Tension In Prague

By GENE KRAMER
Associated Press Writer

PRAGUE (AP) — Uneasiness was felt in Prague today over a weekend Soviet-Czechoslovakia summit meeting held in the Ukraine amid the kind of secrecy that was common before Alexander Dubcek came to power.

The two - day talks in Kiev covered "issues of common interest" including "further development of cooperation" between the two Communist parties and countries, a vague communique issued Sunday in Moscow said.

It said the talks "passed in a cordial atmosphere, in comradely and friendly spirit." The language was warmer than that used to describe previous Soviet-Czechslovak meetings, but there was no mention of "complete unity of views" — the Communist phrase to describe agreement fully satisfying the Kremlin.

Most Czechslovak officials and the local press was kept in the dark about the meeting until after it was over. This was in marked contrast to nearly all earlier meetings which Communist party chief Dubcek and his associates held with Kremlin officials, both before and after the Soviet invasion of Czechoslovakia in August.

The extreme secrecy was a blow to Czechoslovak journalists, intellectuals, students and factory groups who have been protesting the drastic curtailment of information since the invasion.

WIN RECOGNITION — These second-year journalism students and photographers won state-wide recognition for their work on "The Tiger's Tale," student newspaper. They are, from left to right, Front Row; Anitta Norris, co-editor; Lois Pinkerton, picture editor; Donna Lester, news editor; and Jan Detrich, business manager; and, Top Row, Mrs. Bob Cole, publications sponsor; Valvin Garcia, sports editor; Terry McNair, Terry Rannefeld, Steve Boydstun, and Sal Amato, photographers. Not pictured is Dana Thompson, co-editor.

SHS Paper Wins Honor

The Tiger's Tale, Snyder High School newspaper, was awarded the top honor at the Texas High School Press Association convention in Denton this past weekend.

Entered in a class of schools with enrollments between 500 and 999, the paper was judged on three issues submitted in October and was declared a co-champion. Sharing the co-championship with the Tiger's Tale was the Greenie Gusher of South Park High School, Beaumont.

The 1967-68 Tiger's Lair, the SHS yearbook sponsored by Miss Mary Middleton, received an All-Texas rating.

Members of the Tiger's Tale staff who attended the convention were Anitta Norris, co-editor and Suzanne Martin and Kathy Boren, first year students. LaVerne Nix, editor of the Tiger's Lair, and Betty Smithee, assistant-editor along with Jane Merritt, first-year annual student, also attended.

Other members of the Tiger's Tale staff are Dana Thompson, co-editor; Valvin Garcia, sports editor; Donna Lester, news editor; Jan Detrich, business manager; Lois Pinkerton, picture editor, Kathy Boren, circulation manager; Terry Woellert, assistant business manager; and Danny Ellington, assistant sports editor. Also, reporters Annette Woods, Sheila Greene, Debi Hall, Suzanne Martin, Pam Patterson and Jodi Williamson. Photographers for the publications are Sal Amato, Steve Boydstun, Billy Knight, and Terry Rannefeld.

Other members of the Tiger's Lair staff are Daphne Merritt, Debbie Sims, Lois Pinkerton, Jeannine Thompson, Karen Komma, Jodi Williamson, Leland Herod, Marsha McGlaun, Sheri McGlaun, and Brenda Murphy.

North Viets Lash At Nguyen Ky

PARIS (AP) — A spokesman for North Vietnam's delegation to the Paris peace talks lashed at South Vietnamese Vice President Nguyen Cao Ky today, calling him "a puppet, a servant of the United States and a devotee of Hitler."

It was a forerunner of many charges and countercharges expected as the Vietnamese rivals maneuver toward the enlarged peace talks.

The U.S. and South Vietnamese teams set up a strategy sessions later in the day with Ambasador W. Averell Harriman and Cyru R. Vance on the American side an Pham Dang Lam and Bui Diem, the ambassador to Washington, on Saigon's side.

The North Vietnamese blast at Ky came from Hanoi delegation spokesman Bui Nhan and referred to past remarks Ky had made about Hitler in South Vietnam.

Ky denied at the time that he was voicing any admiration for the former Nazi dictator. And in the course of his exuberant arrival here Sunday the jaunty former combat pilot repeatedly stressed he was no puppet of Uncle Sam.

Serious Setback To Lunar Landing

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, Houston (AP) — The crash Sunday of a spider-like craft designed to teach pilots how to land on the moon may have been an "unassessable setback" to America's man-to-the-moon program, a space official said.

The training vehicle, a bug-like craft which darts and hovers in an artificially created one-sixth earth gravity similar to the moon's, crashed after developing wildly uncontrollable twisting and swaying motions.

The pilot, Joseph Algranti, ejected and parachuted to safety. Algranti, a test pilot for the National Aeronautics and Space Administration, was unhurt.

Paul Haney, director of public affairs at the NASA spacecraft center, said the crash of the $1.8 million Lunar Landing Training Vehicle—LLTV—may have been "an unassessable setback" to the lunar landing project, "but to what degree is anybody's guess."

"We'll have to figure the effect on an over-all training program," Haney said. "The flight was to have been the last major test before the craft was used for astronaut training."

An accident investigation board, headed by astronaut Walter M. Schirra Jr., convened shortly after the accident but its report is not expected for some time.

Astronaut Neil Armstrong was at the controls of a similar craft last May when it went out of control. He parachuted to safety, suffering minor injuries. The craft crashed and exploded.

NASA officials said Algranti was four minutes into a six-minute flight when the craft developed a "hammock-like action" and went out of control. Algranti was descending from 550 feet and ejected at about 200 feet, officials said.

A board investigating Armstrong's crash said it resulted from an inadequate warning system which failed to tell the pilot early enough that he was losing fuel pressure in one rocket system. The late warning did not leave Armstrong time to respond properly.

Nixon To Reveal Slate Wednesday

By FRANK CORMIER
Associated Press Writer

NEW YORK (AP) — President-elect Richard M. Nixon will fly to Washington Wednesday to announce his entire slate of cabinet nominees before national television cameras at 10 p.m., EST.

Ron L. Ziegler, Nixon's press spokesman, announced this today and said that Nixon, who would be accompanied by members of his new cabinet, might take the occasion to also disclose "other major appointments."

The president-elect will make his announcement in the Palladium Room at the Shoreham Hotel. The national television and radio networks have been invited to provide live coverage of the event, and there seemed little doubt that one or all of them would snap up the offer.

Ziegler said it would be fair to conclude that Nixon now has made final decisions on his choices to head the 12 cabinet departments.

Asked to comment on widespread reports that Republican Rep. Melvin Laird of Wisconsin has been tagged to be secretary of defense, Ziegler said, "I can neither confirm nor deny any speculation with respect to the cabinet."

Presidents-elect normally dribble out cabinet announcements over a period of days and even weeks. But Nixon decided to make one big splash by announcing all at once and, to quote Ziegler, "thought Washington, D.C., was the appropriate place to make an announcement of this magnitude."

On Thursday morning, Nixon will meet with his new cabinet at the Shoreham, where he will spend the night. He will return to New York later in the day, Ziegler said.

On Nixon's public schedule for today were two prominent callers, Robert B. Anderson, who was under secretary of defense and secretary of the Treasury in the Eisenhower administration, and William McChesney Martin, chairman of the Federal Reserve Board.

In the evening, Nixon was to address a national board meeting of the Boys Clubs of America at a Manhattan Hotel.

Nixon, who has indicated he will seek early meetings with Western European leaders, has added fuel to the active rumor mill here by conferring nearly two hours with R. Sargent Shriver, ambassador to France.

Shriver said he flew to New York from Washington Sunday at Nixon's request to "bring him up to date about things in France."

The brother-in-law of Sen. Edward M. Kennedy, D-Mass., indicated he and Nixon didn't discuss a possible Cabinet appointment for Shriver nor even the possibility of his continuing as ambassador to France. However, the fact that the conversation at the President-elect' Fifth Avenue apartment was the longest yet announced by Nixon prompted speculation about Shriver's future.

Shriver described the meeting as "a pleasant and I hope useful visit." He said it would be up to Nixon to reveal whether he was given any personal message to carry to French President Charles de Gaulle.

Herbert Klein, Nixon's director of communications, said Sunday that he thought the incoming President would seek closer ties with Western European allies before considering personal talks with Soviet leaders.

TOP JOURNALISTS — The Snyder High School journalism class was awarded a top prize last weekend for the quality of its newspaper, "Tiger's Tale." Members of the first-year journalism class are, from left to right, Front Row, Annette Woods, artist; Pam Patterson, reporter; Kathy Boren, circulation manager; and, Suzanne Martin, reporter; and, Top Row, Sheila Greene and Debi Hall, reporters; Danny Ellington, assistant sports editor; Jodi Williamson, reporter; and, Terry Woellert, assistant business manager.

High Court To Hear 10 Militants

WASHINGTON (AP) — Ten black militants charged in New York with advocating the overthrow of government through sabotage and assassination were granted a hearing today by the Supreme Court.

The 10 include suspended school administrator Herman B. Ferguson and young militant leader Arthur Harris, both convicted earlier this year of conspiring to slay two moderate civil rights leaders.

Attorneys for the 10 had asked the court for a hearing on the constitutionality of New York's 1902 law against criminal anarchy. They argued the 66-year-old law could not be reshaped by courts to conform with more recent legal safeguards.

