Flood Threat Still Mounts At Eastland

By THE ASSOCIATED PRESS

A major flood was sweeping the north part of Eastland, in West Central Texas, Thursday while flood threats around two other cities subsided almost as quickly as the rains that caused them poured from bursting clouds.

At 10 a.m., James Dabney of Eastland Radio Station KERC said the "worst of the flood" was just starting.

Dabney said a flood crest pushing down the north branch of the Leon River from Cisco was just beginning to arrive.

Water stood 5 to 6 feet deep over the Negro section, north of the Texas & Pacific Railroad tracks, in Eastland.

Sixty families were evacuated from the area during the night and slept in the town's city hall.

Police minimized the danger around Brady and Ballinger and said conditions were improving after residents were evacuated from low areas. Highways and railroads were washed out.

The Leon River runs through Lake Eastland, above Eastland, and then goes back through a spillway into its regular channel. Water was 18 inches over the floor of the Eastland Lake bridge.

The National Guard unit, commanded by Captain Cecil Carr, was called out at 1:30 a.m., when it was feared the Eastland Lake dam might give way.

Lake Leon, 6 miles east of Eastland, was 42 feet deep at the spillway. Water was 12 feet deep below the spillway. Lake Leon was rising at the rate of one foot every 30 minutes.

The Eastland city water and street superintendent, W. H. Coppock, estimated damage to streets alone at $100,000. A good storm sewer system and sandbagging prevented damage to most business houses.

Piggly-Wiggly, which has 17 grocery stores over West Texas, had 4 inches of water on its main warehouse at Eastland.

Twenty to 30 heavy duty poles owned by the Rural Electrification Administration were washed over State Highway 6, blocking traffic northward to Breckenridge.

Southwestern Bell Telephone company representatives said "hundreds" of telephone circuits were out in the Eastland-Cisco-Ranger area. Rainfall at Eastland totaled 10.42 inches. Although it had stopped raining at mid-morning, Cisco, 8 miles west of Eastland, had 4.60 inches of rain and Ranger, 8 miles east of Eastland, had 8.20. Some Ranger business houses were flooded.

A dozen tornadoes skipped over Texas Wednesday, but little damage was reported as the lethal twisters failed to touch ground or struck in thinly populated rural areas.

The waters of flooded creeks and rivers subsided or held at near-flood levels.

The rains poured down Wednesday and Thursday on drought-ravished areas of the state that have been plagued all this year by soil-scooping dust storms.

Deluges measuring from 8 to 15 inches sent a wall of water racing down on the sheep and goat-raising center of Brady. A flood wall built around Brady Creek after a damaging 1938 flood was holding.

State police rushing to Brady were slowed by high water over highways.

Another flood threat was subsiding at Ballinger, 65 miles northwest of Brady, where the Colorado River had raged toward flood stage.

Bodies of drowned cattle floated down the stream. Police had evacuated some families from low areas around both Brady and Ballinger.

Police said at Eastland, 75 miles northeast of Ballinger, that no emergency existed but said at least two grocery stores were under four or five feet of water after the cloudburst.

Eastland's deluge probably was the heaviest in the state, but there were reports of rains up to 15 inches in the watershed of Brady Creek. Many points reported rainfall in excess of the heaviest official total.

Waco, Wichita Falls, Austin, Mineral Wells and Cotulla reported thundershowers in Texas early Thursday. It also was raining in the Dallas-Fort Worth area, around San Antonio and at Laredo, on the Mexican border.

Forecasts indicated continuing thunderstorm activity in Central Texas with the possibility of tornadoes. West Texas was expected to be clear to partly cloudy.

Scattered Showers Brush Scurry Again

Widely scattered thundershowers brushed across Scurry County again yesterday afternoon and evening, adding more moisture to land already soaked by rains from previous days. Snyder received .03 of an inch.

The heaviest reports of rain which could be confirmed came from an area east of Dermott, where B. A. Moore gauged 2.7 yesterday afternoon. That was enough to close the Polar road to traffic for a time as a normally dry creek ran over the road in a wide stream. The road was passable again by 7 p.m., although one small stream of water was still over the road by 7:30 a.m. today.

Other gauges on the Polar road showed about .75 of an inch from the afternoon's rain.

Farther east, in the Ennis Creek community, Clarence Thompson measured .5 of an inch at his house about 12 miles northeast of Snyder. At Camp Springs, Mrs. Jim Beavers said their gauge showed .3 of an inch. There were reports of heavier rain between Camp Springs and Hobbs and between Camp Springs and Snyder.

Edmond Pierce, three miles southeast of the city limits on U. S. Highway 84, said .55 of an inch fell in a hard shower late yesterday afternoon. No more fell during the night there. Three miles out on the Roby highway, J. A. Rosen gauged .2 of an inch. A good shower was also reported at the Pan Am Pipeline camp on the Colorado City highway about five miles from Snyder.

Yesterday's maximum temperature was 81 degrees, David Strayhorn, weather observer, said. The overnight low was 54 degrees, with 58 degrees recorded at 7:30 this morning.

Snyder's official rainfall total for this month now stands at 4.54 inches. Total precipitation for the year, including snow, is 5.78 inches.

WEATHER

WEST TEXAS: Scattered showers and local thunderstorms Panhandle, South Plains and east of Pecos Valley Thursday night, otherwise partly cloudy through Friday. No important temperature changes.

Corbin Says His Filibuster Successful

BULLETIN

AUSTIN (AP)—The Senate today adopted the conference committee report on the 100-Million-dollar water bond program, including a 3 cent per $100 property tax.

The vote was 22-9, one affirmative vote more than was required for the proposed constitutional amendment. House action was still pending.

AUSTIN, Tex. (AP)—Sen. Kilmer Corbin of Lubbock pooh-poohed his cracking the national filibuster record yesterday but said he thought he had achieved his purpose.

That purpose, Corbin said at the end of his 28-hour, 15-minute speaking effort, was to make Texans aware of what he considers a poor plan for financing water conservation.

"That champ business is silly, but that's one way you can call attention to what I consider one of the sorriest things I ever saw happen," Corbin told reporters after ending his filibuster.

The old filibuster record was 28 hours, 6 minutes, set by Senator Wayne Wagonseller of Bowie March 31.

Despite extreme weariness, Corbin planned to be on hand for today's session in case the target of his wrath came to a vote.

The measure — drafted by a joint conference committee after House and Senate passed conflicting bills—calls for a 100-million-dollar bond program under which the state would guarantee up to 50 per cent of the cost of local water projects.

The conference report calls for a statewide property tax of 3 cents per $100 valuation to guarantee the bonds, with a six-man appointive board to administer the bond program.

Corbin ridiculed proponents' claims that this is the key measure in plans for a long-range water conservation program.

Sen. William T. Moore of Bryan, who helped with long questions in the final hours of the filibuster, tried to pin a gold medal on the new champion's chest.

As senators laughed, Corbin shoved Moore away and angrily shouted: "This is not a laughing matter. If the Senate wants to take it as such, all right."

Moore said he hadn't meant to ruffle Corbin. He said the medal was fixed up by Senate employees as a "token of esteem." Printed on the medal were the words "World Champion Filibusterer."

Mrs. Corbin, who left three children at home to fly from Lubbock yesterday, said she was "glad it's over."

She said she was "proud to see him stand up and talk for what he thinks is right."

Court Denies Rapist's Plea

AUSTIN (AP)—The Board of Pardons and Paroles today denied the application of condemned rapist Harry F. Butcher Jr. of Midland for reduction of his death sentence to life imprisonment.

Butcher is scheduled to go to the electric chair at the Huntsville state prison soon after midnight tonight.

Earlier this week his mother and sister had appeared before the pardons board in a last-minute plea for his life.

Butcher's conviction and death sentence were upheld by the Court of Criminal Appeals Jan. 12.

Butcher's appeal had been based on a plea that the trial court had failed to submit to the jury what the law says about temporary insanity induced by liquor as a mitigating factor.

Butcher had pleaded temporary insanity in the trial of the rape charge on which he was convicted.

Two-Month Oil Order Cuts Allowable For June, July

15 Days Of Flow Slated

AUSTIN (AP)—A two-month oil order cutting permissive Texas production in both June and July was issued by the Texas Railroad Commission today.

The daily allowable as of June 1 will be 64,820 barrels below the May 14 rate of 3,107,580 barrels. On July 1, it will be 132,039 barrels below the current figure.

The reduction will result from limiting production both statewide and in the big East Texas field to 15 days in each of the two months, one less day of flow than for the 31-day month of May.

This will make four consecutive months in which Texas crude production has been curtailed. The cutbacks have been based on testimony that the industry generally considers national stocks of crude excessive.

Despite the new cuts, the 15 producing days for June will be one more than recommended by a majority of the purchasers who testified at today's statewide proration hearing.

The 15 days of flow for July will be in accord with the desires of nine major purchasers. One company, Sun Oil, wanted 17 days for that month. Two wanted 16 and one preferred 14.

Normally the commission sets allowables only for the following month, but two month orders occasionally have been issued during the summer period.

For fields not included in the statewide producing schedule, producing patterns for June and July will be as follows: Pantex, 15, one less than for May; Sandusky (Oil Creek), 13; Adamc Devonian, Jigger Y (Pennsylvania), and McElroy, all 15; South Cowden and Foster, both 14—all unchanged from May.

The next statewide oil hearing will be held here July 19.

Commission member Olin Culberson, who charged a lack of uniformity in the procedure by which purchasers advance determination of how much oil they expect to need, said the July hearing may produce "a five-ring circus" on that matter. He said he is going to make further study the next two months of the way these advance "nominations" are made.

Postal Pay Hike Vetoed By President

WASHINGTON (AP) — President Eisenhower today vetoed a bill to boost the pay of 500,000 postal workers by an average 8.6 per cent.

The President told the Senate in a veto message he regretted his action and earnestly hoped and recommended that "the Congress will quickly consider and enact postal pay legislation that will be in the public interest and fair to all the half million employes who man the postal service."

He said the vetoed measure would impose "a heavier burden upon the taxpayer than is necessary."

Eisenhower listed these three reasons for his veto:

"First, the bill creates new discriminations or inequalities which would affect many thousands of postal employes.

"Second, the bill creates grave administrative problems such as the establishment of thousands of individual pay rates. It forces awkward and unfair administrative practices in a government department whose operations affect every person, every enterprise, every community in the country.

"Third, the bill imposes a heavier burden upon the taxpayer than is necessary to establish salary rates throughout the department which will compare favorably with rates for similar work elsewhere in government and in private industry."

The President has indicated an average 7.6 per cent raise is about as far as he is willing to go.

Crisis Looms In Auto Labor

DETROIT (AP)—Principals in current negotiations in Detroit on the CIO United Auto Workers' demand for a guaranteed annual wage refused today to be drawn into speculation over possibilities of a strike in the auto industry.

Negotiators remained tight-lipped as the union resumed talks on new contracts with both Ford Motor Co. and General Motors Corp.

In Washington yesterday, Frank Rising, general manager of the Automobile Parts Manufacturers Assn., told the National Press Club "I believe the UAW leaders want a strike—a big strike—and a great and crushing victory won by forceful, militant action."

A spokesman for the union in Detroit declared Rising "does not speak for the employers with whom we are negotiating. He is obviously an embarrassment to those he pretends to speak for. His opinions on the guaranteed annual wage are not worthy of reply."

The UAW reported that a fourth of its Ford and GM local unions have completed strike votes to back up year-around wage demands. The union said 94 per cent of those voting approved strike measures if needed.

UAW president Walter Reuther and his aides, however, have shied away from setting any strike dates.

The union is expecting counter proposals from both Ford and GM on June 7.

C-C Workers Plan Reports

Membership drive workers in the current Chamber of Commerce campaign were scheduled to hold another report meeting at noon today.

The committee, which had added 122 members to the chamber on its first day of the drive Tuesday, was to check in today and report on results. The report meeting was to be held at the Village Restaurant.

After reporting today, the campaigners were to begin work again, making contacts of businessmen here.

Indications were that the group would attain, and possibly go over, its goal of 200 new members in the drive.

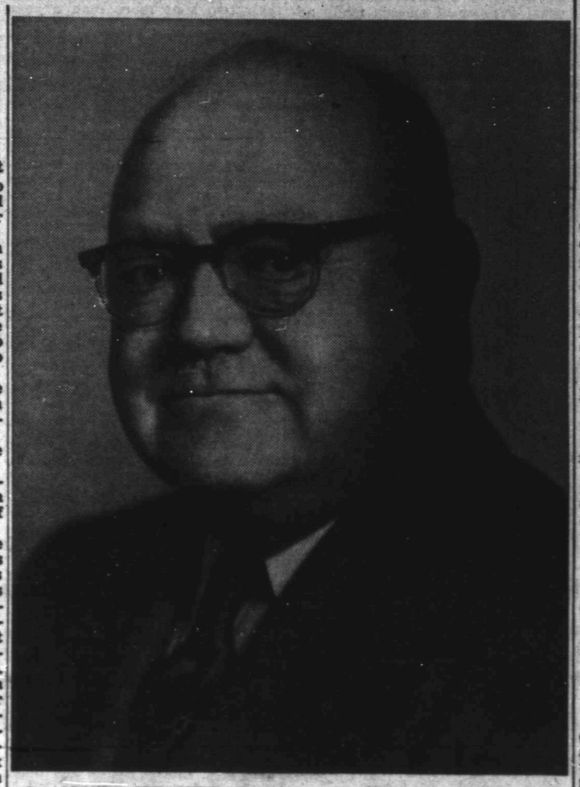

Herbert Feather heads the committee, which will end its drive Saturday.

