three special service teachers during the coming year, made possible through co-operation with the Gilmer-Aikin program, B. W. Beard, county superintendent, announced Monday, July 25, following a meeting of all school superintendents of the county.

Plans at present, as outlined by Mr. Beard, are to have the two supervisors serving all schools of the county. Their duties will be principally to co-ordinate the work of the schools, so that corresponding grades of all schools will progress uniformly. Their work will also be to assist beginning teachers and those who desire additional assistance in their work.

The three special service teachers will be librarians, Mr. Beard said. One will probably devote full time to the Wellington school, while the other two will serve Dodson, Samnorwood, Quail and Lone

and. Our problem is going to be to get teachers qualified for this. Mr. Beard commented.

BEAUTY AND — MORE BEAUTY

This is just a sample of the pulchritude that was seen at the Flight Barbecue in Wellington Sunday, July 17, when Beth Roach, right, of Plainview, was named Miss West.

Wilkins, the girls are seen at left as they walked around the enticingly cool Marian Airpark Pool, charming both visitors and judges, who admitted there was lots of beauty on hand that day.

Rejection Cuts Off District From State Aid

County Taxpayers Vote Saturday On School Tax Rate Increase

Every property owning taxpayer is being urged by school officials to vote in the election Saturday, July 30, to determine the increase of the school tax rate to \$1.50 per \$1.00 valuation. The present rate is \$1.00 and \$1.25, varying with the districts.

This increase is necessary if the

local schools are to participate in the benefits of the Gilmer Aikin program. Local funds must amount to \$55,900 before state aid can be received. The present amount available to local funds is \$34,015. At present 50 per cent of the money, or \$34,015, goes to pay off the bonded indebtedness of the schools

and is not available for use in the Gilmer Aikin program.

If the measure is turned down, the districts rejecting it will be forced to finance most of the cost of their schools themselves, since state aid will not be available to them.

Districts will vote individually, and rejection by one district will not affect the others.

Voting boxes will be at the county court house in Wellington; and the school houses at Dodson, Quail, Lone Mound, Needwood and Samnorwood.

Two issues will be voted on by voters of the Dodson district. One is the tax increase measure. The other pertains to a bond issue to finance a gymnasium for the Dodson school.

W. G. Graham Dies July 18 After 10-Months Illness

William Granville Graham, 73, Wellington resident for the last two years, died in a hospital at Memphis, his former home, Monday, July 18. He had been in ill health for the last 10 months.

Funeral services were held Tuesday afternoon at the Marcum-Vandeventer Funeral Chapel, Memphis, with the Rev. Roy Shafer in charge.

Pall bearers were Leonard Graham, Joe Graham, Lester Graham, Calvin Graham, Jack Needham and Jimmy Spruill.

Mr. Graham was born in Alabama January 16, 1876. When a small boy he came to Texas and this state continued to be his home.

He was married to Miss Bessie Spruill near Arlington in 1905. Three years later, in 1908, they came to Hall County from Clarksville, and made that their home until two years ago when they came to Wellington. He was a retired farmer.

During the time he had been here, Mr. Graham had made many friends, gaining the respect and

Bridge Worker Killed in Fall From Tractor Sun.

Clarence Ray Stanton, 18, of Mansfield, employed in construction work at the Salt Fork River Bridge, was killed instantly Sunday, July 24, about 11:15 a.m. when he slipped and fell beneath the moving tractor on which he was riding.

Stanton was working for the Ferrier Brothers Bridge Contractors, with headquarters in Dallas, who had the contract for concrete work on the bridge.

The accident occurred after all work had been completed and the machinery was being moved out, O. M. Ferrier, foreman and one of the owners of the firm, said.

"Within 15 more minutes, he would have been on his way home," Mr. Ferrier commented.

Workmen who were near the Stanton youth said that he appeared to lose his balance and fell beneath the tractor, making it impossible for the driver to stop before the wheels passed over his body, he continued.

He was the son of Mr. and Mrs. Austin Stanton of Mansfield and had worked for Ferrier Brothers three years.

Concrete work on the bridge had been completed, except for a small amount of cleaning up and painting, and the machinery was being moved out, Mr. Ferrier said. His two brothers, W. M. Ferrier and O. W. Ferrier, who have been here also, had gone on to another job, and most of the men were also leaving.

The Stanton youth's body was taken to Mansfield Sunday evening by the Kelso Funeral Home. Accompanying it was James Brown, also of Mansfield, who was employed on the construction job.

This construction work was on the portion of the bridge replacing that damaged beyond repair by a fire which followed a collision on the bridge June 25, in which four men lost their lives.

County Pioneer Has Eye Operation

By MRS. R. L. KARNES
John Forbis of Wellington and Mrs. C. A. Kesler of Fresno community took their father, Will Forbis, to Amarillo last week for a physical check-up. He then underwent an operation for the removal of a cataract from an eye at St. Anthony's Hospital June 24.

It is believed his eye is doing nicely.

Mr. Forbis is one of the pioneers who came here in 1888, when rattlesnakes and prairie dogs were plentiful. He kept count one year of the number of rattlesnakes he killed and said at the end of the year, he had killed 103 rattlers. He certainly did his part in helping make this county what it is today.

He and his family settled in the Fresno community and lived there until five or six years ago, when he went to Childress to live. He is now back in the Fresno locality, making his home with his daughter and son-in-law, Mr. and Mrs. Kesler.

Mr. Forbis has always been active in church work and anything that was for the good of the country.

EVANGELIST

The Rev. Paul Gray, Pasadena, Calif., evangelist, is conducting a meeting at the Church of the Nazarene in Wellington. The services began Wednesday night, July 27, and will continue for 10 days, the Rev. Austin Moore, pastor, has announced.

WALTER DEE BREEDING

Walter Dee Breeding, 12, son of Mr. and Mrs. W. R. Breeding of the Enterprise community, was killed Tuesday, July 26, when he was dragged by his horse near the family home. One of the leading 4-H Club boys of the county, Walter Dee is shown here with his two heifers which won for him first and second place in their division at the Youth Project Show in Wellington this spring. He had been selected a delegate to the district 4-H Club encampment to be held next month.

One of County's Leading 4-H Club Boys

Walter Dee Breeding, 12-year-old son of Mr. and Mrs. W. R. Breeding of the Enterprise community, died about noon Tuesday, July 26, when he was dragged by the horse he was riding.

The youth had gone to get a cow out of a field near the family home. There were no witnesses to the accident, but his body was found only a few minutes later near the barn. The rope in which one leg was caught, had broken.

