CHAMPION TEAM

Reno, owned and ridden by Dav Browder of Memphis, Texas won the open cutting at the Collingsworth County Fair Cutting Horse Contest. A contestant has 2½ minutes to work his horse. He is judged on the ability to handle cattle without cues from the rider and how quiet and easy the horse is with the herd of cattle.

Co-op Gin at Dodson Has Reorganization

The Dodson Farmer's Co-op Society has worked through most of its financial problems which arose earlier this year, and with the operation back in the hands of the directors, the gin will be ready to resume operation when the first bale of 1985 cotton drives under the suction.

Fred Covey, the president of the Board of Directors of the Dodson Co-op issued this statement Monday, Sept. 9 that the Co-op has completed its reorganization effort and is now open for business. The Co-op had filed for protection under Chapter 11 in an attempt to reorganize and save the 57 year old business.

"What has happened to the Co-op is indicative of the problems across the total farming industry. We had to try reorganization in an effort to streamline our operation, cut expense, and still provide competitive customer services. We feel we have accomplished what we set out to do. We have retained all our facilities, reduced the debt load, and arranged our financial structure where we can function comfortably during both good and bad years. Mr. Eaton of the Hollis bank worked with us through all of this. He has been instrumental in helping identify and solve our financial problems. Without his help, we just couldn't have done it."

According to Mr. Covey, "We are extremely proud of all the people involved in turning the company around. We need a cooperative to support our customer and community needs. We feel that this has been a major accomplishment that could not have been done without the help of many, many people. We plan to have an open house and dinner soon so we can personally thank all the people that supported us. We have the best gin plant in the country. All we need now is good weather and cotton."

Covey emphasizes that the gin is ready to start receiving cotton and this could come as early as the week of September 18--next week.

Early defoliation is anticipated on some of the fields, depending altogether on the weather. Harvest will be about two weeks earlier this year, across the board than for other crops in recent years.

The Farmers Co-op Society has made its turn around in a year that at this point, offers one of the better crops the southeast Panhandle has had.

Covey calls it the best since 1979. "It will not be another 1979, but it will be almost as good," he said Monday.

"We have a crew in position, awaiting cotton," he continued. It is headed by Julian Castillo and Richard Aguero. We anticipate that later in the year we will be ginning around the clock.

Cotton from the Co-op in Dodson will go to the PCCA in Altus, Okla.

"We serve some of the finest people in the world," declared Covey.

The Farmers Co-op Gin in Dodson draws customers from southeast Collingsworth, northeast Childress County and southwestern Harmon County, Oklahoma.

The board of directors in addition to Covey, the president, includes W.R. Jones, the vice president, Tom Lewis, secretary, and these other members: Tommy Hightower, Bob Cochran, Rodney Kane and Larry Argo.

Hospital to Lease Clinic, Hires Doctor Search Firm

Collingsworth General Hospital Board voted unanimously at special board meeting Tuesday, Sept. 10, to lease Wellington Clinic from Dr. Carter Holcomb.

The board voted to enter a lease purchase contract which calls for $15,000 per year lease payments for 5 years. At the end of the lease the district may pay an additional $15,000 and purchase the building if it chooses.

During discussion of the matter, 5 local residents, Larry Henard, Nan Henard, Kenneth Davis, Louis Allred and Elmer Feemster, appeared before the board to ask that the district build a new clinic for physicians use.

The board also voted to hire a physician search firm, Professional Practice Management, to recruit a new physician for the community at a contract cost of $12,000.

Professional Practice Management representative Sanford Smith told the board his firm usually is able to recruit a physician for a community in 6 to 8 months.

Dr. Carter Holcomb has told the board that he plans to retire January 1.

In other business the board approved purchase of a new defibrillator unit for the operating room, and voted to extend a contract for hospital radiologist to a Vernon physician who also serves the Childress hospital.

Let Dodson Water Project Bids Sept. 24

The City of Dodson has received approval from the Texas Department of Health to proceed with construction of its new water supply wells as part of its Texas Department of Community Affairs funded water system improvement project.

The bids will be opened on September 24, and the contract will be let soon after. Because this is a federally funded project, all the bidders, bond and other documents, have to be reviewed prior to awarding the contract, explained Jamie Johnson of Ober J. Engineering.

The project will consist of two new water wells, located north of the existing ground storage reservoir.

After the wells are completed, the necessary connecting pipeline and water tank improvement will be done on a separate contract. Along with that work will be some distribution line replacement in the town of Dodson, as well as installation of several new or replacement fire hydrants. The total project will be $143,000.

"Right now, we are receiving requests for documents from prospective bidders," said Johnson. The bid opening will be in the office of Ober J. Engineering, Wellington, at 2 p.m. Tuesday, Sept. 24.

