

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: My husband is one of those fussy eaters who likes to complain about his cooking, but he never tells me what is wrong with it, or what he would prefer. He just says, "It's lousy." I have even gone to cooking school to learn nutrition, balanced meals and the art of interesting cooking. People tell me I am a good cook, and I think I am. But what can I do with a husband who keeps telling me the dinner is lousy?

CANT WIN

DEAR CANT: When you or your husband come home for dinner, greet him with, "Don't take your hat off. Honey—we're eating out. And if the food is lousy you can complain to the manager."

DEAR ABBY: I am a G. I.

Business Of New Bank Too Good

TULSA, Okla. (AP)—A new national bank whose business was deemed too good for its own good remained closed—but solvent—today while a federal conservator worked to get it back in business.

William Greenfield of Dallas, named conservator for the Southern Hills National Bank, told newsmen Monday he had decided to defer reopening of the bank for a few days "for further training of necessary personnel."

Greenfield said his decision was approved by the comptroller of the currency, James Saxton, who suspended business of the bank and appointed Greenfield Friday. Saxton said he acted because the press of deposit accounts had overwhelmed processing facilities of the bank.

"There is no question of the solvency of the bank," Greenfield said, but he noted that the rush of depositors since the bank opened Aug. 5 had strained the bank's personnel and equipment.

He declined to say how long the bank might remain closed and skirted questions about any possible reorganization.

Southern Hills offered initial depositors checking accounts with no service charge for life. It got 12,000 takers in eight days and now has 25,000 to 30,000 depositors.

"There's never been anything like it in history, so far as I know," Greenfield said.

Questioning Goes Slowly

By JERRY PILLARD

AUSTIN (AP)—Questioning of jury prospects moved slowly today in the murder trial of Howard Pierson, accused of killing his prominent parents in 1935.

Dist. Atty. Tom Blackwell questioned them on whether they would object to giving any defendant a prison sentence if the evidence showed a person understood right from wrong at the time of an offense.

Pierson's lawyer, Tom Beavley, questioned them on whether they object to a law that if a person is insane at the time of a crime, they go free.

Blackwell said he is not seeking the death penalty.

Pierson pleaded "not guilty." Beavley indicated he will argue that Pierson was not guilty by reason of insanity.

Presidential Hopefuls Have Stations Near White House

By WALTER R. MEARS Associated Press Staff Writer

WASHINGTON (AP)—From command posts a few doors apart, men who want Sen. Barry Goldwater to run for president and lieutenants of Gov. Nelson A. Rockefeller have drawn their battle lines.

Their tactics differ, but their goals are the same: Top spot on the Republican presidential ticket and a run for the White House—three blocks down the street, but millions of votes away.

A self-style missionary for the Rockefeller presidential cause is out to spread the New York governor's gospel in Washington—and "not just for the exercise."

Half a block up Connecticut Avenue, a high-powered draft Goldwater movement is looking for dollars and delegates to pledge to the Arizona senator.

Alexander M. Lankler, a tall, 34-year-old Washington lawyer, presides over Rockefeller's political office. Actually, it's Lankler's law office, with a stack of Rockefeller posters and pamphlets in the corner.

"This is a missionary station," says Lankler. "The mother church is in New York."

"We're in the political liaison business, not in the hoopla and headquarters business," he adds. Lankler, a transplanted New Yorker, was deputy manager of Rockefeller's gubernatorial campaign in 1962.

Once again, he has put aside his law practice for politics. "The governor is in this thing to stay, and so am I," he says. "And not just for the exercise. We think we can win."

Down the street, you can buy a Goldwater button for a penny or a bigger-than-life picture of the senator for \$3. "It's one of our biggest bargains," says a Goldwater girl of the seven-by-nine foot picture.

In the half-dozen rooms of national draft Goldwater headquarters, a staff of 15 is quarantering the driver to try to make the Arizona senator next year's Republican presidential nominee.

Rockefeller has declared himself in the race, Goldwater has not.

"We're in this draft movement to demonstrate that Goldwater has a fighting chance of delegates and funds," says finance chairman Frank J. Kovac.

Kovac, former executive director of the Republican National Finance Committee, adds the draft Goldwater people "envision the establishment of a moving vehicle for the senator so that when he announces, he doesn't start from a standing position."

The finance chairman plays a stack of Goldwater letters—most of them with checks attached. "Saturday's mail," he said.

He won't say how much money the draft movement has raised, but he displays dozens of checks—for up to \$1,000—and stacks of pledges, promising more money when the senator declares himself in the presidential race.

Lankler says he expects to spend a lot of time on Capitol Hill and at the Republican National Committee.

Baptists Urged To Be Peacemakers

SAN ANTONIO (AP)—The Texas Baptist executive board is urging that Baptists everywhere "be peacemakers" in these days of racial strife.

This recommendation, adopted Monday, is subject to approval by messengers at the Baptist General Convention of Texas assembly this week. It states:

"We are grateful for the number of our congregations which are facing up to Christian responsibilities regarding persons of all races. Surveys indicate that more Texas Baptist congregations have concentrated on this matter this year than ever before.

"We join in mourning for those, including little children, who have died violently this year because of vicious behavior of hate-filled men."

The board also asked backers of legalized gambling to "consider the ultimate consequences of their actions and abandon those efforts" to revive pari-mutuel betting in Texas.

In addition the board urged Baptists to take a more active role in politics, condemned "the acids of materialism" and "success status symbols," opposed federal aid to parochial schools and urged Christians to hold family worship.

More than 6,000 Baptists were expected at today's opening session of the general convention.

"A lot of people say elections and nominations aren't won or lost in Washington," he adds. "Well, they aren't won in Indianapolis, either."

"Dollar for dollar and ounce for ounce, there are more political people in Washington than anywhere else."

Owl Comes Home

HOUSTON (AP)—Sammy the owl, Rice University's mascot, missing since Monday, was found today in a building on the road to Texas A&M.

The Aggies will be in town Saturday for a football game with Rice.

Small Nations Peacemakers

UNITED NATIONS, N.Y. (AP)—A go-between mission of permit discussion of international tensions, and opening the negotiations to political issues.

With the United States and Britain opposed to such changes, the assembly's main political committee suspended its debate on general disarmament to permit private negotiations and switched to consideration of a proposal for a nuclear-free zone in Latin America.

Nigerian Ambassador S. O. Adebayo, head of the group named by the 46 nations sponsoring the general disarmament resolution, said he hoped to find out whether there was any chance of the two big powers getting together.

The 46 sponsors had hoped for unanimous approval of their proposal calling on the Geneva Disarmament Committee to step up efforts toward agreement in limited areas as well as a complete and general disarmament.

The sponsors had expected to reach a vote last week after the United States and Britain signed approval. But the Russians circulated a working paper among delegations Friday suggesting (1) elimination of any call for specific measures such as guarding against surprise attack and (2) omission of a provision that the Geneva talks would be based on a set of principles the United States and the Soviet Union agreed on two years ago.

"The Russians also proposed

that the mandate of the Geneva commission be broadened to permit discussion of international tensions, and opening the negotiations to political issues.

COLORFUL QUILT—Mrs. Pearl Martin is pictured above with a pretty scrap quilt she made and gave for the bazaar of the First Methodist Church to be held Saturday.

WSCS Sets Date For Bazaar

Twenty-three ladies gathered at the home of Mrs. Harry Vanderpool for Wednesday meeting of the Women's Society of Christian Service of First Methodist Church.

