COUNTY COTTON ACREAGE TO BE RAISED

County Singers To Hold Joint Meeting

Discuss Contest Between Groups In Lamesa Friday

Promotion of Better Singing Is Purpose

As was announced last week, a called meeting of members of the Dawson County Semi-Annual Singing Convention, has been issued by officers of the organization, to meet with the Friday Night Singing Convention in Lamesa Friday night of this week at the Missionary Baptist church in Lamesa.

The purpose of this called meeting is to discuss a contest which has been suggested between the Friday Night Singers and the Semi-Annual group, to be conducted at the regular session of the Semi-Annual Singing Convention which will meet with Klondike in April.

Complete details will be given at this meeting Friday night and the matter will be open for discussion. If it proves favorable with both groups, practice sessions will be announced and the contest will get underway.

The purpose of this contest, it is pointed out, is only to promote better singing and more interest in songs among the people of this county.

Dawson County has been noted for many years for the fine type of singing that features every gathering of singers in the county and the idea of those in charge is to encourage this movement.

If you are a singer or are interested in singing in any manner, be sure and attend this meeting Friday night in Lamesa at the Missionary Baptist church.

It is announced that R. O. Styron will be in charge of the singing at this meeting. It is hoped that with the combined membership of both associations present at this meeting, that some excellent singing will result.

WARNS DOUBLE PARKERS ON TIME LIMIT

Courier readers attention is called to an ad in this issue by the City of Lamesa, relative to double parking in the business section of Lamesa. For the convenience of loading, double parking has been allowed here for some time, but complaints have been filed with the city that the practice has been abused by some to the extent that those who park against the curb, are sometimes compelled to wait quite a while before they can back out because of cars parked in behind them.

According to the announcement, beginning February 1st, double parking will be allowed for only five minutes at a time. Violators will be fined \$1 for the first offense and each succeeding offense the penalty will be doubled.

It is pointed out that the city desires to cooperate in the matter of continuing this accommodation to those who desire to double park for only a very limited time, but that the ordinance will be rigidly enforced and they are asking that all motorists adhere to the new ruling.

WHITE TYPING PAPER

The Courier has just stocked a large quantity of white typewriter paper in the regular business size 8 1/2 x 11 inches, which is being offered at a rare bargain. You can get 1,000 sheets of this white bond typewriter paper for only—

\$1.00

But the supply is more or less limited at this price, and you are advised to act quickly, lest it be all gone.

The Courier This Week Begins Ninth Year Of Publication Here

With this issue the Courier starts its ninth year of publication in Lamesa. The paper was established January 16th, 1931.

We are indeed proud of the growth the paper has made since we started. We are doubly proud for we realize that to the advertisers and subscribers who have so loyally patronized us during those eight years, belongs the major credit for any success we might have gained. We fully realize that without your help, our efforts would have been for naught. We desire, at this time, to say to you that we appreciate it from the bottom of our hearts.

As we embark into the ninth year at the helm of the paper, we do so

with the pledge to you that we shall ever strive to merit your confidence by giving you the very best we have. We pledge to devote our efforts to the better things for our community and county.

There has been times it is true, when we were discouraged, times when we almost gave up the battle, but the encouragement we received from the people of Lamesa and Dawson County, gave us courage to go forth and do our best.

Naturally we are happy over the growth of the Courier, but the greatest happiness we receive from it all, is the help we have received from you.

Daw-Tex Formation Is Running Much Higher Than Ray Albaugh Test

Contract Let For Two New Business Buildings Here

J. T. Broughton Lets Contract This Week

Contract was let this week by J. T. Broughton for the erection of a brick business building on North First street directly east of the new Kayal buildings which were only recently finished.

Harvey C. Allen, local architect and contractor, was awarded the contract for the architectural, as well as the actual construction of the new building.

It will be finished in white ornamental stucco, trimmed in black, using the modernistic design, to conform to the same appearance of the Kayal buildings. The structure will face 40 feet on North First and will be seventy feet deep. It will be constructed so that it may be divided into two buildings or maintained as one to suit the tenant.

The building has not been leased at this time, according to Mr. Broughton, but there are several applicants for it.

Earnest and Nix Hold Open House Next Wednesday

Earnest and Nix Implement Company of Lamesa, are this week announcing the formal opening of their International Implement Store, for next Wednesday, January 25th.

They will serve free eats at their store at 11:30 a. m., followed by a big auction sale. In this sale they will offer both new and used machinery, used Farmall, John Deere and Oliver tractors, horses and mules, and many other articles which every farmer can use. Mr. Karl W. Freeman, widely known auctioneer of Amarillo will conduct the sale, which will be held at the company's showrooms, in the Key building, one block east of the Northeast corner of the square.

At 9:30 Wednesday morning they will give a free picture show for their farmer friends and customers. This picture will feature some well known Hollywood actors and actresses.

In a large ad in this issue of the (Continued on Back Page)

Drilling In Sand At 3776 Feet Late Wednesday

The Daw-Tex oil test being drilled ten miles north of Lamesa, was down to 3776 feet Wednesday night, according to Lester Guinn, president of the company.

The formation is running about 400 feet higher than the Albaugh well. Drilling is in the lime now and there has been quite a bit of thinning down since the Yates Sand was reached at 2760 feet, at which depth a small showing of gas and oil were encountered. At the time the Yates sand was struck the formation was fifty feet high from the Albaugh test, and the structure has grown higher as greater depth was reached.

The second string of casing is expected to be set early in next week. The drilling contract calls for a total depth of five thousand feet or the striking of oil or gas in paying quantities.

The thinning down and higher structure, has created a great deal of interest among oil men of this section, as according to men who are familiar with this type of work, this is a most favorable indication.

Progress Is Shown On Lamesa School Building Project

Construction Is To Be Rapidly Pushed Forward

With the stadium at McCollum Field setting the pace, all work on the Lamesa school building work is progressing at a rapid pace.

The stadium lacks only the finishing touches before it will be ready for acceptance by the school board. The foundations for the school buildings in Lamesa are progressing at a rapid rate and will be finished shortly. The wall work will start immediately upon the hardening of the foundation it is pointed out. C. S. Oates and Son are contractors for the foundation work.

It is understood that the brick work has been finished on the Union school project and that finishing work will go forward as rapidly as possible.

Farm Prize Program Is Assured As More Than 100 Farmers Compete

Among The Younger Set

PHOTOS BY ROGERS STUDIO

This week the Courier is happy to present as the Number One Man of the week, William Mandrell Nelson, who celebrated his second birthday last October 27th. This young man is the son of Mr. and Mrs. R. L. Nelson, whose address is Route 2, O'Donnell. He has brown eyes and blonde hair. His hobby is horses.

Sixty - Eight Firms Added As Members To Local Chamber

Membership Drive Is Pronounced A Success

The Lamesa Chamber of Commerce opened a membership drive Tuesday morning of this week following a meeting at the court house.

The drive is being conducted under the direction of the Membership Committee, headed by Carl Rountree, assisted by Dr. J. M. Harrington, M. E. Boren, E. A. Conley, and B. L. Hamilton.

The group was divided into two teams, one headed by Dr. Harrington and the other by Mr. Conley, with the understanding that the losing team should pay for a luncheon to the winners to be given today at noon. Neither team will know who won or lost until after the luncheon is complete, at which time the winners will be announced.

Up until Wednesday night 68 new members had been added, with the possibility that by noon today the total will reach near the eighty mark.

LAMESA LIONS IN FINE MEETING ON WEDNESDAY

The Lions Club held a most interesting and entertaining meeting Wednesday at noon at the Plaza Hotel.

County Judge W. M. Yates, delivered the principal address at the meeting and cited some very interesting figures relative to the financial achievements of the county during the past two years.

Miss Edna Merrick gave an accordian solo, accompanied at the piano by Mrs. Weldon Lindsey. A good crowd was in attendance.

Short Time Left For Entrance In Contest

The big Prize Farm Program which is being sponsored by Lamesa business men is off to a flying start with more than one hundred farmers of this trade territory having signified their intention of competing by signing up. At a mass meeting of farmers and business men held in the court house last Saturday afternoon, approximately one hundred persons heard the plan completely explained and discussed by farm leaders of the county.

There will be \$2,000 in prize money given to farmers of this territory during 1939 and 1940, according to present plans. One thousand dollars will be awarded this year and one thousand next year.

There is still time for entering this contest, as entries will be taken until the judges start judging, according to those in charge. This time, however, is very limited, as it is expected that the judges will be selected very shortly and they will make a survey of the farms entered in the contest.

Complete details as to how the judging will be done, what points will be given on, and complete information will be announced shortly, it is said.

Forrest's Office Building Nearing Completion Here

To House Main Offices And Company Showroom

The finishing touches are being put on the inside of the Forrest Lumber Company office building, which is rapidly nearing completion.

