City council approves 'L' Street changes

By LANA CUNNINGHAM

"Do whatever needs to be done."

More than one Midland resident voiced this sentiment to the Midland City Council when the panel met Tuesday in the City Council Chambers at City Hall.

Prompting the remark from parents who filled the council chambers was a discussion of the problem on North L Street of teen-agers using it as the place to gather at night and visit with friends.

City Council is taking their advice and approved an ordinance making L Street a one-way street going south to north. Other action approved by the council to try to alleviate the problem included putting Stop signs at every other intersection, placing "U-Turn" signs at each intersection and decreasing the speed limit from 30 to 20 mph. Receiving unfavorable comments from the audience was a suggestion to make it illegal to park from the intersection to 50 feet back on the street.

Related picture on Page 4A

Councilman Tom Sloan, who worked with a committee drawing up the proposals, said the police force also will be patrolling the area more frequently.

For more than two hours residents along L Street and nearby streets voiced their frustrations in dealing with the teen-agers who line the street with their vehicles and in getting action from the police department to stop vandalism. A group of teen-agers at the back of the chambers had a spokesman to explain their side of the argument. The hearing went a full circle, starting with suggestions by the council and going to arguments from parents asking why something could not be done to get the youths off the streets, to the teens saying they needed a place to go.

Douglas Forshagen of 2200 N. L St. began the parents' arguments, saying he would like to see some action taken by the council. But, he said the problem has existed for some time and he does not believe it will end overnight.

"The problem is not just on L Street," Forshagen said, "but in a whole area which extends to streets on the sides of L."

Calling the police often does not help, Forshagen said. "I'm not sure they (the teen-agers) actually respect the police. It doesn't keep them from coming back an hour later. At 11 or 12 at night they (the teens) are out there drinking beer and littering the neighborhood."

Mayor Ernest Angelo Jr. told the parents if a person is on their property, the police can be called because the person is trespassing. But, the caller must file a complaint and follow through with it.

"Are you and the neighbors prepared to do this, because we need some help?" Angelo questioned.

Forshagen suggested teens caught doing something wrong should be ticketed. "I know the police have been called, and it looks like a YMCA convention. He just gets up there and talks to them. But, nothing stops them (the teens) from coming back." Forshagen said.

While many of the teen-agers do nothing more than stop their car along L Street to visit with friends, acts of vandalism are appearing, according to several residents along L Street and side streets.

"My yard has been semi-mutilated," commented Mike Farris of 1617 W. Pine St. "The problem is parents in the neighborhood have more kids than brains. They give the kids a new 442 and a six pack of beer and off they (the teens) go. I hate to see July 4 come this year. Last year they (teen-agers) were shooting off bottle rockets all day. I heard where one roof caught on fire from these rockets."

Several residents said they had been trying to get license numbers of cars whose drivers are seen involved in acts of vandalism, but are finding out that is not helping. According to City Attorney Joe Nuessle, the owner of the car is not responsible for what the driver does.

"You mean if someone drives a pickup across my yard and I get the license number it doesn't do a damn bit of good?" Farris asked.

Not unless it can be proven the driver did the damage, and a case is filed to collect damages, according to Angelo.

Bob Bailey told the council he lives off North L Street on Winfield and "about once a month a car doesn't make the turn and comes across our yard. This is too much testimony to

School trustees decide to follow court order

By MARLEEN RAY

Midland schools trustees Tuesday decided to comply with the federal court order forbidding the school district from holding any future elections under the current place system, and agreed to return to the old at-large system.

In addition, the trustees directed schools attorney Charles Tighe to investigate the possibility of asking the federal government for clearance, as required by the 1965 Voting Rights Act, to use the place system anyway.

Board President Johnny Warren called the court order, forcing the school district to go back to the at-large system, "harassment."

Saying that he thinks the place election system is better than the at-large method, Warren said, "I don't see why we can't file to change the (at-large) election system back to the place system," in the future.

Board member Joe Dominey pointed out that all trustees who are members of a minority were elected to the board under the place system or ran unopposed for an unexpired term while the at-large system was in uses. He said he thinks the place system is "more democratic."

James Ramsoure, the only black trustee, said he also prefers the place system because he'd rather run against two or three persons for election to the board than against the entire slate of candidates.

With the place election system, persons file for a specific position to the board and are elected to this position by majority vote. Dominey noted that this system makes it easier for incumbents to run for re-election and cuts down on their campaign expenses.

Under the at-large method, candidates are listed on a single slate, no matter how many positions are open to the board with winners determined by plurality vote. Voters cast ballots for the same number of candidates as positions open.

In the court order, the judges determined that the Voting Rights Act applies to all voting procedure changes made by school districts and cities after Nov. 1, 1972, even though Texas did not come under it until 1975.

According to the judges' written opinion, since the U.S. Supreme Court has ruled that school districts and cities are covered by the Voting Rights Act, the Midland school district cannot change its election system "without first obtaining 'pre-clearance' from the (government) that such a change does not have the purpose or effect of denying or abridging the right to vote on account of race or color."

The Midland school district switched from the at-large system to the place system in 1973. The U.S. Justice Department has tried almost two years to stop the district from holding elections under the place system, because the Justice Department has contended this system dilutes minority voting strength.

Carver High reunion, 'Juneteenth' loom

Contrary to the sometimes wistful, sometimes nightmare-ish fantasies of some die-hard "rebels," the South likely will not "rise again."

It rose to the occasion, which turned out to be secession and war, in another century and faltered.

It was a war of principles, economics and politics.

The Confederacy rebelled, but the Union overcame.

The peace that followed that tragic War Between the States spelled the decline of The Old South and the freeing of the slaves. It was the so-called beginning of so-called equal rights for the ebony man — the Negro.

In Texas, that great day of Emancipation, which is 113 years into history, is celebrated as "Juneteenth."

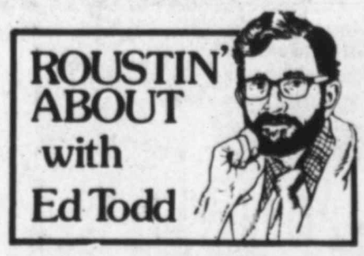

On Jan. 1, 1863, "Union" President Abraham Lincoln issued the Emancipation Proclamation. But that mandate had no direct effect on the South, which considered itself impervious to dictates and laws by a "foreign power" with which it was at war.

Today, it seems a tragically poetic twist that the North entered the war primarily to save — to reunite — the nation and not to abolish slavery.

At any rate, the war came to an end at Appomattox on April 9, 1865.

And it was on June 19, 1865, that Gen. Gordon Granger, upon his landing at Galveston to take command of Texas, declared that "all Negroes are free" in accordance with Lincoln's proclamation.

It was a long day a'coming.

Another day of far less historical significance will be upon the black citizenry of Midland this Saturday.

It'll be a day of remembering, sentiment and importance. The event will be the first reunion of graduates and other ex-students of the George Washington Carver High School, which was closed in 1968, when integration, like it or not, or just indifferent, became the "in thing" in Midland.

It's still coming around.

Sentiment should be "in" at the Carver reunion.

"We're all coming home, because this is where all our roots are . . . our basic academic background," said Barbara Harris, a 1950 Carver graduate and a force behind the reunion.

This once-in-a-decade event will begin with registration at Booker T. Washington Elementary School from 6 to 9 p.m. Friday.

The next morning, Carver exes, up to a 1,000 of 'em and their kin, friends and spouses, are to gather at the old Carver school.

Breakfast will be served in the cafeteria there from 7 to 9 a.m. Saturday, and the barbecue buffet will be open to participants at 1 p.m.

Walter Nedd and Bernice Waddell Brown will emcee the general assembly in the Carver Auditorium from 2:30 to 4 p.m.

Singing such numbers as "The Negro National Athem" and the old Carver school song will be the 17-member Voices of Zion, directed by Felicisima Nedd.

The event's big to-do will be the banquet-dance at the Midland Hilton Saturday night. It'll begin at 7:30. Attire will be semi-formal.

Closing the reunion of the "Mighty Carver Hornets" will be a Sunday morning service at 10:30 in the Carver Auditorium.

Theme for the weekend get-together will be "Carver: This Is Your Life."

It'll be much more, too.

Swap with Russians expected

MOSCOW (AP) — Western observers in the Soviet capital expect the Russians to try to trade an arrested American businessman for two Soviet U.N. employees on trial as spies in New Jersey.

"The Soviets have a tradition when their hand is caught in the cookie jar of trying possibly to get something in return," said one diplomat who declined to be identified.

The businessman is Francis J. Crawford, 38, of Mobile, Ala., a representative of International Harvester in Moscow for two years. He was arrested Monday night on smuggling charges.

It was believed the Soviet government would try to swap him for Valdik Enger and Rudolf Chernayev, who went on trial in Newark last week on charges of conspiring to pass U.S. Navy secrets to Moscow. Both pleaded innocent.

One Western diplomat said he thought Crawford might be "an innocent victim" of deteriorating U.S.-Soviet relations, strained over the Kremlin's involvement in Africa, U.S. charges of human rights violations in the Soviet Union and espionage charges from both sides.

Moscow policemen pulled Crawford from his car at a stoplight Monday night as he and his fiancee, a 32-year-old secretary at the U.S. Embassy, were on their way to a diplomatic party.

The fiancee, Virginia Olbrish, got away by claiming diplomatic immunity and alerted the embassy. The embassy protested the behavior of the arresting officers to the Foreign Ministry, and the State Department took up the matter with Soviet Ambassador Anatoly F. Dobrynin in Washington.

Consular officers met late Tuesday with Crawford but refused to tell reporters where he was being held, what condition he was in and what they had learned about the charges against him.

Other informed sources said he was held at Lefortovo Prison.

Legal experts at the embassy

Maneuvers mark case

By LINDA HILL

The latest chapter in legal maneuverings in a capital murder case continued Tuesday as testimony centered upon alleged missing witnesses.

A hearing on a motion for a speedy trial, which Anthony Dewayne Scott contends he filed in November, continued Tuesday in 238th District Court. Scott is charged in the August 1977 stabbing death of Jackie Burleigh, who was a liquor store clerk.

Scott testified Monday that because he was not tried shortly after Nov. 25, 1977, when he claims to have filed the motion, he had been unable to locate three witnesses who could testify he was elsewhere the night Mrs. Burleigh was slain.

The witnesses were identified by Scott as Kim Bowers, Charlie Heggan and Heggan's girlfriend.

The district attorney announced Monday afternoon he had located Ms. Bowers in Midland.

At the beginning of today's defense attorney Bill Smith recalled Scott so that Scott could "clarify" the testimony he gave Monday.

From the witness chair, Scott said he had been at Heggan's house on the night of the slaying, and that Heggan's girlfriend, whose name Scott said he doesn't know, was there also.

But, Scott said, Ms. Bowers was not there that night. He said Tuesday he needed her as a witness because she might have seen him next door at Heggan's and might know Heggan's whereabouts now.

Under cross-examination, Scott denied Tuesday's testimony was a change from his testimony of Monday when he said Ms. Bowers could testify that he had been at Heggan's house.

The woman identified as Ms. Bowers testified Tuesday giving her name as Ruby Robbins. She said her maiden name was Bowers.

She said she had been at home all day on Aug. 4, when Mrs. Burleigh was slain, except for about 30 minutes that night. She said she had seen Scott that day only at 2:30 p.m. and had seen no evidence that anyone was home at the residence identified by Scott as "Charlie's house."

She also testified she did not know the name of the man who lived at the residence or the woman who was "in and out."

During the hearing Tuesday,

(Continued on Page 4A)

U.N. troops in position

BEIRUT, Lebanon (AP) — U.N. peacekeeping troops and Christian militiamen shared control of the border strip in southern Lebanon today following Israel's withdrawal, while Syrian troops enforced a ceasefire between feuding Christian factions in northern Lebanon.

The U.N. soldiers took over 14 key positions along the frontier belt, six miles wide and 59 miles long, as the last Israeli forces pulled back across the frontier Tuesday.

The Christian militia commander in the area, Maj. Saad Haddad, said he agreed to the U.N. checkpoints and observation posts after the U.N. commander, Maj. Gen. Emmanuel Erksine of Ghana, pledged his men would prevent infiltration by the Palestinian guerrillas whom the Israeli invasion drove from the area.

Haddad warned that the Israelis might return if the peacekeepers failed to protect the Christians from guerrilla reprisals.

Erskine said the Lebanese government in Beirut told him Haddad "represents the legitimate authority in the south. We have no objections."

There was no immediate reaction from the Palestinians and their Lebanese Moslem allies, who continued to battle the Christians in the south after a cease-fire in November 1976 ended the Christian-Moslem civil war elsewhere in the country. They had said they would not tolerate Haddad's taking control of evacuated areas.

As the Israelis went home, Israeli Foreign Minister Moshe Dayan charged that as many as 300 armed Palestinians already have returned to southern Lebanon. He cabled U.N. Secretary-General Kurt Waldheim that this violated a U.N. commitment to keep the guerrillas out of areas relinquished by Israel.

Israel invaded Lebanon March 15, four days after a Palestinian raid in which 36 Israelis were killed on the Tel Aviv-Haifa highway. The Israelis occupied 500 square miles of southern Lebanon to create a guerrilla-free security belt along the border. They began withdrawing in response to a Security Council demand and creation of the U.N. peacekeeping force and completed the pullout after 91 days of occupation. They also gave Haddad's Christian militiamen more arms before leaving.

In northern Lebanon, Syrian troops patrolled the Christian towns of Ehden and Zagartha to prevent former President Suleiman Franjieh's Giants Brigade from taking revenge for the slaying of Franjieh's son, daughter-in-law and granddaughter by Phalangist Party militiamen Tuesday.

