PTA District Workshop Well Attended

The 14th District PTA fall workshop which was held in Olton Monday was attended by approximately 250 delegates from the eleven county area.

Mrs. Robert Tilson, district president, presided over the meeting. Presentation of the colors was made by members of Boy Scout Troop 220, Gary Cooper and Gary Gregory, who also led the audience in pledge of allegiance to the flags.

The national anthem was led by Bob Allford, accompanied at the piano by Mrs. Allford. Invocation was given by Haun Kite, minister of the Main Street Church of Christ.

A welcome to the city was given to the delegates by Mayor Parley Myers and a welcome to the school by Supt. Ray Schultz.

Setting the pace for the program, the theme of which was "Our Changing Families", the Olton PTA presented a style show with Dr. John McFarland serving as narrator.

The styles began back at the turn of the century and progressed up to the modern day mini skirts.

Following the style show, a film was shown and narrated by Jimmy Hooser, entitled "The Change and The Challenge".

The film was prepared for showing by the governor's committee on public education and tells of the changes which they are recommending to be made in the Texas public schools within the next ten years.

A public showing of this film is slated for viewing in the Olton High School auditorium, Monday, Oct. 28 at 8 p.m.

Mrs. Marvin Armstrong served as moderator of a teen-age panel made up of students from Plainview High School who discussed "Today's Issues."

Lunch was served to all delegates at the noon hour in the Olton school lunchroom, with Mrs. Virginia Moss, local PTA president presiding.

The Rev. Bill Burton, pastor of the First Church of the Nazarene led the blessing. Music selections were presented by the Olton High School students under the direction of Mrs. Bob Allford.

Miss Betty Buford spoke during the afternoon session of the workshop on "Bridging the Gap Between the Parent and the Teacher," stressing the importance of listening to the youngsters. Dr. John McFarland, Dean of Education, University of Texas at El Paso, concluded the meeting.

He told delegates that the most important thing that children need today is to know that they are loved.

He asked the audience if they could to imagine what it would be like without any family connections, stressing to them that the importance of "our families."

"We need to spend more time as families," Dr. McFarland said. "There is not enough family togetherness in these days. The children need to know that their home is a place where there is love."

He told the delegates that one of the most crucial times for families is the hour and half before going to school.

"This time sets the stage for the rest of the day," he told them. "We teachers can tell the difference between those who have time for a leisure breakfast and those who rush so much that they don't have time for breakfast at all."

"Another important time for families," he continued, "is the hours just after the dismissal of school. Parents need to be with their children around the supper table."

Concluding he said, "This meeting will be adjourned in just a few minutes so that you may all return to your families and be with them tonight, just as I plan to be with mine."

"HEY MOM! WAKE UP, this is the day you get to sleep another hour." Kerry Wayne Noack, four months old, wants his mother to remember that Central Standard Time becomes effective once more and clocks will be turned back one hour beginning at 2 a. m. Sunday morning.

Frank Ford Slates Visits, Will Be In Olton Tuesday

Frank Ford, Republican candidate for State Representative, will hold a series of "Legislative Forums" in Lamb County next week.

Ford will be in Olton Tuesday at 10 a. m. in the party room of P.C.A.

"The most important issue in this election year", Ford stated, "Is whether the people are able to regain control of their government, or whether the professional politicians who have gotten us in the current mess are able to exert enough pressure from the top to retain their power and the status-quo. All signs indicate that their initial compacency is rapidly turning to panic as they have finally begun to notice the rumble at the grass-roots."

"Political observers all over Texas are predicting a massive voter surge to a two-party system", Ford continued, "And this means that the days of the back-room wheeler-deal-

Dear Editor

Optimistic View

Dear Editor,

Well-Doggies; seems like I flushed out one loyal democrat, a loving mother, and a enthusiastic income tax payer.

She sounded like she thought her opinions were as biased as mine, was angry and had already struck out.

Well, I'm truly sorry about that, m'am. I'm not angry, haven't struck out, and don't think my opinions on what I wrote are biased, just facts, dear.

