THE SNYDER DAILY NEWS

VOL. I—No. 86 SNYDER, TEXAS, FRIDAY, AUGUST 18, 1950 5c COPY

He Took the Consequences

The bronc, named Jet Pilot, fell on his rider, Robert Sorrells of San Acacia, N. M., seconds after this picture was made. Sorrells was not hurt, however, and was given a re-ride for a large purse donated by the crowd at the two-day rodeo given by the Sierra County Sheriff's Posse in Truth or Consequences, N. M. Sorrells rode the horse to a standstill on his second ride.

Commissioners Select Plans For Winston Field Buildings

The commissioners' court late yesterday approved detailed specifications for several phases of permanent contruction at Winston Field.

Considered one of the most important plans approved was their selection of a 40 by 78-foot administration building to house two offices, rest rooms, a ticket office, and a cafe. It will be air-conditioned for summer and winter comfort, having a central heating system, a waiting room and lounge, a water fountain, and a public address system.

OF CONCRETE BLOCKS

The one-story building will be constructed of concrete tile finished with stucco. The floors are to be concrete covered with asphalt block tile. It will be located between the public street to the airport and the airplane loading ramp.

The administration building will be similar to the one at the county airport in Plainview, one of the places visited recently by the commissioners, the county, judge, Edgar Taylor, and the project engineers, Wilbur Ash and John Wilson, of the Ash-Wilson & Associates Engineering Co.

Both Ash and Wilson were present at the commissioners meeting yesterday, presenting various plans for the court to select.

Another choice made by the commissioners was to include the drilling of a well and installation of a complete water system in the administration building contract.

The court agreed, however, to have the sewage lines tied into hte city sewer system.

SEPARATE CONTRACTS

The Winston Field project will probably be done by two contracts, Ash said, one covering the construction of the building, a hangar, and water and sewer systems, and the other covering the paving and grading of runways, taxiways, parking areas, ramps, streets, sidewalks, and electrical work, including the beacon, runway lights, guide lights, and electric signals.

A turf east-west runway, 1,800 by 100 feet, will cross the main north-south runway at an exact perpendicular to the paved strip. The main runway will also be 100 feet wide but will have a length of 4,800 feet.

Bids for both contracts will be called for some time in September, Ash said, so they can be let by the time the county's 1950 tax valuation of an estimated $47,500,000 is completed Oct. 1.

Salt Creek Oil Well Tests In Canyon Lime

Spartan Drilling Co. and others No. 1-116 Young, outpost to the Salt Creek-Canyon field in West-Central Kent County, is drilling ahead after recovering 190 feet of oil-and-gas-cut mud on a drillstem test of the Canyon lime.

The test was taken at 6,904-35 feet. Tool was open one and one-half hours. Operators then cored from 6,935-6,945 feet. Recovery was hard, dense, tight lime with no shows.

The No. 1-116 Young is one mile west of the nearest producer in the Salt Creek field and is in section 166, block G, W&NW survey.

IN ELLENBURGER

Deep Rock Oil Corp. No. 1 Morgan Jones Estate, Southeast Crosby County wildcat, 12 miles south of Crosbyton, is at a total depth of 8,761 feet in Ellenburger lime and is circulating while waiting on orders.

After topping the Ellenburger at 8,730 feet on an elevation of 2,723 feet, the prospector drilled to 8,761 feet and ran a drillstem test.

Recovery was reported by unofficial sources to have been 2,430 feet of salt water. No shows of oil or gas were reported.

Location is 467 feet from south and west lines of section 114, block 8, H&GN survey.

No possibilities of production have been reported in any of the upper zones.

PLUG NOLAN WELL

C. L. Norsworthy, Jr., No. 1 Brooks, Central-Nolan County wildcat, four and one-half miles northeast of Maryneal, and 660 feet from north and west lines of section 73, block X, T&P survey, is to be plugged and abandoned on a total depth of 7,182 feet in Ellenburger lime.

This prospector had some slight shows of oil in the Pennsylvanian and also in the Ellenburger.

However, neither horizon logged

Citations Will Speed Paving To Clairemont

Thirty-eight unknown property owners along the route of the Clairemont Road were to be cited by publication today in one of the major steps taken by the city and county to obtain the needed right-or-way for the paved highway.

Before the state highway department will begin work on paving the road from Snyder to a point eight miles north of the city, 10 more feet of right-of-way must be deeded to the state on both sided of the road.

W. W. Park, city attorney who is handling the condemnation proceedings, said this morning he expected to file citations by publications against thirty-eight unknown owners today.

Under the law, hearings on condemnation of that property cannot be held until Oct. 2, which is the first Monday after the lapse of 42 days from the date of publication of the citation.

During the 42-day period, the view committee, consisting of Giles Bowers, W. R. McFarland, and W. J. Ely, will examine and appraise the property of the unknown proprietors, as well as about six other pieces of property, the owners of which are known but have not yet deeded the right-of-way.

Another action designed to speed the Clairemont Road project was the passage Monday of the first ordinances necessary to empower the city to assess against property along Avenue R and Avenue S for curb and gutter, and on Avenue R for 16 feet of paving.

A hearing on these emergency ordinances will be held at a later date, after which the final ordinances will be passed and the law will become effective.

Avenue R, Avenue S, and the Clairemont Road are one paving project in the eyes of the state highway department.

U. S. Cruiser Shells Korean Coastal Cities Directed By Aircraft

TOKYO, Aug. 18. (AP) — A U. S. heavy cruiser, raiding north Korean railway communications with Siberia, bombarded the rail town of Tanchon yesterday for the second time.

The Navy said today the cruiser's eight-inch guns caused heavy damage in the rail yards of Tanchon, 170 miles north of the 38th Parallel on Korea's east coast. Two hundred freight cars were destroyed.

The cruiser roamed farther up the coast shelling freight yards at Ilsin, and Kunsen, and three railway bridges.

Carries aircraft grom Task Force 77 protected the cruiser on its raiding expedition. Aerial observers directed the bombardments.

Truck Makes a Sharp Turn, Breaks Fireplug

Attempting to miss a car passing too close, a truck driver ran over a curb at Avenue S and Twenty-fifth Street Thursday as his right rear wheel took a fire hydrant with it.

Turning onto the Lubbock highway, the truck left the plug lying on its side by its pedestal causing an estimated damage of $125.

Major Industries Throughout Country Hit By Labor Unrest

(By The Associated Press)

The nation's labor unrest appeared growing today. Disputes in railroad, steel and other key industries threatened to curtail the country's defense program. Wages were the major issue in the disputes.

The labor picture, at a glance, showed industrial strife in:

Railroads — Planned five-day "token" strikes against two short lines and three key terminals were scheduled to start next Monday and Tuesday. Some 50,000 rail workers will be made idle, a union spokesman said. The rail workers want a 40-hour work week at 48 hours pay.

STEEL

Steel—The country's biggest single strike hit steel and coal production and made idle some 25,000 workers in Birmingham, Ala. The city's two largest steel mills were shut down. There was some violence in the walkout by 4,000 iron ore miners. The 17,000 steel workers refused to cross picket lines. Four thousand coal miners also were on strike.

The Crucible Steel Co.'s Sanderson-Halcomb plant in Syracuse, N. Y., was closed by a walkout of 2,000 of the plant's 2,500 workers. In P neiv oxlliP.ea..ro0Cw08Ok- h In Phoenixville, Pa., 800 CIO workers at the Phoenix Iron and Steel Co. remained on strike.

Automotive—The strike of 8,000 CIO United Auto Workers against Packard Motor Co. in Detroit was in its fourth day. Peace talks continued.

FARM EQUIPMENT

Farm equipment — 27,000 members of the United Farm Equipment Workers Division-UE threatened to strike in a wage dispute at 1 International Harvester Co. plants in eight cities.

Electrical — a strike vote was to be taken today by the some 8,000 workers at the big General Electric Co. plant in Syracuse, N. Y. GE has no contract with the International Union of Electrical Workers.

The rail strike threat was by the Brotherhood of Railroad Trainmen and the Order of Railway Conductors.

A trainmen's union official, commenting on the long wage-hour dispute with the carriers, told newsmen in Washington that "unrest is spreading over the country among the union's 200,000 members.

ACUTE PROBLEM

"It has reached a very acute stage and it is difficult to say what may happen," said President W. P. Kennedy of the trainmen's union.

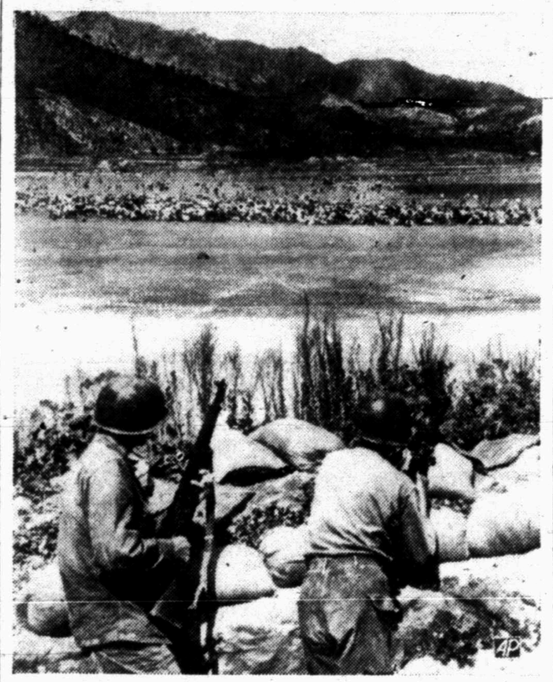

But President Truman told his news conference yesterday he remains hopeful a settlement can be reached that will head off a nationwide rail walkout.

A total strike by the 300,000 members of the two unions would paralyze the nation's major lines. But labor experts in Washington said the calling of only short "token" strikes at strategic points was obviously a tactic designed to avoid a national emergency. Such an emergency would undoubtedly bring a court injunction.

Union officials were expected to meet with John R. Steelman, presidential assistant, today. Management representatives met with him yesterday but made no comment.

Taegu Holds Firm; Reds Stopped On Every Front

KoreanRefugeesCrossNaktong

Soldiers of the U. S. First Cavalry Division man a sandbag post as Korean refugees stream across the Nakton River on the central front. More than 5,000 refugees, fleeing the invading North Korean Reds, were permitted to cross the river after American officers and South Korean police crossed the river to screen them. Naktong is shallow and only half a mile wide at this point.

Democrats Say Republicans Not To Dictate

WASHINGTON, —Aug. 18. (AP) — Committed now to early action on anti-Communist legislation, Senate Democratic leaders balked today at letting Republicans decide which bill on that subject will be called up.

"We'll make the decision," said Sen. Myers (D-Pa), the deputy majority chief. "The Republicans aren't going to dictate on this."

Two GOP lawmakers continued to insist, however, that they will call the tune. Sens. Mundt (R-SD) and Ferguson (R-Mich) said they almost certainly will go through with an attempt to tack their Communist-control bill onto a home front mobilization bill.

MONDAY VOTE

The Senate will vote on the mobilization bill Monday. It would set up authority for wage-price curbs and rationing, and provide for other controls over the nation's economy.

