

Tragedy Claims Youngster

Two Mexican American boys were injured in separate accidents last week when they were run over by vehicles

driven by their fathers. Nine-year-old Juan Garza died enroute to an Amarillo hospital in Sunday's tragic accident.

Manuel Ramirez Jr., eleven years old, was expected to be released from St. Anthony's Hospital by midweek.

Young Ramirez was riding in the back of a pickup driven by his father who was checking water rows. He fell from the pickup and was backed over.

The Garza youngster was run over by a feed truck driven by his father, Juan Garza Sr. while feeding Sunday afternoon at Hill Feed Lot. The boy, who frequently helped his father by opening gates and "shooing" cattle from the opening, apparently stepped into the pathway of the backing truck.

He was taken to Plains Memorial Hospital in Dimmitt and from there to Amarillo, having to be transferred from one ambulance to another when the motor burned out in the first.

Bob Hill flew the Garza family to Monterrey, Mexico where they were met by other family members to go to Cerraluo Neuve Leon, Mexico for funeral services.

In addition to his parents, he is survived by two sisters.

Henry Hendrix Rites Conducted In Muleshoe

Services were held Monday at 2:30 p.m. in the Church of Christ in Muleshoe for Henry "Pop" Hendrix, 83, former resident of Hart.

Officiating were Royce Clay of Big Spring and David Cox of Muleshoe. Burial was in Rose Hill Cemetery in Tulia under the arrangement of Singleton-Ellis Funeral Home of Muleshoe.

A native of Powderly, Mr. Hendrix died Saturday. He had lived in Muleshoe ten months, moving there from Hart. A retired carpenter, he had been a resident of Hart 25 years.

He was a member of Muleshoe Church of Christ. He was married to the former Bertie Lea Baxter June 27, 1915 in Quanah.

Survivors include his wife; four sons, George A. of Anchorage, Alaska, Dave T. of Chicago, Ill., Henry Jr. of Fairfax, Va., and Loyd F. of

Sparks, Nev.; a daughter, Audrey L. Bussey of Dimmitt; nine grandchildren and seven great-grandchildren.

Grain Handling 'Open House' Set Sunday

"Open House" will be held from 2 to 5 p.m. Sunday, Aug. 27 for Grain Handling Corporation's new office facilities on Highway 194.

Grain Handling's office manager, Gene Trotter, invites everyone to come by and view the handsome new addition housing main offices of the company which also has facilities in Hereford, Olton, Springlake and Hart Camp.

'Death' Film To Be Shown

An invitation is extended to the public to attend 6:30 p.m. services Sunday, Aug. 27 at First Baptist Church to view the film, "If I Should Die."

The 46 minute film reveals how no one is immune to the sting of death -- its grief or sorrow; yet, through personal testimonies, the film shares a living hope for man -- to face not only death itself but also the loss of loved ones.

