The SDN Column

The Highway Beautification Act which went into effect on June 29 puts the responsibility for regulating billboards and highway signs on the shoulders of the Texas Highway Dept.

Controls are effective on all interstate and primary highway systems, which means that all federal highways are involved. Here, U.S. 84 and U.S. 180 come under the regulations.

The Highway Beautification Act provides that only certain signs may be erected or maintained within 660 feet of the nearest edge of the right-of-way and visible from the main traveled portion of such highways.

Cities are permitted to regulate signs on highways within their corporate boundaries, but they are not required to do so. They may delegate this responsibility to the highway department if they so desire.

The question has not yet reached local city officials for a decision, but it appears likely that many cities will be happy to let the highway department regulate the whole thing, since that agency is required to do it outside of cities.

J. Lawrence Deavers of Snyder, who has been writing gospel songs for a number of years, is in the process of publishing a collection of his own songs. Included will be songs composed from the late 1920's to 1972.

We will have more on this when the book comes off the press. It is titled "Heavenly Carols."

The 1920's produced the first real upsurge in this type of music, which was popularized by the late Virgil O. Stamps and associates. It is rising in popularity again. Having been reared within a few miles of the Stamps home, this writer recalls an era when the Stamps-Baxter Music Co. songbooks could hardly get off the presses fast enough to accommodate demands.

★ ★ ★

Toby Harrah, the rifle-armed shortstop who may be the most popular member of the Texas Rangers American League Baseball Team so far as the fans are concerned, is an athlete who overcame a physical handicap to reach the major leagues.

Harrah was born with two kneecaps in his right knee. He had it corrected with surgery. He admits that his defensive play is weakened somewhat because of the surgery, but it is getting stronger all the time and he believes in time he will be able to move to this right much better. At present, he makes up for this weakness with his strong throwing arm, which is rated as one of the best in the league.

Today In History

By THE ASSOCIATED PRESS

Today is Sunday, July 16, the 198th day of 1972. There are 168 days left in the year.

Today's highlight in history

On this date in 1945, the first atomic bomb was exploded over the desert in New Mexico. It was the beginning of the atomic age.

On this date:

In 1790, the District of Columbia was established as the seat of the U.S. Government.

In 1862, David Glasgow Farragut became the first admiral in the U.S. Navy.

In 1882, the widow of President Abraham Lincoln, Mary Todd Lincoln, died in Springfield, Ill.

In 1918, Russia's Czar Nicholas II, his empress and their five children were executed by the Bosheviks.

In 1951, King Leopold III of Belgium abdicated and was succeeded on the throne by his son Baudouin.

In 1957, Marine Maj. John Glenn Jr., established a transcontinental speed record when he flew a jet plane from California to New York in 3¼ hours, 23 minutes, 8 seconds.

Ten years ago: A coroner in Northern Rhodesia handed down a verdict that the death of U.N. Secretary-General Dag Hammarskjold in a plane crash was accidental.

Five years ago: Twenty-four deaths were counted in rioting in Newark, N.J.

One year ago: Chinese officials in Peking expressed pleasure over the announced visit of President Nixon to Communist China.

McGovern Sees Uphill Battle

By JIM ADAMS
Associated Press Writer

WASHINGTON (AP) — Democratic presidential candidate George S. McGovern has tried out the President's landing strip at Andrews Air Force Base and says he likes it.

"We've got to get used to that," McGovern said, stepping off his chartered jet Friday night.

But he said he knows he has a long way to go before he will be using the two presidential jets parked near his aircraft.

"We're not under any illusions that the battle is won," he said. "We know it's an uphill effort.

"But I have much the same feeling I had in New Hampshire at the beginning of the year—it's an uphill effort but I think we're going to go over the top."

Meanwhile, McGovern's running mate, Sen. Thomas Eagleton was welcomed back to his home state by 400 cheering supporters at Kansas City Municipal Airport Friday night.

After the flight in from Miami Beach, the 42-year-old senator said he felt somewhere "between euphoria and terribly tired."

He plans to fly to Washington immediately after a speaking engagement before the National Audio-Visual Association at Kansas City today.

McGovern brought a sizable portion of the Washington press corps and the District of Columbia delegation home with him Friday night from Miami Beach.

He moved up and down the aisle during the flight, obviously in a good mood. "It was a hectic, crazy week," he told one delegate. "But it came out all right."

Before leaving Miami Beach, McGovern spent most of the day in consultations with party leaders and attended a meeting of the Democratic National Committee meeting at which Lawrence F. O'Brien resigned as national chairman.

McGovern announced the new chairman is Mrs. Jean Westwood of West Jordan, Utah, who was a Utah Democratic committeewoman and an ardent McGovern supporter.

McGovern received something of a setback in his choice for party vice chairman. He nominated Pierre Salinger, a campaign adviser and former White House press secretary, but blacks on the committee nominated Basil Paterson of New York, a black former state senator.

An awkward moment followed, and Salinger, apparently noting the vigorous applause for Paterson, withdrew from contention, saying, "I think I sense the feeling of this committee." Paterson was elected.

Typhoon Hits Japan

TOKYO (AP) — Typhoon Phyllis struck Nagoya in central Japan Saturday night but rapidly weakened to a tropical storm.

The Central Meteorological Agency said Phyllis, with maximum center winds of 56 miles an hour, was moving north-northwest. Its maximum winds were 78 miles an hour when it approached Japan's Pacific coast.

The agency warned, however, that the storm is accompanied by heavy rains which could trigger more floods and landslides in the region, already hit badly by heavy downpours since July 4.

Phyllis is expected to cross central Honshu and move into the Japan Sea early Sunday.

At least 354 persons have died in floods and landslides in western Japan since the beginning of the month, according to police. They said 82 persons still are missing and 117 others were injured.

US Bombers Strike Quang Tri Area

SAIGON (AP) — U.S. B52 bombers killed nearly 300 North Vietnamese troops and smashed their equipment in massive strikes on two sides of Quang Tri City, the U.S. Command announced today.

The bombers flew more than 100 strikes across South Vietnam from noon Friday until noon today, unleashing more than 2,500 tons of explosives on North Vietnamese troop concentrations in all four military regions of South Vietnam.

Two-thirds of the strikes were concentrated in the northernmost sector that includes Quang Tri and Thua Thien provinces, South Vietnam's two northernmost provinces below the demilitarized zone. Most of the B52 raids were in support of a 20,000-man South Vietnamese counteroffensive in Quang Tri Province, which fell to the North Vietnamese May 1.

The command said that South Vietnamese paratroopers searching one area eight miles south of Quang Tri City, where the B52s had hit, found 60 destroyed North Vietnamese bunkers containing approximately 250 enemy dead and their equipment. The B52s also destroyed two 37mm antiaircraft guns, one 85mm gun and two trucks in the same target area, the command said.

Two miles to the northeast of Quang Tri City, South Vietnamese marines probing another area hit by B52 bombers found six graves that contained the bodies of 48 North Vietnamese, the command said.

Meanwhile, military sources said that a South Vietnamese paratrooper battalion had moved to within 700 yards east of the Quang Tri Citadel. They said this was the closest unit to the city limits. On Friday, South Vietnamese paratroopers reported engaging the enemy 500 yards from the city limits.

The U.S. 7th Fleet announced that attack planes of the carrier America had joined the battle for Quang Tri City. The carrier recently returned to the war zone for its third tour.

Field reports said 150 North Vietnamese troops were killed in fighting on the edges of Quang Tri City on Friday, while South Vietnamese forces suffered 20 men killed and 50 wounded.

Thirty miles to the south of the northern counteroffensive, more fighting was reported on the western flanks of Hue and the old imperial capital was shelled again.

North Vietnamese gunners poured 1,300 rounds of shells into a hilltop outpost called Checkmate on the western flanks of Hue, then assaulted the position, which has changed hands four times in the last two weeks.

Tho Back In Paris

PARIS (AP) — Hanoi Politburo member Le Duc Tho returned to Paris today and said he is prepared to hold new secret talks with Dr. Henry Kissinger if Kissinger has "something new" to discuss.

Tho, returning from Hanoi by way of Peking and Moscow after an absence of about two months, spoke briefly with newsmen at Le Bourget Airport.

Tho has held a series of private talks with Kissinger in the past. He was asked if he is ready to meet with President Nixon's national security advisor again.

He replied: "If Mr. Kissinger has something new to say and shows an interest in seeing me, I am ready to see him to discuss a correct solution to the Vietnam problem."

Pressed by newsmen as to whether there have been any developments on the Vietnam question, Tho told them to "wait several days."

Tho said he had no other statements to make beyond what was said earlier this week by Xuan Thuy, head of the North Vietnamese delegation to the peace talks. Thuy has reiterated that the Communist seven-point plan is the "correct basis" for settlement of the conflict. The plan calls for the United States to announce a total troop withdrawal date, the immediate resignation of South Vietnamese President Nguyen Van Thieu and the setting up of a coalition government in Saigon.

The semipublic plenary sessions of the Vietnam peace talks resumed Thursday after a 10-week break and will continue next Thursday. The Communists have always insisted that the plenary sessions must go on before any secret talks can be held. Tho and Kissinger met for the last time May 2 in Paris, with no apparent results.

Rodeo Season To Open Wednesday In Snyder

The rodeo season moves into Snyder again Wednesday for a four-day run at the arena west of town.

This will be the first rodeo here under International Rodeo Association auspices and it is expected to attract some of the world's top performers.

The festivities will get underway at 4:30 p.m. Wednesday when the annual Rodeo Parade will be held in Snyder. The first performance will follow at 8:30 p.m. and the succeeding performances will be at the same hour each night through Saturday.

Major rodeo events each evening will include bareback bronc riding, calf roping, steer wrestling, saddle bronc riding, bull riding and barrel racing. An added attraction this year will be a Pony Express race.

There will be a dance each night following the rodeo performance, with music provided by Hoyle Nix and his West Texas Cowboys.

JIM MILLER

Back for his fifth year in a row as announcer for the Scurry County Rodeo will be Jim Miller of Rapid City, S.D. He is one of the best-known rodeo announcers in the country and each year takes time off from his real estate brokerage office in Rapid City to handle microphone duties at top rodeos across the country. Miller also operates an auctioneering academy in the Black Hills.

"I enjoy every minute of my travels because of the fine people I meet and the wonderful friends that I have made throughout the years," said Miller. Some of his rodeos have had him return for over 10 years. This month alone he will travel some 10,000 miles and announce seven major rodeos.

Stock producer for the Scurry County Rodeo again will be Sloan Williams of Hungerford, who has furnished the stock here for several years.

Course In Reading Set

A popular reading course will be offered again this summer for elementary age children in Snyder.

The program will begin Monday and continue through Aug. 11 at the West Elelmentary School. Classes will be held daily from 8:30 a.m. to 10:30 a.m.

The program is not for non-readers, it was emphasized. Its purpose is to encourage independent reading, stimulate interest in the reading process, improve reading skills and increase the usable vocabulary of the child.

It would be helpful, but not essential to children who already have developed independent attitudes for reading materials that are of interest to them.

Fee for the course is $13.90 which includes the costs of materials used by the student.

WTC Registration Slated Monday

Western Texas College will register students Monday morning for its second summer term.

Offerings will include some basic academic courses, plus a physical education activity course in golf. The academic courses will include English, history, government and college reading.

Registration will begin at 8 a.m. Tuition cost is $10 per semester hour for residents of Scurry County and $12 per semester hour for out-of-county residents. The minimum charge is $25.

Texas Housing Less Segregated

AUSTIN, Tex. (AP) — Texas neighborhoods became less segregated in the 1960s, but urban blacks and whites remain largely separated, nevertheless, two University of Texas population researchers said Saturday.

The study by Dr. Dudley Poston, associate director of the UT Population Research Center, and research associate Dudley Passel, was issued by the UT Bureau of Business Research.

Looking at 18 cities for which "indexes of residential segregation" were available in 1960, Poston and Passel said:

"In each of these 18 Texas cities, racial residential segregation has declined from its 1960 level. El Paso's decrease is greater than 18 percentage points; Abilene's is almost 13 and Odessa decreased by more than 10 percentage points."

They also compared census data for 1970 with figures of 1940 for nine cities—Austin, Beaumont, Dallas, Fort Worth, Galveston, Houston, Port Arthur, San Antonio and Waco. These cities showed increases in segregated housing from 1940 to 1960, but the trend had reversed by 1970.

"In each of these nine Texas cities, racial segregation has declined from its 1960 level. Austin and San Antonio have decreased by over 8 percentage points, Galveston by more than 3 and the other cities by more than 1.5 points. Together, these cities have declined by an average of 4.2 points," the researchers said.

Austin is back at its 1940 level of segregation, and Galveston, Houston, Port Arthur and San Antonio have returned to 1960 levels, they reported.

"It is our belief that the segregation patterns reported for the Texas cities in 1970 reflect in a very real sense not only the changes in housing opportunities for blacks (one of many gains of the civil rights movement), but also, more importantly, the general socioeconomic gains of the black population. These declines in racial segregation may very well reflect some very important structural and institutional changes in the fabric of the society," the report said.

"To interpret the above comments as reflecting anything more than a minor degree of optimism, however, would be a mistake. Segregation still exists at a significantly high level in Texas cities."

They said that, on the average, 89.8 per cent of blacks—or whites—would have to move from blocks where they are over-represented to those where they are under-represented to completely eliminate segregated housing patterns.

Housing is just as segregated in cities where blacks make up less than 6 per cent of the population, such as Abilene, Amarillo, Corpus Christi, El Paso, Odessa and San Angelo, as in cities with more than 24 per cent black population—Beaumont, Galveston and Port Arthur, the study showed.

Wilt Disease Hits Mimosa Trees Here

The local County Extension Agents, Ruby Butts, County Home Demonstration and Billy Roach, County Agricultural Agent have been sending samples and investigating the cause of mimosa trees dying in the Snyder area.

Dr. Robert Berry, Plant Pathologist with the Extension Service in Lubbock, was in Snyder Tuesday and checked several of the affected trees. According to Dr. Berry, the mimosa trees are infected with a wilt disease which has caused the death of many trees, not only in Snyder, but in other areas where the disease has hit.

The wilt organism affects trees by destroying the water and nutrient conducting cells under the bark. The decaying of these cells causes the bark to turn loose from the tree and when the area encircles the tree, death of the tree will result. How the disease spreads is not known for sure. The disease does produces spores and probably these spores are transferred by wind and insects.

Trees in poor growing condition or trees damaged by insects would be more susceptible to the disease organism.

At present there is no chemical spray or control for the disease and, according to the specialist, there will probably be a continued decline in the mimosa tree population in the Snyder area.

For new landscaping or replacing of trees, the homeowner is advised to give considerable thought to other species of trees unless he is able to secure mimosa tree varieties which are tolerant or resistant to this wilt disease. There are two varieties known to be resistant or show tolerance to disease. However these seem to be unavailable at the present time.

Trees which have died from this desease should be removed and destroyed. Sprouts may periodically come out of limbs and branches, but these will be short lived as they are receiving their food supply from the tree itself, rather than from soil nutrients.

Homeowners who have healthy mimosa trees should keep em in good vigorous growing condition to help avoid attack from diseases and insects. Spraying the trees will not protect the mimosa tree from being affected by this wilt disease organism.

Judge's lecture to teen guilty of drug charge

By Abigail Van Buren

(© 1972 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: Recently, a 17-year-old Florida boy pleaded guilty to possessing hallucinogenic drugs. He had also been charged with violence toward a Miami Beach police officer.

Judge Alfonso Sepe sentenced the youth to one year in the County Stockade and four years probation. The comments of the Judge so impressed me that I ordered the transcript from the Court Reporter so that I may read it to my own children.

Your column is so widely read I am sending you the "lecture" Judge Sepe gave that boy in the presence of the grieving parents. I hope you will publish it and give it the national forum I think it deserves.

Sincerely,
MRS. A. L. CATES, MIAMI, FLA.

DEAR MRS. CATES: Rarely do I devote an entire column to one letter, but I agree, this is worth it. Here it is:

Judge Sepe spoke directly to the youth and said, "Do you know who is going to serve that year? Not you; your mother and father will serve that year.

"That is what's wrong. THEY get sentenced. They get sentenced for a lifetime.

"You serve a year. Your body is in the stockade for a year, but their souls are tormented for a lifetime. Why? Because you are a selfish, spoiled boy, that's why.