After a delightful coffee hour reports were heard from the following committee chairmen of the society's Fall Bazaar: Evelyn Kaplan, chairman of plants and arrangements; Lorene Crooks on handwork; and Peggy Vernon on publicity.

The bazaar will be held in the old bank building on the northwest corner of the square Saturday Nov. 16. Doors will open at 8 a.m.

Following the business a program on "What does a Christian Woman Read?" was presented by Mrs. B. J. Bartels. Several books, papers and magazines were recommended for reading.

Fire Auxiliary Plans Muscular Dystrophy Drive

The Ladies Auxiliary of Snyder Fire Department met recently at Central Fire Station for their regular monthly meeting.

New officers for 1964 which took office were: Trudy Wood, president; Joy Early, vice president; and Jamie Jones, secretary-treasurer.

A committee was appointed to decorate tables for the annual Thanksgiving banquet to be held later this month. It was also begun for the annual Christmas party to be held December 5th. A report was given by Margaret Vaughn, past president, on the luncheon held at Throckmorton in connection with the District Fire Convention.

A film on muscular dystrophy was shown by Mr. and Mrs. Allen, district chairman from Abilene. The auxiliary will head the drive for muscular dystrophy, assisted by the VFW auxiliary to be held Nov. 19.

Refreshments were served to 16 members.

American Cardinals Clash

By GERALD I. MILLER
VATICAN CITY (AP)—American cardinals at the Vatican Ecumenical Council clashed openly with each other today on a controversial proposal to enable national Roman Catholic bishops' conferences to deal more closely with the Pope.

James Francis Cardinal McIntyre of Los Angeles denounced a move to give such conferences juridical powers and said he saw in such efforts "an indirect attack against papal infallibility."

Joseph Elmer Cardinal Ritter of St. Louis and Albert Gregory Cardinal Meyer of Chicago spoke in favor of the proposal contained in a schema on bishops and diocesan government.

The proposal would have the effect of decentralizing the administrative power now held by the Vatican Curia. Return of that body, which is the government of the Roman Catholic Church, is a major issue before the 2,300 council fathers meeting in St. Peter Basilica.

The debate involving three of America's five prelates, the Church was disclosed to newsmen by a council press spokesman who paraphrased their remarks.

Cardinal McIntyre renewed strong opposition he first expressed last month when he said that juridical power for bishops' conferences could endanger the unity of the Church.

In his attack today, he said bishops should not be forced to belong to such conferences. He added that these conferences, if created, should deal only with local problems and have no juridical power.

At present, there are 47 such national and regional episcopal conferences around the world. While they bring a national group of bishops together, their decisions are not binding on the prelates. The schema would make such decisions mandatory under certain circumstances.

More Tests Ruled Out

JACKSON, Miss. (AP)—The Mississippi Supreme court today blocked further mental tests for Byron de la Beckwith and ordered him transferred back to jail here to stand trial for the murder of civil rights leader Medgar Evers.

By a 6-3 vote, the court held that Circuit Judge Leon Hendrick of Jackson had exceeded his authority in ordering pre-trial sanity tests for Beckwith on motion of the state.

Beckwith was charged in the ambush slaying of Evers last June. Evers, field secretary for the National Association for the Advancement of Colored People was shot to death as he stepped from his car at his home at night.

A fingerprint on a telescopic sight on a rifle found near the scene linked Beckwith to the case. On motion of the state, Hendrick authorized mental tests for Beckwith at the state mental hospital at nearby Whitfield in adjoining Rankin County.

The defense went before Circuit Judge O.H. Barnett, whose district embraces Rankin County, and won a ruling that Hendrick had exceeded his authority.

Gen. Hodge, Hero Of Pacific, Dies

WASHINGTON (AP)—Gen. John R. Hodge, ret., a decorated hero of the Pacific fighting in World War II, died today in Walter Reed Army Hospital. He was 70.

He had been a patient at the hospital since Nov. 6. Retired since 1953, he had made his home at Fayetteville, N.C. Hodge was awarded the Air Medal after World War II for daring solo reconnaissance flights over enemy territory in the Philippine Islands at a time when he was a corps commander.

America's first globe maker was James Wilson, a little-educated farmer who sold \$312 worth of his livestock for an encyclopedia to study cartography, mathematics, geography and astronomy.

North Winds Cool Area

CHICAGO (AP)—Brisk northern winds fanned cool air from the northern Rockies into most of the north central region and the Northeast today.

The cold air picked up moisture from the Great Lakes, setting off snow and rain showers in many areas. Light snow was reported in the higher elevations in the extreme northern sections of New York and New England. Flurries of snow and rain showers also hit other areas in the Northeast and in the north central region.

Skies were cloudy in most of the cool belt and in most of the far Northwest, with rainfall along the western Washington coast. Showers sprinkled areas in eastern Oklahoma and Arkansas and in parts of Florida. Fair weather prevailed in most of the southern sections of the nation.

Temperatures dropped to the 20s and 30s in the northern areas of the Midwest and New England. The 30s and 40s were reported in most other areas in the central part of the country with the 50s and 60s prevailing in most southern sections.

Soon after a C118 with 60 troops and their equipment left Ramstein Air Base.

The C118 was to stop briefly at McGuire AFB, N.J., and to reach Austin, Tex., at 2:15 p.m.

The C118 was headed for Gray Field at Ft. Hood, Tex., via the Azores. It was due there at 1:20 p.m. Wednesday.

About 222 flights are planned for the return of the 16,000 troops flown to Europe from Texas in the Big Lift maneuver.

Unlike the airlift to Europe—which began Oct. 22 and lasted only 63 hours and 20 minutes—the redeployment will take 10 days. The troops were rushed over in a demonstration of U.S. ability to ferry large quantities of men to overseas trouble spots quickly. After their arrival they engaged in maneuvers with the 3rd Armored Division, which is stationed in Germany.

The final airlift activity will take place from Dec. 16-18, when the 2nd Armored's rear echelons are flown back.

Say Bitar Has Resigned

DAMASCUS, Syria (AP)—Premier Salah Bitar has resigned, the National Revolutionary Council announced today. His resignation was accepted.

A council spokesman said consultation were under way to form a new government.

The premier, 53, who headed cabinets which came to power in Syria since last March, has been expressing his desire to quit since September, according to the sources.

He previously was quoted as saying he wanted useful elements in the Arab Ba'ath Socialist party to take over.

His exit, however, does not herald any policy changes since the new Cabinet certainly will be controlled by the ruling Ba'ath party.

Big Lift Men Flying Home Today

FRANKFURT, Germany (AP)—The U.S. Air Force started flying the men of Operation Big Lift home today.

The first C118 jet returning troops of the 2nd Armored Division took off just before noon. Aboard were 73 men commanded by Lt. Alden Haswell of White Plains, N.Y. Capt. Robert Potter of Salt Lake City was the pilot.

Soon after a C118 with 60 troops and their equipment left Ramstein Air Base.

SWEET POTATO, TEXAS SIZE—Most everything has been known to grow to a true Texas size at one time or another, and now the sweet potato. Like the fabled story of the beanstalk, there was just no stopping it until it measured 19 inches around and 15 inches long. Mrs. O. E. Barry's Civil Rights Stand May Spell Loss Of Support

WASHINGTON (AP)—If Sen. Barry Goldwater pitches his expected Republican presidential nomination campaign on a 1962 statement of GOP principles, he may invite fresh attacks on his civil rights stand.