Walter Dee was born November 23, 1936, and had lived all of his life in this county. He would have enrolled in the sixth grade at Samnorwood Consolidated School next month.

Like his father and his grandfathers, Walter Dee was interested in livestock, and within three years he had become one of the leading 4-H Club boys of the county.

The first time he showed calves to exhibit, but he produced a number of prize winners. He exhibited the grand champion calf in 1946, when he was only nine years old.

This year he had two prize winning calves and a hog in the show. Already, he had started his own herd of registered Herefords, in which he took great pride. Walter Dee was also the county nominee to attend the 4-H Club District Encampment at Camp Perkins, near Wichita Falls, in August.

He understood animals and how to care for them, and already he had those qualities of farm youth leadership that would have developed into farm and community leadership.

His sense of sportsmanship was keen, and his pluck and courage were part of his everyday living.

Walter Dee was liked by those of all ages with whom he came in contact, and he was a favorite among those with whom he was more closely associated.

Funeral services were planned at the Church of Christ at Dozier, and burial was to be in the Dozier cemetery Wednesday.

Surviving Walter Dee are his

State Health Department Expresses Appreciation

Sixty-One Cases of Tuberculosis Found Among Countians X-Rayed

There were 61 definite cases of tuberculosis found among the 2,025 X-rays made in Wellington by the State Department of Health's mobile X-ray unit in Wellington July 9 through 15, Dr. George W. Cox, State Health Officer, has notified Dr. E. K. Jones of Wellington.

In addition, there were two suspicious cases and four films showing evidence of non-tuberculous disease involving the chest.

This is somewhat smaller than the cases of tuberculosis found in proportion to the number of X-rays taken last year. A total of 60 chest ailments were located, but only 1,500 X-rays were taken.

The films were processed and sent to countians in a shorter period of time than last year.

"On behalf of the State Health Department I wish personally to express my appreciation to you for acting as chairman of the recent X-ray survey in your county," Dr. Cox wrote Dr. Jones. "I likewise wish to express my sincere appreciation to the various civic groups, volunteer workers, the physicians of your county, and to the public service employees who contributed

their time and service in a pooled effort to make the X-ray survey in Collingsworth County a successful one.

Oldest woman riding horseback, \$5.00.

Best float in the parade, \$10.

Methodist Revival To Open on August Fifth

A revival meeting has been scheduled at the Methodist Church in Wellington to begin August 5, and continue through August 14, Rev. Lester L. Hill, pastor, has announced.

Early morning services will be held beginning Monday morning, August 8. These will be held at 7:00 o'clock, and this time was chosen especially to give business men an opportunity to come to church before business hours, the pastor pointed out.

Evening services will be held at

8:00 p.m.

Rev. Hill will do the preaching. The evening services from August 8 to 12 will be illustrated by the experiences of the pastor in the Holy Land. During the morning services of this same week, experiences in Africa and the mission fields will be given in sermons.

"A cordial invitation is extended, not only to all who belong to this church, but to people of all faiths. We are anxious to have people who do not profess faith in Christ to come to the services," Rev. Hill said.

SALT FORK

We could use a nice shower out our way very nicely.

Every body is really busy plowing and hoeing. Some few are up with their work at home and are helping their neighbors. Mr. and Mrs. John Gollighugh and Clyde are helping J. P. Cummings.

Mr. and Mrs. Ira Morrow helped Carl Wischkaemper a few days, but are working for Woodrow Wilson now. Their granddaughter Rosie Lee Sweden came and worked with them several days.

We regretted very much to hear that some of our neighbors over a few miles south and west of us got hailed out last week.

Mr. and Mrs. Ted Isbell and family have gone on a week's vacation. They are visiting Mrs. Isbell's relatives in eastern Oklahoma. Some of them she hasn't seen since she was a small child.

Mrs. Lillian Clifton of near Independence, Okla., was over last Wednesday helping can peas for her parents, Mr. and Mrs. G. C. Wright.

Mr. and Mrs. J. W. Gollighugh are very happy over the fact they have an electric ice box. Soon as it was installed the children said, "Mother, let's have some ice cream right now."

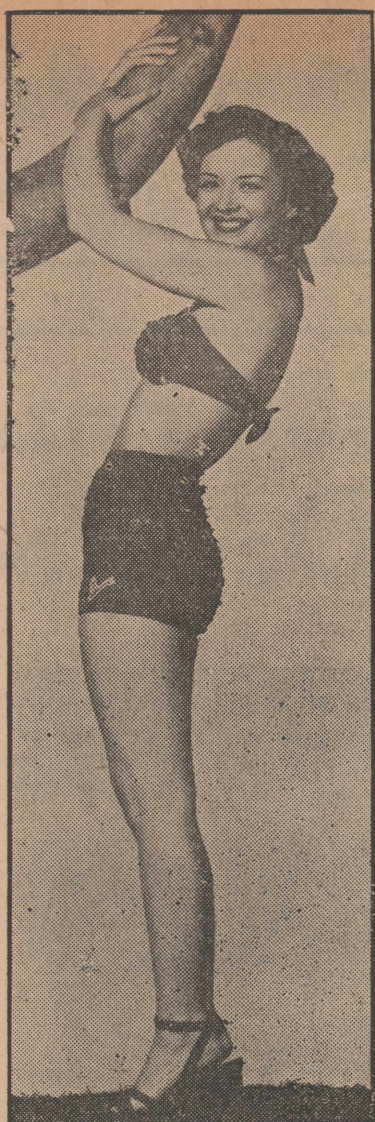

Little Jeffie Maxwell, who has been staying with Mrs. C. A. Wright and his grandmother, Mrs. Maxwell while his mother was at Lamar, Colorado, at the bedside of her husband, Ray Maxwell, who had a serious operation a few weeks ago, is home again with his parents. Ray is improving rapidly and is able to be up and get around some. He was glad to get back home and see his children.

George Isbell spent the week end at Mangum and said he saw a lot of old friends he hadn't seen since he was a child.

The Isbell family was raised south west of Mangum out in the Ladessa community. Every one was in Mangum, Okla., to attend the old settlers' celebration.

Mr. and Mrs. Morrow spent Saturday in Childress shopping.

We had quarterly conference out here Saturday. Rev. W. E. Hamilton, our District Superintendent, brought us two inspiring messages. We had lots of dinner at the lunch hour. Every one seemed to enjoy the day very much. We were all so glad to hear Mrs. Hamilton is improving rapidly from her recent illness. She will soon be able to accompany Rev. Hamilton on his trips over our district as usual. We really miss her when she can't come.

come.