"There is no punishment in the world that I could inflict upon you that could in any way compensate for what you are doing to your mother and father. I have not spent five cents raising you. I didn't know you from Adam. But your mother and father have put their lives, their hearts, their sweat, their money and everything else they have into bringing you up. And now they have to sit in this courtroom and listen to a total stranger who had nothing to do with your upbringing scold you and put you in jail.

"This is at a time when phony kids your age are yelling, 'You adults have your alcohol, we want our drugs; you have polluted our water and our air, you have polluted this and that,' and all the rest of the garbage that comes out of your mouths.

"Meanwhile, you put yourselves above everybody else. I feel sorry for you.

"I want you to think of this for one year, and the reason why I say it:

"If you are sick, a doctor will treat you and he won't be on drugs. The lawyer who represents you won't be high on drugs, and the people in whose custody you'll be won't be on drugs.

"Your astronauts are not on drugs, and your President is not, and your legislators are not.

"And your engineers who build the bridges that you drive across and the tunnels that you drive thru are not on drugs, and those who build the planes that you fly in and the cars that you drive are not.

"Neither are those who build the bathrooms that you stink up with your lousy, rotten drugs.

"None of them have been on drugs, and this is because of people like your mother and father.

"But in the world of the future," Sepe went on, "the same may not be true. Teachers, doctors, lawyers, legislators—products of the new drug-oriented generation—may well be high as kites.

"You won't know whom to send your child to, or whom to trust your life to."

Sepe sighed and closed the case file.

"Let's see what kind of world you leave to your children," he said, "before you talk about the world that we left to ours."

THEY'LL CARRY DEMOCRATS' HOPES — Sen. George S. McGovern with his wife, Eleanor, and Sen. Thomas F. Eagleton with his wife, Barbara Ann, stand before the Democratic National Convention delegates who chose them to try to capture the White House from President Nixon in November. (AP Wirephoto)

Probe Of Kickbacks Not Over Says US Attorneys

By JIM ADAMS
Associated Press Writer

WASHINGTON (AP) — U. S. attorneys have won conviction of the former aide to Texas millionaire congressman James M. Collins in connection with an $18,000 kickback and payroll-juggling scheme, but say the investigation isn't over yet.

However, Collins predicts they'll find that he knew nothing about the kickbacks and payroll manipulations in his office until columnist Jack Anderson began exposing them in March of 1970.

The Dallas Republican Congressman told a news conference that his former aide, George A. Haag, had full charge of the office payroll which was manipulated for the kickbacks and said, "I've never done anything that I knew was an illegal act."

The stocky 33-year-old Haag was found guilty Thursday of all 23 charges of mail fraud and using fraudulent House pay forms for the kickbacks—of which he admitted he'd received some $7,700—and one count of getting an ex-employe to lie to a federal grand jury to cover up the scheme.

Haag's story on the witness stand at the four-day trial in U.S. District Court was that Collins devised the scheme to pay off $13,000 in 1968 campaign bonuses, including a $10,000 bonus for Haag, and to put at least $5,000 into an office slush fund.

U.S. attorney Gene S. Anderson disclosed during the trial that Collins is being questioned by a special federal grand jury in connection with the kickbacks.

Anderson was willing both in and out of court to concede that part of Haag's story about Collins' involvement may have substance.

Maybe they did; maybe they planned it together," Anderson told the jury, "does that make George Haag innocent?"

And he asked the jury: "Are you going to let him say, 'Walk me out of here innocent because the guy behind me is a little fatter, a congressman'?"

Collins told newsmen that the grand jury has not called him for questioning since last September. He said it did not indicate at that time that it was going to indict him and has given him no such indication since.

He denied he ever promised campaign bonuses to Haag or anyone else and denied he knew money was being kicked back from his staff's paychecks, much less being kicked back partly to him.

Haag's story on the witness stand was that Collins told him he would pay the $10,000 campaign bonus to Haag by putting two campaign workers, Michael D. Henning and Raymond Fortner Jr., on the Washington payroll for doing nothing.

"And they'll be in a position to rebate money back to you and that way you'll get your money," he quoted Collins as telling him.

Haag said Henning returned to Stanford University and got $3,008 in House paychecks from which he kept his $1,500 bonus and kicked back about $1,300 to Haag. The balance was not explained.

Henning backed Haag's story about the bonus arrangement but he told the court he'd been told of the arrangement by Haag, not by the congressman.

Haag testified that Fortner kicked back $5,270 toward Haag's bonus and $4,625 to a slush fund to pay for a party for children of Vietnam GIs and also for Dallas office expenses.

Fortner testified he kept only about $2,000 of the $1,097 in House paychecks he said he received and kicked back the rest to Haag. He said Haag told him the kickbacks were for office projects but he found out after the FBI began investigating that "part of the money I had contributed had been used to purchase a car."

Haag said a check for $1,325 from Fortner was used to make a down payment on a convertible car because he considered it part of his personal bonus money.

A third former employee, Noel Lee Reed, told the court he had kicked back about $2,000 for what Haag told him were the projects.

Haag testified that $526 of Reed's money was applied to his campaign bonus.

Haag claimed that when columnist Anderson began asking questions about the arrangement Collins, "panicked" and sent him to Dallas where Haag testified Collins' lawyers devised a story to cover up the scheme.

To the charge that he induced Henning to lie to a federal grand jury, Haag testified that he was only a conduit who transcribed a "script" over the telephone from Collins' lawyers and passed it on to Henning.

Immediately following Haag's conviction, Collins called a news conference to say almost none of Haag's story was true and that the verdict made clear that the jury did not believe Haag's story.

He charged that shortly after coming to Washington Haag raised his own salary from $18,000 to $25,000 by falsifying his own House pay form.

Collins acknowledged that he received some money from Fortner-which Haag and others said during the trial was part of the kickback money-but said he understood it was partial repayment for a personal $1,600 loan he made to Haag for moving expenses to Washington.

Campaign Shape Is Clear

MIAMI BEACH, Fla. (AP) — A new coalition has given new leadership to the Democratic party — and George McGovern and Thomas F. Eagleton have less than four months to shape it into a winning campaign.

Already, its shape seems clear despite the pledge of a national campaign, the emphasis will be on the industrial Eastern and Midwestern heartland and the Pacific coast. Funds will be plentiful, and the organization that carried McGovern to the nomination is being geared up for the fall election.

In addition, the Democrats plan what promises to be the most massive effort in history to register new voters, hoping to take advantage of relaxed registration procedures and the 18-year-old vote to enlist an additional 18 million by November — primarily, the young, the poor and the racial minorities.

The choice of a woman and a black man to head the Democratic National Committee symbolizes the new team's hopes for breaking traditional patterns.

But significant gaps remain in the unity displayed by the nominees and the defeated presidential rivals.

Big labor is unreconciled to the candidate who humbled its powers in many states.

I. W. Abel, president of the powerful United Steelworkers, has vowed to sit out the campaign, and the course taken next week by the AFL-CIO's Executive Council will influence the labor leadership of many states.

But other unions — the United Auto Workers, the Electrical Workers and the Government Employes — already have embraced McGovern, and the attitude of many union members toward their leaders is one of distrust and independence.

Among organizational Democrats, the major problems appear to be cities and the South.

Where local leaders, believing the national ticket is doomed, snub it to work on state and local elections, the McGovern campaign will set up its own machinery.

As for the South, many Democrats feel that the McGovern-Eagleton ticket can't carry any Dixie states. But the candidate seems willing to give it a try. Most Democratic governors will give at least lip-service support to him, waiting to see his support and campaign plans before vowing more.

Clark Given Probated Term

BALTIMORE (AP) — A witness who testified he delivered a $25,000 bribe to Rep. John Dowdy, D-Tex., has been assessed a five-year probated prison term.

U.S. District Court Judge Roszel C. Thomsen sentenced Myrvin C. Clark on Friday after prosecutors praised Clark for "telling the truth" before the grand jury and on the witness stand.

Clark, 52, pleaded guilty to conspiracy charges stemming from the Dowdy case and entered a no contest plea to charges arising out of an attempt to defraud a Baltimore manufacturer in a scheme which allegedly involved the misuse of former House Speaker John W. McCormack's office.

Dowdy, who continues to serve his term in Congress, has appealed his conviction.

The Athens congressman was sentenced to 18 months imprisonment after his conviction on charges of taking the bribe last December.

Clark testified in the trial that Nathan Cohen, president of the now defunct Monarch Construction Co., supplied the $25,000 cash in an attempt to sidetrack a Justice Department investigation of his home repair firm.

Clark, who now lives in California City, Calif., told the court that he was a sales manager for the firm at the time and delivered the $25,000 cash to Rep. Dowdy at an airport in Atlanta, Ga.

Clark also pleaded no contest to one charge of aiding in a scheme to defraud a Baltimore canvas manufacturer, J. B. Hirsch and Sons, Inc., of $10,000 in exchange for aid in securing a Navy contract.

Clark said that Speaker McCormack's office and letterheads were used to impress the company president and get him to pay the $10,000 in hope of getting the $700,000 contract.

Darwin C. Brown, a Washington, D.C. lawyer, and Nathan Voloshen, a long-time friend of McCormack, sought Clark's aid in the scheme, he said.

Brown was sentenced to five years in federal prison following his conviction in the case. Voloshen died before his Baltimore trial.

Final arguments are to begin Monday in U.S. District Court in a case of a Washington, D.C. lawyer charged with conspiracy to fix a case pending against home repair firm executive Cohen.

Two Mishaps Are Reported

Police investigated two motor vehicle mishaps yesterday, including one of an unusual nature.

Officers said Steven Beckham, 3721 Avenue U, was stopped at a railroad crossing in the 1500 block of Twenty-fifth Street, at 9:52 p.m. Friday. Suddenly the car lurched forward, they said, and struck a passing train of the Roscoe, Snyder & Pacific Railway Co. Damage to the car was considerable, but damage to the train was minor.

The other mishap occurred in the 3900 block of College Avenue at 4:24 p.m. Friday.

Involved was a 1972 Model Buick operated by Marilyn Rose McCormick, 2205 Forty-fifth Street, and a 1968 Model Volkswagen station wagon driven by Dudley Tim Ward, 18, of Aspermont. Ward and Jeff Michael Kluting, 18, and Gregory Steven Kluting, 16, both also of Aspermont sustained injuries, but they were not serious enough to require hospitalization. The Klutings were passengers in the station wagon.

Plant Target Of Critics

SAN JUAN, P.R. (AP) — The drumbeaters of all-out industrialization have dominated Puerto Rico's policies for more than two decades. Now they are being challenged by citizens fearful of the impact that slambang industrialization may have on the island's ecology.

A major target for critics is a nuclear power plant which the government-owned power company wants to build on the south coast. It would cost $400 million and produce 1.2 million kilowatts.

The attackers say hot water discharged from the plant will kill fish in an adjoining bay. Some predict radioactive fallout.

The commonwealth government has retorted that a failure to move rapidly ahead with the plant will deter industrial development.

A power squeeze already is severe. Increased demand and defects in new equipment combined to cause 71 major power failures in one year.

HOSPITAL NOTES

ADMISSIONS: Rhoda Bonner, Rt. 2, Box 139; Delpha Huff, Roscoe; Regina Romero, 1805 Scott.

DISMISSALS: Barbara Yorgesen, Mrs. Alan Martin and baby girl, Louie Kirby, William Baldwin, Vesta Shaw, Margaret Beasley, Tommy Hendrix, Rex Free, Travis Beaver, Jessie Thomas.

Pvt. Jerry Brown Ends Training

FORT POLK, La.—Army Private Jerry C. Brown, 19, son of Mr. and Mrs. Clyde W. Brown, 1907 Coleman, Snyder, recently completed eight weeks of basic training at the U.S. Army Training Center, Infantry, at Fort Polk.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid and army history and traditions.

The beluga sturgeon, source of the prized Russian caviar, reaches a length of 13 feet and may weight up to a ton.

Mariner 9 Set For Test

PASADENA, Calif. (AP) — Scientists say the Mariner 9 spacecraft which has orbited Mars since November should be ready for a coming test of Einstein's relativity theory.

Scientists said they will use the sun's gravity to test the relativity theory in September when Mars and earth will be on opposite sides of the sun.

Einstein predicted that the sun's gravity curves electromagnetic radiation, such as radio waves, which pass near the sun.

Experts said they will track Mariner 9's radio signals to see if they are distorted by the gravitational field.

Lt. Whitley Is Promoted

Major E.K. Browning, Jr., Regional Commander of the 49-County West Texas Region of the Texas Department of Public Safety, announced the promotion of Lieutenant Julian Whitley to Captain in charge of the West Texas Region's Driver License Service effective July 1.

Captain Whitley was employed by this Department as an Examiner-Patrolman on Jan. 5, 1955. After completing a recruit training school, he was assigned to the Driver License Service and was stationed at Houston. Effective Sept. 1, 1963, he was promoted to the position of Sergeant and was transferred to Abilene. On Nov. 1, 1967, Whitley was promoted to the rank of Lieutenant and remained in Abilene.

Captain Whitley has been working on a degree in Law Enforcement at Hardin-Simmons University at Abilene. He holds Advanced and Instructors Certificates issued by the Commission on Law Enforcement Officer's Standards and Education.

Team To Dive For Treasure

AUSTIN, Tex. (AP) — A team of archeological technician-divers will start excavating a sand-and clay-covered sunken Spanish galleon off Padre Island next week.

Carl Clausen, the state's underwater archeologist, announced Friday the first state-sponsored excavation of several vessels that sank in May 1553 would start "on or about" Monday.

The project is sponsored by the Texas Antiquities Committee, which the 1969 legislature created after Platoro, Ltd., recovered treasure from a shipwreck site in 1967.

The first site to be worked is about five miles north of the Mansfield Cut on Padre Island, Clausen said.

After that, divers will work on "from one to three other sites" discovered in a 1970 magnetometer survey, he said.

Ownership of those articles is being disputed in court by Platoro and the state.

Sp. 4 Snyder Is Graduated

FORT WOLTERS—Spec. 4 William H. Snyder, whose wife, Kathy, lives at 3602 Irving Street, Snyder, graduated recently from the Fifth U.S. Army Reserve Components Non-Commissioned Officers Academy at Fort Wolters.

He received training in leadership responsibilities, drill and ceremonies, tactics, map reading and weapons. He is assigned to Company B of the 980th Engineer Battalion at Lubbock.

Lamp Is Broken

Vandals shattered a gas lamp at the residence of Burt Sellars, 2311 Thirtieth Street, between 9 p.m. and 11 p.m. Friday.

Fire Put Out

City Firemen extinguished a grass fire at Dermott at 5:45 p.m. Friday.

Kentucky To Improve Parks

FRANKFORT, Ky. (AP) — Parks Commissioner Ewart Johnson says Kentucky will stop building large resort-type parks and improve current facilities.

He said an attempt also will be made to cut food and labor costs to bring the state parks in line with similar private operations.

Sight Set On Gunsmithing

Career Corner

by Joyce Lain Kennedy

Dear Joyce: My son is interested in gunsmithing. Is there a specific school that teaches this, what does it cost, and where can we get information? W.H., Mansfield, Ohio

what job would you like to see explored in this column?

Gunsmithing – or small arms technology – is offered as a 2-year program (18 academic months) at the 5 public and private schools I found. However, the 2 private schools permit students to go year-round, shortening the time between start and finish, and to attend night classes if they work days.

FOUR OF THE SCHOOLS – both public and private – say demand is high for qualified gunsmiths (key word is "qualified") and that the outlook is favorable. The fifth school says, "Should employment in gunsmithing be unavailable, the student's background in machine shop practices will enable him to find a temporary substitute job as a machinist." (Other related jobs: engineering technician in design department of fabricated metal products company, mechanical technician in various manufacturing industries; civilian employee in military ordinance.)

Most gunsmiths are in business for themselves, or work for other gunsmiths. Others work for gun manufacturers, retail stores, police departments and the military services.

PRIVATE GUNSMITHING SCHOOLS cost about $3,000 for 18 months' tuition and tools. Public community college programs vary in cost, depending on whether or not the student is a resident of the state in which a school is located. For example, one community college charges state residents $660 (plus tools cost) for the entire 2-year program, and out-of-state residents $2,600 (plus tools cost).

Private schools emphasize more gunsmithing theory and practice, and community colleges provide more liberal arts courses. Private schools give diplomas and community colleges give associate degrees.