Extension Granted For Cotton Planting

AUSTIN (AP)—A temporary extension of the May 20 cotton planting deadline in eight Central Texas counties was granted by Commissioner of Agriculture John White today because of recent heavy rains.

High winds and some hail have damaged young cotton in several pink bollworm Zone 5 counties, White said. Farmers will not have time to replant before the midnight tomorrow deadline.

Bastrop, Caldwell, Comal, Guadalupe, Hays, Lee, Travis, and Williamson are the counties affected. White set no new limit.

BANQUET SPEAKER—Dr. John O. Christianson, head of the school of agriculture for the University of Minnesota, will be main speaker tomorrow night at a dinner honoring past board members and service teachers in the Snyder Independent Consolidated School District. Invitations are out to about 800 persons for the event, which will start at 6:30 p.m. in the high school cafeteria. Prior to the dinner, attendants will view a special exhibit in the high school gymnasium, starting at 6 p.m. The dinner will last for one hour, and the program will begin at 7:30 p.m. in the high school auditorium. Several special awards will be made during the program.

Budget Question Still Unanswered

By JOE BENHAM

AUSTIN (AP)—The question of how Texas will balance her mammoth 1½ billion dollar budget during the next two years was still being asked today—and there was still no answer.

The Senate State Affairs Committee yesterday rejected suggestions from a subcommittee which wanted to raise the necessary new money with new taxes on hotels, chemicals, department stores and airlines.

One by one, the committee struck the proposals out of a subcommittee report turned in by Sen. R. A. Weinert of Seguin.

Then the committee postponed further consideration of the matter until Friday at 2 p.m.—an action that anti-administration forces criticized as "a play for time" to line up votes.

The action left the House-passed omnibus tax bill in a form that will fall far short of raising the estimated 58 million dollars in new revenue needed during the coming biennium.

And it promised still more payless, hot days for the lawmakers who have been on their own time for more than a week.

Sen. Searcy Bracewell of Houston quarterbacked the committee proceedings—offering a majority of the amendments deleting the tax proposals, then offering the motion to put off further work until Friday.

Bracewell and Sen. Ottis Lock of Lufkin, Senate sponsor of the bill, urged the postponement to give the committee time to write a "just, fair and equitable bill."

Lock said he was "anxious to take the time needed to reach a sound decision," adding, "I hope the time will never come when a tax bill passes the Senate or a Senate committee without full consideration—just because it's late in the session."

Rep. D. B. Hardeman, of Denison, leader of anti-administration forces in the House called the delay "a play for time."

"They (the administration leaders) are not sure they have the votes in the Senate for a two-cent gasoline tax," Hardeman said, "and this will give them time to line the votes up."

Another House member, Rep. Jerry Sadler of Hickory Grove, agreed with Hardeman and again voiced claims that 90 House members stand ready to vote against a two-cent rise.

"We may just as well get ready to hold the line—it's going to be up to the house to defend the people against a two-cent sales tax on gasoline," Sadler said.

The 45-minute meeting, held just off the Senate floor where Sen. Kilmer Corbin of Lubbock was conducting a record-length filibuster, drew an overflow crowd of lobbyists, off-duty members of both houses and newsmen.

Lightning Bolt Kills Students

KINGSVILLE, Tex. (AP)—Four junior high school boys were killed by lightning today at Kingsville.

The students at the Gillette Junior High on the northeast side of town were Davis Rojas, 13; Estanislad Barrera, 14; Israel Prado, 14; and Jesus Martinez, 14.

A cloud was coming up from the south, but it was not raining at the time the single bolt struck.

Marvin Kirkman, a teacher, was herding the boys in from play after he saw the cloud coming up. The bolt hit the teacher and the group of 42 boys about 300 yards north of the main building. All of them were knocked down.

One other boy was hospitalized. He was Jose Espinoza, also 14.

The deadly bolt of lightning also knocked down a group of girls who were standing near the school building. None were hurt.

Soviets Seek 'Equal Rights' In Yugoslavia

By STANLEY JOHNSON

MOSCOW (AP)—Communist party chief Nikita Khrushchev says he and other Soviet leaders will stick to a principle of equal rights and mutual noninterference in their forthcoming talks with Yugoslav President Tito.

Asserting that the Soviet delegation would go to Belgrade "with open souls and pure hearts," Khrushchev told a Kremlin conference yesterday:

"All the necessary conditions exist to ensure full normalization of relations between the U.S.S.R. and Yugoslavia.

"We adhere firmly to the point of view that normal relations between states should be based on the principle of equal rights and mutual noninterference in each others' affairs."

On this foundation, he added, firm, friendly relations and mutually profitable trade and other economic dealings could be established.

The Soviet government announced last weekend that Khrushchev, Premier Nikolai Bulganin and other top Kremlin officials would confer with Tito in Belgrade late this month. No specific date has been set.

Denying Western contentions that the Soviet Union wants to conquer all Europe, Khrushchev pointed to last Sunday's signing of the Austrian State Treaty, which provides for withdrawal of occupation troops from that country.

"Is there any stronger proof necessary to show that the Soviet Union does not want to seize Europe or carry on any sort of war," he asked. "Who would evacuate troops if he had a desire to attack"

He described recent Soviet world disarmament proposals as "a large investment in the cause of peace."

Frisco Suggested As Site Of Conference

NEW YORK (AP)—Vincent Auriol, former president of France, urges that a top-level meeting of the Big Four be held next month at San Francisco—where the United Nations was born 10 years ago.

Speaking last night at a dinner in his honor, Auriol said the birthplace of the U.N. would be an appropriate site for a meeting of the heads of the United States, Britain, Russia and France.

Resumption Of Parley Urged

JERUSALEM (AP) — The U.N. Mixed Armistice Commission called last night for resumption of Israeli-Egyptian border negotiations. Coincident with the appeal, an Israeli reprisal attack heightened tension along the troubled Gaza Strip frontier.

The commission issued its communique after Israel refused to attend a scheduled border meeting yesterday. Israeli representatives said the boycott protested a land mine explosion Tuesday near Kissufim in which three Israeli soldiers were killed and two injured.

Israeli troops last night attacked an Egyptian position near the site of the explosion, an army spokesman announced. He said the force suffered no casualties, adding that the "Egyptians and those in an adjacent position fled when the Israeli unit approached."

The U.N. commission warned Israel that the border situation is likely to "deteriorate still further" unless both parties resume negotiations soon for "an arrangement aimed at maintaining peaceful conditions in the Gaza area."

Land Mine Blamed In Soldiers' Deaths

JERUSALEM (AP) — Israel has blamed an Egyptian land mine for the death yesterday of two Israeli soldiers and the wounding of three others. The Israelis complained to the U.N. Mixed Armistice Commission.

An Israeli army spokesman said the troops were on a routine patrol along the Israeli-Egyptian truce line adjoining the Gaza territory when their car exploded the mine.

Polio Cases Gain; List Among Persons Inoculated Unchanged

By W. JOYNES MACFARLAN

WASHINGTON (AP)—A sharp increase in new cases of polio was reported today by the U.S. Public Health Service. For the week ended May 14, new cases totaled 206—up 30 per cent over the previous week.

The number compares with 151 in the second week of May last year, and an average of 116 for the last five years.

However, for the first time since the antipolio vaccination program ran into difficulty the number of polio cases among inoculated persons remained unchanged at 77 confirmed cases.

In another development, the health service announced that 23 cases of polio have now been reported among individuals, not inoculated themselves, who came in close contact with children given vaccine made by Cutter Laboratories of California. In these instances, the inoculated children themselves have not contracted the disease.

These reports were all in the hands of the health service last night when it suddenly announced that for several days at least there would be no further clearance of antipolio vaccine.

The result was to add uncertainty to the whole vaccination program.

The only explanation was a statement by a public relations spokesman for the health service that the delay was ordered for "another look-see at this whole very confusing picture."

Surgeon Gen. Leonard A. Scheele said, however: "This (delay) should not be inferred as reflecting in any way on the vaccine of the companies whose manufacturing and testing processes are under study."

There have been five deaths among vaccinated persons.

A health service spokesman estimated that inoculations with the Salk vaccine "are now pushing the six million mark."

The 77 confirmed cases since use of the vaccine started about April 14 compare with a provisional total of 582 cases of all kinds of polio, including confirmed and unconfirmed cases, reported by state health authorities since April 10. The total covers all age groups.

The upward jump for the week of May 14, with 206 new cases reported, for the first time pushed the total for this "disease year"—which started about April 1—ahead of the number in the comparable span of last year. However, the calendar year total for this year is still behind the 1954 figure.

There had been 722 cases this "disease year" reported through last Saturday, compared with 718 a year ago for the similar period. For the calendar year the 1955 total is 1,786, compared with 2,271 in the similar period a year ago.

The general weekly report on polio cases is provisional and the number of cases is subject to correction.

States which reported large increases for the week ending May 14 were: California, 45 compared with 27 the preceding week; Texas, 19 and 13; Michigan 10 and 1; New York 12 and 5; Mississippi 8 and 1; Oregon 7 and 1; Georgia 9 and 4; and Pennsylvania 10 and 2.

California's cases included 44 among civilians and one in military personnel. Of the civilian cases, 12 had received Salk vaccine.

Corresponding figures were not available for other states.

Use of the Cutter vaccine was suspended last month. Later, all inoculations were suspended pending further safety checks. A few were resumed this week.

The vaccine supply situation now is highly uncertain in view of yesterday's announcement that no more will be cleared for use for at least several days.

Commerce Department Budget Cut Heavily By Senate Panel

By WILLIAM F. ARBOGAST

WASHINGTON (AP)—The House Appropriations Committee slashed deeply into administration requests for airline and ship subsidies today in cutting the Commerce Department's new budget 18 per cent.

It also trimmed sharply funds for ship construction, federal-aid highways and the Inter-American Highway while upping the amount for federal airport aid.

It recommended $1,121,435,000 in new funds for the Commerce Department and related agencies for the bookkeeping year starting July 1.

This is $244,598,000 less than President Eisenhower requested. The reduction is the largest, percentagewise, to be recommended by the commtitee this year.

All but $17,875,000 of the total was allotted to the Commerce Department, whose request for $1,347,800,000 was shaved to $1,103,560,000. The committee's recommendations are subject to approval by the House and subsequent action by the Senate.

In a report drafted by a subcommittee headed by Rep. Preston (D-Ga), the committee called for "more careful verification" of claims for airline subsidies and "close scrutiny" of employment practices and costs of subsidized ship lines. It said this should result in "substantial reductions" in future subsidy payments.

For subsidy payments to air carriers, the committee recommended 40 million dollars. This is $8,900,000 less than was appropriated this year and 23 millions less than the Civil Aeronautics Board had asked.

The administration's request for 115 million dollars for subsidies to ship lines to enable them to compete with foreign shipping was trimmed to 90 millions, a cut of 25 millions below this year's appropriation.

The Bureau of Public Roads was allotted 600 millions of the 680 millions it sought for the federal-aid highway program. The committee said the reduced sum would finance all commitments without slowing down the program.

This action came at a time when the Eisenhower administration is urging a big stepup in highway aid.

Forest highway program funds were cut from the 25 millions requested to 18½ millions.

For the Inter-American Highway, a joint United States-Latin American project, the committee recommended eight millions, a cut of $66,980,000 from budget requests which contemplated completion of the highway in three years. The committee said it lacked basic legislative authority to provide the larger amount. It said it favors completion of the road "within a reasonable time."

For federal grants for local airport construction, the committee added nine million dollars to the administration's request for 11 millions. It said there is need for "more adequate airports throughout the country." It recommended that the formula for distribution of the money be revised to give consideration to smaller airports.

Local communities have pledged more than 100 million dollars which have not yet been matched by the government, the committee said, and many cities are paying interest on airport bonds issued several years ago.

AREA OIL ROUNDUP

Wildcats Slated In Four Counties

Wildcat locations have been staked in Garza, Fisher, Nolan and Stonewall Counties.

D. W. Varel of Dallas No. 1 Alice Clark is a 3,500-foot tester in extreme southeast Garza County, about 10 miles east of Justiceburg. Location is 2,190 feet from south and 450 feet from east lines of 65-5-H&GN.

Five miles northwest of Trent in southeast Fisher County, Hanley Co. of Midland has staked the No. 1 L. W. Ross as a 6,800-foot wildcat. Drillsite is 5,350 feet from north and 660 feet from east lines of section 287, John R. Clark survey, about two and a half miles southwest of the Estota field.

Another Fisher County wildcat is Jake L. Hamon and Lauderdale-Straughn Drilling Co. No. 1 Rachel Risinger. Projectel to 6,500 feet, it is 660 feet from north and east lines of the southwest quarter of 120-3-H&TC, four miles north of Claytonville.