This building, when complete, will house the general offices and sales rooms of Forrest Lumber Company.

Modern in architecture, this structure was designed to give the maximum efficiency for this growing concern. The interior of the building is finished in the most modern design and will be one of the show places of Lamesa when it is completed. The main floor has a ceiling two floors in height across the front, with a mezzanine floor across the rear with the offices upstairs. A wide staircase leads from the main floor directly up to the offices which are so designed as to give plenty of light, ventilation, as well as a complete view of the main floor. The building will be equipped with a basement heating plant, from which the temperature of the building will be controlled both in winter and summer. Present plans call for the completion about the middle of February.

NEW GROCERY WILL OPEN IN ACKERLY SAT.

Announcement is made this week by Andy Gilerese, of Santa Fe, N. M., of the opening of a new grocery store in Ackery, Saturday morning of this week.

Mr. Gilerese has been in the grocery business for the past nine years and is thoroughly familiar with the business. Your attention is called to their large ad in this issue of the Courier.

Committeemen Are Busy Sending Out Cards This Week

Increase Amounts To About 2,000 Acres

County committeemen are this week preparing the 1939 allotment cards for farmers of Dawson county. These will be in the mail within a few days, said Joe M. Peterson, Wednesday afternoon.

Under the 1939 program there will be a slight increase in the allowable cotton acreage in this county over 1938.

The increase, estimated at approximately two thousand acres, will average an increase per farm of from one to two acres, according to those in charge of the program in Dawson County.

At this time the total allowable has not been ascertained in acres, but the increase will bring the total above last year, and definite figures will be announced at a later date.

New Auto License Plates For County Are Received Here

Will Be Put On Sale Fifteenth of February

The new license plates for 1939 for this county arrived Monday of this week in the office of County Tax Assessor-Collector Buster Herndon. A total of 3400 passenger plates were received, about five hundred commercial plates and four hundred farm plates.

The new passenger plates are a bright orange background with black numerals. They start at 323-001 and run to 326-400.

The commercial plates are a pale green with black numerals, while the farm plates have a deep maroon background with white numerals.

The new plates may be purchased after February 15th, according to Mr. Herndon, but may not be used on a vehicle until March 1st. All vehicles must have the new plates by April 1 to avoid heavy penalty.

Allen Hardware Co. Offers Free Shows On Next Wednesday

Next Wednesday the Allen Hardware Company of this city will stage open house to the farmers of this trade territory, at which time they will serve free lunch at their store at 12 o'clock noon.

They will also hold a free picture show at the Majestic theatre, at which time five feature pictures will be shown. Admission to this show will be by ticket only, but these may be secured at the local store without cost to any adult in this territory. Tickets may also be secured for the entire family free of charge at their store.

This firm has only recently moved into new quarters which practically doubles their former floor space and gives them a much better layout for their hardware and implement business.

Weaver's Nursery To Hold Big Sale

Weaver's Nursery of Lamesa is this week announcing a tremendous nursery stock sale, beginning Saturday morning at nine o'clock.

They are offering some rare bargains in nursery stock and if you intend to beautify your place this spring here is an opportunity to get some first class stock at bargain prices. Read their ad elsewhere in this issue.

GEOLOGICAL MAP PRINTED

Austin, Texas, Jan. 18—A "best seller" has been prepared by the Bureau of Economic Geology at the University of Texas. It is the only complete geological picture of an entire state that has ever been made, Dr. E. H. Sellards, director of the bureau revealed today.

The first 7,500 copies of the map, printed in 1936 and revised the next year, are exhausted, he said, naming it one of the bureau's all-time "best sellers."

To meet demands from Texas geologists and oil men, five thousand revised prints of the 4-foot square map locating all Texas oil and gas fields and tracing out all the geological formations of the State are off the press

in their third revised printing, the bureau director stated.

"The map is unique in that it is the only structural picture of an entire state available in the country," Dr. Sellards explained.

The rock strata are traced back about 450,000,000 years to the Paleozoic formations in Texas.

PHOTOGRAPHIC SERVICE SHOWS BRIDGE BENDS

Austin, Texas, Jan. 18—The naked eye can't see it, but a bridge actually "bends," and a University of Texas student has concocted a photographic device that can record such deviations from the normal.

The instrument which does this is called a "polariscope" by its origin-

ator, Ed H. Moss, University student from Giddings, who has been testing its possibilities since May. A penetrating eight-foot instrument, it will benefit mainly the designers of buildings and bridges and companies engaged in the making of machinery, Moss says.

Somewhat as an X-ray machine shows defects inside the human body, the device shows structural defects in beams and bars. A bakelite model of the object to be tested by the machine is made and as nearly as possible is given a load corresponding to that of the life-size structure. It is then that the polariscope makes a picture of the model.

When developed, the picture reveals the spots receiving the most stress. Around each weak portion is a series of wavy lines, invisible to the human eye but plainly shown by the polariscope. These lines surround the nucleus of the stress, and their frequency determines the exact amount of strain.

The most important application of the polariscope, Moss says, is in finding stresses in intricate shapes such as turbines and other mechanisms in which mathematical calculations prove useless.

MECHANICAL INJECTOR IS PERFECTED

Austin, Texas, Jan. 18—Dollars and mileage leaking out of faulty carburetors may soon be wiped off the slate by Ralph E. Powers of Austin, 25-year-old graduate student at the University of Texas, who for eight months has been working on a device to replace the carburetor.

In the engineering building's noisy machine shop here, his device, a "mechanical injector," is housed. A small apparatus made of stainless steel, the mechanical injector will surpass the carburetor in both economy and efficiency and will be almost foolproof as far as wearing out is concerned, Powers believes.

It furnishes gas to the cylinder of a car by means of a plunger type pump that sprays gasoline on the intake valve when the valve opens for air. Present carburetors feed a prepared mixture of air and gasoline to the cylinder but not always in the correct proportions, Powers explained.

"It is my aim to use a mechanical injector to provide the correct mixture of gasoline and air to the cylinder at any speed and no matter what the load of the car," he said. "If successful I believe the mechanical injector will cost about as much as an ordinary carburetor."

AUTOMOBILES AS CHRISTMAS GIFTS GREATER

Austin, Texas, Jan. 18 — Christmas presents of new automobiles were more numerous this year than last, it is shown by records of the Bureau of Business Research at the University of Texas.

Sales of new passenger cars during December were virtually the same as during the preceding month but 9.1 per cent greater than during December, 1937, the Bureau announced today.

Report to the Bureau from sixteen representative Texas counties indicate total sales during December one-tenth of one per cent below those of November. Aggregate sales for 1938 were 29.1 per cent below those of 1937.

Sales in the lower-medium price groups were substantially above those of both comparable periods; while those of the upper-medium group gained moderately. Registrations in the lowest price group were moderately below those of the preceding month but slightly above those in the highest price group were sharply above those in December last year but moderately below sales in November.

GET A SAFER CAR TODAY

... Tomorrow may be too late!

WHAT WOULD HAPPEN TO YOU IF A TIRE BLEW OUT AT 60?

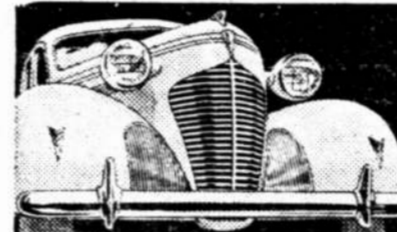

YOU'D BE SAFER WITH HUDSON'S EXCLUSIVE AUTO-POISE CONTROL

WHY? Because this revolutionary mechanical invention (patent applied for) automatically helps to keep wheels on their course—on rough roads, in heavy side winds, even when a tire blows. The operation of AUTO-POISE CONTROL does not require special tires, tubes or extra equipment of any kind. It is standard at no extra cost on all 1939 Hudson passenger cars; NO OTHER CAR HAS ANYTHING LIKE IT.

WHAT WOULD HAPPEN TO YOU IF HYDRAULICS SUDDENLY FAILED?

YOU'D BE SAFER WITH HUDSON'S EXCLUSIVE DOUBLE-SAFE BRAKES

WHY? Because, even if hydraulics should suddenly fail through accident or service neglect, the driver of a Hudson just pushes farther on the same foot pedal and STOPS. Thanks to Hudson's exclusive Double-Safe Brakes—two braking systems (finest Bendix Hydraulics and a separate reserve mechanical system) working automatically from the same foot pedal. Many letters in our files tell of accidents prevented by Double-Safe Brakes, standard in all 1939 Hudsons.

NOW! A DE LUXE HUDSON 112 PRICED DOWN WITH THE LUXE MODELS OF THE "OTHER THREE" **\$745**

and up for 86 H. P. Hudson 112 De Luxe; \$823 and up for Hudson Six—96 H. P., 118-in. W. B.; \$919 and up for Country Club models—101 and 122 H. P., 122 and 129-in. W. B.