NAMES. Private schools are: Pennsylvania Gunsmith School, 812 Ohio River Blvd, Avalon Pittsburgh, Pa. 15202; Colorado School of Trades, Inc., 1545 Hoyt, Denver, Colo. 80215.

Public schools include: Trinidad State Junior College, Trinidad, Colo. 81082; Oregon Technical Institute, Klamath Falls, Ore., 97601; Lassen College, 110 Main St., Susanville, Calif. 96130.

(Apprenticeship with a qualified gunsmith for 3 or 4 years is another method of entry into this occupation. Gunsmiths with whom I checked do not recommend home study correspondence courses, unless combined with on-the-job experience.)

Minimum age ranges from 16 and a 9th grade education, to 18 and a high school education (or equivalent) for acceptance by gunsmithing schools. Armed Forces training may be an acceptable substitute for some of the coursework; each case is considered individually.

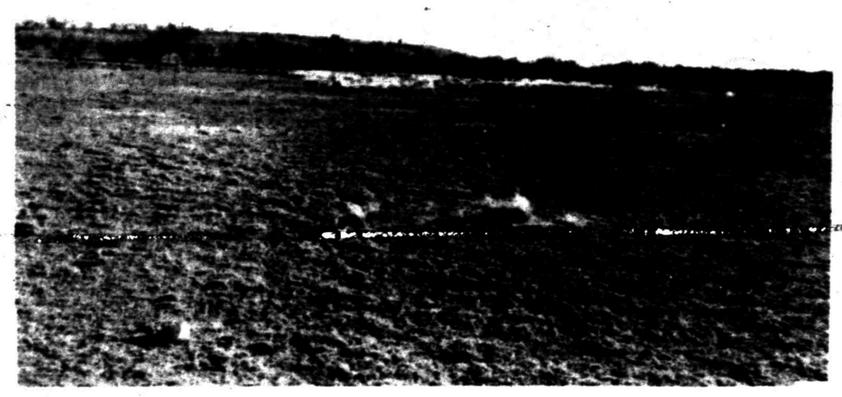

THE SCHOOL PROGRAMS, in general, consist of use of machine tools for fabricating metal parts, extensive use of cutaway models of fire arms for developing principles of operation concepts, stock making and finishing, ballistics, ammunition, and service courses essential to the operation of a small business.

FOR MORE INFORMATION: Read trade publications "Gunsmithing Digest" and "The American Rifleman." Check your library for a 2-volume book, "Modern Gunsmiths" by James V. Howe, Funk & Wagnalls, 666 Fifth Ave., New York, N.Y. 10019. (This reference work costs $25 for the set.)

OVER-GRAZING — This pasture is continuously grazed close. The more desirable grasses are in a low state of vigor. Grasses maintained in a low state of vigor cannot possibly produce as much forage as more vigorous grasses. A planned grazing system with periodic resting periods would improve quality and quantity of forage production on this pasture.

PROPER GRAZING MANAGEMENT — This Borden county pasture receives periodic resting during the growing season. This gives the more palatable grasses such as the blue grama shown in the above picture a chance to recover from continuous close grazing. Grass on the ground is like having money in the bank.

Planned Grazing Is Becoming Popular

Planned grazing systems are becoming popular with Texas ranchers and are considered the key to good range management.

H.R. Stasney who ranches near Albany started a high intensity-low frequency (short duration) grazing system in 1969. He has six pastures and two small cropland fields in this system. His initial stocking rate was 20 acres per cow. In 1972 he increased his stocking rate to 11.5 acres per cow, and the grass is still showing improvement. All of the cows are put into one herd and each pasture is grazed from 2 weeks to 6 weeks depending upon the size of the pasture. Each pasture receives about 6 months rest following grazing. In this type of grazing system all of the vegetation is eaten and there is no spot grazing of the better grasses. The rest period allows the better grasses to spread and increase in vigor.

At the Texas Range Station near Barnhart in a high intensive 6-pasture rotation system, each pasture is grazed 25 days and rested 125 days. The gross return per section was $3,024 on the 6-pasture rotation and only $2,569 per section on the moderate, continuously grazed pasture. The gross return was $3050 per section on the 4-pasture rotation system. On the 4-pasture system, the cows are put into three herds and three pastures are grazed while one is being rested. Each pasture is grazed 12 months and rested for four months. The rotation allows each rest period to come at a different time of the year.

Allan Shivers Elected Chairman

FORT WORTH, Tex. (AP) — Former Gov. Allan Shivers has been elected chairman of the life members of the trustees of the University of Texas Law School Foundation.

The foundation seeks money from private sources for the law school.

US-Soviet Union Trade Tops Business News

NEW YORK (AP) — American-Soviet Union trade relations held the fore of the business scene during the past week after the Soviet Union agreed to buy $750 million of American grain.

The deal was announced last Saturday night.

The three-year grain agreement was signed with the understanding the United States would make quick delivery of the products, with at least $200 million in grain to be purchased the first year. An American official said first shipments may begin before the end of July.

The Penn Central Transportation Co. said it would begin its long-planned effort to cut back the size of train crews and phase out 5,700 trainmen's jobs starting July 26. The United Transportation Union indicated that a work slowdown might be imminent because of the action.

Some favorable signs for the economy were reported during the week. The Commerce Department said business inventories surged $1.18 billion to almost $184.8 billion seasonally adjusted in May, the largest monthly gain since July 1970. The Commerce Department also reported that retail sales in June rose 7.5 per cent from June 1971, though they dropped 1.5 per cent from May 1972.

The Environmental Protection Agency notified automakers that it was closely scrutinizing devices planned for 1973 cars that might disable emission-control systems under certain conditions. The EPA expressed concern that some of the systems may be equipped with overrides or other mechanisms that in effect would turn the systems off under certain driving or temperature conditions, allowing the car's emissions to exceed federal ceilings.

The EPA gave manufacturers 30 days to report details of disabling devices not already submitted to the EPA. If the agency concludes the mechanisms are inconsistent with the intent of the Clean Air Act the maker would have 15 days to remove them from the vehicles or render them inoperative.

The nation's four largest breakfast-cereal makers took steps to fight Federal Trade Commission charges they had illegally maintained a "shared monopoly" for at least 30 years. Kellogg Co., General Mills Inc., General Foods Corp. and Quaker Oats Co. formally denied the charges, marking the beginning of a series of legal steps that could take several years to be resolved. The four companies account for 91 per cent of the ready-to-eat cereal market, the FTC said.

Oil, Gas Found On WS Ranch

ODESSA, Tex. (AP) — The Odessa Natural Corp., a subsidiary of El Paso Natural Gas Co., says it has discovered both oil and gas on its leases on the W-S Ranch in northwestern New Mexico.

John Davis, manager of exploration for Odessa Natural, asked Friday if the firm's exploration on the ranch produced oil or gas, said, "We've found both, but I can't tell you how much."

Davis also said one of the exploratory wells produced water.

He refused to say whether the strike was substantial, but confirmed that the company definitely will continue drilling on the ranch.

Davis said the firm currently has suspended drilling "for a month or two" in order to study the results.

He said more information would be made available at the end of the study.

Odessa Natural has two leases on the ranch, but, ranch officials said, they mostly are on grazing land and not on the area contemplated as a national forest.

The WS, or Vermejo, Ranch currently is up for sale for an estimated $26 million. A bill is being considered in Congress to purchase the land and place it under U.S. Forest Service control.

Johnson Addresses Legion

HOUSTON (AP) — The administrator of veterans affairs of the Veterans Administration says defense cuts proposed by Democratic presidential nominee George McGovern "would destroy the national defense posture of this country."

Donald E. Johnson said in a key note address at the 54th annual Texas American Legion convention Friday there is a growing anti-military attitude in this country.

"I am concerned that we are but a half-step away from this attitude becoming an anti-veteran attitude," Johnson said.

When asked about drug abuse in the military, Johnson said the problem was not unique to veterans, it was a national problem.

He said 80 per cent of veterans taking part in drug cure programs stayed with the programs and most of those addicted in the military had tried drugs before entering the military.

About 1,400 delegates have registered for the convention which continues through Sunday.

Julie Eisenhower Has Pneumonia

SAN CLEMENTE, Calif. (AP) — Julie Eisenhower has viral pneumonia.

The Western White House announced Friday that First Lady Pat Nixon flew to Jacksonville, Fla., on Friday to be with Julie, wife of Navy Ensign David Eisenhower.

Press secretary Ronald L. Ziegler said Julie, 24, had been suffering from the flu and the illness developed into a viral infection in the lower lobe of her lung. Ziegler said doctors say Julie will not have to be hospitalized.

Wiley College Gets Grant

MARSHALL, Tex. (AP) — The National Science Foundation has granted $166,000 to the science division of Wiley College here, according to Dr. Greg Biel, physics department chairman, who will be director of the program.

The money will enable improvement physics, mathematics, chemistry, and biology departments.

The grant is for two years.

Specific items in the program include purchase of audio-visual equipment, laboratory and demonstration equipment, science books and financing of research projects in chemistry and biology.

An exchange program is planned under the program to allow Wiley students to spend one semester studying special science topics at a major university, as is study and revision of the science curriculum, with the possible addition of new courses and programs.

FINGER-LICKIN' GOOD FOR SANDERS—Doug Sanders, veteran American golfer does a dance at left for cheering crowd as he putted for a birdie four at the 9th hole to go four under par to take the lead temporarily in the British Open Golf Championship Friday. At right Sanders holds up two fingers in a victory sign after putting for the birdie at the 9th. (AP Wirephoto via cable from Muirfield)

Trevino Wins British Open, Jack's Bid Fails

MUIRFIELD, Scotland (AP) — Lee Trevino destroyed Jack Nicklaus' dream of glory with a miracle chip on the next to last hole, a shot that sent him winging to his second British Open Golf Championship Saturday and left the Grand Slam still lacking a conqueror.

Trevino's final-round 71 gave him a 72-hole total of 278 and a one-stroke margin over Nicklaus, who shot a course-record equalling 66 as he tried to fight back from a six-stroke deficit at the beginning of the day.

Nicklaus birdied five for the first 10 holes in his bid to keep alive his bid for the Grand Slam of the Masters, U.S. and British Open and the American PGA and moved ahead of Trevino by one stroke.

But Trevino, golf's flamboyant Super Mex, eagled the par 5 ninth as Nicklaus birdied the 11th to move into a two-way tie, six under par. Trevino then claimed his second straight British Open crown when after Nicklaus bogeyed the par 3 16th, he sank his pressure chip on the 17th hole.

Nicklaus, who had a 213 after three rounds and was six strokes behind Trevino, was five under par after 64 holes while Trevino was four under after 62.

Doug Sanders birdied the ninth hole today and Brian Barnes of Britain shot an eagle three on the same hole to tie Tony Jacklin for third at three under.

But Trevino fought back to tie for the lead with Nicklaus at six under when he eagled the par five ninth as Nicklaus birdied the 11th.

Jacklin moved to win in one stroke of the leaders when he also eagled the ninth.

Farm League Season Ends, All-Stars Chosen

You could have put your money on the Athletics or the White Sox in Friday's Farm League play and still have felt secure in your choice. The Athletic teams played each other and the two White Sox teams clashed in the night game, and needless to say, the Athletics and the Sox won. For clarification, the West Texas Bank Athletics beat the Snyder Savings Athletics 15-1, and the Clark Lumber White Sox beat the Snyder Motor White Sox 12 7.

After the games the players and fans went to the Little League diamond where the Farm League All-Stars were announced.

In the first game, Kenneth Tate pitched a two hitter to the Snyder Savings A's, giving up a single to James Swigert and a home run to Joe Spivey. Spivey's homer was also the only run scored for the SS&L Athletics.

The West Texas Bankers scored ten runs in the second inning to move ahead. There were three hits in that ten run burst, all three in a row from David Zajicek, single, Dennis Wright, single, and Larry Lee, a home run to bring them in. Wright picked up his second hit of the night in the third inning with another single. The rest of the WTB runs were scored in the third and fourth innings.

The SS&L Athletics pitched Joe Spivey and Dee Dow, but both seemed to suffer with control problems, giving up a number of walks to account for most of the runs.

In the second game the Clark White Sox were playing with only nine men, but managed to come out ahead in the run department.

The Snyder Motor White Sox opened the scoring with all seven of their runs in the first inning. Jay Cumbie and reliefer Dwain Hicks had problems getting the ball in the strike zone and sent in run after run on walks. The Clark crew came to town, but could do nothing and were put away three up, three down by Clifford Collins.

The Snyder Motor Sox ran out of gas in the second but Clark Lumber caught fire and scored all 12 of their runs. The winners had two threats to their security though. John Igo, after hitting a long double to left field, stole third base and injured his ankle while sliding. Having no one to substitute, Igo grit his teeth and played on. When stepping to the plate for the second time, Igo was hit by a wild pitch and his thumb ballooned. Someone must have had a bullet for him to bite on though, for he continued to play, after all, there wasn't much left of him to hurt. The Lumber Crew held on and Todd Bell, who relieved Hicks in the second was given the win from the mound. Collins was relieved by Jeff Stewart for Snyder Motor.

All-Star Teams

Two All-Star teams were chosen because of the league consolidation this year, and it does take two teams to play, right? Since there is not an American All-Star team or a National All-Star team, the Stars were divided into the Blues and Greens.

Coaching the Green team will be Tommy Williams, V.A. Stone, and Bill Valentine. Players on the Green squad are: Ronnie Myers, Paul Velasquez, and Raymond Becerra, of the American Legion Yankees; Walter Banks, Tim Derrick, and Vic Valentine of the Lions Club Cubs; Randy Stone; Larry Huddleston, and Joe Longbotham of the Kiwanis Braves; David Armandariz and Barry Lee of the Sonic Braves; Jeff Stewart and Gilbert Cadena of the Snyder Motor White Sox; Todd Bell and Dwain Hicks of Clark Lumber White Sox.

Coaching the Blue team will be Rex Nall, Clarence Wright, and Bill Clayton. The squad will be composed of: Mike Ray, Kip Riley, and Travis Ainsworth of the Quarterback Club Giants; Joe Spivey and Brent Taylor of the Snyder Savings Athletics; Tony Lee and Tim Dickinson of the Cochran Construction Cardinals; Kenneth Tate, Joe Lopez, and David Zajicek of the West Texas Bank Athletics; Walt Williams, Randy Wolf, and Robert Potts of the Rotary Club Cardinals; Guy Murphree and Jaime Lopez of the Von Roeder Indians.

The two teams will play Tuesday, July 18, at 8:00 p.m. on the Little League field.

League Standings

Three teams tied for the Farm League championship. The American Legion Yankees, Rotary Club Cardianls, and the West Texas Bank Athletics all had 9-2 records. The final standings for all of the teams are as follows: Lions Club Cubs, 8-3; Kiwanis Braves, 8-3; Quarterback Club Giants, 7-4; Sonic Braves 4-7; Clark Lumber White Sox, 4-7; Cochran Construction Cardinnals, 3-8; Snyder Savings Athletics, 3-8; Snyder Motor White Sox 2-9; Von Roeder Indians 0-11.

Texas Receives Wildlife Money

AUSTIN—Texas is $1,446,000 richer as of July 1.

The Federal Government distributed almost 30 million dollars to the states for wildlife and fish restoration and hunter safety.

Texas got the lion's share of the money, Alaska received the second largest amount and California third.

Of the Texas total, $66,000 is earmarked for hunter safety programs. The Texas Parks and Wildlife Department operates a Volunteer Hunter Safety Training Program which was initiated the first of this year and now includes more than 1,200 trained instructors.

Federal aid to the state for wildlife totaled $1,105,000 and was distributed by Washington according to a formula based on hunting license holders and the area of each state.

Wildlife funds come from the 11 percent excise tax on sporting arms and ammunition and the 10 percent excise tax on pistols and revolvers. The funds are deposited into a special fund created by the Federal Aid in Wildlife Restoration Act of 1937 (Pittman-Robertson) and amended in 1970 to include the tax on pistols and revolvers. The distribution is administered by Interior's Fish and Wildlife Service.

Texas also got $275,000 in aid for sports fish restoration. These funds come from the 10 percent excise tax on fishing rods, reels, creels, artificial baits, lures and flies. Distribution is made according to a formula based on the number of sport fishing license holders in the state and the area of each state.

What does Texas plan to do with its federal funds?

