## Damage to Grader In Fire Friday

Lem Rehder received minor burns  
on his hands and face and the city's  
street grader was damaged consid-  
erably in a gas pipeline fire about  
11:45 last Friday morning on the  
east side of town, a block east of the  
Church of Christ.

Rehder was grading a ditch when  
the grader blade struck and punc-  
tured a high-pressure gas line. Pres-  
sure of the escaping gas caused it  
to ignite. Rehder had no time to  
back the grader from the ditch but  
managed to jump and run quick  
enough to escape serious injury. He  
was treated immediately for scorch-  
es on his hands and face.

The fire department played a  
stream of water on the grader until  
the gas was shut off and were able  
to save one tire and lessen damage  
to the grader. All wiring and other  
parts were ruined but it repairs can  
be obtained the grader should be  
back in operation within a short  
time.

no soldier who fought in both Eu-

ton, by Boxwell Bros. Funeral Home

## State Official Urges Strict Polio Control Measures

AUSTIN, Texas.—Last year was  
considered by health officials to be  
an epidemic year for poliomyelitis  
in Texas. Inasmuch as 78 cases of  
polio have been reported to the  
Texas State Department of Health  
so far this year as compared with  
54 cases in the same period during  
1944, Dr. Geo. W. Cox, state health  
officer, has issued the following  
statements and suggestions con-  
cerning the control and prevention  
of polio which he urges all Texans  
to observe.

Control measures must empha-  
size clean-up campaigns and im-  
provements in sanitation. Strict  
sanitary measures must be observ-  
ed in all communities. Stringent  
efforts should be made to eliminate  
the housefly and to destroy its  
breeding places. All mosquitoes and  
mosquito-breeding places must be  
eliminated at once. Every effort  
should be made to institute ap-  
proved garbage collection systems  
immediately. Safe water supplies  
must be assured. Where adequate  
municipal sewage disposal systems  
are not in operation, it is vitally  
important to promote and main-  
tain sanitary septic tanks and out-  
door privies.

All swimming pools should, under  
rigid supervision, maintain those  
standards approved by the Texas  
State Department of Health. This  
necessarily includes maintenance of  
proper chlorine level. Where such  
standards are not maintained, those  
pools should be closed immediately.

All raw foods and vegetables  
should be washed thoroughly be-  
fore use and protected from flies,  
filth and insects. All eating and  
food handling establishments should  
adhere strictly to the state law con-  
cerning the sterilization of dishes  
and utensils. Those restaurants  
with insufficient personnel to  
maintain approved sanitation  
should close one or two hours a  
day so that employees can assist  
in maintaining cleanliness and high  
sanitary standards.

Every effort should be made to  
secure approved milk. Rats and  
mice should be exterminated. Main-  
tain in the home the same sanitary  
standards that are necessary in  
community life. Particular atten-  
tion should be paid to personal  
hygiene. Excreta from polio cases  
and contacts should be disinfected  
and handled with the same scrupu-  
lous care as in typhoid fever or  
tubercular dysentery.

Over-exertion in children should  
be avoided and children should not  
visit homes where there is a sick  
child. It is advisable to reduce to

## JUST HERE and THERE

Ochiltree county on May 24,  
1945, passed the half-way mark  
in the 7th War Loan. Our over-  
all quota is \$405,000 and our  
overall sales were \$229,970.

The county's E Bond quota is  
\$220,000. On May 24, E Bond  
sales stood at \$166,387.50. Other  
sales as follows: F Bonds, \$37-  
812.50; G Bonds, \$20,000; Tax  
Notes, Series C, \$5,750.

The 7th War Loan will con-  
tinue through the month of June,  
in fact, sales of E, F, G and  
Series C Treasury Savings Notes  
through July 7 will be credited to  
the 7th War Loan.

We have no doubt that Ochil-  
tree county will meet the quota  
but would like to see more peo-  
ple buying bonds. We would like  
to see more people, who in for-  
mer years had inadequate incomes

... now making big salaries, buy  
bonds for security. We know of  
many such persons making more  
money than they ever thought  
they would make in all their life  
... and we also know that many  
of them are not saving a cent.

We are mighty afraid that the  
day will come ... and not too  
many years off ... when they  
will be in dire need of the dol-  
lars they are spending so reck-  
lessly today.

It is true that the war in Eu-  
rope is over but we think the  
war against Japan is far from  
finished. The Japs will fight to  
the last soldier and last civilian.

News that the little yellow men  
are now bombing the United  
States with balloon-carried bombs  
is another recent reminder that  
we still have a long, hard war to  
fight in the Pacific. The Nips are  
overlooking nothing in their vi-  
cious fight. Their tenacity and  
fanaticism should be a warning to  
all Americans ... for only by  
matching the efforts of the en-  
emy can we hope for speedy vic-  
tory.

This means continued all-out  
support on all home-front pro-  
grams. It means buying more  
war bonds in the 7th War Loan.  
Such solid efforts on the home-  
front can help shorten the war  
and save lives of American boys  
abroad. See your banker or post-  
master today and buy more War  
Bonds.

And stop for a moment to  
honor the memory of a great and  
brave Texan ... Truman Kimbro  
of Madisonville ... who died in  
the Battle of the Bulge so that  
other Americans might live.

