Side Issues

By HENRY G. VERMILLION

A lady subscriber called The Record this week to suggest that Eastland be sprayed with DDT to eliminate the fly and mosquito menace and possibly lessen the danger of polio—said she had heard of a polio case in Cisco, unconfirmed.

The spraying is an excellent idea, if properly carired out so as not to destroy small animal life. The most recent issue of Reader's Digest points to towns in the Middle West where flies ar almost unknown, because of community spraying of DDT.

Who would do the spraying and how, and who would pay for it is something else. Anyone got any ideas?

Business Notes:

Hood King's remodeled Ford agency building is one of the most handsome we've seen anywhere, and tongues have been wagging in Eastland about it. King says he hired an architect to do the design and to implement it, and he's very glad he did.

Milton "Pop" Gaines of Eastland Auto Parts has doubled his force in recent weeks, and is turning out an even greater number of reconditioned motors, mostly for Montgomery Ward. The last time he mentioned it to me, I believe he was employing 13 men in his shop, which makes it a fair sized small industry—and all done without much ballyhoo.

Hollywood Corset Company is operating as usual after a recent shutdown caused, the company management said, by just having too many garments on hand.

O. J. Rea of Rea Haydite Products, makers of Haydite building blocks in Eastland, says his plant is having tough sledding finding enough buyers for its products, and has a yard-full of blocks made up now. He'll have to move the plant away if the blocks don't begin selling faster, Rea said.

Banner Creamery's new Eastland plant is pretty snazzy in its modern trim, and is another brand new addition to Eastland's business scene. The plant is located across from the City Hall, and I hear cost about $20,000.

Officers of the Eastland National Bank had negotiated with a number of parties for sale of the mostly unused bank building before they came to terms last week end with C. P. Porter and Morris Cannan. Some of the negotiations had dragged out for months. But Porter and Cannan didn't start talking about the deal until Thursday afternoon, had it closed Friday afternoon, and signed the papers and announced the transaction Saturday afternoon. Fast work!

Lest we forget department:

Dairying is taking a big spurt in the minds of Eastland County people these days, with a dozen or more Grade A dairy producers near Eastland leading the way toward what may be a land of milk and honey, or at least milk, here in the county.

But when Johnny Kilgore landed in Eastland two and a half years ago, there was not a genuine Grade A dairy barn near Eastland. Johnny, who took the full dairy course at Texas Tech, has done his level best to promote bigger and better milk production in Eastland County, both because he believes in it and because he's in the creamery business to make money. Now he's handling over four times the volume of milk he did when he bought his creamery here, and I understand Banner is taking about that much more also, at its receiving station here.

Not all the credit goes to Johnny, but a lot of it does, and I'm mentioning this for the record, because his name was not mentioned at the dairymen's barbecut at City Park this week, possibly through oversight.

Our son Trevette, who has been ill so long and so seriously, was to be brought home from the hospital Thursday, and is much better. Again I wish to thank all those who have been so kind, and especially the blood donors, Sheriff J. B. Williams, Dr. R. N. Whitehead and Estes Halkias.

Oil Interest Leads To Bank Building Purchase By Pair

Faith in Eastland's place in the current oil development in Eastland County was shown by two outsiders last week end when C. P. Porter of Alice and Morris Cannan of San Antonio bought the Eastland National Bank Building for an udisclosed sum.

Porter is vice-president and general manager of the Coast Oil Corporation, which has extensive interests in the new Kirk field near Gorman, and Cannan is a consulting geologist who has done much work for Porter's firm.

In the transaction, the bank, which owned the building, retained title to its own quarters, which occupy most of the first floor, and to the portion of the basement occupied by the bank safety deposit vaults.

Porter and Cannan said it is their intention to put in good elevator service in the building, to install air conditioning in all offices, and to redecorate their portion of the building, which includes the downstairs lobby, the basement, the downstairs office occupied by the Eastland Chamber of Commerce, and the top four floors.

The building was completed in 1920, and cost $315,000 to build.

It will be renamed the Petroleum Building, to honor the oil industry which has created so much wealth in this section, the new buyers announced.

Porter said his faith in this county and in Eastland as an oil center is caused largely by the fact that there are 50 drilling rigs operating within 35 miles of Eastland.