It was Myers who assured the Senate late yesterday that internal security legislation will be brought up for a vote "within a very brief time." He made the statement after Mundt had again accused the Democrats of bottling up the Mundt-Ferguson bill.

OTHER ACTIVITY

Ahead of Myers' announcement were these other developments:

1. Nine Democratic senators introduced an administration bill to carry out President Truman's security-tightening program.

2. The Senate Judiciary Committee, a couple of hours later, approved a new anti-Communist bill by a 9 to 3 vote and left the administration measure on the shelf.

The main portions of the committee-approved bill, sponsored by Chairman McCarran (D-Nev), are patterned after the Mundt-Ferguson bill. Both would require registration of Communists and Communist-front organizations.

SIMILAR

The rest of the McCarran bill is similar to much of the administration bill. Both call for tightening the espionage and deportation laws and specifically for registration of foreign-trained spies and saboteurs.

Administration forces, however, are opposed to the more sweeping registration requirements of the Mundt-Ferguson and McCarran bills. Foes have argued that those measures would drive the Communists underground and make it more difficult to deal with the problem.

Myers told reporters he is "pretty sure" administration forces have the votes to keep the Mundt-Ferguson bill from being written into the economic controls bill as a rider.

Four Are Injured In Truck-Car Collision At Avenue M and 24th

Four persons were injured, three not seriously, in a car-truck collision this morning at the intersection of Avenue M and Twenty-fourth Street.

Most seriously injured was William Trousdale Coffee, 32, of Mc Adams Cottages, on the Post highway, believing to be suffering from possible head injuries in addition to numerous lacerations and bruises and possible bone fracture of the shoulder and chest region.

Coffee was driver of the 1946 Packard sedan which collided with a large Halliburton Oil Well Cementing Co. truck driven by J. B Riffe, about 25, who was not injured.

The other injured were Coffee's wife, Laura, 27, their son, William T. Coffee, Jr., 5, and J. M. Steward, 23, of Jameson Trailer Court, all received minor bruises and lacerations.

Steward told C. C. Dawson, investigating city policeman, that the Coffee car was traveling east on Twenty-fourth Street about 30 miles an hour at the time of the accident. Dawson estimated the damage to the car at a total loss. About $200 damage was done to the truck, which was traveling south on Avenue M.

Steward, an employee of Cactus Drilling Co., of San Angelo, said he and the Coffees were going to a cafe for breakfast. Coffee is an employee of Myers Trucking Co., of Snyder. No charges were filed.

Humble Pipe Line To Move More Scurry County Petroleum

SAN ANGELO, Aug. 18. (AP) — W. G. Jenkins, superintendent, today said Humble Pipe Line Pumping Station, on standby since June, is now pumping "round the clock" and will start moving Scurry County oil this week-end.

He said a speed up in war demands for oil at the company's Houston refinery was the reason.

Defense Department Releases Names Of Texas War Casualties

WASHINGTON, Aug. 18. (AP)—One Texan was killed and seven others wounded in recent Korean action, the Department of Defense announced today. Dead is Sgt. Willie E. Lee, son of Mrs. Thelma Martin, Waco.

The wounded include Corp. John H. Boone Navasota; Pfc. Domingo T. Granado, Sr., San Antonio; Pvt. Joe E. Hernandez, San Antonio; Sgt. Paul A. Huskey, Bowie; Pvt. Roy L. James, Dallas; and Sgt. William L. Knox, San Benito.

Youth Center Board Votes To Hire a Permanent Director

Membership qualifications for young persons joining the Youth Center were outlined last night at a meeting of representatives of 10 civic groups interested in the center.

In addition, the group made provisions for a youth governing body and a professional director, to oversee the management and operation of the center.

ESTABLISH BOARD

Those attending the meeting later dissolved the old Youth Council, adult sponsoring body, and established in its stead a board of directors of the Youth Center, elected officers, and held their first official meeting.

Minimum age requirements for membership in the Youth Center were set at 12 years of age or seventh grade status in school, and it was decided that the maximum age limits shall be 19 years, or three months after graduation from high school.

Other requirements for membership will be made by the youth governing body. However, the board recommended the sale of annual membership cards for 50 cents and that irregular conduct on the part of members should be brought to the youth governors for action and then reviewed by the board of directors.

YOUTH GOVERNORS

The form of the youth governing body will be decided at a general assembly of Youth Center members, to be called within 90 days after the opening of the center.

A professional director shall administer the program of the center, the board decided last night. The executive committee, a group of five directors, is empowered to recommend possible professional directors to the board, which will hire the administrative official.

Recommendations for future action include the outlining of a program of activity for under-age groups, particularly those 8 to 12 years old, and the scheduling of training programs, such as leatherwork and handicrafts, in addition to entertainment at the center.

OFFICERS

The group elected the following officers: the Rev. Clifford Taylor, Jr., chairman of the board of directors; George Westbrook, vice-chairman; Mrs. Nolan von Roeder, secretary of the board of directors; and Mrs. Ophelia Blackard, treasurer of the board. These four, with Hilton Lambert, representing the veterans' joint park board, will make up the executive board.

The following committees were appointed:

Finance committee: Westbrook, chairman; Carl Herod, Mrs. Blackard, and Mrs. Charles Cooper.

Building committee: Charles Mathes, chairman, Mrs. J. B. Nowlin, vice chairman, J. C. Williamson and Mrs. James Rosser.

Publicity committee: Mrs. Betty Wendel Snyder and Harold Bennett, co-chairman.

Official representatives at the meeting were George Killam, American Legion; Williamson, Veterans of Foreign Wars; Lambert, joint park board; Frank Stephenson, Kiwanis; Renal Rosson, Junior Chamber of Commerce; Mathes, Lions; Westbrook, Rotary; Mrs. Blackard, Altrurian Daughters; Mrs. Snyder, Business and Professional Women's Club; and Mrs. Von Roeder, art guild.

Others attending included Bennett, manager of the Chamber of Commerce J. Ray Martin, and Nolan von Roeder.

Largest Oil Flow in Texas History Is Set

AUSTIN, Aug. 18. (AP) — The largest Texas oil flow in history is authorized by the Railroad Commission for September.

The commission's proration order issued yesterday will permit an increase of 202,836 barrels daily over current allowable to boost total permissive production to a record-smashing 2,823,720 barrels daily.

The commission estimated 8 per cent underproduction and new discovery wells would bring an actual crude oil flow of about 2,630,000 barrels a day next month. That would be about 100,000 barrels more than the previous all-time set in December, 1948.

An estimated production of 305,644 barrels daily of natural gas, gasoline and distillate next month would boost the state's total flow of all petroleum liquids to 3,129,364 barrels a day, the commission said. That is about 150,000 barrels above the previous record.

22 DAYS

The increase came by increasing the state generally from 21 producing days to 22 days and raising East Texas from 19 days to 21 days. The five reef lime fields of the Scurry County area were also returned to the same proration formula as the rest of the state. Last month they had been held back because of limited pipeline capacity. A new line was being completed in the area this month.

SOME TO STORAGE

"This record rate of production may possibly exceed pipe line capacity in West Texas and may have to run into storage, but an increase in storage is considered desirable if no serious local problems develop," a commission statement said.

Oil men at an earlier statewide proration hearing yesterday had told the commission they needed most of the September increase to meet demand. They predicted some of the Scurry production would have to go to storage.

September allowables, by districts, compared with Aug. 12

1. Southwest Texas, 33,158, up 934.
2. Southwest Texas, 159,984, up 11,132.
3. Gulf Coast, 484,092, up 26,157.
4. Southwest Texas, 246,792, up 14,260.
5. East Central Texas, 46,186, up 3,144.
6. East Texas (outside), 110,264, up 6,677.
6. East Texas field, 308,793, up 36,771
7-B. West Central Texas, 93,474, up 3,207.
7-C. West Central Texas, 67,819, up 3,395.
8. West Texas, 956,536, up 90,857.
9. North Texas, 202,439, up 6,285.
10. Panhandle, 114,183, up 17.

Indian Earthquake Kills At Least Eleven

CALCUTTA, India, Aug. 18. (AP)—At least 11 persons perished and hundreds of acres of crops were laid waste by Tuesday's earthquake in the province of Assam. Damage was estimated at $2 million.

Pohang Is In South Korean Hands Again

Joint Action Knocks Red Fourth Division Into Paniced Group

TOKYO, Saturdya, Aug. 19. (AP)—Allied troops, tanks, artillery and air bombs turned two Red Korean thrusts — 42,000 men — away from threatened Taegu city Friday.

South of Taegu a crack Red Korean division took what an American general called a "hell of a licking" at the hands of U. S. Marines and infantrymen.

The city itself was turned into a steel-rimmed fortress by an allied evacuation order sending more than a half million civilians trekking away as refugees.

The South Korean government also was sent away to establish its new refugee capital somewhere.

The war-swollen populace was removed mainly so it would not get underfoot in military operations — and to reduce the possibility of uprisings by infiltrated Communists among the refugees.

A thrust by 30,000 North Koreans was stopped 12 miles north of Taegu by South Koreans.

Then American and South Korean troops lunged at the big Red force by Friday night with a blazing counter-attack.

At Changnyong, where 12,000 North Koreans had bulged eastward on the allied bank of the Naktong River 23 miles southwest of Taegu, American Marines and doughboys whipped the Communists in a bitter battle. Many Reds retreated back across the river, abandoning their weapons in panic.

Maj. Gen. John H. Church, commanding the joint Marine-Infantry attack at Changnyong, was jubilant over what his troops had done to the Reds.

Two South Korean divisions stalled the 30,000 Communists north of mountain-walled Taegu Friday morning. One of them, the South Korean First Infantry, pounced on the Reds in a counter-attack immediately. Friday afternoon the U. S. 27th Regiment piled into the battle.

The other South Korean division on the same front lost contact with the Reds after helping to stop them. Allied headquarters said the Red force may have turned back north to escape through steep hills under fire.

MORE GAINS

Gen. MacArthur's Tokyo headquarters, in its first early-morning summary in four days, said the South Korean First Division had regained half to all the ground it lost north of Taegu Thursday. (This would be one and one-half to three miles).

The summary said the enemy in the Changnyong bridgehead southwest of Taegu was being pushed back steadily by both the First Marine brigade, and the U. S. 24th Infantry Division.

It explained the Marines, overcoming extremely stubborn resistance, turned the enemy's southern flank into the path of the 24th Division.

The 24th in turn was now heavily engaged with these Reds.

Gen. Church said the Marine-infantry attackers in his sector may have ended the North Korean Fourth Division's fighting days.

"I think everything has gone very well," said the general.

"He (the enemy) certainly has taken a hell of a licking. That's certain. I don't think that (Red Fourth) division will do much fighting for a while.

KNOCK THEM OUT

"What I would like to do is destroy that division entirely."

The flight of the escaping North Koreans was reported by Sgt. Benjamin Schofield of Des Moines. He watched their flight from a high ridge overlooking the river. Schofield said,

"There were hundreds of Gooks running helter skelter in retreat. They're trying to get across the rivery anyway they can.