New York Gov. Nelson A. Rockefeller, an announced candidate for the nomination, recently said he could support the Arizona senator as the party's standard bearer only "if he ran on a party platform like the one in 1960."

Goldwater, who has advocated that the Republicans go before the voters in 1964 with a general statement of principles instead of a detailed platform, replied that the 1962 statement superseded the 1960 platform. He indicated it was more to his liking.

In a 1,500-word summary of views hammered out by a 12-member Senate-House committee headed by Rep. Melvin Laird, R-Wis., the stand on civil rights was put this way: "We believe that government must act to help establish conditions of equal opportunity for all people and to help assure that no one is denied the requisites for a life of dignity."

The broad declaration approached the type of statement Goldwater has been advocating that the Republicans make in 1964—one that could be interpreted by each individual candidate as he chose.

This kind of statement could be exploited in the North as a forthright civil rights declaration. It could be dismissed in the South as little more than a platitude.

The Arizona senator has said he thinks there are adequate laws on the books to take care of voting abuses. He thought an-

other proposal to give the President authority to withhold aid funds from states which fail to desegregate was interesting but doubted that it was "either constitutionally correct or morally correct."

He supported the President's request for authority for the attorney general to initiate school integration suits, if such authority were rightly limited.

Long before he would concede that he had more than an outside chance of getting the 1964 nomination, he said one of his primary objectives in his travels about the country was to stir integration suits, if such authority were rightly limited.

How much influence he will have in getting one now seems to depend on his position in the nomination contest when he comes to San Francisco convention centers.

Private Research Said Preferable

CHICAGO (AP)—An oil executive said today the federal government is spending too much money on research projects that should be financed by private industry.

Harry Ferguson of Houston said federal agencies are paying for and controlling more than 60 per cent of all research being done in industrial laboratories.

"The apparent aim is to use research, or at least research spending, to assist backward industries and alleviate unemployment in depressed areas," said the executive vice president of the Humble Oil & Refining Co.

"The danger here is, by design or not, there will be unwarranted and unfair support of some sectors of the economy at the expense of others."

In a speech to the refining section of the American Petroleum Institute, Ferguson questioned the justification of some projects he said federal agencies are sponsoring for the coal industry.

He said petroleum research

this year will total \$300 million, compared to \$20 million for coal.

"One-half of the amount for coal will be government financed," he said. "In contrast, less than 10 per cent of the research in our own industry will be from federal funds."

Ferguson said the objective of one federal pilot plant in West Virginia is to produce gasoline from coal at a cost of 13 cents a gallon.

"This is a price I am sure all of us would be happy to receive for our product at the refinery in these intensely competitive times," he said.

A Chicago utility executive told the oilmen nuclear power costs have been reduced about 50 per cent since 1955.

Murray Joslin, a vice president of the Commonwealth Edison Co., did not forecast spectacular gains but indicated the petroleum industry must expect increased competition from nuclear power.

"Utility companies on the West Coast and in the New England area are proceeding with large scale nuclear plants on the assumption nuclear power will be competitive in these areas where fossil fuel costs are higher," he said.

Vote Set For Underground Junior High

FORT WORTH, Tex. (AP)—Suburban Lake Worth may build an underground junior high school in order to avoid the noise of jet bombers.

The school board decided Monday night to submit a \$550,000 bond issue to the voters Nov. 25 to build the subterranean schoolhouse which would contain 21 air-conditioned classrooms and a cafeteria.

Board members said the 1,710 students lose up to 10 per cent of instructional time because of the noise from the jets landing and taking off at Carswell Air Force Base about 1 1/2 miles away.

Albert E. Brown, board president, said the noise is a problem even at the voters Nov. 25.

"When the referee sees an airplane coming, he calls time out until it has passed over," Brown said.

New Claim Is Staked

CHICAGO (AP)—A new claimant has appeared for the title of world's largest used car dealer—the Chicago Police Department.

Police Supt. O. W. Wilson made the claim Monday in announcing his force this year has impounded 47,407 autos and trucks which were abandoned on city streets in violation of the municipal code. Most of the cars were abandoned because they simply will not run any more. Some turn out to be stolen cars and there are a few new autos that are mysteriously abandoned.

The law requires the autos be sold as junk, even if they are in good operating condition. The junk dealers salvage the good parts and sell the rest for scrap metal.

Cooler Air Drifts Deep Into State

partly cloudy around Wichita Falls, Texarkana, Waco, Longview, Tyler and San Antonio. It was clear elsewhere across the state.

Another night of freezing weather was predicted in the Texas Panhandle, with readings as low as 28 degrees early Wednesday. Forecasts called for generally lower temperatures in most other sections of the state during the night and in parts of South Texas by Wednesday.

Top marks Monday ranged from 85 degrees at Laredo down to 65 at Dalhart.

Three In Family Die In Explosion

BEAUMONT (AP)—A gas explosion and fire killed three members of a family here today.

They were Mr. and Mrs. Knobice Lee Savoy and their son, Donald Ray Fontenot, 3.

Firemen said the three apparently were asleep in the back room of their house in the 2500 block of Pine St. when the house exploded.

Judge Horace Blades started an inquiry. The exact cause of the blast wasn't known.

Seeks To Block Dallas Jury Probe

SELMA, Ala. (AP)—The Marshall can obtain a restraining order preventing the grand Dallas County jury from investigating this block a grand jury investigation to the department's role in the furnishing transportation for a Negro integration leader.

The notice, given Monday night in a telegram signed by Asst. U.S. Atty. Gen. Burke Marshall, drew angry reaction from the Dallas County grand jury. Sheriff James Clark termed the action "a bald attempt by the Justice Department to prevent the Dallas County grand jury from making the investigation."

Clark and Gov. George Wallace set off the inquiry here, and a similar one in Montgomery County — with charges that Dr. Martin Luther King Jr. was driven from Birmingham to Selma for an integration rally Oct. 15 in a car rented by the Justice Department.

The department twice denied the incident before admitting it was true. A Negro lawyer involved resigned from the department.

Marshall's telegram said the department would seek a temporary restraining order against the Dallas County officials in a Mobile Federal court today.

A Justice Department spokesman in Washington said an attempt would be made to clarify a state court's right to harass a federal officer in a non-criminal case. He said a principal is involved when, without good cause, Justice Department lawyers can be called before local investigative bodies.

Prosecutor Blanchard McLeod, one of those to whom the telegram was addressed, said the grand jury would convene on schedule. He added:

"It may be possible that Mr.

Madam Nhu Again Delays Rome Flight

LOS ANGELES (AP)—Mrs. Ngo Dinh Nhu, battling exhaustion, has delayed a flight to Rome and a reunion with her three younger children.

Mrs. Nhu has planned to leave today for Rome, then either return to South Viet Nam directly or via Los Angeles, an informed source said.

South Viet Nam's former First Lady had said in private that she believes many of the ruling junta which overthrew her family's regime are still on her side, according to a source close to her.

She believes if she can return to Saigon before the first general election under the new regime she can regain support, the source said.

Mrs. Nhu had been vacillating for days over whether to bring the children, ages 15, 11 and 4 to Los Angeles or to meet them in Rome, said an aide.

She decided to leave for Rome today, but Monday night found herself unable to go on, the aide said.

A doctor said she was suffering from excessive fatigue, according to the aide.