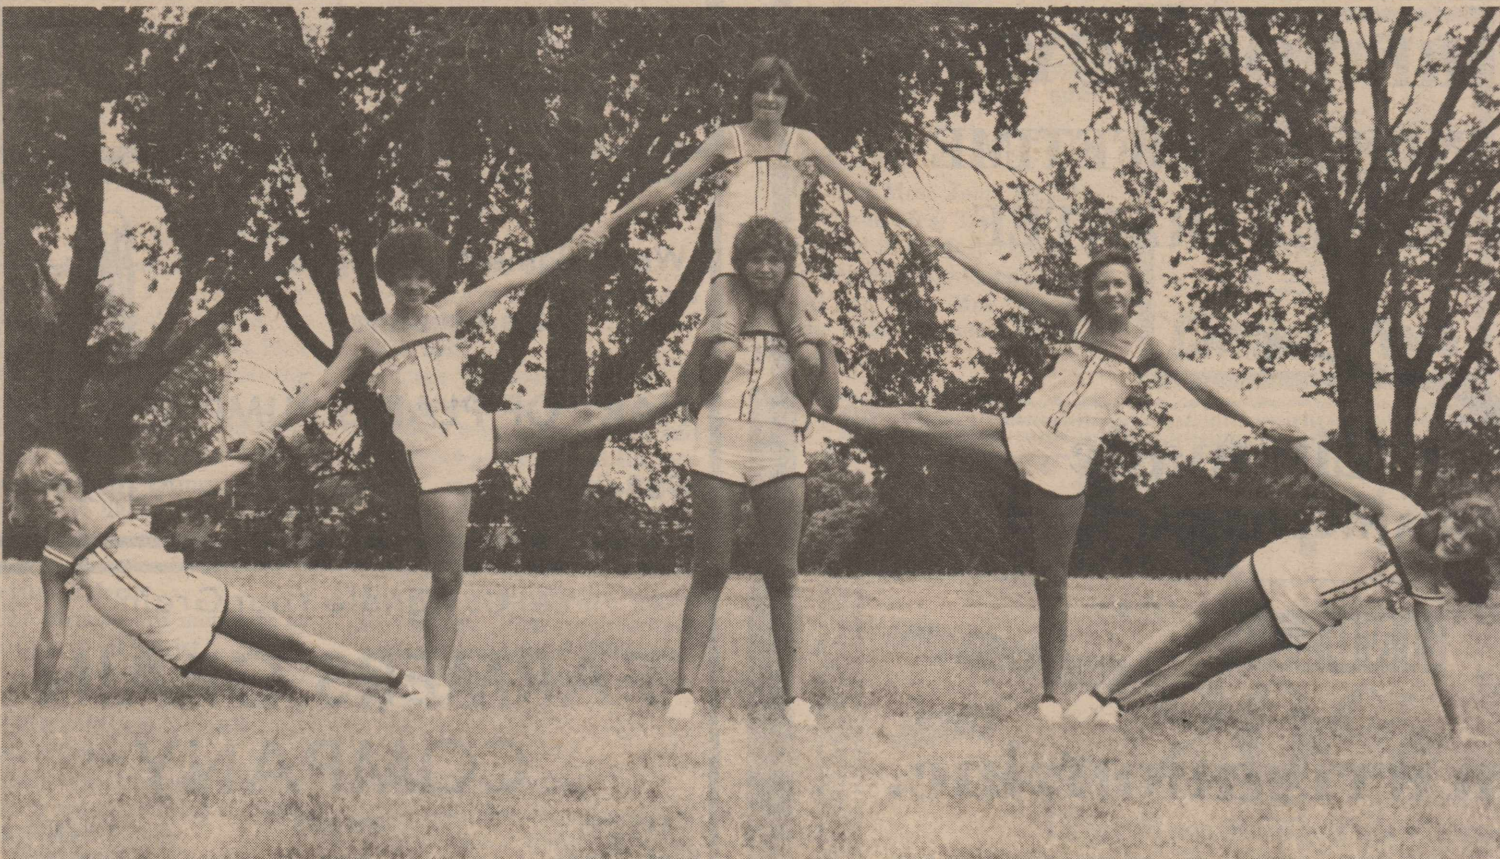

Death! That inevitable and inescapable fate -- or is it?

"I heard the doctors say that I was dead . . . that's when I began to feel as though I was tumbling, tumbling through a long, dark tunnel that was bringing me closer to a distant light. Suddenly..."

(Case paraphrase, "Life After Life" Dr. Raymond A. Moody Jr., M.D.)

American IS talking about death, but more importantly, Life After Death. The subject that once was discussed only in

Medical Care

Everybody knows health costs are going up, but just how fast they are rising may surprise you.

The Health Insurance Institute examined data from insurance companies, other health insuring plans, government agencies and hospital and medical associations throughout the United States, and came up with these findings:

- In 1976, the average cost to a community hospital in the United States for a day of care was \$173, up from \$151 in 1975 - an increase of about 15 percent. The highest daily average was \$276 in Alaska. Among the lowest daily averages were \$116 in South Dakota and \$118 in Mississippi.