"They aren't carrying weapons. They left them behind."

Marine Corsairs strafed and bombed the Reds as they tried to escape to the west bank of the riv-

Mrs. E. M. Deakins Seriously Injured In Tennessee Car Wreck

Injuries from an auto accident Monday afternoon put Mr. and Mrs E. M. Deakins, former Snyder residents, in a hospital in Murfreesboro, Tenn.

Mrs. Deakins is still unconscious from a brain concussion and has a broken rib and hip. Mr. Deakins received minor injuries, but has not been released from the hospital.

The accident occurred when the Deakins car hit a bridge near Murfreesboro, throwing them clear and totally wrecking their car.

They were on a vacation trip to visit relatives in Pineville, Tenn., and had left Quannah, their present home, Saturday.

Mr. and Mrs. Deakins are former owners of the Manhattan Hotel and now own the Crawford Hotel in Quanah, Tex. They were Snyder residents 25 years.

New Water Well Pump Delayed Through An Error in Shipment

Delay in increasing Snyder's water supply resulted from the shipment of the city's new water pump to Dallas instead of here.

Because of a mistake by the freight company shipping the pump it missed its goal and will not arrive until today, W. J. Ramsey, city water engineer, said today.

The pump will be set on a 230-foot setting at Avenue Z and Twenty-third Street on the city's twenty-third well, which was drilled July 9.

Four hundred gallons per minute will pump against a 378-foot head directly into the water main.

American Warplanes Fly Around The Clock

TOKYO, Aug. 18. (AP) — American warplanes flew around the clock in support of the ground war in Korea Thursday and Friday.

They used everything from one-ton bombs to machineguns. A total of 720 sorties were flown, ranging from Air Force strikes on Korea's southern coast to carrier plane raids less than 60 miles from the Soviet Union's Siberian border.

The Weather

EAST TEXAS: Partly cloudy, a few thundershowers in north and central portions this afternoon and from east central through west central portions tonight and Saturday. Not quite so warm central portions this afternoon. Moderate variable winds on the coast.

WEST TEXAS: Partly cloudy, scattered thundershowers Saturday and in south portion this afternoon and tonight. Not much change in temperatures.

TALK OF THE TOWN

BY FRANCES BIOW

While BOB GUTHRIE, JR., bumped along over rough oil-industry roads in a McClatchey Bros. truck this summer, he must have dreamed of clear, brisk skies in Tuscon, Ariz., where he is whittling away at a degree in business administration ,with an eye to personnel work later. A Sigma Chi, he unpinned the fraternity insignia, donned fatigues and really worked. His father who is engineering the construction of the huge Standard Oil Co. gas plant, sent him to the Arizona school with reason. There Mr. and Mrs. Guthrie met, his father working away at the time on that engineering degree. Bob heads back Sept. 6.

In the tradition of their usual hospitality, Von Roeder orchards is thrown open to all the young people of the Methodist church Sunday at 4 o'clock reported MISS KAY WEBER. It's a chicken fry, so tasty of a late afternoon, browned deliciously over the open air hearth in the picnic area. MR. and MRS. BERNARD BARTELS, who manage the orchards, will host, the LYMAN YODERS sponsoring the outing.

* * *

MISS RANCES TATE, R. N., at the hospital had stars in her eyes after an aerial trip to Artesia, N. M., last week end. . .the two lab technicians, JOE STARR and BOB SHANNON let her ride along while they buzzed over in a zippy little Cub. . .

Wedding in Parsonage For Thelma Hacker And A. G. Williamson

The parsonage of the Hermleigh Central Baptist Church was the scene of the nuptials of Mr. and Mrs. A. G. Williamson last Saturday night. The Rev. W. D. Green, Baptist pastor, performed the ceremony.

Mrs. Williamson is the former Miss Nelda Ann Hacker of Hermleigh, the daughter of Mrs. Thelma Hacker. Mr. Williamson is the son of Mr. and Mrs. L. G. Williamson of Olden, Tex.

Mrs. Williamson is a graduate of Hermleigh High School. Mr. Williamson graudated from Olden High School and attended John Tarleton Agricultural College for two years, where he studied electrical enfineering. He has been employed at National Supply Company almost a year.

The couple will live in Snyder.

Luncheon at Country Club For Bridge Group

Marigolds decorated the luncheon tables at Country Club when Mrs. J. D. Scott entertained Wednesday for her luncheon bridge club.

Mrs. Scott served her guests a chicken salad course with avocado, cantoloupe, hot rolls and an individual pineapple-cottage cheese salad.

Crepe myrtle was arranged in bouquets in the card room, where the four tables of bridge played.

Mrs. W. P. Thurmon won high score among Mrs. Scott's guests, and Mrs. C. R. Cockrell won high score among the club members. Mrs. Novis Rogers took the bingo prize and MRS. Bob Bickerstaff won the traveling prize.

Playing were Mrs. Scott, Mrs. Thurmon, Mrs. Cockrell, Mrs. Rogers, Mrs. Bickerstaff, Mrs. G. B. Clark, Jr., Mrs. Billy Boren, Mrs. Wayne Boren, Mrs. Herman Doak, Mrs. Roy Turney, Mrs. Forest Sears, Mrs. Floy Joyce, Mrs. D. K. Ratliff, Mrs. B. L. McKinley and Mrs. Hilton Lambert, a luncheon guest.

L. T. Voughn Marries Miss Judy Jennings

Announcement is made of the marriage Aug. 4 in Carlsbad, N. M., of Mr. and Mrs. Louie T. Vaughn, 2810 Avenue W.

Mrs. Vaughn is the former Miss Judy Jennings, daughter of Mr. and Mrs. L. C. Jennings, Sweetwater.

Mr. Vaughn is the son of Mr. and Mrs. L. A. Vaughn of Ira.

Mrs. Vaughn is a graduate of Sweetwater High School. Mr. Vaughn graduated from Snyder High School, and then attended McMurry College, Abilene, and Southwestern University, Georgetown, Tex. Mr. Vaughn is now employed with Dunnigan Tool Co.

The couple are at home at their Avenue W address.

Mr. and Mrs. Gerald Walton, 1205 Twenty-ninth Street, returned from a two weeks' vacation spent touring the western states. Mr. Walton is back at his place as bookkeeper of Higginbotham-Bartlett Lumber Co.

PERSONALS

Mrs. J. D. Scott, Joe Dave Scott, and David Headstream went to Dallas this week end. Scott will look for housing for the year's stay at Southern Methodist University, where he will be a sophomore. Dovis will study at North Texas Agricultural College at Arlington this year. The party will return to Snydere Monday.

Mr. and Mrs. Bert Jones, 806½ Twenty-fourth Street, had as their guest last week Mrs. Jones' sisters, Mrs. Keith Casto of McPherson, Ka., and Mrs. W. P. Williamson and daughter, Sara Jane Williamson, and son, Walter Carl Williamson, of Wichita, Kas.

Mr. and Mrs. Sid Worrell, 809 Twenty-seventh Street, went to Lubbock Wednesday to see their son-in-law, Floyd Boston, graduate from Texas Technological College with a B. A. degree. Mr. and Mrs. Boston will live here permanently. Mr. Boston assisting in the Scurry County Tractor Co., which Mr. Worrell owns.

Mr. and Mrs. C. W. Bradley left Thursday for San Francisco, Calif. to be with their daughter, Mrs. Frank Kelley, who is seriously ill. Mr. Bradley is taking a leave of absence from the news staff of the Snyder Daily News.

Mr. and Mrs. Ralph Mathison, 2006 Twenty-seventh Street, have returned from a vacation in Galveston, where they were joined by their daughter, Jonnie Mathison, from Lubbock and their son, Jack Mathison, from Dallas.

Mr. and Mrs. Carl Stokes, 1112 Thirtieth Street, are parents of a baby girl, born Thursday morning at Snyder Hospital. The baby weighed 8 pounds, 2 ounces.

Mr. and Mrs. Albert N. Tyler, 2907½ Avenue V, Wednesday night had a baby daughter, weighing 7 pounds, 8 ounces. The child was born at Snyder Hospital.

Mrs. John Brandon from Hobbs, Tex., gave birth to a daughter Wednesday night at Snyder Hospital. The baby weighed 8 pounds, 2 ounces.

Dr. and Mrs. Woodrow W. Mikeska left for a week-end vacation trip Wednesday. The dentist will be back again in his office, 609 Twenty-sixth Street, Monday.

Jim Hickox made a business trip to San Angelo over last week end. He went on business for his company, Brooks and Turner, oil well servicing firm on the Lamesa Highway.

Johnnie Dodson, 611 Thirty-second Street, business manager of Snyder Hospital, left Wednesday for Tulsa, where his wife and baby have been visiting for several weeks. The Dodsons will return to Snyder next week.

Mr. and Mrs. E. W. Babb, 3100 Avenue T, left Wednesday on a vacation trip to unknown parts. They will be away from Lee Home and Auto Store for a week.

H. Roper spent last week in Fort Worth visiting his brother, the Rev. Ernest Roper, Methodist minister. He is back at his duties at Roper Trailer Courts.

Mr. and Mrs. Dudley Curtis and family are away on a fishing trip on the upper peninsula of Michigan. They will visit the New Moon Trailer factory while away. Mr. Curtis is the manager of the New Moon Trailer Sales here.

Dr .and Mrs. C. R. Cockrell left yesterday for Van Horn, where they will meet their friends from Galveston, Dr. and Mrs. Hamilton Ford. The Fords will be guests of the Cockrells at their ranch home near Van Horn. The Cockrells had only returned last week end from a 10 days' visit at the ranch, accompanied by their 10-year-old son, Chuckie.

Mrs. F. C. Johnson, 1010 Twenty-eighth Street; went to Sweetwater shopping today.

Mrs. Ray Hill from Great Falls, Mont., is here visiting her parents, Mr. and Mrs. N. N. Higgins and her sister, Miss Buna Higgin, at 1710 Twenty-eighth Street.

Miss Texas of 1950

Miss Margaret Sue Summers of Dallas, was choosen to represent Texas in the Miss America contest to be held at Atlantic City, N. J. The five-foot, two-inch beauty was entered as Miss Austin in the state-wide contest held at New Braunfels. A senior this fall at the University of Texas, she is the daughter of Mr. and Mrs. John F. Sommers of Dallas.

Police Courtesy Makes Money, Gains Friends For Stamford

By WILLIAM C. BARNARD
(Associated Press Staff)

Park overtime at Stamford in West Texas, and a policeman comes along and puts a nickel in your meter.

Then he leaves an envelope on our windshield. It asks that you please send the police department a nickel.

And the fine? There isn't any fine.

CITIZENRY REBELLED

"What kind of a deal is this?" we asked Police Sgt. J. L. Johnson at Stamford. "What's the catch?"

"No catch," said Johnson. "We're after nickels—not dollars."

He went on to explain

"Last September, parking meters were installed in Stamford. We have 425 of them. We operated them in the usual manner—with parking tickets and fines for overparking. They were not popular with the people. Petitions were circulated for a special vote to have the meters taken out.