"Every penny of it is put to good use," said James U. Cross, executive director of the Texas Parks and Wildlife Department.

"The department has about 70 projects which are financed as much as 75 percent by federal money," Cross said.

These funds are made available to Texas each year and the state must put up the remaining 25 percent.

Work is being conducted in such diverse fields as freshwater pollution studies, saltwater fish culture and studies of upland game birds.

"The million-plus dollars," said Cross, "will pay salarises, buy materials and pay the rent for work which benefits every Texan concerned with the state's fish and wildlife."

Fisherman Makes "Sword" Catch

OXFORD, England (AP) — Angler Les Cadet had a heyday when he entered a fishing competition on the River Thames. In a few minutes he made his first catch—a 2,000-year-old Saxon sword which local museum experts later described as "an interesting and valuable find." Cadet, 31, went on to haul in 22 fish and won the contest.

Fliers Pin Hopes On Pitts Special

Editor's Note: Once again those daring men in their flying machines—now middle-aged—will be flying "over there" but this trip to France will be for global honor in the olympics of flying.

By JIM BRIGANCE
Associated Press Writer

OAK GROVE, Tex. (AP) — A Pitts Special looks a little like something you put a dime in and let the kids pretend they're the Red Baron.

But don't let a Pitts pilot hear you say that.

The Pitts Special is awfully special this year to the American aerobatics team as they prepare for the seventh world championships to be held July 18-31 at Salon-de-Provence, France.

The Pitts Special is what the U.S. team is counting on to be the margin of victory. It is a small, but powerful bi-plane, especially designed for aerobatics. The Pitts flown by women's champ Mary Gaffaney has symetrical wings with four ailerons.

Mrs. Gaffaney will be one of two women participating in the female competition in France.

A few of the team used the Pitts at the last competition but this year all members have decided on the fleet-looking little bird.

The Pitts is a small bi-plane, said to be able to withstand almost any stress or strain imaginable in the air. In its aerobatic gross weight configuration of 1,500 pounds, the Pitts will climb at 1,000 feet per minute behind its 200 horsepower engine.

There is no complex gadgetry in the Pitts but it demands expert flying skills to handle it properly. But the U.S. team is top-heavy with aeronautics and flying experts.

Aerobatic flying is a direct descendent of a skill displayed by gypsy-like aviators who barnstormed their way across America at county fairs and air shows a half century ago.

Flames To Hold Tourney

The Snyder Flames will hold an Invitational Softball Tournament Thursday through Saturday, July 20-21-22, at Winston Park and Towle Park.

All of the Thursday and Friday games will be held in Winston Park. All of the Saturday games will be played in Towle Park — on the Little League and Farm League diamonds.

There are 12 teams entered in the tournnament. The first game pits Big Spring against Odessa Petroleum at 8 p.m., followed by a 9:30 p.m. clash between Kermit and Monahans. Friday's schedule pits Odessa Western Insulation against Andrews at 7 p.m., Midland against Hamby at 8:40 p.m., and Mineral Wells against Snyder at 10 p.m. One first round game is slated for Saturday when Canyon meets Eastland at 9 a.m.

Sixteen games are slated for Saturday with the consolation finals on tap for 3 p.m. the battle for third place at 9 p.m., and the championship match at 10:30 p.m.

Officials of the Snyder Flames will be canvassing the downtown area next Tuesday to collect money to help pay for the tournament.

"Any donation will be appreciated," said an official of the Flames.

Tribe Nips Texas 2-0 In 14 Frames

By BRUCE LOWITT
Associated Press Sports Writer

Big Brother was watching and little brother couldn't have been happier.

"I think there was a little anxiety over what might happen, but I was delighted it finally came to be," Detroit catcher Tom Haller said Friday night after his older brother, Umpire Bill Haller, had spent the evening looking over his shoulder.

Having a brother in on the action didn't help Tom and his Tiger teammates.

"It proved," Tom said after Kansas City squeaked past Detroit 1-0, "that when you're on a ball field, you have a job to do and you worry about brotherhood second."

In the rest of the American League, Cleveland beat Texas 2-0 in 14 innings, Minnesota edged Boston 7-6, Milwaukee belted California 7-3 and, in a pair of twinight doubleheaders, Oakland took two from the New York Yankees 9-3 and 1-0 and Baltimore swept a pair from the Chicago White Sox, 7-4 and 3-0.

In the National League, the Chicago Cubs outlasted Atlanta 9-8, Pittsburgh defeated Houston 5-2, Cincinnati turned back St. Louis 6-3, the New York Mets nipped San Diego 3-2, San Francisco slugged Philadelphia 8-1 and Montreal mauled Los Angeles 9-1.

The only things that helped the Royals to victory were Amos Otis' fourth-inning double and John Mayberry's run-scoring single plus the combined three-hit hurling of Bruce Dal Canton, Tom Burgmeier and Ken Wright.

Gaylord Perry hurled 13 innings of shutout ball, then bowed out and picked up his 15th victory in the 14th inning as the Indians pushed across a pair of runs on two Texas errors and run-scoring singles by Buddy Bell and John Brohamer.

Ed Farmer protected Perry's victory.

Harmon Killebrew hit his 13th homer of the season in the third inning, then drew a bases-loaded walk in the bottom of the ninth to force over the winning run, capping a three-run rally that propelled the Twins past the Red Sox.

Steve Kline of the Yanks had a 3-0 lead and a perfect game after six innings of the opener against Oakland. Six pitches into the seventh, his perfect game, no-hitter and lead were gone as he hit Bert Campaneris with a 1-0 pitch, gave up a single to Joe Rudi on a 1-0 pitch, a first-pitch homer to Reggie Jackson and a first-pitch homer to Mike Epstein.

"It was painless, that's for sure," Kline sighed. "It happened so fast."

First-inning doubles by Campaneris and Angel Mangual and the combined shutout work of John "Blue Moon" Odom and Darold Knowles gave the A's the nightcap.

Dave Johnson drove in three runs to lead Baltimore to its opening-game victory and Bobby Grich hit a two-run homer and Doyle Alexander fired a two-hitter in the second game to sweep the White Sox.

Texas Girl Sprinter Makes Olympic Team

HOUSTON (AP) — When 17-year-old Deborah Edwards lines up for a race, she doesn't worry about who'll be trying to beat her to the tape.

This philosophy paid off last week in Frederick, Md. when Miss Edwards, soon to be a senior at Houston Worthing High School, became the first schoolgirl from Texas to make the U.S. Olympic women's track team (according to Olympic House records in New York).

To reach the finals of the women's 400 meters, Miss Edwards whipped Madeline Manning Jackson, the world record holder in the 800 meters, in a semi-final race.

In the finals, Miss Edwards placed second to Kathy Hammond of California, who set a national record of 51.8. Deborah hit the tape in 53.3, the best time in her three-year career. She also will run a leg on the 1600 meter relay team.

"I don't think about who I'm running against or the crowd, just the race," Miss Edwards said.

Miss Edwards doesn't mind women's track being overshadowed by king football in Texas. "I just like to run—and I like to travel," she said. "I still have a long way to go. But right now I'm training hard for this one."

She has been trained throughout her career by Oliver Brown, who sometimes pays for her travel expenses to distant meets.

"I feel like she'll repay late by helping other young girls in track," the Worthing coach said. He makes Deborah run two miles daily, even on birthdays.

"Well, he gave me one day off because we were traveling," she said, "but that was the only day."

Miss Edwards got caught up in track as a seventh grader.

"The girls were talking about a track meet that weekend and they needed one more girl to run," Deborah said. "Since I was beating everybody in my gym classes, they asked me to run."

Miss Edwards won every race she entered that day and she hasn't stopped running since.

Brown estimated Miss Edwards has been running 30 miles per week for the past 48 months "rain or shine."

And rain or shine, that'll take her right up to Munich, Germany.

Boxing Trials Set In Cowtown

FORT WORTH, Tex. (AP) — Eighty-eight of the best amateur fighters in the United States will be competing in the U.S. olympic boxing trials beginning Wednesday.

The four-day tournament at TCU's Daniel-Meyer Coliseum brings together the national champions of the four armed services, Golden Gloves, AAU and east and west division qualifying championships.

In case of duplicated winners, the runners-up, or unattached entries, have been invited to fill the vacancies.

The trials will be used to determine the U.S. representatives in the 1972 summer olympic games in Munich.

The winners of the trials plus carefully chosen challengers—not necessarily the runners up—in each of the 11 weights, will go from Fort Worth to West Point, N.Y., for additional competition. From these 22 the U.S. team will be picked.

Duane Bobick of the Navy and champion of the Golden Gloves heads the field. The 6-3, 210-pounder from Bowlus, Minn., is considered the finest amateur heavyweight in the world and an overwhelming favorite to earn an Olympic berth. He is ranked No. 1 in the latest U.S. Amateur Boxing Coaches Association poll.

Also rated No. 1 in the poll and who'll be fighting in the trials are:

Junior flyweight David Armstrong, Tacoma, Wash., AAU winner; flyweight Bobby Lee Hunter, Charleston, S.C., AAU; bantamweight John David, Suffolk, Va., Navy; featherweight Louis Self, Toledo, Ohio, Golden Gloves; lightweight James "Bubba" Busceme, Beaumont, Tex., Golden Gloves; light welterweight Carlos Palomino, Westminister, Calif., AAU; welterweight Jesse Valdez, Houston, Golden Gloves; light middleweight Henry Johnson, Indianapolis, Ind., AAU; middleweight Marvin Johnson, Indianapolis, Ind., Golden Gloves; and light heavyweight Hernando Molynauex, New York, N.Y., AAU.

Cardinals, Rangers Win Tilts

The Superior Auto and Wickes Homes Cardinals defeated the Veterans of Foreign Wars and Auxiliary Giants 20-2 and the Rainbow Market Rangers dumped the Roscoe, Snyder & Pacific Dodgers 17-5 in two important Miss Softball America tilts in Northeast Park Friday night.

The Cards fashioned their victory behind the 1-hit pitching of Janis Clemens. Dianna Underwood, who shared pitching chores with Tammy Ashworth for the Giants, got the only hit — a single.

Meanwhile, Janis got plenty of support with Shaun Halford, Holly Green, Penny Ramirez and Vanessa White all stroking singles. Janis aided her own cause with a single. The Cards tallied enough runs — seven — in the first frame to sack up the contest.

The Rangers shelled Latricia Pevehouse for 15 hits, scoring six runs in the first frame to take a commanding lead. Four additional tallies in the 2nd removed all doubt about the outcome and three more runs in the 3rd and four in the 4th were icing on the cake.

Rachel Chaidez sparked the Ranger attack, hitting a home run, double and single in three trips to the plate. Charlotte Pierce rapped three singles while Dixie St. Clair, Sara Kincheloe and Susie Fisher each clouted two singles. Shari Tyson, Tammy Bounds and Shari Couton each added singles to the Ranger cause. Susie Fisher was the winning pitcher, putting down the Dodgers on three singles—hits by Robbie Lamb, Debra Littlepage and Rhonda Chester.

The Rangers take on the Cardinals and the Reds meet the Blues next Tuesday.

Little Leaguers Finish Season

The Snyder Little League closed its regular season play Friday night with the Lions Club Cubs nosing the Rotary Club Cardinals 8-7, and the Von Roeder Indians scalping the West Texas Bank Athletics 28-2.

The Cardinals tried the pitching of Randy Courtney, Ronnie Ille, and Sid Everton, but could never find the right combination to contain the Cubs. Although only three hits were allowed the Cubs, 16 walks were issued. Cub pitcher Tim Burnett was pretty generous with the walks too, but managed to keep his head above water for the win.

The cubs went ahead in the first inning with two runs on one hit, a single by Jeff Reed. Both teams scored twice in the second, but there zilch hits. The Cubs scored once in the third and David Jolly opened the Cardinals inning off with a home run, the first hit of the game for the Cards. The birds scored one more run in the third to narrow the margin to 5-4. The remaining three Cub runs came in the fourth inning when Mark Davis doubled. The Cards tried to catch up, but just couldn't do it.

Jolly was the only Card to get any hits. He added a fifth inning single to his home run. Jeff Reed led the winners with a two-for-three night.

In the second game, Darrell Lester hurled a two hitter to the Athletics, who ended their season with hopes for next year. The Indians have always been a strong hitting club, but last night they were in top form. Dray Sikes, who has been hotter than a pistol in the last few games was four-for-four with two doubles, a single, and a grand-slam home run. Everybody dreams of ending the season like that. Some other dreams may have been fulfilled for Greg Sullenger who was three-for-three, Lester, three-for-three, and Fernando Lopez, two-for-three.

But the Indians' dreams were the Athletics' nightmares, especially for Ronnie Woolridge and Gerald Snyder, Athletic pitchers. The A's could only manage two runs on two hits, first inning singles by Woolridge and Allen Roberson. Paul Gafford was the winning pitcher for the Indians, who finished their season in second place behind the Giants.

Lone Star Leaders Set Pace

By THE ASSOCIATED PRESS

Texas League leaders El Paso and Alexandria held their distance from the opposition in action last night in the West and East divisions.

El Paso shut out Arkansas 9-0 and Alexandria topped Amarillo 6-2 and Shreveport blanked San Antonio 2-0.

El Paso's Wayne Miller notched his third win against one loss, spacing out six Arkansas hits while his teammates were banging away for a total of 12 off three Arkansas pitchers.

Terry McDermott and Wayne Burney provided most of the batting power for the winners. McDermott hit a solo homer in the fifth inning and Burney slammed three doubles, scoring two runs and driving in two.

Righthander Hank Webb posted his fifth consecutive victory without a loss for Memphis as he struck out three, walked two, and received great fielding support from his teammates three doubleplays.

Tommy Hallums hit a home run for Memphis in the second inning.

In Amarillo, Alexandria's Randy Elliot continued to manhandle Amarillo pitchers as he collected three singles and a double for a perfect night.

Elliot also hit the deciding homers in the first two games of the series.

The winning pitcher for Alexandria was Marty Waldeck, who is now 5-5. The loser was Bob Grazzyk, 7-5.

Thor Skogan went the distance for Shreveport, striking out eight men as he shut out San Antonio for his third win against two losses.

Schneck, Metros Rip Padres, 3-2

By KEN RAPPORPORT
Associated Press Sports Writer

Dave Schneck was the 669th player chosen by the New York Mets in the 1968 free agent draft.

He later was one of thousands who went to war in Viet Nam in 1969.

But today, he's not just another number with Yogi Berra.

"He really picked us up at a time when we needed a lift," said the New York manager after Schneck's first major league hit—a two-run homer—helped the Mets beat San Diego 3-2 Friday night.

The Mets' victory, also fashioned on Tom Seaver's five-hitter, kept them in pursuit of the Pittsburgh Pirates in the National League East race.

The Pirates retained their three-game edge after beating the Houston Astros 5-2.

Elsewhere in the National League, the Chicago Cubs defeated the Atlanta Braves 9-8; the Cincinnati Reds turned back the St. Louis Cardinals 6-3; the San Francisco Giants walloped the Philadelphia Phillies 8-1 and the Montreal Expos blasted the Los Angeles Dodgers 9-1.

In the American League, the Oakland A's took a dobuleheader from the New York Yankees 9-3 and 1-0; the Baltimore Orioles beat the Chicago White Sox twice, 7-4 and 3-0; the Milwaukee Brewers trimmed the California Angels 7-3; the Minnesota Twins nipped the Boston Red Sox 7-6; the Celveland Indians stopped the Texas Rangers 2-0 in 14 innings and the Kansas City Royals nipped the Detroit Tigers.

Nelson Briles fired a four-hitter and Gene Alley drove in a pair of runs with a double and triple to boost Pittsburgh over Houston. Briles surrended the Astro runs in the sixth on a walk and Lee May's 19th home run.

Pinch-hitter Paul Popovich capped a three-run rally in the ninth inning with a run-scoring single, leading Chicago over Atlanta in a game studded with home runs. The Cubs hit four and the Braves three, two by Mike Lum.

Pete Rose's two-run single capped a three-run second inning off Rick Wise that carried Cincinnati over St. Louis. The rally gave the Reds an early 4-0 lead and their eventual winning runs against the Cardinals.

Baylor Moore earned his first major league victory, hurling a five-hitter, and Ron Fairly drove in four runs as Montreal came up with a club record 17 hits enroute to victory over Los Angeles.