- The average room and board charge in hospitals across the nation climbed 18 percent, from \$82.65 in 1976 to \$97.52 in 1977.

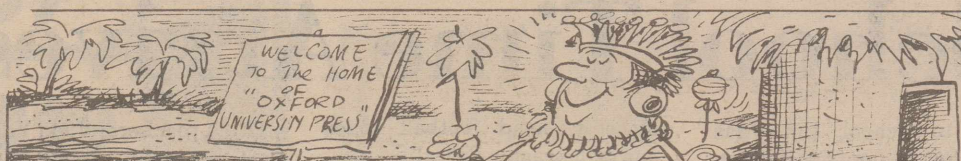

- The average length of stay in a hospital was the same in 1976 as it was in 1975 - 7.7 days - but the cost to a community hospital for an average length of stay went up from \$1,164 in 1975 to \$1,330, or more than 14 percent in 1976.

- In 1977, the average cost to an individual of an appendectomy in Atlanta was \$383, up from \$340 in 1976 - an increase of about 13 percent. In San Francisco, this procedure averaged \$508 in 1977, up from \$463 in 1976.

- A hysterectomy in New York averaged \$1,048 in 1977, up from \$973 in 1976. In San Francisco, the average cost for this operation was \$879, up from \$799 in 1976, an increase of 10 percent.

- The average cost of a cholecystectomy (removal of a gallbladder) in New York City was \$966 in 1977, up from \$866 in 1976. In Minneapolis-St. Paul the average cost was \$542 in 1977, up from \$493 in 1976. In San Francisco, removal of a gallbladder averaged \$761 in 1977, up 4 percent over 1976.

- A tonsillectomy in Dallas averaged \$231 in 1977, up 16 percent over 1976. In Minneapolis-St. Paul, it averaged \$168 in 1977, up from \$150 in 1976, an increase of 12 percent. In Atlanta the average cost of a tonsillectomy was \$197 in 1977, up from \$180 in 1976. In Dallas it was \$231, up from \$199 in 1976, an increase of 16 percent.

MRS. JOHN McLAIN

Cook of the Week

Tasty recipes are shared this week by Mrs. John McLain. The cherry Coke salad is one which Jewell has used many times since she jotted it down from a radio program back in the 40's.

Jewell came to Hart two days before Christmas in 1923 with her parents, the late S.E. and Janie Wallace, and her sister, Dovie (Mrs. Bertrand who lives in Dalhart). They came from Wellington.

John's family, the J.C. McLains, came to Hart from Stephens County, Okla., in 1904.

A little more than a year after moving here, Jewell and John were married. They celebrated their fiftieth wedding anniversary in January, 1975.

John retired in April 1966. He had been employed at the east office of Farmers Grain Company. Jewell served as window clerk in the Hart Post Office 18 years before retiring Nov. 12, 1971.

Doing all kinds of handwork, Jewell never has idle hands. She enjoys crocheting, embroidering and likes painting with oils. She finds most crafts fun and gets pleasure from making Christmas decor.

The McLains are members of the Church of Christ.

CHERRY COKE SALAD

2 small Cokes
1 small can crushed pineapple
1 No. 2 can black Bing cherries
1 pkg. cherry Jello
1 c pecans

Heat one Coke, add to Jello, let dissolve. Add other Coke (cold). Add pineapple and

drained cherries and nuts. Pour in mold and chill.

BEAN SALAD

1 can red kidney beans
1 can wax beans
1 can green string beans
1 green pepper, diced
1 onion, diced
1/3 c celery, diced
1/2 c vinegar
1/2 c sugar
1/2 c oil
1 t salt
1/2 t black pepper

Drain beans, run water over kidney beans, then mix all together. Combine last 5 ingredients, pour over bean mixture and toss. Cover and refrigerate overnight.