Mr. and Mrs. G. C. Isbell spent the week end with their parents, Mr. and Mrs. R. H. Isbell.

Mrs. Louis Morris and Darrell attended church here Sunday. They were accompanied by Mrs. Morris' niece, the oldest daughter of Mr. and Mrs. Hezz Jones of Wellington.

Our Sunday school group met at the church last Thursday afternoon late and hoed the yard. We were all so tired we could hardly work, but we kept reminding one another and ourselves that soon as we got done we'd spread our supper and eat.

We had lots of fried chicken, cake, iced tea. So we finished and had a social time together after supper. The children even played a few games even if they had hoed hard all day.

Mr. and Mrs. C. A. Wright and family visited Ray Maxwell and family Friday and Saturday nights. I think they were lonesome for little Jeffie, they'd learned to love him so much.

Mr. and Mrs. Buck Lancaster, Elmer Jean and Nelda, also Mr. and Mrs. Bill Clifton attended church here Sunday night. We always enjoy having them so much. The singing was good. We really like to have folks come help us sing.

The Methodist revival is on at Aberdeen. Some of us here are planning on going some. Hope every one who can will attend. Rev. Richardson urges you to go and help them. There are just night services since people are so busy in their crops.

Mrs. Beulah Tucker of Raymondville is here to be at the bedside of her brother-in-law, George Tucker who is ill.

Hail Damages Crops Near Quail Friday Evening

Crops in a limited area approximately three miles southeast of Quail were damaged by hail Friday, July 22, although it is now believed the cotton will grow out of much of the damage.

The heaviest of the hail appeared to center at the J. W. Gosnell place, where his crops were considerably damaged. Mr. Gosnell reported to Tom Crabtree of the Quail Mercantile Wednesday morning, however, that he believed his crops would recover.

Ellis Baggett and G. K. Patterson also reported some hail damage but it was not severe.

The Quail area also received a good rain Tuesday afternoon, with approximately three-fourths of an inch falling at Quail, and growing heavier until from an inch to an inch and a half was reported three to four miles south of Quail.

"The rain was not too badly needed, but it is appreciated," Mr. Crabtree commented.

The rainfall was lighter north of Quail.

Pampa Boosters Here July 28

The Pampa Boosters will say, "Howdy! Friends and Neighbors" — when they visit Wellington at 10:45 a.m. on Thursday, July 28th to extend invitations and make everyone welcome to attend the Fifth Annual Top o' Texas Rodeo and Horse Show to be held in Pampa, August 2-3-4-5-6.

Lieb Langston, Booster Trip Chairman, said "hitch your horses, park your buggies, throw your hat in the corner and let's all have

a good ol' western get together," when the Pampa Boosters arrive in special buses with plenty of entertainment, including the Pampa Harvester Band, the Top o' Texas Four, barbershop quartet; and the Top o' Texas Square Dance Team with their own western band to add rhythm and color to the occasion.

The Pampa Rotary Club, sponsoring the trip, will be on hand for a friendly and informal visit and would like to see a good crowd out to meet them.

Lieb Langston, master of ceremonies, will give highlights on the show and promises to have souvenirs for all of the ladies and children.

Pampa says that they are going to put on a bang up show just for the folks in Wellington.

—By Deskins Wells

The sympathy of a host of friends goes out to Mr. and Mrs. Buck Breeding in the tragic loss of their son. He was an industrious, likable and able young man who gave promise of growing up to be a fine citizen. Such a loss is a terrible shock.

Congratulations are in order for J. T. Nabors, district engineer, and Clyde Drake, resident engineer, for the rapidity with which they completed repairs on the Salt Fork bridge. They built 142 1-2 feet of bridge from the ground up in exactly 3 weeks from the time the bridge burned. This is believed to be a record in Texas. It is tremendously important to business in Wellington. The time the bridge washed out Wellington business received a notable set-back until the new bridge was completed. Perhaps our Chamber of Commerce ought to write a letter to the State Highway Department in Austin commending the efficiency of Mr. Nabors and Mr. Drake.

If you are a friend of the schools go to the polls next Saturday and vote for the tax increase from \$1.25 to \$1.50. It is the only thing we can do if we have any sort of schools at all. The increase will not cost any individual very much, and we must vote it to get state aid.

August 16, 17 and 18 are the dates selected for the Wellington rodeo. Anyone in the Wellington area is invited to take part in the parade or rodeo. There will be a lot of prizes; so start making your plans now.

The Memphis Owls come to Wellington Thursday night and they are coming with blood in their eyes. They are the second place club after defeating Mangum; but they think that their only chance of copping the pennant is to down the Dukes next Thursday. The Dukes have eked out on them by the margin of one run in two games; but the Owl fans say that they can't do it again. The game ought to be a hum-dinger.

Stores — all of them — should make an immediate increase of at least 10 per cent in their ad-

vertising budgets if they expect to get their share of sales during the balance of this year. That is the opinion of Howard P. Abrahams, manager of the sales promotion division of the National Retail Dry Goods Association. He said: "Conditions are changing and present budgets are far too low."

Time races on. Next week I will have completed 25 years of continuous work on this newspaper. It bewilders me to realize how swiftly the years have slipped by. It seems only yesterday that Mamma and I got off the train at Childress after spending the summer in Virginia; and I set about making my plans for entering the newspaper business.

A Negro woman filed suit for divorce against her husband in district court here on a charge of desertion. His legal name is Prodigal Son Crowder.

I see by last week's issue of The Leader that Billy Karnes is now employed at the Cicero Smith Barber Shop. Undoubtedly he will learn a lot about barbering and lumbering both at this establishment. Wonder where the place is located.

People continue to talk about the wonderful prospects for a cotton crop this fall. A good soaking rain would be most welcome at this writing. If we hit business is really going to be something in Wellington this fall.

Harris Royal brought in an old copy of The Wellington Times of Friday, March 12, 1909, that was saved by F. H. Royal. The late R. H. Templeton was the editor and publisher. Conley and Benge ran the Palace Drug Store. The Wellington Grocery Co. advertised caskets and coffins and John H. Arnn acted as undertaker. Coe and Somerville also ran a grocery store. The Wellington State Bank said that it welcomed small deposits. Mrs. H. W. Jones ran the Hotel McDuke. Wells & Co. were selling embroidery worth 40 cents a yard for 10 cents to any lady that bought \$5 worth of merchandise. Dr. S. A. Street and Dr. J. J. Pittman had professional cards in the paper. Eugene Moore ran a grain yard and sold coal. Ed Beck advertised that he had severed his connection with Barton & Beck and that Barton and Beck would assume all indebtedness against the firm. The three churches were the Baptist, J. W. Hembree, pastor; Methodist, H. M. Hudson, pastor; Presbyterian, Rev. T. A. Lee, pas-

OLD TRICK, NEW TWIST

Cargo men loading this plane at Miami, Fla., were at the end of their rope when they found that this hawser was too bulky to fit through the doors of the plane. The knotty problem, which could have tied up air traffic, was solved with a simple rope trick—the half-mile hawser was uncoiled, passed by hand into the plane, and coiled all over again. Process was reversed when the plane reached its destination.