Prices delivered in Detroit, equipped to drive; including Federal taxes, not including state and local taxes, if any. For delivered prices in your locality see your Hudson dealer. Attractively low time payment terms, with new Hudson-C. I. T. Plan. Prices subject to change without notice.

YOU'RE SAFER IN A HUDSON

KLONDIKE

Louise Foster

Brother Malone of Seminole filled his appointment at the South Side church both morning and evening.

Brother Peppers of Falls will preach on the subject "The Resurrection," next Sunday night at the North Side church at 7:00 p. m. You are cordially invited to attend.

Marie Duff is visiting her sister, Jean, who is teaching school at Lou. The little son of Noel League has been seriously ill but is improving at this writing.

Mr. and Mrs. Elder and little grandson were visitors at church Sunday.

J. N. Self is at Spu on business.

Mr. and Mrs. Preston McCullough are the parents of a baby girl.

J. J. Duff and wife of Weinert visited in the home of his brother, L. A. Duff and family over the week end.

BARTLETT

Mrs. Eulus Damron

Mr. and Mrs. L. Thomas went to Ackerly Friday to attend the funeral of Mrs. Palvado.

Mr. and Mrs. W. E. Wcmack visited her mother, Mrs. Rupe, Sunday.

Mildred Cornett spent Sunday with Jo Nell Thomas.

Grandpa Hughes passed away Saturday morning. He had been making his home with his son Hardy Hughes. A number of relatives and friends attended the funeral.

Mr. and Mrs. Fred Damron visited Mr. and Mrs. Norman Wallace Friday.

Mrs. A. W. Hatcher visited Mrs. L. Thomas Friday night.

Mrs. Fred Damron and Mrs. L. Thomas visited Mrs. J. V. Chapman Wednesday.

Mr. Rupe is in Abilene on business this week.

PATRICIA

Eudora Bruce

Mrs. Annie Nicklas died last Monday morning. She was taken to DeKalb for burial. E. S. Bruce returned home Saturday after taking part of the family to DeKalb.

"HOPALONG RIDES AGAIN"

SOCIETY

Mrs. E. R. Tinsley Is Hostess to Senior Missionary Society

The Senior Woman's Missionary Society of the Methodist Church met in the home of the president, Mrs. E. R. Tinsley, Monday, January 16, with twenty members and guests present.

The World Outlook program was presented. Mrs. Guy Simpson, leader; Quiet Music, Mrs. Walter Jones; Scriptures, Mark 15:35-45, Mrs. Guy Simpson; New Horizons of Sacrificial Services, Mrs. Andrews; New Horizons of Personal Service, Mrs. J. H. Adkins; Mrs. Tinsley made an inspiring talk on behalf of the society; solo's "We Give Thee But Thine Own," "Bless Thou the Gifts," Mrs. Noble Price. Pledges for the new year were made. An installation service for the officers was conducted by Rev. T. C. Willett.

At the conclusion of the program Mrs. Tinsley served a lovely refreshment plate.

The next meeting, January 23, will be in charge of Mrs. W. T. Webb, Superintendent of Supplies. A box will be packed for the Virginia K. Johnson home.

Apex Union Enjoys Social at Church

As a climax to the membership contest which the Apex B. Y. P. U. of the First Baptist church has been engaged in for the past month, Jewell Gaines and Irene Stephens entertained last Tuesday night at the church.

If you had been listening in, you would have heard much hilarious laughter because of the very comical games which the group engaged in during the evening.

Refreshments of chicken salad topped with pineapple and cherries, canapes, spiced tea, and doughnuts were served to Tharon and William Dugger, Frances Crawley, Martenia Stephens, Eunice Gaines, Carol Cole, Melba Mitchell, Billie Louise Standerfer, Mattie Moore, Edith Harris, Mildred Phipps, Maurine Smith, Edna and Willie Dale Bedwell, Eva Rankin, Victoria Hornbeck, Mr. and Mrs. A. T. Mosley and son, Billy, Audley Brunson, Vernon Todd, Scotty St. Clair, Arthur Lee Morrow, James and Albert Crumley, Mark Sanders, Aubrey Boswell and the hostesses Misses Jewel Gaines and Irene Stephens.

Woman's Study Club Hold Regular Meeting Friday Afternoon

The Woman's Study Club met last Friday afternoon in their regular meeting at the Woman's Club House.

Mrs. Lex Brock gave a very interesting review on the Diction Course she has been presenting to the club. With Mrs. A. G. Barnard acting as hostess the Lamesa Music Club rendered the following program:

A resume of Club's Study Course in American Music, by Mrs. W. J. Beckham; vocal solo, Mrs. Carl Rountree, accompanied by Patsy Jo Rountree; violin solo, Mrs. G. E. Hardesty; the club's sextet, accompanied by Mrs. Weldon Lindsey, closed the program with three numbers beautifully rendered.

A social hour was then enjoyed and tea was served to twenty-five members and guests.

Gamma Alpha Chapter Enjoys Friendship Program Monday

Members of Gamma Alpha Chapter of Beta Sigma Phi, met for their regular meeting Monday evening at the Woman's Club House.

Jessie Norris, Sorority president, was in charge of the business meeting, and Thelma Riddle was in charge of the program.

Subject of study for the evening was "Conduct of Friendship," which was discussed under two headings. Myrtle Henderson discussed "Conduct of Friendship," and Lenora Barron closed the study with a discussion of "What Does Thoreau Say About Friendship."

Mrs. J. H. Harp and Mrs. Louis B. Reed, sponsor and director of the chapter, met with the members.

Members present were Myrtle Henderson, Betty Bratcher, Lenora Barron, Mrs. Ralph Fry, Edna Bedwell, Thelma Riddle, Gertrude Day, Mrs. Connelly Baldwin, and Jessie Norris.

Miss Anna Belle Allen spent the week end at Lubbock visiting with friends.

Mrs. Joe Barron Hostess to Pioneer Club Tuesday

Mrs. Joe Barron was hostess to members and guests of the Pioneer Club, Tuesday afternoon at her home. A delightful afternoon was spent playing forty-two. At the conclusion of the games a delicious salad course was served to Mesdames W. V. P. Baker, D. S. Day, Dixie Kilgore, C. Baldwin, C. E. Cameron, A. H. Smith, and the hostess, Mrs. Joe Barron.

Delphian Club Enjoys International Goodwill Program Tuesday

The Delphian Club met in regular session Tuesday evening with Mrs. J. W. McDonald as leader. The subject for the program was "International Goodwill," and in keeping with this theme, roll call was answered with patriotic quotations.

Mrs. Weldon Lindsey's Symphonettes in their usual charming manner, sang three numbers, then Mr. Carl Rountree, guest speaker for the evening, spoke very forcibly and impressively on "International Goodwill."

Young Peoples' Organizations Present Program

The young people's organization of the First Baptist church presented a very interesting program at the church Monday afternoon at 4 o'clock with the young people's leader, Mrs. R. F. Nix, in charge. The program was in the form of a commemorative service, based on the Scriptural "Memorial of the Blowing of Trumpets," commemorating the tenth anniversary of Baptist Young Peoples' Work in Lamesa and the silver anniversary of South-wide Young Peoples' work. This theme was carried out in decorations and in all numbers of the program.

This occasion also marked the annual promotion service of these organizations, the Intermediate and Junior Girls' Auxiliaries, and Sunbeam Band. In the absence of the W. M. U. president, Mrs. J. W. McDonald, diplomas were awarded by Mrs. Ross Gibson to the following: Jean Dyer, Oneida Esmond, Avaline Barkhurst, Jean Smith, Betty Jackson, Mary Lee Johnson, Alice Joyce Green promoted from the Sunbeam Band to the Junior G. A.; Louise Johnson from the Junior G. A. to Intermediate G. A.; the Young Women's Auxiliary were Carol Cole, Lorna Williams, Tharon Dugger, Lola Tolbert, and Mildred Phipps.

Reports from the different chairmen of these organizations revealed a very worthwhile work carried on by these girls. Besides actual missionary work reported, their personal service work has been of untold value. On display was a beautiful quilt made by the Intermediate G. A. to be sent to Buckner's Orphan's Home and the sixth that has been made by these girls during the ten years of their organization.

Mrs. R. F. Nix is sponsor of the Intermediate G. A. which has maintained the Standard of Excellence for five years as prescribed by the Southern Baptist W. M. S. Mrs. R. E. Speck is sponsor of the Junior G. A., assisted by Mrs. Max Gray. The Sunbeam Band is sponsored by Mrs. Roscoe Holton assisted by Miss Mary Ellen Lambeth. This lovely program closed with the benediction pronounced by the pastor, Rev. E. F. Cole.