CANDIED SWEET POTATOES

6 med. sweet potatoes
1 c pineapple juice
2 c firmly packed brown sugar
3 T margarine
dash salt

Wash potatoes and cook in jackets until just barely tender. Remove from water; drain and cool. Peel potatoes and cut into 2-inch slices (or leave them whole). Place in a two quart casserole dish. Combine remaining ingredients in a sauce pan. Boil until mixture begins to thicken. Pour over sweet potatoes and bake at 350° about 20 minutes, basting often. Yield: 8 servings.

FROM OKLAHOMA

NOTICE

Pioneer Natural Gas Company, a division of Pioneer Corporation, hereby gives notice of its intent to implement new rates for residential and commercial type, small industrial and large gas air conditioning and/or electric generating gas service customers in the rural environs of the 63 cities and towns on its West Texas Distribution System, effective upon the date and to the extent that such rates are finally approved for the said cities and towns. It is anticipated that the new rates will result in a 1.7% increase in Pioneer's gross revenues on its West Texas Distribution System. The increase in Pioneer's aggregate revenues will not constitute a "major change" as defined in Section 43(b) of Article 1446c, V.A.T.C.S.

A Statement of Intent to change said rates was filed with the Railroad Commission of Texas about August 18, 1978, and is available for inspection at the Company's Amarillo office, 301 S. Taylor Street.

Mr. Carrasco-Miss Perez Recite Vows In Plainview

Miss Leticia Perez and Johnny Carrasco recited wedding vows at 3 p.m. Saturday in Sacred Heart Catholic Church in Plainview.

Parents of the couple are Mr. and Mrs. Agustin Perez and Mr. and Mrs. Jesus Carrasco.

The Rev. Rex Nicholl, pastor, officiated.

Given in marriage by her father, the bride wore a formal empire gown fashioned with lace bodice, bishop sleeves enhanced with a wide band of lace and deep lace cuffs with a modified skirt falling from the high rise waistline and extending to a train.

A lace Juliet cap held her silk illusion veil adorned with Chantilly lace. She carried a bouquet of pink, blue and white silk roses accented with baby's breath.

Ramona Perez, sister of the bride, was maid of honor. Bridesmaids were Sylvia Carrasco, sister of the groom, Norma Catano, Lucia Berumen, Ernestina Montemayor, Patricia Martinez and Sheila Garza of Plainview.

Maid of honor wore a gown of white chiffon styled with fitted bodice featuring short sleeves

and a ruffle encircling the hemline. Bridesmaids wore dresses of pink and carried single pink silk roses with accents of baby's breath.

Eliazar Castillo was best man.

Sponsors were Messrs. and Mmes. Abelino Carrasco, Dario Carrasco, Guillermo Carrasco, Fernando Montemayor, Rololfo Gonzales, Isidro Marquez, Joe Longoria, Santos Niabes, Antonio Centeno, Samuel Lopez, Ramon Vargas, Fortunato Reyna and Miss Vickie Martinez.

Others were Messrs. and Mmes. Manuel Villareal, Jesse Hernandez Jr. of Plainview and Marcelino Godino Jr. of Booker. Women sponsors wore dresses of light blue and carried blue silk roses with baby's breath.

A dinner for the wedding party and close relatives followed at the American Legion Building. All wedding guests were invited to a dance later at the Legion building.

The bride is a 1977 graduate of Hart High School and attended Regional Occupation Center in Plainview. Until July she was secretary for the City-County Health Unit.

Carrasco is a 1976 graduate of Hart High School and is employed by Grain Handling Corporation.

The newlyweds are at home in Hart.

DINNER GUESTS

Sunday dinner guests in the home of Mr. and Mrs. Kenneth Covington were their daughter and son-in-law, Mr. and Mrs. George Sweet of Memphis, Tenn.; her sister and family Mr. and Mrs. Steve Moore, Michele and Roger of Amarillo and her mother and brother, Mrs. E.W. Stone and Earl Stone.

SUNDAY GUESTS

Visiting Sunday afternoon with Mr. and Mrs. Cecil Ray Jones, Charles and Dan were his aunt, Mrs. Annie Dixon of Pampa and his cousins, Mr. and Mrs. G.B. Dixon of Canyon and Mr. and Mrs. Junior Holland of Earth and Percy Hart. The group also visited Mr. and Mrs. Percy Hart.

