NUMBER 23

Wright Patman's Weekly Letter

1st Congressional Dist. of Texas
"Heart of the Gulf Southwest"

"The Great Society" is now being projected by President Johnson in a campaign that will embrace even more than the wonderful, constructive programs which he has already formulated. The "Great Society" campaign will include issues of Federal-state-local government relations in fiscal affairs, mass transportation, health, education, sanitation, and water and air pollution. President Johnson has always taken on big things and in the past he has succeeded in substantially accomplishing his objectives.

Presidential Campaign 1964 cannot be changed by any electoral college amendment since it will be impossible to amend the Constitution between now and November 3, which is election day. Much is being written and said about changing the method of selecting the President and Vice President, but any change will have to be made by an amendment to the Constitution which cannot be done in a few months time.

CBS here in Washington honored me by having me as their Fourth of July guest in a half-hour interview. The tape was also made available to radio stations in our area, and I am most appreciative of the fact that many stations programmed the interview over the Holidays.

President Johnson has signed into law HR 8230, a Bill introduced by me early in the 88th Congress, which enables National banks to increase loans on forest tracts up to 60% of the fair market value of the timber.

Former President Hoover unfortunately had to learn it the hard way, and in his "Memoirs," (page 212) he stated that the Federal Reserve "was indeed a weak reed for a nation to lean on in time of trouble." The fact is that the Federal Reserve has been looking after the bankers and disregarding the well-being of the people. This is the underlying reason for our many depressions and recessions, it is the reason that today we have an exorbitant interest burden on the national debt, and it also goes far to explain the existence of our huge national debt itself.

Vacation Homes that will later double duty as retirement homes are on the increase. New Interstate highways that cut down travel time make East Texas an ideal area to attract this highly desirable type of business.

U. S. Farm Population was 13,367,000 last year, nearly one million less than the figure for 1962. By way of contrast, in 1947 our farm population was 27,124,000.

Do You Know that in the Capitol of the United States there is a room set aside for prayer? It is not for religious assemblies or any other public use, but only to provide a secluded place where individual Members of the House and Senate may quietly withdraw to seek Divine strength and guidance.

The Civil Rights Act. An authenticated certified copy as recently signed by the President will gladly be sent by me upon request without cost or obligation.

Jo Franks to Play In All-Star Game Saturday, July 18

A Talco girl, Jo Franks, who was named to the All-Star girls basketball team, is undergoing extensive workouts in preparation for the approaching game at Midway High School in Waco Saturday, July 18. Game time is set for 8 p. m. in the air-conditioned gym. Admission is \$1.25 for adults and 75c for children.

Miss Franks joins 14 other girls from throughout North Texas for the annual girls All-Star game. The game is being held in conjunction with the annual high school girls' coaching clinic which is expected to draw a record number this year.

Jo, and her Northern teammates will be housed on the Baylor University campus while at Waco.

Coach Larry Tucker, her tutor the past two years at Talco, has been giving her daily workout schedules to get her conditioning ready for the game.

Miss Franks is an all-district guard, having made the honor three years in a row, and was selected to the all-regional team her junior year.

Jo, daughter of Mr. and Mrs. Cliff Franks of Sugar Hill community, is believed to be the first girl from this area to make the All-Star squad.

Miss Jo Franks was honored with a hamburger supper Tuesday night at the home of Mr. and Mrs. Larry Tucker. Hamburgers were served to 31 guests. Miss Franks left Thursday (today) for Waco to workout with the North team. She was accompanied by Coach and Mrs. Tucker.

Name Blackford To S. W. S. Post

Appointment of Charles M. (Mike) Blackford as division sales and service supervisor for Southwestern States Telephone has been announced by W. F. Morris, Jr., division manager for the company.

Morris said the position occupied by Blackford has just been created by the company. Blackford will be in charge of all employ sales activity and contacting commercial accounts throughout the East Texas division in the sales and service of special equipment.

Blackford joined Southwestern States as a development supervisor in the company's general office in Brownwood on Feb. 6, 1964, serving in that capacity until being named to his present post. Morris said the addition of Blackford to the division staff will improve the telephone company's service to its commercial accounts.