"If the rigs stay here for a year, they will uncover 10 new oil fields," he said.

He also pointed to secondary recovery, by water flooding and other methods, as a source of future activity in the county.

Already, Magnolia Petroleum Company is leasing land near Desdemona where it is planned to inject water into the oil bearing strata through centrally located wells, to force oil up through other wells, much as sulphur is mined on the Gulf Coast.

Only about 35 per cent of the oil in the old fields of the county, except water driven fields, was recovered in the first production period, and another 35 percent can be recovered by secondary recovery methods, he estimated.

Offices in the Petroleum Building will be open for rental to all business or professional people, but the purchase was made largely with the idea that oil company office space is needed in Eastland, Porter and Cannan said.

Mrs. Durham Given Course Scholarship

Mrs. Harold Durham has been awarded a scholarship to a workshop in elementary school library service to be held in Denton at Texas State College for Women, June 28 through July 16.

Miss Viola K. Fitch of Columbia University will be the class director.

Mrs. Durham, principal of South Ward School, has accepted the scholarship and will reside in the dormitory at the college during the period, and will come home each week end.

Closing Of Only Eastland Hospital Is Threatened

King To Display New Fords In New Showroom Friday

Friday will be a red letter day in the history of the King Motor Company of Eastland, because the brand new and different 1949 Fords will be shown for the first time in Eastland in the firm's new showrooms, created during the recent remodeling of the King building.

The new showrooms and offices of the company were created out of space formerly occupied by a service station. A light green masonry block effect has been created for the entire exterior of the building, finished in stucco, with a cornice on the Main Street side, and a glass brick panel in lieu of a show window on the Seaman Street side, to let light into an office at the rear of the showroom.

Work on the building is not altogether completed. Carl Butler, contractor, said if he had had one less day, he could not have finished the showroom and offices for showing of the new Ford models.

The new Fords are just as representative of 1949 as is the ultra-modern building. Sleekly streamlined from front to rear, they have no jutting fenders. The hood is shorter and broader; the seats are much wider; the seats are cradled between the wheels; the entire car is lower, the body wider, and the space better utilized.

New springing offers a better ride, the builders say, and more power is under the hood of both the V-8 and the six. New gasoline economy also is promised. Steering has been improved, and new larger windows offer greater visibility from anywhere in the car.

Deadline At Hand For Office Seekers

If you want to run for a county or precinct office, you'd better get busy.

Saturday, June 19, is the last day for candidates seeking county and precinct offices to get their names on the Democratic ticket, County Democratic Chairman Oscar Lyerla pointed out this week.

Then on Monday, the county committee will meet to determine the order of the ballot, and to apportion the cost of the primaries among the candidates. And on Thursday, candidates and campaign managers must file their first expense account for the primary. By Saturday of next week, the candidates must pay to Lyerla their election cost assessments, and the race from then on will be hot and heavy until the first primary July 24.

GILCHRISTS PARENTS OF TWIN SONS

Mr. and Mrs. John Gilchrist of Pampa are the parents of twin sons born in a Pampa hospital Wednesday. Mr. and Mrs. Gilchrist formerly lived in Eastland. Mrs. Gilchrist is the sister of Mrs. Don Parker.

Mr. and Mrs. Richard Lisman of Lubbock have been the guests here of Mrs. Lisman's parents, Mr. and Mrs. Guy Parker.

Reserved Football Seats Available

Reserved seat tickets for the 1948 Eastland Maverick football season may be reserved now from C. A. Hertig, school business manager, at 501 Exchange Building, Phone 211.

Reserved seat tickets will be sold on the same basis as last season, Hertig said, when the plan was first inaugurated in Eastland. Under the plan, the same seat may be reserved for the entire season.

Second Dairy Tour Set For Friday

The second of two Eastland County dairy tours sponsored by the Eastland County Dairy Association will be held Friday starting at 9 a. m. at the J. E. Spencer fruit stand on Highway 80 in Cisco.

The first tour, last Friday, was called quite successful by the sponsors, officers of the organization.

Anyone interested in dairying in the county was invited to go on the tour Friday, or for a half day of it if time is limited. The afternoon portion of the tour will begin about 1 p. m. in Rising Star.