I am still very optimistic about George Wallace being president. If he isn't elected he has already done lots of good. He sure has the others talking quite differently.

More than some would like to think, are tired of what the Washington bureaucrats, have been trying to cram down our throats, take over every privilege, down to the time of day.

One wouldn't have to go far to find colored folks for Wallace. There are some at Plainview, and were at a rally for him. One spoke for him, saying his information from the Colored folks in the South, was that they were in more favor of him than the other two, as far as they were concerned, and all concerned! The Chairman for the Wallace campaign at Post is a Colored man.

Will we have any school in Olton?

If Wallace is elected I would say certainly, that's one thing he has talked so much about. H.E.W. stands for help elect Wallace and it has done it's part.

What about our forgotten prisoners, the past and present Presidents have refused to do anything about?

If you had a son over there, to what extent would you be willing to go to free him from the harness of slavery?

As far as Le May's finger being on the trigger, if the occasion arrives, I'd say there is nothing like having some one there with the know how.

The Editor of The Avalanche Journal said "At one time little did the people going about their daily affairs know that LeMay was the one person standing between them and the Russia bomb."

Aren't you glad he was there, so they didn't dare.

I certainly don't think that Wallace is a cure all, but would do for the American people what a good shot of penicillin would do for the sniffles.

Mrs. V. Y. Jefferies

'Postage Due'

Dear Sue:

This time it isn't a press release. It is my understanding that our last mailing went out marked, "6¢ postage due" and I apologize for this. A 6¢ stamp is enclosed and I confess that this was my fault.

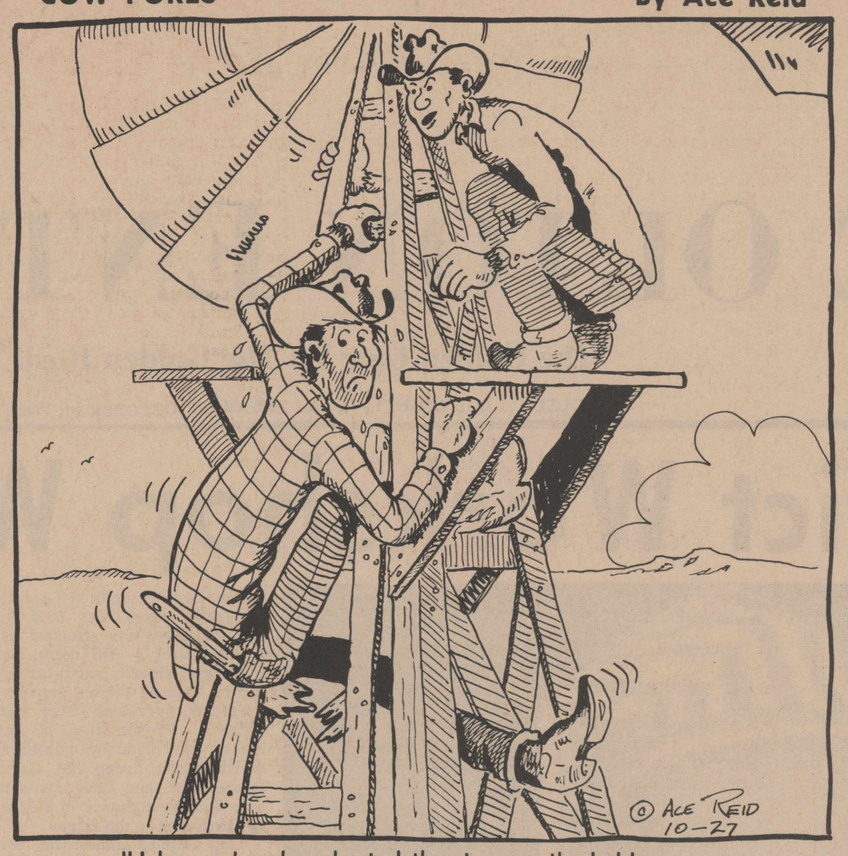

Anyone that will make a bid on a 12 year old set of postage scales and will make their bid high enough to cover postage from here to there, will receive same by return mail.