At least 50 Phalangists and Giants and three Syrians soldiers were reported killed in the fighting that followed an attack by 800 Phalangists on Ehden, a Franjieh stronghold in the mountains. Tony Franjieh, his 22-year-old wife and their 2year-old daughter died in their summer home, which was shelled and set afire.

After Syrian troops intervened and drove the Phalangists from Ehden, the bodies of Franjieh and his family were taken to his father's headquarters at Zagartha, another mountain town 12 miles to the southwest.

Study says consumer agency too slow to act

WASHINGTON (AP) — The agency responsible for protecting the public from hazardous products takes so long to act that consumers can be harmed in the meantime, a new government study says.

The report Tuesday by the General Accounting Office said that the Consumer Product Safety Commission:

—Failed to insure that all of some banned hazardous products were either taken off the market or bought back from consumers.

—Took far longer to formulate such corrective actions as recalls than its own regulations allow.

—Made the regulations affecting several products less effective than they might have been, partially out of a desire to soften the burden costly product recalls impose on business.

Commission spokesman Dick Brasie said the criticisms are out of date. "We had problems and we corrected them. This is an old matter," he said.

He said the agency has doubled its compliance staff — the employees charged with carrying out such commission actions as recalls — since the incidents discussed in the report.

The GAO, which has similarly criticized the product safety commission in earlier studies, focused on two situations in the latest report but used the new material along with previous findings in drawing its conclusions.

"The Consumer Product Safety Commission has been slow in identifying hazardous products and alerting the public of their dangers. Recalls have not been successful," the report said.

The two situations detailed in the report are a recall program involving some models of smoke detectors and bans on two types of products containing asbestos.

The smoke detectors, manufactured by BRK Electronics of Aurora, Ill., were found to be a possible fire hazard.

Economist serious about race

HARLINGEN, Texas (AP) — It was hardly the setting for a serious presidential contender.

The room was small, the gathering was slim and reporters showed up only because it was a slow news day.

But Ben Fernandez is serious. Whether he is a legitimate contender for the White House remains to be seen.

"It's time to bring new blood into the administration of the United States," the California economist said here Tuesday. "And I believe the SpanishAmerican community is the source of that new blood."

The 53-year-old son of illiterate field hands is one of several men seeking the backing of a group known as the Presidential Candidate Committee.

"The committee is to identify a qualified, electable American of Hispanic descent to run for president," the founder of the Republican National Hispanic Assembly said.

Fernandez confidently predicts a massive shift of Hispanic voters from the Democratic Party to the GOP. He said his party more accurately reflects the ideology of the Hispanics— "fiscally conservative, highly individual and champions of small government."

"The candidate will be an All-American candidate—not a Hispanic candidate,—" he said.

The committee is now working towards a $10 million campaign goal. The money will be turned over to the man that gets the committee's backing next January. Fernandez said the candidate will enter GOP primaries nationwide.

The economist said he hopes his campaign will spark a "renaissance of spirit" in the nation.

"I will hit very hard on the work ethic. Americans are getting softer every day. The old values have to be restored," he said.

He favors cuts in welfare programs and agreed that stand might have a negative effect in some Hispanic communities.

"You have to take a stand even though it could hurt you," he said.

Fernandez said he "lukewarmly" supported Gerald Ford in 1976.

"When I saw him eating tamales in Texas without taking off the corn husk I knew we were in trouble," he said.

He sees his candidacy as an incentive to Americans from poor families. Fernandez said his parents were poor but proud and raised eight children.

"In one generation there's a possibility that one of the Fernandez children will be making a move for the presidency," he said.

Fernandez said he chose to run for the top public office because "I think I'm over-qualified for Congress."

He added that he would not consider running as second man on a ticket headed by Ford or Ronald Reagan.

Kennedy apparently on Carter's mind, despite denials by staff

WASHINGTON (AP) — Although Jimmy Carter's White House staff denies it, the activities of Sen. Edward M. Kennedy, D-Mass., certainly seem to make high administration officials jump.

The White House announced on Tuesday it was sending Vice President Walter F. Mondale to speak to the annual meeting of the U.S. Conference of Mayors in Atlanta next week.

The decision came five days after the big-city mayors, miffed that President Carter declined to appear, had turned to Kennedy as their main speaker.

The senator, who canceled scheduled appearances in Boston that afternoon, will still address the main luncheon of the mayors' conference on June 19. Mondale is to appear the next day.

Meanwhile Tuesday, Kennedy wound up a two-day meeting which he sponsored here for 150 municipal officials from Massachusetts. Eight high administration officials responded to Kennedy's request for guest speakers.

Asked if the mayors' invitation to Kennedy had affected the decision to send Mondale, senior White House aide Anne Wexler replied, "Not really." She also said she knew of no discussion of any coordinated response to Kennedy's invitations to his own municipal meeting.

But Tim Kraft, senior political coordinator in the White House, complained to a group of reporters on Tuesday that he had not been consulted — and should have been — on Carter's decision to turn down the mayors' invitation.

One administration source, who declined to be identified, said of the municipal meeting: "When Ted Kennedy writes or calls, people in this administration move."

In two days, the meeting that Kennedy sponsored with Massachusetts mayors drew Patricia Harris, secretary of housing and urban development; Labor Secretary Ray Marshall; anti-inflation chief Robert Strauss; Attorney General Griffin Bell; Commerce Secretary Juanita Kreps; chief White House domestic adviser Stuart Eizenstat; Energy Secretary James Schlesinger; and Joseph A. Califano Jr., secretary of health, education and welfare.

Kennedy's spokesman, Tom Southwick, said the municipal meeting produced a significantly larger turnout than the senator had gotten for similar meetings during Republican administrations.

Reunion held

Old, new and former residents of the Valley View community located about five miles southeast of Midland met in the Valley View schoolhouse recently for the community's 9th annual reunion.

The meeting began at 8 p.m. Saturday with a business meeting and election of officers, followed by games and refreshments

Leo Robertson was elected president, and Eula Cassidy was elected secretary-treasurer.

Roxie Murphy of College Park, Md., and G.G. Jackson of Boise, Idaho, received awards for traveling the greatest distance.

Bentsen seeks beef bill backing

WASHINGTON (AP) — Both cattle ranchers and America's beef eaters would benfit from Sen. Lloyd Bentsen's beef import bill, says the Texas Democrat.

Bentsen tried on Tuesday to prod the House into action on his beef bill, releasing a Library of Congress report that concluded the bill would provide "some long-term benefits to both cattle producers and consumers."

Bentsen released the report during a meeting on the Senate floor with other senators who oppose the president's recent decision to increase beef import quotas.

Bentsen's bill, which passed the Senate in May, is stalled in the House and has not been referred to committee. The Bentsen bill includes a counter-cyclical feature that would permit imports to increas when domestic production decreases and cut back imports when America's ranchers overproduce.

The current import formula has the reverse effect, points out Bentsen.

"I have introduced legislation to put our policies back on a fair and honest course which is beneficial to both consumers and producers," the senator said. "This legislation easily passed the Senate but is now bottled up in the House by administration opposition."

Bentsen also said the Library of Congress study proves that opponents of his bill "have not done their homework."

Republican John Tower, Texas' senior senator and a cosponsor of the Bentsen bill, blasted the president for increasing meat import quotas saying the decision "will have a detrimental, if not drastic, impact on the prices received by American cattle producers. At the same time the prices paid by American consumers in retail markets will be relieved very little, if at all."

The Library of Congress study estimated that should the Bentsen bill become law, retail beef prices would decline by 2.2 cents per pound between 1978-84. Retail prices would increase, however, by 2.4 cents from 1985-87.

The study also predicted that ranchers would see cattle prices fall 60 cents over the next seven years before rising 85 cents from 1985-87.

The study drew its conclusions from statistics and projections compiled by the U.S. Department of Agriculture.

"Based on the USDA analysis and the general concept of a counter-cyclical formula for imports, it would apear that (the Bentsen bill) would mollify some of the effects of the cattle cycle, providing some longterm benefits to both cattle producers and consumers," the report stated.

The short-term effects would be minimal on retail beef prices or the farm price of cattle, the study concluded.

But the study also noted that due to the "rapidly changing developments in the cattle industry, it is very difficult to make reliable estimates."

Boys State conference ends with installation of officers

AUSTIN, Texas (AP) — Texas Boys State concluded a week-long conference Tuesday with installation of officers and a speech from Gov. Dolph Briscoe.

Willie G. Talbert III of Houston was installed as governor of American Legion-sponsored organization in ceremonies in the Texas House chamber.

Talbert's parents are Mr. and Mrs. Willie G. Talbert Jr.

Approximately 920 boys, who will be high school seniors in the fall, attended the gathering. The youths met in the House and Senate chambers and conducted business under rules of Legislature. Also present were the governor's wife, Janey, and Speaker Bill Clayton.

order used by the

Mailey elected

AUSTIN — Midland public schools Superintendent Dr. James Mailey recently was elected to a two-year term on the executive committee of the Texas Association of School Administrators.

The 1,250-member organization includes schools superintendents and other school administrators from across the state. It is an affiliate of the Texas School Administrators Council and the American Association of School Administrators.

Students lose digits in tug-of-war mishap

HARRISBURG, Pa. (AP) — The giant tug-of-war was meant to ease the tedium of final exams for 2,300 young students. But the rope snapped, slicing off fingers and fingertips on four small hands.

A fifth student is in danger of losing her thumb. Some 200 people were injured.

"It sounded like someone banged a piece of plastic on the wall or someone pulled the string on a party cracker," said 14-year-old Shannon Meloy. "I smelled something burning and I thought it was the rope, but I think it could have been hands."

Almost all students at Harrisburg Middle School, comprised of grades seven through nine, had lined up on the school lawn Tuesday for the tug-of-war, which was billed as an attempt to make the Guinness Book of World Records.

The Guinness record book currently has no entry for tugs-of-war.

The students grabbed the 2,000-foot-long braided nylon rope and pulled. It broke about 12 minutes into the contest, the whizzing rope searing through muscle, tendons and bones. Some students near the point of the break had relaxed their hold, but others in the back kept pulling. The rope whippd back through the hands of those who had relaxed, witnesses said.

Two boys, aged 14 and 16, lost their left little fingers. Two others, 13 and 14, had fingertips cut off.

"It could have been the snap or the nylon rope running through their hands at such high speeds that it took the finger right off," said Betty Bogar, public information chief at Polyclinic Medical Center.

"It happened so quickly that I didn't see or hear anything," said 13-year-old Lisa Seay, both hands wrapped in bandages over second-degree burns.

"I just fell to one knee. I looked down at my hands and saw mostly blisters and some blood. My hands were numb."

"It was just a game," said Keith Morton, 14, third in line on his team when the rope snapped. "We just wanted to see how many people could do it."

At least 68 students and faculty were taken to hospitals. All but one were treated and released, according to hospital officials. An additional 150 were treated by the school nurse, mostly for rope burns and assorted bruises.

Marie Lewis, 13, was the lone admission.

Oakley winner

A visitor from Lubbock, Dave Oakley, won the Table Topic at the Tuesday morning meeting of the Pop Up Toastmasters. Bill Larsen was the Toastmaster of the Day.

The meeting, held at Sambo's, featured a debate. The affirmative team of Pat Owens and Gary Spicer won.

Best Evaluator was Bill Keaton.

Installation of new officers will be June 20 at 7 p.m. at Bonanza Steakhouse.

WEATHER SUMMARY

WARM WEATHER is forecast for most of the nation today by the National Weather Service. Cooler weather is expected from the eastern Great Lakes through the Northeast. Rain is forecast for Washington and Minnesota. (AP Laserphoto)

BROKEN THUNDERSTORM ACTIVITY over the upper plains and a small area of thunderstorms over North Texas are seen in today's satellite cloud picture, recorded at 4 a.m. EDT. An east-west line of thunderstorms can be seen over northern Florida while the remainder of the nation remains cloud-free. (AP Laserphoto)

Midland statistics

MIDLAND, ODESSA, RANKIN, BIG LAKE, GARDEN CITY FORECAST: Partly cloudy and continued warm and humid through Thursday. Slight chance of thunderstorms tonight. High Thursday in the mid-90s. Low tonight in the upper 60s. Winds southeasterly becoming 10-15 mph tonight and strong and gusty near thunderstorm activity. Probability of precipitation is 20 percent tonight.

ANDREWS, LAMESA, BIG SPRING, STANTON FORECAST: Partly cloudy and continued warm and humid through Thursday. Slight chance of thunderstorms tonight. High Thursday in the mid-90 Low tonight in the upper 60s. Winds southeasterly becoming 10-15 mph tonight and strong and gusty near thunderstorm activity. Probability of precipitation is 20 percent tonight.

Extended forecasts

Friday through Sunday

North Texas: Partly cloudy and continued warm through Sunday with lowest daily temperatures in the 70s and highs in the 90s.

South Texas: Little or no precipation expected. Partly cloudy and rather warm afternoons and mild nights through the weekend. Overnight lows in the 70s. Afternoon highs in the low and mid 90s.

West Texas: Mild nights and warm days. Widely scattered thunderstorms north Sunday. Lows 60s north to 70s south. Highs 90s most sections to near 104 Big Bend.

Texas area forecasts

West Texas—Scattered evening and nighttime thunderstorms mainly central and southern portions today and tonight becoming partly cloudy with no important temperature changes through Thursday. Highs in 90s entire area except near 105 along Rio Grande in the Big Bend. Lows in 60s over entire area.

North Texas—Partly cloudy and warm through Thursday. Highs 92 to 97. Lows 70 to 76.