Cherry Brothers and R. H. Felton of Lubbock will dig the No. 1 W. R. Bishop as a 6,800-foot wildcat three miles northwest of Sweetwater in northwest Nolan County. Drillsite is 660 feet from north and east lines of 28-22-T&P, two and a quarter miles north of the Rowan & Hope Strawn field.

In southeast Nolan County, British-American Oil Producing Co. has spotted the No. 2 D. D. Feldman as a 6,500-foot wildcat. Location is six miles east of Blackwell, 1,980 feet from north and west lines of 31-1A-H&TC, two and a half miles southeast of the North Blackwell-Ellenburger field.

Ashland Oil & Refining Co. of Midland will drill a 7,000-foot wildcat 16 miles northwest of Aspermont in northwest Stonewall County. It will be the No. 1 T. H. Ward, 660 feet from south and west lines of 323-D-H&TC. That is three miles north of the Carlisle field.

GARZA FAILURE

Revilo Royalty Co., General Crude Oil Co. and Advance Exploration Co. No. 1 Dezzie Middleton, northeast Garza County wildcat, has been abandoned and plugged on total depth of 3,517 feet in dolomite.

It was drilled eight miles northeast of Post and 660 feet from south and west lines of 19-8-H&GN.

DISCOVERY FLOWS

Gulf Oil Corp. has a flowing Mississippian discovery in sight at the No. 1 Jessie Chappell and others, south Mitchell County wildcat 17 miles south of Westbrook.

This prospector, slated to drill to 8,500 feet to explore the Ellenburger, flowed oil from Mississippian lime and chert at 7,780-845 feet during a 13 hour and 50 minute drillstem test. Gas surfaced in seven minutes, with no gauge or estimate on the volume, and fluid came to the top in three hours and 20 minutes.

The flow was run to pits for 15 minutes and then turned to tanks for 10 hours and 15 minutes. During that time the section produced 47.89 barrels of oil. No water was reported. Operator was reversing out the fluid at last report, and preparing to drill deeper.

Payoff Probe Is Pushed By Senate Panel

By G. MILTON KELLY

WASHINGTON (AP)—Investigating senators sought to unravel today conflicting testimony about cash payoffs and costly favors in connection with large-scale buying for the armed forces.

Witnesses told yesterday of alleged gifts of a coat to a woman government contract officer, a home freezer and fine lingerie to persons not yet named, and $50 bills to a $60-a-week government inspector who denied they were bribes.

Marvin Rubin, a professional seeker of government contracts for garment workers, was called back as a witness to tell the Senate Investigations subcommittee more about his activities.

"I have never paid a payoff," he testified yesterday.

Rubin had orders from Subcommittee Chairman McClellan (D-Ark) to ponder overnight his sworn denial that he was an "influence peddler," and his testimony that the $50 bills were loans to Navy Inspector Julius Goldman.

Goldman said he took the money as advance payment on a job he said Rubin had offered him. He testified he accepted it—$50 almost every Friday for three or four months in 1952—while inspecting raincoats manufactured for the Navy by the Ansonia (Conn.) Garment Co., for which Rubin was a business finder.

Rubin himself told of having given a coat to the woman contract officer. Robert F. Kennedy, the subcommittee counsel, said the woman is Mrs. Mella Hort, a contract administrator for military procurement at a time when Rubin was representing both the Ansonia company and Bonita Originals, Inc., of New York City in negotiations with the government.

Rubin insisted it was an innocent gift.

"I bought a coat for Mrs. Hort as a Christmas gift," he testified. "I did it with her husband's knowledge."

Mrs. Hort was not immediately reached for comment.

Debate Over Church To End In Argentina

BUENOS AIRES, Argentina (AP)—Debate was expected to wind up in the Argentine Congress' lower house tonight on the government-backed proposal to end Roman Catholicism's favored position as the state church.

The Catholic faithful, meanwhile were summoned to masses tonight in the Buenos Aires Cathedral and 70 of the capital's churches.

Ostensibly the multiple services were to commemorate the Feast of the Ascension and pray for the success of the 26th International Eucharistic Congress opening July 19 in Rio de Janeiro. But the unusual number of masses made apparent they were scheduled to demonstrate support for the church in its hot controversy with President Juan Peron.

Another Latin-American controversy between church and state loomed in Guatemala. There President Carlos Castillo Armas told newsmen last night he personally opposed demands by Roman Catholic Archbishop Mariano Rossell that the new constitution now being drafted give his church preeminence and provide for religious education in the public schools."

The bill to write the church out of the Argentine constitution aroused only one opposing speaker in the opening round yesterday of the Argentine congressional debate. Boos and catcalls drowned out most of his speech.

With the Peronista party controlling 149 of the lower chamber's 166 seats and all 34 of the Senate seats, approval of the measure in both houses in certain.

The bill calls for a special election, probably in November, to take out of the constitution the provision establishing Catholicism as the state church. It is an outgrowth of Peron's charges last November that some clergymen were trying to undermine his regime.

Ninety per cent of the Argentines are Catholics and the constitution requires that the President be a member of the church.

Ira Seniors Taking Trip To South Texas

The senior class of Ira High School was to have left this morning on a week-long senior trip to cities of south Texas.

During the trip the class plans to visit Austin, Houston, Galveston, and San Antonio. They will return next Thursday.

Accompanying the seniors are Mr. and Mrs. L. M. Dawson, and another woman teacher of the school. The group is traveling by school bus.

In Abilene Hospital

Son Newby was trasnferred from Cogdell Memorial Hospital to Hendrick Memorial Hospital in Abilene this morning. He was moved in a Bolger ambulance.

Girl's Suitor Has A Wife

BILLESDON, England (AP)—The 48-year-old Irish farmhand who ran away with the pretty sister of England's hereditary royal champion turned out today to be a married man with two children.

"I have wronged the girl terribly," said James Webb, who slipped away 10 weeks ago with Susan Dymoke, 23-year-old daughter of one of Britain's oldest families. The two told friends they planned to wed.

"I have deceived her and her family into thinking I was free to marry her," Webb told newsmen, "but I am not."

Mrs. Mary Webb, 46, an Ashford, England, riding instructor, produced a wedding certificate yesterday showing she had married the farmhand Nov. 16, 1937. She said her husband had left her and their two sons more than a year ago.

Police said they had "no further interest in the matter at this stage."

Webb, who looks younger than his years, said he had "taken Susan away to friends who will look after her. I can tell you she is not going back to her family." He met the girl when he was hired to milk cows on the Dymokes' ancestral estate near Grantham.

Susan's 29-year-old brother Capt. John Dymoke holds the title of "Queen's Champion," an honor which has been in his family since medieval days, and carried the royal standard at the coronation of Queen Elizabeth II in 1953.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-ONES

Admissions: Mrs. Pearl Cole, 2900 Avenue H; Alfred A. Kohl, 2408 Thirty-second Street; Donna Jackson, Snyder; Mrs. Marilyn McCright, 3006 Avenue J; Mrs. Paul Howard, Arkadelphia, Ark.; Mrs. Rose Coleman, 2801 Avenue W.

COGDELL MEMORIAL

Admissions: Mrs. Robert Fountain, Snyder; Mrs. J. L. Fargason, 1105 Twenty-sixth Street; Karmen White, 111 Thirtieth Street; Mrs. Sam A. McConnell, Snyder.

Dismissals: W. W. Newby, Snyder; Mrs. LeRoy Spires and baby, Clairemont route; Karmen White, 111 Thirtieth Street.

Ancient Fire Truck Burns In Station

INGLEWOOD, Calif. (AP) — Two firemen were injured last night when a 31-year-old fire engine burst into flames—in the fire station.

Damage to the station and equipment was estimated at $7,000 to $10,000. Fireman Charles Phillips, 26, suffered first, second and third-degree burns of the hands and arms and engineer Harold Kingery, 41, received slight burns.

Graham's Audience Increases To 65,000

LONDON (AP)—Billy Graham drew 65,000 Britons to 100,000-seat Wembley Stadium last night for the fourth session of his one-week London crusade. It was the largest crowd so far in the American evangelist's second visit.

It also was the first rainless night of the current revival, but a cold north wind kept the huge audience shivering. Graham slapped his hands and stamped his feet to keep warm.

"Now that the sun has come out, we must work to make this mission the most important religious revival ever known in London," he said.

At the end of his sermon 3,226 persons streamed down to make "decisions for Christ." They brought the total for the first four London meetings to 12,030.

Disarmament Unit Recesses

LONDON (AP) — The five-power U.N. Disarmament subcommittee began a two-week recess today. The five delegations—the United States, the Soviet Union, Britain, France and Canada—now will assess individually progress made and issues still dividing the West and the Russians.

Adjourning after 12 weeks of talks here, the group announced yesterday it would meet again June 1. Western officials said New York would be the site.

U.S. Delegate James J. Wadsworth said in a statement last night that "to a measureable degree the gaps between us seem to have been lessened." But he added:

"Much remains to be done. In doing it, one of our major jobs will be to provide a really effective system of safeguards, to make sure that both nuclear and conventional disarmament is being carried out."

The subcommittee began meeting here Feb. 25 to consider rival East-West proposals for a cutback in armies, bans on nuclear weapons and a world agency to control and supervise disarmament.

The talks made little progress until the Soviets, on May 10, announced their revised disarmament plan. This incorporated several previous Western proposals, but left the West and the Russians still divided on the powers of the control agency.

Inspectors Intercept Sweepstakes Tickets

CHICAGO (AP)—Ten thousand envelopes mailed in the British West Indies to Chicago residents have been intercepted by post office inspectors because, they said, they contain tickets for the Jamaica Sweepstakes.

Inspector Jerome Williamson said yesterday addressees have been notified to appear at the post office and open the envelopes in the presence of inspectors. Any tickets for the sweepstakes, he said, will be confiscated because they were mailed into the United States in violation of federal lottery laws. He said envelopes containing legitimate mail will be turned over to the addressee.

BIRTHS

Mr. and Mrs. Sam A. McDonnell of Snyder are the parents of a baby girl weighing eight pounds born at 2:27 a.m. today in Cogdell Memorial Hospital.

Juror Turned Down

WICHITA, Kan. (AP)—Finnis C. Morris, Capron, Okla., drove 130 miles to Wichita for jury duty—as ordered. He was declared ineligible for Kansas jury duty, however, when Judge William C. Kandt learned he had moved to Oklahoma two years ago and that the court summons was forwarded from his old Wichita address. Morris was paid 7 cents a mile for his trouble.

Avocado Ranch, Lettuce Patch Used For 'Escape'

By BOB THOMAS

HOLLYWOOD (AP) — It's Medea among the melons and Lady Macbeth in the lettuce patch when Judith Anderson is not doing her high - powdered emoting before audiences.

The Australian - born actress gets away from it all at her 38-acre ranch in Carpinteria, just south of Santa Barbara, Calif. And friends say that she really escapes from her classical roles up yonder. Instead of flowing robes, she sports blue jeans, old shirts and straw hats.

When viewed on the set of "The Ten Commandments," she was in more typical attire. She plays the slave of the Pharaoh's daughter, Nina Foch, and the scene showed them fishing the infant Moses out of the bullrushes. But her mind was on other matters too, such as Paris and avocados.

The Paris matter concerns "Medea," which she is going to do next month as part of the "Salute to France." This is the artistic gesture sponsored by the State Department. Besides "Medea," Ffench art treasures, symphony orchestras and "Oklahoma!" are going to Paris.

But to get to the avocados — "I am expecting them to take care of me in my old age."

So far the temperamental trees haven't come through for her. When she bought the ranch a few years ago, it was a fairly run-down place with lemon groves. She had the place spruced up and 500 avacado trees planted.

"There are so many things that can go wrong," she said. "The wind can blow the blossoms away or the bees might not appear to carry the pollen. So far we haven't had any fruit. In another year we'll find out whether these trees will produce or if we'll have to graft new buds on them."

The actress said she completely escapes from the show business grind when she's at the ranch. Her trouble is that she gets there all too seldom. One year she was absent all but five weeks. Yet she harbors no yen to retire from performing.

"Even if the place should become a moneymaker," she said, "I don't think I'd ever quit. Not as long as I can find jobs."

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5436.

The season for homemade ice cream is within sight. Ice cream from your own kitchen or from the drug or grocery store never goes out of season, really, and you can glamorize it a bit with a variety of toppings. If you can provide more than one flavor of ice cream that's even better. The topping will taste better if it complements the flavor of the ice cream.

Instead of dishes, you could use tart shells, or serve the ice cream on slices of cake. To top off the toppings, you might use nuts, whipped cream, toasted shredded coconut, or crushed hard candy.

PEPPERMINT SAUCE

1 cup sugar
1 teaspoon cornstarch
2 cups water
¼ cup light corn syrup
⅛ teaspoon peppermint flavoring
Red food coloring

Combine sugar and cornstarch, then add water and corn syrup. Cook over low heat, stirring constantly, until sugar is dissolved. Bring to a boil and remove from the heat. Add flavoring and several drops of red coloring. Cool before serving. Makes one and one-third cups.

