Crackdown on work-at-home schemes

Postal Inspector in Charge W.R. Newsome announced today the Postal Inspection Service has initiated a program which is intended to eliminate, or drastically reduce, the effect work-at-home schemes have on postal customers.

Mr. Newsome stated work-at-home schemes are generally aimed at the unemployed, elderly, and housewives who want to supplement their income. The most common work-at-home schemes involve advertisements offering a large amount of income for "stuffing envelopes." The promoter will require you to invest your money before you are sent any instructions.

Mr. Newsome declined to state all work-at-home promotions were illegal, but stated he knew of no work-at-home promotions which would guarantee regular salaried employment.

Advertisements which claim you can earn unusually high income with little or no effort should be viewed with suspicion. A new pamphlet

Spooky advice

Tricksters planning activities for Halloween night are being cautioned to keep their fun below the malicious mischief level by local law enforcement officials.

Egg throwing at Halloween has been practiced in the past. Damage to residences and automobiles can result. Property owners and insurance companies view this kind of performance with stern disapproval.

Great care should be taken by motorists to keep little "Spooks" and "Goblins" safe, for a fun filled evening.

Have fun without damage to property and do not endanger yourselves or others and heed the advice from the Texas Department of Public Safety.

On Friday, October 31, children all over will be celebrating one of their favorite holidays, Halloween. This being so, scores of miniature "monsters" will scamper through the neighborhoods of Texas. For many of them, "trick or treat" may well turn into tragedy.

Major C.W. Bell, Regional Commander for the Texas Department of Public Safety, Lubbock, suggests that a few precautions on the part of the motorists and parents could prevent such disasters this Halloween.

If your children go trick or treating, one of the parents should go with them to insure their safety. If you buy or make your child a costume, it should be of white or light colored material so it can be easily seen at night by motorists. You should also have your child carry a flashlight to serve as a warning to motorists and as an added safety measure on poorly lighted streets and children should be instructed to use sidewalks whenever possible and the motorists, on their part, should be

especially careful when driving the neighborhood streets as many of the youngsters will be crossing the streets haphazardly as they go from house to house.

PERRY

Perry's defense rates 2A award

Taken from Kenneth W. Tidmore's column in the Amarillo Globe-News is the following which relates to Clarendon from the Tuesday, October 28, issue.

"At 5-7, 160 pounds, it's easy to get lost among the behemoths in the middle of the trenches of a football game. Even your coach might have the tendency to overlook you-at first.

But Clarendon coach Ted Allen realized, after viewing the game film, his diminutive noseguard Billy Perry had played a big part in the Bronchos' upset of ninth-ranked (by The Associated Press) Wheeler, 34-11.

"He had an outstanding game. I didn't realize it until I looked at the charts," said Allen. "He's so consistent. You'll forget kids like that sometimes because they're so consistent inside. He did a super job down inside."

Perry's performance in stopping Wheeler's win string at 19 games earned him this week's honor as the Globe-News Class 2A player of the week.

All the Clarendon junior did was make 10 solo stops, seven assists, cause four fumbles, break up a pair of passes and add a pair of quarterback sacks. Those turnovers were keys in the Clarendon upset win.

Perry was challenged by several players for this week's award including a pair of his teammates—Hosea Hearn and Randy White.

Hearn, a junior fullback, rambled for 213 yards and two touchdowns on 16 carries. His first TD came on the opening play from scrimmage as he dashed 68 yards to paydirt. His other touchdown was a 76-yard ramble off a straight dive play. At cornerback, Hearn had five solos and three assists.

White, a tight end-linebacker, grabbed all of Clarendon's completed passes (three) for 51 yards and had 12 solo stops, five assists and one fumble recovery.

Major Bell also stated that because Halloween falls on a Friday there will be added traffic as most area high schools will be having a football game. If the parents

and motorists will join together and think of the children's safety, we can turn this potentially dangerous evening into a safe and enjoyable one.

Bronchos challenge Canadian in District

The Clarendon Bronchos (2-0) in district play and the Canadian Wildcats (2-0) meet head on Friday night in Canadian. The winner will be the lone leader of District 2-AA. Kick-off is set for 7:30 p.m.

The Bronchos and Canadian are tied for the District lead at 2-0. The Bronchos have defeated Shamrock (13-7) and Wheeler (34-11) while Canadian has victories over Memphis (28-7) and Shamrock (24-14). The Wildcats have a 5-2 season record and the Bronchos stand at 4-2-1. Canadian's non-district wins were over Morton (22-21), Stinnett (19-10), and Spearman (29-22). Their two losses were to Panhandle (0-7) and Hobart, Okla. (13-21).

Coach Allen's Comments on Canadian:

Canadian will have the biggest force unit we have

faced. We will see some linemen at 210, 219, 232, and 198. They are not all that quick but are always in the right position. Their defensive formation is very similar to that of Shamrock and Wheeler. They feel they have an all-state candidate in LB-TE Donnie Rex (6'2", 195).