County officials J. K. Duke, judge; Geo. W. Lee, county and district clerk; H. E. Singley, sheriff and tax collector; C. B. Jones, treasurer; O. L. Couch, tax assessor; R. H. Cocke, Jr., attorney and A. Buerger, surveyor. Editor Templeton and Sheriff Singley were having a big row in the columns of the paper over the sheriff's salary. M. M. Dickson moved to Bovina and A. M. Bond moved to Wellington to take his place as manager of Cicero Smith Lumber Co.

Miss Bonnie Willis, principal of the Wellington elementary school, has returned home from Austin, where she attended the summer session of the University of Texas. Miss Willis is working toward her doctor's degree.

County Judge, Agt. On Leave, Maybe

Two court house officials are officially on vacation, but neither is doing much resting.

County Agent J. W. Thomas will be an annual leave until August 1, but he is still giving help and advice to farmers who stop by his place.

County Judge R. L. Templeton's vacation was ordered for the first of this week, but that found the Commissioners Court taking up tax equalizations, and he is on the job as usual.

Rev. Noel Bryant of Borger was a Wellington visitor Tuesday.

The only work remaining is putting up the side railing, and cleaning up, however, the bridge will be allowed to set for several days before traffic goes over it, he said. FARM SAFELY With Massey-Harris

IF IT'S *Power* YOU WANT

Model "10"—1-pow power, 62 cubic inch, 4 cylinder engine, 3 speeds forward

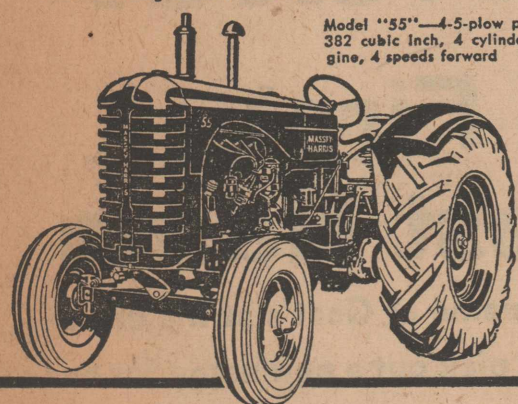

Model "30"—Full 2-pow power, 162 cubic inch, 4 cylinder engine, 5 speeds forward

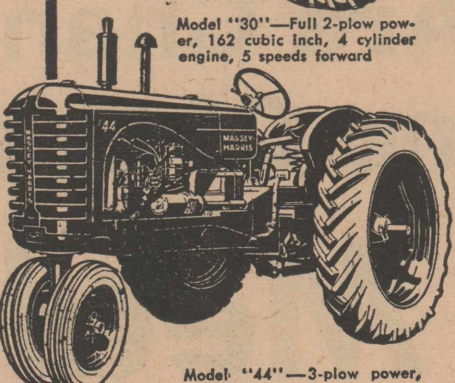

Make it a Massey-Harris

Tough spots disappear when you put a Massey-Harris tractor to work on your place. There's more power in Massey-Harris . . . more downright luging ability at the drawbar . . . more capacity on belt work . . . more reserve, stamina, dependability. It's the result of high compression in the engine, straightline design in the transmission. High compression takes the laziness out of an engine . . . makes it peppy, more alive, more responsive. A straight line transmission delivers that power smoothly, efficiently . . . you get full power on every belt and field operation.

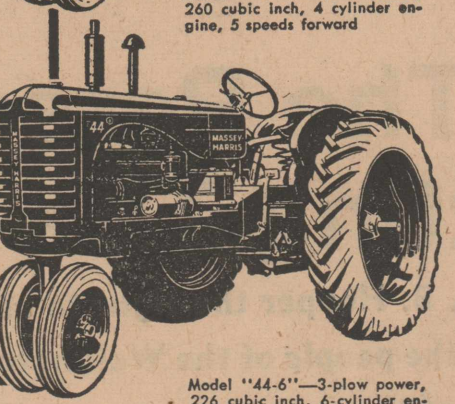

There's a Massey-Harris tractor for your farm . . . 6 great models . . . 5 power sizes . . . each the power and economy leader in its class.

Model "45"—4-5-pow power, 322 cubic inch, 4 cylinder engine, 4 speeds forward

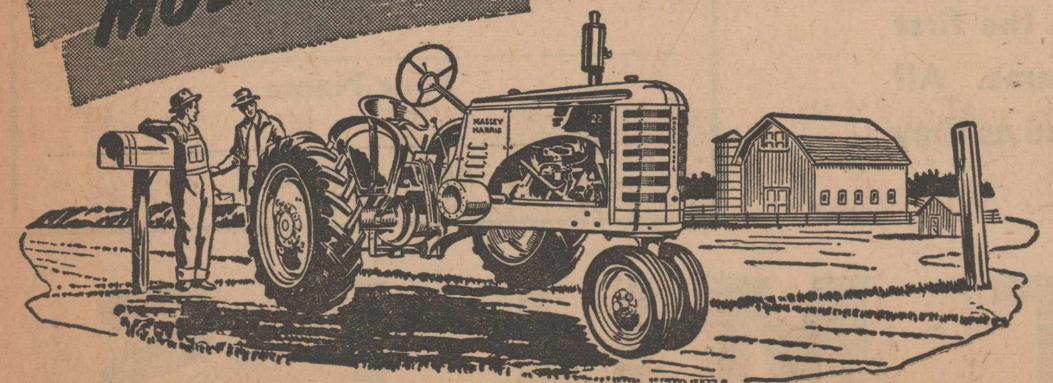

Model "44"—3-pow power, 260 cubic inch, 4 cylinder engine, 5 speeds forward

Model "44.5"—3-pow power, 226 cubic inch, 6-cylinder engine, 5 speeds forward

and the new 2-PLOW MODEL "22"

Here's that extra power you need to make those stubborn 2-pow jobs say "uncle." It's the new Massey-Harris Model "22" . . . with a bigger, huskier, 4 cylinder engine, smooth, quick-acting brakes, new grille styling . . . more power, more economy, more top notch field performance. Plus . . . a new hydraulic control—Depth-o-matic System that holds implements to their work regardless of field conditions. Come in and get the facts.

