TREBLE CLEF CLUB SERVES BIG DINNER

The Treble Clef Club's charming and unusually smart dinner on December 31st at the hospitable home of Mr. and Mrs. Fred E. Martin honoring their husbands, escorts and a few friends was appointed in a theme which tokened the New Year. The three course dinner served at the game tables, the place cards and game accessories carried out the same scheme. Promptly at 7:30 the guests arrived, found their places and were served by these charming ladies, a veritable feast of fruit cocktail, quail, gravy, hot biscuit, salad, potato chips, salted pecans, stuffed celery, coffee, ice tea, and apricot whip, after which the tables were cleared and the ever popular "42" was indulged in. The merry games and the happy laughter speeded the hours until it was soon time to ring out the old year and ring in the new. Then the real east came—when the members rendered their best numbers.

This club is appreciated as it should be by the entire community for they spend much time and money and help often in religious and social affairs.

The members that made this occasion possible were Mesdames Fred E. Martin, S. P. Sullivan, Mark E. Fairman, R. V. Littlepage, Al Dickerson, C. A. Eacott, Duke Clements, F. P. Bowman, L. J. Gartman, and Misses Mildred Stevens, Lila Harvey and Norma Frizelle.

—A GUEST.

A HELLO FROM CENTER CITY

Yes, we say hello to the outside world; to our friends and neighbors who are shut in with the influenza and can't help peeping out the windows with a jealous eye and seeing the merry cars that speed so merrily up our highway.

Yes, we say more than hello to those gentle hands that cooked our meals and waited at our bedsides, that cut our wood and did hundreds of loving deeds. We thank you!

Mr. and Mrs. D. F. Smith.

Talnage Palmer returned to his home last week, after attending the bedside of his father.

BAPTIST CHURCH

If old "Sol" would show his face like he did last Sunday for ten days the flu would be compelled to pass on and the doctors would get some much needed rest and our church services would soon be normal. However our regular church goers were on hand regardless of the flu and we had splendid congregations at both services. Two death occurred during the week and this pastor and the church offer to these whose loved ones have passed on to a better land our sympathy and a prayer that the Lord may sustain them in their hours of grief.

This preacher noticed in the last week's Eagle that some one had visited the study of the Methodist pastor and borrowed his Bible and sermons. This preacher knows the intruder will not use the Bible and can not use the "notes", so why not return them to the owner who will use them. But assuring our brother pastor, for whom we have the highest regards, if his Bible is not returned we will be glad to furnish him with a few up-to-date sermons and will guarantee them to be "dry."

Those who missed the services last Sunday night missed an opportunity to hear Tom Toland and Haynes Harrison sing. A superintendent and a deacon that will do what the pastor asks them to do are certainly to be admired. A gentleman said to this preacher the other day: "If you can get Judge Anderson and Robert Littlepage to sing, I will believe you can work miracles." We want everyone to know that when they come to our church they will be given an opportunity to take part. It is a fine thing for a church to have a splendid choir, and we believe we have the best. But our services are not the best unless every body is given a chance to take part. Religious services should be void of formalities, or conventionalities, and should be for the honor and glory of God, and the edification of everyone present. So come to thine Baptist church next Sunday and join in an old fashioned way of worshipping God.

By request, the pastor will preach next Sunday morning at 11 a. m. on "Why Should Men Go to Church." Especially does this pastor extend an invitation to the non-church goer, and the nominal church goer. We believe that we can convince any reasonable thinking man that they ought to attend the services of the church. Just remember that our services begin promptly at 11:00 a. m. and 7:45 p. m.

M. D. LONG MAKES BIG PROFITS ON HIS WATERMELON CROP

Watermelons solved the cotton problem of M. D. Long, a Midland farmer, who was formerly a resident of Mills County. Mr. Long marketed \$3,000 worth of melons from his 13-acre field.

Mr. Long could have sold most of his melons in the city of Midland, but he did better by selling them direct to truckers from the oil field towns and camps near Midland.