May I assure you the offer does not include the operator of this particular, most contrary, piece of machinery in view of the fact that this might have had something to do with our error.

Sincere apologies.

COW POKES — By Ace Reid

"Jake, you've done busted the steps on the ladder . . . now, jist how am I gonna git down!"

Dear Turnrow Junkel

O. C. McBRIDE

Did you read where it has been discovered that teeth can be cleaned with sound waves?

It must work, at least in some cases. I have noticed that both my wife and Hubert Humphrey have real bright teeth.

* * *

I understand that cucumbers and cabbage soup are the main items in the diet of average Russians, who spend only 50 minutes a day eating.

With a menu like that, I could give them back 45 minutes.

Were you surprised that Greek billionaire Aristotle Onassis proposed marriage to Jackie Kennedy?

I don't consider it any of my business, but a friend of mine--a veteran married man--says we now have two Greeks in the news: Mr. Onassis and Spirio T. Anonymous. He allows they have something in common--the tendency to say things on the spur of the moment that they may regret later.

* * * *

Judging from your experience in WWII, would you say that men from the farms and ranches of the Southwest made good soldiers?

When things got rough, they were the best. It's pretty hard to shake a fellow who has worked on top of a windmill with a "blue Norther" blowing.

* * *

What did you think of Mr. Nixon's statement that if he is elected he will not ask Congress for a lot of new legislation. He thinks we have too many laws already.

His attitude could result in much unemployment. When Congress passes a new law, a bureau must be set up to administer, interpret and enforce it. The type of law doesn't matter, in fact the more complicated it is, the more employment it provides. This probably explains some of the legislation passed the last few years.

Sue's Views

Stop And Think

No one -- Not NO ONE or NO BODY -- can ever convince me now that spirit doesn't help win a ballgame!

No sireeee! Not after last Friday night!

I'll tell you for sure, I was stunned as the rest of you fans were when things didn't go to happening out there on that field just like always!

But, did you notice --- the play didn't really get going our way until the fans came to life and began to yell for those kids?

They told me that at the pep rally that everything was quite mild according to the way it was the week before when we were all getting ready for our big game at Dimmitt.

I nearly had heart failure a time or two (a time or two, nothing -- it was more like a dozen times!) before those guys put a score on the board.

I am thoroughly convinced that they need our support and that we need to show them that they have our support.

During the first half, I sat there just absolutely dumfounded, thinking every time, the next play they would get that ball and go!

I felt like crying a few times too, and probably those boys would have like to have stomped that ball a few times.

But -- let's face it -- they need us yelling for them. Not just sitting like bumps on a log and waiting for them to do it all!

So let's get in there and show them that we are for them all the way to State --- but it has to start with the next game then the next and the next. Not just the big ones!

- - - - - - -

I have heard an awful lot of questions this week on the consolidation of our schools and as much as I would like to answer all the questions, I am afraid I am very much at a loss as to what to say when someone asks me if I think we are going to loose our schools.

I can only say this.

It could happen!

There is going to be a showing of a film about all the changes recommended by the governor's committee on education up here in the high school auditorium Monday night Oct. 28 and I, for one, plan to be there.

I have some small children who just might have to travel to Earth-Springlake schools or Littlefield schools if we don't get this thing stopped before it goes to legislature.

So plan to be there and let's get together and stop this thing if we possibly can. This could mean the end of Olton if this happens.

Remember all the little country schools and the little communities which disappeared?

One way we all can help is to stay at home to do our buying. Every dollar we spend in another town supports their town.

Every dollar spent away from Olton is one dollar that cannot help our town.

When we go out of town and make purchases, we are tearing down our community and building up the larger towns, who really don't care if we do loose our schools.

MRS. RAUL MONTEZ

Recipes Of The Week

Our recipes this week are some that Mrs. Raul Montez brought with her when she came to this country from her native land, Germany - complete with the German translation of the ingredients.

Renate (pronounced "Ruh-not-ah") Montez was born and grew up in Ansback, Germany. Her parents and three sisters still live there. It was in Ansback she met an American GI. Raul Montez, in 1961. They were married Oct. 19, 1962.