South Texas—Some late night and morning cloudiness, otherwise partly cloudy through Thursday with warm afternoons and mild at night. Scattered mainly afternoon and evening showers and thunderstorms more numerous southeast and along the upper coast. Highs mostly in the 90s to near 100 parts of the Edwards Plateau and along the Rio Grande. Lows in the 60s southeast, mostly 70s elsewhere.

'L' Street changes approved

(Continued from Page 1A)

the affluent lifestyle here (in Midland)." He added that he had tried calling several parents after obtaining license numbers of vehicles, but he also was not getting much cooperation.

"It also looks like kids have gone to bottled beer instead of cans," he said. "We have broken beer bottles now in our yard instead of cans to clean up."

Hugh Gilmore who lives on the corner of Neely St. and L St. said he had been trying to sleep in that corner. "We need to slap some excessive fines on these people to slow it down," he suggested to the council.

Several residents detailed acts of vandalism on their property. Mrs. Joe Ellis of 2703 N. L St. told the council she had a $3,000 sprinkler system destroyed, had been sprayed with a fire extinguisher and had a beer can thrown at her.

Adding to that was the time she was walking on her sidewalk "and some kids ran over our curb (in a vehicle) and tried to run over my feet"' Mrs. Ellis said.

Police are encountering difficulty in dealing with the problem, according to testimony from parents and Councilman Gordon Marcum II.

Teen-agers keep police scanners in their cars and know when an officer has been called to their area, residents said.

Janey Thompson of 1503 Cimmaron St. said she was talking with some teen-agers parked in front of her house one night when the call came over the scanner that an officer was coming that way. "Someone on the street had called in and complained," she said, adding that the group broke up immediately.

Marcum rode with an officer one night and concluded that the officers "could not do any good. They (teen-agers) knew exactly where we were."

Mrs. Ellis also told the council that two officers remarked to her they were having a problem downtown (at the police station) because when they do ticket, nothing more is done.

Giving the police more authority may not be what the parents want, said Edward Flores, 16. "I've lived in towns where police took after the kids like they were hardened criminals. I don't think you (parents) would be happy with that."

L Street is a popular place because the teens need some place to go and meet with their friends, according to Steve Cole of 2605 N. L St. "I like to see new girls and the best place in town is on L"' he said. He admitted the youths do not use the two youth centers because the teen-agers can not drink there.

According to an older brother, Jeff Cole, the gathering place for the city youths used to be Dellwood Mall, but that was closed after several fights occurred there. The teens then moved over to L.

Setting up a park, such as Hogan Park, for teen was suggested but a resident, Smith Ray of 1609 Gulf, said he had heard it was not safe at night. "It doesn't seem like L street is either," Angelo answered.

Flores said he did not favor Hogan Park. "I'm afraid of getting shot," he said. But, he suggested the council take a poll of what the city's youths want in a way of a place to go.

The council voted to try the proposals drawn up by the committee. A second phase would include turning off the street lights along L, Sloan said. Judy James of 2606 N. L St. had suggested the council turn the one in front of her house off "because the kids only go there to be seen. If the lights are out, they can't be seen."

Doris Howbert, council member, said she feels the heart of the problem is the responsibility of the parent. "Any time you can get through to the parent that their teen is becoming a public nuisance you will be helping him in the long run."

While the council members came up with no definite way to solve the problem they will be trying the few changes and attempting to find a place where they can move the teens, they said.

Mike Farris at the speaker's stand describes the vandalism he said has been done by teen-agers along North L Street and side streets. Listening in the foreground are city council members Tom Sloan, left, and G. Thane Akins, center, and Mayor Ernest Angelo, Jr. Residents from the area filled the council chambers Tuesday to give their views on the problem and possible solutions. (Staff Photo by Mike Kardos)

Midland schools trustees agree to salary increase for principals

By MARLEEN RAY

Due to increasing responsibilities of junior high and freshman school assistant principals, the Midland Independent School District Board of Trustees Tuesday agreed to raise the principals' salaries from 1.08 times the monthly teacher's salary for 11 months to 1.12 times that amount.

In other action, the board awarded $500 merit salary supplements to five teachers under the current merit pay policy. It also to decided extend the term of employment for counselors from 10½ months to 11 months. Board member Ed Runyan voted against the extension.

Schools Superintendent Dr. James Mailey told the board that the extension counselors's needed since the work load is too heavy for only a 10½-month period.

The trustees appointed a 26-member committee, assigned to study secondary school discipline regulations, composed of parents, school trustees, administrators, teachers and representatives from the Teacher Communications Committee and PTA.

Assistant Superintendent Doug Brown said the committee should be ready to make a report to the board in early fall. The committee was established in response to parents' requests to examine disciplinary measures in the schools.

In a report to the trustees, Virgil Jones, tax assessor-collector for the taxing bodies here, told the board that the delinquent property tax roll has increased from 14.58 percent of taxes due to the school district in May 1977 to 17.59 percent in May 1978.

He said this increase, which the other taxing bodies also have experienced, is caused by refusals from businesses, which only are open for a short period of time, to pay their taxes and because of failure of persons to pay taxes on personal property, as opposed to real estate.

Since the school district does not take back taxes on personal property off the tax roll, even when the four-year statute of limitations runs out, Jones said, the delinquent tax roll just "grows and grows."

He said, according to law, the taxing bodies can seize personal property and sell it to pay back taxes, but the school district hasn't done so in the past.

If the school district decides to take such action to reduce the delinquent tax roll, it would have to consult the other three taxing bodies and make a joint decision to seize personal property, he said.

Jones estimated assessed property valuations should increase by $143,743,780 this year. The Board of Equalization, he said, still is hearing appeals from the public on property revaluations, but, he "feels comfortable" with his estimates since he thinks all aluations have been equalized.

Property values outside city limits for the school district, Midland and College District and Midland County Hospital District were re-appraised by the tax assessor-collector's office this year. Last year, property within city limits was revalued.

Jones said some of the higher property valuations outside city limits are due to land in that area which is being held off the market. He said he does not foresee any federal lawsuits coming out of these valuations.

During the meeting, board members approved a change order for the new Midland High School vocational building, rerouting a water line underneath the construction site.

They also agreed to pay $113 out of the building's contingency fund to pay for damage by school employees to an electric line that provided power to Midland High's tennis court lights. They authorized Neuhardt & Babb, Architects, of Midland, who designed the vocational facility, to study methods of alleviating the drainage problem on the west side of the campus near the new building.

Charles Neuhardt of Neuhardt & Babb told the trustees that he thinks the new facility is "45 percent" near completion. He said the construction company, R. B. Snead Construction of Midland, told him it thinks the building will be finished by the second week in October.

In another report, school trustees heard Bill Cormack, coordinator of fine arts and migrant programs for the district, give an account of the fine arts programs and enrollments.

Cormack said enrollment is static in most fine arts programs, except the seventh- and eighth-grade speech and drama programs, which have experienced "tremendous" growth.

He said because of the boundary changes, Midland High's and Lee High School's marching bands now have become the same size, unlike before. He noted that the elementary school music program is "better than ever."

On the other hand, Cormack said a few problem areas do exist in the fine arts program. He said parents of junior high school students have complained about the high cost of putting their children in the marching band program.

Also, he said, it's difficult to keep up with the number of musical instruments each school has since they usually are shared by the schools, depending on their need for them.

Cormack said another problem is the rising costs of art supplies, which are is becoming "extremely hard to bear."

In other business, the school board, following a two-hour executive session to interview applicants, authorized Mailey to "make an offer to an individual" concerning the position of Midland High principal, vacated by Audrey Gill last May.

Business Manager Don Furgeson presented copies of the tentative 1978-79 fiscal year budget to the board for study.

The trustees earlier limited the budget to $24,638,031 when they approved an approximate 9 percent increase in base salaries for teachers.

Mailey said final approval of the budget won't be until August.

A hearing to listen to an appeal from a teacher concerning refusal to renew the teacher's contract was postponed at the teacher's request.

White House, Cuba differ

The Washington Post

WASHINGTON — The White House took sharp issue Tuesday with Cuban President Fidel Castro's latest account of his dealings with Carter Adminstration officials on Cuba's role in the rebel invasion of Zaire last month.

White House Press Secretary Jody Powell told reporters that "we are willing to place the records of veracity (of President Carter and Castro) side by side and let the American people decide for themselves."

Powell made his statement and senior White House officials gave additional details of U.S. diplomatic contacts with Castro in the wake of interviews granted by the Cuban leaders last Monday to two U.S. congessmen and three American reporters.

Maneuvers mark case

(Continued from Page 1A)

District Attorney Vern Martin announced that he believes he has the correct name for the man Scott identified as Charlie Heggan and is making an effort to locate him.

Also during Tuesday's proceedings, both presiding District Judge Vann Culp and 142nd District Court Judge Perry D. Pickett testified they had not seen any motion for a speedy trial prior to this spring, when the case was set for trial.

Pickett's testimony came after a subpeona was issued, since he declined to testify otherwise.

Testimony Monday afternoon dealt with Scott's contention that he had given copies of the motion for a speedy trial to a jailer named "Chuck" to be delivered to the district clerk and district judge.

Jailer Charles A. "Chuck" Johnson testified he was on duty Nov. 25. He also testified he is certain he never received any documents from Scott for delivery to any courthouse office. Johnson said the date Nov. 25 stands out in his memory because it was the day after Thanksgiving and courthouse offices were closed.

Other jailers on duty Nov. 25 and the next Monday testified they had no memory of receiving copies of the motion from Scott. Sheriff Dallas Smith and the jailers said that it is jail policy to hand deliver any letter addressed to courthouse offices.

District Clerk Madge Wallis told Culp and the assembled lawyers that a search of the case failed to reveal the motion. And, Mrs. Wallis said, a search of files placed next to the one on the Scott case and desks in the office failed to uncover such a document.

Other pre-trial motions pending include another motion seeking to disqualify the jury panel because of the manner in which the jury wheel was compiled.

Also filed have been motions to restrict the prosecution's challenges of potential jurors having "conscientious scruples" with regard to the death penalty and because of influence of mandatory sentences on fact determination.

The hearing was to continue Tuesday afternoon.

Scott's trial is scheduled to begin Monday.

Soviets may exchange

(Continued from Page 1A)

said earlier they believed Crawford would be charged with smuggling currency, punishable by three to 10 years in prison. An International Harvester spokesman in Chicago said his good record indicated he was unlikely to have violated currency regulations.

Crawford was arrested a few hours after the Soviet government newspaper Izvestia reported that Martha D. Peterson, a CIA agent formerly attached to the U.S. Embassy, was expelled last July for spying and furnishing poison to an accomplice who used it to kill "an innocent person who stood in his way."

So far, the United States has not commented on the Peterson case, which Izvestia publicized after 11 months of secrecy because of the Newark trial and the U.S. charges on June 1 that the Soviets bugged the American Embassy in Moscow.

Carey picks new partner for gubernatorial race

The Los Angeles Times

NEW YORK — Moving quickly to fill the void caused by the sudden resignation of Mary Anne Krupsak from the ticket, Gov. Hugh L. Carey Tuesday picked Mario M. Cuomo to be his running mate for lieutenant governor.

Cuomo, the current secretary of state, lost to Mayor Edward I. Koch in last fall's mayoral election. Carey supported Cuomo's candidacy until Koch beat him in the Democratic primary, and then switched allegiance to the eventual winner.

Miss Krupsak surprised Democrats throughout the state when she announced bitterly she would not run for reelection with Carey. In statewide appearances Monday she charged that the governor lacked integrity and loyalty to the people of New York State and was a lackadasical administrator.

Republicans lost no time Tuesday in picking up these themes. At the Republican Party's nominating convention in Manhattan, Warren Anderson, the state Senate majority leader, delivered the keynote address. He charged that Carey was "a political dilettante who shows not the slightest interest in the day-to-day operation of government."

According to supporters, Miss Krupsak spent Tuesday seeking to determine whether enough support existed for her to challenge Carey for governor in the September primary. No decision was immediately announced.

Her strength upstate on the Carey ticket had been designed to balance the governor's downstate city political base.

Chance for rain again forecast

Weather is getting to be like a broken record: hot and sunny with slight chance of rain.

The weatherman with the National Weather Service at Midland Regional Airport is predicting a 20 percent chance of rain tonight. Warm and humid days will persist, he said.

The low tonight should drop to the upper 60s and the high tomorrow should be in the middle 90s. The record high for June 13 is 103 degrees set in 1949. The record low for today is 56 degrees set in 1947.

Area towns reported warm temperatures and clear skies today.

Heavy thunderstorms roared across sections of the Texas Panhandle Tuesday night, dumping heavy rainfall and golf ball size hail.

National Weather Service forecasters warned that more thunderstorm activity could be expected in Southeast Texas, along upper sections of the Texas gulf coast and in sections of West Texas today.

Heavy rainfall was reported during the night between Plainview and Petersburg and between Amarillo and Plainview.

U.S. silent on spy-murder charge

By SETH MYDANS

MOSCOW (AP) — The United States has made no reply so far to a Soviet charge of spying and complicity in murder against a woman CIA agent who for two years was on the staff of the American Embassy in Moscow.

The Soviet government newspaper Izvestia said Martha D. Peterson, a Vietnam war widow who was the embassy's third secretary, was expelled last July for espionage and that she allegedly supplied poison to an accomplice who used it to kill "an innocent person who stood in his way."

The accomplice was not identified, although presumably he was a local Russian. But Izvestia said "also implicated in this espionage" was Robert Fulton, the first secretary of the embassy's political section from mid-1975 to mid-1977, and two visitors from Washington in 1975, S. Karpovich and J. Gruener.

