Friday night March 20, is Pancake Supper Night in Loraine. On that night the Loraine Lions Club will serve pancakes with bacon and syrup and coffee in the cafeteria at the high school. Whether you like pancakes very much or not the Lions will appreciate your coming to the supper and the program for it is in this manner that the Lions raise most of the money they use during the year for various charity and civic projects, including assistance to the blind and buying glasses for needy children. Your 75 cents for a ticket will help a great deal.

This year the voters in the City election on April 7 can choose two from a slate of four candidates to fill two vacancies on the City Council. You ought to be sure to vote for that is the only way you can have a voice in the city government.

While we are on the subject of city government we would like to say that financially the City is in better condition now than it has been in the past. The City spent quite a lot of money last year for street paving and a new water well and still has a tidy sum in cash reserve for emergencies and other work that may be needed from time to time, and to pay paving bonds as they come due.

This Friday and Saturday will be Red Tag Days in Loraine again. We want you to read every ad in the paper this week for that is the only way you can be informed of the bargains our merchants are offering on Red Tag Days. Some of our merchants are really trying to prove to the people of this area that you can get good bargains in Loraine. They want you to trade with them.

The First State Bank is starting a new series of advertisements in The Mitchell County News that will prove interesting and informative to the readers of this newspaper. The series deals with subjects of concern to the people of the area. We want you to read the bank ad, as well as every other ad, each week and of course the bank and others who advertise want you to read the ads. The bank ads are being written by a local man and the subject matter in each ad will be of local interest. Each ad will run in the paper for two or three weeks then will be changed to another subject. Read them and comment on them to your banker.

LORAINI STUDENTS WILL SEE FIRE DEMONSTRATION

Students of the Loraine Schools will have an opportunity to see for themselves how fire can be man's best friend or his worst enemy by observing a graphic fire demonstration to be presented at 10:15 a.m. on March 23, Vance Dickenson, principal announced today.

The demonstration, in seven parts, will be given under the direction of Joe Smetana, Safety Director of the Texas Farm Bureau. A variety of demonstration equipment will be placed on tables 16 feet in length to illustrate seven basic points: (1) what is fire; (2) how to control fires; (3) the fact that nothing is fire-proof; (4) kitchen fires and their control; (5) fuel vapors; (6) the power of petroleum products; and (7) household wiring and overloaded electrical circuits.

Smetana will point out that fire is like a three-legged stool. It can't work with one of the legs missing. The "legs" fire depends on are: (1) fuel, (2) heat, and (3) air. Yet, in American homes these three things come together in deadly and destructive combination every 57 seconds an average of 1,500 home fires every day, according to Smetana.

"That's eight times the number of fires in factories and stores. Worse yet, four out of five of all fire deaths occur in homes, and for every death there are about 100 serious injuries," the TFB Safety Director explained.

As part of a program for fire prevention, The Texas Farm Bureau Safety Department is presenting this demonstration before the high schools of the state. The program is being brought to Loraine under the sponsorship of the Mitchell County Farm Bureau. The public is invited to attend.

The Alamo Cenotaph, located in front of the Alamo, was erected in 1939 by the U. S. Texas Centennial Commission.

WE'RE SORRY

In reporting that Jackie Merket had won a place in the San Angelo Show with his Angus calf last week, we stated that Jackie is the son of Mr. and Mrs. Kenneth Merket which was an error. He is the son of Mr. and Mrs. Jimmy Merket. We stated also that his calf won third place in the Mitchell County Show and that should have been in the Nolan County Show. We are sorry we got the parents of Jackie wrong. The item we received reporting the news did not name the parents and we guessed wrong. All of which reminds us to remind you that when you send in an article for the paper be sure you give all the facts then the editor will not have to guess at anything.

Chevrolet will go to any length to make you happy

Things have changed a lot since a Chevy was only a Chevy. Especially your ideas of what you want a Chevy to be.

So now you have the Jet-smooth Chevrolet—17½ feet of pure luxury, bumper to bumper. The size makes it a luxury car. But not the price.

Or you can choose the thrifty Chevy II, a 15¼-foot family car with all kinds of passenger and luggage space.

This year, your choice might be the new 16-foot-plus Chevelle, sized to fit nicely between Chev-

rolet and Chevy II (and between parking meters, with five whole feet left over).

Then, too, there's the sporty 15-foot Corvair, so right for so many people (you girls, in particular) that we've never touched an inch of it. And finally, Corvette—still 14½ feet and still too much for any true sports-car lover to say no to.

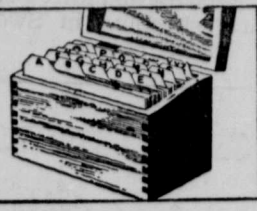

The long and short of it is, you don't have to go to any length to find exactly the kind of car you want. Just see the five different lines of cars at your Chevrolet dealer's.

