BUATT MADE RECEIVER FOR CITY

Local Train Crashes With Freight At DeLeon Monday

HOME TOWN GOSSIP

A well known Pioneer couple will take the vows of wedlock here Thursday evening. The ceremony will come as a complete surprise to their many friends.

The groom—whose name we are not at liberty to reveal--is keeping the event secret to even a score with his brother, who recently married without first seeking the brotherly blessing.

The bride-to-be' is one of Pioneer's attractive young brunettes and has resided in that community for quite a while.

It should not go without saying that C. W. Kemper is giving the future bridegroom plenty of suggestions and paternal counsel. He has been helping the boy make all preparatory arrangements and if 'Kemp's' experience is worth anything, the function should move off in swell fashion.

Rev. S. P. Collins will tie the marital knot.

And with Dan Cupid's banner month but 19 days in the offing, there will doubtless be many other nuptials to report through these columns soon. Better pay up that subscription and not miss anything.

* * * * * *

Two of Cross Plains' younger set are scheduled to take the fatal plunge' Monday. They had planned the occasion two times before. But once a wreck prevented and the next time the bank holiday impaired the prospective bridegroom's finances. Fate permitting, the rites will be solemnized Monday. We have our information first hand.

* * * * * *

A significant tip reaches us that five of Cross Plains' last year's debutantes have become very interested in tatting. You may recognize them by the fact that all are soon to blossom forth in frocks of bright new shades.

* * * * * *

And speaking of sewing and new clothes, a local woman is having made a tuxedo for her own wear. Marlene Dietrich's new fad is even invading the old home town, however we may get our ears boxed for saying so.

* * * * * *

Saw a size 22 shirt in a local store Monday, which had been ordered for Dad Tumlin, of Sabanno. We were told that he also wears size 56 pants. He is perhaps the largest man in the Cross Plains trade territory.

$3,000 DAMAGE IS DONE BUT NO ONE SERIOUSLY INJURED

Conductor Has Time To Warn Passengers To 'Stand Aside' For Crash

Approximately $3,000 in damage was done when two M. K. & T. trains crashed head-on, just outside of the DeLeon yard Monday afternoon. No one was injured seriously.

Conductor Wilbur Wright had just gotten his train underway enroute for Cross Plains, when it was crashed into by an East bound M.K.&T. freight. Four passengers were aboard the local train but all had time to prepare for the crash, due to a warning given by Conductor Wright and as a result none was injured seriously.

The local train pulled into Cross Plains only slightly late, however the engine was damaged to such extent that it was left at DeLeon the following afternoon for repairs, and another was substituted to make the run here.

Miss Clarine Barnaby, returning home from Waco, was the only local person aboard when the crash occured.

BOND BROTHERS BUY C. P. MERCANTILE IN SHERIFF SALE FRIDAY

S. E., B. B. and Taylor Bond, principal owners of the Cross Plains Mercantile, bought the stock and fixtures of the store at a Sheriff's sale here Friday and have changed the firm name to Bond Brothers General Merchants.

14 bidders attended the sale and attempted to buy the stock and fixtures but Hubart Harkrider, of Abilene, bidding for the Bond brothers offered the accepted price.

A bit of history concerning the former Cross Plains Mercantile and this city is related in an advertisement on page five this week.

Price Odom of Coleman visited relatives and friends here Tuesday.

One Review Travels 3,000 Miles And Is Read By 12 People

When a country newspaper travels 3,000 miles and is read by 12 people that's news.

Mis s Elouise Haley, who has just returned from a four month Stay in the North and East, tells the Review the following interesting story of how she received her home town newspaper in a unique manner.

Her parents Mr. and Mrs. Lon Haley got the Review at the local post office. They read it and forwarded it on to their daughter Mrs. R. V. Hart, at Big Spring. After reading the paper, Mrs. Hart sent it on to her sister, Elouise, in Saint Louis. When she had finished it, Elouise gave the Review to Charlie Mahan, Saint Louis, who is a former Baird boy. He read it and handed it to a neighbor also formerly of Callahan County. The neighbor had a son in New York state and after reading it would send it on to him. In that way several copies of the Review travelled more than 3,000 miles and was read by an average of two people at six different stops.