Kiwanis NOTES

In reciprocity the Wellington Kiwanis Club rendered to the Hollis Kiwanis Club a program, and I think, how to enjoy the fellowship that the club was originated for.

When we first arrived the Hollis group were not exactly enjoying the fellowship that our club enjoys, but when we left they had learned, through the tactics of President Jack and the program rendered by Bennie Karnes and his entertainers, consisting of Tanya Smith and Alice Lowrie, that put on a dance as they sang; Patsy Smith rendered a vocal articulation of "Stormy Weather;" Eleanor King gave a reading "Not Aunties' Fault;" Billy Jack Gibson, reading "Johnny Reads News;" Benny Karnes, piano solo "Ain't Misbehavin'" and "Dizzy Fingers." Then Tanya Smith enacted "Evening Grace." You should have been there, it was a depiction of our splendid local talent.

Hogs suffer a mortality rate of 33 percent (wait a minute I have the wrong notes).

Now, due to Lefty Thomas' persistent work he finally got that visual aid equipment that he has been working for for a long time (and it's paid for).

Oh me . . . Oh my . . . here we go again trying to cultivate the whiskers that the most of us hate to have to shave off. Reason: Rodeo . . . August 16, 17, 18 . . . Old Settlers Reunion, 19.

It is a sad situation that J. B. Stevenson became a new member under the circumstances. He is taking the place of Dan McCaskill and I know that he is going to be a great help to our club. We miss Dan, we are deeply grateful, though, that we have J. B. to take his place. Ed Miller and "Goat Hopper" also came and accepted their emblems as new members. There is one other member, especially, that I hope will accept an invitation to "join up" . . . namely Raymond Horton. Then we will have a monopoly on the clowns of Wellington.

Last but not least . . . THANKS Benny Karnes and your group for splendid programs at Hollis, Tuesday and Wellington on Friday. You and your group have a standing invitation to attend our meetings. Again thanks for the fine entertainment.

Norwood Meeting on Saturday Vote Planned

A meeting to discuss the proposed school tax change, and to answer any questions pertaining to it, will be held at the Samnorwood School Friday night, July 29, Orville Cunningham, superintendent, has announced.

B. W. Beaird, county superintendent will be the speaker.

Everyone in the county is invited to attend, and those of the Samnorwood district are urged to be present.

Mr. Cunningham made the following statement concerning the election, to be held Saturday, July 30:

I have asked to many of the voters of the County, and find that there will be little opposition to the tax rate among those who fully understand what it means to the individual school and to the State Standard of education.

The right to vote and the policies of self government have not changed any from the system that we have all followed, in the past for raising money for school purposes. There were two systems, the one that could run without State Assistance (State Aid) the other, Equalization Aid School. The requirement for receiving aid from the State Fund was that the school meet teaching requirement and have a fifty cent tax to go into the State General Fund. Under this system the State did not know how much money the tax would net each year for such items as delinquent taxes and others were not figured in. The Gilmer-Aikin plans puts the financing on a businesslike manner letting each district know the exact amount of money that its district will have to pay to be eligible to receive State Assistance or State Aid.

The requirements are greater in every way than they were before

the over all purpose is to raise the educational standards in Texas. Texas is classified by some as being as high as tenth in the nation and by some as being as low as twenty-eighth. I guess it depends a lot on who is doing the classifying, but we all have recognized that a change upward has been necessary.

Every school in Texas should take the advantage of the opportunity to put in one dollar and receive from five to six dollars in return from the State.

Between now and Saturday see your superintendent, your county superintendent or your board members and discuss with them if you are not clear on the proposed tax raise. It is not mandatory that you pass your tax raise and the State will not ask that you vote again for they are spending more for education and expect those who have a school to do the same.

Norwood School District Biggest

Since the organization of the Samnorwood and Quail school districts the two have held the distinction of being the two largest in the United States.

First Samnorwood was largest, then Quail added some land and took the honor.

Another school district was added to Samnorwood recently, and again it is the largest in the U. S., with 310 3-4 square miles. Quail has 292 square miles. This increase to Norwood came when the county school board added the Enterprise district under the dominant district provisions of the Gilmer-Aikin bill.

From the standpoint of scholastics, however, Quail is still larger, with 573 students to Samnorwood's 382.

All this has provided more fuel for the brotherly feud, underway in a friendly fashion for three years between the superintendents of the two districts, Noah Cunningham of Quail and Orville Cunningham of Samnorwood.

Scott FARMALL TRACTORS INTERNATIONAL TRUCKS
TRUCK & TRACTOR Co.
Wellington, Texas

One only 5-foot International 52R combine on hand. Somebody with a little foresight will pay for this machine this Fall in the extra grain it will get for him—grain a less efficient machine might waste.

● George Lewis brought his Farmall H to the shop the other day to have the power lift overhauled. That's a job that ought never to be tackled by any mechanic without factory information and access to every part, large or small, that may be needed. Even a good mechanic, without the right information and experience on these lifts, is likely to foul one up. Same thing applies, to a considerable extent, to the whole tractor. There are lots of good independent mechanics around here—but the one who can do you the best job on your Farmall is the one who works on Farmalls, with factory specifications and information, all the time. If I didn't believe Roy Owens, who supervises all work in our shop, was the best Farmall mechanic in the country, I'd get the man who was, no matter what it cost. And what's the use of taking anything but the best service when you pay your money to have work done on your Farmall?

● Boy, have we got a feed crop coming on! It sure looks good right now. You fellows with binders—look your machine over and tell us what you're going to need to fix it up. If we haven't got it in stock—which we probably have—we'll get it for you. Some of this stuff is going to be ready almost before you know it.

● Bill McClaskey was in last week to buy some chisel beams to make a chisel plow out of the tool-bar on his tractor (why should I advertise Paul Starr's business?) For about fifty bucks he's fixed up to do as good a job chiseling as he could do with a \$500 chisel plow.

15-30 TRACTOR: Wheatland type, good tires. Motor in good condition; clutch just overhauled. Here's the cheapest power you'll ever buy. Look this over instead of hiring your chiseling or deep plowing done. You can buy it, do your plowing, have the tractor and some money left. When Horace reads this, he'll want it back.