Ferguson, 46, and Harris, 22, were found guilty last June of conspiring to kill civil rights leaders Roy Wilkins and Whitney Young Jr. after a Negro police detective testified how he had infiltrated the Revolutionary Action Movement (RAM).

In a separate indictment under the anti-anarchy law, the 10 were charged with advocating the overthrow of New York's government "by force and violence" including the use of guns and fire bombs against transportation facilities and the assassination of public officials.

Stargazer Turns On

CAPE KENNEDY, Fla. (AP) — OAO 2, America's robot astronomer satellite, successfully passed a critical engineering test today when six star trackers needed to aim the craft's telescopes were turned on and functioned properly.

"Everyone is really pleased. It looks like a good bird," said a spokesman for the National Aeronautics and Space Administration's Goddard Space Flight Center in Greenbelt, Md.

SP.4 DENNIS KENNEDY
. . . proud of his home town

Soldier Thanks Snyder For Books

Sp. 4 Dennis Kennedy, a Snyder High School graduate now serving in Vietnam, has written The Snyder Daily News to express his appreciation on the response to a plea for books.

Sp. 4 Kennedy wrote last summer asking for books to be sent to his outfit in Vietnam. Several organizations and individuals assembled quantities of books and they were shipped overseas. Shortly thereafter, officers and men expressed their thanks and Sp. 4 Kennedy has added his own personal note of appreciation to people in the town where he resided before entering military service.

His letter follows:

"I would like to take a few minutes to express the deep and profound admiration and respect I have for the City of Snyder and its kind citizens. A couple of months ago I made a simple request for library books and it was answered by such generosity that it far exceeded my expectations.

"Twice now, during the course of the Vietnam War, the people of Snyder have made a contribution that has greatly affected the morale of the American soldier. First was the soap drive of 1966. Now you have once again showed your concern and generosity by contributing a tremendous number of library books.

"It is with great pride for my home and its kind people that I write this letter of appreciation. Each time a soldier picks up a book to read, I hold my head a little higher and say, 'That book is the compliments of Snyder, Texas.'

"What more can a soldier ask of his home? When people bond together in time of need, they form a lasting freindship. Now I look upon each citizen of Snyder as my personal friend.

"The pride and respect I hold for Snyder, Texas, cannot be expressed, so I will close by wishing that God bring only the best to such a great town, now, and in all the years to come. God Bless you all and thanks from the very bottom of my heart."

Divers Seek 17 Missing Crewmen

By VERNON A. GUIDRY JR.
Associated Press Writer

WHITE CASTLE, La. (AP) —Divers today search by touch in the sunken White Alder for bodies of 17 crewmen missing since a collision with a freighter sent the Coast Guard buoy tender 75 feet to the bottom of the Mississippi River near here.

The shoreline and river search for the men continued. It began shortly after the 133-foot vessel was hit by the Nationalist Chinese freighter Helena Saturday night.

Three of the 20-man crew were plucked from the river but no trace of the others was found.

After hours of dragging operations, the White Alder was located Sunday when three large cannister buoys from the vessel rose to the surface, giving away its resting place.

The boat was grappled from the surface and marked with buoys.

Operations were suspended pending the arrival of a Navy diving team and its tons of equipment. Lt. Philip Sage said a decision was made not to send scuba dviers down Sunday because of choppy waters and the possibility that other buoys would break free and come rushing to the surface.

No official word was given on the possibility of more survivors, but a Coast Guardsman said privately that little hope was held since no contact had been made in the search.

By ABIGAIL VAN BUREN

DEAR ABBY: Larry and I are high school sophomores. We have been going steady for a year and plan to marry when we graduate.

Larry heard about a good book on sex and marriage, and he wants to get it so we can study it together. It is not dirty, Abby. It was written by a doctor and is supposed to have a lot of good stuff about the importance of sex as it relates to married life.

The reason I am writing is because I have always told my mother everything, and for some reason I haven't told her about this. I hate to sneak. What do you think?

LARRY'S GIRL

DEAR GIRL: I think you haven't told your mother because deep down you know it's wrong. "Studying" a subject is sure to stimulate one's curiosity and interest. And there's no point in "studying" the violin if you have to wait 2 years to practice.

• • •

DEAR ABBY: I answer the telephone for a rather large concern. We have three nice young fellows who do a real good job. But they could do better if their wives would quit calling them at work so much.

I can understand emergency calls, but these wives call up to ask, "Are you planning to work late?" Or, "We got a letter from Joe today." Or, "The baby cut a tooth." Abby, I know both these wives and I wouldn't hurt their feelings for the world, and I certainly wouldn't say anything to the fellows, but if you print this, they may get the hint. Besides, it's not fair to call a person at work to just gab about nothing on company time.

TELEPHONE GIRL

DEAR ABBY: I just finished a best-selling book on child rearing. The author said that when a child and his parents visit people, the burden of responsibility for the child's behavior is left with the child and the HOST. In other words, a child is more apt to obey an outsider than his own parents.

This really upset me, Abby. When parents come to visit me and bring their children along, I don't think it's MY place to discipline their children. Can't parents see a child walking on the sofa? Why should I have to tell somebody else's child how to behave when his own mother is sitting right there? What's your idea?

MRS. G. W.

DEAR MR. G. W.: Some of the theories in child rearing books make fascinating reading, but unless they "work" they aren't much good. Don't believe everything you read.

DEAR ABBY: Tell "FLAT IN ATLANTA" not to feel so sorry for herself. If it weren't for US, those gorgeous, full-busomed gals wouldn't look so good.

Emergency Room Usually Misused

What does the hospital emergency room usually bring to mind? If you are like most people, you probably think of screaming sirens and screeching brakes as an ambulance rushes to the emergency room entrance with a seriously ill or injured person. Although this typical image is in keeping with the intended use of hospital emergency facilities, the actual use of such facilities is far different and is indicating an alarming trend. In a recent survey, 42 per cent of the visits to emergency room facilities are nonemergency conditions.

You can help prevent this overuse and misuse of hospital emergency room facilities by becoming more aware of your responsibility as a potential patient. First, you should know just what is meant by an emergency. An emergency case is one which needs immediate attention and aid. Heart attack patients, gunshot or stab wound victims, victims of automobile accidents with serious internal bleeding or multiple lacerations are just a few examples of cases which would probably justify emergency care.

However, you might be surprised to learn that some of the more common abuses of emergency room facilities include patients coming in with cold or flu symptoms and asking for shots or other medication, or finally getting around to asking for treatment of some ailment they may have had for several days or weeks.

To help further your understanding of why use of emergency care facilities is becoming a problem, you should perhaps be aware of one other important factor. In non-teaching hospitals where no staff or resident doctors or interns are on duty in the hospital, members of the hospital's medical staff take turns being "on call" in the emergency room.

In order to alleviate much of the unnecessary congestion in hospital emergency rooms, the following suggestion is made:

The basic rule is to call your family physician any time you feel you need medical attention. If he considers your case serious enough to require emergency treatment he will direct you to the emergency room. This way, you will have avoided unnecessary delay in getting the treatment you need, and an unnecessary load has not been placed on the emergency room facilities or the medical staff.

Demand For Water Dips

An unusual thing for this area — a wet November — whittled water demands somewhat for the Colorado River Municipal Water District.

During the month the district delivered 800,091,856 to its customers, said Paschall Odom, assistant to the general manager. This was 2.96 per cent less than for November 1967. For the first 11 months of the year, the district has delivered 11,181,-968,868 gallons to its customers, or 6.68 less than for the same period last year.

During November, the cities took 428,919,000 gallons, or 2.98 pct. less than a year ago. Odessa received 218,120,000, down 3.88 pct.; Big Spring 163,628,000, down 6.47 pct.; Snyder, 44,808-000 up 11.28 pct.; and Stanton, a new customer, 2,363,600.

The oil companies drew 321,352,856 gallons in November, a decline of 2.94 pct. from a year ago.

W. McCollum Rites Pend

Funeral arrangements were pending here this morning for Wallace McCollum, 61, a former Snyder resident who died Sunday in Los Angeles, Calif. Funeral arrangements were to be announced at Bell-Seale Funeral Home.

Mr. McCollum, who had retired from military service, was a native of Rains County and was a veteran of World War II.

Surviving are his wife, Mrs. Bernice McCollum of Emory; a son, Wally McCollum of Emory; his mother, Mrs. Mary Belle McCollum of Snyder; four sisters, Mrs. Lucille Jenkins of McKinney, Mrs. Elvis Skinner of Dallas, Mrs. Jim Sherman of Snyder and Mrs. L. T. Nail of Dunn.

Seek Poison Jewelry

CHICAGO (AP) — Sears, Roebuck & Co. officials are continuing a nationwide search for 300 to 400 pieces of costume jewelry, which are decorated with a poisonous tropical bean that could cause death if swallowed.

A Sears spokesman, Ernest L. Arms, Sunday urged buyer of the $1 pins to return them to the store where they were purchased.

Arms estimated that 31 pins imported from Japan by a New York firm were sold to customers in the Chicago area and more than 300 nationwide through 138 Sears outlets in at least 110 cities.

A Food and Drug Administration spokesman in Washington said Sears received 200 boxes, each containing 48 pins. About 12 pins in each box were decorated with the deadly jequirity bean.