COMANCHE CHOSEN AS NEXT MEETING PLACE OF SCRIBES

Heart O' Texas newspapermen in convention at Ballinger Saturday selected Comanche as the place for the Autumn meeting to be held the third week in September.

Ballinger Chamber of Commerce was host to newspapermen at luncheon with a barbecue dinner at the new city park. Members of fire and police departments prepared and served the food.

In the golf tournament--closing feature of the convention—George Hill, Jr., of Winters, defeated M. S. Sellers, Rising Star, and was presented the Southwestern Paper Company trophy by their representative John Gorman. The next meeting of the group will be held in Comanche the third week in September.

Mrs. Tom Anderson left Wednesday for a few days visit in Abilene.

OPTIMISTIC SPUDS IN ON WELL NORTH OF TOWN TUESDAY

Location for a 1,900 foot test was made Sunday on the E. I. Vestal farm, two miles North of Cross Plains, by the Optimistic Oil Company The well was spudded Tuesday and was 105 feet yesterday morning.

The location is 500 feet from the famous Vestal 'wonder' well', which came in for 500 barrels in 1920. Henry Conklin, Ed. Schaffner, C. D. Lane and E. D. Priest are principals of the Optimistic Oil Company.

"We have four oil sands to shoot at and a strong possibility of encountering millions of feet of gas", E. D. Priest told the Review yesterday. "Its the best bet I know of in this section', he stated.

There are 1,000 acres in the block on which the well is being drilled.

Noll Sewell, of Midlothian, and Troy Griffin, of Abilene, visited W. V. Wheeler and Jack Scott here Wednesday and Thursday.

Local Girl Returns From Travels Through America's Scenic Points

Miss Elouise Haley has returned home from a business trip which carried her through dozens of Northeastern states, scenic points along the great lakes and by shrines of famous Americans.

As an organizer of sororoties for business and professional women her work took her from the nation's greatest industrial centers through remote localities, sometimes surrounded with unusual human interest.

When questioned by a Review reporter as to the most interesting thing seen during her four months of absence from Cross Plains, Miss Haley hesitated and was unable to relate any single incident but gave a complete resume of the trip, declaring it to be one of the most educational sojourns in her life.

She left Cross Plains the first week in January, going to Saint Louis, where plans for her work were outlined and instituted. "The most inspiring sight in Saint Louis is I think", Miss Haley said, "the Lindbergh Memorial building". Two entire rooms—about size of Review building—are devoted to the housing of trophies and medals awarded the Lindbergs by the various nations of the earth".

From Saint Louis Miss Haley went to Peoria, Illinois, where one of the Winter's heaviest snows completely impaired transportation and all industry in that immediate section was throttled to temporary standstills. "It snowed more than six feet", she declares.

From there she was sent to Akron, Ohio, dirigible center of North America. While there Miss Haley saw the new Macon dirigible under construction and also visited one of the nation's largest tire and rubber factories.

At Cleveland Miss Haley visited one of the country's most unusual buildings. It is called Terminal

Move Is Taken Voluntarily Upon Recommendation Of Attorney To Prevent Further Court Judgement

The city of Cross Plains entered into voluntary receivership Tuesday morning. The action was taken upon recommendations of Dallas Scarbrough, of Abilene, attorney for city. S. M. Buatt, city clerk, was named receiver.

Members of the city council pointed out to the Review editor yesterday that the advantage in taking the action voluntarily was that the city clerk here would automatically become receiver and that a man could not be appointed by federal court and demand immediate liquidation of debts.

According to the receiver there will be no prompt change of policy with city business but that the outlined program of retiring municipal obligations will be pursued.

Condition Is Better

"We are in much better financial condition than a year ago and the present receivership is not as stigmatic as one might assume without first considering the facts", said Mayor S. P. Collins yesterday. "I feel that the present arrangement will in no way effect the economy program that council members now have on foot and that we will work out of the situation splendidly", he continued.

The chief reason for the voluntary receivership was to prevent suits being brought against Cross Plains and judgements granted.

A. W. Thompson, Brownwood C.P.A., completed an audit of city books the past week and included in his formal report the following complimentery comment concerning the way municipal affairs are being handled.