On offense they have a fine QB in Terry "Bear" Sheaffer. Canadian has been throwing the ball about 15-16 times a game. Their receivers don't have outstanding speed but are tall and have good hands. We need the same type effort against Canadian that we had against Wheeler. We are into that part of our season where we have to play a good game every week.

District results: Canadian 24; Shamrock 14; Wellington 26 Memphis 7.

Bronchos win over Wheeler

By SPENCER HAYES
Hosea Hearn rolled up 213 yards, including TD runs of 68 and 76, to lead the Clarendon Bronchos to its second consecutive district victory, a 34-11 trouncing of the Wheeler Mustangs Friday at Bronco Stadium.

Head Coach Ted Allen said that the Hearn-led offensive performance, which broke big play after big play, was the best shown by the Bronchos this year. And this was evident in the statistics. Featuring four touchdown runs of over 40 yards, Clarendon backs followed crisp blocks by the offensive line to 334 rushing yards and 50 yards through the air. Allen said that much of Hearn's success came because the Mustang defense was keying on Bobby Weatherton. And that stands to reason, since Weatherton has been the Bronchos main threat most of the year. But Allen added "You can't just key on one, or the other one will burn you." This proved true, because as soon as the Mustang defense started holding Hearn down, Weatherton popped into clear running room for 58 yards and a touchdown.

The first half was a defensive struggle, with neither team able to mount a real scoring drive. The only touchdown came on Hearn's 58 yard run on the first play of the game. The 2-point attempt failed, however, leaving the Bronchos with an early 6-0 lead. But Wheeler rebounded and drove inside the Bronco 20, coming out with a 31 yard field goal by Russel Gaines. The only other real scoring threat of the half came on a drive by the Bronchos to the Mustang three yard line. Then Wheeler held the Bronchos for three plays and capped the goal-line stand with a 13-yard sack of Lance Thornberry, on a would-be pass play. Clarendon had one more scoring opportunity before the half ended in a long field goal attempt by Bobby Weatherton; but the kick went wide to the right, and the Bronchos went in at halftime with a 6-3 edge.

In the second half, however, Clarendon came out mentally ready again, as they had been in the first half. Allen said that they had been ready all weekend and it was obvious to everyone present. When asked why his team was so ready for Wheeler, he said, "We knew we had to win it, and we knew it was an important game." And in the third quarter, the Bronchos put the 1-2 punch on the Mustangs, scoring 21 points. It started with little more than one minute left in the third quarter, when Drew Thornberry picked off a Wheeler pitch and raced 45 yards for the score. Allen credited this play as sparking the defense to its outstanding defensive play in the second half. Key players in the awesome defense included Drew Thornberry, Randy White, Billy Perry, and Weatherton, who stopped a Wheeler scoring threat with an interception in the Mustang end zone soon after Thornberry's touchdown. Two plays later, Hearn dashed 76 yards for his second touchdown of the night. On Wheeler's next possession, the Bronchos recovered another fumble and Weatherton dashed 58 yards to give the Bronchos a 27-6 lead. The Mustangs managed to piece together a strong drive late in the quarter and scored on Willie

Letter to the Editor

I would just like to ask the
people of Clarendon if they
realize how lucky we are to
have people like Philip
Vargas and Pat Robertson
living here and driving our
ambulance.

They have taken every
kind of training available to
them to become paramedics
and with out them our son
Brion would not be here
today.

It is such a comfort to know
these men are there when
you need them. God bless
you both.

Women's Aglow Fellowship 7th annual conference

About 1,000 delegates from more than 23 countries will be in Jerusalem November 3-6 for the Seventh Annual Conference of Women's Aglow Fellowship International.

Theme for Aglow's first international conference overseas will be "Prepare ye the way of the Lord," based on Isaiah 40:3 in the King James Bible.

Women's Aglow, with headquarters in the United States, is a 13-year-old Christian women's ministry. It has grown from a handful of women to a membership of 30,000 in 27 different countries.

Conference sessions will be held at the Binyanei Ha'Ooma, Israel's national convention center in Jerusalem.

Aglow International President Jane A. Hansen, Edmonds, Washington, USA, will be presiding at the sessions, all of which are open to the public. She will address the conference opening night. There will also be a roll call of nations and introduction of new International officers.

Plans for the four-day conclave have been under the direction of Doris Eaker, of Edmonds, Aglow's vice president of Administration, who is conference chairman Lorene Carlson, of Lynnwood, Washington, assistant to the vice president of Leadership Training, is chairman of the program committee.

Speaker at the evening sessions will be Mary Ann Brown, of Henderson, Texas.

USA. The Rev. Gerald Rowlands, of White River, South Africa, will be the afternoon speaker.