METHODIST CHURCH

The Bible is a divine revelation. Man without a divine revelation would be ignorant of God. This means that God has broken the silence of eternity to speak to His children. For 2,500 years early human beings walked with God without a line of promise. Step by step down through the ages God has unfolded His message to man. Almost all we know about God we have found out through the Bible.

Have you started to read the Bible through this year? Why not read it through in 1929? It's mighty good reading.

The sermon for both hours at the Methodist church will be from Genesis.

A warm house, good music, and helpful fellowship awaits you. U. R. Welcome.

—S. D. LAMBERT, Pastor.

MILLS COUNTY CLUBS HOLD BIG RALLY

Owing to the prevalence of flu and the unfavorable weather, the Community Club rally was attended by representatives of only four clubs, Friday, Trigger Mountain, Duren and Center City.

Reports of last year's activities were had from these clubs. Center City and Duren Clubs made interesting reports of their 1928 work.

Judge L. E. Patterson discussed the School and Community Club. He stated that communities interested in school only rarely maintained a successful school, and that a 4-Square development of the community is essential for the success of the school.

Miss Moore of the State Department of Health made an interesting talk on Child Welfare which was greatly appreciated by those present.

H. L. Gantz, field Editor of Farm & Ranch, presented the 4-Square Community Plan and discussed a program for better rural schools, 4-H Clubs, Community Organization and Health Surveys. Mr. Gantz is a forceful speaker, an outstanding educator and is deeply interested in community organization. He suggested to the County Judge and County Agent that a rally be held next summer after the fashion of a picnic when representatives of Farm & Ranch and other forces interested in this great work can meet the people of Mills County.

CHURCH NOTICE

Evangelist N. C. McKillip of Fort Worth will preach at the Church of Christ Sunday, January 20th.

SEVERAL TOWNS TO GET NATURAL GAS

All towns between Brownwood and Waco are to be served with natural gas by a new corporation to be formed by Thomas B. Longre, president of the Brown County Gas Company. Construction on the project, which will cost more than \$2,000,000 will get under way before Feb. 1, according to Longre.

A 10-inch line will be laid from Brownwood and Coleman County fields to Waco, including the towns of Mullin, Zephyr Goldthwaite, Lometa, San Saba, Lampasas, Hamilton. The new corporation also will serve the Waco field.

ELECTRIC LAUNDRY CHANGES HANDS

In a deal completed Wednesday of this week Eurus Greathouse, son of J. E. Greathouse of this city, becomes owner of the laundry, having bought the interest of Oran Hale.

Eurus will make a success of the Electric Laundry business. He is a straightforward, businesslike young man, honest and intelligent and a hard worker. He has placed C. C. Sims, an experienced laundry man, in charge of the mechanical department of the laundry and will turn out first class work exclusively.

Goldthwaite citizens should see to it that the laundry is well patronized, first on account of the fact that they will get value for their money, and second, because each new industry should be liberally supported by the citizenship in order that it may prosper.

MRS. DODSON DEAD

Mrs. Isabel Dodson died at her home near Goldthwaite last Sunday at eleven o'clock, death resulting from a complication of influenza and pneumonia. The remains were laid to rest in the Pleasant Grove cemetery Monday afternoon at 3:00 o'clock, Rev. Roberts, an Apostolic minister, at Lometa, conducting the services.

Mrs. Dodson was a pioneer citizen of Mills County, being a daughter of Joe Curtis, Sr., and a sister of Joe Curtis of this city. She leaves four daughters besides other relatives to mourn her death. The Eagle joins the many friends of the bereaved ones in offering them the greatest measure of sympathy in this sad hour.

Mrs. D. T. Hunt of Blackwell is here at the bedside of her father, P. G. Palmer.

Mr. and Mrs. Charles Capper of Muncie, Indiana are here visiting his uncle, J. C. Mullan and family. They made the trip of about 1,200 miles in their car.

Hon. J. C. Darroch of Brownwood was a business visitor in Goldthwaite last Monday.

Gerald Elliott and Clarence Herrin returned to their home in Colorado Tuesday, after several days visit here with their friends.