SOME SEND MORE

"So in February, G. G. Flourney who has been police chief here half a century, put this new plan into effect. It was very popular immediately. All we asked was parking meter rent. And when citizens voted on the meters, they voted to keep them.

"We have lots of nice comment on our system. Some people are so pleased that they send a quarter or a dollar instead of a nickel—telling us just to keep the change."

Policeman Jack Tidwell said "Folks out were—particularly the folks from out over the county—resented parking meter fines. Most had never paid a fine for anything and they figured a parking meter fine branded them as a sort of criminal with their names on record at a police station. They're real pleased with the new system. I hear a lot of good comment."

"So do I," said Policeman C. W. Clement. "Women don't have to stop their shopping to dun out to a parking meter. They know a policeman is on the job and will put the nickel in for them."

RETURN 45 O 49

How about the return of nickels? Let's look at two average days this month. Forty-nine envelopes were put on windshields Aug. 10. Forty-five nickels came back. On Aug. 11, 42 envelopes were put on windshields and 38 nickels were returned."

You could be fined for not sending in a nickel, but no fines have been assessed under the new plan.

"Tourists and traveling salesmen who sometime used to disregard the regular overparking ticket now are happy to send in nickels," said B. E. Griggs who has been a Stamford policeman 45 years and is in charge of the meters.

"Of course we lose a few nickels, but we gain lots of friends."

Alabama Woman Freed From Murder Charge In Feud Shooting

BAY MINETTE, Ala., Aug. 18. (AP) — The wife of a well-to-do farmer has been released from murder charges placed against her after the slaying of a high school football star.

Justice of the Peace T. C. Hand called off a preliminary hearing for Mrs. Dorothy Walters yesterday after authorities said they were unprepared to sumbit testimony against the 38-year-old woman.

Still held without bond on a murder charge is Clarence Walters, 45, her husband, accused of killing Rex Beech 18-year-old Foley High School halfback, in a neighborhood feud.

Sheriff Taylor Wilkins accused Mrs. Walters of passing the ammunition to her husband while he fired on members of the Beech family.

Methodist Pastor Will Return to Pulpit Here

The Rev. W. W. Adcock will return to the pulpit of the First Methoidst Church Sunday for both morn ng and evening services. Mr. Adcock and his family are now returning from a vacation in the Black Hills of South Dakota.

Salt Creek Oil

(Continued from Page 1)

sufficient indications to make an oil well.

CORING IN TERRY WELL

Union Oil Co. of Calif. No. 1 Laura Cotten, new reef discovery in Central Terry County, is reported coring ahead in lime.

On a core from 10,002-10,033 feet, recovery was 31 feet of lime with no discription reported. This well has previously indicated for a new discovery when it flowed oil on two drillstem tests.

The No. 1 Cotten topped the paying lime zone at 9,902 feet and has proven pay down to 10,002 feet.

Location is 660 feet from the east and 1,980 feet from the north lines of section 91, block T, D&W survey. It is four miles southeast of Brownfield.

NEAR JAL, N. M.

Stanolind Oil & Gas Co. No. 3 South Mattix unit, Southeast Lea County, New Mexico, prospector has found free oil in the Silurian to indicate a new discovery for that region.

The venture is six miles northeast of Jal. and it is a southeast outpost to the two-well Fowler-Ellenburger field.

No. 3 South Mattix unit had its Silurian oil in a drillstem test at 7,478-7,530 feet. The tester was open four hours. Gas showed at the surface in eight minutes. Maximum gas volume was at the rate of 50,000 cubic feet per day.

Recovery was 3,000 feet of clean oil and 1,500 feet of heavily oil-and-gas-cut drilling mud. No indications of formation water were reported.

Some of the oil-and-gas-cut drilling fluid which was recovered had a slight sulphur odor. Open flowing bottom hole pressure was 1,100 pounds. Shut in bottom hole pressure after 15 minutes was 1,700 pounds.

Operator is preparing to drill deeper. The exploration probably will continue to the Ellenburger.

Loation is at the center of the northwest quarter of the northeast quarter of section 22-24s-37e. It is reported to be high to the two nearby Ellenburger producers.

Neither of those wells found any possibilites of production in the Silurian.

SHOW OF OIL

A core on the Carter-Gragg Oil Co. No. 1 Rufus Foster, wildcat in South-Central Sterling, has yielded slight shows of oil in a Permian zone.

The core was taken at 3,325-43 feet. Recovery was 16 feet of phosoliferous lime, with one foot showing porosity with a small show of oil.

The prospector is now taking a drillstem test at 3,326-43 feet.

The No. 1 Foster is three and one-half miles west of the Marvin pool, and 660 feet from north and 1,980 feet from east lines of section 10, block 13, SPRR survey.

RUNNELS WILDCAT

A 6,000-foot wildcat has been staked in Northwest Runnels County between the Murray-Stevens and North Winters pools.

The project will be M. J. Mitchell of Albany and G. W. Strake No. 1 Jerry Low, located 467 feet from south and east lines of 177-acre lease in section 182, block G, Gregg survey, or 1,700 feet from north and 2,950 feet from west lines of the section.

Drillsite is five miles northwest of Winters, one mile east of the Murray-Stevens field, and approximately a half mile west of the North Winters production.

OIL FROM ELLENBURGER

C. L. Norsworthy No. 1 Nita Mae Brooks, wildcat in Central Nolan County, has recovered a small amount of free oil on an Ellenburger drillstem test.

On the test at 6,940-7,182 feet, recovery after two hours and two minutes, was six feet of clean oil and 360 feet of heavily oil and gas cut mud, with no water.

Gas appeared at the surface in 14 minutes, lowing pressure was 170 pounds, and shutin pressure was 1,925 pound.

The venture is now shutdown waiting on orders. No top of the Ellenburger has been reported.

This venture already has shown for a small amount of pay in the Strawn section of the Pennsylvanian. On a test of that section, recovery was 480 feet of clean oil from 6,192 to 6,234 feet.

The No. 1 Maddox is 660 feet from north and west lines of section 71, block X, T&P survey.

NOLAN WILDCAT

Sun Oil Co. has staked another Ellenburger wildcat in Central-South Nolan County, 21 miles southwest of Sweetwater.

The proposed wildcat will be Sun's No. 1 Eunice Parramore. Drillsite is two and one-quarter miles northwest of the same operator's No. 1 Maddox, which has indicated for a small discovery from the Ellenburger.

The No. 1 Parramore will be 660 feet from south and 560 feet from west lines of section 55, block 1-A, H&TC survey.

Projected depth is 7,500 feet. Operations are to begin in the immediate future.

The No. 1 Parramore will be on a block of 10,326 acres Sun owns jointly with Seaboard Oil Co. of Delaware in that area.

The Sun No. 1 Maddox was last reported to have flowed 18 barrels of oil in four hours, then died. Operators have run pump rods, preparatory to putting on the pump.

The No. 1 Maddox is bottomed at 7,132 feet, with five and one-half inch casing at 7,116 feet.

IN PEGASUS

Phillips Petroleum Co. has staked another location in the Upton County side of the Pegasus multi-pay field.

The proposed venture will be the No. 2-DD TXL, located five eighths of a mile soutuwest of the discovery well of the pool.

Exact location is 662 feet from west and 665 feet from east lines of northeast quarter of section 31, block 40, T-4-S, T&P survey. It is approximately 25 miles southwest of Midland.

Slated depth is 13,500 feet, which is calculated to test all formations down to and including the Ellenburger in that area.

Operations are to be in immediately.

George Morgan Geologist And Educator, Dies

SAN ANGELO, Aug. 18. (AP) — Dr. George Dillon Morgan, 56, chairman of the board of the Cooper Gas Co., died in his sleep about 2 o'clock this morning.

The funeral will be from Emmanual Episcopal Church in San Angelo at 2 o'clock Saturday afternoon. The family requests no flowers.

Dr. Morgan was born at Shawnee, Okla., July 31, 1894, moved with his parents to Lawton when that town was established in 1900 and was graduated from high school there in 1912.

WORKED AS GEOLOGIST

Dr. Morgan began geological work for the Empire Gas and Fuel Company in 1915 while still in the University, from which he received his B. A. degree in Jan., 1917. On Feb. 5, 1917, he and Miss Lenore Harrington of Oklahoma City were married. Dr. Morgan was sent to South Texas and northern Mexico by the Empire, remaining there, except for a short time spent in Wyoming, until he entered the Navy at San Diego in June, 1918. He speedily qualified as an ensign but had not been commissioned when the war ended and he secured his immediate discharge.

Dr. Morgan was sent to Colombia in January, 1919, as second in charge of a geological field party, returning shortly before the birth of his daughter, Marjory, on May 25, 1919. Dr. Morgan entered Columbia University in 1919 and during two years' study there did research work for the Empire. He received his M. A. degree in 1920 and his Ph. D. four years later.

He was a member of Phi Beta Kappa, honorary fraternity, and of Kappa Alpha, social fraternity, at the University of Oklahoma. From 1924-28 Dr. Morgan was in charge of the land and geological departments of the Dixie Oil Company, a Standard of Indiana subsidiary, in Texas, advancing to a vice-presidency.

Dr. Morgan in 1919 mapped for the Empire what is now the Oklahoma City field. His publications have been: A Siluro-Devonian oil horizon in Southern Oklahoma; Oklahoma Geological Survey circular 10, 1922; Arkose of the northern Arbuckle area; Oklahoma Geological Survey circular 11, 1922; Stratigraphic position of the Franks and Seminole conglomerates of Oklahoma; Oklahoma Geological circular 12, 1923, and Boggy unconformity and overlap in southern Oklahoma; Bureau of Geology circular 2, 1924.

TO ANGELO IN '30

Dr. Morgan came to San Angelo in 1930. He had resigned as vice president of the Dixie Oil Company and with Claud E. Aikman and James V. Schilling organized the Cardinal Oil Company. The Cardinal developed productions in Pecos, Upton and Howard Counties. On March 14, 1945, the company was sold to Helmerich & Payne, Inc., of Tulsa, for $4 million.

They organized the Cooper Gas Company to develop a gas field discovered in Schleicher County by the late John Cooper. Oil production was later discovered on this property and it became the Page Field. Dr. Morgan was president of this company a number of years but later became chairman of the board and Tom L. Williams, Jr., was elected president.

Dr. Morgan was appointed a regent of the University of Texas in 1936 by Governor James V. Allred. He served one 6-year term.

ON STATE BOARD

He was elected from the 21st Congressional District as a member of the newly created State Board of Education which was to administer the Gilmore-Aikin bill. He declined to stand for re-election on account of ill health. His term would have expired Jan. 1.

He is survived by his widow, a son Thomas H. Morgan, with the Gulf Oil Corporation in Louisiana, and a daughter, Mrs. William L. Thompson of Washington, D. C., and a sister, Mrs. J. E. Souter, Guthrie, Okla. Another son, James Dillon Morgan, was killed during the last war.