Mrs. Brown is a licensed minister of the Gospel and a well-known Bible teacher in the United States. She has been teaching the Bible in churches and home study groups since 1972 and is particularly familiar to Aglow groups.

Rev. Rowlands, a native of Brisbane, Australia, is a missionary evangelist, teacher, and director of Global Evangelism Ministries, a missionary organization which has workers in several nations around the world. He also serves as vice chairman of Emmanuel Press, a large Christian printing organization, which publishes Christian literature in more than 20 languages. Both organizations have headquarters in White River.

And, he edits the African edition of ACTS magazine, which is distributed bimonthly to thousands of African church leaders.

The 1980 conference in the Holy Land is open to all Aglow members and their families plus anyone interested in the Aglow ministry. The program will offer leadership training, but the main emphasis will be on praise, worship and intercession.

Women's Aglow Fellowship International is a non-profit worldwide, interdenominational organization of renewed Christian women who are committed to Jesus Christ as Lord in their lives. Under the protective counsel of Christian leaders in each country, Fellowships meet in local groups on all five major continents.

At meetings women share how the Lord has worked in their lives, join together in praise and worship, and learn more about Jesus as Savior, Lord, Baptizer, Deliverer and Healer. Local groups may sponsor many

different kinds of outreach ministries, including weekly Bible studies, counseling, teen-age programs, prison and hospital visitation.

Aglow has its roots in the charismatic renewal, a Christian movement that emphasizes the enabling power of the Holy Spirit and the use of the nine gifts of the Holy Spirit, including healing, prophecy and speaking in tongues, as listed in 1 Cor. 12:7-11 in the New Testament. The renewal is recognized by most of the main line denominations.

Aglow was founded in 1967. It began with a meeting of four women in Seattle, Washington, USA, who were seeking charismatic fellowship, and has grown to 1,558 Fellowships in 27 different countries in North America, Europe, Asia, South America, Central America and the Pacific. A new Fellowship is affiliated approximately every working day.

International headquarters are in Lynnwood, Washington, where Aglow publishes a bimonthly magazine, AGLOW, as well as books, Bible studies, booklets, and pamphlets. Aglow also produces teaching and music tapes.

The name Aglow is taken from the New Testament: "Be aglow and burning with the Spirit..." (Romans 12:11 Amplified Bible).

"The annual International conference," said President Jane Hansen, "provides a time for the Aglow family to stand as a body in the presence of the Lord. As we gather from our various countries at the meetings, workshops and social functions, we get a perspective of how God is using Aglow around the world. And when we leave we take home with us a vision of what Aglow's ministry can accomplish in our individual nations."

The conference will be combined with a comprehensive four-day guided tour of Israel.

The local contact for Women's Aglow is Wanda Rolls, at 874-2200.

Experience is the issue.

The 80's. As we enter a new decade, we face serious and growing challenges in the economy, energy, agriculture, education. To solve these problems—to make the important decisions which will affect all our lives for years to come—will take more than just good intentions. It'll take experience and leadership.

The kind of experience and leadership we have in Bob Price. Bob Price. Farmer, rancher, businessman. Experienced as our former congressman for eight years. Effective as our state senator for the last three years. A leader in Austin.

Energy

Bob Price knows we must fully and rapidly develop alternate sources of energy to help control inflation and expand the area's economy. As a member of the Senate Natural Resources Committee, he passed bills to encourage production and sale of gasohol utilizing Texas grain crops (S.B. 988) and to promote solar and wind-powered energy production (S.B. 204).

The Economy

As our congressman for eight years, Bob Price worked for policies to promote more jobs and better wages for our area's working men and women. As our State Senator, Bob continues to reach these goals through legislation which encourages new industry; through tax and budget reform and through elimination of governmental interference and over-regulation of business.

Education

Bob Price is committed to quality public education and fair wages for teachers, and feels these goals can be accomplished without increasing taxes. Bob knows that we must properly train the future leaders of Texas in the schools of today.

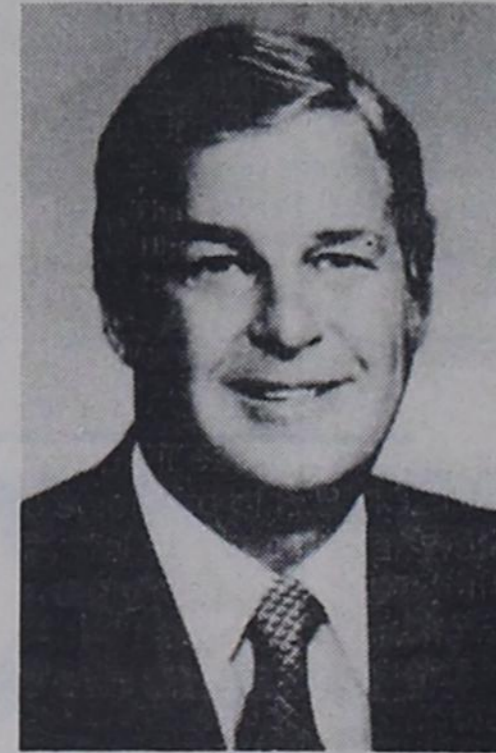

Agriculture

As a working farmer and rancher, Bob Price knows the problems facing this vital industry and those who provide services and products to the agricultural community. In the last session, Bob's version of S.B. 1321—a landmark piece of legislation—provided authority for the Ogallala Water Import Authority which will allow planning for desperately needed water for the area. Bob also passed the Family Farm Security Act which was overwhelmingly approved by voters in November, 1979.

