

Shell Appoints White to Area Manager's Job

Horace E. White, former Colorado City school board member, is the new manager for Shell Pipe Line Corporation West Texas Area.

Appointment of White to the area post with headquarters in Midland was announced by Joe T. Dickerson, Shell Pipe Line president in Houston.

White succeeds another former Colorado City resident, Gale G. Billings, who has been transferred from the West Texas area manager's position to Houston, where he is manager of the pipe line's operating service department.

Billings was area manager when Shell Pipe Line West Texas Area headquarters were located in Colorado City before its move to Midland in 1955. At the same time White was assistant manager for the area.

The new area manager, White, joined the company in 1935 after being educated at Abilene Christian College and Texas Tech. His first job was gauger at Roberts, followed by a move upward until becoming chief safety engineer in 1942 at the company's head office in Houston.

In 1946 he was named assistant to the line's Texas Gulf Area moved to Healdton, Okla., and Springfield, Mo., as division superintendent.

In 1950 he became acting assistant manager here in Colorado City and in 1954 was named assistant manager, a position he has held in Midland before the appointment to area manager.

Box Rent Due Palmer Says

Postmaster S. A. Palmer said here Thursday that all box rents at the Colorado City Post Office would be due on July 1.

Beginning June 20, Palmer said, when the post office begins to collect box rent, boxholders may pay rent for 12 months in advance.

"A boxholder may pay for three months in advance anytime his rent comes due," Palmer explained, "but there is only one time during the year when he may pay his rent in advance for a full year—and this is it."

Palmer quoted rental prices at \$1.10 for three months for a small box and \$1.40 for a year. For a large box, the rental is \$1.50 for three months and \$6 for a year.

Rentals on post office drawers are \$2.25 for a small drawer for three months; \$9 for a year. For a large drawer, the cost is \$3 for three months and \$12 per year.

INJURED FAMILY—Six members of the Norton family, whose station wagon overturned west of here Monday, are shown at Root Memorial Hospital. They are, left to right, Bobby, 12, Betty, 6, Marie, 4, Ocie Norton, the father, Linda, 7, and Patricia, 9. Not pictured are Mrs. Norton and Tommy Norton, four months. (Record Staff Photo)

MONDAY ON HIGHWAY 80

California Family Injured As Automobile Overturns

Ocie Norton, his wife and six children, ranging in age from 12 years to four months, were six miles west of Westbrook and their 1954 Ford station wagon lurched out of control Monday, when their car, hit a rough stretch on U. S. Highway 80.

The rough highway and a bad rear tire ended the Nortons' planned vacation trip to Atlanta, Ga., when the tire collapsed and their 1954 Ford station wagon lurched out of control.

Investigating officers said the Norton automobile overturned three times, before it rolled back onto its wheels and came to a stop.

And Norton, his wife and children were rushed by ambulance to Colorado City's Root Memorial Hospital for emergency treatment.

Mrs. Norton, 29, the most seriously injured, was treated for neck injuries here, and Norton, 30, received treatment for a shoulder injury.

Twelve-year-old Bobby Norton suffered multiple head and arm injuries; Betty Norton, 6, suffered a head laceration, and three other children were treated for cuts and bruises.

Kiwanians to Convention

Two local Kiwanians and their wives left here Wednesday for 42nd annual convention of Kiwanis International in Atlantic City.

They are Mr. and Mrs. John T. Merritt, Mr. and Mrs. H. J. Berman. Merritt is president of Colorado City Kiwanis and Berman is a past president.

The quartet boarded the Texas Oklahoma District governor's train in Dallas Wednesday evening. Train route to the convention, which opens Sunday and ends next Thursday, is via New Orleans, Atlanta and Washington, D. C.

Return trip will be with stops at New York City, Niagara Falls and Chicago with arrival in Colorado City July 2.

Only a four-month-old baby, Tommy Norton, escaped unhurt. Norton, a truckdriver for Southern California Freight Lines, said that he was unable to remember exactly what happened.

He said his wife was driving at the time of the accident—she apparently lost control of the station wagon when a rear tire went down suddenly, just after the car had passed onto a rough section of Highway 80.

The heavily loaded vehicle lurched off the road and overturned.

Norton said everyone except two girls, Linda, 7, and Marie, 5, were thrown out of the automobile as the doors were torn open by the impact of the crash. The car continued to roll after hurling its passengers out onto the roadside.

"Bobby and the baby and I were lying right in the path of the car," Norton said. "If it had rolled one more time, it would have landed right on top of us."