Buffs Edge Braves In Extra Innings

When the Braves and Buffs meet, it has to be close, and Friday night's game was no exception. The Buffs took a 7-6 win behind the four hit pitching of David Mays, and may have felt that the victory tasted all the sweeter after losing a one point cliffhanger to the Braves earlier in the season.

The Braves scored first in the opening inning when Bernie Weems walked and Ricky Howell and Randy Gressett hit back-to-back singles to send Weems home. Howell scored after advancing on Gressett's single and his own base running, sneaking over two batters later.

The Buffs came back strong in the bottom of the inning with four runs. Ronny Payne and Harvey Waller walked and Tim Flynn singled. Another walk and an infield error sent over the needed runs.

In the second inning the Braves tied the score with two runs on one hit, another single by Howell. The Buffs were scoreless. The Braves forged ahead in the third with two more runs on two walks and an error. Weems, hurling for the Braves, put the Buffs away in the third and it looked like the momentum had swung in favor of the Braves.

In the fourth inning Russell Scott reached base on an error and the Buffs capitalized and pulled within one run of the Braves. The Braves never got started again on offense and tried to depend upon their defense to carry them through the game. The Buffs didn't go for that idea though and tied the score in the sixth, forcing the game into extra innings, and finally taking it in the eighth when Waller walked, advanced on Flynn's sacrifice to right field, and scored on Mays' game winning single.

Weems and Mays had a well-matched duel, Weems giving up five hits, and Mays four. Howell was the leading hitter for the Braves with a two-for-four night. Mays and Flynn were two-for-three for the winners.

New Platform Changes Oil Depletion, Imports

By MAX B. SKELTON
AP Oil Writer

HOUSTON (AP) — The Democratic Party's 1972 platform is in sharp contrast with the 1968 version on a couple of matters of major interest to the petroleum industry.

The document adopted in Miami Beach makes a direct attack on oil's depletion tax allowance that still draws sharp criticism although the 1969 Tax Reform Act reduced it from 27½ per cent to 22 per cent.

The new platform also says the federal government should abolish the mandatory oil import control program "that raises prices for consumers."

The 1968 platform adopted in Chicago was silent on depletion although calling for tax reform. On imports, it called for freer trade but opposed unfair competition from imports. The silence on depletion was surprising in that the platform committee had received strong pleas for both a thorough review and an outright reduction.

The Republican Party's 1968 platform was in essential agreement with the Democrats on imports but the GOP gave outright endorsement to the full 27½ per cent depletion tax allowance.

President Nixon traditionally has supported full depletion but reluctantly accepted the reduction contained in the 1969 Tax Reform Act. On imports, he recently authorized quota increases after having threatened earlier to use such action as a weapon against domestic price increases.

Sen. George McGovern, D-S.D., is an old foe of the depletion tax. Sen. Hubert H. Humphrey, D-Minn., the 1968 Democratic presidential nominee, also has traditionally fought to cut the allowance although he was relatively quiet on the matter while serving as vice president under President Lyndon B. Johnson. As a senator, Johnson was the chief architect of strategy that was successful in defeating depletion allowance attacks several times.

The new Democratic attack on depletion was made through platform endorsement of the Mills-Mansfield Tax Policy Review Act.

Rep. Wilbur Mills, D-Ark., chairman of the powerful House Ways and Means Committee, and Sen. Mike Mansfield, D-Mont., the Senate majority leader, have proposed that virtually all tax preferences in existing law be repealed over the 1974-76 period so as to compel a systematic review that would eliminate tax loopholes. Both have listed depletion allowances as a major example of such tax preferences.

In endorsing the Mills-Mansfield proposal, the new platform adds that "the most unjustified of the tax loopholes should, however, be closed immediately." The platform describes the Mills-Mansfield plan as "a minimum step" toward removal of all unfair corporate and individual tax preferences.

The new platform includes one plank pertaining to energy that should draw little, if any, criticism from the petroleum industry. It calls for promotion of greater research and development, both by government and industry, on unconventional energy sources.

With increasing emphasis, the industry has been spending millions of dollars annually on coal gasification, oil shale, and tar sands projects. The federal government is participating in a number of the projects, particularly in the area of developing pipeline quality gas from coal.

Escapee Driven Out Of Home

CINCINNATI, Ohio (AP) — An escapee from a mental hospital armed with a rifle exchanged gunfire with policemen for 2½ hours Friday night before he was driven out of his former wife's home by a combination of tear gas and fire, police said.

Police said the man, whom they identified as Robert Ruebusch, in his 40s, was cut on the back of the head by a pice of window glass broken by a police tear gas canister.

Ruebusch escaped six weeks ago from the Longview State Hospital in downtown Cincinnati, police said.

The police said Ruebusch fired five shots from a .22-caliber rifle and they fired seven shots and "four or five" tear gas canisters into the suburban home of Ruebusch's former wife, Rita, who divorced him last November.

The siege began about 7:30 p.m. when a neighbor noticed a man carrying a rifle entering the home of DeWitt W. Bailey. Delhi Township policeman J. C. Eschenbach said he was fired upon as he approached the house. About 30 Circinnati police sealed off the area and fired tear gas canisters into the house, setting it on fire.

About an hour later, the Baileys returned home. Mrs. Bailey tried to convince Ruebusch to leave the house, but she quoted him as saying he "wouldn't come out if I didn't come in."

Mrs. Bailey told police Ruebusch said he had gone to the house to wait for her and her husband to return.

She said he had been committed to Longview by his 21-year-old daughter "about two months ago and he escaped six weeks ago."

Ruebusch, bleeding from the head, left the house about 9:45 p.m. and was taken away by police.

Glow Of Fireflies Studied

SAN MARCOS, Tex. (AP) — Remember how fireflies glowed in your hand when you caught them? The scientific term for that glowing is "bioluminescence" and it's this mystery of life that is being studied by Dr. Bennie L. Badgett and three other members of Southwest Texas State University's Chemistry Department.

Dr. Badgett and his assistants, graduate students Warren L. Dubose of Gonzales, Democio Castilleja of San Marcos and Flatonia sophomore Thomas Jasek are studying "fungal luciferins" under a $10,000, two-year grant from the Robert A. Welch Foundation.

Fungal luciferins are chemical molecules found on fungi which when combined with an A.T.P. molecule, a molecule essential to the formation of life, will produce one photon of light.

Dr. Badgett and his associates must extract the glowing material from the fungus and run a biological assay on it. This assay consists of grinding the material into a powder and extracting the chemicals needed for study by adding solvents and putting the final material through purifying processes.

"Even then we have to ask ourselves, 'Did we separate the material properly?' and 'How pure is the resulting material after the biological assay is completed?' We are in the assay stage of our research which could take anywhere from two weeks to 20 years but I'm hoping that we'll complete this particular segment of our study by the end of our two year grant from the Welch Foundation," Dr. Badgett concluded.

It is hoped the research will yield a better understanding of luminescents (reactions that yield products in electronically excited states) and possible discoveries of new ones. The study also is seeking a possible explanation as to why various fungi emit light (It's known that fireflies glow to attract mates) and, above all, a knowledge of the chemical structure of fungal luciferins, so that light emission in fungi can be explained.

Girl Asked To Help Unseat Dad

CHICAGO (AP) — Rep. Roman Pucinski, D-Ill., has asked the daughter of Sen. Charles Percy to help him unseat her father in the November election.

Pucinski, who is challenging Percy for the Senate seat, wrote Mrs. Sharon Rockefeller, who participated in the Democratic fund-raising telethon July 8-9, that he read with great interest that she will be working to put a Democrat in the White House this fall. And Pucinski said he would be most grateful for whatever assistance she could give him in his campaign.

Sharon is married to John D. Rockefeller IV, secretary of state of West Virginia, who is the Democratic candidate for governor.

"Blush Bar" Open

LONDON (AP) — Sam Morris, head of a fashion store chain, hopes to boost his lingerie sales. Morris has seen strong men go weak at the knees when they ask girl sales assistants for underwear for their wives. So he's opened a "blush bar" staffed by men in one of his London stores.

Public Notice

NOTICE OF BOARD OF EQUALIZATION MEETING

In obedience to an order of the Board of Equalization, regularly convened and sitting, notice is hereby given that said Board of Equalization will be insession at its regular meeting place in the Courthouse in the town of Snyder, Scurry County, Texas, at 9:00 a.m., beginning on Wednesday, the 26th day of July, 1972, and from day to day thereafter, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in Scurry County, Texas, until such values have finally been determined for taxable purposes for the year 1972, and any and all persons interested or having business with said Board are hereby notified to be present

(s) Beverly Ainsworth
County Clerk
Scurry County, Texas

Scurry County,
Snyder, Texas
THIS 8th day of May, 1972.

Public Notice

ORDER DIRECTING SECRETARY TO ADVERTISE MEETING OF THE BOARD OF EQUALIZATION

BE IT REMEMBERED that the Board of Equalization in and for Snyder Independent School District, Scurry County, Texas, having been in session on this the 6th day of July A.D. 1972, the following order was upon motion of Mr. Smythe, a member of the Board of Equalization duly seconded by Mr. Browning, a member of the Board of Equalization, unanimously carried and adopted, to-wit:

The Secretary of the School Board is hereby authorized and directed to give notice of meeting of the Board of Equalization by publication in a newspaper of general circulation in Scurry County, Texas, for at least ten days prior to said meetiong of said board, that the Board of Equalization will again meet on the 25 day of July, 1972.

The Secretary is also instructed to give individual notice to all tax payers whose properties are raised, if their addresses are known.

BY ORDER OF THE
BOARD OF EQUALIZATION
(s) L. Herod
Chairman of the Board

Public Notice

NOTICE OF BOARD OF EQUALIZATION MEETING
FLUVANNA
INDEPENDENT SCHOOL DISTRICT

In obedience to an order of the Board of Equalization regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at its regular meeting place in the City of Fluvanna, Scurry and Borden County, Texas, at 9 o'clock A.M., beginning on Wednesday, the 26th day of July, 1972, and from day to day thereafter, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in said Fluvanna Independent School District, until such value have finally been determined for taxable purposes for the year 1972, and any and all persons interested, or have business with said Board, are hereby notified to be present.

DONE BY ORDER OF THE BOARD OF EQUALIZATION of Fluvanna Independent School District, Scurry and Borden County, Texas, at Fluvanna, Texas, the 12th day of June, A.D., 1972.

NOTE: Oil, Gas, Utilities, and Industries will meet with the Equalization Board at 3:00 p.m. on the 26th day of July, 1972.

(s) Clinton Gregory
Secretary
Fluvanna Independent School District

Baptists To Meet In Memphis

MEMPHIS, Tenn. (AP) — Memphis has been selected by the more than 10,000 registered messengers of the Southern Baptist Convention for its 1977 meeting—which will be the 115th annual.

Enrichment Program For Youngsters Ends

The Snyder Public Schools' Elementary Summer Enrichment program was completed Friday at Central Elementary School. The program, under the direction of Jim Erwin, lasted one month.

The program was for children in grades one through six who needed improvement in reading and math skills. Other activities planned for the students during the summer session included recreation (swimming and physical education), arts and crafts, library periods, music, field trips and counseling and guidance. Classes were held Mondays through Fridays from 8 a.m. until 12 o'clock noon.

A bus picked up the children at several points in town and delivered them back to those points after school each day. A mid-morning snack was furnished at school. Students attending the school were from North, Northeast and Central Elementary schools.

Budget Cuts

FRANKFORT, Ky. (AP) — The state administration estimates an average Kentucky family of four will save $65 yearly under the current biennial budget.

The 5-cent sales tax on food will be removed in October while the gasoline tax has been increased 2 cents a gallon.

ON MISSION TRIP — These young people and sponsors from Colonial Hill Baptist Church left early Saturday for Las Vegas, Nev., on a mission trip. They will hold two Vacation Bible Schools each morning and a "Teen Time" each night. This is their fourth mission trip. They went to Clint in 1969 and 1970 and to Norwood, Colo., in 1971. The youth group includes Brenda Beauchamp, Lynda and Stanley Burgess, Kelley Bruton, Scott Clark, Donna and Richard Cornett, Jal Dennis, Mike Dickenson, Kerry and Ricky Fritz, Keith Herrley, Carla Hicks, Karen Lofton, Sherry Mills, D'Ann Myers, Randy Riggs, Darrell Rhodes, Joanna and LaDonna Powell, Weldon and Susan Sears, Connie Williams, Sherry Williamson, Johnny Wilson and David Yearwood. Sponsors are Odell Cox, Mr. and Mrs. Jimmie Cornett, Mr. and Mrs. Donald Fritz, Mr. and Mrs. Frank Prewitt, Rev. and Mrs. Miller Robinson and Mrs. Myron Roe. Not pictured are Mr. and Mrs. Jimmie Joe Key.

Four Get Probated Sentences

HOUSTON (AP) — Four members of the People's Party II have been given 10 year probated sentences in district court here following their conviction on charges of illegal possession of weapons.

The verdict was returned against James Carlton Aaron, 20, Edward Frost, 20, Harry C. Taylor, 19, and Vernon Denton, 24. They were arrested June 8, 1971 in a police raid of the party headquarters on Dowling street.

They were convicted of concealing a quantity of stolen guns. The jury acquitted the four of a charge of stealing the weapons.

Defense attorney Bobby Caldwell argued the arrest was the result of the party's political beliefs. He called it a conspiracy on the part of the state and said he would ask for a new trial.

"They want to say convict these people because of what they are and not what they did," Caldwell told the jury.

The former headquarters of the Party was the scene of a shootout between members of Peoples Party II and Houston Police in July 1970.

In that incident Carl Hampton, a local leader of the party was killed and several persons wounded.

The first passenger-carrying balloon flight lasted eight minutes when Joseph Montgolfier sent aloft a rooster, a duck and a sheep.

To protect a freshly seeded lawn, a quick and easy fence can be made of lightweight steel chain attacked to 1 x 3 inch wooden stakes.

Astronauts To Spend Eight Weeks In Chamber

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, HOUSTON (AP) — Three men will walk into an altitude chamber at the Manned Spacecraft Center next week and not come out for 56 days.

The three, astronauts Robert L. Crippen, William E. Thornton and Karol J. Bobko, are the subjects for the Skylab Medical Experiments Altitude Test (SMEAT), an eight-week dress rehearsal for the flight next year of an orbiting laboratory.

The astronauts will live in the chamber and work just as spacemen will next year aboard Skylab. The only difference will be that Crippen, Thornton and Bobko will be on the ground and not in the weightlessness of space.

Space agency officials say the purpose of the test, which begins Wendesday, will be to establish a baseline for Skylab.

By studying the effects on the men's bodies for 56 days of confinement on the ground, doctors will be better able to identify the changes that are caused only by weightlessness.

The astronauts are expected to be affected by such things as the cramped space, atmospheric pressures and gases, the unique skylab food and the tedium of life in a tank. But the effects are expected to be small, noticiable only to physicians and their instruments.

Everything in the test simulates the actual hardware in a skylab. The food is the same, the communications system is the same and even the medical experiments to be conducted are the same.

Atmosphere in the chamber will be maintained at 70 per cent oxygen and 30 per cent nitrogen at five pounds per square inch.

Thornton, Crippen and Bobko, however, will be able to watch television and talk with their families.

Skylab will be launched unmanned next March. The first of three crews to visit the orbiting laboratory will stay for 28 days. The next two crews will stay for 56 days each. The program is a test of man's ability to survive for long periods of time in space. The astronauts will also conduct scientific studies of the sun and of the earth.

None of the three in the SMEAT are on the Skylab crews, which, says Crippen, is one reason they wanted to do the est.

"I can think of better ways to spend the summer, says Crippen, "but this is a chance to contribute to Skylab."

He said their families are used to them being gone—an occupational tradition with astronauts and are glad they're getting the chance.

"Besides," quipped Thornton, "at least our wives will know where we are."

Consumption Of Lumber Up

WASHINGTON (AP) — Lumber consumption in the United States in 1972 will set an all-time record of about 46 billion board feet, according to estimates for the year by the National Forest Production Assn.

"The building industry accounts for between two-thirds and three-fourths of all lumber consumption in the United States with variations depending largely on the strength of home building," said NFPA Forest economist, Dr. John Muench Jr.

Muench said a domestic consumption level of 46 billion board feet would represent a gain of 20 per cent more than the 1971 consumption level, which was a relatively sluggish year for both housing and lumber. He attributed the bulk of the gain this year to the current housing boom.

