

R.R. Crawley, 75, Church, Area Leader Dies

Reuben R. (Rube) Crawley, a church and community leader for 60 years, died in St. Joseph's Hospital Wednesday, March 12, at 2:50 p.m. He was 75.

The illness that took his life was diagnosed about five years ago, but it was only within recent months that he had to quit participating in some of the activities that had meant so much to him and which he had helped mold.

Mr. Crawley came with his parents, the late Mr. and Mrs. G. H. Crawley, to a farm in the Loco community in 1909, and he lived in the same house until Oct. 1, 1968, when he and Mrs. Crawley moved to Wellington.

Few men have had closer ties with the First United Methodist Church in Wellington than Mr. Crawley. He was a member of the board of stewards for many years and he sang in the choir for more than 40 years.

The last time he sang with it was in the Christmas Cantata, an annual event in which he had participated for the more than 20 years these have been presented.

He was equally active in his own community. Although he had no children, Mr. Crawley was a trustee of the Loco School for a long period, and was instrumental in making it one of the best rural schools of the Southeast Panhandle prior to consolidation. He also was a long-time director of the Loco Farmers Co-op Gin, which grew out of his own successful farming enterprises.

A veteran of World War I, he was a 50-year member of the American Legion and would have received an award denoting this on March 27.

Mr. Crawley was born Aug. 27, 1893 in Gravelly, Ark. He was only eight years old when his father brought the family to Mt. Pleasant, and a few

Red Cross Chapter to Be Reorganized, Drive Set

First steps in the reorganization of the Collingsworth County Red Cross were taken Tuesday night, March 18, when a group of interested citizens met with regional and national Red Cross representatives.

County Judge Zook Thomas presided at the meeting.

Here to help in the organization were Col. Joe Mason, Amarillo Chapter Manager since he retired from the Air Force; Gen. Jerry Lee, first aid and blood bank chairman for the area; and Ken Intfeld, representative of the National Red Cross.

They praised the highly successful Blood Bank drive completed Feb. 28 under the direction of Police Chief Donald Nunnelley, and said that was one of the determining factors in seeking to expand Red Cross here.

Action will be focused first on the Red Cross Fund Drive, an annual event. Because March is Red Cross Month, and nothing has been done so far, it will take precedence over organizational work. It was pointed out, however, that this drive would have been held regardless of the decision to reorganize the chapter.

The local portion of this money is what finances Collingsworth County's work with service men and needy through the year.

Appointment of a drive chairman will come within a few days.

Two temporary officers were named. Miss Virginia Robey, new editor of The Wellington

Leader, will act as chairman and Mr. Nunnelley is the vice-chairman. Other officers will be named and a board of directors will be selected.

Throughout the meeting it was emphasized by the local

group that the Red Cross Blood Bank work in conjunction with St. Joseph's Hospital must be continued.

Other opportunities which would be available to the coun-

Collingsworth County FARM NEWS

By Don Reeves
County Agricultural Agent

It costs money to feed cattle lice. These parasites are among the most damaging to beef cattle.

Cattle infested with lice spend a lot of time rubbing against fences, posts and other objects due to the annoyance caused by the insects. Cattle on feed do not gain as they should and require more feed.

Infested cows lose weight and their calves become prime targets for the pests. Reduced weaning weights of calves is another spot that hits the pocketbook.

Cattle lice are common over the entire state and include both the biting and sucking types. Their populations build up rapidly during cool weather and when cattle are kept in close quarters.

Sucking lice, short and long nosed, pierce the animal's skin and feed by sucking blood. They are usually found on the sides of the animal's neck, on the brisket, back, inner surface of the thighs, tail and around the nose, eyes and ears. Cheating lice are smaller and are usually found on top of the shoulders and around the root of the tail but may also infest other parts of the animal's body.

Many chemicals are available for controlling lice as well as other external parasites of farm livestock. Because of restrictions and safety suggestions which apply to the use of chemicals, a guide is available at the county agent's office that is very useful in using chemicals for control of external parasites of livestock.

should be aware that quality is largely determined by the amount of fertilizer hay receives and the age at which it is harvested.

Dr. J. Neal Pratt, Extension agronomist at Texas A&M University, says that most crops cut for hay should be harvested in a young, actively growing stage. For crops such as sudan hybrids, johnsongrass, and other grasses, the best time to harvest is before the seedheads emerge.

Fertilizers influence protein and other qualities in hay crops.

A soil test is best for determining the amount of nutrients needed for the production of good-quality hay. Soil samples should be taken now and submitted to a lab for testing, Dr. Pratt says.

Total Value of State's Livestock and Poultry Up

The total value of livestock and poultry on Texas farms and ranches on Jan. 1 was 12% above a year ago, according to the Texas Crop and Livestock Reporting Service.

Cattle numbers were up 5%, hogs 1%, and turkeys 6%. Sheep numbers were down 7% from last year, goats 18% and chickens 10%, the Service said. On the first day of the year, the total value of livestock and poultry was set at \$1,696.8 million. Cattle comprised 92.3% of the total; all sheep 3.9%, hogs 1.3%, goats 1.2%, and poultry 1.3%.

For the fourth consecutive year, Texas cattle numbers increased. There were 11,521,000 cattle in the state with an average value per head of \$136. Milk cow numbers, however, were 6% below the 1968 total with 374,000 head on Texas farms and ranches on Jan. 1, 1969.

All sheep in the state totaled 3,949,000 head—down 7% from last year. Stock sheep were also down by 7%, but total sheep on feed remained unchanged at 242,000 head. All sheep were valued at \$65.9 million.

Goat and kid numbers dropped 18% from the 1968 figure to 2,929,000 head, valued at \$6.70 per head. The current inventory had a farm value of \$19.6 million, the Reporting Service said. All hogs totaled 943,000 head, up 1%. Hogs and pigs on Texas farms and ranches were valued at \$22.3 million or an average of \$23.70 per head.