Panhandle Regional Planning Commission is administering the grant for the City of Dodson.

Ober J. Engineering is responsible for the design construction management of the project.

One well is 85 feet deep, the other 135 feet. They will tap two stratas of water. Production expected from them is unknown at this time.

This is on land owned by R.L. Parsley of White Deer, formerly owned by Johnny Orr of Borger.

It is of interest that the wells will be on the Texas-Oklahoma line. In fact the City of Dodson at one time owned the farm, both surface and water rights. It sold the surface in the 1960s or 1950s, and retained the water rights. The state line runs through the east side of the farm, about 60-70 feet from the county road and in investigating water available in the test drilling program, one of the two best showings was on the Oklahoma side.

"We had to go to Hollis to determine that.

When we discovered that there was no record of the city owning water rights for that portion of the farm in Oklahoma, we surveyed the state line as it coverd the farm and moved the prospective location over to the Texas side, which was a move of about 30 feet west from the point where the test hole was drilled," said Johnson.

"We had to obtain sanitary control easements for an area around each well, which prevents building of certain structures or locating constructions like septic tanks, feed yards, within a certain radius around the well, for sanitary purposes."

Those easements had to be recorded in both Texas and Oklahoma, because of the proximity of the state line. The improvements around the water tank will include the by-pass pipe so the wells can pump directly to the city should it be necessary to take the tank off line for repairs. It also includes a main meter and fencing around the tank. The meter and the fencing are required by the health department and some other minor repairs on the tank to bring it into state health department rules.

This year Hedley is the recipient of a $142,000 grant again from the Texas Department of Community Affairs, for improvements to its water distribution and fire protection system. This year was their second year to apply for funding, and after the scoring was completed at the state level Hedley was the No. 2 project in the Panhandle region.

The project will include replacement of several hundred feet of old distribution lines, and installation of some new lines, to make interconnecting loops and extend service to a couple of new areas, and will include new service connections for houses and a number of new fire hydrants.

One critical need which is included is replacement of all the old unoperable valves on existing lines that won't themselves be replaced.

This is Hedley's schedule: the city will receive official notification from the governor of the granting of the funds. This should come this month.

Then the city must decide how they want to administer the grant and select grant administrators and engineers. Ober J. Engineering assisted the city in preparation for the grant application in both 1984 and 1985.

However a formal engineering selection is required.

Rockets Return to Oklahoma

Wellington Skyrockets travel to Mangum, Okla. Friday, Sept. 13 for their second game away from home and their second game in Oklahoma.

Game time is 8 p.m.

"As far as what we know about their team, they feel this is going to be their year. They have been in a building program for the last two or three years," said head coach James Williams.

"As far as their material goes, they are going to be larger than we are. They are a Class 3-A, in Oklahoma classification. They have 14 lettermen back from last year. They have some outstanding linemen, and they feel they have one of the best college prospects in Robert Conors. He is 6'7" and weighs 260 pounds, with 4.8 speed in the 40 yard dash. He also was state champion in Oklahoma in the discus throw last year.

He is a senior.

"Their quarterback, Jeff Taylor, is a 6-1 170 pound senior, and he ran the first leg on their state championship mile relay team last year," Williams reported.

"Mangum has another outstanding defensive lineman, David Lively, who is 6-1, 239 pounds, and a senior. So they have several more kids in the line who weigh around 200 pounds.

"As far as speed, their backs have more speed than our backs. On the other hand, we may have a little more depth in positions than they do.

At the beginning of the season, Oklahoma papers rated Mangum No. 7 in the state in Oklahoma Class 3A.

"So again we'll have to travel to Oklahoma to play some of their rules pertaining to football are different from the rules we play under in Texas.

"Some of our kids come through grades and play under the NCAA rules in Texas. Mangum plays under the National Federation rules. For example, in Texas, on a running play, we can block below the waist; in Oklahoma under National Federation Rules, you cannot block below the waist on a running play.

"So last week against Hollis, we received a couple of 15 yard penalties because we blocked below the waist. We'll be more familiar with the Oklahoma rules this week," said Williams.

As far as last week, we were real excited over victory over Hollis. We felt our kids played real hard, and were determined to win the ball game in four opportunities to score, but our kids held on and finally ran out the clock."

As far as injuries, Wellington is in pretty good shape. Marvin Brown turned an ankle at Hollis, but he did not miss any practice time this week.

"Right now, we're looking for Friday the 13th to be a little unlucky for Mangum--not us," said the Rocket head coach.

JV, 8th Grade Play Home Game Thursday

Football at home comes to Wellington Thursday, Sept. 12, as Skyrocket Junior Varsity and the 8th Grade Firecrackers appear on Powell Field against White Deer.

This will be the first game for both teams.