Auditor Lauds Buatt

"I found that your City Clerk, Mr. S. M. Buatt, has kept a detailed accounting of all Receipts and Disbursements during this period, and I find no exceptions to his cash received and disbursed, and schednles on Sheet No. 6 of this report gives a detailed statement of his accounts. His tax records were neat and accurate, and I also

SKATING RINK FALL INJURES LOCAL MAN

Molton Sims returned home Wednesday from the Scully Hospital, Santa Anna, where he underwent a shoulder operation to adjust broken bones sustained in a fall on a skating rink floor, at Baird Friday night.

His injuries were not considered dangerous at first but when taken to a hospital, ex-ray pictures revealed that a point of one of the breaks was very close to puncturing an artery. It was necessary to make incisions to set the bones correctly, attending physicians said. Mr. Sims was on the operating table more than two hours.

He was said to be recovering normally Thursday at noon.

CITY DADS MARKING TIME ON GAS PLANT

'City Fathers' are marking time on the proposed municipal gas system here, pending the securing of financial backing. A member of the council told the Review yesterday that all preparatory data had been arranged and that formal application for a loan to finance the plan would be made the 'public works division' of the Reconstruction Finance Corporation immediately.

In the event that R.F.C. officials refuse to lend aid to the project Aldermen have stated that they have no intentions of dropping the work and that plans may be formulated to endeavor to secure local backing.

"Our recent entrance into receivership will not effect the gas system program at all, save to the extent that we will not be permitted to apply general fund money to the construction of a plant", said S. M. Buatt, city receiver.

Mr. and Mrs. Porter J. Davis attended a banquet in Coleman Wednesday night given for employees of the Red and White Stores and their wives.

SPANISH AMERICAN WAR VETERANS ARE GIVEN PENSION TIPS

Editors' Note:

A statement issued by the United States War Veterans bureau, from Washington, is printed herein for the benefit that it may be in assisting veterans of the Spanish-American war to maintain pensions, despite recent legislation reducing all and abolishing many of them. There are many veterans of the Spanish-American war in Cross Plains trade territory and if following regulations are carried out, practically all of the service connected pensions will be continued.

IMPORTANT NOTICE

Comrades of the United Spanish War Veterans:

Under the regulations promulgated pursuant to the Act of March 20. 1933 (our new pension law), the disabilities for which we are now pensioned are presumed to be of service origin, subject, however, to rebuttal by the Government to determine by medical judgment or affirmative evidence that they, or any part of them. are not of service origin, and then to rate us in accordance with that determination. The Veterans' Administration will now accept and consider any sworn statements filed in support of the presumption of service origin. It, therefore, behooves every one of us to get busy and file such evidence as we can secure. First, prepare your own statement of disabilities you claim to have been incurred in the service or within one year after discharge. Secure supporting affidavits from former comrades, members of your immediate family, and (or) friends and neighbors. It would be well to secure medical evidence, if possible. Mail each affidavit, as it is secured, direct to the Director of Pensions, Veterans' Administration, Washington, D. C.

Be sure to put your name and pension certificate number in the upper right-hand corner of every paper you send in.

DO THIS NOW.

Keep copies of all evidence you send in.

Hyde Park Favored As The Summer Capitol

The summer capitol of the United States this year will likely be at the New York resident of President Roosevelt at Hyde Park, which is shown above. Such is the report from Washington where great uncertainty prevails as to when Congress will end its work on immediate legislation. Reports from the White House also tell of the President's plan for a week's cruise on the 45-footer, "Amber Jack II", with only his four sons as shipmates. It is thought the cruise will be up the Maine coast for a short stay at the Roosevelt home there. Below, the President and Mrs. Roosevelt off for a short week-end

WHY IT PAYS TO TRADE AT HOME

Why does it pay to trade at home?
Is the question that I ask.
Giving the many reasons
Is a very easy task.

Don't the merchants pay huge taxes?
Don't these taxes help the school?
And the school is the main part of the city
As a general rule.

The merchants are always
Good citizens of the city,
And for them to go broke and move
For lack of business is a pity.

Why don't you buy at home?
Keep your money in your own town.
There it'll help you again
If you consider it all around.

And your dollar circulates like that.
You buy some drugs;
The druggist's wife buys a hat.
That merchant pays his clerk,

The clerk buys a car;
The car dealer buys a hen.
The poultry man buys your eggs,
And you have your dollar again.