Kimbro, a quiet farm lad, braved  
strong enemy fire to plant  
mines that would stop the Ger-  
man advance. Despite wounds,  
he continued at the job and held  
Nazis tanks long enough to allow  
an important American evacua-  
tion and save the lives of hun-  
dreds of his buddies.

His bravery was recognized this  
week when the nation's highest  
Medal of Honor ... was pre-  
sented to his mother, Mrs. Mar-  
jorie Kimbro, who now lives in  
Houston.

Texas at home aren't called on  
to make the supreme sacrifice,  
as Kimbro did. But they can  
honor his memory and also help  
save American lives by going all-  
out in buying bonds in the 7th  
War Loan, to provide the weap-  
ons of war for American service  
men on fronts around the world.

sale was \$372.38. All money

## Nazarenes in Revival Here June 1-10

Rev. B. W. Taylor, pastor of the  
Perryton Church of the Nazarene,  
announces a revival meeting to be  
held here starting Friday, June 1.

REV. OTTO C. PERRY

through Sunday, June 10.  
Evangelist Otto C. Perry of Bur-  
kett, Texas, will be in charge of  
the meetings. Special singing and  
music will be presented. A cordial  
invitation is extended everyone in  
the community to attend these  
meetings.

starting at 8:45 o'clock.

## Two Leave Sunday For Army Service

Calvin E. Schroeder and Roy V.  
Bailey will leave Sunday morning  
for Oklahoma City for induction  
into the armed services. Bailey was  
transferred to the local board from  
Burlington, Okla.

Two other men were transferred  
from the local board for induction  
in the same call. These are Ther-  
ren E. Snyder and Wilbur R. Funk,  
both transferred to Wichita, Kan.

## Earl Gilson Dies At Guymon, Okla.

Earl Gilson, 60 years old, died at  
Guymon Saturday afternoon. He  
had been a city mail carrier in Guy-  
mon since 1914. Gilson was known  
all over the southwest for leadership  
in the annual Pioneer Day at Guy-  
mon. His leadership in civic affairs  
and devotion to public responsibility  
was unusual. Earl Gilson was just a  
civil service postoffice employee, yet  
no business man, professional man  
or property owner in that commu-  
nity took a greater interest or did  
more for the Guymon area than  
City Mail Carrier Gilson.

Nothing is believed more than  
what we know least.

## Rodeo Held Sat. - Sunday Huge Success

The rodeo held at the fair  
grounds last Saturday and Sunday  
by the Perryton Roping Club was  
a big success, both in gate receipts  
and in satisfaction to the huge  
crowds present.

Favored by ideal weather both  
days, the gate receipts reached a  
high figure and after all expenses  
and prize money is paid, several  
hundred dollars is expected to be  
left for local charities. Total re-  
ceipts will be announced next week.

Such wide interest was shown by  
cowboys and riders of this area  
and so many entries for each event  
came in that the local roping club  
is planning a similar event to be  
held some time in August. All  
events were heavily contested and  
both days of the rodeo saw plenty  
of fast and furious action.

Although the contests afforded  
a multitude of thrills for the audi-  
ence, probably the most popula-  
feature of both days' programs  
were the clown acts staged by  
Keith McLain of Perryton and  
Audra Fletcher of Gage, Okla. Mc-  
Lain staged the funny stuff on  
Saturday and Fletcher took the  
honors Sunday afternoon, both go-  
ing over big with the crowds.

Following are the winners in the  
various events, time and prize  
money awarded:

**Saturday Program**  
RIBBON ROPING: Carl Carter  
and M. E. Day, Perryton, first  
place, 28 seconds, \$27.50. Hershel  
Doley and Glynn Weant, Spear-  
man, second place, \$10.00.

## Notaries to File Bonds by June 1

All notaries public in Ochiltree  
county who have been reappointed  
are reminded by Mrs. Beulah Bird-  
well, county clerk, that they have  
until June 1 to qualify by filing at  
her office.

Most of these reappointed have  
already taken this action, Mrs.  
Birdwell reported Monday.

## Services at Barton School on 4th Friday

Church services are being held  
at the Barton schoolhouse in Lip-  
comb county the 4th Friday night  
of each month. Rev. Ward H. N.  
Crege, pastor of Perryton Christian  
church, conducted services there  
last Friday night. Others accom-  
panying him were Mrs. Gregg, Al-  
fred Pittman and Alex Bills, pastor  
of the Booker church.

## To the People of this Community

How long will the war with  
Japan last?  
Everybody has an answer to  
this question but our best advice  
is not to  
base your  
bond buying  
on whether  
you think it  
will take  
weeks or  
years to win  
in the Pa-  
cific. The  
best war  
conduct is  
always to be  
on an all-  
out war ef-  
fort basis.

General Douglas C. MacArthur  
gave you the tipoff on what to  
expect before your relatives and  
friends take over a wrecked  
Tokyo. In the Philippine cam-  
paign only 185 Japanese sur-  
rendered in a slaughter which  
cost them 308,180 men.