The 8th grade game will start at 6 p.m. and the junior varsity game at 7:30.

There will not be a 7th grade game as White Deer has only one junior high team.

Little is known of the two visiting teams. Wellington is capitalizing on strengths from last year and hard work on the practice field. This should be one of the exciting games of the early part of the season.

The JV and 8th grade will play in Memphis on Thursday, Sept. 19 and return to Powell Field against Clarendon, Sept. 26.

START OF THE 5-K

The starting gun has sounded for 11 runners in the first Dukes of Wellington 5-K run, held Saturday morning, Sept. 7. Runners traveled along the streets of southwest Wellington, starting and finishing at Ellison Park. From left, are David Keller, Tommy Powell, Janet Bruce, Rev. Keith Bruce, Tommy Hudson, Tammie Gilmore, Jeff Jones, Jimmy Gilmore, and Hubert Peeples.

Graveside Rites Held Here for Selesta McClure

Mrs. Selesta McClure, who lived in Wellington for many years, died Thursday, September 5, in a Wichita Falls nursing home. She was 93 years of age and was the wife of the late L.W. McClure. She had lived in Wichita Falls since 1978.

Funeral services were held at 10 a.m. Saturday, September 7, at Hampton-Vaughan Funeral Chapel in Wichita Falls, with John D. Morley and Dr. Carl Mansur officiating.

Graveside rites were conducted at 4 p.m. Saturday at the family plot in Memorial Gardens Cemetery, Wellington, with the Rev. Harold Wayne Moore of Wellington, a nephew, officiating. Hampton Vaughan Funeral Directors of Wichita Falls was in charge of arrangements.

Mrs. McClure was born September 13, 1895, in Fulton, Mississippi.

She was a member of Edgemere Church of Christ. While living here, she was a member of the Wellington Church of Christ. Mrs. McClure and her twin sister, Mrs. L.A. Dickey, were active in much of its work.

Surviving Mrs. McClure are a daughter, Mrs. Rudy Miller of Wichita Falls; sons: Gene McClure of Tulare, Calif.; Arvel McClure of Santa Anna, J.A. McClure of Wichita Falls, Roy McClure of Whiteface, and Billy McClure of Perryton.

She is also survived by a brother, Irvin Wilson of Fulton, Mississippi; 13 grandchildren, 23 great grandchildren, and 6 great-great grandchildren.

Buford Chandler, Long-time County Resident, Dies

Buford Ozro Chandler, 84, a retired farmer and business man, died in Collingsworth General Hospital at 2:07 p.m. Thursday, September 5.

He farmed for many years, and afterwards owned and operated Chandler's Laundry for a long period. He retired from that business several years ago.

Mr. Chandler was born April 23, 1901, in Waxahachie, the son of William F. Chandler and Lula Belle Roberts Chandler. He was a small child when the family moved to Collingsworth County and settled in the Fresno community. He grew up there.

Mr. Chandler was married to Mary Lona Phipps August 21, 1927 in Wellington.

He was a member of the Church of Christ and formerly was an elder in the Church of Christ here.

Funeral services were held at the Church of Christ at 2 p.m. Saturday, Sept. 7, with Haun Kite, minister, officiating. Burial was in North Fairview Cemetery under the direction of Schooler Gordon Funeral Directors.

Pall bearers were Troy Gene Thomason, Bob Weatherly, David Peters, John Coffee, Carroll Nunnelley, Cecil Browning, and David Peters.

Survivors include his wife, Mrs. Mary Lona Chandler of Wellington; four daughters, Mary Nell White of Stratford, Lona Belle Barton of Quail, Flora Ladell Maxwell of Wellington and Julia Kay White of Richardson; one brother, Floyd Chandler of Amarillo; two sisters, Opal Wood of Arlington and Ruby Harris of Wellington; 11 grandchildren and 7 great grandchildren.

DODSON—continued from page 1

The next thing that happens is that the city will receive a contract from the Texas Department of Community Affairs and it is anticipated that it will be forthcoming by the first of November. Then they can proceed with their selection process for engineering, and from that they will proceed with design and construction of the project.

Eight projects and perhaps 9, will be funded by TCDA in the Panhandle region in 1985, and of those 8 that are funded already, all but one of the communities is in the southeast Panhandle, said Johnson. Included among those are Memphis, Clarendon, Lakeview, Turkey, McLean, Mobeetie.

Do-it-yourself home projects can be satisfying and economical--but they can be dangerous if safety precautions are not followed.

If you use a power sander of any kind, be sure to wear safety goggles to protect your eyes. Unless you're working in a well-ventilated area, a respirator is advised, too.

With chemical paint remover, wear rubber gloves and a longsleeved shirt to protect your skin. If there's danger of splattering, wear goggles and a hat. Open the windows and use a fan to carry away fumes.