Chickens numbered 17,445,000 on Jan. 1, with a total farm value of \$18.3 million. The total, which excludes commercial broilers, was down 10%. Turkeys, however, totaled 793,000 head, an increase of 6% from last year. Turkeys in the state were valued at \$3.7 million at the start of the year.

March 21 Is Deadline for Farm Sign-up

March 21 is the final date to sign up in the 1969 wheat, feed grain and cotton programs. At this late date the sign-up is still lagging far behind expectations, said Millard Brown, ASCS office manager.

Those who fail to get signed up by the final date will not be able to participate in the programs and earn adjustment payments, Mr. Brown said.

However, these are voluntary programs and each farm operator makes his own choice as to whether or not he wants to participate in them, but all who have not signed up are reminded of the final date.

Troop Elects Patrol Leaders

Troop 31 of the Boy Scouts met in the National Guard Armory on Monday evening and held an election of patrol leaders. The top post of senior patrol leader went to Alton Belew, while the two patrol leaders chosen were Cecil Parker and Robin Maddox.

Conducting the election was District Commissioner Gus Allen, assisted by Assistant Scoutmasters Roy Jeffrey and Johnny Hook, and by Committeeman Doug Seale. Games Director and reporter, Father Pat Burke, was also present.

Ricky Seale, Mike Burkhalter and Mickey Vassey received their Scout membership cards, and one new Scout, Grady Reed was welcomed. Visiting from Troop 32 was Bill Havens.

Within the next two weeks, the troop will hold a Court of Honor, at which awards and ranks will be presented to several Scouts. The final election of the night saw Mike Cummings being voted in as Troop Scribe.

Father Pat suggested a course in first aid be initiated, and the suggestion was accepted, with Doug Seale and Johnny Hook being chosen to administer the course. A film on First Aid will be shown to the boys by Scout Executive Dave Agnew in the near future.

The meeting closed with the Scout Oath, and the usual ball game and candy scramble.

One of County's First Residents Is Buried Here

Mrs. T. E. Young of Abernathy, among the first white children born here, died in a Hale Center hospital at 10:30 a.m. Friday, March 14. She had been ill since November.

Her children living here are Mrs. Ernest Maxwell and Mrs. C. L. Moody.

The former Cassie Viola Brewer, she was born Sept. 16, 1890, just two weeks before the organization of Collingsworth County was approved by its pioneer voters. In that same election her father, J. R. W. (Uncle Billy) Brewer, was elected the first justice of the peace of Precinct 1.

Later Mr. Brewer moved his family to the Indian Territory. Although she was never a person to look back to other years or reminisce about her pioneer childhood, Mrs. Young on occasion recalled that Indians often visited the Young farm, to be met by her father, his gun held out of sight behind his back. On one occasion when the Indians became restless, he loaded his family in a wagon and by night drove them to safety.

She was married to T. E. Young July 28, 1909, and they lived here until 1926, when they moved to Abernathy, where they farmed until 1939. They operated a laundry in Petersburg until 1945, when they retired and returned to Wellington. This was their home until 1955, when they again moved to Abernathy.

Mrs. Young was a member of the Baptist Church.

Services for Mrs. Young were conducted at 2 p.m. Monday, March 17, at First Baptist Church in Wellington. Officiating were the Rev. Leroy Gaston, pastor, and the Rev. Murray Lee Brewer, pastor of First Baptist Church, Abernathy, who is a nephew.

Burial was in Memorial Gardens under the direction of Kelso Funeral Home.

Pallbearers were grandsons, Wayne Maxwell, Don Maxwell, Ernest Maxwell, Charles Young, E. J. Young and Thomas Gallagher.

Surviving Mrs. Young are five sons and three daughters: W. A. Young and C. L. Young of Abernathy; J. T. Young of Rialto, Calif.; Edward Young of Tyler; Melvin Young of Hereford; Mrs. Tom Gallagher of Firebaugh, Calif.; Mrs. Maxwell and Mrs. Moody.

Other survivors are six brothers and three sisters: the Rev. Arthur Brewer and Charley Brewer of Abernathy; Luther Brewer of Hale Center; Levi Brewer of Watertown, Calif.; Bill Brewer of Silver City, N.M.; George Brewer of Austin; Mrs. Mittie Hembree of Plainview; Mrs. Dora Ashton of Artesia, N.M.; and Mrs. Nora Reynolds of Watertown, Calif. There are 32 grandchildren and numerous great grandchildren.

Mr. Young died in 1963.

The date of the Tiny Tot Revue, sponsored annually by the 1954 Study Club, will be Tuesday, April 1, in the high school auditorium. Curtain time is 7:30 p.m.

This event is held traditionally just before Easter, and the children entering wear their Easter clothes.

Mrs. Bob Goforth is general chairman of this year's event. Any pre-school child in the county is eligible to enter, it was explained. A child may be six and compete, but must never have attended school.

Registration of children may be made by contacting members of that committee, Mrs. Lynn Courtney and Mrs. Glen Taylor.

The rehearsal will be at 4 p.m. Monday, March 31. There will be three divisions: for children one and two years old; three and four years; and five and six years. A winning boy and girl will be named in each division, according to Mrs. A. J. Fires, who is helping with arrangements.

Heads of various committees

Bill Hatch will be master of ceremonies.

In charge of reserved seat sales is Mrs. Don Lacy; the decorating committee includes Mrs. Don Reeves, Mrs. Thayne Amonett, Mrs. Goforth and Mrs. Leon Hartman; Mrs. Wayne Cudd is in charge of securing judges, and Mrs. A. J. Fires is publicity chairman.

In charge of gifts and entertainment are Mrs. Bill Hatch and Mrs. Cal Hurst; the ticket committee includes Mrs. Amonett and Mrs. Earl Patterson; and Mrs. Virgil Patterson will arrange for motion pictures to be made of the event.

Mrs. James Richardson is program chairman. Committees to assist with the children back stage include Mrs. Fred Cox and Mrs. L. B. Bratten, one- and two-year-olds; Mrs. Sam McGill and Mrs. Fires, three- and four-year-olds; Mrs. Harold Caldwell and Mrs. R. L. Templeton, five- and six-year-olds.