Patronize your home merchant,
And he'll buy your goods from you,
And you'll make more friends,
Than you ever knew.

When you need something,
Get it here at home.
Help your own city
And leave the other towns alone.

Maybe there's a bargain over yonder,
But to make the trip there's needed gas.
After the trip there and back
Where's your profit? Alas.

The goods that you have bought,
The cost was not so great
And the quality wasn't either,
But you find that out too late.

Trade with your own merchants
Where there's quality that's worth while,
Where you get good service
And this service with a smile.

A real meal was served for the cook had a chance to get fresh supples—also the ship was stocked for the next voyage. After much entertainment the anchor was hoisted and the ship gradually moved from the dock.

Wonder where Mr. Wheeler learned all the wise cracks that he revealed so freely at the banquet Friday night.

Will You Remember Her?

The hand that rocks the cradle shapes the destiny of our land. And Sunday Americans will pause from their routine of life to pay homage and respects to our millions of mothers.

Perhaps YOU will want to give yours—or some forgotten mother—a small gift, in appreciation for the wholesomeness and inspirations that she has endowed in mankind.

This year, more than ever, your rememberance should be something practical. See our clerks for appropriate suggestions. We are thoroughly stocked with Mothers' Day goods. See HIGGINBOTHAMS first.

BOWELS
need watching

Let Dr. Caldwell help whenever your child is feverish and upset; or has caught cold.

His simple prescription will make that bilious, headachy, cross boy or girl comfortable, happy, well in just a few hours. It soon restores the bowels to healthy regularity. It helps "break-up" a cold by keeping the bowels free from all that sickening mucus waste.

You have a famous doctor's word for this laxative. Dr. Caldwell's record of having attended over 3500 births without loss of one mother or baby is believed unique in American medical history.

Get a bottle of Dr. Caldwell's Syrup Pepsin from your drugstore and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It sweetens the bowels; increases appetite—makes digestion more complete.

ANNOUNCING

Thirty-seven years ago we engaged in the Mercantile business in this town under the firm name of E. F. Bond and Sons and in 1904 became a part of the Cross Plains Mercantile Company which was incorporated at that time.

Now the third scene appears on the stage of action and under the firm name of Bond Brothers the business will continue with no change of policy or management other than that of expediency from knowledge gained by experience acquired through all these years in trying to serve Cross Plains and her trade territory in the capacity of General Merchants.

For the surport and patronage that has been ours to enjoy through all these years we are indeed thankful and we ask for a continuance of past favors and in return promise to devote ourselves to the task of supporting the consumers dollars with as much authority as it can command elsewhere.

Our desire is to conduct a store that will be known for its dependability and the quality of its merchandise and service and with this in mind we are,

YOURS TRULY,

BOND BROTHERS

Idea Number 1 For Summer Picnic

By Jack Scott

Cross Plains annual picnic is yet a distance in the future but a few advance plans might tend to make this years celebration an even greater success.

The picnic this year will be the fiftieth anniversary of the event. We can think of no better theme for the 'Golden Jubilee' celebration than to make it a reunion and homecoming for all former Cross Plains citizens.

What a sight it would be, to meet again old time friends of yesteryear and breathe anew on the banks of Turkey Creek, those interests we once held in each other and the betterment of our home town and this farming section.

Why not begin now making plans to exhibit at this years picnic many of the interesting relics of old Cross Plains, half a century ago.

As a matter of suggestion, it would be a splendid idea for some enterprising organization to sponsor a 'Community Album' for this year's picnic. Who wouldn't be interested in seeing a picture of Martin Neeb as a bashful schoolboy, or Mrs. John Baum as the blushing belle of 25 years ago? People would literally bring in pictures by the thousands and the witnessing of the collection on picnic day would doubtlessly be one of the most interesting features of the occasion.

There are hundreds of similar ideas that could be worked out to make Cross Plains' Golden Jubilee Picnic' the biggest celebration ever staged in this section.

Next week another plan will be introduced on this page to assist in the making of the half century picnic a thing of note. Watch for these suggestions, and if any are of value have a part in promoting them. If not, supply us with your own ideas concerning this year's picnic. We shall be glad to print it.