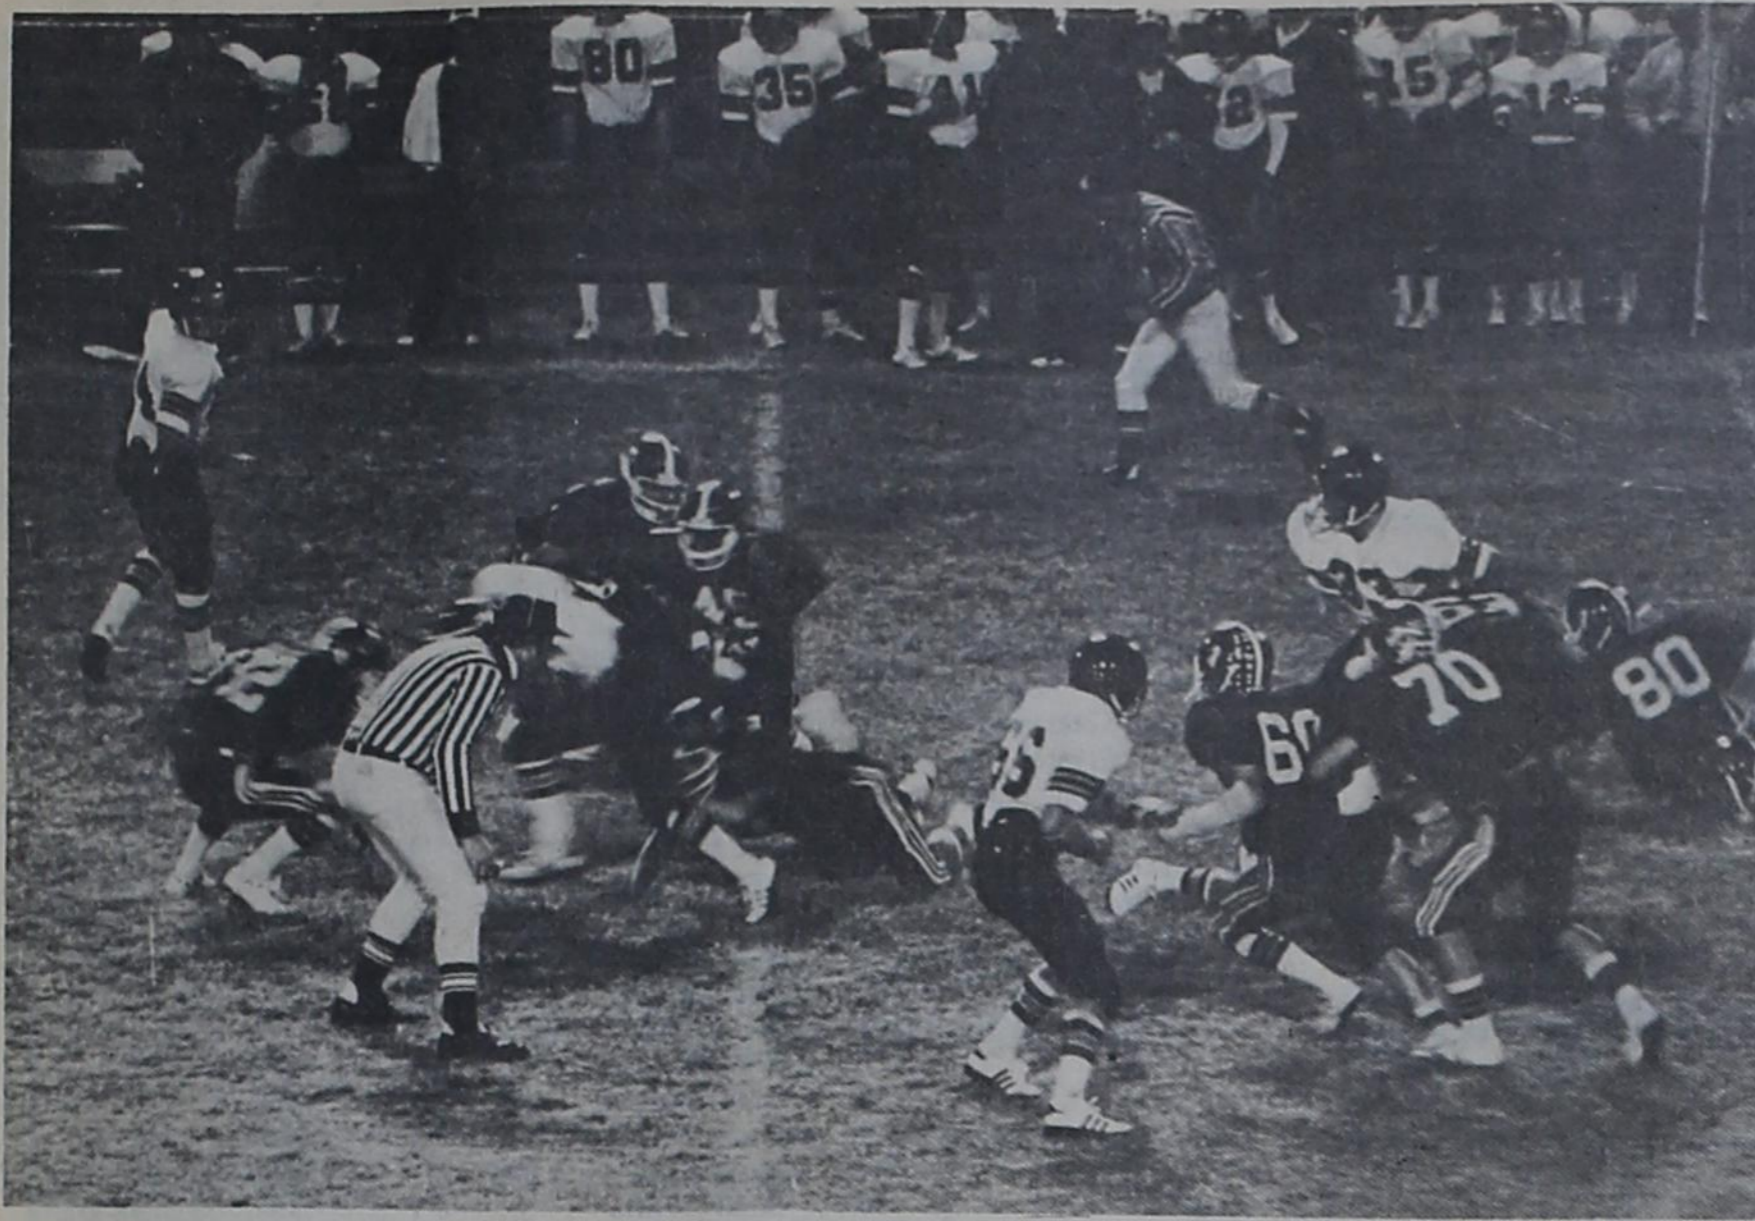

We face one of the most important peacetime elections in years. On November 4th, remember:

Experience is the issue.

Bob Price is the answer.

Political ad paid for by the Bob Price for State Senate Committee, Mike Brugel, Treasurer, P. O. Box 1338, Pampa, Texas 79065.

Social Security questions and answers

Q: I'm thinking about retiring soon, but I haven't decided on a definite date. Should I apply for Social Security benefits now or wait until I actually stop working?

A: You can apply for Social Security retirement payments up to 3 months before the month you want benefits to start. If you plan to retire before you reach 65, you should apply no later than the last day of the month you want your benefits to begin. Generally, benefits payable before age 65 can start no earlier than the month you apply. You may file your claim by phone by calling the Amarillo Social Security Office at 376-2231 (area code 806). If you live outside of Amarillo, you may call collect.

Q: I just got a divorce. I've decided to go back to using my maiden name. Should I notify Social Security of the name change?