Miss and Mr. Arnett Chosen by Students

Alice Kay Whitson and Bruce Rumbaugh were selected Miss Arnett and Mr. Arnett by the student body of that high school Monday, March 17.

This is the most coveted award of the year, and these two seniors will be crowned Friday, March 28, at the annual Easter program at Arnett.

The runners-up were Bobby Argo, a senior, and Cathy Carter, a sophomore.

Selections are based on citizenship, sportsmanship, and scholastics.

Alice Kaye has been a class favorite three years, and she was voted the best all-around girl by the faculty when she was a freshman. She sings in girls and mixed groups.

She also works part time at Hollis Convalescent Home and after graduating from high school, she will attend Lawton School of Nursing, a part of

Cameron College.

Bruce participated in athletics each year in high school and lettered in both baseball and basketball four years. He has been president of local 4-H Clubs four years, the Harmon County 4-H president three years, and was sponsor of local 4-H Clubs two years.

He was master of ceremonies for the last three 4-H Achievement banquets and recently he was chosen as Harmon County Outstanding Boy. As Hall of Fame Boy, a large colored portrait of this Arnett senior hangs in the First State Bank and Trust Company in Hollis.

Twice he has received trips to the Oklahoma State 4-H Roundup. Fellow students chose him class favorite five years. He was junior high valedictorian.

Bruce plans to attend college as a pre-medical student.

Guests were served from a table covered with a white linen cloth and the centerpiece was an arrangement of pink roses in a white footed bowl. Candles in crystal holders were at the side.

Alternating at the silver coffee service were Miss Vicki Bergvall, Mrs. Mickey Carter of Amarillo, and Miss Mitzie Hartman.

County Judge Emphasizes Need for Wills in Talk to Dodson HD Club

The importance of making a will was stressed by County Judge Zook Thomas when he spoke before the Dodson Home Demonstration Club, and their guests, the Fresno HD Club, Tuesday, March 11. Mrs. Herbert Redeker was hostess.

He emphasized that by making a will, a person can leave his property to any persons or charitable institutions of his choice, designate the portion that each will have, and name an experienced executor who will protect the estate during settlement.

Through a will, a person can place part or all of an estate in trust for the benefit of the family or others, and in the event of the death of both parents, give a choice of guard-

ian for minor children, Judge Thomas said.

During the business session members planned an arts and crafts program to be held in the Dodson School Gymnasium Monday, March 24, from 7 to 9 p.m.

Refreshments were served to Judge and Mrs. Thomas, and these guests from Fresno: Miss Inez Clement, Miss Mabel Clement, Mrs. E. C. Clement, Mrs. J. B. Killian, and Mrs. Carthel Lewis.

Dodson members attending were Mrs. Gilbert Hunt, Mrs. Truett Holland, Mrs. Mae Talley, Mrs. Thurman Crowover, Mrs. Lloyd Patterson, Mrs. A. V. Lowrie, Mrs. Nona Talley, Mrs. Wayne Reynolds, and the hostess, Mrs. Redeker.

B&PW Public Relations Program Stresses Role of the Individual

"The best public relations people that Collingsworth or any other county can have are the very people who live in it and believe in it," Miss Virginia Robey, news editor of The Wellington Leader, told members of the Wellington Business and Professional Women's Club when she was their guest speaker Tuesday evening, March 11.

Mrs. Zook Thomas was chairman for this public relations program.

"Most of the people who travel through Wellington will see only the part of town along Highway 83, and in that sense it is our most important part of town. Not one in a thousand will see our beautiful Ellison Park, but they will see any pile of junk or patch of weeds on a vacant lot by the Highway," the speaker continued.

"People with businesses on Highway 83 or who work in them are in a choice position to do a good public relations for Wellington and I think most of them do."

This requires courtesy, service, information that most travelers want and information about the county, its history and its attractions, she urged.

"Do not ever, ever say that your job is too small. Some of the people in the humblest jobs have done the biggest jobs of public relations just by keeping on telling the good things about their town."

Two of the things Wellington has going for it are its good looks and its friendly people. B&PW members were reminded. Schools and churches are excellent purveyors of good public relations. There are all the Wellington high school exes who have never let the world forget where they came from.

B&PW members were praised for the way they get around, "from the capital of the nation and the governor's mansion of Texas, to the offices of people who count," and especially for the fine public relations job they have done in representing the county — without trying.

The club members were asked for their own public relations suggestions, and the thing mentioned most by those who have moved into Wellington are its friendly and helpful people.

The need to clean up alleys and vacant lots was brought out, as was the need for more rent houses.

During the business session, Mrs. Pat McAlister, Mrs. Bud Higginbotham and Mrs. H. L. Jenkins reported on their trip to the B&PW Seminar in Wichita Falls.

Those present were Mrs. Higginbotham, Mrs. Bobby Langford, Mrs. Jimmie Kelso, Mrs. Lowell Wells, Mrs. Rob Isbell, Mrs. Louise Templeton, Mrs. Ernest Harwell, Mrs. Marie Watkins, Mrs. Dudley Phipps, Mrs. Thomas, Mrs. Truman

Henry Sullivan Discusses Cezanne for Members of Excelsior Club

Henry Sullivan, a Wellington car dealer whose hobby is painting, was the guest speaker at the Excelsior Club recently to discuss the life and works of the French painter, Cezanne.

This is a continuation of the club's year-long study of art and artists. Miss Dorothy Robertson was program leader and she and Miss Bonnie Willis were hostesses.

Confiding to members that Cezanne is his favorite artist, Mr. Sullivan reminded them that one painting alone, "Boy in a Red Vest," last sold for \$616,000 and today it would be a steal at a million.

"His own life was dull, yet his life's work is easily worth half a billion dollars, so he must have had an important place in the evolution of art," said the speaker.