SUNDAY GUESTS

Mr. and Mrs. Leonard Griswold visited Sunday in Muleshoe with her mother, Mrs. Ted Allen and their sons, Mr. and Mrs. Dale Griswold and children and Mr. and Mrs. Donnie Griswold and Jack Griswold.

RETURN HOME

Mr. and Mrs. Edwin Cox of Manteca, Calif., have been visiting with his mother, Mrs. Ellen Cox in South Hill Manor and his brother, Miles Cox and other relatives. They left Monday to return home.

NEWS

OF ENERGY

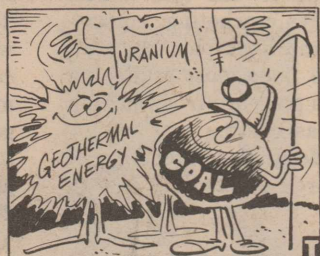

We are burning up our oil and natural gas resources as if there's no tomorrow. But tomorrow's needs for energy will be even greater than today's.

This year the U.S. is expected to consume almost 20 million barrels of oil a day. According to *The World Almanac* only 10 million barrels of oil a day are produced domestically. Frightening, isn't it? By 1985 it is estimated that consumption will increase up to 25.6 barrels a day, with domestic production rising to only around 11 million barrels daily.

This harsh reality of domestic supplies lagging far behind our pace of consumption, combined with the leveling off of our rate of discovering new oil and gas fields, makes us depend more on other forms of energy from the earth: coal, uranium, water and geothermal (heat from the

earth itself) energy. However, like oil and gas, these forms too are not limitless.

Only if every single one of us curbs his or her seemingly unquenchable thirst for energy and takes simple steps to conserve it at home, at work and on the road can we continue to enjoy our

way of life. A way of life made possible by once-abundant energy supplies. We must also support efforts to discover new resources. The American Geological Institute urges us to "work together to make them (our natural resources) work for us."

Irene's Ideas

By Irene Keating

School has begun now and we're all trying to get back onto schedule. I hope you're satisfied with your childrens' classes, teachers, etc. I think often, we parents are more apprehensive about school starting than our children are!

Jessie Ebeling gave me a new recipe last week that her family enjoys. I made a double batch and learned not to bake a double recipe on one cookie sheet, as it ran off...so I got to clean the oven! The next mistake I made was in buying pudding that needed cooking, but even so, it tasted good. I brought a batch to the office and everyone like it.

JESSIE'S WALNUT BANANA CRUNCH
1 c sugar
1 c chopped walnuts
1 egg

Combine and bake on a greased cookie sheet at 350° for 13-15 minutes or until bubbly and brown. Scrape out with a spatula and crumble into

pieces. Put half of crumbs in bottom of 8x8 in. pan.

Mix for two minutes till thick:

1 Instant vanilla pudding (3½ oz.)

1 c sour cream

1 c milk

Sice 2 bananas and add to pudding. Pour into pan and cover with remaining crumbs. Chill.

Dannie McKay Rites Held Sunday In Bovina

Graveside services were conducted at 2:30 p.m. Sunday in Bovina Cemetery for Dannie Lynn McKay, 22, whose body was found in the burned cab of his father's pickup truck early Thursday near the Texas-New Mexico line between Hobbs, N.M., and Seminole.

The Rev. Jerry Rockwell, pastor of First Baptist Church in Bovina, and the Rev. Denzil Leonard of Canadian officiated. Burial was under the direction of Parsons-Ellis Funeral Home of Friona.

Son of former Hart residents, Mr. and Mrs. Elmer McKay of Bovina, he had lived in Bovina 12 years. He was last seen by family members about 6 p.m. Wednesday when he left his parents home. He was to have gone to Dallas, where he had worked during the summer, for

a load of furniture and was making plans to enroll in Eastern New Mexico University.

The case is being investigated by Gaines County officers and law enforcement officers with Lea County, N.M.

