He is survived by his wife, Mrs. Estelle Davis; his father, W. K. Davis of Plainview; six brothers, Clifford and Loyce of Amarillo, Roy of Marion, N. C., Ernest and Arthur of Plainview and Kennedy of San Antonio; two sisters, Mrs. Guy Stidham of San Antonio and Mrs. Norman Shepard of Seal Beach, Calif.

He was a brother-in-law of Mike Thornberry of Hedley.

18 Year Olds May Register at Clarendon

Austin, Texas, Oct. 4—Boys who reach the age of 18, required to register with the nearest draft board, can register in Donley county with Mike M. McCulley of Clarendon.

The nearest draft board is Local Board No. 52, Pampa, which has jurisdiction over Donley, Gray, Wheeler, and Roberts counties. Mr. McCulley's service as registrar enables Donley county boys to register in their own county without having to go to the expense and trouble of travel to Pampa.

A local board is maintained for the four-county area because one board can take care of it under present circumstances and thus help keep down the cost of government.

Brig. Gen. Paul L. Wakefield, state Selective Service director, said today that "people should appreciate the service Mr. McCulley is rendering to the people of Donley county. He does this job without pay as a patriotic service to his country."

SCS District News

According to the Soil Conservation Service quarterly report for the last three months, 79 new farms have been placed under agreement with the District. This is the largest number ever received in a like period since the District began operation over four years ago. The total number of District cooperators is now 375. This number includes about half of the farmers in the District while the area cover is over two-thirds.

The goal of the District is for every farmer to become a cooperator in the near future. A farmer becomes a cooperator by signing a cooperative agreement with the District. In this agreement the District agrees to assist the farmer in carrying on his conservation program on his farm by furnishing him such information, technical help, and other assistance it may have available at the time the work is to be done. This technical help is furnished by the Soil Conservation Service and there is no charge whatsoever for this assistance.

In this agreement the farmer agrees to develop as soon as feasible a conservation program for his farm. There is absolutely no penalty involved. The farmer can have his agreement cancelled at any time he desires. To date none has been cancelled except when the farmer moved or the farm sold.

Remember that the agreement is with the District, a local organization of farmers in Donley County and created under the provisions of the State Law for the purpose of promoting soil conservation and not with the Soil Conservation Service or any other Federal agency.

You will receive help on only those jobs for which you ask for help. No one is going to tell you how to run your farm. The District has only one purpose and that is to help the farmers conserve and improve the productivity of their land.

If you are in need of any kind of technical help on your farm relating to soil and water conservation, you are invited to visit the Soil Conservation Service and make application for the assistance needed.

Let C. E. Johnson, manager of the Hedley Telephone Co., write your fire and hail insurance.

"I am continually running from one of our jobs to another, in all kinds of weather, over all kinds of roads," says D. C. Lemmons. "In my car, and in our trucks and cement mixer, I must have a motor oil that can stand up under dust, dirt and cement powder. That's why I was so interested in your story of 50,000 Miles—No Wear."

"Since changing to Conoco Super Motor Oil, I've driven my personal car more than 50,000 miles. That's why I know—50,000 Miles—No Wear has sure been true for me. Since I can't afford to take chances on ordinary oil, it's Conoco Super one hundred percent for me!"

Change Now—For Summertime Performance All Winter! Protect your engine from winter's rasping wear. Change to new Conoco Super Motor Oil, with OIL-PLATING. Get quick starts, fast pickup, better performance all winter.

Proof of 50,000 Miles—No Wear! After a punishing 50,000 mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Factory finishing marks were still visible on piston rings! Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

Capitalists at play!

- - the American Way!

Capitalists?

Why, yes. Fishermen and fiddlers, bridge players and ball players... all kinds of Americans, in fact, are Capitalists... because most Americans are owners of the electric light and power companies!

It's like this: several million people—from every walk of life—are direct owners of these companies' securities. And some 75,000,000 are indirect owners—through

their life insurance and savings bank accounts! You see, when banks and insurance companies accept your money, they must invest it wisely. That's why so much of it goes into business-managed electric companies like the West Texas Utilities Company.

It's fair and fitting, isn't it, that the companies that serve nearly everybody are owned by nearly everybody?