Mrs. E. R. Tinsley spent Thursday in Lubbock attending to business.

Mrs. C. C. Andrews spent Thursday in Lubbock visiting friends.

Bill Coe of Missouri was a business visitor here this week.

NEWS OF THE "MASK & WIG"

Members of the "Mask & Wig" Dramatic Club held their regular weekly business meeting Monday night. Through the courtesy of Mr. Burnett, director of the Recreation Hall, they were allowed the use of his office in the City Hall. During the course of the meeting, five new members, Miss Irene Tatum, Johnny Howell, George Watford, H. L. Koonce, and E. P. Lawson, were unanimously elected as members. The sponsor, Mrs. Lottie Mae Nance, has announced February 1st, as the night for the presentation of two small plays, "Noon," and "Sign on the Dotted Line." These comedies will be given at the Lamesa Recreation Hall, and everyone is urged to attend.

Anyone who is interested in dramatics is invited to attend the next meeting of the Club, which will be held Monday night, January 23, in Mr. Burnett's office in the City Hall.

Mrs. M. Q. Martin Hostess to Wednesday Bridge Club

Mrs. M. Q. Martin was hostess to members and guests of the Wednesday Bridge Club at the home of Mrs. Tom Burnside, Wednesday afternoon.

Games of bridge were enjoyed during the afternoon with Mrs. E. A. Conley winning high score and Mrs. Clyde Branon and Mrs. Louis B. Reed winning traveling prizes.

A delicious salad course was served to Mesdames Clyde Branon, Audrey Cox, E. A. Conley, Louis B. Reed, Jap Randle, Lou Randal, Seaborn Collier and the hostess, Mrs. M. Q. Martin.

Mary Bowen Society Holds Regular Meeting Monday

The Mary Bowen Missionary Society of the First Methodist Church met in its regular weekly meeting at the church Monday afternoon at 3:30 o'clock.

Those present enjoyed a very interesting program, after which plans for the new year were discussed. Fifteen members and guests attended the meeting.

ORGANIZE EXTENSION CLASS IN LAMESA MONDAY NIGHT

Dr. J. F. McDonald, of the Tech Extension Department, met with a group of teachers in the county court room, Monday night, and completed organization of the first extension class of the school year. The group chose the

course known as Visual Education which is number 3315. It will be taught by Dr. L. B. Cooper, who is a new addition to the Tech faculty, and is a specialist in the visual education field. The first meeting will be held in the county court room on Tuesday night, January 24, at 7:00 p. m.

This course is for either graduates or undergraduates, and will count on a high school, elementary school, or administrative certificate.

Dr. McDonald urges other teachers in this county or adjoining counties to enroll at once, provided the above course meets their approval. It is an excellent opportunity for the teachers of this section to acquaint themselves with the newest of the teaching devices.

J. H. Norris, at the county superintendent's office, will be glad to furnish any information desired by those interested.

HOSPITAL NEWS

Farm Notes

By Joe C. Williams
County Agent

County Committee on A. A. A. for 1939
The recent election of committeemen for the 1939 farm program found only one change being made. Mr. Joe M. Peterson was renamed chairman of the group. W. T. Meeks of Welch was named vice-chairman, and R. S. Sprabery of Klondike was named third member, with W. H. Harris, last years member, named alternate member. The first three named will compose the active membership of the committee.

The county agent serves with the committee as ex-officio member who has no right to vote in any matter that may come before the committee. All matters pertaining to allotments, landlord-tenant relationships will be acted upon by the committee. Mr. Fred Reese, former administrative assistant of Madison county is the new administrative assistant taking over the work formerly taken care of by X. B. Cox, who was recently appointed county agent of Scurry county.

A letter of very great importance has gone out to landlords and tenants of Dawson county, in regard to the above mentioned relationship, signed by the members of the county committee, appears elsewhere in this paper.

Cotton acreage allotments are being mailed out to farmers of the county. This allotment is mailed to men who were under 1938 work-sheets. In many cases the tenants and operators of farms in 1939 are different to that of 1938. In such cases of change of farms those who have made changes should call at the local A. A. A. office in the post office building and let the office force know about such changes in order that the 1939 acreage allotments for cotton may be secured for the proper farm.

Terracing and Contouring

The agent has been very busy during the last two weeks running terrace and contour lines for farmers of the county. Those who want terrace and contour lines on the farms should contact the agent as soon as possible or leave word in the office.

To date there are over three thousand acres of land signed up for the work. Contour lines and terrace lines have been run on the following farms during the past week: W. H. Harris of O'Donnell, Elbert Mcas of Klondike, Roy Hanson and Otto Reithmayer of Sparenberg.

The agent has one level that is loaned out for use of the public in line running and for the demonstrations.

Trench Silos
H. L. Hohn of O'Donnell states that he is now feeding his stock from the trench silo put down in the fall and that his stock really goes for the feed. It appears to the agent that now that the fields are most wet to plow it would be a good plan for those who are planning to dig silos for this year's crop to do so now while the ground is too wet to plow. Several have made inquiry about the size to dig for a certain number of livestock, and to prepare for a specified number of tons of feed for future use.

Worming Sheep

R. B. Hoffman, who is feeding out lambs for market, reports that since the sheep were recently treated for worms that they are taking feed much better than they did before treatment. Since there are more than 20,000 head of sheep on feed in the county, it appears that it would be a good practice to worm the sheep in order to improve feed utilization.

The treatment used in worming sheep is: 20 ounces of blue stone dissolved in one gallon of water to which is added 7 ounces of Black Leaf 40 for a stock solution. When used as a drench this should be added to nine gallons of water. One gallon will treat 64 head of lambs, or 32 head of ewes. The dosage used in the demonstrations are two ounces for lambs and four ounces for ewes. Given with a special dosage syringe. Two demonstrations have been given in treating lambs for worms. Mr. Hoffman of Mt. Olive and Mr. E. V. Dunn of Union.

TO LANDLORDS AND TENANTS OF DAWSON COUNTY

The question has arisen pertaining to landlords or tenants displacing tenants in relation to the Agricultural Program; therefore, we thought it would be well to notify all landlords and tenants who own or operate farms in Dawson County that we as a County Committee are to respect the regulations in the program pertaining to this practice. We herewith quote the 1939 regulations which also describe penalty for diverting payments due tenants over to the landlord or other tenants.

"Payment Restricted to Effectuation of Purposes of the Program. All or any part of any payment which otherwise would be made to any person under the 1938 Agricultural Conservation Program may be withheld if he has

adopted any practice which the Secretary determines tends to defeat any of the purposes of the program.

"Changes in Leasing and Cropping Agreements, Reduction in Number of Tenants and Other Devices. If on any farm in 1939 any change of the arrangements which existed on the farm in 1938 is made between the landlord and the tenants sharecroppers that would cause a greater proportion of the payments to be made to the landlord under the 1939 program than would have been made to him under the 1938 program, payments to the landlord under the 1939 program shall not be greater than the amount that would have been paid to him if the arrangements had not been changed."

"If on any farm the number of sharecroppers or share tenants in 1939 is less than the average number on the farm during the years 1936 to 1938, inclusive, and such reduction would increase the payments that would otherwise be made to the landlord, such payments to the landlord shall not be greater than the amount that would otherwise be made."

"If the State Committee finds that any person who files an application for payment under the 1939 program has employed any other scheme or device, the effect of which would be to have been to deprive any other person of any payment under any Agricultural Conservation Program to which such other person would normally be entitled, the Secretary may withhold in whole or in part from the person participating in or employing such a scheme or device, or require such person to refund in whole or in part the amount of any payment which has been or would otherwise be made to such person under the 1939 program."

We trust you will abide by the above regulations.

Yours very truly,
County Committee.
Joe M. Peterson
W. T. Meir
R. S. Sprabery.

RETURNS HOME AFTER VISIT IN SOUTH TEXAS

Mr. and Mrs. O. R. Bearden and daughter Mary have returned from their visit in South Texas where Mr. Bearden has been for his health. He seems quite improved, especially on finding this country in such splendid condition after the rain.

They were in Austin for the inauguration of W. Lee O'Daniel and were quite entranced over the ceremony and the large crowd who attended this affair.

Misspelled Word Contest Winners Are Announced

The final misspelled word contest was run last week and the final winner of the \$100 in cash is this week awarded to Mrs. Jack Barrow, Route B, Lamesa, as having the nearest correct list in the earliest.

This contest has been conducted by the Courier for the past six weeks and literally hundreds of entries have been received during the time. Each week has seen a large group entered.

The Courier wants to thank the participants for their interest during the period the contest ran and for the good sportsmanship that has been so noticeably displayed by all. Out of the large number of entries of course there were many more who failed to win than those who did, but there has been a large number who have entered each week who never did win, but who were the best of sports.