Mrs. J. C. Mullan returned to Goldthwaite Monday morning from Dallas, where she had gone last week to be with her son Russell and his baby, who both had flu, followed by pneumonia. Both are better now.

AN OPEN LETTER TO MILLS COUNTY PEOPLE

The Baptist Mission Board has employed the writer as Missionary of this County for half-time.

I have been doing mission work in this state for the past ten years. I served as Missionary of Comanche County two years. I am now here to serve you to the best of my ability.

I am beginning to feel that there is lots of mission work to be done in this county. I earnestly desire your prayers and your cooperation for I desire to have a successful year.

I would consider church work for two Sundays in each month since I am only employed for half time as Missionary. Respectively,

W. A. THORNTON,
Missionary.

IN MEMORIAM

Rev. Thomas Burrows was born in Tennessee in the year 1844. He and three brothers joined the Confederate army when the war was first declared. Two of the brother fought though the entire war, while one gave his life to the cause.

At the age of 24 years he professed faith in Christ and united with the Missionary Baptist church in McClellan County and was later ordained to the ministry.

He was married to Miss Mattie McGlothlin in 1847. To this union were born 8 children, five daughters and three sons.

The death angel claimed him January 7, 1929. We laid him to rest in the Oddfellows cemetery at Goldthwaite beside his baby daughter who was laid to rest 33 years ago. He rests there to await the Resurrection Morning when the dead in Christ shall rise.

The last words Grandpa spoke was to his son-in-law. He said: "Walter, tell them all goodbye, for I am going home." These words are dear and sweet to us and will ever impress on our minds and hearts a home not made with human hands, but whose builder and maker is God.

Dear Grandpa's life was truly spent in the world for the cause of our dear Savior and for the

good of others. He was a faithful minister until he had a stroke of paralysis which disabled him to continue his public work, but his work was an example for his family to the end.

Oh! thou art gone, our precious Darling, and how we will miss thee. How we will look for that dear white head and listen for that dear sweet voice. Oh! We know, yes we know, dear Grandpa, that our loss is heaven's gain. The dear Lord needed another jewel so He came and called for you. We will meet thee in that home where there are no trials and troubles and whose builder and maker is God.

Grandpa leaves a faithful and devoted companion, five children and 51 grand-children. —One Who Loved Him.

CENTER CITY 4-H CLUB

The Center City 4-H Club reorganized January 5th, 1929. We enrolled twenty-nine members. The following officers were elected:

Bill Hendry—President.
Raymond Williams—Vice President.

Hartal Langford—Treasurer.
Margaret Venerable—Secretary.

Lois Elaine Blackwell—Reporter.
Yvonne Welch—Program Committee.

Our first regular meeting was held Friday afternoon, January 11, 1929. All members were present with the exception of two.

Our program committee rendered an excellent program. The yearly report of 1928 was given us by the secretary.

A member tried to tell what the 4-H Club had meant to her, individually, and to the other members also, but her vocabulary did not extend that far. The club has indeed meant lots to us. It has given us—pleasure, enjoyment, knowledge, a gain in money, trips to A. & M. College and to Dallas; and last but not least, it has given us belief in ourselves that "We Can If We Will."

We wish to thank Mr. Weaver for the interest he has manifested in us, and the patrons of Center City and Mills County for the "backing" they

have given us. We intend to make 1929 the best year every way—in everything.

We challenge our opponents to beat us in a fair race. If we lose we will be the best losers you have ever known! LOIS ELAINE BLACKWELL, Reporter for Center City Club.

HISTORY OF SCOUTING

NOTE—This is the second installment of a series of articles on The History of Scouting.

No organization can exist without a fundamental law expressed in dynamic terms that will impress those who are members of the organization with a sense of the larger values to be found in pursuit of the ends of those laws. Sir Robert Baden-Powell had written such a law and an accompanying oath of allegiance for his scouting program. When the scouting program was brought to this country it was found necessary to change the wording of the oath as well as much of the scout laws. In doing so the original intention of the program was not lost sight of. The changes made were inspired by Western thought and spirit. The Scout laws as we know them today are largely the work of that friend of Scouting, Dr. Jeremiah Jenks. He had at his command the services of all the men who at the beginning of the movement in this country had given of their time and thought to its possibilities. Such men as Daniel Carter Beard, Theodore Roosevelt, Ernest Thompson Selon, and other leaders in our outdoor life influenced the thought expressed in those laws. It is no wonder that in the scouting program we can smell the smoke of the camp-fire, hear the murmur of mountain streams, behold the majesty of mighty forests and wooded slopes, see endless stretches of sunny plains, and thrill to stirring notes of American initiative, achievement and progress.