The FDA spokesman said some 30 other firms also received one or two boxes each, but there was no way of knowing whether the deadly pins were placed on sale.

Harriman Is On Way Back

NEW YORK (AP) — U.S. Ambassador-at-large W. Averell Harriman headed back to Paris today, saying he believes the "dynamic quality" of the Vietnam peace talks will hold the conference together until agreement is reached.

Harriman said he did not think the changeover in chief negotiators expected about the time President-elect Richard M. Nixon takes office will create any difficulties.

The Nixon men who replace him and Cyrus Vance, Harriman said, will inherit a staff of political and military advisors "who have already played important roles in the negotiations."

"I hope we can make some progress by Jan. 20," Harriman told newsmen at Kennedy Airport, "but the final settlement will undoubtedly be left to President Nixon's administration."

Harriman added that he has informed Nixon that he will be available to give any advice Nixon might seek.

Ira Girl Is Named Winner Of 'Voice Of Democracy'

Linda Autry, 16, daughter of Mr. and Mrs. J. B. Autry of Ira, is the winner in the Voice of Democracy script writing contest sponsored by Veterans of Foreign Wars Post No. 8231 and its Auxiliary.

Runnerup in the contest called "Freedom's Challenge," is Terry McNair, 17, son of Mr. and Mrs. Wacil McNair of Snyder. Third place went to Joe Murphy, 17, son of Mr. and Mrs. W. A. (Pat) Murphy of Ira.

Judging was held Saturday morning in the Snyder Savings and Loan Company's Community Room. Judges were Rev. Cyril Lange, pastor of St. Elizabeth Catholic Church; Mrs. W. S. Bigham, Scurry County speech therapist; and, Mickey Nunley, president of the Snyder Jaycees.

Also present for the judging were T. V. Early, commander of VFW Post 8231; Jim Moss, local Voice of Democracy chairman for the VFW; Mrs. Francine Spivey, Auxiliary Voice of Democracy chairman; and Harold Spivey, past adjutant for the Veterans of Foreign Wars.

Judges heard taped speeches of the contestants. The purpose of the contest is to make young Americans more aware of their heritage and the sacrifices that others have made to preserve our freedoms.

Local winners are eligible to enter the state contest, and state winners will compete for national recognition.

Call To Satroux

PARIS (AP) — Gen. George Catroux retired in 1939 but came back early in World War II as Free French commander in the Middle East and later led troops in the liberation of France from the Nazis. The government now has asked the National Assembly to call Catroux out of retirement once more and place him on the army active list as a reward for distinguished service. He is 92.

Famed Pilot Dies Sunday

FORT WORTH (AP) — Henry Tift Myers, 61, a flying chauffeur for world leaders including two presidents during the 1940s died here Sunday.

Myers became the number one wartime pilot after being recalled into the Army in 1942. He was a personal pilot for Presidents Franklin D. Roosevelt and Harry S. Truman.

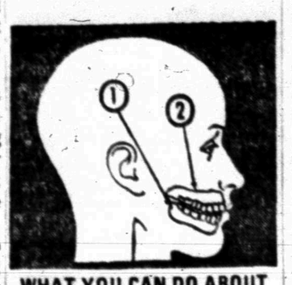
Myers was known as an especially safe pilot, but the only one to ever buzz the White House. He piloted the DC4 "Sacred Cow" and DC6 "Independence" presidential planes.

After his stint with the Army he went to work as a clerk for American Airlines in Dallas, but was drafted as pilot when half the airline's crew came down with the flu and officials found out Myers could fly. A career as a commercial airline pilot followed.

Myers was married to Maidee Calloway Williams of Fort Worth in 1945. Truman took the train to the Army-Navy football game so his pilot could have the day off for the occassion.

Myers is survived by a son and a sister, Mrs. Marguerite Myers Miller of Tifton, Ga.

Funeral services will be Wednesday and burial will be Thursday at Tifton.



WHAT YOU CAN DO ABOUT LOOSE FITTING DENTURES

What's the cause? The answer?

(1) Gum shrinkage causes: Looseness and slipping. (2) Poor fit causes: Sore spots and irritation. Eating and talking become a serious problem. Now a specially fortified denture adhesive powder called SUPER-DENT has been developed to counteract poor fit and slippage. SUPER-DENT's "no slip formula" has a base so closely resembling the feel and action of real teeth that users are calling it "foolproof". Try SUPER-DENT and see how fast you get this "feel of real teeth" folks are talking about. Buy SUPER-DENT today at your favorite drug counter.

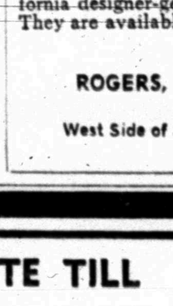
Deposits Go Into 'Water Bank' Again

The "water bank" project of the Colorado River Municipal Water District is back in operation.

Water from Lake J. B. Thomas is being injected into the dewatered zones of the Martin County well field at the rate of 3.2 million gallons per day, said Paschall Odom, assistant to the general manager. Through Nov. 30, 48,600,000 gallons had been injected. By the time spring creates new demands on the pipelines and storage, around 350,000,000 to 400,000,000 gallons should have been put in storage near point of demand.

NEW WAY TO BE SUDDENLY SLIM

Los Angeles:—Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, or your waistline is larger than 32 inches, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.



Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available at

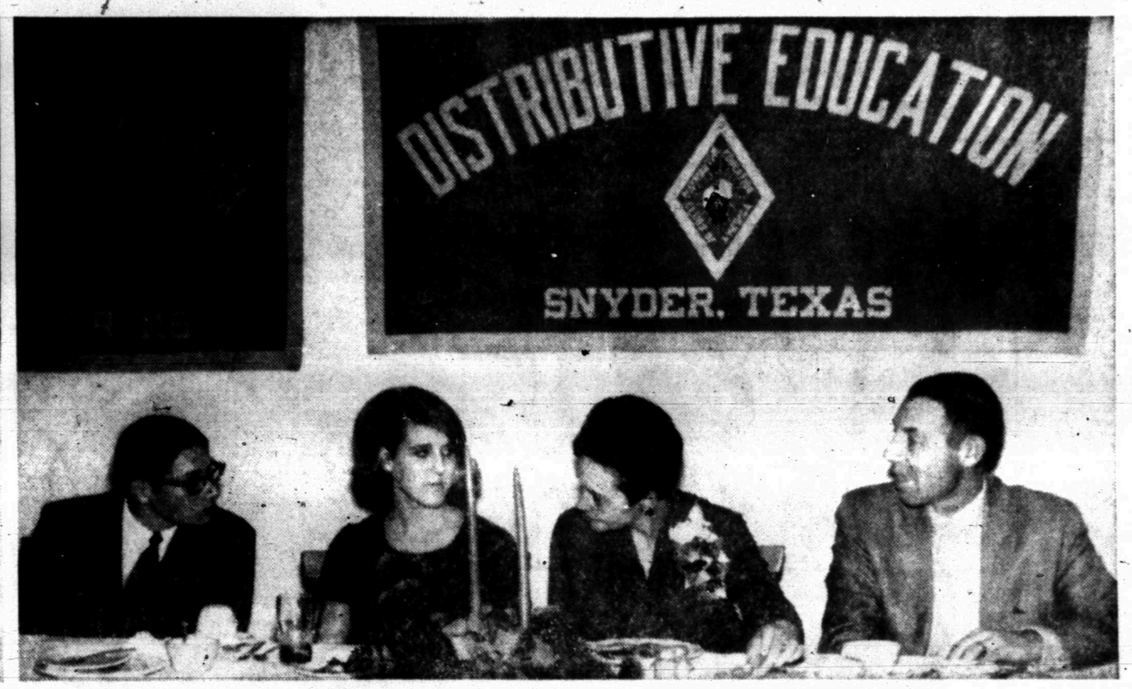
AT HEAD TABLE — Mrs. and Mr. Bill Hood, Leonard Kuss and Karen Jones.



GARY FIELDS, was master of ceremonies, Charlotte Hill and Mrs. and Mr. Sid Streicker.

At Employer Employee Banquet

The Distributive Education, Industrial Cooperative Training and Agricultural Cooperative Departments of Snyder High School held their annual Employer - Employee Banquet Friday evening at the Snyder Country Club.

Approximately 200 persons attended the event held in the ballroom amid a gala Christmas atmosphere. Tables were laid with white linen and held centerpieces of poinsettias.

Gay Fields was master of ceremonies and Miss Wayla Walton played dinner music throughout the meal. Karen Jones gave the invocation.

Mr. Bill Hood, Superintendent of Snyder Schools spoke briefly to the group, telling the employers of his appreciation in the school projects. School board members were also recognized.

Mr. Sid Streicker of Odessa College was the guest speaker for the evening. He spoke to the group on the importance of preparing for business leadership, stressing that "pride" plays a very important part in the world of today. Although his talk gave many humorous examples, he said that there were two words to remember and their meaning, the Greek work "Athwi" (awe to heck with it) and the Latin word "Anthesum," that means so much in this competitive world, (you do it and then some). The importance of know how, time, energy, imagination and concentration are also a necessity. It's not so much what you have, it's how you use it, that makes a worthwhile employe today.

THEORY OF NEW ECONOMICS

Economy To Be Regulated?