The Nortons had planned to stop at Fort Worth to visit relatives before going on to Georgia, Norton said.

Both Norton's parents and Mrs. Norton's parents arrived here from California this week to be with the injured family.

The family was admitted to the hospital at 8:45 a. m. Monday after being brought to Colorado City by Kiker and Son ambulance.

The Nortons, who were still in the hospital here Thursday, had at least one thing to be thankful for after their narrow brush with death.

According to Norton, they are fully covered by insurance.

Jury Finds Man Guilty Here Of Murder Without Malice

Recommends Suspension Of Sentence

Thaddeus Pershing Aaron, a 38-year-old Big Spring man, was convicted Wednesday in 32nd District Court here on charges of murder without malice while driving under the influence of alcohol.

Aaron and another Big Spring man, Gerald S. Goff, were both charged here in connection with the March 2 death of Mrs. Opal Willingham, 47, of Abilene on U. S. Highway 80, four and one-half miles west of Colorado City.

The case was one of six tried here in district court this week. Aaron was found guilty and sentenced to five years in the state penitentiary—the maximum penalty for his offense—but the jury recommended that the sentence be suspended.

Goff is expected to come to trial shortly, District Attorney Eldon Mahon said Thursday.

Mrs. Willingham was killed in a collision when the 1952 Pontiac in which she was riding was struck by the car Aaron was driving.

Officers said that Aaron failed to make a curve, knocked over two guard rails and struck Mrs. Willingham's car in the right side.

Aaron has been in jail here since the day of the offense—about 100 days, Mahon said.

Charges against Goff, who is free on bond, stem from the fact that he allowed Aaron to drive his car, while the latter was under the influence of alcohol. Goff was in the car at the time.

In other cases coming before District Judge A. S. Maurer, the trial of Melvin Luncford, 17, on charges of theft resulted in a hung jury.

Date for a new trial has not yet been set, Mahon said. Luncford was charged with stealing several plow points and tractor parts from the Heston Redwine farm south of Colorado City.

According to Mahon, Luncford is on five years' probation for a previous offense.

The defendant, who is still in custody here, was indicted for the alleged May 19 offense along with W. Lee Moor and Samuel Cox, both of Colorado City.

Four cases of driving while intoxicated were heard this week by the court. One defendant entered a plea of not guilty and others pleaded guilty to charges.

Shelby Shannon, 45, of Colorado City, was found guilty of a drunk driving second offense. He had been arrested by city officers here May 12. He was sentenced to six months in the county jail.

Richard Herman King, 26, a Midland man, pleaded guilty to a DWI charge. He was arrested here April 29.

He drew a two-week jail sentence.

VACATION'S END—A planned vacation trip to Atlanta, Ga., ended here early Monday morning for an east-bound California family as this 1954 station wagon overturned three times on U. S. Highway 80. Seven of the automobile's eight passengers were injured. (Record Staff Photo)

Driver Hurt in Truck Accident Near Rock Pit

In a second highway mishap Monday, Howell T. Campbell of Route 2, Slaton, was injured approximately six miles south of Westbrook on state farm road 670.

According to Highway Patrolman Alfred Chambers, investigating officer, the accident occurred at about 1:20 p. m.

Campbell was returning from the Valley pit south of Westbrook with 10 yards of rock loaded on the 1953 GMC tractor and semi-trailer which he was driving.

The truck overturned as Campbell was turning onto highway 670 from the county road which leads to the rock pit.

Chambers said he was apparently going too fast when he started into the turn.

Campbell was taken to Root Memorial Hospital here by Kiker and Son ambulance, suffering from minor bruises and a blow on the head. He was treated and released Monday afternoon.

Damage to the truck, owned by Marvin Kellner of Euavanna, was estimated at \$800.

Campbell was hauling the load of rock from the pit to a construction site on U. S. Highway 80 west of Colorado City, at the time of the accident.

IN NEAR FUTURE

New Paving Slated For C-City Streets

Several blocks of Colorado City streets will be paved in the near future, City Manager Rollin K. Snethen indicated this week.

Snethen said that paving will be done in complete blocks with no "leave-outs." One hundred per cent of the property owners in a block must be signed up for the paving program before paving can be done.

Property holders on 15th, 16th and 17th Streets, between Austin and Waco Streets, others on Watson Street from 16th to 17th, and others on 15th from Watson to Eastover have shown interest in the paving program.

Mrs. J. T. Holley, representing the City Asphalt Paving Co., will contact property owners to sign them up for the program.