Buy bonds in the 7th War Loan  
with a spirit of an American in  
combat. Give it to the Japs full  
force and with all your weapons.  
That's the way to do your part  
in the vital, mighty 7th War  
Loan. Now—all together.

## Perryton-Shamrock Bus Service Will Start in Few Days

J. R. Cheatham, manager of  
Cheatham Motor Coaches, writes  
that they expect to start regular  
bus service between Perryton and  
Shamrock within a few days.

The delay in the start of the  
schedule was occasioned by the  
gaining of War Necessity rating  
for the procurement of gasoline  
and other operating supplies.

Mr. Cheatham says they are  
ready to start just as soon as the  
rating is received.

## Damage to Grader In Fire Friday

Lem Rehard received minor burns  
on his hands and face and the city's  
street grader was damaged consid-  
erably in a gas pipeline fire about  
11:45 last Friday morning on the  
east side of town, a block east of the  
Church of Christ.

Rehard was grading a ditch when  
the grader blade struck and punc-  
tured a high-pressure gas line.  
Pressure of the escaping gas caused  
it to ignite. Rehard had no time to  
back the grader from the ditch but  
managed to jump and run quick  
enough to escape serious injury. He  
was treated immediately for scorch-  
es on his hands and face.

The fire department played a  
stream of water on the grader until  
the gas was shut off and were able  
to save one tire and lessen damage  
to the grader. All wiring and other  
parts were ruined but if repairs can  
be obtained the grader should be  
back in operation within a short  
time.

## No Pacific for Men Who Fought In Europe-Italy

quarters said today that combat  
veterans of the European theater  
who also fought in Sicily, Corsica,  
Sardinia or Italy would not be re-  
quired to go to the Pacific.

Gen. Eisenhower said earlier that  
no soldier who fought in both Eu-  
rope and North Africa would be  
sent to the Pacific unless he vol-  
unteered.

explanation to follow. No further  
word has been received. He is  
the son of Mr. and Mrs. L. H. An-  
derson, Perryton. He was inducted

went overseas July 1, 1944. He  
saw service in England, France,

## Farmers Co-Op To Reorganize As Association

The annual stockholders' meet-  
ing of the Farmers Cooperative So-  
ciety was held Thursday, May 24,  
at the courthouse in Perryton. Ap-  
proximately thirty members were pres-  
ent.

A. E. Pittman, president, and J.  
Harold Kershaw, secretary, whose  
terms on the board of directors have  
expired, were re-elected to the board  
at the meeting. The board of direc-  
tors will meet in regular session on  
Tuesday, June 12, to elect officers  
for the coming term.

The most important business to  
come before the meeting last Thurs-  
day was the matter of changing the  
Farmers Cooperative Society from a  
society to an Association which will  
conform with present cooperative  
laws. Members voted approval of  
this change.

The company has operated as a  
cooperative society since its organi-  
zation. Since present cooperative  
laws require such a change the ac-  
tion will require a change in the  
company's constitution and by-laws,  
and the setting up of a capital stock  
structure.

This action, in no way, will change  
the amount or condition of present  
memberships in the organization.

Other routine business was dis-  
cussed and disposed of at the meet-  
ing.

Members of the board of directors  
are: A. E. Pittman, H. C. Brillhart,  
G. M. Cooper, J. Harold Kershaw  
and Pruner Apple. J. H. Hohaus is  
manager of the Co-Op.

## Bindweed Killer Demonstration

Demonstrators with Weedone, a  
new weed killer, were given the  
past week by nine Ochiltree county  
farmers on field bindweeds. A total  
of 20 acres were sprayed with a  
solution of 60 parts water to one  
of Weedone. Under normal condi-  
tions about one week is required  
for any noticeable change in the  
plants after spraying, and approxi-  
mately 30 days is required for a  
complete kill.

This material was applied with  
a power sprayer leased from Hem-  
phill County Agent J. W. Grist. The  
demonstrations were directed by  
County Agent Hood Willis.

H. J. Boidorff, W. B. LaMaster,  
J. L. Bryan, Thurman Trew, Del-  
bert Davis, H. C. Brillhart, Harry  
Evins, R. H. Holland and R. P.  
Cummings were the farmers co-  
operating in trying the new weed  
killer.

Thursday-Friday, June 7-8: "For-  
ever Yours," with Gale Storm,  
Sir Aubrey Smith and Johnny Mack  
Brown.

Mr. and Mrs. Brown and a daugh-

their daughter, June, a student in  
West Texas State College. Shortly  
after arriving at Canyon, he was  
stricken ill. He was rushed to St.  
Anthony's Hospital, Amarillo, where

rangements. Burial services were

## Freed by Russians

Lt. James Edward Barbour Jr.,  
who was reported missing in action  
September 28, 1944, against Ger-  
many, has been liberated by the  
Russians, according to word re-  
ceived here Sunday by his uncle  
and aunt, Mr. and Mrs. W. E. Mc-  
Millen. In November, his parents,  
Mr. and Mrs. Jas. E. Barbour, Al-  
buquerque, N. M., were notified  
that he was a prisoner of war. No  
word had been received from him  
since he went down with his crew.  
Lt. Barbour was a co-pilot on a  
B-24 liberator. His wife and young  
daughter, Janine, have been mak-

Marion Tucker. James Edward  
was born at old Ochiltree and

## State Official Urges Strict Polio Control Measures

AUSTIN, Texas.—Last year was  
considered by health officials to be  
an epidemic year for poliomyelitis  
in Texas. Inasmuch as 78 cases of  
polio have been reported to the  
Texas State Department of Health  
so far this year as compared with  
56 cases in the same period during  
1944, Dr. Geo. W. Cox, state health  
officer, has issued the following  
statements and suggestions con-  
cerning the control and prevention  
of polio which he urges all Texans  
to observe.