VIEWS

ELECTIONS

At this time many of us are concerned with or about the coming elections. Before this year is past into history we will have chosen officers to lead us politically for from two to the next four years. That old saying, "From dog-catcher to President", will have become a reality.

A good question for us to ponder is: How may I participate in various elections in an intelligible manner?

Pat has heard many, many elderly people say that voting in any type of school elections was not of their concern as their children were out of school. Pat has heard others say they would not serve in the capacity of Mayor or City Councilman as their main interests were outside the municipality.

These are illustrations but they reveal a general trend, if the proposition does not apply closely and directly to me, I have no interest. The general good or bad is not of my concern. But I must be served.

This trend in thinking is revealed again in the critical remarks concerning those who have been selected to do the job. Old so-and-so just fiddles while Rome burns, is quite a common remark. If I was in the position of authority like he is, I would do this and so. Why did they elect him? Everybody knew him and what he stood for.

A good method by which this sort of reasoning and criticism can be avoided is to take part by voting in every election we are qualified for. Even if we lose our candidate or proposition, we win by voting in elections. Only by complete participation can we have the true voice of the people. Voting time is nearer than most of us think. Let's get ready to vote that our voice may be heard.

WARNING ISSUED ON TRAVELING PEDDLERS OF TREES AND NURSERY STOCK

The approaching spring season brings with it the threat of bogus tree and nursery stock salesmen operating primarily out of the backs of pickup trucks, Agriculture Commissioner John C. White warned this week.

Commissioner White said his Austin headquarters is already receiving complaints from home owners who have purchased from traveling peddlers and the plants proved to be dead or dying. The influx is apparently heavier this year and an especially troublesome area has been pinpointed around Dallas and Fort Worth.

Teams of Texas Department of Agriculture inspectors have been deployed throughout the state to be on the lookout for itinerant salesmen. Several truckloads of illegal and below standard trees have been seized, White said.

Buyers are urged by Commissioner White to buy only nursery stock which has a certificate of inspection from the Texas Department of Agriculture. This inspection certificate is required by state law but difficult to enforce on fly-by-night operators who slip in from out of state.

"I recommend that home owners buy from reputable local nurseries-or at least always ask to see the inspection certificate," said White. "Bargain plants often prove to be not such a good bargain after all."

Texas' boom in man-made lakes has opened many new frontiers for the outdoorsman.

But perhaps the least-known pastime of all is skin diving. This is a fascinating sport and one that is learned easily. It opens many new and exciting hobbies, such as spearfishing, underwater photography or just exploring along the floor of a lake.

Although interest in skin diving has grown tremendously within the last few years, it is not a learn-it-yourself sport. No would-

be diver should attempt it without first becoming thoroughly familiar with basic diving fundamentals, the equipment used and his physical capabilities.

Skin diving includes both snorkel and SCUBA diving. The first requires only a face mask, swim fins and a snorkel tube. It is the way most divers get started.

SCUBA diving, which gets its name from Self Contained Underwater Breathing Apparatus, requires quite a bit of equipment, including an air tank and the ne-

cessary attachments.

The tank or lung is strapped to the diver's back. Air is passed from the tank to the diver through a regulator, tubes and mouthpiece. The regulator on the tank reduces the air pressure to a comfortable breathing level. Exhaled air passes through a flutter valve and produces the familiar bubbles seen on the surface.

Advantage of SCUBA diving is that it allows the diver to remain under surface for long periods of time and permits him to dive to greater depths.

Any attempt to learn SCUBA diving merely by reading a newspaper article magazine story or for that matter an instruction book, would be foolhardy. Learn the sport under the guidance of an expert skin diver.

In areas where organized instruction courses are not available, it is often possible to contact an individual who is qualified and willing to act as an instructor. Several skin diving clubs have been formed in Texas and most of the major cities have one.

Before you even think about taking up skin diving, consider your physical condition. Age is seldom a factor but people with heart or chronic respiratory ailments should not become skin divers. It is a rather rigorous sport and should be attempted only by people in reasonably good health.

Skin diving is governed by several easily learned common sense rules. Perhaps the most important piece of advice a beginner should remember is never dive alone. Skin diving is safer and a lot more fun when the buddy system is used.

Once you have mastered the basic diving techniques, a whole new world will be opened to you.

Perhaps your cup of tea is spearfishing. This is a fascinating sport which requires stealth and a good shooting eye. In a way, it is hunting underwater. Texas permits only the taking of rough fish like gar and carp by skin diving.

The diver is equipped with a spring-type gun which drives a spear with tremendous force. Flipping quietly through the water, the diver approaches as close as possible to his quarry, aims and lets fire.

After your elementary education in nearby lakes, maybe you would like to try something bigger and more demanding. Many inland divers head to the coast occasionally to try their skill at spearing the salt-water species.