Wear work gloves when working with steel wool or scrapers. They'll protect against steel wool slivers, splinters, even scraped knuckles.

If you use a blow torch to remove paint, or even an electric heating gun, keep it moving: never let the source of heat stay in one place long enough to char the wood. Keep water or a fire extinguisher on hand.

Your safety is our concern. We'll help you protect all that you own at...

1st Methodist Fall Revival Begins Sunday

The First United Methodist Church will be holding its Fall Revival September 15-18. The services will begin on Sunday at the regular worship hours of 8:50 a.m., 10:50 a.m. and 7:00 p.m. Weekday services will include a noon Bible teaching session in which everyone is invited to bring there lunch and share in the study. Each weekday evening service, scheduled for 7:00 p.m., will include great sinsing led by First UMC choir director, Jamie Johnson, special music provided by local church members and others in our community, and a message of renewal and hope from the Word of God brought by Rev. Phil McClendon, evangelist for the meeting, said Dr. Tom Thomson, pastor.

Rev. McClendon is the pastor of the St. John's United Methodist Church in Stamford, where he has been serving since June of this year. A native of Tahoka, Phil graduated from Tahoka High School in 1973. He attended Baylor University where he was a member of the Baylor track team until his graduation in 1977.

His wife, Jennie, grew up in Lamesa and is presently a housewife with special interests in music and church activities. They have three children, Paul, age 6, Sarah, age 4, and Mark, age 2.

SKYROCKET ACTION

Johnny Nash (30) has taken a handoff from Quarterback Kelly Goforth (12) and rushes for a touchdown behind the blocking of Shawn Davis (74) and Ruben Cantu (64). A Hollis Tiger in black jersey, is overwhelmed.

Skyrockets Open Season With 18-15 Win Over Hollis Tigers

BY DICKIE JOHNSON

The Wellington Skyrockets traveled to Hollis on Friday, September 6 to begin the 1985 season with the traditional opener against the Hollis Tigers. Hollis has been one of the stronger teams in its class in Oklahoma over the past few seasons and has a state ranking again this year. However, when the Skyrockets took to the field on Friday night, memories of the past 3 season opener defeats ignited the Skyrockets to an 18 to 15 victory.

The Skyrockets won the coin toss and elected to receive. Hollis kicked into a strong south wind which resulted in good field position at Wellington's 41 yard line to begin the opening drive. The Skyrockets gained only 8 yards on their first 3 downs and were forced to punt the ball away. Tracy Day booted the ball 51 yards into the end zone and the Tigers started their first possession from their own 20 yard line. Hollis was faced with 4th down after their first 3 running plays netted less than 10 yards. On 4th down, the Tigers attempted to punt the ball away but a bad snap and strong defensive pressure by the Skyrockets caused the Tiger punter to be sacked on the 2 yard line.

Wellington took possession on downs and were knocking on the Tigers cage door with a first down and goal to go. The Skyrockets returning running back Johnny Nash plunged up the middle with 7:33 remaining in the opening period to give the Skyrockets a 6 to 0 lead. The extra point kick was wide to the left and the score stood at 6 to 0.

The ensuing Skyrocket kickoff went out of the end zone due to the strong south wind and the strong right leg of kicker Kenny Peeks. Hollis started again from their own 20 yard line and with a strong running game picked up 3 first downs to the Skyrocket 42 yard line. Strong Skyrocket defensive play forced another Tiger punt and Wellington took over on their own 19 yard line.

On first down a Skyrocket fumble recovered by the Tigers gave Hollis the break they were looking for deep in Wellington territory. The Tigers kept the ball on the ground and the Skyrockets held them on four straight downs to regain possession on their own fourteen yard line. The first quarter ended with the change of possession and the score remained 6 to 0 in favor of the Skyrockets.

Skyrockets running back Michael Mackey picked up eight yards on first down to give Wellington a little more breathing room out to the 22 yard line. Johnny Nash gained another 7 yards out to the 29 to pick up what appeared to be a first down. On that same play a clipping penalty was called and the ball was brought back to the 11 yard line. With their backs against the wall again Johnny Nash scampered around the left side out to the Wellington 44 yard line. Nash followed that run with another burst down to the 1 yard line before he was dragged down from behind. On the next play Nash scored from one yard out with 9:46 remaining in the first half to give the Rockets a 12 to 0 lead. Wellington tried for the 2 point conversion, but the Tigers held and the score remained 12 to 0.

Hollis began their next series of downs from their own 35 yard line. On first down Rocket Kenny Peeks shot through the line and sacked the Tiger quarterback for a six yard loss. Hollis worked their way back out to their own 47 yard line before a series of holding penalties thwarted the drive and they were again forced to punt. A poor punt off the side of the foot gave the Skyrockets the ball on the Wellington 44 yard line.