At some later date the Courier will possibly conduct another similar contest and trusts the same interest, as well as good sportsmanship, will be displayed.

ACKERLY
Hazel Ward, corres.

Sunday school was very well attended here Sunday. There wasn't any preaching services at the Methodist church Sunday as Rev. Hollowell filled his appointment at Center Point.

Raye Dunn of Mt. Olive visited Anna Mae Stewart Sunday.

Mr. Shipp and Mr. Niblett were Lubbock visitors Saturday. Mr. Shipp visited his son, Robert White, there.

Mrs. Warren Graham is spending this week with her daughter, Mrs. Davey, near Big Spring.

Several of the young people here attended the show at Lamesa Saturday night.

Most of the League members here attended the Signal Moun' League meeting at Coahoma Sunday evening.

Mr. Reece, a high school teacher, was back in school Monday after being ill with the flu for several days. We are glad to see him back.

Melba June Adams was a dinner guest of Mary Ruth Niblett Sunday.

Mr. Reece has as his guests, his mother and sister the past week.

Leonard Higgins entertained the League members with a social Thursday night. After games and contests refreshments were served to a large crowd. All reported a good time.

FATHER OF MRS. T. M. CROSS DIES AT ABILENE

J. W. Holloway, 74, died at his home south of Abilene Sunday morning at 10:45 o'clock, following a two weeks illness of a heart ailment from which he had suffered for more than a year. Mr. Holloway was born April 11, 1864 and was married to Miss Carrie Thrash

Ben Franklin set a pattern, for thrift in days gone by. He also played with lightning, as it zigzagged in the sky; But he never lived to see, the great fruit his labor bore; To profit by his precepts, trade at Barret & Son Store.

December 18, 1888 in Ellis County. He had been a resident of Taylor County 20 years. He was a member of the Masonic lodge.

Survivors are his wife and six children, T. J. Holloway of Tarzan, Tex., Marvin Holloway of Merkel, Tex., Mrs. T. M. Cross of Lamesa, Mrs. N. B. Tally of Las Cruces, N. M., Joe Holloway of Odessa, and Raymond Holloway of Abilene, and 11 grandchildren. Funeral services were held at Abilene Monday morning and burial followed at Graham Cemetery that afternoon.

MOTHERS ON WPA ROLLS LOSE JOBS

Detroit, Jan. 16.—The time is fast approaching when salesmanship will be generally recognized not simply as a major cog, but as the very power plant, of the economic machine.

This is the conviction of W. E. Holler, general sales manager of Chevrolet. In an interview here this week, the man whose organization has sold nearly 12,000,000 new and used cars in the past five years declared that without volume selling, volume production whose benefits are so universally recognized today, would be unknown.

Mr. Holler characterized the salesman's profession as among the most worthwhile of all, judged from the standpoint of its benefits to mankind at large. "In furthering the distribution of goods to men and women whom they will benefit, the salesman is performing a job for which the world has real need," he said. "He is rendering a legitimate service, of which he has

every right to be proud. And this conception of selling is coming to be more and more general as time goes on."

Mr. Holler explained that by "selling" he did not refer to hit-or-miss operation nor to trick expedients whose long-haul worth is open to serious doubt. "By selling," he said, "I mean up-to-date, scientific salesmanship, the type which should properly be classified as a profession, since its successful conduct requires not only natural aptitude but long and serious study as well.

"Scientific selling involves thorough knowledge of human nature, careful planning based on that knowledge, and persistence of a rare kind. In fact, the requisites are so strict that salesmanship, in my opinion, becomes one of the most exacting of all occupations today.

"To the man naturally equipped for selling, its numerous obstacles will appear, not as excuses for letting down, but as challenges to greater effort. And the man who sticks to selling, with that attitude of mind, will make a real contribution to the economic well-being, not only of himself, but of the nation at large."

FAIRVIEW

Georgia Mae Gibson

Sunday school and singing were fairly well attended Sunday morning and Sunday night.

Mr. and Mrs. M. B. Gibson and Mrs. Connie O'Brien left Sunday for Weatherford to be at the bedside of her father who is seriously ill.

Mr. and Mrs. Ernest Phouadore received word Friday that his mother had passed away. The community wants to extend their greatest sympathy to the bereaved ones.

Mr. and Mrs. J. F. O'Brien spent Saturday night visiting his mother in Eastland.

Mr. and Mrs. Shannon Hughes were called to the deathbed of his father. The community joins in extending their greatest sympathy to the bereaved ones.

Johnnie O'Brien of Patricia visited in the Fairview community Sunday.

Miss Georgia Mae Gibson spent Friday night with Athlue Stafford.

The basketball boys attended a tournament at Weldon this week end.

Mrs. Milton Addison left last week to be at the bedside of her mother who is seriously ill at Stamford.

Mary Barron is visiting in Hot Springs, Arkansas for several weeks.

Mr. and Mrs. M. S. Barton and Mrs. Estelle Karr spent Sunday with Mr. and Mrs. Bill Robinson.

Miss Norma Lee O'Brien of Patricia spent Sunday night with Mr. and Mrs. J. F. O'Brien.

RICHARDSON

Mrs. Logan Cozart

Visitors in the Williams home Sunday were Mr. and Mrs. R. C. Warren, Mr. and Mrs. M. C. Turner and family and Dorothy and Wilmas Phillips.

Mr. and Mrs. Charles Amos visited in the home of Mr. and Mrs. Jack Warren Saturday night.

Visitors in the Kirkland home Sunday were Mr. and Mrs. Alton Kirkland, Dorothy Kirkland, Malcolm Megason, Victor McGee and P. E. York.

Victor McGee, P. E. York and Floyd McGee spent Thursday night with Hub Kirkland.

Mrs. J. D. Kirkland was called to the bedside of her daughter, Ida J. and granddaughter in Ackerly this week. Both were ill with pneumonia. The infant was just two weeks old and has been ill every since birth. It passed away at 3:30 p. m. Thursday. Funeral services were held in the Lutheran church at Sparenberg Friday afternoon. Those attending the funeral from this community were Mr. and Mrs. R. C. Warren and family, Mrs. Silas Reed, Mrs. A. V. Williams and daughter, Pauline, Mrs. J. D. Kirkland, and son J. D. Mr. and Mrs. Herbert Kirkland and Louise Helm and children.

Hub Kirkland has been very ill with the flu this week.

Mr. and Mrs. M. C. Turner and family of Lubbock have moved back to this community this week. We are very proud to see them return.

J. D. Kirkland visited Elvis Williams Sunday.

Mrs. Louise Helm visited Mr. and Mrs. A. D. Kirkland in Lamesa Saturday.

Dorothy Kirkland of Lamesa and Malcolm Megason of Higginbotham were over night guests in the Kirkland home Saturday night.

BARTLETT H. D. CLUB NOTICE

The Bartlett Home Demonstration club will meet in the home of Mrs. T. E. Temple on January 25, 1939, at 2:00 p. m.

FLOWER GROVE

Katie Dyer

Mrs. Oneal King of Lamesa spent the week end in the home of Mr. and Mrs. M. E. Dyer Jr.

Brother Corbin of Lamesa filled his regular appointment. A large crowd attended Sunday school.

Mr. and Mrs. Covie Williams spent Sunday in the home of T. A. Gaskins of Knott.

G. W. Bryson and family of Ackerly spent Sunday visiting in our community.

Little Billie Ferne Cooks is in the hospital at Lubbock. We hope her speedy recovery.

There was a party given in the home of Harrison Seely Saturday night. Everyone seemed to enjoy themselves.

Conrad Stokes of Valley View has moved to our community.

Leonard Rogers has moved to Lamesa.

John Nichols, Barney Nichols and Mr. and Mrs. Henry Samples of Knott spent Friday in the home of Olen Hadcock.

Mr. Billings of Knott was visiting in our community Wednesday.

J. W. Vance and family returned to Hamlin Wednesday.

Herman Jeffcoat and family of Knott spent Monday in the home of H. C. Jeffcoat.

Gene Elrod has moved to the Three League community.

SAND

Julia Grayson

We would be glad to see all our absentees at church Sunday. Rev. Geo. Petty will preach both morning and night.

Mr. and Mrs. Rudolph Menix are the parents of a baby boy born January 10. Eugene Payton spent Saturday night with Mr. and Mrs. Clive Owens of Lamesa who brought him home Sunday.

Mr. and Mrs. J. T. McGuire spent Sunday with Mr. and Mrs. Joe Rogers of Lou who accompanied them home and all spending a few days with Mr. and Mrs. J. O. Anderson.

E. G. and Joe Grayson were in Seminole Tuesday.

Mr. and Mrs. J. W. Welty visited Mr. and Mrs. Ed Knox Sunday.

Mrs. Mary Little of Lamesa spent Wednesday with Mrs. Ellen Payton.