These are the twelve scout laws. A Scout is Trustworthy, Loyal, Helpful, Courteous, Kind, Obedient, Cheerful, Thrifty, Brave, Clean and Reverent. They are the result of much study and thought. Long hard months were spent in thoroughly analyzing the program so as to get at the real ideals of living. That they were wisely thought has been proven by the achievements of scouting during these nineteen years. At no time was the scouting program lost sight of in the writing of those laws.

The Boy Scouts of America have one law in their program that is not found in the scout-laws of other nations. That is the 12th law, "A Scout is Reverent." He is reverent toward God. He is faithful in his religious duties, and respects the convictions of others in matters of custom and religion. That law is the special contribution of the Chief Scout Executive, James E. West. Mr. West is a man of keen insight into the life of young people. He is a man with a large vision. In his estimation life is not full-rounded unless it has its foundation in the teachings of religion. Therefore he insisted that the scouting program would be incomplete unless we brought to the attention of the boys of this country the place of religion in their lives. There are several things outstanding in this law. It does not compel religious teaching upon the scout. It does not make any distinctions in religious beliefs or interpretations. It acknowledges the reality of a God. And He is to be respected according to the teachings of religion as they have been imparted to each individual scout. But of still greater importance is that part of the law which says that a Scout "RESPECTS the convictions of others in matters of custom and religion." No boy is permitted to remain a member of the Boy Scouts of America who casts any aspersions on the religious convictions of any of his fellow scouts. It is not surprising therefore that we find in the same troop of Scouts boys of Protestant, Catholic, and Jewish faith all having a profound respect for the other fellow's religious conviction.

These laws are obligatory upon the Scout. He cannot become a member of the organization until he promises to obey them, and he cannot remain a member of the organization if he violates them. The Scout oath is possibly the most famous and well known obligation of its kind. If it were only possible to go into detail description of the effects of that Oath, we would have one of the most interesting histories of human behavior ever read by man. The Scout Oath is as follows: "On my honor I will do my best to do my duty to God and my country; and to obey the Scout laws; To help other people at all times; to keep myself physically strong, mentally awake, and morally straight." These are the objectives of service with the Boy Scouts. Such are the Scout Laws and the Scout Oath. These have become the dominating influence in the lives of American boys, and are reaching out into the lives of the men who give of their time in the service of boys.

(The next in the series will deal with the growth and achievements of scouting nationally.)

TREATED STEEL USED IN THE MODEL A FORD

The new Model A Ford automobile contains some of the finest examples in the world of new metal treatments for resistance to wear and to the torsional strain imposed upon some of the parts of the modern internal combustion engine.

One of these is the crankshaft. In this latest Ford product the crankshaft is made of a special Ford carbon manganese steel, developed under processes of metal blending and heat treatment that are new to the industry.

These processes produce a crankshaft that is heavier than any previous Ford crankshaft, that is tougher to resist wear and stronger to resist the torsional strain of high speed performance. The weight of the shaft in itself makes for the smoother operation and the static dynamic balancing process to which it is subjected before it is installed in the motor still further reduces the chances of vibration.

This special carbon manganese steel is only one of more than forty different kinds of steel used in the manufacture of the new Model A Ford car.

COULD YOU HAVE BELIEVED IT?