Neither the embassy nor the State Department had any comment, but Western sources in Moscow said Miss Peterson was not declared persona non grata until after her departure. Sources in Washington who asked not to be identified said she was a CIA employee who had been working in a cover job in the embassy's consular section.

Izvestia said the charges against Miss Peterson had been kept quiet at the request of the United States. It said they were being made public now because the U.S. government on June 1 made public its charge that the Soviet government bugged the U.S. Embassy and because of the espionage trial in New Jersey of two Soviet employees of the United Nations.

The government paper gave this account of Miss Peterson's arrest:

On the evening of last July 15, she parked her car in a poorly lit place in Moscow, changed her dress and took a series of buses to a bridge over the Moscow River, where she put "an ordinary-looking stone" into an archway.

She was detained there, the "stone" was opened, and it "proved to be a cache containing cameras, gold, money and instructions, as well as ampules with a poison.

"The Soviet counter-intelligence service established beyond a doubt that the poisons taken from the cache had been sent to Moscow by the Central Intelligence Agency and not for the the first time.

Committee studies use of automatic weapons

OKLAHOMA CITY (AP) — George Stratton, who will become public safety commissioner on July 1, says a Highway Patrol committee is studying recommendations for automatic weapons for state troopers.

Stratton also said Monday there will be an increase in the annual weapons training for troopers.

His disclosures came in the wake of criticism this past weekend of the patrol's operations by Ealmer Klippel of Chickasha, outgoing president of the Oklahoma Troopers Association.

Stratton said the facts did not support Klippel's suggestions that the deaths of three troopers in a shootout last month were partly the result of a lack of training, organization and firepower within the patrol.

"Some emotional statements were made that were not based on fact. There is no proof of those (allegations) that I can see," said Stratton, who will become acting commissioner when Roger Webb assumes his duties as president of Northeastern State University.

Stratton declined further comment on Klippel's charges.

Another patrol spokesman had previously denied Klippel's charges that undertrained and underequipped troopers were used in the Bryan County manhunt for escapees Michael Lancester and Claude Eugene Dennis, while specially trained SWAT personnel were not utilized.

Stratton said a committee of troopers has been named to study "extended firepower" recommendations. He added that in the future all patrol personnel will undergo weapons training twice a year, instead of the current once-a-year training.

Grants approved

The Texas Commission on Alcoholism has approved two Permian Basin alcoholism grants.

The Permian Basin Community Centers for Mental Health-Mental Retardation received $19,206 toward an $82,835 budget for the detoxification and intermediate center in Midland. The money will be used to continue the alcoholism program and increase the length of stay at the center, according to a release from the Permian Basin Regional Planning Commission.

The city of Big Spring also received approval for funding of its detoxification treatment facility. They will receive $30,000 for a total budget of $75,580.

Both grants will start July 1 and continue until June 30, 1979.

Introducing Kleenex® Super Dry Diapers. They keep babies so dry, we had to add wetness indicators.

The Kleenex Super Dry diaper keeps babies so dry, it has to let you know when it's wet. That's why it has wetness indicators—little letters inside toy blocks which become lighter with increasing amount of wetness.

Wetness indicators.

DEATHS

Mrs. Miller

Services for Mrs. Steve (Ruth) Miller, 52, were held Tuesday in the Reorganized Church of Jesus Christ of Latter-Day Saints in Odessa with the Rev. Jimmy Hobbs, pastor, officiating.

Burial was in Sunset Memorial Gardens in Odessa directed by Newnie W. Ellis Funeral Home in Midland.

Mrs. Miller died Sunday morning at her residence 6½ miles northeast of Midland following an unexpected illness.

Pallbearers were Melvin Courtney, M.H. Courtney, M.H. Bates Jr., Clyde Burkey, Jeff Harkness and Larry Trout.

K.R. Strassle

CRANE — Services for Kenneth Ray Strassle, 21, were to be at 4:30 p.m. today in Larry D. Sheppard Funeral Home here with burial in Crane Garden of Memories.

Strassle died Monday in a Crane hospital.

He was born June 2, 1957, in Arkansas. He married Casondra McDougle April 2, 1977, in Crane.

Survivors include his wife; his mother, Annette Strassle of Conway, Ark., and four sisters, Jennette McElroy of Morrilton, Ark., and Margaret Bryant, Vicki Strassle and Linda Strassle, all of Conway, Ark.

Mrs. Taylor

LUBBOCK — Services for Mrs. Jesse M. (Lottie) Taylor, 82, of Lubbock, mother of Elton Taylor of Hobbs, N.M., were to be at 10 a.m. today in Sunset Church of Christ with Richard Baggett, minister, officiating and the Rev. J. T. Bolding, retired Baptist minister, assisting.

Burial was to be in City of Lubbock Cemetery directed by Sanders Funeral Home.

Mrs. Taylor died Monday in a Lubbock hospital after a short illness.

A Llano County native, she had lived in Lubbock since 1919. She was a member of Sunset Church of Christ.

Survivors also include another son, four brothers, a sister, six grandchildren and five great-grandchildren.

Jessie Fry

ANDREWS — Services for Jessie E. Fry, 83, of Andrews were to be at 10 a.m. today in Singleton Funeral Home here with the Rev. Jim Slocumb, pastor of Northcrest Baptist Church, officiating. Burial was to be in Andrews Cemetery.

Mrs. Fry died Tuesday in an Andrews hospital.

Born in Bedford, she had lived in Andrews nine years. She also had lived in Midland and Ballinger.

Survivors include five sons, James M. Gatlin of Sonora, Howard L. Gatlin of Sacramento, Calif., Willie E. Gatlin of Odessa, Colvin D. Gatlin of Manitowoc, Wis., and Calvin C. Gatlin of Mesa, Ariz.; four daughters, Dolores Mullins of Amarillo, Virginia Tharp of Andrews, Mrs. Hugh Shaw of Midland and Jessie E. Shugart of Dallas; three sisters, Rosette Moore of Coleman, and Bertha Holt and Nellie Mae, both of California; three brothers, Frank Edmonson of Millersview, Lince Edmonson of Colorado City and Lewis Edmonson of Coleman, five stepchildren, 32 grandchildren and a number of great-grandchildren.

Isaac Heald

LAMESA — Services for Isaac Earl Heald, 78, of Lamesa will be at 2 p.m. Thursday in the Downtown Church of Christ here with Bob Cheatam, minister, officiating.

Burial will be in Lamesa Memorial Park directed by Branon Funeral Home.

Heald died Tuesday in a Lamesa hospital after a brief illness.

A native of Tom Green County, he had farmed in the Flower Grove community 40 years. He retired four years ago and moved to Lamesa.

Heald married Audie Key March 10, 1918, in Jones County. He was a member of the Church of Christ 60 years.

Survivors include his wife; a daughter, Ophelia Mayfield of Lamesa; two sons, Jimmy Heald and Gene Heald, both of Lamesa; three sisters, Ona Mae Feece of Arizona, Eda Bell Bateman of Dallas and Odell Heald of Van; two brothers, Marshal Heald of Seminole and Meryle Heald of Midland, nine grandchildren and nine great-grandchildren.

Ira Carraway

MASON — Services for Ira Ingram Carraway, 76, of Breckenridge and formerly of Lamesa were Saturday in Mason Funeral Home. Burial was in Resthaven Cemetery in Menard.

Carraway died June 6 in a Breckenridge hospital.

He was born Aug. 21, 1901, in Ingram. He married Minnie Swindall April 27, 1927, in Menard. She died April 17, 1948. In 1955, he married Cora Mitchell in Kerrville. He formerly resided in Lamesa and Menard and was a resident of Breckenridge at the time of his death.

Survivors include his wife; three sons, R. D. Carraway of Brady, Jesse Carraway of Mason and Evan Carraway of Odessa: a daughter, Mrs. Dan Makowsky of Mason; a stepson, Chris Mitchell of Louisiana; two stepdaughters, Ruby Mason of Norwalk, Calif., and Lela Barnes of Breckenridge, 24 grandchildren and several great-grandchildren.

Mrs. Wallace

AUSTIN — Services for Mrs. Hugh A. (Frances Hazel) Wallace, 74, of Austin, mother of Mrs. A.W. Dillard Jr. of Midland, were to be at 11 a.m. today at the Weed-Corley Funeral Home. Burial will follow in Memorial Hill Park.

Mrs. Wallace died today in Austin.

Other survivors include her husband, two grandchildren, a sister and a brother.

John Hancock

BIG SPRING — Graveside services for John T. Hancock, 83, of Cleburne, stepfather of Jack Martin of Big Spring, were to be at 3 p.m. today in Trinity Memorial Park here.

Hancock died Monday night in a Cleburne hospital.

He was born Sept. 4, 1894, in Salado. He was a retired restaurant owner.

Other survivors include a stepdaughter and two grandchildren.

B.C. Pannell

B.C. Pannell, 73, of 1905 N. Garfield St. died Tuesday in a Midland hospital following a lengthy illness.

Services will be at 2 p.m. Thursday in Newnie W. Ellis Funeral Home with the Rev. Michael Halsey of Midland Bible Church officiating. Burial will be in Resthaven Memorial Park.

Pannell was born April 19, 1905, in Ellis County. He married Mary Voss Feb. 23, 1934, in Odessa. He moved to Midland from Odessa 18 years ago.

Survivors include his wife; a daughter, Shirley Morgan of Midland; two sons, Milton Pannell of Lubbock and Carl Pannell of Texarkana, Texas; three sisters, Dorothy Larson of Bell, Calif., Ernestine Rennels of Riverside, Calif., and Marguerite Talbott of Houston; two brothers, Otto Pannell of Slidell and Orville Pannell of Houston, and seven grandchildren.

L. D. Reynolds

MONAHANS — Services for Lawrence Dewey Reynolds Jr., 53, son of Dora Reynolds and brother of Burl Reynolds, both of Hobbs, N.M., were Saturday in Wilson-Miller Funeral Home. Burial was in Monahans Cemetery.

Reynolds died Thursday in his home in Monahans.

He was born Nov. 2, 1924, in Atoka, Okla. He had been a long-time resident of Monahans. He was a veteran of World War II.

Other survivors include his wife, two sons, a daughter, a sister and five grandchildren.

Joseph Cessna

CRANE — Services for Joseph Doyle Cessna, 62, were to be at 2:30 p.m. today in Tabernacle Baptist Church here with burial in the Crane Garden of Memories directed by Sheppard Funeral Home.

Cessna died Monday in a Crane hospital following a sudden illness.

He was born March 31, 1916, in Bond, Ill. He married Gertrude L. Taylor March 3, 1935, in Sumner, Ill. He had been a resident of Crane for 16 years. He was a member of the Baptist Church.

Survivors include his wife; a daughter, Sonya Starks of Ellinwood, Kan.; three sons, Larry Doyle Cessna of Richmond, Va., Lawrance Ray Cessna of Porter and Keith Alan Cessna of Austin; a brother, Ray Cessna of Bridgeport, Ill., and seven grandchildren.

R. Vannaman

EASTLAND — Services for Robert L. Vannaman, 70, of Eastland, brother of George Vannaman of Midland, are set tentatively for Thursday afternoon in Eastland. Bakker Funeral Home is handling arrangenents.

Vannaman died Tuesday in an Eastland nursing home.

He was a former resident of Odessa and Midland.

Other survivors include his wife, two daughters, two sisters, four grandchildren and a great-grandchild.

Man sentenced for coed death

SAN ANGELO, Texas (AP) — Robert Mark Wagner was sentenced Tuesday to 25 years in prison for the April 22 scissors stabbing death of Leandra Morales.

A San Angelo jury deliberated for slightly less than two hours before sentencing the 19year-old Martinsburg, W. Va., defendant.

Shortly after noon, the jury found Wagner guilty of murdering the Angelo State University coed.

Testimony began Monday afternoon and was concluded Tuesday morning without the defense presenting any witnesses.

Defense attorneys had asked for a reduced charge of voluntary manslaughter.

Wagner had reported finding Ms. Morales' body in a building on the Angelo State campus where she had been studying and he had reportedly been working in a photographic laboratory. He was later charged in connection with the slaying.

Budget cut taxes taxers

BIG SPRING — Before a delegation of 28 farmers, the Howard County commissioners Tuesday cut a proposed tax-appraising budget from $140,000 to $75,000.

The commissioners told the county's representative on the tax appraisal board that they only would approve $75,000. They also approved a 7½ percent salary hike for tax appraisal personnel.

Drivers crash picket lines at News

By LEE LESCAZE
The Washington Post

NEW YORK — Some truck drivers drove through angry picket lines Tuesday night to deliver the New York Daily News after the Newspaper Guild struck the nation's largest-circulation daily.

The News published a 64-page edition without any unions except most members of the International Typographical Union, but the first papers did not leave the News building until after 11 p.m. (EDT) when the Newspaper Mail and Deliverers Union ended four hours of debate and drove trucks up to the loading bays.

Pickets shouted "scab" and threw coins and small objects as the first trucks pulled up to the News building. Six mounted policemen and dozens of patrolmen kept the pickets away from the loading bays.

State dispensing federal funds

Austin Bureau

AUSTIN — Almost $2 million in federal funding to assist local communities in acquiring or renovating multi-purpose centers for older citizens — including $38,389 for the Permian Basin area agency on aging in Midland — is now being distributed, the Governor's Committee on Aging reports.

The state's share of the 1978 funding, allocated to the committee under the federal Older Americans Act, has been proprated among all the state's 28 area agencies on aging according to population.

Area agencies on aging, which coordinate programs and services for the elderly at the regional level, will reallocate their regional grants to local agencies.