OIL NEWS

Red River County — Claude Smith and Marlin R. Wooley, working from Detroit, have filed to drill a 2,500-foot wildcat 9½ miles north of Detroit in the Adielou community. It will be No. 1 J. E. and H. B. Howard Bar H Ranch, 330 from the north and 2,380 from the east lines of William Bailey survey, A-29 and on a 102-acre tract. Permit depth should get the Paleozoic. Site would be about two miles west of the old Woodland pool.

Miss Elizabeth Allums and Mrs. Eldon Chaloner of Bogata, Mt. Vernon, Sunday.

Austin. — New preliminary steps, inching Texas toward the inevitable realignment of congressional and legislative districts, were taken last week.

Atty. Gen. Waggoner Carr asked that the federal district court at Houston allow time for the Legislature to redraw the districts in its session next year as the court had done earlier with congressional apportionment.

In view of U. S. Supreme Court decisions that both houses of the state legislature must be selected on the basis of population alone, Carr concluded that there is little doubt that Texas districts would be declared unconstitutional.

Meanwhile, in Fort Worth and Dallas a committee of the Texas Legislative Council held its first public hearing seeking advice on how congressional districts should be redrawn.

A parade of witnesses was heard before the committee recessed briefly. It will move to Houston for its third hearing on July 17. A fourth hearing will be held in San Antonio. Committee spokesmen have indicated they may go to West Texas, then perhaps return to South Texas for further testimony.

A session of the full Legislative Council, research arm of the Legislature, is scheduled for July 27 in Austin. At that time, the Council is expected to decide whether to broaden its own study to include the explosive, close-to-home problems of recarving the state's House and Senate districts.

ARCHIVES MURAL UNDER WAY — Work has begun on a \$30,000 mural in the new Texas Archives and Library Building. It will portray state history from the days of the Spanish explorers to the present.

American painter Peter Hurd and English artist Peter Rogers, who is Hurd's son-in-law, will work together on the 45 by 13 foot mural. Texans will recognize among the figures Stephen F. Austin, the Father of Texas; Sam Houston, general, governor, senator, and president of the Republic of Texas; Anson Jones, last president of the Republic; and Jim Bowie, Davy Crockett and William B. Travis, heroes of the Alamo.

Work is scheduled to be finished by September.

SCHOOL FUND ALLOTMENT APPROVED — State Board of

Education raised the per student apportionment of state available school fund money to local districts from \$78.50 to \$81.50.

This \$3 per capita hike represents an overall \$7,600,000 raise in available fund aid to the districts for 1964-65, based on a current estimate of more than 2,500,000 students.

Comptroller Robert S. Calvert estimated the fund for the coming school year at \$218,300,000. Board allocated \$10,500,000 to finance the cost of purchasing and handling text books. This left \$207,700,000 to be distributed on a per capita basis.

This increase means no increase in overall state aid. Allocations to all but the few prosperous "budget balance" districts for salaries and operations will be decreased by an amount equivalent to the available fund boost.

Dr. L. S. Richardson, Brazosport Public Schools superintendent, was appointed to the 1964 state textbook committee to study books offered for school adoption.

Board also agreed to name a study committee to look into a proposal for a \$1,400,000 junior college at Pampa.

A policy change directed that more time in driver education courses be spent on behind-the-wheel instruction and less on general safety lectures.

ARMY EXAMS — The number of 18-year-olds who will be given Army mental-physical exams by Texas draft boards during August will be increased to 2,762 (from 1,816 in July).

Tests are in line with the President's call for examination of all newly registered men out of school and available for service. They will not be considered for immediate armed forces service. But those failing the examination will be referred to the Texas Employment Commission for advice and counsel on jobs or job training.

Only about 225 in the draft age bracket (most of them 22 or above) will be examined next month—and only 119 are scheduled for induction during August.

This is the lowest induction call for Texas since April, 1961, when the quota was 65.

PARKS & WILDLIFE DEPT. — Weldon Watson, director of the State Department of Parks & Wildlife, reports that a lot of people want state parks built near

Paluxy All-Star Team Is Named

Horn-Bayless Rites In Mineola Friday

Miss Bonnie Louise Horn, daughter of Mr. and Mrs. E. M. Horn of Mineola, became the bride of Albert Charles Bayless, son of Mr. and Mrs. Cleoma Bayless of Swan, in a double-ring ceremony officiated by Rev. James B. Thompson, on Friday, July 10 at 7:30 in the evening.