Troops Take Cover From Enemy Mortar Fire

Ducking for shelter, troops of a U. S. Army-marine motor pool scramble for protection from an enemy mortar blast in the Masan area in South Korea. Smoke rises from the explosion. Several men seek cover near wheels of vehicles in the foreground. Another man, lower right, heads for cover on his hands and knees.

Clear Signal On Hurricane

MIAMI, Aug. 18. (AP) — Florida was given the "all clear" signal on the Atlantic hurricane today.

The alert, sounded yesterday as the violent tropical disturbance containing 140-mile winds inched toward the coast, was lifted by Chief Forecaster Grady Norton of the Miami Weather Bureau.

"Barring some totally unexpected development, the storm will swing clear of Florida, said Norton. "I am hopeful I may have the same good word for Georgia, South Carolina and North Carolina later."

He said the high pressure which blocked the storm's northern turn for a week is collapsing.

Tidelands Bill Gets Approval

AP Special Washington Service

WASHINGTON, Aug. 18. — The Interior and Justice Departments gave their approval today to proposed legislation for temporary oil operations in lands beneath the marginal seas.

In reports to the Senate Interior Committee the two departments objected, however, to amendments sponsored by a committee of offshore oil operators and designed to give more permanency to existing leases.

NEED PRODUCTION

Secretary of Interior Chapman said continued production of oil and uninterrupted exploration work is of utmost importance because of the international situation.

Both departments urged validation of existing state leases in Texas, Louisiana and California be limited to those in effect prior to June 23, 1947. On that date the Supreme Court ruled California did not own the submerged lands off the California coast.

The O'Mahoney bill under study by the committee would validate leases in effect on Dec. 21, 1948.

The two departments said the so-called oil company amendments would go beyond the purpose of the legislatin in providing a method of operating the off-shore oil properties pending final settlement of whether the federal government or the states own them.

Taegu Holds

(Continued from Page 1)

er. Earlier in the day the Marine pilots had reported attacking Reds in about battalion strength trying to cross.

Advancing Marine infantrymen flushed many North Koreans from hiding places in the gullies and paddy fields.

A spokesman for the U. S. 24th Infantry Division said the Americans had moved up three miles in 36 hours of fighting and now commanded all the strategic ground in the Naktong bend six miles below Changnyong.

OCCUPY HILL

Marines on the southern crest and doughboys on the northern now occupy both ends of a sausage-shaped hill commanding the river-crossing bridgehead set up 13 day ago by 12,000 Reds.

The most threatening Red approach was in steep hills a dozen miles north of Taegu.

Forty-five ton Pershing tanks were used in the counterattack spearheaded by the U. S. 27th Regiment and the South Korean First Division.

The South Korean Sixth Division had lost contact Friday night with Reds. It had held before Taegu.

Pohang and Kigye on the Korean east coast were recaptured by South Koreans.

ON OTHER END

In the deep south, at the other end of the line, the U. S. 25th Infantry Division turned back a dawn attack by the North Korean Sixth Division driving eastward from rubbled Chinju.

At Gen. MacArthur's headquarters in Tokyo a general staff officer said:

"The Pohang situation is looking better every day." Pohang was seized in a surprise Red move last week that forced American planes to give up using the airstrip six miles southeast.

Apparently some North Korean troops in the Pohang area had been shifted to the west to participate in the southward drive on Taegu.

Hens that are not now laying are likely to be early molters and poor layers. These non-producers should be removed from the flock for there is no profit in feeding non-laying hens.

Brush patches, hiding sizeable groups of cattle, are hindering the battle against foot and mouth disease in the southwest.

Pact Nations Must Furnish More Troops

By C. YATES McDANIEL

(Associated Press Staff)

WASHINGTON, Aug. 18. Western Europe must work harder for its own military salvation before the United States agrees to send more troops to bolster spirits and security across the Atlantic.

That is the Department of Defense response to insistent French pressure for an American promise to supply a supreme commander and at least five additional divisions for western Europe defense.

INFORMAL REPLY

This reply has been given informally, top military officials here said. Because France so far has relied upon the press and unofficial conversations to press her request for specific U. S. military commitments.

"We will talk about naming an American commander in chief for western Europe when he has a force to command," one high American officer commented.

He recalled that military leaders of the Atlantic Pact nations are generally agreed about how many divisions, combat ships and planes would be needed to stop a Russian onslaught. Offers of ground forces for the common defense have been made, but this official said the total so far falls far short of overall requirements.

LITTLE DOUBT

American officials believe that western Europe has little cause to doubt United States sincerity and determination to oppose Communist aggression. They say the whole world can witness the build-up of U. S. military manpower and armaments at a cost of billions of dollars.

"We will fight in Europe if necessary just as we are fighting in Korea," one informed officer said, "but we have the right to expect that the Europeans will do their share of the fighting."

American officials in France are known to have been pressing Washington in recent days to give a solid promise to aid Europe with more troops and a supreme commander. These officials are relaying the pressure that is being exerted upon them primarily from French quarters.

Celebration Held For Argentine Liberator

MEXICO CITY, Aug. 18. (AP) The 100th anniversary of the death of Argentine Liberator Gen. San Martin was celebrated here yesterday. Mexican Government officials laid a cornerstone for a monument to Martin and planted a cutting of the historic San Lorenzo pine where he won his first battle against Spain.

American elevators in 1949 carried 20 billion passengers up and down a total of 500 million miles.

THE GREAT NEW Mid-Century U. S. ROYAL GRIP-MASTER

Here it is—the proven answer to all your farm traction problems! Now we've got the tire that's been traction-tested in soil just like yours—and found superior in every way. From cover crop to loose sand, you'll find the new U. S. Royal Grip-Master outpulls any tractor tire you've ever had. And even on hard surfaces you'll ride more comfortably than ever before!

COMPLETELY PROVED for every soil!

This great new Grip-Master is the result of tests conducted on every basic type soil with dozens of experimental tires. It's the result of months of electrically-controlled precision tests for grip, bite, penetration and holding power. It comes to you with the complete approval and confidence of expert U. S. Rubber tire technicians.

SEE 'EM TODAY!

Don't take our word for it! Come in today and see these All-Soil tires for yourself!

See the wide-open center design that sheds mud—does a complete self-cleaning job.

See those firm lugs, extra-braced throughout to give you longer wear, no "lay back."

See those sharp-angled lugs that knife through your soil and grip hard.

See that wider, flatter tread that puts more sure-gripping rubber on the ground for traction never possible before.

The Future of a Duckling

How carefully Nature prepares her little ones for life!

Three little ducklings; all three have webbed feet that will propel them through the water, fuzzy down that will turn into the best water-proofing Nature can fashion, strong flat bills that will snap food from the water quicker than you can say "Donald Duck."

Nature prepares her little ones for life—except in the case of *man*.

Consider that youngster who is fascinated by the ducklings. MAYBE he'll gain a clear understanding of right and wrong. MAYBE he'll find courage to meet life's many discouragements. MAYBE he'll discover the Faith that enables a man to build spiritual values into his life.

Those things a child needs most, Nature does not provide. Parents must provide them—by giving him the advantage of thorough religious training in the Church.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Boston Carries Out Winning Streak; Brooklyn Takes Giants

By JACK HAND
Associated Press Staff

Boston and Brooklyn, the preseason pennant picks, are down but not out today—6 1-2 games back with about six weeks to go.

Surging at Fenway Park, fourth place Boston has a five-game winning streak going in the American League. All were scored at the expense of the tattered Philadelphia A's, 10-6 victims last night. Washington comes into Fenway tonight, followed by all the western clubs.

Brooklyn, cooling off the New York Giants yesterday in both ends of a doubleheader, 8-6 and 5-1, regained second place in the National League from Boston. But those idle Phillies, showing no signs of slackening their pace, threaten to romp home. The Phils open a series in New York tonight while Brooklyn entertains Boston.

HOMERS PAY

Home runs by Gene Hermanski, Gil Hodges and Billy Cox helped Don Newcombe struggle to his 12th victory in the opener. Still the Dodgers needed a fine relief job by Preacher Roe. Roe came in with the bases loaded in the eighth and three runs home. He made play, then breezed through the ninth.

Erv Palica tamed the Giants with four hits in the second game. Carl Furillo ruined New York with his 14th homer, a single and fly ball to drive in three runs. Pee Wee Reese and Sam Calderone each hit inside-the-park homers. Calderone's smash spoiled Palica's shutout in the fifth.

Cincinnati shaded Chicago, 2-1, in the only other National League game. Kenny Raffensberger scattered six Cub hits and Connie Ryan drove in both Cincy scores with a homer and single off Bob Rush.

Rain washed out the Pittsburgh at St. Louis night game. Philadelphia and Boston were not scheduled.

Detroit clung to its three-game lead over runnerup Cleveland in the American chase. New York's loss to Washington dropped the Yanks 4 1-2 games back and only two games ahead of the Red Sox.

TIGERS WIN.

The Tigers stomped Chicago, 8-3, on nine hits and nine walks. Aaron Robinson and George Kell each hit his eighth homer, while Hal White held the White Sox to seven hits for his fourth win.

Cleveland had to go 12 innings to whip the stubborn St. Louis Browns, 5-4. Early Wynn's pinch single following Ray Boone's triple did the trick. St. Louis pulled a triple play in the second on Dale Mitchell's liner to Owen Friend with the bases full.

New York's Yankees, only first division club to tumble, bowed to the Senators, 2-1. After pitching no-hit ball for 6 1-3 innings, Allie Reynolds finally bowed to Sid Hudson. In addition, the Yanks lost the services of Outfielder Hank Bauer, hit on the head by a throw from catcher Al Evans, trying to pick him off third.

Reynolds' no-hitter was broken by Sherry Robertson's infield single in the seventh. In the eighth Gil Coan's two-run triple won the game after a two-base error by Phil Rizzuto on Hudson's grounder had opened the gates.

Ellis Kinder went the route for the Red Sox to win his 12th game. The loss was the 19th in succession for the Athletics at Fenway in two seasons.

Louis Drawing 3-1 Odds For Charles Bout

NEW YORK, Aug. 18. (AP)—Ezzard Charles, the NBA-recognized heavyweight king, will be the underdog Sept. 27 when he meets Joe Louis at Yankee Stadium.

First odds offered were 3 to 1 that the Brown Bomber would recapture the title he surrendered 18 months ago. Perhaps they'll shorten before fight time, but Louis, as always, will be favored.

Charles, 29, never has made a smashing hit with the public. He was too cautious the night he beat Jersey Joe Walcott to win recognition. He was dull and unimpressive Tuesday night at Buffalo when he stopped Freddie Beshore of Harrisburg, Pa., in the 14th.

Nobody knows if Louis still can fight. Walcott almost whipped him in their first meeting. Many still think Jersey Joe won. But the Bomber knocked him out the second time around. He hasn't had a real fight since that second Walcott bout June 25, 1948.

In line with their drawing power, Louis will get 35 per cent and Charles 20 per cent. Their managers agreed to that yesterday in phone conversations with International Boxing Club officials.

Simmons First Major Leaguer To Be Called

MEMPHIS, Tenn., Aug. 18. (AP)—The first major league player to enter service in World War II wishes a speedy return for Curt Simmons, the Philadelphia Phils fireballer now on military call.