"Mugger" Is Freed Gorilla

DENVER, Colo. (AP) — Ronald Lovato, 19, was jumped as he walked near a park and was unable to get his attacker off his back.

When Lovato struggled to a nearby house with the "mugger" still on his back, the startled woman who answered the door informed him he had a gorilla on his back.

City Park Director Clayton Freiheit said pranksters apparently released the 2-year-old, 34-pound female gorilla from her cage.

Teaver Urges SBI Elimination

AUSTIN, Tex. (AP) — The only sure way to reform insurance regulation in Texas is to eliminate the State Board of Insurance the board's former chairman said Sunday.

Larry Teaver, whose appointment to the board was rejected by the Senate July 7, appeared on "Capital Eye," a radio-television news panel show.

"We cannot eliminate the influence of the (insurance) industry without" getting rid of the board and replacing it with some other means of regulation, he said.

Teaver asserted that the remaining two board members, Durwood Manford and Ned Price, are dominated by insurance companies.

"Both members have been on the board approximately 12 years. They were not insurance men at the time of their appointment, and their only source of education has been the company people. They are totally oriented in the company direction. I have had many instances on the board where company people would actually come in and order the board to issue orders," Teaver said.

The former chairman said the board should be replaced either by an elected insurance commissioner or by a nine-member, part-time citizen board.

"Until we rid this regulatory agency of the company influences, it will never serve the consumer interest. It will only serve as a branch office for the companies," he said.

Teaver disputed claims by the remaining board members that Texas auto insurance rates are lower than those in most comparable states.

"If you take our five highest rating territories (including Houston and Dallas), our rates are not much lower than in other states," he said.

Teaver said there was a chance Smith might call a special legislative session on insurance reform if it appeared his recommendations could pass.

He blamed his rejection by the Senate mainly on pressure from "the small, gyp, gimmick companies" on whose operations the board cracked down while he was chairman.

Connally Not For McGovern

SAN CLEMENTE, Calif. (AP) — Former Treasury Secretary John B. Connally, a Democrat and close ally of President Nixon, has fired a verbal barrage in what promises to be a continuing White House campaign assault on Sen. George McGovern, the Democratic presidential nominee.

President Nixon has said he will avoid public involvement in politics until after next month's Republican convention. But he let Connally use the front lawn of the Western White House on Friday to take roundhouse swings at McGovern before cameras and microphones.

Identifying himself as a lifelong Democrat who never bolted the party ticket, Connally said he will not support McGovern and will try to rally Democrats behind Nixon.

Connally took aim at McGovern's pledge to bring home all American troops and war prisoners from Southeast Asia within 90 days after his inauguration if elected.

"Obviously," said Connally, "a president of the United States has no capacity, no power to bring home prisoners of war in the hands of the North Vietnamese.

"It is an unfair statement, and it is a statement that, frankly, sabotages the efforts of this administration and of the peace negotiators in Paris to try to bring the war to an end ..."

Connally came here to report to Nixon on a 35-day trip around the world undertaken at the President's request.

Asked about continuing speculation that Nixon might tag him to replace Vice President Spiro T. Agnew on the GOP ticket, Connally said he doesn't want the job and doesn't expect it will be offered.

Airlines To Seal Rear Stairways

DALLAS (AP) — Two large airlines have announced new security measures to discourage hijackings, and others reportedly are also in the process of taking additional precautions against air piracy.

Braniff Airlines said here Friday that its new security program includes changes that will make it impossible to open the rear stairways on its 727 aircraft.

A spokesman here said, "The ventral stairways on the 727s were the only possible exit for a man parachuting out of a 727."

The spokesman said hijackers have capitalized on the fact that the rear steps can be lowered beneath and behind the aircraft.

A Continental Airlines spokesman in Austin announced that it had started searching electronically all passengers in all its flights from that city. The searches include belongings carried in luggage as well as on board, he said.

Meanwhile, other airlines have indicated that increased air security measures may be forthcoming, but their spokesmen refused to discuss their nature.

Hangover Tips

LONDON (AP) — Doctors at Middlesex Hospital have been investigating how to avoid that morning-after feeling. Their conclusions: Stick to clear alcohols such as gin, white rum or vodka in preference to red wine, brown rum and whisky, which are heavier in hangover-inducing elements. They also recommend a tablet of fructose or fruit sugar while going home from the party.

THE SNYDER DAILY NEWS

SECTION B SNYDER, TEXAS 79549 SUNDAY, JULY 16, 1972

MRS. WALTER TONY SUTTLE

Miss Gooch, Suttle Pledge Vows June 8

The Kingston Avenue Baptist Church of Odessa was the scene of the marriage of Miss Carolyn Sue Gooch and Walter Tony Suttle. The double-ring ceremony, preformed by the Rev. Ralph Thompson, was held at 7:30 p.m. June 8.

An archway of candles banked by twin seven-branched candelabra decorated the altar. Twin baskets of white gladioli on pedestals and emerald foliage backed the arch to complete the setting.

The bride is the daughter of Mr. and Mrs. Boyd Brawley of Odessa. Mr. and Mrs. Walter Suttle of Snyder are parents of the bridegroom.

Given in marriage by her father, the bride was attired in white rochelle lace and satin stitched Venise lace. The ture-waisted lace silhouette was designed with a scalloped edge tatted Venise lace circling the stand-up neckline and outlining a set-in yoke bib of pintucked organza in the front molded bodice. The delicate scalloped lace edged the Edwardian sleeve at the wristline and completely ringed the hemline of the gown. A contoured ribbon sash emphasized the waistline above the flowing skirt with soft side gathers and back pleated fullness that swept into a graceful chapel-length train. Her silk illusion multi-tiered veil fell in a bouffant mist to the elbow around a face-framing cap of Venise lace and sprays of flowers highlighted with pearls and crystals. She carried a cascade of white marguerite daisies in showers from a Bible belonging to Mrs. Terry Gooch. A white cattleya orchid centered the lovely creation.

Miss Orna Katzman of Austin was maid of honor. Matron of honor was Mrs. Terry Gooch and bridesmaid was Miss Christy Suttle of Snyder.

The attendants wore identically styled carpet-length gowns of pin-striped voile in blush pink, lavender and hyacinth blue. A double ruffle of string lace threaded with corresponding color ribbon outlined the deep bateau necklines of the fitted empress bodices. The same string lace banded the perky caps of the long Juliet sleeves and also encircled the demi bodice lines above the easy gathered column skirts. Adorning their heads were matching colored meline picture hats with ripple brims and satin ribbon bows and streamers. They carried clutches of carnations, daisies and gypsophilia.

Best man was Walter Suttle of Snyder. Dee Lancaster and Don Kubena of Snyder served as groomsmen and ushers were Terry Gooch and Donald Gooch of Odessa, brothers of the bride.

The bride's mother chose a formal gown of orchid miramist nylon over satin with white accessories. The bridegroom's mother selected a formal-length gown of pink crepe with white accessorees. Both mothers wore double cymbidium orchid corsages.

Mrs. A.F. Hughes at the organ accompanied Cletus Kauk in selections of "A Time For Us," and "The Twelfth of Never."

The reception was held in the fellowship hall of the church. The bride's table was spread with a full gathered skirt of white polyester and overlaid in white satin. It was centered with an arrangement of pink and white snapdragons, blue carnations, lavender asters and gypsophilia in a tall silver cherub holding four tall cathedral tapers. The bride's confection was three-tiered, separated by square lace colums and topped with the traditional bridal figurines in a filigreed gazebo. The bottom layer was square and decorated with garland drapes and handmade sugar bells. The bride's colors, used again on the cake, were in multi-colored flowers on climbing vines on the other tiers, also enhanced by countoured lace designs. Fruit punch was served from a crystal bowl and nuts and mints were also offered.

Guests were registered by Mrs. Gerald Chase at a table decorated with a royal blue budvase and container filled with individual rice bags.

The houseparty included Miss Eva Westmoreland and Miss Sherry Wood.

For a wedding trip to Ruidoso, N.M., and El Paso, the bride wore a baby blue pantsuit, beige accessories and the orchid lifted from her bouquet.

The bride is a graduate of Permian High. Her husband, a graduate of Snyder High, attended Midwestern University at Wichita Falls and Hardin-Simmons University at Abilene. The couple will make their home at the Westwood Apts. at Odessa where Suttle is employed by the Odessa Police Dept.

The rehearsal dinner, held June 6 at Furr's Cafeteria, was hosted by the Bridegroom's parents.

Flank Steak Is Versatile

By CECILY BROWNSTONE
Associated Press Food Editor

Flank steak may be stuffed and rolled up for cooking on the outdoor grill. Or, if you prefer, you can bake the roll in the kitchen oven.

This cut of beef is the true "London Broil." Although other cuts may be called by this name on the meat counters of supermarkets, they are not the real thing.

HEARTHSIDE FLANK STEAK

1 flank steak, about 1½ pounds
1 tablespoon butter
2 tablespoons finely chopped onion
½ cup fine dry bread crumbs
1 can (4½ ounces) deviled ham
¼ teaspoon salt
Barbecue Sauce

Cut off excess fat from flank steak and score on one side.

In an 8-inch skillet heat the butter; add the onion and cook gently until softened; mix in crumbs, deviled ham and salt. Spread deviled ham mixture over scored side of steak; roll up, beginning at short end. Fasten roll with short skewers.

Place steak on grill about 5 inches above hot coals. Baste with barbecue sauce. Periodically turn and baste steak, cooking to desired doneness. For a rare steak, about 35 to 40 minutes will be needed.

Steak roll may be baked in a preheated 400-degree oven for about 50 minutes.

Woman's Calendar

THURSDAY

Snyder Newcomers Club will meet at 10 a.m. at Snyder Savings and Loan. Mrs. Wilson Hensiek will present a program on knitting.

Middle Ear Transplants Seen

CHICAGO (AP) — Thousands of people with middle-ear deafness now can look to transplants to restore hearing, according to Northwestern University Medical School.

The school has established a middle-ear transplant program, to replace damaged ear drums and middle-ear bones for people with conductive hearing loss.

Headed by Dr. Eugene L. Derlacki, professor of otolaryngology, the Ear Homograft and Temporal Bone Research Laboratory will have headquarters in Chicago Wesley Memorial Hospital, funded by the Mid-America Hearing Research Foundation. It will be the first ear tissue bank and transplant research program in the Midwest.

Upwards of 20 million Americans have tried slipping away from urban life for a relaxing afternoon or weekend in America's hinterlands, according to Himalayan Backpacking Equipment.

French Toast Big Aid To Tuna Sandwiches

By CECILY BROWNSTONE
Associated Press Food Editor

One of the best ways to treat a tuna sandwich is to French-toast it. That's exactly what is done in the following recipe and it produces an absolutely delicious offering for lunch, supper or a snack.

The filling for this sandwich is especially good because along with the tuna it calls for cheese and bacon. We think your family and friends will like it.

FRENCH-TOASTED TUNA SANDWICHES

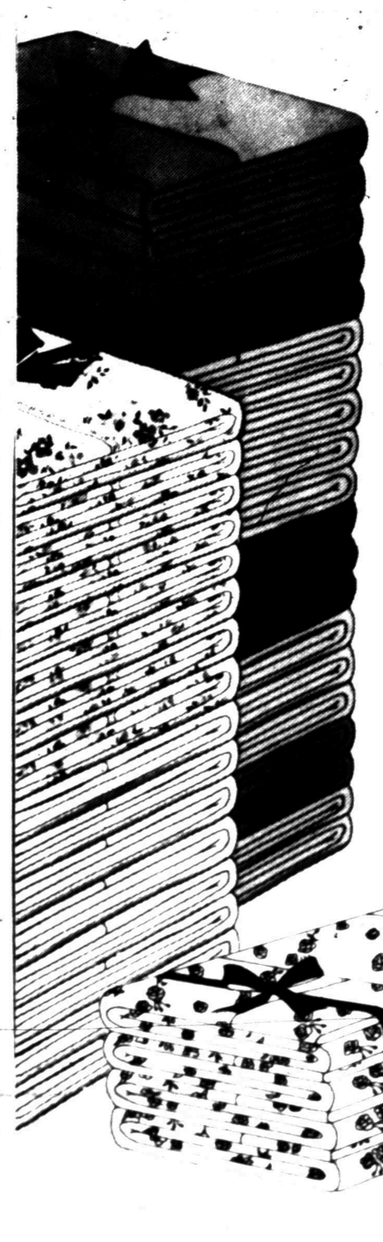

2 cans (each 6½ or 7 ounces) tuna in vegetable oil
2-3rds cup finely chopped celery
¼ cup finely chopped onion
2-3rds cup grated (medium-fine) cheddar cheese
4 slices bacon, cooked until crisp and crumbled
½ cup mayonnaise
¼ teaspoon salt
¼ teaspoon pepper
¼ teaspoon dry mustard
12 slices bread
2 eggs
½ cup milk
2 tablespoons butter

In a medium mixing bowl mix together the undrained tuna, celery, onion, cheese and bacon. In a small mixing bowl whisk together the mayonnaise, salt, pepper and mustard; add to tuna mixture and mix lightly. Spread on 6 slices of bread; top with remaining bread.

In a shallow dish or pie plate whisk eggs slightly; add milk and beat to combine. Dip sandwiches on both sides in egg mixture.

In a 10-inch skillet heat 1 tablespoon butter; add 3 of the sandwiches (one sandwich cut in half) and brown over moderate heat, turning once; keep hot in a low oven. Fry remaining 3 sandwiches in remaining 1 tablespoon butter the same way. Serve garnished, if you like, with gherkins and cherry tomatoes. Makes 6 servings.

MR. AND MRS. BENJAMIN GROVER BRUMIT
(Photo By Craft)

Miss Bogle Weds B. Brumit On June 5

Nancy Marie Bogle became the bride of Benjamin Grover Brumit at First Assembly of God church at 3 p.m. July 5, 1972, the day of her parents Twenty-fourth wedding anniversary. The Rev. Buck Hatfield of Faith Baptist, Snyder, officiated the double-ring ceremony.

Parents of the couple are Mr. and Mrs. W.A. Bogle and Janie Brumit, all of Snyder.

The bride was given in marriage by her father. She wore a floor-length gown of silk with lace overlay train and sheer lace sleeves. The lace train and sleeves were accented with small white buttons. Her floor-length veil was accented with small blue flowers on the headpiece. She wore a blue garter and something old were pennies minted in the birth years of the couple in her shoe. She carried a bouquet of white carnations and blue flowers mounted on a white Bible belonging to her sister, Betty Davis.

Maid of honor was Mary Ann Richardson, of Snyder. Bridesmaids were Kate Nitsch, Debbie Bank and Dorothy Brumit, sister of the groom. They wore long dresses of blue-checked gingham flocked with white flowers and garden hats banded with material matching the dresses. The maid of honor carried blue carnations and the bridesmaids each carried one white carnation tied with blue and white streamers.

Flower girl was Betty Patrice Davis, niece of the bride. Ring bearer was Marty Connors.

James Matthews served as best man. Groomsmen were Billy Blevins, Kenneth Hoyle and Bill Bogle, brother of the bride. Joe Aycock and Mack Dishman served as ushers.

The church was decorated with a candelabra holding fourteen tapered candles flanked by two baskets of blue carnations.

A musical program was provided by Janna Tharp, organist, and Judy Connors, soloist, who sang "Because."

A reception followed in the fellowship hall of the church. Included in the houseparty were Doris Eubanks and Nita Buchanan, sisters of the groom and Betty Davis, sister of the bride. Amy Brown and Terry Watson of Snyder presided over the guest book.

Following a wedding trip to Dallas, the couple resides at 2409 26th Street

Both bride and groom attended Snyder High School. The groom is employed at Clark Lumber Company.

Out of town guests for the wedding came from Lubbock and Hamlin.

SUMMER LUNCH

Stuffed Tomato salad with Lettuce and Cucumbers Crusty Rolls
Fresh Peach Pie
Beverage

STUFFED TOMATO SALAD

Mustard perks up the tomato filling.

1 package (3 ounces) cream cheese softened
2 tablespoons prepared yellow mustard ¼ teaspoon salt
4 hard-cooked eggs, chopped
½ cup chopped cucumber
¼ cup chopped scallion (green onion) 4 to 6 tomatoes
Lettuce
Sliced peeled scored cucumber

In a mixing bowl mix together the cream cheese, mustard and salt. Mix in eggs, cucumber and scallion. Cut each tomato into 8 sections, cutting almost through the bottom. Separate "petals" and fill with egg salad. Serve on lettuce and garnish with cucumber. Makes 4 to 6 servings.