The Rockets began this drive with another offensive unit and Alex Johnson raced around the left end to pick up fourteen yards on first down. Johnny Nash then carried the ball down to the Hollis 20 yard line for another Skyrocket first down. On a pair of runs up the middle Mackey picked up yet another first down to give the Skyrockets a first down and goal to go on the 9 yard line. After an illegal procedure penalty brought the ball back to the 14 yard line, Brad Long hit Tracy Day on a touchdown toss. Again the try for two extra points was no good and the score now stood at 18 to 0 with 1:03 left to play in the first half.

The Tigers didn't roll over and play dead with so little time showing on the clock. After returning the kickoff out to the 50 yard line, a pass completion and a Skyrocket penalty brought the ball down to the 13 yard line. Hollis then took the ball around the right end the remaining distance to get back in the ball game with 31 seconds left in the half. The Tigers converted the 2 point attempt and the score at half-time was the Skyrockets 18 and the Tigers 8.

Hollis began the second half from their own 30 yard line and started a drive which would eat up over nine minutes of the third quarter before the Skyrockets would get their hands on the ball again. The Tigers marched deep into Wellington territory before the Skyrockets held them on fourth down and goal to go on the 3 yard line. The Rockets worked the ball out to the 13 yard line before another fumble gave the ball right back to the Tigers. Hollis ran the ball down to the 1 yard line and a first down and goal to go as the third quarter ended with the score still standing 18 to 8.

On the first play of the fourth quarter the Tigers went the remaining one yard for the touchdown. The extra point kick was good and the score tightened to 18 to 15.

Wellington again tried to get some offense going from their 27 yard line, but another fumble gave the ball right back to Hollis on the 34 yard line. Penalties plagued the Tigers on this series of downs and on fourth down and 33 yards to go the Tiger punter was called in. The punt went out on the 1 yard line and the Skyrockets were faced with their biggest test of the night. Playing it safe they tried a quick kick to get the ball away from their goal line. The strong south wind held the ball and Hollis started from the Wellington 19 yard line.

The Tigers went to the ground again and tried to pound out another score to take the lead. However, on fourth down and 1 yard to go, the Skyrocket defense tightened up and again held Hollis to take over on downs. Kelly Goforth hit Tracy Day out in the left flat on a first down pass to bring the ball out to the 21 yard line. Johnny Nash carried the ball over the right side out past midfield but a clipping penalty brought the ball back inside the 10 yard line. Wellington was forced to punt the ball away and give the Tigers one more chance from the Skyrocket 35 yard line. Time was running out on the Tigers as they had used up all of their time outs earlier in the half. The Skyrocket defense continued to hold fast and prevented the Tigers from scoring the go ahead touchdown. The Rockets forced a fumble with nine seconds remaining in the game and ran out the clock to take home the 18 to 15 victory.

How can prearrangement reduce funeral costs?

ANSWER

Faced with emotional pressures brought about by death, families may be inclined to overspend.

Prearrangement allows important decisions to be made without such pressures. As a result, an appropriate service is assured without excess expense.

NET

One of the definitions for a net is a trap or a snare. A net is used to catch a fish. There are times in every man's life when, like Job, he feels that God has trapped him in a net. Job 19:6 reads, "*Know now that God hath overthrown me, and hath compassed me with his net.*"

But our troubles and afflictions are never caused by our God. Moreover, His Word says He is ever faithfut to deliver His people. The Psalmist asserts: "*Mine eyes are ever toward the Lord; for he shall pluck my feet out of the net.*"

How wonderful are His promises. These promises are proclaimed from the pulpit by your pastor each week for the blessing and edifying of God's people. Won't you attend church this week and partake of this blessing?

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

MISS PEARL STRONG - DEE COLEMAN

Miss Pearl Strong Has 95th Birthday

The sweep of Collingsworth County History was spread vividly and alive when Miss Pearl Strong celebrated her 95th birthday Thursday, August 27 in the patio of Collingsworth General Hospital. She has been receiving treatment there for several weeks.

For those who came, and who listened to her recounting the earlier years of her life, this was a lesson in Collingsworth County history, complete with names and dates.

Party hosts were Mrs. Rita Connors, R.N., a member of the hospital staff, Karon Tate and Etta Breeding, neighbors for many years.

Doris Elder and Minnie Tate served birthday cake and punch.

Miss Strong's life long home has been in the Abra community, although she attended school in Wellington in the early years of this centurv.

Those who worked on the First United Church history of churches were surprised when she was able to tell them when almost every church in the area was founded--those still in existance and those which endured only a few months.