Control measures must empha-  
size clean-up campaigns and im-  
provements in sanitation. Strict  
sanitary measures must be observ-  
ed in all communities. Stringent  
efforts should be made to eliminate  
the housefly and to destroy its  
breeding places. All mosquitoes and  
mosquito-breeding places must be  
eliminated at once. Every effort  
should be made to institute ap-  
proved garbage collection systems  
immediately. Safe water supplies  
must be assured. Where adequate  
municipal sewage disposal systems  
are not in operation, it is vitally  
important to promote and main-  
tain sanitary septic tanks and out-  
door privies.

All swimming pools should, under  
strict supervision, maintain those  
standards approved by the Texas  
State Department of Health. This  
necessarily includes maintenance of  
proper chlorine level. Where such  
standards are not maintained, those  
pools should be closed immediately.

All raw foods and vegetables  
should be washed thoroughly be-  
fore use and protected from flies,  
flesh and insects. All eating and  
food handling establishments should  
adhere strictly to the state law con-  
cerning the sterilization of dishes  
and utensils. Those restaurants  
with insufficient personnel to  
maintain approved sanitation  
standards should close one or two hours  
a day so that employees can assist  
in maintaining cleanliness and high  
sanitary standards.

Every effort should be made to  
secure approved milk. Rats and  
mice should be exterminated. Main-  
tain in the home the same sanitary  
standards that are necessary in  
community life. Particular atten-  
tion should be paid to personal  
hygiene. Excreta from police cases  
and contacts should be disinfected  
and handled with the same scrupu-  
lous care as in typhoid fever or  
bacterial dysentery.

Over-exertion in children should  
be avoided and children should not  
visit homes where there is a sick  
child. It is advisable to reduce to

## JUST HERE and THERE

Ochiltree county on May 24,  
1945, passed the half-way mark  
in the 7th War Loan. Our over-  
all quota is \$405,000. Our over-  
all sales were \$229,970.

The county's E Bond quota is  
\$220,000. On May 24, E Bond  
sales stood at \$166,387.50. Other  
sales as follows: F Bonds, \$37-  
812.50; G Bonds, \$20,000; Tax  
Notes, Series C, \$5,750.

The 7th War Loan will con-  
tinue through the month of June,  
in fact, sales of E, F, G and  
Series C Treasury Savings Notes  
through July 7 will be credited to  
the 7th War Loan.

We have no doubt that Ochil-  
tree county will meet the quota  
but would like to see more peo-  
ple buying bonds. We would like  
to see more people, who in form-  
er years had inadequate incomes

now making big salaries, buy  
bonds for security. We know of  
many such persons making more  
money than they ever thought  
they would make in all their life  
... and we also know that many  
of them are not saving a cent.

We are mighty afraid that the  
day will come ... and not too  
many years off ... when they  
will be in dire need of the dol-  
lars they are spending so reck-  
lessly today.

It is true that the war in Eu-  
rope is over but we think the  
war against Japan is far from  
finished. The Japs will fight to  
the last soldier and last civilian.

News that the little yellow men  
are now bombing the United  
States with balloon-carried bombs  
is another recent reminder that  
we still have a long, hard war to  
fight in the Pacific. The Nips are  
overlooking nothing in their vi-  
cious fight. Their tenacity and  
fanaticism should be a warning  
to all Americans ... for only by  
matching the efforts of the ene-  
my can we hope for speedy victory.

This means continued all-out  
support on all home-front pro-  
grams. It means buying more  
war bonds in the 7th War Loan.  
Such solid efforts on the home-  
front can help shorten the war  
and save lives of American boys  
abroad. See your banker or post-  
master today and buy more War  
Bonds.

And stop for a moment to  
honor the memory of a great and  
brave Texan ... Truman Kimbro  
of Madisonville ... who died in  
the Battle of the Bulge so that  
other Americans might live.

Kimbro, a quiet farm lad, braved  
strong enemy fire to plant  
mines that would stop the Ger-  
man advance. Despite wounds,  
he continued at the job and held  
Nazis tanks long enough to allow  
an important American evacua-  
tion and save the lives of hun-  
dreds of his buddies.

His bravery was recognized this  
week when the nation's highest  
military medal ... the Congressional  
Medal of Honor ... was pre-  
sented to his mother, Mrs. Mar-  
jorie Kimbro, who now lives in  
Houston.

Texas at home aren't called on  
to make the supreme sacrifice,  
as Kimbro did. But they can  
honor his memory and also help  
save American lives by going all-  
out in buying bonds in the 7th  
War Loan, to provide the wea-  
pons of war for American service  
men on fronts around the world.