Mr. and Mrs. Tom Barron and little

son are spending a few days with Mr. and Mrs. Ed Knox.

Mr. and Mrs. Manuel Patty are the parents of a baby boy born Jan. 12.

Mr. and Mrs. L. F. Kennedy left Friday for Oklahoma where they will visit with friends and relatives for a few weeks.

Mr. and Mrs. W. B. Collins and Dick Collins visited with friends and relatives in Brownfield Sunday.

Clay Freeman of Yoakum visited with friends here Friday.

Mrs. Sam Parkinson and son of Lub-

bock spent the week end here visiting in the home of Mr. and Mrs. Lynn Parkinson.

Mr. and Mrs. G. F. Moreland and Miss Jenkins Moreland spent the week end at San Angelo visiting with relatives.

**A New Conception
Of Poultry Feed Values**

A Chick Mash that you have long looked for. A feed that will practically eliminate cannibalism and feather eating

STARTER - GROW MASH

We have developed a combination Starter-Grow Mash, which we believe will eliminate cannibalism and feather eating or at least mitigate this vicious habit.

Yet give you good livability, rapid growth, healthier, less nervous and more contented chicks.

Feed this starter-grow mash for 8 or 9 weeks or until you sell your cockerel fryers then put your pullets on our new Pullet Developing Mash.

Keep an insoluble grit before chicks at all times.

PULLET DEVELOPING MASH

We have also brought out a new Pullet Developing Mash, built on the same order as our Starter-Growing Mash, but lower in protein, giving you a slower but steady development in your pullets.

Just as soon as you sell your cockerels, put your pullets on this Developing Mash and develop them into sturdy, healthy layers by the time they are 5 to 6 months old. Put pullets on Laying Mash when 4 or 5 months old.

Keep an insoluble grit before pullets at all times.

There has been too great a loss in matured laying flocks all over the United States the past several years. Something must be done to lessen this trouble.

We are striving to do our part along this line, by furnishing you better bred, stronger, healthier chicks, correctly hatched under the most sanitary conditions possible, and by adjusting and improving our poultry feeds along the lines of improving the health of your flocks by incorporating in our feeds the correct amount of every ingredient that they need for health, growth and high egg production.

We hope you will strive to do your part along the health line, by keeping your premises clean and sanitary and your flock and buildings free from insects and by building roomier and better poultry houses. Do not crowd your chicks or your laying birds.

**PATRICIA MISSIONARY SOCIETY
MET JANUARY 9**

The Missionary society met Tuesday afternoon at 2 o'clock with five present. The opening song was "Tell It To Jesus," followed by a prayer by Mrs. Bingham.

An enjoyable afternoon was spent planning our work for the future. The women are quilting quilts to sell to help in the church finances.

We have pledged our prayers for the benefit of our community also pledged to help our foreign missions.

Mrs. Carl Johnson and Mrs. Roy Cox will sponsor a play that the young folks are going to have. This will also be for the benefit of the church and the missionary society.

There were six visits made to the sick last week. Mrs. Willie Latson gave clothes to a needy family of Mexicans. For next Tuesday a missionary pro-

gram will be arranged by Mrs. Carmichael, which I am sure will be enjoyed. We urge more ladies to come be with us and help share the great time we are enjoying.

Our closing song was "Kneel At The Cross," and a prayer by Mrs. Carmichael. Several of the ladies are also planning to attend the zone meeting at Lubbock, January 19th.

**TERRACES ARE SAVING
THE GREAT PLAINS AREA**

Soil conservation practices are being adapted at a rapid rate in the Lamesa Camp area this year. Applications for agreements are coming in much faster than the Technical staff can handle them. All farmers making application are interested in the entire program and are especially interested in terracing and pasture furrowing. Terraces are in the process of being built on

over 100 farms in cooperation with the camp.

Due to lack of equipment some farmers are not going to be able to complete their terrace system this season, but they are building as much as possible and plan to drill or broadcast their soil conserving crop on the terrace to protect the structure and complete the system next winter. Various methods are being used in terrace construction. As many as possible are securing the aid of the county road equipment while others are using plows, fresnos, V drags and small tractors with their farm power.

Terraces can be built economically with teams and fresnos while those with farm type tractors are using plows and V drags, or small terracer. Terraces can be built with a plow alone by starting on the terrace line and back furrow the full width of the terrace. If this operation is continued several times during the winter and the low points built up and then seeded broadcast to sorghum or cane and the operation continued the next winter a terrace can be built at a very small cost.

The strip crop method used with the AAA acreage requirements have been worked out very satisfactorily in this area on terraced land. Sudan or cane is planted on the terrace as the soil building crop and the grain sorghum and cotton are planted alternately between the terraces. These strips between the terraces are rotated annually and cane and sudan are kept on the terrace until the terrace has a sufficient base to allow row crop planting. It is always advisable to plant a soil conserving crop on the terrace as the additional tillage operations required for cotton together with wind erosion increase the terrace maintenance cost to the extent that cotton is not a profitable crop on the terrace.

**FEMINE FANCIES
By Kathleen Eiland**

New color combination for spring, expected by some to achieve great favor, is that of the ever-welcome navy and mustard. One example of this is the costume which employs a draw-neck top of navy and a flaring, gathered skirt of the mustard edged with navy.

"Ferdinand the Bull," that delightful creature who preferred sniffing flowers to fighting matadors, is now being immortalized in designs for cotton cloth. We can imagine the delight of small girls in housecoats or blouses and the gruff pleasure of little boys in gal shirts made of this cloth.

For on it, Ferdinand's life story is told in vivid, colored pictures—sniff-

**SALESMEN ARE
GIVEN CREDIT
FOR SELLING**

San Antonio, Jan. 18—Thousands of mothers of dependent children face the ironic reality of losing their jobs with WPA because they are eligible for assistance under the terms of the Social Security Act—assistance which is non-existent in Texas because the State has made no financial provision for participation in this phase of the Federal Social Security program.

State Works Progress Administrator H. P. Drought described this situation today in announcing that regional orders to meet quota adjustments make it necessary to release from WPA projects all persons eligible for categorical assistance under the terms of the Social Security Act. This involves the release of women workers with dependent children and dependent blind workers.

"The Federal government has made aid available to these people through the terms of the Social Security Act," Drought said, "but the legislature has not yet appropriated the state's share of the required funds. Therefore, Texas is not making available to its citi-

ing the flowers, resting under the trees, being carted away, playing before the watching citizens. There's even the picture of an arena packed with people.

It's a delightful, merry piece of print—this one of "Ferdinand the Bull."

But of course you may not like Ferdinand. In that case you probably will like the "Dude Ranch" print. Older girls who have a penchant for dreaming about cowboys will instantly choose this for housecoats or what not. In soft, autumn-like colors are ranged scenes of cowboys and dude ranch guests, horses, the ranch house, and various wild animals, trees, and other things the visitor out West would look for and enjoy.

Nor does this complete the tale of the new pictorial cottons. There still remains Texas' own—the Hill Billy design with W. Lee O'Daniel and his microphone. Happy Horace, Texas Rose, the flour barrel, Hill Billy flour, and such slogans as "Pass the Biscuits, Pappy" all mixed higgledy-piggledy with the Alamo, oil derricks, Texas cattle, and similar subjects in a design as mad as that of the 1938 political campaign.

Truly a cotton print is something more than just a print these days.

zens the assistance offered through the channels of social security which provide aid for dependent mothers and for the dependent blind. Thousands of these needy persons are receiving no assistance except that which WPA has been able to provide.

Currently employed on WPA projects in Texas are 30,006 women. Field workers are now surveying the case records to determine which of these women are eligible for Social Security assistance. Results of the survey will be available within a few days. Drought said. A similar survey made in 1936 showed that of 20,564 women then employed by WPA, 10,448 were supporting dependent children.

A comparatively small number of blind workers will be affected by the order, as WPA records show only one project operated in Texas for the employment of blind persons. This project operates in Houston and employs

89 workers. Two similar projects have been approved for other Texas cities, however, and were soon to have been placed in operation.

Miss Marylyn Bullard returned home Sunday after visiting friends and relatives in Odessa for the past two weeks. Mrs. E. R. Yates returned home Sunday after spending three weeks in the hospital at Temple.

**ALLEN HDW. & IMP. CO TO
BRING HOLLYWOOD PICTURE
TO LAMESA, JANUARY 25TH**

"The Tuttle Tugger" To Be Main
Feature of All-Day Farmers' Pro-
gram January 25 Presented
by Local John Deere
Dealer

Allen Hardware & Implement Co.,
local John Deere dealer, is putting on
another big John Deere Day program
at the Majestic Theatre, Wednesday,
January 25, for farmers and their fami-
lies of this and neighboring communi-
ties.