The grants will be awarded to local governments or other public or nonprofit agencies or organizations seeking funds to acquire or renovate facitilities for use as senior centers.

According to the state committee, a community organization interested in obtaining information about a grant proposal should contact the area agency on aging serving the locality.

Altogether, $1,977,137 in federal grant monies was allocated to Texas.

Sunday, June 18th is Dad's Day. Just for him we've gleaned the best shirt gift ideas by the leading shirt designers. Just the kind of shirts Dad would choose for himself. So why guess about his shirt gift? If Father knows best, we know Father's best!

A). Choose a knit shirt from our collection from Izod, Damon, Hathaway or Gant, from **$17.50**

B). From Mr. California, Spire or Puritan. You'll find that just-right sport shirt, from **$16.**

C). Select his dress shirt from our vast collection by York, Hathaway or Nicola Mancini, from **$15.**

D). Give dad a real Armadillo, softly padded from head to tail. Tan and brown, **$32**

Bell following new 'rainbow'

By DONALD C. BAUDER
Copley News Service

Now that Ma Bell is aggressively marketing her services, a customer can look forward to new and wonderful innovations, such as your tax information sent over phone wires and displayed on your TV screen.

Kenneth J. Whalen, executive vice president for marketing of American Telephone and Telegraph Corp. (AT&T), is in charge of bringing marketing orientation to the Bell System.

"For our first 100 years, we were a technologically driven company. In 1953 we set up a merchandising department and discovered for the first time there was some other color than black for a telephone," he said.

In the middle 1960s, Bell's rate and tariff executives were placed within the marketing group — but it was still a technically oriented company. In 1973, after a management cousulting firm suggested a total revamping, Whalen was brought in to put marketing on the same level with production.

Up to then, Bell had featured a "something for everybody" approach — rather like the TV programs, the Bell Telephone Hour, which featured five minutes of beautiful music followed by five minutes of insufferable schmaltz. Similarly, Bell used to develop a system or a package in some area — then sell the whole ball of wax, without modifications or personalization, to every customer.

"Now we're taking a segmentation approach," Whalen said, and it is not too difficult doing that for business customers. Businesses break down naturally into industries — "banking, retailing, hotels, etc.," he said.

But how do you split up the home market (which accounts for 43 percent of Bell's $36 billion in revenue)? A natural split is the mobile versus immobile family.

Last year, Bell installed 34 million telephones and removed 29 million, for a 5 million gain. The people accounting for heavy in-out movement are "primarily younger people, so we want to take a look at this younger market. But this market more frequently has the lowest disposable income levels," Whalen said.

So Bell now looks upon that sedentary, stay-put market as a goldfield. Similarly, "Forty percent of our customers don't make a long distance call in a month," and that's a rainbow to trace.

In sheer dollars, a bigger plum is the field of total business communications. Last year, business communications accounted to half of AT&T's revenues — but data transmission was just $1.4 billion of the $36 billion revenue.

By the late 1980s, the total market for business communications, including general administration and clerical automation, information retrieval and dozens of other technologically advanced areas, will be a juicy $300 billion, studies show — and Bell wants its share.

Since 1973, the Bell System's marketing payroll — largely under Whalen's jurisdication — has grown 80 percent to $1.8 billion, while marketing's share of total operating expenses has gone from 6.7 to 7.2 percent, Whalen said.

Predictions seem rather optimistic

By DONALD C. BAUDER
Copley News Service

Two new surveys of business executives' pricing intentions and expectations suggest that the Carter administration's prediction that consumer prices will only rise 7 percent this year either is naively or Machiavellianly optimistic.

The two surveys, which have had remarkably good batting averages in the past, indicate that non-food prices — both in the consumer and industrial sectors — will rise at rates above the 7 percent which the Carter folk seem to be praying for.

If non-food prices will be rising at this stiff a rate, food prices will have to soften rather markedly to bring the rate down to 7 — and that doesn't seem likely.

The National Association of Purchasing Management (NAPM) announced results of its monthly poll of its members. The news was grim. About 67 percent of the NAPM members are paying higher prices for industrial goods they buy.

This is up from 64 percent in April — and significantly, represents the largest percentage to be so pessimistic on prices since 1974, "when we were coming off of double-digit inflation and entering the recession," said E.F. Andrews, an NAPM official who is also a purchasing vice president for Pittsburgh's Allegheny Ludlum Industries.

Purchasing managers "are almost unanimous in expecting a barrage of price increase efforts over the balance of 1978 — inflation fears are uppermost in the minds of our members. They're afraid of possible price controls and also shortages," Andrews said in an interview.

He thinks overall inflation will average out to be 7 percent this year, "but industrial prices will be on the upper end of that," he said.

Similarly, the quarterly poll of the National Federation of Independent Business (NFIB) "is pointing toward non-food inflation of 8 or 9 percent in the second quarter," said Professor William Dunkelberg of Purdue University, who does the statistical work on the comprehensive poll of NFIB small businessmen.

In February, Dunkelberg had predicted that non-food prices would be rising at high, perhaps double-digit, rates during the first part of the year. Thus far, they have been running at about 9 percent.

"We were out on a limb then, but the poll certainly was on target," Dunkelberg said. And the most recent polling came up with almost identical results as those of the first quarter.

About 43 percent of the members plan to raise prices in the next few months — unchanged from the first quarter. About 17 percent plan to raise prices more than 5 percent — down from the 19 percent of the first quarter.

"There are a whole potful of reasons businessmen cite for their expectations of inflation — higher hourly wage settlements, the big federal deficits, uncertainty about the economy, fear of price controls," Dunkelberg said.

Commission predicts oil supply into 1990s

The Washington Post

WASHINGTON — Contrary to many earlier forecasts, world oil supplies will be adequate to meet demand "for the next several years and possibly into the early 1990s," according to a detailed report on energy to the Trilateral Commission, released Tuesday.

But this easing of supply, keeping world oil prices below the cost of producing substitutes, was viewed as a grave threat to longer run needs — and as damaging to public understanding of the real problem. Among other things, low prices and easy avilability of gasoline discourages conservation, the report said.

The principal author of the report is John Sawhill, president of New York University, and former federal energy administrator. He was assisted by Keichi Oshima, Professor of Nuclear Engineering at the University of Tokyo, and Hans Maull, European secretary of the Trilateral Commission.

They called for a strategy of raising what they called artificially low prices in Europe, Canada, Japan and the United States, specifically recommending a higher federal excise tax on gasoline in the United States. In addition, they suggested a trilateral energy "summit" that would develop policy for higher pricing and for negotiating with the Soviet Union for technology and capital.

The Trilateral Commission, which has been meeting here since Sunday, is composed of 200 influential private sector leaders from Europe, Japan and North America who consult regularly and confidentially with government officials on international problems.

The energy report says that additional flows from the North Slope (Alaska), the North Sea and Mexico will keep supplies in rough balance with a demand growth of 2 percent to 3 percent a year for at least the next 5 to 10 years. Prices, in the absence of a sharp cutback by Saudi Arabia or other major producer, would be stable or slightly higher. But sometime in the early 1990s, the report suggests, almost all OPEC producers will be cranking out oil at about a peak, the non-OPEC production will begin to top out, and "the world will have to look to the Saudis to provide any incremental supplies needed."

Since "the critical variable" affecting prices will be the Saudi willingness to expand production, the authors urge that the United States maintain its "special relationship" with that key producer.

One main theme of the report is that governments have not only failed to come to grips with the energy problem, but have not shown they understand its magnitude or severity.

The report divides the range of issues into short, medium and longer term periods. In the short term — for the next five years — the risk relates to a potential disruption of supplies through war or terrorism.

In the medium term — in the following five years — there will also be the potential for financial crisis, initially among some of the poorer countries that might not be able to borrow enough money to pay for their oil. But worries extend also to the United States, with a chronic trade deficit and dollar problem.

For the long run, beginning in another ten years, the major threat seen is a precipitate rise in oil prices as world production levels off, exacerbating the financial problems of the medium-term period.

"The danger in the longer term is not that of a price increase per se," the authors say, "but that a large increase could occur in such a short time period that the world economies would be unable to adjust, and recession or even depression could ensue."

To avoid such an abrupt rise in prices, the authors put forward the strategy of consciously boosting prices now, so as to discourage consumption and to encourage alternative supplies from liquefied and gasified coal, oil from shale, etc.

They attribute the more optimistic supply picture of the moment to higher forecasts of oil yields from Mexico and other new areas under development, but also to a slowdown in the rate of growth of energy demand.

That is labeled a serious development, and the authors call for political leaders in Japan, the United States, Canada, and Europe "to underscore the point that economic stagnation is a poor solution to the energy problem."

The report points out that unless economic growth continues at a good pace in the industrial world, the necessary investment capital to develop alternate sources of energy won't be forthcoming. The authors say that the relationship between energy and economic policy should be an important agenda item for an energy summit.

Occidental contesting for Canadian company

By LINDA GRANT
The Los Angeles Times

LOS ANGELES — Occidental Petroleum Corp., Los Angeles, jumped into a spirited bidding contest with the government of Canada in an effort to acquire a Canadian company which has vast reserves of heavy oil in the Athabasca tar sands of western Canada.

Industry analysts predicted the proposed $500 million deal involving Husky Oil Ltd. will create tension between Occidental and the Canadian government. The latter's approval is required to complete the transaction. Said one analyst, "This deal is tenuous at best."

On the face of it, Occidental's proposal, a complex exchange offer for new preferred shares totaling about $44.70 a share, looked less desirable than Petro-Canada's offer of $45 a share in cash. However, Occidental and Husky pointed out that the exchange of stock would be tax free in the United States, where more than 65 percent of Calgary-based Husky's shares are held. And Occidental's package will provide dividends of $4.35 a share, compared to Petro-Canada's current $1 (Canadian) dividend per share.

Occidental's offer followed a tense weekend at Husky's headquarters. On Saturday afternoon, its directors and top management met with representatives from Petro-Canada, the state-owned oil company, to hear their proposal.

Petro-Canada — formed three years ago to step up the country's exploration and development efforts — has made only one other big acquisition, when it took over all the Canadian assets of Los Angeles-based Atlantic Richfield Co. in 1976 for $340 million.

Husky officials asked for time to consider the Petro-Canada offer. They had been talking for some time with Occidental about ways to combine the two companies' operations, and hurriedly met with them again during the weekend.

Late Monday night, Husky told Petro-Canada officials it had chosen Occidental, and about midnight handed them the announcement that went over the wires before dawn that morning. Petro-Canada responded with a terse statement saying only that it was reviewing the situation.

The Occidental package was quickly accepted by Husky's founder, Colorado oilman Glenn Nielson, and his family, who control about 20 percent of Husky's stock.

Husky has operations around the world, owns five refineries, and last year earned $42.8 million on sales of $622 million. But both Occidental and Canada are more interested in Husky's estimated 16 billion barrel reserves of heavy oil in the Lloydminster area of Saskatchewan and Alberta.

The thick oil requires expensive processing before it can flow through pipelines or be refined, but it represents the cornerstone of Canada's attempt to limit reliance on imported fuel.

Occidental must win the approval of Canada's Foreign Investment Review Agency (FIRA) — which judges whether a foreign takeover is of "significant benefit to Canada" — before it can go ahead.

In Ottawa Tuesday, Energy Minister Alistair Gillespie said he wouldn't "prejudge" FIRA's recommendations, but he told the House of Commons he is sure the agency is "well aware of the government's priorities on heavy-oil development."

To head off Canadian disapproval, Husky and Occidental issued a sketchy plan Tuesday suggesting the heavy oil reserves of western Canada be developed by a partnership owned one-third each by Petro-Canada, the provinces of Saskatchewan and Alberta, and Husky-Occidental, Petro-Canada and the provinces issued no response.

In a related development Tuesday, Alberta Gas Trunk Line Ltd., Calgary, announced it had been buying Husky stock since January in a joint venture with Energy Ventures Inc., Boston. The two companies said they have accumulated about 415,000 shares, or 4 percent of Husky's outstanding common shares.

Irion pool gets offset

Gulf Oil Corp. No. 4-VD State is to be drilled as a 9,500-foot project in the five-well Irion 163 (Ellenburger) field of Irion County, 2¼ miles southeast of Barnhart.

Location is 660 feet From north and 1,980 feet from east lines of section 5, block 40, University Lands survey.

Well, test reported

William L. Rodgers of Midland No. 1-C Thelma J. Cole has been conpleted to extend the Vincent (lower Clear Fork) pool of Howard County 1,500 feet south.

Operator announced a daily flowing potential of 124 barrels of 28-gravity oil and no water, through perforations from 4,256 to 4,296 feet, natural.

Gas-oil ratio is 250-1.

Total depth is 4,407 feet and 4½-inch casing is cemented at 4,405 feet. The plugged back depth is 4,405 feet.

Wellsite is 467 feet from north and 2,800 feet from west lines of section 14, block 26, H&TC survey and two miles northwest of Vincent.

REEVES TEST

Fred M. Newman, Inc., of Midland staked location for a 2,800-foot northeast stepout to the Cable (Delaware) pool of Reeves County.

The 6,000-foot operation will be drilled as No. 2 J. M. Rape, 1,980 feet from north and east lines of section 24, block C-1, psl survey and 15 miles southeast of Pecos.

Remote cutoff possible

AUSTIN, Texas (AP) — The time might not be too far distant when Texas power companies can reduce peak demands by switching off your air conditioner temporarily without entering your house.

It might sound like Big Brother, but in most cases, consumers would decide whether to join in the scheme to reduce peak-hour demands on electric systems. The idea is to cut costs and save energy.

Houston Lighting & Power Co. and El Paso Electric told Texas Public Utility examiners Tuesday they are in the early stages of investigating such systems.