## Perryton Poppy Sale Totals \$372

the American Legion Auxil-  
iary report a generous re-  
sponse in the Poppy Sale, Sat-  
urday, May 26. The total

sale was \$372.38. All money

## Rodeo Held Sat. - Sunday Huge Success

The rodeo held at the fair  
grounds last Saturday and Sunday  
by the Perryton Roping Club was  
a big success, both in gate receipts  
and in satisfaction to the huge  
crowds present.

Favored by ideal weather both  
days, the gate receipts reached a  
high figure and after all expenses  
and prize money is paid, several  
hundred dollars is expected to be  
left for local charities. Total re-  
ceipts will be announced next week.

Such wide interest was shown by  
cowboys and riders of this area  
and so many entries for each event  
came in that the local roping club  
is planning a similar event to be  
held some time in August. All  
events were heavily contested and  
both days of the rodeo saw plenty  
of fast and furious action.

Although the contests afforded  
a multitude of thrills for the audi-  
ence, probably the most popular  
feature of both days' programs  
were the clown acts staged by  
Keith McLain of Perryton and  
Audra Fletcher of Gage, Okla. Mc-  
Lain staged the funny stuff on  
Saturday and Fletcher took the  
honors Sunday afternoon, both go-  
ing over big with the crowds.

Following are the winners in the  
various events, time and prize  
money awarded:

**Saturday Program**  
RIBBON ROPING: Carl Carter  
and M. E. Day, Perryton, first  
place, 28 seconds, \$27.50. Hershel  
Doley and Glynn Weant, Spear-  
man, second place, \$12.50.

county who have been reappointed  
are reminded by Mrs. Beulah Bird-  
well, county clerk, that they have

Most of these reappointed have  
already taken this action, Mrs.  
Birdwell reported Monday.

Cregg, pastor of Perryton Christian  
church, conducted services there  
last Friday night. Others accom-  
panying him were Mrs. Gregg, Al-  
fred Pittman and Alex Bills, pastor

## Two Leave Sunday For Army Service

Bailey will leave Sunday morning

into the armed services. Bailey was  
transferred to the local board from  
Eufaula, Okla.

Two other men were transferred  
from the local board for induction  
in the same call. These are Ther-  
ren E. Snyder and Wilbur R. Funk,  
both transferred to Wichita, Kan.

## Earl Gilson Dies At Guymon, Okla.

Earl Gilson, 60 years old, died at  
Guymon Saturday afternoon. He  
had been a city mail carrier in Gu-  
ymon since 1914. Gilson was known  
all over the southwest for leadership  
in the annual Pioneer Day at Gu-  
ymon. His leadership in civic affairs  
and devotion to public responsibility  
was unusual. Earl Gilson was just a  
civil service postoffice employee, yet  
no business man, professional man  
or property owner in that commu-  
nity took a greater interest or did  
more for the Guymon area than  
City Mail Carrier Gilson.

Nothing is believed more than  
what we know least.

## GREAT CHANGES AHEAD?

ROGER W. BABSON

Babson Gives Startling Advice to Youths

BABSON PARK, Mass. — There can be no question about it, we are in our day—have arrived at one of the great crises of history. The closest approach to present-day conditions is probably to be found in the Roman Empire of Jesus' time. There were many differences, of course, but also some startling similarities.

### Let's Look at History

As in the world we have known, wealth was then, in general, the key to power. When the Roman Empire broke up under the blows of barbarian invasions, civil wars, political corruption, depressions and inflation, great wealth was destroyed and ceased to be the key to power. Power was seized by chieftains; vigorous and dominating who ruled by military might, but pretended to protect their peoples.

# ELLIS THEATRE

Business fell into what we may properly call a drastic permanent depression.

This new way of life shook down into the feudal system. In the feudal period, power was based on control of the land and the serfs who worked it. And for centuries thereafter real power was organized around the hereditary, land-holding aristocracies of Europe. There continued to be an aristocracy, but it was a very different one from the prosperous Roman days.

The discovery of America and of silver and gold which flowed from the mines of Mexico and Peru, plus the reopened trade with the East Indies, upset this feudal system. An economic and industrial revolution, with its political counterpart, this undermined the power of the landed aristocracy everywhere. Private enterprise, private capital, industrial and mechanical achievement again opened the field of economic opportunity to the individual. Again the accumulation of wealth became a road to power. Our country grew up and attained its outstanding position in the world under this system.

### Freedom or Security?

First formulated by Marx, socialist economy came to flower in the Russian Revolution following World War I. The essence of it is the exchange of freedom for a government-promised social security. Sad to say, too many people in this country seem to prefer an artificial security even at the cost of freedom.

This social revolution has already engulfed most of Europe and is hammering at our gates. It has already, under the title of the "New Deal," greatly modified our economic system. The realities of power have already in large measure, passed from the wealthy families and efficient industrialists into the hands of politicians, bureaucrats and labor leaders.

Beware Another Depression. Yet, the powerful New Deal wave which started in 1932 is now receding; although some of the new controls will stick. Private enterprise and private capital are to have another trial. The next few years should be reasonably prosperous in spite of the big national debt. But if another depression comes, then look out for trouble.