"The Tuttle Tugger," an all-Holly-
wood picture, will be the main feature
of the all-day entertainment and edu-
cational meeting. Packed with one
hearty laugh after another, this rollick-
ing all-talking picture promises to
be a real treat for everyone who sees
it. In the cast of Hollywood actors are
Arthur Lake, Judith Allen, Victor Pol-
tel, Greta Meyers, Agnes Ayres, Jack
Rice, Allen Caven, and many others.

The picture tells the story of a sales-
man and a saleslady who get their
sample cases mixed up, and—what a
mixup it causes! Leroy Bagley, the new
milk machine salesman for the Tuttle
Tugger Company, thinks he knows
all about farming and tries to help the
hired man. At the same time, he is try-
ing to sell a milking machine. Every
time he tries to help he causes trouble
and plenty of it. It's a picture every-
one will enjoy.

Four other brand-new, all-talking
pictures will be shown in addition to
the feature presentation. They include:
"Around the Farm Clock"—an inter-
esting, educational picture showing up-
to-date power farming methods and
equipment; "The Mark of the Genu-
ine"—an instructive picture that shows
how to keep farm equipment working
like new down through the years;
"Mr. Sheppard Looks Inside"—an in-
side story of the precision manufac-
turing of modern farm tractors, and
a short newsreel showing new develop-
ments in agricultural equipment.

In addition to the five talking
pictures, the John Deere day program will
include several talks and demonstra-
tions in which you will be interested.
Allen Hardware & Implement Co.,
cordially invites every farmer, every
farmer's wife, and every farm boy in
this area to take part in this big day
of entertainment and education.

Plans are being made to make this
open house one of the big events of
the year in this community. Many new
ideas will be presented during the day
which will be valuable to everyone
present. According to Mr. Allen admis-
sion will be by ticket only, and any

**A SIXTY-SIX FOOT BASKETBALL
SQUAD FOR PHILLIPS SIXTY-SIX**

Tall basketball players are going to be the rule rather than the exception in the Missouri Valley A. A. U. League with a total height of sixty-six feet, will be right up among them. The squad this year is composed of ten players with heights starting at 6'1" and extending upward to 6'9" of Fred Troutwine, center. Actually, the squads measurements total sixty-three feet, the remaining three feet being supplied by the squads four year old mascot.

Phillips Petroleum Company employees consider this sixty-six foot squad (including mascot) a good omen and are hoping for better luck in this year's National A. A. U. Tournament. Ill fortune has dogged Phillips employees attempts to win this tournament the past two years. After a clean sweep of the Missouri Valley A. A. U. League race in the 1937 season, the Phillips team was defeated in the finals of the National A. A. U. tournament by another Missouri Valley A. A. U. team. After trying for the Missouri Valley League lead in 1938, Phillips team lost out in the semifinals of the National A. A. U. tournament play, again to another Missouri Valley A. A. U. team. The Phillips Kansas City refinery which won the 1938 Kansas City League also entered the National A. A. U. tournament but was eliminated in the quarter finals.

Phillips Petroleum Company employees have organized A. A. U. basketball teams since 1921. At this early date, K. S. Adams, then newly employed in the Warehouse Department, together with several other employees, formed the first squad. Mr. Adams, now president of the Phillips Petroleum Company, is the most rabid and enthusiastic follower of this year's team.

The A. A. U. team is very similar to a college team; just as during their college days, these players have their regular work to do and must devote almost all their leisure time during basketball season to practice sessions. But they are amply repaid for this loss of their leisure time by the enthusiastic support they receive from other Phillips employees. It is Phillips regular policy to add a group of college graduates to their organization each year, and among these are usually some who have made a name for themselves in basketball. This year's Squad, made up entirely of Bartlesville office employees, has four players who have received All-American recognition and the other six have been chosen All-State or All-Conference in their particular locality.

In this way A. A. U. basketball frequently brings together the better college players and as a result is considered by many the tip-top basketball in the country. These A. A. U. supporters point out the consistent victories of A. A. U. teams in the A. A. U. tournaments which are open to all amateur teams. In the past two years, no collegiate team has even reached the semifinals of the National A. A. U. tournament — and many fine college teams have competed. In 1936 when all amateur basketball teams in the country were fighting for the honor of representing the United States in the Olympics, the final match was between two A. A. U. teams.

Thus the team that wins the National A. A. U. Tournament, will be recognized by most observers as the best basketball aggregation in the country. Phillips employees throughout the middle west are hoping for this honor for their team.

Mrs. Jack Moreland and son of San Angelo spent the week end here visiting with friends and relatives.

Dr. Cox Says:

Austin, Texas, Jan. 18—"The past half-decade has seen malnutrition become a matter of concern to public health officials, physicians and teachers in Texas. It is estimated that 50 per cent of the school children in the state are malnourished to some degree. And in view of unemployment and adverse economic conditions among certain groups of the population, malnutrition is being greatly intensified," states Dr. Geo. W. Cox, State Health Officer.

"Strictly speaking, malnutrition is not a disease but rather a condition due to poor or faulty nourishment. The child is usually thin, though he may be fat or flabby. He is often pale, with dark hollows under the eyes, lacks muscular tone, has round shoulders and in the more advanced stages, malnutrition produces a child with a narrow and flat chest, protruding abdomen and without spirit or mental vigor.

"Specific causes of malnutrition are insufficient or unsuitable diet, wrong food habits, insufficient sleep, chronic fatigue, lack of exercise, disease, physical defects and an element of heredity.

"Malnutrition in itself justifies concern. However, the results of malnutrition present the biggest problem and involve stunted growth, anaemia, nervous irritability and diminished energy. Its most serious consequence, moreover, is increased susceptibility to disease and lack of resistance to it. Too, the relation between malnutrition and tuberculosis is conclusively and pathetically established. In short, malnutrition is an abnormal condition which if it is permitted to continue, in many cases, results in serious illness and possible death," Dr. Cox further stated.

"Increased malnutrition is facing not only Texas, but the nation at large. A well balanced program of meals is the best weapon against it. Parents must realize the importance of an intelligently applied dietary. Communities can ill afford to underemphasize this vital and elemental factor in their welfare activities.

"It is not too strong a statement to make that malnutrition among our youth, especially among the families of the unemployed and the low economic stratas, represents a powerful enemy against the nation's future welfare. In-

telligent action is needed to successfully combat it.
"The State Health Department of Texas is doing its part and will send free of charge nutrition information and sample menus embodying the principles of well-rounded dietary to all who request it. A penny post-card addressed to the department will bring the information by return mail."

Karl Cayton left Saturday for Corpus Christi where he will attend to business for several days.

Mr. and Mrs. Quinton Collins visited with friends and relatives at Merkel Sunday.

First Eight Miles Brownfield Road Nears Completion

Grading and Drainage Structures Are Finished

Announcement from the County Judge's office this week, revealed the fact that grading on the first eight miles of the Brownfield road had been completed and all the drainage structures finished, with the exception of one which it is hoped to have completed within the next few days.

When this work is completed the road will be turned over to the district engineer for topping. It is hoped that this work will be completed by early spring.

County officials will begin the construction of roadbed and drainage structures on the next section of the road immediately upon the completion of this first stretch, it is explained.

Work on the Borden County section of Highway Fifteen from Gall west to the Dawson County line, is going forward rapidly. It is reported that the eastern side of Borden County, will be ready for grading as quickly as the west side is completed.

Work is progressing nicely on the Gaines County part of Highway Fifteen. It is reported, Grading and drainage structures are being completed at a rapid rate. A large crew of men have been working on this project for some time.

It is planned in Dawson County to begin on the Midland road, which has already been approved by the State Highway Department, as quick as the Brownfield project is completed.

building formerly occupied by the City Market and Grocery, facing South First street. The tractor and implement division, featuring John Deere Tractors and Implements, will face east on South Austin street. This company not only sells and services John Deere products, but they maintain a complete repair department where they not only service their own make of tractors, but others as well. They carry a complete line of John Deere parts.

"We want every farmer and his family in this area to visit us and be our guests on this day," said Ben Allen, in charge of the implement division. "We promise you a real treat in these five big picture shows, starring some of the screen's best known stars. It's not a dry bore some feature, but one that is packed with comedy and action," he said.

STATE NETWORK OFFERS SALUTE TO LAMESA WED.

Announcement was made this week from Fort Worth, that the Texas State Network will salute Lamesa in their broadcast next Wednesday from 11:05 to 11:15.

The broadcasting station at Big Spring, KBST, is a member of this network, and local dialers should be able to hear the program easily from there. This network has 22 stations throughout Texas who will carry this program at this time.

OPENING (Continued from Front Page)

Courier they are inviting the people of this entire trade territory to be their guests on this day.