A: Whenever you change your name—whether because of marriage, divorce, or other reasons—you should notify a Social Security Office, especially if you work in a job covered by Social Security. Along with the change-of-name request, you will have to show proof of your identity under both your old name and your new name. The people at any Social Security office can tell you what documents can be used as proof of identity.

Q: My husband and I have been receiving SS1 payments for about 2 years. We're in the process of getting a divorce. Should we notify Social Security?

A: Yes. You should notify Social Security promptly if your marriage ends. A change in your marital status could affect the amount of payments due you and your husband.

Billy James Fulgham services

Funeral services for Billy James Fulgham, age 12 of Goodnight, Texas, were held at 10:30 a.m. on Monday, October 27, 1980 in the First Baptist Church in Claude, Texas with Rev. O.C. Edwards, retired Baptist minister from Goodnight and Rev. Bruce Mitchell, pastor of the First Baptist Church in Claude, officiating. Interment was in Claude Cemetery with the arrangements under the direction of Robertson Funeral Directors. The youth died at 6:30 p.m. on Friday, October 24, 1980 in Northwest Texas Hospital in Amarillo. He was born July 28, 1968 in Amarillo and had been a resident of Goodnight for the past 10 years moving there from Amarillo. He was a sixth grade student in the Claude schools at the time of his death.