If you positively knew you could have \$500.00 cash, a thorough business training, a good position and seven months experience if trained in a Byrnes Commercial College against no cash, no job or experience if trained in another school, which would you choose? The answer is easy, but how are you going to convince yourself that a Byrnes Commercial College has these great advantages? Here's how: Ask three students that have graduated in the combined course of bookkeeping and shorthand in any other school if twelve months is not a fair average time to graduate in a school teaching Gregg Shorthand and 20th Century Bookkeeping, then ask three who have graduated in a Byrnes Commercial College in the Famous Byrnes Shorthand and Bookkeeping if four and one-half months is not a fair average time to graduate. Also get the catalogues of other schools and Byrnes' and compare their course of Bookkeeping and Shorthand and time required with Byrnes. The Byrnes student graduates in four and one-half months. Time saved by Byrnes, seven and one-half months. Put the time at a low salary and you would have

earned from \$500.00 to \$700.00, and by the use of the famous Byrnes Shorthand and Bookkeeping taught exclusively in Texas in the three Byrnes Commercial Colleges under the direction of the author you have been given the most modern, thorough, practical training to be had in seven and one-half months less time, and you will have seven and one-half months valuable experience and a good position.

Business men prefer Byrnes trained office help. Byrnes trained students are holding the most responsible bookkeeping, shorthand, secretarial, and accounting positions at the best salaries, in the large cities where business is found. If you can secure and hold the best paying positions with four and one-half months training why spend twelve months in some school not permitted to teach the famous Byrnes system? Byrnes scholarships are sold under a money back guarantee. Get the Byrnes bookkeeping and shorthand in one-half the time and one-half the cost of others. Byrnes Colleges operate three free employment departments for the placing of all graduates. Write for catalogue today. Investigate, you are entitled to the best. OBITUARY

Miss Mirrh Cook was born in Wheatland, Dallas County, Texas. She was the daughter of Mr. James W. Cook and Sallie

H. Cook, who later became pioneer citizens of Mills County. She made her home in Mills County and Goldthwaite for 25 years. She moved to Dallas in 1915 where she has since resided.

Several years ago she united with the Methodist church of Goldthwaite. During her residence in Dallas she was a member of the Oak Cliff Methodist Church.

After a lingering illness she passed away at her home in Dallas, January 11, 1929 at 1:45 p. m. Her long illness was but a preparation for her going.

She is survived by Mrs. R. H. Fritz of this county, Mrs. J. C. Davis of Diecy, Texas, and Miss Elizabeth Cook of Dallas, Texas, and several nephews and nieces.

She often expressed her desire to be brought back to her old home to be laid to rest by the side of her mother and her father.

The funeral service was from the Methodist church and conducted by the pastor Rev. S. D. Lambert, assisted by Rev. Kelly.

Everything. The new and better Texaco Gasoline forms a Dry Gas. It burns completely. No "heavy ends" are left in the cylinders to dilute the oil film, break the seal, enter the crankcase and destroy the lubricating value of the oil.

We have the answer. Just drive up to the Texaco pump. Then notice how much better your engine performs. Better in pick-up, power, mileage and smoothness.

The new Texaco is decidedly different. Stop where you see the Texaco pump—

When you drive up to a filling station you ask for "gas." And correctly, too. It is the gas—the vapor of the gasoline and not the liquid which gives the power. UNDER THE CAPITAL DOME

AUSTIN, TEX.—A fresh effort to raise the salary of the Governor of Texas from the \$4,000 a year now paid, will be made by Administration Leader Albert Petsch at this session of the legislature.

Petsch is also author of a proposed constitutional amendment to create a public utilities commission as suggested in Governor Moody's message to the general assembly.

Although a salary raise for the Governor has twice before been defeated, Petsch believes it can be carried. "The Governor can now get out and work for such an amendment with all propriety," said Petsch, "and I am confident he will do so, as it can be of no personal benefit to him. Despite previous defeat I think the people are for it and if given such a measure without others will vote for it."

It will accordingly be the administration plan to keep a lot of proposed constitutional amendments from going to a vote. Petsch is willing to have another vote on a nine member supreme court but believes there is no chance for an amendment.

A statewide road bond amendment is to be submitted to the legislature some time this next week, but little hope is held for its passage, as it takes a two-thirds vote of both houses to send an amendment to popular vote.

Failure of the Governor's message to comment upon water conservation was noted by some members.