Raul completed his tour of duty in Germany in January 1964 and Renate, who had never traveled, came with her husband to the United States and to Olton, During his furlough, the couple visited in Olton with his mother, Mrs. Margaret Rodriguez.

The couple's next assignment was California where they lived until Raul was again assigned to Ansback, Germany in August 1965. They were there for two years.

Renate and the couple's two children, five year old Ivy and four year old Curtis, have made their home in Olton since that time. Raul is currently serving in Vietnam.

The petite mother and housewife likes to sew and crochet. She enjoys meeting with the Sewing Club.

Renate could speak little English and no Spanish when she met her GI husband. She has become fluent in English but has not learned to speak Spanish.

Ivy and Curtis can speak their mother's native tongue but prefer English.

"I talk to them all day in German but they answer me in English", she remarks.

A TIME FOR DECISION

A Presidential election, the most important one in our lifetime, is close upon us. With three candidates in the race Texans are confronted with such a variety of appeals that some confusion is not surprising. We see some of our top state political leaders urging support of Hubert Humphrey on the self-serving appeal of party loyalty. We see fine Texans tempted to support George Wallace because they like his outspoken position on certain issues and are thus swayed by an appeal of sheer emotion. With full respect for the right of every Texan to make a personal decision, this message in behalf of Richard Nixon is offered as

...AN APPEAL TO REASON!

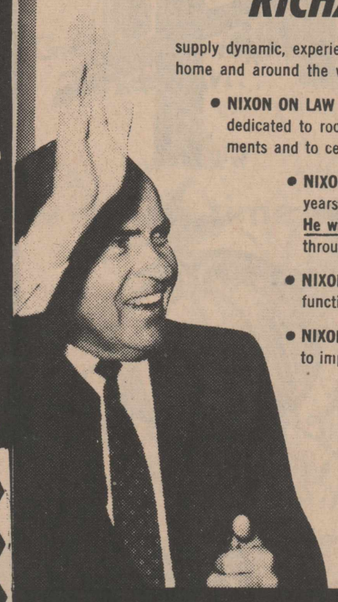

HUBERT HUMPHREY WILL NOT

change. He has proved consistently anti-Texas. He is famous for his filibuster against Texas owning its tidelands. He has fought our right-to-work laws and sought to destroy our vital oil depletion allowance. On every issue of world importance his position is contrary to that of most Texans. Humphrey, an ultra-liberal founder of the ADA organization, would gain executive authority for radical minority viewpoints should he become president. This cannot happen by popular vote. In view of his vicious attacks upon George Wallace, what a ghastly miscarriage of intent it would be if Wallace supporters themselves should throw the election into the House of Representatives where **every Wallace vote in Texas would automatically go to Humphrey!**

GEORGE WALLACE CANNOT

be denied his impressive showing. A number of fine people heed his third party call. The very least that can be said is that he has dramatized the desires of many people for a change of direction in the affairs of our government. However, the very most his supporters can hope for is to split the popular vote so that all of us would be at the mercy of Washington politicians who would elect our president for us. This is Hubert Humphrey's only hope for election. The more positive way to vote for change is to recognize the many fine merits of Richard Nixon and his program, then vote for Nixon to **assure the election of our president by the people instead of by the Congress!**

RICHARD NIXON CAN...AND WILL

supply dynamic, experienced leadership for an immediate change of direction--at the top—in all our national affairs at home and around the world. Your concerns are his concerns!

- **NIXON ON LAW AND ORDER** is pledged to help improve local police protection, to appoint an Attorney General dedicated to rooting out crime, to restore balance in our courts strengthening peace forces against criminal elements and to cease freeing so many of the guilty on technicalities.
- **NIXON ON VIET NAM** will call upon his experience as vice-president during eight great Eisenhower years of peace to reform world alliances now in disarray, to redirect our strategy on new global terms. He will end this war and avoid future ones by dealing with adversaries in the only way they respect—through strength, collective security and patience.
- **NIXON ON LOCAL GOVERNMENT** is pledged to move control of local schools and all other governmental functions which properly belong at the local level closer to the people.
- **NIXON ON OTHER PROBLEMS** has solid solutions PLUS solid backing of enough members of Congress to implement those solutions.