Money may then no longer be the high road to power. The young man who wants to get into the struggle for power should perhaps consider politics or become a labor leader. It will be well to have military experience. Those who seek security first should become experts in some one line and depend upon civil service. Small business ventures may provide economic freedom, but not too much security. The failure rate is high. The professions offer positions of honor and public service and the law is a gateway into politics. Farming offers perhaps the largest measure of security and freedom combined, but no financial reward. All of these, even agriculture, now require specialized education.

### Read Good Books

Finally, I want to put in a strong word for the reading of history, economics and philosophy, or let us call it frankly "religion." I recommend this not as means of making a living, but of LIVING. Such reading will give you a better understanding of what is going on in the world and one's proper relation to God and man.

### Missouri Ave. Club

The Missouri Ave. Club met in the home of Mrs. D. D. Shanks May 25. A talk on grading eggs was given by Mrs. Ackley, and a discussion was followed.

A very nice talk on Mr. Churchill was given by Mrs. W. B. LaMaster. Mrs. E. W. Witt gave a talk on penicillin, sulphur drugs and blood plasma.

Refreshments were served to Mesdames A. W. Henry, J. H. Kershaw, Ackley, Witt, J. H. Slaughter, Harkness, Hawk, Bill McLanahan, W. B. LaMaster, John E. Johnson, C. E. McGarragh, Ray Bateman, Rufus Boerjack, Clarence Zirk, a visitor, Mrs. Story and the hostess.

Mr. and Mrs. E. M. Allen and Ralph, Miss Laura Drew of Hooks, Texas and Anna P. Wilson were Sunday night supper guests of Mr. and Mrs. P. E. Gidley.

## With Ernie Pyle in the Pacific:

# Mighty Fleet Paved Way For Invasion of Okinawa

Big Guns Pulverized Island in Covering Landings of Troops

By Ernie Pyle

Editor's Note: Ernie Pyle was several dispatches ahead when he met death from a Jap machine gun on the island. This newspaper will continue to print these for a few weeks.

OKINAWA.—Now that we are ashore in full force upon the Japanese island of Okinawa I would like to go back and tell you in detail how the invasion went off.

As our regimental commander said the night before the landing:

"All I'm worried about is getting past the first two days when we are on our own and will have to improvise to meet every situation. But after that we will be established and from then on we can just go by the book."

The first two days are over—accomplished with an ease that had everybody flabbergasted. By evening of the first day we had done much more than the most optimistic planner figured we could in the first three days. So from now on it's "by the book."

For some reason which I haven't fathomed yet the conventional name of D-Day was changed for this invasion to "Love Day." Possibly it was because we were landing on Easter Sunday and somebody felt the spirit of brotherly love.

At any rate when dawn came on Love Day and the pink, rising sun lifted the shroud of Oriental darkness around us, we were absolutely appalled.

For all our main convoys had converged and there they lay around us in one gigantic fleet stretching for miles. There were around 1,500 ships and thousands of small landing craft which the ships had carried with them.

There weren't as many small ships as at Normandy, but in naval power and actual force of men and fighting strength it was equally as big as the invasion of Europe. We certainly didn't go at Okinawa in any half-hearted manner.

### Ham and Eggs—Then It's Business

We had ham and eggs for breakfast at 4:30 a. m. We strapped our unwieldy packs on our backs. Our heavier gear was left aboard to be taken ashore several days later.

It was only half light when we went on deck. You could see flame flashes on the horizon toward shore. The men on the deck were

dark and indistinguishable forms. Our assault transport carried many landing craft (LCVPs) on deck. They were lifted by a derrick and swung over the side. We piled into them as they hung even with the rail. Then the winch lowered them into the water.

I went on the first boat to leave our ship. It was just breaking dawn when we left. It was still more than two hours before H-Hour. Our long ocean trip was over. The days we had reluctantly counted off were all gone. Our time had run out. This was it.

All around us hundreds of other boats were putting off and churning the water, but there was no organization to it. They weren't yet forming into waves. These early boats carried mainly the control crews who would manage the colossal traffic of shore-bound invasionists in the next few hours.

An assault on an enemy shore is a highly organized thing. It is so intricately organized, so abundant in detail that it would be impossible to clarify it all in your mind. No single man in our armed forces knows everything about an invasion.

But just to simplify one point—Suppose we were invading an enemy beach on a four-mile front. It is not as you would think, one over-all invasion. Instead it is a dozen or more little invasions, simultaneously and side by side. Each team runs its own invasion. A combat team is a regiment. Our regimental commander and his staff were on the little control ship. Thus our control ship directed only the troops of our regiment.

"We had beaches 'Yellow One' and 'Yellow Two.' Troops of our regiment formed waves directly off those beaches, miles at sea, and we went straight in.

Other control ships on either side, having nothing to do with us, directed other waves having nothing to do with us. Each was its own private little show.

As I've written before, war to an individual is hardly ever bigger than a hundred yards on each side of him. And that's the way it was with us in Okinawa.

An hour and a half before H-Hour at Okinawa, our vast naval

fleet began its final, mighty bombardment of the shore with its big guns. They had been at it for a week, but this was a concentration whose fury hadn't been approached before.