A favorite spot for hunting is around one of the many oil wells lying off the Texas coast. Often the diver will find a huge jewfish lurking there.

A diver who tangles with a 200-pound-plus jewfish will have a real tussle. Several divers often team up to try and bring these huge fish to the surface.

Divers are called on occasionally to aid in underwater searches. They look for valuable articles which have been accidentally dropped into the water. Also for the bodies of drowned persons.

Sometimes parties are organized to travel to far-away places—like the coast of Mexico, Florida or the Bahamas—to explore colorful underwater reefs.

Anyway you take it, skin diving is a fascinating, exciting pastime.

Mr. and Mrs. W. L. Swafford and Mr. and Mrs. Alca Bennett went to Sweetwater to see the rattlesnakes captured during the roundup there over the weekend.

Mr. and Mrs. J. C. Rickman and children of Lubbock were weekend guests in the home of her parents Mr. and Mrs. J. B. Mahon.

Twin girls were born to Mr. and Mrs. Tom Strange at the Tyler Medical Center in Tyler Wednesday March 11. The girls were named Terri Gay and Tamri Kay. Maternal grandparents are Mr. and Mrs. Roy Linder of Loraine and paternal grandmother is Mrs. Strange of Silverton.

Mrs. L. G. Baker spent Saturday and Sunday in Abilene visiting her mother Mrs. F. W. Jennings and also visited with her sister Mrs. Floyd Moore of Anson and her brother and wife Mr. and Mrs. Harold Jennings who were also visiting their mother.

today's MEDITATION

Read Luke 5:17-26

Be ye kind one to another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you. (Ephesians 4:32.)

After a man told a lie about his friend, the false news spread all around. Soon the liar was ashamed of what he had said and went to his friend to ask for forgiveness.

In reply, his friend took him to a high mountain and opened a pillow filled with feathers. A strong wind came and blew the feathers all around the countryside. Then he said, "I'll forgive you if you gather together these feathers." But his friend was not able to collect them.

God's forgiveness is not dependent upon our undoing all the harm and damage our sins have caused. Therefore, should we not all the more gladly give thanks unto God for His forgiveness? It is for Christ's sake that He forgives us.

It is when we are repentant that God forgives us our sins and blots them out. However, if we expect God's forgiveness, we must be willing to forgive one another, as Christ has commanded.

Prayer: Our heavenly Father, we thank Thee for Christ, who gave His life for us as a ransom. Teach us Thy lovingkindness so that Thy kingdom may enter our hearts. Through love make our earth a paradise for Thy honor and glory. For Jesus' sake. Amen. Thought For The Day: I give thanks unto God for His forgiveness. Lawrence Nya Taylor (Liberia)

HERMLEIGH MAN IN OPERATION BACKPACK

USS Providence (FHTNC)-Michael F. Fuller, seaman, USN, son of Mr. and Mrs. Les T. Fuller of Route 1, Hermleigh, Texas, is participating aboard the light cruiser USS Providence in a coordinated U.S.-Nationalist Chinese amphibious exercise called "Operation Backpack" being conducted off the coast of Taiwan.

Backpack is an exercise to test the amphibious capabilities and readiness of the forces of the Seventh Fleet and the Nationalist Chinese Navy. The exercise, with over 40,000 men and 140 units, participating, will culminate in an amphibious assault on beaches of southern Taiwan, and will demonstrate the effectiveness of the United States Seventh Fleet to rapidly move a significant combat force to a troubled area in order to assist an ally.

Prior to the assault, aircraft of the Seventh Fleet will soften beach defenses. In addition, support ships will conduct anti-submarine warfare exercises and the area surrounding the beachhead will be cleared of any obstructions and mines.

"Backpack" is similar to those exercises conducted periodically by units of the Seventh Fleet with SEATO and other allied nations in the Far East to improve their proficiency in coordinated amphibious warfare operations and to maintain working relationships with allied nations.

Mrs. Frank Crownover, Miss Annie Jarratt, Mrs. Lucille Mahon and Mrs. Opal Norman of Colorado City returned home Monday after a visit with their brother and wife. Mr. and Mrs. Joe Jarratt at Stephenville.

Governor John Connally has announced the appointment of Senator David Ratliff of Stamford to the Steering Committee of the 73-member Governor's Committee on Aging.

Senator Ratliff represents the 24th Senatorial District composed of 13 West Texas counties. Ratliff has served in the Texas Senate since 1954, having been promoted to higher office after serving in the House of Representatives since 1950. At the present time he is a candidate for re-election to the Senate.

While in the Senate, Senator Ratliff has served on the most important standing committees and was chairman of the powerful Insurance Committee in the 58th Legislature. He has also served on the Oil and Gas and Water and Conservation committees.

In accepting the appointment to the Governor's Committee on Aging, Senator Ratliff will be in a position to make significant contribution to Texas rapidly growing community of senior citizens.