By JOHN CUNNIFF
AP Business Analyst

LOS ANGELES (AP) — Among the likely departures from Washington along with the Democratic administration is an economic idea, the belief that the economy can be fine tuned.

This is not to say that the economy never can be made to do the bidding of the monetary and fiscal masters, which are the Federal Reserve Board and those who control government spending and taxes.

But at the present time the attempt to give precise orders failed. The economy has been disobedient, despite the theory that it can be regulated, manipulated, forced to respond in precisely predictable ways to government spending and taxes, and to the amount of money permitted to flow to business and consumers.

Fine tuning was a concept of the New Economists, the very people who put through the stunningly successful tax cut of 1964 that spurred the economy to its greatest heights ever.

This was a huge triumph. By lowering income taxes, the economy was so encouraged to expand that the federal government, although taking less from everyone, ended up with more revenue than it had been able to earn previously.

This maneuver showed how much government and its economists, under certain circumstances, can control the economy. It indicated that refinements were on the way that would eliminate depressions and inflation.

It didn't work out that way, and perhaps the most basic error of the New Economics was that its forecasting methods were imperfect.

The year 1965 was a fateful one. A decision was made then to increase domestic and military spending without a corresponding increase in the flow of tax revenue. This was not an economic decision.

It was a contradiction also and it soon showed up in inflation. The New Economics, in theory, would have avoided inflation as dangerous to the economy.

Inflation, came however, as the New Economics fell defeated before political and other considerations.

In fact, the New Economics, the theory that sees Uncle Sam as not just the collector of revenue but the controller and manipulator of the economy as well, has not been used in three years.

When an attempt was made to put the theory back into practice earlier this year, some harmony but much discordance resulted. The fine tuners still were off their mark. Forecasting remained imperfect.

Instead of slowing under the weight of the surtax, economic expansion continued at an inflationary pace. Government spending was checked, it is true, but the consumer and business went on a spree.

Such extravagance was not foreseen. And last week fine tuning continued to produce sour notes.

Inflation persisted, and business spending plans for new plant and equipment were found to be much higher than expected, a full nine per cent over the 1968 rate. And interest rates, which had been expected to come down, were rising instead.

Perhaps the close of a chapter was the appointment of Dr. Paul McCracken as President-elect Richard M. Nixon's chief economic adviser. McCracken, a traditionalist, does not put great faith in fine tuning.

Whether this is the end of a chapter only or of the entire story cannot be foreseen. Human forecasting methods are not that precise at this point. Even New Economists might admit this.

Bulletins From Boyle's Mailbag

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Being a vice president no longer makes you stand out very far from the crowd. America is getting to be a land of veeps. It is said there are now nearly half a million company vice presidents—a Gee Whiz item if true.

The more people ride around in cars, the bigger their feet seem to grow. The average shoe size for today's hulking young men is 10-D, a full size larger than the average of only a dozen years ago.

Speaking of automobiles, how many do you have and how old are they: Nearly one out of every four U.S. families now owns two or more cars. Some six million vehicles still on the road are 12 years of age or over.

Once a pioneer shows the way, others are usually quick to follow. Only 103 years ago, so far as is known, an Englishman named Edward Whymper first accomplished the formidable feat of climbing the famous Alpine peak, the Matterhorn. In favorable weather today, says the National Geographic Society, about 60 persons a day successfully scale it.

How about giving the U.S. farmer a pat on the back? He's getting more efficient all the time. Powered by machinery now rather than by the help of a lop-eared mule, he is able to grow enough food to feed himself and 42 other people, something no other man in history has been able to do.

Quotable notables: "Always fall in love with what you're asked to accept. Take what is given, and make it over your own way. My aim in life has always been to hold my own with whatever's going. Not against: with."—Poet Robert Frost.

Seasonal: Holly sprigs were symbols of cheer long before Christmas was widely observed. Ancient Greeks carried the shrub to bring good luck, just as some people today keep a rabbit foot in their pocket, and Romans thought that holly planted around their homes would ward off lightning.

Signs of the times: Love seems to be a universal tongue. Those popular "I Am Loved" buttons now are available in five languages.

Worth remembering: "It is very hard to fight temptation. There is always the nagging again."

It was St. John of the Cross who advised, "Take heed not to meddle in things which do not concern you, nor even allow them to pass through your mind, for perhaps you will not then be able to fulfill your own task."

Officer Dies In Holdup

DALLAS (AP) — A police officer was killed here Sunday night during the hold-up of a drive-in grocery.

Patrolman Floyd A. Knight was shot in the face by a middle-aged man who escaped with about $85 cash.

Dianne Phifer, 26, a clerk at the store, told officers the man pulled a gun on her and told her to sack up the money in the cash register, then ordered her to get into a back room.

Knight, hiding in the room, was on assignment at the store to kill or capture holdup men.

The clerk related that she walked into the storeroom, unaware the stranger was behind her. She said she heard someone say "Drop it," someone else blurt, "You gotta be kidding," and then two shots rang out.

Police said the bandit apparently fired both, one killing Knight. They sought the suspect described as 6-foot, wearing a brown hat, brown trousers and fleece-lined jacket.

Junior Editors Quiz on PASTA

QUESTION: *What is pasta, and what is it used for?*

* * * *

ANSWER: Pasta is a simple material made of flour and water. It is the foundation of many popular Italian foods such as macaroni, spaghetti and ravioli. We can make paste by mixing ordinary flour and water, but this would not be pasta, because pasta is made from a special flour called semolina. The semolina is ground from the inner part of wheat kernels, using the hard, tough wheat called durum. Semolina holds together well while cooking. Whole wheat, soy flour, milk, vegetables, seasoning and salt may also be added to enrich the semolina. Olive oil and rich tomato sauces give zest to dishes made of pasta. It is easy to see the difference between bread and pasta by studying the illustration. Bread is also made from flour and water, but yeast is added to the dough before baking. This makes the dough rise and become light and fluffy. We speak of the dough as having been leavened. After baking, we have the delicious bread we all enjoy so much.

Lamar Is 8th Grade Champion

BIG SPRING — It was an all-Snyder finals in the 8th grade Basketball Tournament here Saturday night as Lamar 8th nipped Travis 8th 29-28 for the championship.

It was a close tussle all the way. Waters sparked the Lamar attack with 13 points. Mike Boles was the only Travis player to finish in double figures. He compiled 12 points.

Boles and Jerry Brooks of the Travis team both made the All-Tournament team. Lamar also placed two boys on the All-Tourney team. They are Jackie Hartsfield and Tim Holder.

In the semifinals, Travis 8th socked Edison of San Angelo 58-40 with five boys finishing in double figures: Gary Brooks 12, Scotty Sullivan 11, Mike Boles 10, Jerry Brooks 10, and Charles Cain 10 points.

Lamar qualified for the finals by defeating Sweetwater.

Travis will play Goliad in Big Spring today at 5:30 p.m. followed by the 9th grade game. Lamar 8th grade will host Big Spring Runnels at 5:30 p.m., followed by the 9th grade game.

CHAMPIONSHIP

LAMAR (29) — Hartsfield 1-0-2; Holder 2-0-4; Ramos 1-4-6; Liner 2-0-4; Waters 5-3-13; totals 11-7-29.

TRAVIS (28) — Boles 6-0-12; G. Brooks 2-3-7; J. Brooks 0-2-2; Cain 0-2-2; Sullian 2-2-6; totals 10-8-28.

Prep 11's In Semis

BY THE ASSOCIATED PRESS

The top 16 schoolboy football teams in Texas begin tuning up today for this weekend's semi-final playoff rounds, the prelude to next week's championship showdowns.

Some unexpected faces appear in this week's games, the result of several upsets in last week's quarterfinals.

Houston Smily, unranked in Class AAAA, pulled the big shocker Saturday, upending Dallas South Oak Cliff, the No. 1 ranked Class AAAA team, 7-0.

On Friday night, Galveston Ball, ranked No. 2 in Class AAAA, tumbled before Houston Washington 22-9. In Class AA, No. 2 ranked San Antonio Randolph lost to Klein 24-8.

Defending Class AAAA champion Austin Reagan goes after its 28th straight victory in a semifinal contest against Houston Washington. Smiley plays Odessa Permian in the other AAAA game.

Surprising Lubbock Estacado, which has advanced to the semi-finals in its first year of competition in the University Interscholastic League, plays No. 1 ranked Henderson, in the Class AAA highlight. Alvin meets Refugio in the other semifinal match.

Class AA powerhouse Iowa Park and top rated Poth in Class A are favored to advance to the finals in their games this week.

Irving Edges Tigers In Overtime, 89-87

IRVING — Snyder High School's talented Tigers lost an exciting battle for Consolation honors here Saturday night in the annual Basket Ball Tournament as host Irving had to go into overtime to take a narrow 89-87 decision.

The visiting Bengals led 19-14 after the first quarter and had a 42-41 lead at halftime. Regulation play ended with the score knotted at 85-85. In the overtime period, the hosts were able to sink two baskets compared with one for the Tigers.

Each team had 33 field goals, but Irving managed two more tosses from the free throw line. Snyder's team had a fantastic 78 per cent accuracy average on free throws. The Bengals also did a good job of shooting from the floor, dropping in 7 of 20 in the first period, 9 of 15 in the second, 7 of 18 in the third, and 7 of 17 in the fourth.