IF YOU REALLY WANT A CHANGE... AND IF YOU WANT TO BE SURE YOU REALLY GET IT... VOTE FOR NIXON/AGNEW

NIXON'S THE ONE!

Home Is Scene Of Wedding

In a candlelight ceremony Monday evening in the home of her parents, Miss Glenda Marie Turner became the bride of Ernie Gary Fry of Plainview.

The Rev. John E. Lewis, pastor of First Baptist Church, directed the single ring vows before a candelabra with yellow tapers flanked by arrangements of white mums and gladioli.

Parents of the couple are Mr. and Mrs. R. J. Turner of Olton and Mr. and Mrs. Ernie Fry of McLean.

Mrs. Bob Allford presented nuptial selections and accompanied her husband as he sang "Whither Thou Goest".

Given in marriage by her father, the bride wore a formal length gown of bridal satin and satin brocade, fashioned with a sleeveless bodice of brocade, batteau neckline and pencil slim skirt of satin. A full length coat of matching satin with three-quarter length brocade sleeves completed her ensemble.

Her elbow length veil of silk illusion was held by a tiara of rhinestones She carried a cascade bouquet of cream colored baby roses and feathered yellow mums atop a white Bible.

Her white Bible was borrowed and new. For something old she carried, in her shoe, a penny coined the year of her birth. She wore the traditional blue garter.

Miss Darlene Struve was maid of honor. Best man was Dwight Hathaway of Canyon. Gary Turner, brother of the bride, served as usher. Flower girl was Becky Jo Boyd of Pampa, niece of the bride.

Feminine attendants wore street length dresses of yellow. Miss Struve's dress was fashioned with an Empire bodice accented with a wide band and bow.

For her daughter's wedding, Mrs. Turner chose a two-piece dress of mustard gold knit and added black assessories. Mother of the groom wore a two-piece dress of yellow knit with white and black assessories.

The couple were honored with a reception following the ceremony. The bride's table was laid with a white crocheted cloth over yellow, centered with an arrangement of yellow and white roses and mums accented with white satin streamers and the names Gary and Glenda in gold. The four tiered cake was topped with minature bride and groom.

Assisting with the houseparty were Mrs. Royce Collins, Mrs. Uil Gunter and Jenny Lynn Gunter. Guests were registered by Leisa Collins.

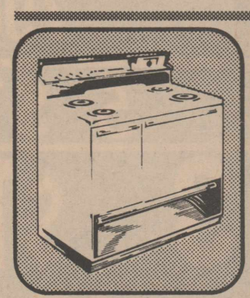

For a wedding trip to New Mexico the bride wore a two piece ensemble of pink with white assessories. She wore a corsage lifted from the bridal bouquet.

Hot And Cold Reception Greets V-P Humphrey

Vice President Hubert Humphrey's visit to Texas this week received a hot and cold reception.

Oddly enough, the heat came from Republicans and the coolness from Texas Democrats.

At a press conference in Mc Allen, Republican Senator John Tower "welcomed" Humphrey, the Democratic nominee, into Texas, saying he hoped Humphrey would use his Texas visit to discuss such vital issues as the Texas right-to-work law, the oil depletion allowance, and unionization of farm labor.

Humphrey has a long record of opposition to right-to-work laws, has consistently opposed the oil depletion allowance, and is on record as favoring the unionization of farm labor, even if it takes economic boycotts to force farm labor into unions.

"I doubt that the Vice President will discuss these issues while he is in Texas," Tower said, "since he has consistently been on the wrong side of every issue, as far as Texas is concerned."

"Humphrey has a long record of being rather free with words," Tower continued. "He led the filibuster against the Texas Tidelands Act of 1953, when President Eisenhower and Vice President Nixon were pledged to return the tidelands to state ownership. It is with no thanks to Humphrey that we now have control and ownership of our tidelands."