Survivors include his parents, Mr. and Mrs. Thomas Fulgham of Goodnight; one sister, Tammy Fulgham of Goodnight; two brothers, Glen Fulgham of Gruver and Bobby Fulgham of Goodnight.

Casket bearers were Tom Knox, Robbie Haney, Brent Bell, and Joe Bailey.

Can you answer "Yes" to each of the following questions?

1. Are you an alien who has been legally admitted to the United States?

2. Have you lived in the United States for at least five years?

3. Are you age 65 or older?

4. Do you receive a gold-colored Supplemental Security Income (SSI) check each month?

If your answer to each of these questions is "yes," you are eligible for free medical insurance through Medicare, Part B. It is important that you contact your local social security office as soon as possible to apply for this insurance.

The state in which you live will pay the premium for Medicare, Part B if you receive a gold Supplemental Security Income check. Failure to apply for it could result in denial of payment of your doctor bills by the state-administered Medicaid program.

 Valencia drive of one yard. In the fourth quarter, the only score came on a 42 yard scamper by Lance Thornberry. Thornberry followed a driving downfield block by Randy White into the end zone. Weatheron booted the extra point to end the scoring, 34-11.

This week, the Broncos face a tough foe in Canadian. Allen stressed that this will be the key game in district, as both squads are 2-0 in loop play. "We've got to be after them, and keep out momentum going. We can't let down." But the Clarendon Broncos have showed no sign of letting up, and they will hit the gridiron Friday night behind the best fan support in years when they face the Canadian Wildcats at Canadian. "I shall make electric light so cheap that only the rich will be able to burn candles"

That's what Thomas Edison promised over 100 years ago. **And he did it!**

For the same amount of light produced by ten 100-watt bulbs during their average lifetime, you'd have to buy \$59,937.50 worth of 35¢ candles. (That's a conservative estimate supplied by a reputable bulb manufacturer.)

Yes, electric lighting has come a long way, since Edison invented the incandescent bulb. And through most of those years the price of electricity has gone down steadily. Even now, when inflation is forcing power companies to increase their rates, electricity is still America's best bargain.

WHAT THE NEW LIBRARY front will look like

Library building project progresses

Have you ever wanted to talk above a whisper in a library? Now is your chance. During these past several months many individuals have been working on the job as well as behind scenes in plotting and planning this new library facility. When Tommy Saye sold his two buildings to the library, the monumental task of turning this site into an actual library

beset the Library Advisory Board and Friends of the Library. This architect's sketch met the approval of the Board and, thus far, all who have seen it. We're excited over its looks and hope you are, also.

For several months work seemed slow, but now in retrospect, much work has been completed. Sheet rock is on the walls dividing

conference room and rest-room areas from the main library; cabinets for the librarians work areas are selected; paneling has arrived, new windows and a door are installed; electrical work and plumbing work are nearly complete; and heating and air conditioning installation is just beginning.

What's left: Ceiling, carpeting, the exterior and

shelving—yes, still much to do but we've come along way in those several months. Poke your head in to view the work, and talk above a whisper—yell if you want.

Bookworm

How do you read a book? It is possible that some people just sit down one morning,

open a novel and don't move until evening when the book is finished. There must be many people like that because you have heard the expression "You can't put it down" so many times that it must be a common phenomena.

Some folks take the kitchen pantry contents, a gallon of coffee or tea or sodas and locate a comfortable chair, shade tree, warm fire or cozy bed and munch their way through a mystery or romance. These readers that really claim good taste in book selection.

There are millions of people who read a book like taking a dose of medicine. They will read a tiny dose two times a day as needed and take three months to finish a Louise L'Amour book. They deserve credit, however, at least they keep at it.

Most every home has the "reading room literature" conveniently placed and that is where the world's magazines and light novellas are read and digested. Without indoor plumbing, libraries, book clubs and magazine circulation would never have reached the lofty heights they now enjoy today in their circulation.

I like to watch the skimmer read a book. They first read the last chapter or page to see if they really want to get into the book. Then they casually flip through the first of the book to get to the "meat" of the story. You can tell when a juicy scene is up because the reader will hunch over the book and quickly, jerkily, read the several pages before continuing the casual reading technique.

Magazine readers are a challenge to the publishers. Over half of the people I know start from the back of the magazine, turning toward the front. They begin to read the middle of a story, find it interesting, hunt up the first part, and re-read the to the end.