It was a close, sound game as each team lost the ball only 10 times on turnovers. Snyder held the upperhand in rebounds, getting 34, compared with 29 for Irving. Benny Ward was the leading rebounder with 14. Lee McNair grabbed six rebounds, and Jerry January collected five.

Four Tigers hit in double figures, led by Ward with 23 points. He was named to the All-Tournament team, January netted 16 points while Wesley Bishop and Lee McNair each connected for 12. Jim Patrick had nine, and Bill Hood and Randy Rushing each garnered four.

The Tigers will host Andrews tomorrow night in the Scurry County Coliseum. The Canyon Reef Tournament here is on tap for this weekend. The Bengals edged Andrews in overtime earlier in the year. The visiting Mustangs have one of the outstanding individuals in the area in Mark Bader.

Snyder now is 3-3 for the campaign. Irving benefitted from superior height. The hosts had one boy who stands 6-8 and weighs 230 pounds.

Bear Job Offered To Claiborne

WACO, Tex. (AP) — Virginia Tech's Jerry Claiborne, considered the No. 1 choice for the head football coaching job at Baylor, says he won't consider any offers until after Tech's Liberty Bowl game with Mississippi Saturday.

Edwin Horner, chairman of Baylor's athletic council, said Sunday he had an informal visit with Claiborne concerning the job but Claiborne didn't wish to consider it until after the bowl game.

Horner also said there was no truth to rumors that Claiborne had been offered $30,000 annually to become the head coach at Baylor. Horner said no money figure was mentioned during his visit.

Horner said Claiborne told him getting ready for the bowl game was his number one concern now.

Claiborne has pulled Virginia Tech from football obscurity to a 57-27-1 record going into Saturday's game. He also has been mentioned for openings at other schools.

Claiborne is not unfamiliar with the Southwest Conference. He served as an assistant under Bear Bryant at Texas A&M. Claiburne also served under Frank Broyles at Missouri and Bayant at Alabama.

S'land Seeks Improvement

BY THE ASSOCIATED PRESS

Southland Conference basketball teams, led by Trinity and unbeaten Lamar Tech, will try to improve on a 9-8 intersectional record this week.

After a disasterous swing through Tennessee and Kentucky last Monday, in which league teams were beaten 3-1, the conference picked up steam and by Saturday had passed the .500 mark.

Lamar Tech, now 3-0 for the young season, was the only league member to emerge with a victory in last Monday's section. The Cards defeated Memphis State 82-69.

But Tennessee Martin stopped Arkansas State 76-66; Tennessee Tech dunked UT-Arlington 83-74, Murry State, Ky. trimmed Trinity 89-76.

Lamar Tech will get is stiffest test tonight when it meets Southwest Conference member Texas A&M, also unbeaten with a 2-0 record.

In other games tonight: Oklahoma City is at Abilene Christian; Arkansas State is at Air Force, Trinity is at Angelo State and Sam Houston State is at UT-Arlington.

Earnings of more than $100,000 in harness racing were accumulated by 132 drivers in 1967. This was 33 more than those reaching that figure in 1966.

Owls, Aggies Put Records On Line

BY THE ASSOCIATED PRESS

Two of the Southwest Conference's four remaining unbeaten basketball teams—Rice and Texas A&M—put their records on the line tonight.

Rice, which opened its season last week with victories over Texas A&I and East Texas State travels to Tulane and the Aggies will host Lamar Tech, also unbeaten with a 3-0 record.

TCU, the defending SWC champ, will seek its third straight victory Tuesday against Loyola in New Orleans.

Baylor is the other unbeaten league team with a 3-0 record. The Bears won't be in action again until Saturday when they host New Mexico State.

SMU, which has lost three straight road games to tough opponents, makes its first home appearance Wednesday against rough Louisville.

The University of Texas plays in the Volunteer Classic Friday at Knoxville, Tenn.

Howard Payne Wins 3 Tilts

BY THE ASSOCIATED PRESS

Howard Payne and Sul Ross each play two games this week in an attempt to remain the only unbeaten basketball teams in the Lone Star Conference.

Howard Payne plays St. Mary's and Angelo State, and victories in both games would up its record to 7-0. Sul Ross tests its 4-0 record against Angelo State and Wayland Baptist College.

Five games are scheduled involving league teams tonight. They include East Texas State at McNeese State; Sam Houston State at UT-Arlington; Texas Lutheran at Southwest Texas; Texas A&I at Corpus Christi; and Trinity at Angelo State.

Howard Payne won three games last week en route to its 5-0 record.

Royal Rally Rips Knicks 120 To 115

BY THE ASSOCIATED PRESS

In the National Basketball Association, the team that gets the latest with the mostest—comes out on top, as shown by Cincinnati, Atlanta, Los Angeles and Phildelphia.

The Royals, bogged down under an 81-68 deficit late in the third quarter, went on a 21-5 spree behind Adrian Smith and Oscar Robertson and ran off with a 120-115 victory over the New York Knicks Sunday night.

Atlanta was muddling along with a 49-44 halftime lead over Phoenix before breaking loose on a 15-5 binge in a 72-point second half that produced a 121-99 rout over the Suns.

Los Angeles, after a listless first half that left it behind by 10 points, turned loose Wilt Chamberlain and Elgin Baylor in the final half for a 132-118 triumph over San Diego.

Philadelphia trailed through most of the first three quarters before running off a 9-1 string en route to a 122-117 victory over Milwaukee.

Smith and Robertson each hit six points in the Royals' run that put them ahead 89-87 after three quarters, and Jerry Lucas protected it with 13 of his 32 points in the final period.

Lou Hudson scored six of his 39 points and Joe Caldwell five as the Hawks put their game in the bag.

The Lakers trailed 66-56 at intermission before Chamberlain and Baylor sparked them to a 95-94 lead entering the final session. From there, they breezed as Chamberlain finished with 35 points and Jerry West 28.

The 76ers broke away from a 96-all deadlock on four free throws by Luke Jackson and a basket and three free throws by Archie Clark. When Milwaukee closed to 117-115, Chet Walker put it out of reach with two quick baskets. Billy Cunningham led the 76ers with 35 points.

In the NBA Saturday night, Boston clipped Cincinnati 117-114 in overtime, New York tripped Milwaukee 119-113, Philadelphia clobbered Detroit 140-106, Chicago outdefensed Los Angeles 90-81, and Seattle beat San Francisco 115-107. In the ABA Saturday, Minnesota defeated New Orleans 98-91 and Oakland crushed Miami 144-116.

Plainview Grabs 'B' Tournament Crown

Plainview finally broke open a nip and tuck ball game in the fourth period to down Big Spring, 70-51, and claim the champion's trophy Saturday night at the annual Snyder B Team Basketball Tournament.

Plainview had reached the finals by downing Abilene Cooper, 69-42, and defending Champion Lubbock Monterey, 56-43. Big Spring had waxed Lubbock High, 73-49, and Snyder, 69-64, to advance to the finals.

The battle for third place was a replay of last year's championship finals, with host Snyder facing a challenge from Lubbock Monterey, and the result was the same as Monterey downed the Kittens, 54-51 in a see-saw battle that went down to the wire.

Midland Lee, which fell to Snyder in the opening round, shaded Abilene Cooper 86-71, for the consolation trophy.

Curtis Bassett of Plainview and Johnny Olague of Big Spring shared scoring honors in the championship finals with 21 points each.

Olague and Bassett also headed the all-tournament team. Others receiving the individual trophies were William Stewart of Lubbock, Abe Burrus of Cooper, Mark Hill of Midland Lee, Glenn Rambin of Snyder, Crawford and Ganaway of Monterey, Ben Johnson of Big Spring and Gary Ott of Plainview.

Cliff Shows Them How

BY THE ASSOCIATED PRESS

Cliff Hagan is one of those basketball coaches who, instead of telling his team how to do things, shows them himself.

The player-coach of the Dallas Chaparrals of the American Basketball Association gave a lesson Sunday night when he dropped in one of his famous hook shots and added three free throws in the last 40 seconds for a 114-110 victory over the Los Angeles Stars.

In the only other game, Denver held on for a 121-113 victory over Miami.

On Saturday night, Minnesota defeated New Orleans 98-91 and Oakland blasted Miami 144-116.

Hagan managed only seven points for the night while filling in after four Dallas starters fouled out in the foul-ridden game, but the final four made the difference.

John Beasley led the Chaps with 27 points and 11 rebounds while Merv Jackson had 23 for the Stars.

Denver, after frittering away a 15-point lead after one quarter, pulled away from a 85-84 lead after three periods as Larry Jones hit 29 points and Lonnie Wright 25. Don Freeman had 27 for Miami.

Football Mothers To Plan Banquet

Snyder High School football mothers will meet tonight to plan the annual banquet for SHS football players.

The meeting is set for 7:15 p.m. in Room 118 at the high school. Mrs. D. D. Hirst is the banquet chairman. Mothers of all members of the varsity and junior varsity squads have been urged to attend the meeting.

Travis 9th Is Tourney Champ

BIG SPRING — Travis 9th grade nudged Colorado City 41-39 for the championship of the 9th grade division at the annual Junior High Basketball Tournament here Saturday night.