The dary association's monthly meeting will be held at 8 p. m. Tuesday, June 29 in the County Courtroom in Eastland. Scheduled to be adopted are the constitution and by-laws of the association.

Anyone interested was invited to attend either the tour or the meeting.

Judge Collings Seeks Appeals Court Place, Points To Record

JUDGE COLLINGS

Seeking advancement from a district court bench he has occupied for ten years, Cecil C. Collings of Big Spring, has announced his candidacy for associate justice of the Court of Cicil Appeals, 11th Judicial District at Eastland.

Collings already has started a tour of the 23-county district, was in Eastland last Saturday in behalf of his candidacy.

The Big Spring judge is presenting a record of public service that dates back 20 years. He has been a resident of Big Spring since March, 1928. In 1934 he was elected district attorney of the 70th Judicial District, and then was elevated to the district bench in 1938. He was reelected in 1942 and in 1946.

Born at Chalk Mountain, Erath County (he thus is a native of the appellate district), September 28, 1899, Collings attended public school at Glen Rose and was graduated from high school there. He attended Meridan Junior College and then the University of Texas, interrupting his education at the latter school to serve a term as county judge of Somervell county. He then returned to the University, from which he obtained his law degree in 1927.

He went to Abilene, where he formed a partnership with Charles Coombes and practiced law for a brief period before moving to Big Spring.

Judge Collings has been an active participant in religious and civic affairs during his resdence

County's Future As Center Of Dairy Industry Described

Eastland County's development as a dairy center is limited only by time and by the work and determination of the men interested in the dairy development of the county, Bryan Blalock of Marshall told businessmen and dairy farmers Monday night.

The occasion was the first annual barbecue of the Eastland Chamber of Commerce for dairymen of the county. Blalock, the principal speaker, is president of the Texas Dairy Institute, and also is a Marshall dairy farmer.

He pointed out that if only 100 farmers of the county were milking only 20 cows each, and each cow averaged giving two and a half gallons of milk a day for 10 months, at current prices those checks each day totalling over $2000, and each year would receive from milk alone over $730,000.

"If you heard of a factory with an annual payroll of that much, you'd be offering them the city hall to get them here," he said.

About 300 persons attended the barbecue. Blalock asked for a showing of hands of those present who actually owned and milked cows, and nearly half the men present held up their hands.

Blalock was introduced by O. D. Dillingham of Abilene, president of Banner Creameries, who painted a picture of Eastland, Stephens and Shackelford counties as a natural milkshed, with great potential markets both to the east, in Fort Worth and Dallas, to the west, in the rapidly expanding Permian Basin oil country, and to the south, in San Antonio.

Both speakers told of the steady recent decline in the number of cows milked in Texas and the nation, while the population, and the demand for milk, increases. Dillingham told of increased production in Eastland County, and said all the factors are here for far greater milk production.

Blalock told of the milk production area in northeast Texas which had no commercial milk cows in 1930, and produced millions of dollars worth of milk last year.:

Blalock said dairy farming is one of the surest ways to farming success if properly conducted, but it is no place for a lazy man or an ignorant one.

Master of ceremonies for the affair was L. E. McGraw, president of the Eastland Chamber of Commerce.

Rotarians, Lions To Meet Jointly

Members of the Eastland Rotary and Lions Clubs will meet jointly in the basement of the First Methodist Church at noon Monday to hear a talk on "Highways and Communications" by George Brown of the Southwestern Bell Telephone Company, Dallas.

Brown will lecture and demonstrate new telephone and communications equipment, including mobile telephones now being used on highways of the country, radar, and power line telephone service.

His talk will be presented in Eastland by C. A. Deuschle, district manager of the telephone company at Cisco.

Store Manager Wins Race With Shoplifter

J. L. Waller of the J. C. Penney store in Eastland proved Saturday that he is still fleet on foot, when he ran down a man who had taken a pair of pants from the store.

The man, who gave his name as Charlie Skinner of Stephenville, was charged with theft in County Court, and was fined $50 and costs.