On the other hand Humphrey's reception from the state's leading Democrats was noticeably cool. Few of the top Democrats travelled with Humphrey on his vote-hunting foray into Texas. With few exceptions, those who did so made it plain to intimates that they did so with little enthusiasm.

'Santa Claus Special' Sailing For Viet Nam

Tons of St. Nick's gifts will be going to members of the Armed Forces in Vietnam by special ship this year, thanks to a joint Pentagon-Post Office venture.

A fast U. S. cargo ship will be designated the "1968 SANTA CLAUS SPECIAL," sailing from Oakland, Calif. next month with Christmas parcels.

To meet the sailing deadline and assure pre-holiday delivery of gifts sent with surface postage, items should be mailed during the October 14 - Nov. 9 period. They should be marked "SANTA CLAUS SPECIAL" just below the stamps.

The "SANTA CLAUS SPECIAL" will sail during the latter half of November and stop at Da Nang, Qui Nhon, Cam Rahn Bay and Saigon, Vietnam. It takes approximately three weeks for a fast ship to cross the ocean.

All gifts should be packed in strong containers with adequate cushioning and correctly addressed, including APO and FPO numbers.

ers are over in Texas".

"Most Texans are not happy with the professional politicians who like to slip little items like $500,000. for L.B.J's state park into the budget in the secrecy of the Speaker's apartment while Texas crime rates soar and our rankings in literacy and education continue to plummet."

"I have taken my campaign to the people of this area on the issues from the start", Ford concluded, "And I will never attempt to enlist various power structures to exert pressure on the people in my behalf. We are to the point now in our nation when we must renew our sense of mission, and this renewal can come only from the people who make up the strong, silent center in American political life."

Ford's Lamb County chairman, Pat Downs listed the meeting times and places as follows, and urged everyone who can spare a few minutes to come by and visit with candidate Ford.

This can only be done through the uprating of the Texas schools, and dedicated recruitment of the finest teachers. Clayton co-authored a bill that created the "coordinating Board of Texas Colleges and University systems. His voting record shows a continued support of teacher pay-raise and the strengthening of all educational systems in Texas.

★ LAW ENFORCEMENT

Today, law enforcement agencies are facing new problems. Bill Clayton is concerned about the breakdown of law and order. Clayton has been active in seeking higher salaries for law enforcement officials and uniform standard procedures. Bill Clayton served on a special House Committee which will suggest revision of our obsolete liquor laws. Clayton believes that all people must respect the law and that proper enforcement is essential to maintain law and order.

VOTING RECORD AND POSITION

★ INDUSTRIAL DEVELOPMENT

Bill Clayton knows that industrial development helps to stabilize the economy of any given city or area. During his six years in the Legislature, Bill Clayton has worked aggressively for industrial development for our area of the State. Several smaller cities in our 72nd Legislative District now have airports as a result of Clayton's assistance in starting a program of State grants. These State grants are financed with unclaimed gas tax refund on aviation fuel. Bill Clayton knows that airports help encourage industry in less densely populated areas.

★ TOURISM

Bill Clayton has worked hard for tourism during his six years as State Representative. Clayton, House Speaker Ben Barnes and other interested legislators were successful in establishing a National Park in the Big Bend area of West Texas. The water importation program being led by Clayton will develop many new recreational opportunities with huge water reservoirs for fishing and boating. Bill Clayton realizes both the need for more recreational facilities in his district and increased business activity from tourist trade.

★ COUNTY, CITY & LOCAL GOVN'T

Bill Clayton has been a strong advocate of local government. He is currently serving as chairman of the Committee on Counties of the Texas House of Representatives. Clayton believes that government at the county and city level are more responsive to the people and whenever possible they should take the lead and the responsibility of many governmental programs and functions. Clayton has authored many bills that benefit the cities and support the idea of allowing cities the option to choose their own method of taxation. Bill Clayton is needed on the job for more effective and responsible county, city, and local government action.

Hale Center Falls To Mustangs

BY ELMER HOUSTON

Hale Center's upset-minded Owls invaded Mustang stadium last Friday night and for nearly three quarters they played the Mustangs to a stand still.