Several blocks near Wolf Stadium may also be paved soon. The City Manager pointed out that maintenance costs for unpaved streets are great and that unpaved streets also create a traffic hazard.

Anyone desiring to have paving done should contact the City Manager.

Paving will be composed of a six inch base of compacted rock with a triple asphalt surface.

Six inch concrete curbs and 18 inch concrete gutters will also be installed when the paving is done, Snethen said.

Cost to property holders will be \$2.75 per front foot for paving, curbing and gutters. The pavement will be 30 feet wide.

Snethen also said that the city will continue its weed-cutting program during the summer months.

Fifteen lots have been cut so far, he said.

The service is available for small fee upon request to City Hall.

SENTRY DUTY

IN AMERICA every editor is on sentry duty, guarding constantly against all encroachments on the Freedom of the Press. It has always been like this. Ever since the press battled for and won freedom of expression, its guardians have had to be on the constant lookout for infiltration by the enemies of that freedom. Infiltration—pressure from powerful groups to tone down comment on a situation...pulling of strings to keep a story from being published...predigested propaganda releases.

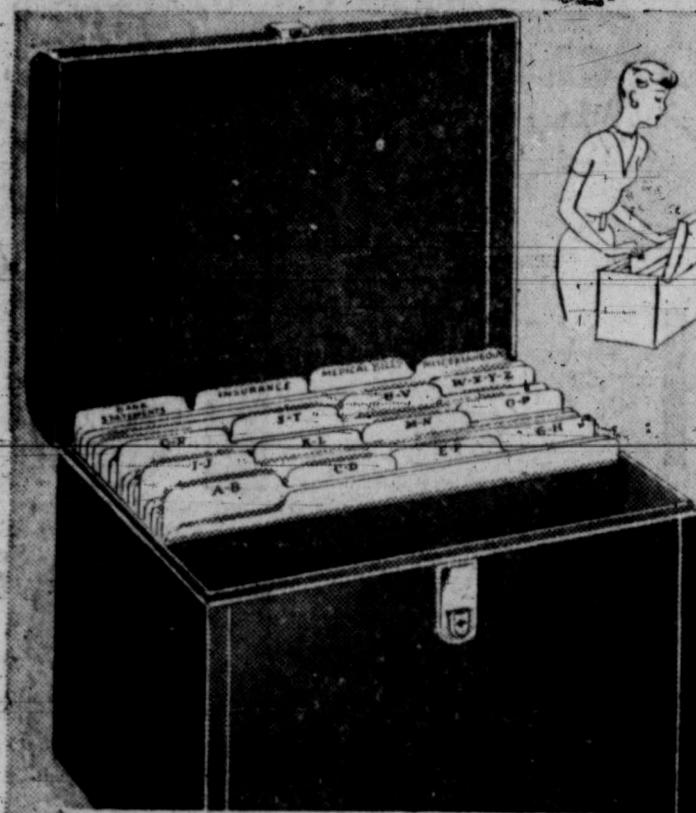

But the press knows the importance of never giving up its freedom. For on freedom of the press depend all other freedoms that make up democracy. Therefore, the men of America's press refuse to recognize any check—except military security—on complete, unabridged and inviolate freedom to print the truth.

That is the challenge of today to the courage and the vigilance of these sentries of America's press.

Speed Called Top Killer on Texas Roads

"Speed is the number one killer on Texas highways," J. Ross Kemp of the State Department of Public Safety told the Colorado City Junior Chamber of Commerce in an address Wednesday.

The traffic situation in the state is bad, he said, and is getting steadily worse.

Kemp, who is Safety Officer for a 13-county area with headquarters in Abilene, listed four main causes for the staggering number of traffic accidents.

They were (1) the increase in the number of automobiles; (2) the increase in the number of drivers; (3) an increased number of miles driven each year, and (4) an increased number of highways.

June, July and August—the principal vacation months in Texas—are the worst months for traffic accidents, Kemp said.

In 1956, the officer pointed out, the average daily death rate on Texas roads and highways was more than seven per day.

Each day an average of 305 persons were injured in 625 motor vehicle accidents, Kemp said.

This year, more than 2611 people will probably be killed in auto accidents in Texas, he added.

Following Kemp's talk, Jaycees were shown a film on improving present highway conditions.

PONY LEAGUE ACTION IS CLOSE

White Sox Edge Cardinals, Threaten League Leaders

Cardinals and Athletics are tied for first place in the Pony League but it appears that the White Sox will overtake both teams.