Haydite Firm Officials Change

Changes in the top management of the Texas Lightweight Aggregate Company which involve the resignation of C. W. Cline as president and director, the election of Charles L. Moruzzi of Dallas as president, and the appointment of John B. Cleary as Eastland plant manager were announced this week.

Cline, who said he resigned after a disagreement over company sales policies, had acted as plant manager and engineer. He and Mrs. Cline were to have left on a 10-day vacation trip Thursday.

Cleary, a pioneer engineer in the productnon of Haydite, was called here once before to work out some production problems for the plant.

Moruzzi said the Eastland plant will be expanded soon by the addition of a third large kiln. This will follow the making of other changes in the mechanical and burning equipment of the Eastland plant, to be made over a period of months. Despite the contemplated changes, production will be continued at full speed to help meet the tremendous demand for Haydite, Moruzzi said.

Cleary will be assisted in making the improvements by H. B. Wright and Harry J. Walter, both of whom have been employed at the local plant.

R. L. Clinton Directs Music For Methodists

R. L. Clinton of Putnam assumed his duties here this week as minister of music and director of young people's activities at the First Methodist Church.

Mr. and Mrs. Clinton are recent graduates of N.T.S.C. at Denton, and with their small son, Robert Lowry Clinton, are living at 114 East Hill Street.

Clinton is also a teacher of piano and voice and will begin instruction next Monday. For the present he will use the facilities at the church, but plans to open studio here in the near future.

Clinton is working on his master's degree in music.

Doug King Improved, To Return Home

Doug King, son of Mr. and Mrs. H. L. King of Eastland, is greatly improved after a second operation in Amarillo Monday, and will be returned home soon, his father said this week.

Young King was critically injured two weeks ago in a jeep-truck accident near Amarillo in which Don Hill, Jr., was killed.

The operation Monday was to remove broken glass from a neck injury he received in the accident. The earlier operation was to repair damages around an eye, and was called entirely successful.

Owner Suggests Cooperative Offer For Institution

Eastland's only hospital will be closed within a short time unless the community takes some action to keep it open, or unless it is sold to private individuals, Mrs. Helen Begley, owner, said Thursday.

Mrs. Begley said her health, and the health of her daughter, Mrs. Mary Lou Bogdan, who is operating the hospital, make it imperative that they dispose of the property.

At a meeting of the Eastland Chamber of Commerce Board of Directors Tuesday evening, Ben Hamner said that Mrs. Begley would close the hospital if it were not sold, and proposed a community plan through which residents of Eastland would group together to buy the hospital and keep it open.

The sale price has been set at $25,000, he said, and a local woman who is qualified to operate the hospital has offered to assume half of that sum.

Mrs. Begley said she was awaiting a proposition of some kind, and that if none is forthcoming, the hospital will be closed within a fairly short time.

Mrs. Begley bought the hospital about two years ago, and Mrs. Bogdan has been operating it since.

Hospital facilities have been improved greatly during her ownership, Mrs. Begley said.

A site has been acquired by a group of Eastland men with the avowed intention of building a new hospital here, but they said construction would not begin until building costs come down, which makes the project fairly indefinite.

Work To Begin On Repairing EHS Gym

Work is to begin this week on repairing and modernizing the Eastland High School gymnasium, it was announced on behalf of a citizens' committee named to supervise the work.

Carl Butler, Olden contractor, has been named contractor for the job, it was aanounced.

The committee is composed of C. W. Hoffmann, W. B. Pickens and Jim Horton.

First work will be on replacing the gym floor and repairing the windows. After that, work will go on until the funds are exhausted, it was said.

Latest donations to the fund for repairing the gym came from the A. & P. Grocery, $25, and from Higginbotham-Bartlett, all paint used on the job at wholesale cost.

Any other donations will be welcome and can be put to good use, said Mrs. James Horton, who did the bulk of the work toward raising the funds.

Willy-Willys Named Local Servel Dealer

Appointment of the Willy-Willys Furniture Mart as local dealer in Eastland for the Servel gas refrigerator was announced this week by Lone Star Gas Company, distributor.

The announcement, made by M. O. Chapman, district manager for the gas company, is in line with Lone Star's dealer sales assistance program.