The commission's hearings on various proposals to make electricity cheaper and conserve energy resume next Monday with testimony from groups outside the power industry.

Commission members will decide this fall on recommendations to the Legislature as well as on policies that might guide their own decisions on electric rates.

"The load limiting devices under consideration are basically radio controlled devices that would shut down a water heater, space heater or air conditioner for a period of time... Our engineering department is evaluating different equipment," said Robert Hackett, El Paso Electric's rate manager.

Ross Doan, manager of rate and economic research for Houston Lighting & Power, said his firm is looking at "ripple control" of air conditioners.

Equipment, he said, ranges in price from $125 to $400 per household, so the company is taking it slow.

"We don't want to buy one method and have a better method come along," he said.

Doan said the equipment under study by Houston Lighting & Power is a "ripple system" that would turn off air conditioners for a few minutes at a time. The cut offs would "ripple" through the system so not everyone would be switched off at once.

He said HL&P would test customer acceptance first.

Melanie McCoy, commission project director, said load management could reduce power consumption at peak hours of the day.

This could help stabilize electric rates, she said, by avoiding or delaying construction of new plants to handle peak loads.

Peaking plants remain idle much of the time, but the cost of being prepared to meet the demands of consumption periods is built into the rates consumers must pay.

Ms. McCoy said load reduction by remote control switches is voluntary in most places that use it.

"Whether you choose to have it in your house is voluntary. But once you have it, you have no control over whether it is shut off or not. In most studies, the consumer is not even aware of it. It has a lot of possibilities, especially in high air conditioning areas," she said.

Leede stakes Concho test

Leede Oil & Gas, Inc., of Midland spotted location for a 4,300-foot wildcat in Comcho County, 10 miles southwest of Edem.

Scheduled as No. 1 J. B. Canning, it is 660 feet from south amd west lines of section 61, block 8, H&TC survey.

The drillsite is two miles east of the two-well J-D (Goen oil) pool and separated from it by a 4,255-foot dry hole.

Long-stalled energy bill takes small step forward

The Washington Post

WASHINGTON — President Carter's long-stalled energy bill took another small step forward Tuesday as House and Senate conferees settled their final differences on natural gas pricing.

Six and one-half months after they began talking about the gas issue and three weeks after they had approved a compromise removing federal price controls on newly diseovered gas by 1985, the conferees resolved a list of minor issues which they had skipped over while trying to settle the central issue of price controls.

The final action provided for civil penalties up to $5,000 for violation of federal regulations that a "reasonable man" should have known existed. Sen. Henry M. Jackson, D-Wash., leader of Senate conferees, looked around at the weary conferees who had been butting heads since before Christmas and said that was "a good note to end on."

It has been one of the most difficult House-Senate issues to resolve since billions of dollars at stake and the two bodies went in opposite directions on the question of deregulation. The House approved Carter's plan to continue controls at a higher level and extend them from the interstate market to cover intrastate gas consumed in the state where produced. The Senate voted to deregulate new gas in two years.

The ceiling price on the first sale of gas at the wellhead is now $1.49 per thousand cubic feet. Under the compromise ceiling on new gas would rise immediately to about $1.93 and would go up annually by about 10 percent, assuming inflation of six percent. Controls on new gas would expire at the end of 1984 but could be reimposed for one 18-month period by president or Congress and extend to not later than the end of 1988.

The complicated gas proposal must now be reduced to legislative language, a task that may take a month. The staff must also finish putting in writing three parts of Carter's energy package — dealing with conservation, coal conversion and utility rate structures — which the conferees agreed on last fall.

There remains one major unresolved issue in the non-tax part of the energy bill. The Senate voted to ban production and sale of gas guzzling cars. The House on the other hand approved Carter's plan to tax, but not ban, inefficient cars. The conferees must meet again on that.

Once those four parts of the package have been written they will be sent first to the Senate and then to the House for final approval. The gas plan probably will run into another Senate filibuster but should win ultimate approval since it is deregulation. The House conferees approved the gas plan by a vote of 13 to 12, with liberals opposing it for giving away to much to producers and conservatives opposed because it didn't deregulate soon enough.

The gas compromise is supported by both the leading House advocate of gas regulation, Rep. John Dingell, D-Mich., and the leading champion of the gas industry, Rep. Joe D. Waggonner Jr., D-La.

Still to be resolved is the tax part of Carter's energy package and that may prove more difficult than gas.

The centerpiece of the president's program was a tax on domestic crude oil that would force its price up to world levels to cut use. The House passed it but the Senate rejected it. The administration is still trying to salvage the crude oil tax, but may have to rebate large parts of the revenue to the oil industry to get it by Senate conferees led by Sen. Russell B. Long, D-La.

The tax conference has been recessed since last Thanksgiving while Long waited to see how the fight over natural gas came out. His state is a big producer of both oil and gas.

Re-entry announced

Ashland Exploration, Inc., of Houston announced plans to re-enter the former W. B. Trammell No. 1 S. Kyle Moore, Fisher County wildcat failure.

Operator will clean out to 5,900 feet in the 6,121-foot dry hole which is 2,125 feet from south and 1,980 feet from west lines of section 257, block 3, H&TC survey and seven miles west of Longworth.

The project was abandoned by Trammell in January 1967.

It 1s 1⅛ miles northeast of the depleted Glen Peeler (Canyon reef) field and 1⅝ miles northeast of the Capitola (Strawn) pool.

Clear Fork test finals

Lario Oil & Gas Corp. of Midland No. 2-D J. B. Tubb has been completed as the third Clear Fork gas well in the Sand Hills multipay area of Crane County.

A former Tubb oil producer, it finaled from the Clear Fork for a calculated, absolute open flow potnetial of 485,000 cubic feet of gas per day, through perforations from 4,049 to 4,139 feet.

The pay was treated with 2,500 gallons of acid and 38,600 gallons of fracture solution.

Total depth is 4,550 feet and plugged back depth is 4,288 feet.

Location is 1,980 feet from north and 660 feet from east lines of section 8, block 32, psl survey.

Location is ⅜ mile north of other Clear Fork gas production and 15 miles northwest of Crane.

Wildcats scheduled

Wildcat operations have been staked in Terry and Dickens counties. counties.

North American Royalties, Inc., spotted No. 1 Patton as an 11,550-foot wildcat in Terry County, 10 miles southeast of Brownfield.

Location is 660 feet from north and 3,110 feet from west lines of section 8, block C-39, psl survey. Elevation is 3,155 ft.

The site is 1.5 miles South of the Corrigan, East area and one location West of a 5,155-foot dry hole.

SHELL TEST

Shell Oil Co. No. 1 Tankersley is to be dug in Terry County, 7,5 miles south of Brownfield.

The 10,625-foot operation is 1¼ miles southeast of the Sta-Tex (Pennsylvanian) field and 2,300 feet from south and 567 Feet from west lines of section 95, block T, D&WRR survey. Elevation is 3,245 feet.

DICKENS EXPLORER

Ashland Exploration, Inc., of Houston No. 1 147 County.

The project is 1,380 feet from south and 2,080 feet from west lines of section 147, block 1, H&GN survey and six miles southwest of Spurr. It is to drill to 8,000 feet.

Elevation is 2,245.8 feet.

Discovery stepout set

William E. Hendon Jr. of Midlamd spotted locations for a pair of projects in the one-well Wamoco (Yates) pool of Crockett County, 16 miles north of Ozona.

Each of the projects will be drilled to 1,200 feet.

No. 4-A University-Amoco is 1,980 feet from south and 66G feet from east lines of section 13, block 42, University Lands survey and ⅝ mile southst of the pool discovery.

No. 3-A University-Amoco is 660 feet from south and east lines of section 13, block 42, Umiversity Lands survey and ⅝ mile southeast of the pool opener.

DRILLING REPORT

ANDREWS COUNTY

John L. Cox No. 1 David Fasken, drilling 10,550 feet.

BTA No. 2-K University, td 4,840 feet in lime, waiting on cement, set 13-⅜ inch casing at 367 feet and 9-⅝ inch casing at 4,819 feet.

BORDEN COUNTY

Rial No. 1 Billingsley, drilling 2,515 feet in red beds and salt.

Britton Management No. -1 Judge Williams, td 7,890 feet and temporarily abandoned.

BREWSTER COUNTY

Union Texas No. 1 Sibley, td 16,658 feet and still shut in.

CHAVES COUNTY

Harvey Yates No. 1 Rebecca Crosby, loaded casing with 10 gallons of drilling mud, ran 4-½ inch casing at 2730 feet, spotted cement plug at 2780 feet, ran tubing, set plug at surface, total depth 2780 feet.

Harvey Yates No. 2 East Lake Arthur, spotted 3 sacks cement, perforated 4-½" casing at 775 feet ran 4-½ inch squeeze retainer and 2-⅜ inch tubing at 722 feet, cemented 175 sacks, perforated Queen from 638-644 feet, ran 21 joints 2-⅜ inch tubing at 664 feet, acidized 638-644 feet with 500 gallons NE acid, swabbing.

Harvey E. Yates No. 2 Rebecca Crosby, spudded 6-10-78 drilling 800 feet.

CROCKETT COUNTY

The Canyon Co. No. 1-4 Laura Hoover Estate, td 7,625 feet and flowing load to pits.

William N. Beach No. 1-17 Owens, td 6,100 feet and shut in, waiting on pipeline connection.

The Canyon Co. No. 1-1 Laura Hoover Estate, td 7,600 feet and waiting on potential test results.

The Canyon Co. No. 1-19 Laura Hoover Estate, td 7,872 feet and waiting on potential test results.

The Canyon Co. No. 1-2 Laura Hoover Estate, td 4940 feet and flowing load to pits.

James L. Lamb No. 3-26 University, td 1,656 feet and waiting on electricity and completion unit.

International Oil and Gas No. 1-2 Dudley, td 10,950 feet and preparing to log.

International Oil and Gas No. 1-3 University, td 11,062 feet and preparing to test.

C. F. Lawrence and Associates No. 7-58 Eck; drilling 810 feet.

William N. Beach No. 1-B Noelke, drilling 1,925 feet.

CULBERSON COUNTY

Gulf No. 9-CX TXL, still shut in.

Atlantic Richfield No. 1 Covington-State; td 13,090 feet, laying down drill pipe and drill collars.

American Quasar, No. 1 Scott Unit, td 2790 feet, drilling "tight".

BTA No. 1 Duval, drilling 6,480 feet in shale and sand.

DAWSON COUNTY

Petroleum Development Funds Inc. No. 2 Crow, td 8,200 feet, perforated from 8156-8162 feet, fractured with 1000 gallons acid, 30,000 gallons KCL water, and 51,000 pounds sand.

EDDY COUNTY

Champlin Petroleum No. 3-36 State, td 11,800 feet, pulled out of hole with 2-⅜ inch tubing, ran in hole with packer retrieving tool, retrieved packer at 11,500 feet, circulated gas out of hole and shut down for night.

J. C. Barnes Oil Co. No. 1-F Big Chief Comm. td 12,725 feet, preparing to squeeze cement around lower joint.

J. C. Barnes Oil Co. No. 1-F Little Squaw Comm. drilling 5,963 feet.

Eastland Oil No. 1-K City of Carlsbad, td 3,217 feet and waiting on pumping unit.

Eastland Oil No. A-2 Harround, td 2,465 feet, waiting on completion unit.

Delta Drilling, No. A-1 Donaldson, td 13,213 feet, ran logs, preparing to clean.

Flag-Redfern No. 1-K Lakewood-State drilling 9,176 feet.

Texas American No. 2-23 Todd-Federal, td 6,159 feet still waiting on completion unit.

Orla Petco No. 1 Brantley, drilling 1,810 feet in anhydrite.

Mesa Petroleum No. 2 Diamond Mound Federal, td 8,704 feet and waiting on completion unit.

Mesa Petroleum No. 2-G Ringer-Federal Comm. td 11,730 feet and waiting on completion unit.

Harvey Yates No. 18 Empire South Deep Unit td 11,010 feet and flowing load to pits.

Harvey Yates No. 1 China Canyon Arco Unit, drilling 886 feet in sand and lime.

Gulf No. 2-GE Eddy; td 11,235 feet and still shut in.

Gulf No. 2-GF Eddy; td 12,297 feet and still shut in.

Gulf No. 1-GN Eddy; td 12,000 feet, preparing to acidize perforation from 11,840-11,846 feet.

Gulf No. 1-GZ Eddy; drilling 1,710 feet in anhydrite and red beds.

Gulf No. 2 Pacheco; td 11,150 feet and still shut in.

Gulf No. 1-GX Eddy; td, 8,680 feet and still shut in.

Bass Enterprises No. 61 Big Eddy Unit, drilling 5,802 feet.

CITGO No. 1-A Polk, td 12,574 feet, circulating and conditioning.

CITGO No. 1-CY State; drilling 11,038 feet in lime, shale and sand.

Getty No. 1-34 Federal; drilling 8,315 feet.

Getty No. 1-35 Getty; drilling 725 feet.

GAINES COUNTY

Fasken No. 2-215 Boecker; td 5,800 feet, pumped 5 barrels of fluid in 5 hours, perforated from 5,447-5,902 feet.

Gasken No. 3-215 Boecker, drilling 3,718 feet in anhydrite.

Gasken No. 3-214 Elliott, td 5,770 feet, swabbed 67 barrels of fluid in 10 hours, perforated from 5,516-5,534 feet, acidized with 1000 gallons.

GLASSCOCK COUNTY

Newbourn Oil No. 1-A Chaney, td 8,225 feet, recovering load.