● If somebody don't buy one of these fireproof safes we've got on the floor pretty soon, I'm going to lose faith in humanity. Just wait until your wife cleans out that closet where you've got those valuable papers stuck away; or those bureau drawers, kitchen cabinets, old vases and cigar boxes where you've been tossing your cancelled checks, expense records, abstracts, tax receipts and home-brew recipes. And you get to trying to explain to one of Uncle Sam's infernal revenue men where your money went. Then I'll have the last laugh, and it won't be funny to you or me either.

F-12 FARMALL TRACTOR: We took it right out of the field; it's ready to go back and do a good job as an extra tractor for somebody else. Tires are good. Motor is good. Equipment good for thousands more acres. Get it into the field now, save a couple of days hoeing with a moderate-sized crew, and the tractor's paid for.

EDITORIAL COMMENT — THE WELLINGTON LEADER

Thursday, July 28, 1949

Go Out and Vote Saturday

Saturday, July 30, Collingsworth County resident taxpayers will vote on increasing the school tax rate to a uniform \$1.50 per \$100 valuation. This would be 25 cents or 50 cents above the present rate, depending on the school district you live in.

This increase is necessary if the Collingsworth County schools are to participate in the new Gilmer-Aikin school program.

Very little, if any, opposition has been voiced to this tax increase, either here or in other counties where this step will be necessary.

Practically speaking, Collingsworth County tax payers have no alternative. The Gilmer-Aikin bill was passed to help raise the standards of the schools of the state, but those same schools must fill certain obligations to receive the aid. Actually, a school district can vote down the tax increase, and do it without affecting any other district. This, however puts almost the entire burden of financing the school on the district's taxpayers, and that doesn't make sense under today's public school set-up.

County school men have made every effort to tell the public in clear, understandable language why the increase is necessary, and by now the whole matter should be understood. It is the earnest desire of these administrators that the public shall vote yes with full understanding of why it is doing so.

There is one other point. Go out and vote Saturday if you are a resident property owning tax-payer and if your property has been rendered for taxes. Express your opinion, too, although you may feel that the issue is already decided. And when the tax is voted, as it is expected to be, exercise your right as a tax payer to see that this money is spent in the very best way possible for the Collingsworth County schools.

Keeping Up With Science

This is the post war world that was supposed to be rife with circular-shaped automobiles, helicopter-delivered groceries and glass houses in which people could throw stones. Depending upon just how long the post war world can hold out, those specialties might still enfold from phantasy into facts.

But in the meantime science, having discovered just what it could do, and having taken over the major portion of man's 24 hours a day anyhow, is not going to sit still and twiddle his mechanical thumbs.

While it works on the big things, the off shoots stumble into being and make man's living much easier.

Look how far it comes: No longer does the wife need worry about the morning chore of scraping the toast, not with science and the pop-up toaster. And husband-turned-yardman can follow along blithely in the path of a mechanical mower which expends horsepower instead of sweat-of-the-brow. Thanks to science you can lessen a case of the measles, prevent typhoid and live for years with diabetes.

Science moved into agriculture, industry, medicine and transportation to lift man's material load.

Still going strong they are working out anti-seasickness specifics so people can enjoy modern transportation; a coating for tanks, pipes and equipment

Buy At Home First

In a few more weeks Mr. and Mrs. Collingsworth County, their son and daughter are going to start thinking about fall buying. Some of it will be clothes, some furniture, also some farm machinery, plumbing, drug staples and luxury items.

And it's funny how many are going to start thinking about where to buy them. Maybe a hundred miles away, maybe three hundred. "You can save money, you know."

But can you? Of course, you can't know until you look at home, but an examination of the shelves of any merchant in town is going to reveal prices in Wellington in line with those anywhere else in the country. The few cents you might save by going out of town is more than made up for in the expense of the trip ninety-nine times out of a hundred. That has been said a good many times before and it bears repeating. Then there's been some bargains in Wellington stores lately that even the city stores don't surpass.

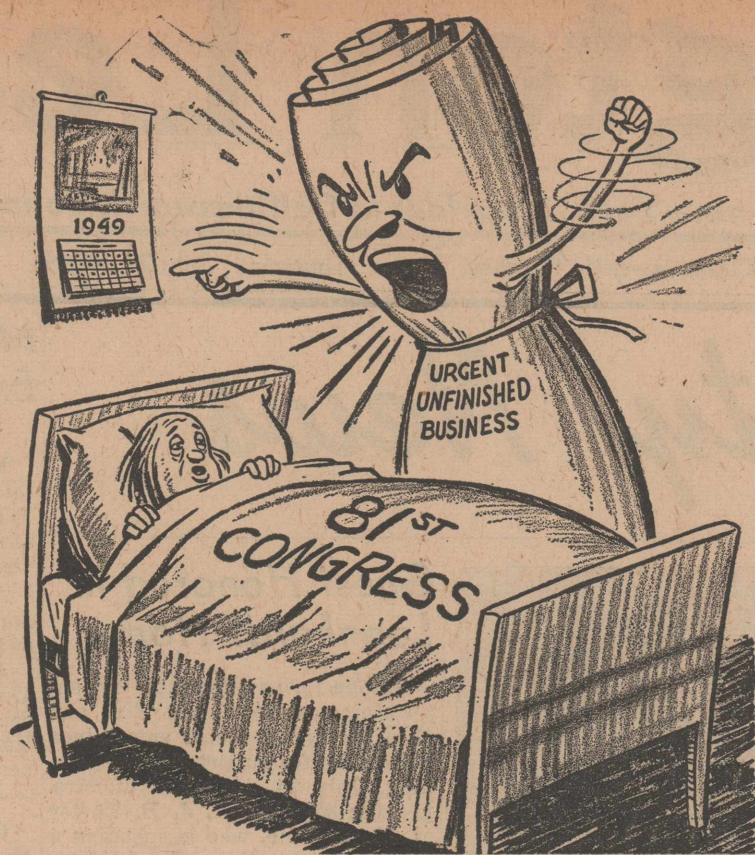

Wellington merchants are alert, and more and more fine merchandise is coming into town with each season. This is the merchandise that you would buy if you went somewhere else to shop.

Whether you are buying a dram of perfume that a slick paper magazine calls a "rare essence" or a tractor or a lineoleum or duck to make a cotton sack, your best chances are at home.

Forty years ago, when The Wellington Leader was but a few weeks old, Editor Thomas Durham, now of Clovis, N. M., wrote, inquiring who it was that sat up with you when you were sick, who helped build sidewalks and who helped raise money for your church? Was it the mail order houses and the big city stores, or was it your home town merchants?

