Tempest puts safety-minded performance in a gas-saving 4!

(Range of horsepower choices from 110 to 155)

Take a Tempest out on the highway and put it through its paces. This car is a whiz at moving into fast-stepping company on an expressway. Takes you from a standing start to a safe operating speed in seconds... gets you up a steep hill in high gear.

Run the Tempest over the roughest road you can find. It rides like the big ones because it's balanced! The engine's up front—the transmission's in the rear. And it's got independent suspension at all four wheels. Tires dig in on curves and turns. Full 15-inch wheels make car look big. Tires last. Brakes run cooler.

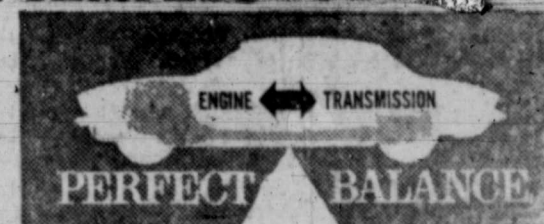

Before it hit the market, Tempest had 3,000,000 miles of testing by engineers, pro drivers and a team of teenagers. Its reliability checked out 100%. Owners have rolled up millions more. The only kick is the one it puts back in driving. Try it!

Double Feature Showing at Palace

Two of Walt Disney's finest films to date will be showing at the Palace Theatre Friday and Saturday, January 6 and 7. These features are "Jungle Cat" and "The Hound That Thought He Was A Raccoon."

Out of the heart of the world's greatest jungle Walt Disney brings to the theatre what he considers the most daring and thrill-packed drama of savage wild-life yet photographed for his True Life Adventure series. This is "Jungle Cat," in color by Technicolor.

For two years James Simon, Lloyd Beebe and Hugh Wilmar, top level naturalists and veterans of the Disney nature projects, provided the green wilderness of the Amazon basin in Brazil like any of the beasts they hunted.

"Jungle Cat" is not so restricted in subject matter as the title might indicate. While the principal character in the jungle drama is the jaguar, actually the Technicolor feature embraces the whole massive rain forest area. Here, in a million and a half square miles of tangled thicket, exists the most prolific and varied reservoir of wildlife on earth today—beast, bird, reptile, amphibian.

Walt Disney's "The Hound That Thought He Was A Raccoon," featuring the animal kingdom's two most implacable enemies, is one of the most unusual stories ever put on theatrical film.

The second movie is a hilarious account of a dog's life. The first of a new Disney nature series tying man into animal stories with an adventuresome plot, this featurette is the heartwarming tale of brought up fondly by raccoon Nubbin, a lost pup who, after being returned to his owner, finds himself in the perplexing adult role of pack leader on a raccoon hunt.

How he handles this and other various circumstances proves to provide excellent movie entertainment.

The conference should be concluded by 1:00 p. m. according to an announcement by WTDC officials. Civic leaders from a wide area of West Texas are expected to attend the meeting, Spence said.