HOCKLEY COUNTY

Hilliard No. 1 Vinson, drilling 9,770 feet in shale and lime.

NRM No. 3 Whitley, td 5,910 feet, complete electrical hookup and begin pumping.

IRION COUNTY

NRM No. 6-A Rocker B; td 6,565 feet, recovering load oil.

NRM No. 7-A Rocker B; td 6,665 feet, recovering load oil.

NRM No. 8-A Rocker B; td 6,590 feet, recovering load oil.

NRM No. 8-B Rocker B; td 3,420 feet, shale, fishing.

Atlantic Richfield No. 1-58 Scott; td 6,400 feet, flowing Spraberry perforations from 4,450 to 6,296 feet.

Atlantic Richfield No. 2-58 Scott; drilling 4,337 feet in shale.

Hytech No. 2-B Murphy; td 6,550 feet, waiting on completion unit.

Union Texas No. 5-57 Farmer; drilling 4,900 feet in lime and shale.

Union Texas No. 4-56 Farmer; td 7,550 feet, recovering load through perforations from 7,146 to 7,170 feet, acidized perforations with 5,000 gallons.

Gulf No. 3-VE State; drilling 8,310 feet in lime and shale.

Cities Services No. 1-A Tankersley; td 7,593 feet, set 5½-inch casing at 7,579 feet, open hole perforations from 7,579 to 7,593 feet, natural, initial potential flowed 284 barrels of oil per day, through a 24/64-inch choke, gravity 40 degrees, gasoil ratio 1,132-1.

International Oil & Gas No. 2-10 Busby; td 7,806 feet, swabbing load.

KIMBLE COUNTY

Cominco American No. 1 Smith; td 3,070 feet, set 4½inch casing at 3,051 feet, perforated from 2,880 to 2,897 feet.

Cominco American No. 1-A Prentice; td 3,130 feet, set 4½-inch casing at total depth.

LEA COUNTY

Harvey Yates No. 1-35 Corbin-State; plugged back depth 4,100 feet, ran 4½-inch casing and set at 3,944 feet, waiting on cement.

Mesa Petroleum No. 1 North Scharb-State; td 12,874 feet, waiting on completion unit.

Cotton Petroleum No. 1 Lowe Land; pumped 150 sacks cement with 5 pounds salt and 5 pounds sand, ran 4½-inch casing squeezer, running in hole with tubing, perforated from 19,009 to 10,023 feet, set packer at 9,981 feet.

Cleary Petroleum No. 2-A New Mexico Federal; set pipe racks, td 14,047 feet, top of contaminated cement 10,536 feet, top of good cement 10,762 feet, rigged up to run in hole with 2⅞-inch tubing.

Cleary Petroleum No. 1 Felmont-Federal; circulating at 13,436 feet, total depth 13,648 feet in lime, shale and sand.

BTA Oil Producers No. 5 7406 JV-S Lea; td 3,286 feet, set 5½-inch casing at 3,245 feet, perforations from 3,185 to 3,232 feet were acidized with 200 gallons and fractured with 57,000 gallons and 44,000 pounds, initial potential pumped 35 barrels oil per day and 386 barrels water, gravity 31.3 degrees, gasoil ratio 343-1.

Getty No. 1-35 Getty; drilling 725 feet.

BTA Oil Producers No. 6 Lea; td 3,250 feet, flowed 146 barrels oil in 24 hours through 22/64-inch choke and through perforations from 3,166 to 3,193 feet.

BTA Oil Producers No. 8 Lea; td 3,270 feet, flowed 84 barrels oil in 24 hours through 11/64-inch choke and through perforations from 3,196 to 3,249 feet, fractured with 18,800 gallons and 21,200 pounds.

BTA Oil Producers No. 20 Lea; td 3,323 feet, plugged back depth 3,287 feet, recovering load, perforations from 3,211 to 3,221 feet, fractured with 11,000 gallons and 10,600 pounds, acidized with 500 gallons.

Gulf No. 2-ED State; drilling 10,759 feet in lime and shale.

Gifford, Mitchell & Wisenbaker No. 6 Horseback; drilling 834 feet in surface rock and sand.

Phillips No. 33-E Phillips-State; drilling 4,110 feet in lime.

LOVING COUNTY

Exxon No. 1 Keith Camp; drilling 15,922 feet.

MARTIN COUNTY

Rial No. 1 Texaco-Albert; drilling 2,975 feet in shale and anhydrite.

Rial No. 1-32 University; drilling 4,450 feet in anhydrite and dolomite.

MGF No. 1 Lindsey; td 9,200 feet, preparing to put on pump.

MGF No. 1-A Stimson; td 9,130 feet, pumped 60 barrels of oil and 50 barrels water in 24 hours through perforations from 8,911 to 9,030 feet.

MGF No. 2-A Stimson; td 9,170 feet, pumped 78 barrels oil and 68 barrels water in 24 hours through perforations from 7,514 to 9,033 feet.

PECOS COUNTY

Resources Investment No. 1 Weidenbach; td 7,080 feet, circulating and conditioning hole.

International Oil & Gas No. 1-64 Coates; drilling 9,077 feet.

Gulf No. 2-1 Emma Lou; drilling 1,090 feet in shale.

Gulf No. 2-DA Weatherby; drilling 14,504 feet in lime and shale.

Union Texas No. 1 Johnson; td 11,787 feet, took drillstem test from 11,490 to 11,676 feet, open 45 minutes, recovered 35 feet drilling mud, took drillstem test from 11,675 to 11,743 feet, open 45 minutes, recovered 25 feet drilling mud, took drillstem test from 11,735 to 11,767 feet, open 135 munites, recovered 450 feet drilling mud and 9,843 feet salt water.

Aminoil No. 1 Harral; drilling 18,882 feet in lime and shale.

Florida Gas Exploration No. 1-36 State-Reed; plugged back total depth 3,025 feet, laying down drill pipe.

Exxon No. 1 Margaret Collins; td 17,600 feet, plugged back depth 6,950 feet, 24 hour test, recovered 89 barrels load oil and 189 barrels load water.

Exxon No. 2-B John May; td 11,300 feet, perforated from 11,104 to 11,174 feet, acidized with 5,000 gallons.

REAGAN COUNTY

Bruno No. 1-48 Malone; drilling 7,330 feet in lime, sand and shale.

REEVES COUNTY

BTA No. 1 Chapman; td 15,880 feet; pb 11,845 feet; has been completed as a Wolfcamp discovery. It finaled for a calculated, absolute open flow of 1,291 million cubic feet of gas per day, through perforations at 11,144-11,612 feet, which had been acidized with 10,000 gallons. Operator has that the field be designated Chapman Deep (Wolfcamp).

Gulf No. 2 Westervelt; td 6,710 feet, preparing to test, through perforations at 6,040-6,046 feet.

Exxon No. 1 Tiera-State; drilling 8,353 feet.

Exxon No. 1 Monagas-State; td 5,650 feet; shut in.

Union of California No. 1 Valley Farm; drilling 12,715 feet.

Texaco No. 1-H Reeves Fee; td 10,550 feet; testing well head.

R. L. Burns No 1-15 State; td 3,136 feet; has been temporarily abandoned

H. L. Brown No. 1-A Lloyd; td 16 660 feet; flowed 121,000 cubic feet of gas per day, through a 16/64-inch choke.

Brown No. 2-12 Rape; td 16,138 feet; attempting to flow test.

ROOSEVELT COUNTY

Enserch No. 3 Lambirth; drilling 3,050 feet; set 13⅜-inch casing at 377 feet.

SCHLEICHER COUNTY

Cola Petroleum No. 1 Whitten; td 6,800 feet; recovering load; last gauge was seven barrels of oil and 87 barrels of water.

Cola No. 1-28-B Whitten; td 6,500 feet; moving out rotary; set 4½-inch casing at td.

SUTTON COUNTY

El Paso Natural No. 4 Simmons; td 7,280 feet; logging.

TERRY COUNTY

American Quasar No. 1 Seaton; td 4,670 feet; waiting on cement

TOM GREEN COUNTY

NRM No. 1-XQZ Ranch; drilling 1,540 feet.

UPTON COUNTY

Union Texas No. 5 Lane; td 10,600 feet; preparing to perforate.

Aminoil No. 1-15 University; pb 10,882 feet; testing, no gauges.

Cola No. 1 Cody; td 10,200 feet; has been completed from the Strawn formation at 9,546 8,553 feet. It flowed 380 barrels of oil per day, through a 15/64-inch choke.

John L. Cox No. 1-54 Cravens; drilling 3,580 feet.

Cox No. 1-30 Halff; td 8,480 feet; running 4½-inch casing.

Cox No. 4-E Owens; drilling 8,140 feet.

Cotton No 1-A Jackson; drilling 11,540 feet in lime and shale.

VAL VERDE COUNTY

Pennzoil, Getty & Tamarack No. 1 Fawcett; drilling 13,194 feet in sand and shale.

Resources Investment No. 1-8 Arledge, td 14,862 feet, still waiting on completion unit.

Resources Investment No. 1-20 Mills; td 15,782 feet; swabbing, no gauges, through perforations at 15,241-15,712 feet.

WARD COUNTY

Gifford, Mitchell & Wisenbaker No. 1 Blue Jackett; drilling 2,985 feet in anhydrite and lime.

Exxon No. 2-1 Leede; drilling 16,613 feet.

Continental No. 6 Wilson; td 6,750 feet; pumped 22 barrels of new oil and 425 barrels of water in 24 hours.

Conoco No. 7 Wilson, td 6,450 feet; gone "tight"

Conoco No. 8 Wilson; td 6,456 feet; preparing to put on pump.

Monsanto No. 1-17-6 University drilling 9,525 feet in shale.

Monsanto No. 1 Kelton; td 15,100 feet, logging.

Monsanto No. 1 Juarez; drilling 8,800 feet in lime.

Gulf No. 2 Cadenhead; td 17,890 feet; still shut in.

Gulf No. 5-OB State; td 6,600 feet, preparing to treat; perforations at 5,994-6,193 feet

Gulf No. 2-WZ State; drilling 2,276 feet in redbed and lime.

Gulf No. 2-13-18 University; td 6,375 feet; has been dropped from the report.

Getty No. 4-10-18 University; drilling 14,732 feet.

Gulf Oil Corp has completed No. 4-13-18 University as an undesignated (Delaware) producer. It flowed 10 barrels of 37-gravity oil per day, plus 69 barrels of water, through a 14/64-inch choke and perforations at 5,086-5,090 feet, which had been fractured with 1,500 gallons and 3,000 pounds. Gas-oil ratio measured 10,800-1.

WINKLER COUNTY

Rial No. 1-9 Sealy-Smith; drilling 6,040 feet in lime and shale.

Getty No. 1-6-21 University; td 12,000 feet; waiting on cement; set 5½-inch casing at td.

Getty No 1-42-21 University; td 20,726 feet; pulling packer and tubing, earlier the operator perforated at 20,218-20,620 feet.

Monsanto No. 1 Evelyn; drilling 15,620 feet in lime, sand and chert.

Cotton No. 1-38 University; drilling 18,693 feet in chert, lime and dolomite.

YOAKUM COUNTY

North American No. 1 Walden; drilling 11,700 feet in shale.

Cherry Hills rough is murder

DENVER (AP) — The sight of 6-foot-4, 215-pound Andy Bean tearing into an iron shot in the rough but managing to advance the ball a mere 20 feet underscored the point: The rough at Cherry Hills is murderous.

The 152 golfers assembled for the 78th U.S. Open Championship this week were almost unanimous in their appraisal of the rough, grown tall and thick by a rare, week-long rainfall earlier this month.

"The winner won't be in that rough much," predicted Bean, who must be rated one of the favorites after back-to-back titles at the Kemper Open and Memphis Classic the past two weeks.

"I hit that shot of mine on No. 10 about 20 feet; and I was swinging as hard as I could. You just have to stay out of it to win."

Jack Nicklaus, winner of 14 major tournaments and who figures to be a factor in this one, called the rough "the most uniform and difficult I've seen in an Open in a number of years. You cannot drive the ball off the fairway and expect to make a good shot from there."

Tom Watson, the 1977 Player of the Year and the current top money-winner, said the rough is "unmerciful. If you get in there, you really can't play."

Ben Crenshaw added that "if you get in the rough, it'll just cost a shot, that's all."

Because of that danger and the narrow fairways, the players frequently have chosen irons off the tee during practice rounds this week. With Cherry Hills' 7,083-yard length made shorter by the thin air at Denver's mile-high altitude, it made no sense to sacrifice direction for distance off the tee.

Nicklaus said he pulled out his driver only five times during his practice round Tuesday, and said he doubted he would use it that much during the tournament.

"There's no reason to," he said. "This course is playing very short."

Cherry Hills, which is hosting its third Open, has undergone some alterations since Arnold Palmer began his meteoric rise to the top of the golfing world with a final-round 65 to charge from 7 strokes back and win the event in 1960.

The course has been lengthened somewhat, and 12 sand traps have been added. The major change occurred at No. 1 — once a 346-yard straightaway hole on which Palmer drove the green en route to his 65. But it's a 399-yard dogleg-left hole now.

Palmer has returned, thanks to a special exemption granted him by the U.S. Golf Association, and his fabled army of followers remains loyal. Although a sentimental favorite, he can't be considered one of the top choices to win this week. After all, he last captured a major title in 1964 and last won in this country in 1973.

Instead, the favorites include Bean, Nicklaus, Watson, defending champion Hubert Green, two-time winner Lee Trevino, 1974 titlist Hale Irwin and 1965 champion Gary Player.