Texas Holds No. 1 Rating With Ease

By HUGH FULLERTON JR., Associated Press Sports Writer
NEW YORK (AP) — As the only major college team still unbeaten and untied, despite the slender margins of victory, Texas retained its spot as the nation's No. 1 football team this week.

The Longhorns were first on 48 of 53 ballots and took the top spot for the fifth straight week by a comfortable margin.

The panel of sports writers and broadcasters voting in the weekly Associated Press poll also meted out recognition as due to other winners and losers. Navy, Michigan State, Oklahoma and Pitt rose in the rankings while Illinois, Auburn and Ohio State went down.

Texas, winning its eighth straight game, had to go all out to win a squeaker from Baylor 7-0. That was the fourth in a row won by no more than a touchdown. Instead of discounting the Longhorns because of those margins, the experts gave them a whopping total of 526 points on the scoring basis of 10 points for a first place vote, nine for second, etc. That came on 48 firsts, four seconds and one vote for fifth.

Navy moved up from fourth to second with 446 points, replacing Illinois, which skidded far down the list after a 14-0 loss to Michigan. The voters obviously were impressed by the ease with which the Midshipmen massacred Maryland 42-7, Mississippi, an easy 41-0 winner over Tampa, a minor opponent, remained in third. Michigan State climbed from ninth to fourth after trimming Purdue 23-0 and taking the Big Ten lead.

State Schools May Choose New Texts

AUSTIN (AP) — Texas public school boards will have a chance to pick new high school economics textbooks in 1964 for the first time in seven years.

Three new choices were approved Monday by the State Board of Education after two persons proctored one of the books was "full of subtle subversion" and portrayed "a nice picture of socialism."

The board failed to adopt any economics texts last year to replace those in use during 1957-63. As a result economics students relied on old or supplemental books this year.

The board also shortened the usual six-year contract period to assure continuing fresh material in economics, geography and chemistry texts. Contracts for texts in these subjects were authorized two years ago.

Local boards must appoint five to 15 teachers to local textbook selection committees by Dec. 15 to make local choices by March 1, 1964.

State board chairman W. W. Jackson of San Antonio broke a 9-9 tie vote to reject repeated protests that "Economics for Our Times," one of the three economics volumes recommended by the State Textbook Committee, favors socialism. Three other economics texts had been eliminated by the textbook committee after earlier protests.

Board member R. W. Bryan of Austin said approval of the contested book would be a disservice to Texas school children, while board member Ray Holbrook of Texas City said the book is the most stimulating of the three.

Holbrook said the book was the target of "a concentrated campaign of vilification" by extremists.

The board approved an increase in the per capita apportionment from \$76 to \$77.50. The increase means an additional \$3.7 million to public schools from the available school fund.

Big Lift To Begin Return

Austin (AP)—Operation Big Lift was ready to switch directions today and start returning the 2nd Armored Division from Germany to Texas on 87 trans-Atlantic flights.

The first of the big jet troop carriers is scheduled to land at Bergstrom Air Force Base at 8:35 p.m. Ideal weather and favorable winds would bring it here as much as three hours earlier.

Other flights will arrive every two and a half hours.

Bergstrom was the focal point of Operation Big Lift Oct. 21-23 when the 2nd Armored Division was flown to Germany in the largest, longest and fastest troop airlift in history.

Fifty-three flights departed for Germany from Bergstrom. Others left from Gray Air Base and Connally Air Force Base.

More than 6,000 soldiers in the 14,000-man division will arrive at Bergstrom. They will go north 70 miles to Ft. Hood near Killeen in motor convoys.

The final 500 "mop up" troops will return to Ft. Hood Dec. 16-18.

Texan's Widow Gets Carnegie Hero Award

PITTSBURGH, Pa. (AP)—The widow of a Texan who drowned while trying to rescue another man from a well has received a Carnegie Hero Fund Commission award in recognition of her husband's heroism.

The commission awarded Mrs. William Duncan a bronze medal and death benefits of \$30 a month Monday.

Duncan, 43, a farmer and merchant at Harrod, Tex., could not swim. He nevertheless went into the well Aug. 24, 1962, to rescue Lawrence Hrnecirik, 30, who was overcome by lack of oxygen while cleaning the well.

Firemen pulled Hrnecirik out and revived him. Duncan's death was attributed to drowning.

Plan National Boycott

LOS ANGELES (AP) — The national director of the Congress of Racial Equality says his organization will launch a Christmas boycott of Los Angeles stores that practice discrimination in employment.

Boycotts of chain stores that practice discrimination will begin on a national scale next Easter, Director James Farmer said.

Confidence Brings Increase In Both Spending, Saving

By SAM DAWSON
AP Business News Analyst
 NEW YORK (AP)—Spending and saving and debt are all rising. This neat trick is managed by consumers because personal incomes are still increasing and so is confidence in the future. All three activities—spending now, saving for future spending, and taking on more debt—are of prime interest to business and industry. They have a lot to do in shaping today's profit and loss statements. And they influence future business plans.

The spending rise shows up in retail sales. They hit a record last month at \$20.9 billion, up 5.1 percent from the previous year. They are expected to rise still more this month, especially in the auto sector, and again in December in the stores.

Takers of the business pulse are especially impressed with the increase in sales at durable

goods stores, up 7 per cent from October, 1962, and 5 per cent better than in September this year. Soft goods advanced only 1 per cent from September, but are 4 per cent ahead of a year ago. Nondurables are supposed to stick closer to needs, but waxing or waning of confidence.

The consumer is still the main prop of the economy, in spite of the rise in government and business spending. And when consumers loosen up the purse strings, up goes the general confidence based on a more realistic picture of the economy. Confidence is even more reflected in the rising volume of consumer installment credit. Some of this taking on of debt is out of necessity. But much of it is out of belief, however, that future income can absorb it without Total outstanding consumer

Lucy Is Not Bold, But She's Happy

By HAL BOYLE
 NEW YORK (AP)—"I look and sound like a bold person, but I'm not," said Lucille Ball. "But I'm a happy person now."

There are exterior reasons why she should be happy. The famous redhead is a star in her own right, and as president of the \$25-million-a-year Desilu Productions, Inc., she is sitting atop one of the biggest gold mines in show business.

"But what makes you happy in this business is just being a part of it," she said. "I never have fought over questions of being or money. My biggest thrill is in being recognized as an accomplished performer."

"Success to me is just a steady, go-to-meeting, workaday continuation. I don't feel any different. There are more people to help, but that's no pleasure."

Miss Ball, looking far more fetching in her pajamas than the general run of corporate heads, abandoned her bowl of luncheon rice pudding and laid aside the script she had been reading. She looked out the window of her hotel living room and glanced out into the rain.

She recalled an incident of her youth, when she was an obscure model here, hoping that somehow, sometime she would be able to land a job as a showgirl.

"I had the usual starling, freezing time here," she said. "I don't look upon that time as the good old days. I was making \$25 to \$50 a week. I was shy as a kid. I didn't have any dates. I never saw the inside of a night club."

"I didn't mind the fact that success came so gradually," she said, turning away from the window.

"I thought I was doing fine. I was happy. I would have worked for nothing."

To her chief sins in life are ingratitude and self-pity.

"The thing that held me back for years was being too willing to see the other guy's side because I did my own," she said.

"That way you can wind up being a patsy."

"You have to follow your own convictions if you're going to be successful. You have to be strong enough to follow your own path."