The talented Blue Devils socked Lamesa 45-38 in the semifinals with Kent Horsley and Jackie Murray pacing the attack with 13 and 11 points respectively. Meador was high point man for Lamesa with 16 points.

Travis took an early lead in the finals battle with a tall Colorado City team and never fell behind, although the young Wolves closed the gap to within two points late in the final quarter. With less than a minute left to play Colorado City had the ball with a chance to tie it up and send the game into overtime. The shot missed, however, and Travis grabbed the rebound and ran out the time.

Murray, who paced the Travis attack with 20 points, sank a couple of long shots in the last period whenever Colorado City threatened to pull even. Don Durst, who sank 11 points, also was outstanding for Travis, dunking in a couple of shots from the top of the circle in the late stages of the game. Don also came up with some valuable rebounds when Travis needed the ball.

Banks put in 12 points and Kimbrell notched 11 for Colorado City.

Kent Horsley and Jackie Murray were named to the All-Tournament team for Travis, and Mike Line of Lamar was named to the oustanding squad.

Lamar 9th lost a close one to Lamesa in the battle for third place.

Chiefs Trounce San Diego, Share Lead With Oakland

By ED SCHUYLER JR.
Associated Press Sports Writer

Ever try to throw a football over a 10-story building and know where it's going? Quarterback John Hadl of the San Diego Chargers had a similar problem—throwing over the hulking, hardcharging Kansas City defensive line.

"Those guys 6-foot-7 look 100 feet tall when you try and throw over them," Hadl said Sunday.

Hadl managed to get the ball over them most of the time, but on six occasions it went into the hands of Kansas City players as the Chiefs trounced San Diego 40-3 and knocked the Chargers out of the Western Division race in the American Football League.

The victory kept the Chiefs, 11-2, in a first-place tie with the Oakland Raiders, who edged Denver 33-27. Kansas City is at Denver and Oakland at San Diego next weekend, and if both win, a playoff will be held in Oakland.

In other AFL action Sunday, the New York Jets, 10-3 and the Eastern Division champions, downed Cincinnati 3-11, 27-14 and Miami 5-7-1, blasted Boston 4-9, 38-7. Saturday Houston, 6-7, ripped Buffalo 1-12-1 35-6.

Buffalo's season-ending loss became a victory of sorts when Philadelphia won its second game to make the Bills' record the worst in pro football. Because of this record, Buffalo now will get the first shot at Southern California's O. J. Simpson in the combined college draft.

San Diego opened the scoring with a 28-yard field goal by Dennis Partee in the first period, but from then on the hometown crowd had little to cheer about.

One of Hadl's passes was grabbed by Kansas City linebacker Willie Lanier who rumbled 75 yards for a touchdown. Two other interceptions were followed by touchdown passes by Len Dawson—five yards to Gloster Richrdson and seven yards to Mike Garrett. Dawson also connected on 68-yard scoring strike to Frank Pitts.

Kansas City also intercepted a Jon Brittenum pass, and the seven thefts gave the Chiefs 34 for the season, just one shy of a team record. The six interceptions put Hadl into the AFL record book with five other quarterbacks.

George Blanda kicked four field goals as Oakland came from a 17-7 deficit to beat Denver. Blanda's second field goal tied it at 20-20 and his third put the Raiders ahead to stay, 23-20. Daryle Lamonica's six-yard touchdown pass to Warren Wells gave the Raiders a 30-20 lead in the third period and clinched it.

Joe Namath's two touchdown passes, one by Babe Parilli and two field goals by Jim Turner led the Jets over Cincinnati, which closed out its first season. Turner also converted after the touchdowns and his nine points gave him 138 for the season, tying him with Don Hutson for fifth in points scored in a single pro football season.

Cincinnati's Paul Robinson ran for 33 yards and became the first AFL rookie to gain 1,000 yards in a season. He finished with 1,023.

Bob Griese passed for two touchdowns and fullback Larry Csonka ran for two to pace Miami past Boston. Jim Nance scored on a 30-yard run for Boston.

Bears Terrorize Rams 17-16

By DICK COUCH
Associated Press Sports Writer

Roman Gabriel got a close-up look at the broken down Chicago Bears . . . and found himself eyeball to eyeball with the Monsters of the Midway.

The Baltimore Colts watched Gabriel's nightmare—including a misplaced fourth down—unfold from a safe distance. But those big, bad Bears looked beautiful to them. Just beautiful.

The Bears, riddled by injuries earlier in the National Football League season, rose up Sunday to terrorize Gabriel and topple Los Angeles 17-16, handing Baltimore the Coastal Division title and keeping their own championship hopes alive.

The loss eliminated the Rams one week before their anticipated season-closing showdown with the Colts. The victory kept Chicago tied for first place with the Minnesota Vikings, who trimmed San Francisco 30-20, in the Central Division stretch race. The Bears take on Green Bay and the Vikings meet Philadelphia next Sunday.

Cleveland nailed the Century Division crown with a 24-21 victory over Washington; St. Louis downed New York 28-21; Dallas topped Pittsburgh 28-7; Detroit beat Atlanta 24-7 and Philadelphia outscored New Orleans 29-18 in other games.

The Eagles' second successive victory after 11 straight setbacks cost them the No. 1 pick . . . most likely Heisman Trophy winner O.J. Simpson . . . in the upcoming college draft.

The Colts eliminated Green Bay's defending NFL champs 16-3 Saturday, then sat back and watched the Bears-Rams thriller on television along with a national video audience.

They saw Gabriel, the Rams' gifted quarterback, harassed by Chicago's fierce defenders and then knocked out of the game temporarily by a blind-side tackle in the second quarter.

With Gabriel on the sidelines, they saw the Bears seize a 10-7 lead after Clarence Child's 88-yard kickoff return and move ahead 17-7 following Dick Butkus' interception of a Milt Plum pass.

Then they saw the Rams close the gap on a third quarter safety and Gabriel's three-yard scoring jaunt with 2:42 left in the game. They squirmed as the Rams mounted a last-ditch drive to the Chicago 32, within field goal range, with 24 seconds remaining.

Finally, they saw the drive fizzle . . . thanks to a 15-yard holding penalty and an apparent blunder by the officials. According to the official play-by-play sheet, the Rams were allowed three downs, instead of four, following the first-down infraction.

Before anyone, including the Rams, caught the mistake, the game was over . . . leaving Los Angeles out in the cold and the Colts limp, but exuberant.

"Fantastic!" echoed veteran defensive back Bob Boyd. "I'm a nervous wreck, completely wrung out. It's hell to watch. I'd rather play."

"The Bears did a helluva job," said Johnny Unitas. "They got to Gabriel early and seemed to shake him up. I guess he was knocked dizzy. He didn't seem to call his game after that."

Gabriel completed seven of 23 passes for 118 yards. His net passing yardage in the first half was zero.

The Bears awarded one game ball to Butkus and another to ex-coach and club owner George Halas, the 77-year-old Monster Maker who is recuperating from a serious hip operation.

Joe Kapp passed for one touchdown and ran for two more, staking Minnesota to a 27-6 lead, but the Vikings barely withstood a fourth quarter 49er rally to keep pace with the Bears at 7-6 6in the Central derby.

Don Cockroft booted a tie-breaking field goal and Bill Nelsen fired a 38-yard touchdown pass to Paul Warfield in a two-minute, fourth-quarter burst that gave the Browns their Century-clinching eighth straight victory.

The Cardinals outscored the Giants behind fullback Willis Crenshaw, who rambled for 162 yards and three touchdowns, including a 66-yard gallop. But they remained 1½ games behind Cleveland with just one to play . . . against the Browns next Saturday at St. Louis.

Bob Hayes bolted 90 yards with a punt for one touchdown and scored another on a 53-yard pass from Don Meredith as Dallas' Capitol Division kings battered Pittsburgh. Meredith also hit Lance Rentzel with a 65-yard TD bomb and Craig Baynham with a five-yard payoff pitch.

Little Billy Gambrell grabbed three scoring passes from Bill Munson good for 26, 7 and 22 yards, sparking Detroit to its first victory in two months.

Norm Snead threw his third scoring pass of the game and Tom Woodeshick broke loose for a 30-yard touchdown run in the last four minutes, sending the Eagles past New Orleans and making a happy man of Coach Joe Kuharich.

A planned boycott of the game by Philadelphia fans who had become disenchanted with Kuharich appeared to fizzle as 57,128 turned out in 60,000-seat Franklin Field.

"There's no substitute for victory," purred Kuharich.

Boot Camp Over After Eleven Years

SAN DIEGO, Calif. (AP) — Younger men than Carl E. Herring join the U.S. Marines. But few are so persistent.

After 11 years and four tries he graduates from boot camp today.

"I never dreamed of any other life," says Herring, now 28, who wants to be a drill instructor.

In Temple, Tex., Herring quit school after the sixth grade at 10 years old and worked in a variety store, then in a Dallas cafe until his 17th birthday arrived and he could enlist.

His determination started to get a real test. On a Marine obstacle course Herring broke his knee and was sent home with a medical discharge. He paid for corrective surgery, then flooded the Corps with letters asking for a medical waiver to get back in.

The Marines said yes, on condition Herring pass its physical requirements. In June he re-enlisted. He broke his arm July 7. On July 28, the day the cast came off, he was washed out of boot camp again, a victim of meningitis.

After three weeks in a hospital, he was back beginning boot camp the fourth time.