McKay is survived by his wife, Mary Lou; his parents; a sister, Wanda Hendlee of Lubbock; three brothers, Jerry Dean and Bennie Ray, both of Dimmitt, and Ernest Larry of New Boston; and his grandparents, Rose Osburn of Estelline and Selma McKay of Electra.

Death

whispers is now the center of conversation at office parties, bridge clubs and student gatherings. The news stands and daily papers are filled with stories on the subject and television talk-shows are devoting entire evenings to its discussion.

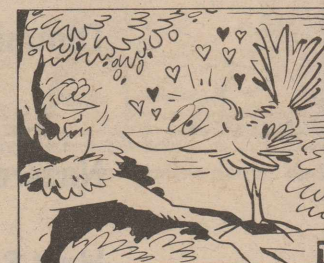

E.C.R.F.'s newest Film, "If I Should Die" explores this old age topic and much more.

This dramatic film examines these life after death experiences and asks:

Are they real or simply hallucinations of a dying brain? Suppositive and Non-Judgemental?

Are they revealing that Hell talked about in the Bible was really a myth or a remnant of primitive religion?

"If I Should Die" brings together some of the world's most respected Christian doctors, theologians and psychologists to investigate this subject and how it relates to histories most consistent textbook on death and dying -- the BIBLE.

Most baby birds have a hard little knob at the end of their beaks called an egg tooth, according to *The World Book Encyclopedia*. They use the knob to crack the shell of the egg so they can wriggle out.

Allergies: Things You Should Know

Although some 17 per cent of the people in America suffer from one or more major allergies, there are a lot of facts many may not know.

An allergy is a reaction by the body to substances it recognizes as foreign. The reaction triggers the formation of antibodies and the release of certain chemicals. It's these chemicals that cause the symptoms of allergy.

The most common causes of allergies are pollens, molds, dust, feathers, hair and chemicals. Sometimes an allergy can almost be predicted. For instance, studies have shown that if both parents have hay fever, a child has a three out of four chance of having an allergy, too, and a 50 per cent chance of getting it in his early years.

Anyone with these allergy symptoms would do well to consult with their pharmacist who now is in a position to recommend a number of products which were

formerly available only on prescription.

One recognized for its prompt, effective relief of hay fever and other respiratory allergy symptoms is Chlor-Trimeton tablets from Schering Corporation, and available without prescription in tablet or syrup form.