### Bombardment of Shore Deafening

The power of the thing was ghastly. Great sheets of flame would flash out from a battery of guns, gray brownish smoke would puff up in a huge cloud, then the crash of sound and concussion would carry across the water and hit you. Multiply that by hundreds and you have bedlam.

Now and then the smoke from a battleship would come out in a smoke ring, an enormous one, 20 or 30 feet across, and float upward with perfect symmetry.

Then came our carrier planes, diving on the beaches. And torpedo planes, carrying heavy bombs and incendiaries that spread deep red flames.

Bombs and strafing machine guns and roaring engines mingled with the blended crash of naval bombardment and seemed to drown out all existence.

The water was a turmoil of movement. Dispatch and control boats were running about. LSMs and LSTs were moving slowly forward to their unloading areas.

Motor torpedo boats dashed around as guides. Even the destroyers moved majestically across the fleet as they closed up for the bombardment of the shore.

From our little control ship and the scores like it, waves of assault craft were directed, advised, hurried up, or slowed down.

H-Hour was set for 8:30. By 8 a. m. directions were being radioed and a voice boomed out to sea to form waves 1 and 2, to hurry up, to get things moving.

Our first wave consisted solely of heavy guns on amphibious tanks which were to wade ashore and blast out the pillboxes on the beaches. One minute behind them came the second wave—the first of our foot troops.

After that, waves came at about 10-minute intervals. Wave 6 was on its way before wave 1 ever hit the beach. Wave 15 was moving up before wave 6 got to the beach. That's the way it went.

..... We were on the control boat about an hour. I felt miserable and that awful weight was still on my heart. There's nothing romantic whatever in knowing that an hour from now you may be dead.

Some officers I knew came aboard. They weren't going ashore until afternoon. They wanted to talk. I simply couldn't carry on a conversation. I just couldn't talk.

Word came by radio that waves 1 and 2 were ashore without much opposition and there were no mines on the beaches. So far, so good.

We looked at the shore through binoculars. We could see tanks moving across the fields and the men of the second wave walking inland, standing upright. There were a few splashes in the water at the beach, but we couldn't make out any real fire coming from the shore. It was all very indefinite and yet it was indicative. The weight began to lift. I wasn't really conscious of it. But I found myself talking more easily with the sailors, and somehow the feeling gradually took hold of me that we were to be spared. The 7th wave was to pick us up as it came by. I didn't even see it approaching. Suddenly they called my name and said the boats were alongside.

I grabbed my pack and ran to the rail. I'm glad they came suddenly like that. The sailors shouted "Good luck," over and over and waved us off. We were on our way.

## Marines Find Perfect Defense Position

After a couple of days with the headquarters of the marine regiment I moved to a company and lived and marched with them for several days. The company is a part of the First Marine division, a very hard-bitten outfit.

The company was on a hill about 3,000 yards long and about a hundred yards wide. The men were dug in down the sides of the hill.

Mr. and Mrs. O. O. Cox had as their supper guests Monday evening, their daughter, Mrs. Gene Brillhart, and Mr. and Mrs. Bud Fuller of Corpus Christi.

Miss Norma Jo Boyd left last Saturday for Brownfield where she will spend the summer with her mother, Mrs. Thomas D. Zorn, and her brother Don.

## McMillen Club

The McMillen Home Demonstration Club met Wednesday, May 23, in the home of Mrs. Kenneth McLain. Mrs. Virdie Wheeler, home demonstration agent, met with the club and gave details on tailoring.

Mrs. Wheeler gave illustrations and useful points on inserting a zipper, making padded stitching and shoulder pads. She showed a suit she was making and the good points on correct tailoring.

The hostess served refreshments to the following members: Mmes. Fred Tarbox, B. E. Plummer, Hollis Gossett, Harvey Urban, James Hardy, Omar Barnes and Bud Barnes. Visitors were Mrs. F. L. Allen, Mrs. Ralph Cogdell, Misses Eula Etta Plummer, Gayle Gossett, Dora Lee Gossett and Mrs. Wheeler.

Mrs. R. C. Hamilton left Saturday for Camden, N. J. She received word that her husband, Sgt. R. C. Hamilton, who has been with the U. S. Army in Germany, is on his way home after receiving a discharge with 112 points. She plans to meet him in New Jersey.

### SUNDAY SCHOOL LESSON

### The Old and New Testaments Omit 400-Year Dark Era

The International Sunday School Lesson for June 3

READERS of this column have probably themselves corrected an uncorrected slip in the comment on the lesson for April 22, in which in an unthinking moment I attributed to Paul the great address by Stephen in Acts 7. Paul, of course, was not a Christian at the time, and his recorded addresses do not appear until late in the Book of Acts.

The period between the Old and New Testaments is one to which comparatively little attention is paid by Bible readers, but it was of great importance in the development of Judaism and in the preparation for Christianity. Over 400 years elapsed between the last writing of the Old Testament and the first writing in the New. The period was not without religious writing, as readers of the Apocryphal Books of the Old Testament well know, but the 14 books, varying in value, were not a part of the Hebrew Canon, which closed with the Book of Malachi.