NESSELRODE SAUCE

¾ cup granulated sugar
¼ cup water
Dash salt
½ cup halved, blanched filberts
¼ cup cooked, drained cherries
2 tablespoons dried apricots, slivered
¼ cup seedless raisins
2 tablespoons candied orange peel
⅛ teaspoon grated orange rind

Cook sugar and water until it spins a thread, about 5 minutes. Add remaining ingredients and blend. Makes about one cup sauce.

HONEY PRALINE SAUCE

¼ cup butter
3 tablespoons honey
1-3 cup brown sugar
Dash of salt
¾ cup evaporated milk

Melt butter in saucepan. Add honey, brown sugar and salt. Place over low heat and stir constantly until mixture bubbles vigorously. Add milk gradually and bring to a boil. Boil gently two minutes. Remove from heat. Serve warm. Makes one cup sauce.

Court Told How Man Entered Wrong House

PROVIDENCE, R. I. (AP) — The strange case of how a man broke into the wrong house was told yesterday in Superior Court.

Anthony R. Volpe, 29, related through his attorney that he and a friend borrowed $150 from a finance company.

The friend didn't pay his share so Volpe had to meet the whole debt.

To get even, the story continued, Volpe decided to break into what he thought was his friend's house in West Warwick and take out some articles.

Volpe took out a chair and a radio, then went back into the house and woke his "friend."

But it wasn't his friend. It was a stranger.

Because he has no previous record, Volpe was put on good behavior and deferred sentence.

Wiener Roast Held

Cub Scouts of Pack 35 held a wiener roast in Towle Memorial Park last night with about 50 persons attending. Mr. and Mrs. Nolan von Roeder were special guests. Mr. Von Roeder showed motion picture films made on a hunting trip to Alaska. Marvin Foree of Cubmaster.

Marshall Joins Council

WASHINGTON (AP)—Gen. George C. Marshall has accepted membership on the council of the Atlantic Union, which seeks to promote closer ties among non-Communist nations. Clarence Streit, prime mover in the organization formed in 1949, announced Marshall's acceptance yesterday.

WHAT'S GOING ON

Mrs. J. F. Allbright of Santa Barbara, Cal., is visiting in the home of her daughter and son-in-law, Mr. and Mrs. H. W. Hunt, 3002 Fortieth Street.

Mr. and Mrs. M. D. Heaton and children, 2202 Avenue I, visited recently in Nocona with Mr. and Mrs. G. B. Heaton and Mr. and Mrs. Vester Molsbee.

Mr. and Mrs. O. E. Cumbie, 1408 Nineteenth Street, spent Sunday through Tuesday in Reed, Okla., where they visited Mr. and Mrs. Roy Burnham. They also attended the graduation excercises in which Mrs. Cumbie's brothers, Delmer and Dale Burnham, graduated.

Mrs. Carter J. Moore and children, 605 Nineteenth Street, visited recently with her husband in Tulia where he is working.

Mr. and Mrs. Boss Baze are in Houston, where Mr. Baze is to undergo surgery at Methodist Hospital Tuesday morning.

Presbyterians Okay Women For Ministry

LOS ANGELES (AP)—A proposal that women be admitted to the Presbyterian ministry was endorsed today by the national head of the church.

Dr. Ralph Waldo Lloyd, president of Maryville (Tenn.) College and moderator of the General Assembly of the Presbyterian Church in the U.S.A., also called for churchwide practice of nonsegregation.

His views were contained in a sermon prepared for delivery at today's opening session of the 167th general assembly.

The sermon was Dr. Lloyd's last official function as moderator. His successor will be elected later today to serve during the weeklong meetings and through the coming year.

Admission of women as ministers and the nonsegregation issue are expected to come before the general assembly for action later in this session.

Dr. Lloyd said:

"As one thinks of the tremendous part which women play in the spiritual life and in the ministry of our church around the world, he cannot but hope that the church will possess enough of understanding and of the spirit of the pioneer to open all of the possibilities of service to women.

"A quarter of a century ago the eldership was opened to them and more than 3,000 women are serving in that distinctive Presbyterian office.

"The life of the church will be enriched further by opening of the office of minister also to women."

On nonsegregation, he said:

"Our official pronouncements calling for a nonsegregated society and a nonsegregated church are strong and right. But our practice is weaker than our pronouncements. It is time for every congregation to become a true Christian pioneer. There should be no church whose doors and hearts are closed to any sincere seeker after Christ."

The population of the United States has increased more than 13½ million since the 1950 census to total 164½ million.

Cosmorama Club Luncheon Held At Country Club

Members of the outgoing executive board of the Cosmorama Club were hostesses for a luncheon for club members Tuesday at the Country Club. It was the last scheduled meeting of this season.

Members of the outgoing board are Mrs. Renal Rosson, Mrs. Lee Smyth, Mrs. Jack Bowden, Mrs. Leland Herod, Jr., and Mrs. W. W. Park.

The menu included tomatoes stuffed with chicken salad, a frozen cottage cheese and gelatin salad, hot biscuits and butter, a relish dish of stuffed eggs, pickles and olives, iced tea and lemon chiffon pie. The buffet serving table was spread with a yellow and white striped cloth, and white and yellow daisies were used in the centerpiece. Mrs. Rosson, who has served as club president, presented club members a tea apron of fabric matching that of the cloth.

Both the outgoing and incoming officers were recognized by club members.

During the business session which followed the luncheon plans were discussed for fund-raising projects to be carried out in conjunction with the Rodeo Queen contest.

Twenty-nine persons attended.

'Miss Wool' Contest Entries Due June 15

SAN ANGELO — Preparations for one of the year's major beauty and talent contests have begun with the announcement that entries in the annual Miss Wool contests are due June 15.

Requests for entry blanks should be addressed to Miss Wool, Box 712, San Angelo. The Texas Sheep & Goat Raisers Assn. and the San Angelo Chamber of Commerce sponsor the contest, open to girls between the ages of 19 and 25. The crowning of the new Miss Wool will be a highlight of the Wool Fiesta in San Angelo August 31-September 31.

Sarah Belcia, the current Miss Wool, is concluding a year during which she acquired a wardrobe worth thousands of dollars, made a number of personal appearances and was spotlighted on several national radio and television network shows, and made trips to such fashion centers as New York, Dallas, Denver and Salt Lake City.

There are three times as many women 100 years old as men.

NEWS FROM CANYON

By MRS. MARGARET RILEY

Mrs. L. F. Stirling visited Friday with Mr. and Mrs. Ed Grant at Ira. Mrs. J. A. Fowler of Snyder visited Mrs. Stirling Monday.

Mrs. R. E. Adams and Mrs. T. M. Pherigo went to Colorado City Thursday on business. They also visited Mr. and Mrs. Noble Duncan.

R. E. Taylor of Dallas visited Sunday with Mr. and Mrs. Orville Taylor and family and Mr. and Mrs. Ed Taylor.

Mr. and Mrs. R. E. Adams visited recently with Fred Price at Ira.

Mrs. Ed Taylor visited Thursday with Mrs. H. E. Walker and her mother, Mrs. Delia Forrester, in Snyder. She also visited in the Edgar Taylor home. The Taylors visited Saturday night with Mr. and Mrs. J. R. Meadows and Clara Ann in Fluvanna. Mrs. Buddy Trevey visited Mrs. Taylor Monday.

Billie Kerley and Frank Taylor, who is attending Texas Tech, spent the weekend with Mr. and Mrs. Bruce Kerley and family. Mrs. Kerley attended a gift tea Monday night in Snyder honoring her daughter, Bobbie Kerley.

Mr. and Mrs. Orville Taylor, Mr. and Mrs. Houston Kimbrell, Mr. and Mrs. Jim Stirling, Mr. and Mrs. Frank Bryant, Mr. and Mrs. Ed Taylor, Mr. and Mrs. Nathan Shepherd, Mr. and Mrs. Sam Martin, Mr. and Mrs. Henry Layne, Mr. and Mrs. John Layne, Mr. and Mrs. Kermit Ford, Mr. and Mrs. Clifton Thomas, and Mr. and Mrs. Grady Moore were among those who attended the commencement exercises at Ira Friday night. Lawton Taylor and Billye Ridley were among the graduates.

Bobbye Taylor and Betty Taylor of Lamesa recently went on a fishing trip to Hot Spring, N.M. One of the fish they caught weighed 31 pounds, with 80 fish the total catch.

Mr. and Mrs. Rex Millhollen and baby of Arizona spent last weekend with Mr. and Mrs. Ed Millhollen.

Mr. and Mrs. Kermit Ford and family and Mr. and Mrs. John Layne spent Sunday with Mr. and Mrs. Weldon Ford and Mr. and Mrs. Charlie Stewart and son in Abilene.

Visiting Mr. and Mrs. Alton Sumruld and sons over the weekend were Mr. and Mrs. Ab Boyd and family, Mr. and Mrs. Weldon Sumruld and family, Mr. and Mrs. Charlie Sumruld and family and Mrs. J. C. Wall, Sr., all of Snyder, and Mr. and Mrs. Billie Hudnall of Fort Worth.

Ruby Matlock of Westbrook spent the weekend with Billye Ridley.

Visiting Mrs. Jim Stirling Tuesday was Mrs. Charles Young of Snyder.

Recent guests of Mr. and Mrs. Robert McCoy and Linda have been Marlon Smith and Mrs. Pearl Humphrey of Abilene, Judy Tarleton of Stamford and Mrs. L. M. McCoy of Anson.

Mrs. Joe Reep of Sweetwater visited Mr. and Mrs. Nathan Shepherd and sons Friday.

Sorority Plans Year's Study

Plans for the coming year's study were discussed when Beta Sigma Phi sorority met Tuesday night with Sammie Williams at her home, 2105 Twenty-seventh Street.

Incoming officers directed the new year's study programs and activities discussion. Plans were also made for the sorority's final social meeting of this season.

A three-part program was presented. Mrs. Charles Bowen spoke on "Voice and Vocabulary." Mrs. Arel Faver discussed "Radio and TV," and made recordings of the members' voices. Miss Williams' discussion was on "Public Speaking".

Mrs. C. D. Henry, outgoing chapter president, displayed the gold gavel pin presented her recently in recognition of her leadership du ing the last year. Peggy Lynch was named hostess for the next meeting on May 31.

Eight members were present for the meeting.

The tail of a comet always points away from the sun because the light of the sun exerts pressure on it.

Tea Honors Bride-Elect

Betty Sanderson, bride-elect of Percy Anderson, was honored with a gift tea last night in the home of Mrs. J. W. Young, 3103 Thirty-eighth Street.

Guests were greeted at the door by Mrs. Young, Miss Sanderson, and her mother, Mrs. Roy Sanderson of Blackwell.

Decorations for the house carried out the honoree's chosen colors of pink and pale blue. The freshment table, laid with a blue cloth, held a center arrangement of a china figurine which carried the opening bars of Lohengrin's Wedding March in silver notes. A bridal bouquet was arranged on one side, with a bridegroom's boutonniere on the other side. Roses and larkspur were featured in decorations.

Presiding at the table were Lamoyane Harrell and Billie Alford. Mrs. Jack Blanchard, sister of the honoree, registered guests.

Hostesses were Mrs. Young, Mrs. Ross Hemphill, Mrs. Lennol Hester, Mrs. Stanley Kerbow, Mrs. Jim Reed, Mrs. W. W. Park and Mrs. Bill Vestal.

About 35 guests attended.

Bible Thought

Dearly beloved, avenge not yourselves, but rather give place unto wrath: for it is written, Vengeance is mine; I will repay, saith the Lord. (Romans 12:19.)

EDITORIALS

Great Opportunity

It is certain we have to live with Europe and Asia, remote though they are geographically, and important as they are to our economic wellbeing, and involved with them in peace and war as we inextricably are and will be for a long time to come.

But we Americans are inclined to overlook or forget another part of the world that in the long reaches of history may be a great deal more vital to our wellbeing than the whole of Europe and Asia put together.

We speak of the countries we call Latin America, stretching from the Rio Grande del Norte to Tierra del Fuego.

For the most part it is undeveloped country, though our Latin American neighbors have made great progress in recent years, and attained a degree of political stability never known before. If Europe and Asia should fail us as a rich market for our industrial goods, we could spend the next 500 years helping to develop Latin America and still not exhaust the possibilities.

In recent years Venezuela has become the wonder of the Western World by its sensational development thanks largely to petroleum. A brochure put out by the Creole Petroleum Corporation, which figures largely in the Venezuelan oil development, shows just how important that country is to North American exporters. The booklet lists hundreds of export items that have gone to Venezuela from all parts of the country, including Texas.

Almost a score of Texas industrial centers share in this export trade, but unfortunately only Borger figures in the scene from West Texas — a reflection of our limitations in an industrial sense. Of the exports from Texas to Venezuela, hundreds of items, are found plumbing fixtures, rubber products, heat exchangers, oil well equipment, petroleum products, rice, drilling bits, flour, industrial machinery, foodstuffs, chemical products and a host of others.

Texas is strategically situated to capitalize on the development of Latin America, and we should bend every energy in that direction.

Cold War Suggestion

A suggestion that came originally from Brig. Gen. David Sarnoff, the radio-TV executive, and is now endorsed by Senate Democratic Leader Lyndon B. Johnson, proposes a "general staff for the cold war" to carry on "the greatest political offensive in history."