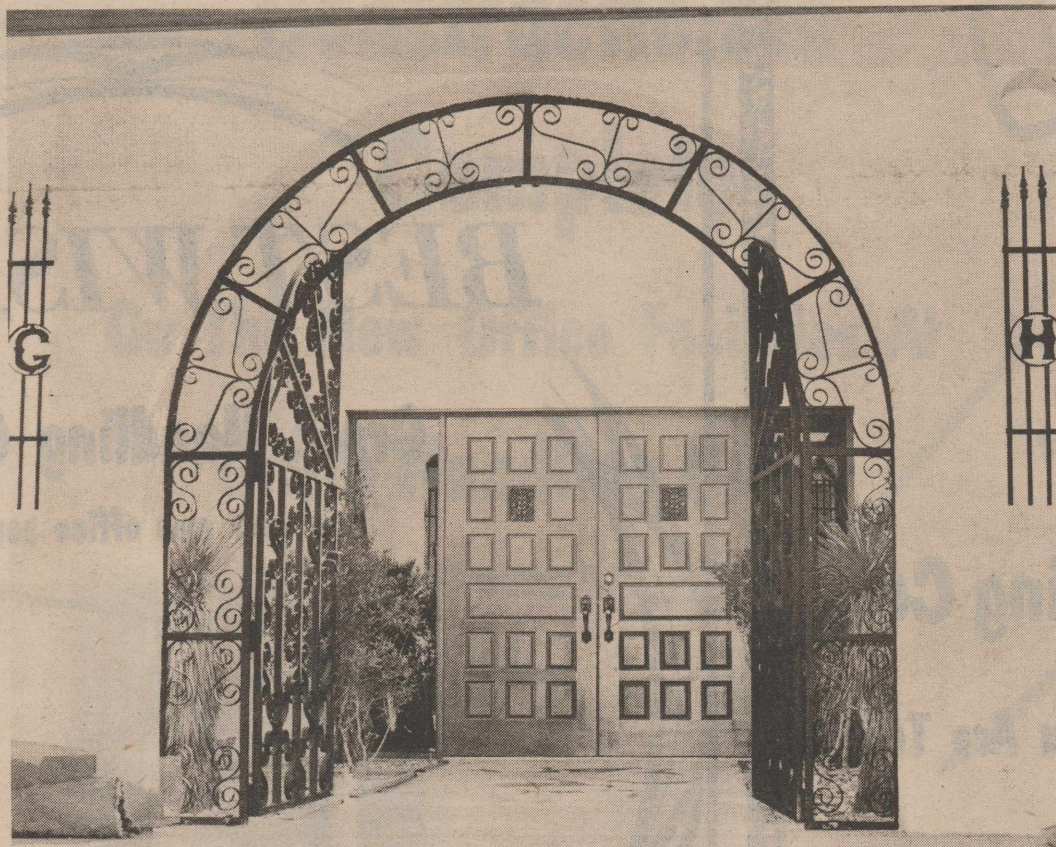

MANY PEOPLE WOULD BREATHE EASIER if they knew more about their allergies.

It contains the most widely used antihistamine ingredient, which is an original Schering discovery. All told, it would seem an allergy is nothing to sneeze at.

Hart's Newest...

Grain Handling Corporation this week moved into their newly constructed office building southwest of the corn cleaning plant on Highway 194.

The Spanish style structure, built by Panhandle Steel Buildings of Amarillo, features 4,350 square feet of floor space including a 20x30 basement.

Cledon Billington, sales representative for Panhandle Steel Buildings, expressed his company's pride in having been chosen as builders of the new office suite.

"This building," he says, "has all the detail work of First National Bank in Amarillo." Constructed of cinder block exterior walls, the gleaming white textured stucco walls feature blue glazed roof tile trim above the windows with lava rock trim below. Flag stones used in the courtyard at the front are repeated in the entry and front hallways.

Redwood planters at the windows and inside the courtyard have been planted with yucca restructa. Yaupon holly graces the northwest corner and the entry courtyard.

Other landscaping includes live oak and Spanish dagger along the highway and goldenrain, red oak and Ponderosa pine in the rear of the building.

Offices are finished with rich wood grained paneling. Vinyl wallpaper covers one wall in each of the other than the owner's and office

Natural lava stone from New Mexico is used in the handsome corner fireplace in the reception area which features elegant cabinetry. Carpeting in this area, hallways and basement repeats the warm shades of browns and blue.

Restrooms feature vinyl wallpaper and ceramic tile wainscoting with ceramic floor tile.

Recessed lighting is featured throughout the building. Effectively placed spot lights illumine the gleaming beauty of the structure at nightfall.

Grain Handling Corporation constructed the corn cleaning plant here in the summer of 1969 and has been supplying the area grown corn to food corn processing plants across the nation.

Construction of a second cleaning plant was completed in 1975 in Hereford enabling the company to supply larger quantities of a product to suit the requirements of snack food companies, hominy canneries, tortilla makers, corn meal mills and other food corn users.

The company's branches in Olton, Springlake and Hart Camp are drying and storage facilities for the gold and white kernels awaiting their final processing at Hart and Hereford.

Grain Handling got its start in the 60's when the cotton cleaning-delinting plant owned by Garland DePrang in Olton reached a low ebb in business. He turned to cleaning corn.

Seeking an outlet for food grade corn, he used a vacation trip through Texas to stop at every tortilla factory and other food corn processing plant he passed. At each stop he left samples and his credentials.

His efforts became a realized dream when construction was begun on the local cleaning plant. Wister Clevenger, a partner, managed the local plant until moving to Hereford in 1974.