"The training is getting easier over the years—a little too easy, I think," says Herring.

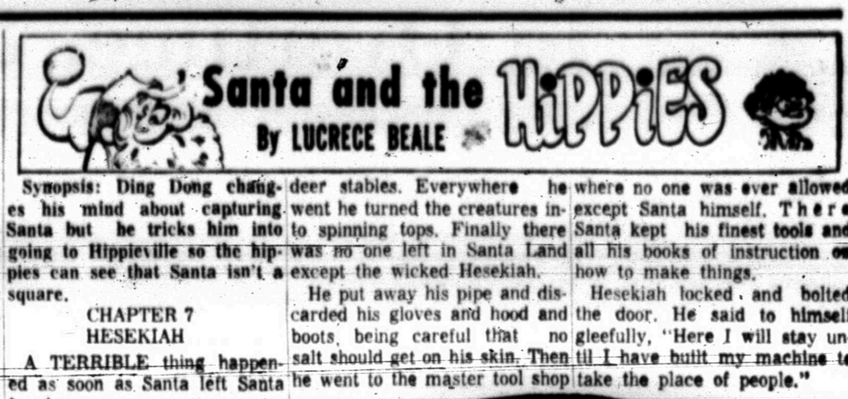
The leader of his 70-man platoon, Staff Sgt. Howard Garcia, was a recruit along with Herring in the same company at the San Diego Marine Corps Recruit Depot in 1957.

Both Garcia and 1st Lt. Michael F. Valdez, commander of the 1st Battalion, say Herring is "a good man, a good marine."

Since his first enlistment Herring has married and is the father of two girls.

In Albuquerque, N.M., his wife Mitsy, 24, lives with her parent and attends beauty school. Does she understand why Herring fights so doggedly to become a Leatherneck? Carl said, "Maybe not, but she wants me to do what I want."

And what Carl Herring wants is to be a Marine.



Synopsis: Ding Dong changes his mind about capturing Santa but he tricks him into going to Hippieville so the hippies can see that Santa isn't a square.

CHAPTER 7
HESEKIAH

A TERRIBLE thing happened as soon as Santa left Santa Land.

There was a misshapen old dwarf named Hesekiah whose only interest in life was the invention of a machine to take the place of people.

He had been working on his invention for 400 years but he hadn't gotten any further than the discovery of a powerful salt that could turn people into spinning tops. This was just what Hesekiah wanted while he continued to work on his machine to take the place of people.

Before he turned people into spinning tops Hesekiah thought it would be a good idea to try out his salt on some creatures who were like people but still not exactly people. That is to say — elves and fairies and such folk.

Hesekiah thought, "What better place to go than Santa Land?" There would be a lot of creatures he could turn into tops. More important, there were well -equipped workshops where he could continue to work on his machine to take the place of people.

Hesekiah arrived in Santa Land at the very moment Santa and Ding Dong flew off to Hippieville. This was unfortunate for Santa Land because it so happened that Santa knew the one thing in the world that would stop Hesekiah and turn him into a nothing.

With Santa out of the way things were easy for Hesekiah. He opened his satchel and put on gloves and a hood that covered his head with only two tiny slits to see through. He took out a long blow pipe and carefully filled it with three cupfuls of salt. The pipe was one of his inventions. It had a round bowl with tiny holes in the bottom and a long stem to blow through.

Hesekiah sneaked up on Santa's porch and knocked. Mrs. Claus came to the dor.

"Goodness!" she cried. "Are you another hippie?"

For answer Hesekiah stuck the stem of the pipe in his mouth and blew. The salt in the bowl showered over poor Mrs. Claus.

She threw up her hands in surprise and began to spin in a circle. As she spun faster and faster she grew smaller and smaller until she was a very small top, fat in the middle and pointed on the end, spinning away in a pool of salt on the floor.

Hesekiah rushed to the doll shops where the elves were making dolls that could talk and walk and some that could even file their nails. Hesekiah flung open the door and blew on his pipe with all his might. The salt sprayed over the astonished elves. In two seconds they were tiny tops spinning madly around the unfinihed dolls.

Hesekiah went to the wagon shop and the sport shop and the electric train shop and the dollhouse shop and even to the reindeer stables. Everywhere he went he turned the creatures into spinning tops. Finally there was no one left in Santa Land except the wicked Hesekiah.

He put away his pipe and discarded his gloves and hood and boots, being careful that no salt should get on his skin. Then he went to the master tool shop where no one was ever allowed except Santa himself. There Santa kept his finest tools and all his books of instruction on how to make things.

Hesekiah locked and bolted the door. He said to himself gleefully, "Here I will stay until I have built my machine to take the place of people."

Hesekiah arrived in Santa Land.

Mrs. Pool's Burns Severe

ALEXANDRIA, Va. (AP) — Elizabeth Lee Pool, 50, the widow of Rep. Joe Pool, D-Tex., was in critical condition today with severe burns she received in an apartment fire here Sunday.

Firemen who charged through the burning apartment where Mrs. Pool was visiting to carry her out, said she was burned over 90 per cent of her body.

Her host, Biagio Pepe, 42 was not injured.

The cause of the fire was not known. Fireman described damage as extensive.

Mrs. Pool's husband died July 14 at a Houston airport and she tried for the House seat he held. She was defeated in a special election Aug. 24 by Jim Collins of Dallas.

Mrs. Pool had said she wanted to serve out the remaining four months of her husband's term to complete his administrative work, including his records for the House Committee on Un-American Activities.

TO AID AMERICAN FARMERS

Bureau Calls For New Plan

KANSAS CITY (AP) — Present government farm programs should be dismantled and replaced with devices to help successful farmers move gradually into a market-oriented economy free of federal controls and payments, says Charles B. Shuman, president of the American Farm Bureau Federation.

"It should be recognized that the low-income problems in agriculture are of two distinctly different kinds—those of the commercial farmers who receive most of their income from farming, and those of the part-time, subsistence and rural resident farmers," Shuman said.

The latter type, he said, needs a program offering help to become more productive either in agriculture or in some other job.

Shuman's speech was prepared for delivery today at the annual meeting of the Farm Bureau.

About 5,000 persons are expected for the meeting, which runs through Thursday.

The Farm Bureau, which represents about 1.8 million families, has vigorously opposed the farm programs of the Democratic administration.

Shuman said that with a change to a Republican administration the Farm Bureau has won, "for all practical purposes," its long fight to end acreage controls and "government management of farm prices" through existing programs.

"The general public is finally beginning to recognize that a government-planned agriculture is a costly exercise in futility," he said.

But the present programs should not be dumped all at once, Shuman said. Instead, "transitional assistance or a reasonable assurance" against losses durng an adjustment toward a free economy hould be provided, he said.

"This transitional assistance could take the form of substantial land retirement programs, indemnity or adjustment payments to compensate for the capitalized value of allotments, loans to facilitate orderly marketing, and protection against dumping of government-held stocks on the market to depress prices," Shuman said.

Exports of U.S. farm products could be doubled in the next four or five years, Shuman said, if federal trade negotiators would bargain "with any or all free nations" either unilaterally or among several at one time.

"In order to pursue this hard-nosed bargaining policy successfully, it will be necessary for Congress to discontinue direct subsidies to farmers," Shuman aid. "These payments are recognized by foreign nations as a form of export subsidy."

He said Congress must resist demands for import barriers to protect domestic goods which have met increased competition from foreign producers. "Trade is a two-way street," Shuman added.

The farm leader called for "badly needed reorganization" of agricultural research and programs to help land grant colleges improve their research functions.

Shuman said Congress also has the responsibility for bringing government spending in line with income.

Farm Bureau officials were met Sunday by pickets who said Workers national boycott of California table grapes.

The Farm Bureau has opposed the boycott and its officials say that if unionization is forced on California growers other farm commodities could encounter the same treatment.

US Destroyers Cruise Black Sea

By THALIA DONAS
Associated Press Writer

ISTANBUL, Turkey (AP) — Two destroyers of the U.S. 6th Fleet sailed through the Bosporus today for a five-day cruise along Turkey's Black Sea Coast. The Russians called the American naval visit to their southern doorstep a provocation, a threat to peace and Soviet security, and a violation of the 1936 Montreux Convention.

The 3,500-ton Dyess led the way through the narrow strait between the Sea of Marmara and the Black Sea. Her sister ship the Turner followed about an hour later.

The Soviet government newspaper Izvestia reported Sunday that its correspondent had seen the two destroyers pass through the Bosporus and lip "like thieve" into the landlocked Black Sea. But the ships anchored in the Sea of Amarmaraa for the night, abiding by the provision of the Montreux Convention that bars transit of the strait after nightfall.

Izvestia claimed that the ships' passage through the Bosporus violated the Montreux Convention regulating use of the strait because the two destroyers were equipped with missiles capable of delivering nuclear weapons and because the convention bars ships of any nation at war.

Turkish and American officials rejected the Soviet charges and said the ships were making a routine visit that was in conformity with the convention.

The Turkish Foreign Ministry said the Russians "have some complaints, but Turkey rejected them since the passage is entirely in conformity with the Montreux Convention." The convention allows non-Black Sea powers to send "light surface vessels" of under 30,000 tons into the Black Sea.