WOMAN IS FIRST INMATE OF CROSS PLAINS LOCKUP

The first person to occupy the new city bastile, or iron cage thereof, behind locked doors was a woman. Two young women whose home may be designated as No-where, their manners left at the same place and routed for anywhere, visited the dance that was in progress last Saturday night. They soon engaged in butter-fly antics and manners that were shocking to the other attendants and contrary to the rules of the Cross Plains dance hall. City Marshal Pinkston, and it did not require a very lengthy investigation for him to decide that they were loaded with something besides red paint and face powder, commonly known in Bootleggardom as white mule whiskey. In fact one of them was so loaded and "het up" with the stuff that it took two full hours for her to cool off in Pink's open air cage—it having just been imported over from the county seat, placed on the jail site and not yet enclosed by walls or roof. After the brief cooling process, and a donation covering a fine and costs of $11.75 each they bade Pink and Cross Plains farewell and proceeded on their route to Anywhere.

J. Mathis on 8th street and asked him to say the words that would make them one, which the Judge graciously did. The The groom was Mr. Fred Robertson, the popular manager of the Cross Plains Drug Store, and the graceful bride Miss Lucile Lane, who is a sister of Mrs. Chas. CROSS CUT IS ATTRACTING ATTENTION OF OTHER TOWNS

The live wire citizens of Cross Cut, Brown county, Texas, have added considerable jazz to the activity that has recently developed in that community by organizing a Chamber of Commerce with R. W. Pentecost as president, and W. A. Prater, secretary, and from here on out they are going to tell the world that things are happening fast at Cross Cut.

Smiling Through Receivership

The city of Cross Plains entered voluntary receivership Tuesday. From the outset this action may seem alarming. An investigation of the facts reveals however that there is indeed no cause for excitement and that the city is by no means in danger of immediate bankruptcy.

Receivership is but an honest man's—or incorporation's—way of protecting all bonafide creditors and insuring justice. It is a systematic way to work out debt.

S. M. Buatt, City Secretary, has been appointed Receiver. Having an experienced, conservation man like Mr. Buatt at the helm of the situation is an indeed pleasant feature for Cross Plains. He is conscientious and has the interests of the tax paying masses at heart. He is familiar with the inner workings of the city and will no doubt be able to guide our city business into channels of thrift and economy.

Entering receivership as Cross Plains did—voluntarily—is certainly no stigma upon the city or its citizenship. Let us not lose interest in our city affairs and give up the ghost. Cross Plains is still on her feet. Let's work and strive collectively and individually to elevate our present condition and in the meantime smile through it all.

Our Only Anxiety—Over Inflation

The Family DOCTOR

by JOHN JOSEPH GAINES, M.D.

NOSE---BLEED

A very ancient complaint, and, an annoying one, as you well know, who are subject to attacks when least expected. Folks with full vessels are liable to it; those with 'catarrh," the old bogey-man of the quack. Those with high blood-pressure? Well, if you have it, the nose-bleed is likely to prove helpful at least for awhile. Let it bleed if you have increased blood-pressure—it will lower tension.

Most people do the very wrong thing for an attack of nose-bleed; they rush to a basin of warm water, and try to get as much of it in the nose as possible. I've seen men try to drive their forefinger into the nostril as far as possible, for what purpose they could not tell. They snort, blow the nose violently, rasp the throat, and do everything to keep up the local uproar. Everything but the right thing,—which is to try to quiet the nerves, cease snorting poking fingers and washing out with warm water—Just be still, if you can. Let it drain, at least till the doctor comes, if you were so scared that you sent for him post-haste.

Every individual has his own time of blood-coagulation. This is important to him—that is, the number of minutes it takes his blood to form a clot, which arrests the nose bleed. A clot cannot ever form, under warm water douches and fore-finger pokings, and snortings. Sit still—be still—apply cold if anything—snort not at all. Gentle pressure at sides of nose may slow down blood flow. Firm pressure up-and-down and maintained—each side of nose. No time wasted, no harm done if it does not help. But be quiet—deliberate; I never saw a death from nose-bleed.

The time to cure nose-bleed is to get next your good doctor WHEN THE NOSE ISN'T BLEEDING. Tell the doctor I said so.

New York City is rather well pleased over the return of beer. During the first 48 hours that beer was legal, 160,000 barrels were sold. During the same time $250,000 were collected in fees by the city.

New York hotels plan to spend several millions to build or modernize tap-rooms, roof gardens, grills, rathskellers, and other places for the sale of beer.