Effort Launched To Rescue Thanksgiving In America

By INEZ ROBB
 Just a year ago I wrote a column asking if anyone cared to work for the preservation of Thanksgiving — "for the safeguarding of Thanksgiving as it used to be — a very special, uniquely American celebration in its own right and not merely a commercial adjunct to the Christmas season."

In that column, I expressed my despair that Thanksgiving is the uniquely all-American holiday, has rapidly declined to a mere adjunct of the hard-sell promotion for Christmas.

That column drew a deluge of mail from every part of the nation, letters written by citizens as alarmed as I over the decline — even the disappearance — of Thanksgiving as a wonderful, national celebration of our joy in our country and our deep gratitude to God for his blessings on it.

Well, Thanksgiving day after used to be just a little dimmer, a bit farther behind the Holly Curtain than it was in 1962. I have scanned the New York stores and the newspaper advertising in vain for any recognition that Thanksgiving is scarcely two weeks away.

I have not seen even a sign in the windows of the neighbor butcher shops, much less in the newspapers, advising me to reserve a plump, superior turkey for Thanksgiving. Once upon a time, that was SOP, just as upon a time the turkey was a bird uniquely associated with Thanksgiving, not with Christmas.

The turkey that once symbolized Thanksgiving to every American was one of the sentimental links that bound Americans to that first Thanksgiving feast in 1623 when the piece of resistance was four wild turkeys.

Less than a generation ago, Thanksgiving was still something more than a day when Americans didn't have to go to the office. It was one of the two most important and joyous holidays on the calendar. In the hearts and the homes of America, it was separate but equal with Christmas.

The Christmas hard sell now begins with Labor Day. That is the signal for the kickoff. (I have been receiving Christmas catalogues of one sort or another ever since that day.) The acceleration reaches another peak on November 1, when the hard-sell merchants of the world begin to work to get to work in earnest.

The preliminary Christmas decorations begin to go up on November 1 in New York stores. They will only be increasingly emphasized and added to until, by Thanksgiving Day, the stores are agitter with Yuletide ornamentation.

Thanksgiving is ignored as if it never had been and as if the Pilgrim Fathers had never existed. As decor, the pumpkin, once as symbolic of Thanksgiving as the turkey, has now been irrevocably assigned to Halloween. Merchandising establishments, long since devoted for Christmas, cannot be bothered with the all-American holiday.

The rapid extinction of Thanksgiving, sacrificed to make a Roman holiday of

Christmas, is almost complete. And its extinction, Christmas, too, is being laid waste. For the hard-sell and merchandising great are rapidly transforming Christmas into a pagan rout.

In the three-months pre-Christmas selling race, we are in great danger not only of losing Thanksgiving but Christmas as well — unless Christmas is to disintegrate merely into a season of frenetic getting and giving of expensive merchandise.

Thanksgiving has already been sacrificed to make of Christmas something it was never intended to be: a vulgar buying spree that denigrates every thing symbolized by Christmas.

Perhaps if Americans still care enough about Thanksgiving to rescue it from oblivion, where it is headed, they can also rescue Christmas from the clutches of gross materialism. They might even save the price in effort, of one.

Christmas, is almost complete. And its extinction, Christmas, too, is being laid waste. For the hard-sell and merchandising great are rapidly transforming Christmas into a pagan rout.

In the three-months pre-Christmas selling race, we are in great danger not only of losing Thanksgiving but Christmas as well — unless Christmas is to disintegrate merely into a season of frenetic getting and giving of expensive merchandise.

Thanksgiving has already been sacrificed to make of Christmas something it was never intended to be: a vulgar buying spree that denigrates every thing symbolized by Christmas.

Perhaps if Americans still care enough about Thanksgiving to rescue it from oblivion, where it is headed, they can also rescue Christmas from the clutches of gross materialism. They might even save the price in effort, of one.

Slaying Trial Postponed

FORT WORTH (AP)—The trial of Jerry Don Anderson, an ex-convict charged in the fatal shooting of a Gainesville highway patrolman, has been postponed to Dec. 9.

Dist. Judge Byron Matthews delayed the trial, scheduled to run Monday, because of the illness of one of the defense lawyers, George Cochran.

Anderson, 27, is charged in the June 8 slaying of patrolman Kenneth Harrison, 37. The case was moved here after prosecutors said it would be impossible to obtain an impartial jury at Gainesville.

Farm Bureau Names Queen

FORT WORTH (AP)—Miss Judi Shurbet, 17, who lives on a Floyd County farm, was named queen of the Texas Farm Bureau Monday night.

She succeeds Miss Valaine Garner of Brownfield.

Miss Shurbet triumphed over a dozen rivals from other districts in the organization, which opened its 30th annual convention Monday. She is the daughter of Mr. and Mrs. Marvin Shurbet of Petersburg.

Miss Sherry Haston, 17, was runnerup in the queen contest. She is the daughter of Mr. and Mrs. C. W. Haston of Paducah.

Junior Editors Quiz on NATURE

QUESTION: How do Mexican jumping beans jump?

ANSWER: One of the most peculiar plants in the world is a Mexican shrub belonging to a genus having the Latin name Sebastiania—remarkable because of the way some of its irregular beans jump around, almost as if they were frolicking or playing. They will often roll several inches. As our picture shows, inside each jumping bean is a lively little character who is responsible for all the apparent antics.

This little fellow is a larva or grub of a small gypsy moth which infests the shrub. It is the sudden, snapping movements of the grub which causes his bean home to jump and roll. He is not dancing or playing, but rather is engaged in the serious business of life, which for him means spinning a cocoon. During this process he grabs hold of the silk lining he has spun in the bean and twists his body sharply.

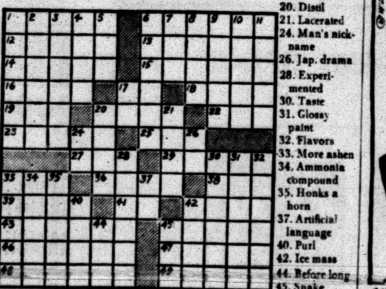

In the Southwest, these are called bronco beans because they remind you of a bronco in the way they seem to buck.

FOR YOU TO DO: Riding the back of one of your friends while he's imitating a Mexican jumping bean is fun. Be sure you give him a chance to ride you, and pick a place where there's lots of room so that you won't smash into anything.

Mother Bitter, Confused About Daughter's Operation

CLEVELAND (AP)—Blonde Mrs. Lily Simko was confused, brokenhearted, but most of all she was bitter—at everyone. Three floors up in an operating room, surgeons were amputating the right leg of Christine, her 14-year-old daughter.

Seated in a corridor of Metropolitan General Hospital, Mrs. Simko remained unrecanted to the facts. "What kind of life can my daughter have now?" she asked as sobs broke her voice.

Christine had a life-or-death question hanging over her. She had a malignant tumor in her right hip. Doctors agreed that only removal of the leg—including the hip—could save the girl's life. Otherwise, life expectancy was reduced to 6-18 months.

Now, Christine has a reasonable chance to be cured over a five-year period. Every week and month brings added hope, doctors say.

Mexico May Have Only 1 Candidate

MEXICO CITY (AP)—The president of the Party of National Action, Mexico's second strongest, took issue Monday with a move within the party to abstain from participating in the 1964 presidential election.

This official, Adolfo Christlieb Ibarra, said he would fight the proposal at the party's national convention. No date for the gathering has been set.