Sarnoff said he had presented the idea for a multi-billion-dollar cold war, led by a general staff headed by an officer of cabinet rank, to President Eisenhower at the White House, April 5. He spoke of it publicly a week ago, and Senator Johnson gave it his endorsement in a speech in New York last Sunday, with the comment that the plan "has been endorsed in its basic elements by the President."

As the senator sees it, the proposed general staff for the cold war would advise the President on issues "now discussed far too much in a vacuum." He listed as possible subjects for the general staff's decision these:

"Whether Matsu and Quemoy are worth the risk of losing our allies; the extent to which our country should participate in such meetings as the Bandung Conference; when and where we should encourage resistance and how we can help captured people to stave off the assault on their minds."

It is obvious that any concentrated American approach to the Matsu-Quemoy squabble would take a lot of leg work and a few head-bashings — and then wind up with a strong dissident element in the U. S. Senate. As for Bandung, the West wasn't even invited to that conference, but was represented by observers.

What Messrs. Sarnoff and Johnson seem to be saying, or trying to say, is that the basic elements of our foreign policy should be worked out and then adhered to manfully through thick and thin, with the general staff calling the signals. This is an elaboration of the bi-partisan approach. A good thing if it could be made to work, but we very much fear a necessary prelude to any such workable arrangement would be several fashionable funerals in the U. S. Senate.

Ghost Town Comeback

RICO, Colo. (AP)—This town, whose gold and silver mining history began in 1889 and faded in the early 1900s, is staging a comeback. Sulphuric acid, an important ingredient in processing uranium ore soon will be produced at the rate of 150 tons a day in a plant being constructed here.

Uranium mills within a 100-mile radius of Rico now depend on supplies from Utah. Most of the workers in the town's 400 population help mine iron pyrite from which the sulphuric acid is made.

The Blemish

All Education, Especially At College Level, Challenged By Population Hike

(EDITOR'S NOTE: Here's an expert's report on the new problems that education must face because of population increase. Dr. Raymond Walters retires in August after 23 years as president of the University of Cincinnati. He looks at the future in the light of past experience).

By DR. RAYMOND WALTERS
Written for AP Newsfeatures

CINCINNATI, Ohio — There have been amazing advances in the scientific fields in the past 20 years, especially in the university graduate schools of the United States. It is these graduate schools which have supplied personnel in physics, chemistry, metallurgy, and other scientific areas to the more than 3000 industrial laboratories throughout the nation. From the roster of these university graduates have come many of the creative ideas in pure science and the practical methods in technology which have led to industry's enormous increase in mass production.

From our liberal arts institutions and from our colleges of business administration there have issued in the past 20 years graduates who have introduced progressive ideas and methods as executives in business and industrial administration.

All education and especially higher education faces a special challenge in view of population increases. With a considerable proportion of our people in the older age brackets and in retirement, there will be a pressing need for younger and middle-aged persons possessing an essential educational outlook and training.

Indeed, it has been prophesied that there will be more jobs available in the coming decades than persons qualified for the jobs.

How do today's students compare with those 20 years ago "Unquestionably I rate them as fine a generation as America has ever had. I base this on experience at UC and on visitation to campuses in all parts of the country."

Should everyone go to college? "I do not think so. The opportunity should be afforded for those eagerly desiring higher education. In accordinace with our grand American tradition, there should be no barrier of class or race or insufficient family income.

The total enrollment of full-time and part-time students in American higher education has increased about 150 per cent in the past 20 years. The population wave of the future would seem to foretell a similar increase in the next 20 years. One of the factors which may prevent this would be the financial limitations of private colleges and universities. They simply do not now have the funds for the teachers, buildings, and other facilities needed to handle such numbers. However, state universities are making plans to do their utmost.

We are tempted in these days of pressure to let up in respect to high standards. We should, I think, deal courteously but unyieldingly with parents who will permit their Jack to play hard and dangerously in football and basketball and allow their Jill to take part in a taxing social whirl but are perturbed about having them stretch their intellectual muscles for fear of a mental breakdown.

Lest I be misunderstood, let me say that I favor advanced education beyond high school for those who, in the future tidal wave of youth, earnestly desire it even though they are not intellectually gifted. These young men and women will become voting citizens; for the wise use of the ballot they should be well informed. Moreover, on the human side, they are fine material. They should receive they may value the best leaders, patient, skillful teaching so that may be good followers and supporters of worthy causes.

Personally I strongly favor the creation of public junior colleges granting the associate of arts degree for two years of study. These should be controlled and financed by the public school boards with possible supplementary appropriations by the states. This mode of meeting the problem is exemplified in the public junior colleges of California, Texas and other states.

Whether in the standard four-year college or the junior college, it seems clear that preparation should be afforded youth for the actualities of American life in the approaching industrial era. Mass production of goods will soon afford a great deal of free time for the mass of our people. Will the shorter working week be monopolized by amusements, by trivial entertainments?

My own concern is regarding standards of excellence for America. We must, I think, seek out the boy and girl capable of the scholastic requirements essential for training first-rate scientists, engineers, and leaders in the professions.

Here is the real field, as I see it, if America is to advance in competition with the best intellectual products of Great Britian and Europe. We must not fool ourselves about this. Merely raising the average of mediocre performance will not compenstae for failure to keep America first rate.

If It's A Husband You Want, Girls, Move To The Farm

By INEZ ROBB

What has a country mouse got that a city mouse hasn't got?

Putting it in one simple sentence, the country mouse has a lot better chance of getting her man and lining him up at the altar than has her city cousin. And if you can think of a better reason for sticking down on the farm, it is probably illegal, immoral or fattening.

The U.S. Census Bureau, which is always coming up with the darnedest statistics, says that a good man, always hard to find, is getting scarcer and scarcer in the cities.

The preponderance of women in the urban population continues to grow alarmingly (for women, that is. It was bad enough in 1950, when there were only 93.5 city slickers for every 100 city women. But in less than five years, city fellers have dwindled to a mere 91 per every 100 women, and the situation may get a lot worse before it gets better.

If a girl is after a husband of her own — and what right-thinking, right-minded girl isn't? —She will shun the cities and stick to the farm like a mustard plaster crossed with a burr.

Because — goody! goody! — in America's rural areas, there is still a preponderance of this nation's proudest product: MEN. Not much of a preponderance, granted, but the country mouse should be grateful for small favors.

The Census Bureau says that for every 100 lucky country girls, there are still 102 men named Available Jones. With a mere margin of two, the country mouse may still have to do some scrambling, but she's not apt to be killed in the rush as is her city cousin.

This column views no facet of the national situation with such alarm as the growing preponderance of women in the population. And, instead of doing something constructive to solve this desperate problem, the government merely goes on issuing depressing statistics designed to take the heart right out of women.

Although there is grave doubt that the State Department ever gives a first thought to any problem, maybe it ought to give a long second thought to throwing the nation open to unlimited immigration on the part of eligible bachelors. And an eligible bachelor, circa '55, is any man willing to say, "I do." Men are where you find 'em today, only you can't hardly find 'em without a bloodhound. City men have begun to have a sort of smug look in recent years, with the competition getting fiercer and fiercer.

If a movie called "Marty" plays your neighborhood theatre, don't believe a word of it! It is all about the terrible life and hard times of young city fellers who can't get a girl. In view of the new figures from the Census Bureau, not even artistic license explains this picture.

Reuben, Reuben, I've been thinking that a great back-to-the-land movement is about to begin. As soon as city girls, worn out from the competitive struggle to rope and tie a man, realize that Maud Muller is raking more than hay these days, the trek will begin.

And once the Mauds realize the luck they're in, there'll be no problem about how you goin' to keep 'em down on the farm. You won't be able to drive 'em off with a gun.

State Department Still Doesn't Know Exactly What The Russians Are Up To

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP)—The American government doesn't know what the Russians are up to. That point stands out clearly in Secretary of State Dulles' talk to the nation.

Lately the Communists have been mild and to a degree cooperative. They let Austria have independence. They have agreed to talks among the Big Four powers—the United States, Britain, France, Russia — at the highest level. Why?

Dulles doesn't know. He frankly expressed puzzlement by their motives in his broadcast Tuesday night from President Eisenhower's office. Although Eisenhower said a "new dawn may be coming," he and Dulles cautioned against expecting too much of the talks.

Dulles and Eisenhower, both of whom had been frigid for years to a top-level meeting with the Russians, will now both meet with them. Neither man has shown much enthusiasm for the idea. Britain and France persuaded Dulles to persuade Eisenhower to take part.

Dulles last night was very cautious about the meeting, perhaps because he doesn't know what the Russians have up their sleeve.

Since the Russians have them guessing, Eisenhower and Dulles will have to do their homework if they don't want to come out second best. Homework doesn't mean just remembering to stand pat on every single difference which has existed between Russia and the West for years.

This whole Russian performance may be phony. There's a chance it isn't, that they really want peace and are willing to pay a price for it in the form of concessions they never would make before.

If they do back up a bit, the United States will have to be prepared to do the same if, by doing so, American safety and world peace are benefited. American rigidity might continue a cold war until it became hot.

But Dulles knows any American concessions by him or Eisenhower may bring down the wrath of some Republicans. Both men have vivid memories of Republican outcries for the past 10 years over concessions made by President Roosevelt at Yalta.

Yet, if the Russians yield but the United States yields nothing, this country endangers its alliances.

Almost as if giving assurance beforehand that Eisenhower would get mixed up in no deals with the Russians — and therefore warding off criticism ahead of time—Dulles said:

Eisenhower and the other heads of government can't solve all the big problems in the three or four days they'll meet; "I think that will be a meeting which can be held safely without bringing in great risks and which may open up a new opportunity."

Dulles privately is reported to believe it will take many months, perhaps years, to work out agreements with the Soviet Union on great world issues.

Baby-Watching Period Is Recommended For Adults

By HAL BOYLE

NEW YORK (AP)—Every adult in the world ought to spend at least an hour a day baby watching.

Can't think of a better way to learn human nature. Seeing a child struggle so desperately to become a grownup, you begin dimly to understand why grownups so often act like desperate children.

There is no industry, pastime, or hobby—call it what you will—that kindles the spirit more than baby watching. But nothing else gives you quite such a frightening insight into the passage of time.

"Why, it seems only yesterday that—" This is the phrase you find yourself using most often in baby watching. You leave a baby for a day or two, and when you come back it seems to have sprung up with the speed of a flower racing the turning sun.

So it has been with Tracy Ann, a small stranger who came into our lives as a month-old mite in a bundle nearly two years ago.

Why, it seems only yesterday that I held her to my shoulder to burp her. So soft and frail and helpless she felt then, so utterly dependent, that I was afraid she'd bend and break.

What happens to a baby? Where do they vanish so swiftly? Right while you're watching, right before your eyes, the baby fades and disappears. Suddenly you no longer are watching a baby but a small sturdy human being running on its own legs, pushing your helping hands away impatiently, and trying to seize the whole wide world in its two little hands.

When did it happen? You can't quite remember. All you know is that the baby you loved is gone. A child you love has taken its place.

There is a big difference between a baby and a child. Take reading, for example. As a baby, Tracy Ann loved nothing better than to digest newspaper editorials. She did this literally, by tearing out the editorial, stuffing it in her mouth, and gumming it until it had been thoroughly absorbed. Finally had to take newspapers away from her altogether. Afraid she might ruin her eyes.

Now, as a child, she is on a Mother Goose jag. We read these jingles together practically every morning. But I may have to halt this, too. It seems to make her melancholy. Her favorite picture shows Little Boy Blue, fast asleep under the haystack. He is barefooted, and this distresses Tracy no end.

"No shoes," she says sadly, shaking her head. Never mind the sheep in the meadow, the cows in the corn. Isn't that sleepy little boy ever going to get a pair of bright new shoes?

Long Range View Controls Action Of Stock Market

By SAM DAWSON

NEW YORK (AP) — The stock market sprang a slow leak three weeks ago.

Watching stock prices going soft, the public took to the sidelines. The professionals, however, had a wide variety of ready explanations and some are looking eagerly for signs of recovery and revival of public interest.

The stock market lost its zip at a time when most of the news continued to be bullish. Good earnings reports, increased dividends, new records in steel production, gains in industrial output generally, and a flood of optimistic predictions of even better times ahead—all of these seemed suddenly to lose their glamor.

But it was the very same kind of news that earlier in the year was the unfailing excuse for bidding stock prices higher.

Why didn't the same good news work in the last three weeks

Brokers point out that stock traders don't buy because of what business has done, but because of what they think it's likely to do. Six months ago the bulls decided that first - quarter earnings were going to be good. The first of this year they guessed that second - quarter earnings should be good also. They anticipated the stock splits, mergers and increased dividends, and the general prosperity.

So stock prices were bid up high —so high in some cases that yields lost much of their attraction and bonds didn't look so dull.

Those who bought six months ago are now in position to sell and take their profits subject only to long - term capital gain tax rates.

Buying on margin has also been made less attractive. In two stages the Federal Reserve Board has raised margins to 70 per cent.

Brokers say there are other reasons for the market slowdown.

Peace talks rose to volume, brokers note, just about the time the market turned soft. Businessmen would welcome peace. But it is recognized that one of the first results of any real lessening in world tension which the American people could believe trustworthy would be a demand that defense spending be cut further so that taxes could be lowered.