"I hope for his sake that he doesn't have to stay away from the game too long," says fading Hugh Mulcahy. The ex-Phillies ace now is pitching for Memphis of the Southern Association.

Simmons is the first major leaguer to be called from the majors since the Korean outbreak. The 21-year-old southpaw is due to go along when his National Guard outfit pulls out for active duty Sept. 5.

Mulcahy is sympathetic—perhaps because Simmons' case is so similar to his own.

Mulcahy himself was looking good with the Phillies when he entered service in 1940.

The 37-year-old righthander rejoined the team in 1945. But gone were the effectiveness and speed which had put a $100,000 price tag on his broad shoulders.

Tulsa Steals Another Win From Beaumont

By WILBUR MARTIN
(Associated Press Staff)

Tulsa took some of the drama out of the Texas League pennant race last night.

The Oilers exploded for four runs in the ninth inning and blasted what hope Beaumont had of overtaking Fort Worth for the time being. The 5-3 licking dropped the Roughnecks a game and a half behind the Cats, 5-2 winner over San Antonio last night.

Big Wayne McLeland notched his 19th victory as Dallas beat Houston, 3-1, while Oklahoma City beat Shreveport, 5-4, on Buck Frierson's ninth inning home run.

Russ Burns' home run sparked the big outburst by Tulsa in the ninth. Pitcher Jim Avrea singled home two runs.

Fort Worth had a 2-1 lead by the third inning and stretched it the rest of the way.

McLeland set Houston down with four hits. Two home runs by Grant Dunlap helped him win.

Tonight the same teams wind up three game series, at Beaumont, Houston, San Antonio and Shreveport.

Tulsa	100 000 004—5	7	1
Beaumont	000 000 111—3	11	3

Avrea, Blackburn (9) and Williams; Delduca, Ferris (6), Melignano (8), Schaeffer (9) and Courtney.

Fort Worth	011 011 001—5	13	2
San Antonio	010 001 000—2	9	2

McGlothin, Beringer (6) and Bragan; Herrera, Gibson (7), Pavlick (9) and Mancuso

Dallas	000 102 000—3	7	1
Houston	010 000 000—1	4	0

McLeland and Aylward, Wagner (2); Boemann, Ciola (9) and Fusselman, Rapp (8).

Oklahoma City	030 000 002—5	12	1
Shreveport	210 100 000—4	6	0

Henson, Roy (4), Kotrany (9) and Naragon; Auman and Montalvo.

Pampa Hurler Wins Twenty-third Game

(By The Associated Press)

Roy Parker of Pampa won his 23rd game of the West Texas-New Mexico League season last night when he beat Lubbock, 5-2, on a six hit performance.

And Little Vince Speranza pitched Lamesa to a double victory over Abilene, 12-0, 4-1.

In the only other game played, Jerry Folkman stole home in the ninth inning to give Albuquerque a 9-8 decision over Clovis.

Amarillo and Borger were rained out.

Fort Worth Woman In Chicago Semi-Finals

CHICAGO, Aug. 18. (AP)—A couple of lassies who were unsuccessful finalists the past two years clashed in one semi-final and two surprising dark horses met in the other today in the 50th Women's Western Amateur Golf Tourney.

Peggy Kirk, Findlay, Ohio, 1949 runner-up, collided with the current medalist, Polly Riley of Fort Worth, Tex., who was the 1948 runner-up.

The other semi-final play at Exmoor Country Club matched Mae Murray of Rutland, Vt., and Mrs. Maurice Glick of Baltimore, Md.

Mrs. Lyle Bowman, Portland, was liquidated by Miss Riley, 2 and 1, in yesterday's storm-soaked quarterfinals.

Miss Murray yesterday eliminated Betty Mac Kinnon of Mt. Pleasant, Tex., 2 and 1, in the best bout of the quarter-final round.

Mrs. Glick turned back favored Grace De Moss, Corvallis, Ore., 1 up.

Miss Kirk's quarterfinal victim by a 4 and 3 count was Marjorie Lindsay, Decatur, Ill.

Field Narrowed To 8 In Iowa Tournament

AMES, Ia., Aug. 18. (AP) — Eight ambitious youngsters remained in the running today for the national junior golf championship in the tournaments sponsored by the U. S. Junior Chamber of Commerce.

But only two were certain to be happy in late afternoon. The two fortunate lads would be the survivors of the quarterfinal and semi-final rounds.

The top young fellow, as far as reputation was concerned, was Gay Brewer, an 18-year-old from Lexington, Ky.

But sharpshooting Gay had a and 1 victory over Tommy Morrugged quarterfinal foe in Doug Koepcke, Madison, Wis. Brewer moved into that match with a 2 row, the little kid from Shreveport, La. Koepcke advanced with a 4 and 2 win over Ed Piatnik, Exter, Penn.

Two Women Lead At Texas Tarpon Rodeo

PORT ARANSAS, Aug. 18. (AP)—Two women took top honors in the sailfish and tarpon divisions at the 15th Texas Tarpon Rodeo and Deep Sea Roundup here yesterday.

Mrs. James C. Sharp of Corpus Christi came in with a seven foot, nine inch sailfish. Mrs. Joe Pachek of Kerrville had a five foot, eight and a half inch tarpon.

Odessa Edged By San Angelo In 13th Inning

(By The Associated Press)

Ken Kowalik's triple in the 13th inning broke up a dilly of a Longhorn League baseball game last night. It enabled San Angelo to edge pace setting Odessa, 2-1.

Derwood Cox and Ray Knoblauch each pitched four hit ball, with two Odessa errors hurting Knoblauch's effort.

San Angelo tied the score in the ninth on one by Bill Hoverter.

Al Monchak's home run accounted for Odessa's only run, in the seventh inning.

Two runs in the seventh inning—one off Danny Cocepcion's triple—enabled Big Spring to edge Vernon, 6-4, in the only other game played.

Midland and Roswell's tilt was halted because of high winds in the third. Sweetwater at Ballinger was postponed because of rain.

It was announced in Big Spring that the Broncs' third baseman, Carlos (Potato) Pascual was being called up tomorrow by Washington of the American League.

San Angelo	000 000 001 000 1—2	4	0
Odessa	000 000 000 1 00—1	4	2

Cox and Lopez, Funderburk; Knoblauch and Hernandez.

Russell and Herring; Jiminez, Amor, Gonzales and Calvino.

Haefner Jumps Into Lead At Eastern Open

BALTIMORE, Aug. 18. (AP) — The other 124 golfers in the $16,500 Eastern Open Tournament today scrambled madly after ponderous Clayton Haefner of Charlotte, N. C., 225 pounds of slow-motion pro.

Haefner whizzed out in front in yesterday's opening round with a phenomenal 65.

He also:

1. Broke the course record set in 1938 by Cliff Spencer of Elizabeth City, N. C., by two strokes; and

2. Put his considerable bulk in the lead by four strokes over his nearest foes, Fred Haas, Jr., of Claremont, Calif., Earl Stewart, Jr., of Dallas, Tex., Buck White of Ormond Beach, Ia., John Palmer of Badin, N. C., and Walter Romans of Baltimore.

Henry Ransom of St. Andrew, Ill., the Tam O'Shanter winner at Chicago last week, carded 73 to place well below the leaders of the 18-hole opening round. (Haefner tied for third at the Tam.)

Army Baseball Goes Into Finals Tonight

SAN ANTONIO, Aug. 18. (AP) — Finalists in the Fourth Army Baseball Tournament at Fort Sam Houston here will be decided today.

Fort Hood, Tex., and William Beaumont Hospital, El Paso, Tex., meet at 2 p.m. to decide the loser's bracket. Fort Sill, Okla., and Brooke Army Medical Center, San Antonio, play at 8 p.m. for the title in the winner's bracket.

The championship game is scheduled Sunday.

Miss Higgins Wed To Lloyd Wesley Jones

Mr. and Mrs. H. N. Higgins, 1710 Twenty-eighth Street announce the marriage Aug. 11 of their daughter, Miss Colon Marie Higgins, to Lloyd Wesley Jones. Mr. and Mrs. Jones were married in the First Baptist Church parsonage, Fort Worth, with the Rev. Jesse Garrett, pastor, performing the ceremony.

Mrs. Jones wore a powder blue street length dress with brown accessories. Her only jewels were the pearls given her by the bridegroom. Her only attendant was her sister, Miss Buna Higgins, 1710 Twenty-eighth Street.

Mrs. Jones graduated from Snyder High School in 1943 and has been employed for some time with the Southwestern Bell Telephone Company here. Mr. Jones is also with the telephone company, now employed in their Lubbock offices. He is a native of Fort Worth, the son of Mrs. Minnie Jones of that city.

The couple will live in Lubbock.

Harry Lewis Named New Manager of Dunnigan Tool & Supply Co. Here

Heading the Snyder branch of Dunigan Tool and Supply Co. is Harry Lewis, newly-employed manager.

Lewis, who recently moved to an apartment just a half block west of the company, has been a resident of Snyder for about a year, spending much of his time with Homco Oil Field Supply.

The 33-year-old native of Oklahoma moved here from Houston last year. He attended school in his home town of Atoka, Okla.

Lewis and his wife, Helen, both like Snyder and would like living here permanently, the manager said this week.

Lewis served in the Seebees a short time during World War II. He is a member of the American Legion here.

The new manager succeeds Jimmie Steen, who has returned to Lafayette, La., where he has part interest in a sporting goods store.

Oil Field Accident North of City Fatal To James Charlie Bell

James Charlie Bell, 34-year-old oil field worker, died last night as the result of injuries suffered in an accident late yesterdap afternoon on the Sentell lease nine miles north of the city on the Clairemont Road.

Bell suffered a skull fracture and a compound fracture of the arm in an accident while working for the Carl B. King Drilling Co. He was taken to the Snyder Hospital, where he died about five hours later.

A long-time employee of the drilling company, Bell had lived in Snyder two months. The home is on the Colorado City highway.

He leaves his wife, Mrs. Myrl Bell; four sons, Billy Don Bell, Ronnie Bell, Allen Bell, and Nick Bell, all of the home; his parents, Mr. and Mrs. John T. Bell of Seminole, Tex.; and three sisters, Mrs. Omie Seay, Hobbs, N. M., and Miss Opal Bell and Miss Edwina Bell, both of Seminole.

Funeral arrangements were still pending at noon today. Bolger-Barnes funeral home is in charge of arrangements.

The 1950 open Golf championship is the 50th such event since 1895—there were no tournaments during war years.