A decision by Christlieb's party not to put up a presidential candidate would leave the expected candidate of the government's Party of Revolutionary Institutions, Interior Minister Gustavo Diaz Ordaz, without even token opposition.

The government party's candidate is rated a sure bet in the election, even with opposition. A suggestion for National Action to stay out of the presidential race cropped up Sunday at a regional party convention here. It was approved by a slim margin.

One speaker favoring the proposal claimed if the government party candidate is allowed to go to the polls unopposed "it will be clearly demonstrated that he was imposed by the government and not supported by the people of Mexico."

4 Inch Gas Line Breaks

WINNSBORO (AP)—Leaping flames and a roar heard for several miles signaled an explosive break in a natural gas pipeline Monday night.

The four-inch line, owned by Humble Oil & Refining Co., burst 4 miles west of here in East Texas. It carried gas under 3,200 pounds pressure to maintain the flow of crude in an oil field nearby.

A valve was closed at a pumping station and the blaze was extinguished after burning about an hour. The only damage was to the pipeline.

Father And Sons Die

CHICAGO (AP)—A father and his four small sons perished Monday night in a fire that flashed through a West Side apartment. Three other persons were reported hurt.

The dead were identified as Alfred Similton, 27, and his sons, Michael, 6, Anthony, 5, Timothy, 3, and Ken, 2, all Negroes.

Four surgeons completed the operation in five hours Monday. All went smoothly. Christine will be out of bed in a few days. She will walk, first with crutches and then under physical therapy treatment with an artificial limb. Since her hip is gone, the limb will be attached from a strap around the waist.

Mrs. Simko never consented to the operation. Doctors said they believe she feared Christine would one day blame her for the loss of the leg.

The girl was a ward of juvenile court. She had run away from home several times and was a behavior problem. The mother, who is on state aid-to-dependent relief, does not work.

When doctors couldn't get permission from Mrs. Simko, they asked juvenile court last week to allow the operation. Judge Walter G. Whitlatch gave permission for the operation.

Because "everyone kept bug-ging me about the operation," the frightened Christine ran away from the hospital in her bedroom gown last Tuesday night. She was found across town in her east Cleveland home the next morning.

Christine returned to the hospital, saying she was ready to face her fate. But Mrs. Simko still blamed the court, the doctors, social workers and everyone connected with her daughter's case.

"Oh, why did everyone keep the facts from her and from me?" Mrs. Simko asked. "They said she always ran away and got into trouble. The doctors operated on her leg so she won't be able to run anymore. They'll always know where to find her—she'll always be in a chair. Oh, she'll just fret and fret."

During the past week, mail from well-wishers has poured into the hospital from almost every state and some foreign countries. "I know Christine will feel better when she reads the letters," Mrs. Simko said.

Mrs. Simko is a divorcee. Christine's father disappeared six years ago.

The blonde woman from Leicester, England, married an GI. She came to America and had two children, a son who now is 15 and Christine.

Crash Of Jet Liner Investigated

HOUSTON (AP)—Federal Aviation Agency investigators were trying to determine today what caused an engine to rip off an Eastern Air Lines passenger jet 40 miles southeast of Houston.

The two-ton engine was hauled by truck into the airline's maintenance plant Monday. It was found late Sunday in a pasture between Damon and Newgulf in Brazoria County.

Clarence Rose, 41, a farmer who lives outside Damon, told searchers he saw the engine fall.

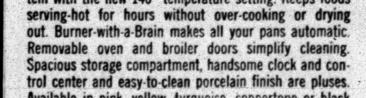

F. R. Washek, head mechanic for Eastern, said the engine broke between the wing and body of the plane.

The four-engine DC8 made a successful emergency landing at Barkdale Air Force Base near Shreveport, La. It lost the engine Saturday after a violent downdraft dropped the airliner nearly 14,000 feet in 12 seconds.

Several passengers were injured. The jet had refueled here on a flight from New York City to Mexico City.

Confidence Brings Increase In Both Spending, Saving

By SAM DAWSON

NEW YORK (AP)—Spending and saving and debt are all rising. This near track is managed by consumers because personal incomes are still increasing and all is confidence in the future. All three activities—spending, saving and debt—are of prime interest to business and industry. They have a lot to do in shaping today's profit and loss statements. And they influence future business plans.

The spending rise shows up in retail sales. They hit a record last month at \$20.9 billion, up 5 per cent from the previous year. They are expected to rise still more this month, especially in the auto sector, and again in December in the stores.

Takers of the business pulse are especially impressed with the increase in sales at durable goods stores, up 7 per cent from October 1962, and 4 per cent better than in September this year. Soft goods advanced only 1 per cent from September, but are 4 per cent ahead of a year ago. Nondurables are supposed to stick closer to needs, but waxing or waning of confidence.

The consumer is still the prop of the economy, in spite of the rise in government and business spending. And when consumers loosen up the purse strings, up goes the general feeling of well-being.

Lucy Is Not Bold, But She's Happy

By HAL BOYLE

NEW YORK (AP)—"I look and sound like a bold person, but I'm not," said Lucille Ball. "But I'm a happy person now."

There are exterior reasons why she should be happy. The famous redhead is a star in her own right, and as president of the \$25-million-a-year. Desilu Productions, Inc., she is sitting atop one of the biggest gold mines in show business.

"But what makes you happy in this business is just being a part of it," she said. "I never have fought over questions of billing or money. My biggest thrill is in being recognized as an accomplished performer."

"Success to me is just a steady, go-to-meeting, work-a-day continuance. I don't feel any different. There are more people to help, but that's no problem. It's a pleasure."

Ball is looking far more fetching in her pajamas than the general run of corporate heads, abandoned her bowl of luncheon rice pudding and laid aside the script she had been reading. She walked to the window of her hotel living room and glanced out into the rain.

"She recalled an incident of her youth, when she was an obscure model here, hoping that somehow, sometime she would be able to land a job as a showgirl."

"I had the usual starving, freezing time here," she said. "I don't look upon that time as the good old days. I was making \$25 to \$50 a week. I was shy as a kid. I didn't have any idea. I never saw the inside of a night club, looking for a job."

"I didn't mind the fact that success came so gradually," she said, turning away from the window.

"I thought I was doing fine. I was happy. I had a wonderful relationship. I would have worked for nothing."

To her chief sins in life are ingratitude and self-pity.

"The thing that held me back for years was being too willing to see the other guy's side before I did my own," she said. "That way you can wind up trying to rescue it from oblivion, where it is headed, they can also rescue Christmas from the clutches of gross materialism. They might even save the price, in effort, of one."

Effort Launched To Rescue Thanksgiving In America

By INEZ ROBB

Just a year ago I wrote a column asking if anyone cared to work for the preservation of Thanksgiving — "for the safeguarding of Thanksgiving as it used to be — a very special, uniquely American, celebration in its own right and not merely a commercial adjunct to the Christmas season."

In that column, I expressed my despair that Thanksgiving, the uniquely all-American holiday, has rapidly declined into a mere adjunct of the hard-sell promotion for Christmas.

That column drew a deluge of mail from every part of the nation, letters written by citizens as alarmed as I over the decline — even the disappearance — of Thanksgiving as a wonderful, national celebration of our joy in our country and our deep gratitude to God for his blessings on it.

Well, Thanksgiving a year later is just a little dimmer, a bit further behind the Herd of Curtian than it was in 1962. I have scanned the New York stores and the newspaper advertising in vain for any recognition that Thanksgiving is scarcely two weeks away.