One New York brewery sold more beer during the first two days of legal beer this year than any other two days of its history.

Relieves Women's Pains

Here is an example of how Cardui has helped thousands of women:

"I was very thin and pale," writes Mrs. F. H. Scott, of Roanoke, Va. "I suffered from weakness and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worn, tired, day after day.

"My mother had taken Cardui, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and it built me up. I gained in weight, my color was better and the pain left my back. I am stronger than I had been in some time."

Cardui, the purely vegetable medicine which so many women take and recommend, is sold by local druggists.

If you have

do this

Get some genuine tablets of Bayer Aspirin and take them freely until you are entirely free from pain.

The tablets of Bayer manufacture cannot hurt you. They do not depress the heart. And they have been proven twice as effective as salicylates in relief of rheumatic pain *at any stage*.

Don't go through another season of suffering from rheumatism or any neuritic pain. And never suffer needlessly from neuralgia, neuritis, or other conditions which Bayer Aspirin will relieve so surely and so swiftly.

HOME TOWN GOSSIP

A clipping received from the annual burlesque edition of the student newspaper from Texas Womans College, Fort Worth, makes the following interesting comment concerning Miss Pauline Bond, of this place, an employee in the business department of the college.

Miss Pauline Bond, secretary of President Tom W. Brabham, secured a two months' leave of absence last night, to attend the Arkansas State Hog Judging Fair, at Little Rock.

Miss Bond, who is one of America's foremost hog connoisseurs, and a member of the National Association of Swiners, will be a special guest of honor at the Fair. She will wear a ceremonial gown, made entirely of sow ears, at the opening banquet, and tell her favorite "pig story". Her gown is the only one of its kind south of the Mason and Dixon line. David Belasco borrowed it for his premiere production of "The Girl I Left Behind Me" in 1903.

Miss Bond always has had a weakness for hogs from tiny razorbacked pigs to great big Hampshire Boars, and she has never been able to decide why people want to make bacon and baloney from them unless it is to spite the Jews.

She pointed out in an interview with the Review representative that there were scores of people living in the hotel, who did not have occasion for days to leave the building. While on the trip it was also in Miss Haley's route to visit the birthplaces of Harold Bell Wright and James Whitcomb Riley.

Having travelled thousands of miles across America's most colorful localities, Miss Haley comes back to Cross Plains with the report that she favors her home town to any other on earth, pointing out the contrast of West Texas' wholesome atmosphere with that of the smutty skies and stifling air of the great American industrial centers.

Back in 1905 Christy Mathewson, playing for the New York Giants, pitched three games against the Philadelphia Athletics within six days and won all three. During the three games he allowed 14 hits, but no runs; he struck out 19 men, he gave just one base on balls and hit one batman.

Countless pitchers in the American League, have collaborated in making Babe Ruth walk nearly 31 miles over the same path from the plate to first base. Starting in 1915, when the Babe played his first full season in major league baseball as a member of the Boston Red Sox, he has walked more than any other player in either league. He has been passed more than 1800 times. In 1923 he walked 170 times.

Football apparently is to have another new shift or huddle given it during the coming season by the Northwestern team. Dick Hanley, the coach, had what has been called a "jig-saw" shift in operation during the Spring practice. In this, the team comes out of the huddle and lines up at almost any place but the right position. Guards are at ends, tackles in the backfield and half-back at center. Then, at the quarterback's signal, they suddenly shift into correct positions, ready for the play.

A Real RESPONSIBILITY---

The weather is hot and fuel consumption low, yet your gas company is carrying on through endless sultry summer days, planning and preparing for emergencies and severe tests that will come again with depredations of Winter.

Scores of times the past year, when temperature dropped far below freezing we were called to meet the issue of increased demand. Numbers of times it meant mamouth expenditures and personnal sacrafice. But in the name of SERVICE all petty fancies were forgotten and your city satisfied.

It is a real responsibility to know that every morning when a city awakes it citizens must be supplied with quick, instant heat. A break in the line would be disasterous. Every technicality must be ironed out, to serve hundreds of homes with ampleness of fuel and warmth.

Suppose, for once, we failed. Your confidence in our ability to supply you would be shaken and there indeed be cause for complaint and unsatis-