She knew most of the major ranches and their owners. She can still tell where teams with loaded wagons crossed the Salt Fork risked sinking in the quick sand.

A recent visitor sought to learn if he was born on land owned by the Strong family. "Yes," she told him. "And I remember when you were four years old, you ran away with your little wagon and came to our house to borrow four bars of lye soap because your mother did not have any to finish the family washing."

The Girl Scouts met Monday evening, Sept. 9, to organize for the 1985-86 school year.

Awilda Hayes is the first grade troop leader and meetings will start Thursday, Sept. 12, from 4:30 to 5:30 p.m.

The 2nd grade leaders are Gayle Hankins and Diane Frasso. This troop will meet from 2:45 to 4 p.m. Wednesdays.

Irene Torrez is the 3rd grade leader, and it will begin its meetings on Thursdays from 2:45 to 4 p.m.

The junior troop, consisting of girls in grades 4 through 6, is still in the process of securing a leader. All meetings are held in the Girl Scout room in the old wing of Elementary School.

Brownie uniforms are needed, and anyone having one should contact any of this year's leaders.

Many activities are being planned, and it is not too late for interested girls to join. Those wanting more information should call Gayle Hankins, 447-2145.

In Perspective

Although it has been several weeks now since this nation went to great length to observe the 40th anniversary of the dropping of the first atomic bomb on Hiroshima in Japan, we continue to hear about it as though it is something that the United States should apologize to the world for dropping it.

There are many strange reactions from Americans deploring the use of this atomic bomb, most of them not around at the time and knowing nothing about the war except what comes from history books.

President Harry Truman was not universally liked during his presidency but the American people were squarely behind him in his decision to drop the first atomic bomb.

By this action he undoubtedly saved the lives of millions of soldiers, most of them American. The talk that Japan was ready to sue for peace without the bomb is without factual basis. The truth of the matter is that the U.S. was engaged in mortal combat with a tough enemy.

The Japanese are a realistic people. Their leaders have admitted that they would have used the bomb on us if they had had it.

Let's go back into history. The Japanese started the war by an unprovoked attack on Pearl Harbor. They thus unleashed the greatest military power the world has ever known, the United States, and in time were forced to surrender.

The U.S. was not the aggressor. It sought no tribute from its defeated foes. Instead, we did our best to bind up their wounds, rebuild their cities, restore their economy and today they have a healthier economy than we do.

We seem to have forgotten the Japanese atrocities committed during that war against our military people. Some of their victims came from Perryton and died at Japanese hands. Their families will not forget it.

We owe no apology for dropping the atomic bomb on Hiroshima. It saved more lives than it cost.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

GENERAL ELECTION

NOVEMBER 5, 1985

PROPOSITION NO. 1 ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional $980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with $190 million of those bond proceeds to be used for water supply loans and facilities acquisition and with $400 million of those bond proceeds to be used for state participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater. Of the remaining bonds authorized, $190 million will be dedicated for use in water quality enhancement projects, and $200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration, and implementation of a bond insurance program to which the state pledges up to $250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to make grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to nonprofit water supply corporations.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional $980 million of Texas Water Development Bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, subsidence control, recharge, chloride control, agricultural soil and water conservation, and desalinization, to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

PROPOSITION NO. 2 ON THE BALLOT

Section 3 of House Joint Resolution 6 proposes a constitutional amendment that would allow the Texas Water Development Board to issue and sell Texas agricultural water conservation bonds in an amount not to exceed $200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance and sale of $200 million of Texas agricultural water conservation bonds."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 54 proposes a constitutional amendment that would permit the legislature to authorize a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property if such relocation or replacement is done in conjunction with or immediately following the relocation or replacement of water mains serving the property. Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 21 proposes a constitutional amendment that would authorize the use of the proceeds from the sale of permanent school fund land to acquire other land for the permanent school fund. Currently, the constitution requires that proceeds from the sale of such land be invested in certain bonds and other securities.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing proceeds from the sale of land dedicated to the permanent school fund to be used to acquire other land for that fund."

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 89 proposes a constitutional amendment that would enable the legislature to regulate the provision of health care by hospital districts by determining the services the district must provide, by setting requirements a resident must meet in order to qualify for services, and by determining any other relevant provisions necessary for providing health care to residents.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to regulate the provision of health care by hospital districts."

PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment that would enable the State of Texas to enter into an agreement with another state to confine inmates from the state of Texas in penal or correctional facilities of the other state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit state prisoners to be placed in penal facilities of another state pursuant to an interstate agreement."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 27 proposes a constitutional amendment that would authorize the commissioners court of Chambers County to divide Chambers County into not less than two and not more than six justice precincts. Under current constitutional law, Chambers County may be divided into not less than two and not more than five justice precincts.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing Chambers County to be divided into two to six precincts."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would grant an additional $500 million in bonding authority to the Veterans' Land Board for the veterans' housing assistance program. Under the current constitution, the Veterans' Land Board is authorized by Article III, Section 49-b-1 to issue and sell not more than $800 million in bonds, $500 million of which may be used for the Veterans' Housing Assistance Fund. This amendment would increase that authorization to permit the issuance and sale of up to $1.3 billion in bonds, $1 billion of which would be used for the Veterans' Housing Assistance Fund. In addition, the amendment would remove the current definition of "veteran" from the constitution and permit the legislature to redefine "veteran" as the changing times and circumstances require.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing $500 million in additional bonding authority for the veterans' housing assistance program and changing the definition of those veterans eligible to participate in the veterans' land program and the veterans' housing program by authorizing the legislature by law to define an eligible veteran for the purposes of those programs."

PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 72 proposes a constitutional amendment that would permit the legislature either to enact a statute or to attach a rider to the General Appropriations Act to require prior approval of the expenditure or emergency transfer of any funds appropriated by the legislature to state governmental agencies.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to protect public funds by authorizing prior approval of expenditure or emergency transfer of state appropriations."

PROPOSITION NO. 10 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that would authorize the legislature to provide for the issuance of general obligation bonds, the proceeds of which would be deposited in a fund to be known as the farm and ranch finance program fund. The fund would be administered by the Veterans' Land Board and would be used to make loans and provide other financial assistance for the purchase of farm and ranch land. The amount of bonds outstanding at any one time would be limited to $500 million. The principal and interest that becomes due on such bonds in each fiscal year would be paid from amounts remaining in the interest and sinking fund at the close of the prior fiscal year, with the balance due to be appropriated from treasury revenues in the fiscal year when such amounts become due.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds to provide financing assistance for the purchase of farm and ranch land."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 16 proposes a constitutional amendment that would define indictments and informations as instruments charging a person with the commission of an offense, and would delete certain technical requirements as to the form of writs and processes.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the manner in which a person is charged with a criminal offense and to certain requirements applicable to state writs and processes."

PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 10 proposes a constitutional amendment that would grant the Texas Supreme Court and the Texas Court of Criminal Appeals jurisdiction to answer questions of state law certified from federal appellate courts. In addition, the two courts would promulgate rules of procedure relating to the review of those questions.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment granting the Supreme Court of Texas and the Court of Criminal Appeals of Texas jurisdiction to answer questions of state law certified from a federal appellate court."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that would create a board with responsibility for the reapportionment of judicial districts, subject to legislative approval. The amendment would provide for the continued power of the legislature to provide for judicial reapportionment, and would provide that reapportionment will be the responsibility of the Legislative Redistricting Board if the Judicial Districts Board fails to make a timely reapportionment. The amendment would provide for the creation of judicial districts smaller than a county in counties where the creation of such districts has been approved by the voters at a general election. The amendment would provide for more than one judge for a judicial district. The amendment would rename supreme judicial districts as courts of appeals districts. The amendment would provide that the jurisdiction and terms of court of district and county courts may be as provided by law. The amendment would provide for the jurisdiction of justice courts, which may have additional jurisdiction as provided by law. The amendment would provide for rules of judicial administration and civil procedure to be promulgated by the Supreme Court, and would provide that the legislature may delegate additional rule making power to the Supreme Court or to the Court of Criminal Appeals. The amendment would provide that courts and judges in existence at the time of its adoption remain in existence until otherwise provided by law.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the reapportionment of the judicial districts of the state by the Judicial Districts Board or by the Legislative Redistricting Board, and providing for the administration and jurisdiction of constitutional courts."

PROPOSTION NO. 14 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment that would abolish the office of County Treasurer in Andrews County and transfer the powers and duties of that office to the County Auditor. The amendment would also abolish the office of County Treasurer in El Paso County if, at the statewide election at which this amendment is submitted to the voters, a majority of the voters who vote in El Paso County favor the amendment. The functions of the office of El Paso County Treasurer will be performed by a person employed or designated by the El Paso County Commissioners Court. The amendment also provides for the abolition of the office of County Surveyor in Denton, Randall, Collin, Dallas, El Paso, and Henderson Counties upon approval of such abolition by a majority of the voters who vote on the question at an election called by the commissioners court of the county. If the office of County Surveyor is abolished in any county, the commissioners court may employ or contract with any qualified person to perform the duties of the office.