When defense spending was cut two years ago, it contributed to the slowdown of business in 1953-54. The lost ground has been recovered now. But another cut in defense spending might have the same effect again—in the opinion of many stock traders.

There is the added uncertainty as to what may come out of the labor-management talks in top industries this summer. There are even some who wonder just what business in general will be like in the fall.

None of this uncertainty and wondering, however, means that Wall Street is looking for a major break in stock prices. Most observers call the past three weeks a period of adjustment after the long rise in prices. Some even see it as preparing the ground for a further advance.

LITERARY GUIDEPOST

ANDREW JACKSON: Symbol for an Age. By John William Ward. Oxford.

What was old Hickory? What did his contemporaries — the soldiers who fought under him and the citizens who wanted him for president, or did not — think Old Hickory was? How do the two pictures jibe?

Here in this book painstakingly drawn, are both man and myth. The author looks at Jackson as general and president, as nullification foe, as husband, as orphan, but principally in connection with the Seminole war and the victory over the British at New Orleans.

He is, or in his time was, viewed first as the "natural" man, product of the soil, the victor at New Orleans over an effete army spoiled by the too ripe civilization of ex-mother England. While he was trained by the pristine life of the frontier; he was also watched over by God. And finally, he was the man of iron, whose will admitted no opposition whether from the British at New Orleans or his political enemies.

Now there are factual inaccuracies. For instance, he did not really farm, any more than William Henry Harrison actually occupied a log cabin. It can be doubted how much the Lord God of Hosts interfered at New Orleans, and how much Jackson's immutable will affected his course. But out of a contemporary reading, often capricious and wilful, of the events of his life, there evolved the picture of him that grateful fellow Americans wanted. He was what the doctor ordered. The Jackson reality didn't absolutely satisfy, it must be tampered with. "The age was not his. He was the age's," says Ward.

This is a study of subtle distortions, and a lot of scholarship has gone into it — anyone is a scholar of the first rank who does not neglect to put the curious hyphen in New-York Historical Society.

WASHINGTON LETTER

Navy Wives Are Given Instruction On Protocol

By JANE EADS

WASHINGTON (AP) — Ruth Tarrant, the Navy's expert on protocol, says a Navy wife has given the best definition of that social bugaboo of officialdom: "Doing the right thing without putting someone else in the wrong."

Today the Navy's Foreign Liaison Section answers all questions on Navy protocol, including such things as when to make calls, what to wear at certain functions, that coffee ranks tea, and the letters R.H.I.P. mean "Rank Has Its Privileges."

Talking before a Supply Corps Officers' Wives Club, Miss Tarrant told the women not to worry when they went to a White House reception. No guest there can make a blunder, she said. There are too many aids about, and everything is too well-regulated for anyone to make any noticeable faux pas. When confronted with hand-kissing diplomats at embassy receptions, she says, "Don't struggle."

• • •

Mrs. Clarence Norton (Gussie) Goodwin, who has organized Spanish classes in Washington for wives of officials and diplomats for the past 15 years, was given the red and green medallion of Ecuador's National Order of Merit by Ambassador Dr. Jose R. Chiriboga for, "Promoting goodwill between North and South America."

• • •

Mrs. Woodrow Wilson, 82-year-old widow of the World War I president, is still very active and gets about to many functions in the capital. She's never liked the limelight and has always shunned speech - making, until recently, when she felt the urge to say a few words — off the cuff, at that.

At a small meeting of the alumni of Davidson College, N.C., which her husband has attended, she heard an official confess to his embarrassment over the fact that the college canary refused to sing on a visit she had made to the campus.

Mrs. Wilson, asking permission to "say a few words," said she was glad the bird had had stage fright. Her job as a child, she said, had been to look after the 20 or more canaries kept by her grandmother.

"Frankly," she said, "I hated the very thought of singing canaries."

Appropriate Advice

HOUSTON, Tex. (AP) — Martha Pray is Christian education director for the Episcopal Diocese of Texas. She recently rented an apartment from the B. V. Christian family. The nameplate on the mailbox now reads, "Pray-Christian."

Kicks About Food

CONNERSVILLE, Ind. (AP)—John Murray wondered why his Shetland pony kept backing up to a barnlot shed and kicking it with his hind hoofs. Watching, he found a stream of oats flowed out on the ground at every kick.

RADIO-TV REPORT

By WAYNE OLIVER

NEW YORK (AP) — You'll never see the faces that go with three of the prettiest pairs of legs in television—those of the dancing cigarette packs.

Their sponsor, Old Gold, tries to protect their identities as closely as if they were state secrets on the theory that the mystery creates added interest among viewers. But he has furnished some facts:

Miss Regular Pack has been a member of the act the longest, making her debut in 1948. Second was Miss King Size, who made her debut in April 1953. The newest member is Miss Filter King, who joined last September.

Miss Regular Pack is a professional who comes from a long line of dancers, and she also is choreographer for the act. Her comment, relayed through the secrecy veil, is:

"At first I didn't like it. What entertainer would? But now I wouldn't have it otherwise. Today I dance before millions of people a week. Hoofing it before television I couldn't dance to that many people in a lifetime. And when you like dancing, you like to dance for lots of people."

Miss King Size likes the anonymity. She had decided to retire from show business after her recent marriage, but her present assignment enables her to continue with no publicity that might interfere with the privacy of an ordinary housewife.

Miss Filter King, a pretty 20-year-old who has appeared on stage, screen and TV, finds the security regulations something of a problem because she is single.

"The sponsor won't permit me to explain even to my boyfriend," she declares, "and he wants to know why I can't date him Saturday night."

SPORTS

A&M Coaches Guilty Too, S'west Says

DALLAS (AP) — The Southwest Conference wanted it known today that it considered the coaching staff guilty along with the Texas A&M alumni of violating the athletic recruiting rules and the coaches shouldn't shift the blame.

Football Coach Paul Bryant of Texas A&M said if that was so he'd like for the specific charges, on which the conference based his school's 2-year probation, to be given a public airing.

Dr. Edwin D. Mouzon of Southern Methodist University, president of the conference, gave out with the implication that he figured Bryant was just throwing up a smoke screen when he retorted: "While Mr. Bryant has done a fine job of trying to tell the public he is not aware of the charges he is just as aware of them as I am."

Moreover, the conference prexy indicated there would be no change in the attitude of his group that the specific charges would not be publicized.

The faculty committee, governing body of the conference, in its meeting at Houston Saturday placed A&M on probation, suspended its letters of intent (contracts that insure a boy attending one of the schools) and forbade A&M participating in post-season contests. It merely said A&M alumni and coaches were being disciplined for violation of the recruiting rules.

Bryant commented that if any rules were violated by the coaches it was without their knowledge and it certainly would cease. W. T. Doherty, president of the A&M board of directors, said "It is extremely difficult to control actions of an enthusiastic alumnus which was the case in this instance."

So the conference, in a telegraphic poll, released a statement Wednesday that it had observed news reports which attributed the disciplinary action almost exclusively to the activities of the alumni and that these reports "have been encouraged by or originated with Coach Paul Bryant." It pointed out that at the meeting Saturday, it cited both the coaching staff and alumni as violating the recruiting rules.

Bryant's reply was that he had requested the A&M athletic council to ask the conference to "put in there what we were supposed to have done. We'd like to see it. We'd like for the public to know what it is."

Dr. Mouzon's comment implied that Bryant could get the charges if he asked A&M's conference representative.

Who instituted the telegraphic poll was not revealed. Howard Grubbs, executive secretary of the conference, said either the president or three members of the conference could call for such a poll. A majority vote is necessary to take any action. How the schools voted was not revealed and what A&M did—it also had a vote—was not disclosed.

Dr. Mouzon, in issuing his statement that Bryant was aware of the charges, said that the only way the charges could be publicized was for the conference to hold a special meeting and "I have had no request for one."

Bryant has said that the schoolboy athletes whose letters of intent were voided had been informing him they would go to A&M anyway and he said yesterday in reply to a question of whether they all were coming back that "I don't think we ever lost any of them. They wanted to come here 10 days ago; they'll probably want to come here now."

The athletes can't go to A&M under letters of intent but A&M can give them athletic scholarships anyway.

Ardmore Makes Gains In Only Sooner Game

By THE ASSOCIATED PRESS

The Ardmore Cardinals picked up some ground in the Sooner State League baseball race Wednesday night with a 4-2 victory over the Paris Orioles.

It was the only game played as three others—all in Oklahoma—were postponed because of rain and wet grounds.

The victory enabled the Cardinals to move within a half game of the third-place Lawton Braves and sent them two games ahead of fifth-place McAlester.

The teams begin a new two-game series Thursday night with Gainesville at McAlester, Seminole at Muskogee, Paris at Ardmore and Shawnee at Lawton.

Groundskeeper Aids In Winning Games

By GAYLE TALBOT

NEW YORK (AP)—The baseball fans of Kansas City, who led sheltered lives until recently, have been shocked to learn of the depths to which big league clubs will stoop to win games.

One of their number writes that if what he reads is true, "these methods seem outside the bounds of decency." What aroused him was an attached article by Ernie Mehl, who as sports editor of the Kansas City Star had much to do with the transfer of the Athletics to that city.

Mehl recently interviewed at some length the veteran and highly skilled groundskeeper of the Cleveland Indians, Emil Bossard. With pride in his handiwork, he told in detail of the devilish tricks he employs to handicap visiting clubs.

"It's all part of the business," he assured Mehl. "We do a lot of things here in Cleveland calculated to help our club and make it a little tougher for the visitors. We work over the field every day according to who is pitching, what sort of speed the other team has and what kind of hitters they are."

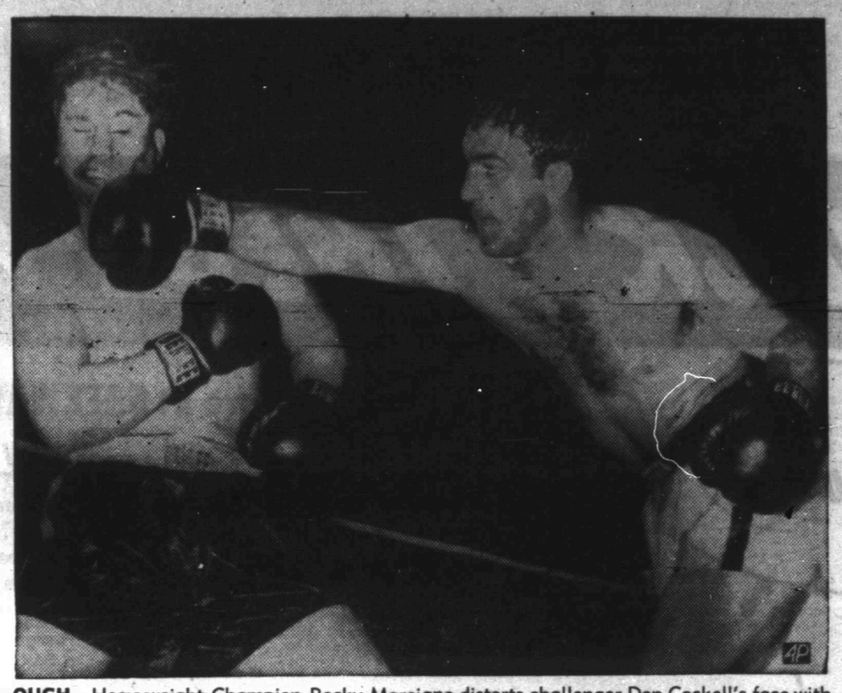

For example, Bossard explained, when sinkerballer Bob Lemon is due to pitch for the Indians, making it certain the opposing club will hit many balls on the ground, he leaves the infield nice and soft so that the Tribe defenders will have more time to reach grounders. When a set of speed boys comes to town, Emil has an antidote for them too.

"Take the White Sox," he said. "They have a lot of luck running bases until they get here. I fix the dirt around first base so it's very loose. A player can't get a start for second base. You don't see those guys stealing many bases here. We stop that. . . .

"So they complain. I didn't do anything intentionally, and how are they going to prove that I did? So I make a few mistakes and it helps the Indians win some games. So what's wrong with that?"

OUCH—Heavyweight Champion Rocky Marciano distorts challenger Don Cockell's face with a hefty right in the 8th round of their scheduled 15-round title fight in San Francisco. The British challenger was downed in the eighth and ninth rounds and referee Frankie Brown awarded the champion a TKO when he stopped the battle in the ninth.

Chisox Want Revenge For 'Dirty Tactics'

By JOE REICHLER

NEW YORK (AP)—Angry Chicago White Sox players, bitter at New York's Hank Bauer for the use of what they termed "dirty tactics," threatened today to retaliate against the bruising Yankee outfielder the next time the teams meet.

Umpire Ed Hurley ruled interference against Bauer for a play during yesterday's game, which the Yankees won 11-6.

New York, leading 7-6, was at bat in the seventh inning. They had filled the bases with one out. Andy Carey hit a grounder to second baseman Nellie Fox, who turned to tag Bauer, the base runner from first.

Bauer charged into Fox and sent him sprawling. Fox, from a supine position, threw to first too late to double up Carey as Gil McDougald crossed the plate.