The rites were solemnized in the sanctuary of the First Baptist Church in Mineola before a setting of white burning tapers, ferns, and majestic bridal white gladioli accenting the bridal arch.

The bride, who was given in marriage by her father, wore a gown of bridal white chantilly lace over silk peau taffeta, which flowed softly into a sweeping train, accented by long, tapered sleeves and a delicately scalloped neckline. Her veil of silk candlelight illusion fell from a crown of pearl and crystal. Her bouquet was of white orchids surrounded by feathered carnations and lilies of the valley.

Attending the bride as maid of honor was Miss Mary Margaret Mitchell of Mineola. Miss Carol Ruth Whitten of Joliet, cousin of the bride, was bridesmaid. Both were gowned identically in pink peau de soie, fashioned with fitted bodices, scoop necklines, and brief sleeves, with overskirts of pink chiffon, veiled pink pillbox hats completed their attire. They carried nosegays of pink carnations nestled in white lace.

Richard Gaier of Tyler, attended the bridegroom as best man. Groomsman was Buddy Horn, brother of the bride. Ushering were Gerald Measels, Jeffery Smith, Jimmy Allen and Norman Turner.

Flower girl was Cheryl Lynn Horn of Garland, niece of the bride. Ring bearer was Sonny Horn of Mineola, nephew of the bride.

The bride's parents were hosts to the reception immediately following the ceremony in the church fellowship hall. The bride's table was laid with pink taffeta and white net and centered with a bouquet of pink roses. Bouquets were at vantage points throughout the room.

When the couple left for a wedding trip to Mexico, the bride was attired in a two-piece suit of soft yellow jersey with white accents.

Alcorn Says Politicians Out of Touch With People When It Comes To T. V.

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur advises politicians about television this week.

Dear Editor: Successful politicians as I understand it are supposed to be men who figure out what the people think before they know it themselves and then let them in on it, but I'm not sure this is always true.

Also, a politician is supposed to keep his ear to the ground, and maybe he does, but this may not be very helpful these days when half the people live above the ground floor.

I was thinking about this after I read an article telling about how the politicians, both Republican and Democratic, had been worrying about what they could do to liven up their conventions, in order to hold the television audience.

Here we are, they said, with two or three days and nights of nation-wide, exclusive television time and how can we be sure we can hold our audience?

This shows how out of touch with the people the politicians are.

Don't they know the people don't expect them to put on a lively show when not even the professional television people can do it. We might wish they could, but we don't expect it.

If politicians had kept their ears off the ground and their eyes glued to their T. V. sets, they would have realized the people have not come to expect constant gripping excitement on the screen.

Take the average baseball game on T. V. Maybe ten per cent of the time something really exciting happens, and the rest of the time is about on the same plane as a second - the - nomination speech at a convention. One nome-run and one interesting speech per show is about the average for either type of produc-

tion. The people understand this and they except no more.

With some speech, the last thing the speaker needs is an attentive audience. There are times when losing your crowd can be more beneficial to the party than holding it.

Yours faithfully, A. A.

Farmers May File Fed. Tax Refund

Application forms needed by farmers for a tax refund for federal taxes paid on gasoline used for farming enterprises are now available through the County Agri. Agent's offices.

These forms have been received by all those who applied for the federal tax refund last year, but those who have never applied will need to acquire a new form in order to receive the refund due them.

The 4 cent per gallon on the gasoline tax is for gasoline used during the period of July 1, 1963 until June 30, 1964, only. The deadline for filing applications is September 30, 1964 and only one claim per year may be filed.

Anyone desiring an application

Agriculture Is Big Texas Industry

Agriculture is still a giant Texas industry. Nearly 40 per cent of all Texans derive their income wholly or in part from farming or ranching or connected businesses. Despite a continuing decline in the number of people on farms and ranches, many of those leaving the country are not leaving the agricultural industry, explains John McHaney, economist for the Texas Agricultural Extension Service, but are shifting into agricultural related businesses.

J. D. Hinson of Johtown, is a new resident of Deport Nursing Home.