GOODYEAR TIRES
Announcing the
500 MILLIONTH
GOODYEAR
Pneumatic Motor Vehicle
TIRE
A half billion . . . a production record unequalled in the tire industry. Here is experience that has made Goodyear the world's leading builder of tires for 35 consecutive years.
A famous Goodyear "first" . . . the Super-Cushion tire . . . introduced in 1947, holds the distinction of being the 500 millionth pneumatic motor vehicle tire.
SUPER-CUSHION
by GOODYEAR
The first successful low-pressure tire! The tire that was built to give you new softer, smoother, safer riding comfort . . . the tire that revolutionized the tire industry.
Super-Cushion tires are harder to cut, harder to bruise, offer you more resistance to blowouts. They give you longer mileage plus added riding comfort. Car makers use more Goodyear Super-Cushions than any other kind . . . and the public buys more Super-Cushions than any other low-pressure tire.
MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

UN Sets Up Program Of Caring For Korean War-Torn Refugees

TOKYO, Aug. 18. (AP) — The United Nations is setting up a relief organization to care for an estimated 1,500,000 South Korean war refugees.

Col. Alfred G. Katzin, personal representative in Korea of the UN secretary-general, today cabled details from Pusan. Arrangements were concluded last week end under Gen. MacArthur's direction.

Katzin said supplies will come from UN members Army resources, UN specialized agencies and voluntary organizations. He said sufficient foodstocks are available in Korea for two months, but—

"Sickness and disease if rife among many thousands . . . a very large proportion indeed are without shelter and lack covering or blankets of any description. They are reduced to the clothing in which they stand."

Meeting Tonight To Plan Fete On Opening Of Big Spring Highway

A meeting of the board of directors of the Chamber of Commerce and other interested parties at 7:30 o'clock tonight in the Chamber of Commerce offices. The purpose of the meeting will be to make plans for a joint Snyder-Big Spring celebration to mark the completion of the new highway linking the two cities.

J. H. Green, manager of the Big Spring chamber, originally was scheduled to meet here with the group tonight, but yesterday he notified Harold Bennett, manager of the Snyder chamber, that he would be unable to attend.

Chemical Warehouse Explodes and Burns

Fire fighters dash for cover as huge quantities of chemicals explode as a warehouse of th e Western Associates, Inc., a chemical firm, was destroyed by fire in San Carlos Calif. A s pokesman for the firm, said his company had been working on a $150,000 government con tract but "was not working on specifically military" assignments.

Crime Groups Increase Hold On Business

By GORDON BROWN
(Associated Press Staff)

WASHINGTON, Aug. 18. — The Senate Crime Committee told Congress today that organized criminals not only have a strong grip on gambling and related illegal activities but also are fast moving into legitimate business fields.

The committee, organized last spring to investigate organized crime, reported on its work thur far —work devoted chiefly to an inquiry into gambling in Florida.

Organized criminals, the committee reported, "are able to compete unfairly with legitimate businessmen because of their accumulations of cash and their vicious methods" which include violence, bribery, corruption and intimidation.

LOOK FOR CASH

The gangsters have been attracted particularly to enterprises where large amounts of cash are handled or which have black-market potentialities, the committee said. These enterprises include hotels, restaurants, night clubs, meat and provision companies, liquor stores, beer and whisky distributorships, automobile dealerships and even small steel companies.

"Recently transportation companies and public utilities, which have large purchasing programs, have been added to the list," the report said. "They control some banks and are in a position to provide large sums of cash capital for many purposes.

Sen. Kefauver (D-Tenn) heads the investigating committee. Other members are Sens. O'Conor (D-Md), Hunt (D-Wyo), Tobey (R-NH) and Wiley (R-Wis).

STRONG, WEALTHY

In its 10,000-word report, the commitee concluded there is convincing evidence that organized groups of criminals have engaged in illegal activities in many parts of the country, are strong and wealthy and have monopolized certain channels of interstate communication.

But its investigation, it said, "has not yet proceeded far enough to warrant a conclusion as to whether or not the various criminal organizations are knit into one or more nation-wide syndicates."

However, it said the methods of operation are "strikingly similar and either by coincidence or design follow a common pattern" and it is clear that there is sufficient co-operation and interrelationship for them "at least occasionally to combine their activities."

The committee recommended that the pubiic be made aware "of the basic menace involved in gambling on a widely organized basis because it brings corruption into government . . ."

RECOMMENDATIONS

Committee recommendations also included these:

Immigration laws should be tightened; stiffer prison sentences should be imposed in narcotics and other criminal cases; income tax laws which now permit racketeers to report huge cash income or disbursement without supporting detail should be tightened; anti-trust laws should be used against monopoly in the dissemination of gambling information across state lines; there is need of a law to prohibit transportation of slot machines; there should also be a law to prohibit interstate transmission of gambling information.

Burglar Proves To Be First Shop Customer

LANCASTER, Pa., Aug. 18. (AP) — A burglar was the first "customer" of the King Sandwich Shop at Lancaster.

When Ruth Blum, an employe, opened the shop for the first time yesterday she found the place had been looted of sliced ham, cigars cigarets and other items.

New Bill Increasing Social Security Is Ready For Truman

By OLIVER W. DeWOLF
(Associated Press Staff)

WASHINGTON, Aug. 18. Backed heavily in Congress, a bill increasing social security coverage and boosting benefits as much as 100 per cent is finally ready for presidential action.

The Senate checked the measure to the White House late yesterday by a voice vote of approval during which no dissents were heard.

The House previously had adopted 374 to 1 the compromise measure, worked out in a Senate-House conference.

While the bill falls well short of what President Truman had recommended, and contains features he regards as objectionable, it was expected he would sign it.

VETO TROUBLE

One administration lieutenant, who asked not to be named, said a veto would add greatly to Congress' troubles at a time when lawmakers are attempting to wind up their work by early next month He said he didn't expect a veto.

Chairman George (D-Ga) of the Senate Finance Committee called the bill perhaps the most important to come before Congress during the two years of the 81st session.

The measure also got strong backing from Sen. Millikin (R-Colo), the ranking Republican member of the finance committee.

The bill would extend coverage to 10 million persons, bringing to about 45 million the total under the social security prrogram. Mr. Truman had recommended extension to 20 million.

MORE THAN DOUBLE

Social security payroll taxes would be more than doubled over the next 20 years, or from $2,500,000,000 annually to about $7,800,000,000 in 1970.

The expanded benefits are scheduled to start within the next 45 days when the 3 million persons now receiving benefits because of retirement or as survivors of insured persons will get an average of $46 a month, instead of the present $26.

For a family, the maximum benefit will be hiked from $85 to $150 a month.

The bill would bring into the program 5 million self-employed persons such as certain salesmen, grocers and bakers; 1 million domestic servants and 650,000 farm workers.

OPTIONAL COVERAGE

It offers optional coverage to about 1,400,000 state and city government employes 60,000 employes of non-profit organizations, and 50,000 workers for publicly owned transit systems.

Housewives and farmers must pay payroll taxes for the domestic workers and farm workers brought into the program.

The tax rate is scheduled to climb beginning in 1954. The present 1½ per cent payroll tax on employe's pay and employers' payroll will go to 2 per cent on each at that time.

It will jump to 2½ per cent in 1960; to 3 per cent in 1965, and to 3¼ per cent on each in 1970.

The tax in the future will be on the first $3,600 of a worker's pay, instead of the first $3,000 as now. The maximum annual tax under the present rates would jump from $45 to $54.

2,565 Students Already Have Enrolled Here

Pre-registration enrollment in Snyder's public schools Tuesday reached 2,565, showing an increase of about 56 per cent over the enrollment at the beginning of the last school year.

About 90 per cent of the students who will begin training here Sept. 11 enrolled in the pre-registration, M. E. Stanfield, superintendent of the schools, estimated. This estimate is based on school census figures which show that there are more than 2,800 children of school age residing in Snyder.

GAINED LAST YEAR

At the beginning of the school term last year, about 1,650 were enrolled, the figure rising to 1,692 by the end of the first month, then increasing by almost 100—or three classrooms—each month thereafter for the rest of the year.

Enrollment reached its all-time highest a month before the close of the last term with 2,592 students, dropping to 2,525 at the end of the term. This drop was due to many families moving away just before school was recessed for the summer, Stanfield said.

Likewise many will move into Snyder between now and Sept. 11, he predicted, probably raising the enrollment to between 2,900 and 3,000.

NO PREDICTIONS

"It would be impossible to predict with reasonable accuracy the rate of increase we will see during this school year," he said, "because the growth of Snyder will probably not remain at the same rate as it did last year."

The same number of techers will be required at the beginning of this school term as were employed at the end of school, Stanfield said. The school system is eligible now for 78 classroom teachers, five vocational course teachers, three special teachers, three music teachers, and five administrators, two of which are included in the number of classroom teachers.

Of the total registering Tuesday, 1,668 enrolled in the elementary schools, 417 in Junior High School, and 480 in High School.

Reporters Stay Aloof

TORRANCE, Calif., Aug. 18. (AP) — Mrs. Frederick Knose has a nose for news — but reporters chose to cover this one by remote control.

Mrs. Knose detected an unmistakable odor yesterday in her garage. She opened the door and saw a skunk — too late. She called police, and Officer J. W. Maestri came out and shot the beast — also too late.

Bullets Hit Streets Of New Jersey City

ATLANTIC CITY, N. J., Aug. 18. (AP) — Bullets—apparently from a high-flying plane on a target practice — peppered a five block area and injured a man here yseterday.

Fireman John Villani, Jr., was hit in the neck by a flying fragment and treated by the first aid squad of his fire company. Five houses over a wide area were hit by steel-jacketed .50-calibre machinegun bullets.

Man Was Bound But By No Means Tongue Tied

NEW YORK, Aug. 18. (AP) — A bandit tied up Carl Krantz's hands last night but he should have tied his tongue too.

The bandit escaped with $200 from the cash register after tying Krantz with twine to a hot water pipe in the rear of his hosiery store in downtown Brooklyn.

Krantz, 32, butted the receiver of a nearby wall telephone with his head. Then he used his tongue to dial "O" for operator. He told her his plight.

She called police, who arrived to find Krantz still bound to the pipe.

Two-year-old Mark Wendell Shuff, Route 1, Box 42, Ville Platte, Louisiana, ise on the go from morning till night. His mother thinks it would take a full division just to keep up with him. He is mighty fond of the family cow, "Jersey", because "Jersey" gives such fine, rich milk. Mark's mother thanks her lucky stars that Mark's little system is able to take the rich milk —it wasn't too long ago that he couldn't—but now, thanks to HADACOL, which gave his system those precious Vitamins B1, B2, Iron, and Niacin which he needed, Mark is now able to eat those foods that every growing boy.

Here is Mrs. Shuff's statement on how HADACOL helped her son: "Mark Wendell had not been feeling good for some time. A lot of the time he could hold nothing on his stomach. He was very weak and was very pale. Then I started giving him HADACOL. He started improving in just a short time. He has gained weight and I know he has more energy than a dozen wild Indians. It is a full time job just watching him now that HADACOL has made him feel better. You can understand why our family is sold on HADACOL".

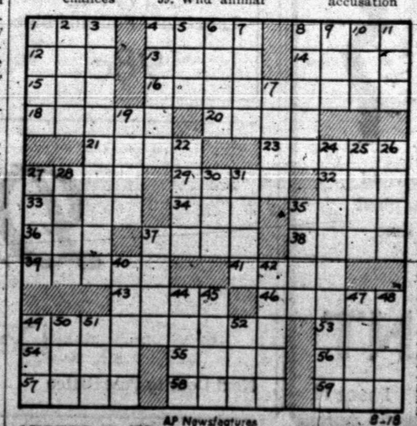

Yes, there are thousands and thousands of folks all over the country who are getting blessed relief from wonderful HADACOL when they needed Vitamins B1, B2, Iron, and Niacin.