When Manager Marty Marion charged out of the White Sox dugout to protest, Hurley ruled interference on Bauer and sent McDougald back to third. Bauer was called out and the bases remained full.

Marion argued for a double play but got nowhere.

Mickey Mantle then hit a grand-slam homer to put the Yankees beyond reach.

Baseball rule 7.09F seemed to uphold Marion. It states:

"If any base runner who had just been retired hinders or impedes any following play being made on a runner, such a runner should be declared out for the interference of his teammate."

Hurley, however, had a different version. Reached in the umpires' dressing room after the game, he said:

"Bauer pushed him while Fox was in the act of fielding the ball. He did not have complete control of the ball. That's why I called Bauer out for interference.

"If Fox had full possession, I would have ruled it a double play."

Press box observers were unanimous in the opinion that Fox not only had fielded the ball, but was in the act of tagging Bauer when the husky outfielder came barreling into him.

"Maybe he calls it aggressive baseball," Fox said angrily, "but I call it dirty playing. If he wants to play football instead of baseball I'll get some football pads the next time and we'll go at it."

Bauer told it this way: "Sure he had the ball, but he was standing in my way. I'm entitled to the baseline. So I hit him with my chest."

"It's high time we did something about this guy" a White Sox player said. "In Chicago he nearly cut off Chico Carrasquel's leg, sliding in with his spikes high. This time he deliberately charged into Nellie to break up a sure double play. It's high time our pitchers got even by brushing him back with a couple of high hard ones."

Marion said an official protest was useless because "it's not a matter of rule interpretation, but one of judgment."

San Antonio Makes Gains

By The Associated Press

Houston's Buffs sang the song a little differently Thursday—it was "We Do Care If The Sun Don't Shine."

Because Wednesday night it rained and rained and Houston couldn't play at Oklahoma City so San Antonio's Missions, who could at Tulsa, gained a half-game on Houston in the torrid Texas League race.

San Antonio moved out front by a game and a half by trimming Tulsa 7-4.

Dallas, in third place, edged up on Houston by nosing Beaumont 1-0. The Eagles now are just one-half game back of the Buffs.

San Antonio scored in a gob to whip Tulsa, blasting five runs across in the fifth inning.

Beaumont got only two hits off southpaw Pete Burnside as Dallas won a thriller from Beaumont. The big fellow faced only 31 batters and was in trouble in just one inning—the eighth—when Beaumont crowded two runners onto the sacks.

Rain has virtually wrecked the league schedule the past five nights when a total of eight games have been postponed. Wednesday night Houston couldn't play at Oklahoma City and Shreveport couldn't get in a game at Fort Worth.

Four Houston Track Men To Los Angeles

HOUSTON (AP)—Four University of Houston tracksters leave today for Los Angeles to compete in the Coliseum Relays.

Danny Boone, Doyle Jones, Jerry Back and Larry McBride will run in the 440 and 880-yard relays. The meet is Friday night.

LL Mothers Re-organize

Snyder's Little League auxiliary met yesterday afternoon and re-organized for this year.

Mrs. Wayland Gladson was elected president of the organization. Other officers elected were Mrs. Clifford Hale, vice-president; Mrs. Skipper Joyce, secretary; and Mrs. Charlie Morrow, reporter. Concessions chairmen elected were Mrs. Truman Black for drinks, Mrs. Leland Herod for food, and Mrs. R. B. Comber for snow cones.

Captiains for mothers of various teams are to be elected later. The auxiliary this week is preparing a work schedule for mothers to use in operation of the concession stand at the Little League games, which start next week.

Midland Widens Its Hold On First Place

By THE ASSOCIATED PRESS

Midland's Bob Swanson held Big Spring to six hits Wednesday night and the winners widened their hold on first place with a 6-4 Longhorn League victory.

In the other games, Roswell beat Artesia 7 - 5, Carlsbad downed Hobbs 11-6 and San Angelo whitewashed Odessa 7-0.

Swanson claimed his sixth victory of the season against no losses. He got a large chunk of help from big Glen Burns, who slugged a homer, a double and two singles for four runs.

At Roswell, Artesia pitcher Jim Kenega struck out 12 of the home town Rockets, but his efforts weren't enough. The losers also socked 14 hits, against Roswell's 7.

Carlsbad started its rout of Hobbs with six runs in the first two frames. The victors racked up the win on 13 hits but gave up 15 to Hobbs.

Gil Guerra held Odessa to three scattered hits as he led San Angelo to its victory.

St. Louis Picks Up, Brooklyn Drags Home

By ED WILKS
The Associated Press

When the St. Louis Cardinals are winning, you'll never find a pair of twinkling eyes to match Eddie Stanky's specs. And the little guy's peepers are flashing blue blazes right now.

The Cardinals have won five straight and six of their last seven. But more important, their 3-2 success last night swept a series from Brooklyn — something the Cards have managed just four other times since Stanky took over as manager in 1952.

Brooklyn is dragging a three-game losing streak as it heads home from a dismal Western trip on which it lost five of nine. But the Dodgers still hold a 7½-game lead in the National League.

Chicago is second with the Cardinals third. The Cubs moved up by taking a double-header from the failing Philadelphia Phils 3-2 and 7-5. Milwaukee stumbled from the runner-up spot by losing to New York's Giants 4-2. Cincinnati beat Pittsburgh 5-1.

That left the standings jammed behind the Brooks. The Cards are nine percentage points behind the Cubs and three points up on the Giants. And the New Yorkers are just two points ahead of the Braves.

In the American, Cleveland leads by 1½ after smearing Boston 19-0. New York swept its series from Chicago's White Sox 11-6, while Detroit beat Baltimore 6-3 in 10 innings and Washington defeated Kansas City 7-2.

Not only have the Cardinals apparently found themselves, but Stanky's finally getting the pitching he's missed for so long. His guys have allowed just three runs in their last five games and he dumped Brooklyn with only one call to the bullpen.

The hail for help brought in Barney Schultz last night and the 6-2 right-hander got the final two outs with the tying run on second to protect Harv Haddix's second victory. With two of their runs unearned, the Cards jammed all their scoring into the first two innings.

From there on, loser Johnny Podres and Clem Labine permitted only one other base runner while holding the Cards to four hits for the game.

At Milwaukee, Hank Thompson's two-run single got the Giants rolling in a three-run sixth. Warren Spahn was the loser while Johnny Antonelli spun a six-hitter.

The Cubs smacked the Phils with the help of poor fielding in the opener and three home runs in the nightcap. Sad Sam Jones, making his first start since no-hitting Pittsburgh, fanned 10 for the victory, but gave way to Hal Jeffcoat in the ninth. Jeffcoat also came on in the nightcap, relieving John Andre in the fourth, for the decision.

Cleveland waltzed behind Herb Score's three-hitter. The rookie fanned nine. Willard Nixon was knocked out in an 11-run fifth inning that saw Vic Wertz drive in five runs on a grand-slammer and a single.

At Yankee stadium, Mickey Mantle powered a bases-loaded homer after a controversial interference play that might have ended the inning except for Umpire Ed Hurley's ruling. The Sox had four homers, two by Vern Stephens, but they weren't enough. Bob Grim, the winner with help from Bobby Morgan, hit Minnie Minoso in the head with a pitch, but after X-ray examination it was reported the sox outfielder won't miss any action.

Al Kaline's single scored the tie-breaking run for Detroit, giving Frank Lary his third victory after no-hitting the Orioles through the first five innings.

At Washington, the Senators scored four in the first, with Tommy Umphlett and Pete Runnells driving in two each, and coasted past the A's.

Rookie Rudy Minarcin won his first major league start for the Redlegs behind Tex Kluszewski's two-run homer and Wally Post's bases-loaded double.

PONY GAMES MAY NOT BE PLAYED

No definite report was available this morning as to whether the Pony League will have its opening games tonight.

Rain wet down the baseball field in Towle Memorial Park during the last several days, and a solid overcast of clouds this morning indicated that the field would remain muddy.

Monday night was scheduled as opening night for the Pony League, but the games were rained out. If the opening games are held tonight, the Lions Club Phillies will meet the Von Roeder Red Sox at 7 p.m., and the Courthouse Tigers will be matched with the Scurry Butane Dodgers at 9 p.m.

Pony Leaguers should contact their managers if there is no word by this afternoon as to whether the games will be played tonight.

If there are no games tonight, the opening will be held tomorrow night.

Arizona, A&M To Pick Playoff Site

HOUSTON (AP)—The site of a playoff between Texas A&M and Arizona for a spot in the National Collegiate Baseball Tournament is expected to be selected today.

It will be a playoff of District 6 in the NCAA. A&M is Southwest Conference champion and Arizona is kingpin of the Border Conference.

Dell Morgan, Rice baseball coach who is chairman of the district selection committee, said Aggie coach Beau Bell and Arizona coach Frank Sancet had not been able to get together on where the playoff will be held. Arizona played at College Station in 1951 when the schools met to decide the tournament spot. The Aggies won the series.

Arizona wants the playoff this weekend but A&M prefers a later date because its ace pitcher, Joe Hardgrove, has a pulled muscle.

The national tournament is at Omaha June 10-14.

Hybrid corn is credited with raising Iowa's corn yield from an average of 35 bushels an acre to 52.5.

Fresh Fruit Is Needed For Breakfast, Important Meal

The nation's nutrition experts view with alarm the practice of skimping or skipping entirely the most important meal of the day, breakfast.

Surveys show that less than half of the adults in this country usually eat a good breakfast. Only one out of five children goes to school with an adequate breakfast.

Tendencies of adults are to skip it "in order to reduce" (which is very wrong) or to substitute a cup of coffee and perhaps a sweet roll later in the morning for a full breakfast. Neither of these is the healthful way to start the day.

For one thing, an important low caloried member of the basic breakfast pattern almost can't be substituted for at the coffee shop or corner drugstore. That is fruit, preferably fresh fruit.

The basic breakfast pattern, generally accepted nationally, is based on five low cost foods available everywhere. They are fruit, cereal with milk, bread, butter or margarine, and milk. Eggs, bacon, meat or other protein foods can be added.

Fruit, however, with its high protein and vitamin content, is the real beginner, the real eye-opener.

The following recipes are all meant for breakfast and all utilize fresh fruit when possible, especially in some unusual ways that your family might not know. One of them might be just the way to entice your family into the breakfast habit.

BANANA PANCAKES

1¼ cups milk
1 cup prepared commercial pancake mix
3 ripe bananas
Lemon juice
Butter or margarine
Powdered sugar

Use fully ripe bananas, yellow peel flecked with brown. Add milk to pancake mix and stir until batter is thin and smooth. Lightly grease and heat a large frying pan or skillet. For each pancake, pour ¼ cup batter into heated pan, tilting pan to distribute batter evenly. When bubbles form on surface of pancake and edges are firm, turn and bake until browned. Remove to hot platter. Peel bananas. Slice ½ banana thinly over each pancake, leaving about 1 inch around edges. Sprinkle bananas with lemon juice and dot with butter or margarine. Roll up and sprinkle with powdered sugar, if desired. Cut into halves and serve with syrup or honey, if desired. Makes 6 large pancakes.

PINEAPPLE PANCAKES

2 cups milk
1 egg, beaten
2 cups pancake ready mix
2 tablespoons melted shortening
1 cup pineapple pieces

Combine milk and egg; add to ready mix all at once and stir lightly. Somewhat lumpy batter makes light, fluffy pancakes. Fold in melted shortening and pineapple pieces. Pour ¼ cup batter for each pancake onto a hot, lightly greased griddle. Bake to a golden brown, turning only once. Makes 14 to 16 pancakes.

SCANDINAVIAN APPLE PANCAKES

1 apple
¼ cup sugar
1½ cups sifted flour
1 teaspoon baking powder
½ teaspoon salt
1 tablespoon sugar
1 egg, beaten
1 cup milk
1 tablespoon melted shortening

Core and peel apple and cut into thin rings. Sprinkle with ¼ cup sugar and let stand while mixing batter. Sift together flour, baking powder, salt and sugar. Combine egg, milk and melted shortening. Mix well. Add liquid to flour mixture and mix thoroughly. Pour 1 tablespoon batter on hot griddle or skillet. Put apple ring in center and top with another tablespoon batter. When bubbly, turn and brown. Serve hot with melted butter or margarine. Makes about 12 4-inch pancakes.

APPLESAUCE CORNMEAL GRIDDLE CAKES

1 cup yellow corn meal
1 cup sifted all purpose flour
2 tablespoons sugar
¾ teaspoon salt
4 teaspoons baking powder
2 eggs
1½ cups canned applesauce
¼ cup melted butter
¾ cup milk

Combine cornmeal, flour, sugar, salt and baking powder. Beat eggs; add with applesauce. Stir until blended. Add melted butter and milk, mix well. Drop by spoonfuls on hot griddle, spreading thin. Bake, turning to brown both sides. Serve hot with syrup, or, for variety, sprinkle with sugar and serve with lemon juice and butter. Yields 4 servings.

BANANA WAFFLES

2 cups ready mix pancake mix
2 cups milk
1-3 cup melted butter, fat or oil
2 eggs
1 cup finely diced banana

Place mix, milk, melted butter and eggs in a medium sized bowl. Beat with a rotary egg beater until batter is fairly smooth. Fold in diced banana. Pour batter into a hot waffle iron. Bake until iron stops steaming. Serve with melted butter and confectioners' sugar. Garnish with sliced bananas.