Official recognition of the appointment will be given at an open house at the furniture store Friday, June 25, from 9 a. m. to 5 p. m. Servel refrigerators and CP gas ranges will be connected to gas lines for demonstrations by Mrs. Clyde Stephenson and Miss Martha Ritter, Lone Star home economists. The public was invited to attend, and it was announced that refreshments will be served.

Mrs. V. W. Chambliss and daughter, Judy, returned Tuesday evening from Meridian where they visited in the home of her brother, C. T. Lawson and family.

Water Supply, Fishing Lake Envisioned

A lake east of Eastland and south of Ranger that would impound about 90,000 acre feet of Leon River water, supply water for several municipalities, and serve as a sportsmen's center has been envisioned by a group of Eastland men.

The lake is only a dream as yet. As outlined by Fred Brown and W. B. Pickens at the meeting of the Eastland Chamber of Commerce Board of Directors Tuesday evening, the lake would be partly financed by sportsmen who would buy fishing sites around the future shore line, before the lake was actually completed.

Then the water would be sold to Ranger, Eastland, Gorman, Comanche, Hamilton, or other towns that could use it and needed it, and ultimately the water sales would pay the lake's debt off, leaving the sportsmen as sole owners of the entire property.

That was the way the group thought of the project, which was conceived by Brown, Pickens and others in talks with consulting water engineers.

The lake as envisioned would have twice the capacity of Lake Cisco, and would have a watershed more than 10 times as large. Brown pointed out that although many things cost more now, the cost of earthen dams is less now than before the war.

Want To Build A New Home? See Tanner

Want to build a home?

If you do, please contact Eastland Chamber of Commerce Manager H. J. Tanner, the organization's board of directors asked following a home building discussion at its session Tuesday night.

What Eastland needs is more homes, everyone agreed, and few are being built. It was decided that lack of a good home building contractor is one of the big items in the shortage.

But to interest a contractor in coming here, names of prospective home builders, or new home buyers, are needed, it was decided. So the board invited such persons to list their names with Tanner. No obligation of any kind is involved—the only thing that will happen is that you may get a new home.

Tanner said he had talked to one contractor from Fort Worth who might come here, and further talks with the man are scheduled.

During a short business session, the group decided to meet during the summer months at the church each Monday at 3:15 p. m.

Attending were Mesdames H. G Garrard, Jess Siebert, F. A. Hollis, J. L. Waller, Lewis Barber, A. J. Blevins, John Alexander, Pat Crawford, Charles Butler, James Ward, Jennie Self, J. F. Gholson, Nora Andrews, and Mr. Chapman.

MISS SUE BENDER WEDS MR. GOODE IN CEREMONY SATURDAY IN EASTLAND

MRS. JOHN TANNER GOODE

Miss Sue Bender, younger daughter of Mr. and Mrs. Earl Bender, 308 South Dixie Street, became the bride of Mr. John Tanner Goode, son of Mr. and Mrs. Lee Goode of Eagle Lake, in vows solemnized Saturday evening in the First Methodist Church in Eastland.

The altar, covered with a white cloth, held crystal candelabra with white tapers and was placed before a background of fern, palms, baskets of white gladiolas, and tall candelabra holding white tapers.

Miss Barbara Grist at the organ played "Drink to Me Only With Thine Eyes" while the candles were lighted by Miss Alice Ann Pittard of Anson, and accompanied Mr. Pat Miller, who sang Grieg's "I Love Thee," and "At Dawning." She also played the traditional wedding marches.

Rev. James Bond, pastor, read the double ring ceremony.

Given in marriage by her father, the bride wore an all white crepe dress of street length, fashioned with short sleeves and low V neckline. Her off the face white straw hat held in place a frothy white veil which hung to her waist. Fancy white gloves and white sandals completed the ensemble.

Her only ornament was a string of pearls which belonged to her maternal grandmother. She carried an orchid shower placed on a white Bible.

Mrs. Pat Miller was her sister's matron of honor and wore a white crepe dress. Her shoulder corsage was of blue carnations, matching her blue halo hat.

Little Sherry Annelle Miller carried the rings on a white satin pillow, which was decorated with a white shower of satin ribbon.

Mr. Donald Greaves of Fort Worth was best man, and Messrs. Fred Frnka of Eagle Lake, and Allen Glueck of Devine, brothers-in-law of the groom, were ushers.