I have not seen even a sign in the windows of the neighbor butcher shops, much less in the newspapers, advising me to reserve a plump, superior turkey now for Thanksgiving. Once upon a time, that was SOP, just as Halloween, Merchandising es once upon a time the turkey was a bird uniquely associated with Thanksgiving, not with Christmas.

The turkey that once symbolized Thanksgiving to every American was one of the sentimental links that bound Americans to that first Thanksgiving feast in 1621 when the piece of resistance was four wild turkeys.

Less than a generation ago, Thanksgiving was still something more than a day when Americans didn't have to go to the office. It was one of the two most important and joyous holidays on the calendar. In the hearts and the homes of America, it was separate but equal with Christmas.

The Christmas hard sell now begins with Labor Day. That is the signal for the kickoff. Catalogs of one sort or another ever since that day. The celebration reaches another peak on November 1, when the hidden persuaders of the merchandise world get to work in earnest.

The preliminary Christmas decorations begin to go up on November 1 in New York stores. They will only be increasingly emphasized and added to until, by Thanksgiving Day, the stores are aglitter with Yuletide ornamentation.

Thanksgiving is ignored as if it never had been and as if the Pilgrim Fathers had never existed. As decor, the pumpkin, once as symbolic of Thanksgiving as the turkey, has now been irrevocably assigned to time, that was SOP, just as Halloween, Merchandising es once upon a time the turkey was a bird uniquely associated with Thanksgiving, not with Christmas.

The turkey that once symbolized Thanksgiving to every American was one of the sentimental links that bound Americans to that first Thanksgiving feast in 1621 when the piece of resistance was four wild turkeys.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — A reader from Florida writes that he is a nice, eligible bachelor and wants to know if ladies down here are "the warm home-loving girls they have the reputation of being?" Because he says it is entirely possible that if he finds the right one during a visit down here, well, you know.

Of course one must refrain from expressing personal opinions of such questions so I will not say that a man who has money in the bank and a life alone must have a terribly unbalanced spleen if he wants to open up the door and get married.

Instead, I can say nothing more to him than, "Sir, it depends on many factors which you should study for maybe another forty years or so."

Ever since the end of World War II when GIs discovered Japan and Korea, they have been trained in similar traditions wouldn't make them poor floors and wash dishes, the U.S. female has had a fairly slow time of it.

Mexico is close enough to the States to have picked up some of our bad habits but they don't have many fine customs of their own so when it comes to judging ladies, you should consider class and history.

The Spaniards were great on for pampering their females and a Spanish lady was brought up largely with the idea that a good way to spend the day is lying around eating grapes and to put or fling temper tantrums when they want something. The men would do anything to get their lady's jewels or have servants flogged just to stop a tantrum.

On the other hand, Indian ladies (who actually were the first Mexican ladies) were educated to the best way to get along in life was to do the housekeeping and not fool around with the headman because this could wind up in serious trouble.

Then you had the mixing up of things when Spain came over for a few centuries. The mobility class ladies had to have several hand maids around to pour a little more warm water in the tub for them while reg-

ular women went on about their business like they were taught. Today, you have a very interesting mixture of everything. Go out in the sticks, for instance, and you find the Indian ladies still follow the old traditions.

The young maidens are old at fiestas and swing about the dance floor half an arm's length from their partners (the whole family is there watching?). And married ladies huddle together exchanging recipes for floss until the husband walks up and says, "Come on Ophelia, let's show these children how the dance is performed."

Of course you get a real wealthy farmer or rancher and he is in a different class. His wife and daughters move to the city and maybe run out once or twice a month in a Jaguar to see how the fresh air life is coming along.

In the cities and larger towns you find ladies who work for a living because they have to and some who work because it sort of appeals to them.

Ladies who work generally are as nice and amiable as it is possible for ladies to be and they cook well and attend the needs of husbands (theirs) like seeing that his clothes are in order and he doesn't have to wear the same socks twice in a row.

In special circles, however, the ladies are inclined to want breakfast in bed around 10:30 or 11 a.m. and sometimes suffer from the hangover of Spanish traditions. Like on the cook's day off you say, "Gee dear, I'm feeling a little off today. There is no food on the table."

Well, the look you get. And you hastily add, "I just thought maybe you would like to go to the most expensive restaurant in town for dinner, huh?"

Of course this type of lady never lays her pinkies or skill unless it is to ring it on your head for asking her to warm up some pork chops. Just be cautious about what you ask for when you travel on the high level.

Four Die In Plane Crash
 MODESTO, Calif. (AP)—The fiery crash of a small plane returning from El Paso, Tex., to Stockton, Calif., Monday night claimed the lives of all four persons aboard.

The plane, its pilot apparently lost in darkness and heavy fog, crashed 7 miles south of Modesto near the community of Keyes on U.S. 99.

Killed were the pilot, Henry Thoms, 44, of Ripon, Calif.; his wife Marian, 42, a Ripon school teacher; their son Gary, 20, a student at the Modesto Junior College student body, and James Newsome, 42, of Stockton.

Henry Thoms and Newsome were civilian employees of Shreve General Army Depot at Lathrop, Ore., and members of the Shreve General Dept. Flying Club. Thoms was a mechanic and Newsome was foreman of vehicle inspection.

Rancher Lee Webb said an airplane flew so low it almost hit the top of his barn. A few minutes later it disappeared from the north as though circling; hit a power line, exploded and crashed into a vineyard.

Could Someone Please Find Our Front Lawn
 ALHAMBRA, Calif. (AP)—"We were sitting on the front porch when all of a sudden a big patch of lawn started to move, then dropped out of sight," a housewife declared.

"Nothing has ever happened to us in this house before," she said Monday, "but when our front yard suddenly sinks 18 feet, that's something."

Mrs. Esther Baker said the hole appeared over the weekend. Police were summoned. "An inspector looked into the hole, suggested we fill it up, then left," she said.

"But then we discovered that the bottom of the hole apparently is the top of an old Indian or Spanish well. And that means I could go down another 50 or 100 feet."

US Penny-Wise Attitude Hinders Peruvian Peasants

By JOHN M. HIGHTOWER
Associated Press Staff Writer
LIMA, Peru (AP)—The United States seems to have missed a good chance to help the poorest people of Peru because of red tape, plus what South Americans consider an overdeveloped "banker mentality" in Washington.

The \$10-million incident is small by comparison with overall U.S. assistance to Peru, which in the past two years has amounted to about \$150 million with more to come. But it is important because the new government of President Fernando Belaunde Terry seems determined to move fast on reform and development programs.

The question is whether the United States can move fast also. A few weeks ago Belaunde asked the United States for a pick and shovel loan of \$10 million. He said he wanted to buy simple hand tools for the millions of Indian peasants in the mountainous interior of the country. He laid out a plan to set up 144 tool lending centers—one in each county seat.

Everyone agrees these simple tools are the things the Indians need most—to dig ditches for water supply, to build roads, to cultivate the land. Most have only primitive wooden digging sticks and short-handled wooden hoes.

U.S. officials here hope Belaunde's goal of raising the living standards of the Indians and integrating them into modern economic life can be realized. The Indians, about half Peru's 10 million population, are illiterate and poverty-stricken.

Belaunde first put his proposal before U.S. aid agency officials. They pointed out that the United States already had approved a limited roadbuilding plan, including a supply of bulldozers and similar heavy machinery, which would serve as a pilot project for an expanded program.