This period of over 400 years saw the rise and fall of the Persian Empire, its overthrow in the world conquest of Alexander the Great and the ascendancy of Greece, and the domination of the world by Rome, completed shortly before the Christian era, which was to continue throughout four centuries of Christian development.

The confusion and contrasts, the struggles for power, the persecutions and the bitter sufferings and destruction of masses of people, that have marked recent years in our own time, are prevalent in that history along with the evidences of deep faith and religious feeling. The records of cruelty would be almost incredible, had I not seen, only the night before writing these words, the films of the terrible atrocities committed by Nazi fiends in the prison camps of Germany. It is in the light, or darkness, of such present-day fiendishness that one reads of the slaughter of 6000 Jewish worshippers within the very precincts of the Temple, when Alexander Jannaeus brought in his mercenary troops, to effect this wholesale murder, when the worshippers had protested against the desecration of the altar and of their religious rites.

Italy and Germany knocked out!  
Now Japan. Japan is strong, stronger than we like to believe, although common sense tells us this is true.

The enemy of the Pacific is girded for 50 years of war. Japan's 35 million workers on the home islands are working every day in the week from 14 to 16 hours a day, turning out war equipment and foodstuffs. Then, too, there are the 400 million conquered Asiatic slaves who are, under the whip and lash, manufacturing untold quantities of material. This, plus Japan's willingness, as demonstrated to our fighting men, to sacrifice 10 million soldiers, gives the United States an enemy empire that is second in size in the world.

We know it took the Marines about four weeks of the hardest fighting in the corps' history to capture two Jima. We know the Japs fought with the determination to die fighting. Altogether we have killed about 100,000 Japs, and taken but a handful of prisoners. Jap soldiers would rather die for their emperor; to do so gives them immediate entry to a pleasant after life, they believe.

This is the enemy next on our list. This is the enemy that attacked Pearl Harbor. This is our challenge. And one of the best methods to meet that challenge and to win is to support the Mighty Seventh War Loan with individual purchases of more and bigger War Bonds.

Set your individual quota according to your ability — then meet it!

Mr. and Mrs. G. D. Holt met their son, Lt. Robert H. Holt, who flew to Liberal Saturday morning. They took him back to Liberal Sunday evening and he flew back to San Angelo.

The latest on new auto production is that WFB wants to get it up to the rate of two million new cars annually but that this figure will not be reached until early in 1946. Experts say that 5 to 6 million new cars are needed now to meet essential needs, so car rationing of some kind is the prospect until late in 1946.

Gasoline rations will be upped for a few months, then cut again and tire quotas will not meet peak summer needs.

WFB will ease housing construction soon. Repair and modernization first, raising the \$200 limit to \$1,000. Like increase for business and farms. Permits for new homes will be easier to get in a few months. More and better hardware and plumbing in six months but lumber will remain scarce for some time.

We have before us a report of the recent meeting of the Texas City Managers Association. It says that all cities, regardless of size, are facing a tremendous financial problem of replacing equipment.

Inability to get cars, trucks and many other machinery items likewise has caused maintenance and operating expenses to mount to

unusually high levels. This has held down the size of financial backlogs that could have been built up for replacements under ordinary conditions.

The report said that cities would have tough going financially after the war and urged them to tighten their organizations to prepare for the hard times when tax collections will be more difficult and many demands will be made for public expenditures. By operating strictly within carefully prepared budgets, cities can best meet the difficult post-war period.

From Sgt. Bill Miller comes another first edition of "The Stars and Stripes." This time it's Volume 1, No. 1 of the Southern Germany edition. We're passing on to you the especially fine dedication editorial. "No newspaper in history has ever borne bolder tidings than this, the first issue of the Southern Germany edition of The Stars and Stripes. It is printed in Aldorf, near Nurnberg, on presses which not long ago spewed out Der Sturmer, Julius Streicher's organ of horror and hate. It is dedicated to the Eisenhower, who has fought as zealously for principle as he has for military victory. It is dedicated to the troops who cut deep into the belly of the German enemy. It is dedicated to the dead we mourn today... who line roads from the Channel to the Elbe, from the desert to the Alps. It is dedicated to another hero who fell... Franklin Delano Roosevelt. It is dedicated to the defeat of the Eastern enemy. It is dedicated to truth. To freedom. To the dignity of the com-

men man. It is dedicated to the belief that men, with the world's tragic lesson before them, can find a better way to settle their differences and live their lives... in peace, with reason, and with enduring good will."

From Bill we also receive "Extry" edition of the Blade, published by the Engineer Combat Command, announcing the end of the war in Europe.

## To All RESIDENT and NON-RESIDENT OCHILTREE COUNTY LAND OWNERS:

★ ★ ★

As soon as war time restrictions are removed as to road machinery the Commissioners' Court expects to purchase ample machinery to properly grade and maintain all first class public roads of a width of 60 feet or more.

Less than 60 feet is not sufficient for a proper road right-of-way and notice is hereby given to all land owners to pull their fences back to allow for at least 60 feet for right-of-way, if they expect to have graded and maintained a first class public road.

It will be some months yet before machinery will be purchased but it will take some months for such right-of-ways to be widened by removing fences.

The Court expects to allow \$30.00 per mile for moving fence, where fence is to be moved. No other claims or damages are expected to be paid.