MR. AND MRS. HORATIO GLEN MIEARS

Couple Pledges Vows At Chapel

Marva Gay Lee and Horatio Glen Miears pledged double-ring wedding vows at 7:30 p.m. July 8 at the Bell-Seale Chapel with the Rev. Dayton J. McCarter officiating at the ceremony. The chapel was decorated with two floor baskets of white gladiolas and roses.

The bride is the daughter of Mr. and Mrs. Richard W. Derrick, 2401 28th Street, Snyder. Miears is the son of Mr. and Mrs. H.R. Miears of 4300 Ave. U, Snyder.

Given in marriage by her father, the bride wore a ballerina-length linen dress of A-line design. The dress featured short sleeves with two inch brocade trim and a V-neck with three inch brocade trim. Her veil of net illusion was held by a headpiece of simulated pearl beading. She carried white carnations and English ivy in a cascade design atop a white Bible. For something old, the bride carried a white Bible, something new was her dress, her veil was borrowed and her garter was blue. She carried a penny in her shoe for good luck.

Sherry Doty of Snyder served as maid of honor. She wore a blue street-length dress and carried a yellow camellia.

Denise Derrick of Snyder and Carrie Lynn Creamer of Mansfield, both cousins of the bride, served as flower girls. They both were attired in yellow.

Ring bearer was Joe David Creamer of Mansfield, cousin of the bride.

Ronald Joe Lee of Snyder, brother of the bride, served as best man. Ushers were Tim Derrick of Snyder, brother of the bride and Tony Lee also of Snyder, cousin of the bride.

Lynn Bethel, organist, provided musical selections of "The Twelfth of Never" and "The Wedding March."

A reception was held at the Towel Park Pavilion. Mrs. Curtis Derrick served the three-tiered wedding cake which was topped with a miniature bride and groom. Tammy Derrick presided at the bride's book.

For a wedding trip to Fort Worth, the bride chose a white hot pants outfit trimmed in blue.

The couple will make their home at Camp Fort Sam Houston where the groom is stationed with the Army.

Out of town wedding guests were from Mansfield, Abilene, Merkel, Andrews, Ira and Colorado City.

Police Make It Hard For Burglars To Do Their Thing

By VIVIAN BROWN
AP Newsfeatures Writer

Playing cops and robbers is not a game with big city police these days. They are using a plan that makes it harder for house burglars to do their thing with finesse. This vacation season should be a good test for householders.

A success in Monterey Park, Calif., where the plan—Operation Identification—began in 1963, it is operating in 75 other cities, and was just adopted by Connecticut for 85 towns under state police jurisdiction. The householder's protection lies in marking his possessions with an engraving tool, listing his valuables and wearing a sticker on his house or apartment.

In Connecticut, information on losses and identifying number—a driver's license number—is teletyped to the National Crime Information Center in Washington D.C., an FBI-operated computer center into which state and local police agencies are tied. In larger cities, such as New York, where the plan is now being formulated, Social Security or other numbers might be used.

With the number etched on possessions—silver, fishing rods, bicycles, stereos, television—police can trace owners within minutes, and while the idea is not foolproof—some robbers may re-etch numbers—it will certainly give a robber a new slant on his taking ways and make a fence think twice.

Even in areas where such a program has not begun, householders might mark items of value in the event of their loss, one can turn the number over to the police.

Etching tools have needle-like points and are handled like pencils. In marking items, care should be taken to mark certain numbers—3, 6, 9—so they can not easily be turned into eights. In Connecticut, engraving kits are being loaned by police, and elsewhere they may be rented. When the tool is returned, a sticker is issued. A householder can fill out a form listing valuables and turn it over to the police where it will be kept in a confidential file. Or a wife may prefer to keep the list at a bank at her husband's office.

A sticker states that all goods of value, have been registered with law-enforcement agencies. Police feel it is a great deterrent, if placed where it can be seen outdoors or on an apartment door.

The plan may also result in insurance premium reductions. One company, The Hartford, has just announced a 10 per cent reduction on homeowner's policies for those policyholders meeting requirements of Connecticut's state police program.

These days the loot "is anything that can be sold," says Sgt. Robert Rasmussen of the Hartford, Conn., State Police. Favored items are stereos, cameras, watches, jewelry, silverware.

It is comforting to know that stolen possessions might be returned, but heirlooms and other articles of sentimental value that cannot be replaced might be stashed in a safe place after they are numer etched. Bank vaults are safe places for jewelry and documents; relatives might store silver; neighbors might be persuaded to hold your prize paintings while you are away.

In foiling vacation robberies, avoid calling attention to vacation plans. If it must be,a car should be serviced at the local garage before it is packed to the hilt with suitcases. And if one owns a house, one shouldn't suddenly change the environmental pattern from shaggy cluttered to neat stylish.

Even with the best-laid plans a disconnected telephone is often a thief's tipoff.

Miss Loper, Harlow Repeat Vows July1

Linda Lou Loper and Russell Larry Harlow exchanged double-ring wedding vows at 2 p.m. July 1 before an altar decorated with baskets of yellow carnations. The Bethel Assembly of God Church of Snyder was the scene of the marriage and the Rev. R.L. Helms, pastor of the church, officiated at the ceremony.

The bride is the daughter of Mr. and Mrs. Lonnie Loper of Snyder and the bridegroom is the son of Mrs. L.W. Mustin of Odessa.

Presented in marriage by her father, the bride wore an empire styled gown of white imported nylon organza over white satin. The waistline was accented with imported val lace and the mandarin neck and cuffs were trimmed with lace and self buttons. She carried a bouquet of yellow and white roses. Following tradition, the bride wore an old necklace belonging to her grandmother, Mrs. Nora Loper. Something new was her dress, her garter was blue and she borrowed her mother's birthstone ring.

Dianne Grizzle of Snyder served as matron of honor and best man was David Yager of Odessa.

Organ music was provided by Kathy Rhodes.

A reception followed in the church. The bride's table was decorated with a memory candle surrounded by yellow carnations and a three-tiered wedding cake decorated with yellow roses. Debra Loper and Cathy Merritt presided at the table.

For traveling, the bride chose a yellow and white knit dress and she wore a corsage lifted from her bridal bouquet. Following a week-long wedding trip to El Paso and parts of Mexico, the couple will reside at 818 East 16th Street, Odessa.

The bride is a graduate of Snyder High and attended Western Texas College one year. Her husband is a graduate of Odessa High and served for three years in the Navy.

Out of town wedding guests were from Odessa, Lubbock and Alvarado.

When you are serving prepared grapefruit halves, put a dab of currant jelly in the center of each.

HONORED AT COFFEE—Mrs. J.W. Hargis of Houston was honored with a coffee Friday morning in the home of Mrs. Robert M. Wilson, 3404 Irving. Pictured, left to right, are Mrs. A.J. Wilson who is moving to Houston, Mrs. Hargis, Mrs. Wilson and Mrs. Joe League, a new resident of Snyder who moved here from Hamlin. Guests included Mrs. Jim Lyon, Mrs. Frank Osborne, Mrs. Lanier Campbell and Mrs. Ben Givens. All are associated with General Crude Oil Company.

Shiffletts Enjoy Family Reunion

Friends and relatives attended the Shifflett family reunion held this past Saturday and Sunday at the Towle Park Barn.

A total of 79 persons attended and door prizes were given.

Traveling the greatest distance for the event were Mr. and Mrs. Earl Shifflett of Louisville, Kentucky. Also attending were Judy Shifflett of Hillsboro, Mr. and Mrs. V.C. Shifflett, Mr. and Mrs. J.H. Shifflett, Mr. and Mrs. Johnny Fowler, Selene, Steve and Stuart, Donnie, Bobbie and Newt Collins, V.C. Shifflett Jr., Rose Staples, Tam and Billy and Mr. and Mrs. Steve Fowler and Kim, all of Abilene, Bryan Gibson of Carlsbad, N.M., Naura Hale of Alabama.

Others attending were Mr. and Mrs. Herman Shifflett and Pam of Big Spring, Mr. and Mrs. W.B. Dunlap, Mr. and Mrs. W.C. Dunlap Sr., Earnest Dunlap, Mr. and Mrs. W.C. Dunlap Jr., Mary and Gary, Elaine Boswell, Jeanette Boswell and Vicky Dunlap, all of Sweetwater.

Also Mr. and Mrs. H.E. Shifflett, Mr. and Mrs. E.E. Shifflett and Dale, Mr. and Mrs. Horace Shifflett, Susan and Donna, Mr. and Mrs. R.D. Stansell, R.D. Jr., Barney and Becky, Mr. and Mrs. Gary Witte, Carl and Brent, Lawayne Fagan, Mr. and Mrs. Tom Fennell, Mr. and Mrs. W.E. Cox Zenia and Billy Ray, Mr. and Mrs. David Shifflett and Laura, Ernest Charles Shifflett, Leo Heath, Sue Joosten and Jodey Ashley, all of Snyder.

There too were Sally Patterson, Ellen Dunlap and Charlene Eldrige, all of Andrews, Mr. and Mrs. Ken Shifflett of Lubbock and Mr. and Mrs. Lawrence Barnes of Hermleigh.

The next reunion will be August 11-12, 1973

ON THE HOUSE

By ANDY LANG
AP Newsfeatures

More than any other single factor, a loose hinge is the probable cause of that common problem in many houses—a sagging door.

The loose hinge is not always suspected as the cause of the trouble because it usually isn't too apparent. When a hinge is examined closely while a door is being opened and closed several times, only a very tiny movement of the hinge plate may be noticeable. If a screwdriver blade is placed on the slot of each screw and turned clockwise, ft should not move even a fraction of an inch. If it does, the hinge is not as tight as it should be.

While retightening a loose screw may correct the trouble temporarily, it is better to reset it. This is done by removing the screw and filling the hole with wood putty or plastic wood. When it hardens, redrive the screw into place. A wooden plug may be used in place of the putty or plastic wood. When it is necessary to secure the hinge immediately for a few days—and nothing else is handy—steel wool should be pushed into the hole before redriving the screw.

Sometimes the hinges and all the screws are tightly in place. The next step then is to place a shim under the lower hinge leaf on the door jamb. The shim can be a thin piece of wood or cardboard. To insert it in place, remove the screws that hold the leaf in place, place the wood or cardboard under the leaf and reset the screws so that they go right through the shim.

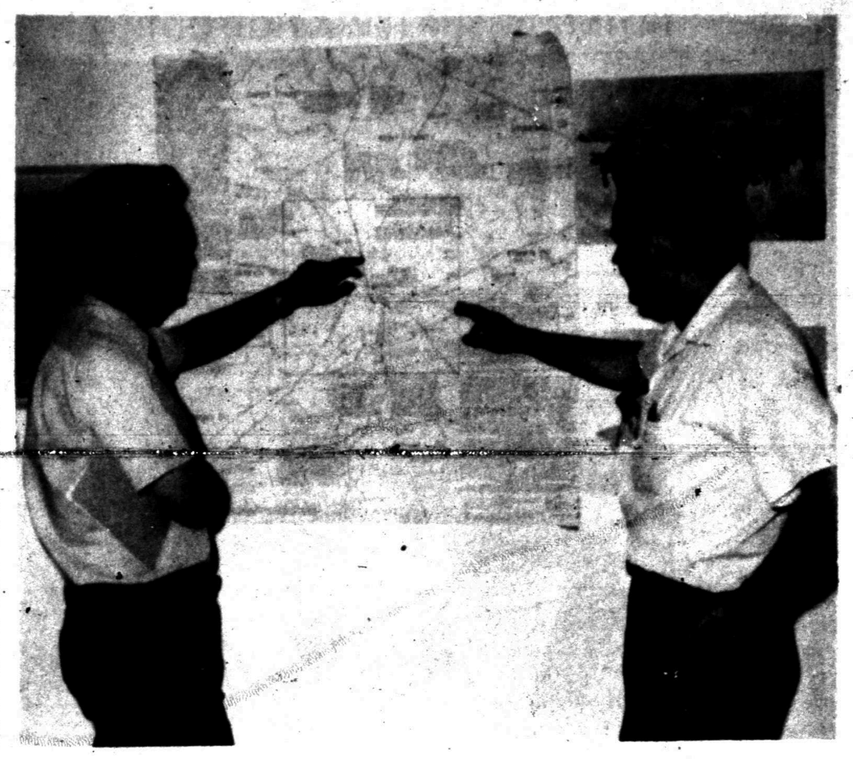

You will find that a single shim may be sufficient to correct the sagging. If necessary, use two of them. Occasionally, when the door still sags, you will have to deepen the mortised area under the upper hinge plate. Use a sharp chisel for this and work very carefully, taking out only a little of the wood at a time.

A possible source of trouble when a door sticks at the bottom is a threshold which has loosened and therefore is a fraction of an inch higher than it originally was. Look for and remove any loose nails. Don't just hammer them back into place. Using new, preferably threaded nails, retighten the threshold. If the threshold is made of hardwood, as most are, drill pilot holes for the nails. Otherwise you may find the wood splitting as you drive in the new nails.

Extreme caution should be used if any sanding or planing of the door is necessary when moisture has caused swelling. If too much is taken off, there may be a big gap when a change in the weather dries out the wood. But if it is done, be very sure to reseal, varnish or paint the sanded or planed area.

(Squeaky floors and stairs are among the 35 subjects covered in Andy Lang's helpful handbook, "Practical Home Repairs," available by sending $1 to this newspaper in care of Box 5, Teaneck, N.J. 07666.)

Soften vanilla ice cream and stir flaked coconut and a little light rum into it; freeze. Serve with chocolate sauce.

DISCUSS MAP—R.J. (Red) Walker, right, points our Marcy's Trail to Earnest Sears on the Area Map of Scurry County to be featured in the Scurry County Museum. Sears is president of the Museum Association and Walker, an experienced cartographer, has spent more than ten years researching and drawing this map. It shows old trails and historical incidents prior to 1880. The original is drawn on white linen in black India ink. Copies will be available for sale when the Museum Room is opened at the Learning Resource Center, Western Texas College.

Make-Ahead Dessert

ORANGE CARAMEL PUDDING

1¼ cups sugar
2 tablespoons butter
1 teaspoon salt
¼ teaspoon orange rind
6 eggs, separated
¼ cup flour
1¼ cups orange juice
½ cup heavy cream, whipped
1 orange, peeled and sliced

Cook ½ cup of the sugar in a saucepan over low heat until sugar melts and forms a light brown syrup; pour into a 1½-quart casserole. Cream butter with remaining ¾ cup sugar until fluffy; add salt and orange rind; add egg yolks, one at a time, beating well after each addition; blend in flour; stir in orange juice. Beat egg whites until stiff. Fold orange mixture into egg whites; pour over syrup in casserole. Set in pan of hot water and bake in a preheated 350-degree oven about 1 hour. Cool; chill. Garnish middle of pudding with whipped cream; surround with orange slices. Makes 6 servings.

TRYING TO SLIP HIM A HOTFOOT!

New Era Of Space Exploration Beginning

EDITOR'S NOTE: America's moon-landing program ends this year. But a new era of space exploration is beginning—one that will see space work for earth's societies. In astronaut parlance, it could be called a midcourse correction for Spaceship Earth.

By HOWARD BENEDICT
AP Aerospace Writer

CAPE KENNEDY, Fla. (AP) — The highly successful Apollo moon-landing program ends this year and America will enter a new era of space exploration, turning attention back to earth with orbiting projects destined to open a cornucopia of benefits to mankind.

Apollo 17 sets sail Dec. 6 with a sophisitcated set of new instruments and a geologist aboard to wrestle a few more secrets from the inscrutable moon.

After that it may be decades before man again sets foot on the barren lunar surface. The emphasis, in both the United States and Soviet Union, will be on making space work for society on earth—concentrating on better communications, education, weather prediction and control, navigation and air traffic control, monitoring earth's resources and developing new medical and manufacturing processes.

Photographs taken by Apollo astronauts from deep in space helped trigger this trend to look more inward toward the earth than outward toward the stars. Ths dramatic pictures showed our globe as a tiny, lonely traveler, its ecological system a fragile thing when weighed against the vastness of space.