This firm purchased the International Harvester line last fall from E. R. Yates Hardware. They not only handle a full line of International Farm Machinery, Farmall Tractors, International Trucks, but they maintain a complete tractor repair department, wherein they service all makes of tractors. They carry a full line of parts.

ENLARGES CREAM ROOM

Piggly Wiggly of this city are this week enlarging their cream room in their store to accommodate their growing produce business. Howard McSpadden is in charge of the department of the store.

DISTRICT 3-AA FOOTBALL SCHEDULE COMPLETED

Executive council members of the interscholastic league football district 3-AA met Monday at the Settles hotel in Big Spring to draw up the schedule for the 1939 campaign.

Seven schools, Odessa, Midland, Lamesa, San Angelo, Sweetwater, Big Spring and Abilene, will compete in the round robin schedule.

Wink, with one of the state's most powerful class B football teams in the past few years, asked for admittance to the circuit. The motion to admit Wink was tabled by the group.

Lamesa plays three conference games at home with Odessa, Abilene and San Angelo, with the games with Big Spring, Midland and Sweetwater, to be played on the enemy fields.

The schedule as now fixed:

Oct. 6—Abilene at Sweetwater; Big Spring at Odessa.

Oct. 13—Sweetwater at Midland; Odessa at Lamesa.

Oct. 20—Odessa at Abilene; Lamesa at Big Spring.

Nov. 3—Abilene at Midland; San Angelo at Odessa.

Nov. 10—Lamesa at Midland.

Nov. 11—Big Spring at San Angelo; Odessa at Sweetwater.

Nov. 17—Big Spring at Abilene; Midland at San Angelo; Lamesa at Sweetwater.

Nov. 24—San Angelo at Lamesa.

Nov. 30—San Angelo at Abilene; Sweetwater at Big Spring; Midland at Odessa.

Singers Will Meet Here Friday Night

The regular Friday night singing which meets every Friday night at the Missionary Baptist church in Lamesa, will hold an extra-ordinary session Friday night of this week.

Not only will the regular singing be conducted, but rules which are to govern the singing contest which was explained last week, will be discussed. The public generally is invited to attend this meeting, whether you sing or merely come as a spectator.

GO TO DALLAS

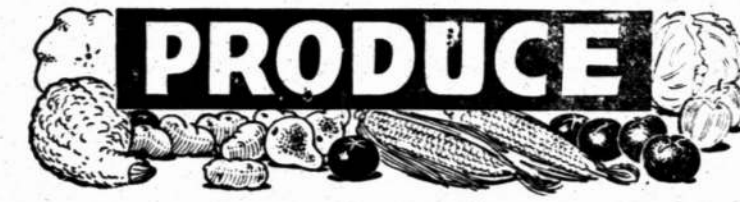

Mr. and Mrs. Fred Smith and son, Gene, left Wednesday for a short stay in Dallas.

Gigantic Economy Program Launched When Texas Legislature Swings Axe

PROGRAM TO SAVE MILLIONS CONSIDERED BY LEGISLATURE

(Copied from Fort Worth Star Telegram of Saturday morning, Jan. 14)

By Staff Correspondent
AUSTIN, Jan. 13.—The Texas Legislature is still advancing along the economy front in spite of the House's decision to purchase a brass rain to prevent outsiders from disturbing the members.

Friday's maneuver was sponsored by Representative Allison of Levelland, who issued a statement to the effect that a program he is urging will save more than \$8,000,000 and at the same time avoid the necessity of raising any new taxes.

At the same time the Railroad Commission, all three members uniting, announced that nearly 100 employees will be dropped immediately, saving for the State \$150,000 annually. Commission members and legislators Friday could not smilingly refrain from saying that they "are beating O'Daniel's record."

Plans 10 Reductions
There are 10 major points to Allison's announcement, which he expects

to explain in a radio broadcast Tuesday. They follow:

Reducing the travel bill of state officials and employes by one-half saving \$1,000,000.

Cutting the State's annual bill for printing, postage and stationery in half, saving \$500,000.

Eliminating the liquor control board, the regulation going to county authorities, saving \$1,000,000.

Eliminating the Old Age Assistance Board, throwing administration to county authorities, at a saving of at least \$500,000.

Dropping the office of State Tax Commissioner and saving \$70,000.

Eliminating 1,000 employes, not now needed, from the list of 25,000 on the state payroll and saving \$1,000,000.

Would Abolish Auditor
Cutting the State's telegraph and telephone bill in half, saving \$200,000.

Abolishing the office of State Auditor "because it duplicates the comptroller," at a saving of \$75,000.

Since most of the counties are now cleaned of cattle ticks, probably \$300,000 could be saved.

To this must be added the plan of the Senate Finance Committee, which after months of study is prepared to introduce bills saving about \$5,000,000. "There are other items in state government, expenses that could be eliminated," Allison said, "and legislators and Governor O'Daniel are pledged to economy. I am confident we can cut down expense by at least \$8,000,000 and with proper allocation there will be no need whatever of levying any new tax burdens, for the people are weary of them and they stifle industry."

"By those economies we will have enough to take care of the requirements for the blind, crippled neglected children and the teacher's retirement fund. Beside, having enough over to increase payments to those on old age assistance rolls."

Institutions Want More
The State now collects about \$200,000,000 a year in taxes and fees, which is 2.900 per cent more than the cost of government when Sayers was Governor, Allison said.

So far no bills or constitutional amendments have been introduced except those which propose general sales levies for old age assistance.

While Allison and colleagues plan to reduce costs by \$8,000,000 or more, requests have come from colleges, eleemosynary institutions and departments for \$15,000,000 increased appropriations over the record of the Forty-Fifth Legislature.

So far, the Railroad Commission is the only department that has gone ahead with reductions in expense. E. O. Thompson and G. A. Sadler, members, saying such action carries out their campaign pledges.

Claude D. Teer, chairman of the Board of Control, Friday made public the board's budget for all departments, colleges, eleemosynary institutions and the judiciary system, a book comprising nearly 300 pages and listing about 12,000 items of state expense. These books will be turned over to committees for guidance. The significant disclosure in the budget is the fact that requests for appropriations during the biennial period total \$91,134,000 while the board recommends \$69,336,000, a reduction of more than \$20,000,000. The board, however, did not attempt to recommend elimination of any department.

HANCOCK
Mary Bob Harrell

Moving was indeed the chief concern of a number of people in this community last week. Mr. and Mrs. G. W. Nelson and family moved from near Lamesa to the farm recently purchased from Jack Meares. Mr. and Mrs. Dee Phillips, who lived on that place last year moved to the W. J. Beckham farm north of the Hancock store. Mr. and Mrs. Tate Weaver moved on the W. J. Beckham farm west of the school and Mr. and Mrs. Alvis Lisenbee moved to the Buster Davis place that was vacated by the Weavers. Mr. and Mrs. Willis Weaver will move to the John

Stephens farm in the near future, and Mr. and Mrs. Bruce Moore, who now live there, are moving to the Weaver community. Mr. and Mrs. Luis Gillispie moved to the Keasling-McBride farm, and the first of this week moved to Tahoka where Mr. Gillispie accepted a position with the Fulkerson Oil Co.

Mr. and Mrs. Floyd Reeves sold their farming equipment and some household goods at an action sale last week. They announced over the week end that they had bought the Jackson Laundry and will move to Lamesa as soon as possible. The Reeves children entered the Lamesa schools Monday. Rev. Bill Thompson, pastor of the

Mr. and Mrs. Henry Warn of Midway visited Mr. and Mrs. Lihman Evans Sunday.

Mr. and Mrs. J. L. Waggoner and M. E. Allen visited in Big Spring Monday.

Miss Mary Bob Ellyson visited friends and relatives in Loop this week end.

Mr. and Mrs. J. W. Ables are the

parents of a baby girl born Jan. 10. Miss Jessie Lee Ables visited her sister, Mrs. T. B. Franklin, Jr. in O'Donnell Sunday.

Miss Pauline Allen spent the week end with Miss Effie Waggoner. Brother Evans of Mesquite preached here Sunday.

Or basketball boys will play Munger here Friday night.

CITY HALL

You are violating the law when you double park. Through the courtesy of the City Officials, for the convenience of yourself and Lamesa merchants, you are permitted to double park a few minutes to get your purchases from the stores and to unload your produce. If this policy is continued, you must cooperate with us to the extent to stop visiting and waiting for someone to back out from the curb so that you may get their parking place. You must not park over five (5) minutes, or we must give you a ticket. Just remember that this double parking policy is for your neighbors as yourself, so again we ask you to please cooperate.

Beginning February 1st you will be fined \$1.00 if you double park over the five minute period. Fines will be doubled with each succeeding violation thereafter. Failure to report to the City Hall will necessitate transferring of violation to county where the fine will be \$1.00 and cost.

Thanks,