Students are no fun to watch read a book. It is nerve wracking to even try to read in the same room with a student who is reading a book. They will pour over the volumn with the deepest most intense glare, moving their lips as they read. Suddenly, they throw the book down, grab a pencil and scribble frantically on note paper or make long scratches underlining the passage in the book. Sometimes they will flip back and forth through the pages with such violence that the pages snap as the student hunts up some vital statistic or passage. Sound effects are not uncommon with a student reading a book. Groans, moans, snorts, incredulous

THESE TWO BUILDINGS ARE being remodeled to look like the building on the left side of this page.

FmHA news

Temple, Texas received \$837 million during fiscal year 1980 in loans and grants by the U.S. Department of Agriculture Farmers Home Administration (FmHA) supporting farms, home improvement and community development in rural areas, FmHA State Director, W.H. Pieratt, reports.

The agency's farm loan services, which supplement private credit available in rural areas, added \$524 million to Texas's resources for operation of farms during a year of emergency and commercial credit shortage for many farmers.

FmHA home loan programs accounted for \$134 million to build or improve 3,847 homes in town and countryside areas.

Loans and supplementary grants to improve rural community water, sewer, health, fire protection and other public facilities totaled \$78 million for 164 projects throughout the state.

FmHA's service in guaranteeing commercial loans for business and industry that employ rural people accounted for \$101 million in the year ended September 30.

W.H. Pieratt said FmHA's improvement as a multi-purpose rural financial agency, serving rural localities through county and district offices, has resulted in \$1 1/4 billion more farm credit and community development in rural Texas during the past two years.

The state director emphasized that FmHA has been given a lead responsibility in the system introduced this year to coordinate the Federal Government's rural development assistance with goals adopted in local and regional areas of the states.

"This action to implement the Rural Development Act has provided a clear channel of communication from localities, through their state development organizations, to highest levels of Washington for finding resources to meet the greatest needs of rural areas," W.H. Pieratt said. "We expect to further improve this system of cooperation during the coming year."

4-H'ers win

some top

honors

Donley County 4-H'ers won some top honors at the State Fair of Texas in Dallas recently, according to County Extension Agent Ronald Gooch. Rodney McAnear exhibited the Champion Shorthorn heifer of the show.

Palo Acre Flower was the first place late spring yearling before being selected as Champion of the entire show. This is the heifer Rodney purchased after catching a scramble calf at the Houston Livestock Show and Rodeo last March. His sponsor is Mr. Hal B. Allen, API Well Service of Houston. Rodney also exhibited the second place Shorthorn junior heifer calf.

Others placing in the Shorthorn Heifer Show were: Christie McAnear placed third with her senior heifer calf and Jamie McAnear placed fourth with her summer yearling heifer.

In the steer show Jack Craft place second with his light weight Polled Hereford which sold in the auction for \$1.22 per pound. In the middle weight crossbred class Matt Mann placed twenty-fifth and his steer sold for \$1.01 per pound.

Vote for Greater Banking Convenience

Passage of Proposition 1 on the November 4th ballot will open the door to even greater banking convenience. This simple change in the law will allow Texas banks to place unmanned teller machines at convenient locations for faster service, night or day. These teller machines are becoming a convenient option for handling routine banking business.

"Round-the-clock banking at unmanned tellers is convenient, safe and a positive step toward avoiding unnecessary credit card use. . . moreover, it is an energy saver — instead of traveling across town to a bank, an unmanned teller can be built in your neighborhood."

— San Angelo Standard-Times

Proposition 1 "will make life easier for bank customers. . . (it) will eliminate many, if not all, of the tortuous lines seen clogging drive-in bank lanes."

— Houston Chronicle

Proposition 1 "has gained widespread support as the amendment faces voters Nov. 4."

— Orange Leader

"Off-premises unmanned teller machines should be approved by Texas voters."

— San Antonio Light

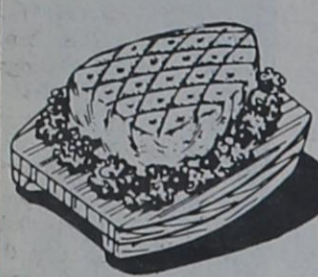

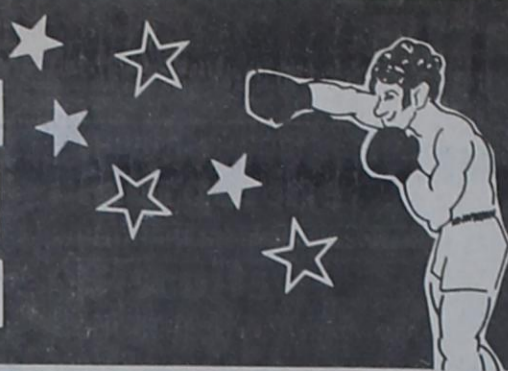

People in forty other states already have this convenient banking choice. It's time Texans did, too.

Vote for Proposition 1 November 4th.

First Annual Little Master and Miss Pageant Big Success

By ALPHA UPSILON EPSILON

With toys, balloons and real clowns, the stage depicted a child's fantasy world.