The Sox handed the Athletics a share of first place Monday night when they downed the Cardinals 2-0, giving both teams a 7-4 record.

Sox now have a 6-5 mark and if they whip the Braves Thursday night, they will be tied for second place with the loser of the Card vs. Athletic game.

Sox have now won the last four games in a row.

It was again Don Vest who led the Sox to victory, turning in a no-hit game against the Cardinals.

The blond-headed Sox hurler faced only 24 Cardinal batters, striking out 17.

One Cardinal got as far as third base after receiving a walk, but Vest turned out the steam to strike out the next batter and put out the fire.

Sox's two runs came in the second frame on two hits.

Shortstop Harold Hendley started off the Sox fireworks with a single, went to second and third on pass balls. Edwin Wiley, the third sacker, walked and both runners scored on Jimmy Ruth's single.

Jerry Cannon, the starting Card hurler, gave up only three hits and his relief pitcher, Clifton Lee, issued only one hit.

The Athletics scored a run in the top of the ninth inning against the Braves to win 9-8.

The game went extra innings after the Braves scored one run in the sixth inning to tie the count 7-7. Melvin Williams scored the important run after walking and racing home on Miles' single.

Both teams went scoreless in the seventh and each scored one run in the eighth frame. Charles Lindsey scored the Athletics' run after socking a double.

David Garcia marked up the Braves' run in the eighth after walking and scoring on Miles' triple.

Ronnie Stacy broke the 8-8 deadlock in the top of the ninth when he singled and raced home on an error.

The Braves failed to rally in bottom of the ninth after fighting and uphill battle all the way.

Each team had one big inning early in the game. Athletics scored four runs in the third while the Braves used the fourth inning to score their four runs.

Lindsey was the winning pitcher while Melvin Williams was the loser.

Winning pitcher for the Sox was Cupp, giving up only two hits during his stint on the mound. He struck out six batters and walked four. W. Smith and Applegate hit doubles for the Blue Sox.

The Sox scored 14 of their runs as the direct result of throwing errors by the Eagles' fielding staff. Cooper was the losing pitcher for the Eagles, giving up eight hits. Gregson and Cooper hit doubles for the War Birds.

The next action in the Farm League will be Fridays when the Blue Sox and Bull Dogs clash at 5:00 p. m.

STILL MODEST AS EVER

The 'Hoss' Returns Home after Record-Breaking Track Season

Breaking world records hasn't changed "the Hoss".

Hollis (Hoss) Gainey of Colorado City, member of University of Texas' famous relays teams this year, returned home this week—and is still modest as ever concerning his athletic accomplishments.

Gainey arrived home early Sunday morning after taking sixth place Saturday in both the 100 and 220-yard dashes at the NCAA meet in Austin.

He hitched a ride with one of his most ardent followers—B. H. Gary of Colorado City.

And not wanting to waste a moment of his summer vacation, Gainey went to work Monday for the Sun Oil Co. gas plant at Silver.

Even though he's been running constantly since last fall, Gainey is still working out every afternoon on Wolf Stadium track.

He plans to continue the short workout periods for about two more weeks.

"It's hard on you if you stop running all at once," Gainey said, "and the coaches advised us to gradually slack off, not stop all at once."

The slender "speedster," who was undefeated in all track competition his last two years in high school here, thinks he reached his running peak of the past season when he competed in the Meet of Champions in Houston three weeks ago.

"I just felt like I could really run—that week end," Gainey modestly admitted.

And he must have been feeling good since he whipped some of the top sprinters in the nation, winning the 100 in 9.5 seconds and the 220 in 21.4 seconds.

But the Hoss' best time of the year came last week end at the NCAA when he raced against a field of dashmen that represented the United States in the Olympics.

"I really felt lucky to get sixth place," Gainey explained, "because that was really a fine bunch of sprinters."

He ran third behind Bobby Morrow of ACC and Ira Murchison of Western Michigan in the NCAA prelims when both Morrow and Murchison tied the world's record in 9.3 seconds.

A timer caught Gainey in 9.5 seconds in that race, and he was timed in the 220 in 21.3.

But Gainey didn't concentrate on the individual races—much this year, but rather put forth most of his efforts in the 440 and 880-yard relays.

The Texas quartet—composed of the three sophs, Gainey, Eddie Southern and Wallace Wilson; plus senior Bobby Whilden—broke their first world's record at the Southwestern Invitational in Fort Worth.

They whipped around the 440 relay in 40.4 seconds, a record for two turns.