Give HADACOL a Chance to help you if you are suffering from stomach distress, nervousness, insomnia, constipation, aches and pains of neurtis, or a general run-down condition, caused by such deficiencies. Remember, it will cost you nothing if HADACOL doesnt help you. Buy either the trial size for $1.25 or the large family or hospital size for $3.50 and if you are not completely satisfied—return the bottle and your money will be refunded.

Man Takes Thirty Day Test, Now Everything Is Upside Down

By ED CREAGH
(Associated Press Staff)

NEW YORK, Aug. 18. — For 30 days, Fred Snyder has been looking at the world upside down and backward.

Tonight Fred will take off his special, binocular-like glasses. The floor will shoot up to the ceiling. The ceiling will come down to the floor. Once againFred will see the world as other people see it. And—

"I'm not sure I'll recognize it," Fred said with an uncertain laugh. "I've got pretty used to leading this upside-down existence. Things look right to me when they're upside down and backward to everybody else."

GRADUATE STUDENT

Fred is a friendly, 25 year-old graduate student at the University of Wichita. He undertook the upside-down experiment as part of his work in psychology. His teacher, Dr. N. H. Pronko, who came along to New York, thinks it's a pretty valuable piece of work.

"We're not trying to prove anything," Pronko said. "We're trying to learn something about how people see. Apparently it's something we have to learn. In some ways Fred already has learned to see as well as, or better than, he did with 'normal' vision."

But it wasn't easy.

APPEARS BLIND

First Fred put on his strange, projecting glasses. A light metal headgear supports them and sponge rubber prevents a chafing. They make him look like a man who is going blind. People — especially New Yorkers — often murmur sympathetically when they see him.

He couldn't do anything right at first. The food on his dinner plate seemed to be suspended in air, ready to fall in his lap — except that his lap was up where his shoulders should have been. He fell over things. They were on his right when he "saw" them on his left.

"But I learned," Fred said. "I can sort playing cards and get through other laboratory tests just about as fast as I ever could, sometimes faster.

DRIVES CAR

"I've even driven a car for a few miles on a country road. In time I suppose I'd forget all about how things used to look."

By now Fred is over the butterflies in the stomach that bothered him for the first few days. Back in Wichita, his wife (they have a four-months-old daughter) is humerously reconciled to his weird appearance and topsy turvey way of life.

Fred will take his glasses off in public — on a radio-television program. He's not sure how he feels about ending the experiment.

"For the sake of the project," he said, "I'd like to keep on for several months more. But it also will be nice to start living a normal life again back in Wichita."

Suit Contests Bond Election In Odessa

ODESSA, Aug. 18. (AP) — A suit contesting the $800,000 Odessa college bond election of July 29 is on file in 70th District Court here.

The bond issue was approved 367-342.

The petition filed yesterday by Tom W. Davis and G. C. Hardwick alleged persons were allowed to vote who had not paid their 1950 poll taxes, who were not property owners and who were not residents of the college district.

Wichita Falls Man Is Released From Jail

J. J. Miller, about 45, of Wichita Fall, was released from the county jail yesterday after payment of a $200 fine in addition to having spent 43 days in jail for selling liquor in Scurry County.

Miller was placed in jail July 5 after pleading guilty to the charge.

Another case scheduled for contest by jury yesterday was postponed until September when witnesses in the case failed to appear. The case was one of two pending against P. D. Cline 33, of Snyder, charged on both counts with sale of liquor in a dry area. He is free on bond.

Youth Sent to Gatesville After Another Burglary

A 13-year-old Snyder boy was taken to the state school for boys at Gatesville today on a county juvenile court order given by Edgar Taylor, county judge, yesterday.

The boy was recently paroled to his father after admitting a series of Snyder burglaries, but he was arrested again this week when he confessed the Sunday night burglary of the Bryant-Link implement store at 2303 Twenty-fifth Street, where he obtained $20 from a safe.

Ethyl Company Will Build New Plants On Houston Channel

HOUSTON, Aug. 18. (AP) — The Ethyl Corp. has announced plans for the immediate construction of several plants along the Houston ship channel to manufacture chemicals needed by the military forces.

An official of the company said yesterday the plants would be integrated to produce more than 100 million pounds annually of teraethl lead, ethyln chloride, sodium and chlorine, and other ingredients.

Bailey Funeral Set Tomorrow

Funeral services for Mrs. Ruth Bailey, 45, wife of Acie Bailey, Snyder grocer, will be held at 3 o'clock tomorrow at the First Baptist Church in Slaton, Tex.

Mrs. Bailey died in Ruidoso, N. M., hospital yesterday morning from injuries received when the Bailey car collided with a truck just outside Ruidoso ten hours before.

Bailey is reportedly in a critical condition from a crushed chest and is still in the Ruidoso hospital. He and his wife were the only occupants of the car.

Mr. and Mrs. Bailey moved to Snyder last November from Lubbock. Bailey is owner of Rainbow Market No. 1.

Interment of Mrs. Bailey will be in the Slaton Cemetery.

Enemy Air Attack Anywhere In U. S. Could Get Through Radar

By ELTON C. FAY
AP Military Affairs Reporter

WASHINGTON, Aug. 18.—An enemy probably could make an aerial Pearl Harbor strike at almost any place in the United States today and get some bombs down on the target.

It is not considered within the realm of possibility that the present sparsely spotted radar system — even though on a round-the-clock operating basis — would detect all approaching bombers or that existing fighter forces would destroy every one of them.

Competent military sources doubt if more than a quarter of an attacking bomber force coming in over the polar regions could be knocked down before it crossed the northern border of the United States.

They point out that in World War II, in areas where there was a high concentration of fighter defense and elaborate radar warning system, destruction of 10 per cent of an attacking force was considered excellent.

THEORY

Air Force strategists hold that the most effective way to halt air attacks on the U. S. mainland would be destruction of the bases from which the attacks are launched and of the industrial centers supporting the attacks. It is on this theory that the retaliatory strike by long range B-36s, B-29s and B-50s is planned.

Following this same reasoning defense officials believe that the bases for those planes, in the continental U. S. and Alaska, would be priority enemy targets, the spots for which sneak raiders would head first. Making the bases useless for launching retaliatory strikes would be of prime importance to the enemy. Any bombers he got past the radar warning system and fighter defenses could be expected to streak for air bases.

THEN TO INDUSTRY

Next in importance probably would be the great industrial areas and the nerve-center of government and military direction, Washington.

When asked about defenses against a surprise air attack, the Air Force's frank answer sums up to this:

The nation's air defenses today are not satisfactory. The present radar stations comprising the warning net are composed of World War II equipment and are located on government sites — apparently places where the government has land on which to locate them, but not necessarily the most desirable locations.

The stations are too few in number to give more than a very limited warning to certain industrial and military areas.

Mexico Pleased With O'Dwyer Appointment

MEXICO CITY, Aug. 18. (AP) — The Mexican foreign office is pleased with the expected appointment of New York City mayor William O'Dwyer as ambassador to Mexico.

"I am convinced that the qualities of Mr. William O'Dwyer, whose appointment our government has accepted, as well as his knowledge of our country and his friendship with President Miguel Aleman and a number of leading Mexicans, will insure that his diplomatic mission befit the excellent relations existing between the two countries," said Acting Foreign Secy. Manuel Tello in an official bulletin.

Arrest Made Here After Broadcast From Odessa

The new 2-way radios recently installed in the sheriff's department patrol cars proved valuable yesterday in the apprehension of a youth charged with theft of a motor scooter only seven minutes after receiving a pick-up order broadcast from Odessa.

The youth, formerly of Odessa, was arrested on the Roby highway east of town while riding the vehicle en route to his present home, nine miles east of here.

Homer Whisnand, deputy sheriff, said he and another officer were driving east on the highway when the call was received and soon overtook the youth unexpectedly. The youth was given to the custody of Odessa officers.

Funeral Services For Joel M. Eaton Today

BROWNWOOD, Aug. 18. (AP)—Funeral services for Joel Marion Eaton, 83, who set up the first oil refinery in this area, are scheduled here today. He died Wednesday night.

Baylor Graduates 294

WACO, Aug. 18. (AP) Baccalaureate degrees were conferred on 294 students here last night, the largest summer graduating class in the history of Baylor University. Advanced degrees were conferred on 94 students.

496 Persons Are Given Free Chest X-rays In First Day of Campaign

The second day of the mass tuberculosis survey began at 9:30 this morning.

A steady flow of persons reported to the courthouse basement for free examinations in the same responsive manner that 496 persons came for chest X-rays in seven and a half hours yesterday.

Two X-ray technicians from the state health department in Austin, Russell Luke and John Smithheisler, made chest pictures of persons at the rate of 66 an hour throughout the first day of the program yesterday, giving the average person a complete chest examination in less than a minute.

The examination includes registration, in which the person's name, address, and family physician are listed on a card, and the making of the chest picture, which does not require the removal of any clothing.

A public address system was put into use at the courthouse this morning to announce the survey and remind passers-by to be X-rayed.

Calvary Baptist Pastor Returns From Meeting

The Rev. T. Gerald Cates, pastor of the Calvary Baptist Church, Avenue J and Thirteenth Street, announce his return yesterday from a 10-day revival meeting in Winona, Miss.

Mr. Cates will occupy the pulpit of the Snyder church Sunday morning, speaking on the subject, "Don't Ever Commit Suicide." Sunday nights, Mr. Cates said, sermons on the Revelation of Jesus Christ, the concluding book of the New Testament.

This course of special studies will continue for at least 12 successive nights, Mr. Cates said.

Reece Airman Marries 19-Year-Old German Girl For Third Time

LUBBOCK, Tex., Aug. 18. (AP) —A 27-year-old Reece Air Force Base airman married the German girl he can't get to America for the second time last night—and expects to marry her for a third time.

In a two-minute telephone ceremony between Munich, Germany, and Lubbock, Fred A. Dickey, took the vows with the former Erma Theresa Bollinger, 19, before county judge Walter Davies.

Dickey said last night's ceremony was "more to boost her morale than anything else, now we both feel better."

He hopes to bring her to the United States on a visitor's permit or the third marriage.

The couple was married in 1948 in Munich under German civil law. Last night's wedding was according to Texas law, but Dickey said he didn't expect the State Department to recognize it.

Orange Overflooded With Worker Influx

ORANGE, Aug. 18. (AP) — "Don't come to Orange unless you are sure of a job and housing," the Texas Employment Commission office here warns.

L. A. Hammond, TEC manager, said yesterday that his office had 1,215 jobless on its rolls, the highest figure in months. He attributed the influx of workers to "magnified rumors" of war contracts.

In addition, a survey shows only 11 vacant dwellings available for families with children. About 25 other housing units, most of them furnished and some in the "undesirable" category, are available for couples with no children.