The proposed amendment will appear on the ballot as follows:

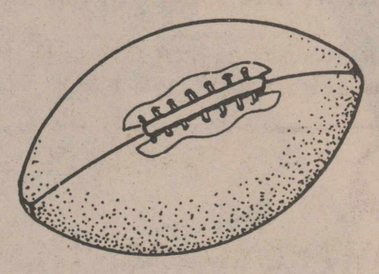

"The constitutional amendment to provide for:

(1) the abolition of the office of county treasurer in Andrews County and El Paso County;

(2) the abolition of the office of county surveyor in Collin, Dallas, Denton, El Paso, Henderson, and Randall Counties."

Estos son los informes explanatorios sobre las enmiendas propuestas a la constitución que aparacerán en la boleta el día 5 de noviembre de 1985. PUBLIC NOTICE

ADVERTISING FOR BIDS FOR ADDITION TO FIELD HOUSE

The bid specification will be written in sections. A bidder may bid on any single section or any combination of sections. Bidders are also encouraged to submit a single bid on the complete addition in addition to the section bids.

Bids must be submitted on or before October 14, 1985 at 5:00 p.m., C.D.T. Bids will be opened by the Board president of the Wellington Independent School District.

The complete addition will be approximately 33 feet, 4 inches by 40 feet in size. It will be within 3 inches of the height of the east protion of the present field house, and of similar construction except as options noted in the specifications.

Date estimates that relate to beginning and completion estimates after bids are let must accompany all bids.

Section 1 - Concrete Work

A. approximately 33 feet 4 inches by 40 feet, 12" x 18" footing under all four sides, 4" floor of 3000 PSI mix

B. Approximately 16 feet by 40 feet slab on north side of building with adequate footing.

Section 2 - Addition to consist of:

2 - 40 foot walls, 1 - 33 foot 4 inch wall, 1 - internal wall (approximately 32 feet 6 inches). All walls are to be 16" blocks or other alternative material to be specified by the bidder. The addition is to have: 1 - 6 foot x 7 foot double exit metal doors, 1 - 4 foot x 7 foot inside metal door, 1 - 6 foot x 7 foot double metal doors cut and installed in existing wall. All doors must have adequate security locks.

Section 3 - The roof is to be of al metal standing seam construction with minimum of 3" of fiberglass insulation or equal R value. Roof line is to be the same as existing building. The roof bid may contain only a bid for the new portion (option 1), or an option of a new roof for the new section and a new roof for the section (option 2).

PUBLIC NOTICE

INVITATION FOR BIDS

The City of Dodson, Texas will receive bids for water well construction until 2:00 p.m., on the 24th day of September, 1985, at the offices of Ober J. Engineering, 912 West Avenue, P.O. Box 726, Wellington, Texas 79095 at which time and place all bids will be publicly opened and read aloud.

Bids are invited upon the several items and quantities of work as follows:

Water well construction.

Contract Documents, including Drawings and Technical Specifications, are on file at the office of Ober J. Engineering at the above address.

Copies of the Contract Documents may be obtained by depositing $25.00 with the Ober J. Engineering for each set of documents obtained. Each such deposit will be refunded if the Drawings and Contract Documents are returned in good condition within 10 days after Bid opening.

A certified check or bank draft, payable to the order of the City of Dodson, Texas, negotiable U.S. Government bonds (at par value) or a satisfactory Bid Bond executed by the Bidder as an acceptable surety in an amount equal to five percent (5%) of the total Bid shall be submitted with each Bid.

Attention is called to the fact that not less than the minimum salaries and wages as set forth in the Contract Documents must be paid on this project, and that the Contractor must ensure that employees and applicants for employment are not discriminated against because of their race, color, religion, sex, or national origin.

The City of Dodson, Texas reserves the right to reject any or all Bids or to waive any informalities in the bidding.

Bids may be held by the City of Dodson, Texas for a period not to exceed thirty (30) days from the date of the opening of Bids for the purpose of reviewing the Bids and investigating the qualifications of Bidders, prior to awarding of the Contract.

Those divisions who have not turned in results of their departments and classes are urged to get them in this week.

Memorial Fund Started For Barjenbruch Baby

A memorial fund for Carrie Mekell Barjenbruch, 7-months old daughter of Mike and Julie Barjenbruch, of Mobile, Alabama, has been started at the two banks, Wellington State Bank and City State Bank.

Anyone wishing to make a gift in the baby's memory may do so at either bank.

Graveside services for Carrie were conducted at 11 a.m. Wednesday, Sept. 11.

THEOS to Meet Thursday Night

THEOS will meet Tuesday, September 17, at 1st United Methodist Church fellowship hall, beginning at 7:30 p.m., according to Larry Adams who is working with this. "We urge everyone to attend, as this will be the last meeting unless we can get enough interest to establish a chapter here, Adams said.

He explained that THEOS is for surviving spouses of those who are deceased, to help them through their bereavement.

It is non denominational.

All members and those interested in becoming members are urged to attend the Tuesday meeting.