At the Texas Relays, they broke the existing world 880 relay mark with a time of 1:22.7. And then at the Kansas Relays, broke the world record for the 440 relay around one turn with a time of 39.9 seconds.

The record they had set at Fort Worth didn't last long. At the Southwest Conference Meet in Austin, they racked up a time of 40 seconds flat around two turns.

At the Coliseum Relays in Los Angeles, they barely missed the 440 record, turning in a time of 40 flat on one turn.

Just to prove their versatility, the three sophomores on the sprint relay, plus another sophomore, Brooks Patrick, ran the second fastest mile relay recorded in the nation this year with a time of 3:11.8. The best time was about one-tenth of a second faster, turned in by a group of outstanding sprinters in the Los Angeles Athletic Club.

On that fast mile relay time, Gainey led off on the first quarter with a time of 48 flat.

Gainey believes that the Steers won't concentrate on the relays very much next year but try to pick up points in the individual events.

Abilene Christian College was the Steers' main relay competitor all year long, but they'll be weakened next year since Morrow and James Segrest won't be eligible in many big meets. Both boys began running as freshmen and won't be eligible for their fourth year of competition.

Since Whilden graduates this year, Gainey will be the University's top dash man. The fact that he was the only sprinter from the SWC to place in the NCAA is testimony enough to his racing prowess.

Gainey was the sprint champion in the SWC his freshman year, winning the 100 in 9.4 seconds.

HOLLIS (HOSS) GAINLEY,
...running for Texas U.

But everyone knows that Gainey thrives on competition and they're expecting even greater things from the greatest competitor this city has ever produced.

Track season was really a long grind with a track meet each week—sometimes two a week—from March 5 right through last Saturday, Gainey said.

The score was 7-3.

Big Part in Farming Played by Irrigation

By JOHN C. WHITE,
State Agriculture Commissioner.

Irrigation plays a much bigger part in Lone Star Agriculture than most Texans realize.

Nearly a half billion acres of Texas land are now irrigated. About one-fifth of the crop land harvested in the state is irrigated land.

Although many centuries old, the practice of irrigation is relatively new in the state. There were no definite reports on the amount of irrigated Texas acreage until 1940, when less than 895,000 acres were irrigated.

But with the advent of larger, more mechanized farms in recent years, irrigation systems have spread to all corners of the state.

Irrigation has fit well into the ever-changing agricultural picture. It has been the answer to problems of drought, low yields and cost-price squeeze. And there probably isn't a farmer in Texas today who hasn't given some thought to irrigation.

This is no wishful thinking on the farmer's part—to want "rain" at the right time in the right amount. Many farmers in the heavier rainfall sections of Texas are setting up irrigation systems for small tracts and increasing yields up to 200 per cent.

Although 95 per cent of the irrigated farms are located in just 78 counties, the scientific principles of irrigation are rapidly being applied in all areas of the state.

During the past year, numerous irrigation "clinics" and demonstrations have been held under auspices of county agents, Soil Conservation Districts and irrigation engineers and manufacturers.

Economical, low-cost sprinkler systems have been devised for use on small tracts. Many of these operated last summer in East and Central Texas.

All indications point to an even bigger role for irrigation in Texas agriculture future.

One More Barrier to Go

BIBLE COMMENT

Jonah's Example Worth Following

Jonah's book, although it is only a few chapters, marks the very highest point of Old Testament teaching in its conception of God and His grace.

Nineveh, at the time of the story, was a great and wicked city, and Jonah received the call of God to go there and speak for right and truth.

It was not unnatural that he should rebel against such a task. It was unpleasant to go as an individual and set himself up as a preacher in a hostile environment of luxury and wickedness. He might well have asked what his lone voice, crying in such a scene, could accomplish.

But there was further antipathy in Jonah to obedience to this call. Nineveh was a foreign city and Jonah, as a Jew, might have been expected to be prejudiced against it. Jews believed themselves members of the chosen race.

Here emerges the central idea of the book and its teaching. It is a missionary book, presenting with considerable clarity the conception of God as the God of the whole world whose grace and mercy are for all people and not for a chosen few.

In this respect, Jonah's reluctance to go and preach in Nineveh is typical of the narrow conception of religion and life, that lack of any apprehension of the richness and fullness of God's mercy, which has led people to be apathetic regarding the spread of the Gospel. This view has its adherents in all ages.

Is it not true that we are most content to live within our own narrow circle of home, community or nation, disregarding the world and its needs?