As the children walked out on the stage in their Sunday best the oohs and aahs were heard throughout the program. The contestants were all very excited and a LITTLE scared from time to time; but, overall the 34 contestants had a great time and parents, grandparents, and all should be really proud of them.

The contestants for this First Annual Event were: Ginger McAnear, five year old daughter of Mr. and Mrs. Monte McAnear of Clarendon; Kelly Melissa Edwards six year old daughter of Mr. and Mrs. James Ivey Edwards of Clarendon; Patricia Littlefield six year old daughter of Mr. and Mrs. Ricky Littlefield of Clarendon; Carrie Shields four year old daughter of Mr. and Mrs. Gary Shields of Lelia Lake; Amanda Ward five year old daughter of Mr. and Mrs. Leon Ward of Hedley; Laura Katherina McAnear five year old daughter of Mr. and Mrs. James McAnear of Clarendon; Stacy Thomas six year old daughter of Mr. and Mrs. M.G. Wood of Clarendon; and Billy Bob Hoggard five year old son of Mr. and Mrs. Bobby Hoggard of Clarendon.

It was a tough decision for

the guest judges, Mrs. Lavonna Schnauer of Campo, Colorado and Marvin and Diane Dick of Amarillo, Texas, but when the interviews were over and each contestant had his moment on the stage the winners were...NOT YET!!!

Entertainment was provided by Mrs. Jennifer Scoggin singing, "Send in the Clowns" and Dan Hall singing a selection from the MUPPET MOVIE, "Rainbow Connection". Our thanks goes out to them for their fantastic job.

Probably one of the most enjoyable and exciting events of the evening was the presentation of "THIS OLE MAN" by Miss Betty Veach and the 34 Contestants, accompanied by our wonderful clowns. We would also like to thank Miss Veach for her help in providing the background music that gave that special touch to the pageant.

We would also like to give a very big THANKS to Mr. Jerry Courtney who as our Master of Ceremonies for the evening kept the pageant going right on schedule and provided our audience with all the details of the contestants and a little added touch of humor that is always nice.

As the evening came to a final note, the winners were announced and received their gifts as the FIRST ANNUAL LITTLE MASTER AND MISS, First Runners-Up and Winners. The First Runner-Up for Little Miss Donley County 1980-81 is Laura McAnear and the First Runner-Up for Little Master Donley County 1980-81 is Jason Wood. The Little Miss Donley County for 1980-81 is Teryn Scoggin and the Little Master Donley County 1980-81 is Mikael Nixon.

The Runners-up were recipients of trophies and the Winners were the recipients of a crown, trophy, and \$50.00 Savings Bonds. Each contestant received a

certificate for their participation in the pageant.

A special thank you goes to all the parents for allowing their children to be a part of our pageant, the county for supporting us with their attendance and the children for making our whole evening possible.

The Chapter of Alpha Upsilon Epsilon Sorority hopes that everyone enjoyed their presentation of the FIRST ANNUAL LITTLE MASTER AND MISS DONLEY COUNTY PAGEANT and hope you will enjoy it even more next year and in the years to come.

A change of the Christmas party from December 2 to December 9 was discussed and voted on. The Christmas party of the 1926 Book Club has been changed to December 9. Members were reminded to pay their membership dues.

Mrs. Delaney introduced our guest speaker for the afternoon, Mrs. Betty Muse of Harlan's Flowers. She presented a program on flower arranging. She started out with asking the members and guests present to think of a mother-in-law joke because Sunday, October 26 was National Mother-in-Law Day. They would be presented later in the program. She showed arrangements for the floor, walls, fan arrangements; she showed how to

make an arrangement from cut flowers; how to make pretty bows; how to make a corsage.

The program was very informative and delightful. It was an enjoyable program.

Present were Norma Jones, Frieda Tucker, Dorothy White, Helen Phelps, Thelma Bairfield, Dessa Day, Pauline Morris, Katherine Green, Susie Shields, Mary Thornberry, Ethelyn Grady, Oressa Delaney, Inez Blankenship, and Betty Veach.

Guests attending were Leola Talbert and Jerry Dunn and Betty Muse.

FTA has meeting

By PENNY SWEARINGEN

The FTA had their meeting Tuesday, October 21, 1980. The members who attended this meeting were Eddie Bright, Kim Gay, Steve Nance, Pat Ritchie, Rick Hayes, Dianne Havens, Randy White, Debbie Johnston, Dan Hansen, Penny Swearingen, and Miss Veach, our sponsor.

The District Convention in Canyon on November 11 was discussed. The members began making plans for the skit for Dianne Havens, who is running for District Historian. Nominations were also made for the "Teacher of the Month". We also discussed several possible money-making projects. The organization is going to try to have a meeting every Tuesday at 6:00 from now on until the District Convention, so we can really have a good skit.