Mr. Durham's thoughts have much meat on which to chew in 1949.

Time's a-Wasting

The Buck Creek Philosopher

Editor's notes The Buck Creek Philosopher on his Johnson grass farm on Buck Creek is amazed that anybody needs an expert to let him know when a depression is on, he says in the following letter this week.

Dear Editor:

Most of the time I don't have much trouble understanding what I read in the newspapers that turn up out here on Buck Creek, especially yours, and ordinarily even the Amarillo News ain't exactly what you'd call beyond comprehension, but the other afternoon while I was looking over a paper which I brought along with me as I figured it would be handy to clean out my skillet with I noticed another article on the argument over whether we're in a depression or not.

As I understand it, the experts can't make up their minds whether we're in a depression, and the arguments have gotten so mixed up, even President Truman came out with a statement sayin we aren't in one, adding: "If we were in a depression, I would be the first person to tell you."

I guess times is changin and things don't mean what they used to, but up to now I ain't never had to depend on the President of the United States to let me know whether I was in a depression. Always managed to figure it out for myself. I don't know what kind of depressions the experts are devisin now, but up to the present it was about as hard to tell if you was in a depression as it was to know if you was hungry, and to require the President of the United States to get on the radio and let us in on whether we was in one or not would be about like him tellin a Eskimo there was snow on the ground, or a man with a naggin wife that he was married.

I guess the country's gettin soft. Why even as late as 1932, it was the hardest thing on earth to find a man who didn't know whether he was in a depression or not. Didn't none of em live out here and I don't think none of em lived in Wellington.

Personally, I don't care what the experts say, we ain't in a depres-

sion. Any time I can still find a store left that'll sell me bacon on credit, times is boom, and as far as I'm concerned the experts have about run out of something to argue about. Now it may be true we're headin for a depression, as it's been my observation that most boom times was followed by a depression, but we ain't got there yet and when we do it won't take the President of the United States to let us in on it. I suggest the President take up his time worryin with Congress and the atomic bomb and leave me in charge of discoverin when we're in the middle of a depression.

Yours faithfully,
J. A.

BIBLE COMMENT
FOR JULY 31Psalmist Sings
Of Glory of God
And Dignity of Man

When the Hebrew poet looked into the heart of man he saw both good and evil. He saw in man an image of God that man had marred and defiled. But he saw in the heart of God only the reality of that pure and undefiled goodness of which man at his highest and best, and in his noblest aspirations, bore the marks.

He linked man with God—man in his weakness and sin and need, with God, the Perfect Being, perfect in truth and righteousness, in holiness and beauty.

This note of confidence in God is the deepest and strongest note in the Psalms. It reaches great heights and deep intensities in Psalm 46:

"God is our refuge and strength, a very present help in trouble. Therefore will not we fear, though the earth be removed, and though the mountains be carried into the midst of the sea."

To get the real significance of those words, and some sense of the depth of their faith and trust in God, one must realize the situation of the Psalmist who wrote them. He was not living in a safe community, but in a little land in the midst of great, ancient warring empires. The constant danger and threat were similar to those that peoples and nations have experienced within the last few years, and which, in a sense, overhang the world in an atomic age.

But the Psalmist was not lacking in moral and spiritual power. His expression of boundless faith in God, no matter what might happen, was not a figure of speech, or a matter of words, but the profound conviction of a realist.

What a faith to have! How can we get it? To know Him, I think, is to live with Him in the pages of the New Testament, until He becomes as real to us as He was to Paul.

"El Paso" Tells Story of Texas Era of Turbulence

A film that promises to be absolutely tops in Western entertainment, combining all the known and loved ingredients of the action thriller with some sweepingly bold innovations, is headed for the Ritz Theatre. Due Prevue Saturday night, Sunday, Monday and Tuesday, it is Paramount's Cinecolor adventure-romance, "El Paso," co-starring John Payne, Gail Russell, Sterling Hayden, George "Gabby" Hayes and Dick Foran and an excellent supporting cast headed by Eduardo Noriega, handsome Mexican film favorite in his American debut, Henry Hull, Mary Beth Hughes, H. B. Warner and Bobby Ellis.

Directed by Lewis R. Foster, who is also credited with authoring its brilliant screen play, "El Paso" is set in the 1860s when the lawless sinton defied every rule of decency and honor, gaining for itself a title it took decades to live down — "the coffin corner" of Texas. Then, El Paso knew only the code of the cut-throat. Clench-fisted, double-barreled mob rule was the order of the day and it transacted the town's most lucrative business — land-grabbing from victimized townsmen. When one principled lawyer takes it upon himself to match lawlessness with lawlessness and murder with murder, it becomes the storm center of the entire Southwest.

Versatile John Payne portrays the lawyer, an ex-soldier from the Confederacy, whose affairs of business and heart turn him from an Eastern gentleman into a Western renegade, once he gets the spirit of El Paso in his blood. It is Payne's first outdoor action picture. His romantic partner, Gail Russell, will be seen as a beautiful aristocrat from Charleston, torn between a staunch devotion to her father, the mob's alcoholic "hanging judge" and her romantic interest in Payne, which is challenged by Sterling Hayden, the grasping land baron and self-declared boss of El Paso.

Their thrill story is set against the sweeping panorama of the early Texas scene where mesquite-filled prairies, craggy mountains and the snakey Rio Grande all converge in magnificence upon the one town which became a blot upon the nation's history. All the strife, the conflict and excitement which made El Paso the borderland hotbed that

SAMNORWOOD

By MRS. C. W. FRITTS

Crops out here are pretty, but need rain. The hot winds this week has hurt crops.

Everybody is chopping cotton, fields are especially weedy; hands are scarce. Even the grandmothers are chopping a few hours a day—some 10 hours.

Early gardens are burned up, and the late ones need rain.

Grasshoppers are damaging crops in some parts of this vicinity. Some farmers are using poison.

We regret the unexpected death of Mrs. Fred Massey. She and her family, the Groves, as well as the Massey family, were early settlers of the Dozier vicinity.

Mr. and Mrs. Jay Griffin and daughters of Spade visited the lady's parents, Mr. and Mrs. S. J. Carrell, Tuesday. The Carrells returned home with them for a visit until Sunday.

Mrs. Tipps is post mistress during Mrs. Carrell's visit.

Marvin Bockman of McLean visited his brothers, Henry and Elmer and families, and his sister and family, Mr. and Mrs. Walter Bradley and other relatives here recently.