Cezanne's principal contribution to art was his influence on the impressionistic movement, and anytime anyone chooses to make a change, he has a difficult place, club members were reminded.

To begin with this artist had practically no talent, and he spent his life practicing tediously. Mr. Sullivan encouraged his listeners.

There are no blacks in his paintings, only rich reds, blues and yellows—happy colors that give the break-through to modern art.

"But when he painted a building, it had body. You knew it was there," said Mr. Sullivan, adding that there is not an area of his canvases that doesn't live before the viewer's eye.

Prints of Paintings before and after Cezanne were brought out and compared, and Mr. Sullivan advised that if it is realism that is wanted go get a camera.

In closing he recommended the study of art to the Excelsior members, adding that "it beats TV."

A desert plate was served to Mr. and Mrs. Sullivan, Mr. and Mrs. John Sherman, Mrs. R. L. Templeton, Miss Virginia Ro-

bey, Mrs. Robert Barjenbruch, Mrs. Lowell Wells, Mrs. Henry Vaughan, Mrs. E. F. Bartlett, Mrs. J. F. Michael, Miss Willis, Miss Robertson, Miss Marie Shadid and Miss Rose Shadid.

Virginia Browder Speaks at Club

Mrs. Zook Thomas was hostess to the Lillie Home Demonstration Club on Thursday, March 13, when Abra Club members were guests for the day.

A salad luncheon was served at noon, and the afternoon program speaker was Virginia Browder of Memphis, author of "Saint's Rost Saga." She showed a film clip and discussed the production, which was given in Clarendon the last two summers, and telling the history of that town, one of the oldest in the Panhandle.

Abra visitors were Mrs. A. J. Laycock, Mrs. Gus Gooch, Mrs. C. J. Bradley, Mrs. W. R. Breeding, Mrs. D. A. Kincaid, and Mrs. Wood Coleman. Wellington guests were Mrs. Charles Darter, Mrs. Calvin Aaron, and the home demonstration agent, Mrs. Creed Hill.

Lillie Club members were Mrs. Bill Hill and her granddaughter, Suzanne Floyd, Mrs. Mac Horton, Mrs. Henry Langford, Minister and Mrs. Marvin Garrison, Mrs. L. M. Bartlett, Mrs. L. W. Wells, Mrs. Bill Langford, Mrs. A. M. Saunders and grandson, Mike Breedlove, Mrs. Ozro Bartlett, Mrs. Herman Childress, Mrs. Haskell Manuel, the guest speaker, Virginia Browder, and the hostess, Mrs. Thomas.

Shower Saturday Afternoon Honors Jan Bowen, Fiancee of Bill Tyler

Miss Jan Bowen, the fiancee of Bill Tyler, was honored at a pre-nuptial shower Saturday afternoon, March 15, in the home of Mrs. Carthel Lewis east of Wellington.

Receiving the guests with Mrs. Lewis were Miss Bowen; her mother, Mrs. James R. Bowen; her grandmother, Mrs.

Bob Bowen; and the mother of the prospective bridegroom, Mrs. Hurshel Tyler.

After guests had seen the gift displays, they were served from a table laid with a white linen cloth and appointed in crystal and silver. The centerpiece was a large inverted brandy sniffer enclosing a pair of lovebirds. Blue carnations were arranged at the top of the pedestal.

Members of the house party were Miss Kathy Tyler, Mrs. Millard Wade Brown, Miss Brenda Bobo of Hollis and Miss Cherry Lewis.

Friends called between three and five o'clock.

Sharing hostess duties with Mrs. Lewis were Mrs. Carl Daves, Mrs. George Henry, Mrs. Dick Richards, Miss Bessie Rainer, Miss Dorothy Robertson, Mrs. Herman Childress, Mrs. Barbara Williamson, Mrs. Ronald Kersten, Mrs. Donald Curry, Mrs. John Eron Forbis, Mrs. Ernest Nunnelle, Mrs. Gene Waters, Mrs. Don Jones, and Mrs. Lucille Baird.

Dodson Church Honors Pastor

Members of the Nazarene Church at Dodson honored their pastor, the Rev. Howard Smith, with a surprise birthday party Wednesday evening, March 12 after the prayer service.

It was held in the annex of the church.

As Rev. Smith also repairs watches and clocks, the birthday cake which was presented to him was in the shape of a watch. The membership also presented him with a gift certificate.

Motion pictures were made during the evening and refreshments were served.

Rev. Smith came to Dodson as pastor of the Nazarene Church in March 1966. Prior to that he was pastor of the Dalt-hart Nazarene Church 8 years.

The American Legion Is 50 Years Old

During the month of March, The American Legion here in Wellington and Dodson and throughout the Nation and even in many cities beyond our borders will climax its 50th Anniversary observance. It was March 15-17, 1919, that the Legion was founded in Paris, France, during a meeting of representatives of the various outfits which made up the World War I American Expeditionary Force.

A citizen-veteran organization conceived in duty to its fellow man, The American Legion has been a responsible contributor to American thought and deed during the years of our Nation's emergence as a world power. American Legion history of the past 50 years is filled with achievements in behalf of mankind through active, continuous campaigns to preserve the lofty concepts of Justice, Freedom, and Democracy.

However, there's an unusual aspect to the Golden Anniversary celebration of this organization of war veterans. Any 50th anniversary celebration is an appropriate time to reflect on past accomplishments. During its year-long Golden Anniversary observance, though, The American Legion is taking a somewhat "let-the-record-speak-for-itself" attitude. Instead, this gigantic fraternity of service is tuned to its Golden Year theme of "Forging The Future."

The first 50 years of American Legion existence have been years of ever-increasing waves of change for both the Nation and the world. Change is still the order of the day. Today's greatest challenge is whether man shall manage change or change manage man. It is to this challenge that The American Legion addresses itself during its Golden Year as it charts its course of service to a changing community, state and Nation.

With a 2.6-million membership drawn from the veteran ranks of four wars—World Wars I and II, Korea, and Vietnam—The American Legion is dedicated to "Forging The Future" of a strong vigorous, compassionate America of the next half-century.