FRIED APPLE RINGS

Core and peel apples. Cut into one-third inch slices. Brush with molasses, corn syrup or honey. Dip into a crumb mixture of 1 cup fine dry bread crumbs, ½ cup flour, 2 teaspoons cinnamon and a dash of salt. Fry in ½ inch of hot shortening, turning to brown both sides.

Or dip thin apple rings in a thin batter of pancake mix; fry in deep fat until golden brown, and remove to paper towels to drain. Sprinkle with powdered sugar and serve.

STUFFED ROSY APPLES

Choose apples that will hold their shape while baking. Pare the apples half way down and remove the core. Place the apples pared side down in a casserole having a tight cover. Make a syrup of sugar, water, and red food coloring and pour over the apples, being sure that the syrup covers the pared portion of the apple. Place lid on the casserole and place in a moderate oven (350 degrees F.) for 15 minutes. Carefully turn the apples to the pared side up. Stuff them plumply with dried figs, broken walnut meats, sugar and cinnamon. Top each apple with 1 teaspoon butter or margarine. Baste thoroughly with the syrup. Cover and bake until the apples are done, about 25 minutes. Serve warm with top milk.

APPLE SAUCE FRENCHIES

2 cups applesauce
½ teaspoon cinnamon
½ teaspoon nutmeg
1 tablespoon butter
2 eggs
1 1-3 cups milk
Few grains salt
Butter or margarine
8 slices white bread

Combine applesauce, spices and butter; heat. Beat eggs, add milk and salt. Dip bread slices in egg mixture; brown on both sides in butter or margarine. Serve hot applesauce mixture between each two slices of French toast. Garnish top with spoonful of applesauce. Serves 4.

APPLE, BANANA AND BACON GRILL

½ cup brown sugar, firmly packed
½ teaspoon cinnamon
4 firm bananas
Lemon juice
4 bacon strips
8 apple rings

Combine sugar and cinnamon. Peel bananas; brush with lemon juice, then dip in sugar mixture. Wrap bacon strip around each banana; secure with wooden picks. Srpinkle apple rings with remaining sugar mixture. Place fruit on broiler rack with surface of fruit 3 inches below source of heat. Broil 8 to 10 minutes, turning bananas once. Makes 4 servings.

GRILLED BANANAS

4 to 6 firm bananas
Melted butter or margarine
Salt

Use slightly green tipped or all yellow bananas. Peel them, place on rack or into pan. Brush bananas as well with butter or margarine. Sprinkle light with salt. Grill about 5 minutes on each side or until bananas are browned and tender, easily pierced with a fork. Serve hot with grilled sausage. Makes 4 to 6 servings.

PEACH RHUBARB CUP

1 pound rhubarb
¾ cup granulated sugar
Few grains salt
¼ cup from cling peaches
4 cling peach halves

Wash rhubarb and cut in 1-inch lengths. Place in saucepan, sprinkle with sugar and salt, add peach syrup and simmer closely covered until barely tender. Remove from heat and chill. Serve chilled peach halves surrounded by rhubarb sauces. Serves 4.

PEACH KUCHEN

1-3 cup cornmeal
1 cup sifted flour
½ teaspoon baking powder
¼ cup sugar
½ teaspoon salt
¼ cup shortening
1 egg, beaten
1 tablespoon milk
2 cups sliced peaches
½ cup brown sugar
1 egg yolk, beaten
¼ cup milk
¼ teaspoon nutmeg

Sift together cornmeal, flour, baking powder, sugar and salt. Cut in shortening until mixture resembles coarse crumbs. Add milk to beaten egg. Combine all at once with dry ingredients. Pat mixture into bottom and sides of a 7x11 inch pan. Arrange peaches in 2 rows over dough. Sprinkle brown sugar on peaches. Bake in moderately hot oven (400 degrees F.) for 15 minutes. Combine beaten egg yolk, milk and nutmeg. Pour over peaches. Continue baking kuchen 5 to 10 minutes longer, or until custard is firm. Cut and serve warm. Makes 1 7x11-inch coffee cake.

LEMON PEARS

1 1-3 cups light brown corn syrup
5 teaspoons lemon juice
⅛ to ¼ teaspoon salt
4 medium sized pears
1 2-3 sticks cinnamon
½ lemon, thinly sliced
¼ cup boiling water

Heat corn syrup, lemon juice and salt in saucepan. Add thinly peeled, halved and cored pears to hot syrup. Simmer, loosely covered, until pears begin to feel tender when pierced with fork or toothpick. Add stick cinnamon and thinly sliced lemon, which has been simmered 10 minutes in ¼ cup water. Cook pears about 5 minutes longer or until tender. Remove from heat, chill and serve. Serves 4.

BLUEBERRY CORNBREAD BREAKFAST RING

1 cup fresh blueberries
1 tablespoon sugar (or sweeten to taste)
1 package prepared corn muffin mix
Scrambled eggs for six servings
4 strips crisp, cooked bacon crumbled

Sweeten, rinse, and drain blueberries to taste. Mix into the dry, prepared corn muffin mix. Add ingredients as directed on package for preparing muffins. Stir only until moistened. Turn quickly into greased (6 cup) ring mold. Smooth top with back of spoon. Bake in a hot oven (425 degrees F.) 25 to 30 minutes or until done. Turn onto a large hot plate. Fill center with scrambled eggs and top with crumbled, crisp bacon. Makes 6 to 8 servings.

BLUEBERRY BREAKFAST CAKE

2 cups sifted flour
3 teaspoons baking powder
¾ teaspoon salt
¼ cup shortening
½ cup sugar
2 eggs
1 cup milk
¾ cup blueberries
Butter crumble

Sift together flour, baking powder and salt. Cream together shortening and sugar until light and fluffy. Add eggs and beat thoroughly. Add flour mixture to creamed mixture alternately with milk. Fold in blueberries. Pour into greased 7x11-inch pan. Sprinkle with butter crumble. Bake in modreate oven (375 degrees F.) about 35 minutes.

BUTTER CRUMBLE

¼ cup sugar
¼ cup flour
2 tablespoons butter or margarine

Combine sugar and flour. Cut or rub in butter or margarine until mixture is crumbly. Sprinkle over blueberry breakfast cake batter.

Decline Noted In West Texas Drilling During 18th Week

A sharp decline was noted in West Texas drilling activity for the 18th week of 1955. A total of 96 applications, including 14 wildcats, were filed in 30 counties in Railroad Commission Districts 7-C and 8.

The number compares to 135 applications, including 23 wildcats, staked the preceding week.

Totals for the year now are 324 wildcats and 1,529 field tests, for a grand total of 1,853 tests for oil and a weekly average of 102.

Ten counties in District 7-C shared 27 applications, including six wildcats, while 20 District 8 counties shared 69 applications to drill, including 14 wildcats.

District 7-C wildcats were: Coke, two; Concho, McCulloch, Reagan and Runnels, one each.

District 8 field tests were: Reagan, six; Coke, five; Upton, three; Mitchell, Runnels, Sterling and Tom Green, one each.

District 8 wildcats were: Pecos, two; Andrews, Cottle, Gaines, Lynn, Mitchell, and Terry, one each.

District 8 field tests were: Andrews, 10, Howard, nine; Ector, Ward, and Garza, six each; Gaines and Scurry, four each; Midland and Pecos, three each; Cochran, Crane and Kent, two each; Hockley, Mitchell, Reeves, Sterling and Yoakum, one each.

Locations, District 7-C

THE SAINT

HOPOLONG CASSIDY

tastes like SPRING!

FURR'S SUGGESTS THESE SALAD TEASERS TO START A MEAL

....Crisp, fresh salads bring Spring closer, closer, right into your dining room. So serve them first, sometimes, as a surprise. Try a trayful of colorful slivers and slices to dip into a creamy dressing, when your taste for a marvelous meal to come.

Self-service salad tray . . . use a chili-cheese, a sour cream, or green-goddess dressing . . .

¼ cup of cream cheese
1 2¼-ounce can deviled ham
Celery stalks
Paprika
1 bunch radishes
1 Carrot, cut in curls
1 10-ounce package frozen asparagus, or
1 16-ounce can asparagus spears, drained and seasoned
½ small head cauliflower, separated into flowerettes
2 tomatoes, cut in wedges
8 to 10 spears cooked broccoli
1 6-ounce can mushroom crowns, drained

Chill all vegetables. Mix cream cheese, deviled ham; stuff celery with mixture, sprinkle with paprika. Make radish roses. Arrange vegetables on platter, serve with one or more of the delicious dressings. Makes 10 to 12 servings.

SHOP EXHIBITION TONIGHT—Rodger Blackard, left, and Harley Berry, are shown putting coats of plastic glass on a speed boat they have built in vocational training classes at the high school this year. Their boat and hundreds of other high school student shop projects will be displayed in the gymnasium tonight from 6 to 8 o'clock so that the public can see what the shop students learn. Homemaking department girls will put on a style show in the auditorium at 8 o'clock. The shop exhibit will also be shown from 6 to 7 o'clock tomorrow night for persons who attend the dinner honoring past board members and several teachers prior to the dinner. (Lee Watson photograph)

Grand Jury Clears Mayock

LOS ANGELES (AP) — Welburn Mayock, former general counsel of the Democratic National Committee, has been cleared by a federal grand jury in connection with a complaint alleging evasion of income taxes.

U.S. Atty. Laughlin E. Waters said the complaint, issued last April 4, would be dismissed.

Mayock, a Washington and Los Angeles attorney, signed a waiver of immunity and appeared voluntarily before the grand jury to deny that he evaded $25,716 in taxes due on income of himself and his wife for 1948.

Mayock told newsmen the government was "persecuting" him and said the case stemmed from a payment of $65,000 before the 1952 presidential campaign by New York financier William S. Lasdon. He said $30,000 of this sum went to the Democratic national campaign fund and he and two other men divided the remainder as fees for some income tax work they did for Lasdon. He said he listed the $17,000 he received in this deal in his tax return.

Two Vehicles In Collision

No one was injured in an accident about 2:30 o'clock yesterday afternoon which damaged two vehicles when they collided at the intersection of Thirty-seventh Street and Avondale.

A 1955 Chevrolet which was entering Thirty-seventh Street from the south was driven Mrs. Verna Cook Ater, 36, of 2207 Fortieth Street.

A 1955 Cadillac club coupe was being driven east by Robert A. Colwick, 29, 1808 Thirty-seventh Street.

Damage to the front of the Cadillac was estimated at $75 to $100, and damage to the left front fender and front of the Chevrolet was estimated at $150.

There was no stop sign or other traffic regulator at the intersection.

The accident was investigated by J. D. Frith, city policeman.

Although the planet Pluto was not discovered until 1930, its position and orbit was predicted by astronomers in 1914.

'GOOD READING' LONG-LASTING

Many a man has swept dirt and trash under a rug to avoid going to extra trouble in cleaning up.

Perhaps that was what was done several years ago here at the Santa Fe passenger depot.

Nathan Small, operator at the station, reported that workmen, while preparing to fill a deep hole which had been under an old semaphore board removed from the building, found the hole full of old magazines and papers.

Among things found in the hole was a short story magazine, "Good Reading," published in 1919, complete with advertisements of patent medicine, sugar at three cents per pound, and crank-up phonographs. The Santa Fe building was constructed in 1911.

Capt. Kincaid Attends Army's Armored School

Capt. Weldon Kincaid, commander of the Snyder National Guard unit, has returned from a two-week armor officer refresher course at the Army's Armored Scool at Fort Knox, Ky.

The couse provides advanced branch training to officers of reserve component units, giving them a working knowledge of duties and responsibilities appropriate to field and company grade officers.

The couse includes instruction in the fields of communications, gunnery, maintenance, operations, logistics, administration, intelligence, field engineering, instructor training, weapons, automotive, and command and staff work.

Arraignment Set For Millionaire's Son

VAN NUYS, Calif. (AP)—Julian Hammer, son of a New York millionaire, will be arraigned in Los Angeles Superior Court June 1 on a charge of murdering a friend, Bruce Whitlock.

The arraignment was set yesterday at Hammer's preliminary hearing. He was released on $20,000 bail. Hammer's father Dr. Armand Hammer, manufacturer and art gallery owner, was not present in court, and the 26-year-old defendant's lawyer declined to say where the bail came from.

The district attorney said he did not oppose bail because he does not consider the death penalty warranted in case of conviction. Where the death penalty is to be asked, no bail is allowed.

Hammer said the fatal shooting occurred in an argument May 8 over an old gambling debt. Hammer is a writer on technical subjects for an engineering concern.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

No 'Buffer State' Say Yugoslav Papers

BELGRADE, Yugoslavia (AP) — Two of Yugoslavia's major newspapers declared last night that their nation does not intend to become part of a neutral buffer chain of states "behind which some big power could shelter itself in order to conduct its policy without being disturbed."

The editorials in Borba and Politika apparently were sparked by Western speculation the coming visit of Soviet leaders to Belgrade was part of a Russian plan to create a chain of neutral states, including Yugoslavia, across central Europe.