The games of Green, Trevino and Irwin seem especially suited for this event. All are accurate strikers of the ball, possess strong competitive streaks and are currently playing well. The tournament is something of a homecomeing for Irwin, who grew up in nearby Boulder, starred at football and golf at the University of Colorado, and played here often as an amateur.

Player, who says he wants to win this tournament more than any other in the world, won three consecutive tournaments, including the Masters, earlier this year.

Other possibilities are European sensation Severiano Ballesteros, always-dangerous Tom Weiskopf, PGA champion Lanny Wadkins and former Open winners Jerry Pate and Lou Graham.

The par-71 course features several short par 4s among the first seven holes, but toughens considerably from thhe eighth hole to the finish. Trevino calls those final 11 holes "the toughest you'll ever want to see."

Temperatures have climbed into the 90s during practice rounds, but it is expected to cool off somewhat for Thursday's opening round. However, a chance of thunderstorms, accompanied by strong, gusty winds also is predicted for Thursday.

Dick Stockton

SPORTS IN BRIEF

Stockton, Smith, Ashe lose

BIRMINGHAM, England — Five seeded American entries lost first-round matches in the $125,000 John Player Grand Prix Tennis Tournament.

Dick Stockton, the No. 5 seed, lost to South African Bernie Mitton 6-2, 5-7, 6-2. Stan Smith, seeded 10th, lost 2-6, 9-8, 6-4, to Egypt's Ismael El Shafei; No. 12 seed Arthur Ashe was routed 6-1, 6-3 by Brian Fairlie of New Zealand; Bob Lutz, seeded No. 14, fell 6-0, 6-4, to Dave Carter of Australia; and Jeff Borowiak, the 15th seed, was beaten 6-4, 6-2 by Victor Pecci of Paraguay.

Roscoe Tanner was an American winner, beating Britain's Rohun Beven 6-1, 6-4.

BRUSSELS, Belgium — Italy's Adriano Panatta beat Francois Jauffret of France 6-2, 6-4 in the Belgian International Tennis Championship.

West Germany's Karl Meiler, seeded No. 2, had to retire with a sprained shoulder after losing the first set 6-4 to France's Eric Deblicker. And Hans Gildermeister of Chile, the third seed, was stunned 7-5, 6-1 by Louk Sanders of The Netherlands.

Panatta's countryman, Paolo Bertolucci, defeated Australia's Paul McNamee 6-7, 6-4, 6-2.

In other second-round play, Javier Soler of Spain beat Yvan Molina of Colombia 6-7, 7-6, 6-4; Ricardo Cano of Argentina defeated Adolf Maurer of West Germany 7-6, 6-1; Jurgen Fassbender of West Germany beat Nikki Spear of Yugoslavia 6-2, 6-4; and Rick Fagel of the United States beat Belgium's Thierry Stevaux 7-5, 7-6.

Thompson back on NBA stars

CORONADO, Calif. — Guard David Thompson of the Denver Nuggets was the only repeater on the National Basketball Association's 1977-78 All-Star team.

Thompson was joined on the first team by guard George Gervin of San Antonio, center Bill Walton of Portland and forwards Truck Robinson of New Orleans and Julius Erving of Philadelphia.

The second team consisted of rookie Walter Davis of Phoenix and Maurice Lucas of Portland at forward, Kareem Abdul-Jabbar of Los Angeles at center and Paul Westphal of Phoenix and Pete Maravich of New Orleans at guard.

Walton was the leading votegetter in the balloting with 121 points.

Americans top sprinters

FLORENCE, Italy — Americans Steve Riddick and Maxie Parks led sprinters in the 100and 400-meter events in a U.S.dominated international track and field meet.

Jose Marajo of France scored an upset in the 800-meter run and Pietro Mennea of the host country won the 200-meter event. Holland's world record holder Jos Hermans held off a stiff challenge to win the 5,000meter event and countryman Ruud Wielart won the high jump.

Americans Al Feuerbach, Mac Wilkins and James Butts also were winners.

HORSE RACING

BALTIMORE — Betwixt, $5, won the $8,000 Bonzo Purse at Pimlico by a length over Sea Defier.

CHICAGO — Ole Rumor, $14.40, won by three lengths over Miss Mars in the $8,800 Gainsboro Girl Purse at Arlington Park.

M-Cubs face Gold Sox after 5-2 loss at SA

Midland's Cubs return to Cubs Stadium at 7:30 p.m. today to open a five-game series with the Amarillo Gold Sox after the San Antonio Dodgers took the odd game of their series at the Mission City Tuesday night, 5-2.

The win gave the Dodgers the series three games to two, dousing cold water on the Cubs' hopes of catching

SPORTS

the West Division Texas League leaders in the stretch run of the first half race.

Jack Ledbetter will take the mound for Midland tonight against Amarillo. Ledbetter is 2-3 for the season.

Midland took a 2-0 lead into the seventh inning of Tuesday's game when the roof caved in. Randy Martz, seeking his first win over the Dodgers after three losses, had a three-hitter going when Kelly Snider hit a one out single to touch off a game-tying two-run rally. Charles Meyers grounded into a force at second and Bobby Mitchell followed with a single to center. Mark Bradley then looped a fly ball down the right field line and it rolled into the corner for a two-run double.

SAN ANTONIO then broke loose for three runs off reliefer Tom Butler to win it in the eighth. Hilario Soriano singled to center and Jack Perconte singled to left. Alex Taveras grounded into a force play at third, but Mickey Hatcher drilled a triple into the left-center power alley, a blow which scored two runs and chased Butler for lefthander Larry Groover.

Groover whiffed Snider, but then Meyers singled to right to plate Hatcher.

Midland scored in the fourth when Jimmy Buckner rifled a triple into right and scored on Mike Gatlin's grounder to second.

Midland scored again in the fifth when Kurt Seibert tripled to the wall in right and scored on Steve Macko's single.

The Cubs left two on in the sixth and threatened again with two-out in the eighth in chasing starter Rick Nitz. Joe Hernandez walked and Rosinski walked to bring in Mike Williams. Williams got Aaron Randall for the third out on a grounder to first and picked up the win while facing just one batter. Dave Patterson came on in the ninth to preserve the win and pick up his 15th save.

BRUIN BREWIN'S— General Manager Bill Rigney, Jr., has several promotions on tap for the Gold Sox series with Ladies Night Thursday, two Bit Beer Night Friday, First National Bank Night Saturday and Father's Day Sunday. All the games start at 7:30 p.m. except Sunday's game, which has a 6:30 p.m. start.

Angry Veeck may pull Sox out of Chicago

CHICAGO (AP) — Bill Veeck, president of the Chicago White Sox, is angry. Angry enough to threaten to move the White Sox out of Chicago.

"I've had it up to here," said Veeck, pointing to his throat. "It just isn't fair."

Veeck's complaint is that his White Sox are not getting what he considers their fair share of coverage in local newspapers.

"We win a game 1-0 against Cleveland last (Monday) night and you have to turn to page three and read aboit it," Veeck said Tuesday night. "The Cubs win a game in which Ken Holtzman gives up two runs and they're the ones who get all the play. If Holtzman had pitched for us and given up two runs, he'd have lost the game."

Veeck insisted that he has tabulations that reveal the Cubs received twice as much coverage as the White Sox last season when both clubs were in first place.

"We were still in first place when they fell out, but who got the coverage?" said Veeck. "They did. I realize that most of the circulation is on the North Side and I'm not asking for a 50-50 break. I'll take 40-60. But what do we get? We get 2575."

Veeck fought long and hard to gain control of the White Sox two years ago to keep the team in Chicago and from moving to Seattle. He succeeded and a bad club compounded by bad weather that amounted to a bad gate nearly wiped him out.

The team did better last year and Veeck had high hopes this season. The Sox, however, got off to a bad start and as late as May 27 were 12½ games out of first place and on the bottom of the American League West. Suddenly, they have won 15 of their last 17 games and are only 3½ games off the pace.

"When we were losing, they were calling us the worst team in baseball," said Veeck.

Texas League Standings

For right price, Rod's available

By RICHARD ROSENBLATT
AP Sports Writer

If the price is right, any of six American League teams will soon find itself with one of baseball's premier hitters.

Minnesota Twins President Calvin Griffith is the auctioneer and six-time AL batting champion Rod Carew is the merchandise up for sale — until midnight Thursday.

Here are Griffith's ground rules: "We're not going to give him away. We need a first baseman and pitcher and more, the 6-year-old president said Tuesday. "If we come up with the right names, okay. If not, there's another 12 teams in the National League we can talk to this winter. I don't have to make a trade. Carew's obligated to the Twins through 1979."

Carew is in the last year of a three-year contract that pays him about $190,000 annually and has an option year in 1979. Last week, Carew rejected a fiveyear, $2 million offer from Griffith.

Carew, the AL's Most Valuable Player in 1977, has stated that he would play for the New York Yankees, Kansas City Royals, Boston Red Sox, California Angels and the Texas Rangers.

Four clubs — the Yankees, Royals, Rangers and a team not on Carew's list — have expressed interest in the 32-yearold first baseman, but Griffith said none of the offers are good enough for "what we have to have." The Angels and Red Sox have not submitted bids.

"I'll sit down with Gene Mauch (Twins manager) on Wednesday and show him what's been submitted. If there is a deal, it won't be made until Thursday," The New York Times quoted Griffith as saying Tuesday night.

"The price they are asking seems outlandish," said Al Rosen, president of the Yankees. "I don't think anyone will go for it."

The Yankees, along with the Rangers, have freely spent their money in the past. But big money won't be part of the Carew deal because of Baseball Commissioner Bowie Kuhn's ceiling of $400,000 on any trade.

Mauch, who would hate to lose Carew, said, "Mr. Griffith would have to make a sensational deal to give up Carew. He's just asking too much."

Carew, an 11-year veteran with veto power over any trade, wants to see all the speculation end so he can get back to what he does best.

"I'm getting a little tired of it — with all this going on I just can't concentrate. I don't really care what happens at this point. "If I have to go, I'll go. There won't be any bitterness."

Out of the mists like Dracula

TED BATTLES BATTLE SCENE

IF BASEBALL had any sense for the dramatic, he wouldn't have come striding out of the bullpen to the mound.

He'd appear, magically, out of a mist surrounding the mound, weed-shrouded, and a black sparrow would flutter into the night when he brushed debris from his left shoulder.

After all, Ken Holtzman was literally returning from the walking dead after two years in the Yankees masoleum, referred to by less confined residents as the dugout. And it was before a prime time national TV audience Monday night tuned in to ohh and awe at the havoc wrought by destructive Cincinnati bats.

Holtzman not only was returning from a not-quite-clear exile, but he came back in a game-on-the-line situation and with the team he began with 13 years ago.

And the Cubs hope he may be the answer to their long quest for a lefthanded starter, the kind the Cubs haven't had since Holtzman was dealt to the Oakland A's following the 1971 season for Rick Monday.

After pitching on four Oakland division winners and three World Champions, seasons in which his victory total ranged from 18 to 21, Holtzman locked horns with A's owner Charles O. Finley over salary and was dealt off in a huff to Baltimore at the start of the 1976 season along with Reggie Jackson. Ken reported to his new club still unsigned.

THE ORIOLES didn't have any better luck getting Ken to "ink his pact" than Charlie had, so after compiling a 5-3 record with the Birds, Holtzman and Doyle Alexander, another Orioles pitcher who had balked at signing, were dealt to the Yankees June 15.

Ken was 9-8 the rest of the year, but was relegated to Manager Billy Martin's doghouse after signing a three-year contract and has languished there the last season and a half.

Last year, Holtzman got into just 18 games while compiling a 2-3 record. The pitcher who averaged over 250 innings a season previously, managed just 72 innings. Things weren't any better this year.

Holtzman left the Yankees with a 1-0 record, logging 18 innings in five games on a staff so rich in talent that it could afford to let a Mike Torrez get away last winter and let a Holtzman rust on the bench.

The Yankees will never miss him, but Holtzman may be the answer to a prayer for the Cubs, if he pitches as he did in his first tour of duty in Chicago or as he did with Oakland when he was 4-0 in three World Series, including a five-hit shutout and a three-hit 11-inning win.

He might just be the kind of arm to keep the Cubs from wilting in the August heat as they did a year ago when relief ace Bruce Sutter went into drydock for what amounted to six weeks.

HOLTZMAN BROKE in with Chicago and was 11-16 as a rookie while working toward his degree in business administration at the University of Illinois. The next season he pitched only on weekend passes while fulfilling his military obligation, but what weekends. Ken was 9-0 that year.

Holtzman seemed programmed for a long and productive career with Chicago and was a mainstay with Fergie Jenkins on the 1969 club that had the pennant wrapped up with a nine-game lead in August only to blow it to the Miracle Mets in September. He was still effective in 1970 as the Cubs again contended and in 1971 he pitched his second no-hitter for the Cubs, but finished 9-15 as the Cubs went-over-the-hill.

Disenchantment became mutual as the Chicago front office began to break up the aging contenders of two years before, a collapse the Cubs never really lived down or forgot.

Ken was one of those who signified that he wanted out, and as has been Chicago's policy, they were quick to accommodate a dissatisfied employ.

There were rumors that Ken would like to return to Chicago as long ago as the spring of 1977, but it didn't become fact until Woody Fryman failed to fill the lefthander void for Chicago this spring.

THE CUBS just hope it works out as well as the last time they did mid-season business with the Yankees. Although he was the ace of the staff at 10-5, Yankees president Larry MacPahil became dissatisfied with Hank Borowy and traded him to Chicago in late July. Borowy was 11-2 for Chicago, thus becoming the first pitcher to become a 20-game winner while pitching in both leagues during the same season.

That was in 1945, the last time Chicago won a National League pennant.