Parents of the bride were hosts for the wedding reception in their home. The bride's table was laid with a crocheted lace cloth and was centered with a floral arrangement of pink and white carnations, which formed the background for pictures of the bride and groom.

Mrs. Guy Parker served the three tiered wedding cake, decorated with pink rosebuds and topped with a small bridal couple. She was assisted by Miss Alva Lawther of Fort Worth. Miss Ruth Brown of Fort Worth and Mrs. Morris Pittard of Anson ladeled the frosted punch.

Others in the house party were Mrs. Frank Sparks, Mrs. Lee Goode of Eagle Lake, mother of the groom, Mr. and Mrs. Allen Glueck of Devine, Mr. and Mrs Fred Frnka of Eagle Lake, Mesdames H. D. Parnell, L. C. Brown, and H. M. Hart, of Eastland, and Mr. and Mrs. Barney Arnold and Barney Arnold, Jr., of Knox City.

Mrs. Goode is a graduate of Eastland High School and T.W.C. in Fort Worth. She has been employed by the Stuart Guaranty Title Company in Fort Worth. Mr. Goode is a graduate of Eagle Lake High School and of T.W.C. He is now a student at the University of Texas in Austin, where the young couple will make their home.

Splicing telephone cable
TO SERVE WAITING CUSTOMERS

"I'm a cable splicer for the telephone company.

"I splice every one of the hundreds of wires in one section of telephone cable to its mate in the next section.

SOUTHWESTERN BELL TELEPHONE CO.

"All of us cable splicers are busy these days helping put new cables into service so that people waiting can get telephones.

"Cable and wire tie together the parts of the telephone system. To serve a new customer we need not only a telephone instrument and room on the switchboard, but also there must be a pair of wires to connect the two. Right now, most of the wires in telephone cables are in use.

"That's why we're putting in new cables as fast as the factories can deliver them—and the factories are turning out twice as much as they did before the war.

"To you people waiting: We want you to know that we're doing everything we can to get you a telephone—just as soon as we can."

ANNOUNCING

The offering of piano instruction by Mr. Robert Clinton. Those interested may see Mr. Clinton at the First Methodist Church on Mondays from 9 to 12.

THE 'Jeep' IS THE ANSWER
WHEN THERE'S WORK TO BE DONE

GET A 'JEEP' ON THE JOB

Got some tough work to do? Then get a "Jeep" and get it done. The rugged Universal "Jeep" does more farm jobs and does them better than any other machine. It works the year 'round as a light tractor, pick-up, tow truck, and mobile power unit. Let us demonstrate on your farm.

SHERIFF'S NOTICE OF SALE
STATE OF TEXAS,
COUNTY OF EASTLAND,

F. E. Harrell vs. Calvin Penn

WHEREAS, by virtue of a certain Execution, File No. 5098, and Order of Sale issued out of the Justice Court of Precinct No. 6, Eastland County, Texas, on the 17 day of May, A.D. 1948, wherein F. E. Harrell is Plaintiff, and Calvin Penn is Defendant, on a judgment rendered in said court against said defendant and in favor of the said Plaintiff, for the sum of One Hundred Fifty Eight and 10-100 ($158.10) Dollars, with interest thereon at the rate of 10 per cent per annum, from date of judgment, together with all costs of suit; I have levied upon 26th, May, 1948 and will on the 6th day of July, A.D. 1948, between the hours of ten o'clock a. m. and four o'clock p. m. at the Court House door of said County, proceed to sell for cash to the highest bidder; all the right, title and interest of Calvin Penn in and to the following described property, levied upon, to-wit: an undivided one fourth (¼) of an undivided one half (½) of all the oil, gas and other minerals in, on or under the Northwest one quarter (NW¼) of section Eleven (11), Block two (2), BBB&C Railway Co., lands in Eastland County, Texas.

The above sale to be made by me to satisfy the above described judgment for $158.10 in favor of Plaintiff, together with all costs of suit and sale, and the proceeds to be applied to the satisfaction thereof.

J. B. WILLIAMS, Sheriff,
Eastland County, Texas
By C. B. Graham, Deputy.