Through its Golden Anniversary observance, The American Legion is declaring its confidence in the future, seeking wider avenues of involvement in meeting the challenge of change.

Other Editors Say . . .

We Can't See It

A lot of us are too simple minded to grasp the inner meaning of some things going on these days and a recent pronouncement by the National Council of Churches is a case in point.

While the National Council continues to say that it does not presume to "speak for" its members but rather "speaks to" them, most of us have the idea that they are attempting to speak for all of the millions who belong to the various congregations that have become a part of the National Council of Churches.

The recent pronouncement, actually not so recent but merely a restatement of one made several years ago is the conclusion that violence is an acceptable tool for use by victims of injustice.

The committee within the NCC made this conclusion after admitting that many Christians reject violence as being unchristian and uneffective. Many other Christians, however, believe that if non violence means fail, then violence is the answer.

"While preferring to use nonviolent methods," says the report, "should they not work, the Christian may be required by his faith to use violent means."

The committee says further "This it not to say that ends justify means, but to affirm that ends and means are one; that just as means can destroy ends, ends can redeem means."

To many of us this is an exercise in semantics, a play on words.

In what way does saying "ends can redeem means" differ from saying that ends justify means?"

Maybe there is a time when men need to rise up and get violent to achieve their ends. But let's not call it Christian because that's not the way Christ achieved His objectives. —The Perryton Herald

The Last Word

AUSTIN. — Texas lawmakers are nearing the halfway mark of the 61st legislative session and the pace is beginning to quicken visibly.

More than 1,200 House bills and some 700 Senate bills (plus nearly 100 proposed constitutional amendments) were filed by Friday, the deadline for free-introduction of bills. A four-fifths majority now is required.

Although floor sessions are brief, a lot of legislation is getting passed — 63 bills last week alone, including some of the session's major business.

And the lights burn bright at the state capitol after midnight for some committees which schedule hearings on as many as a dozen bills at a time. Other committee meetings begin as early as 9 a.m. and last

until floor action starts in the House and Senate.

So far, the Senate has reversed its usual form. It is cranking out general bills far faster than the House, where the representatives are pursuing a more-methodical, look-'em-over-carefully procedure.

Last week, for example, the Senate banged through 34 bills on its regular calendars, some so fast there was no time allowed for explanation, let alone debate. Across the rotunda, the House passed only 13 measures on major calendars, but representatives reduced the gap considerably by cranking through 16 local bills at a single hour-long sitting. Gov. Preston Smith signed six more into law.

One thing is sure . . . as the second lap of an historic legislative session begins, things

will get a lot faster and a lot more hectic before early June when adjournment is scheduled.

Major Bills Moving

Legislature has completed action on, and handed the governor, a tough new measure providing fines up to \$200 and jail terms up to six months for disruptive activity on college campuses. Bill won't take effect until the start of the new school year.

Senate passed key bills to put sharp teeth in air and water pollution control, to require breath tests of suspected drunk drivers, require public agencies to give three days notice of their official meetings and provide tougher controls over teenage drinking.

Other Senate bills would authorize payment of up to \$5,000 for moving homes and businesses displaced in highway right-of-way condemnation proceedings, remove the \$8,400 salary ceiling on which teachers contribute to retirement, establish a temporary Governor's Human Relations Committee, set up a new commission to regulate credit unions and re-

CROSSROADS REPORT

Headline in a paper the other day said the spirit of Thrift is being kindled in Congress, with some members of same threatening to call for an \$11 billion cut in the budget that Mr. Johnson bequeathed to Mr. Nixon.

However, there is no reason to panic on account of this threat. After all, Thrift Fever is hardly ever fatal. It responds to numerous kinds of treatment, and public officials generally have a very high built-in resistance to it.

This is proved by the fact that only two or three Congressmen had any trouble throwing off all Thrift virus attacks this past winter, until after they got their pay raise.

quest the U.S. Congress to ease restrictions on cable television.

Both houses have passed their own version of bills to permit schools to teach in a foreign language those students who have difficulty with English in elementary grades, to lower from two years to one year the minimum time between elections to adopt or abolish city sales taxes and to close some public roads on state-owned land held for use of the Texas Department of Corrections.

House approved creation of a new Texas Technological College of Medicine at Lubbock and voted to strike down immunity of government units from lawsuits for damages.

Representatives gave strong support to a bill to give the Legislature the right to set Washington's Birthday, Memorial Day, Columbus Day and Veterans Day holidays on Mondays to conform to federal holidays.

Another House bill sent to the Senate would permit the state's 14 courts of civil appeals to issue writs of habeas corpus in domestic-relations cases.

Senate has adopted an amended version of a House bill to permit a statewide cooperative network of local libraries. Gov. Smith now has the bill.

Bills Runneth Over

Several education bills have been filed in the last few days. Rep. Guy Floyd of San Antonio wants the Attorney General's office to assist school districts threatened with loss of Federal funds.

Rep. David Evans of San Antonio wants the state to contribute as much money to private school students as it does to

public school students through the minimum Foundation School Program.

Rep. Jim Nugent filed a bill to prohibit the Legislature from enacting an individual state income tax law.

Rep. Carlos Truan of Corpus Christi has a constitutional amendment to remove the ceiling on welfare payments.

Rep. Neal Solomon of Mount Vernon has a bill to allow the agriculture commissioner to prohibit the sale of any milk not meeting agriculture department standards.

Rep. David Allred of Wichita Falls introduced a one-bill package prohibiting racing a car motor, sudden stops or starts, unnecessary horn-blowing, contesting speed, fighting, indecent language, throwing things, littering, loitering or intoxication on shopping center parking lots.

Tax Time

House Speaker Gus Mutscher has been talking with legislators to see what sort of tax program they will support to pay for the new programs they may pass. Gov. Smith's tax program was introduced by Rep. Ben Atwell of Dallas. It also puts a \$10 "superfine" on all who violate the traffic laws where motion is involved.