If the world would be more a world of Christian missions, in the spirit of the Book of Jonah, it would be a better world than it is today.

Texas Tourist Trade Ranks as Big Business; Reservoirs Now Hold Year's Water Supply

By VERN SANFORD,
Texas Press Association.

It's vacation time in Texas. During the next three months millions of people will stream to every corner of the state in search of relaxation.

But a lot of home folks will stay home. They make a living catering to the tourists. Vacationing is big business in Texas. And it promises to get bigger.

Last year nearly 8½ million out-of-staters visited Texas—only 12 per cent on business. They spent \$350,000,000 for food, lodging, gasoline and entertainment.

Next year voters will decide whether to try to hustle in even more visitors and money through nationwide advertising. A proposed constitutional amendment to remove the ban on spending state funds for advertising was passed by the last Legislature.

It will come to a vote at the November 1958 general election. Meanwhile, several state agencies and a host of municipal and private organizations give out information on how to have fun in Texas.

State Highway Department has just issued a brand new map telling how to find your way over the state's 100,000 miles of roads. It includes 20 full-color pictures and a warm welcome to the "land of hospitality."

Available free from the department. State Parks Board, housekeeper for 49 state parks, plans many new camping, swimming and picnicking facilities. It got a "generous appropriation" from the Legislature, said the Board.

Texas Game and Fish Commission has help and advice for the one in every four Texans who hunts or fishes. Its numerous publications give guidance ranging from where the fish are biting to what to do for snake bite.

Year's Water Supply Without another drop of rain, Texas' 35 major reservoirs now have enough water stored to last a year.

Heavy spring rains poured 6 million acre feet of water into the reservoirs filling them to 92 per cent capacity reports the State Board of Water Engineers.

Storage is about twice that of a year ago. Flood Survey Sought But the unprecedented rains brought problems. State Water Board wants money to make an emergency survey of what the floods did with a view to learning how to prevent future destruction.

State Capital NEWS

Both the Board and Gov. Price local officials fail to do this job, we will do it from the state level."

Gov. Daniel gave his full backing to the crackdown, hailed it as the "beginning of a new era in law enforcement."

More Science For Teens More study with emphasis on science, will be required of future high school graduates.

New standards set up by the State Board of Education direct that: 1. Graduates complete 16 units of study, rather than present 15, including two years of laboratory science.

2. Physical education cannot be counted in compiling the units. 3. Not more than one class period of the day may be used for competitive athletics.

New rules will take effect during the 1958-59 school year, but are to be applied to ninth graders next fall.

Short Snorts No one person has a right to all the water in the river, ruled the Third Court of Civil Appeals. Its decision favored the Great American Development Co. which sued a Comal County landowner, Clayton N. Smith, after his irrigation pump dried up Rebecca Creek.

Gov. Price Daniel has asked the Army Corps of Engineers to remove silt and sand blocking the mouth of the Brazos where it enters the Gulf. Recent floods have shown the need for an adequate discharge channel.

Goodbye To Chips Texas gambling has got to go, says Atty. Gen. Will Wilson. An all-out effort to shut down the multi-million-dollar empire in Galveston was called just the beginning.

Wilson and Department of Public Safety Director Homer Garrison Jr. cooperated in planning a massive raid on Galveston's illegal establishments. But the gamblers got word, closed up and cleared out ahead of the raid.

Wilson's staff followed up by filing padlock suits—boxes full of them—to try to prevent the places from re-opening.

Wilson and Garrison said they would follow the same pattern in other areas. First, local officials will be called on to suppress gambling and state cooperation offered. But, said Wilson, "if

he said State Supreme Court upheld an order of the Industrial Accident Board preventing two Waco attorneys from practicing before it. While the Board does not have authority to disbar attorneys, ruled the court, it does have a right to require ethical practice, from those appearing before it. At the end of the first five months of '57 Texas farm products were commanding the highest prices since February, 1955. Prices of hogs, beef, lambs, chickens, eggs and wool were up substantially over the previous months. Overall increase was 1½ per cent. Number of polo cases in Texas has hit a 10-year low, reports the State Health Department. Up to mid-June the state had had 142 paralytic cases, 82 non-paralytic. Five months total for 1957 was 172 cases, compared to 375 in 1954; 548 in 1952 and 505 in 1950.

Friends Visit At Loraine Mr. and Mrs. Frank Crownover and Mrs. Crownover's sister, Miss Annie Jarrett were hosts at a luncheon recently in the Crownover home in Loraine.