The shift might be termed, in astronaut parlance, a midcourse correction for spaceship earth.

Within five months after the final Apollo crew comes home, the United States' first space station, Skylab, will be lofted into orbit. Three different three-man crews will spend a total of five months aboard in 1972, setting guidelines for large, permanent stations of the 1980s.

In gestation is the space shuttle, a rocket plane that will operate like an airliner, making countless trips into orbit and opening the portals of space to men and women of many nations and walks of life—from tourist to scientist.

Between Skylab and the shuttle there will be perhaps the most significant flight of all—a joint orbital mission in 1975 by American astronauts and Russian cosmonauts. The impact of this symbolic meeting of Apollo and Soyuz crews can only be speculated on, but it could herald greater cooperation in many fields between the two powers.

In the future, international crews could embark on long missions to Mars, Jupiter or other farflung outposts in the universe.

While man explores new horizons, scientists and geologists will be busy for years studying the treasure chests of rocks and wealth of scientific data gathered by Apollo as they seek to unravel the mystery of the origin of the moon, earth and our solar system.

Ths information collected by five moon-landing crews already has told some wondrous things. It no longer is the same old moon smiling down on us as it did before Apollo. It is a body that has proved full of surprises.

Ths vision of a cold, dead planet has given way to an amazing variety of geological activity—numerous small moonquakes, heat estimated at more than 800 degrees near the center, ancient volcanoes, a trace of magnetism and the possibility that water vapor is escaping through cracks in the crust.

There is general agreement among scientists on these points after evaluating Apollo data:

—Mechanisms for evolving life halted on the moon long before even the basic building blocks of life were formed. Hence, there is no life there.

—Geologic evolution stopped early on the moon, some three billion years ago. As a result, the moon is frozen at a point of primitive development. A big question is why it suddenly turned off its heat machine and essentially stopped evolving after only a billion years or so.

—There are essentially only three types of rocks on the moon, in contrast to hundreds of different types on earth.

—There is evidence that volcanoes wracked the moon early in its history, sculpturing valleys, rilles, plains and mountains and indicating it once had a hot, molten interior like the earth's.

—The moon is made up of onion-like layers, with a crust about 38 miles thick and a mantle and a core below that, making it more earth-like than many experts believed possible.

Before Apollo, there were three major theories about the origin of ths moon: that it was born at the same time as our solar system in the convulsive coming together of space debris and a giant gas cloud; that it once was part of the earth and for some reason broke away, and that it was a wanderer from outer space that got caught in earth's gravity field.

Some scientists have not ruled out any of the theories, but most now feel sure that the moon, earth and other planets in the solar system were created in the massive gas cloud 4.6 billion years ago.

Apollo 17 hopefully will fill in missing chapters in the moon's history. New instruments to be carried may answer such questions as:

—Is the moon slowly fashioning an atmosphere and interacting with the solar winds to create building blocks of future life?

—Can gravitational waves, pounding across the oceans of space from an early epoch of the universe, tell us when time began?

—Under the bedrock of the frozen lunar interior are there layers of ice or permafrost that man can tap to make air and water for permanent bases on the moon?

On the crew will be ths first astronaut-geologist, Dr. Harrison H. Schmitt, who will be able to make on-the-spot evaluations of certain rocks and geological features that might escape the untrained eye. Flying with him will be Navy Capt. Eugene A. Cernan, mission commander, and Navy Cmdr. Ronald E. Evans.

The landing site is a place called Taurus-Littrow in the northeast quadrant of the moon. It is a region of light-colored mountains and dark valleys that may be filled with volcanic ash.

The immediate landing site is believed to be younger than any previous Apollo site, formed perhaps three billion years ago. But within driving distance of the moon car are formations which might date back 4.6 billion years to the birth of the moon.

Because the moon has no atmosphere, or wind or water or living thing, the first billion years of its history has not been eroded away as it has on earth. So if some of the rocks are 4.6 billion years old, scientists may learn something about the early history of our planet and others. The oldest rocks found on earth are 3.5 billion years old.

Perhaps one of Apollo's greatest contributions was the awareness it gave man of the limitations of his own planet. To see earth as a complete closed ecological system floating in the blackness of space was an emotional shock to many.

They realized just how fragile earth is, protected from the searing radiation of the sun only by a 400-mile-thick atmosphere. The picture of a marble-like earth relayed by Apollo 8 helped foster a surge in popular interest for a cleaner environment, for better management of natural resources and the preservation of the ecological balance.

The question was raised: Shouldn't we take a substantial portion of the space dollar and devote it to earth-related problems such as pollution and providing for a growing population?

After Apollo 17, Skylab will waste little time pioneering in that direction.

Skylab is a two-story laboratory, with the volume of a medium-size house, which is to be launched unmanned by a Saturn 5 rocket next April 30. The following day, a three-man crew is to be launched in a modified Apollo capsule by a smaller Saturn 1B rocket.

Junior Editors' Quiz on BEAVERS

QUESTION: *How do beavers build their homes?*

• • •

ANSWER: The beaver is the largest of the rodents, usually weighing about 35 pounds. It is known for its intelligence and has been called the engineer of the animal world. The beaver builds a lodge or home on the banks of lakes and streams or in a shallow part of a pond. The lodges are well constructed of twigs and grass plastered with mud. There is an upper and lower chamber. Beavers enter and leave the lodge through underground tunnels or canals. They stack branches on top of the lodge to conceal it. Their home doesn't wash away because it is strong and because the place selected is not in the current of a stream. The lodge protects the family from enemies and gives access to food which is stored in the lower chamber. There are many lodges established around a pond where there are trees on the bank. The trees are necessary for building and for food.

Beavers usually mate for life and have from two to six young each year. The young remain with the parents for two years. Sometimes, when the area becomes overcrowded, young beavers move to another pond and start to establish homes.

CONCLUDE SEASON'S ACTIVITIES — Shown are some of the participants, leaders and supervisors in the summer recreation program for special education which concluded activities for the season Thursday at the Humble-Smith School.

Summer Program For Special Education Ends

A summer recreation program for special education pupils concluded its activities for the season Thursday at the Humble-Smith School.

The generosity of the Snyder Shrine Club, made possible the Special Education Summer Recreation Program. The Shriners contributed more than half the needed funds to conduct the six week program. This money was used to pay the salaries of the director and assistant director, and the general expenses for the project.

The Scurry County Association for Retarded Children provided money for the salaries of the teen-age counselors. The Snyder Public Schools furnished transportation and the facilities where the program was held.

The purpose of this program was to provide recreational and social outlets for people of Scurry County who are mentally handicapped. A total of 18 participants took part in the program. They ranged in age from 4 to 48.

Activities for the group were varied, with the enjoyment of the participants as the most important goal. Mr. and Mrs. Billy Huddleston furnished swimming facilities for daily water activities. Playing croquet, baseball, walking, exercising, utilizing the obstacle course and playground equipment and going bowling, were some of the physical activities. Other things were feeding the ducks, fishing, weiner roasts, arts and crafts, and game playing during rest periods.

Two out of town trips were taken. One was to Lake Colorado City. Mr. and Mrs. Bill Banks took all the participants for a boat ride. The other trip was to the Abilene Zoo.

Many people were involved in making the Summer program a success. Other than organizations and individuals already mentioned, those involved in some way were Mrs. Joye Loyd, Mrs. F.M. Stephens, Mrs. J.W. Everts, Mrs. Oscar Hooper, Mrs. Bob Eime and Mrs. Greg Nelson.

Greg Nelson acted as the director of the program and Shirley McDaniel was the assistant director. They planned the daily activities and coordinated the work of the teen-age counselors. The counselors are members of the local TARs, a group of teen-agers who have a common interest in aiding retarded individuals.

The TARs who worked during the six weeks period were: Paula Baldwin, Connie Byers, Diane Eime, Frank Farquar, Felisha Huddleston, Roxanna Huddleston, Joanne Hudson, Sharon McDaniel, Shelby McDaniel, Rosa Lee Perkins, Geni Sealey, Bubba Stephens, Freda Stephens, Rhonda Sutton, Cleta von Roeder, Teressa Walker and Gelene Williams.

Designers Trying To Entice

ROME (AP) — Italian fashion houses began unveiling their fall-winter collections today with designers trying to entice rather than command.

"There is no longer a hard trend in haute couture," said American-born designer Tiziani, normally one of the pace-setters for the jet-setters.

Despite what he said, Tiziani's style is a classic sportwear look for daytime or evening wear. Coats are looser with modified kimono-type sleeves.

Designers are trying to eliminate such superfluous features as padding, and to keep the lines simple and sober. But they have made up for it in other ways.

Fancy jewelry is an eye-catching feature of many collections.

Also in vogue are the soft cloche hats.

Talitzine offers fur turbans as an option.

Some designers still favor trousers, baggy for evening wear. Others feature the easy-to-wear shirtwaist dress. Dresses have the last word in a bid for greater femininity. Skirts are mostly knee length, in daywear at least, but one designer plans to lower hemlines at the back into a sort of train.

Miss Wood To Rewed Wagner

HOLLYWOOD (AP) - Natalie Wood and Robert Wagner will be remarried aboard a yacht off the California coast Sunday afternoon.

A spokesman for the actor made the announcement Friday.

Miss Wood, 33, and Wagner, 42, ended their first marriage with a divorce in 1962.

Sea Anemones Are Deceiving

MIAMI (AP) — Sea anemones appear to be flower-like plants. Actually, says Capt. Bill Gray of the Miami Seaquarium, they are carnivorous animals which use their "petals" as stinging tentacles to catch and poison their prey.

In the matter of the marriage of Joe Guerrero and Mary Guerrero, dismissed.

In the matter of the marriage of Faye Annette Boen and Fred Wayne Boen, dismissed.

In the matter of the marriage of Eva Alarcon and Frank Alarcon, dismissed.

In the matter of the marriage of Betty Jean White and Roy Carl White, dismissed.

In the matter of the marriage of Virginai Reyes and Ismael Reyes, dismissed.

In the matter of the marriage of Edward Tadlock and Zellia Tadlock, dismissed.

In the matter of the marriage of Alvis Connell and Helen Elaine Connell, dismissed.

In the matter of the marriage of Debra June Jones and Timothy Joe Jones, dismissed.

In the matter of the marriage of Joyce Plumlee and Robert Plumlee, dismissed.

Manuel L. Espinoza, Jr. Vs. E.B. Dennis and Jal Ray Dennis, dismissed with prejudice.

Intensive Work Marked Texas Special Session

EDITOR'S NOTE: All of the clamor associated with the Democratic National Convention the past week overshadowed the close of a special session of the Texas Legislature shortly before the big show opened in Miami Beach. Rep. Renal B. Rosson of Snyder, who not only sat in on the legislative session but also served on the House Appropriations Committee which had a big hand in producting the key legislation of the session, has compiled the following report and made it available to the Snyder Daily News.

By RENAL B. ROSSON
State Representative

The session came to a close Friday night, July 7, at 8 p.m. following three weeks of intensive work on budget matters. We were able to pass an appropriations bill with adequate financing and without additional tax being levied. This has beer. my goal for sometime.

The session was more intensive for some members than for others but being one of the newly appointed members to the House Appropriations Committee it was most interesting and challenging for me. Under the Joint rules the House Appropriations Committee meets jointly with the Senate Finance Committee for all hearings on budget requests. After these hearings the House Appropriations Committee and the Senate Finance Committee met separately for consideration and preparation of each chamber's respective budget spending proposals. Neither House was willing to accept the other's proposals and a five-man free conference committee was appointed from each House to work out the difference between the two Houses. These ten men worked most diligently all day and until midnight July 3 and returned at 10 a.m. July 4 to finish the job. It was my pleasure to meet with them for these hearings which I found to be most interesting and informative. All meetings were open to the public with open and free debate on all matters which seemed most pleasing, particularly in the House of Representatives. Under the leadership of Speaker Rayford Price of Palestine and House Appropriations Chairman Bill Finck of San Antonio all matters were given full and deliberate consideration.

Budget matters were the only legislation considered during the session with the exception of a few resolutions since the Governor did not choose to open the special session for other bills. Some of us were particularly concerned about revising the so-called trailer brake and light measure passed during the last regular session. I was one of the thirty-nine members in the House that voted against this trailer bill during the regular session but seeing its ill damaging effects to our agricultural programs I was most concerned and hoped to tackle a rewriting of it during this special session.

Governor Smith had so many requests on other bills apparently he thought it would deter consideration of budget matters to also be considering such other proposals at the same time. Some of us also had a bill in for consideration to remove by statute the flight schools and instructors from being subject to the provisions of the proprietary School Act. This latter matter was of major state concern and needed to be taken up for early consideration. There were also many local bills on which members desired to have hearings. Of course, a thirty (30) day special session does not give much time for full and proper public notice and hearings on a host of matters of statewide concern.

We did have a rather unusual work schedule for the House of Representatives in that on Saturday prior to July 4 the appropriations bill was laid out for consideration. The House leadership as well as most of the members desired to hear and fully debate the appropriations bill prior to the July 4 holiday, and this Saturday was the earliest date possible to hear and consider it. Under our new reform rules an appropriations bill must be laid on each members' desk for study at least 72 hours prior to a hearing on it. This session lasted until 3:45 a.m. Sunday but this did give some members of the legislature an opportunity to be home for July 4 activities.

There were approximately 96 amendments offered to the bill on the House floor with approximately one-half of them being adopted by the House members which was somewhat different in that previously it had been almost impossible to amend an appropriations bill by a floor amendment not endorsed by the Appropriations Committee; however, several such floor amendments were taken off in the conference committee which were not acceptable to the Senate conferees.

During the House hearing on the appropriations bill, debate was long and sometimes heated (covering from 10 a.m. on Saturday until 3:45 Sunday morning) covering issues all the way from elimination of funding for the Federal-State meat inspection laws, expansion of bilingual education program, and an anti-busing rider to the school education section as well as additional spending programs in general peculiar to certain areas.

Many of the issues heard during debate involved the urban versus rural point of view, and again it emphasized how finely balanced the line is in the present House of Representatives, with the balance of weight already being to the urban areas but with a much stronger swing of weight to the larger cities in the next session as a result of redistricting. About fourteen seats now held by members considered rural will shift to the urban areas in 1973 as a result of the population shifts which are reflected in 1971 redistricting lines. An example of the shifting of legislative seats is seen most prominently in the Houston area where only ten or twelve years ago they had ten House members and only one senator and in 1973 will have twenty-four of the one hundred fifty House seats and control of five of the thirty-one senators. Incidently, we consider Lubbock, Wichita Falls, Abilene, San Angelo, Midland and Odessa part of the rural representation.

A typical example of the rural-city conflict in views came late in the night (or early Sunday morning), when debate was being heard on the appropriations for the A&M University extension service programs and a member proposed an amendment to take one-half of the funds from the predator animal control funds and transfer it to the rodent control funds in which cities are the primary beneficiary. The Appropriations chairman was about to accept the amendment on voice vote, not knowing the full extent of our predator problem when I, along with Representative Baker of Fort Stockton and others, from the rural area rose to oppose any move to divert predator funds. We had so little time that our effort fell short by four votes; however, on Monday, July 3, after the situation had been explained to members of the conference committee, we were able to get the funds restored to the predator control program. The urban people were also able to secure some additional funds for fighting rats.

Of course there are voting exceptions but the urban areas are not as likely to vote together consistently as rural members. Some rural members occasionally vote with the city boys as a matter of principle, and vice versa. Sometimes the rural viewpoint gets a boost from the big city press, such as a Dallas News editorial recently pointing out the big stake city folks have in the farm-to-market road program.

With each redistricting of the legislature we must recognize the added responsibility facing our rural membership. The recently enacted rules allowing limited seniority to members could be one of our better weapons in view of the fact that rural members seem to serve for longer periods generally than members from larger cities. There will be twenty new members from Houston serving for their first time in Janurary, 1973, of the total membership of twenty-four from there.

It appears that it would be proper to say that for us it looks like a hard fight with a short stick, but we can only hope that our urban friends will understand and be receptive to our problems.

Call No. 482 Charter No. 14270 National Bank Region No. 11

REPORT OF CONDITION, CONSOLIDATING DOMESTIC SUBSIDIARIES, OF THE

Snyder National Bank of Snyder, Texas

IN THE STATE OF Texas AT THE CLOSE OF BUSINESS ON June 30 1972