Committees at Work

House State Affairs Committee got into the basic philosophies of rural life and business economics while considering a bill by Rep. Neal Solomon of Mt. Vernon. It would require telephone companies to maintain an office in every county seat they serve. Bill was sent to a subcommittee for further study. Rep. Jack Blanton of Carrollton chairs the subcommittee.

Senate State Affairs Committee acted favorably on Sen. Tom Creighton's bill to cut the time period between elections on the optional City Sales Tax from two years to one. It has gone to the Senate floor.

Also reported favorably by the Senate committee and tentatively approved by the Senate, was creation of a temporary Governor's Committee on Human Relations. It was sponsored by a triumvirate of liber-

al senators. Sponsors, however, lacked the endorsement of Sen. Joe Bernal of San Antonio — a leading liberal. He introduced a measure calling for a permanent state organization on human relations.

Texas physicians who specialize in organ transplants teamed up to testify for two bills by Rep. Jack Ogg of Houston before a House Public Health Committee. Drs. Denton A. Cooley, Michael DeBakey and Robert Bloodwell spoke for an organ gift act which would allow donors or their next of kin to give parts of the body and another bill that would give the county medical examiner a chance to examine the organs prior to transplantation. Measures were sent to a subcommittee.

Drug bills are plentiful at committee meetings. Senate Jurisprudence Committee delayed for two more weeks Sen. Chas. Herrington's bill to set a mandatory 5-year sentence for anyone over 21 giving narcotics to a minor.

House Public Education Committee sent to subcommittee Rep. Joe Golman's bill to include drug education in public school curriculum.

Senate Jurisprudence Committee approved a bill requiring appeals from Liquor Control Board orders to be heard in the county affected.

House State Affairs Committee sent to subcommittee a controversial bill that would require Texas school districts to adopt "continuing contracts" for their teachers. It would not allow dismissal except for specific circumstances.

Workers Should Check Social Security Benefits

If you are between 65 and 72 and have not yet applied for your social security benefits because you are still working, you need to consult the social security office right away.

Recent changes in the Social Security Act have made it possible for many people to work and still receive some social security benefits, according to Travis C. Briggs, district manager of the Amarillo Social Security office.

Under present law, a beneficiary can earn up to \$1680 a year and still receive all of his social security benefits. If he earns over \$1680 a year, he gives up only one dollar in benefits for each two dollars he earns between \$1680 and \$2880. For every dollar over \$2880, he gives up one dollar in social security benefits.

However, no matter how much he earns in the year, he can still be paid for every month in which he does not earn more than \$140 and is not self-employed, Briggs added.

For further information, write to the Social Security Administration, 1006 Adams, Amarillo, Texas 79101. They will be happy to answer any questions you may have and to help you file your application for social security benefits.

Highway Department Publishes Folder on Texas Wild Flowers

AUSTIN.—"Flowers of Texas"—a spectacle of bloom and blossom—introduces some 60 species of Texas' most beautiful flowers, shrubs and trees in all seasons.

The Texas Highway Department, which released the lavish new color folder recently, expects it to be one of the most popular items among the family of recreational and travel literature produced by the Department.

The new folder was designed for two purposes—to erase any notion held by out-of-state residents that Texas is an arid, barren wasteland—and to enhance the pleasure of both Texans and visitors by identifying some of the state's most common and colorful plants.

Far from being a wasteland, the folder points out that Texas leads the nation with an abundance of blossoming plants—more than 5,000 species of wild flowers alone. Closeup color photographs illustrate tropical plants of the Lower Rio Grande

Valley, wild orchids from the Big Thicket, bright plains flowers and vivid blooms of thorny cacti.

Flower fanciers and garden clubs have frequently asked that such a publication be added to the family of travel literature produced by the Texas Highway Department. In response to that demand the new folder lists 56 species by common and botanical names, including facts about blooming season and where they are usually found. Other species are illustrated in landscape views.

Free copies of the new "Flowers of Texas" folder may be obtained at all Highway Department offices and Tourist Bureaus. They are available upon request, and in limited quantities to garden clubs and similar organizations.

Requests by mail should be directed to the Texas Highway Department, Travel and Informational Division, P.O. Box 5064, Austin, Texas 78703.

HOW COIN DESIGNERS ARE PAID

The Director of the Mint is responsible for the selection of coin designs. These designs are subject to the approval of the Secretary of the Treasury.

When a new coin is to be designed, many employees of the Mint submit entries. Anyone who wishes may compete.

The designs are first submitted on paper. The competition is stiff but the money awards are high for the winner.

But the real reward is in having won. Imagine the thrill of constantly seeing your own coin creation in circulation. It would have your signature on

it. It would be a design that remains before the public for decades. Your coin would become a visual and immortal segment of history!

Joy Jesse Repeats In Spelling Bee Win

"Embassy", then "emerald" spelled correctly won for Joy Jesse the Collingsworth County Spelling Bee championship for the second consecutive year. The 14-year-old Wellington 8th grader also won the junior championship two years ago.

Just a few minutes earlier Lenora Oatman, 12, of Quail sixth grade, won the Junior

Spelling Bee by correctly spelling "carpenter" after her last remaining opponent had missed it. She then correctly spelled "carrot."

Results were announced by Don VanPelt, Bee director.

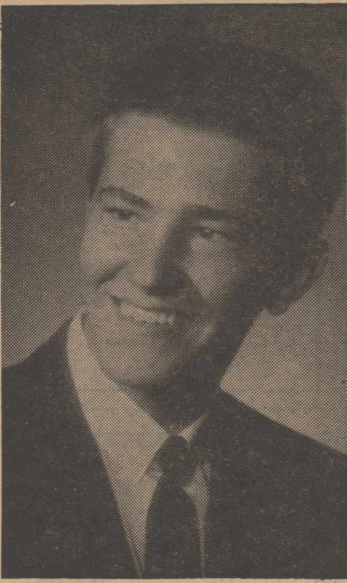

Second place in the senior Bee went to Doris Peters of Quail, and the third place winner was Robin Waters of Samnorwood. Robin, 12 years old and a sixth grader, would regularly have competed in the junior bee, but she elected to compete on the senior level instead and won the school championship. This is permissible under Bee rules.