Finally late in the third quarter the Mustangs woke up from their dreams of district champs or of the victory over Dimmitt or what ever it was and decided to do something about the Owls.

Hale Center captalized on the Mustangs' mistakes and fumbles to control the ball nearly all of the first half.

Halftime found the score 0-0, with both defensive units having had their hands full with the other teams offensive.

Early in the third quarter Olton tried a field goal from the Hale Center 18 only to have it go wide and ruled no good.

Finally after both teams lost a couple of fumbles, Olton's Eddie Hooper recovered an Owl fumble for Olton on the Owl 32 with 1:11 remaining in the third quarter of play.

On first down, quarterback Johnny Lewis passed to Charles A. McClain on the Owl 17. On the next play the Owls drew a penalty, moving the ball to the nine yard line.

With first down on the Hale Center nine, quarterback Lewis rolled out around his right end and pitched out to halfback Mc Clain who bulled his way to the Hale Center four yard marker.

Kenneth Johnson moved the ball to the three from where Benny Akin set his sights on the far corner of the end zone and set sail for the first Mustang touchdown of the night. Eddie Hooper kicked the extra point with 0:02 showing on the clock.

The Mustangs rose to the occasion after the kickoff holding the Owls and forcing them to punt on fourth down.

Olton took over on their own 38 yard line and big Benny Akin moved the ball to the Hale Center 26 in two carries.

On second down fullback Kenneth Johnson bulled his way to the Owl 13 before going down under a pile of tacklers.

Lewis lofted a second down pass to R. L. Copeland in the end zone only to have it tipped up by an Owl defender, but R. L. was not to be out done as he made a diving catch of the ball for the second T. D. of the night making it 13-0 for Olton.

Extra point try failed as the kick was wide.

After both teams swapped punts late in the fourth quarter Olton's fired-up defense forced the Owls back to their own 12 yard line where the Mustangs got the ball after a fourth down pass went astray with one second showing on the clock.

With the one second to play Olton lined up and Eddie Hooper kicked a field goal to make it 16-0.

Olton's Mustangs are now 6-0 in play this year and 3-0 in district play, putting them in first place in the district standings.

But the Mustangs will have their hands full next week when they travel to Lockney to contest the Longhorns.

Olton's ground game was halted to a slow walk this week as they only managed to pick up 148 yards on the ground.

However the Mustang defense only gave up 27 yards on the ground to Hale Center.

Defensive player of the week was Eddie Hooper with Tony George being the offensive player of the week.

Turning in good games for the Mustangs last week were Sel Sanchez, Joe Hernandez and R. L. Copeland.

Later in the half Mike Parson passed to Steve Culwell for another Pony T. D. Gary Dickenson scored in the fourth quarter for the final Olton T.D.

Brittons Tell Of Travels

Mr. and Mrs. W. K. Britton recently returned home from a five-week tour of southern states. They attended a family reunion in Sulphur, Okla. and went on to Tennessee.

Britton relates their experiences:

They saw a spring that Britton estimated produced 1500 gallons of water per minute. In the past it had provided power for a cotton gin and a grist mill.

The Brittons attended worship services at Goshen Primitive Baptist Church which is in good condition although it was constructed in 1850. It was the first, or one of the first, buildings of the area to be built of sawed lumber.

Upon leaving friends there, Britton writes, "After saying our goodbyes we left with the precious memories of this little place in the hills of Tennessee. It will ever be a green spot in our memory to help make up for the many desert places one encounters in life's pathway".

Mr. and Mrs. Britton went on to the section of Tennessee and Alabama where Britton states he must have more cousins than Minnie Pearl of TV and radio. This is highly probable as records show Britton had ancestors in that area in 1804.

He and a cousin went to an old blacksmith shop where they saw a hillside breaking plow with two points and two sets of wings that were certainly not operated by power. At this shop Britton saw an old Fro which was used for splitting clapboards. He had seen his father use one when the family was living in Old Greer County, Indian Territory in what is now Oklahoma.

Mr. and Mrs. Britton went to Bean's Creek Church near Huntland, Tenn., heavy timber surrounded the church to the west and north. The table-top ouside the church was made of heavy wire as the excessive rainfall would quickly destroy one made of wood.