It takes an average of about two years to get approval for a new proposal, and Belaunde was asked to wait and see how the pilot project worked out. Belaunde, a man in a hurry, turned to the export-import bank. He felt that the road-building machines would not serve his broader purposes of improving farm production and water supply through self-help methods. Also it would cover only about five of his 144 rural centers.

Trial Of 6 Perjury Cases Opens

MACON, Ga. (AP)—Federal prosecution of perjury charges against six integrationists goes into the courtroom today with trial of a New York white woman. Indicted by a federal grand jury, Joni Rabinowitz, 22, of New Rochelle, N.Y., is charged with giving false testimony about the boycotting of a white grocer by Negroes in Albany, Ga.

Her attorneys, led by her father, Victor Rabinowitz of New Rochelle, seek FBI files on the investigation.

Argument was set for a government motion to void a defense counsel subpoena served more than a week ago on FBI Director J. Edgar Hoover.

Presiding at the jury trial is U.S. Dist. Judge W. A. Botte of Macon.

Miss Rabinowitz and five Albany Negro leaders were indicted Aug. 9 on perjury charges. The Macon grand jury also indicted three other integrationists on charges of conspiring to obstruct justice.

The indictments followed grand jury investigation of Negro demonstrations and boycotting of an Albany grocer, Carl Smith, after Smith served on a federal jury which returned a verdict against a Negro in a civil rights damage suit.

Smith said his business was ruined and he sold out after the April boycotting and picketing of his store.

Indicted with Miss Rabinowitz on perjury charges were Slater H. King, head of the integrationist Albany Movement; Elza L. Jackson, the recruiting secretary; and Thomas Q. Chatmon, Robert Thomas and the Rev. Samuel B. Wells.

All are scheduled for trial at the court session.

In addition to these charges, the grand jury indicted Dr. W. G. Anderson, Luther Woodall Jr. and Robert Williams Colbert on charges of conspiring to obstruct justice. All are Negroes. Anderson, former head of the Albany Movement and now a Detroit resident, stood trial last month. A mistrial resulted. Colbert, now living in New York State, pleaded guilty and got a probationary sentence. Woodall has not been tried.

Next month's roundtable will be held on Dec. 12.

Scout Roundtable Session Canceled

The Cub and Boy Scout Roundtable meeting originally scheduled for Thursday has been canceled. It was announced this morning.

Next month's roundtable will be held on Dec. 12.

Strike Ends At 2 Atomic Plants

OAK RIDGE, Tenn. (AP)—The longest strike in Oak Ridge labor history has ended at two atomic plants operated here for the Atomic Energy Commission.

Strikers at the facilities began returning to their jobs with the Union Carbide Nuclear Co. Monday night after voting to accept a 3-per cent wage increase and end a 28-day walkout.

In addition to pay boosts averaging 7 to 10 cents an hour, the strikers, represented by the Atomic Trades and Labor Council, won premium pay for weekend shifts. The workmen will get an additional 15 cents an hour for Saturday work and 25 cents extra for Sunday.

Another clause in the new 18-month contract calls for the company and the council to share the costs of a new hospitalization and medical program.

Hourly wages under the old agreement ranged from \$2.42 for laborers to \$3.41 for skilled technicians.

The deadlock, which began just after midnight, Oct. 15, was marked by marathon bargaining sessions, supervised by Federal Mediator E.F. Hitchcock.

The union originally sought a 28-cent hourly hike, then scaled its demand down to 22 cents. The company stuck close to its original offer of 7 cents throughout the strike.

The plants affected by the walkout—X-10 and Y-12—are engaged in nuclear weapons production, nuclear research and production of radioactive isotopes.

Essential operations at the facilities were carried on during the strike by some 5,800 scientists, engineers and other salaried personnel.

District Scout Session Monday

The Lone Buffalo Boy Scout District's annual meeting will be held on the night of Nov. 18 in the Snyder High School Cafeteria.

All unit leaders, boys and their families are invited to attend. Each member will bring a covered dish and silverware. The district committee will furnish everything else for the meal at the session. The meeting will get underway at 7 p.m.

Believe Part Of Loot Recovered

NEW YORK (AP)—A cache of diamonds, believed part of the loot from last Friday's \$3-million jewel robbery here, was found Monday night at a Manhattan demolition site.

It was the same site where the robbers had abandoned a hijacked jewelry messenger service car from which police recovered \$2½ million worth of gems and gold bars.

The value of the newest find was not estimated immediately.

The demolition site, on West 40th Street, is a block away from where the car, carrying six unarmed guards, was robbed by five gunmen.

Man's Clothing Is Ignited By Negroes

ATLANTA (AP)—A 39-year-old white man was seized by several Negro youths who dragged him several blocks and set his clothing afire, police reported.

The victim, William Lanigan, was reported in serious condition at a hospital Monday with third-degree burns over the upper part of his body.

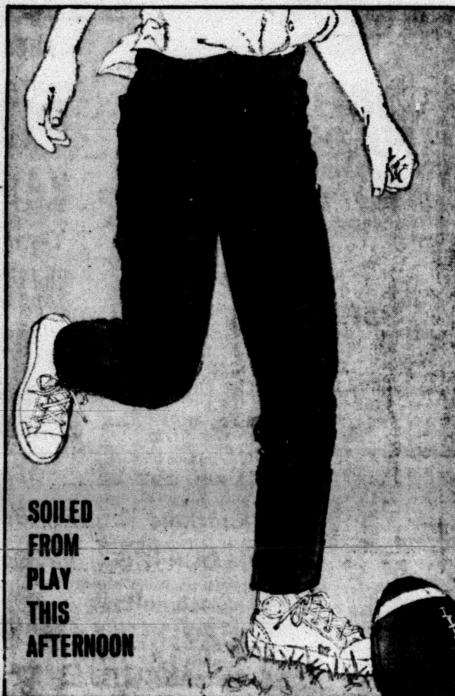

Detectives said Lanigan was unable to give a coherent statement, but related that the youths dragged him to the rear of a residence and set his clothing on fire.

Hubert Johnson said he heard the man screaming outside his house and extinguished the flames with a coat.

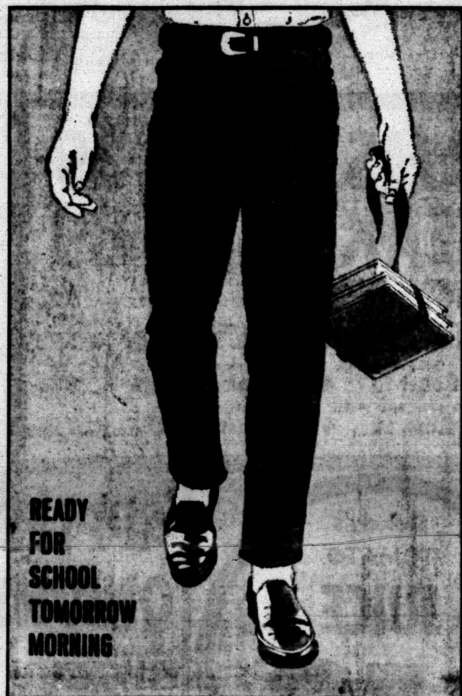

Guilty Plea Entered

A plea of guilty was entered in county court this morning by Opal Davis of Snyder. She had been charged with DWI by Snyder city police.

In lieu of other punishment Mrs. Davis was sent to the state hospital in Big Spring for treatment, not to exceed 90 days.