Mr. and Mrs. Thomas Jesse are the parents of the Bee Champion, Joy, while Doris is the daughter of Mr. and Mrs. Richard Peters of Quail and Robin's parents are Mr. and Mrs. Billy Waters of Samnorwood.

Margie Parker of Wellington, daughter of Mr. and Mrs. Earl Parker, placed second in the Junior Bee; Kim Tabor of Dodson, son of Mr. and Mrs. Herschel Tabor, was third; and fourth place went to Teresa Ray of Samnorwood, daughter of Mr. and Mrs. Jim Ray.

Joy will compete in the Regional Spelling Bee in Amarillo on Saturday, April 19. Last year she was one of the top spellers, placing fourth in the entire Bee. Lenora, as junior winner, will attend the regional Bee but will not compete. Both girls will be guests at the Spelling Bee Luncheon.

This is the last year that Joy will be eligible to enter the County Spelling Bee. In Junior High, she is consistently on the honor roll and belongs to the Junior High Beta Club. She also plays the piano and sings, plays basketball and is a member of the band.

Group Reviews Application for RC&D Program

A group representing the 7-county North Rolling Plains Resource Conservation and Development Area met in Shamrock Monday afternoon, March 10, to review the proposed application for assistance in developing a RC&D Plan.

"It was reviewed completely, from start to finish, and some changes were made, and it was endorsed by all those present," said Gary Reed, work unit conservationist of the Soil Conservation Service.

More review copies will be made and sent to a number of local, state and federal agencies for comments and suggestions before the application is submitted to the state conservationist, Soil Conservation Service. A two-weeks time limit was set.

The application will show the problems common to the seven participating counties, Collingsworth, Hall, Briscoe, Wheeler, Gray, Hemphill and Donley.

Through the organization, the counties within the project have more ready access to Federal resources to help in their development. Attending the meeting Monday were Mayor Kenneth Dale of Memphis, Dan Henard and Mr. Reed of Wellington; Douglas Cunningham, SCS area supervisor, Pampa; James Cliett, McLean, Soil Conservation District; Larry McIntire, Canadian, district SCS conservationist; A. Everyone Over 65 Urged to Apply for Social Security

Everyone who is 65 or older should apply for social security benefits, and everyone between age 62 and 65 who has low earnings should visit the social security office to discuss whether or not they might want to file for reduced benefits, according to Travis C. Briggs, manager of the Amarillo social security office.

Some benefits may be payable even if you haven't retired since there is a sliding scale built into the social security retirement test. Although all

monthly benefits are usually payable to those whose yearly earnings are \$1680 or less, some benefits may be paid to those having higher earnings.

If you are 65 or older, the only way to be sure you won't lose money due you is to establish your eligibility by completing an application and submitting the necessary evidence of age and earnings. There is no reduction in the monthly benefit for anyone applying at age 65 or older.

People who apply for retire-

ment benefits before age 65 get a reduced amount; the reduction depending on how many months before age 65 they start receiving payments. A worker taking his benefits at 62 receives a 20% reduction. His wife taking her benefit at 62 has a 25% reduction. A widow drawing on her husband's record receives a full benefit at age 62. If she takes payment between age 60 and 62, she receives a reduced amount. The nearer a person is to the age full benefits are payable, the less the reduction.

For complete details and assistance, all interested should call at the social security office located at 1006 Adams in Amarillo, or see the representative who visits your town or area. The Amarillo office opens at 8:15 a.m. and closes at 4:0 p.m. weekdays, staying open until 6:30 p.m. Thursday evenings.

Deck's DIDACTICS

—By Deskins Wells

At its regular meeting Monday night the City Council took no action on the proposal of the Commissioners Court to go 50-50 in building a paved road from east to west on 1st street. Many people believe that this is a time of opportunity and a chance to get assistance from the Texas Highway Department on this mile of road—provided all right-of-way problems and easements on waterways have been settled before the Highway Department starts to widen Highway 83 which is expected to start within the next year and a half. It could start sooner than that if the city and county work out this particular problem.

Went to Dodson Tuesday night and enjoyed a luscious steak dinner at that neat attractive place, the Dodson Cafe, along with 44 other soil conservationists. It was at the expense of Grover Graham, who had brought in Winifred Parr from Duncan, Oklahoma who presented slides and answered questions on the importance of trace elements. Practically all of the farmers who were there have known about trace elements for years as well as the major elements of hydrogen, phosphorus and potash. But soil fertility is like religion, it is well to polish up your practices ever so often.

The main theme of the beautiful slides was that a deficiency of any one plant food will limit your yields long before the deficiency is so severe it can be observed in the fields. And second you can't produce more than the limit of your lowest trace element regardless of how rich your land may be. For instance you might have enough nitrogen, phosphorus and potash in your land to produce 40 bushels of wheat to the acre with the right rainfall, of course—but if the copper in your land, and only a trace is required, was at the 20-bushel level then 20 bushels is all you would produce. If you have only enough manganese in your soil to produce 1,000 pounds of grain sorghum then that is all you will produce although there may be enough other plant food to produce 4,000 pounds. One of the important things is to have your soil tested regularly.

The Texas Highway Department has issued a beautiful folder on Texas flowers which pictures 56 of the better known and more beautiful species. Actually there are over 5,000 different kinds of wild flowers in this state—the widest variety of any state in the union including Hawaii, Alaska and California.

The species of bluebonnet that blooms in Austin and northward is not the state flower. Several years ago Prof. Olin Hinkle of the University of Texas mentioned to me that the species (*Lupinus subcarinosus*) the official state flower does not thrive as far north as Austin. The bluebonnets that carpet the hills around Austin and northward with their fascinating shade of blue belong to the species *Lupinus texensis*, and this is the one pictured on the highway folder. This is as it should be for it covers a much vaster area of Texas than the official flower. It will live year after year as far north as Wellington provided you do not get your soil too rich or too acid.