Commissioner Cortez Barnett is doing some good road work on a muddy strip of road west of the Orville Cunningham farm, better known as the Alec Coleman, and still known as A. J. Bradley farm west of Norwood.

Mrs. Joe Stanley east of Norwood has been quite ill recently in the Shamrock hospital. She suffered a severe heart attack. She was returned to her home here the first of the week. All of her children from distant points have been at her bedside. Her daughter and family, Mr. and Mrs. Marshall Starnes and daughter and children

Mr. Arthur Neece from Chula Vista, Calif., spent last week end visiting B. A. Neece and family.

Mrs. Lockwood of Amarillo visited her daughter, Mrs. Wood Coleman, and family last week. The Colemans took her home and spent the week end visiting in that city.

Mr. and Mrs. Albert Montgomery and Mrs. Montgomery's sister, Miss Delia Westfall, of Amarillo visited Mr. and Mrs. Roy Huffman and children last week end. Mrs. Huffman is Mr. Montgomery's daughter. Little Milly Ann returned with her grandparents for a week's visit.

Ray Clark of Amarillo spent the week end with home folks.

Miss Effie Rankin visited in the Quanah the last of the week.

Mrs. Polk Hooten, her daughter, Judy, and son, Jimmy, are in Arvin, Calif., at the bedside of her mother, Mrs. Cunningham, who is seriously ill.

Mrs. Fred Massey received treatment in St. Joseph's Hospital the last of the week.

of Kansas City, Kan., are still with her.

Mrs. Henry Marchant suffered a severe heart attack at her home north of Norwood last week. She has been under medical care several months.

Cotton choppers are scarce in here. Several Mexican crews from south Texas are in here.

Hick Morrow has a crew of 13 choppers from Del Rio. They have worked for him and others here three years.

Mr. and Mrs. Albert Montgomery and Miss Delia Westfall of Amarillo were at Dozier Friday for the funeral of Mrs. Fred Massey.

Mrs. Mabel Pullen and children of Denver, Colo., are visiting her mother and other relatives.

A large crowd of Norwood people attended the funeral of Mrs. Fred Massey at Dozier Church of Christ Friday.

Many old friends and relatives from out of the county and state attended this funeral.

I think a sweet service of respect was shown her by her 5 brothers and a cousin serving as pall bearers. Her nieces were flower girls. Her brothers were Claud Groves of Shamrock, Homer and George of Stephenville, George Groves of East Texas, and John of Norwood. The cousin was Virgil Groves of Stinnett.

Mrs. Alex Coleman received treatment at St. Joseph's Hospital for a badly burned arm she got while canning corn.

Mr. and Mrs. Edd Brown re-

turned from their wedding trip last Thursday which took them to Niagara Falls, into Canada, to Detroit and many places of interest. Mr. Brown stated that the weather

man contributed his bit to make their trip pleasant by sending cool refreshing showers along their way while traveling and sunshine on the days they were sightseeing.

Dukes Take Mangum Paducah in Stride

By J. M. STRONG

The Dukes of Wellington took Paducah and Mangum in their stride in two games played here Thursday and Sunday. The first ended 8 to 7 for the Dukes and the second 5 to 1.

The Paducah team came here for an exhibition game Thursday that proved to be one of the most interesting from a Duke standpoint that has been played on the local diamond this season.

The Dukes were trying out a new moundsman, Bobby Everett of Hedley, who got by the Paducah batsmen for two innings, but in the third they hopped on his offerings for four hits and four runs. Two of the hits were home runs over the center field fence.

The Dukes scored one in the half of the third and one in the fourth; Paducah scored two in the eighth, making the score 7 to 4 for the visitors.

The Dukes then pulled their favorite act of coming from behind and pulled the game out of the fire with four scores in the bottom of the 9th. Barton led off with a two-base hit; Cole got a free ticket with a base on balls; McDonald, who had relieved Everett in the 4th, singled to score Barton; Francis went out second to first; Thompson was safe on an error by the shortstop, with Cole scoring; Jones flied out to center field; Eldridge got a base on balls; and Lew Morris delivered in the pinch with a two-base hit past third to score McDonald and Thompson and win the game, 8 to 7.

Bobby Everett, who started for the Dukes is a youngster and has much promise for a good pitching career.

The Dukes clipped Mangum Sunday afternoon 5 to 1, when Jess Upton, who was pitching his first League game for the Dukes, held the visitors to six scattered hits, while the Dukes were pounding Deaver for 12 hits and 5 runs.

The one run of Mangum was unearned, as Knight, right fielder, singled and stole second, Morris' narrow got away from Henrich and Knight went to third and scored on Dial's single. Riddled singled through the box, and another single sent Dial to third. Plew, in attempting to squeeze Dial home, popped to Upton, who doubled Dial off third, ending the fifth inning

and Mangum's scoring for the day.

The Dukes scored their first run in the third, Upton flied out to left field; Thompson doubled; Francis was out third to first; Thompson going to third on the play; Jones was safe on an error by the shortstop; Eldridge singled with Thompson scoring; and Morris forced Jones at second on fielders choice. The Dukes scored again in the fourth when Strong singled, and went to second as Barton sacrificed first to pitcher. Henrich was on a fielders choice, Strong went to third, then Strong scored after the catch of Upton's long fly to center. Thompson then fouled out to catcher.

The Dukes came back again in the sixth for two runs. Strong struck out, Barton singled, Henrich doubled, scoring Barton. Upton was safe on fielders choice as Henrich was safe at third. Then Henrich scored on a passed ball; Thompson singled and Francis was out pitcher to first to end the sixth.

The Dukes scored once more in the seventh when Windy Eldridge hit a long home run over the United Super Market Sign in left center.

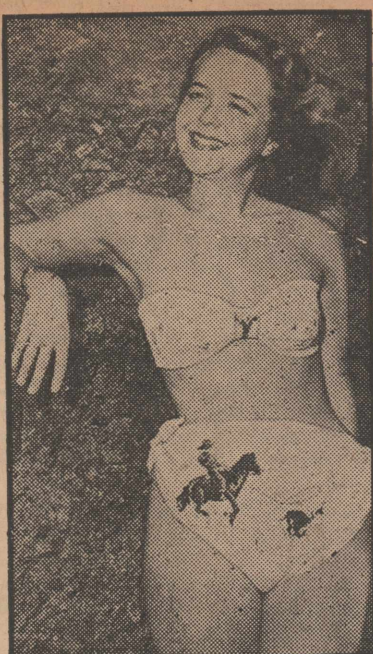

The pitching of Upton and hitting of Thompson, Eldridge and Barton were features of this game.