Turkish newspapers viewed the destroyers visit as a demonstration of American naval strength occasioned by the steady Soviet naval buildup in the Mediterranean during the past year. The Russians now have about 60 warships in the Mediterranean, a sea where previously the U.S. 6th Fleet was unchallenged.

A german schoolmaster named Richard Schirrman opened the first youth hotel in 1910, in an old castle. By 1914 there were 200 hostels in Germany.

Two Texans Missing In River Collision

WHITE CASTLE, La. (AP) — Two Texans were among the 17 men reported missing following the collision Saturday night of the Coast Guard buoy tender White Alder and a freighter in the Mississippi River.

The Coast Guard listed the two as Seaman Apprentice Larry V. Fregia, 19, of Conroe; and Seaman Apprentice Roger R. Jacks, 20, of Irving, Tex.

New roads, beach resorts, harbor facilities and a jetstrip are planned for Crete, a 3,217-square-mile Mediterranean island.

Foreman To Help Defend Harrelson

HOUSTON (AP) — Attorney Percy Foreman of Houston says he will help defend Charles V. Harrelson, accused in the slayings of a Houston carpet firm executive and a Hearne grain dealer.

Harrelson, 30, is being held without bond in the Brazoria County jail at Angleton. He was arrested Nov. 20 in Atlanta, Ga.

He is charged with murder in the separate slayings of Alan Berg, 31, of Houston, and Sam Degelia Jr., 30, of Hearne.

Foreman said Sunday that Sam J. Lee, former Brazoria County district attorney, also will defend Harrelson.

A Hidalgo County grand jury at Edinburg indicted Harrelson in the Degelia slaying last week. The jury also indicted Jerry O. Watkins, 43, for murder and Peter Thomas Scamardo, 31, of Hearne as an accomplice in that case.

Degelia's body was found near McAllen July 11, five days after he disappeared while on a grain buying trip in the Lower Rio Grande Valley. Berg vanished last May 28 and his skelton was found Nov. 8 near Freeport.

Foreman also is defending James Earl Ray, scheduled to be tried for murder March 3 in Memphis, Tenn., in the death of Dr. Martin Luther King Jr.

RICHEST AND POOREST

Sheikdoms Band Together

By DENNIS NEELD
Associated Press Writer

BAHRAIN, Persian Gulf (AP) — Nine little sheikdoms with strange-sounding names have banded together in a federation. They hope it will keep them safe when British troops quit the Persian Gulf three years hence.

In the group are some of the world's poorest territories—and Abu Dhabi, one of the richest. It includes the bustling island of Bahrain, with nearly 200,000 people, and the ministate of Ajman, with little more than 2,000.

Sheik Zaid bin Sultan of Abu Dhabi has a computer to count his oil wealth while Sheik Mohammed bin Hamad al Sharqi of far-away Fujeira rubs along on the sale of postage stamps.

Where oil has been found, many Arabs have progressed from camels to air-conditioned Cadillacs almost overnight. But in the hills of Ras al-Khaimah the stone-age Shihu tribe, speaking a language of their own, live in caves and holes in the ground.

Three members of the federation, Sharja, Abu Dhabi and Dubai, were at war as recently as 1947. They used flintlock muskets and 300-year-old cannon. Cannon balls were in short supply so every night after prayers a truce was declared to allow warriors to collect them from the battlefield.

Oil royalties now have given Abu Dhabi a modern army.

But with the announcement last January of Britain's intention to withdraw from the gulf by the end of 1971, Abu Dhabi and its neighbors at least temporarily forgot old feuds and frontier disputes to create the Federation of Arab Gulf Emirates.

The federation is made up of Bahrain, Qatar, Abu Dhabi, Dubai, Sharjah, Ajman, Umm al-Quiwain, Ras alKhamah and Fujeir. The last seven are the Trucial States, so called because in the 19th century they concluded a truce with Britain to end piracy.

Britain is treaty-bound to defend all nine and currently has 1,500 troops in the area. It also handles their foreign affairs.

From the end of 1971 they'll be on their own. They federated on the assumption that this would make it harder for powerful neighbors to gobble them up.

The federation has an estimated population of 500,000 and a land area of 34,000 square miles—about the size of Maine. Its total oil reenues in 1968 will be about $290 million from American, British, Dutch, French, Italian, German and Japanese companies.

Iran, across the gulf, lays dubious claim to Bahrain. It was quick to denounce the federation, but likely will come to terms.

Saudi Arabia and most other Arab states greeted the grouping enthusiastically. Even Egypt, which in the past has waged propaganda war against such old-style autocracies, had only praise for the new grouping. Gamal Abdel Nasser, who gets $40 million a year from Saudi Arabia to make up for lost Suez Canal revenues, cannot afford to cross King Feisal.

The Federation was officially born last March 30, the Moslem New Year, but the infant has yet to show much sign of life. No constitution, capital or head of state has been decided upon.

The nine rulers, however, soon may reach a point of no return.

At a recent meeting in Doha, capital of Qatar—pronounced gutter—they had a sheaf of queries from an expert engaged to work out a constitution.

They were asked what powers they were ready to surrender to the federal authority and to what extent they were ready to let the people share in government. Whether in fact, they wanted a democratically elected federal assembly.

The sheiks winced, and appointed a committee to study the questions.

None of the states has ever had a national election. The rulers enjoy absolute power and pocket much of their oil revenue, with no one to say them nay.

A recent visit to the Gulf by two Soviet warships sent a tremor through many a sheikly heart. It was feared they might encourage leftist elements, some of which already have drifted up from Aden in the People's Republic of SouthYemen.

Attracted by the gulf's oil wealth, thousands of immigrants have come in from India, Pakistan, Iran and neighboring Arab countries, most of them illegally. It is difficult to check on subversives.

Probably subversion from within rather than aggression from without troubles the rulers most. They hope prosperity will keep it in check. But if democracy comes in on the coattails of the federation the day of the all-powerful sheik may be numbered.

Scandal Touches Swiss Neutrality

By HANNS NEUERBOURG
Associated Press Writer

BERN, Switzerland (AP) — Scandal has touched Switzerland in a most sensitive point, its long-cherished neutrality, and the staid citizens are in an uproar.

"It stinks to high heaven," a Zurich newspaper commented about the international arms dealing situation. A member of Parliament said on national television, "This is a really swinish thing."

In the glare is Switzerland's largest arms maker, following an official disclosure that 10 million Swiss francs—$2.3 million-worth of rockets, cannon and ammunition produced by it were illegally shipped to the Middle East and Africa.

Two executives of the Oerlikon, Buehrle and Co., machine tool factory were taken into custody and others have been questioned by federal police. Atty. Gen. Hans Walder has announced that the accused, including the $30,000-a-year head of the company's arms sales division, have admitted falsifying export applications to bypass an official embargo on arms shipments to areas of tension.

Israel, South Africa and three Arab States were named among the six countries that received the forbidden shipments during the past two years. But nothing shocked the Swiss more than the disclosure that arms, including antiaircraft cannon, also had been sent to Federal Nigeria-along with instructors.

Relief planes chartered by the Swiss-based International Red Cross have been damaged by antiaircraft fire in recent mercy flights to secessionist Biafra. "With what kind of cannon did the Nigerian forces shoot at the Red Cross planes?" the conservative Neue Zuercher Zeitung asked ironically.

Some of the 20mm cannon shipped to Nigeria came from a stock of World War II which was never delivered because of the fast allied advance.

The Biafran soldiers, who captured the first such cannon from Federal troops last June, had little use for it because, they said, they lacked the ammunition. It took some time before they recognized the significance of their prize and made discreet representations to the embarrassed Swiss government.

Early in November the government began gradually lifting the secrecy that surrounded the investigation. News of the arrests produced a wave of dismay that has culminated in a temporary export ban against Buehrle and a motion in Parliament to halt all sales of Swiss arms to foreign clients.

Oerlikon, Buehrle said a few employes were responsible for the illegal arms shipments.

"We are confident that the last word has not yet been spoken," a spokesman said of the export ban. Almost half of the more than 200 million Swiss francs—$45 million—worth of its arms output were sold abroad last year. Some of the production comes from foreign subsidiaries of the highly diviersified company, whose assets range from hotels to textile mills in several European countries and Latin America.

Alcoholism Big Cause Of Joblessness

WASHINGTON (AP) — The Labor Department say it is putting new emphasis on alcoholism as a major cause of ghetto unemployment.

"Alcoholism is a factor to be faced in placing participants in national manpower training and developmet programs which aim at full employmet in an expanding economy," the department's Manpower Administration said in a statement.

"A good job is also a facator in helping such persons to battle their problem," it said.

The statement said increasing attention will be focused on the problem in surveys into causes and cures for high rates of unemployment in big city ghettos.

"A typical study, made in Milwaukee by case workers and counselors, revealed that among people in the slums who were not working, 15 per cent were alcoholics or heavy drinkers, affecting their employability," it said.

"In St. Paul, Minn., an alcoholism counselor was added to the public employment staff to work especially with alcoholics," the statement said.

"In six months, 225 alcoholics were placed in jobs—and 75 per cent of them are still at work and making good," it added.

There are an estimated six million alcoholics in the United States—roughly three per cent of the population—who cost the economy $4 billion a year.

The nationwide system of federal-state employment offices already offers special help to alcoholics, who are officially designated as handicapped persons in job applications, the statement said.