You do not get too good a view of the lights of Wellington approaching from either the north or the south; but driving in from Quail and returning from Dodson there are more than one vantage point from which the scene is beautiful. There is magic in the lights of the night whether it be from the moon or the stars or from the lights made by man. And one of the most appealing sights are the three or four lights you see burning at the farm and ranch homes as a safety factor and to welcome friends.

National FHA Week Observed March 23 to 29

"Focus on Positive Action" is the theme of National Future Homemakers of America Week, March 23-29.

During the week more than 600,000 members in 12,000 FHA chapters throughout the U.S. and Puerto Rico will complete projects to give exposure to what youth is doing to promote the principles of good citizenship.

The Wellington FHA Chapter will observe the week beginning Monday, March 31, with events to be announced. Other chapters in the country also will observe the week.

National President, Estelle Hunter, a high school senior at Sunbury, Ohio, had this to say about National FHA Week:

"The overall objective of Future Homemakers of America is to help individuals improve personal, family and community living. With this objective in mind we have chosen 'Focus on Positive Action' as the theme for our National FHA Week. During this week FHA members across the country will stress constructive activities which show that we are dedicated to improving life in America as we move toward new horizons in the future."

The young adults, members of the Future Homemakers of America, believe that the homes of the future are in the hands of youth. The members contribute to the community by working as volunteers with such groups as Head Start, the mentally retarded and handicapped, March of Dimes, and UNICEF.

Since the Future Homemakers of America was founded in 1945, twelve million high school students have benefited from the total program of development for the future.

The annual state meeting of Future Homemakers of America, an organization of high school homemaking students, will be held in Memorial Auditorium, Dallas, May 2-3.

More than 5000 members and advisors representing 75,000 members in 1550 chapters throughout the state will attend.

The theme of the meeting is "FHA: Gateway to Dreams." Keynote speaker will be Miss Marilyn Van Derbur, former Miss America, who has chosen "Goals and Dreams" as the topic of her talk.

Three of Mrs. Jackson's daughters are with them, Mrs. Jack Denley of Houston, Mrs. J. B. Clothier of Sayre and Miss Edyth Jackson of Pampa.

Price Checks Combat Plane

Panhandle Congressman Bob Price, who flew jet fighter planes in Korea, checked out in another Air Force combat plane recently.

The new plane, the North American OV-10 Bronco, is now in use by both the Air Force and the Marine Corps in Vietnam. It is being used for close ground support, helicopter escort, paradrops, air-borne control for strike aircraft, and evacuation.

Powered by twin turbo-jet engines, the plane has a speed of 400 miles per hour and has established high performance and dependability records in Vietnam, according to Price.

After a familiarization flight from Andrews Air Force Base near Washington, D.C., Price praised the plane for its versatility. He said he was impressed with its short take-off and landing capability and its munitions load. "It has the maneuverability of a fighter and at the same time makes a good stable platform for quick machine gun or rocket attacks on patrols, small convoys and tanks," Price said.

Price has also flown the controversial F-111 and the F-4C Phantom, the work horse fighter plane for the Air Force, Navy and Marine Corps.

Woodrow Wilson Reported Better

The condition of Woodrow Wilson of Lillie, a patient in St. Joseph's Hospital, was reported by his son, Billy Wilson, Tuesday as "doing pretty good."

Mr. Wilson became ill and entered the hospital Thursday night, March 13. He suffered a heart attack Friday, his son said.

Two other children have been here with their parents, Mrs. Ruth Gibson, will accompany him to Wellington.

First Christian

Church to Show Film on Vietnam Sunday

"No Greater Love," newest action film on Vietnam by World Vision International will be shown at First Christian Church Sunday, March 23, at 7 p.m.

Filed under combat news-reel conditions in Vietnam, "No Greater Love" chronicles the heroism of people helping people in this war-torn land and continues the report on God at work in Vietnam which was begun in World Vision's earlier film, "Vietnam Profile," Marv-

in Garrison, minister, said. Graphically, moving, it unfolds the heartwarming, human story of people sharing, caring and loving deeply enough even to give their lives for someone else.

Typical of the extemporaneous, on-the-spot happenings the film depicts is a highlight in which the helicopter carrying World Vision team members drops down from the sky to warn American soldiers of a possible ambush ahead.

Unfolding the "people side" of the Vietnam conflict as it does, "No Greater Love" develops a compassionate understanding for the people who have endured 30 years of war. This timely and moving film documentary, punctuated by the sounds of battle, frank and penetrating in its depth, was produced for World Vision International by Larry Ward and Ron Plant with original musical scoring by Ralph Carmichael.

Gun Club Sets Shoot Sunday

A special division for amateur marksmen will be a feature of the merchandise shoot which the Wellington Gun Club will hold Sunday, March 23.

This is in addition to the regular shoot for expert or experienced gun handlers, according to Pat McAlister, who is helping with plans.

The event will be at the Gun Club grounds on the Jerry Nix farm, a mile and a half north of Wellington on US 83, starting at 1 p.m.

"We are trying to encourage people who have not participated in these shoots due to the high calibre of competition," said McAlister.

Gun Club members will be present to assist beginners with pointers on shooting, he added.

Various types of prizes will be given and the shoot will continue as long as anyone wants to take part.

McGuire Children Visit Family

Dr. McGuire is an assistant professor in the department of veterinary pathology at Washington State University. Although he is doing some teaching, approximately 80 percent of his work is in research in equine infections.

He began this study while in Texas A&M University, and was en route to College Station in regard to this study.

The opening has been set at 10 a.m., Mr. and Mrs. Clifford Christian, the owner-managers of the store said "Wellington's new store is the result of a combined effort between Sears and ourselves to offer better and more complete service to our catalog customers in the area. We hope the people of Wellington will consider us a part of the community and will avail themselves of our new facilities."