In a conference meeting held after the preaching service it was necessary to change the meeting day from second Sunday to the third Sunday of each month. The date had been the second Sunday for 70 years. The church building is in good condition although it is about 100 years old.

At the McClure Cemetery about six miles from Huntland, Tenn., Britton saw the graves of his great-grandparents, John and Nancy Jane Hill.

Britton observed his 75th birthday in this area. He thought it rather strange that on this date he was visiting near the place his parents were living a short time before his birth. They moved near to what is now Hollis, Okla. where Britton was born.

Mr. and Mrs. Britton searched for a part of two days for the house that had belonged to Brittons great grandfather.

While making this search, they found an old cemetery. On the upper part of one stone was written the word Mizpah meaning Watchtower referring to Gen. 31-49. "The Lord Watch between me and thee while we are absent one from another."

The folk lore of the region is brought out in the names of the localities. "Greasy Cove" is said to be where the people killed their hogs that had fattened after having been driven up into the hills. "Old Peddlar Hill" was named because it was the location where a foot peddlar was supposed to have been robbed, killed and his body thrown into a well. Legend said he could be heard to rattle his spoons and other wares after his death.

Mr. and Mrs. Britton went to Florida where they visited their daughter and grandchildren. Mrs. Maxine Sirmon, Gary, Denise and Bradley at Pensacola Britton seems to prefer the climate of West Texas to that of Florida but he says "you can't get all the coons up one tree especially if you don't have a tree."

FOOTBALL CONTEST

The teams that are playing in this week's contest games are listed in each of the ads on this page. Each team is numbered, 1 through 26.

Use the handy entry form at the lower right hand corner of the page and circle the numbers of the teams you predict to win. Print the scores you predict in the tiebreaker game in the spaces provided.

Each week's entry must be turned in to one of the merchants sponsoring the contest. Contestants are given a week to prepare and turn in their entries.

Sponsoring merchants may accept mailed entries. All late entries will be discarded.

In case of ties, a coin will be flipped to determine the winners.

Each week the number of games predicted correctly will count toward each contestant's season total. The person picking the most games correctly for the entire season will receive the grand prize. The person with the second highest total will receive the second grand prize. In the event of a tie on the season total, a coin will be flipped to determine the winner.

The weekly prizes will be given to the persons picking the most number of games for that week. The tie-breaker will count as one of the games picked, and the predicted scores will be used to determine the top three places in that week's contest, if necessary.

NOBODY LIKES TO PAY TAXES

Nobody really likes to pay taxes. But we like the feeling of security we get from knowing that police and fire departments are on the job — because of the taxes we pay. It's the same way with prescriptions. Nobody really likes to pay for them. But the feeling of security that a potent drug gives . . . the knowledge that it's on the job, ready to prevent disease or save a life . . . is priceless. That's why we say . . .

Card Of Thanks

The nice cards and gifts that came during my recent hospitalization cheered and heartened me, thank you sincerely.

Carolyn Steffey

In times like these words alone cannot express our appreciation for all the many acts of love and kindness shown to us during the illness and passing of our mother, sister and grandmother. We would say thank you to Bro. Lewis and to those who rendered special music. Also thanks to the doctors and nurses and to so many for their prayers, floral offerings, food and so many other acts of kindness. May the Lord Bless each of you.

Mr. and Mrs. Eddie Vaughn,
Mr. and Mrs. J. T. Vaughn,
Lt. Cdr. and Mrs. Glenn Vaughn and family,
Mr. and Mrs. Clifton Hines,

Her brother and sisters

We wish to express our gratitude to friends who so graciously remembered us in our hour of sorrow with prayer, flowers, cards and words of comfort. May God continue His blessings to you.

Mr. and Mrs. W. H. Leathers and family

Words are inadequate to express our deep appreciation for all the kindness shown us during our time of sorrow. Prayers offered in our behalf, food brought, flowers, visits, cards and other expressions of sympathy were a source of strength and comfort.

May God bless each one.
